

August 1, 2006

Dear Members of Congress:

The United States has made great strides by relying on science to inform our decision making. Science helped us travel to the moon; advance medicine and health; and understand the complex web of life on land and in rivers, lakes, and oceans. Science has also opened our eyes to the workings of forests and provided blueprints for federal plans to better protect the abundant natural resources of our public lands.

When we, as scientists, see policies being developed that run counter to the lessons of science, we feel compelled to speak up. Proposed post-disturbance legislation (specifically the Forest Emergency Recovery and Research Act [HR 4200] and the related Forests for Future Generations Act [S. 2079]), crafted as a response to recent fires and other disturbances, is misguided because it distorts or ignores recent scientific advances. Under the labels of “recovery” and “restoration,” these bills would speed logging and replanting after natural disturbances.

Although logging and replanting may seem like a reasonable way to clean up and restore forests after disturbances like wildland fires, such activity would actually slow the natural recovery of forests and of streams and creatures within them. Many scientist-reviewed studies and syntheses (please see the selected citations appended to this letter) have recently come to this conclusion. For example, no substantive evidence supports the idea that fire-adapted forests might be improved by logging after a fire. In fact, many carefully conducted studies have concluded just the opposite. Most plants and animals in these forests are adapted to periodic fires and other natural disturbances. They have a remarkable way of recovering—literally rising from the ashes—because they have evolved with and even depend upon fire.

We are concerned that HR 4200 and S. 2079 will bind us to land management practices that, perhaps logical in the past, are no longer tenable in the light of recent scientific understanding. Specifically, post-disturbance logging impedes regeneration of forest landscapes when it compacts soils, removes or destroys so-called biological legacies (such as soil organic material, seeds in the soil, large standing and downed trees), damages riparian corridors, introduces or spreads invasive species, causes erosion, delivers sediment to streams from logging roads and steep slopes, degrades water quality, and damages populations of many aquatic species. In testimony before the House Subcommittee on Resources (November 10, 2005), eminent forest ecologist and University of Washington Professor Jerry Franklin noted that logging dead trees often has greater negative impacts than logging of live trees. He concluded that “*timber salvage is most appropriately viewed as a ‘tax’ on ecological recovery.*”

Beyond those concerns, post-disturbance logging often intensifies the potential severity of future fires by concentrating the slash from logging at or near the ground. Rather than leaving plant material standing—and providing perching, nesting, and feeding sites for wildlife—such logging abruptly moves the material to the ground. Most of this material would naturally fall to the ground, adding important supplies of nutrients and energy to the forest floor and structure in the form of woody debris to stream channels. But this naturally happens over decades, not in the

relatively short time associated with a logging operation. Advocates of post-disturbance logging may argue that this slash can be disposed of with controlled burns and other treatments. Yet such treatments can severely damage underlying soils, imposing other taxes on natural recovery.

One additional tax concerns us. Postfire logging taxes the public treasury. Recent analysis of postfire logging operations after Oregon's Biscuit fire of 2002 shows that costs of the logging operations exceeded revenue by about \$14 million for logging that removed more than 53 million board feet of timber (DellaSala et al. 2006).

Science provides the best insight into the real consequences of our policies and actions. Ironically, this legislation is crafted to ignore the science by waiving environmental reviews, reviews that would make use of the scientific knowledge often available only because of expenditures of public funds. Failure to conduct full environmental reviews informed by that science will inevitably lead to ecological and economic harm from post-disturbance logging.

In short, neither ecological benefits nor economic efficiency result from post-disturbance logging. We therefore urge you to defeat these legislative efforts because they will set back forest recovery. We urge you to work with your fellow lawmakers to craft legislation that will rely on the most up-to-date scientific knowledge to protect the natural resources of the nation's public lands.

Sincerely,\*

Manager of Conservation Programs  
Center for Plant Conservation  
Missouri Botanical Garden  
St. Louis, Missouri

David W. Roberts, Ph.D.  
Professor and Head  
Department of Ecology  
Montana State University  
Bozeman, Montana

Oscar J. Rocha  
Assistant Professor, Biological Sciences  
Kent State University  
Kent, Ohio

Carlton L. Rockett, Ph.D.  
Professor, Biological Sciences  
Bowling Green State University  
Bowling Green, Ohio

Gary W. Roemer, Ph.D.  
Assistant Professor  
Department of Fishery and Wildlife Sciences  
New Mexico State University  
Las Cruces, New Mexico

William Rogers, Ph.D.  
Professor of Biology  
Winthrop University  
Rock Hill, South Carolina

Sievert Rohwer, Ph.D.  
Curator of Birds  
Burke Museum  
University of Washington  
Seattle, Washington

Thomas P. Rooney, Ph.D.  
Forest Ecologist  
Department of Botany  
University of Wisconsin  
Madison, Wisconsin

Stephen T. Ross, Ph.D.  
Eco-Consulting Services, LLC  
Pagosa Springs, Colorado  
Curator Emeritus of Fishes  
Museum of Southwestern Biology  
University of New Mexico  
Albuquerque, New Mexico

Peter Reagel  
Ph.D. Student  
Department of Entomology  
University of Illinois  
Urbana-Champaign

John T. Rotenberry, Ph.D.  
Professor, Biology  
University of California  
Riverside, California

Steve Rothenberger, Ph.D.  
Professor, Biology  
University of Nebraska at Kearney  
Kearney, Nebraska

Betsie B. Rothermel, Ph.D.  
Assistant Research Scientist  
University of Georgia  
Aiken, South Carolina

Stephen I. Rothstein, Ph.D.  
Professor of Zoology  
Department of Ecology, Evolution and  
Marine Biology  
University of California, Santa Barbara  
Santa Barbara, California

Leanne H. Roulson, M.S.  
Fisheries Biologist  
Bozeman, Montana

Barbara A. ("Bitty") Roy, Ph.D.  
Associate Professor, Ecology  
University of Oregon  
Eugene, Oregon

Suzanne M. Royer, Ph.D.  
Senior Research Associate  
Department of Biology  
Colorado State University  
Fort Collins, Colorado

Matthew Rubino  
Conservation Biologist/GIS Analyst  
SE-GAP/Biodiversity and  
Spatial Information Center  
Department of Zoology  
North Carolina State University  
Raleigh, North Carolina

Deborah D. Rudis  
Wildlife Biologist  
US Fish and Wildlife Service  
Juneau, Alaska

Cristina Rumbaitis del Rio, Ph.D.  
Research Fellow  
Columbia University Earth Institute  
New York, New York

James Runkle, Ph.D.  
Professor, Biological Sciences  
Wright State University  
Dayton, Ohio

Sam Rushforth, Ph.D.  
Professional Ecologist and  
Dean of Science and Health  
Utah Valley State College  
Orem, Utah

James R. Ruzycki, Ph.D.  
Adjunct Professor, Fisheries and Wildlife  
Oregon State University  
Corvallis, Oregon

Emily Saarinen  
Ph.D. Candidate  
Department of Entomology and Nematology  
University of Florida  
Gainesville, Florida  
Thalia Sachtleben, M.S.  
Managing Editor, *The Condor*  
High Desert Ecological Research Institute  
Bend, Oregon

Carl Safina, Ph.D.  
President  
Blue Ocean Institute  
Cold Spring Harbor, New York

D. Scott Samuels, Ph.D.  
Associate Professor, Biology  
University of Montana  
Missoula, Montana

Sahotra Sarkar, Ph.D.  
Professor of Integrative Biology  
University of Texas  
Austin, Texas

Raymond A. Saumure, Ph.D.  
Wildlife Biologist  
The Springs Preserve  
Las Vegas, Nevada

N. Elizabeth Saunders, M.S.  
Department of Plant Biology  
Southern Illinois University  
Carbondale, Illinois

Melissa Savage, Ph.D.  
Emerita Associate Professor, Geography  
University of California, Los Angeles  
Los Angeles, California

John F. Schalles, Ph.D.  
Professor of Biology  
Director of the Environmental Science Program  
Creighton University  
Omaha, Nebraska

Tracy Scheinkman, M.S.  
Genetics (specialty Wildlife Conservation)  
Adjunct Professor, Biology  
Pima Community College  
Tucson, Arizona

Joseph R. Schiller, Ph.D.  
Aquatic Ecologist  
Austin Peay State University  
Clarksville, Tennessee

Andrew Schnabel, Ph.D.  
Associate Professor, Evolution and Ecology  
Indiana University South Bend  
South Bend, Indiana

Tania Schoennagel, Ph.D.  
Fire Scientist  
University of Colorado  
Boulder, Colorado

Robert L. Schooley, Ph.D.  
Assistant Professor  
Natural Resources and Environmental Sciences  
University of Illinois  
Urbana, Illinois

Krysten L. Schuler  
Ph.D. Candidate  
Department of Wildlife and Fisheries Sciences  
South Dakota State University  
Brookings, South Dakota

Bronwyn Scott, M.S.  
Invasive Species Ecologist  
Ph.D. student, University of Washington  
Adjunct Life Science Faculty, Bellevue  
Community College  
Bellevue, Washington

Tim Seastedt, Ph.D.  
Professor of Ecology and Evolutionary Biology  
University of Colorado  
Boulder, Colorado

Jack A. Seilheimer, Ph.D.  
Professor of Biology (Limnologist)  
Colorado State University-Pueblo  
Pueblo, Colorado

Holmes Semken, Ph.D.  
Department of Geoscience  
University of Iowa  
Iowa City, Iowa

Tara Seoane  
M.S. Candidate  
Biodiversity, Conservation, and Policy  
SUNY University at Albany  
Albany, New York

Bonita Shanafelt  
Support Scientist  
Forest Service, PNW Research Station  
Wenatchee, Washington

Ruth G. Shaw, Ph.D.  
Evolutionary geneticist  
Professor  
Ecology, Evolution, and Behavior  
University of Minnesota  
St. Paul, Minnesota

Kathleen L. Shea, Ph.D.  
Professor of Biology  
St. Olaf College  
Northfield, Minnesota

Dennis K. Shiozawa  
Aquatic Ecologist  
Department of Integrative Biology  
Brigham Young University  
Provo, Utah

Brian R. Shmaefsky, Ph.D.  
Professor of Biology and  
Service Learning Coordinator  
Kingwood College  
Kingwood, Texas

George Sideris, Ph.D.  
Biology Department  
Long Island University  
Brooklyn, New York

Barbara A. Siems  
Ecologist, geologist  
Retired University of Colorado Instructor

Miles R. Silman, Ph.D.  
Forest Ecologist  
Associate Professor, Biology  
Wake Forest University  
Winston-Salem, North Carolina

Tony Silvaggio, Ph.D.  
Environmental Sociology  
Department of Sociology  
Humboldt State University  
Arcata, California

Rebecca Simmons, Ph.D.  
Assistant Professor  
Department of Biology  
University of North Dakota  
Grand Forks, North Dakota

Jack W. Sites, Jr.  
Maeser Professor of Integrative Biology  
Curator of Herpetology  
Brigham Young University  
Provo, Utah

Kathy Skalbeck  
Wildlife Biologist  
Member of The Wildlife Society  
Albuquerque, New Mexico

Carol Skinner, Ph.D.  
Department of Biology  
Edinboro University (Retired)  
Consulting Scientist, Ecology, Ornithology;  
Geauga Park District; Holden Arboretum  
Chesterland, Ohio

Diane E. Sklensky, Ph.D.  
Professor, Biological Sciences  
Le Moyne College  
Syracuse, New York

Ph.D. Student, Environmental Sciences  
Wright State University  
Dayton, Ohio

Sherilyn G. F. Smith, Ph.D.  
Associate Professor, Biological Sciences  
Le Moyne College  
Syracuse, New York

Erica Smithwick, Ph.D.  
Ecosystem Ecologist/Fire Scientist  
University of Wisconsin  
Madison, Wisconsin

Paul Sneed, Ph.D.  
Environmental Studies Core Faculty,  
Graduate Programs  
Prescott College  
Prescott, Arizona

Anthony Snider, Ph.D.  
North Carolina Coastal Reserve  
UNCW Center for Marine Science  
Wilmington, North Carolina

Eric B. Snyder, Ph.D.  
Stream Ecologist  
Assistant Professor, Biology  
Grand Valley State University  
Allendale, Michigan

Tex A. Sordahl, Ph.D.  
Professor of Biology  
Luther College  
Decorah, Iowa

Candan Soykan  
Graduate Student  
School of Life Sciences  
Arizona State University  
Tempe, Arizona

John Sovell, M.S.  
Zoology Team Leader and Invertebrate  
Zoologist, Colorado Natural Heritage Program  
College of Natural Resources  
Colorado State University  
Fort Collins, Colorado

Wayne D. Spencer, Ph.D.  
Senior Conservation Biologist  
Conservation Biology Institute  
San Diego, California

Timothy P. Spira, Ph.D.  
Plant Ecologist  
Professor, Biological Sciences  
Clemson University  
Clemson, South Carolina

Stephen M. Spomer  
Research Associate  
Department of Entomology  
University of Nebraska  
Lincoln, Nebraska

James R. Spotila, Ph.D.  
Betz Chair Professor of Environmental Science  
Department of Bioscience and Biotechnology  
Drexel University  
Philadelphia, Pennsylvania

Peter B. Stacey, Ph.D.  
Research Professor  
Department of Biology  
University of New Mexico  
Albuquerque, New Mexico

Nathaniel Stafford  
Ph.D. Candidate  
Seagrass Gap Dynamics  
University of South Florida  
Tampa, Florida

Richard Steiner, Ph.D.  
Professor  
University of Alaska  
Anchorage, Alaska.

Susan Stephens  
Graduate Student, Environmental  
Geography/Water Resource Management  
University of New Mexico  
Albuquerque, New Mexico

Robert Stiles, Ph.D.  
Ichthyologist  
Department of Biology  
Samford University  
Birmingham, Alabama

Glenn R. Stewart, Ph.D.  
Professor Emeritus  
Zoology and Environmental Science  
Biological Sciences Department  
California State Polytechnic University, Pomona  
Pomona, California

Paul M. Stewart, Ph.D.  
Professor of Environmental Sciences  
Troy University  
Troy, Alabama

Lacey Stokes  
M.S. Candidate  
Department of Forestry and Agriculture  
Nacogdoches, Texas

Richard Strathmann, Ph.D.  
Friday Harbor Laboratories  
Friday Harbor, Washington

Lori J. Stratton  
Environmental Toxicologist, Plant Physiologist,  
Former employee of the U.S. Forest Service  
Aiken Research Station  
Burlington, Vermont

James R. Strittholt, Ph.D.  
Executive Director, Landscape Ecologist  
Conservation Biology Institute  
Corvallis, Oregon

Matthew Struckhoff  
Ecologist  
U.S. Geological Survey  
Columbia, Missouri

Mel Sunquist, Ph.D.  
Professor, Wildlife Ecology and Conservation  
University of Florida  
Gainesville, Florida
