Data Request Response

Request No.: UG 490 Coalition DR 60

For the Test Year, please state the portion of NW Natural's revenue requirement attributable to customer Line Extension Allowances, as amended in its recent supplemental testimony? NW Natural / 2000.

Response:

The customer line extension allowances, as amended in NW Natural/2000, in the Test Year increases the revenue requirement attributable to residential customers by \$419,000.

B. NW NATURAL’S NEW POLICY IS TOO NARROW AND DOES NOT PROVIDE SUFFICIENT TRANSPARENCY TO ENSURE COMPLIANCE WITH LOBBYING RESTRICTIONS61

C. NW NATURAL SEEKS RECOVERY FROM RATEPAYERS FOR ITS LOBBYING EXPENSES66

VI. THE COMMISSION SHOULD DENY RECOVERY FOR TRADE AND BUSINESS ASSOCIATION FEES AND DUES.....69

VII. ADDITIONAL REPORTING IS REQUIRED TO PROTECT RATEPAYERS, JUST AS OTHER JURISDICTIONS HAVE DONE.....83

I. INTRODUCTION AND SUMMARY

1 **Q. Ms. Apter, please state your name and position.**

2 A. My name is Nora Apter. I am the Director of Programs for the Oregon Environmental
3 Council (OEC). My responsibilities include directing OEC on policy analysis and development of
4 legislative proposals and administrative rules to advance greenhouse gas (GHG) emissions
5 reductions, affordability, resilience, and public health benefits for Oregon communities, and
6 managing a broad coalition of labor, business, youth, climate, public health, and environmental
7 justice partners with the mission of advancing emissions reductions, economic vitality, and
8 equitable outcomes in Oregon. As part of my role, I maintain collaborative working relationships
9 with Oregon state legislators, congressional representatives, and state agency officials, and serve
10 as a formal member of various state agency Rulemaking Advisory Committees. I have more than
11 a decade of experience in environmental policy and have advocated for meaningful climate and
12 clean energy across state, federal, and local government.

13 I also serve as a Commissioner and voting member of the Oregon Climate Action
14 Commission. In this role, I help develop recommendations for statutory and administrative
15 changes to be carried out by state and local governments, businesses, and nonprofit organizations
16 to achieve the State's emissions reduction goals.

17 I am also a NW Natural customer.

18 **Q. Please describe your education and employment background.**

19 A. Please see my witness statement and resume attached as Exhibits Coalition/201-02. I am
20 not a lawyer. My references to the law below are meant to provide context only.

1 **Q. Ms. Connolly, please state your name and position.**

2 A. My name is Meredith Connolly. I am the Oregon Director of Climate Solutions, an
3 organization whose mission is to accelerate clean energy solutions to the climate crisis. Climate
4 Solutions champions transformational policies and market-based innovations, catalyzes
5 partnerships and a diverse movement for action and accountability, and communicates a bold
6 vision for solutions at the scale required by climate science. I have over a decade of climate policy
7 experience and have advocated for innovative and equitable policy solutions to reduce pollution
8 and create clean energy jobs across the state. As part of my role, I work with Oregon state
9 legislators, congressional representatives, and state agency officials, and serve as a formal member
10 of state agency Rulemaking Advisory Committees. Prior to joining Climate Solutions, I worked as
11 a Climate and Energy Attorney for the Natural Resources Defense Council.

12 I am also a NW Natural customer.

13 **Q. Please describe your education and employment background.**

14 A. Please see my witness statement and resume attached as Exhibits Coalition/203-04. I have
15 a law degree, have previously practiced law, and am currently an active member of the Oregon
16 State Bar. However, I am not currently practicing law in Oregon. Accordingly, any references to
17 the law I offer below are provided for context only.

18 **Q. Are you jointly sponsoring this Opening Testimony?**

19 A. Yes. We are jointly sponsoring all sections of this testimony.

20 **Q. What is the purpose of your testimony?**

21 A. We will address six main topics in our testimony: (1) the climate context, including the
22 requirements of the Climate Protection Program (CPP), both previously-adopted and proposed, as
23 well as the expected increased housing production that should be built in a climate-friendly

1 manner, which supports rejecting NW Natural’s proposed line extension allowance policy and its
2 high Return on Equity request; (2) disallowance of anti-climate policy litigation costs; (3)
3 inappropriate advertising expenses charged to ratepayers; (4) improper characterization and
4 tracking of lobbying expenses charged to ratepayers; (5) membership and dues expenses that do
5 not benefit ratepayers, and, finally, (6) recommendations based on our reflections from
6 commissions and legislatures around the country which are passing (or contemplating) tougher
7 rules to prevent utilities from using ratepayer money for any, broadly defined, political activity.

8 **Q. Ms. Apter, have you previously testified before the Oregon Public Utility**
9 **Commission?**

10 A. Yes. I served as an expert witness on Oregon and federal climate policy, alternative fuels,
11 and the future of the natural gas industry in NW Natural’s last rate case (UG 435).

12 **Q. Ms. Connolly, did your organization participate in analyzing NW Natural’s 2022**
13 **Integrated Resource Plan (IRP)?**

14 A. Yes. Climate Solutions intervened in NW Natural’s 2022 IRP, along with the Green Energy
15 Institute of Lewis & Clark Law School, Columbia Riverkeeper, Community Energy Project,
16 Electrify Now, Metro Climate Action Team, Natural Resources Defense Council, and Sierra Club.

17 **Q. Have either of you participated in any other proceedings before the Oregon Public**
18 **Utility Commission?**

19 A. Yes. We have participated in and provided testimony in several Commission proceedings,
20 including weighing in on Commission’s proposed plans to implement Executive Order 20-04;
21 “Natural Gas Fact Finding” proceeding (UM 2178); Community Solar Program (UM 1930); HB
22 2021 implementation (UM 2225); and transportation electrification (UM 1811). We have also
23 provided testimony in the legislature on several Commission-related laws (both proposed and

1 adopted), including HB 2475, HB 2021 and HB 3141 (in the 2021 legislature) and HB 3152 (in
2 the 2023 legislature). Both of our organizations intervened in NW Natural's last rate case (UG
3 435).

4 **Q. To implement the state's climate policies, what rulemakings have you participated in?**

5 A. Both of us have participated in a variety of state rulemaking and other decision-making
6 processes related to climate policy, including Department of Environmental Quality (DEQ)
7 rulemakings to expand the Clean Fuels Program to accelerate transportation electrification and
8 strengthen the program's overall carbon intensity reduction targets, and to cap and reduce pollution
9 from fossil fuel suppliers and large stationary sources in Oregon through the CPP and the 2023
10 Climate Rulemaking.

11 Both of us are currently serving as formal members of DEQ's 2024 CPP Rulemaking
12 Advisory Committee (RAC).

13 **Q. What materials did you review in preparing this testimony?**

14 A. We have reviewed: relevant sections of NW Natural's Application for a General Rate
15 Revision, Coalition expert Bradley Cebulko's testimony, Coalition experts Charity Fain, Nikita
16 Daryanani, and Anahi Segovia Rodriguez's testimony, as well as documents referenced in our
17 testimony below.

18 **Q. Are you sponsoring any exhibits?**

19 A. Yes. We are sponsoring exhibits Coalition/201 through Coalition/251. All sponsored
20 exhibits are attached to this testimony.

21 **Q. What are your recommendations?**

22 A. We make the following recommendations:

1 **Section II** – Climate Protection Program: we point out the problems with NW Natural’s
2 decarbonization strategy considering the climate emergency, the State of Oregon’s climate goals,
3 Oregon’s housing needs, and the Commission’s response to the company’s 2022 IRP. We
4 recommend rejecting NW Natural’s proposed line extension allowance policy (and eliminating
5 such subsidies altogether), rejecting its proposed fixed fee, and rejecting its request for a 10.1%
6 Return on Equity.

7 **Section III** – Litigation Costs: NW Natural has not met its burden of demonstrating that
8 legal fees for Baker Botts and Snell & Wilmer are reasonable to recover from ratepayers, in light
9 of evidence showing that the Company hired these firms to oppose climate policies in Oregon and
10 Washington. Accordingly, we recommend that the Commission disallow \$701,290.23 in legal fees
11 for Baker Botts and Snell & Wilmer LLP from FERC Account 921.

12 **Section IV** – Advertising: We recommend that the Commission disallow \$390,641 from
13 NW Natural’s Category A and B advertising budgets, to deduct the improper inclusion of
14 promotional, institutional, political, and nonutility related advertising. We also recommend
15 disallowing \$115,307 in costs during the Base Year and Test Year for promotional concessions
16 expenditures that the company improperly charged to ratepayers. In total, we recommend
17 deducting \$505,948 from the revenue requirement for advertising and gas promotion costs.

18 **Section V** – Lobbying: We recommend the Commission disallow \$1,725,922 in
19 government affairs’ spending. NW Natural is charging ratepayers for improper lobbying and must
20 be deterred. The Commission previously corrected NW Natural for this improper behavior and the
21 company has not scrupulously complied with Commission directives.

22 **Section VI** – Association Dues and Memberships: We recommend a disallowance of
23 \$801,277 for membership fees and dues in groups that are engaged in political lobbying,

1 promotion, and marketing, and / or community affairs and economic development. These costs do
2 not benefit ratepayers.

3 **Section VII – Reporting:** We recommend the Commission require NW Natural to disclose
4 its spending more transparently as an effective method of disincentivizing the company from
5 spending on political activities that do not benefit customers.

6 **II. POLICY AND LEGISLATIVE CIRCUMSTANCES SUPPORT REJECTING NW**
7 **NATURAL’S LINE EXTENSION ALLOWANCE, FIXED FEE, AND ITS**
8 **REQUESTED 10.1% RETURN ON EQUITY**

9 **Q. How is this section of your testimony organized?**

10 A. We first discuss the CPP, adopted in 2021, and how it was invalidated. We next describe
11 the current CPP rulemaking process and the similar scope and stringency expected from that
12 process. We then summarize the Commission’s response to NW Natural’s 2022 IRP and how that
13 response should impact the Commission’s evaluation of NW Natural’s rate case, including the
14 company’s proposed line extension allowance policy and its request for a higher Return on Equity.
15 Finally, we describe Governor Tina Kotek’s focus on housing needs, and the legislature’s response
16 to the Governor’s priorities, and how NW Natural’s proposed LEA policy and proposed fixed rate
17 charges will hinder its ability to meet its required GHG emissions reduction targets and burden
18 new occupants with gas appliances and a higher fixed rate.

19 **Q. What was the CPP and how was it invalidated?**

20 A. The Department of Environmental Quality’s CPP established mandatory requirements for
21 Oregon’s gas utilities and other fossil fuel suppliers to reduce regulated GHG emissions 50%
22 below averaged 2017-2019 emissions by 2035, and 90% below averaged 2017-2019 emissions by
23 2050. The CPP also included an alternative compliance option for regulated fossil fuel suppliers
24 that would have generated investments to help reduce emissions from transportation and buildings,

1 prioritizing funding to support environmental justice communities in the clean energy transition.
2 Through this Community Climate Investment (CCI) program, a fuel supplier or fossil gas utility
3 would have been allowed to pay the third-party CCI administrator to invest in projects to reduce
4 emissions in Oregon communities—for example, replacing fossil gas appliances with electric heat
5 pumps in an apartment complex—instead of directly reducing some of their own climate pollution.¹

6 After fossil fuel suppliers, including NW Natural, challenged the CPP, the Oregon Court
7 of Appeals invalidated the program in December 2023 based on a procedural technicality.
8 Specifically, the Oregon Court of Appeals concluded that DEQ did not fully comply with notice
9 requirements during the initial CPP rulemaking.²

10 **Q. What was DEQ’s response to the Oregon Court of Appeals’ ruling?**

11 A. DEQ quickly initiated a rulemaking to “reestablish a climate mitigation program[.]”³ DEQ
12 has scheduled RAC meetings to take place in April, May and June of this year, with a Notice of
13 Proposed Rulemaking scheduled for late July and an Environmental Quality Commission vote
14 scheduled for November 2024.⁴ Just as in the original CPP, DEQ plans to set an enforceable and
15 declining cap on GHG emissions from fossil fuels used in Oregon, including natural gas. It
16 continues to prioritize equity by promoting benefits for environmental justice communities. It

⁴ *Id.* (See “RAC Meeting Plan”).

1 intends that the resulting 2024 CPP will provide “comparable scope and emissions reduction
2 ambitions as the previously adopted Climate Protection Program.”⁵

3 **Q. How did the CPP impact the Commission’s evaluation of NW Natural’s 2022 IRP?**

4 A. The Commission rejected NW Natural’s long-term portfolio analysis, which relied heavily
5 on alternative fuels and unproven energy efficiency technologies. The Commission commented on
6 the need for improvements in the company’s cost and risk modeling to give the agency
7 “confidence” in NW Natural’s strategy to comply with the CPP. Specifically, as it is relevant to
8 this proceeding, the Commission commented that “transparent evaluation is necessary for the
9 Commission and the stakeholder community to engage with urgency and creative thinking about
10 implications and corresponding regulatory changes to ensure that a financially healthy utility is
11 capable of providing safe and reliable gas service.”⁶ To put a finer point on it, the Commission
12 concluded that NW Natural had not properly reflected on the best combination of cost and risk for
13 the company’s customers. In addition, the Commission communicated unhappiness with the
14 company’s decision to “force[] selection of RNG up to the SB 98 targets” rather than pursuing the
15 least risky and most economical compliance pathway.⁷ In fact, the Commission concluded that
16 CCI is the least cost compliance option, and “will benefit Oregonians through utility rate
17 reductions and is more likely to create health and equity benefits in Oregon.”⁸ The Commission

⁶ *In the Matter of NW Natural Gas Co, 2022 Integrated Resource Plan, Docket No. LC 79, Order No. 23-281 at 8 (Aug. 2, 2023).*

⁷ *Id.* at 9, 11.

⁸ *Id.* at 30.

1 also expressed an expectation that companies “mitigate growth where they reasonably can avoid
2 distribution system capital investments.”⁹

3 **Q. Do you think changes to the CPP in this most recent rulemaking will impact how the
4 Commission evaluates IRPs for natural gas companies in the future?**

5 A. No. While the rules have yet to be finalized, as we described above, DEQ has strongly
6 indicated its intent to reestablish a program that will require natural gas utilities to reduce emissions
7 pursuant to a required cap, with comparable emissions reductions ambitions as the previously-
8 adopted program, and that will limit the alternative compliance mechanism to one that reduces
9 emissions while promoting benefits and alleviating burdens for environmental justice
10 communities. Given that the main components of the 2024 CPP rules will likely impose similar
11 compliance obligations to those required by the previous CPP,¹⁰ we expect that the Commission
12 will continue to question any plan that neglects to evaluate a range of options for complying with
13 the 2024 CPP, that does not properly consider the costs and risks of alternative fuels especially
14 when utilities continue to anticipate growth of the natural gas distribution system along historic
15 trends.

16 **Q. Given the Commission’s response to NW Natural’s 2022 IRP, do you have any
17 thoughts on NW Natural’s requested 10.1% Return on Equity (ROE)?**

18 A. NW Natural points, in part, to the “environmental policy focus in the Pacific Northwest for
19 gas utilities over the past two years,” which it reports “has increased the perceived risk of investing
20 in gas utilities and has led investors to seek higher returns to offset these risks.”¹¹ However, the

⁹ *Id.* at 14 (Aug. 2, 2023).

10 Or. Dept of Env’t Quality, “Climate Protection Program 2024,”
<https://www.oregon.gov/deq/rulemaking/Pages/Cpp2024.aspx> (last visited Apr. 10, 2024).

¹¹ NW Natural/100, Palfreyman-Kravitz/Page 19.

1 policies are not the problem. Rather it is the company’s failure to respond in a cost-effective
2 manner to the adoption of these climate policies—as the Commission recognized when it did not
3 acknowledge the company’s long-term action plan in its IRP. Specifically, in its 2022 IRP, NW
4 Natural forecasted continued demand throughout the planning period. Arguing for greater returns
5 due to a risk that the utility fails to incorporate into its planned capital investments is unreasonable.
6 The Coalition’s expert Mr. Cebulko describes this dissonance in more detail.

7 **Q. Do you have any thoughts on NW Natural’s description of CCIs as “roughly twice as**
8 **expensive as the most expensive emission allowances in the United States and Canada,”¹² and**
9 **its decision to use Washington Climate Commitment Act’s (CCA) allowance trading price as**
10 **the proxy CPP cost?**

11 A. Yes, we have a few observations. First, NW Natural compares two substantially different
12 tools in two different regulatory programs. In the original CPP, natural gas utilities received 100%
13 of their compliance instruments under the cap for *free* (and they will continue to be free in the
14 2024 program), whereas, in the Washington CCA, natural gas utilities receive only about one-third
15 of their compliance instruments for free (decreasing to *zero* for free by 2030), which they then
16 must sell in the market.¹³ The CCI, in contrast, was an alternative compliance mechanism, which
17 *permitted* (not required) the utility to meet some of its compliance obligations without needing
18 additional compliance instruments. Furthermore, in 2023, the price of CCIs adjusted for inflation
19 (\$123/CCI credit) was still significantly less than the federal social cost of carbon. The U.S.
20 Environmental Protection Agency recently updated the federal social cost of carbon used to capture

¹² NW Natural/2000, Kravitz-Therrien/Page 10-12.

¹³ Wash. Dept. of Ecology, “Allowance Allocation to Natural Gas Utilities for the First Compliance Period,” <https://apps.ecology.wa.gov/publications/documents/2302074.pdf> (last visited Apr. 12, 2024).

1 the benefits of mitigating climate change and the costs of not doing so. The federal economists
2 estimated the economic harm caused by GHG emissions to be \$190 per ton of carbon dioxide
3 emissions.¹⁴

4 **Q. Why do you think it is so important for Oregon, and NW Natural as an emitter, to**
5 **address greenhouse gas pollution?**

6 A. The Commission is well-aware of the impacts of climate change since erratic weather
7 patterns, flooding, coastal erosion, drought, coral bleaching, wildfires, heatwaves, hurricanes,
8 along with the words “unprecedented,” “record-breaking,” and “extreme,” scream from headlines
9 nearly daily. But it is not just the media. Experts, government officials, and scientists, armed with
10 statistics and scientific evidence, regularly warn that without urgent action across all sectors to
11 immediately reduce the fossil fuel emissions driving climate change, global temperatures are likely
12 to surpass 1.5 degrees Celsius within the next decade,¹⁵ all but assuring irreversible climate
13 impacts and devastation. According to a recent study by the National Oceanic and Atmospheric
14 Administration, emissions from methane—which results in 86 times the atmospheric warming
15 effects of carbon dioxide over a 20 year period—continued to increase dramatically in 2023.¹⁶

1 **Q. Please describe Governor Kotek’s directive to increase housing production in Oregon**
2 **and the legislature’s response to the Governor’s priorities.**

3 A. Governor Kotek set a housing production goal of 36,000 homes per year, appointed
4 members to a Housing Production Advisory Council, and is working with state agencies to reduce
5 homelessness in Oregon.¹⁷ The legislature responded by adopting a \$376 million package to
6 construct moderate-income housing and allowing cities to expand their urban growth boundaries.¹⁸

7 **Q. What does increased housing production in Oregon have to do with NW Natural’s**
8 **rate case?**

9 A. NW Natural appears to be aggressively targeting new construction to grow its business, to
10 the detriment of its existing (and future) ratepayers and the climate. Its line extension allowance
11 policy, which offers higher subsidies for buildings that will use fewer therms, provides generous
12 subsidies for new gas connections. Further, as discussed in Mr. Cebulko’s testimony, NW Natural
13 proposes an increase of the fixed rate charge, which is higher for new premises than for existing
14 premises. However, encouraging builders to connect homes to gas harms new occupants because
15 these new occupants will pay a much higher fixed charge. New homes and buildings that maintain
16 or expand our reliance on fossil gas will not only be detrimental to achieving our state’s climate
17 goals but will also threaten health and affordability by subjecting the people living in them to the
18 health-harms and price volatility that comes with gas. It is especially problematic for middle and

statement-on-passage-of-emergency-housing-stabilization-and-production-package-58003](https://apps.oregon.gov/oregon-newsroom/OR/GOV/Posts/Post/governor-kotek-issues-statement-on-passage-of-emergency-housing-stabilization-and-production-package-58003) (last
visited Apr. 11, 2024).

1 low-income families who may already experience energy burden. Finally, adding costly gas service
2 to new homes conflicts with the Governor’s mandate to provide affordable housing, while relying
3 on a potent GHG emitting fuel.

4 **Q. Based on the information you provided above, what are your recommendations for**
5 **the Commission?**

6 A. In light of the forthcoming 2024 CPP, which we expect to be comparable in scope and
7 stringency to the original CPP rules, we recommend remaining skeptical of NW Natural’s plan to
8 continue to expand fossil fuel infrastructure to the detriment of existing ratepayers and to meeting
9 Oregon’s climate goals. Indeed, NW Natural’s 2022 IRP illustrated how it is attempting to comply
10 with climate policies in risky and uneconomic ways to its benefit alone. A decision to force high-
11 cost renewable natural gas into its modeling and preferred compliance pathway, when more
12 economical compliance mechanisms were available, exemplifies the company’s approach to how
13 it is planning for a decarbonized future.

14 NW Natural has responded to climate policies by proposing to invest in the most expensive
15 decarbonization technology, then blame the policies for the need to attract capital—while earning
16 higher and higher profits. The Commission should firmly reject this approach. For these reasons,
17 and for the reasons expressed by Mr. Cebulko, we recommend that the Commission deny NW
18 Natural’s request for a higher ROE, reject NW Natural’s proposed subsidy for new customers in
19 its line extension allowance policy, eliminate such subsidies altogether, and reject the company’s
20 proposed fixed charge.

1 **III. NW NATURAL SHOULD NOT BE PERMITTED TO CHARGE RATEPAYERS FOR**
2 **ITS ANTI-CLIMATE POLICY LEGAL EXPENSES**

3 **Q. Please summarize your testimony regarding legal fees that NW Natural seeks to**
4 **recover from Oregon ratepayers?**

5 A. NW Natural is seeking recovery from Oregon ratepayers for legal fees from Baker Botts
6 LLP and Snell & Wilmer LLP. NW Natural hired these law firms to challenge and overturn the
7 CPP in the Court of Appeals, seeking to invalidate the regulations. NW Natural also hired Baker
8 Botts to challenge climate related policies in Washington including by filing litigation to overturn
9 the State of Washington's amendments to its building codes. Litigation to undermine climate
10 policies hurts ratepayers, and the Commission should deny recovery of these costs if NW Natural
11 is seeking them. Further, if it is doing so, NW Natural cannot charge Oregon ratepayers for legal
12 fees incurred to perform work in Washington. <<BEGIN CONFIDENTIAL>> [REDACTED]

13 [REDACTED]

14 [REDACTED]

15 <<END CONFIDENTIAL>>

16 **Q. What are your recommendations to the Commission regarding legal fees improperly**
17 **charged to Oregon Ratepayers?**

18 A. We recommend that the Commission deduct \$701,290.23 in legal fees from NW
19 Natural's test year budget for FERC Account 921, associated with NW Natural's litigation
20 expenses related to its lawsuits against the CPP and the Washington Building Code amendments.

21 <<BEGIN CONFIDENTIAL>> [REDACTED]

1

[REDACTED]

2

[REDACTED] <<END CONFIDENTIAL>>

3

A. NW NATURAL MAY HAVE BILLED RATEPAYERS FOR ITS LEGAL FEES
4 CHARGED BY BAKER BOTTS AND SNELL & WILMER.

4

5 **Q. What financial information is NW Natural required to disclose to the Commission**
6 **regarding its expenses?**

7 A. The Federal Energy Regulatory Commission (“FERC”) has created a Uniform System of

8 Accounts, and gas utilities with interstate operations are required to annually file their financial

9 statements with FERC consistent with this accounting system. By regulation, FERC determines

10 which accounts may be billed to ratepayers and which must be billed to shareholders. Oregon has

11 adopted FERC’s accounting system to regulate its public utilities and to set fair, just, and

12 reasonable rates.²⁰ As a regulated entity, NW Natural must disclose its transaction record for

13 costs billed to regulated accounts, for which it seeks reimbursement from ratepayers.

14 **Q. How does NW Natural recover legal fees associated with its business operation?**

15 A. NW Natural charged numerous invoices for its legal fees to FERC Account 921.²¹

16 **Q. Who pays for costs incurred to FERC Account 921?**

17 A. Oregon ratepayers are charged for invoices billed to FERC Account 921, because these

18 costs are considered part of the regulated utility’s administrative costs.²²

²⁰ OAR 860-027-0055(1).

²¹ Exhibit Coalition/226.1, NW Natural Response to Coalition DR 121, Attachment 1 (complete spreadsheet).

²² NW Natural/1401, Davilla/Page 1 (describing Base Year Costs for FERC Account 921); NW Natural/1402, Davilla/Page 1 (describing and seeking recovery for Test Year expenses for FERC Account 921).

1 **Q. What concerns do you have with the legal fees that NW Natural charged to FERC**
2 **Account 921?**

3 A. According to federal regulations, a utility must charge the following costs to FERC
4 Account 921: “office supplies and expenses incurred in connection with the general
5 administration of service company operations assignable to specific administrative or general
6 departments and not specifically provided for in other accounts.” 18 C.F.R. 367.9210(a). We do
7 not think that legal fees paid to hire outside law firms to oppose climate policies are “office
8 supplies and expenses.” These costs should not be billed to this account for general
9 administrative costs.

10 **Q. For each transaction billed to FERC Account 921, what information must a utility**
11 **provide?**

12 A. FERC regulations require that the company provide the following information: “Records
13 must be so maintained to permit ready analysis by item showing the nature of the expense and
14 identity of the person furnishing the service.”²³

15 **Q. For legal fees that NW Natural billed to FERC Account 921, what information did**
16 **the company provide for each expensed transaction?**

17 A. NW Natural provided the name of the law firm, the date of the invoice, and the amount of
18 the invoice. For each invoice, the company refused to provide specific information regarding the
19 nature of the representation, such as a description of the legal service provided.²⁴

²³ 18 C.F.R. § 367.9210(c).

²⁴ Exhibit Coalition/225, NW Natural Response to Coalition DR 121 (“The Company objects to providing and does not provide the requested itemized description of the legal services provided....”).

1 **Q. Of the legal fees billed to FERC Account 921, are there particular expenses that you**
2 **have concerns with?**

3 A. Yes. NW Natural billed invoices to FERC Account 921 from the following law firms:
4 Baker Botts LLP, and Snell & Wilmer LLP. Both these law firms represented NW Natural in its
5 litigation challenging the CPP. Baker Botts also represented NW Natural and several other
6 utilities in litigation to overturn amendments to the State of Washington's Building Code. We
7 discuss each of these lawsuits in turn below. Lastly, NW Natural hired Baker Botts to <<BEGIN
8 CONFIDENTIAL>> [REDACTED]
9 [REDACTED] <<END

10 CONFIDENTIAL>> NW Natural has provided a general description of services provided by
11 Baker Botts and Snell & Wilmer during the course of 2023.²⁶ However, for reasons described
12 below, this description falls short of the minimal requirements of federal accounting regulations,
13 meaning the company has failed to meet its burden of proof that would allow recovery of these
14 costs from ratepayers.

15 A. NW NATURAL MAY HAVE CHARGED RATEPAYERS WITH THE COSTS
16 OF ITS LAWSUIT TO INVALIDATE THE CLIMATE PROTECTION
17 PROGRAM.

18 **Q. Was the Climate Protection Program subject to litigation?**

19 A. Yes. As we explained above, on March 18, 2022, NW Natural, Avista Utilities, and
20 Cascade Natural Gas filed a lawsuit against the Oregon DEQ in the Oregon Court of Appeals,
21 asking the court to vacate the CPP.²⁷ In this litigation, NW Natural was represented by the law

²⁵ Confidential Exhibit Coalition/251, NW Natural Confidential Response to Coalition DR 220.

²⁶ *Id.*

²⁷ Exhibit Coalition/208, Petition for Review, *NW Natural Gas Co. v. Env't Quality Comm'n*, A178216 (Mar. 18, 2002).

1 firms of 1) Baker Botts and 2) Snell & Wilmer. According to pleadings from the case, two
2 attorneys from Snell & Wilmer LLP and three attorneys from Baker Botts LLP jointly
3 represented NW Natural, Cascade Natural Gas, and Avista Corporation.²⁸

4 **Q. What was NW Natural's role as a party in the lawsuit challenging the CPP?**

5 A. NW Natural was a petitioner, meaning it was the party that asked the Court of Appeals to
6 review and invalidate the CPP.

7 **Q. Were Climate Solutions and Oregon Environmental Council also parties to this**
8 **lawsuit?**

9 A. Yes. Both Climate Solutions and Oregon Environmental Council intervened in the case to
10 defend the CPP.

11 **Q. What remedy did NW Natural ask for in its petition to the Court of Appeals?**

12 A. NW Natural asked the court to invalidate the CPP.

13 **Q. How did NW Natural and its attorneys participate in the case?**

14 A. NW Natural submitted opening and reply briefing to the Oregon Court of Appeals, and
15 the Court of Appeals heard oral argument on the issues on September 29, 2023. A partner from
16 Baker Botts LLP argued on behalf of NW Natural during the oral argument urging the Court to
17 invalidate the Climate Protection Program.

18 On December 20, 2023, the Oregon Court of Appeals issued its decision in the case. The
19 Court of Appeals invalidated the CPP on procedural grounds. As we explained above, since then,
20 DEQ has initiated a rulemaking to adopt a 2024 program.

²⁸ *Id.*

1 **Q. How did NW Natural’s litigation against the CPP affect Oregonians and individuals**
2 **who live in the company’s service territory?**

3 A. The CPP is one of the primary laws driving significant GHG emissions reductions in
4 Oregon. Invalidating this regulation means that Oregon may take longer to achieve the
5 substantial GHG emissions reductions and accompanying reduction in air pollution along the
6 emission trajectory required by the original CPP rulemaking. Invalidating the CPP also resulted
7 in the loss of millions of dollars that were likely to be invested in Oregon environmental justice
8 communities as soon as this year, as well as accompanying cost savings and air pollution
9 reductions. The new regulations reinstating the CPP will have to set a steeper cap to make up for
10 lost time and achieve the same level of emission reductions as the original CPP. While DEQ is
11 proceeding with a new CPP rulemaking, even temporarily delaying implementation of the CPP
12 means lost years of progress toward mitigating Oregon’s statewide GHG emissions. It also
13 means placing an administrative burden on Oregonians, including individuals and organizations
14 in NW Natural’s service territory, to engage again in another rulemaking procedure.

15 **Q. Do you anticipate NW Natural will participate in the 2024 CPP rulemaking?**

16 A. Yes. A NW Natural representative is serving on the RAC. In addition, based on past
17 positions and actions, we fear NW Natural’s participation will include pushing to weaken
18 proposed regulations that would require the utility to mitigate its GHG emissions.

19 **Q. How is NW Natural paying for its litigation to overturn the CPP?**

20 A. NW Natural states that it does not seek recovery from ratepayers for its CPP litigation
21 costs.²⁹ Nevertheless, given the absence of documentation provided by the company to
22 substantiate its claim that they removed CPP litigation costs, we have serious concerns about

²⁹ Exhibit Coalition/238, NW Natural Response to Coalition DR 219.

1 allowing NW Natural to recover legal fees charged by Baker Botts and Snell & Wilmer, because
2 the company hired these firms to challenge climate laws in Oregon and Washington. With the
3 financial records provided to date, we don't believe the company has demonstrated these costs
4 are recoverable from ratepayers in accordance with requirements of FERC accounting
5 regulations and Oregon law.

6 NW Natural retained Baker Botts LLP and Snell & Wilmer LLP to represent it in its
7 lawsuit against the CPP. NW Natural charged invoices from both of these law firms to FERC
8 Account 921. NW Natural seeks recovery from ratepayers for all its expenditures in FERC
9 Account 921.³⁰ While NW Natural states it does not seek recovery of its CPP litigation costs
10 from ratepayers—this statement lacks any evidence documenting that NW Natural removed CPP
11 litigation costs from FERC Account 921 and charged them to another account. Further, it is
12 documented in public filings before the Court of Appeals that NW Natural hired Baker Botts
13 LLP and Snell & Wilmer LLP to provide the company with representation in its lawsuit against
14 the CPP.³¹

15 FERC regulations require that for invoices charged to Account 921, a utility must
16 maintain records to “permit ready analysis by item showing the nature of the expense and the
17 identity of the person furnishing the service.”³² NW Natural has failed to make such records
18 available for inspection regarding its expenses for Baker Botts LLP, and Snell & Wilmer LLP.
19 Given that NW Natural retained these firms to litigate against the CPP, it is unjustifiable and

³⁰ NW Natural/1401, Davilla/Page 1 (describing Base Year Costs for FERC Account 921); NW Natural/1402, Davilla/Page 1 (describing Test Year expenses for FERC Account 921).

³¹ Exhibit Coalition/238, NW Natural Response to Coalition DR 219; Confidential Exhibit Coalition/251, NW Natural Confidential Response to Coalition DR 220.

³² 18 C.F.R. § 367.9210(c).

1 unreasonable to charge ratepayers for the legal fees for these firms absent a showing that all
2 litigation costs were removed.

3 **Q. Does federal or state law allow NW Natural to recover its legal fees for litigation to**
4 **invalidate the CPP?**

5 A. No. Litigation to undermine the CPP is a political activity, and all associated costs of this
6 litigation should be charged to shareholders.

7 In Oregon, the Commission prohibits utilities from recovering the costs of their political
8 activities from ratepayers. The Commission has previously held that:

9 Ratepayers should not be required to contribute to the advancement of political
10 positions in which they may not believe. Exclusion of political expenditures is even
11 more important than exclusion of community affairs expenditures because a
12 utility's lobbying program can actually harm ratepayers. Stockholder interests with
13 respect to issues such as the nature and scope of regulation often conflict with
14 ratepayer interests. A utility's lobbying program can be expected to give preference
15 to stockholder interests when issues such as those arise.³³

16 FERC regulations also provide that costs related to a utilities' political activities must be billed to
17 shareholders.³⁴

18 A utility may recover costs for its representation before regulatory bodies to request an
19 increase in rates or to file reports required by law. Costs related to proceedings before regulatory
20 commissions must be billed to FERC Account No. 928.³⁵ However, the Oregon Court of Appeals
21 is not a regulatory commission. It is part of the judicial branch.

³³ *Re Pac. Nw. Bell Tel. Co., Am. Network, Inc., et al.*, UT 43, Order No. 87-406, 82 P.U.R. 4th 293, 320 (Mar. 31, 1987) (emphasis added).

³⁴ 18 C.F.R. § 367.4264.

³⁵ "This account must include all expenses, properly included in service company operating expenses, incurred by the service company in connection with formal cases before regulatory commissions, or other regulatory bodies, on its own behalf or on behalf of associate companies, including payments made to a regulatory commission for fees assessed to the service company

1 Further, unlike regulatory cases before the Commission, NW Natural’s lawsuit to
2 invalidate the CPP is an effort to undermine and vacate a statewide law that applies to numerous
3 sectors and creates benefits for environmental justice communities in Oregon. This lawsuit is
4 exactly the kind of political activity that harms ratepayers—especially residential ratepayers—
5 because it seeks to undermine an important measure that would reduce GHG emissions to avoid
6 climate catastrophe and that would likely help ratepayers through clean energy upgrades and
7 energy efficiency benefits.

8 Importantly, DEQ made the CPP more ambitious over the first rulemaking, due in part to
9 the thousands of Oregonians who sought strong protections for climate and communities. The
10 original CPP was adopted after more than 18 months of rulemaking related meetings, seven
11 rulemaking advisory committees, six technical workshops, and three Town Halls. Since the
12 original adoption of the CPP in 2021, the need for climate action has only become more urgent.
13 Ratepayers have been hurt by the lawsuit brought by NW Natural and other regulated entities,
14 which resulted in the invalidation of the law that was projected to achieve nearly half of
15 Oregon’s targeted 45 percent emissions reductions by 2035. This regulation could also have
16 invested an estimated hundreds of millions of dollars annually in environmental justice and other
17 communities in Oregon through regulated entities purchasing CCI credits.

18 **Q. Does any Commission precedent support disallowance of legal fees for a lawsuit to**
19 **undermine the CPP?**

20 A. Yes. Last year, the Commission approved a settlement in a rate case filed by Avista
21 Corporation that disallowed recovery of the utility’s legal fees associated with its lawsuit against

for pay and expenses of such commission, its officers, agents and employees, and for filings or reports made under regulations of regulatory commissions.” 18 C.F.R. § 367.9280(a).

OPENING TESTIMONY OF NORA APTER
AND MEREDITH CONNOLLY
UG 490

Earthjustice
810 Third Ave. Suite 610
Seattle, WA 98104
(206) 343-7340

1 the CPP.³⁶ The parties negotiated for a disallowance of costs associated with Avista Corporation’s
2 lawsuit against the CPP.³⁷ The Commission found that the multi-party settlement resulted in just
3 and reasonable rates and contributed to the public interest overall.³⁸

4 **Q. Is there any other reason to disallow recovery of litigation costs to vacate the CPP?**

5 A. Allowing recovery of CPP litigation costs is contrary to the Commission’s obligation to
6 set fair, just, and reasonable rates; to limit expenses to those with a close nexus to a utility’s
7 legitimate costs of business; and to safeguard the public interest.

8 Pursuant to Executive Order No. 20-04, the Commission has an obligation to “exercise
9 any and all authority and discretion vested in them by law to help facilitate Oregon’s
10 achievement of the GHG emissions reduction goals” set forth in ORS 468A.205(1)(c).³⁹
11 Specifically, “[i]t is *in the interest of utility customers and the public* generally for the utility
12 sector to take actions that result in rapid reductions of GHG emissions[.]”⁴⁰ This means the
13 Commission should “[p]rioritize proceedings and activities, to the extent consistent with other
14 legal requirements, that advance decarbonization in the utility sector, and exercise its broad
15 statutory authority to reduce GHG emissions[.]”⁴¹ Allowing recovery for litigation costs to
16 undermine one of Oregon’s signature climate regulations is contrary to the public interest and the

³⁶ *In the Matter of Avista Corp. Request for a General Rate Revision*, Or. Pub. Util. Comm’n, Docket No. UG 461, Order No. 23-238 (Oct. 26, 2023).

³⁷ *Id.* at 8 (“The parties agree to an adjustment that removes certain Base Year litigation costs from the revenue requirement. This adjustment reduces the proposed revenue requirement by \$54,000.”).

³⁸ *Id.* at 13.

³⁹ Oregon Executive Order 20-04, at 5, https://www.oregon.gov/gov/eo/eo_20-04.pdf (last visited Apr. 18, 2024).

⁴⁰ *Id.* at 8 (emphasis added).

⁴¹ *Id.*

1 interest of utility customers, because it conflicts with the Commission’s directive in Executive
2 Order 20-04.

3 Further, when setting rates, the Commission should consider “differential energy burdens
4 on low-income customers and other economic, social equity or environmental justice factors that
5 affect affordability for certain classes of utility customers, and any other reasonable
6 consideration.”⁴² Given that the CPP aims to mitigate the impacts of climate change and
7 facilitate clean energy investments to improve economic and social equity in environmental
8 justice communities, NW Natural’s efforts to overturn this program directly and adversely
9 harmed these ratepayers.

10 **Q. If the Commission allows gas utilities to recover their costs associated with**
11 **invalidating the CPP, what precedent would that set for utilities?**

12 A. Allowing gas utilities to recover their litigation costs to invalidate the CPP would open
13 the door to legal advocacy by Oregon utilities to undermine climate laws and regulations in the
14 State of Oregon. Allowing gas utilities to recover legal fees in this manner would, in effect, offer
15 utilities a blank check to charge ratepayers for any legal advocacy they undertake to undermine
16 state climate law or regulations.

17 B. NW NATURAL MAY HAVE CHARGED OREGON RATEPAYERS FOR
18 LITIGATION AGAINST THE WASHINGTON BUILDING CODE
19 AMENDMENTS.

20 **Q. Could you please describe the Washington regulations, which were subject to**
21 **litigation by NW Natural.**

22 A. Recognizing the need to take urgent measures to combat climate change, the Washington
23 legislature directed the State Building Code Council (“the Council” or “SBCC”) to amend the

⁴² ORS 757.230(1).

1 state’s energy codes to make incremental progress with each amendment towards the goal of
2 “building zero fossil-fuel greenhouse gas emission homes and buildings by the year 2031.”⁴³
3 Beginning in 2022, pursuant to that mandate, the Council proposed and ultimately adopted rules
4 to amend the residential and commercial state energy codes to require high-efficiency heat
5 pumps, rather than conventional fossil fuel-powered appliances, for space heating and water
6 heating, with certain exceptions.⁴⁴

7 To ensure that Washington does its part to address the climate crisis, the legislature
8 committed the state to significantly reducing its climate pollution, setting a target of reducing
9 Washington’s overall emissions of greenhouses gases in the state to 45 percent below 1990 levels
10 by 2030, to 70 percent below 1990 levels by 2040, and to 95 percent below 1990 levels by
11 2050.⁴⁵

12 The legislature further directed the State Building Code Council to design a state energy
13 code to “help achieve the broader goal of building zero fossil-fuel greenhouse gas emission
14 homes and buildings by the year 2031.”⁴⁶ The legislature tasked the Council with developing and
15 updating the energy code to ensure “increasingly energy efficient homes and buildings.”⁴⁷ In
16 2022, the State Building Code Council adopted amendments to the residential and commercial

⁴³ RCW 19.27A.020(2)(a); RCW 19.27A.160(1), (2).

⁴⁴ Wash. St. Reg. 23-02-060 (Jan. 3, 2023) (adding new section, WAC 51-11R-40392, “Heat pump space heating,” and amending WAC 51-11R-40340, “Service hot water systems”); Wash. St. Reg. 22-14-091 (July 1, 2022) (adding new section, WAC 51-11C-40314, “HVAC heating equipment,” and amending WAC 51-11C-40402, “Service water-heating equipment performance efficiency”).

⁴⁵ RCW 70A.45.020(1)(a).

⁴⁶ RCW 19.27A.020(2)(a).

⁴⁷ *Id.*

1 state energy codes to eliminate gas powered appliances for space heating and water heating—
2 with the goal of reaching statutory GHG emission reduction targets for the building sector.

3 **Q. Could you please describe NW Natural’s lawsuit against Washington’s amendments**
4 **to its building codes?**

5 A. NW Natural along with Cascade Natural Gas, and Avista Corporation filed suit in federal
6 court in the Eastern District of Washington on May 22, 2023.⁴⁸ The lawsuit was jointly filed with
7 a coalition of homeowners, suppliers, and building construction companies. The utilities were
8 jointly represented by four attorneys from Baker Botts LLP.

9 The complaint sought “declaratory and injunctive relief” to prevent enforcement of
10 “provisions of the Washington State Energy Code that ban the use of natural gas appliances that
11 are subject to regulation under the federal Energy Policy and Conservation Act (“EPCA”).” The
12 complaint alleged that the code amendments violated federal law, specifically EPCA. Several
13 days later, the utilities filed a motion for a preliminary injunction to prohibit enforcement of
14 Washington’s building code amendments, pending resolution of the issues in the case.⁴⁹ The
15 defendant, the Washington Department of Ecology, also filed a motion to dismiss the complaint.

16 **Q. What remedy did NW Natural ask for in its complaint to the federal district court?**

17 A. The complaint asked the district court to find that Washington’s amendments to its
18 building code standards violate federal law, and therefore are void and unenforceable.⁵⁰

⁴⁸ Exhibit Coalition/205.

⁴⁹ Exhibit Coalition/206 (excerpts of the motion for preliminary injunction).

⁵⁰ Exhibit Coalition/205, Apter-Connolly/Page 25.

1 **Q. Were any of your organizations also party to this lawsuit?**

2 A. Yes. Climate Solutions intervened in this lawsuit, along with another member of this
3 Coalition, the Sierra Club.

4 **Q. What was the outcome of NW Natural's federal lawsuit against Washington's
5 building code amendments?**

6 A. The court dismissed the case. In July 2023, the district court heard oral argument on the
7 utilities' motion for a preliminary injunction. An attorney from Baker Botts LLP represented NW
8 Natural and the other utilities in oral argument. The court ruled from the bench, denying the
9 utilities' motion for a preliminary injunction and dismissing the case.⁵¹

10 **Q. How has NW Natural's lawsuit against amendments to Washington's building codes
11 affected ratepayers in the company's service territory in Oregon?**

12 A. The building codes lawsuit had no impact on Oregon ratepayers because it was
13 unsuccessful. However, had it been successful, NW Natural would have harmed ratepayers with
14 this lawsuit because vacating these building codes would mean increased GHG emissions from
15 the building sector in Washington State—thereby contributing to continued global warming.

16 **Q. Does federal or state law allow NW Natural to recover its legal fees for litigation to
17 invalidate Washington's building code amendments?**

18 A. No. For the same reasons described above, it is contrary to the public interest to allow
19 NW Natural to recover legal fees for its litigation to invalidate statewide policies adopted to
20 respond to and mitigate catastrophic climate change. Even assuming NW Natural could recover
21 these costs, under the cost causation principle, legal fees for litigation in Washington State

⁵¹ Exhibit Coalition/207.

1 cannot be billed to Oregon ratepayers. Oregon ratepayers derived no benefit from a lawsuit
2 against policies in Washington, and as such cannot be billed for these costs.

3 **Q. Did NW Natural charge Oregon ratepayers for its litigation to undermine the**
4 **Washington State building codes?**

5 A. The company states that it has not charged ratepayers for these costs, but does not
6 provide any accounting to demonstrate that legal fees paid to Baker Botts for this lawsuit have
7 not been charged to ratepayers.⁵² For reasons described below, we recommend disallowance of
8 all legal fees paid to Baker Botts that were billed to FERC Account 921, to ensure that ratepayers
9 do not pay for NW Natural's legal advocacy against the Washington State building codes.

10 C. THE COMMISSION SHOULD DISALLOW RECOVERY OF NW
11 NATURAL'S LEGAL FEES FOR ANTI-CLIMATE POLICY LEGAL
12 ADVOCACY

13 **Q. What costs would you recommend the Commission deduct to ensure that ratepayers**
14 **are not charged for NW Natural's lawsuits to overturn climate policy in Oregon and**
15 **Washington?**

16 A. As discussed above, public records show that NW Natural retained Baker Botts LLP and
17 Snell & Wilmer LLP to litigate two lawsuits in state and federal court with the goal of
18 invalidating the CPP and the Washington Building Code amendments during 2023, the Base
19 Year. During the Base Year, January 1, 2023 through December 2023, NW Natural incurred
20 \$795,787.83 in legal fees from Baker Botts LLP and Snell & Wilmer LLP.⁵³ Of this total, NW
21 Natural billed 88% of these costs to Oregon ratepayers, in the amount of \$701,290.23.⁵⁴ While

⁵² Exhibit Coalition/237, NW Natural Response to Coalition DR 218.

⁵³ Exhibit Coalition/226, NW Natural Response to Coalition DR 121, Attachment 1 (excerpts).

⁵⁴ *Id.*

1 NW Natural refuses to provide itemized descriptions for its invoices for legal fees billed to
2 FERC Account 921,⁵⁵ as required by law, we know that the company hired these law firms to
3 litigate the above described complex cases on their behalf and <<BEGIN CONFIDENTIAL>>

4 [REDACTED]

5 [REDACTED] <<END CONFIDENTIAL>>

6 **Q. Did the company provide any description of the legal services provided by Baker**
7 **Botts, and Snell & Wilmer?**

8 A. Yes. In a confidential response, NW Natural stated that it retained the services of Baker
9 Botts in 2023 to provide a variety of services including <<BEGIN CONFIDENTIAL>>

10 [REDACTED]

11 [REDACTED] <<END CONFIDENTIAL>>

12 **Q. Does this description satisfy the requirement under federal accounting law to**
13 **disclose the “nature of the expense”?**

14 A. No, for two reasons. First, our understanding is that federal law requires a utility to
15 provide information regarding *each transaction* documenting the identity of the person providing
16 the service and the nature of the service provided. Here, NW Natural has not provided a
17 description of the legal services provided by Baker Botts for each invoice billed to FERC

⁵⁵ Exhibit Coalition/225, NW Natural Response to Coalition DR 121 (“The Company objects to providing and does not provide the requested itemized description of the legal services provided....”).

⁵⁶ Confidential Exhibit Coalition/251, NW Natural Confidential Response to Coalition DR 220.

⁵⁷ *Id.*

1 Account 921.⁵⁸ Second, the description provided by NW Natural describes both services billed to
2 ratepayers, and costs supposedly deducted from rates—associated with the company’s litigation
3 against the CPP. Assuming for the sake of argument that the company is correct and it removed
4 CPP litigation costs—it is still unclear from the company’s answer why it recorded nearly
5 \$800,000 in legal fees for services provided by Baker Botts to FERC Account 921.⁵⁹

6 **Q. Is it possible that some of the legal fees associated with invoices from Baker Botts**
7 **LLP are for services unrelated to the CPP litigation or the Washington building codes**
8 **amendment litigation?**

9 A. Yes, it is likely that the legal fees for Baker Botts include other costs, but the company
10 has failed to provide an itemized description of its invoices to allow recovery. According to the
11 company, Baker Botts provided the following legal services: <<BEGIN CONFIDENTIAL>>

12 [REDACTED]
13 [REDACTED]
14 [REDACTED]
15 [REDACTED]
16 [REDACTED]

17 [REDACTED] <<END CONFIDENTIAL>> The company has failed to provide sufficient
18 information regarding the nature and amount of its transactions to determine whether any of

⁵⁸ Exhibit Coalition/225, NW Natural Response to Coalition DR 121 (“The Company objects to providing and does not provide the requested itemized description of the legal services provided....”).

⁵⁹ Exhibit Coalition/226, NW Natural Response to Coalition DR 121, Attachment 1 (excerpts).

⁶⁰ Confidential Exhibit Coalition/251, NW Natural Confidential Response to Coalition DR 220.

1 these costs are recoverable, but any anti-climate policy legal advocacy is not recoverable from
2 ratepayers.

3 **Q. Are legal services provided by Baker Botts to <<BEGIN CONFIDENTIAL>>**

4 [REDACTED] <<END

5 **CONFIDENTIAL>> recoverable from ratepayers?**

6 A. No. Based on the description provided by NW Natural, these expenses are not

7 recoverable from ratepayers. <<BEGIN CONFIDENTIAL>> [REDACTED]

8 [REDACTED]

9 [REDACTED]

10 [REDACTED] <<END CONFIDENTIAL>>

11 **Q. What action should the Commission take regarding legal fees charged by Baker**

12 **Botts LLP and Snell & Wilmer LLP?**

13 A. NW Natural has not met its burden of demonstrating that legal fees for Baker Botts and

14 Snell & Wilmer are reasonable to recover from ratepayers, in light of evidence showing that the

15 Company hired these firms to oppose climate policies in Oregon and Washington. Accordingly,

16 we recommend that the Commission disallow \$701,290.23 in legal fees for Baker Botts and

17 Snell & Wilmer LLP from FERC Account 921.

18 Lastly, the Commission should order that NW Natural is not allowed to recover costs

19 from ratepayers for litigation to vacate the CPP or any other legal advocacy to undermine local

20 or statewide climate laws. The Commission should further order that NW Natural must bill any

21 such legal expenses to FERC Account 426.4.⁶¹ And further, NW Natural must keep itemized

⁶¹ This account includes “[e]xpenses for certain civic, political and related activities.” 18 C.F.R. § 367.4264.

1 records regarding the nature of the legal services received for all legal fees billed to FERC
2 Account 921.

3 **IV. THE COMMISSION SHOULD DENY RECOVERY FOR NW NATURAL'S**
4 **PROMOTIONAL AND INSTITUTIONAL ADVERTISING**

5 **Q. Please summarize your testimony regarding advertising issues.**

6 A. Our testimony first provides an overview of the laws governing recovery of advertising
7 costs by Oregon public utilities. We then discuss concerns with NW Natural's advertising budget
8 and its inclusion of promotional and non-core utility related advertising in its Category A and B
9 publications, much of which contains an implied political agenda to influence ratepayers and
10 promote the continued use of gas. Lastly, we recommend deductions to NW Natural's
11 advertising budgets to costs associated with the Company's promotional and nonutility related
12 advertising.

13 **Q. Overall, what concerns do you have with overall content and messaging in NW**
14 **Natural's advertising?**

15 A. NW Natural continues to charge ratepayers for advertisements that promote the
16 company's image, have implied anti-climate-policy political messages, or promote gas
17 consumption. In at least one instance, the company's advertising appears to be outright
18 misinformation regarding the impact of climate policy on rates.

19 We find the company's pro-gas advertising agenda problematic, in light of the concerted
20 effort by NW Natural to target Latinx, Russian, and Chinese communities.⁶² While NW Natural
21 states that this advertising is for its "safety related" advertising, its contract with the media

⁶² NW Natural/1101, Beck/Page 2-34.

1 buying company reveals otherwise.⁶³ <<BEGIN CONFIDENTIAL>> [REDACTED]
2 [REDACTED] <<END CONFIDENTIAL>>

3 Targeting ethnic groups for its pro-gas advertising is especially concerning because the company
4 failed to advertise about its bill discount program, as discussed in the Fain, Segovia Rodriguez,
5 and Daryanani Testimony, Coalition 300. Nor has NW Natural published any advertising on its
6 OLIEE program.⁶⁵

7 **Q. Please summarize your findings regarding the improper inclusion of promotional**
8 **and nonutility related advertising into NW Natural’s Category A and B budgets.**

9 A. In its Category A budget, NW Natural improperly included the costs for advertising
10 regarding its community service programs, advertisements about its promotional concessions,
11 and advertising about its voluntary Smart Energy program. These advertisements are either
12 Category C (promotional or institutional advertising), or Category D (nonutility advertising). In
13 its Category B budget, NW Natural included costs for its advertisements about how to operate
14 gas appliances, which does not meet the Category B definition as such information is not “legally
15 mandated.”

16 **Q. Please summarize your recommendations regarding the deduction of costs for**
17 **promotional and nonutility related advertising from NW Natural’s Category A and B**
18 **budgets**

19 A. We recommend the Commission deduct all advertising costs for publications that NW
20 Natural charged to ratepayers but do not meet the definition of Category A or B advertising. NW

⁶³ NW Natural/1101, Beck/Page 2.

⁶⁴ Exhibit Coalition/224, NW Natural Response to Coalition DR 119; Confidential Exhibit Coalition/246, NW Natural Confidential Response to Coalition DR 119, Attachment 2.

⁶⁵ Exhibit Coalition/300.

1 Natural's advertisements are rife with promotional, institutional and political messages. These
2 costs are not recoverable from ratepayers in this case. Accordingly, we recommend deducting
3 \$310,641 from the company's Category A budget, and \$80,000 from the company's Category B
4 budget, and \$115,307 in costs during the Base Year and Test Year for promotional concessions
5 expenditures that the company improperly charged to ratepayers. In total, we recommend
6 deducting \$505,948 from the revenue requirement.

7 A. ADVERTISING COST RECOVERY UNDER OREGON PUBLIC UTILITY
8 LAW

9 **Q. How does the Commission define an advertising expense?**

10 A. We are not practicing attorneys, and all legal references included below, are provided for
11 context only.

12 Advertising expenses are "expenses for communications which inform, influence, and/or
13 educate customers. Such communication may be by means of, but is not limited to, print, radio,
14 television, billboards, direct mail, videos, banners, telephone listings, and displays[.]"⁶⁶

15 **Q. In Oregon, are utility costs for advertising expenses recoverable from ratepayers
16 and, if so, under what circumstances are they recoverable?**

17 A. We understand that utilities in Oregon are allowed to recover certain advertising costs,
18 depending on the content of the message and the purpose of the advertising. Advertising that
19 provides information about utility services or that promotes energy conservation, referred to by
20 regulation as "Category A" advertising, is presumed reasonable up to a certain amount.⁶⁷ Legally

⁶⁶ OAR 860-026-0022(1).

⁶⁷ OAR 860-026-0022(2)(a) (defining Category A advertising); OAR 860-026-0022(3)(a) (stating Category A costs are presumed just and reasonable if "expenses are twelve and one-half hundredths of 1 percent (0.125 percent) or less of the gross retail operating revenues determined in that proceeding").

1 mandated advertising, referred to as Category B advertising, is also presumed reasonable.⁶⁸
2 However, advertising that promotes corporate image, or advertising that has a purpose of
3 encouraging the purchase and use of natural gas, referred to as Category C advertising, is not
4 recoverable absent a showing that such advertising provides financial benefit to ratepayers.⁶⁹
5 Lastly, political advertising, and advertising regarding programs and services that are unrelated
6 to regulated utility service, referred to as Category D advertising, are not recoverable.⁷⁰

7 Federal law generally prohibits recovery of promotional advertising as well. “No gas
8 utility may recover from any person other than the shareholders (or other owners) of such utility
9 any direct or indirect expenditure by such utility for promotional or political advertising[.]”⁷¹

10 **Q. The primary purpose of Category A advertising is to provide what kind of**
11 **information?**

12 A. Category A advertising includes:⁷²

- 13 • Energy efficiency or conservation advertising that has a primary purpose of
14 decreasing the total consumption of utility services.⁷³

⁶⁸ OAR 860-026-0022(2)(b) (defining Category B advertising); OAR 860-026-0022(3)(b) (stating that Category B advertising costs are presumed just and reasonable).

⁶⁹ OAR 860-026-0022(2)(c) (defining Category C advertising); OAR 860-026-0022(3)(c) (stating that Category C advertising costs are only recoverable if the utility can demonstrate these costs are “just and reasonable for rate-making purposes”).

⁷⁰ OAR 860-026-0022(2)(d) (defining Category D advertising); OAR 860-026-0022(3)(c) (stating that Category D advertising costs are “are presumed to be not just and reasonable for rate-making purposes”).

⁷¹ 15 U.S.C. § 3203(b)(2).

⁷² OAR 860-026-0022(2)(a).

⁷³ OAR 860-026-0022(1)(b) (defining conservation advertising); OAR 860-026-0022(1)(j) (defining energy efficiency advertising); OAR 860-026-0022(2)(a) (stating that energy efficiency and conservation advertising is Category A advertising).

- 1 • “[U]tility service advertising” that has a primary purpose of providing timely
2 customer information about utility services such as changes in office hours,
3 planned service repair interruptions, the closing or opening of new pay stations, or
4 to encourage efficient and safe use of utility services and similar service-related
5 subjects[.]⁷⁴
- 6 • “[U]tility information advertising” that has a primary purpose of increasing
7 “customer understanding of utility systems and the function of those systems, and
8 to discuss generation and transmission methods, utility expenses, rate structures,
9 rate increases, load forecasting, environmental considerations, and other
10 contemporary items of customer interest[.]”⁷⁵

11 **Q. The primary purpose of Category B advertising is to provide what kind of**
12 **information?**

13 A. Category B advertising includes “legally mandated advertising,” the primary purpose of
14 which is to comply with local, state, or federal statutes, ordinances, rules, or regulations, and
15 Court or Commission's orders.⁷⁶

16 **Q. The primary purpose of Category C advertising is to provide what kind of**
17 **information?**

18 A. Category C advertising includes promotional advertising and institutional advertising,
19 which are defined as follows:

⁷⁴ OAR 860-026-0022(1)(h).

⁷⁵ OAR 860-026-0022(1)(g).

⁷⁶ OAR 860-026-0022(1)(d).

- 1 • “Promotional Advertising” that has a primary purpose of promoting a company’s
2 promotional activities or promotional concessions.⁷⁷ Promotional concessions are
3 defined as actions that have an objective of “increasing or preventing a decrease in
4 the quantity of the energy ... used by present and prospective customers; inducing
5 any person to use an energy utility's service rather than a competing form of
6 energy[.]”⁷⁸
- 7 • “Institutional advertising” that has a primary purpose of “enhance[ing] the credibility,
8 reputation, character, or image of an entity or institution[.]”⁷⁹

9 **Q. The primary purpose of Category D advertising is to provide what kind of**
10 **information?**

11 A. Category D advertising includes political advertising and nonutility advertising expenses,
12 which are defined as follows:

- 13 • Nonutility advertising has a primary purpose of providing information or encourage the
14 purchase of “products or services whose revenues fall outside the scope of rate of return
15 regulation by a state or federal regulatory body[.]”⁸⁰
- 16 • Political advertising has a primary purpose of encouraging individuals to take political
17 action.⁸¹ Under federal law, political advertising is any advertising meant to “influenc[e]

⁷⁷ OAR 860-026-0022(1)(f).

⁷⁸ OAR 860-026-0010.

⁷⁹ OAR 860-026-0022(1)(c).

⁸⁰ OAR 860-026-0022(1)(i).

⁸¹ OAR 860-026-0022(1)(e).

1 public opinion with respect to legislative, administrative, or electoral matters, or with
2 respect to any controversial issue of public importance.”⁸²

3 **Q. Does the Commission have the authority to review a utility’s requested recovery for**
4 **its advertising related expenses?**

5 A. Yes. The Commission has authority to review a utility’s request to recover advertising
6 expenses to ensure they are just, fair, and reasonable. The Commission must “represent the
7 customers of any public utility or telecommunications utility and the public generally in all
8 controversies respecting rates,” and the Commission is tasked with using its jurisdiction and
9 power to “protect such customers, and the public generally, from unjust and unreasonable
10 exactions and practices and to obtain for them adequate service at fair and reasonable rates.”⁸³

11 **Q. How does the Commission determine whether costs for advertising expenses are just**
12 **and reasonable?**

13 A. According to prior precedent, the Commission looks to the primary purpose of the
14 advertisement by considering the context of the publication and the “intended impact of the
15 advertisement.”⁸⁴ The Commission must ensure that advertising expenditures comply with the
16 requirements of OAR 860-026-0022.

17 **Q. What concerns has the Commission expressed regarding NW Natural’s Category A**
18 **and B advertising programs?**

19 A. In the Commission’s order for UG 435, the Commission expressed serious concerns that
20 NW Natural included promotional advertising in its Category A and B advertisements. The

⁸² 15 U.S.C. § 3204(b)(1)(B).

⁸³ ORS 756.040(1).

⁸⁴ *In re Revised Tariff Schedules Filed by Nw. Nat. Gas Co. for a Gen. Rate Increase*, Docket No. UG 81, No. 89-1372 (Oct. 18, 1989).

1 Commission found that NW Natural promoted the use of natural gas to school children in
2 booklets that it sent to Oregon public schools.⁸⁵ While some of these booklets contained safety
3 related information, the vast majority of the communication had “nothing to do” with safety
4 related information.⁸⁶ NW Natural had billed the cost of these booklets to its Category B
5 advertising budget during the Base Year. The Commission also found that advertisements in NW
6 Natural’s Comfort Zone newsletter contained “information of a more promotional nature,” and
7 yet the company billed the costs for this communication to its Category A advertising budget.⁸⁷

8 The Commission unequivocally held that, “advertisements that are promotional in nature
9 are not Category A or Category B advertisements, regardless of whether they have some element
10 that may qualify for Category A or Category B.”⁸⁸ The Commission cautioned NW Natural that it
11 should “carefully track its advertising costs and ensure that advertisements it includes under
12 Category A and Category B underlying its expected expenses do not include promotional
13 elements.”⁸⁹

14 B. NW NATURAL INCLUDED PROMOTIONAL OR INSTITUTIONAL
15 MESSAGING, AND NONUTILITY ADVERTISING, IN ITS CATEGORY A
16 BUDGET.

17 **Q. What categories of advertising does NW Natural seek in this rate case?**

18 A. NW Natural seeks recovery only for its Category A and Category B expenses.⁹⁰ NW

⁸⁵ *In re NW Natural Gas Co., Request for a General Rate Revision, Docket No. UG 435, Order No. 22-388* at 21.

⁸⁶ *Id.* at 17.

⁸⁷ *Id.* at 21.

⁸⁸ *Id.* at 21.

⁸⁹ *Id.*

⁹⁰ NW Natural/1100, Beck/Page 1-2.

1 Natural does not seek recovery from ratepayers for any of its Category C advertising budget.⁹¹

2 **Q. What concerns do you have regarding NW Natural’s proposed Category A and B**
3 **advertising during the Base Year and its proposed advertising during the Test Year?**

4 A. NW Natural continues to include promotional advertising in its Category A budget, as
5 well as nonutility related advertising. Further, numerous advertisements that NW Natural
6 accounts for in its Category B budget are not “required by law,” and as such are not recoverable
7 as Category B advertising costs. These advertisements are problematic because NW Natural is
8 seeking to ask ratepayers to fund utility advertising expenses when they receive no benefit from
9 the messaging.

10 Specifically, in its Category A budget, NW Natural improperly included the following
11 communications:

- 12 • *Community service activities*—this advertising is nonutility advertising because it has a
13 primary purpose of communicating about services the company provides that are
14 unrelated to gas utility service and has a primary purpose of promoting the company’s
15 image to its customers. Ratepayers receive no benefit from this messaging.
- 16 • *Rebates on gas appliances*—this advertising is promotional because it has the primary
17 purpose of communicating about the company’s promotional concessions and thereby
18 encouraging customers to maintain or increase gas usage. NW Natural itself
19 characterized this advertising as promotional.
- 20 • *Smart Energy program*—this program promotes continued gas usage by assuring
21 customers that they can mitigate their GHG emissions by investing in local dairies. The

⁹¹ NW Natural/1100, Beck/Page 2

1 advertising is promotional in nature, because it polishes NW Natural's image as a
2 responsible company offering means by which to address GHG emissions and
3 encourages customers to continue using gas.

4 In its Category B budget, NW Natural improperly included advertisements about turning
5 on vent hoods on gas stoves and operating appliances during electricity blackouts. There is no
6 law mandating that NW Natural publish these advertisements; NW Natural cannot charge these
7 costs as Category B advertisements.

8 **Q. Do NW Natural's Comfort Zone newsletters contain promotional materials?**

9 A. Yes. The company acknowledges that some advertisements in their Comfort Zone
10 newsletter are promotional. Accordingly, it has billed 25% of the cost for its Comfort Zone
11 newsletter to its Category C promotional advertising budget.⁹² The company has noted its
12 Category C advertisements in a red box. However, as explained below, many advertisements the
13 company billed as Category A or B advertising are either promotional, political or nonutility
14 advertising.

15 **Q. Please describe NW Natural's advertising about its community service activities.**

16 A. NW Natural included numerous advertisements regarding the company's community
17 services activities in its Category A published advertisements for the Base Year. Below is a list of
18 examples:

- 19
 - Advertising about community service activities by NW Natural's chief legal counsel.⁹³

⁹² Exhibit Coalition/215, NW Natural Response to Coalition DR 37, Amended.

⁹³ Exhibit Coalition/216, Apter-Connolly/Page 8, NW Natural Response to Coalition DR 37, Attachment 2; Exhibit Coalition/217, Apter-Connolly/ Page 25, NW Natural Response to Coalition DR 37, Attachment 7.

- 1 • Advertisements for contributions to its Gas Assistance Program in a bill insert, and in
2 emails and newsletters.⁹⁴ NW Natural charged these costs to its Category A budget, even
3 though it states that all GAP program costs are paid for by shareholders.⁹⁵
- 4 • In an e-newsletter, NW Natural described its donations to community organizations,
5 partnerships with organizations at community events, and announcements about
6 education scholarship programs.⁹⁶
- 7 • NW Natural also advertised being recognized as one of the “World’s Most Ethical
8 Companies,” in its e-newsletters.⁹⁷

9 **Q. Please explain why advertisements about community service activities are not**
10 **recoverable as a Category A advertising expense.**

11 A. Advertisements describing NW Natural’s community service contributions are unrelated
12 to utility service, nor is this information calculated to improve ratepayers’ understanding of
13 utility systems. As such, they do not fit within the regulatory definition of Category A
14 advertising. Further internal communication strategy documents admit that <<BEGIN

15 CONFIDENTIAL>> [REDACTED]

16 [REDACTED] <<END CONFIDENTIAL>> Accordingly, these advertisements

⁹⁴ Exhibit Coalition/216, Apter-Connolly/Page 17-18, NW Natural Response to Coalition DR 37, Attachment 2.

⁹⁵ Exhibit Coalition/223, NW Natural Response to Coalition DR 107.

⁹⁶ Exhibit Coalition/217, Apter-Connolly/ Page 5, 16, 18, 20-21, 22, NW Natural Response to Coalition DR 37, Attachment 7; *see also id.* at 36-37 (stating Growing Gardens, a nonprofit, is the company’s “Program of Focus”).

⁹⁷ Exhibit Coalition/217, Apter-Connolly/ Page 26, NW Natural Response to Coalition DR 37, Attachment 7.

1 are either corporate imaging institutional advertising (Category C) or nonutility related (Category
2 D) advertising.

3 **Q. Please describe NW Natural’s advertising for rebates on gas appliances.**

4 A. NW Natural published numerous advertisements during its Base Year promoting the
5 purchase of gas-powered appliances. In these advertisements, either NW Natural or a third-party
6 retailer offered financial rebates to lower the cost of purchasing appliances. Below is a list of
7 examples:

- 8 • In its Comfort Zone newsletters published during the Base Year, NW Natural included the
9 following advertisements about gas appliances:
 - 10 ○ It offered customers rebates on a “natural gas generator” stating that this
11 appliance “keeps home electricity on when there’s no power[.]”⁹⁹
 - 12 ○ It stated that the company “deliver[s] 50% more energy than any other utility in
13 Oregon, and deliver[s] that energy through one of the tightest, most modern
14 pipeline systems in the U.S.” The company then promoted use of gas-powered
15 fireplaces and stoves, as an alternative to electricity usage.¹⁰⁰ NW Natural
16 promoted the purchase of natural gas furnaces, natural gas fireplaces, and natural
17 gas water heaters in its Comfort Zone, and directed ratepayers to the website
18 “nwnatural.com/offers.”¹⁰¹

⁹⁹ Exhibit Coalition/216, Apter-Connolly/Page 8, NW Natural Response to Coalition DR 37, Attachment 2.

¹⁰⁰ Exhibit Coalition/216, Apter-Connolly/Page 9, NW Natural Response to Coalition DR 37, Attachment 2.

¹⁰¹ *Id.* at 10.

- 1 ○ NW Natural stated that “We, along with NW Natural Preferred Contractors and
2 Energy Trust of Oregon, offer rebates so you spend less to make these
3 improvements.” It then offered rebates on gas-powered heating, cooling, and
4 water heaters.¹⁰² It also offered rebates on gas-powered fireplaces.¹⁰³
- 5 • Most of the bill inserts NW Natural sent to customers during the Base Year offered
6 rebates on gas-powered heating and cooling, and gas furnaces.¹⁰⁴ In these ads, the
7 company stated: “We offer rebates up to \$1,200 for upgrades to both heating and cooling!
8 Act now to upgrade your home heating and cooling systems.”¹⁰⁵ “Save money while
9 staying comfortable, and even lower your emissions. A high-efficiency natural gas
10 furnace can deliver heat at up to 98% efficiency.”¹⁰⁶ “Enjoy instant warmth and ambiance
11 with the push of a button. Get cash back when you add or replace a qualifying natural gas
12 fireplace from NW Natural and Energy Trust of Oregon.”¹⁰⁷
- 13 • On hold messages included offers for rebates on gas appliances.¹⁰⁸
- 14 • NW Natural’s emails and e-newsletters to customers included advertisements for rebates
15 on natural gas heating and cooling, and water heating upgrades.¹⁰⁹ This included ads for

¹⁰⁷ *Id.* at 28.

¹⁰⁸ NW Natural Response to Coalition DR 37, Attachment 8, at 5.

¹⁰⁹ Exhibit Coalition/217, Apter-Connolly/Page 3, 21, NW Natural Response to Coalition DR 37, Attachment 7.

1 natural gas fireplaces,¹¹⁰ water heaters,¹¹¹ natural gas generators,¹¹² and a sweepstakes
2 contest to receive a free fireplace installation.¹¹³

3 • These e-newsletters also included advertisements for NW Natural’s promotional activities
4 with the Homebuilders Association of Greater Portland to produce the “NW Natural
5 Street of Dreams” event, including by offering discounted tickets to the event.¹¹⁴

6 • The e-newsletter included misinformation about the health impacts of gas stoves, stating
7 that customers should turn on their fan hoods regardless of stove type, implying that
8 emissions from gas stoves and electric stoves have the same health impacts.¹¹⁵

9 **Q. Please explain why advertisements promoting rebates for gas-powered appliances**
10 **are not recoverable as a Category A advertising expense.**

11 A. NW Natural’s advertising encouraging ratepayers and potential future customers to
12 purchase gas-powered appliances is promotional.¹¹⁶ Advertisements promoting purchase of gas
13 appliances using rebates and concessions offered by the company to encourage the use of natural

¹¹⁰ *Id.* at 8.

¹¹¹ *Id.* at 18.

¹¹² *Id.* at 25.

¹¹³ *Id.* at 25, 31.

¹¹⁴ *Id.* at 14-15, 19.

¹¹⁵ *Id.* at 31.

¹¹⁶ While advertisements in bill inserts and e-newsletters are targeting existing customers, offers made through the on-hold messages or through the company’s website are potentially for new customers.

1 gas service or to maintain the existing use of natural gas service is defined by regulations as
2 Category C, promotional advertising.¹¹⁷

3 Indeed, NW Natural admits that its advertising campaigns offering rebates on gas
4 appliances are promotional, and states that it does not seek recovery for its advertising promoting
5 purchase of gas-powered appliances.¹¹⁸ However, as described above, a review of the
6 advertisements published during the Base Year show widespread inclusion of this promotional
7 advertising in the company's Category A budget.

8 **Q. Please describe political advertising about the company's litigation and lobbying on**
9 **climate policy issues.**

10 A. In its September 2023 Comfort Zone newsletter, NW Natural included an advertisement
11 about the Climate Protection Program that purported to provide information about "a new
12 program regulating carbon that requires NW Natural to comply with an emissions cap on our
13 customers' behalf set by DEQ."¹¹⁹ The advertisement directs the reader to a webpage,
14 nwnatural.com/cpp. Rather than providing information about the Climate Protection Program,
15 this website provides information on NW Natural's lawsuit to invalidate the program. The
16 company states:

17 With the prior CPP rules invalidated, the costs we had anticipated our customers
18 would begin seeing this year to comply with the program are no longer required.
19 We are pleased with the Court's decision because the program was designed in a

¹¹⁷ OAR 860-026-0022(1)(f) (promotional advertising communicates about a utility's promotional concessions); OAR 860-026-0015(1) (defining promotional concessions to mean any offer that encourages an individual to select, use, or increase usage of utility service).

¹¹⁸ Exhibit Coalition/222, NW Natural Response to Coalition DR 80; Exhibit Coalition/227, NW Natural Response to Coalition DR 126 (stating that advertisements for rebates on gas appliances offered through nwnatural.com/offers are promotional advertising).

¹¹⁹ Exhibit Coalition/216, Apter/Page 15, NW Natural Response to Coalition DR 37, Attachment 2, at 15.

1 way that would have been costly to customers and without accountability for
2 quantifiable emission reduction benefits.¹²⁰

3 Advertising that seeks to influence public opinion against the CPP not recoverable. It is political.
4 And therefore should be considered Category D political advertising and is not recoverable from
5 ratepayers.

6 Similarly, in NW Natural’s e-newsletters, the company included an advertisement
7 regarding its climate policy advocacy. The advertisement states, “We are committed to
8 addressing climate change by supporting sound energy policy. ... We invite you to learn more
9 about the role of our system in the region, and our work to support a clean energy future.”¹²¹ The
10 ad directs the reader to a website titled “facts about our energy system,” which identifies the
11 electric sector as the primary source of GHG emissions. This webpage then minimizes the role of
12 NW Natural’s contribution to climate change and provides misinformation about how building
13 electrification policies fail to mitigate GHG emissions.¹²² Although NW Natural billed this cost
14 to its Category A Budget,¹²³ this advertisement is a Category D political advertisement and is not
15 recoverable from ratepayers.

16 **Q. Please describe NW Natural’s political advertising about rate increases.**

17 A. In a stunning example of blatant misinformation, NW Natural’s webpage providing
18 information about “Rate changes for 2023-2024” implies that rising costs of rates for the 2023-

¹²⁰ NW Natural, “New DEQ Climate Regulation in Oregon,” <https://www.nwnatural.com/about-us/rates-and-regulations/cpp> (last visited Apr. 16, 2024).

¹²² NW Natural, “Facts and Analysis About our Energy System,” <https://www.nwnatural.com/about-us/the-company/energy-system-facts>, (last visited Apr. 16, 2024).

¹²³ Exhibit Coalition/215, NW Natural Response to Coalition DR 37, amended.

1 2024 years are due to expenses related to complying with climate change policies.¹²⁴ However,
2 the bulk of the increase in the revenue requirement for this rate case is to pay for depreciation
3 costs, IT services, meter replacement, capital investment, and cyber security.¹²⁵ Further, to the
4 best of our knowledge, the company does not seek recovery of CPP compliance costs in this
5 filing.

6 **Q. Please describe NW Natural’s advertising about its Smart Energy program.**

7 A. NW Natural included the following advertisements about its Smart Energy program in its
8 Category A budget for the Base Year:

- 9 • A half-page ad in its April 2023 newsletter.¹²⁶
- 10 • A bill insert encouraging customers to “Join over 84,000 NW Natural customers who
11 offset the carbon emissions from their natural gas use through Smart Energy[.]”¹²⁷
- 12 • E-newsletters included advertisements to join the Smart Energy program.¹²⁸

13 **Q. Please explain why advertisements promoting NW Natural’s Smart Energy program**
14 **are not recoverable as a Category A advertising expense.**

15 A. Advertising about the Smart Energy program is promotional advertising and is not
16 recoverable. The Smart Energy program is a voluntary program offered by NW Natural which

¹²⁴ Exhibit Coalition/213, Rate Changes for 2023–2024,
<https://nwnatural.myenergysites.com/news/Key-Accounts-Newsletter/rate-changes-for-2023-2024?newsletterCampaignSendId=40505&subscriberId=00000000-0000-0000-0000-000000000000&spaceId=evq69zsmp4dr>.

¹²⁵ NW Natural’s Executive Summary at 3-4; NW Natural/100, Palfreyman-Kravitz/Page 19-20.

¹²⁶ Exhibit Coalition/216, Apter-Connolly/Page 11, NW Natural Response to Coalition DR 37, Attachment 2.

¹²⁷ *Id.* at 35-36.

¹²⁸ Exhibit Coalition/217, Apter-Connolly/Page 21, 40-41, NW Natural Response to Coalition DR 37, Attachment 7.

1 purports to offer customers the opportunity to mitigate GHG emissions, thereby encouraging
2 them to continue using gas utility service. In the alternative, advertising regarding the Smart
3 Energy program is corporate imaging institutional advertising, which falls into Category C. The
4 purpose of the program is to make customers feel like they are mitigating their carbon emissions
5 associated with their gas usage. By participating in this program, customers may conclude they
6 can responsibly maintain their gas service or level of gas consumption instead of disconnecting
7 service or at least reducing gas usage out of concern for climate impacts.

8 In its advertisements, NW Natural states that 90,000 people participate in the program,
9 and participants have mitigated 2 million MTCO_{2e} since the start of the program in 2007.
10 Annual customers have mitigated approximately 130,000 MTCO_{2e}. This amount is a tiny
11 fraction of NW Natural's existing annual carbon emissions of over 5 million MTCO_{2e}.¹²⁹ Rather
12 than disclosing the actual impact of their GHG emissions, the Smart Program encourages
13 customers to maintain existing gas usage without meaningfully mitigating a customer's
14 emissions. Accordingly, advertising for the Smart Energy Program is promotional.

15 **Q. What actions do you recommend the Commission take with respect to the**
16 **advertisements you have discussed?**

17 A. We recommend the Commission deduct all costs associated with advertising on the
18 following topics: (i) NW Natural's community service activities, (ii) rebates and offers for gas
19 appliances, (iii) advocacy against Oregon's climate policy, (iv) the Smart Energy program. As
20 explained above, advertisements on these topics should be categorized as either Category C or
21 Category D advertising. NW Natural does not seek recovery for either of these categories of
22 advertising in this rate case (nor should it).

¹²⁹ See Coalition/100, Testimony of Brad Cebulko for a discussion of NW Natural's emissions.

1 **Q. What reductions to NW Natural's Category A Test Year budget do you recommend?**

2 A. Based on a review of NW Natural's proposed Category A advertising budget for the test
3 year, we recommend deducting \$310,641. As explained above, NW Natural's e-newsletters, bill
4 inserts, and website content is rife with advertising that should have been charged below the line
5 as Category C or D advertising. Considering NW Natural's continued and flagrant violation of
6 the restrictions on advertising spending under Oregon law, we recommend deducting all costs
7 associated with these items from its Test Year Budget.¹³⁰

8 C. NW NATURAL'S INCLUSION OF PROMOTIONAL OR INSTITUTIONAL,
9 AND NONUTILITY ADVERTISING IN ITS CATEGORY B BUDGET.

10 **Q. What types of advertising are gas utilities legally mandated to provide.**

11 A. We understand that certain safety related messages are required by Pipeline and
12 Hazardous Materials Safety Administration ("PHSMA"), 49 C.F.R. §§ 192.616, and 195.440,
13 which incorporate by reference the Recommended Practice API 1162 ("RP-1162"). PHMSA's
14 regulation regarding¹³¹

15 The operator's program must specifically include provisions to educate the public,
16 appropriate government organizations, and persons engaged in excavation related
17 activities on:

18 (1) Use of a one-call notification system prior to excavation and other damage
19 prevention activities;

20 (2) Possible hazards associated with unintended releases from a gas pipeline
21 facility;

22 (3) Physical indications that such a release may have occurred;

23 (4) Steps that should be taken for public safety in the event of a gas pipeline
24 release; and

¹³⁰ Confidential Exhibit Coalition/244, NW Natural Confidential Response to Coalition DR 117, Attachment.

¹³¹ 49 C.F.R. § 192.616(d).

1 (5) Procedures for reporting such an event.

2 (e) The program must include activities to advise affected municipalities, school
3 districts, businesses, and residents of pipeline facility locations.

4 This regulation requires advertising about preventing leaks from pipelines and detecting leaks of
5 gas from pipelines.

6 **Q. What concerns do you have about NW Natural's Category B advertisements?**

7 A. Many of the advertisements booked by NW Natural to its Category B advertising budget
8 are on topics unrelated to pipeline safety. NW Natural provided a copy of all the advertisements
9 booked to its Category B budget during the Base Year. These advertisements included television
10 ads, which the Coalition does not challenge.

11 However, digital and print advertisements included assorted topics unrelated to
12 preventing leaks from gas pipelines, including:¹³²

- 13 • Using ventilation from hood fans while cooking on gas stoves;
- 14 • How to properly install gas appliances;
- 15 • Operating gas appliances during an electricity black out;
- 16 • NW Natural's "tightest and newest pipeline networks for safety and reliability."

17 A review of internal communications strategy documents also reveals that <<BEGIN

18 CONFIDENTIAL>> [REDACTED]

19 [REDACTED]

20 [REDACTED] <<END CONFIDENTIAL>> NW Natural is not legally mandated to provide

¹³² Exhibit Coalition/219, NW Natural Response to Coalition DR 39, Attachment 2.

¹³³ Confidential Exhibit Coalition/245, Apter-Connolly/Page 21, 47, NW Natural Confidential Response to Coalition DR 117, Attachment 2.

1 information on any of the aforementioned topics, and for that reason these advertisements cannot
2 be booked to the Category B budget.

3 **Q. What recommendations do you make regarding NW Natural's Category B budget**
4 **for the Test Year?**

5 A. We recommend the Commission deduct all costs for advertising unrelated to preventing
6 leaks from gas pipelines. Based on a review of NW Natural's proposed Category B advertising
7 budget for the test year, we recommend making a deduction of \$80,000. NW Natural anticipates
8 spending \$80,000 on its bill inserts as part of its Test Year budget.¹³⁴ In light of promotional
9 advertising in bill inserts included in its Category B advertising, we recommend deducting these
10 costs.

11 D. ADDITIONAL CONCERNS REGARDING NW NATURAL'S
12 PROMOTIONAL CONCESSIONS

13 **Q. Do you have any additional concerns regarding NW Natural recovering promotional**
14 **concessions from ratepayers?**

15 A. Yes. NW Natural seeks recovery for its costs related to an event it hosts called the "Street
16 of Dreams." In the words of the company, the Street of Dreams event is:

17 part of an overall event partnership for communicating information about natural
18 gas and associated appliances to customers and the general public. Home
19 showcases demonstrate to the public the value of gas (operating cost, efficiency,
20 resiliency, comfort and convenience). Customers and the general public (as home
21 buyers) have a very strong interest in gas amenities and these demonstration homes
22 provide an opportunity to learn about, and reinforce the value of, these appliances.
23 ¹³⁵

¹³⁴ Exhibit Coalition/214, NW Natural Response to Coalition DR 5, Attachment 1.

¹³⁵ Exhibit Coalition/235, NW Natural Response to Coalition DR 206.

1 Activities that promote the use of gas are promotional concessions. Promoting gas appliances
2 and showcasing the benefits of gas is a promotional activity. NW Natural states it does not seek
3 recovery for any of its promotional concessions from ratepayers.¹³⁶ Nevertheless, NW Natural
4 seeks to recover \$23,000 in costs to fund its Street of Dreams.¹³⁷ We recommend disallowance of
5 these costs because they are promotional.

6 **Q. Is there any other evidence showing that NW Natural seeks recovery for**
7 **promotional concessions from ratepayers?**

8 A. Yes. NW Natural seeks recovery for costs associated with showcasing natural gas
9 products during home demonstration events, and for its meeting costs with homebuilders
10 associations and the Building Industry Association. We recommend deducting another \$19,300
11 associated with these costs.¹³⁸ Further, NW Natural admits it improperly charged costs associated
12 with its promotional concessions to regulated accounts. We recommend deducting an additional
13 \$73,007 associated with base year and test year costs for these promotional concessions.¹³⁹

14 E. SUMMARY OF RECOMMENDATIONS FOR ADVERTISING:

15 We recommend disallowing the following costs from the revenue requirement:

- 16 • \$310,641 from the company's Category A advertising budget for the test year
- 17 • \$80,000 from the company's Category B advertising budget for the test year
- 18 • \$115,307 in costs during the Base Year and Test Year that NW Natural improperly
19 charged to ratepayers for its promotional concessions.

¹³⁶ Exhibit Coalition/221, NW Natural Response to Coalition DR 73.

¹³⁷ Exhibit Coalition/236, NW Natural Response to Coalition DR 206, Attachment 1.

¹³⁸ An itemized accounting of each budgeted cost is included in Exhibit Coalition/209.

¹³⁹ Exhibit Coalition/220, NW Natural Response to Coalition DR 72.

1 In total, we recommend deducting \$505,948 from the revenue requirement associated with NW
2 Natural's improper expenditure of ratepayer funds on promotional, institutional, and political
3 advertising, and its pro-gas promotional concessions.

4 **V. NW NATURAL SHOULD NOT RECOVER ITS LOBBYING EXPENSES FROM**
5 **RATEPAYERS**

6 **Q. Please summarize your testimony regarding lobbying.**

7 A. Again, we are not practicing attorneys and all legal references are for context only. Our
8 testimony first provides an overview of the laws and practices governing recovery of government
9 affairs costs by Oregon public utilities, as we understand them. We then discuss concerns with
10 NW Natural's newly adopted lobbying policy, its implementation of the policy, and the measures
11 we seek to have the Commission take to better protect ratepayers from expenditures that do not
12 benefit them.

13 **Q. Please summarize your findings regarding the improper inclusion of lobbying**
14 **expenses in NW Natural's rate request.**

15 A. NW Natural's new policy too narrowly circumscribes what may *not* be billed to
16 ratepayers.¹⁴⁰ As a result, even if the company is following its own policy scrupulously, it is
17 improperly asking ratepayers to pay for lobbying activities. Further, NW Natural's tracking
18 mechanism neglects to provide the necessary assurance to stakeholders that the company is
19 properly following its policy—there is no way to audit company employee time. Specifically, the
20 company requires its employees to track *only* the time that meets the lobbying policy's
21 definition; that time is excepted and is not charged to ratepayers. <<BEGIN CONFIDENTIAL>>

22 

¹⁴⁰ NW Natural/1200, Williams/Page 4.

1 [REDACTED]
2 [REDACTED] <<END CONFIDENTIAL>> Further, because employees do not report how they
3 are spending their time when they do *not* believe it constitutes lobbying, stakeholders have no
4 means by which to confirm employees are appropriately categorizing their time.¹⁴²

5 **Q. Please summarize your recommendations regarding the deduction of costs for**
6 **lobbying.**

7 A. We recommend the Commission hold the Company responsible for failing to address the
8 concerns raised by the Commission in Order No. 22-388 and previous Commission precedent.
9 Since NW Natural continues to evade attempts by the Commission and stakeholders to ensure
10 the company does not charge ratepayers for its promotional and lobbying activities, the
11 Commission should disallow recovery for NW Natural's governmental affairs employees.
12 Ratepayers should not be forced to pay for lobbying or political activities they do not agree with,
13 that undermine Oregon's climate goals, and that are focused on promoting the utility. If the
14 company cannot provide actual evidence that its employees are engaged in properly recoverable
15 activities, the assumption should be that they are not.

16 A. OREGON LAW PROHIBITS RECOVERY OF UTILITY LOBBYING COSTS
17 FROM RATEPAYERS

18 **Q. How does the Commission treat political activities in utility rate cases?**

19 A. The Commission has held that:
20 Ratepayers should not be required to contribute to the advancement of political
21 position in which they may not believe. Exclusion of political expenditures is even
22 more important than exclusion of community affairs expenditures because a
23 utility's lobbying program can actually harm ratepayers. Stockholder interests with
24 respect to issues such as the nature and scope of regulation often conflict with

¹⁴¹ Confidential Exhibit Coalition/249, NW Natural Confidential Response to Coalition DR 165.

¹⁴² Exhibit Coalition/228, NW Natural Response to Coalition DR 144.

1 ratepayer interests. A utility's lobbying program can be expected to give preference
2 to stockholder interests when issues such as those arise.¹⁴³

3
4 **Q. Please describe the Commission's holding in response to NW Natural's request to**
5 **recover expenses associated with its lobbying and political efforts in UG 435.**

6 A. In its order evaluating the first partial stipulation in UG 435, the Commission concluded
7 that NW Natural and the settling parties had not met their burden of proof and agreed with the
8 Coalition that the company bore the burden of production to demonstrate that its expenses
9 underlying that Test Year did not include communications and interactions that were "political in
10 nature."¹⁴⁴ Additionally, the Commission pointed out that the company argued simultaneously
11 that the costs of engaging on topics that are political in nature were not included in rates, but also
12 that they *were* included in rates.¹⁴⁵ Specifically, the company argued that communications around
13 gas bans were *not* political activities. While the Commission agreed that communications
14 providing routine information about the company and the gas system do not constitute lobbying,
15 communications intended to influence public officials *do* constitute lobbying.¹⁴⁶ The
16 Commission adjusted the stipulation to deduct \$356,106 in improper lobbying expenditures.¹⁴⁷

17 **Q. Did the Commission provide any other direction to NW Natural about how it**
18 **expected the company to provide information about its government affairs' activity?**

¹⁴³ *In re Pac. Nw. Bell Tel. Co., Am. Network, Inc., et al.*, UT 43, Order No. 87-406, 82 P.U.R. 4th 293, 320 (Mar. 31, 1987).

¹⁴⁴ *In re NW Natural Request for a General Rate Revision*, Docket No. UG 435, Order No. 22-388 at 22.

¹⁴⁵ *Id.* at 22.

¹⁴⁶ *Id.* at 23.

¹⁴⁷ *Id.* at 22.

1 A. Yes. The Commission expressed its expectation that NW Natural would provide “detailed
2 expense information that clearly categorizes its activity.”¹⁴⁸ The Commission anticipated that, for
3 example, activity whereby the company engaged in an “informational capacity *in response to*
4 local government requests for assistance in developing and meeting climate policies” would be
5 acceptable, but that “engaging with local governments with an intention to advocate against
6 particular policies and develop support for others” would not.¹⁴⁹ The Commission commented
7 that its “precedent is similar to FERC’s regulations prohibiting political activities and
8 lobbying.”¹⁵⁰

9 **Q. What does the Federal Energy Regulatory Commission’s regulation on non-**
10 **recoverable expenditures of this kind state?**

11 A. FERC’s regulation guiding treatment of expenditures “for certain civic, political and
12 related activities” is in 18 C.F.R. Section 367.4264. The regulation reads as follows:

13 (a) This account must include expenditures for the purpose of influencing public
14 opinion with respect to the election or appointment of public officials, referenda,
15 legislation, or ordinances (either with respect to the possible adoption of new
16 referenda, legislation or ordinances or repeal or modification of existing referenda,
17 legislation or ordinances) or approval, modification, or revocation of franchises; or
18 for the purpose of influencing the decisions of public officials.

19
20 (b) This account must not include expenditures that are directly related to
21 appearances before regulatory or other governmental bodies in connection with an
22 associate utility company’s existing or proposed operations.

23 **Q. How is FERC’s regulation different from Commission precedent?**

24 A. As the Commission stated in Order No. 22-388, it considers FERC’s regulation similar to
25 its treatment of lobbying expenses. Of course, the Commission has its own statutory authority to

¹⁴⁸ *Id.* at 23.

¹⁴⁹ *Id.* at 23 (emphasis added).

¹⁵⁰ *Id.* at 22, citing 18 C.F.R. § 367.2464(a).

1 use its powers to “protect . . . customers, and the public generally, from unjust and unreasonable
2 exactions and practices and to obtain for them adequate service at fair and reasonable rates.”¹⁵¹
3 The Commission properly used that discretion to provide additional direction to NW Natural in
4 Order 22-388 as described above.

5 B. NW NATURAL’S NEW POLICY IS TOO NARROW AND DOES NOT
6 PROVIDE SUFFICIENT TRANSPARENCY TO ENSURE COMPLIANCE
7 WITH LOBBYING RESTRICTIONS

8 **Q. What is NW Natural’s current policy regarding lobbying expenditures?**

9 A. NW Natural reports that it has created a time tracking requirement by which employees
10 identify time in which they are engaged in a “lobbying communication” with a “legislative
11 body,”¹⁵² which is then allocated to non-recoverable cost centers. A “legislative body” does not
12 include a “judicial, executive, or administrative body (e.g., Department of Environmental
13 Quality, Department of Energy, Treasury, school boards, housing authorities, sewer and water
14 districts, zoning boards), whether elected or appointed.”¹⁵³ Under the company’s policy, a
15 “lobbying communication” is

16 “any communication with any member or employee of a legislative body, or with
17 any governmental official or employee who may participate in the formulation of
18 legislation. A lobbying communication includes communications intended to
19 influence the general public, or any segment, with respect to elections, legislation,
20 or initiatives/referendums. This includes attempts to urge or encourage the public
21 to contact members of a legislative body for the purpose of proposing, supporting
22 or opposing legislation. A lobbying communication must include an attempt to
23 influence and does not include communications intended to educate or inform
24 (unless that communication also includes support or opposition).”¹⁵⁴

¹⁵¹ ORS 756.040.

¹⁵² NW Natural/1200, Williams/Page 4.

¹⁵³ *Id.*

¹⁵⁴ *Id.*

1 **Q. Do you find anything problematic about the policy?**

2 A. NW Natural too narrowly confines its policy to just “legislative bodies” and not executive
3 or other governing bodies. For example, it does not consider time it spends promoting its
4 business to the DEQ, Department of Energy, Treasury, or local bodies like school boards,
5 housing authorities, sewer and water districts, and zoning boards, *even if that communication*
6 *would constitute a “lobbying communication.”*¹⁵⁵ Although Ms. Williams does not say this, her
7 description of NW Natural’s new policy would also allow employees to lobby executive officials
8 and the Governor’s office.

9 Also, while NW Natural views lobbying to include communications intended to influence
10 the public on *legislative* matters,¹⁵⁶ its overly narrow definition of lobbying allows it to charge
11 ratepayers for the exact same communications if directed at DEQ, DOE, PUC, and local boards
12 when there is no reason to differentiate those types of communications other than the recipient of
13 the communication. Thus, under its existing lobbying policy, NW Natural could encourage the
14 public to engage in the public hearing for this rate case, and that activity would not be recorded
15 in its exception time reporting. For the reasons described below, this activity is undoubtedly a
16 political activity—and no costs associated with such activity should be charged to ratepayers.

17 **Q. Do you have any thoughts about the testimony provided to the Commission during**
18 **the April 16, 2024, public hearing on NW Natural’s rate increase?**

19 A. Yes. We were both surprised to hear numerous organizations, including homeowners and
20 representatives of chambers of commerce, testify in favor of NW Natural’s proposed LEA. As
21 we discuss below, many of these entities receive financial support from NW Natural in the form

¹⁵⁵ *Id.*

¹⁵⁶ *Id.*

1 of memberships and dues—which the company seeks to recover from ratepayers. Further, the
2 messaging appeared choreographed, making us wonder if the company asked these organizations
3 to submit testimony in this rate case.

4 Directing the public to engage in political action is lobbying. However, NW Natural’s
5 current policy does not describe this activity as lobbying, because its lobbying policy only
6 requires employees to track commissions with legislative bodies. Administrative bodies, such as
7 the Commission, are not covered by the policy as described earlier.

8 We have serious concerns with allowing NW Natural to recover salaries and overhead
9 associated with any activities to organize the public, businesses or organizations to participate in
10 the hearing for this rate case. NW Natural may be using its paid influence with homebuilder
11 associations and chambers of commerce to advocate for policies and rate increases that harm
12 ratepayers, and asking those same ratepayers to pay for it through their rates. We think this is
13 prohibited political activity.

14 **Q. Is NW Natural allowed to recover some costs associated with communication with**
15 **regulatory agencies?**

16 A. Yes. The federal definition of political activity specifically excludes the following type of
17 costs: “expenditures that are directly related to appearances before regulatory or other
18 governmental bodies in connection with a utility company’s existing or proposed operations.”¹⁵⁷
19 Under the federal definition, participation by a utility in regulatory dockets before the
20 Commission, or providing information to an administrative agency in a statewide rulemaking
21 process that would affect a utility’s existing operations are not considered political activities.
22 However, contacting regulatory or administrative bodies at the state or local level, or

¹⁵⁷ 18 C.F.R. § 367.4264.

1 encouraging the public to do so, for the purpose of influencing rulemakings or policies, are still
2 considered political activities, because these actions seek to influence a “public official.”

3 **Q. Why should the Commission be concerned about these other government bodies,
4 many of whom regularly participate in legislative efforts?**

5 A. Attempting to influence public officials outside of regulatory dockets, or public comment
6 periods is lobbying. There is no logical justification to consider legislative lobbying a below-the-
7 line expense but lobbying administrative officials and other governing bodies an acceptable
8 ratepayer charge (other than for the purposes of providing information in a regulatory
9 proceeding). The same concerns exist in each context—influencing or attempting to influence
10 individuals in power. This is especially true where, as here, the main climate regulation gas
11 utilities are subject to was adopted by an agency and not the legislature. When ratepayers have
12 no alternative to a utility monopoly, they should not be required to pay for any political activity,
13 no matter to whom it is directed. The Commission is the first defense to protect customers from
14 being forced to pay for political activities.

15 **Q. In your view does NW Natural’s policy respond to the Commission’s direction in UG
16 435?**

17 A. No. NW Natural’s new policy limits its application to legislative actions alone.
18 Additionally, the policy does not expressly indicate that NWN will only bill time associated with
19 “*responding*” to inquiries, as opposed to proactively approaching government bodies, a
20 distinction the Commission called out in UG 435.¹⁵⁸ This distinction is important. Proactively
21 reaching out to legislators and other public officials to purportedly educate the recipient about

¹⁵⁸ See Order No. 22-388 at 23.

1 gas utility service, by offering information the recipient did not seek on their own, is an attempt
2 to influence the decisionmaker.

3 Further, the tracking NW Natural provided in response to Coalition data requests is not
4 the kind of detailed reporting the Commission directed; based on what the company has
5 provided, we are not assured that the company is abiding by federal and state law because the
6 company does not track the non-expected time¹⁵⁹ and because <<BEGIN CONFIDENTIAL>>

7 [REDACTED]

8 [REDACTED]

9 [REDACTED] <<END

10 CONFIDENTIAL>> As a result, there is no way to confirm whether the NW Natural personnel
11 who engaged in lobbying are complying with Commission precedent, or even with NW Natural's
12 new lobbying policy.

13 **Q. In your view, is NW Natural's policy consistent with the federal regulation relied on**
14 **by NW Natural?**

15 A. No. NW Natural's policy purportedly relies on 18 C.F.R. § 367.4264(a), but it appears to
16 neglect to consider the federal prohibition on charging ratepayers for lobbying used "for the
17 purpose of influencing the decisions of public officials" which reaches beyond the legislative-
18 related lobbying described in the first clause of the federal regulation. NW Natural's new policy
19 limits its application to legislative activities only and does not consider "influencing the
20 decisions of public officials" in other venues to be lobbying.

¹⁵⁹ Exhibit Coalition/230, NW Natural Response to Coalition DR 164.

¹⁶⁰ Confidential Exhibit Coalition/247, NW Natural Confidential Response to Coalition DR 145, Attachment 1.

1 **Q. What lobbying or political activities has NW Natural recorded pursuant to its new**
2 **lobbying policy for the Base Year?**

3 A. The company admits that it is engaging in extensive lobbying activities, as documented in
4 its exception time reporting. It reports that for 2023, \$775,673 was charged to FERC 426.4 (up
5 from \$506,223 in 2022); these costs are not included in the revenue requirement.¹⁶¹ The
6 remaining \$1.6 million was charged to FERC 921 in 2023 (up from \$1.3 million in 2022) and is
7 included in the revenue requirement.¹⁶² NW Natural employs <<BEGIN CONFIDENTIAL>>

8 [REDACTED]

9 [REDACTED]

10 [REDACTED] <<END CONFIDENTIAL>> These employees are responsible for
11 maintaining relationships with, and influencing, public officials to take positions that benefit the
12 company's shareholders.¹⁶⁴

13 C. NW NATURAL SEEKS RECOVERY FROM RATEPAYERS FOR ITS
14 LOBBYING EXPENSES

15 **Q. Please explain what costs NW Natural seeks to recover related to its government**
16 **affairs activities.**

17 A. NW Natural reports that it has included \$1,725,922 in its Test Year for public policy and
18 government affairs office staff.¹⁶⁵

¹⁶¹ Exhibits Coalition/241 and 242, NW Natural Response to OPUC DR 343, and Attachment 1.

¹⁶² *Id.*

¹⁶³ Confidential Exhibit 248, NW Natural Confidential Response to Coalition DR 164.

¹⁶⁴ *See, e.g.* Confidential Exhibit Coalition/250, NW Natural Confidential Response to Coalition DR 174, Attach. 1.

¹⁶⁵ Exhibit Coalition/242, NW Natural Response to OPUC DR 343, Attach. 1.

1 **Q. Does NW Natural seek recovery for personnel costs associated with “exception**
2 **time” reported pursuant to its new policy.**

3 A. NW Natural reports that it does not seek recovery of exception time.

4 **Q. Does NW Natural seek to recover any costs from ratepayers for political activities?**

5 A. Yes. First, as we explained above, the underinclusive nature of NW Natural’s new
6 lobbying policy means that it has undercounted the number of hours (and the costs) of its
7 employees engaging in below-the-line activities. NW Natural must have included costs related to
8 attempting to influence non-legislative public officials, because it does not view that activity as
9 lobbying. Further, it must have included time beyond *responding* to public official inquiries
10 because, again, it does not view that activity as lobbying. Further, because NW Natural’s tracking
11 mechanism is insufficient to reflect that it is complying with Oregon and federal law, it has failed
12 to demonstrate that it is complying with Order No. 22-388 or previous Commission precedent.
13 Its current tracking mechanism reveals only what the *company* believes is lobbying, leaving no
14 means by which the Commission or stakeholders can confirm whether NW Natural’s employees
15 have properly characterized their time. Finally, as described above, the excepted time tracking
16 mechanism does not contain enough information to clarify the nature of communications
17 between NW Natural employees and government officials.¹⁶⁶ For all these reasons, the company
18 has failed to meet its burden of proof to show the expenses for its government affairs employees
19 are just and reasonable.

20 We know, for example, that government affairs employees <<BEGIN

21 CONFIDENTIAL>> 

¹⁶⁶ Confidential Exhibit Coalition/247, NW Natural Response to Coalition DR 145, Attachment 1.

1 [REDACTED]
2 [REDACTED]
3 [REDACTED]
4 [REDACTED]
5 [REDACTED]
6 [REDACTED]

7 <<END CONFIDENTIAL>> This is a description of lobbying. Similarly, Nina Carlson, NW
8 Natural's Government Affairs Manager, invited City of Portland staff to a Modest Mouse
9 concert.¹⁶⁹ Without logging non-exception time reporting, it is impossible for the Commission or
10 stakeholders to be assured that these employees are not inappropriately categorizing their time.

11 **Q. What concerns do you have about allowing NW Natural to recover over \$1.7 million
12 for its government affairs employees from ratepayers?**

13 A. We have several concerns. As described above, NW Natural's policy is too narrow, its
14 exception time reporting policy fails to encompass all political activities, as defined under
15 FERC's definition for lobbying and Oregon law, and its adopted tracking mechanism fails to
16 provide the kind of detailed reporting directed by the Commission in Order No. 22-388. For
17 these reasons, NW Natural employees have undercounted the total hours that should have been
18 billed below the line as lobbying costs. A close look at employees and their duties, such as

19 <<BEGIN CONFIDENTIAL>> [REDACTED] <<END CONFIDENTIAL>> and Nina Carlson,

¹⁶⁷ Confidential Exhibit Coalition/249, NW Natural Confidential Response to Coalition DR 165.

¹⁶⁸ Confidential Exhibit Coalition/243 <<BEGIN CONFIDENTIAL>> [REDACTED] <<END
CONFIDENTIAL>>

¹⁶⁹ Exhibit Coalition/212, City of Portland, Public Records Request, Email from Nina Carlson to Jillian Schoene (Sept. 5, 2023).

1 is necessary to determine whether the split in salary above-the-line and below-the-line is lawful.
2 It is important to demand transparent and detailed accounting and reporting to ensure that the
3 utility is not padding some of its expenses since the Commission removed a portion of its
4 government affairs budget in Order No. 22-388. Finally, the company had an opportunity to learn
5 from its 2022 rate case, in which it argued simultaneously that activity was lobbying, but also
6 that it was not; now the Commission must step in to protect customers from being forced to fund
7 NW Natural's political spending.

8 For these reasons, the company has not met its burden of proof that cost recovery of
9 \$1,725,922 for NW Natural's Government Affairs department is just and reasonable; we do not
10 believe it has done so.

11 **VI. THE COMMISSION SHOULD DENY RECOVERY FOR TRADE AND BUSINESS**
12 **ASSOCIATION FEES AND DUES**

13 **Q. How much has NW Natural paid for memberships fees and dues?**

14 A. The total allocated to Oregon for the 2023 Base Year is \$938,127. For the 2025 Test Year,
15 NW Natural indicates that the Oregon allocated amount is \$995,352.¹⁷⁰

16 **Q. What expenses related to membership fees or dues is NW Natural seeking to recover**
17 **from its Oregon ratepayers?**

18 A. NW Natural seeks the entire \$995,352 that is allocated to Oregon.¹⁷¹

¹⁷⁰ Exhibit Coalition/231, NW Natural Response to Coalition DR 168; Exhibit Coalition/240, Apter-Connolly/Page 1, NW Natural Response to OPUC DR 130, Attach. 2 (summary tab).

¹⁷¹ Exhibit Coalition/231, NW Natural Response to Coalition DR 168.

1 **Q. What do these membership fees and dues payments include?**

2 A. There are several categories, including gas and utility industry associations, chambers of
3 commerce, and what we consider gas utility-adjacent associations. There are also many
4 organizations that fall outside of these groupings.

5 **Q. How much has NW Natural paid for its industry association dues?**

6 A. In 2023, NW Natural paid \$440,399 to the American Gas Association (AGA) and
7 \$118,057 to the Northwest Gas Association (NWGA).¹⁷²

8 **Q. Are those amounts the same for the Test Year?**

9 A. No. These amounts, and those that follow in our testimony, are unadjusted. NW Natural
10 provided the Oregon allocated amounts for some of the memberships, but for most, there is a
11 particular “Allocation Factor” percentage that must be applied.¹⁷³ For simplicity, we are using
12 the unadjusted figures as they appear in Exhibits Coalition/233, /234, /239, /240, attachments to
13 NW Natural’s Responses to OPUC DR 130 and Coalition 204. We do, however, provide a total
14 adjusted amount that should be disallowed in Exhibit Coalition/210.¹⁷⁴

¹⁷² Exhibit Coalition/233, NW Natural Response to Coalition DR 204, Attach. 1. NW Natural also provided over \$30,000 to the Western Energy Institute (WEI), a trade association for the energy industry generally, with a focus on the western U.S. and Canada. Exhibit Coalition/130, NW Natural Response to OPUC 130, Attach. 1; Western Energy Institute, *About Us*, <https://www.westernenergy.org/about-us/> (last visited Apr. 16, 2024).

¹⁷³ Compare Exhibit Coalition/233 (NW Natural Response to Coalition DR 204, Attach. 1) with Exhibits Coalition/239 and 240 (NW Natural Response to OPUC 130, Attach. 1 & 2.)

¹⁷⁴ Exhibit Coalition/210 was developed from information provided by NW Natural in response to discovery. Exhibits Coalition/239 and 240, NW Natural Response to OPUC DR 130, Attach. 1 (Q1-Q3) & Attach. 2 (Q4 Details tab); Exhibit Coalition/233, NW Natural Response to Coalition 204, Attach. 1.

1 **Q. Could you please provide a brief description of the industry associations you**
2 **mention in response to the prior question?**

3 A. The AGA is a national organization representing over 200 gas supply companies.¹⁷⁵
4 NWGA is also focused on the natural gas industry but regional in scope, representing six utilities
5 and four pipeline companies that operate in the Pacific Northwest.¹⁷⁶

6 **Q. How much has NW Natural paid to chambers of commerce?**

7 A. In 2023, NW Natural paid well over \$50,000 to dozens of chambers of commerce in
8 Oregon. The individual chambers are collected in Exhibit Coalition/210 to our testimony.

9 **Q. Could you provide a brief description of the chambers of commerce?**

10 A. NW Natural describes the chambers, in general, as working to “support vibrant local
11 business operating environments, addressing challenges facing businesses and identifying
12 economic opportunities, collaborating with local organizations to fill staffing and workforce
13 development needs, and providing member education and local leadership programs.”¹⁷⁷ This is
14 a revealing description, and we will return to it later in our testimony.

15 **Q. How much did NW Natural pay to the “utility-adjacent” groups in 2023?**

16 A. Some examples are \$140,000 to the North American Gas Heat Pump Collaborative;
17 \$30,000 to the Coalition for Renewable Natural Gas; \$17,500 to Our Nation’s Energy Future;
18 \$15,000 to the Renewable Hydrogen Alliance; and \$10,700 to the American Biogas Council.¹⁷⁸

¹⁷⁸ Exhibit Coalition/232, NW Natural Response to Coalition 204, Attach. 1 (North American Gas Heat Pump Collaborative; American Biogas Council); Exhibit Coalition/239, NW Natural

1 **Q. Could you provide a brief description of the utility-adjacent groups you mentioned**
2 **in response to the previous question?**

3 A. The mission of the North American Gas Heat Pump Collaborative “is to accelerate the
4 adoption of innovative gas technologies,” which, as its name suggests, appears to primarily
5 involve the promotion of gas heat pumps.¹⁷⁹ The Coalition for Renewable Natural Gas
6 “advocates and educates” for the development, deployment and utilization of renewable natural
7 gas.¹⁸⁰ Its work is intended to “protect and expand existing markets, and create[] additional and
8 diverse market demand” for renewable natural gas.¹⁸¹ Our Nation’s Energy Future describes
9 itself as having one goal: to reduce methane emissions across the gas system in order to “ensure
10 natural gas is around for decades to come.”¹⁸² The Renewable Hydrogen Alliance’s mission is to
11 “promote using renewable energy to produce hydrogen and other climate neutral fuels[.]”¹⁸³ The
12 American Biogas Council considers itself “the voice of the U.S. biogas industry[.]”¹⁸⁴ It

1 promotes the use of biogas by commenting on rulemakings,¹⁸⁵ sponsoring conferences,¹⁸⁶ and
2 developing webinars.¹⁸⁷

3 **Q. How has the Commission typically treated membership fees and dues?**

4 A. Such expenses are not appropriate when the organizational activities are not necessary for
5 utility service and do not benefit customers.¹⁸⁸ And the Commission disallows recovery of
6 expenses related to “charities, community affairs, and economic development organizations.”¹⁸⁹
7 While the Commission has previously allowed the recovery of a portion of membership dues, it
8 has also expressed concern that trade associations, specifically referring to the AGA, make
9 “significant expenditures” for nonrecoverable activities such as “promotion[] and marketing” and
10 thus a “greater portion” of dues might be disallowed in other rate cases.¹⁹⁰ As previously
11 discussed in our testimony, the Commission and federal law also both prohibit utilities from
12 recovering the costs of their political lobbying from ratepayers.

¹⁸⁸ *See In re Revised Tariff Schedules filed by Pacific Northwest Bell Telephone Company*, 82 P.U.R. 4th 293, 316 (Or. PUC 1987) (“Only expenditures necessary for furnishing utility service should be reflected in rates.”).

¹⁸⁹ *In the Matter of Portland Gen. Elec. Co.*, 2009 WL 214804, at *16 (Or. PUC Jan. 22, 2009).

¹⁹⁰ *In re Revised Tariff Schedules Filed by Northwest Natural Gas Company for a General Rate Increase*, 1989 WL 1793934, at *10 (Or. PUC 1989), (noting that Commission has “generally allowed” 75% of association dues but warning of the potential for larger disallowances if there is an “excessive” proportion of expenditures).

1 **Q. Why should the Commission disallow recovery of the trade association dues here?**

2 A. Troublingly, the trade associations that we have highlighted here commonly engage in
3 political activities and expend considerable efforts to market and promote gas utilities.
4 Consequently, their membership dues are not expenditures that benefit customers, and they are
5 not necessary for furnishing utility service.¹⁹¹

6 **Q. Could you describe AGA’s political advocacy?**

7 A. AGA regularly engages in lobbying and other political advocacy. AGA disclosed well
8 over \$1 million in federal lobbying in 2021 and 2023 and close to \$1 million in 2022.¹⁹² Indeed,
9 one of the AGA’s three “largest program services” is “government relations[.]” In this capacity,
10 AGA states that it,

11 [p]rovides AGA members with information on legislative developments; prepares
12 comments and filings regarding legislative activities, and represents the industry
13 before Congress and agencies. Government relations efforts focus on proposed
14 legislation.¹⁹³

15 Furthermore, the AGA has an affiliated political action committee, GASPAC.¹⁹⁴ GASPAC
16 donated approximately \$200,000 to federal political candidates during the 2022 election cycle

¹⁹¹ NW Natural supports a number of trade organizations such as the Oregon Restaurant and Lodging Association (ORLA); the National Association of the Remodeling Industry (NARI); Oregon Plumbing Heating Cooling Contractors Association (ORPHCC); Oregon Restaurant and Lodging Association (ORLA); and the Oregon Air Conditioning Contractors Association. Exhibits Coalition/239 and 240, NW Natural Response to OPUC 130, Attach. 1 & 2. NW Natural has not presented any information as to how ratepayers benefit from its payments to these groups.

1 and over \$120,000 so far 2023-24.¹⁹⁵ The AGA also made financial contributions to other
2 political action committees and party committees.¹⁹⁶

3 In 2020, AGA stated that its objective was to “expand efforts at the federal, state, and
4 local levels” to push back against the effort to transition away from fossil fuels.¹⁹⁷ Reporting
5 from 2021 confirmed that the AGA was “actively involved in passing state-level bills” to block
6 climate action, and an AGA vice president of governmental affairs and public policy stated at one
7 industry conference that the association has helped run ““pro-gas choice legislation”” in various
8 states.¹⁹⁸

9 **Q. How does AGA promote and market the continued use of gas?**

10 A. The efforts by AGA include spreading misinformation about the public health impacts of
11 gas cooking, going so far as to commission a toxicologist who how has worked to defend the
12 tobacco and plastics industries from public health claims, even as the AGA internally
13 acknowledged that stove gas combustion results in the emission of various contaminants.¹⁹⁹ The
14 AGA also engages in advertising to promote the continued use of fossil gas and has recruited

1 social media influencers for a “#cookingwithgas campaign.”²⁰⁰ The collection of Fact Sheets on
2 AGA’s website provide numerous example of advocacy to promote continued gas use.²⁰¹ Some
3 of its regulatory advocacy benefits utilities at the expense of ratepayers; for instance, AGA has
4 participated in Department of Energy rulemakings to oppose more stringent appliance efficiency
5 standards.²⁰²

6 **Q. Could you describe NWGA’s political advocacy and promotional activities?**

7 A. NWGA describes itself as “assertive advocate” and the “tip of the spear” for public
8 policy issues.²⁰³ At the start of the 2023 legislative sessions in Washington and Oregon, NWGA
9 announced that it was “working with legislative leaders to craft new clean energy legislation that
10 uses the natural gas infrastructure to deliver safe, dependable and affordable energy Pacific
11 Northwest families and businesses.”²⁰⁴ In that role, NWGA directly lobbied against climate

²⁰⁴ NWGA, *Newsroom*, Press Releases, *The Northwest Gas Association Announces the Start of Session in Olympia & Salem* (Feb. 2, 2023), <https://www.nwga.org/post/northwest-gas-association-working-in-olympia-salem-for-clean-energy-future> (last visited Apr. 16, 2024).

1 policies in Oregon. As one recent example, NWGA unsuccessfully opposed the 2023 Climate
2 Resilience package (House Bill 3409) at the Oregon legislature, urging lawmakers to vote
3 “no.”²⁰⁵ NWGA previously opposed building code revisions in Washington that incentivize
4 electric space and water heating for commercial and multifamily construction.²⁰⁶ And generally
5 the group positions itself as objecting to “policies that promote or require all-electric
6 buildings.”²⁰⁷

7 **Q. How does NW Natural address the political advocacy and promotional activities of**
8 **AGA and NWGA?**

9 A. NW Natural’s justification of its membership dues to AGA and NWGA ignores the
10 groups’ political advocacy and promotional activities.²⁰⁸

11 **Q. Why should the Commission disallow recovery of the membership dues for the**
12 **various chambers of commerce?**

13 A. Oregon chambers of commerce frequently engage in political activities, and even absent
14 that activity, their membership dues are more appropriately classified as support for “community
15 affairs” or “economic development” organizations, which are not recoverable. As with trade

²⁰⁵ See Group Letter to the Oregon legislature (June 13, 2023) <https://olis.oregonlegislature.gov/liz/2023R1/Downloads/FloorLetter/3643> (last visited Apr. 16, 2024).

²⁰⁸ Exhibit Coalition/234, Apter-Connolly/Page 10-11, NW Natural Response to Coalition DR 204, Attach. 2.

1 associations, the chambers' membership dues are simply not expenditures that benefit NW
2 Natural ratepayers, and the money is not at all necessary for furnishing utility service.

3 **Q. Could you describe some of the chambers' political advocacy?**

4 A. As we noted, NW Natural supports dozens of chambers, and we have examined the
5 activities of a handful. The Oregon State Chamber of Commerce produced a 2024 legislative
6 report that noted its role of "advocat[ing] and monitor[ing]" proposed legislation, including
7 Senate Bill 1559.²⁰⁹ That bill would have set more aggressive GHG emissions reduction goals
8 for the state and was opposed by the State Chamber, finding it to be "highly problematic" for its
9 potential effects on industry.²¹⁰ The Albany Chamber of Commerce includes a Governmental
10 Affairs Committee, with a stated goal of "Championing Pro-Business Public Policy."²¹¹ The
11 Albany Chamber also has a political action affiliate, the Good Government Council, and together
12 they have produced and published candidate endorsements.²¹² The Tigard Chamber of
13 Commerce announces on its website that it "actively engag[es]" with government entities to
14 "influence policies that support a healthy business environment."²¹³ The Tigard Chamber
15 developed a Business Advocacy Agenda for 2022 that highlighted its state and local legislative

²¹³ Tigard Chamber of Commerce, *Advocacy*, <https://tigardchamber.org/about/advocacy/> (last visited Apr. 16, 2024).

1 priorities.²¹⁴ The Salem Chamber has political action committees that “raise funds to recruit and
2 support business friendly candidates and ballot initiatives.”²¹⁵ The Salem Chamber also produces
3 a Legislative Report Card, scoring legislators based on their voting records.²¹⁶ Again, this is just
4 a sampling of the chambers. As we noted previously, we are also concerned by the participation
5 of a number of representatives of the chambers at the remote public hearing held April 16, 2024,
6 in this matter in support of NW Natural.

7 **Q. How does NW Natural address the political advocacy of the chambers?**

8 A. NW Natural’s discussion of its membership dues to chambers does not address the
9 groups’ political activities. As we already noted, NW Natural describes the chambers as
10 “support[ing] vibrant local business operating environments, addressing challenges facing
11 businesses and identifying economic opportunities, collaborating with local organizations to fill
12 staffing and workforce development needs, and providing member education and local
13 leadership programs.”²¹⁷ But that summary only reinforces the fact that these membership dues
14 are more appropriately characterized as supporting “community affairs” or “economic
15 development” organizations, and tellingly, with only one exception, all of NW Natural’s internal
16 “Cost Center” designations for its chamber dues are coded “COMM & CIVIC AFFAIRS.”²¹⁸

²¹⁷ Exhibit Coalition/234, NW Natural Response to Coalition DR 204, Attach. 2.

²¹⁸ Exhibits Coalition/239 and 240, NW Natural Response to OPUC 130, Attach. 1 & 2; *see also* Exhibit Coalition/210 (excerpting entries for chambers of commerce).

1 Spending to support business communities in Oregon may be important to NW Natural, but it is
2 the kind of discretionary spending that should be borne by shareholders, not ratepayers.

3 **Q. Why should the Commission disallow recovery of the membership dues for the**
4 **various “utility adjacent” groups?**

5 A. As described above, these groups have focused purposes that are unrelated to the
6 provision of service to Oregon gas utility customers; they are instead primarily promote
7 continued or increased gas usage: promoting gas heat pumps; promoting the long-term viability
8 of the gas industry; and promoting the use of renewable natural gas, renewable hydrogen, and
9 biogas. Promotional expenses are not recoverable absent a showing these costs financial benefit
10 ratepayers, and NW Natural has not made such a showing here. Rather, the benefit to ratepayers
11 is tenuous at best.

12 **Q. Are there any other membership fees and dues that NW Natural seeks to recover**
13 **from Oregon ratepayers?**

14 A. Yes. NW Natural has allocated other memberships and dues to Oregon ratepayers. These
15 “other” memberships include the Home Building Association of Greater Portland (\$4,269) and
16 the Oregon Home Builders Association (\$1,000).²¹⁹

17 NW Natural also paid for memberships with a number of economic development groups:
18 \$25,000 to Greater Portland, Inc, a public-private partnership “dedicated to creating and

²¹⁹ Exhibit Coalition/233, NW Natural Response to Coalition DR 204, Attach. 1. NW Natural additionally paid a \$3,500 application fee to Ethisphere, resulting in a “third consecutive” recognition as one of the “World’s Most Ethical Companies.” Exhibit Coalition/234, Apter-Connolly/Pages 4-5; Exhibit Coalition/240, Apter-Connolly/Page 2, NW Natural Response to OPUC 130, Attach. 2, cell 34. Ethisphere has in the past received criticism for its questionable business model. David Lazarus, *The Ethics of Firms Paying to be Honored for Ethics*, Los Angeles Times (Oct. 27, 2014), <https://www.latimes.com/business/la-fi-lazarus-20141028-column.html> (last visited Apr. 16, 2024).

1 expanding jobs” and driving prosperity in the Portland area; \$5,750 to the Columbia Economic
2 Team, a public-private organization intended to “promote the creation, retention, growth, and
3 attraction of business and industry” in Columbia County; \$2,500 to the South Coast
4 Development Council, devoted to “pursuing economic development opportunities” on the
5 southern Oregon coast; \$1,600 to the Strategic Economic Development Corporation, dedicated to
6 the economic growth of the Willamette Valley; \$1,100 to the Westside Economic Alliance, which
7 advocates for a “healthy economy on the Westside of the Portland, Oregon metropolitan region,”
8 and \$920 to the Columbia Corridor Association, a business group committed to “promoting and
9 enhancing the viability” of the region bordering the Columbia River.²²⁰

10 **Q. Are these “other” membership dues recoverable from ratepayers?**

11 A. NW Natural’s only justification for the home builders’ organizations is that its customers
12 “benefit from a strong building industry trade association.”²²¹ That reasoning is inadequate to
13 demonstrate that ratepayers benefit to the degree that they should be burdened with the expense.
14 It also fails to address the political advocacy undertaken by the building trades. The Oregon
15 Home Builders Association opposed House Bill 3152, which was in part designed to curtail line

²²⁰ Exhibit Coalition/230, NW Natural Response to OPUC 130, Attach. 1, cells 19, 21, 36, 215, 218, and 230; Greater Portland, Inc., *About Us*, <https://www.greaterportlandinc.com/about-us>; Columbia Economic Team, *About*, <https://columbiaeconomicteam.com/about/>; South Coast Development Council, *The Council*, <https://www.scdcinc.org/the-council>; Strategic Economic Development Corporation, <https://www.sedcor.com/>; Westside Economic Alliance, *About Us*, <https://westsidealliance.org/about-us/>; Columbia Corridor Association, *About CCA*, <https://www.columbiacorridor.org/#about-cca> (all sites last visited Apr. 16, 2024).

²²¹ Exhibit Coalition/234, Apter-Connolly/Page 7-8, 12-13, NW Natural Response to Coalition DR 204, Attach. 2.

1 extension allowances,²²² and the Home Building Association of Greater Portland submitted
2 comments supporting NW Natural’s line extension allowance proposal in this matter.²²³

3 NW Natural has not yet provided a rationale for the money provided to Greater Portland
4 Inc., the Columbia Economic Team, the South Coast Development Council, the Strategic
5 Economic Development Corporation, the Westside Economic Alliance, or the Columbia Corridor
6 Association. But, as with the chambers, these organizations are largely devoted to promoting
7 local businesses and economic growth, and as with the chambers, the membership dues are
8 viewed by NW Natural itself as supporting community and civic affairs.²²⁴

9 **Q. What is your final recommendation for membership fees and dues?**

10 A. We recommend that the Commission reject NW Natural’s request to recover its costs for
11 memberships and dues for the above-described organizations because they involve expenditures
12 on organizations that are either engaged in substantial political activity, or are organizations
13 engaged in community service, and economic development—none of which is recoverable from
14 ratepayers. We recommend a disallowance of \$801,277 for membership fees and dues in groups

²²² Witness Registration, House Comm. on Climate Energy and the Environment (March 1, 2023), <https://olis.oregonlegislature.gov/liz/2023R1/Downloads/CommitteeMeetingDocument/263110> (last visited Apr. 17, 2024); Climate Solutions, *Fact Sheet*, HB 3152 Utility Customer Protection Bill, <https://www.climatesolutions.org/sites/default/files/2023-03/HB%203152%20Utility%20Customer%20Protection%20Bill%20Fact%20Sheet.pdf> (last visited Apr. 17, 2024);

²²³ Comment, Home Building Association of Greater Portland, UG 490 (filed Apr. 16, 2024), <https://edocs.puc.state.or.us/efdocs/HPC/ug490hpc327913033.pdf> (last visited Apr. 17, 2024).

²²⁴ Exhibit Coalition/239, NW Natural Response to OPUC DR 130, Attach. 1, column B; cells 19, 21, 36, 215, 218, and 230 (“COMM & CIVIC AFFAIRS”). NW Natural also paid \$23,720 to the Oregon Business Council, a group NW Natural describes as devoted to “growing more well-paying jobs, increasing state per capita income . . . and substantially reducing poverty.” Exhibits Coalition/233 and Coalition/234, Apter-Connolly/Page 11, NW Natural Response to Coalition DR 204, Attach. 1 & 2. Still, it is unclear how this description justifies charging the membership dues to ratepayers.

1 that are engaged in political lobbying, promotion, and marketing, and / or community affairs and
2 economic development. This disallowance is recommend based upon Oregon allocated cost of
3 memberships and dues for the above described organizations, as detailed in Exhibit
4 Coalition/210.

5 **VII. ADDITIONAL REPORTING IS REQUIRED TO PROTECT RATEPAYERS, JUST AS**
6 **OTHER JURISDICTIONS HAVE DONE.**

7 **Q. Do you have any other recommendations for the Commission?**

8 A. Yes. NW Natural should be required to reflect in annual reporting and in all rate cases
9 greater information about:

10 A. Expenses for the purpose of influencing regulation or legislation, directly or
11 indirectly.

12 B. Expenses for the purpose of influencing public opinion about policy issues or
13 about the company's reputation;

14 C. Regulatory commission expenses, including how much the company spent on
15 different proceedings.

16 D. Contributions to 501(c)(3) and 501(c)(4) non-profits.

17 E. Any litigation the company files to overturn rules or statutes.

18 **Q. How have other public utilities commissions or states treated membership dues to**
19 **industry associations?**

20 A. California's Commission has specifically prohibited ratepayer funding of membership
21 activities such as: "legislative advocacy; legislative policy research; regulatory advocacy
22 (lobbying); regulatory policy research; advertising; marketing; utility operations and
23 engineering; finance, legal planning, and customer service; public relations; and general

1 administrative overhead.”²²⁵ It has denied allocating such costs to ratepayers where a utility
2 provided insufficient detail to determine whether such activities were included in association
3 dues. Similarly, the Kentucky Public Service Commission denied recovery of Edison Electric
4 Institute (EEI) dues where a utility failed to prove such costs should be recoverable and because
5 EEI engaged in “regulatory advocacy and public relations.”²²⁶ Colorado, Connecticut, Maine,
6 and New York have passed laws prohibiting utilities from charging customers for recovering
7 dues for associations that engage in lobbying or similar political activities.²²⁷ Recognizing the
8 concern over utilities’ ability to skirt accountability through the activities of third parties, FERC
9 has been examining its accounting treatment of industry association dues and certain civic,

Sess. 2021-2022 (N.Y. 2021), <https://legislation.nysenate.gov/pdf/bills/2021/S1556>; An Act to Require Transparency in Public Utility Advertising Expenditures, S.P. 146 – L.D. 325, Spec. Sess. 2023 (Maine 2023), <http://www.mainelegislature.org/legis/bills/getPDF.asp?paper=SP0146&item=5&snum=131>; An Act Strengthening Protections for Connecticut’s Consumers of Energy, S.B. 7, Reg. Sess. 2023 (Conn. 2023), <https://www.cga.ct.gov/2023/ACT/PA/PDF/2023PA-00102-R00SB-00007-PA.PDF>.

1 political, and related expenses, prompted by concerns over the lack of transparency and oversight
2 associated with such expenses.²²⁸

3 **Q. Are there any recent examples of commission inspection of utility promotional**
4 **expenditures?**

5 A. Responding to pressure from ratepayers and advocates, many state commissions have
6 increased scrutiny of lobbying expenditures by utilities to fulfill their duty to ensure expenditures
7 actually provide direct benefit to ratepayers. This examination has come during regular
8 proceedings of commissions and during investigations and audits opened specifically to look at
9 these matters.

10 In 2023, the West Virginia Public Service Commission ordered a focused management
11 audit of Monongahela Power Company and Potomac Edison Company ahead of a general rate
12 case²²⁹ to examine costs for civic and political activities that were lobbying or image-building
13 activities to ensure they were accounted for in the proper non-operating account. This audit was
14 ordered after a scandal involving bribery to pass Ohio House Bill 6 in 2019 involving First
15 Energy Companies.

16 New York's Public Service Law 114-a prohibits the commission from allowing recovery
17 in rates of membership dues in any entity that engages in legislative lobbying. In February 2024,
18 the New York State Department of Public Service released the results of an investigation it
19 undertook into National Fuel's expenditures on gas advocacy campaigns and whether it had

²²⁸ FERC, *Rate Recovery, Reporting, and Accounting Treatment of Industry Association Dues and Certain Civic, Political, and Related Expenses*, 86 Fed. Reg. 72958 (Dec. 23, 2021).

²²⁹ *Monongahela Power Co. and the Potomac Edison Co.*, Case No. 23-0270-E-GI, 2023 WL 2387982 (W.Va.P.S.C. March 2, 2023).

1 violated that law.²³⁰ The report found that National Fuel had charged membership dues for
2 associations engaged in lobbying activities to operational accounts. The report deducted these
3 costs and charged them to shareholders, and recommended National Fuel be required to file
4 additional reports of lobbying-related expenses for a period of time to facilitate focused oversight
5 by the commission.

6 In June 2023, the Louisiana Public Service Commission ordered an investigation into its
7 regulated utilities' use of ratepayer funds on political spending, including membership dues and
8 other contributions to lobbying organizations.²³¹ That proceeding is in its early stages.

9 **Q. What other steps have states taken, if any, to limit the recovery of lobbying expenses**
10 **by utilities?**

11 A. States are passing legislation to direct their public utility commissions to disallow
12 lobbying expenses, including membership dues, sponsorships, and other lobbying expenses. As I
13 mentioned above, Colorado,²³² Connecticut,²³³ and Maine²³⁴ passed legislation in 2023 to
14 prohibit the recovery of lobbying expenses in rates, including trade association dues. Ten other
15 states, Arizona, California, Illinois, Maryland, Minnesota, New York, Ohio, Pennsylvania, Utah,

²³⁰ NY Dep't of Public Service, *Review of Accounting and Expense Practices by National Fuel Gas Corporation Regarding Use of Funds Collected from Ratepayers*, Doc. No. 23-00512, at 1-2 (February 2024),

<https://documents.dps.ny.gov/public/Common/ViewDoc.aspx?DocRefId=%7B80DDB38D-0000-CC12-ACA5-1403C047AC83%7D>.

<https://lpscpubvalence.lpsc.louisiana.gov/portal/PSC/ViewFile?fileId=3rw%2fqty7%2boI%3d>.

²³² Colorado 2023 SB23-291 Section 3, CRS 40-3-114(2).

²³³ Connecticut 2023 Senate Bill No. 7, Public Act No. 23-102, Conn. Gen. Stat. 16-243gg.

²³⁴ Maine 2023 LD 325, Sec 1. 35-A MRSA Section 302.

1 and Virginia²³⁵ have proposed legislation in the 2024 legislative session. Most of the 2024
2 proposed legislation includes language to prohibit recovery of trade association dues,
3 sponsorships, and other indirect lobbying expenses.

4 **Q. What are the reporting requirements for those states that have enacted legislation**
5 **prohibiting the recovery of lobbying expenses by utilities? Is this information made**
6 **publicly available?**

7 A. Colorado,²³⁶ Maine,²³⁷ and Connecticut²³⁸ all require an annual itemized report to the
8 commission on the utility's compliance with the cost recovery prohibitions of their respective
9 laws. Of these, Connecticut's reporting requirements are the most extensive. Maine's²³⁹ statute
10 expressly requires that these reports be made publicly available on a website. Maine²⁴⁰ also
11 requires a quarterly report of "major political activities" undertaken by the public utility or an
12 affiliated interest.

13 **Q. What are the penalties, if any, for violating the statutes that prohibit the recovery of**
14 **lobbying expenses by utilities?**

²³⁹ Sec 1. 35-A MRS § Section 302(5).

²⁴⁰ Sec 1. 35-A MRS § Section 302(4).

1 A. Colorado allows its Commission to assess a non-recoverable penalty of unspecified
2 amount if it determines that a utility improperly recovered prohibited costs²⁴¹ and requires a
3 refund with interest of the recovered costs.²⁴²

4 **Q. Does this conclude your testimony?**

5 A. Yes it does.

²⁴¹ CRS 40-3-114(4)(a).

²⁴² CRS 40-3-114(4)(b).

WITNESS QUALIFICATION STATEMENT

NAME: Nora Apter

EMPLOYER: Oregon Environmental Council

TITLE: Director of Programs

ADDRESS: 537 SE Ash Street, Suites 205 & 206
Portland, OR 97214

EDUCATION: Bachelor of Arts, International Affairs
Lewis & Clark College, Portland, OR

EXPERIENCE:

Provided testimony or comments in a variety of PUC dockets from 2020 to 2023, including Executive Order 20-04 implementation related- proceedings, UM 2178, and UM 1930, as well as a number of PUC-related laws, including HB 2475, HB 2021 and HB 3141. Participate(d) in regulatory proceedings and serve(d) as a formal member of various state agency Rulemaking Advisory Committees, including for DEQ's Climate Protection Program (2021, 2023, and 2024) and Clean Fuels Program expansion rulemakings. I served as an expert in NW Natural's 2022 Request for a General Rate Revision, in UG 435.

Currently serve as a Commissioner and voting member on the Oregon Climate Action Commission and inform development of recommendations for statutory and administrative policies to achieve the State's emissions reduction goals.

Between 2012 and 2020, worked for U.S. Senator Ron Wyden and the Natural Resources Defense Council (NRDC) on a variety of public policy and environmental policy issues.

EXPERIENCE

OREGON ENVIRONMENTAL COUNCIL—Portland, OR

2020 - Present

Director of Programs

- Lead strategy and implementation for dynamic multi-issue environmental agenda supporting equitable policy progress on climate protection, toxic-free environments, clean and just transportation, and clean and plentiful water.
- Cultivate and maintain collaborative, trust-based relationships with Oregon state legislators, the Governor's office, agency leadership, and federal delegation; represent OEC in high-level strategy meetings with decision-makers and stakeholder leaders.
- Ensure that policies and projects are evaluated for equity implications and advance justice, equity, diversity, and inclusion goals.
- Serve in numerous state and local government advisory positions, including as voting member of the Oregon Climate Action Commission and formal representative on various priority agency Rulemaking Advisory Committees.
- Identify and implement systems, tools, metrics, and processes to enhance cross-programmatic coordination, inform decision-making, and maximize staff capacity and resources to advance advocacy goals.

Senior Program Director, Climate

- Developed and executed an ambitious climate policy agenda; direct and implement cross-cutting strategy on multiple, simultaneous advocacy campaigns across a multitude of partners, issues areas, and political arenas.
- Communicated policy positions and public engagement opportunities to partners, legislators, the media, and OEC membership, translating complex policy issues into digestible forms appropriate to the target audience.
- Prioritized and integrated equity and environmental justice in policy design, coalition engagement, and advocacy strategy, including by serving as appointed representative on DEQ Equity Advisory Committee.
- Collaborated with development team to identify resource needs, draft grant proposals and reports, and track and manage budgets.

Program Director, Climate

- Directed statewide climate advocacy campaigns to secure historic policy victories to deliver economy-wide greenhouse gas emissions reductions and accelerate an equitable transition to a clean energy future.
- Established and managed statewide coalition of over 50 environmental justice, labor, business, and clean energy organizations; led strategy development and drove engagement on statewide campaigns to advance policy protections.
- Developed strategic communication campaigns, including targeted reporter outreach, polling/message-testing, blogs/op eds, progress reports, organic and promoted social media, and digital ads, to influence public narrative and advance policy outcomes.

NATURAL RESOURCES DEFENSE COUNCIL—Washington, D.C.

2015 - 2020

Deputy Director of Federal Affairs

- Directed development and implementation of advocacy strategy on a broad portfolio of priority policy issues, including national campaigns to protect public lands, waters and wildlife from climate-change causing resource extraction, effectively pivoting approach, tools, and tactics to adapt to shifting political landscape and institutional goals.
- Facilitated effective coordination across the organization's policy, litigation, communications, and membership divisions to advance campaign strategy, ensure the alignment of advocacy work, and drive and deliver rapid response.
- Managed broad coalitions, established lasting strategic partnerships, engaged nontraditional allies, and elevated and centered environmental justice communities in developing and advancing federal environmental advocacy strategy.
- Represented NRDC in high-level meetings and negotiations with leaders in Congress and the administration, major donors, and national coalitions, and in the media, including extensive interviews/coverage in major national news outlets.

Legislative Advocate, Federal Affairs

- Developed proactive and reactive strategies to advance NRDC's legislative agenda and defend against congressional and administrative threats by working directly with policymakers and legislative staff on Capitol Hill.
- Established and maintained collaborative relationships with coalition partners to enhance advocacy before Congress.

UNITED STATES SENATE—Washington, D.C.

2012 - 2015

Legislative Aide for U.S. Senator Ron Wyden

- Led policy development and strategy, developed talking points and vote recommendations, and represented Senator Wyden in meetings on a broad portfolio of issues including small business, technology, immigration, foreign affairs, and defense.
- Established relationships and maintained constant communication with constituents and stakeholders in Oregon.
- Collaborated with colleagues and stakeholders to create needs-based solutions and introduce effective policy.

Legislative Correspondent for U.S. Senator Ron Wyden

- Tracked and leveraged omnibus legislation (e.g. NDAA, Farm Bill, appropriations, etc.) to advance legislative proposals.
- Gained expertise by meeting with a range of policy experts, constituents, stakeholders, and fellow congressional staffers.

EDUCATION & PROFESSIONAL TRAINING

LEWIS & CLARK COLLEGE—Portland, OR**2012***Bachelor of Arts - International Affairs Major, Economics Minor*

- Delivered qualitative thesis examining clean energy policymaking and the ‘greening’ of the major political parties in Germany.

EMERGE OREGON — Salem, OR**2022***Graduate - Signature Political Training Program*

- Completed in-depth, eight-month training program for prospective women political candidates the best practices in fundraising, networking, outreach, voter engagement, core campaign communications, political endorsements, and press.

HARVARD BUSINESS SCHOOL — Online**2023***Certificate - Financial Accounting*

- Earned certificate of completion in a seven-part course on the fundamentals of building, interpreting, and analyzing organizational budgets and financial statements.

WITNESS QUALIFICATION STATEMENT

NAME: Meredith Connolly

EMPLOYER: Climate Solutions

TITLE: Oregon Director

ADDRESS: 1300 SE Stark Street, Suite 207, Portland, OR 97214

EDUCATION: Boston College Law School, Juris Doctor
Santa Clara University, Bachelor of Science

EXPERIENCE:

Provided testimony or comments in a variety of PUC dockets from 2020 to 2023, including Executive Order 20-04 implementation related- proceedings, UM 2178, and UM 1930, as well as a number of PUC-related laws, including HB 2475, HB 2021 and HB 3141. Participate(d) in regulatory proceedings and serve(d) as a formal member of various state agency Rulemaking Advisory Committees, including for DEQ's Climate Protection Program (2024). I served on the Portland Utility Board for three years, upon appointment by the Mayor of Portland. I served on the Resilient Efficient Buildings Task Force from 2022 to 2023.

MEREDITH M. CONNOLLY

Climate Solutions

Oregon Director

Portland, OR: November 2017 – Present

Oregon Policy Manager

April 2016 – November 2017

- Lead Climate Solutions' campaigns to develop, advocate for and implement clean energy and climate policies and programs to accelerate Oregon's equitable transition to a carbon-free electric grid and all-electric buildings and vehicles.
- Build powerful and innovative coalitions that secure major climate policy victories in Oregon with a primary focus on state legislative and regulatory policy, as well as innovative local government and business progress. Strategic focus includes some federal and Congressional-level work as well.
- Serve as the senior representative for Climate Solutions in Oregon in a variety of settings, including governmental meetings, taskforces, conferences, and high priority campaigns and coalitions.
- Manage the operations of the Oregon office, leading a team of policy advocates and communications professionals based in Portland.
- Serve as Climate Solutions' primary spokesperson in the state, including media communications, public presentations, testimony in legislative and regulatory proceedings, and drafting content for organizational communications (e.g., fact sheets, reports, blogs, powerpoint presentations, and press releases).
- Partner with the Executive Director and development staff to raise funds to support the Oregon team's work, including major donor and foundation cultivation and successful annual fundraisers.
- Incorporate the organization's equity and environmental justice commitments in all aspects of the work.

Natural Resources Defense Council

Climate and Energy Attorney

Portland, OR: October 2012 – April 2016

Energy Law and Policy Fellow

San Francisco, CA: October 2011 – October 2012

- Developed, authored and implemented public policy, regulation and legislation focused on clean energy, public health, air quality and climate in collaboration with government and regulatory staff, elected officials, business leaders and broad-based coalitions.
- Strategically designed and led advocacy efforts in collaboration with national and state agencies and local partners to increase adoption of energy efficiency, renewable energy, and climate policies in India.
- Member of the NRDC international team that helped advocate for, and support the successful negotiations of, India's participation in the Paris Climate Agreement.
- Testified, prepared formal comments, and participated in regulatory renewable energy proceedings.
- Researched, analyzed and authored reports, issue briefs, fact sheets, media releases and blogs about climate and energy policy.
- Held and presented at international and national-level conferences, roundtables, and meetings with government officials, agencies, industry leaders and relevant stakeholders in the U.S. and India.
- Authored, applied for and maintained successful grants to sustain these projects.

Ropes & Gray LLP

Associate

San Francisco, CA: January 2010 – September 2011

Summer Associate

Boston, MA: Summer 2008

- Co-managed complex corporate transactions from term sheets through closing, including negotiating and drafting agreements for national and international mergers and acquisitions, venture capital financings, SEC annual filings, bond and tender offers, and initial public offerings.
- Managed junior associates and was primary contact for international and domestic clients and investors.

Education

Boston College Law School

Juris Doctor, *cum laude*, May 2009

Honors: Boston College Law Review, Senior Note Editor, 2007-2009

Activities: Environmental Law Society; National Mock Trial Team; Civil Litigation Clinic (Fall 2007)

Santa Clara University

Bachelor of Science, *cum laude*, Political Science and French, June 2006

Additional Information

- Admitted to Oregon State Bar (Member No. 130899), California State Bar (Member No. 268041)
- Recipient of Portland Business Journal's Forty Under 40 award (2020)
- Served 3 years as Board Member of Portland Utility Board (appointed by Mayor of Portland)
- Proficient in French

**COMPLAINT FOR
DECLARATORY AND
INJUNCTIVE RELIEF**

I. INTRODUCTION

1. In this action, Plaintiffs Jamon Rivera, Inland NW AGC, Spokane Homebuilder's Association, Washington State Association of UA Plumbers, Pipefitters, and HVAC/R Service Technicians, Condron Homes LLC, Paras Homes, LLC, Garco Construction Inc., National Propane Gas Association, and Citizen Action Defense Fund (the "Homeowners, Builders, and Suppliers"), and Avista Corporation, Cascade Natural Gas Corporation, and Northwest Natural Gas Company (the "Utilities"), collectively the "Coalition," seek declaratory and injunctive relief under federal law against enforcement of provisions of the Washington State Energy Code

**COMPLAINT FOR DECLARATORY AND
INJUNCTIVE RELIEF - 2**
Case No.

132285.0009/9391455.1

LANE POWELL PC
1420 FIFTH AVENUE, SUITE 4200
P.O. BOX 91302
SEATTLE, WASHINGTON 98111-9402
206.223.7000 Fax: 206.223.7107

1 that ban the use of natural gas appliances that are subject to regulation under the
2 federal Energy Policy and Conservation Act (“EPCA”).

3 2. Defendant Washington State Building Code Council has violated EPCA by
4 amending the Washington State Energy Code to outright ban the use of EPCA-
5 covered appliances in many cases.

6 3. By banning the use of EPCA-covered gas appliances, the Washington State
7 Energy Code interferes with commercial and consumer energy choice; jeopardizes
8 jobs; impairs commerce; and increases building and energy costs for Washington
9 residents and businesses.

10 4. The Washington State Energy Code has irreparably harmed the Coalition, as
11 homeowners and builders are already choosing to forgo gas services in light of the
12 Code’s restrictions on gas appliances.

13 5. This Court has authority to grant the relief sought under 28 U.S.C. §§ 1331,
14 2201, 42 U.S.C. § 1983, and 42 U.S.C. § 6306(c)(1).

15 II. JURISDICTION AND VENUE

16 6. Jurisdiction is proper because, under 42 U.S.C. § 6306(c), federal district courts
17 have express jurisdiction over suits brought by any adversely affected person
18 concerning state compliance with EPCA.

19 7. Venue in this Court is proper under 28 U.S.C. § 1391(b) because, among other
20 things, (i) the actions violating federal law stated in this Complaint impose injury in

1 this District, where the Coalition members collectively reside, do business, and have
2 a substantial number of customers and would-be customers (individuals, businesses,
3 and others who would be customers if not for the Washington State Energy Code),
4 and (ii) the regulatory provisions at issue will be enforced here.

5 III. PARTIES

6 8. Plaintiff Jamon Riviera is an individual homeowner in Yakima, Washington
7 who has been deprived of energy choice to effectively heat his home at lower cost.

8 9. Plaintiff Inland Northwest Associated General Contractors (“Inland NW
9 AGC”) is a non-profit member organization that represents over 380 companies
10 involved in the construction industry throughout Eastern Washington.

11 10. Plaintiff Spokane Home Builders Association (“SHBA”) is a non-profit
12 member organization that represents over 750 member companies in the construction
13 industry in seven counties in Washington, including Spokane, Whitman, Pend Oreille,
14 Stevens, Ferry, Lincoln, and Grant.

15 11. Plaintiff Washington State Association of UA Plumbers, Pipefitters and
16 HVAC/R Service Technicians is a labor organization, consisting of six Washington
17 membership organizations including Plumbers and Steamfitters UA Local 44 which
18 represent workers in the plumbing, pipefitting, and HVAC trades in the Spokane area.

19 12. Plaintiff Condron Homes LLC is a limited liability corporation based in
20 Spokane, Washington that is engaged in the construction of new residential buildings.

21

1 13. Plaintiff Paras Homes LLC is a limited liability corporation based in Spokane,
2 Washington that is engaged in the construction of new residential buildings.

3 14. Plaintiff Garco Construction Inc. (“Garco”) is a Washington State for-profit
4 corporation that engages in residential, civil, and commercial construction. Garco is
5 based in Spokane, Washington with projects nationwide and throughout Washington.

6 15. Plaintiff National Propane Gas Association (“NPGA”) is a national trade
7 organization, representing the U.S. propane industry and approximately 2,400
8 members, including local Washington companies and co-ops. The NPGA has state
9 and regional affiliates across all 50 states.

10 16. Plaintiff Citizen Action Defense Fund is a non-profit corporation that works to
11 protect the economic rights of the citizens of Washington.

12 17. Plaintiff Avista Corporation (“Avista”) is a public utility that provides
13 electricity to 402,000 customers and natural gas to 368,000 customers across four
14 northwestern states, including Washington.

15 18. Plaintiff Cascade Natural Gas Corporation (“Cascade”) is a public utility that
16 provides natural gas to over 300,000 customers located in smaller, mostly rural
17 communities across Washington and Oregon.

18 19. Plaintiff Northwest Natural Gas Company (“NW Natural”) is a public utility
19 that provides natural gas distribution services to more than 770,000 customers across
20 the Pacific Northwest, including Washington.

21
COMPLAINT FOR DECLARATORY AND
INJUNCTIVE RELIEF - 5
Case No.
132285.0009/9391455.1

LANE POWELL PC
1420 FIFTH AVENUE, SUITE 4200
P.O. BOX 91302
SEATTLE, WASHINGTON 98111-9402
206.223.7000 Fax: 206.223.7107

1 20. Defendant Washington State Building Code Council (“SBCC”) is the
2 Washington state agency that establishes building code requirements for the state and
3 that adopted the amendments to the Washington State Energy Code at issue.

4 IV. RIPENESS

5 21. The claims asserted herein are ripe for review because Plaintiffs challenge the
6 facial validity of certain provisions of the Washington State Energy Code, thereby
7 raising a legal question. When a question is “predominantly legal,” there is generally
8 no need to await further factual development. *Pacific Gas and Electric Co. v. State*
9 *Energy Resources Conservation and Dev. Comm’n*, 461 U.S. 190, 201 (1983).

10 V. FACTUAL ALLEGATIONS

11 The Washington State Energy Code

12 22. In 2022, the SBCC adopted amendments to the Washington State Energy Code
13 designed to ban or substantially limit the use of gas appliances in many instances.

14 23. These amendments came in two stages. On April 22, 2022, the SBCC adopted
15 amendments to the Commercial Provisions of the Washington State Energy Code
16 (“Commercial Provisions”) that restrict the use of natural gas appliances in
17 commercial buildings. The amendments become effective July 1, 2023.

18 24. On November 4, 2022, the SBCC adopted amendments to the Residential
19 Provisions of the Washington State Energy Code (“Residential Provisions”) that
20

1 restrict the use of natural gas appliances in residential buildings. These amendments
2 also become effective July 1, 2023.

3 25. The Commercial Provisions provide a “prescriptive compliance” pathway and
4 a “total building performance compliance” pathway. In general, the prescriptive
5 compliance pathway requires that each element of a building have a minimum
6 acceptable standard, whereas the performance pathway requires modeling the
7 building as a whole to predict energy usage and determine compliance with target
8 figures for site energy use and carbon emissions. Buildings must comply with one of
9 the two pathways. Section C401.2.

10 26. The Commercial Provisions’ prescriptive and total building performance
11 compliance pathways generally ban the use of natural gas appliances for heating,
12 ventilation, and air conditioning (“HVAC”) systems and water heating systems.
13 Section C403.1.4 (“HVAC heating energy shall not be provided by . . . fossil fuel
14 combustion appliances.”); Section C404.2.1 (“Service hot water shall be provided by
15 an electric air-source heat pump water heating (HPWH) system”); Table C407.2
16 (incorporating Section C403.1.4 and Section C404.2.1 into the total building
17 performance pathway’s mandatory requirements).

18 27. The Residential Provisions also provide a prescriptive compliance pathway
19 and a total building performance compliance pathway. Buildings must comply with
20 one of the two pathways. Section R401.2.

1 28. The Residential Provisions’ prescriptive and total building performance
2 compliance pathways generally require that water heating shall be provided by an
3 electric or gas heat pump system. Section R403.5.7 (“Service hot water in one- and
4 two-family dwellings and multiple single-family dwellings (townhouses) shall be
5 provided by a heat pump system.”); Table R405.2(1) (incorporating Section R403.5.7
6 into the total building performance pathway’s mandatory requirements). These
7 provisions ban gas-fired water heating systems that are not heat pumps, such as
8 conventional tanked gas water heaters, high efficiency condensing tanked water
9 heaters, and tankless/instant water heaters.

10 29. The Residential Provisions’ prescriptive compliance pathway likewise
11 requires that space heating shall be provided by an electric or gas heat pump system.
12 Section R403.13 (“Space heating shall be provided by a heat pump system.”). This
13 bans gas-fired space heating systems that are not heat pumps, such as gas-fired
14 furnaces.

15 30. The Washington State Energy Code generally imposes the above restrictions
16 on gas appliances in newly constructed buildings; the restrictions also apply to the
17 alterations of or additions to existing buildings.

18 31. The Washington State Energy Code broadly defines an “alteration” as “[a]ny
19 construction, retrofit or renovation to an existing structure other than repair or
20 addition. Also, a change in a building, electrical, gas, mechanical or plumbing system

1 that involves an extension, addition or change to the arrangement, type or purpose of
2 the original installation.” Section C202.1-A; Section R202.

3 32. The Washington State Energy Code defines an “addition” as “[a]n extension
4 or increase in the *conditioned space* floor area, number of stories, or height of a
5 building or structure.” *Id.* (emphasis in original).

6 33. The Commercial Provisions generally require that alterations and additions
7 comply with the Commercial Provisions’ restrictions on gas appliances for newly
8 constructed buildings. Section C503.4.6 (applying the Commercial Provisions’
9 restrictions on gas space heating appliances to alterations); Section C503.5 (applying
10 the Commercial Provisions’ restrictions on gas water heating appliances to
11 alterations); Section C502.2.4 (applying the Commercial Provisions’ restrictions on
12 gas space heating appliances to additions); Section C502.2.5 (applying the
13 Commercial Provisions’ restrictions on gas water heating appliances to additions).

14 34. Likewise, the Residential Provisions generally require that alterations and
15 additions comply with the Code’s restrictions on gas appliances for newly constructed
16 buildings. Section R503.1.2 (applying the Residential Provisions’ restrictions on gas
17 space heating appliances to alterations); Section R503.1.3 (applying the Residential
18 Provisions’ restrictions on gas water heating appliances to alterations); Section
19 R502.3.2 (applying the Residential Provisions’ restrictions on gas space heating
20

1 appliances to additions); Section R502.3.3 (applying the Residential Provisions’
2 restrictions on gas water heating appliances to additions).

3 35. Thus, Sections C403.1.4, C404.2.1, Table C407.2, C502.2.4, C502.2.5,
4 C503.4.6, C503.5, R403.5.7, R403.13, Table R405.2(1), R503.1.2, R503.1.3,
5 R502.3.2, and R502.3.3 of the Washington State Energy Code (collectively,
6 “Appliance Restrictions”) ban gas appliances in many instances.

7 **The Washington Energy Code Harms Coalition Members**

8 36. Coalition members are suffering and will suffer a variety of harms as a result
9 of Defendant’s adoption of the Appliance Restrictions.

10 37. Beginning July 1, 2023, homeowners, businesses, and residential and
11 commercial builders will be prohibited from choosing gas appliances in many
12 instances due to the Appliance Restrictions, and as a result, these groups will be more
13 likely to forego gas service altogether, thus also harming suppliers.

14 38. The Appliance Restrictions are already causing irreparable harm to
15 homeowners, builders, and suppliers who are being forced to make costly changes to
16 their building and infrastructure plans now in order to account for Washington State’s
17 pending restrictions on certain types of appliances and energy use, which will become
18 effective in the very near future.

19

20

21

1 39. The Appliance Restrictions unnecessarily increase the costs of home and
2 commercial building, as well as ownership and maintenance, by eliminating effective
3 and available energy appliances for heating water and ambient air.

4 40. The Appliance Restrictions will also impair skilled workers specializing in the
5 installation, maintenance, and repair of gas-powered systems and appliances by
6 depriving them of jobs and their livelihood. Labor organizations representing these
7 workers will lose members.

8 41. The Appliance Restrictions have caused the Utilities harm through the erosion
9 of their customer base through the permanent loss of new customers over time.

10 42. The Appliance Restrictions harm Utilities' customers by increasing over time
11 the cost of gas service per customer. Absent the Utilities' ability to grow, they will
12 need to maintain the current gas system to ensure safety, reliability, and resiliency
13 based on revenue from their currently existing customers. Costs to maintain the
14 current gas system will be borne by fewer customers.

15 **The History of Federal Regulation of Appliance Energy Use**

16 43. The Washington State Energy Code impermissibly regulates the energy use of
17 natural gas appliances, which is an area that Congress directed the U.S. Department
18 of Energy ("DOE") to regulate through the adoption of federal energy efficiency
19 standards under EPCA. 42 U.S.C. § 6201 *et seq.*

20

21

1 44. EPCA was first passed in 1975 to create a comprehensive energy policy to
2 address the serious economic and national security problems associated with our
3 nation's continued reliance on foreign energy resources.

4 45. The original EPCA was designed to "(1) maximize domestic production of
5 energy and provide for strategic storage reserves of crude oil, residual fuel oil and
6 refined petroleum products; (2) . . . minimize the impact of disruptions in energy
7 supplies by providing for emergency standing measures; (3) provide for domestic
8 crude oil prices that will encourage domestic production in a manner consistent with
9 economic recovery; and (4) reduce domestic energy consumption through the
10 operation of specific voluntary and mandatory energy conservation programs." S.
11 Rep. No. 94-516, at 116-17 (1975).

12 46. Since 1975, Congress has amended EPCA several times, progressively moving
13 away from a laissez faire approach to appliance efficiency that relied upon consumers
14 to choose more efficient appliances, and towards binding federal energy efficiency
15 standards. Each amendment to EPCA further emphasized the federal government's
16 intent to regulate appliance energy use and efficiency, and further limited states'
17 abilities to set their own standards.

18 47. In its original form in 1975, EPCA's provisions regarding consumer appliances
19 focused on requiring labeling of appliances, reasoning that consumers would choose
20 more efficient appliances if they had access to accurate information about efficiency.

1 Thus, the statute required manufacturers to label their appliances and provided that
2 the Secretary of the Federal Energy Administration should utilize energy efficiency
3 standards if the labeling program proved ineffective. The legislative history makes
4 clear Congress’s intent at the time: “it is the Committee’s hope that voluntary efforts
5 by manufacturers and better consumer information will make energy efficiency
6 standards unnecessary; however, should the labeling program not suffice, energy
7 efficiency standards should be utilized to achieve the goals of the legislation.” H.R.
8 Rep. No. 94-340, at 95 (1975).

9 48. Originally, EPCA permitted significant state involvement in appliance
10 regulation. It allowed state regulations that differed from the federal regulations if the
11 state regulations were justified by a substantial state or local need, did not interfere
12 with interstate commerce, and were more stringent than the federal standard.

13 49. In 1978, Congress passed a range of statutes known as the National Energy
14 Act (“NEA”), which gave the federal government broader authority over energy
15 policy to ensure national security, decrease energy consumption, reduce dependency
16 on energy imports, generate a strategic petroleum reserve, and broadly develop
17 reliable sources of energy for sustained economic growth. *See* Julia Richardson and
18 Robert Nordhaus, *The National Energy Act of 1978*, 10 *Nat. Res. & Env’t* 62, 62-63
19 (1995). President Carter also created the federal DOE in 1977 to coordinate a federal
20 response to the nation’s energy problems.

1 50. One of these 1978 statutes passed as part of NEA was the National Energy
2 Conservation and Policy Act (“NECPA”). NECPA amended the 1975 EPCA. Rather
3 than relying exclusively on labeling, NECPA required DOE to prescribe minimum
4 energy efficiency standards for certain products. NECPA also strengthened the
5 preemption provisions in EPCA, allowing state regulations that were more stringent
6 than federal regulations *only* if the Secretary found there was a significant state or
7 local interest to justify the state’s regulation and the regulation would not unduly
8 burden interstate commerce.

9 51. Despite the NECPA’s new requirements, DOE did not initially adopt federal
10 minimum energy standards. Instead, it “initiated a general policy of granting petitions
11 from States requesting waivers from preemption. As a result, a system of separate
12 State appliance standards ha[d] begun to emerge and the trend [was] growing.” S.
13 Rep. No. 100-6, at 4 (1987).

14 52. In 1987, Congress responded by passing the National Appliance Energy
15 Conservation Act (“NAECA”). The purpose of the NAECA amendment was “to
16 reduce the regulatory and economic burdens on the appliance manufacturing industry
17 through the establishment of national energy conservation standards for major
18 residential appliances.” S. Rep. No. 100-6, at 1 (1987).

19 53. As the Senate recognized, varying state standards created “the problem of a
20 growing patchwork of differing state regulations which would increasingly

1 complicate [appliance manufacturers’] design, production and marketing plans.” S.
2 Rep. No. 100-6, at 4 (1987). Similarly, the reports about NAECA in the House of
3 Representatives make clear that the bill was “designed to protect the appliance
4 industry from having to comply with a patchwork of numerous conflicting State
5 requirements.” H.R. Rep. No. 100-11, at 24 (1987).

6 54. Thus, NAECA contained “two basic provisions:” “[t]he establishment of
7 Federal standards and the preemption of State standards.” S. Rep. No. 100-6, at 2
8 (1987). “In general, these national standards would preempt all State standards.” *Id.*

9 55. While states could seek permission to establish their own standards, “achieving
10 the waiver is difficult.” S. Rep. No. 100-6, at 2 (1987). It would require showing an
11 unusual and compelling local interest, and the waiver could not be granted if the “State
12 regulation is likely to result in the unavailability in the State of a product type or of
13 products of a particular performance class, such as frost-free refrigerators.” *Id.*
14 Congress intended to allow only “performance-based codes” that “authorize builders
15 to adjust or trade off the efficiencies of the various building components so long as an
16 energy objective is met.” *Id.* at 10–11. To avoid preemption, a state building code
17 provision must “establish ‘credits’ for various conservation measures, to provide, to
18 the greatest degree possible, one-for-one equivalency between the energy efficiency
19 of these differing measures and the credits provided for such energy efficiency.” *Id.*
20 at 11. The Senate chose this requirement “to assure that the credits for exceeding

1 Federal standards are even-handed and are not unfairly weighted resulting in undue
2 pressure on builders to install covered products exceeding Federal standards.” *Id.*

3 56. In 1992, Congress amended EPCA once more through the Energy Policy Act
4 of 1992. That amendment expanded the federal appliance program to include energy
5 efficiency standards for commercial and industrial appliances as well as consumer
6 appliances.

7 57. Thus, in its present form, EPCA covers both consumer and
8 commercial/industrial appliances, and it sets federal standards for the energy use and
9 efficiency of those products.

10 **EPCA’s Regulation of Consumer and Industrial Appliances**

11 58. Rather than allowing joint regulation by states and the federal government,
12 Congress has adopted a framework for EPCA in which the federal government sets
13 nationwide standards for the national markets for appliances, with only a very limited
14 role for states. In fact, EPCA expressly preempts state regulation of appliance energy
15 use and efficiency, with only narrow exceptions. The statute sets out specific
16 requirements that must be met to qualify for one of these narrow exceptions. In other
17 words, Congress meant to preempt the entire field of energy use by covered
18 appliances, leaving DOE to set nationwide standards and establishing detailed
19 conditions that state regulations must meet to avoid preemption.

20

21

1 59. EPCA’s energy efficiency and use regulations apply to “covered products.”
2 EPCA defines “covered products” for consumers as the types of products listed in
3 Section 6292 of the Act. 42 U.S.C. § 6291(2). Section 6292 in turn lists 19 types of
4 defined covered products, including “water heaters” and “furnaces.” *Id.* § 6292(a).
5 Section 6295 sets out the energy conservation standards for these covered products.

6 60. EPCA defines a “consumer product” as one “(A) which in operation consumes,
7 or is designed to consume, energy . . . and (B) which, to any significant extent, is
8 distributed in commerce for personal use or consumption by individuals[.]” *Id.* §
9 6291(1). The definition of a consumer product is “without regard to whether such
10 article of such type is in fact distributed in commerce for personal use or consumption
11 by an individual” *Id.* In other words, products which are regularly sold to
12 individuals may be classified as consumer products, regardless of whether a particular
13 *unit* of the product has been purchased by an individual or by a business.

14 61. The express preemption in EPCA’s consumer product regulations states that
15 “effective on the effective date of an energy conservation standard established in or
16 prescribed . . . for any covered product, no State regulation concerning the energy
17 efficiency, energy use, or water use of such covered product shall be effective with
18 respect to such product unless the regulation” falls within certain enumerated
19 exceptions. *Id.* § 6297(c).

20

21

1 62. “Energy use” is defined as “the quantity of energy directly consumed by a
2 consumer product at point of use” *Id.* § 6291(4). “Energy” is defined as
3 “electricity, or fossil fuels.” *Id.* § 6291(3).

4 63. Thus, EPCA’s consumer standards preempt state regulations concerning the
5 quantity of electricity or fossil fuels consumed by appliances (including water heaters
6 and furnaces) which are regularly sold to individuals.

7 64. Similarly, EPCA also governs the energy efficiency and energy use of certain
8 commercial and industrial appliances. *Id.* § 6311-17.

9 65. Like EPCA’s consumer standards, the industrial standards explicitly
10 “supersede any State or local regulation concerning the energy efficiency or energy
11 use of a product for which a standard is prescribed or established” in the federal
12 statute. *Id.* § 6316(b)(2)(A).

13 66. “Energy use,” for the purposes of the industrial standards, is defined as “the
14 quantity of energy directly consumed by an article of industrial equipment at the point
15 of use. . . .” *Id.* § 6311(4). The definition of “energy” refers back to the definition in
16 the consumer standards in Section 6291: energy is “electricity, or fossil fuels.” *Id.* §§
17 6311(7), 6291(3).

18 67. EPCA also prescribes standards for various types of “industrial equipment,”
19 including “commercial package air conditioning and heating equipment,” “warm air
20 furnaces,” and several types of water heaters. *Id.* § 6311(2)(B). Those products are

1 “industrial” rather than “consumer” if they are “distributed in commerce for industrial
2 or commercial use” to “any significant extent,” and do not qualify as consumer
3 products under that portion of the statute. *Id.* § 6311(2)(A).

4 68. Thus, EPCA’s standards for consumer products and industrial equipment
5 preempt state and local regulations concerning the quantity of electricity or fossil fuels
6 consumed by heating equipment, water heaters, and furnaces which are regularly sold
7 for residential, industrial, or commercial use.

8 69. As a result, EPCA preempts the Appliance Restrictions (Sections C403.1.4,
9 C404.2.1, Table C407.2, C502.2.4, C502.2.5, C503.4.6, C503.5, R403.5.7, R403.13,
10 Table R405.2(1), R503.1.2, R503.1.3, R502.3.2, and R502.3.3 of the Washington
11 State Energy Code), because these sections concern the quantity of fossil fuels
12 consumed by EPCA-covered gas space and water heating appliances which are
13 regularly sold for residential, commercial, and industrial use. EPCA also preempts
14 any other provisions of the Washington State Energy Code that ban or significantly
15 restrict the energy use of EPCA-covered products.

16 70. The Appliance Restrictions concern the quantity of natural gas consumed by
17 appliances in the buildings they regulate because in many instances they prohibit the
18 installation of EPCA-covered products. As a result, the Appliance Restrictions require
19 that *no* natural gas is used by such products, or effectively result in the use of no
20 natural gas by such products. Stated another way, these provisions effectively require

1 that the quantity of natural gas used in certain covered products is zero, when the
2 national standards promulgated by DOE specify levels of energy efficiency that are
3 based on different, non-zero levels of gas use by covered products.

4 71. The Homeowners, Builders, and Suppliers include individuals, companies, and
5 workers that purchase, install, and maintain qualified “consumer products” and
6 “industrial/commercial products” under EPCA, or provide supply services for these
7 products. The Utilities supply gas to appliances that qualify as “consumer products”
8 and as “industrial/commercial products” under EPCA. By banning the use of these
9 EPCA-covered products, the Appliance Restrictions harm the Coalition members, and
10 Washington residents and businesses, by impermissibly limiting energy choice.

11 **The Appliance Restrictions Do Not Qualify for EPCA’s Preemption**
12 **Exemption for Consumer Appliances**

13 72. EPCA contains only limited exceptions to the general rule of preemption. For
14 consumer appliances, a state or local regulation is not preempted if it “is in a building
15 code for new construction” and meets seven specific requirements. 42 U.S.C. §§
16 6297(c)(3), (f)(3). The regulation must meet *all seven* of these requirements to avoid
17 preemption. The seven requirements, taken together, are intended to allow only
18 performance-based codes that give builders choice about how to meet overall
19 efficiency or conservation objectives, ensuring an even-handed policy that does not
20 pressure builders to choose one type of appliance over another. *See* S. Rep. 100-6, at
21 10–11 (1987).

1 73. The Appliance Restrictions relating to consumer products do not meet all
2 seven requirements listed in Section 6297(f)(3), and thereby fail to avoid preemption.
3 For example, the first requirement is that “[t]he code permits a builder to meet an
4 energy consumption or conservation objective for a building by selecting items whose
5 combined energy efficiencies meet the objective.” 42 U.S.C. § 6297(f)(3)(A). The
6 Appliance Restrictions do not meet this requirement, because they do not set an
7 “energy consumption or conservation objective for a building” that allows a builder
8 to select items that, in combination, meet the objective. Instead, in many instances,
9 the builder cannot select *any* space heating or water heating appliances that use natural
10 gas, no matter the energy use or efficiency of those particular appliances.

11 74. The second requirement to avoid preemption is that “[t]he code does not
12 require that the covered product have an energy efficiency exceeding the” federal
13 EPCA standards in section 6295, absent a state waiver. *Id.* § 6297(f)(3)(B). The
14 Appliance Restrictions do not meet this requirement, because they prohibit in many
15 instances the use of gas appliances that meet federal energy efficiency standards.

16 75. The third requirement is that “[t]he credit to the energy consumption or
17 conservation objective allowed by the code for installing covered products having
18 energy efficiencies exceeding [the federal EPCA standards in section 6295] is on a
19 one-for-one equivalent energy use or equivalent cost basis.” *Id.* § 6297(f)(3)(C). The
20 Appliance Restrictions do not meet this requirement, because they do not give credit

1 “on a one-for-one equivalent energy use . . . basis” for products that are more efficient
2 than the federal standards require. In fact, Sections C403.1.4, C404.2.1, R403.13, and
3 Tables C407.2 and R405.2(1) in many instances ban the use of EPCA-covered
4 consumer products.

5 76. The fifth requirement is that “[i]f the code sets forth one or more optional
6 combinations of items which meet the energy consumption or conservation objective,
7 for every combination which includes a covered product the efficiency of which
8 exceeds [federal energy efficiency standards for consumer products], there also shall
9 be at least one combination which includes such covered product the efficiency of
10 which does not exceed such standard or level by more than 5 percent, *except that at*
11 *least one combination shall include such covered product the efficiency of which*
12 *meets but does not exceed such standard.*” *Id.* § 6297(f)(3)(E). Here, the Appliance
13 Restrictions do not contain any combination where builders can install EPCA-covered
14 gas space heating and water heating appliances that meet applicable EPCA efficiency
15 standards.

16 **The Appliance Restrictions Do Not Qualify for EPCA Preemption Exemption**
17 **for Industrial Appliances**

18 77. Similar to the consumer product standards, EPCA contains only limited
19 exceptions to the default rule of preemption of state regulations concerning the energy
20 use or efficiency of industrial appliances. 42 U.S.C. § 6316(b)(2)(B).

1 78. To avoid preemption, a state building code regulation must “not require that
2 the energy efficiency of such product exceed the applicable minimum energy
3 efficiency requirement in amended ASHRAE/IES Standard 90.1” *Id.* §
4 6316(b)(2)(B)(i).

5 79. The Appliance Restrictions do not meet this requirement, because in many
6 instances they ban EPCA-covered industrial appliances, even when they meet the
7 efficiency standards in ASHRAE/IES Standard 90.1.

8 **VI. CAUSE OF ACTION**

9 **COUNT ONE: FEDERAL PREEMPTION BY**
10 **THE ENERGY POLICY AND CONSERVATION ACT**

11 80. Plaintiffs re-allege the preceding paragraphs as though set forth fully herein.

12 81. The Appliance Restrictions concern the energy efficiency and energy use of
13 appliances in newly constructed buildings, including consumer and industrial
14 appliances covered by EPCA.

15 82. The Appliance Restrictions do not fall within the exceptions to preemption in
16 EPCA because:

- 17 a. They do not permit builders to select items whose combined energy
18 efficiencies meet an objective for total energy consumption but rather
19 require use of a particular category of items (such as heat pumps);
20 b. They do not give credit on a one-for-one basis for all appliances whose
21 energy efficiency exceeds the federal standards, insofar as they give no

1 credit for (and indeed ban) the use of EPCA-covered natural gas
2 appliances, no matter their efficiency; and/or

3 c. They ban EPCA-covered natural gas appliances, even when they meet
4 the federal efficiency standards.

5 83. The Appliance Restrictions of the Washington State Energy Code are therefore
6 preempted by the federal EPCA.

7 84. There is no set of circumstances under which the Appliance Restrictions would
8 be valid.

9 85. There is no plain, speedy, and adequate remedy at law to protect the rights of
10 Plaintiffs. Plaintiffs will be irreparably and substantially harmed if the Appliance
11 Restrictions become effective and are enforced.

12 86. There will be no significant harm to Defendant from an injunction, because
13 Defendant has no legitimate interest in enforcing invalid regulations. The balance of
14 harms thus favors injunctive relief.

15 87. An injunction is also in the public interest. The public interest is not served by
16 enforcing invalid regulations. Moreover, EPCA embodies a strong public interest in
17 the uniform, national regulation of energy conservation and use policy, which is
18 undermined by conflicting state regulation of these matters, as found in the Appliance
19 Restrictions.

20

21

1 88. Plaintiffs accordingly request that the Court declare that the Appliance
2 Restrictions are preempted by EPCA and enjoin Defendant from enforcing the
3 preempted Appliance Restrictions.

4 **VII. PRAYER FOR RELIEF**

5 89. WHEREFORE, Plaintiffs pray for relief as follows:

6 90. For a permanent injunction enjoining Defendant from enforcing or attempting
7 to enforce the Appliance Restrictions;

8 91. For a declaratory judgment, pursuant to 28 U.S.C. § 2201(a) and § 1331, that
9 the Appliance Restrictions are preempted by federal law because they concern the
10 energy use of appliances covered by EPCA and are therefore void and unenforceable;

11 92. For costs of this suit, including reasonable attorney's fees; and

12 93. For such other and further relief as the Court may deem just and proper.

13 Respectfully submitted,

14 May 22, 2023.

1 **I. INTRODUCTION**

2 Plaintiffs challenge recently adopted provisions of the Washington State
3 Energy Code (“Code”) that ban the use of appliances covered by the Energy Policy
4 and Conservation Act, 42 U.S.C. § 6201 *et seq.* (“EPCA”). The U.S. Court of
5 Appeals for the Ninth Circuit has confirmed such bans are preempted by federal law.
6 *See Cal. Rest. Ass’n*, 65 F.4th at 1048 (“*Berkeley*”). In response to the *Berkeley*
7 decision, Defendant Washington State Building Code Council (“Council”)
8 announced its intent to temporarily stay the Code’s effective date, until October 29,
9 2023, while it considers amendments to address *Berkeley*. The author of the
10 temporary stay, Council Member and Energy Code Technical Advisory Group Chair
11 Kjell Anderson, acknowledged that “We need to comply with [the *Berkeley*] ruling
12 or else leave ourselves and our building officials open to legal risk.”¹

13 This action comes too late for Plaintiffs. Plaintiffs are being harmed by the
14 Codes *now*, and the Council has no legal mechanism to stop the Codes from going
15 into effect unmodified on October 29, 2023. By statute, the Council cannot renew
16 the temporary stay, and amendments to the Code cannot take effect before the end
17 of the next legislative session, March 2024, at the soonest. Lacking any other avenue
18

19 ¹ David Iaconangelo, *Washington state hits the brakes on landmark gas ban*, E&E
20 NEWS, (May 25, 2025),
<https://subscriber.politicopro.com/article/eenews/2023/05/25/washington-state-hits-the-brakes-on-landmark-gas-ban-00098576>.

1 for relief, Plaintiffs ask this Court to preliminarily enjoin the challenged Code
2 provisions because they are preempted by EPCA and causing irreparable harm that
3 will only escalate once the Codes are effective.

4 **II. RELEVANT BACKGROUND**

5 The Council adopted amendments to the Code designed to ban or substantially
6 limit the use of gas appliances covered by EPCA. Adopted in two stages in 2022,
7 the amendments ban the use of EPCA-covered appliances in commercial buildings
8 (“Commercial Provisions”) and in residential buildings (“Residential Provisions”).

9 Both the Commercial and Residential Provisions provide a “prescriptive
10 compliance” pathway and a “total building performance compliance” pathway. The
11 prescriptive compliance pathway requires that each element of a building meet a
12 minimum acceptable standard, whereas the performance pathway requires modeling
13 the building as a whole to predict energy usage and assess compliance with energy
14 use and carbon emissions targets. Buildings must comply with one of the two
15 pathways. Section C401.2; Section R401.2.

16 The Commercial Provisions’ prescriptive and total building performance
17 compliance pathways generally ban the use of gas appliances for heating,
18 ventilation, and air conditioning (“HVAC”) systems and water heating systems.
19 Sections C403.1.4, C404.2.1, and Table C407.2. Similarly, the Residential
20 Provisions’ prescriptive and total building performance compliance pathways

1 generally require that water heating shall be provided by an electric or gas heat pump
2 system, thereby banning gas-fired water heating systems. Section R403.5.7, Table
3 R405.2(1). The Residential Provisions’ prescriptive compliance pathway likewise
4 requires that space heating shall be provided by an electric or gas heat pump system,
5 thereby banning other heating systems, such as gas-fired furnaces. Section R403.13.

6 The Code generally imposes the above restrictions (collectively, the
7 “Appliance Restrictions”) on gas appliances in newly constructed buildings, but the
8 restrictions also apply to alterations of or additions to existing buildings. *See, e.g.,*
9 Sections C503.4.6 and R503.1.2.

10 On May 24, 2023 (two days after Plaintiffs’ Complaint was filed), the Council
11 voted to take steps on June 30, 2023, to stay the Code’s effective date for 120 days,
12 thus moving the effective date of the Code to October 29, 2023. The Council also
13 voted to initiate new rulemaking to revise the Code in an attempt to better insulate it
14 from legal challenges. Nevertheless, the Code will go into effect on October 29—
15 unmodified—because the Council lacks the statutory authority to stay the new Code
16 beyond that date, *see* RCW 34.05.350(2) (“Identical or substantially similar
17 emergency rules may not be adopted in sequence . . .”), or to modify its provisions
18 before the Code must go into effect, *see* RCW 19.27A.045 (“Decisions to amend the
19 Washington state energy code for residential structures . . . shall not take effect before
20 the end of the regular legislative session in the next year.”); RCW 19.27A.025(3)

1 (“Decisions to amend the Washington state energy code for new nonresidential
2 buildings... shall not take effect before the end of the regular legislative session in
3 the next year.”).

4 **III. LEGAL STANDARD**

5 “A party can obtain a preliminary injunction by showing that (1) it is likely to
6 succeed on the merits, (2) it is likely to suffer irreparable harm in the absence of
7 preliminary relief, (3) the balance of equities tips in [its] favor, and (4) an injunction
8 is in the public interest.” *Disney Enters., Inc.*, 869 F.3d at 856 (internal quotation
9 marks and citations omitted). Under the “sliding scale” approach adopted by the
10 Ninth Circuit, these elements are “balanced, so that a stronger showing of one
11 element may offset a weaker showing of another.” *Hernandez*, 872 F.3d at 990
12 (internal quotation marks and citations omitted).

13 **IV. ARGUMENT**

14 **A. Plaintiffs are likely to succeed on the merits because the Appliance 15 Restrictions ban EPCA-covered products.**

16 EPCA preempts the Appliance Restrictions, which impermissibly regulate the
17 energy use of EPCA-covered consumer and commercial gas appliances by banning
18 such energy use altogether. Under EPCA, once the U.S. Department of Energy
19 (“DOE”) sets a federal energy conservation standard for any consumer “covered
20 product,” “no State regulation concerning the energy efficiency, energy use, or water
use of such covered product shall be effective with respect to such product,” unless

1 certain exemptions apply. *See* 42 U.S.C. § 6297(c). Similarly, for commercial and
2 industrial products, the federal standards shall “supersede any State or local
3 regulation concerning the energy efficiency or energy use of a product for which a
4 standard is prescribed or established pursuant to such section.” *Id.* § 6316(b)(2)(A).

5 These preemption provisions apply if three conditions are met. First, federal
6 energy conservation standards must exist for the products at issue. Second, the
7 regulation at issue must concern the energy efficiency, energy use, or water use of
8 the EPCA-covered products. Third, EPCA’s statutorily defined exemptions to
9 preemption must not apply. As discussed below, all three conditions are met here.

10 **1. Federal energy standards exist for the restricted products.**

11 The first condition is easily met. Federal energy conservation standards exist
12 for the products banned by the Appliance Restrictions, which include gas space and
13 water heating products. *See* 42 U.S.C. §§ 6295(e), (f), 6316(b)(2)(A), 6313(a). Thus,
14 the Appliance Restrictions ban EPCA-covered products.

15 **2. The Appliance Restrictions concern energy use of these products.**

16 The second condition is also met because the Appliance Restrictions concern
17 the energy use of these EPCA-covered products.

18 In the context of EPCA preemption, terms such as “concerning” “express a
19 broad pre-emptive purpose.” *Air Conditioning, Heating & Refrigeration Inst.*, 2008
20 WL 5586316, at *7. Thus, the “plain language of [EPCA] makes clear that Congress

1 intended the preemption to be broad in scope.” *Air Conditioning, Heating &*
2 *Refrigeration Inst.*, 835 F. Supp. 2d at 1136. EPCA’s legislative history also shows
3 Congress meant to “preempt[] state law under most circumstances” to address “the
4 problem of a growing patchwork of differing State regulations which would
5 increasingly complicate [appliance manufacturers’] design, production and
6 marketing plans.” *Id.* at 1136-37 (quotation omitted).

7 The Appliance Restrictions concern the energy use of EPCA-covered
8 products because the restrictions ban the installation of such products altogether. As
9 such, the Appliance Restrictions impermissibly require the energy use of EPCA-
10 covered products to be zero rather than at levels established by DOE under ECPA.

11 These are exactly the type of regulations concerning energy use that courts
12 have held EPCA preempts. The Ninth Circuit’s recent decision in *Berkeley* is
13 dispositive. In holding that EPCA preempts Berkeley’s building code ordinance
14 banning gas piping in newly constructed buildings because the ordinance concerned
15 the energy use of EPCA-covered products, the court found that “***EPCA would no***
16 ***doubt preempt an ordinance that directly prohibits the use of covered natural gas***
17 ***appliances in new buildings.*” *Berkeley*, 65 F.4th at 1056 (emphasis added). As the**
18 Council itself has implied, that is exactly what the Appliance Restrictions do here,
19 making this case an even more clearcut instance of EPCA preemption than *Berkeley*,
20 which involved an indirect ban on EPCA-covered products rather than a direct ban.

1 **3. The Appliance Restrictions are not exempt from preemption.**

2 The final condition is met because the Appliance Restrictions fail to qualify
3 for EPCA’s exemptions from preemption. To avoid preemption, a state regulation
4 of EPCA-covered products must meet specific requirements. 42 U.S.C. §§
5 6297(c)(3), (f)(3), 6316(b)(2)(B)(i). The Appliance Restrictions fail to meet a
6 number of these requirements because, in short, they do not allow builders to select
7 EPCA-covered gas appliances. Compl. ¶¶ 72–79; *see Bldg. Indus. Ass’n of*
8 *Washington*, 683 F.3d at 1145 (“Section 6297(f)(3)(B) is violated when the code
9 requires a builder, as a matter of law, to select a particular product or option.”).
10 Accordingly, the Appliance Restrictions cannot escape preemption under EPCA.

11 In light of the above, Plaintiffs have demonstrated a strong likelihood of
12 success on the merits that EPCA preempts the Appliance Restrictions.

13 **B. The Appliance Restrictions will irreparably harm Plaintiffs.**

14 The Appliance Restrictions are harming Plaintiffs now, and this harm will
15 escalate once the Codes are effective. Without a preliminary injunction from this
16 Court, the Appliance Restrictions will become effective in mere months, even if the
17 Council follows through on its plan to stay implementation of the Code for 120 days.
18 The harm to Plaintiffs is irreparable because there is “no adequate legal remedy, such
19 as an award of damages,” *Ariz. Dream Act Coal.*, 757 F.3d at 1068; *see also, BNSF*

1 *Railway Co.*, 2016 WL 6393507, to be had from the Council, and invalidation of the
2 restrictions later cannot undo the harm that has been and will be done.

3 The Appliance Restrictions are harming homeowners, builders, and suppliers
4 who are being forced to make costly changes to their building and infrastructure
5 plans now in order to account for the impending restrictions on certain types of
6 appliances and energy use. The Appliance Restrictions are already causing delays to
7 projects, *see* Stewart Decl. ¶ 7, and will unnecessarily increase the costs of building
8 homes and commercial buildings, as well as ownership and maintenance, by
9 eliminating effective and available energy appliances for heating water and ambient
10 air, *see, e.g.*, Paras Decl. ¶¶ 3–8. The increased building costs—which are not
11 accompanied by an equivalent increase in the value of a home—pose a dilemma for
12 homebuilders, who can either absorb the increased costs (with resulting lower profit
13 margins) or pass the costs on to customers and risk pricing some potential customers
14 out of the market. *See* Stewart Decl. ¶¶ 5–6.

15 The Appliance Restrictions are likewise causing irreparable harm to local
16 utilities and other service providers, as would-be customers are deciding not to
17 extend gas service to new developments in anticipation of the enforcement of the
18 Appliance Restrictions. *See, e.g.*, Jennings Decl. ¶ 8. These customer losses would
19 remain even if the Appliance Restrictions were later overturned, because retrofitting
20 costs for switching from electric to gas appliances would be too high for many

1 customers. *See, e.g.*, Koschalk Decl. ¶ 8. Additionally, in cases where the original
2 developer has chosen not to install backbone gas infrastructure because of the
3 Appliance Restrictions, it will be cost-prohibitive for a single customer to extend the
4 gas system to their home or commercial building. *Id.* at ¶ 9. The loss of would-be
5 customers and the infrastructure to support them now irreparably harms existing
6 utility customers long term, because there will be fewer customers to share the costs
7 of maintaining the gas supply system. Rush Decl. ¶¶ 7–8. The local utilities and
8 service providers anticipate that these would-be customer losses will only escalate
9 once the Appliance Restrictions are effective and curtail customer growth. *See, e.g.*,
10 Frankel Decl. ¶¶ 6–9, Forsyth Decl. ¶¶ 5–8, Robertson Decl. ¶¶ 6–12.²

11 **C. Equity and the public interest strongly weigh in Plaintiffs’ favor.**

12 Here, the balance of the equities and public interest strongly favor
13 preliminarily enjoining the Appliance Restrictions.

14 First, the Council has no public interest in maintaining state regulations
15 preempted by federal law. “There is generally no public interest in the perpetuation
16 of unlawful agency action. To the contrary, there is a substantial public interest in
17 having governmental agencies abide by the federal laws that govern their existence
18 and operations.” *League of Women Voters of the U.S.*, 838 F.3d at 12 (D.C. Cir.

UNITED STATES DISTRICT COURT
EASTERN DISTRICT OF WASHINGTON

JAMON RIVERA, et al.

Plaintiffs,

v.

WASHINGTON STATE BUILDING

CODE COUNCIL, et al,

Defendants,

CLIMATE SOLUTIONS, et al.,

Defendant-Intervenors.

No. 1:23-CV-03070-SAB

**ORDER DENYING
PRELIMINARY INJUNCTION;
GRANTING MOTION TO
STRIKE**

The Court heard oral argument on Plaintiffs’ Motion for Preliminary Injunction, ECF No. 25, on July 18, 2023 in Yakima, Washington. Plaintiffs were represented by Megan H. Berge, R. Scott Novak, Jr., Callie A. Castillo, and Brook L. Cunningham. Defendants were represented by William D. McGinty, R. July Simpson, Noelia Gravotta, and Jan E. Hasselman. For the reasons stated on the record, the Court denies Plaintiffs’ motion for preliminary injunction.

Before the Court, but not addressed at the hearing on July 18, 2023, is Defendants’ Motion to Strike State Defendants’ Motion to Dismiss, ECF No. 66. The State Defendants move the Court to strike its earlier-filed motion to dismiss at ECF No. 38. Plaintiffs filed a First Amended Complaint which is now the

**ORDER DENYING PRELIMINARY INJUNCTION; GRANTING
MOTION TO STRIKE # 1**

1 operative complaint in this matter, ECF No. 47. The Court finds good cause to
2 grant the motion and strike Defendants' previous motion to dismiss.

3 Accordingly, **IT IS HEREBY ORDERED:**

4 1. Plaintiffs' Motion for Preliminary Injunction, ECF No. 25, is
5 **DENIED.**

6 2. Defendants' Motion to Strike State Defendants' Motion to Dismiss,
7 ECF No. 66, is **GRANTED.**

8 3. The Washington State Defendant's Motion to Dismiss, ECF No. 38, is
9 **STRICKEN.**

10 **IT IS SO ORDERED.** The Clerk of Court is hereby directed to file this
11 Order and provide copies to counsel.

12 **DATED** this 19th day of July 2023.

**ORDER DENYING PRELIMINARY INJUNCTION; GRANTING
MOTION TO STRIKE # 2**

IN THE COURT OF APPEALS OF THE
STATE OF OREGON

NORTHWEST NATURAL GAS
COMPANY, AVISTA
CORPORATION, and CASCADE
NATURAL GAS CORPORATION,

Petitioners,

v.

OREGON ENVIRONMENTAL
QUALITY COMMISSION,

Respondent.

CA No.

PETITION FOR JUDICIAL REVIEW
OF ADMINISTRATIVE RULE

1.

Pursuant to ORS 183.400, Petitioners Northwest Natural Gas Company, Avista Corporation, and Cascade Natural Gas Corporation (collectively, the “Petitioners”) seek judicial review of the rules attached as Exhibit 1 that were adopted by Respondent Oregon Environmental Quality Commission (the “EQC”) on December 16, 2021 and filed with the Oregon Secretary of State the same day.

2.

The parties to this review are:

Petitioners

Northwest Natural Gas Company
250 SW Taylor Street
Portland, OR 97204

Avista Corporation
1411 E. Mission Avenue
Spokane, WA 99252

Cascade Natural Gas Corporation
8113 W. Grandridge Blvd.
Kennewick, WA 99336

Respondent

Oregon Environmental Quality Commission
Department of Environmental Quality
4026 Fairview Industrial Drive SE
Salem, OR 97302

3.

The Petitioners are jointly represented by:

BAKER BOTTS L.L.P.
Megan H. Berge (CA Bar No. 332536)
Motion to admit out-of-state counsel to be filed.
101 California Street
San Francisco, CA 94111

1162 Court Street, NE
Salem, OR 97301-4096
503-378-6002
ellen.f.rosenblum@doj.state.or.us

There are no self-represented parties in this matter.

4.

Petitioners seek review of the Climate Protection Program, adopted on December 16, 2021 by the EQC of the Department of Environmental Quality (the “Rule”). The Rule is attached as Exhibit 1.

The Rule’s stated purpose is to create a program intended to reduce greenhouse gas emissions from sources located in Oregon. The Rule purports to do so by imposing declining limits or caps on emissions attributed to the combustion of products sold or transported by covered fuel suppliers, including local distribution companies like Petitioners. The Department of Environmental Quality (“DEQ”)

developed the program, and EQC approved it, at the direction of Oregon Governor Kate Brown. *See* Office of the Governor – State of Oregon, Exec. Order No. 20-04, 4(c) (May 10, 2020). The first compliance period is 2022 through 2024.

Under the Rule, DEQ imputes to each local distribution company a presumptive quantity of carbon dioxide equivalent emissions resulting from the combustion of the natural gas it imports, sells, or distributes in Oregon. To comply with the Rule, a covered fuel supplier must provide a compliance instrument or a Community Climate Investment (“CCI”) credit for each metric ton of carbon dioxide equivalent emissions imputed to that supplier.

Each year, the program distributes to covered fuel suppliers a declining quantity of compliance instruments equivalent to that year’s cap. Each compliance instrument represents one metric ton of carbon dioxide equivalent emissions, and may be banked for future compliance periods or traded with other covered fuel suppliers if not used for compliance that year. The number of compliance instruments distributed each year to covered fuel suppliers, including Petitioners, is set at a baseline using data from 2017 through 2019, and will decline each year through 2050. By 2035, the compliance instrument distributions will decline by 50% from the baseline. By 2050, the compliance instrument distributions will decline by 90% from the baseline.

The program also intends that covered fuel suppliers can acquire CCI credits by paying DEQ-approved third-party entities to implement projects purporting to reduce greenhouse gas emissions in Oregon. For the period 2022 through 2024, covered fuel suppliers can use CCI credits to meet only up to 10% of their compliance obligations; this percentage increases to 15% in 2025 through 2027, and to 20% starting in 2028 onward.

Thus, the Rule aims to reduce the amount of natural gas sold or distributed by local distribution companies by shrinking the amount of available compliance instruments and limiting the number of CCI credits that can be used for compliance.

Petitioners challenge the authority of EQC to adopt the Rule. While Petitioners fully support the goal of decarbonization, Petitioners believe that it must be done in a legally supported, consistent, effective, and verifiable way, so that it benefits all Oregonians.

5.

Northwest Natural Gas Company (“NW Natural”) is a “public utility”, as defined in ORS 757.005(1), that provides natural gas distribution services to more than 770,000 customers across the Pacific Northwest, including Oregon. As a public utility company, NW Natural is a “person” under ORS 183.310(8), and ORS 183.400(1) authorizes “any person” to petition the Court of Appeals to determine

“[t]he validity of any rule.” NW Natural is not a party to an order or contested case in which the validity of the Rule may be determined by a court.

6.

Avista Corporation (“Avista”) is a “public utility”, as defined in ORS 757.005(1), providing electricity to 402,000 customers and natural gas to 368,000 customers across four northwestern states, including Oregon. As a public utility company, Avista is a “person” under ORS 183.310(8), and ORS 183.400(1) authorizes “any person” to petition the Court of Appeals to determine “[t]he validity of any rule.” Avista is not a party to an order or contested case in which the validity of the Rule may be determined by a court.

7.

Cascade Natural Gas Corporation (“Cascade”) is a “public utility”, as defined in ORS 757.005(1), that provides natural gas to nearly 300,000 customers located in smaller, mostly rural communities across Oregon and Washington. As a public utility company, Cascade is a “person” under ORS 183.310(8), and ORS 183.400(1) authorizes “any person” to petition the Court of Appeals to determine “[t]he validity of any rule.” Cascade is not a party to an order or contested case in which the validity of the Rule may be determined by a court.

8.

The Petitioners do not stipulate that the agency record may be shortened.

9.

The Petitioners are entitled to their attorneys' fees and costs pursuant to ORS
183.497.

AMEND: 340-012-0054

RULE TITLE: Air Quality Classification of Violations

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: Adding Division 271 to the list of potential violations

RULE TEXT:

(1) Class I:

- (a) Constructing a new source or modifying an existing source without first obtaining a required New Source Review/Prevention of Significant Deterioration (NSR/PSD) permit;
- (b) Constructing a new source, as defined in OAR 340-245-0020, without first obtaining a required Air Contaminant Discharge Permit that includes permit conditions required under OAR 340-245-0005 through 340-245-8050 or without complying with Cleaner Air Oregon rules under OAR 340-245-0005 through 340-245-8050;
- (c) Failing to conduct a source risk assessment, as required under OAR 340-245-0050;
- (d) Modifying a source in such a way as to require a permit modification under OAR 340-245-0005 through 340-245-8050, that would increase risk above permitted levels under OAR 340-245-0005 through 340-245-8050 without first obtaining such approval from DEQ;
- (e) Operating a major source, as defined in OAR 340-200-0020, without first obtaining the required permit;
- (f) Operating an existing source, as defined in OAR 340-245-0020, after a submittal deadline under OAR 340-245-0030 without having submitted a complete application for a Toxic Air Contaminant Permit Addendum required under OAR 340-245-0005 through 340-245-8050;
- (g) Exceeding a Plant Site Emission Limit (PSEL);

- (h) Exceeding a risk limit, including a Source Risk Limit, applicable to a source under OAR 340-245-0100;
- (i) Failing to install control equipment or meet emission limits, operating limits, work practice requirements, or performance standards as required by New Source Performance Standards under OAR 340 division 238 or National Emission Standards for Hazardous Air Pollutant Standards under OAR 340 division 244;
- (j) Exceeding a hazardous air pollutant emission limitation;
- (k) Failing to comply with an Emergency Action Plan;
- (l) Exceeding an opacity or emission limit (including a grain loading standard) or violating an operational or process standard, that was established under New Source Review/Prevention of Significant Deterioration (NSR/PSD);
- (m) Exceeding an emission limit or violating an operational or process standard that was established to limit emissions to avoid classification as a major source, as defined in OAR 340-200-0020;
- (n) Exceeding an emission limit or violating an operational limit, process limit, or work practice requirement that was established to limit risk or emissions to avoid exceeding an applicable Risk Action Level or other requirement under OAR 340-245-0005 through 340-245-8050;
- (o) Exceeding an emission limit, including a grain loading standard, by a major source, as defined in OAR 340-200-0020, when the violation was detected during a reference method stack test;
- (p) Failing to perform testing or monitoring, required by a permit, permit attachment, rule or order, that results in failure to show compliance with a Plant Site Emission Limit or with an emission limitation or a performance standard established under New Source Review/Prevention of Significant Deterioration, National Emission Standards for Hazardous Air Pollutants, New Source Performance Standards, Reasonably Available Control Technology, Best Available Control Technology, Maximum Achievable Control Technology, Typically Achievable Control Technology, Lowest Achievable Emission Rate, Toxics Best Available Control Technology, Toxics Lowest Achievable Emission Rate, or adopted under section 111(d) of the Federal Clean Air Act;
- (q) Causing emissions that are a hazard to public safety;
- (r) Violating a work practice requirement for asbestos abatement projects;
- (s) Improperly storing or openly accumulating friable asbestos material or asbestos-containing waste material;
- (t) Conducting an asbestos abatement project, by a person not licensed as an asbestos abatement contractor;
- (u) Violating an OAR 340 division 248 disposal requirement for asbestos-containing waste material;
- (v) Failing to hire a licensed contractor to conduct an asbestos abatement project;
- (w) Openly burning materials which are prohibited from being open burned anywhere in the state by OAR 340-264-0060(3), or burning materials in a solid fuel burning device, fireplace, trash burner or other device as prohibited by OAR 340-262-0900(1);
- (x) Failing to install certified vapor recovery equipment;
- (y) Delivering for sale a noncompliant vehicle by a vehicle manufacturer in violation of Oregon Low Emission and Zero Emission Vehicle rules set forth in OAR 340 division 257;
- (z) Exceeding an Oregon Low Emission Vehicle average emission limit set forth in OAR 340 division 257;
- (aa) Failing to comply with Zero Emission Vehicle (ZEV) sales requirements or to meet credit retirement and/or deficit requirements under OAR 340 division 257;
- (bb) Failing to obtain a Motor Vehicle Indirect Source Permit as required in OAR 340 division 257;
- (cc) Selling, leasing, or renting a noncompliant vehicle by an automobile dealer or rental car agency in violation of Oregon Low Emission Vehicle rules set forth in OAR 340 division 257;
- (dd) Failing to comply with any of the clean fuel standards set forth in OAR 340-253-0100(6) and Tables 1 and 2 of OAR 340-253-8010;
- (ee) Committing any action related to a credit transfer that is prohibited in OAR 340-253-1005(8);
- (ff) Inaccurate reporting that causes illegitimate credits to be generated in the Oregon Clean Fuels Program, OAR chapter 340, division 253, or that understates a regulated party's true compliance obligation denominated in deficits under such program;
- (gg) Making misstatements about material information or knowingly or recklessly providing false information when

- submitting an application for a carbon intensity score under OAR 340-253-0450;
 - (hh) Failing to timely submit a complete and accurate annual compliance report under OAR 340-253-0100(8);
 - (ii) Failing to timely submit a complete and accurate emissions data report under OAR 340-215-0044 and OAR 340-215-0046;
 - (jj) Submitting a verification statement to DEQ prepared by a person not approved by DEQ under OAR 340-272-0220 to perform verification services;
 - (kk) Failing to timely submit a verification statement that meets the verification requirements under OAR 340-272-0100 and OAR 340-272-0495;
 - (ll) Failing to submit a revised application or report to DEQ according to OAR 340-272-0435;
 - (mm) Failing to complete re-verification according to OAR 340-272-0350(2);
 - (nn) Failing to timely submit a Methane Generation Rate Report or Instantaneous Surface Monitoring Report according to OAR 340-239-0105;
 - (oo) Failing to timely submit a Design Plan or Amended Design Plan in accordance with OAR 340-239-0110(1);
 - (pp) Failing to timely install and operate a landfill gas collection and control system according to OAR 340-239-0110(1);
 - (qq) Failing to operate a landfill gas collection and control system or conduct performance testing of a landfill gas control device according to the requirements in OAR 340-239-0110(2);
 - (rr) Failing to conduct landfill wellhead sampling under OAR 340-239-0110(3);
 - (ss) Failing to comply with a landfill compliance standard in OAR 340-239-0200;
 - (tt) Failing to conduct monitoring or remonitoring in accordance with OAR 340-239-0600 that results in a failure to demonstrate compliance with a landfill compliance standard in OAR 340-239-0200 or the 200 ppmv threshold in OAR 340-239-0105(5)(b) or OAR 340-239-0400(2)(c);
 - (uu) Failure to take corrective actions in accordance with OAR 340-239-0600(1);
 - (vv) Failing to comply with a landfill gas collection and control system permanent shutdown and removal requirement in OAR 340-239-0400(1);
 - (ww) Delivering for sale a new noncompliant on highway heavy duty engine, truck or trailer in violation of rules set forth under OAR 340 division 261;
 - (xx) Failing to notify DEQ of changes in ownership or operational control or changes to related entities under OAR 340-271-0120;
 - (yy) Owning or operating a covered entity, identified in OAR 340-271-0110, after a submittal deadline under OAR 340-271-0150(1)(a) or OAR 340-271-0330(1)(b) without having submitted a complete application for a Climate Protection Program permit or Climate Protection Program permit addendum required under OAR 340-271-0150;
 - (zz) Emitting covered emissions from a covered entity, as identified in OAR 340-271-0110, that is a new source, as defined in OAR 340-271-0020, without having been issued a BAER order under OAR 340-271-0320 and a permit issued under OAR 340-271-0150(3)(c);
 - (aaa) Failing to submit a BAER assessment or an updated BAER assessment according to OAR 340-271-0310;
 - (bbb) Failing to comply with a BAER order issued under OAR 340-271-0320.
 - (ccc) Failing to comply with a condition in a permit, Climate Protection Program permit, or Climate Protection Program permit addendum issued according to OAR 340-271-0150 that requires the reduction of greenhouse gas emissions;
 - (ddd) Failing to demonstrate compliance according to OAR 340-271-0450;
 - (eee) Failing to comply with the requirements for trading of compliance instruments under OAR 340-271-0500 or 340-271-0510; or
 - (fff) Submitting false or inaccurate information on any application or submittal required under OAR Chapter 340 division 271.
- (2) Class II:
- (a) Constructing or operating a source required to have an Air Contaminant Discharge Permit (ACDP), ACDP attachment, or registration without first obtaining such permit or registration, unless otherwise classified;
 - (b) Violating the terms or conditions of a permit, permit attachment or license, unless otherwise classified;

- (c) Modifying a source in such a way as to require a permit or permit attachment modification from DEQ without first obtaining such approval from DEQ, unless otherwise classified;
 - (d) Exceeding an opacity limit, unless otherwise classified;
 - (e) Exceeding a Volatile Organic Compound (VOC) emission standard, operational requirement, control requirement or VOC content limitation established by OAR 340 division 232;
 - (f) Failing to timely submit a complete ACDP annual report or permit attachment annual report;
 - (g) Failing to timely submit a certification, report, or plan as required by rule, permit or permit attachment, unless otherwise classified;
 - (h) Failing to timely submit a complete permit application, ACDP attachment application, or permit renewal application;
 - (i) Failing to submit a timely and complete toxic air contaminant emissions inventory as required under OAR 340-245-0005 through 340-245-8050;
 - (j) Failing to comply with the open burning requirements for commercial, construction, demolition, or industrial wastes in violation of OAR 340-264-0080 through 0180;
 - (k) Failing to comply with open burning requirements in violation of any provision of OAR 340 division 264, unless otherwise classified; or burning materials in a solid fuel burning device, fireplace, trash burner or other device as prohibited by OAR 340-262-0900(2).
 - (l) Failing to replace, repair, or modify any worn or ineffective component or design element to ensure the vapor tight integrity and efficiency of a stage I or stage II vapor collection system;
 - (m) Failing to provide timely, accurate or complete notification of an asbestos abatement project;
 - (n) Failing to perform a final air clearance test or submit an asbestos abatement project air clearance report for an asbestos abatement project;
 - (o) Violating on road motor vehicle refinishing rules contained in OAR 340-242-0620;
 - (p) Failing to comply with an Oregon Low Emission Vehicle reporting, notification, or warranty requirement set forth in OAR division 257;
 - (q) Failing to register as a regulated party in the Oregon Clean Fuels Program under OAR 340-253-0100(1) and (4), when the person is a producer or importer of blendstocks, as defined in OAR 340-253-0040;
 - (r) Failing to register as an aggregator or submit an aggregator designation form under OAR 340-253-0100(3) and (4)(c);
 - (s) Failing to keep records under OAR 340-253-0600 when the records relate to obtaining a carbon intensity under OAR 340-253-0450;
 - (t) Failing to keep records related to obtaining a carbon intensity under OAR 340-253-0450;
 - (u) Failing to timely submit a complete and accurate quarterly report under OAR 340-253-0100(7);
 - (v) Violating any requirement under OAR Chapter 340 division 272, unless otherwise classified;
 - (w) Violating any requirement under OAR 340, division 239, unless otherwise classified;
 - (x) Failing to comply with the reporting notification or warranty requirements for new engines, trucks, and trailers set forth in OAR Chapter 340, division 261;
 - (y) Violating any requirement under the Climate Protection Program, OAR Chapter 340, division 271, unless otherwise classified; or
 - (z) Violating any condition in a permit, Climate Protection Program permit, or Climate Protection Program permit addendum issued according to OAR 340-271-0150, unless otherwise classified.
- (3) Class III:
- (a) Failing to perform testing or monitoring required by a permit, rule or order where missing data can be reconstructed to show compliance with standards, emission limitations or underlying requirements;
 - (b) Constructing or operating a source required to have a Basic Air Contaminant Discharge Permit without first obtaining the permit;
 - (c) Modifying a source in such a way as to require construction approval from DEQ without first obtaining such approval from DEQ, unless otherwise classified;

- (d) Failing to revise a notification of an asbestos abatement project when necessary, unless otherwise classified;
- (e) Submitting a late air clearance report that demonstrates compliance with the standards for an asbestos abatement project;
- (f) Licensing a noncompliant vehicle by an automobile dealer or rental car agency in violation of Oregon Low Emission Vehicle rules set forth in OAR 340 division 257;
- (g) Failing to register as a regulated party in the Oregon Clean Fuels Program under OAR 340-253-0100(1) and (4), when the person is an importer of finished fuels, as defined in OAR 340-253-0040; or
- (h) Failing to keep records under OAR 340-253-0600, except as provided in subsection (2)(s).

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.045

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025

AMEND: 340-012-0135

RULE TITLE: Selected Magnitude Categories

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: Adding Division 271 to the list of magnitude categories.

RULE TEXT:

(1) Magnitudes for selected Air Quality violations will be determined as follows:

(a) Opacity limit violations:

(A) Major — Opacity measurements or readings of 20 percent opacity or more over the applicable limit, or an opacity violation by a federal major source as defined in OAR 340-200-0020;

(B) Moderate — Opacity measurements or readings greater than 10 percent opacity and less than 20 percent opacity over the applicable limit; or

(C) Minor — Opacity measurements or readings of 10 percent opacity or less over the applicable limit.

(b) Operating a major source, as defined in OAR 340-200-0020, without first obtaining the required permit: Major — if a Lowest Achievable Emission Rate (LAER) or Best Available Control Technology (BACT) analysis shows that additional controls or offsets are or were needed, otherwise apply OAR 340-012-0130.

(c) Exceeding an emission limit established under New Source Review/Prevention of Significant Deterioration

(NSR/PSD): Major — if exceeded the emission limit by more than 50 percent of the limit, otherwise apply OAR 340-012-0130.

(d) Exceeding an emission limit established under federal National Emission Standards for Hazardous Air Pollutants (NESHAPs): Major — if exceeded the Maximum Achievable Control Technology (MACT) standard emission limit for a directly-measured hazardous air pollutant (HAP), otherwise apply OAR 340-012-0130.

(e) Exceeding a cancer or noncancer risk limit that is equivalent to a Risk Action Level or a Source Risk Limit if the limit is a Risk Action Level established under OAR 340-245-0005 through 340-245-8050: Major, otherwise apply OAR 340-012-0130.

(f) Air contaminant emission limit violations for selected air pollutants: Magnitude determinations under this subsection will be made based upon significant emission rate (SER) amounts listed in OAR 340-200-0020.

(A) Major:

(i) Exceeding the annual emission limit as established by permit, rule or order by more than the annual SER; or

(ii) Exceeding the short-term (less than one year) emission limit as established by permit, rule or order by more than the applicable short-term SER.

(B) Moderate:

(i) Exceeding the annual emission limit as established by permit, rule or order by an amount from 50 up to and including 100 percent of the annual SER; or

(ii) Exceeding the short-term (less than one-year) emission limit as established by permit, rule or order by an amount from 50 up to and including 100 percent of the applicable short-term SER.

(C) Minor:

(i) Exceeding the annual emission limit as established by permit, rule or order by an amount less than 50 percent of the annual SER; or

(ii) Exceeding the short-term (less than one year) emission limit as established by permit, rule or order by an amount less than 50 percent of the applicable short-term SER.

(g) Violations of Emergency Action Plans: Major — Major magnitude in all cases.

(h) Violations of on road motor vehicle refinishing rules contained in OAR 340-242-0620: Minor — Refinishing 10 or fewer on road motor vehicles per year.

(i) Asbestos violations — These selected magnitudes apply unless the violation does not cause the potential for human exposure to asbestos fibers:

(A) Major — More than 260 linear feet or more than 160 square feet of asbestos-containing material or asbestos-

containing waste material;

(B) Moderate — From 40 linear feet up to and including 260 linear feet or from 80 square feet up to and including 160 square feet of asbestos-containing material or asbestos-containing waste material; or

(C) Minor — Less than 40 linear feet or 80 square feet of asbestos-containing material or asbestos-containing waste material.

(D) The magnitude of the asbestos violation may be increased by one level if the material was comprised of more than five percent asbestos.

(j) Open burning violations:

(A) Major — Initiating or allowing the initiation of open burning of 20 or more cubic yards of commercial, construction, demolition and/or industrial waste; or 5 or more cubic yards of prohibited materials (inclusive of tires); or 10 or more tires;

(B) Moderate — Initiating or allowing the initiation of open burning of 10 or more, but less than 20 cubic yards of commercial, construction, demolition and/or industrial waste; or 2 or more, but less than 5 cubic yards of prohibited materials (inclusive of tires); or 3 to 9 tires; or if DEQ lacks sufficient information upon which to make a determination of the type of waste, number of cubic yards or number of tires burned; or

(C) Minor — Initiating or allowing the initiation of open burning of less than 10 cubic yards of commercial, construction, demolition and/or industrial waste; or less than 2 cubic yards of prohibited materials (inclusive of tires); or 2 or less tires.

(D) The selected magnitude may be increased one level if DEQ finds that one or more of the following are true, or decreased one level if DEQ finds that none of the following are true:

(i) The burning took place in an open burning control area;

(ii) The burning took place in an area where open burning is prohibited;

(iii) The burning took place in a non-attainment or maintenance area for PM10 or PM2.5; or

(iv) The burning took place on a day when all open burning was prohibited due to meteorological conditions.

(k) Oregon Low Emission Vehicle Non-Methane Gas (NMOG) or Green House Gas (GHG) fleet average emission limit violations:

(A) Major — Exceeding the limit by more than 10 percent; or

(B) Moderate — Exceeding the limit by 10 percent or less.

(l) Oregon Clean Fuels Program violations:

(A) Exceeding the clean fuel standards set forth in OAR 340-253-0100(6) and Tables 1 and 2 of 340-253-8010 by not retiring sufficient credits to satisfy a regulated party's compliance obligation:

(i) Major — more than 15 percent of their total deficit obligation remains unsatisfied;

(ii) Moderate — more than 10 percent but less than 15 percent of their total deficit obligation remains unsatisfied; or

(iii) Minor — less than 10 percent of their total deficit obligation remains unsatisfied.

(B) Failing to register under OAR 340-253-0100(1) and (4): Moderate — producers and importers of blendstocks;

(C) Failing to submit an aggregator designation form under OAR 340-253-0100(3) and (4)(c): Minor;

(D) Failing to keep records as set forth in OAR 340-253-0600, when the records relate to obtaining a carbon intensity under OAR 340-253-04500600: Minor;

(E) Failing to submit a complete and accurate annual compliance report or quarterly report under OAR chapter 340 division 253: Moderate;

(F) Failing to timely submit a complete and accurate annual compliance report or quarterly report under OAR chapter 340, division 253: Minor.

(m) Failing to timely submit a complete and accurate emissions data report under the Oregon Greenhouse Gas Reporting Program, OAR chapter 340, division 215, where the untimely, incomplete or inaccurate reporting impacts applicability or any compliance obligation under the Climate Protection Program, OAR chapter 340, division 271: Major.

(n) Oregon Climate Protection Program violations:

- (A) Failing to demonstrate compliance according to OAR 340-271-0450: Major.
- (B) Failing to comply with a BAER order issued under OAR 340-271-0320: Major
- (C) Failing to comply with a condition in a permit, Climate Protection Program permit, or Climate Protection Program permit addendum issued according to OAR 340-271-0150 that requires the reduction of greenhouse gas emissions: Major.
- (D) Failing to obtain a BAER order under OAR 340-271-0320 or a permit issued under OAR 340-271-0150(3)(c), for a covered entity, as identified in OAR 340-271-0110, that is a new source, as defined in OAR 340-271-0020: Major.
- (2) Magnitudes for selected Water Quality violations will be determined as follows:
- (a) Violating wastewater discharge permit effluent limitations:
- (A) Major:
- (i) The dilution (D) of the spill or technology based effluent limitation exceedance was less than two, when calculated as follows: $D = ((QR/4) + QI) / QI$, where QR is the estimated receiving stream flow and QI is the estimated quantity or discharge rate of the incident;
- (ii) The receiving stream flow at the time of the water quality based effluent limitation (WQBEL) exceedance was at or below the flow used to calculate the WQBEL; or
- (iii) The resulting water quality from the spill or discharge was as follows:
- (I) For discharges of toxic pollutants: CS/D was more than CA_{acute} , where CS is the concentration of the discharge, D is the dilution of the discharge as determined under (2)(a)(A)(i), and CA_{acute} is the concentration for acute toxicity (as defined by the applicable water quality standard);
- (II) For spills or discharges affecting temperature, when the discharge temperature is at or above 32 degrees centigrade after two seconds from the outfall; or
- (III) For BOD5 discharges: $(BOD5)/D$ is more than 10, where BOD5 is the concentration of the five-day Biochemical Oxygen Demand of the discharge and D is the dilution of the discharge as determined under (2)(a)(A)(i).
- (B) Moderate:
- (i) The dilution (D) of the spill or the technology based effluent limitation exceedance was two or more but less than 10 when calculated as follows: $D = ((QR/4) + QI) / QI$, where QR is the estimated receiving stream flow and QI is the estimated quantity or discharge rate of the discharge; or
- (ii) The receiving stream flow at the time of the WQBEL exceedance was greater than, but less than twice, the flow used to calculate the WQBEL.
- (C) Minor:
- (i) The dilution (D) of the spill or the technology based effluent limitation exceedance was 10 or more when calculated as follows: $D = ((QR/4) + QI) / QI$, where QR is the receiving stream flow and QI is the quantity or discharge rate of the incident; or
- (ii) The receiving stream flow at the time of the WQBEL exceedance was twice the flow or more of the flow used to calculate the WQBEL.
- (b) Violating numeric water quality standards:
- (A) Major:
- (i) Increased the concentration of any pollutant except for toxics, dissolved oxygen, pH, and turbidity, by 25 percent or more of the standard;
- (ii) Decreased the dissolved oxygen concentration by two or more milligrams per liter below the standard;
- (iii) Increased the toxic pollutant concentration by any amount over the acute standard or by 100 percent or more of the chronic standard;
- (iv) Increased or decreased pH by one or more pH units from the standard; or
- (v) Increased turbidity by 50 or more nephelometric turbidity units (NTU) over background.
- (B) Moderate:
- (i) Increased the concentration of any pollutant except for toxics, pH, and turbidity by more than 10 percent but less than 25 percent of the standard;

- (ii) Decreased dissolved oxygen concentration by one or more, but less than two, milligrams per liter below the standard;
 - (iii) Increased the concentration of toxic pollutants by more than 10 percent but less than 100 percent of the chronic standard;
 - (iv) Increased or decreased pH by more than 0.5 pH unit but less than 1.0 pH unit from the standard; or
 - (v) Increased turbidity by more than 20 but less than 50 NTU over background.
- (C) Minor:
- (i) Increased the concentration of any pollutant, except for toxics, pH, and turbidity, by 10 percent or less of the standard;
 - (ii) Decreased the dissolved oxygen concentration by less than one milligram per liter below the standard;
 - (iii) Increased the concentration of toxic pollutants by 10 percent or less of the chronic standard;
 - (iv) Increased or decreased pH by 0.5 pH unit or less from the standard; or
 - (v) Increased turbidity by 20 NTU or less over background.
- (c) The selected magnitude under (2)(a) or (b) may be increased one or more levels if the violation:
- (A) Occurred in a water body that is water quality limited (listed on the most current 303(d) list) and the discharge is the same pollutant for which the water body is listed;
 - (B) Depressed oxygen levels or increased turbidity and/or sedimentation in a stream in which salmonids may be rearing or spawning as indicated by the beneficial use maps available at OAR 340-041-0101 through 0340;
 - (C) Violated a bacteria standard either in shellfish growing waters or during the period from June 1 through September 30; or
 - (D) Resulted in a documented fish or wildlife kill.
- (3) Magnitudes for selected Solid Waste violations will be determined as follows:
- (a) Operating a solid waste disposal facility without a permit or disposing of solid waste at an unpermitted site:
 - (A) Major — The volume of material disposed of exceeds 400 cubic yards;
 - (B) Moderate — The volume of material disposed of is greater than or equal to 40 cubic yards and less than or equal to 400 cubic yards; or
 - (C) Minor — The volume of materials disposed of is less than 40 cubic yards.
 - (D) The magnitude of the violation may be raised by one magnitude if the material disposed of was either in the floodplain of waters of the state or within 100 feet of waters of the state.
 - (b) Failing to accurately report the amount of solid waste disposed:
 - (A) Major — The amount of solid waste is underreported by 15 percent or more of the amount received;
 - (B) Moderate — The amount of solid waste is underreported by 5 percent or more, but less than 15 percent, of the amount received; or
 - (C) Minor — The amount of solid waste is underreported by less than 5 percent of the amount received.
- (4) Magnitudes for selected Hazardous Waste violations will be determined as follows:
- (a) Failure to make a hazardous waste determination:
 - (A) Major — Failure to make the determination on five or more waste streams;
 - (B) Moderate — Failure to make the determination on three or four waste streams; or
 - (C) Minor — Failure to make the determination on one or two waste streams.
 - (b) Hazardous Waste treatment, storage and disposal violations of OAR 340-012-0068(1)(b), (c), (h), (k), (l), (m), (p), (q) and (r):
 - (A) Major:
 - (i) Treatment, storage, or disposal of more than 55 gallons or 330 pounds of hazardous waste; or
 - (ii) Treatment, storage, or disposal of at least one quart or 2.2 pounds of acutely hazardous waste.
 - (B) Moderate:
 - (i) Treatment, storage, or disposal of 55 gallons or 330 pounds or less of hazardous waste; or
 - (ii) Treatment, storage, or disposal of less than one quart or 2.2 pounds of acutely hazardous waste.

(c) Hazardous waste management violations classified in OAR 340-012-0068(1)(d), (e) (f), (g), (i), (j), (n), (s) and (2)(a), (b), (d), (e), (h), (i), (k), (m), (n), (o), (p), (r) and (s):

(A) Major:

- (i) Hazardous waste management violations involving more than 1,000 gallons or 6,000 pounds of hazardous waste; or
- (ii) Hazardous waste management violations involving at least one quart or 2.2 pounds of acutely hazardous waste.

(B) Moderate:

- (i) Hazardous waste management violations involving more than 250 gallons or 1,500 pounds, up to and including 1,000 gallons or 6,000 pounds of hazardous waste; or
- (ii) Hazardous waste management violations involving less than one quart or 2.2 pounds of acutely hazardous waste.

(C) Minor:

- (i) Hazardous waste management violations involving 250 gallons or 1,500 pounds or less of hazardous waste and no acutely hazardous waste.

(5) Magnitudes for selected Used Oil violations (OAR 340-012-0072) will be determined as follows:

(a) Used Oil violations set forth in OAR 340-012-0072(1)(f), (h), (i), (j); and (2)(a) through (h):

(A) Major — Used oil management violations involving more than 1,000 gallons or 7,000 pounds of used oil or used oil mixtures;

(B) Moderate — Used oil management violations involving more than 250 gallons or 1,750 pounds, up to and including 1,000 gallons or 7,000 pounds of used oil or used oil mixture; or

(C) Minor — Used oil management violations involving 250 gallons or 1,750 pounds or less of used oil or used oil mixtures.

(b) Used Oil spill or disposal violations set forth in OAR 340-012-0072(1)(a) through (e), (g) and (k).

(A) Major — A spill or disposal involving more than 420 gallons or 2,940 pounds of used oil or used oil mixtures;

(B) Moderate — A spill or disposal involving more than 42 gallons or 294 pounds, up to and including 420 gallons or 2,940 pounds of used oil or used oil mixtures; or

(C) Minor — A spill or disposal of used oil involving 42 gallons or 294 pounds or less of used oil or used oil mixtures.

[NOTE: Tables & Publications referenced are available from the agency.]

STATUTORY/OTHER AUTHORITY: ORS 468.065, 468A.045

STATUTES/OTHER IMPLEMENTED: ORS 468.090 - 468.140, 468A.060

AMEND: 340-012-0140

RULE TITLE: Determination of Base Penalty

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: Adding Division 271 to the list of penalties.

RULE TEXT:

(1) Except for Class III violations and as provided in OAR 340-012-0155, the base penalty (BP) is determined by applying the class and magnitude of the violation to the matrices set forth in this section. For Class III violations, no magnitude determination is required.

(2) \$12,000 Penalty Matrix:

(a) The \$12,000 penalty matrix applies to the following:

(A) Any violation of an air quality statute, rule, permit or related order committed by a person that has or should have a Title V permit or an Air Contaminant Discharge Permit (ACDP) issued pursuant to New Source Review (NSR) regulations or Prevention of Significant Deterioration (PSD) regulations, or section 112(g) of the federal Clean Air Act, unless otherwise classified.

(B) Open burning violations as follows:

(i) Any violation of OAR 340-264-0060(3) committed by an industrial facility operating under an air quality permit.

(ii) Any violation of OAR 340-264-0060(3) in which 25 or more cubic yards of prohibited materials or more than 15 tires are burned, except when committed by a residential owner-occupant.

(C) Any violation of the Oregon Low Emission and Zero Emission Vehicle rules (OAR 340-257) by a vehicle manufacturer.

(D) Any violation of ORS 468B.025(1)(a) or (1)(b), or of 468B.050(1)(a) by a person without a National Pollutant Discharge Elimination System (NPDES) permit, unless otherwise classified.

(E) Any violation of a water quality statute, rule, permit or related order by:

(i) A person that has an NPDES permit, or that has or should have a Water Pollution Control Facility (WPCF) permit, for a municipal or private utility sewage treatment facility with a permitted flow of five million or more gallons per day.

(ii) A person that has a Tier 1 industrial source NPDES or WPCF permit.

(iii) A person that has a population of 100,000 or more, as determined by the most recent national census, and either has or should have a WPCF Municipal Stormwater Underground Injection Control (UIC) System Permit, or has an NPDES Municipal Separated Storm Sewer Systems (MS4) Stormwater Discharge Permit.

(iv) A person that installs or operates a prohibited Class I, II, III, IV or V UIC system, except for a cesspool.

(v) A person that has or should have applied for coverage under an NPDES Stormwater Discharge 1200-C General Permit for a construction site that disturbs 20 or more acres.

(F) Any violation of the ballast water statute in ORS Chapter 783 or ballast water management rule in OAR 340, division 143.

(G) Any violation of a Clean Water Act Section 401 Water Quality Certification by a 100 megawatt or more hydroelectric facility.

(H) Any violation of a Clean Water Act Section 401 Water Quality Certification for a dredge and fill project except for Tier 1, 2A or 2B projects.

(I) Any violation of an underground storage tanks statute, rule, permit or related order committed by the owner, operator or permittee of 10 or more UST facilities or a person who is licensed or should be licensed by DEQ to perform tank services.

(J) Any violation of a heating oil tank statute, rule, permit, license or related order committed by a person who is licensed or should be licensed by DEQ to perform heating oil tank services.

(K) Any violation of ORS 468B.485, or related rules or orders regarding financial assurance for ships transporting hazardous materials or oil.

(L) Any violation of a used oil statute, rule, permit or related order committed by a person who is a used oil transporter,

transfer facility, processor or re-refiner, off-specification used oil burner or used oil marketer.

(M) Any violation of a hazardous waste statute, rule, permit or related order by:

(i) A person that is a large quantity generator or hazardous waste transporter.

(ii) A person that has or should have a treatment, storage or disposal facility permit.

(N) Any violation of an oil and hazardous material spill and release statute, rule, or related order committed by a covered vessel or facility as defined in ORS 468B.300 or by a person who is engaged in the business of manufacturing, storing or transporting oil or hazardous materials.

(O) Any violation of a polychlorinated biphenyls (PCBs) management and disposal statute, rule, permit or related order.

(P) Any violation of ORS Chapter 465, UST or environmental cleanup statute, rule, related order or related agreement.

(Q) Unless specifically listed under another penalty matrix, any violation of ORS Chapter 459 or any violation of a solid waste statute, rule, permit, or related order committed by:

(i) A person that has or should have a solid waste disposal permit.

(ii) A city with a population of 25,000 or more, as determined by the most recent national census.

(R) Any violation of the Oregon Clean Fuels Program under OAR Chapter 340, division 253 by a person registered as an importer of blendstocks,

(S) Any violation classified under OAR 340-012-0054 (1) (ee), (ff), or (gg).

(T) Any violation of the Oregon Greenhouse Gas Reporting Program under OAR Chapter 340, division 215 by a person with greenhouse gas emissions greater than or equal to 25,000 metric tons per year or by a person that has not reported greenhouse gas emissions to DEQ during the past five years, or by a person for which DEQ has insufficient information to accurately estimate emissions.

(U) Any violation of the Third Party Verification rules under OAR Chapter 340, division 272.

(V) Any violation of the Landfill Gas Emissions rules under OAR Chapter 340, division 239 by a person required to comply with OAR 340-239-0110 through OAR 340-239-0800.

(W) Any violation of the rules for Emission Standards for New Heavy-Duty Trucks under OAR Chapter 340 division 261 by engine, truck or trailer manufacturers and dealers.

(X) Any violation of the Climate Protection Program rules under OAR Chapter 340, division 271.

(b) The base penalty values for the \$12,000 penalty matrix are as follows:

(A) Class I:

(i) Major — \$12,000;

(ii) Moderate — \$6,000;

(iii) Minor — \$3,000.

(B) Class II:

(i) Major — \$6,000;

(ii) Moderate — \$3,000;

(iii) Minor — \$1,500.

(C) Class III: \$1,000.

(3) \$8,000 Penalty Matrix:

(a) The \$8,000 penalty matrix applies to the following:

(A) Any violation of an air quality statute, rule, permit, permit attachment, or related order committed by a person that has or should have an ACDP permit, except for NSR, PSD and Basic ACDP permits, unless listed under another penalty matrix, unless otherwise classified.

(B) Any violation of an asbestos statute, rule, permit or related order except those violations listed in section (5) of this rule.

(C) Any violation of a vehicle inspection program statute, rule, permit or related order committed by an auto repair facility.

(D) Any violation of the Oregon Low Emission Vehicle rules (OAR 340-257) committed by an automobile dealer or an automobile rental agency.

- (E) Any violation of a water quality statute, rule, permit or related order committed by:
- (i) A person that has an NPDES Permit, or that has or should have a WPCF Permit, for a municipal or private utility sewage treatment facility with a permitted flow of two million or more, but less than five million, gallons per day.
 - (ii) A person that has a Tier 2 industrial source NPDES or WPCF Permit.
 - (iii) A person that has or should have applied for coverage under an NPDES or a WPCF General Permit, except an NPDES Stormwater Discharge 1200-C General Permit for a construction site of less than five acres in size or 20 or more acres in size.
 - (iv) A person that has a population of less than 100,000 but more than 10,000, as determined by the most recent national census, and has or should have a WPCF Municipal Stormwater UIC System Permit or has an NPDES MS4 Stormwater Discharge Permit.
 - (v) A person that owns, and that has or should have registered, a UIC system that disposes of wastewater other than stormwater or sewage or geothermal fluids.
- (F) Any violation of a Clean Water Act Section 401 Water Quality Certification by a less than 100 megawatt hydroelectric facility.
- (G) Any violation of a Clean Water Act Section 401 Water Quality Certification for a Tier 2A or Tier 2B dredge and fill project.
- (H) Any violation of an UST statute, rule, permit or related order committed by a person who is the owner, operator or permittee of five to nine UST facilities.
- (I) Unless specifically listed under another penalty matrix, any violation of ORS Chapter 459 or other solid waste statute, rule, permit, or related order committed by:
- (i) A person that has or should have a waste tire permit; or
 - (ii) A person with a population of more than 5,000 but less than or equal to 25,000, as determined by the most recent national census.
- (J) Any violation of a hazardous waste management statute, rule, permit or related order committed by a person that is a small quantity generator.
- (K) Any violation of an oil and hazardous material spill and release statute, rule, or related order committed by a person other than a person listed in OAR 340-012-0140(2)(a)(N) occurring during a commercial activity or involving a derelict vessel over 35 feet in length.
- (L) Any violation of the Oregon Clean Fuels Program under OAR Chapter 340, division 253 by a person registered as a credit generator, an aggregator, or a registered fuel producer unless the violation is otherwise classified in this rule.
- (M) Any violation of the Oregon Greenhouse Gas Reporting Program under OAR Chapter 340, division 215 by a person with greenhouse gas emissions less than 25,000 metric tons per year but greater than or equal to 5,000 metric tons per year.
- (N) Any violation of the Landfill Gas Emissions rules under OAR Chapter 340, division 239 by a person that owns or operates a landfill with over 200,000 tons waste in place and is not required to comply with OAR 340-239-0110 through OAR 340-239-0800.
- (O) Any violation of a hazardous waste pharmaceutical statute, rule, permit or related order committed by a person that is a reverse distributor.
- (b) The base penalty values for the \$8,000 penalty matrix are as follows:
- (A) Class I:
 - (i) Major — \$8,000.
 - (ii) Moderate — \$4,000.
 - (iii) Minor — \$2,000.
 - (B) Class II:
 - (i) Major — \$4,000.
 - (ii) Moderate — \$2,000.
 - (iii) Minor — \$1,000.

(C) Class III: \$ 700.

(4) \$3,000 Penalty Matrix:

(a) The \$3,000 penalty matrix applies to the following:

(A) Any violation of any statute, rule, permit, license, or order committed by a person not listed under another penalty matrix.

(B) Any violation of an air quality statute, rule, permit, permit attachment, or related order committed by a person not listed under another penalty matrix.

(C) Any violation of an air quality statute, rule, permit, permit attachment, or related order committed by a person that has or should have a Basic ACDP or an ACDP or registration only because the person is subject to Area Source NESHAP regulations.

(D) Any violation of OAR 340-264-0060(3) in which 25 or more cubic yards of prohibited materials or more than 15 tires are burned by a residential owner-occupant.

(E) Any violation of a vehicle inspection program statute, rule, permit or related order committed by a natural person, except for those violations listed in section (5) of this rule.

(F) Any violation of a water quality statute, rule, permit, license or related order not listed under another penalty matrix and committed by:

(i) A person that has an NPDES permit, or has or should have a WPCF permit, for a municipal or private utility wastewater treatment facility with a permitted flow of less than two million gallons per day.

(ii) A person that has or should have applied for coverage under an NPDES Stormwater Discharge 1200-C General Permit for a construction site that is more than one, but less than five acres.

(iii) A person that has a population of 10,000 or less, as determined by the most recent national census, and either has an NPDES MS4 Stormwater Discharge Permit or has or should have a WPCF Municipal Stormwater UIC System Permit.

(iv) A person who is licensed to perform onsite sewage disposal services or who has performed sewage disposal services.

(v) A person, except for a residential owner-occupant, that owns and either has or should have registered a UIC system that disposes of stormwater, sewage or geothermal fluids.

(vi) A person that has or should have a WPCF individual stormwater UIC system permit.

(vii) Any violation of a water quality statute, rule, permit or related order committed by a person that has or should have applied for coverage under an NPDES 700-PM General Permit for suction dredges.

(G) Any violation of an onsite sewage disposal statute, rule, permit or related order, except for a violation committed by a residential owner-occupant.

(H) Any violation of a Clean Water Act Section 401 Water Quality Certification for a Tier 1 dredge and fill project.

(I) Any violation of an UST statute, rule, permit or related order if the person is the owner, operator or permittee of two to four UST facilities.

(J) Any violation of a used oil statute, rule, permit or related order, except a violation related to a spill or release, committed by a person that is a used oil generator.

(K) Any violation of a hazardous waste management statute, rule, permit or related order committed by a person that is a very small quantity generator, unless listed under another penalty matrix.

(L) Any violation of ORS Chapter 459 or other solid waste statute, rule, permit, or related order committed by a person with a population less than 5,000, as determined by the most recent national census.

(M) Any violation of the labeling requirements of ORS 459A.675 through 459A.685.

(N) Any violation of rigid pesticide container disposal requirements by a very small quantity generator of hazardous waste.

(O) Any violation of ORS 468B.025(1)(a) or (b) resulting from turbid discharges to waters of the state caused by non-residential uses of property disturbing less than one acre in size.

(P) Any violation of an oil and hazardous material spill and release statute, rule, or related order committed by a person not listed under another matrix.

(Q) Any violation of the Oregon Clean Fuels Program under OAR chapter 340, division 253 by a person registered as an

importer of finished fuels unless the violation is otherwise classified in this rule.

(R) Any violation of the Oregon Greenhouse Gas Reporting Program under OAR Chapter 340, division 215 by a person with greenhouse gas emissions less than 5,000 metric tons per year.

(b) The base penalty values for the \$3,000 penalty matrix are as follows:

(A) Class I:

(i) Major — \$3,000;

(ii) Moderate — \$1,500;

(iii) Minor — \$750.

(B) Class II:

(i) Major — \$1,500;

(ii) Moderate — \$750;

(iii) Minor — \$375.

(C) Class III: \$250.

(5) \$1,000 Penalty Matrix:

(a) The \$1,000 penalty matrix applies to the following:

(A) Any violation of an open burning statute, rule, permit or related order committed by a residential owner-occupant at the residence, not listed under another penalty matrix.

(B) Any violation of visible emissions standards by operation of a vehicle.

(C) Any violation of an asbestos statute, rule, permit or related order committed by a residential owner-occupant.

(D) Any violation of an onsite sewage disposal statute, rule, permit or related order of OAR chapter 340, division 44 committed by a residential owner-occupant.

(E) Any violation of an UST statute, rule, permit or related order committed by a person who is the owner, operator or permittee of one UST facility.

(F) Any violation of an HOT statute, rule, permit or related order not listed under another penalty matrix.

(G) Any violation of OAR chapter 340, division 124 or ORS 465.505 by a dry cleaning owner or operator, dry store owner or operator, or supplier of perchloroethylene.

(H) Any violation of ORS Chapter 459 or other solid waste statute, rule or related order committed by a residential owner-occupant.

(I) Any violation of a statute, rule, permit or order relating to rigid plastic containers, except for violation of the labeling requirements under OAR 459A.675 through 459A.685.

(J) Any violation of a statute, rule or order relating to the opportunity to recycle.

(K) Any violation of OAR chapter 340, division 262 or other statute, rule or order relating to solid fuel burning devices, except a violation related to the sale of new or used solid fuel burning devices or the removal and destruction of used solid fuel burning devices.

(L) Any violation of an UIC system statute, rule, permit or related order by a residential owner-occupant, when the UIC disposes of stormwater, sewage or geothermal fluids.

(M) Any Violation of ORS 468B.025(1)(a) or (b) resulting from turbid discharges to waters of the state caused by residential use of property disturbing less than one acre in size.

(b) The base penalty values for the \$1,000 penalty matrix are as follows:

(A) Class I:

(i) Major — \$1,000;

(ii) Moderate — \$500;

(iii) Minor — \$250.

(B) Class II:

(i) Major — \$500;

(ii) Moderate — \$250;

(iii) Minor — \$125.

(C) Class III: \$100.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468.090 - 468.140

RULE TITLE: Purpose and Scope

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New rule describing the purpose and scope of division 271.

RULE TEXT:

- (1) This division establishes rules and requirements for the Climate Protection Program for certain air contamination sources that emit greenhouse gases or that cause greenhouse gases to be emitted.
- (2) Climate change caused by anthropogenic greenhouse gas emissions has detrimental effects on the overall public welfare of the State of Oregon. Reducing greenhouse gas emissions and mitigating climate change will improve the overall public welfare of Oregon. In particular, reducing greenhouse gas emissions will improve the welfare of environmental justice communities.
 - (a) Fuel combustion and industrial processes result in emissions of greenhouse gases, which are air contaminants that cause climate change;
 - (b) Reducing greenhouse gas emissions may also reduce emissions of other air contaminants, which may improve air quality for Oregon communities; and
 - (c) Environmental justice communities in Oregon are disproportionately burdened by air contamination, including through disproportionate risk of the impacts of climate change.
- (3) The purposes of the Climate Protection Program are to reduce greenhouse gas emissions from sources in Oregon, achieve co-benefits from reduced emissions of other air contaminants, and enhance public welfare for Oregon communities, particularly environmental justice communities disproportionately burdened by the effects of climate change and air contamination. To support these purposes, this division:
 - (a) Requires that covered entities reduce greenhouse gas emissions;
 - (b) Supports reduction of emissions of other air contaminants that are not greenhouse gases;
 - (c) Prioritizes reduction of greenhouse gases and other air contaminants in environmental justice communities;
 - (d) Provides covered entities with compliance options to minimize disproportionate business and consumer economic impacts associated with meeting the Climate Protection Program requirements; and
 - (e) Allows covered fuel suppliers to comply with the Climate Protection Program requirements in part through contributing community climate investment funds to support projects that reduce greenhouse gas emissions and prioritize benefits for environmental justice communities in Oregon.
- (4) DEQ administers this division in all areas of the State of Oregon and subject to the requirements in this division and OAR 340-200-0010(3), LRAPA is designated by the EQC to implement OAR 340-271-0150(3) of this division within its area of jurisdiction.
- (5)
 - (a) Whenever the DEQ Director has good cause to believe that any person is engaged or is about to engage in any acts or practices which constitute a violation of this division, the Director may authorize DEQ to institute actions or proceedings for legal or equitable remedies to enforce compliance thereto or to restrain further violations.
 - (b) The proceedings authorized by subsection (a) may be instituted without the necessity of prior DEQ notice, hearing and order.
 - (c) The provisions of this section are in addition to and not in substitution of any other civil or criminal enforcement provisions available to DEQ. This includes, without limitation, the authority to impose civil penalties and issue orders according to ORS Chapter 468.090 to 468.140 and OAR chapter 340, divisions 11 and 12.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040, 468A.050, 468A.135, 468.100

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468A.050, 468A.135, 468.035, 468A.010, 468A.015, 468A.045, 468.100

ADOPT: 340-271-0020

RULE TITLE: Definitions

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New definitions rule for division 271.

RULE TEXT:

The definitions in OAR 340-200-0020, OAR 340-215-0020, and this rule apply to this division. If the same term is defined in this rule and either or both OAR 340-200-0020 and OAR 340-215-0020, the definition in this rule applies to this division. If the same term is defined in OAR 340-200-0020 and OAR 340-215-0020, but not in this rule, then the definition in OAR 340-215-0020 applies to this division.

- (1) "Air contamination source" has the meaning given the term in ORS 468A.005. Air contamination sources include, without limitation, stationary sources, fuel suppliers, in-state producers, and local distribution companies.
- (2) "Best available emissions reduction order" or "BAER order" means a DEQ order establishing required actions the owner or operator of a covered stationary source must take to limit covered emissions from the covered stationary source. The BAER order will identify the conditions and requirements that must be included in the CPP permit addendum.
- (3) "Biomass-derived fuels" has the meaning given the term in OAR 340-215-0020. Biomass-derived fuels include, without limitation, biomethane, biodiesel, renewable diesel, renewable propane, woody biomass, and ethanol.
- (4) "Cap" means the total number of compliance instruments generated by DEQ for each calendar year.
- (5) "Climate Protection Program permit addendum" or "CPP permit addendum" means written authorization that incorporates the requirements of this division into a permit by amending an Air Contaminant Discharge Permit or a Title V Operating Permit.
- (6) "Climate Protection Program permit" or "CPP permit" means a permit issued to a covered fuel supplier according to this division.
- (7) "Community climate investment credit" or "CCI credit" or "credit" means an instrument issued by DEQ to track a covered fuel supplier's payment of community climate investment funds, and which may be used in lieu of a compliance instrument, as further provided and limited in this division.
- (8) "Community climate investments," "community climate investment funds" or "CCI funds" means money paid by a covered fuel supplier to a community climate investment entity to support implementation of community climate investment projects and any interest that accrues on the money while it is held by a CCI entity or subcontractor.
- (9) "Community climate investment entity" or "CCI entity" means a nonprofit organization that has been approved by DEQ as a CCI entity and that has entered into a written agreement with DEQ consistent with OAR 340-271-0920 to implement projects supported by community climate investment funds.
- (10) "Compliance instrument" means an instrument issued by DEQ that authorizes the emission of one MT CO₂e of greenhouse gases. Compliance instruments may not be divided into fractions.
- (11) "Compliance obligation" means the total quantity of covered emissions from a covered fuel supplier rounded to the nearest metric ton of CO₂e.
- (12) "Compliance period" means a period of multiple consecutive calendar years, as described in OAR 340-271-0440.
- (13) "Covered emissions" means the greenhouse gas emissions described in any of subsections OAR 340-271-0110(3)(b), (4)(b) and (5)(b), for which covered entities may be subject to the requirements of this division.
- (14) "Covered entity" means an air contamination source subject to the requirements of this division. A covered entity may be either a covered fuel supplier, a covered stationary source, or both.
- (15) "Covered fuel supplier" means an air contamination source that is either:
 - (a) A fuel supplier or in-state producer as described in OAR 340-271-0110(3); or
 - (b) A local distribution company as described in OAR 340-271-0110(4).
- (16) "Covered stationary source" means an air contamination source described in OAR 340-271-0110(5).
- (17) "Designated representative" means the person responsible for certifying, signing, and submitting any registration,

report, or form required to be submitted according to this division, on behalf of a covered entity. For the owner or operator of a covered stationary source with an Oregon Title V Operating Permit, the designated representative is the responsible official and certification must be consistent with OAR 340-218-0040(5).

(18) "Environmental justice communities" means communities of color, communities experiencing lower incomes, tribal communities, rural communities, coastal communities, communities with limited infrastructure and other communities traditionally underrepresented in public processes and adversely harmed by environmental and health hazards, including seniors, youth and persons with disabilities.

(19) "Evaluation period" means a period of multiple consecutive calendar years, as described in Table 5 in OAR 340-271-9000, that DEQ uses to evaluate the number of compliance instruments to distribute to each covered fuel supplier that is not a local distribution company.

(20) "New source" means a source that by December 31, 2021 did not commence construction and did not submit all necessary applications to DEQ according to OAR chapter 340 divisions 210 and 216.

(21) "Nominal electric generating capacity" has the meaning given in ORS 469.300.

(22) "Shut down" means that all operations of a covered entity are permanently shut down, including but not limited to decommissioning and cancelling air permits. Permanent shutdown may include continued operations of space heaters and water heaters as necessary to support decommissioning activities.

(23) "Related entity" means any direct or indirect parent company, direct or indirect subsidiary, company that shares ownership of a direct or indirect subsidiary, or company under full or partial common ownership or control.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040, 468A.050

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468A.050, 468.035, 468A.010, 468A.015, 468A.045

RULE SUMMARY: New Acronyms rule for division 271.

RULE TEXT:

- (1) "BAER" means best available emissions reduction.
- (2) "CCI" means community climate investment.
- (3) "CFR" means Code of Federal Regulations.
- (4) "CPI-U West" means the US Bureau of Labor and Statistics West Region Consumer Price Index for All Urban Consumers for all Items.
- (5) "CPP" means Oregon Climate Protection Program established in this division.
- (6) "DEQ" means Oregon Department of Environmental Quality.
- (7) "EQC" means Environmental Quality Commission.
- (8) "EPA" means US Environmental Protection Agency.
- (9) "IRS" means US Internal Revenue Service.
- (10) "LRAPA" means Lane Regional Air Pollution Agency.
- (11) "Metric tons of CO₂e" or "MT CO₂e" means metric tons of carbon dioxide equivalent.
- (12) "US" means United States.

RULE TITLE: Overview of Program Provisions for Covered Entities and CCI Entities

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Overview of Program Provisions for Covered Entities and CCI Entities rule for division 271

RULE TEXT:

- (1) OAR 340-271-0100 describes general requirements for covered entities.
- (2) OAR 340-271-0110 describes which air contamination sources are covered entities subject to the requirements of the CPP.
- (3) OAR 340-271-0120, OAR 340-271-0130, and 340-271-0150 describe covered entity requirements including notifying DEQ of changes in ownership, operational control, and related entities; cessation of applicability; and requirements to obtain CPP permits and CPP permit addendums, respectively.
- (4) OAR 340-271-0310 through OAR 340-271-0390 describe the provisions that apply to covered stationary sources.
- (5) OAR 340-271-0410 through OAR 340-271-0890 and OAR 340-271-9000 describe the provisions that apply to covered fuel suppliers.
- (6) OAR 340-271-0900 through OAR 340-271-0990 describe the provisions for how DEQ will approve CCI entities and how CCI entities will implement eligible projects supported by CCI funds.

RULE TITLE: Oregon Climate Protection Program Requirements

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Oregon Climate Protection Program Requirements rule for division 271

RULE TEXT:

(1) A person who owns or operates a covered entity must comply with the rules in this division. Compliance with this division does not relieve a person who owns or operates a covered entity of the obligation to comply with any other provisions of OAR chapter 340, as applicable.

(2) CPP permit or CPP permit addendum. A person who owns or operates a covered entity identified in OAR 340-271-0110 must apply for and hold a CPP permit or CPP permit addendum according to OAR 340-271-0150 that authorizes the person's covered emissions and subjects the person to the requirements of this division.

(3) Reporting. A person who owns or operates a covered entity must submit reports and attestations required in this division, as applicable.

(4) Recordkeeping. A person who owns or operates a covered entity must develop and retain all records required in this division, as applicable.

(5) A person who owns or operates a covered entity must use forms and reporting tools approved and issued by DEQ for all certifications, attestations and submissions. All submissions must be made electronically unless otherwise requested or approved by DEQ.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040, 468A.050

ADOPT: 340-271-0110

RULE TITLE: Covered Entity and Covered Emissions Applicability

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Covered Entity and Covered Emissions Applicability rule for division 271.

RULE TEXT:

(1) Calculations of covered emissions, compliance obligations and distribution of compliance instruments will be based on emissions data and information in emissions data reports submitted by a person described in this rule and required according to OAR chapter 340, division 215, which may be subject to verification according to OAR chapter 340, division 272. For any person that does not submit sufficient information in compliance with OAR chapter 340, divisions 215 and 272, calculations will be informed by additional best data available to DEQ. For any person that has not registered and reported according to division 215, such calculations will be based on the best data available to DEQ, following all reporting requirements and assumptions that would be applicable had the person reported according to that division.

(2) A covered entity is subject to the requirements of this division for its covered emissions described in this rule. A person remains a covered entity until cessation is met according to OAR 340-271-0130.

(3) Applicability for fuel suppliers and in-state producers. A person is a covered fuel supplier if the person is described in subsection (a) and has annual covered emissions described in subsection (b) in any applicability determination calendar year that equal or exceed the threshold for applicability listed in Table 1 in OAR 340-271-9000. All persons that are related entities must aggregate their emissions together to determine applicability and each becomes a covered fuel supplier if applicability is met. When applicability is met, each person is a covered fuel supplier beginning with the calendar year a person becomes a covered fuel supplier, as provided in Table 1 in OAR 340-271-9000. Once a person is a covered fuel supplier, the person remains a covered fuel supplier until the person has met the cessation requirements according to OAR 340-271-0130.

(a) The person is a fuel supplier or in-state producer that imports, sells, or distributes fuel for use in Oregon, and is one or more of the following:

(A) A dealer, as that term is defined in ORS 319.010 that is subject to the Oregon Motor Vehicle and Aircraft Fuel Dealer License Tax in OAR chapter 735, division 170;

(B) A seller, as that term is defined in ORS 319.520, that is subject to the Oregon Use Fuel Tax in OAR chapter 735, division 176;

(C) A person that produces, imports, sells, or distributes gasoline or distillate fuel oil for use in Oregon and that is not subject to the Oregon Motor Vehicle and Aircraft Fuel Dealer License Tax or the Oregon Use Fuel Tax in OAR chapter 735, divisions 170 and 176; or

(D) A person that either produces propane in Oregon or imports propane for use in the state.

(b) Except as provided in paragraph (B), covered emissions include emissions described in paragraph (A).

(A) Covered emissions include emissions of anthropogenic greenhouse gases in metric tons of CO₂e that would result from the complete combustion or oxidation of the annual quantity of propane and liquid fuels (including, for example and without limitation, gasoline and petroleum products) imported, sold, or distributed for use in this state.

(B) Covered emissions do not include:

(i) Emissions that are from the combustion of biomass-derived fuels;

(ii) Emissions that are from the combustion of fuels used for aviation including, for example and without limitation, aviation gasoline, kerosene-type jet fuel, and alternative jet fuel; and

(iii) Emissions described in 40 CFR part 98 subpart W – Petroleum and Natural Gas Systems.

(4) Applicability for local distribution companies. A person is a covered fuel supplier if the person is described in subsection (a) and has annual covered emissions described in subsection (b) in 2018 or any subsequent calendar year, unless the person has met the cessation requirements according to OAR 340-271-0130.

(a) The person is a local distribution company that either produces natural gas, compressed natural gas, or liquefied

natural gas in Oregon, or that imports, sells, or distributes natural gas, compressed natural gas, or liquefied natural gas to end users in the state.

(b) Except as provided in paragraph (B), covered emissions include emissions described in paragraph (A).

(A) Covered emissions include emissions of anthropogenic greenhouse gases in metric tons of CO₂e that would result from the complete combustion or oxidation of the annual quantity of natural gas imported, sold, or distributed for use in this state.

(B) Covered emissions do not include:

(i) Emissions that are from the combustion of biomass-derived fuels;

(ii) Emissions described in 40 CFR part 98 subpart W – Petroleum and Natural Gas Systems;

(iii) Emissions that result from non-combustion-related processes that use natural gas, as determined by DEQ; and

(iv) Emissions from natural gas delivered to an air contamination source that is an electric power generating plant with a total nominal electric generating capacity greater than or equal to 25 megawatts.

(5) Applicability for stationary sources. A person is a covered stationary source if the person is described in subsection (a), unless the person has met the cessation requirements according to OAR 340-271-0130.

(a) The person is either or both of the following:

(A) The person owns or operates an existing source required to obtain either a Title V Operating Permit or an Air Contaminant Discharge Permit and that has annual covered emissions described in subsection (b) that equal or exceed 25,000 MT CO₂e in 2018 or in any subsequent calendar year; or

(B) The person owns or operates a new source, or proposes to own or operate a new source, required to obtain either or both a Title V Operating Permit or an Air Contaminant Discharge Permit and that has a potential to emit annual covered emissions described in subsection (b) that will equal or exceed 25,000 MT CO₂e in any calendar year.

(b) Except as provided in paragraph (B), covered emissions include emissions described in paragraph (A).

(A) Covered emissions include emissions of anthropogenic greenhouse gases in metric tons of CO₂e that are from either or both processes or the combustion of solid or gaseous fuels, including emissions from combustion for both energy production and processes.

(B) Covered emissions do not include:

(i) Emissions that are from the combustion of biomass-derived fuels;

(ii) Biogenic CO₂ emissions from solid fuels;

(iii) Emissions that are from the combustion of liquid fuels or propane;

(iv) Emissions from natural gas, compressed natural gas, or liquefied natural gas used on-site that was delivered by a local distribution company;

(v) Emissions described in 40 CFR part 98 subpart HH – Municipal Solid Waste Landfills;

(vi) Emissions described in 40 CFR part 98 subpart TT – Industrial Waste Landfills;

(vii) Emissions from an air contamination source that is owned or operated by an interstate natural gas pipeline that is operating under authority of a certificate of public convenience and necessity issued by the Federal Energy Regulatory Commission; and

(viii) Emissions from an air contamination source that is an electric power generating plant with a total nominal electric generating capacity greater than or equal to 25 megawatts.

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468A.050, 468.035, 468A.010, 468A.015, 468A.045

ADOPT: 340-271-0120

RULE TITLE: Changes in Covered Entity Ownership and Changes to Related Entities

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Changes in Covered Entity Ownership and Changes to Related Entities rule for division 271.

RULE TEXT:

(1) Changes in ownership or operational control.

(a) If a covered entity undergoes a change in ownership or operational control, the new person that owns or operates the covered entity must notify DEQ in writing within 30 days of the ownership or operational control change. The person must submit a complete and accurate notification, including providing the following information:

(A) The name of the previous owner or operator;

(B) The name of the new owner or operator;

(C) The date of ownership or operator change;

(D) Name of the designated representative;

(E) Information about each person that was a related entity prior to the change in ownership or operational control, subject to any regulations in OAR chapter 340, including legal name, full mailing address, and whether each is a covered fuel supplier and holds a CPP permit; and

(F) Information about each person that is a related entity after the change in ownership or operational control, subject to any regulations in OAR chapter 340, including legal name, full mailing address, and whether each is a covered fuel supplier and holds a CPP permit.

(b) The covered entity continues to be a covered entity following a change in ownership or operational control, until it meets the cessation requirements in OAR 340-271-0130. Any other covered entity that was a related entity also continues to be a covered entity following the change in ownership or operational control, until it meets the cessation according to OAR 340-271-0130.

(c) Following a change in ownership or operational control, a covered fuel supplier that holds a compliance instrument or CCI credit according to OAR 340-271-0430 or OAR 340-271-0830 continues to hold the compliance instrument or CCI credit according to each rule, as applicable.

(2) Changes to related entities of covered fuel suppliers.

(a) If a person subject to any regulations in OAR chapter 340 becomes a new related entity to a covered fuel supplier due to a change in ownership or operational control, the designated representative of the covered fuel supplier must notify DEQ in writing within 30 days of the ownership or operational control change. The designated representative must submit a complete and accurate notification, including providing the following information:

(A) Information about the new related entity, including legal name, full mailing address, and whether the person is a covered fuel supplier and holds a CPP permit;

(B) The name of the previous owner or operator of the new related entity;

(C) The name of the new owner or operator of the new related entity;

(D) The date of ownership or operator change for the new related entity; and

(E) Information about all other related entities subject to any regulations in OAR chapter 340, including legal names, full mailing addresses, and whether each is a covered fuel supplier and holds a CPP permit.

(b) If the person that is the new related entity to a covered fuel supplier identified in paragraph (a)(A) is not already a covered fuel supplier, the person:

(A) Becomes a covered fuel supplier beginning with the date of ownership or operator change;

(B) Must apply to DEQ for a CPP permit according to OAR 340-271-0150(1)(a)(B); and

(C) If the person is a covered fuel supplier, the person will have compliance obligations beginning with covered emissions from the calendar year in which the ownership or operator change occurred.

ADOPT: 340-271-0130

RULE TITLE: Cessation of Covered Entity Applicability

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Cessation of Covered Entity Applicability rule for division 271.

RULE TEXT:

(1) Cessation for covered fuel suppliers.

(a) A person that is a covered fuel supplier as described in OAR 340-271-0110 remains a covered fuel supplier until the person receives written notification from DEQ after either or both:

(A) The person's annual covered emissions are 0 (zero) MT CO₂e for six consecutive calendar years; or

(B) The person was designated a covered fuel supplier in OAR 340-271-0110(3) and its annual covered emissions are less than 25,000 MT CO₂e for six consecutive calendar years and the person applies to DEQ according to subsection (c).

(b) After a covered fuel supplier identified according to paragraph (a)(A) demonstrates compliance with compliance obligations for the years up to and including the years described in paragraph (a)(A), DEQ will notify the designated representative of the covered fuel supplier in writing that cessation is met.

(c) In order for cessation according to paragraph (a)(B) to take effect, a covered fuel supplier must apply to cease being a covered fuel supplier by submitting the following information to DEQ on a form approved by DEQ:

(A) Information about the covered fuel supplier, including:

(i) Name and full mailing address, and website; and

(ii) Designated representative's contact information including name, title or position, phone number, and email address;

(B) Information about each related entity subject to any regulations in OAR chapter 340 for each of the six consecutive calendar years, including legal name, full mailing address, and whether each is a covered fuel supplier and holds a CPP permit;

(C) Information about remaining requirements that must be met according to this division at the time the application is submitted to DEQ; and

(D) The following attestation, signed by the designated representative of the covered fuel supplier:

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief, the information provided in this form is true, accurate, and complete. [Covered fuel supplier] meets the eligibility for cessation as a covered fuel supplier according to Oregon Administrative Rules chapter 340, division 271. I understand that ceasing to be a covered fuel supplier means that [covered fuel supplier] will also cease to hold any compliance instruments and CCI credits.

(d) After the covered fuel supplier applying for cessation according to paragraph (a)(B) and subsection (c) demonstrates compliance with compliance obligations for the years up to and including the years described in paragraph (a)(B), DEQ will notify the designated representative of the covered fuel supplier in writing that the application for cessation is approved and that cessation is met.

(e) A person that ceases to be a covered fuel supplier according to this section must comply with all remaining applicable recordkeeping requirements of this division from the last date on which the person was a covered fuel supplier.

(f) When a person ceases to be a covered fuel supplier:

(A) The cessation does not change the compliance obligation for any year for which the person has already demonstrated compliance;

(B) Any remaining compliance instruments held by the person will be retired, held in reserve, or distributed by DEQ according to OAR 340-271-0430(3); and

(C) Any remaining community climate investment credits held by the person will be canceled according to OAR 340-271-0830(1)(c).

(2) Cessation for covered stationary sources.

(a) A person that is a covered stationary source as described in OAR 340-271-0110 remains a covered stationary source until either of the following occur:

(A) The person's operations are changed such that all greenhouse gas emitting processes and operations cease to operate or are shut down. In order for cessation to take effect, the person must submit a written notification to DEQ certifying the cessation of all greenhouse gas emitting processes and operations; or

(B) The person's covered emissions are less than 25,000 MT CO₂e for five consecutive calendar years and the person has fully complied with any applicable BAER order and any related reporting requirements and has submitted any remaining required BAER assessment and five-year BAER report. In order for cessation to take effect, DEQ will notify the covered stationary source that cessation is met.

(b) This section does not apply to seasonal operational cessations or other temporary cessation of operations.

(c) A person that ceases to be a covered stationary source according to this section must comply with all remaining applicable recordkeeping requirements of this division from the last date on which the person was a covered stationary source.

(3) Any person that ceases to be a covered entity according to this rule must resume meeting the requirements of this division for any future year in which applicability is met.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040, 468A.050

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468A.050, 468.035, 468A.010, 468A.015, 468A.045

ADOPT: 340-271-0150

RULE TITLE: Covered Entity Permit Requirements

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Covered Entity Permit Requirements rule for division 271.

RULE TEXT:

(1) A person described in either or both OAR 340-271-0110(3) or (4) must apply for a CPP permit as provided in this section.

(a) The person must apply for a CPP permit according to subsections (b) and (c) by the following deadlines:

(A) If DEQ notifies the person in writing that the person is a covered fuel supplier, then the person must apply to DEQ for a CPP permit within 30 days of the notification or by another date DEQ specifies in the notification that is at least 30 days after the date of the notification;

(B) If DEQ does not provide a notification according to paragraph (A), then the person must apply to DEQ for a CPP permit by whichever is later of:

(i) February 14 of the calendar year a person becomes a covered fuel supplier; or

(ii) March 31 of the year after the first applicability determination calendar year that the person's emissions equal or exceed the threshold in Table 1 in OAR 340-271-9000; or

(C) If there was a change in ownership or operational control according to OAR 340-271-0120(2), then the person must apply to DEQ for a CPP permit within 45 days of the change in ownership or operational control.

(b) A person that submits a CPP permit application to DEQ must submit a complete and accurate application. The application for a CPP permit must be submitted to DEQ using a form approved by DEQ and include:

(A) Identifying information about the covered fuel supplier including name, full mailing address, and website, and designated representative's contact information including name, title or position, phone number, and email address;

(B) Information about each related entity subject to any regulations in OAR chapter 340, including legal name, full mailing address, and whether each is a covered fuel supplier and holds a CPP permit; and

(C) The following attestation, signed by the designated representative of the person considered a covered fuel supplier;

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief, the information provided in this form is true, accurate, and complete. [Covered entity] meets the Climate Protection Program applicability requirements described in OAR 340-271-0110 and requests a permit with the understanding that [covered entity] must comply with such permit as provided in Oregon Administrative Rules chapter 340, division 271.

(c) DEQ may issue a CPP permit to a covered fuel supplier that submits a complete and accurate application. The permit may contain all applicable provisions of this division and such other conditions as DEQ determines are necessary to implement, monitor and ensure compliance with this division.

(2) The owner or operator of a new source that is a covered stationary source may not emit any covered emissions prior to being issued a BAER order and a permit according to subsection (3)(c) and OAR 340-271-0330(1).

(3) The owner or operator of a covered stationary source required to apply for a CPP permit addendum according to OAR 340-271-0330(1) must submit a complete and accurate application to DEQ or LRAPA, as applicable, that complies with and includes information identified in this section.

(a) The application must include the following:

(A) Identifying information about the covered stationary source, including name and the name of the person that owns or operates the covered stationary source, full mailing address, the physical address of the covered stationary source, and a description of the nature of business being operated, the name, phone number and email address of the designated representative who is responsible for compliance with the permit, the permit number for an existing source, and the SIC or NAICS code of the covered stationary source;

(B) The name of a person authorized to receive requests from DEQ for additional data and information;

- (C) The date DEQ notified the owner or operator of the covered stationary source of the BAER order established according to OAR 340-271-0320;
- (D) A BAER implementation plan that includes the following:
 - (i) Identification of the actions that the owner or operator of the covered stationary source will take to comply with the BAER order; and
 - (ii) The schedule for implementing the requirements in the BAER order, consistent with any deadlines provided by DEQ in the BAER order, if applicable, and including an estimate of when all requirements from the BAER order will be completed;
- (E) Any other information requested by DEQ; and
- (F) The following attestation, signed by the designated representative of the covered stationary source;

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief, the information provided in this form is true, accurate, and complete. [Covered entity] meets the Climate Protection Program applicability requirements described in OAR 340-271-0110 and requests a permit with the understanding that [covered entity] must comply with such permit as provided in Oregon Administrative Rules chapter 340, division 271.

(b) DEQ or LRAPA, as applicable, may issue a CPP permit addendum to the owner or operator of a covered stationary source that submits a complete and accurate permit modification application consistent with the requirements of OAR chapter 340, divisions 216 and 218, as applicable. The CPP permit addendum will be issued as a Category I permit action according to OAR chapter 340, division 209. A CPP permit addendum will amend the covered stationary source's Air Contaminant Discharge Permit or Title V Operating Permit until the requirements in the addendum can be incorporated into the operating permit. The CPP permit addendum may contain all applicable provisions of this division and such other conditions as DEQ or LRAPA, as applicable, determines are necessary to implement, monitor and ensure compliance with the permit and this division.

(c) If DEQ or LRAPA approves an application for an Air Contaminant Discharge Permit or Title V Operating Permit submitted by the owner or operator of a new source, then DEQ or LRAPA, as applicable, will incorporate the CPP conditions into the new operating permit and will not issue a separate CPP permit addendum. Such CPP conditions may contain all applicable provisions of this division and such other conditions as DEQ or LRAPA, as applicable, determines are necessary to implement, monitor and ensure compliance with the permit and this division.

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468A.135, 468.035, 468A.010, 468A.015, 468A.045

ADOPT: 340-271-0310

RULE TITLE: Best Available Emissions Reduction Assessments for Covered Stationary Sources

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Best Available Emissions Reduction Assessments for Covered Stationary Sources rule for division 271.

RULE TEXT:

(1) Requirement to conduct a BAER assessment.

(a) When notified in writing by DEQ, the owner or operator of a covered stationary source described in OAR 340-271-0110(5)(a)(A) must submit a complete and accurate BAER assessment according to this rule. The owner or operator of the covered stationary source must submit a complete BAER assessment to DEQ not later than nine months following the date of DEQ's notice, unless DEQ has identified a later deadline in its notice or DEQ approves an extension according to section (6).

(b) The owner or operator of a new or proposed covered stationary source described in OAR 340-271-0110(5)(a)(B) must submit a complete and accurate BAER assessment completed according to this rule with its permit application submitted according to OAR chapter 340, division 216, or its notice of construction application submitted according to OAR chapter 340, division 210.

(2) BAER assessment requirements. BAER assessments submitted to DEQ must include the following:

(a) A description of the covered stationary source's production processes and a flow chart of each process;

(b) Identification of all fuels, processes, equipment, and operations that contribute to the covered stationary source's covered emissions, including:

(A) Estimates of annual average covered emissions identified in OAR 340-271-0110(5)(b). For existing covered stationary sources, estimates must be of current annual average covered emissions. For new sources, estimates must be of anticipated annual average covered emissions. Emissions must be identified in MT CO₂e, following methodologies identified in OAR chapter 340, division 215. This must also include and distinguish quantities and covered emissions of each fuel used to control air contaminants that are not greenhouse gases; and

(B) Estimates of current annual average type and quantity of all fuels used by the covered stationary source, and anticipated annual average fuel usage for new sources;

(c) Identification and description of all available fuels, processes, equipment, technology, systems, actions, and other strategies, methods and techniques for reducing covered emissions described in OAR 340-271-0110(5)(b). Strategies considered must include but are not limited to the strategies used by other sources in this state or in other jurisdictions that produce goods of comparable type, quantity, and quality; and

(d) An assessment of each of the following for each strategy identified in subsection (c):

(A) An estimate of annual average covered emissions reductions achieved if the strategy were implemented compared to the emissions estimated in paragraph (b)(A);

(B) Environmental and health impacts, both positive and negative, if the strategy were implemented, including any impacts on air contaminants that are not greenhouse gases and impacts to nearby communities;

(C) Energy impacts if the strategy were implemented, including whether and how the strategy would change energy consumption at the covered stationary source, including impacts related to any fuel use that results in anthropogenic greenhouse gas emissions. Any energy-related costs must be included in the economic impacts assessment in paragraph (D), not the energy impacts assessment;

(D), not the energy impacts assessment;

(D) Economic impacts if the strategy were implemented, including operating costs and the costs of changing existing processes or equipment or adding to existing processes and equipment. Any energy-related costs must be included in the economic impacts assessment, not the energy impacts assessment in paragraph (C). The economic impacts assessment must include both costs and cost savings (benefits);

(E) An estimate of the time needed to fully implement the strategy at the covered stationary source; and

(F) A list of the information, resources, and documents used to support development of the BAER assessment, including,

if available, links to webpages that provide public access to supporting documents.

(3) Upon receipt of a BAER assessment described in section (2), DEQ will review the submittal and if DEQ determines that any additional information, corrections, or updates are required then DEQ may provide the owner or operator of the covered stationary source with a written request to provide such information by a certain date or DEQ may issue the BAER order based on the information it has available. If DEQ requests that the owner or operator of the covered stationary source revise its BAER assessment according to this section, the owner or operator must provide such information no later than the deadline provided by DEQ.

(4) Five year BAER reports.

(a) Every five years following the date that DEQ issued a BAER order, the owner or operator of a covered stationary source must submit to DEQ a five year BAER report that includes an update of the information described in subsections (2)(a) through (c).

(b) If one or more new strategies are identified in a five year BAER report required in subsection (a) that have not previously been evaluated in a BAER assessment, DEQ may notify the owner or operator of the covered stationary source and require that it conduct a complete BAER assessment according to section (2) and submit it to DEQ. Such complete BAER assessment must also include:

(A) Evaluation of any new strategies identified and any previously identified strategies using any new information available at the time the assessment is being conducted; and

(B) Current status and analysis of the implementation of requirements in any prior BAER order(s).

(5) When notified in writing by DEQ, the owner or operator of a covered stationary source identified in section (1) may be required to conduct and submit an updated complete BAER assessment conducted according to this rule, in accordance with the following:

(a) DEQ may not require the owner or operator of a covered stationary source to complete an updated BAER assessment within five years of the date of submission of the most recently completed BAER assessment. However, if DEQ determines the owner or operator of a covered stationary source submitted information that it knew or should have known was false, inaccurate, or incomplete to DEQ, then DEQ may require the owner or operator of the covered stationary source to complete an updated BAER assessment within five years of the date of submission of the most recently completed BAER assessment;

(b) The updated BAER assessment must include assessment of new strategies and previously identified strategies and any new information available at the time the assessment is being conducted;

(c) The owner or operator of the covered stationary source must include current status and analysis of the implementation of requirements in any prior BAER order; and

(d) The owner or operator of the covered stationary source must submit the updated BAER assessment to DEQ not later than nine months following the date of DEQ's notice, unless DEQ has identified a later deadline in the notice or DEQ approves an extension according to section (6).

(6) The owner or operator of a covered stationary source required to conduct a BAER assessment as described in sections (1) or (5) may request an extension of time to complete the BAER assessment by providing DEQ with a written request no fewer than 30 days prior to the submittal deadline. DEQ may grant an extension based on the following criteria:

(a) The owner or operator of the covered stationary source has demonstrated progress in completing the submittal; and

(b) A delay is necessary, for good cause shown by the owner or operator of the covered stationary source, related to obtaining more accurate or new data, performing additional analyses, or addressing changes in operations or other key parameters, any of which are likely to have a substantive impact on the outcomes of the BAER assessment.

RULE TITLE: DEQ Best Available Emissions Reduction Order

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New DEQ Best Available Emissions Reduction Order for division 271.

RULE TEXT:

- (1) DEQ may issue a BAER order for each owner or operator of a covered stationary source that must submit a BAER assessment as provided in OAR 340-271-0310. A BAER order will establish the actions that the owner or operator of a covered stationary source must take to reduce covered emissions and the timeline on which the actions must be taken.
- (2) In establishing the requirements in a BAER order for a covered stationary source, DEQ may consider any information it deems relevant, and must consider the following:
 - (a) Information submitted in a BAER assessment;
 - (b) The fuels, processes, equipment, technology, systems, actions, and other strategies, methods and techniques that maximize covered emissions reductions;
 - (c) The fuels, processes, equipment, technology, systems, actions, and other strategies, methods and techniques for reducing covered emissions used by sources in this state or in other jurisdictions that produce goods of comparable type, quantity, and quality;
 - (d) A reasonable schedule and amount of time necessary to implement a strategy under consideration by DEQ to reduce covered emissions;
 - (e) Environmental, public health, and energy impacts of a strategy under consideration by DEQ to reduce covered emissions, including but not limited to air quality impacts for nearby communities and impacts related to switching to cleaner energy resources, zero-emissions energy resources, or renewable fuels;
 - (f) Economic impacts of a strategy under consideration by DEQ to reduce covered emissions including, but not limited to, costs so great that a new source could not be built or an existing source could not be operated, and cost-effectiveness of different strategies that would achieve similar covered emissions reductions;
 - (g) Processes and operations currently in use by and at the covered stationary source and the remaining useful life of the covered stationary source;
 - (h) Whether a strategy under consideration by DEQ to reduce covered emissions is achievable, technically feasible, commercially available, and cost-effective;
 - (i) Whether a strategy under consideration by DEQ to reduce covered emissions has an impact on the type or quality of good(s) produced by and at the covered stationary source, if applicable; and
 - (j) Input from the public and community organizations from nearby the covered stationary source.
- (3) For the owner or operator of a covered stationary source required to register and report according to OAR chapter 340, division 215, DEQ will consider emissions data reports to assess whether covered emissions reductions are being achieved when establishing the requirements in a BAER order or for determining when to notify the owner or operator of a covered stationary source to conduct and submit an updated complete BAER assessment as described in OAR 340-271-0310(5).
- (4) DEQ may verify information submitted in a BAER assessment.
- (5) DEQ may consult with industry experts and third-party organizations before issuing a BAER order.
- (6) DEQ will notify the owner or operator of a covered stationary source of a BAER order in writing. A BAER order is effective 30 days from the date of the notification unless, within that time, DEQ receives a written request for a hearing from the owner or operator of the covered stationary source according to section (7).
- (7) The owner or operator of a covered stationary source may file with DEQ a written request for a contested case hearing to challenge a BAER order issued according to section (6). The request must be filed in writing within 30 days of the date that DEQ issued the BAER order and must state the grounds for the request. The hearing will be conducted as a contested case hearing in accordance with ORS 183.413 through 183.470 and OAR chapter 340, division 11.
- (8) DEQ will provide a public status update if DEQ has not yet issued a BAER order after 18 months of the date on which

DEQ notified the owner or operator of a covered stationary source that it must conduct a BAER assessment.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040

RULE TITLE: Compliance with a BAER Order

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Compliance with a BAER Order rule for division 271.

RULE TEXT:

(1) The owner or operator of a covered stationary source for which DEQ has issued a BAER order according to OAR 340-271-0320 must:

- (a) Comply with the requirements in the BAER order; and
- (b) Submit to DEQ or LRAPA, as applicable, a complete application for a CPP permit addendum according to OAR 340-271-0150(3) not later than 30 days after the date that the BAER order is final and effective.

(2) Reporting requirements.

(a) The owner or operator of a covered stationary source that has been issued a CPP permit addendum or operating permit that includes provisions related to a BAER order must submit an annual progress report to DEQ describing the progress in implementing the requirements in the BAER order. The annual progress reports are due to DEQ on or before February 15 of each year following the date that the notice of the BAER order is final and effective. The annual progress report must include:

- (A) A description of the progress achieved in implementing the requirements in any BAER order;
 - (B) A schedule indicating dates for future increments of progress;
 - (C) A description of any increases or decreases in covered emissions that have occurred at the covered stationary source since the submission date of the most recently conducted complete BAER assessment; and
 - (D) An estimate of when all implementation of requirements of the BAER order will be complete.
- (b) The owner or operator of a covered stationary source must submit a BAER order completion report to DEQ no later than 60 days after implementation of all requirements in the BAER order are complete, except for items related to continuous and ongoing requirements. The report must include:
- (A) The final increments of progress achieved in fully implementing the requirements in the BAER order and the date the final increments of progress were achieved;
 - (B) A summary of the actions taken to fully implement the requirements in the BAER order; and
 - (C) An estimate of the resulting covered emissions reductions that will be achieved now that the requirements in the BAER order are being implemented.

RULE TITLE: Recordkeeping Requirements Related to BAER

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Recordkeeping Requirements Related to BAER rule for division 271.

RULE TEXT:

(1) Recordkeeping requirements related to BAER assessments and five year BAER reports.

(a) The owner or operator of a covered stationary source that submits any information to DEQ related to a complete BAER assessment or five year BAER report conducted according to OAR 340-271-0310 must retain the following records, in paper or electronic format, for a period of at least ten years from the date the information is submitted to DEQ:

(A) A copy of the assessment or report submitted to DEQ;

(B) Any contract(s) with any independent third-party(ies) in relation to developing the assessment or report; and

(C) All other information and documentation used to support and inform development of the assessment or report.

(b) The owner or operator of the covered stationary source must make available to DEQ upon request all of the records it is required to retain according to this section. DEQ will specify the date by which the owner or operator of the covered stationary source must fulfill a records request from DEQ.

(2) Recordkeeping requirements related to compliance with a BAER order.

(a) The owner or operator of a covered stationary source issued a BAER order must retain the following records, in paper or electronic format, for a period of at least ten years from the applicable date specified below:

(A) All records and information related to a BAER order including but not limited to a copy of the most recently submitted complete BAER assessment and a copy of DEQ's written BAER order from the effective date of the BAER order;

(B) A copy of the permit modification application for the CPP permit addendum or the applicable permit application from the date it is submitted to DEQ;

(C) A copy of each progress report from the date it is submitted to DEQ; and

(D) All other information and documentation related to actions taken to comply with requirements in a BAER order from the effective date of the BAER order.

(b) The owner or operator of a covered stationary source issued a BAER order must make available to DEQ upon request all of the records it is required to retain according to this section. DEQ will specify the date by which the owner or operator of the covered stationary source must fulfill a records request from DEQ.

ADOPT: 340-271-0420

RULE TITLE: Distribution of Compliance Instruments to Covered Fuel Suppliers

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Distribution of Compliance Instruments to Covered Fuel Suppliers rule for division 271.

RULE TEXT:

(1) DEQ will distribute compliance instruments according to this rule. DEQ will distribute compliance instruments from a cap according to sections (2) through (4) no later than March 31 of the calendar year of that cap.

(2) Annual distribution of compliance instruments to covered fuel suppliers that are local distribution companies. DEQ will annually distribute to each local distribution company, or to its successor(s) due to a change in ownership or operation, the number of compliance instruments from the calendar year's cap stated in Table 4 in OAR 340-271-9000.

(3) DEQ will establish a compliance instrument reserve for covered fuel suppliers that are new to the program and are not local distribution companies. DEQ will hold, according to subsection (4)(a), a subset of compliance instruments in the reserve from the caps identified in Table 2 in OAR 340-271-9000. Once a compliance instrument is held in the reserve, it remains in the reserve until DEQ determines, at its discretion, to undertake one of the following actions:

(a) DEQ distributes the compliance instrument according to section (5) to a covered fuel supplier that is not a local distribution company;

(b) DEQ retires the compliance instrument because the compliance instrument reserve exceeds the size described in Table 3 OAR 340-271-9000, provided that after such retirement the size of the compliance instrument reserve will equal or exceed the reserve size described in Table 3; or

(c) DEQ distributes the compliance instrument to a covered fuel supplier that is not a local distribution company because the size of the compliance instrument reserve exceeds the reserve size described in Table 3 in OAR 340-271-9000. DEQ will only distribute compliance instruments from the reserve according to this subsection if there are at least 10,000 compliance instruments to distribute and if the remaining size of the reserve after this distribution will equal or exceed the reserve size described in Table 3 in OAR 340-271-9000. DEQ will calculate the number of compliance instruments to distribute to each covered fuel supplier that is not a local distribution company according to section (4)(b), except "total compliance instruments to distribute" means the total number of compliance instruments DEQ is distributing from the reserve according to this subsection.

(4) Annual distribution of compliance instruments to covered fuel suppliers that are not local distribution companies. DEQ will annually distribute compliance instruments from the applicable calendar year's cap to covered fuel suppliers that are not local distribution companies as follows:

(a) If the size of the compliance instrument reserve is less than the reserve size described in Table 3 in OAR 340-271-9000 for the calendar year, then DEQ will calculate the difference and hold in the compliance instrument reserve that quantity of compliance instruments. Otherwise, the number of compliance instruments in the reserve will not be changed.

(b) Except for compliance instruments identified in Table 4 in OAR 340-271-9000 for distribution according to section (2) and the compliance instruments held in the reserve according to section (3) and subsection (4)(a), DEQ will calculate the number of compliance instruments to distribute to each covered fuel supplier that is not a local distribution company as described in this subsection, based on available information from the evaluation period described in Table 5 in OAR 340-271-9000. If a covered fuel supplier or its related entities do not have available information for one or more of the years of the evaluation period, DEQ may exclude the covered fuel supplier and its emissions from this calculation. If the covered fuel supplier is excluded, then the distribution for the covered fuel supplier will be addressed using the methodology described in section (5).

(A) DEQ will use the following formula to calculate the number of compliance instruments to distribute to each covered fuel supplier:

Number of Compliance Instruments = Total compliance instruments to distribute * ((Covered fuel supplier covered

emissions + covered fuel supplier biofuel emissions] / Total emissions)

(B) As used in the formula in paragraph (A):

(i) "Total compliance instruments to distribute" means the cap for the calendar year, according to Table 2 in OAR 340-271-9000, minus the number of compliance instruments identified in Table 4 in OAR 340-271-9000; and minus the number of compliance instruments held in the compliance instrument reserve;

(ii) "Covered fuel supplier covered emissions" means the sum of a covered fuel supplier's covered emissions during the evaluation period;

(iii) "Covered fuel supplier biofuel emissions" means emissions described in OAR 340-271-0110(3)(b)(B)(i) that result from the complete combustion or oxidation of the annual quantity of biomass-derived fuels that the covered fuel supplier imported, sold, or distributed for use in the state during the evaluation period; and

(iv) "Total emissions" means the sum of "covered fuel supplier covered emissions" and "covered fuel supplier biofuel emissions" during the evaluation period for all covered fuel suppliers whose compliance instrument distribution is calculated according to this section.

(C) DEQ will distribute a number of compliance instruments to each covered fuel supplier using the formula in paragraph (A) and rounded down to the nearest whole number.

(D) Any remaining compliance instruments not distributed due to rounding will be held in the compliance instrument reserve.

(5) Distribution from compliance instrument reserve for new covered fuel suppliers that are not local distribution companies.

(a) A covered fuel supplier is eligible for a distribution from the compliance instrument reserve if it is not a local distribution company and if:

(A) The covered fuel supplier was excluded from the distribution in section (4) due to a lack of sufficient available information; or

(B) The person becomes a covered fuel supplier after DEQ has distributed the compliance instruments for that year according to section (4).

(b) A covered fuel supplier identified according to subsection (a) may request a distribution of compliance instruments from the reserve by submitting an application to DEQ, on a form approved by DEQ, that includes the information described in paragraphs (A) through (D). The covered fuel supplier must submit a separate application for each year for which it is seeking distribution of compliance instruments from the reserve.

(A) Information about the covered fuel supplier, including:

(i) Name and full mailing address; and

(ii) Designated representative's contact information including name, title or position, phone number, and email address;

(B) The calendar year of covered emissions for which compliance instruments are requested;

(C) The reason for the request, including description of eligibility according to subsection (a); and

(D) The following attestation, signed by the designated representative of the covered fuel supplier:

I certify under penalty of perjury under the laws of the State of Oregon that I am a representative of [covered fuel supplier], am authorized to submit this application on its behalf, and that, to the best of my knowledge and belief, the information provided in this form is true, accurate, and complete. [Covered fuel supplier] is a covered fuel supplier in the year indicated in this application and requests compliance instruments from the reserve according to the information included in this application.

(c) DEQ will review an application submitted according to subsection (b) to ensure that it meets the requirements of this section. DEQ will inform the applicant either that the submitted application is complete or that additional specific information is required to make the application complete. If the application is incomplete, DEQ will not consider the application further until the applicant provides the additional information requested by DEQ.

(d) If DEQ approves an application, DEQ may distribute one or more compliance instruments to the covered fuel supplier from the reserve. In determining the number of compliance instruments to distribute from the reserve to the covered fuel supplier, DEQ may consider:

(A) The number of compliance instruments the covered fuel supplier might have received according to section (4) if DEQ had sufficient available information to include the covered fuel supplier in that calculation;

(B) The number of compliance instruments in the reserve at that time;

(C) A maximum distribution amount that will not exceed the covered fuel supplier's covered emissions in that year; and

(D) A maximum distribution amount that will not exceed 300,000 compliance instruments per covered fuel supplier per year.

(6) Upon distribution of compliance instruments according to sections (2), (4), and (5), DEQ will notify the designated representative of each covered fuel supplier in writing of the availability of compliance instruments.

(7) DEQ will track distributed compliance instruments.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040

RULE TITLE: Holding Compliance Instruments

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Holding Compliance Instruments rule for division 271.

RULE TEXT:

When DEQ distributes a compliance instrument to a covered fuel supplier according to OAR 340-271-0420 or when a covered fuel supplier acquires a compliance instrument according to OAR 340-271-0500, the covered fuel supplier may continue to hold the compliance instrument until any of the following apply:

- (1) The covered fuel supplier uses the compliance instrument toward its demonstration of compliance with a compliance obligation according to OAR 340-271-0450;
- (2) The covered fuel supplier transfers the compliance instrument to another covered fuel supplier according to OAR 340-271-0500; or
- (3) The covered fuel supplier has ceased being a covered fuel supplier according to OAR 340-271-0130. When this occurs, DEQ may, at its discretion:
 - (a) Retire the compliance instrument; or
 - (b) If the covered fuel supplier is not a local distribution company:
 - (A) Hold the compliance instrument in the compliance instrument reserve described in OAR 340-271-0420(3); or
 - (B) Distribute the compliance instrument to a covered fuel supplier that is not a local distribution company. DEQ will only distribute the compliance instrument if there are at least 10,000 compliance instruments to distribute. DEQ will calculate the number of compliance instruments to distribute to each covered fuel supplier according to OAR 340-271-0420(4)(b), except "total compliance instruments to distribute" means the total number of compliance instruments DEQ is distributing according to this paragraph.

ADOPT: 340-271-0450

RULE TITLE: Demonstration of Compliance

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Demonstration of Compliance rule for division 271.

RULE TEXT:

(1) DEQ will determine a covered fuel supplier's total compliance obligation for a compliance period as the sum of the covered fuel supplier's annual compliance obligation(s) for each year of the compliance period. DEQ will base its determinations on emissions calculated according to OAR 340-271-0110(1). DEQ will notify the covered fuel supplier of its determination.

(2) A covered fuel supplier must demonstrate compliance according to this rule by November 28 of the year following the end of each compliance period, or 25 days after DEQ's notification described in section (1), whichever is later.

(3) To demonstrate compliance for a compliance period, a covered fuel supplier must submit the following to DEQ:

(a) For each metric ton of CO₂e of the total compliance obligation, either a compliance instrument or a CCI credit, subject to the following limitations:

(A) A covered fuel supplier may only submit compliance instruments that DEQ distributed from the caps for the calendar years of the applicable compliance period or from caps for earlier compliance periods; and

(B) The quantity of CCI credits used to demonstrate compliance as a percentage of the total compliance obligation for the applicable compliance period may not exceed the allowable percentage specified in Table 6 in OAR 340-271-9000.

(b) A demonstration of compliance form, approved by DEQ that includes:

(A) Name and full mailing address of the covered fuel supplier;

(B) Designated representative's contact information including name, title or position, phone number, and email address;

(C) Identification of the compliance period and calendar year(s) for which the covered fuel supplier is demonstrating compliance;

(D) The total compliance obligations in metric tons of CO₂e for the compliance period and listed separately for each calendar year in the compliance period;

(E) The total number of compliance instruments the covered fuel supplier is submitting to DEQ to demonstrate compliance, and separately the total number submitted from each calendar year's cap;

(F) The total number of CCI credits the covered fuel supplier is submitting to DEQ to demonstrate compliance; and

(G) The following attestation, signed by the designated representative of the covered fuel supplier:

I certify under penalty of perjury under the laws of the State of Oregon that I am a representative of [covered fuel supplier], am authorized to submit this report on its behalf, and that, to the best of my knowledge and belief, the information provided in this form is true, accurate, and complete. It is the intent of [covered fuel supplier] to use the quantity of compliance instruments and credits listed on this form and submitted to DEQ for the demonstration of compliance. I certify that [covered fuel supplier] has not exceeded the allowable use of CCI credits. If any portion of these compliance obligations remain unmet after this submission, I understand that [covered fuel supplier] must still demonstrate compliance with the remaining portion and may be subject to enforcement action.

(4) Each metric ton of CO₂e of a compliance obligation for which a covered fuel supplier does not demonstrate compliance according to this rule is a separate violation of this division.

(5) If a change in ownership of a covered fuel supplier occurs, the person that owns or operates the covered fuel supplier as of December 31 in the final year of a compliance period is responsible for demonstration of compliance according to this rule for each annual compliance obligation during the compliance period. Compliance obligations may not be split or subdivided based on ownership changes during the compliance period or during any year within the compliance period.

RULE TITLE: Recordkeeping Requirements Related to Demonstration of Compliance

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Recordkeeping Requirements Related to Demonstration of Compliance rule for division 271.

RULE TEXT:

(1) A person must retain the following records necessary for determining compliance obligations, in paper or electronic format, for a period of at least seven years beginning September 30 of the year following a year in which covered emissions occurred:

(a) Records according to the recordkeeping requirements of OAR chapter 340, divisions 215 and 272, as applicable;

(b) Copies of reports and forms submitted to DEQ related to determination of compliance obligations according to this division and OAR chapter 340, divisions 215 and 272, including but not limited to:

(A) Applicable emissions data reports submitted according to OAR chapter 340, division 215; and

(B) Applicable verification statements submitted according to OAR chapter 340, division 272; and

(c) All other information and documentation used to calculate and report emissions and used to determine emissions and compliance obligations according to this division.

(2) A person must retain the following records necessary for supporting demonstration of compliance, according to OAR 340-271-0450, in paper or electronic format for a period of at least seven years following the deadline for demonstration of compliance in OAR 340-271-0450:

(a) Copies of reports and forms submitted to DEQ related to demonstration of compliance, including but not limited to demonstration of compliance forms; and

(b) All other information and documentation used to support demonstration of compliance.

(3) A covered fuel supplier must make available to DEQ upon request all of the records it is required to retain according to this rule. DEQ will specify the date by which the covered fuel supplier must fulfill a records request from DEQ.

RULE TITLE: Trading of Compliance Instruments

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Trading of Compliance Instruments rule for division 271.

RULE TEXT:

(1) A covered fuel supplier may trade one or more compliance instruments only according to this rule. A covered fuel supplier may transfer one or more compliance instruments to another covered fuel supplier up to the amount that it has available and has not used to demonstrate compliance. A covered fuel supplier may acquire one or more compliance instruments from another covered fuel supplier.

(2) A covered fuel supplier may not engage in a trade of a compliance instrument involving, related to, in service of, or associated with any of the following:

(a) Fraud, or an attempt to defraud or deceive using any device, scheme or artifice;

(b) Use of any unconscionable tactic in connection with the transfer, by any person;

(c) Any false report, record, or untrue statement of material fact or omission of a material fact related to the transfer or conditions that would relate to the price of the compliance instrument being sold. A fact is material if it is reasonably likely to influence a decision by another person or by DEQ;

(d) Any activity intended to lessen competition or tend to create a monopoly, or to injure, destroy or prevent competition in the market for compliance instruments;

(e) A conspiracy in restraint of trade or commerce; or

(f) An attempt to monopolize holding of compliance instruments, or to combine, collude, or conspire with any other person or persons to monopolize.

ADOPT: 340-271-0510

RULE TITLE: Compliance Instrument Trade Notifications and Process

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Compliance Instrument Trade Notifications and Process rule for division 271.

RULE TEXT:

(1) Covered fuel suppliers that trade one or more compliance instruments must notify DEQ of the trade. The designated representatives of both the covered fuel supplier transferring the compliance instrument and the covered fuel supplier acquiring the compliance instrument must sign and submit a compliance instrument trade form that meets the requirements of this section, using a form approved by DEQ.

(a) The covered fuel supplier transferring one or more compliance instruments must sign first; and

(b) The covered fuel supplier acquiring the compliance instrument(s) must sign the same form and submit it to DEQ no later than one week after the transferring covered fuel supplier signs the form.

(c) All of the following must be included on a compliance instrument trade form:

(A) The agreed upon date of the trade.

(B) The total number of compliance instruments traded, and separately the total number traded from each calendar year's cap.

(C) The total price per compliance instrument (in US dollars), excluding any fees. If a specific dollar value is not paid for the compliance instrument, an estimate must be provided.

(D) As applicable, other information about the trade that DEQ determines is necessary to support DEQ's monitoring of trades and that DEQ includes on the form;

(E) The following information about the covered fuel supplier transferring the compliance instrument(s):

(i) Name and full mailing address of the covered fuel supplier.

(ii) Designated representative's contact information including name, title or position, phone number, and email address.

(iii) The following attestation, signed by the designated representative:

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief the information in this form is true, accurate, and complete. [Covered fuel supplier] is transferring these compliance instruments to [covered fuel supplier that is acquiring] for the price described in this form.

(F) The following information about the covered fuel supplier acquiring the compliance instrument(s):

(i) Name and full mailing address of the covered fuel supplier.

(ii) Designated representative's contact information including name, title or position, phone number, and email address.

(iii) The following attestation, signed by the designated representative:

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief the information in this form is true, accurate, and complete. [Covered fuel supplier] is acquiring compliance instruments from [covered fuel supplier that is transferring] for the price described in this form.

(2) When DEQ receives a compliance instrument trade form for one or more compliance instruments as described in section (1), DEQ will inform the applicant either that the submitted form is complete or that additional specific information is required to make the form complete. Upon receipt of a complete form signed by both covered fuel suppliers involved in a trade, DEQ will track traded compliance instruments. DEQ will notify the designated representative of the covered fuel supplier acquiring compliance instrument(s) in writing of availability of these compliance instruments. DEQ will notify the designated representative of the covered fuel supplier transferring compliance instrument(s) in writing that the covered fuel supplier no longer holds the compliance instruments. If DEQ determines that the form is incomplete, DEQ will not track the requested trade unless and until the applicant provides

the additional information requested by DEQ to make the form complete, and such instruments will not be available to the covered fuel supplier acquiring the instruments.

(3) A covered fuel supplier acquiring one or more compliance instrument(s) in a trade may not use the compliance instrument(s) in other trades or toward demonstration of compliance with any compliance obligation until the trade has been reported to DEQ and DEQ has tracked the traded compliance instrument(s). Trades may only be reported to DEQ after DEQ has made the compliance instrument trade form available. DEQ will notify covered fuel suppliers when the compliance instrument trade form is available.

RULE TITLE: Recordkeeping Requirements Related to Trading

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Recordkeeping Requirements Related to Trading rule for division 271.

RULE TEXT:

(1) A person who transfers one or more compliance instruments in a trade according to OAR 340-271-0510 must retain the following records related to each trade, in paper or electronic format for a period of at least seven years following the submission date of a complete compliance instrument trade form:

- (a) A copy of each compliance instrument trade form submitted to DEQ;
- (b) A copy of any invoice or documentation of monetary payment received related to the trade;
- (c) A statement from a financial institution showing receipt of any payment for the compliance instrument;
- (d) Documentation of any service or other qualitative compensation received related to the trade; and
- (e) A copy of all other data, reports, or other information related to the trade.

(2) A person who acquires one or more compliance instruments in a trade according to OAR 340-271-0510 must retain the following records related to each trade, in paper or electronic format for a period of at least seven years following the submission date of a complete compliance instrument trade form:

- (a) A copy of each compliance instrument trade form submitted to DEQ;
- (b) A copy of any invoice or documentation of monetary payment related to the trade;
- (c) A statement from a financial institution showing any payment for the compliance instrument;
- (d) Documentation of any service or other qualitative compensation provided related to the trade; and
- (e) A copy of all other data, reports, or other information related to the trade.

(3) Covered fuel suppliers must make the records retained according to this rule available to DEQ upon request. DEQ will specify the date by which the covered fuel supplier must fulfill a records request from DEQ.

RULE TITLE: Covered Fuel Supplier Application for Community Climate Investment Credits

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Covered Fuel Supplier Application for Community Climate Investment Credits rule for division 271.

RULE TEXT:

- (1) A covered fuel supplier is eligible to receive one or more CCI credits if it contributes CCI funds according to this rule.
- (a) The covered fuel supplier may receive CCI credits only for contributions to a CCI entity that has been approved by DEQ according to OAR 340-271-0920(1) and has entered into a written agreement with DEQ to accept and administer CCI funds according to OAR 340-271-0920(2).
- (b) A covered fuel supplier is not eligible to receive a CCI credit for any contribution made to a CCI entity prior to March 1, 2023.
- (c) If more than one CCI entity is approved to accept funds according to subsection (a) the covered fuel supplier must contribute an equal amount of CCI funds to each CCI entity that may receive funds consistent with its agreement with DEQ according to OAR 340-271-0920(2). The contribution amount to each CCI entity may vary by up to one US dollar.
- (2) A covered fuel supplier must apply to receive CCI credits by submitting an application to DEQ, on a form approved by DEQ that includes the information described in section (3). A covered fuel supplier may not submit an application to request CCI credits on behalf of another person.
- (3) A covered fuel supplier that submits an application to DEQ to request CCI credits must submit a complete and accurate application. The application must include:
- (a) Information about the covered fuel supplier, including:
- (A) Name and full mailing address; and
- (B) Designated representative's contact information including name, title or position, phone number, and email address;
- (b) The name of each CCI entity that received CCI funds from the covered fuel supplier;
- (c) A copy of the receipt(s) described in OAR 340-271-0930(1)(a) received from each CCI entity;
- (d) The total CCI funds (in US dollars) contributed to each CCI entity, excluding any fees; and
- (e) The following attestation, signed by the designated representative of the covered fuel supplier:

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief the information in this application is true, accurate, and complete. [Covered fuel supplier] contributed the community climate investment funds noted in this application to each community climate investment entity listed for the purposes of supporting eligible projects as described in OAR 340-271-0900.

- (4)(a) A covered fuel supplier seeking to receive CCI credits in order to use them to demonstrate compliance for a particular compliance period must submit its application to DEQ no later than November 14 of the year it will demonstrate compliance according to OAR 340-271-0450, or 11 days after DEQ's notice described in OAR 340-271-0450(1), whichever is later.
- (b) DEQ's determination of the quantity of CCI credits to generate and distribute is based on the amount of the covered fuel supplier's contribution to CCI entities, as documented in its application and the CCI credit contribution amount described in Table 7 in OAR 340-271-9000 that was in effect on the date the contribution was made, adjusted for inflation according to OAR 340-271-0820(3).

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468.035, 468A.010, 468A.015, 468A.045

ADOPT: 340-271-0820

RULE TITLE: Generation and Distribution of Community Climate Investment Credits

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Generation and Distribution of Community Climate Investment Credits rule for division 271.

RULE TEXT:

(1) DEQ will review an application submitted according to OAR 340-271-0810 to ensure that it meets the requirements of that rule. DEQ will inform the applicant either that the submitted application is complete or that additional specific information is required to make the application complete. If DEQ determines that the application is incomplete or does not meet the requirements of OAR 340-271-0810, DEQ will not consider the application further until the applicant provides the additional information requested by DEQ.

(2) DEQ will approve an application for CCI credits submitted by a covered fuel supplier if DEQ determines that the application is accurate and complete according to the requirements of OAR 340-271-0810, and DEQ determines that the CCI funds have been provided to an approved CCI entity that is in good standing according to OAR 340-271-0910 through OAR 340-271-0990.

(3) Approval of an application for CCI credits.

(a) Upon approval of an application for CCI credits, DEQ will notify the covered fuel supplier in writing that DEQ has approved the application and will generate and distribute to the covered fuel supplier the quantity of CCI credits approved according to subsection (b).

(b) The amount of CCI credits that DEQ will generate and distribute to the covered fuel supplier is one CCI credit for every verified contribution of the CCI credit contribution amount that a covered fuel supplier provides to a CCI entity, rounded down to the nearest whole number. The CCI credit contribution amount is the applicable amount in Table 7 in OAR 340-271-9000 for the date the contribution was made, with the CCI credit contribution amount adjusted for inflation and rounded to the nearest dollar using the inflation rate since January 2021, as provided by the United States Bureau of Labor and Statistics West Region Consumer Price Index for All Urban Consumers for all Items. DEQ will post the current, inflation adjusted CCI credit contribution amount on its website effective March 1 of each year. The formula for the adjustment is as follows:

CCI Credit Contribution Amount = CCI Credit Contribution Amount in Table 7 in OAR 340-271-9000 * (CPI-U West for January of the calendar year for the price in Table 7 in OAR 340-271-9000 that is currently in effect / CPI-U West for January 2021)

(4) A CCI credit is a regulatory instrument and does not constitute personal property, a security or any other form of property.

(5) DEQ will track distributed CCI credits.

RULE TITLE: Holding Community Climate Investment Credits

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Holding Community Climate Investment Credits rule for division 271.

RULE TEXT:

(1) When DEQ distributes a CCI credit to a covered fuel supplier according to OAR 340-271-0820, the covered fuel supplier may continue to hold the CCI credit until any of the following apply:

(a) The covered fuel supplier uses the CCI credit toward its demonstration of compliance according to OAR 340-271-0450;

(b) Two demonstration of compliance deadlines described in OAR 340-271-0450(2) have passed since the date DEQ provided written notice of its approval of the CCI credit to the covered fuel supplier according to OAR 340-271-0820 and the covered fuel supplier has not used the CCI credit in its demonstration(s) of compliance. In such a case, DEQ will cancel the CCI credit. A cancelled CCI credit may not be used toward demonstration of compliance; or

(c) The covered fuel supplier has ceased being a covered fuel supplier according to OAR 340-271-0130. When a covered fuel supplier ceases to be a covered fuel supplier, DEQ will cancel the CCI credit at the time of such cessation. A cancelled CCI credit may not be used toward any demonstration of compliance.

(2) Only a covered fuel supplier that receives a CCI credit from DEQ may hold the CCI credit. The covered fuel supplier may not trade the CCI credit.

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Recordkeeping Requirements Related to Community Climate Investment Funds rule for division 271.

RULE TEXT:

(1) A covered fuel supplier that provides CCI funds to a CCI entity must retain the following records, in paper or electronic format, for a period of time that begins with the date it provides the CCI funds and lasts seven years after all resulting CCI credits are submitted to demonstrate compliance or are cancelled:

(a) A copy of any invoice or documentation of monetary payment related to CCI funds;

(b) A statement from a financial institution showing any payments related to CCI funds;

(c) A copy of any receipt received from a CCI entity; and

(d) All other information and documentation related to the CCI funds provided to a CCI entity.

(2) A covered fuel supplier must retain the following records, in paper or electronic format, for a period that begins the date it applies for a CCI credit and lasts seven years after the CCI credit is used to demonstrate compliance or is cancelled:

(a) A copy of each application submitted to DEQ to request CCI credits; and

(b) All other information and documentation related to CCI credit(s) received from DEQ.

(3) A covered fuel supplier must make available to DEQ upon request all of the records it is required to retain according to this rule. DEQ will specify the date by which the covered fuel supplier must fulfill a records request from DEQ.

RULE TITLE: Purposes of Community Climate Investments and Eligible Uses of CCI Funds

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Purposes of Community Climate Investments and Eligible Uses of CCI Funds rule for division 271.

RULE TEXT:

(1) The purposes of community climate investments are to:

- (a) Provide covered entities with an optional means of meeting part of their compliance obligation for one or more compliance periods;
- (b) Reduce anthropogenic greenhouse gas emissions in Oregon by an average of at least one MT CO₂e per CCI credit distributed by DEQ;
- (c) Reduce emissions of other air contaminants that are not greenhouse gases, particularly in or near environmental justice communities in Oregon;
- (d) Promote public health, environmental, and economic benefits for environmental justice communities throughout Oregon to mitigate impacts from climate change, air contamination, energy costs, or any combination of these; and
- (e) Accelerate the transition of residential, commercial, industrial and transportation-related uses of fossil fuels in or near environmental justice communities in Oregon to zero or to other lower greenhouse gas emissions sources of energy in order to protect people, communities and businesses from increases in the prices of fossil fuels.

(2) A CCI entity may use CCI funds only for:

(a) Implementing eligible projects in Oregon, which are actions that reduce anthropogenic greenhouse gas emissions that would otherwise occur in Oregon. Eligible projects include, without limitation, actions that reduce emissions in Oregon resulting from:

- (A) Transportation of people, freight, or both;
- (B) An existing or new residential use or structure;
- (C) An existing or new industrial process or structure; and
- (D) An existing or new commercial use or structure.

(b) The costs of administering CCI funds and eligible projects, including costs of reporting and other requirements included in OAR 340-271-0930 and costs of capacity-building for implementation of eligible projects.

RULE TITLE: Application to DEQ for Approval as a Community Climate Investment Entity

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Application to DEQ for Approval as a Community Climate Investment Entity rule for division 271.

RULE TEXT:

(1) To be eligible for DEQ approval as a community climate investment entity, an entity must demonstrate that it:

(a) Is authorized to do business in Oregon, and that it is exempt from federal taxation according to Section 501(c)(3) of the U.S. Internal Revenue Code, 26 U.S.C. § 501(c)(3);

(b) Has the capacity to administer and spend CCI funds to carry out eligible projects as specified in OAR 340-271-0900(2);

(c) Has or will have staff capable of conducting work associated with being a CCI entity according to this division;

(d) Has or will have staff or subcontractors capable of implementing eligible projects throughout Oregon; and

(e) Is not a covered entity or a related entity of a covered entity.

(2) An eligible entity described in section (1) may apply to be approved as a CCI entity to implement eligible projects directly or by agreement with one or more subcontractors, or both. Subcontractors are not CCI entities, and do not need to meet the eligibility requirements of section (1). However, a CCI entity may not use CCI funds to pay a subcontractor that is a covered entity or a related entity of a covered entity.

(3) An entity that seeks approval as a CCI entity must submit an application to DEQ, on a form approved by DEQ that includes the following:

(a) Information about the entity, including:

(A) Name, full mailing address, and website address;

(B) Contact person's information including name, title or position, phone number, and email address;

(C) Information to describe how the entity meets the eligibility criteria in section (1);

(D) A copy of the entity's current articles of incorporation and bylaws, and a description of the mission of the entity and how being a CCI entity supports the mission;

(E) A description of the experience and expertise of key individuals, if known, who would be working to implement eligible projects with CCI funds or assigned work associated with the requirements of a CCI entity described in OAR 340-271-0930;

(F) A description of experience implementing or supporting implementation of eligible projects or project types, particularly in environmental justice communities in Oregon. This may include the experience of the key individuals described in paragraph (E) whether or not that prior experience occurred while working with the entity;

(G) Information regarding any violation by the entity related to federal or state labor laws within the preceding five years;

(H) The entity's IRS Form 990 for each of the three most recent years, if available; and

(I) Proof that the IRS has certified the entity as qualifying as an exempt organization according to Section 501(c)(3) of the U.S. Internal Revenue Code, 26 U.S.C. § 501(c)(3);

(b) Information about each known or planned subcontractors, as available, including:

(A) Name, full mailing address, and website address;

(B) Contact person's contact information including name, title or position, phone number, and email address;

(C) Confirmation that the subcontractor is not a covered entity or any of its related entities;

(D) If applicable, a description of the mission of the subcontractor and how being a subcontractor of a CCI entity supports the mission;

(E) A description of the experience and expertise of key individuals who would be working to implement eligible projects with CCI funds;

(F) A description of the subcontractor's prior experience implementing or supporting implementation of eligible

projects and a description of prior experience serving communities in Oregon; and

(G) Information regarding any violation by the proposed subcontractor related to federal or state labor laws within the preceding five years;

(c) Information about how any subcontractor(s) may be selected during project implementation if there are none listed in the application or if the entity expects to select one or more additional subcontractors during project implementation;

(d) If known, a general description of either or both of the following:

(A) Anticipated eligible project(s) or project type(s) that support the purposes of CCIs described in OAR 340-271-0900(1) and that are eligible projects as defined in OAR 340-271-0900(2) that the entity plans to implement if approved as a CCI entity; and

(B) The communities in Oregon that are anticipated to benefit if the entity is approved as a CCI entity;

(e) Description of the administrative processes and financial controls the entity will use to ensure all CCI funds are held separately from the entity's other funds. This must detail how the entity will manage and invest funds in a manner consistent with ORS 128.318(2), (3), and (5)(a) through (f);

(f) The anticipated annual total amount of CCI funds the entity would be able to receive and spend, including a description of why that annual amount is anticipated; and

(g) The following attestation, signed by the entity's contact person:

I certify under penalty of perjury under the laws of the State of Oregon that to the best of my knowledge and belief the information in this application is true, accurate, and complete. [Entity] seeks to become a community climate investment entity and, if approved, will comply with the applicable requirements in Oregon Administrative Rules chapter 340, division 271.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468.035, 468A.010, 468A.015, 468A.045

ADOPT: 340-271-0920

RULE TITLE: DEQ Review and Approval of Community Climate Investment Entities and Agreements for Approved CCI Entities

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New DEQ Review and Approval of Community Climate Investment Entities and Agreements for Approved CCI Entities rule for division 271.

RULE TEXT:

(1) DEQ will review and may approve applications from entities proposing to be approved as CCI entities according to subsections (a) through (d).

(a) DEQ will review an application submitted according to OAR 340-271-0910 to ensure that it meets the requirements of that rule. DEQ will inform the entity either that the submitted application is complete or that additional specific information is required to make the application complete. If the application is incomplete, DEQ will not consider the application further until the entity provides the additional information requested by DEQ.

(b) When evaluating complete applications submitted according to OAR 340-271-0910, DEQ will consult with the equity advisory committee described in OAR 340-271-0950 and may consult with any other relevant experts selected by DEQ.

(c) DEQ will consider the following when evaluating a complete application:

(A) The content of the application;

(B) Whether the entity meets the eligibility criteria in OAR 340-271-0910(1);

(C) Whether each proposed subcontractor, if applicable, complies with the eligibility criteria in OAR 340-271-0910(1)(e);

(D) The overall ability of the entity and, if applicable, its subcontractor(s) to use CCI funds to complete eligible projects that advance the purposes set forth in OAR 340-271-0900(1) and that collectively reduce anthropogenic greenhouse gas emissions in Oregon by an average of at least one MT CO₂e per CCI credit distributed by DEQ based on CCI contributions to the entity;

(E) The overall ability of the entity and/or its subcontractor(s) to use CCI funds as described in paragraph (D) relative to the overall ability of other applicants and approved CCI entities; and

(F) Whether the applicant or any proposed subcontractors have violated any federal or state labor laws in the preceding five years.

(d) DEQ will notify the applicant in writing whether provisional approval as a CCI entity is granted or denied.

(2) If provisional approval as a CCI entity is granted, DEQ will then work with the CCI entity to complete a written agreement. The written agreement must be approved before an entity receives final approval as a CCI entity and is authorized to receive CCI funds. The written agreement will include, but is not limited to:

(a) Agreement to use CCI funds only for the uses specified in OAR 340-271-0900(2);

(b) The initial term of the agreement and approval, which may not exceed ten years;

(c) Requirements for monitoring and reporting of project outcomes sufficient to document emissions reductions;

(d) Provisions for, and limitations on, the payment of administrative expenses;

(e) Provisions for extensions, amendments, or renewal of the agreement;

(f) Other conditions that DEQ determines are necessary to include in the agreement in order to meet the requirements of this division, such as a limit on the amount of CCI funds that a CCI entity may accept.

(3) If DEQ finds that any of the events in subsections (a) through (c) occur, DEQ may suspend or revoke approval of a CCI entity completely or in part.

(a) The CCI entity fraudulently obtained DEQ approval;

(b) The CCI entity is in violation of any applicable provisions of this division or any written agreement between the CCI entity and DEQ; or

(c) DEQ determines that the CCI entity is not in compliance with one or more of the eligibility criteria for approval in

OAR 340-271-0910(1).

(4) DEQ will maintain a current list of approved CCI entities on DEQ's website.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040

ADOPT: 340-271-0930

RULE TITLE: Requirements for Community Climate Investment Entities

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Requirements for Community Climate Investment Entities rule for division 271.

RULE TEXT:

(1) Acceptance of CCI funds.

(a) Once approved by DEQ, unless otherwise specified in the agreement between a CCI entity and DEQ, a CCI entity must accept CCI funds from any covered fuel supplier that seeks to contribute CCI funds. The CCI entity must provide a receipt to the covered fuel supplier upon receipt of CCI funds from the covered fuel supplier. The receipt must include:

- (A) The name of the covered fuel supplier;
- (B) The name of the CCI entity;
- (C) The US dollar amount of the CCI funds accepted;
- (D) The date the CCI entity accepted the CCI funds; and
- (E) The following attestation:

I verify that [CCI Entity] received the contribution from [Covered fuel supplier] as described on this receipt and I affirm that I am a representative of [CCI entity] authorized to sign this receipt.

(b) Unless otherwise specified in the agreement between the CCI entity and DEQ, a CCI entity must accept CCI funds transferred to it from another CCI entity according to section (8).

(2) Holding CCI funds.

(a) A CCI entity must hold all CCI funds in one or more accounts separate from any other funds. Additionally, prior to being spent in compliance with the provisions of this division and its agreement with DEQ, funds must be managed and invested in a manner consistent with ORS 128.318(2), (3), and (5)(a) through (f). A CCI entity may not encumber CCI funds or pledge CCI funds as a security for other purposes than completing one or more projects under a DEQ-approved work plan.

(b) A CCI entity must complete an independent financial audit of CCI funds for each year in which it holds CCI funds.

(3) Use of CCI funds. A CCI entity may only spend CCI funds for the uses specified in OAR 340-271-0900(2). The expenditures of CCI funds must conform to the CCI's work plan approved by DEQ under section (4) of this rule.

(4) Work Plan.

(a) A CCI entity must submit its proposed work plan to DEQ for review and approval. The period of the work plan will normally be a calendar year, unless otherwise specified in the agreement between DEQ and the CCI entity. A CCI entity must obtain DEQ approval of the work plan prior to committing or expending CCI funds for the period of the work plan. The first work plan must be submitted within 60 days of the date on which the CCI entity entered into a written agreement with DEQ described in OAR 340-271-0920(2). Each subsequent work plan must be submitted no later than 30 days prior to the end of the current work plan period.

(b) The work plan must include:

- (A) A description of the project(s) or project type(s) the CCI entity expects to support with CCI funds during the period of the work plan, and how the project(s) or project type(s) support each of the purposes of CCIs described in OAR 340-271-0900(1)(b) through (e);
- (B) A description of how the project(s) or project type(s) will benefit communities in Oregon, including description of the potential locations of communities or regions of Oregon in which projects may be implemented or a description of how locations may be selected;
- (C) A description of how each project or project type would benefit environmental justice communities in Oregon;
- (D) A description of the methodology that the CCI entity is using to estimate the reductions in anthropogenic greenhouse gas emissions that will result from the project(s) or project type(s) in the work plan, along with an estimate

of the anticipated reductions during the period of the work plan. The methodology must be sufficient to allow DEQ to perform the necessary calculations in a program review according to OAR 340-271-8100;

(E) A description of the methodology that the CCI entity is using to estimate the reductions in other air contaminant emissions that will result from the project(s) or project type(s) in the work plan, along with an estimate of the anticipated reductions during the period of the work plan;

(F) The name and contact person's contact information of subcontractors that will be involved in any project activities during the period of the work plan; and

(G) The estimated total budget for the period of the work plan. CCI funds must be listed separately from any other funds, as applicable. This must separately include the following:

(i) All costs related to project implementation, listed separately for groups of project(s) or project type(s), including but not limited to personnel costs and materials costs; and

(ii) Administrative costs related to the project implementation and meeting the requirements of this rule.

(c) A CCI entity may request DEQ approval of modifications to a DEQ-approved work plan by submitting modifications to the information described in subsection (b). The CCI entity must obtain DEQ approval of any modification to a work plan prior to beginning work according to a modified work plan.

(d) DEQ will review each submitted work plan to ensure that it meets the requirements of this section. DEQ will inform the CCI entity either that the submitted work plan is complete or that additional specific information is required to make the work plan complete. If the work plan is incomplete, DEQ will not consider the work plan further until the CCI entity provides the additional information requested by DEQ. DEQ will consider the following in its review:

(A) The overall ability of the CCI entity to conduct work according to the work plan;

(B) Whether following the work plan is reasonably likely to reduce anthropogenic greenhouse gas emissions in Oregon by an average of at least one MT CO₂e per CCI credit distributed by DEQ based on CCI fund contributions to the CCI entity;

(C) Whether the work plan is consistent with the purposes of CCIs described in OAR 340-271-0900; and

(D) Input from the equity advisory committee described in OAR 340-271-0950 and from any other relevant experts selected by DEQ.

(5) Annual report. A CCI entity must submit to DEQ an annual report by March 31 each year that describes its CCI-related activities and finances for the preceding calendar year, including:

(a) The following information related to CCI funds received, held, or spent during the year:

(A) Each financial statement for the account(s) where CCI funds were held and the results of the CCI entity's most recent independent financial audit;

(B) The date, amount of CCI funds accepted, and as applicable, the name of the covered fuel supplier for each separate contribution received;

(C) Total CCI fund interest accrual;

(D) Total CCI funds spent, including separate totals of:

(i) CCI funds spent on each project, including but not limited to personnel costs and materials costs; and

(ii) Administrative costs related to the project, including project development, and implementation and meeting the requirements of this rule;

(E) Total CCI funds the CCI entity holds that remain unspent as of the end of the year; and

(F) Total non-CCI funds spent on implementation of each project or project type, as applicable;

(b) The following information related to implementation progress of project(s) or project type(s) during the year:

(A) Documentation of work completed or progress made on each project or project type, including the number of projects completed of each project type, as applicable;

(B) A summary of project outcomes. This must include estimated annual greenhouse gas emissions reductions in metric tons of CO₂e and non-greenhouse gas air contaminant emissions reductions in metric tons of the applicable air contaminant that are anticipated to be achieved from any project(s) completed during the year. Emissions reductions must be estimated using the methodology included in the applicable work plan. Emissions reductions may be reported

by individual project or may be grouped by project type, if the CCI entity can provide sufficient information to demonstrate that the emissions reductions of multiple projects of the same type are comparable; and

(C) A description of work that occurred compared to the most recently approved work plan or modified work plan. If projects were not implemented as planned, the CCI entity must describe the reason for delay and must describe any steps that may be taken to work to remedy the delay or prevent similar delays in subsequent years; and

(c) A copy of the CCI entity's most recent IRS form 990.

(6) Maintaining CCI entity eligibility.

(a) A CCI entity must notify DEQ in writing as soon as possible, and not later than 30 days after it no longer meets any of the eligibility criteria for approval in OAR 340-271-0910(1), or if it is in violation of any of the requirements of this rule.

(b) A CCI entity must notify DEQ in writing as soon as possible and not later than 30 days after any changes are made to the administrative processes or financial controls that keep CCI funds separate from other funds;

(c) A CCI entity must notify DEQ in writing as soon as possible and not later than 30 days after any changes related to key individuals or their assigned work associated with being a CCI entity.

(d) A CCI entity must notify DEQ in writing as soon as possible and not later than 30 days after any finding of a violation related to federal or state labor laws by the CCI entity or by an approved subcontractor;

(e) Upon written request by DEQ, a CCI entity must provide to DEQ in a reasonably timely manner any and all information that DEQ reasonably requires for evaluating the CCI entity's continued compliance with the requirements of this division, including the criteria for approval as a CCI entity and eligible projects.

(7) Voluntary withdrawal from DEQ approval. An approved CCI entity may request to withdraw voluntarily its approval by providing a written notice to DEQ requesting such withdrawal.

(8) Rollover of CCI funds. If DEQ approval is suspended, revoked, or voluntarily withdrawn, DEQ may require the entity to transfer any unspent CCI funds to another CCI entity and provide proof to DEQ that the transfer has been made.

STATUTORY/OTHER AUTHORITY: ORS 468.020, 468A.025, 468A.040

STATUTES/OTHER IMPLEMENTED: ORS 468.020, 468A.025, 468A.040, 468.035, 468A.010, 468A.015, 468A.045

RULE TITLE: Equity Advisory Committee and Environmental Justice Community Engagement

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Equity Advisory Committee and Environmental Justice Community Engagement rule for division 271.

RULE TEXT:

(1) DEQ will appoint and convene an equity advisory committee to assist DEQ with:

(a) Review of:

(A) Applications to become a CCI entity;

(B) Requests for DEQ approval of work plans; and

(C) Other submittals by CCI entities that require DEQ review; and

(b) Outreach to environmental justice communities.

(2) Advisory committee member selection.

(a) DEQ may solicit applications from residents of the state of Oregon to be appointed to serve as members of the equity advisory committee and may select the committee from those applications.

(b) DEQ will prioritize convening an advisory committee that represents multiple areas of expertise, interest, or lived experience in the following areas:

(A) Environmental justice;

(B) Impacts of climate change on communities in Oregon;

(C) Impacts of air contamination on communities in Oregon; and

(D) Greenhouse gas emissions reductions and climate change.

(c) DEQ will prioritize convening an advisory committee that represents multiple regions across Oregon.

(d) DEQ may appoint each committee member to a term of up to three years.

(3) In addition to outreach conducted by CCI third party entities to environmental justice communities throughout Oregon, DEQ will conduct outreach to these communities to seek input on projects that may be of interest to those communities. The equity advisory committee will consider this input when assisting DEQ as described in section (1). DEQ will consider this input when making approval decisions regarding CCI entities, projects and project types, and work plans.

(4) DEQ will offer guidance and conduct outreach to support the equity advisory committee and environmental justice communities in Oregon in understanding the provisions related to CCIs.

RULE TITLE: Recordkeeping Requirements for Community Climate Investment Entities

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Recordkeeping Requirements for Community Climate Investment Entities rule for division 271.

RULE TEXT:

(1) A CCI entity must retain the following records, in paper or electronic format, for the duration of its approval as a CCI entity and for a period of at least seven years following the end of its approval:

- (a) A copy of each application submitted to DEQ for approval as a CCI entity;
- (b) A copy of any invoice or documentation of monetary payment related to CCI funds;
- (c) A statement from a financial institution showing any payments related to CCI funds;
- (d) A copy of any receipt provided to a covered fuel supplier that makes a CCI payment to the CCI entity;
- (e) A copy of any work plan submitted to DEQ by the CCI entity;
- (f) A copy of any report or written request for approval submitted to DEQ by the CCI entity;
- (g) All other information and documentation related to CCI funds;
- (h) All records related to any implemented projects; and
- (i) All records and information supporting estimates of greenhouse gas emissions reductions and other air contaminant emissions reductions achieved from implemented projects or project types.

(2) CCI entities must make records required to be retained in this rule available to DEQ upon request. DEQ will specify the date by which the CCI entity must fulfill a records request from DEQ.

RULE TITLE: Program Review

NOTICE FILED DATE: 08/05/2021

RULE SUMMARY: New Program Review rule for division 271.

RULE TEXT:

(1) DEQ will report to the EQC on community climate investments. DEQ will submit the first report to the EQC by August 30, 2024 and every two years thereafter. DEQ will share each report with current members of the equity advisory committee after submission to the EQC. Each community climate investment report will include:

(a) A review of community climate investments, including:

(A) CCI credits distributed to covered fuel suppliers;

(B) CCI credits used by covered fuel suppliers to demonstrate compliance;

(C) Estimates of annual greenhouse gas emissions reductions that are anticipated to be achieved by completed projects that CCI entities have reported to DEQ by March 31 of the year DEQ is reporting to the EQC;

(D) Estimates of annual non-greenhouse gas air contaminant emissions reductions that are anticipated to be achieved by completed projects that CCI entities have reported to DEQ by March 31 of the year DEQ is reporting to the EQC;

(E) Calculation of the average anthropogenic greenhouse gas emissions reductions achieved per CCI credit distributed based on (A) and (C) and whether reductions of approximately one MT CO₂e or more of anthropogenic greenhouse gas emissions for the average CCI credit distributed by DEQ was achieved; and

(F) Description of community benefits achieved; and

(b) DEQ's recommendations regarding any necessary or desirable changes to the CPP provisions relating to CCIs, including, without limitation, recommendations on changes to the CCI credit contribution amounts described in Table 7 in OAR 340-271-9000 necessary to assure that the use of CCI funds is reducing anthropogenic greenhouse gas emissions in Oregon by an average of at least one MT CO₂e per CCI credit distributed by DEQ, as well as recommendations on how to best achieve the purposes of CCIs described in OAR 340-271-0900, if applicable.

(2) DEQ will report to the EQC on implementation of the Climate Protection Program. DEQ will submit the first report to the EQC five years after the date of adoption of this division and at least once every five years thereafter. Each program review report will include:

(a) A review of the Climate Protection Program, including:

(A) Summary of covered fuel suppliers' demonstrations of compliance for compliance periods that have occurred since program start, including:

(i) Caps for each year and compliance period;

(ii) Compliance obligations for each year and compliance period;

(iii) Compliance instruments submitted for each compliance period; and

(iv) CCI credits submitted for each compliance period;

(B) Summary of the distribution of compliance instruments, including the size of the compliance instrument reserve at the start and end of each program year that has occurred and compared to Table 3 in OAR 340-271-9000;

(C) Summary of activity relating to trading of compliance instruments for each program year that has occurred;

(D) Summary of covered stationary source requirement activities that have occurred since program start or since the most recently submitted report to the EQC, whichever is later, including:

(i) The number of existing stationary sources that DEQ has notified in writing that must complete a BAER assessment;

(ii) The number of BAER assessments received or anticipated to be received by DEQ;

(iii) A brief summary of any BAER order issued and the required actions that must be taken by the owner or operator of a covered stationary source that has been issued a BAER order;

(iv) A brief summary of the status of any covered stationary source activities regarding implementation of requirements in a BAER order; and

(v) Review of any changes in annual covered emissions from current covered stationary sources to assess whether

covered emissions are being reduced;

(E) Whether emission reductions from covered stationary sources align with the priorities described in section (3). This will be assessed in program reviews beginning after 2029.

(F) A current list of covered entities by name and whether each is a covered fuel supplier or covered stationary source; and

(G) Description of any enforcement actions taken that involved civil penalties, if applicable; and

(b) DEQ's recommendations regarding any potential changes to the CPP including, for example and without limitation, recommendations regarding potential changes to best achieve the goals described in section (3) for covered stationary sources.

(3) CPP goals for covered stationary sources described in OAR 340-271-0110(5) are to:

(a) Reduce total covered emissions from covered stationary sources; and

(b) Reduce total covered emissions from covered stationary sources that are the result of combustion of solid or gaseous fuels by 50 percent by 2035 from the average of 2017 through 2019 emissions.

(4) If the average annual statewide retail cost of gasoline, diesel or natural gas in Oregon increases year-over-year by an amount that is more than 20 percent higher than the average change in cost for the same fuel over the same period in Washington, Idaho, and Nevada, DEQ will investigate the cause(s) of the increase and report to the EQC regarding whether changes to the rules in this division should be made that would ameliorate a relative increase in costs in Oregon. If necessary, DEQ will consider recommending rule changes, such as changes to caps and distribution of additional compliance instruments, changes to the compliance instrument reserve, or changes to the allowable usage of CCI credits.

New DEQ Climate Regulation in Oregon

Home > About Us > CPP

An update on the Climate Protection Program court case

In December 2023, the Oregon Court of Appeals issued a ruling in the court case that we and other plaintiffs [filed in 2022](#) regarding the Climate Protection Program (CPP) that was enacted by the Department of Environmental Quality (DEQ).

The court found that the CPP rules are invalid on the basis that the state did not comply with the necessary heightened disclosure requirements for the program. Under Oregon judicial rules, the court did not address the other substantive arguments raised against the CPP rules in the case because the procedural error made the entire rule invalid. As such, the Court did not address whether the DEQ had authority to adopt the rules. This is not an endorsement of authority, rather, the Court simply could not review further.

With the prior CPP rules invalidated, the costs we had anticipated our customers would begin seeing this year to comply with the program are no longer required

We are pleased with the Court's decision because the program was designed in a way that would have been costly to customers and without accountability for quantifiable emission reduction benefits.

In response to the Court's invalidation ruling, on January 22, 2024, DEQ stated that it intends to create *new* CPP rules—a process that they say could take up to 12 months to complete, including a public comment period.

We want customers to know it will be critical that businesses and residents participate in this new rule-making process to ensure the DEQ makes substantive changes to its program that are within its legal authority.

we believe any climate program in Oregon must be lawful, focused on emission reductions, have clear accountability for effectiveness, and retain energy affordability and security. We look forward to working with our customers and communities on constructive solutions to meet our shared climate goals.

Rate changes for 2023-2024

Most NW Natural customers saw lower rates on their bills starting November 1. However, Oregon and Washington are both implementing new climate policies that may affect your bill.

As of Nov. 1, 2023, the new annual sales Weighted Average Cost of Gas (WACOG) in Oregon are \$0.44732 per therm, compared to the previous \$0.50715; the winter sales WACOG in Oregon are \$0.49005 per therm, compared to the previous \$0.61458.

The new annual sales WACOG in Washington are \$0.47117 per therm, compared to the previous \$ 0.46972; the winter sales WACOG in Washington are \$0.51618 per therm, compared to the previous \$0.56965. But in both Oregon and Washington, new climate programs will require natural gas distributors such as NW Natural, transportation (vehicle) fuel suppliers and large stationary sources to reduce greenhouse gas emissions (GHG) in line with state-directed limits that decrease aggressively over time. Information on each state's program is below.

Updates for Oregon's Climate Protection Program

Oregon's Department of Environmental Quality (DEQ) implemented/enacted a new program regulating carbon that requires gas utilities to comply with an emissions cap on our customers' behalf; that cap is set by DEQ. Compliance with the program requires us to purchase Community Climate Investments (CCIs), along with implementation of energy-efficiency measures and renewable natural gas. DEQ expects CCIs to be available for purchase by next year, at which time we may file any relevant costs incurred with the Oregon Public Utility Commission (OPUC) and share with customers. Learn more about DEQ's program and its potential price impacts at nwnatural.com/PPP.

Updates for Washington's Climate Commitment Act

Washington has a new climate program adopted through state law and implemented by the Washington Department of Ecology. NW Natural has filed for a rate adjustment with the Washington Utilities and Transportation Commission (WUTC) to recover costs associated with the program. While most customers saw a temporary bill reduction in November, many of those same customers will see an overall, year-over-year increase in bills starting January 1, 2024, once impacts from Washington's state climate program take effect. You can find out more about Washington's climate program at nwnatural.com/CCA.

- UG 490 Coalition DR 37 Attachment 9 – Streaming TV
- UG 490 Coalition DR 37 Attachment 10 – Welcome Packet

Please note that a portion of the Comfort Zone Newsletters contains Category C (corporate imaging) content. The Company is not seeking rate recovery of any expenses in Category C. NW Natural/1100, Beck/Page 2. To account for Category C content, NW Natural booked 25 percent of the cost of each Comfort Zone Newsletter to a Category C cost center that is not being recovered in rates. The Category C content has been redacted from the documents attached as not relevant to this rate case.

Amended Response:

Without waiving the above objection that the 25 percent of the cost of Category C content of each Comfort Zone Newsletter is not relevant to this rate case because the Company is not seeking to recover such apportioned cost in rates, please see Amended UG 490 Coalition DR 37 Attachment 2, which is a copy of the previously provided Comfort Zone Newsletters in an unredacted format to show the Category C content enclosed by a red-font bordered box.

A challenging **season.**

A combination of factors has raised natural gas costs this winter and, unfortunately, resulted in higher bills for many of our customers compared to last year.

These factors may include: New rates reflecting a significant increase in global natural gas prices and system investments; a colder November and December; and a longer December billing cycle with extra days during an extreme winter weather event.

In preparation for the rest of winter, we have added resources to help you manage energy costs.

See the reverse for ways to manage your energy bill this winter.

NW Natural®

We can help you manage your energy bill this winter.

Unpredictable energy costs can be stressful, which is why we provide payment and billing options that can help:

- ✓ **Temporary payment plans.** Flexible monthly payment options can make your bill more manageable.
- ✓ **Payment extensions.** You may be able to extend your payment due date and pay in a timeframe that works for you.
- ✓ **Residential Bill Discount Program for Oregon customers.** Our income-qualified discount program can save you 15% to 40% on monthly bills.

Learn more at
nwnatural.com/PaymentAssistance
or scan the QR code.

Connect with customer service.

- **Send us an email** from nwnatural.com/ContactUs and we will respond to your question within 2-3 business days.
- **Visit nwnatural.com** for immediate information and see ways to manage your payments.
- **Call 800-422-4012** and leave your call-back number. We will do our best to return your call within 24 hours.

Thank you for being a NW Natural customer and for your patience.

Now's the time to lower winter bills with an equipment tune-up.

Why get a tune-up for your furnace or fireplace?

Beat the fall rush and get on the schedule with a Service Solutions Partner.

Flip over for savings!

Save money on bills

Increase life of equipment

More reliability

Protect warranties

Special fall pricing for all NW Natural customers.

Schedule a tune-up before October 31st to save!

If I'm here:

Portland Metro, Vancouver
Metro, Astoria, Lincoln County

I can get:

Furnace
\$179

Fireplace
\$229

Albany, Eugene, Columbia
Gorge (OR and WA), Salem
& Coos County

Furnace
\$129

Fireplace
\$179

Find a NW Natural
Service Solutions
Preferred Contractor
and request a tune-up at
[nwnatural.com/Tuneup](https://www.nwnatural.com/Tuneup)
or call 877-243-5855.

Additional cost may apply. Price valid when maintenance is scheduled with a Service Solutions Preferred Contractor between Aug. 1 - Oct. 31, 2023. Only for NW Natural customers.

Z0019 8/23

Maintenance - You should periodically clean and paint exposed pipe to prevent it from corroding.

Excess Flow Valves (EFVs) - An EFV is a device that can automatically restrict the flow of natural gas if an underground gas service line breaks or is completely cut. You have the option to request an EFV on the natural gas line that serves your home or business, at your expense (on average, the cost is \$1,500 or more). To request an EFV installation, or if you would like to find out if an EFV is already installed, please call us at **971-979-9615**, or visit the safety section of nwnatural.com.

Gas Meter Tampering - The meter and assembly are property of NW Natural. Tampering with any part of the meter or its connections is unlawful and may result in injury, criminal prosecution, the assessment of tampering charges and/or disconnection of service. Call **800-422-4012** immediately if you see signs of tampering.

For more information about natural gas safety, please call **800-422-4012**.

YOUR RIGHTS AND RESPONSIBILITIES AS A NW NATURAL CUSTOMER

For nonresidential customers

(Oregon RS 31, 32, 33; Washington RS 41, 42, 43)

- **RATES** - Our rates and charges in Oregon are regulated by the Public Utility Commission of Oregon (Oregon Commission) and in Washington by the Washington Utilities and Transportation Commission (Washington Commission). Rates do change periodically. Contact our office or visit nwnatural.com for the most current information about our rates.
- **DEPOSITS OR OTHER SURETY** - You may be required to pay a deposit or other surety when initiating or continuing service if your gas service has been discontinued within the last 12 months or for other reasons provided in the rules of the respective Commission. If you must pay a deposit you may get your deposit refunded or credited to your account with interest if you have promptly paid your bills for 12 consecutive months.
- **CHANGE IN RESPONSIBLE PARTY** - If you sell your business or if there is a material change in the ownership of your business, you are responsible to notify NW Natural within 10 business days of the change. Any new owner will have 20 business days to apply for service. A deposit may first be required from the new owner.
- **BILLING AND PAYMENT** - NW Natural issues bills monthly. Many service-type options require a calendar month billing cycle. Your account will be considered delinquent if not paid by the date stated on the bill. Late charges may apply if your bill is not paid on time. A separate charge will apply for payments not honored by your bank or financial institution. →

- **ANNUAL SERVICE ELECTION** - July 31 of each year is the date by which you may elect to make changes to the type of service you take from NW Natural. Changes are effective the following November 1. In some cases, service type changes may be allowed at other times. You may contact an account representative at **503-721-2512** for more information.
- **INTERRUPTIBLE SERVICE** - Interruptible service is subject to Curtailment of service as set forth in NW Natural's Tariff. If you have elected an interruptible service type, you must provide NW Natural with at least one authorized emergency contact that is accessible for notification 24 hours per day, 7 days per week and it is your responsibility to notify NW Natural of any changes to your emergency contact list within 5 business days of the change. The emergency contact form is available at nwnatural.com. If a curtailment order has been issued and we are unable to contact you because of an out-of-date emergency contact list, you will be billed for any gas used during the curtailment period at a rate of \$10 per therm. If you violate a curtailment order, NW Natural may immediately disconnect your service if deemed necessary. NW Natural may also require that you transfer to a firm service type for a minimum period of one year. Two violations of a curtailment order within a 12-month period may be cause to deny any future requests for an interruptible service type. Exceptions may apply for those that meet the definition of Essential Human Needs Customers.
- **VOLUNTARY TERMINATION AND CHANGE OF SERVICE** - You must provide NW Natural not less than 5 business days (3 days for Washington customers) advance notice before terminating your service with us. If you want to change the type of service you take, you must provide NW Natural not less than one billing month advance notice. If you do not provide the required notice, NW Natural may bill you the total fixed monthly charges due for the entire billing month. Seasonal or temporary termination of service is not allowed. A customer that is found to have violated this condition will be required to pay any minimum monthly bill obligations for the time that service was inactive.

- **RESOLVING DISPUTES** - If you have a dispute about your bill or service rendered, you have the right to request that the problem be reviewed by a supervisor at NW Natural. After talking with a supervisor, if you are still not satisfied, the Consumer Services Division at the respective state Commission is available to help you. You may contact the respective state Commission as follows:

OREGON

Toll free **800-522-2404** or visit
www.oregon.gov/puc

WASHINGTON

Toll free **888-333-9882** or visit utc.wa.gov

- **CUSTOMER INFORMATION** - NW Natural's privacy policy is available for review at nwnatural.com/Privacy.

SAFETY RIGHTS AND RESPONSIBILITIES

Ownership - You own the natural gas housetline from the meter to your appliances and it is your responsibility to maintain it.

Installation - Original piping needs to be installed by a qualified, competent and reputable installer. (Note: Avoid placing pipe beneath buildings whenever possible.) Federal pipeline safety regulations require the gas meter to be installed in a readily accessible location. When there is evidence of a potential hazard such as traffic, the meter must be protected by a guard post. During routine inspection of the gas meter, NW Natural may evaluate the need for and install guard posts around meters when such measures are necessary for safety.

Inspections - You should perform routine inspections to verify that pipe is safe and reliable. Check for evidence of leaks and corrosion. (You may want to contact a qualified heating contractor, plumber or appliance installer to perform these inspections for you.) →

YOUR SAFETY IS ALWAYS FIRST

Spring is the season to call 811 before your first digging project

Step #1 before starting your outdoor projects is to call 811 to locate underground utility lines that power your home. **This service is free, reveals areas to avoid when digging, and does not require you to be home.**

Here in the Northwest, we respond to more than 500 dig-in damages each year. These damages are often caused by someone who did not notify 811 before starting a project, like building a fence or deck or planting a tree. Yet these damages are easy to prevent.

"It's incredibly important to contact 811 to have utility lines located before digging," said Jaimie Lemke, NW Natural's damage prevention supervisor. **"It's free, and it's the law. It can also help prevent service interruption, thousands of dollars in damages, and the risk of injuries."**

Request your free underground locate by calling 811 or online at Oregon811.com or Washington811.com

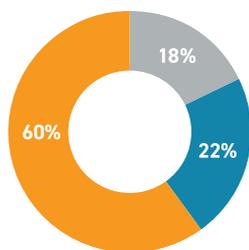

Know what to expect when you call 811.
Visit nwnatural.com/HomeSafety.

FACTS ABOUT OUR ENERGY SYSTEM

Evolving to address climate change, leaving no one behind

The Starting Point: Oregon GHG Building Emissions

■ Electricity ■ Natural Gas ■ Oil & Other

Source: Oregon DEQ Greenhouse Gas Inventory Averages for 2017-2021, Residential & Commercial Sector

The building source emissions shown in this graph include energy use from homes and businesses in Oregon. Using natural gas directly in high-efficiency equipment and appliances has helped NW Natural customers save on their energy bills while also lowering emissions.

We are committed to addressing climate change by supporting sound energy policy. We believe innovative solutions that use a diversified energy system will help us achieve our climate goals faster and more affordably:

- While the electric system is working to lower fossil fuel use over time and transition to hydropower, wind, solar and batteries, the natural gas system is evolving, too. **We are working to integrate renewable natural gas, and clean and renewable hydrogen into our system.**
- We can enable this transition using our **existing system—one of the tightest, most modern in the U.S.**
- **We believe having two systems—gas and electric—working in tandem to decarbonize** using a suite of solutions will help lower emissions while preserving energy choice and reliability.
- For example, many **natural gas appliances and generators can operate in a power outage**, which is an important safeguard against potential weather risks.

We invite our customers to learn more about the role of our system in the region, and our work to support a clean energy future.

Read more at nwnatural.com/OurEnergySystem.

WAYS TO SAVE AND PREPARE

A natural gas generator keeps home electricity on when there's no power

A natural gas backup generator can power your entire home or just the essential appliances, even when the weather has other ideas. If you've been thinking of installing backup power, we may have the solution with a Generac Power Systems natural gas generator.

- A natural gas generator is permanently installed to **power a home's electrical system**, including electric vehicles, and sits outside just like an air conditioner.
- A Generac natural gas generator comes with a **free 10-year parts and labor warranty**—a \$1,035 value. Applies to online offer only.
- **Different sizes, types and prices** are available.

As a NW Natural customer, you can also take advantage of rebates for other high-efficiency natural gas appliances that can lower bills and keep you comfortable if the power goes out, like a tankless water heater with battery backup and fireplace.

See details about the Generac natural gas generator and other special offers at nwnatural.com/Offers.

IN THE COMMUNITY

The 2023 NW Natural Volunteer of the Year serves in ways that honor his family's history and reflect his passions

Darren Nakata, NW Natural's Chief Legal Counsel, was recently named 2023 Volunteer of the Year for applying his passion for history and education to serving the community.

We recognized Darren for his work on the Board of Trustees of the Oregon Historical Society. "At the OHS, we want to tell the story of all Oregonians," Darren said. "**We are interested in bringing Oregon's history to life, sharing new stories and new voices.**"

He cites his family's influence as the motivation to volunteer, because giving back to the community was part of his upbringing.

For example, Darren serves on the Board of Directors of the nonprofit OnPoint Community Credit Union, which has a history of serving teachers and reflects his interest in education.

Through the years, he has also provided Certified Financial Planner financial-planning services pro bono to those with limited incomes. "I find it rewarding to coach people on finances, helping them sharpen skills they can use for the rest of their lives to take control of their financial future."

Read more about Darren and other NW Natural employees who work hard for you every day at nwnatural.com/Volunteers.

BILLING UPDATE

Committed to helping you manage energy costs

Several factors are impacting energy costs for our customers in the Pacific Northwest, including rising global prices of natural gas.

To see how these factors impact your bill, see the online billing guide. It shows how to read your bill, understand its various parts, find your current gas use and rate, and more.

We work in advance to purchase gas at lower costs.

We store this gas, then tap into it during the heating season when gas is most in demand. In addition, we do not mark-up the cost of gas. These are steps we take every day to keep costs as low as possible for you.

Learn more about your bill and ways to manage energy costs at nwnatural.com/Guide.

YOUR SAFETY IS ALWAYS FIRST

Power outages: Depend on our pipeline system and gas appliances

We deliver 50% more energy than any other utility in Oregon,* and deliver that energy through one of the tightest, most modern pipeline systems in the U.S. This is an especially vital function when homes and businesses are at risk of losing power during an outage.

Ways select natural gas appliances can keep your home or business up and running:

- A natural gas fireplace with battery backup can keep you toasty even if the power goes out. (**BONUS:** See the reverse for a chance to win a new high-efficiency natural gas fireplace!)
- Natural gas tankless water heaters with battery backups can start working automatically in case of a power outage.
- You can light many natural gas stovetops with a utility lighter to cook meals and boil water before drinking. Remember to open a window when cooking in a power outage to help with ventilation if your hood range isn't working.

See more home safety tips at nwnatural.com/HomeSafety.

*Oregon Public Utility Commission, 2020 Oregon Utility Statistics Book, pgs. 9, 54

SMART COOKING

Make it a habit: Turn on the fan when you cook

Did you know that an important part of cooking safety is good kitchen ventilation? Using a gas or electric stove—especially for frying, broiling and other high-temperature cooking—can produce pollutants. So when you cook, turn on your exhaust fan.

Multiple studies show that kitchen ventilation plays an important role in removing cooking-related emissions. That's why exhaust hoods are required for all new homes in Oregon, whether they have gas or electric cooktops.

Cooking tips:

- If your exhaust fan does not vent to the outside, open windows when you're cooking.
- Installing a new range hood? Make sure it's in accordance with local codes, is well-maintained and inspected periodically. If you're on a limited income, our weatherization-agency partners can evaluate your home's ventilation needs.

Learn more about cooking with ventilation and other resources at nwnatural.com/Cooking.

BILLING SUPPORT

You have another convenient way to pay

To begin paying by text, sign in to update or register your account at nwnatural.com.

As a NW Natural customer, you have a variety of methods to pay your bill. We continually look for ways to offer more convenient tools so you have the payment option that works best for you.

NEW!

You can now get text notifications when your bill is due.

Pay by text.

We will text you when your bill is ready. Then simply reply to pay. There's no need to sign in or remember a password.

Of course, you can still pay online, via mail or in person. If you would like to stay informed of new billing and payment services, as well as other updates that may impact your NW Natural account, please follow us on social media or sign up for our monthly newsletter in your account settings.

WAYS TO SAVE

We are here to help lower energy costs

Heating makes up a home's biggest energy expense, followed by water heating. We can help lower those expenses with energy-saving tips and rebates for high-efficiency natural gas appliances that use less energy.

TIPS TO HELP LOWER THE TOP TWO ENERGY EXPENSES

- ✓ Turn down the thermostat to 65–68°F during the day and 58–60°F at night during cooler months. Make up any difference in comfort with layered clothing.
- ✓ Adjust and clean vents. Make your adjustments based on the season and room location. For example, heat rises, so upstairs rooms may need less of it. Vacuum vents regularly to keep air flowing freely.
- ✓ Wash dishes and clothes with full loads only. Scrape food residue off plates instead of using water to rinse. And try washing clothes with cold water.

Appliances that can lower energy bills may be eligible for rebates from NW Natural Preferred Contractors and incentives from Energy Trust.

- High-efficiency natural gas furnace
- High-efficiency natural gas fireplace—check out the opportunity below to win a gas fireplace.
- High-efficiency natural gas tank and tankless water heaters
- Insulation and windows

See rebates, requirements and good energy habits at nwnatural.com/Offers.

Keep it

ENTER FOR A CHANCE TO WIN

a new high-efficiency natural gas fireplace.

Do you know how to stay warm if the electricity goes out? Take an easy quiz, and be entered for a chance to win toasty prizes. The grand prize is a high-efficiency natural gas fireplace with installation. Four other winners will receive \$100 Visa gift cards.

Visit nwnatural.com/toastysweepstakes to enter. Giveaway ends April 30, 2023.

YOUR SAFETY COMES FIRST

Two summer safety tips from NW Natural

Safety is our priority and commitment to you. That's why we work 24/7 to maintain our modern and tight pipeline system.

You can also help. If gardening or grilling is in your future, please remember these two easy safety best practices:

- 1 Always notify 811 before you dig. You can **schedule this free service online or by phone**. Then dig knowing where underground utility lines lie on your property.
- 2 Keep your outdoor **grill at least 10 feet away** from other structures and objects.

See other safety tips we recommend most at nwnatural.com/HomeSafety or our social media channels.

2022 SMART ENERGY PROGRESS REPORT

More than 1.9 million tons of emissions mitigated

We launched Smart Energy 15 years ago for customers who wanted to offset the carbon emissions from their natural gas use.

Recently, Smart Energy celebrated the milestone of funding 1.9 million metric tons total emission mitigations.¹ **That's equivalent to removing nearly 425,000 gasoline-powered cars from the road for a year.**² Thank you, Smart Energy customers!

Reducing environmental impacts with carbon mitigation

When you enroll in Smart Energy, the carbon emissions from your natural gas use will be 1) offset through projects that reduce, or prevent the release of, greenhouse gases, or 2) mitigated through a mix of carbon offsets and renewable natural gas projects. The options available may vary depending on the location of your gas service.

Smart Energy projects keep methane, a potent greenhouse gas, from entering the atmosphere by harnessing it as a renewable energy source. Today, Smart Energy has verified and retired carbon offsets from 19 projects in the Pacific Northwest, California, Utah, Alaska and British Columbia.

Learn about Smart Energy projects and enroll at nwnatural.com/Smart.

Quick self-service at nwnatural.com

Check on **your monthly bill and gas use**.

¹ As of December 31, 2022. See <https://apps.puc.state.or.us/edockets/docket.asp?DocketID=17092> for details.

² This figure was calculated using emissions data of 1,908,923 metric tons of carbon dioxide and the EPA's Greenhouse Gas Equivalencies Calculator here <https://www.epa.gov/energy/greenhouse-gas-equivalencies-calculator>

WAYS TO SAVE

Home energy improvements can lower energy bills and gas use

When you improve your home energy efficiency, you can lower energy bills and use less energy.

We, along with NW Natural Preferred Contractors and Energy Trust of Oregon, offer rebates so you spend less to make these improvements. If you are on a limited income, you may be eligible for more discounts.

- **Get up to \$1,200 for upgrades** to both heating and cooling.
- **Get a \$300 discount when you upgrade** to a Rinnai Sensei high-efficiency natural gas tankless water heater.

Bonus: A high-efficiency tankless water heater with a battery backup can work even when the power goes out.

See more ways to save money and energy at nwnatural.com/Offers.

INVESTING IN THE COMMUNITY

Three incoming Linn-Benton Community College students receive scholarships to pursue careers in skilled trades

We have supported the economic development of local communities for a long time—164 years! This year, we are especially excited to help young people enter professions that are experiencing a shortage of skilled workers.

We recently awarded three incoming **Linn-Benton Community College** students \$5,000 scholarships to attend LBCC's Career Technical Education program. These students will receive essential training and skills to enter in-demand trades.

"Linn-Benton Community College is at the forefront of connecting students with high-demand trades in the mid-Willamette Valley," said David Van Der Haeghen, NW Natural's Community Affairs Manager for the area. "We are thrilled to award these scholarships to such deserving students, who have demonstrated a commitment to their education and communities."

BILLING UPDATE

Bills going down for Oregon customers

We're happy to offer rate relief for our residential and small-commercial customers, despite continued inflation and new costs to comply with the state of Oregon's Climate Protection Plan (CPP) mandates. While bills for most customers are going down in the short-term — mostly due to global gas prices stabilizing, as well as efficient use of NW Natural's storage facilities and pipeline network — large industrial customers will see rate increases due to new CPP mandates.

The average Oregon residential customer using 56 therms per month is expected to see their bill **go down by about \$6 per month**. The average small-commercial customer can expect a reduction of about \$17 per month. If approved, rate changes are expected to begin Nov. 1.

Most NW Natural customers in Oregon can expect lower gas bills starting November 1!

To better understand your bill, see the [online billing guide at nwnatural.com/Guide](http://nwnatural.com/Guide). It shows how to read your bill, understand its various parts, find your current gas use and rate, and more.

YOUR SAFETY IS ALWAYS FIRST

Tips and tools to help you prepare for an emergency

The modern natural gas pipeline system that serves your home is built with flexible materials that can better withstand stress from ground movement associated with earthquakes, landslides and other natural disasters.

We partner with other organizations in the region, such as the American Red Cross Cascades Region, to help prepare customers for an emergency. And as your utility provider, we also provide resources to help you prepare for an emergency.

- **Sign up for emergency notifications in your county** so you get real-time alerts.
- Gather **essential supplies** that will last for at least two weeks after a disaster.
- Know how to **operate your natural gas appliances when the power goes out**.

Quick self-service at nwnatural.com

Make sure your **preferred method of contact** is up to date.

Find **NW Natural Preferred Contractors** nearest you.

Customize your **online account options** to best meet your needs.

Get these emergency-preparedness resources at nwnatural.com/Prepare.

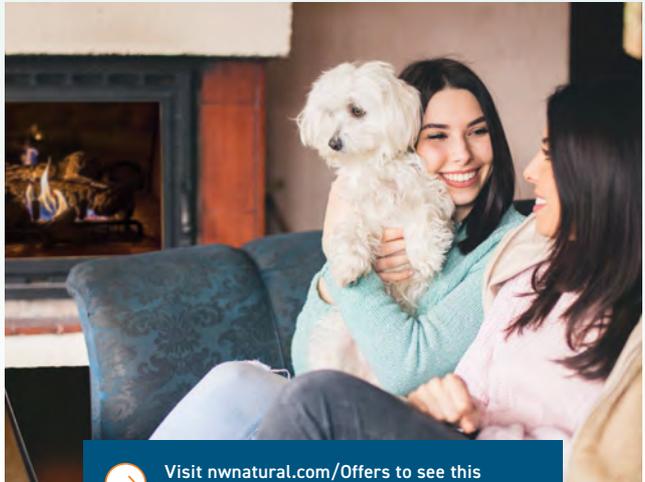

WAYS TO SAVE

Lower your monthly bills and maintain indoor temperatures year-round

Fall is here and we, along with NW Natural Preferred Contractors and Energy Trust of Oregon, offer rebates to help you prep your home for lower heating bills and improved comfort.

- A new **high-efficiency natural gas fireplace** offers clean-burning, efficient heat for up to a 1,000 square feet of living space—all at a low cost. Get up to \$400 in rebates.
- The better the insulation, the less your heating system has to work to maintain comfortable temperatures. You can get cash back when you **upgrade your attic, wall or floor insulation**. An average 1,000-square-foot home can save up to \$1,500 on new insulation installations.

To kick off the heating season in savings style, adjust ceiling fans to turn clockwise on low speed. This simple step will push warm air down and circulate it throughout the room.

Visit [nwnatural.com/Offers](https://www.nwnatural.com/Offers) to see this season's rebates and energy-saving tips.

IN THE COMMUNITY

Supporting family- and children-focused nonprofits in Oregon and SW Washington

Photo by Comunidad y Herencia Cultural

We are excited to announce that **several local nonprofits in Oregon and Southwest Washington** recently received \$600,000 to support their vital family- and children-focused missions. This support is part of the 2023 NW Natural total giving effort, which is expected to exceed \$1 million.

Join us by learning more about these local organizations:

A Village for One

Q Center

Centro Cultural de Washington County

Youth Rights & Justice

FOOD for Lane County

Old Mill Center for Children & Families

Visit [nwnatural.com/Newsroom](https://www.nwnatural.com/Newsroom) to read more about these organizations.

"We are committed to the communities we're privileged to serve," Environmental Policy and Corporate Responsibility Director Mary Moerlins said. "Supporting nonprofit organizations across our territory who enrich and uplift our region is core to who we are."

BILLING UPDATE

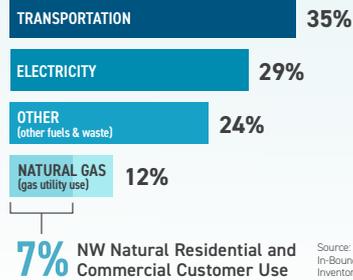

Lower bills this winter for Oregon customers

We're happy to offer rate relief for our customers. Starting November 1, the average Oregon residential customer using 56 therms per month is expected to see their bill **go down by about \$8 per month**. The average small-commercial customer can expect a reduction of about \$25 per month. "We are very happy to be able to offer lower bills to our customers at a time when other costs such as housing, food, and transportation continue to rise," said NW Natural CEO David Anderson.

Learn about DEQ's climate program

Oregon's Department of Environmental Quality (DEQ) developed a new program regulating carbon that requires NW Natural to comply with an emissions cap on our customers' behalf set by DEQ. Compliance with the program requires us to purchase Community Climate Investments (CCIs), along with implementation of energy-efficiency measures and renewable natural gas. DEQ expects CCIs to be available for purchase by next year, at which time we may file any relevant costs incurred with the Oregon Public Utility Commission and share with customers. **Learn more about DEQ's program and its potential price impacts at nwnatural.com/PPP.**

OREGON GREENHOUSE GAS EMISSIONS BY SECTOR

To better understand your bill, see the online billing guide at nwnatural.com/Guide. It shows how to read your bill, understand its various parts, find your current gas use and rate, and more.

YOUR SAFETY IS FIRST

All the ways to prepare for a safe winter home

If you smell rotten eggs, go outside and call us right away. We add a unique odor to help you detect gas leaks. If you smell rotten eggs, go outside and call us at 800-882-3377.

Safety is built into everything we do. In fact, we serve your home with one of the newest and safest pipeline networks in the nation. This is especially important during winter, when reliable service is needed.

TO HELP YOU PREPARE FOR WINTER, WE'RE SHARING THE SAFETY TIPS WE RECOMMEND MOST.

During a power outage, natural gas appliances can keep you up and running. See how to operate them with our instructional videos.

Test your carbon monoxide alarms. If an appliance is not functioning or venting properly, it can create carbon monoxide.

Lower bills at nwnatural.com/BillDiscount

Get bill discounts of 15%-40% for qualifying household incomes.

Get payment help with several flexible payment plans.

Get free home energy upgrades with Community Action Agencies.

Go to nwnatural.com/HomeSafety to see instructional videos, plus more safety tips and resources.

WAYS TO SAVE

Lower your monthly bills and maintain indoor temperatures year-round

It's wintry out there and we, along with NW Natural Preferred Contractors and Energy Trust of Oregon, offer rebates to help prep your home to lower heating bills and improve comfort.

- A new **high-efficiency natural gas fireplace** offers clean-burning, efficient heat for up to 1,000 square feet of living space—all at a low cost. Plus, many fireplaces work in a power outage. Get up to \$400 in rebates.
- The better the insulation, the less your heating system has to work to maintain comfortable temperatures. You can get cash back when you **upgrade your attic, wall or floor insulation**. An average 1,000-square-foot home can save up to \$1,500 on new insulation installations.

To kick off winter in savings style, adjust ceiling fans to turn clockwise on low speed. This simple step will push warm air down and circulate it throughout the room.

Visit nwnatural.com/Offers to see this season's rebates and energy-saving tips.

SUSTAINABILITY

Lowering emissions with renewable natural gas

As a NW Natural customer, you may know that we deliver natural gas through one of the most modern local distribution systems in the U.S. But did you know we're now using our system to deliver renewable natural gas (RNG)? Like wind and solar energy, RNG is lowering greenhouse gas emissions.

This is the third year we've delivered RNG since completion of the law in Oregon that allows us to do so. As a result, we were able to deliver nearly 121,000 dekatherms (.15%) of RNG to customers, equivalent to displacing all the natural gas used by about 1,900 homes for a whole year. Last year, we were also able to pass back **\$7.5 million in savings** to customers from our optimization of RNG market credits, while helping to displace over 2.5 million gallons of diesel in the transportation market.

For context on this RNG progress, wind and solar comprise about 14% of U.S. electric generation after years of active development and policy support.¹ As a new source of home and transportation fuel, renewable natural gas resources will take time to both develop and ramp up production, but progress is happening. In 2023, we estimate RNG volumes provided to our gas customers will be enough to displace all the natural gas used by about 12,500 homes in a year.

Visit nwnatural.com/RNG to learn more.

¹ <https://www.eia.gov/energyexplained/electricity/electricity-in-the-us.php>

DID YOU KNOW? 40% OF GAS USED IN DENMARK HOMES AND BUSINESSES IS RNG.

Country-wide development in turning organic waste streams into a climate solution has allowed Denmark to achieve 40% of its total gas use in homes and businesses as RNG, with their national goal of 100% RNG by 2030—completely displacing fossil fuel use.

RNG is derived from biogas, which is produced from decomposing organic waste from landfills, agricultural waste and wastewater.

SPECIAL NOTICE ON

HOUSELINE MAINTENANCE

NW Natural and the state regulatory commissions in Oregon and Washington want you to be aware of your responsibilities with respect to your gas piping.

You are responsible for maintaining the gas piping from the outlet of the gas meter to the gas appliances in your home or business. This is called the **“Houeline.”** The gas company is responsible for maintaining the gas piping from the street to the meter. This is called the **“Service Line.”**

NW Natural surveys all its service lines periodically. During a survey, we may determine that a meter is at risk of being damaged by vehicles, and may install protective meter guard posts at no cost to the homeowner. Your houeline should be inspected from time to time as well. You should periodically check on the outside portion of your houeline (extending from the meter outlet to the building wall) for possible needed repairs. You should keep your houeline painted to retard rust. If your houeline is ever damaged, inside or outside, you should make the needed repairs promptly.

If any of your houeline is underground, there is greater risk that it will corrode or develop a leak.

Buried metallic houelines should be periodically inspected for corrosion and leakage. Plastic houelines (permitted only underground and outside the →

NW Natural®

building), though not subject to corrosion, should also be periodically inspected for leakage. If an unsafe condition is discovered, the buried houseline should be repaired. You should not attempt to repair a buried houseline yourself. Locating, inspecting and repairing your houseline requires specialized equipment and knowledge. A NW Natural certified contractor can be found by calling Service Solutions at **877-243-5855** or by visiting nwnatural.com/Contractor. Be sure to work only with qualified contractors.

When excavating near buried gas piping, the piping should be located in advance, and the excavating should then be done by hand with a shovel or a spade. Remember that state regulations require you to notify a utilities notification center before you dig.

→ CALL NW NATURAL TO REPORT A NATURAL GAS ODOR:

800-882-3377

This notice is provided in compliance with Federal Regulations 49 CFR 192.16.

Inspections - You should perform routine inspections of your house piping. Check for evidence of leaks and corrosion. (You may want to contact a qualified heating contractor, plumber or appliance installer to perform these inspections for you.)

Maintenance - You should periodically clean and paint exposed pipe to prevent it from corroding.

Excess Flow Valves (EFVs) - An EFV is a device that can automatically restrict the flow of natural gas if an underground gas service line breaks or is completely cut. You have the option to request an EFV on the natural gas line that serves your home or business, at your expense (on average, the cost is \$1,500 or more). To request an EFV installation, or if you would like to find out if an EFV is already installed, please call us at **971-979-9615**, or visit the safety section of nwnatural.com.

Gas Meter Tampering - The meter and assembly are property of NW Natural. Tampering with any part of the meter or its connections is unlawful and may result in injury, criminal prosecution, the assessment of tampering charges and/or disconnection of service. Call **800-422-4012** immediately if you see signs of tampering.

For more information about natural gas safety, please call **800-422-4012**.

Para Preguntas sobre la seguridad del gas natural,
por favor llamar al 800-422-4012.

YOUR RIGHTS AND RESPONSIBILITIES AS A NW NATURAL CUSTOMER

For Oregon residential and small-commercial customers

NW Natural is committed to providing safe and reliable natural gas service to all customers. You can help us meet this commitment simply by paying your bill on time, by keeping your gas meter and other NW Natural facilities protected from damage or tampering, and by calling us in advance if you plan to move, wish to change your service, or have a service problem.

- **RATES** - Our rates and charges are regulated by the Public Utility Commission of Oregon (OPUC) and change periodically. Rate discounts are available for income-eligible customers. Contact our office or visit nwnatural.com for the most current information about rates.
- **DEPOSITS** - You may be required to pay a deposit when initiating or continuing service if your gas service has been discontinued within the last 12 months or for other reasons provided in the rules of the OPUC. Payment arrangements are available on deposit amounts. If you must pay a deposit, you may get your deposit refunded or credited to your account with interest if you have promptly paid your bills for 12 consecutive months. (This means that during that time, not more than two urgent notices were issued to you and service was not disconnected for non-payment.)
- **THIRD PARTY NOTICES** - You have the option to ask that another person receive your bills and notices if, for some reason, you are unable to receive or understand those bills and notices. Also, you may ask to receive notices in a language other than English.
- **FINANCIAL ASSISTANCE** - Several programs provide financial help for residential customers, depending on your circumstances. Low Income Energy Assistance Program (LIEAP) and Oregon Low Income Gas →

NW Natural[®]

Assistance (OLGA) provide money to qualified residential customers who need help with winter heating bills. Also, NW Natural has a Gas Assistance Program (GAP) to help residential customers in need pay their natural gas bills. For a list of local assistance agencies, call **866-GAS-FUND**.

- **BILLING AND PAYMENT ARRANGEMENTS** - NW Natural issues bills monthly, and payments are considered past due if not paid by the due date stated on the bill. Late charges may apply if your bill is not paid on time. A separate charge will apply for payments not honored by your bank or financial institution. In some cases a different bill due date may be available upon request. If you are unable to pay your bill in full, it may be possible to enter into a time payment agreement to pay the overdue amount over a period of time. There are several bill payment options you can use. These options are all available at nwnatural.com or by calling **800-422-4012**. And, regardless of what payment method you choose, you can sign up for **Paperless Billing** on our website, an option that allows you to view your bill online instead of being mailed a paper copy.
- **VOLUNTARY TERMINATION OF SERVICE** - If you are moving or for any reason need to close your account you must notify NW Natural at least 5 days prior to the last date that you will be responsible for service. For business customers, if you sell your business you must notify NW Natural within 10 business days of the date that the account terminates in your name. The new business owner must notify NW Natural within 20 business days to apply for service.
- **DISCONNECTION OF SERVICE** - If your bill becomes past due, your service can be disconnected. You will be notified twice before service is disconnected, at 20 days and at 5 days before the scheduled disconnection date. We will also try to contact you on the day the disconnection is scheduled. A reconnection charge may be assessed, in addition to all other amounts due and payable, when service is restored. An additional deposit may also be required. Except in case of danger to life or property, we will not discontinue service on Fridays, Saturdays, Sundays, the day before and on legal holidays.

- **MEDICAL CERTIFICATES** - If you are a residential customer and you or a member of your household has a serious health problem and you have received a disconnection notice, you may obtain a medical certificate from your doctor or other medical professional who provides your health care. A medical certificate will prevent immediate disconnection of your service, but you will be required to enter into a payment plan to pay your overdue bill.
- **RESOLVING DISPUTES** - If you have a dispute about your bill or about any service rendered, you have the right to request that the problem be reviewed by a supervisor at NW Natural. After talking with a supervisor, if you are still not satisfied, the OPUC's Consumer Services Division is available to help you. You may contact the OPUC by calling toll free **800-522-2404** or visiting www.oregon.gov/puc.
- **CONSUMER ORGANIZATIONS** - You can find a list of low-income energy assistance organizations at nwnatural.com or by calling **800-422-4012**. The OPUC Consumer Services Section may also have consumer assistance information. They can be reached at **800-522-2404** or by visiting www.oregon.gov/puc.
- **CUSTOMER INFORMATION** - NW Natural's privacy policy is available for review at nwnatural.com/Privacy.

SAFETY RIGHTS AND RESPONSIBILITIES

Ownership - You own the natural gas house line from the meter to your appliances and it is your responsibility to maintain it.

Installation - Original house piping needs to be installed by a qualified contractor. (Note: Avoid placing house piping beneath buildings whenever possible.) Federal pipeline safety regulations require the gas meter to be installed in a readily accessible location. When there is evidence of a potential hazard such as traffic, the meter must be protected by a guard post. During routine inspection of the gas meter, NW Natural may evaluate the need for and install guard posts around meters when such measures are necessary for safety. →

REMEMBER:
CALL BEFORE YOU DIG. IT'S THE LAW.

Know what's below.
Call before you dig.

Join over **84,000** NW Natural customers who offset the carbon emissions from their natural gas use through Smart Energy!¹

Smart Energy offsets are like **taking about 424,000 cars off the road** every year.² NW Natural provides several options to join, including going carbon neutral!

¹ As of Dec. 31, 2022

² epa.gov/energy/greenhouse-gas-equivalencies-calculator

Take action for the environment today.

Sign up at nwnatural.com/Smart to enroll in NW Natural's Smart Energy carbon-offset program.

Enroll Today!

Enroll by July 15, 2023 and receive an exclusive Smart Energy water bottle as our thank you gift.

Use this form and return with your bill payment. Or, enroll online at nwnatural.com/Smart with code **B123**.

I do not wish to receive the free gift.

Yes! I want to make a difference. Please enroll me in Smart Energy.

I want to offset the carbon emissions from my natural gas use with one of these options:

- Average Home**
\$5.50 per month¹
- Climate Neutral**
\$0.10486 per therm used each month²

Name _____

Signature _____ Date _____

Service Address _____

City _____ State _____ Zip _____

Account Number (optional) _____

You may opt out or change your program option at any time without penalty. The amount of your selected option will be added to your bill each month. The Public Utility Commission of Oregon and the Washington Utilities and Transportation Commission oversee Smart Energy and authorize its rates. Smart Energy may enter into contracts that may produce greenhouse gas emission reductions two or more years into the future.

¹ Based on the average annual natural gas use of NW Natural residential customers of 630 therms.

² NW Natural will add \$0.10486 per therm to your monthly bill to offset 100 percent of the carbon emissions from your home's natural gas use. Your actual Smart Energy participation cost will vary monthly based on your usage.

Is WARM the right choice for me?

If you do not use gas for space heating at all or use very little during the winter months, you should consider opting out of WARM because your gas use likely will not vary much due to changes in weather.

In many states, a weather adjustment mechanism is mandatory and is simply part of the utility's normal rate structure.

Can I see how WARM affects my current monthly bill?

Yes. Please visit the Manage Billing Options section of nwnatural.com. This will show you what your most recent bill would be with and without WARM. You can also request billing information for past December-May billing periods to see how weather affected your bill under both the WARM opt-in and opt-out options.

How can I opt out of WARM?

See the table in this pamphlet to determine when you may change your status and when the change will become effective. Then visit nwnatural.com or call **800-422-4012** to opt out.

If I opt out, can I opt in later?

Yes, you can return to WARM for the next heating season. To return to WARM for the coming heating season you must contact us before Sept. 30. If you make your selection after

Sept. 30, your status in WARM will become effective the following heating season.

What is average weather?

Average weather is calculated for each day of the WARM period based on the 25-year average temperature for that day. The 25-year period used for the calculation is approved by the Public Utility Commission of Oregon. The average temperature comes from the National Oceanic and Atmospheric Administration (NOAA).

If I am on Equal Pay, how will WARM affect me?

Equal Pay operates the same way, whether or not you are in WARM. Your Equal Pay amount may be adjusted during your plan year, if necessary, to bring your account into better balance by the adjustment month.

2009/01/23

WARM

BILLING PROGRAM

The Weather Adjusted Rate Mechanism (WARM) is NW Natural's default billing method that adjusts customers' bills for the December 1-May 15 heating season. WARM was first approved by the Public Utility Commission of Oregon (OPUC) in 2003. Customers can decide each year if they want to participate in WARM for the coming winter period. See "[Changing Your WARM Status](#)" inside.

How WARM works

WARM is intended to smooth out fluctuations in winter bills caused by weather variances. WARM calculates a bill adjustment that offsets the effect that colder- or warmer-than-average winter temperatures have on customers' gas use. If weather is colder than average, WARM will lower the billing rate; if weather is warmer than average, WARM will increase the billing rate.

The benefit for NW Natural is that WARM evens out revenues during the heating season, which helps ensure the company does not under-collect or over-collect its ongoing operating costs.

Changing your WARM status

Your account will be billed under WARM unless you opt out. Your status will stay the same even if you move unless you contact NW Natural again to request a change. If you move to a location without gas space heat, you should consider opting out. See the table at right to determine when you may opt out and when it will become effective.

To change your WARM status, please visit nwnatural.com or call us at **800-422-4012**.

Frequently asked questions

How do I know if I am in WARM?

Look for a WARM message on your bill. You can also visit nwnatural.com or call us at **800-422-4012** and ask to speak with a customer service representative. Compressed Natural Gas vehicle fueling equipment usage is not eligible for WARM.

How will WARM affect my winter bills?

The impact of WARM on your bill will vary from month to month, and from one winter to the next, depending on weather conditions.

For the typical customer who uses gas space heating full time during the WARM period from **December 1-May 15**, the billing rate for a colder-than-average billing month will be lower than it would have been without WARM. The billing rate for a warmer-than-average billing month will be higher than it would have been. If a customer has zero gas use during any given winter month, there will be no WARM adjustment on that bill.

Is there a limit on how much WARM will affect my bill?

There are limits on the amount that can be billed or credited from the WARM program during the WARM period. In a warmer-than-average month, WARM cannot cause a residential customer bill to increase or decrease

more than \$12 or 25%, whichever is less. (For commercial customers, the monthly cap is \$35 or 25%.)

How will WARM affect my summer bills?

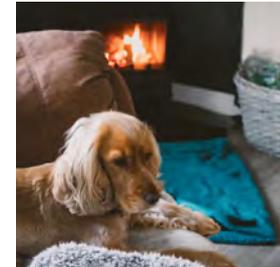

WARM will not affect your summer bills because the mechanism does not apply from May 16 until the WARM period begins December 1.

Why is WARM the default billing method?

NW Natural covers most of its operating costs through revenues from gas use charges. Without WARM, NW Natural could over-collect revenues in a colder-than-average winter because gas use typically increases. And it could under-collect revenues in a warmer-than-average winter when gas use typically decreases. WARM allows NW Natural to collect the revenues that the OPUC has ruled are necessary to serve customers.

Why is WARM optional?

WARM is optional so that customers who do not use natural gas full time for space heating, or customers who simply prefer to pay the standard billing rate throughout the year, have a choice. →

TIMING	CURRENT CUSTOMER	NEW CUSTOMER*
Between May 16 and September 30 (outside of the heating season)	Opt-out of WARM for upcoming heating season	Opt-out of WARM for upcoming heating season
Between October 1 and May 15 (during the heating season) <small>Certain exceptions may apply. Please call us at 800-422-4012 to learn more.</small>	<ul style="list-style-type: none"> No opt-out allowed for current heating season Opt-out allowed to begin with next heating season 	<ul style="list-style-type: none"> Opt-out allowed within 30 days of receipt of NW Natural's welcome packet After 30 days, opt-out allowed to begin with next heating season

* A "new customer" is a customer who has not had an active account with NW Natural at all during the prior 12 months. If you were a NW Natural customer before you moved to your current address, your WARM status will continue at your new address unless you request a change of WARM status.

NW NATURAL CUSTOMER NEWSLETTER • JUNE 2023 • NWNATURAL.COM

Your safety comes first in summer and every season

We provide natural gas service to approximately 2.5 million people in Oregon and Southwest Washington, with one of the tightest, most modern pipeline systems in the U.S. As with any utility, safety awareness is key. That's why we remind you this summer to notify 811 before digging on your property. And, when you grill, keep that grill at least 10 feet from other objects, like siding, fences and bushes.

Subject: We can help you manage your energy bill this winter

**We can help you manage your energy
bill this winter**

A combination of factors has raised natural gas costs this winter and, unfortunately, resulted in higher bills for many of our customers compared to last year. These factors may include: New rates reflecting a significant increase in global natural gas prices and system investments; a colder November and December; and a longer December billing cycle with extra days during an extreme winter weather event.

Resources to help manage energy bills

Unpredictable energy costs can be stressful, which is why we provide payment and billing options that can help:

- **Temporary payment plans.** Flexible monthly payment options can make your bill more manageable.
- **Payment extensions.** You may be able to extend your payment due date and pay in a timeframe that works for you.

- **Residential Bill Discount Program for Oregon customers.** Our income-qualified discount program can save you 15% to 40% on monthly bills.

See assistance resources [here](#).

Connect with customer service

In preparation for the rest of winter, we have added resources to help you manage energy costs.

- Send us an email from the [customer service portal](#) and we will respond to your question within 2-3 business days.
- Visit nwnatural.com for immediate information and see ways to manage your payments.
- Call 800-422-4012 and leave your call-back number. We will do our best to return your call within 24 hours.

Thank you for being a NW Natural customer and for your patience.

Communication preference check-in

Your safety comes first. That's why we work 24/7 to maintain our modern and tight pipeline system. As with any utility, safety awareness is key. That's why we remind you to notify 8-1-1 before digging on your property. And, when you grill, keep that grill at least 10 feet from other objects. See more safety tips and resources at N W natural DOT com slash HOME SAFETY.

[musical break]

Energy bills typically rise and fall depending on the weather and your seasonal energy use. So we designed the Equal Pay billing option to help take the ups and downs out of your monthly gas bill. With Equal Pay, you can receive steady, predictable bills throughout the year. Learn more at N W natural DOT com slash EQUAL PAY.

[musical break]

If you are on a limited income, you can receive cost-saving home improvements for no charge. We partner with local organizations in Oregon and Washington to provide free insulation, heating, water heating, air sealing and more. Learn more at N W natural DOT com slash SAVINGS.

Data Request Response

Request No.: UG 490 Coalition DR 72

Please describe all promotional concessions NW Natural intends to offer during the Test Year.

Response:

NW Natural objects under OAR 860-001-0500 to the request that the Company describe all promotional concessions offered during the Base Year, in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates. The Company did not intend to seek cost recovery in this rate case for any promotional concessions.¹

To that end, and without waiving the Company’s objections, there are four expenses included in the filing that the Company inadvertently included in its cost recovery request.

Base Year total for these expenses is \$31,992.99. Test Year total is \$41,014.70. The Company will update its revenue requirement in its reply testimony.

The four Test Year expenses are explained here:

Date	Paid to	Purpose	Base year / Test Year expense
9/26/2023	NW Natural Appliance Center	Purchase of gas outdoor oven for installation at a home showcase. Demonstration of outdoor gas cooking equipment.	Base Year: \$1,994.99 Test Year \$2,185.63

¹ OAR 860-026-0015(1) states, in relevant part, that “promotional concession” means “any consideration offered or granted by an energy ... utility or its affiliate to any person with the object, express or implied, of inducing such person to select or use the service or additional service of such utility, or to select or install any appliance or equipment designed to use such utility service.” OAR 860-026-0015(2) provides examples of promotional concessions for illustrative purposes, and OAR 860-026-0015(3) lists activities that are not promotional concessions.

5/15/2023	Western Outdoor Wholesale Inc	Purchase of three high-efficiency gas tankless water heaters for installation at a home showcase. The tankless systems included battery backup devices that demonstrated to the public show visitors (with signage) how tankless units could be enabled for operation during a power outage.	Base Year: \$19,998 Test Year \$21,908.97
9/7/2023	Willamette Woodstove Inc DBA Home Fire Stove	Advertising coop paid to a hearth dealer. This was previously disclosed in UG 490 OPUC DR 334.	Base Year: \$5,000 Test Year \$8,460.05
12/22/2023	Lisac's Fireplace & Stove Inc	Advertising coop paid to a hearth dealer.	Base Year: \$5,000 Test Year \$8,460.05

Request No.: UG 490 Coalition DR 73

Please provide all documents relevant to NW Natural's Notice of 2024 Promotional Concession Campaigns ("2024 Concessions Notice"), filed in OPUC Docket No. RG 31.

Response:

NW Natural objects under OAR 860-001-0500 to the request that the Company provide "all documents" relevant to NW Natural's 2024 Concessions Notice filed in OPUC Docket RG 31, in that the information requested is burdensome, overly broad, not relevant to this proceeding or not reasonably calculated to lead to admissible evidence, and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates. The Company is not seeking cost recovery in this rate case for any promotional concessions described in the Company's 2024 Concessions Notice.¹

¹ OAR 860-026-0015(1) states, in relevant part, that "promotional concession" means "any consideration offered or granted by an energy ... utility or its affiliate to any person with the object, express or implied, of inducing such person to select or use the service or additional service of such utility, or to select or install any appliance or equipment designed to use such utility service." OAR 860-026-0015(2) provides examples of promotional concessions for illustrative purposes, and OAR 860-026-0015(3) lists activities that are not promotional concessions.

Data Request Response

Request No.: UG 490 Coalition DR 80

Please describe the total costs during the Base Year related to all advertising that offered to install gas-fueled appliances for which NW Natural is offering shareholder incentives. In your answer, please include all costs to prepare these advertisements including Salaries/Overhead, Professional Services, and Communications.

Response:

NW Natural objects under OAR 860-001-0500 to the request that the Company describe the total costs during the Base Year related to all advertising that offered to install gas-fueled appliances for which NW Natural is offering shareholder incentives, in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence, and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates. The Company is not seeking cost recovery in this rate case for advertising expenses related to promotional concessions—including those offering shareholder incentives.

To that end, and without waiving the Company's objections, the two individuals who work on promotional campaigns also charge a small portion of their Salary/Overhead (8%) to customer assistance. That amount (\$26,354 in the Base Year and Test Year) is included in the filing, as they provide communication to trade allies and customers about NW Natural policies, regulation, and processes.

Data Request Response

Request No.: UG 490 Coalition DR 107

How much money did GAP receive during the Base Year through state funding grants?

Response:

NW Natural's Gas Assistance Program ("GAP") received no money during the Base Year through state funding grants. NW Natural does an annual donation drive for GAP, but the program does not solicit or receive state funding. GAP is wholly incremental above other low-income energy assistance programs and is funded by voluntary contributions from customers, employees, and occasionally by private grants.

NW Natural also contributes shareholder dollars to the program annually from its Corporate Philanthropy fund. NW Natural itself (not its customers) covers all the program delivery and administrative costs so that every dollar goes to GAP recipients.

Please provide a copy of the contract between NW Natural and Kellie Mann and/or K. Mann Marketing.

Response:

Please see included as Confidential UG 490 Coalition DR 119 Attachments 1-3 the Master Services Agreement and Statement of Works for the Base Year and November and December, 2024 of the Test Year. The Company is not seeking rate recovery of any expenses in Category C. Category C information has been redacted from the Attachments as it is not relevant to this rate case.

Request No.: UG 490 Coalition DR 121

Please provide an itemized list of all legal fees billed to FERC Account 921 in 2021, 2022, 2023, and 2024. For each transaction, please list the name of the law firm and an itemized description of the service provided.

Response:

The Company objects to providing and does not provide the requested itemized description of the legal services provided, as such descriptions are attorney-client privileged information and attorney work product and thus not discoverable. See OAR 860-001-0500(3). Without waiving its objections, the Company states as follows:

Refer to UG 490 Coalition DR 121 Attachment 1 for the general ledger (GL) transaction detail of legal fees billed to FERC 921 for the years 2021-2023. These details have been summarized from the Company's responses to SDR 57 and UG 490 OPUC DR 201. January and February 2024 actuals have also been provided from the general ledger in UG 490 Coalition DR 121 Attachment 1.

Request No.: UG 490 Coalition DR 126

Please provide a copy of all rebates and incentives for gas-powered appliances offered by NW Natural during the Base Year and the Test Year on its website at nwnatural.com/offers.

Response:

NW Natural objects under OAR 860-001-0500 to the request that the Company provide a copy of all rebates and incentives for gas-powered appliances offered by NW Natural during the Base Year and the Test Year on its website at nwnatural.com/offers, in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence, and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates. The Company is not seeking cost recovery in this rate case for expenses related to rebates or incentives for gas-powered appliances.

Data Request Response

Request No.: UG 490 Coalition DR 144

Referring to NW Natural/1200, Williams/Page 5, please provide all time reporting entries for employees providing core utility functions.

Response:

There are no time reporting entries for employees providing core utility functions, as employees time report for exception time only (e.g., the non-utility/below the line functions are time tracked).

Data Request Response

Request No.: UG 490 Coalition DR 156

Please list the NW Natural employees who attended the trip to Denmark organized by i-Sustain in 2019, 2022, and 2023. Please provide the names, titles, and a description of each employee's purpose for attending.

Response:

NW Natural objects under OAR 860-001-0500 to the request that the Company provide a list of NW Natural employees who attended the trip to Denmark organized by i-Sustain in 2019, 2022 and 2023 (with 2019 and 2022 preceding the Base Year in this case), in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates. Without waiving its objections, the Company states as follows:

The Company is not seeking cost recovery in this rate case for any payments to i-Sustain's for the Denmark tour. The Company booked its costs associated with its participating in i-Sustain's Denmark tours to a non-utility (i.e., below-the-line) cost center (FERC account) borne by shareholders.

For the 2023 trip, which occurred from September 11-15, 2023, one NW Natural employee in the Renewables Department, Brittany Park, did appropriately charge staff time to a utility (above-the-line) cost center for that period of time. The employee was NW Natural's subject matter expert on the trip regarding the Company's utility decarbonization efforts and engaged with host representatives about those utility decarbonization efforts. Additionally, as the utility subject matter expert, the NW Natural employee attended the i-Sustain trip to learn about and see new technologies to collect, process, and produce biogas and hydrogen. This employee brought these learnings back to the Company to enhance our understanding of the technologies available to decarbonize the gas system.

Data Request Response

Request No.: UG 490 Coalition DR 168

For each expense listed in response to Coalition DR 167, please state whether NW Natural anticipates charging ratepayers for this same cost during the test year, and the total anticipated cost for each line item.

Response:

Yes, The Company is including in this case the base year membership and associate dues grossed up by CPI for Test Year expenses. UG 490 OPUC DR 130 Attachment 2 provides 2023 actual spend for membership and association dues. The base year amount of \$938,127 was grossed up into the Test Year using the West Region Urban CPI forecast as reported in the September 2023 Oregon Economic and Revenue Forecast of 3.60% in 2024 and 2.90% for 2025, which would make the effective increase 6.1% increase from the Base Year expenses, or \$995,352 in the Test Year.

Request No.: UG 490 Coalition DR 204

For each of the following organizations listed below, please state: (1) the total amount NW Natural paid in memberships and dues during the Base Year; (2) how much of the total amount paid NW Natural seeks to recover from Oregon ratepayers; and (3) NW Natural's justification for recovering these costs from ratepayers.

- Keizer Chamber of Commerce
- North American Gas Heat Pump Collaborative
- Ethisphere LLC
- Chehalem Chamber of Commerce
- Seaside Chamber of Commerce
- Canby Area Chamber of Commerce
- Tigard Chamber of Commerce
- Albany Area Chamber of Commerce
- Oregon Home Builders Association
- Springfield Area Chamber of Commerce
- Hillsboro Area Chamber of Commerce
- Mt. Adams Chamber of Commerce
- North Clackamas Chamber of Commerce
- American Gas Association
- Oregon Business Council
- American Biogas Council
- NW Gas Association
- Greater Vancouver Chamber of Commerce
- Beaverton Chamber of Commerce
- Home Building Association of Greater Portland
- Oregon Pride in Business Chamber Membership

Response:

Refer to UG 490 Coalition DR 204 Attachment 1 for the Base Year totals and Oregon allocated amounts paid for the above requested organizations. Please note that the information provided in UG 490 Coalition DR 204 Attachment 1 was contained in the Company's responses to UG 490 OPUC DR 130 (Attachment 1) and Supplemental UG

490 OPUC DR 130 (Attachment 2). Refer to UG 490 Coalition DR 204 Attachment 2 for the detailed explanation and justification of the above organizational memberships.

Organization	Base Year Paid Memberships	Amount to recover - OR allocated
* Keizer Chamber of Commerce	\$ 287	\$ 253

For each of the following organizations listed below, please state: (1) the total amount NW Natural paid in memberships and dues during the Base Year; (2) how much of the total amount paid NW Natural seeks to recover from Oregon ratepayers; and (3) NW Natural’s justification for recovering these costs from ratepayers.

<u>Organization</u>	<u>Justification for membership/dues recoverability from Oregon ratepayers</u>
* Keizer Chamber of Commerce	Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.
* North American Gas Heat Pump Collaborative	<p>This justification also is provided in the Company’s response to UG 490 Coalition DR 209.</p> <p>The mission of the North American Gas Heat Pump Collaborative (NAGHPC) is to accelerate the adoption of innovative gas technologies that will reduce carbon emissions in North America.</p> <p>The Collaborative was founded in 2022 by a group of 14 gas and dual fuel utilities and energy efficiency program administrators that recognized gas heat pump technologies play an important role in decarbonization. The group works with many partners to implement market transformation activities</p>

with the goal of accelerating adoption of gas heat pumps and other technologies that support decarbonization in North America. Currently, the twenty-three member utilities represent 33% of the gas heated households in North America. Further representation comes through the 150 municipal gas utilities that are engaged through the NAGHPC membership of the American Public Gas Association (APGA) Research Foundation.

NW Natural is a founding member of the NAGHPC and currently provides leadership as Chair of the Executive Committee.

1. Gas Heat Pump Water Heating Codes and Standards Review: Identify codes and standards gaps/barriers to adoption of commercial & residential GHPWHs.

Purpose: Determining codes/standards barriers informs actions for addressing them in pursuit of accelerated adoption.

Benefit to ratepayers:

Determine how GHP WH adoption might be accelerated through codes, certification and/or product standards. Accelerated awareness and adoption of new highly efficient products benefits customers by lower energy usage and emissions and lowering energy costs.

2. Early Adopter Segmentation Market Research:

Identify trade installers or contractors ("Trade Allies") that are considered most likely early adopters of GHPWHs and that have the potential to help accelerate awareness and adoption of new products.

Purpose: Enable Collaborative members to effectively identify early Trade Ally product advocates in their respective service territories.

	<p>Benefit to ratepayers:</p> <p>Accelerated awareness and adoption of new highly efficient products benefits customers by lower energy usage and emissions and lowering energy costs.</p> <p>3. Administrative facilitation of the GHPWH committee by Resource Innovations (a professional energy efficiency consultant group founded by individuals that were involved in the introduction of the electric heat pump) Quarterly Committee meetings scheduled and coordinated by Resource Innovations based on agendas set and provided by the Committee. Additional meetings scheduled with Committee Chairs on an as needed basis to ensure progress with each of the Task areas.</p> <p>Purpose: Effective facilitation of committee activities to ensure efficiency for members.</p> <p>Benefit to ratepayers:</p> <p>Supports accelerating awareness and adoption</p> <p>4. Residential Manufacturer Outreach and Engagement. Identify and engage key manufacturers to build understanding about what future activities would be most beneficial to support bringing more products to market sooner. Purpose: Understand manufacturer needs and hurdles for potentially launching more products. Agnostic to manufacturer and end use HVAC applications.</p> <p>Benefit to ratepayers:</p> <p>Broader portfolios of products increase customer choice and increases competition to foster lower prices.</p> <p>5. Residential Technical Resource Manual GHP Workpaper Template Development</p>
--	--

	<p>Template for gathering and submitting information to validate residential energy savings of gas heat pumps. The template will cover residential GHP applications.</p> <p>Purpose: Workpaper template is intended to facilitate information submission to local technical resource manual (“TRM”) forum, or other similar forums, to formally adopt a measure into state TRM or comparable documents. The resulting workpapers will provide greater savings validation for Collaborative members interested in assessing how to incorporate GHP products into existing energy efficiency programs.</p> <p>Benefit to ratepayers:</p> <p>Placement of products into energy efficiency programs assists with the accelerated awareness and adoption of new highly efficient products. Adoption of efficient products benefits customers by lowering energy usage energy bills and by lowering emissions.</p> <p>6. Develop Residential HVAC GHP Gas Industry Business Case and Standard Program Design</p> <p>Develop the underlying data and aggregate existing information to create a business and program design standard.</p> <p>Purpose: Business case framework to demonstrate the benefit of GHPs in addressing demand side decarbonization, including modeling, supporting data, and content development.</p> <p>Benefit to ratepayers:</p> <p>Quantifying energy and emissions savings help to establish the cost-effectiveness of the product category.</p>
* Ethisphere LLC	Ethisphere is a global leader in defining and advancing the standards of ethical business. Ethisphere has deep expertise in measuring

	<p>and defining core standards using data-driven insights that help companies build strong cultures of ethics and integrity.</p> <p>NW Natural customers benefit through the sharing of information, expertise, data, resources and tools to advance integrity, ethics and compliance across NW Natural. An effective ethics and compliance program can help the Company comply with legal requirements, decrease liability risk, reduce misconduct, and improve employee engagement, performance and retention. Various studies have also demonstrated a link between a strong business integrity program and business performance. For example, the publicly traded companies recognized as Ethisphere’s “2024 World’s Most Ethical Companies” outperformed a comparable index of global companies by 12.3% over a five-year period from January 2019 to January 2024. Enhanced company performance benefits customers by supporting more cost-effective access to capital markets, which in turn, benefits customers.</p> <p>In 2024, for the third consecutive year, Ethisphere named NW Natural Holdings as One of the 2024 World’s Most Ethical Companies®.</p>
<p>* Chehalem Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members,</p>

	<p>awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Seaside Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Canby Area Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>

<p>* Tigard Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Albany Area Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Oregon Home Builders Association</p>	<p>Customers benefit from a strong building industry trade association. The Oregon Home Builders Association (HBA) promotes education, safety, philanthropy, compliance with code, workforce diversity and affordable housing. NW Natural supports</p>

	<p>the HBA so that they may support the industry efforts.</p> <p>HBA membership includes homebuilders as well as the associated tradespeople in the homebuilding and remodeling industries. This is a recoverable expense as a larger effort to build strong partnerships between NW Natural and builders, contractors, developers, and tradespeople. Ratepayers benefit from the efforts of these groups to provide gas service options across the territory. Additionally, the partnership enables better collaboration with these entities so that we can ensure compliance, value, safety, efficiency and generally promote better understanding of common issues.</p> <p>We have board-level representation with this statewide builder association and benefit from the exchange of information.</p> <p>NW Natural supports this key trade association that will enable Oregon to meet the Governor’s statewide housing development goals.</p>
<p>* Springfield Area Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>

<p>* Hillsboro Area Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Mt. Adams Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* North Clackamas Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and</p>

	<p>providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
* American Gas Association	<p>The American Gas Association (AGA) represents companies delivering natural gas safely, reliably, and in an environmentally responsible way to help improve the quality of life for their customers every day. AGA's mission is to provide clear value to its membership and serve as the indispensable, leading voice, and facilitator on its behalf in promoting the safe, reliable, and efficient delivery of natural gas to homes and businesses across the nation. The following are some examples of AGA's operations and engineering activities. These activities include initiatives to improve the safety, efficiency and productivity of member companies' engineering and operating functions. AGA provides hundreds of forums and other vehicles through which a member company's employees can exchange information with their peers in other companies in order to better serve its customers. These face-to-face exchanges include committee meetings, workshops, seminars, peer reviews, member surveys, and other forums. In addition, AGA provides program "clearinghouse" services in a number of areas including customer relations, educational services, and training and development. Through such clearinghouses, AGA maintains information on successful programs conducted by member companies and makes this information available to other companies</p>

	<p>upon request. In addition, AGA serves member companies and its customers by doing things collectively or at the national level that the utility could not do or could not do cost-effectively on its own, such as providing best practices for cyber security, coordinating mutual aid nationally between member companies, and developing industry standards.</p>
<p>* Oregon Business Council</p>	<p>The Oregon Business Council (OBC) is an association of more than 40 business community leaders focused on public issues that affect Oregon’s life and future. OBC helps develop the annual Oregon Business Plan, an economic development forum that calls for growing more well-paying jobs, increasing state per capita income to exceed the national average, and substantially reducing poverty. Utilities, like NW Natural, are a critical partner in economic development efforts, such as the recent focus on retaining and expanding the semiconductor industry in Oregon. OBC also helped facilitate Governor Kotek’s Portland Central City Task Force that included NW Natural and other utility participation.</p>
<p>* American Biogas Council</p>	<p>American Biogas Council (ABC) is a national trade association for the biogas industry which convenes all members of the biogas value chain including developers, transportation interests, technologies, suppliers and end users. Activities of ABC include member education, subject matter expertise and peer best practice exchanges.</p>
<p>* NW Gas Association</p>	<p>NWGA is a bi-national trade organization of the Pacific Northwest natural gas industry helping members safely delivery energy. Through participation in the NWGA, NW Natural is able to work directly with peer utilities and transmission pipelines in Oregon, Washington, Idaho and Canada on matters related to regional gas infrastructure and storage, mutual aid, decarbonization, integrated resource plans the safe delivery of energy.</p>
<p>* Greater Vancouver Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying</p>

	<p>economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Beaverton Chamber of Commerce</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business and jurisdictional leadership in the communities we serve.</p>
<p>* Home Building Association of Greater Portland</p>	<p>Customers benefit from a strong building industry trade association. The Home Building Association (HBA) of Greater Portland/Metro promotes education, safety, philanthropy, compliance with code, workforce diversity and affordable housing. NWN supports the HBA so that they may support the industry efforts.</p>

	<p>HBA membership includes homebuilders as well as the associated tradespeople in the homebuilding and remodeling industries. This is a recoverable expense as a larger effort to build strong partnerships between NW Natural and builders, contractors, developers, and tradespeople. Ratepayers benefit from the efforts of these groups to provide gas service options across the territory. Additionally, the partnership enables better collaboration with these entities so that we can ensure compliance, value, safety, efficiency and generally promote better understanding of common issues.</p> <p>We have board-level representation with this group and benefit from the exchange of information. Our engagement includes leadership in the Home Performance Council (which promotes high-efficiency building) and the Professional Women in Building coalition (which promotes the greater inclusion of women in building trades).</p> <p>NW Natural supports this key trade association that will enable Oregon to meet the Governor’s statewide housing development goals.</p>
<p>* Oregon Pride in Business Chamber Membership</p>	<p>Chambers of commerce support vibrant local business operating environments, addressing challenges facing businesses and identifying economic opportunities, collaborating with local organizations to fill staffing and workforce development needs, and providing member education and local leadership programs. As a critical infrastructure provider, NW Natural, along with other jurisdictions and utilities, play an important role in supporting access to these resources for local businesses and for participating in dialogue to improve business conditions across our territories. NW Natural customers benefit through sharing of information with chamber members, awareness, and response to business issues throughout our service areas, and a strengthening of relationships with business</p>

Request No.: UG 490 Coalition DR 206

Please provide an itemized list of all costs incurred for the NW Natural Street of Dreams event during the Base Year and NW Natural's justification for recovering these costs.[1]

Response:

See UG 490 Coalition DR 206 Attachment 1 for an itemized list of all costs incurred for the NW Natural Street of Dreams event during the Base Year.

These expenses are justified and reasonable as a part of an overall event partnership for communicating information about natural gas and associated appliances to customers and the general public. Home showcases demonstrate to the public the value of gas (operating cost, efficiency, resiliency, comfort and convenience). Customers and the general public (as home buyers) have a very strong interest in gas amenities and these demonstration homes provide an opportunity to learn about, and reinforce the value of, these appliances.

In addition, NW Natural's participation is part of a larger effort to build strong partnerships between builders, contractors, developers, and tradespeople. Ratepayers benefit from the efforts of these groups to provide gas service options that buyers want across the territory. The partnerships enable better collaboration with these organizations so that we can ensure compliance, value, safety, efficiency, customer service and generally promote a better understanding of common issues related to our product and services.

These reasonable expenses incurred are associated with monitoring and supporting planning and execution of the event, providing in-kind event operational support and support for special events within the Street of Dreams for participating builder and industry related organizations.

[1] A website for this event is available here: <https://www.streetofdreamspdx.com/>.

Data Request Response

Request No.: UG 490 Coalition DR 218

Please state how NW Natural is paying for legal fees related to the following matters:

- a. NW Natural's participation in lawsuits challenging the Climate Protection Program.
- b. NW Natural's participation in lawsuits challenging the Washington State Building Code Council's amendments to the state building codes.
- c. NW Natural's comments and participation rulemaking related to the Washington State Building Code Council's amendments to the building codes.
- d. NW Natural's comments on the Climate Commitment Act.
- e. NW Natural's advocacy related to Governor Brown's Executive Order 20-04.

Response:

NW Natural objects under OAR 860-001-0500, in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates.

Without waiving its objections, the Company states as follows:

- a. – e. The Company is not seeking in this case to recover from Oregon ratepayers the legal fees related to the above-listed matters.

Request No.: UG 490 Coalition DR 219

Please state whether NW Natural seeks to recover from Oregon ratepayers the legal fees of Baker Botts LLP, Snell & Wilmer LLP, and Stoel Rives LLP associated with NW Natural's legal challenge to the Climate Protection Program. If NW Natural seeks recovery for these costs, please state the total amount invoiced and charged to Oregon ratepayers.

Response:

NW Natural objects under OAR 860-001-0500, in that the information requested is not relevant to this proceeding or not reasonably calculated to lead to admissible evidence and is not commensurate with the needs of this case, the resources available to the parties or the importance of the issues to which the discovery relates.

Without waiving its objections, the Company states as follows:

NW Natural is not seeking in this case to recover from Oregon ratepayers the legal fees of Baker Botts LLP or Snell & Wilmer LLP associated with NW Natural's legal challenge to the invalidated Climate Protection Plan ("CPP"). Stoel Rives LLP did not provide legal services to NW Natural associated with NW Natural's legal challenge to the invalidated CPP.

Rates & Regulatory Affairs
UG 490
Request for a General Rate Revision
Data Request Response

Request No.: UG 490 OPUC DR 343

Please identify Test Year forecast expenditures, and expenditures for each of five years prior to the Test Year.

Response:

Topic or Keyword: **Political Activities/Public Affairs**

As described in UG 490 OPUC DR 342 the described political lobbying activities are charged to FERC 426.4 and are not included in the revenue requirement and is considered “below the line”. As these costs are not included in the revenue requirement the Company does not calculate a test year forecast. The expenditure totals for the prior five years are included in UG 490 OPUC DR 343 Attachment 1.

The described public affairs activities in UG 490 OPUC DR 341 are charged to FERC 921 and are included in the revenue requirement, as such activities include “informational engagement and education for local governments for which ratepayer support is appropriate.” UG 435, Order No. 22-388 (entered October 24, 2022), page 24. Refer to UG 490 OPUC DR 343 Attachment 1 for the expenditure totals for each of the prior five years through the Test Year.

OPUC DR 343
Political Activities / Public Affairs

FERC	FERC Category	Description	Actuals System 2019	Actuals System 2020	Actuals System 2021	Actuals System 2022	Actuals System 2023	TEST YEAR
*	920/921	Administrative & General Salaries / Office Supplies & Expense	1,414,915	1,546,078	1,868,698	1,360,812	1,602,289	1,725,922
	426.4	Expenditures for Certain Civic, Political and Related Activities	278,624	272,436	506,223	592,226	775,673	N/A

The Company records FERC 920 Administrative & General Salaries to FERC 921 along with the related non-payroll expenses, and for the revenue requirement these are included in FERC 921 but the * salaries are technically FERC 920.

N/A As FERC 426.4 is not included in Revenue Requirement (i.e. not included in the 2023 base year) the company does not have a Test Year forecast. In otherwords, there are \$0.00 in the Test Year.

April 18, 2024

TABLE OF CONTENTS

I. INTRODUCTION & SUMMARY 3

II. NW NATURAL MUST INTEGRATE ENERGY JUSTICE INTO THIS RATE CASE TO PROTECT ITS LOW-INCOME CUSTOMERS. 6

A. Unaffordable rates contribute to the accumulation of high debt in low-income households, worsening their financial instability. 8

B. NW Natural’s LINA is inadequate and fails to comprehensively assess low-income Oregonians’ needs for energy assistance programs. 10

C. NW Natural should incorporate additional social standards to discern how deeply low-income customers feel their energy burden. 13

III. NW NATURAL’S BILL DISCOUNT FAILS TO PROVIDE MEANINGFUL RELIEF TO ITS LOWEST-INCOME CUSTOMERS. 16

A. Background. 18

B. NW Natural must increase its bill discounts to provide meaningful assistance to its lowest-income customers. 19

C. NW Natural should institute an arrearage forgiveness program to lessen the burden on its lowest-income customers. 23

D. NW Natural must prioritize identifying and targeting bill assistance eligible households to get them the discounts to which they are entitled. 24

E. Post-enrollment verification deters low-income households from getting the assistance they need. 27

IV. INVESTING IN ENERGY EFFICIENCY MEASURES AND PRIORITIZING LOW-INCOME WEATHERIZATION IS THE BEST WAY TO ELIMINATE RATEPAYER ENERGY BURDENS. 31

A. Background. 32

B. NW Natural should maximize spending for its OLIEE program. 36

C. The Commission should require NW Natural to use OLIEE funds to allow low-income ratepayers to choose electrification. 42

V. THE FIXED RATE CHARGE IMPOSES AN UNFAIR COST ON LOW-INCOME CUSTOMERS. 48

VI. RATE CASES DENY LOW-INCOME OREGONIANS MEANINGFUL PARTICIPATION IN THE RATE-MAKING PROCESS AND CONFLICT WITH THE PRINCIPLES OF PROCEDURAL EQUITY AND JUSTICE. 49

1 **I. INTRODUCTION & SUMMARY**

2 **Q. Please state your names and positions with your organizations and summarize your**
3 **educational background and experience with energy regulation and proceedings before the**
4 **Oregon Public Utilities Commission (the “Commission”).**

5 A. My name is Charity Fain, and I am the Executive Director of Community Energy Project
6 (“CEP”). My name is Anahi Segovia Rodriguez, and I am the Energy Justice Coordinator at
7 Verde. My name is Nikita Daryanani, and I am the Climate & Energy Policy Manager at
8 Coalition of Communities of Color (“CCC”).¹ Our organizations are environmental justice
9 advocacy organizations. Through this testimony, we aim to provide an on-the-ground community
10 perspective for the Commission to consider in this rate case. We have participated in this forum
11 through both policy dockets, such as UM 2211, and rate cases, such as UG 435.

12 **Q. Please describe the communities you work with.**

13 A. We work with low-income, environmental justice communities that are
14 disproportionately impacted by the effects of climate change. These communities rarely have the
15 capacity or resources to adequately prepare for or recover from extreme weather events, and they
16 often experience more economic hardship in the wake of climate-related disasters. Our
17 organizations serve mainly people of color that are low-income. We emphasize reaching and
18 supporting women, people with disabilities, the elderly, and other marginalized groups with
19 disproportionately high safety and energy burdens, which compromise their ability to remain
20 housed.

¹ Witness qualification statements and resumes are included at Exhibits Coalition/301–06.

1 **Q. What is the purpose of your joint testimony and how is it organized?**

2 A. The purpose of our joint testimony is to promote energy equity by uplifting the
3 perspective of frontline communities who have little representation in contested proceedings like
4 this one. Our testimony describes how Northwest Natural’s (“NW Natural” or “the Company”)
5 requested rate increase is a disservice to low-income Oregonians because the Company’s rate
6 schedules, policies, and investments fail to integrate energy justice—this is true for the past and
7 for the newly proposed rates here. NW Natural’s proposed rate increase for residential customers
8 will exacerbate affordability issues for the lowest-income customers. As such, we encourage the
9 Commission to reject the proposed general rate revision if NW Natural makes no additional
10 accommodations for low-income customers.

11 Our testimony is organized by, first, demonstrating how NW Natural’s energy burden
12 analysis in its Low-Income Needs Assessment (“LINA”) is an incomplete assessment of the
13 most energy burdened Oregonians. Second, we explain why the Company’s requested rate
14 increase with an inadequate bill discount proposal fails to protect the lowest-income customers.
15 We also explain why NW Natural not offering an arrearage forgiveness program is both
16 imprudent and out of step with its market peers. Third, we posit that energy efficiency measures
17 are the most effective way to keep people safe, lower costs, and improve quality of life; and so,
18 NW Natural must invest heavily in energy efficiency programs and low-income weatherization.
19 Fourth, we describe how the fixed rate charge imposes an unfair cost on low-income people who
20 should not have to pay for the new increase. Finally, we identify the implications of procedural
21 inequities in rate-making proceedings to ensure meaningful participation by communities most
22 impacted by climate change.

1 **Q. Are you sponsoring any exhibits?**

2 A. Yes. We are sponsoring exhibits Coalition/301 through Coalition/315. All sponsored
3 exhibits are attached to this testimony.

4 **Q. Please summarize your recommendations for the Commission in this rate case.**

5 A. First, to advance energy justice, we recommend the Commission require NW Natural to
6 issue a thorough LINA and energy burden analysis that incorporates other income thresholds,
7 identifies high-energy efficiency potential households, and seeks to obtain more granular data on
8 NW Natural's customer base.

9 Second, to improve NW Natural's residential bill discount program, we recommend the
10 Commission require NW Natural to increase its bill discount rates for its lowest-income
11 customers, implement an arrearages forgiveness program, meet certain enrollment rates in the
12 2024-2025 Test Year, and eliminate bill discount post-enrollment verification.

13 Third, to optimize NW Natural's energy efficiency programming with an emphasis on
14 energy justice, we recommend the Commission eliminate NW Natural's ability to restrict energy
15 assistance funds to gas appliances, require NW Natural to use its built-up Oregon Low-Income
16 Energy Efficiency ("OLIEE") funds, and institute programmatic changes like electrification to
17 offer more low-income customers deep cost savings.

18 Fourth, to ensure that low-income customers are protected from the unfair cost of the
19 fixed rate charge, we recommend the Commission prohibit NW Natural from charging low-
20 income customers the fixed rate charge.

21 Finally, to ensure procedural justice is embedded into the fabric of rate cases, we
22 recommend the Commission impose structural changes to NW Natural's initial filings, require

1 Commission Staff (“Staff”) to collaborate with Community Based Organizations (“CBOs”), and
2 institute protocols that necessitate collaboration between all stakeholders in a rate case.

3 **II. NW NATURAL MUST INTEGRATE ENERGY JUSTICE INTO THIS RATE**
4 **CASE TO PROTECT ITS LOW-INCOME CUSTOMERS.**

5 **Q. Please summarize your concerns on NW Natural’s integration of energy justice in**
6 **this general rate revision.**

7 A. NW Natural’s requested rate increase reflects a failure to mitigate energy burdens for its
8 lowest-income customers in Oregon. NW Natural should align more closely with the principles
9 of energy justice by gathering more granular data about low-income households, supplementing
10 the State Median Income (“SMI”) with other income thresholds in forming its discount
11 programming, and issuing a more thorough LINA and energy burden analysis.²

12 **Q. Please define “energy burden.”**

13 A. An “energy burden” is how much a given household spends on energy (including both
14 electricity and gas) relative to the overall household income.³ This metric focuses on energy bills
15 for a home in comparison to the total income of the household. A “high” energy burden is above
16 6% and a “severe” energy burden is above 10%.⁴ Certain groups have disproportionately higher

² The term “LINA” as used in this testimony encompasses both the LINA survey responses (included as Exhibit Coalition/313, NW Natural Response to Coalition DR 113, Attachment 2), and the energy burden analysis at NW Natural/201, Tanaka/Page 1.

³ Climate Reality Project, *Climate 101: What is Energy Burden?* (Jan. 11, 2023), <https://www.climaterealityproject.org/blog/climate-101-what-energy-burden#:~:text=According%20to%20the%20US%20Department,and%20other%20home%20heating%20fuels>.

⁴ A. Drehoobl, *Lifting the High Energy Burden in America’s Largest Cities: How Energy Efficiency Can Improve Low-Income and Underserved Communities* (Apr. 20, 2016), <https://www.aceee.org/research-report/u1602>.

1 energy burdens than the median household, like Black, Latine, Indigenous, elderly (65+), renters,
2 and low-income multifamily building residents.

3 **Q. How is “energy burden” different from “energy justice”?**

4 A. “Energy burden” is a measurable metric, whereas “energy justice” refers to a broader
5 policy goal of achieving equity in social and economic participation in the energy system and
6 remediating social, economic, and health burdens on marginalized communities. In Avista
7 Utilities’ last rate revision in UG 461, we provided a thorough explanation of the energy justice
8 theoretical framework, and we incorporate that analysis here by reference.⁵

9 **Q. Please explain why energy affordability, low-income weatherization, and energy
10 justice are relevant considerations to regulating gas utility service rates.**

11 A. Oregon law requires the Commission to regulate utilities to protect the public interest by
12 setting rates that are fair, just, and reasonable.⁶ When the Commission considers issues like
13 energy affordability, low-income weatherization, and energy justice, the Commission serves the
14 public interest by setting a rate that does not leave low-income customers with unaffordable bills,
15 which is neither just nor reasonable. The terms “just” and “reasonable” cannot be determined
16 only for the average customer, the Commission must also consider differentially situated
17 customers.⁷

⁵ Opening Testimony of Benedikt Springer on behalf of the Coalition, UG 461 included as Exhibit Coalition/307.

⁶ ORS § 756.040(1).

⁷ Oregon Executive Order 20-04, Directing State Agencies to Take Actions to Reduce and Regulate Greenhouse Gas Emissions (Mar. 10, 2020) 5.B (3) and (6)(ordering the Commission to mitigate energy burdens and regulate in accordance with environmental justice principles); ORS § 757.230; State of Oregon Diversity, Equity, and Inclusion Action Plan (September 2023-2024) at 26 (noting the Commission’s role to “engage, protect, and advance benefits to

1 **Q. What role do regulators play in ensuring just outcomes in rate regulation?**

2 A. Regulators must decide how much people have to pay for using energy utility service and
3 must regulate in the public interest. Regulatory judgment requires considering energy justice
4 concerns because regulators must ensure that utilities provide safe and reliable service in a way
5 that does not contribute to energy inequity. The Commission is uniquely positioned to tackle
6 energy inequity issues because the Commission has broad discretion to regulate in the public
7 interest granted to it by statute.

8 A. Unaffordable rates contribute to the high debt accumulation in low-income
9 households, worsening their financial instability.

10 **Q. What is “energy insecurity” and how is it relevant to a household’s energy burden?**

11 A. “Energy insecurity” is the inability to adequately meet household energy needs and it is
12 relevant to energy burdens because it helps decision-makers understand the behavioral and
13 societal drivers of energy burdens and the extremes that customers who are struggling to pay
14 bills might resort to.⁸ For example, behavioral drivers of energy burdens include unsafe
15 behaviors like leaving the gas off during frigid winter months to save costs. Decision-makers
16 must understand both energy insecurity and energy burdens to ensure the rates they approve are
17 not exacerbating existing energy burdens which would drive energy insecure households to
18 resort to more unsafe measures.

vulnerable communities.”) accessible at

⁸ D. Hernandez, *Understanding ‘Energy Insecurity’ and Why It Matters to Health*, Soc Sci Med. 2016 Oct; 167: 1–10, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5114037/>.

1 **Q. How do you define “low-income” and why does that matter?**

2 A. When creating a new program, defining the income threshold determines who benefits
3 from the service.⁹ In UG 435, we provided the Commission with testimony that explains why
4 and how the income threshold is defined is relevant to low-income Oregonians and incorporate it
5 here by reference.¹⁰ To qualify for energy assistance, “low-income” in Oregon is known as
6 households that make below 60% of the SMI, or \$64,282 in Test Year 2024-2025, for a
7 household of four.¹¹

8 **Q. Please explain how energy insecurity harms low-income Oregonians.**

9 A. Energy insecurity harms low-income Oregonians by keeping them in a cycle of paying
10 for energy bills they cannot afford, leading to deep, generational debt. Because low-income
11 Oregonians are most likely to live in housing that lacks adequate weatherization and energy
12 efficiency appliances, these structural deficiencies lead to recurrent high energy costs to heat
13 homes or use other basic services.¹² This creates a cycle that prevents low-income Oregonians
14 from ever reaching self-sufficiency because costs accumulate as arrearages build up.¹³

⁹ Community Energy Project, *Defining and Verifying Low-Income Participants*,
<https://www.communityenergyproject.org/wp-content/uploads/2021/11/Self-Verification-and-Income-Levels.pdf>.

¹² D. Hernandez, *Understanding ‘Energy Insecurity’ and Why It Matters to Health*, Soc Sci Med. 2016 Oct; 167: 1–10, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5114037/>.

¹³ *Id.*

1 The cycle of unaffordable energy bills especially harms households that are just above
2 the income limits for energy assistance programs despite still having a high energy burden and
3 being energy insecure. For example, households often experience a “cliff effect” where they
4 become ineligible for safety net benefits once they gain some form of employment, but they still
5 lack the financial resources to experience full economic self-sufficiency.¹⁴

6 B. NW Natural’s LINA is inadequate and fails to comprehensively assess low-
7 income Oregonians’ needs for energy assistance programs.

8 **Q. Please summarize your concerns about NW Natural’s LINA.**

9 A. NW Natural’s LINA is an incomplete assessment and captures only a fragment of reality
10 for low-income Oregonians because it contains a small sample pool, lacks customer-specific
11 income data and fails to identify high energy efficiency potential households. NW
12 Natural can improve its LINA by 1) including a thorough energy burden analysis that uses
13 additional helpful income metrics to assess true energy burdens and 2) identifying high-
14 efficiency potential households.

15 **Q. In what ways was NW Natural’s 2022 LINA deficient and how does that affect its**
16 **survey results?**

17 A. NW Natural used the LINA to inform its energy assistance programming, but the 2022
18 LINA cannot be used for that purpose for three reasons. First, the LINA survey sample size is
19 too small. Only 307 LINA survey respondents were from Oregon.¹⁵ To put this in perspective, a
20 total of 37,000 customers are enrolled in NW Natural’s bill discount programs. The LINA
21 respondents represent less than one percent of income-qualified NW Natural customers.

¹⁴ *Id.*

¹⁵ NW Natural/201, Tanaka/Page 12.

1 As 307 is far too low of a sample size, NW Natural must invest in a comprehensive LINA that
2 reaches more customers to produce data that is truly representative of the Company's low-
3 income customers.

4 Second, the LINA relied on assumptions about low-income customers instead of actual
5 customer-specific data. NW Natural "does not gather income or household size information from
6 its customers" so the LINA could not "assess Energy Assistance eligibility at a customer
7 level."¹⁶ Instead, the LINA relied on census tract data and averaged data estimates.¹⁷ The
8 LINA's energy burden analysis was calculated based on the household's natural gas costs from
9 NW Natural's averaged customer billing data. NW Natural estimated annual energy costs
10 including average electricity costs based on building type and census block data. But low-income
11 customers often live in housing that lacks efficiency upgrades, and thus may end up paying
12 higher costs for energy. Therefore, relying on averages of customer uses across the entire
13 residential customer base likely underestimates energy burden for low-income customers.

14 Third, the LINA failed to identify high-efficiency potential households to target for
15 energy efficiency upgrades. Using a LINA to identify high-efficiency potential households at a
16 granular level is important because it enables NW Natural to readily expand its energy assistance
17 programming to households where substantial change in energy affordability can be made. The
18 LINA's three deficiencies create an opportunity for NW Natural to tailor its energy assistance
19 programming and commitment to mitigating energy burdens for customers.

¹⁶ NW Natural/201, Tanaka/Page 9.

¹⁷ NW Natural/201, Tanaka/Page 8, n.3.

1 **Q. Is there a better LINA and energy burden analysis NW Natural can look to as an**
 2 **example?**

3 A. Yes, Avista Utilities (“Avista”) published an energy burden analysis in 2022 relying on
 4 customer-level data, geocoded data, and aggregate demographic and building data.¹⁸ The
 5 qualitative difference of the end-result LINA is best reflected in a comparison between NW
 6 Natural’s 2022 LINA and Avista’s 2022 LINA:

Avista 2022 Energy Burden Analysis¹⁹	NW Natural 2022 LINA²⁰
Used customer monthly electricity bills for 36 months from its Customer Information System including bill-paid dates and customer accounts that received late payment notices.	Used “historical billing data and current NW Natural base charges and volumetric rates to calculate average natural gas bills for each customer.”
Used block group data, on top of county assessor data for Avista service counties.	Used statistical divisions of census tracts known as “block groups”
Used energy efficiency program data that identified participating accounts and installed measures, therms of savings, and funding.	Used “energy assistance program participation identifiers.” Silent on specifics.
Used customer demographics and the participation profiles for the four Community Action Agencies that serve its territory.	Estimated low-income probability for groups that included non-NW Natural customers
Used customer demographics from third party data servers like credit bureaus.	N/A
Mapped all the data from external sources to Avista’s Customer Information System dataset using customer addresses and included total household income, age of occupants, and homeownership status for over 77% of residential households.	N/A

¹⁸ Avista Utilities 2022 Energy Burden Analysis is included as Exhibit Coalition/309.

¹⁹ This information was gathered from Exhibit Coalition/309 at 6-7.

²⁰ This information was gathered from Exhibit Coalition/313, NW Natural Response to Coalition DR 113, Attachment 2 and from NW Natural/201, Tanaka/Pages 3-20.

Identified high-efficiency potential households and defined a threshold, calculated granular data such as: energy burden, gas burden, excess burden, avoided burden, assistance funding, avoided need, energy assistance need, and a Department of Energy disadvantaged community score.	N/A
--	-----

1 Avista’s precise data collection has resulted in the company acting to reach and
2 serve about 100,000 households that are eligible for its discount program but have not
3 enrolled yet.²¹ If NW Natural were to do the same, it could have substantial benefits for low-
4 income customers in Oregon because NW Natural’s service territory is much larger than
5 Avista’s.

6 C. NW Natural should incorporate additional social standards to discern how deeply
7 low-income customers feel their energy burden.

8 **Q. How could NW Natural’s approach to preparing a LINA and its energy burden**
9 **analysis be improved from an energy justice perspective?**

10 A. Income thresholds, including the SMI, are an outdated method that fail to capture the
11 complexity of everyday living for low-income people. We recommend that NW Natural should
12 also use the “Self-Sufficiency Standard” to inform its energy burden analysis and assess income
13 and expense realities faced by households lacking sufficient income to survive. The Self-
14 Sufficiency Standard is an analytical tool that can serve as a framework for that assessment and
15 should be used in future LINAs. NW Natural can then use the findings from its LINA to design

²¹ A. Zodrow, *Avista Announces Energy Discounts for Income Qualifying Applicants* (Feb. 26, 2024), https://www.khq.com/news/avista-announces-energy-discounts-for-income-qualifying-applicants/article_be081e3e-d4e5-11ee-9862-434d9aac687.html.

1 better discount programs structures that enable a household to meet their needs and eliminate
2 their energy burden.

3 **Q. What is the Self-Sufficiency Standard and why should NW Natural use it in addition**
4 **to the SMI to design low-income programs?**

5 A. The Self-Sufficiency Standard (the “Standard”) is a measure of income adequacy that is
6 based on the costs of basic needs for working families: “housing, childcare, food, health care,
7 transportation, and miscellaneous items, as well as the cost of taxes and the impact of tax
8 credits.”²² The Standard is helpful because it provides insight for the Company on the many
9 stressors on a household’s income that compete with the households’ energy burden.²³ While the
10 SMI is an important threshold, it cannot be the sole means to determine whether a low-income
11 household qualifies for energy assistance because it ignores the difficulty of competing costs for
12 a family. For example, using the SMI and the energy burden to design a bill discount program
13 completely skirts past the multiple other burdens on a family, including the housing burden and
14 transportation burden, both of which plague many of the same high-energy burden households.²⁴
15 The Standard income threshold considers those burdens and identifies an income adequacy level
16 for that family to stay afloat despite all its necessary expenses.

²⁴ J. Chiodo, *Energy Burden Is Just One Indicator of Inequality* (Aug. 17, 2016),
<https://buildingenergy.cx-associates.com/energy-burden-is-just-one-indicator-of-inequality>; see
also A. Drehobl, *Lifting the High Energy Burden in America’s Largest Cities: How Energy
Efficiency Can Improve Low-Income and Underserved Communities* (Apr. 20, 2016),
<https://www.aceee.org/research-report/u1602>.

1 The data in NW Natural’s LINA supports using the Standard as 72.20% of respondents
2 reported they spent the money they saved through discount programs on “essentials such as
3 housing, groceries transportation, etc.”²⁵ And 5.60% of respondents spent the saved money to
4 “pa[y] off debt (credit card bills, other unpaid/overdue bills).”²⁶ Most shockingly, 0.0% of
5 Oregon respondents put the saved money into savings.²⁷ That data reflects the bleak reality that
6 even when Oregonians do benefit from saving money through energy assistance programs, they
7 are still unable to simply make it past the minimum they need to survive. If NW Natural were to
8 include the Standard in its next LINA, the resulting data would better reflect the reality of low-
9 income Oregonians and their financial obligations. This, in turn, can inform and improve the
10 Company’s energy assistance programming.

11 **Q. Please summarize your recommendations for the Commission regarding how NW**
12 **Natural should integrate energy justice into its rates, LINA, and energy burden analysis.**

- 13 1. We recommend the Commission require NW Natural to identify high-efficiency potential
14 households and potential energy assistance households in its next LINA This data will
15 provide actionable data to enable NW Natural to target customers most readily available
16 for assistance and most in need.
- 17 2. We recommend the Commission encourage NW Natural to incorporate the Standard
18 along with the SMI in its next LINA. This will help NW Natural assess whether low-

²⁵ Exhibit Coalition/313, Fain-Segovia Rodriguez-Daryanani/Page 4, NW Natural Response to Coalition DR 113, Attachment 2.

²⁶ *Id.*

²⁷ *Id.*

1 income ratepayers can actually afford rising energy costs because the Standard puts the
2 energy burden in perspective with the rising costs of other burdens, goods, and services.

3 **III. NW NATURAL'S BILL DISCOUNT PROPOSAL FAILS TO PROVIDE**
4 **MEANINGFUL RELIEF TO ITS LOWEST-INCOME CUSTOMERS.**

5 **Q. Please summarize your concerns with NW Natural's residential bill discount**
6 **proposal.**

7 A. NW Natural's bill discount proposal contains tiered discount percentages that are too low
8 to result in savings for customers and the proposal lacks an arrearage forgiveness program. NW
9 Natural can improve its bill discount proposal by increasing the discount rates for its lowest-
10 income customers and offering an arrearages program. The Company should also incorporate the
11 Standard to inform low-income thresholds rather than relying only on 60% SMI, identify bill
12 assistance eligible households in its next LINA, enroll at least 75% of eligible households by the
13 end of the Test Year, increase discount awareness by at least 25% by the end of the Test Year,
14 and eliminate post-enrollment verification.

15 **Q. Why is it important to consider NW Natural's proposed changes to its bill discount**
16 **program in this rate case?**

17 A. The Commission can only allow increases in utility rates that are fair, just, and
18 reasonable.²⁸ Under ORS § 757.230(1), the Commission should consider energy burdens, and the
19 ability of low-income customers to afford the rates when setting tariffs. Whether energy
20 burdened Oregonians can afford NW Natural's proposed rate increase is directly relevant to this

²⁸ ORS § 756.040(1).

1 Commission’s duty to protect the public from unreasonable exactions for at least these three
2 reasons:

3 First, it is imperative to low-income ratepayers that the Commission ensure that, if NW
4 Natural were to get its requested rate increase, some measures are in place to protect them. One
5 in four Oregonians, or about 400,000 households, struggle to pay their energy bills each year.²⁹
6 Increasing utility rates without any protections for those households would make energy bills
7 even less affordable.

8 Second, the Commission should consider the discount program when determining the
9 fairness and reasonableness of the rate increase—specifically, would the proposed bill discount
10 program exacerbate or alleviate energy burdens considering NW Natural’s proposed rate
11 increase? Here, NW Natural’s bill discount program leaves behind the lowest-income customers
12 despite the Company requesting a nearly 18% rate increase for residential customers. If the
13 Commission approves the drastic 18% rate increase that NW Natural seeks in this proceeding for
14 residential customers, the average NW Natural customer could pay nearly 50% more on their bill
15 in 2025 than they did in 2020.³⁰

16 Third, the Commission should consider NW Natural’s bill discount program in light of
17 how NW Natural has failed to manage its risk profile. Ratepayers should not be on the hook for
18 rising costs and stranded asset risks from a company that fails to respond to a regulatory

²⁹ Oregon Energy Fund, *Combating Energy Insecurity and Racial Disparities* (May 4, 2023),
<https://www.oregonenergyfund.org/combating-energy-insecurity-and-racial-disparities/>.

³⁰ C. Schuff, *NW Natural Asks for an 18% Rate Increase for Oregon Households* (April 2, 2024),
<https://oregoncub.org/news/blog/nw-natural-asks-for-an-18-rate-increase-for-oregon-households/2970/#:~:text=With%20the%20proposed%20increase%2C%20winter,at%20the%20expense%20of%20customers.>

1 environment that requires rapidly moving towards decarbonization.³¹ This is a detriment to all
2 residential ratepayers and harms the lowest-income Oregonians the most.

3 A. Background.

4 **Q. Please describe NW Natural's current residential bill discount program.**

5 A. NW Natural's current residential bill discount offers customers who make less than 60%
6 of Oregon's SMI a tiered discount percentage on their monthly bill based on household size and
7 income.³² NW Natural categorizes households by percentage of the SMI: 0-15% (Tier 0), 16-
8 30% (Tier 1), 31-45% (Tier 2), and 46-60% SMI (Tier 3). The lowest income customers who
9 make 0-15% SMI can get up to 40% of a discount and the highest income tier making 46-60%
10 SMI can get up to 15% off.

11 **Q. What changes to the bill discount program does the Company seek to make with**
12 **this rate increase request?**

13 A. The Company's bill discount proposal contains four tiers like the current program.
14 Striving to achieve a 3% or less energy burden related to natural gas, the Company used the mid-
15 point of each SMI income category instead of the maximum income to calculate the average
16 annual bill with a discount.³³ The tiered thresholds are as follows:

- 17 • Households of 4 earning 46-60% of the SMI fall in NW Natural's bill discount proposal's
18 Tier 3 and qualify for a 15% discount.

³¹ See NW Natural/301, Wilson/Page 10; see also Opening Testimony of Brad Cebulko, Coalition Exhibit/100.

³² NW Natural/200, Tanaka/Page 15.

³³ NW Natural/200, Tanaka/Page 22, 24.

- 1 • Households of 4 earning 31-45% of the SMI fall in NW Natural’s bill discount proposal’s
2 Tier 2 and qualify for a 20% discount.
- 3 • Households of 4 earning 16-30% of the SMI fall in NW Natural’s bill discount proposal’s
4 Tier 1 and qualify for a 40% discount.
- 5 • Households of 4 earning 0-15% of the SMI fall in NW Natural’s bill discount proposal’s
6 Tier 0 and qualify for a 80% discount.
- 7 B. NW Natural must increase its bill discounts to provide meaningful assistance to
8 its lowest-income customers.

9 **Q. How is NW Natural’s bill discount proposal insufficient for the lowest-income**
10 **customers?**

11 A. NW Natural’s bill discount proposal does not make rates more affordable but simply
12 reduces the effects of rate increases on qualifying households. This is not enough. A bill discount
13 program should reduce energy burdens and make rates affordable.

14 For example, the lowest-income earners eligible for NW Natural’s bill discount program fall
15 into Tier 0 (earning 15% SMI or lower) and qualify for an 80% discount. But NW Natural’s
16 proposed bill discount will not provide them relief from their current energy burdens because, if
17 the Commission approves the rate increase, proposed gas utility rates would have increased by
18 nearly 50% in the past five years.³⁴ Thus, the proposed bill discount program would only ensure
19 that the poorest Oregonians are not harmed by the increase in rates. It would alleviate none of
20 their existing energy burdens.

³⁴ C. Schuff, *NW Natural Asks for an 18% Rate Increase for Oregon Households* (April 2, 2024), <https://oregoncub.org/news/blog/nw-natural-asks-for-an-18-rate-increase-for-oregon-households/2970/#:~:text=With%20the%20proposed%20increase%2C%20winter,at%20the%20expense%20of%20customers.>

1 This is concerning because the lowest income ratepayers face the most severe energy
2 burdens and life costs. Nearly 744,895 households in Oregon were either in poverty or just above
3 the poverty level and were thus unable to qualify for public assistance despite being unable to
4 afford the basic cost of living.³⁵ If the Commission approves the rate increase proposed here,
5 even with a bill discount program, these households would continue to contribute a considerable
6 amount of their total income toward home energy bills.

7 **Q. How can the bill discount proposal be improved for NW Natural’s lowest-income**
8 **customers?**

9 A. There are two issues with NW Natural’s bill discount program. First, it does not go far
10 enough to provide meaningful relief for low-income Oregonians. Second, it does not contain an
11 arrearage forgiveness program. NW Natural can eliminate these issues by, first, increasing
12 discount rates to 50% (from 20%) for Tier 2 customers, 70% (from 40%) for Tier 1 customers,
13 and 90% (from 80%) for Tier 0 customers and, second, instituting an arrearage forgiveness
14 program. For reference we recommend the following:

Bill Discount Proposal Tier	Tier 0	Tier 1	Tier 2
Income mid-point of tier for a household of 4	\$8,035	\$24,106	\$40,176
NW Natural’s proposal	80%	40%	20%
Our recommendation	90%	70%	50%

³⁵ T. Parafiniuk-Talesnick, *44% of Oregon Families Don’t Earn Enough to Cover Bills: 4 Things to Know* (May 1, 2023), <https://www.registerguard.com/story/news/local/2023/05/01/report-says-nearly-half-of-oregon-households-struggle-to-afford-basics/70164805007/>.

1 First, NW Natural should guarantee a 50% discount for its Tier 2 customers. Most
2 Oregon respondents to NW Natural’s LINA replied they would need a 50% discount on their
3 monthly bill to have a meaningful effect on their household finances and overall well-being.³⁶
4 But under NW Natural’s bill discount proposal, the average annual bill of a Tier 2 customer
5 would be \$899.90 after a bill discount of \$224.97.³⁷ If NW Natural offered Tier 2 customers the
6 50% discount LINA respondents needed on the average annual bill of \$1,124.87, as we
7 recommend here, Tier 2 customers would save about \$562.44 annually—nearly \$337.47 more
8 than the proposed discount amount as designed (\$224.97).³⁸ NW Natural must heed its LINA
9 findings and offer discounts its customers have identified as meaningful for them.

10 Second, NW Natural should offer a 70% discount to Tier 1 customers. NW Natural has
11 failed to design a bill discount proposal that accounts for how low Tier 1 customers’ incomes are
12 and their high savings needs. NW Natural’s LINA showed that households with less than a
13 \$30,000 annual income are likely to be energy burdened.³⁹ An average customer at the mid-point
14 of the Tier 1 income makes only \$24,106 annually.⁴⁰ However, under the Company’s bill
15 discount proposal, the average annual gas bill of a Tier I customer would be \$674.92 after a bill
16 discount of \$449.95. While every discount helps, Tier 1 customers will still have to pay over

³⁶ Exhibit Coalition/313, Fain-Segovia Rodriguez-Daryanani/Page 7, QP 8, NW Natural Response to Coalition DR 113, Attachment 2.

³⁷ NW Natural/200, Tanaka/Page 24, Table 3.

³⁸ Table 3 at NW Natural/200, Tanaka/Page 24 identifies the average annual bill amount for all tiers as \$1,124.87. Table 3 also shows the discount NW Natural offers Tier 2 customers from \$1,124.87 as 20% or \$224.97. We recommend a 50% discount on \$1,124.87, which would equal about \$562.44.

³⁹ NW Natural/200, Tanaka/Page 24.

⁴⁰ NW Natural/200, Tanaka/Page 24, Table 3.

1 \$600.00 for their gas bill—a cost much too high for Tier 1 customers given how low their mid-
2 point income is. NW Natural must scaffold its bill discount proposal to effectuate meaningful
3 savings for its Tier 1 customers by offering these customers a 70% bill discount.

4 Third, NW Natural must increase the discount from 80% to 90% for Tier 0 customers.
5 While NW Natural’s 80% discount is helpful for the lowest-income people in Tier 0, its peer
6 utilities offer greater discounts to their lowest-income customers. It is unfair for low-income
7 customers to have deeper savings merely because of where they live and who their service
8 provider is. For example, Cascade Natural Gas Oregon offers qualifying customers its Energy
9 Discount Program (“EDP”).⁴¹ Customers in Cascade’s EDP lowest SMI tiers can apply for a rate
10 discount of 90-95%.⁴² A similarly situated NW Natural customer would fall in NW Natural’s
11 Tier 0 and the maximum discount they could receive is 80% under this bill discount proposal. A
12 10-15% difference in bill amount for Oregonians that are in similar financial precarity just based
13 on which company’s service territory they live in is inherently inequitable.

14 Similarly, Avista offers a personalized bill discount program for Oregon customers with a
15 monthly energy bill discount ranging from 15-90%.⁴³ Under Schedule 493, Avista offers people
16 who earn 0-5% of Oregon’s SMI a 90% bill discount and arrearage forgiveness.⁴⁴ A similarly

discount-or](https://www.myavista.com/your-account/power-of-compassion/oregonassistance/my-energy-discount-or) (last visited Apr. 17, 2024).

⁴⁴ Avista Schedule 493, Sixth Revision Sheet 493 canceling Supplemental Fifth Revision Sheet
493, accessible at [https://www.myavista.com/-/media/myavista/content-documents/our-rates-
and-tariffs/or/or_493.pdf](https://www.myavista.com/-/media/myavista/content-documents/our-rates-and-tariffs/or/or_493.pdf).

1 situated person would fall into NW Natural's Tier 0, meaning they would only get a maximum of
2 an 80% discount under the bill discount proposal. A 10% discount is a considerable difference in
3 affordability for people who are in the lowest-income SMI category. This difference turns on
4 which service territory and provider the customer has, but discounts should be consistent across
5 service territories. NW Natural's bill discount proposal fails low-income people in comparison to
6 its peer utilities and should increase its discounts to 50% for Tier 2 customers, 70% for Tier 1
7 customers, and 90% for its lowest-income customers in Tier 0.

8 C. NW Natural should institute an arrearage forgiveness program to lessen the
9 burden on its lowest-income customers.

10 **Q. How does NW Natural stack up to its Oregon peer utilities on customer arrearages?**

11 A. NW Natural falls behind both Cascade and Avista regarding energy justice because both
12 utilities offer an arrearage forgiveness program and bill discounts for their lowest-income
13 customers. For example, a Cascade customer in Oregon that makes 15% of the SMI or less can
14 receive up to 95% of their past due bills paid *and* a bill discount rate of up to 90%.⁴⁵ Similarly,
15 an Avista customer in Oregon that makes up to 20% of the SMI can enroll in an arrearage
16 forgiveness program *and* receive a discount rate from 60% to 90% depending on how low their
17 income is. This customer can also have up to \$1,000 of their past-due bills forgiven or \$1,500 if
18 they have been enrolled in energy assistance programs.⁴⁶ NW Natural, on the other hand,

⁴⁵ See Cascade Oregon Low Income Bill Assistance accessible at https://www.cngc.com/customer-service/low-income_assistance_programs/#oregon (last visited Apr. 17, 2024).

⁴⁶ See Avista Residential Debt Relief Program Schedule 473, Second Substitute Original Sheet 473 accessible at https://www.myavista.com/-/media/myavista/content-documents/our-rates-and-tariffs/or/or_473.pdf.

1 currently offers no arrearage forgiveness program at all.⁴⁷ NW Natural can and should match its
2 peer utilities in making meaningful accommodations for low-income customers that do not
3 contribute to their existing debt.

4 **Q. How does an arrearage forgiveness program mitigate energy insecurity?**

5 A. Bill assistance programs lessen bills and optimize affordability, but an arrearages
6 forgiveness program offers debt forgiveness. If a household's current bills are not affordable,
7 there is a strong likelihood that arrears will simply re-accrue after balances are forgiven and the
8 energy insecurity cycle will repeat itself. The household might receive necessary in-the-moment
9 assistance, but it still needs long-term solutions for energy affordability. Thus, NW Natural
10 should design an arrearage forgiveness program on top of permanently lessening overall bill
11 amounts for low-income customers to reduce the energy burden felt by its lowest-income
12 customers now and in the future.

13 D. NW Natural must prioritize identifying and targeting bill assistance-eligible
14 households to get them the discounts to which they are entitled.

15 **Q. Is offering an increased discount enough to ensure low-income ratepayers are**
16 **protected from rate increases like the one in this case?**

17 A. No, NW Natural must not only increase the discounts it offers but also ensure that the
18 households eligible for them are aware of and enrolled in them. Doing one without the other
19 leaves customers stranded with either unaffordable bills despite being enrolled in the bill
20 discount program or knowledge about the program but no path to enrollment.

⁴⁷ Exhibit Coalition/315, NW Natural Response to Coalition DR 103.

1 **Q. What are the consequences of under-enrollment in NW Natural’s bill discount**
2 **program?**

3 A. NW Natural customers who are eligible but not enrolled in the bill discount program
4 might be at risk of disconnection or may forgo other expenses, like food and medicine, to pay for
5 their gas bill. Many times, because of how difficult it is to pay utility bills, some families turn to
6 the behavioral drivers of energy burdens to cut costs, such as going without medical or dental
7 care, closing off part of their home, keeping their home at a temperature they felt was unsafe or
8 unhealthy, or leaving their home for part of the day.

9 **Q. Is the under-enrollment of eligible ratepayers in NW Natural’s bill discount**
10 **program the fault of the customer?**

11 A. No, low-income ratepayers often struggle to enroll in assistance programs because living
12 in poverty requires balancing multiple jobs, family members, and competing unaffordable bills;
13 all of which impose a significant tax on cognitive capacity and time.⁴⁸ Households in poverty
14 must overcome several hurdles to access discount programs: they need to know about the
15 program, they need to assess whether it might help them, and they need to actually enroll, which
16 means completing the documentation requirements that come with it. Trust is also a difficult
17 issue since low-income households are a frequent target of scams and might have experienced
18 disappointment from assistance providers in the past.⁴⁹ And contradictory or unclear information

⁴⁸ Annie Lowrey, 2021, *The Time Tax*, The Atlantic, <https://www.theatlantic.com/politics/archive/2021/07/how-government-learned-waste-your-time-tax/619568/>.

⁴⁹ For example: KKTU, 2022, *Experts Warn About Scams Targeting Public Housing Seekers*, <https://www.kktv.com/2022/09/14/experts-warn-about-scams-targeting-public-housing-seekers/>; or Wendi Gosliner et al., 2020, *Participants’ Experiences of the 2018–2019 Government*

1 about where assistance funds come from, how they are disbursed, and at what time, contribute to
2 an overall lack of transparency.⁵⁰ Additionally, fragmented programs and complex rules with
3 fine print make it hard to know whether one is eligible for a program and understand what the
4 anticipated benefits are. Given the time and cognitive constraints these households face, low
5 enrollment is not surprising.⁵¹

6 According to NW Natural's survey data, 75% of Oregonian respondents had not heard of
7 the Company's bill discount program or its OLIEE program.⁵² This is unacceptable. It reveals
8 that NW Natural has not spent sufficient resources on successfully advertising its bill discount
9 program to the public. NW Natural claims to want to increase enrollment in its bill discount
10 program but has failed to use its own survey data to effectively advertise the program to
11 ratepayers. According to the Company's survey data, 58% Oregonian respondents replied the
12 "best way" for NW Natural to inform them about energy assistance would be "personal email"
13 and 30.30% responded that "an insert in my bill/in the newsletter that accompanies my bill"
14 would reach them.⁵³ Yet NW Natural only advertised its bill discount program in twice in its bill

Shutdown and Subsequent Supplemental Nutrition Assistance Program (SNAP) Benefit
Disruption Can Inform Future Policy," *Nutrients*, Volume 12 (6),
<https://www.ncbi.nlm.nih.gov/pmc/articles/PMC7353319/>.

⁵⁰ For example, in Exhibit Coalition/312, NW Natural Response to Coalition DR 107, the
Company states the Gas Assistance Program does not solicit nor receive state funding. However,
at NW Natural/200, Tanaka/Page 15, the testimony states that the Gas Assistance Program
"receives funds through state funding grants."

⁵¹ E. Nesterak, 2013, *The Cognitive Burden of Poverty*, Behavioral Scientist,
<https://behavioralscientist.org/the-cognitive-burden-of-poverty/>.

⁵² Exhibit Coalition/313, Fain-Segovia Rodriguez-Daryanani/Page 4, NW Natural Response to
Coalition DR 113, Attachment 2.

⁵³ *Id.* at Page 8.

1 insert communications during the Test Year and only in English.⁵⁴ While NW Natural did
2 publish radio ads on the bill discount program, its own survey found that less than 1% of
3 respondents cited “radio advertisements” as an effective communication method.⁵⁵ The
4 Company is using ratepayer dollars to create advertising campaigns that its own LINA shows
5 does not work.

6 Moreover, NW Natural plans to invest substantial money in targeting Spanish, Russian,
7 and Chinese speakers through its multi-language media proposal.⁵⁶ The Company has no reason
8 to target non-English speaking audiences specifically because survey data shows radio and TV
9 advertisements are not effective for increasing bill discount program awareness, as evidenced by
10 responses to the LINA. NW Natural failed to show how targeting customers based on race,
11 ethnicity, and spoken language using mediums that do not reach those populations aligns with its
12 goal of increasing discount program awareness.

13 Accordingly, without changes to NW Natural’s residential bill discount proposal’s
14 thresholds and discount amounts, and without changes to NW Natural’s strategy to get the word
15 out about its residential bill assistance program, we do not foresee a material change in
16 environmental justice communities’ bill assistance awareness nor payment ability.

17 E. Post-enrollment verification deters low-income households from getting the
18 assistance they need.

19 **Q. What is post-enrollment verification?**

⁵⁴ Exhibit Coalition/311, NW Natural Response to Coalition DR 37, Attachment 7.

⁵⁵ Exhibit Coalition/313, Fain-Segovia Rodriguez-Daryanani/Page 8, NW Natural Response to Coalition DR 113, Attachment 2.

⁵⁶ NW Natural/1101, Beck/Page 2, 20.

1 A. Post-enrollment verification is a process by which low-income customers verify that they
2 are getting the discount that is appropriate for their income bracket and that they are eligible to
3 receive energy assistance.

4 **Q. How does NW Natural currently conduct post-enrollment verification?**

5 A. NW Natural audits program participants on a randomized basis and requires bill discount
6 renewal every two years.⁵⁷ The Company's post-enrollment verification audit sampling includes
7 a showing of proof of household size and income. NW Natural suspends bill discounts for
8 customers who are either ineligible or non-responsive during post-enrollment audits. If
9 customers can provide verification of eligibility, they may re-apply for the bill discount program.

10 **Q. Are there any equity concerns with post-enrollment verification?**

11 A. Yes. We have two key issues with post-enrollment verification. First, the verification
12 process impedes accessing bill assistance for low-income customers who might not have income
13 verification forms readily available. This is a commonality as low-income households typically
14 have fluctuating income that is not on a predictable pay period schedule. Second, customers may
15 not understand why they are being audited, why the process is so invasive, and the consequences
16 of not participating. This sort of scrutiny can add to the distrust between a utility and its
17 customers. For example, post-enrollment verification requires a customer to prove that they are
18 indeed a low-income customer and verify who lives with them. These questions promote feelings
19 of shame and can lead to low-income people's reluctance to access the discounts to which they
20 are entitled.

⁵⁷ NW Natural/1717, Walker/Page 29.

1 Further, cutting off access to bill discount benefits is too harsh a penalty for a customer
2 who does not respond to verification requests from the Company. It is unsurprising that
3 customers can be non-responsive for many reasons. For example, NW Natural sends many
4 mailers and bill inserts. Customers afraid of scams will likely ignore a request asking for
5 personal information over the phone or through mail, especially when it is about money. Also,
6 customers can easily miss the income verification request, or accidentally throw it out, assuming
7 it was junk. These customer behaviors are predictable and NW Natural should account for them
8 rather than penalize low-income customers. Cutting people off from program enrollment because
9 they did not respond to a request from the Company denies these customers access to the bill
10 discount program without any proof that they are not qualified to receive this benefit.

11 Moreover, NW Natural should allow customers found to be ineligible but can later verify
12 their eligibility to simply resume their bill discount benefits. Instead, NW Natural puts the onus
13 on the customer to *re-apply* for the bill discount program after being found ineligible and
14 subsequently verifying eligibility. This is a logistical burden without purpose because the
15 customer has already completed the bill discount application process and the Company has that
16 on record. Where NW Natural can reduce administrative obstacles to getting low-income people
17 the discounts they need, it should.

18 **Q. How can NW Natural center customer convenience and building trust with its**
19 **customers regarding post-enrollment verification?**

20 A. NW Natural should eliminate post-enrollment verification entirely. The Company's
21 practice of doing so puts low-income households at risk of severe financial constraint because
22 low-income customers lose their much-needed discounts if they miss their audit. The logistical
23 burden of income verification carries a steep price that is unwarranted. NW Natural's concerns

1 of fraud and dishonesty do not outweigh the risk of eliminating assistance—even for a short time
2 while awaiting verification—for a low-income household.⁵⁸ This is especially the case when NW
3 Natural has documented extensive under-enrollment in its bill discount program.

4 **Q. Please summarize your recommendations regarding NW Natural’s residential bill**
5 **discount proposal.**

6 A. We have nine recommendations:

- 7 1. We recommend the Commission require NW Natural to match its peer utilities and
8 increase its bill discounts to: 90% for Tier 0 customers, 70% for its Tier 1 customers, and
9 to 50% for its Tier 2 customers.
- 10 2. We recommend the Commission require NW Natural to offer an arrearage forgiveness
11 program to Tier 0 customers on par with its peer utilities.
- 12 3. We recommend the Commission encourage NW Natural to complement its use of the
13 SMI index with the Standard moving forward for a more realistic indicator of customer
14 financial demands.
- 15 4. We recommend the Commission require NW Natural to identify bill assistance eligibility
16 households in its next LINA and energy burden analysis, and target those households for
17 enrollment.
- 18 5. We recommend the Commission require NW Natural to reach enrollment of at least 75%
19 of bill assistance eligible households in the Company’s service area in the Test Year.

⁵⁸ See Exhibit Coalition/307 at 33-34.

- 1 6. We recommend the Commission require NW Natural to prepare a communication
2 strategy to advertise its bill discount program that will increase customer recognition of
3 the program by at least 25% by the end of the Test Year.
- 4 7. We recommend the Commission require NW Natural to eliminate post-enrollment
5 verification for its bill discount program.
- 6 8. We recommend the Commission prohibit NW Natural from suspending bill discounts for
7 low-income customers pending income verification.
- 8 9. We recommend the Commission prohibit NW Natural from making customers re-apply
9 for the bill discount program after they verify their income and eligibility.

10 **IV. INVESTING IN ENERGY EFFICIENCY MEASURES AND PRIORITIZING**
11 **LOW-INCOME WEATHERIZATION IS THE BEST WAY TO ELIMINATE**
12 **RATEPAYER ENERGY BURDENS.**

13 **Q. Please summarize your concerns about NW Natural’s energy efficiency**
14 **programming.**

15 A. We are concerned that NW Natural is underspending its OLIEE program funds and is
16 denying ratepayers the opportunity to achieve deep cost savings through energy efficiency
17 opportunities. This inadequate spending results from funding restrictions on the program that
18 prevent Community Action Program Agencies (“CAP Agencies”) from effectively weatherizing
19 homes. It also results from NW Natural’s failure to advertise and communicate with the public
20 about its OLIEE program.

21 **Q. Please summarize your recommendations regarding the OLIEE program.**

22 A. We recommend the Commission require NW Natural to increase spending for its OLIEE
23 program. We recommend that the Commission eliminate per-home restrictions on funding that
24 prevent CAP Agencies from providing the full suite of weatherization and energy efficiency

1 upgrades a home may need. We also recommend allowing the use of OLIEE program funds for
2 electrification upgrades to ensure low-income customers are not left behind in the push for
3 decarbonization and a transition away from gas utility service. To ensure participation by
4 environmental justice groups, we recommend the Commission prohibit making changes to its
5 OLIEE program through tariff filings. Instead, the Company should make these changes in a rate
6 case. Lastly, we recommend requiring NW Natural to prepare a communications plan and
7 advertise to ratepayers about how to participate in its OLIEE program.

8 A. Background

9 **Q. Why does it matter that low-income communities in Oregon have energy efficient**
10 **homes?**

11 A. In the environmental justice communities our members work and live in, energy efficient
12 homes cut costs, decrease health adverse outcomes, improve comfort and quality of life overall,
13 and reduce reliance on fossil fuel infrastructure. In UG 435, we provided detailed testimony on
14 the importance and benefits of low-income weatherization and energy efficiency upgrades to (i)
15 reduce energy burden (ii) improve quality of life and alleviate poverty, and (iii) promote climate
16 resilience for low-income homes to reduce their vulnerability to temperature extremes in a
17 changing climate. We incorporate that analysis here by reference.⁵⁹

18 **Q. What gives the Commission authority to consider weatherization and energy**
19 **efficiency measures in this rate case and why are they important?**

⁵⁹ See Exhibit Coalition/308.

1 A. We are not lawyers and offer this information for context only.

2 In E.O. 20-04, the Governor tasked the Commission with considering energy burdens.⁶⁰

3 The Commission must consider energy burdens on low-income communities when setting
4 rates.⁶¹ Further, the Oregon Legislature specifically authorized the Commission to mitigate
5 energy burdens through weatherization:

6 In addition to comprehensive classifications, tariff schedules, rates and bill
7 credits, the Public Utility Commission may address the mitigation of energy
8 burdens through bill reduction measures or programs that may include, but
9 need not be limited to, demand response or weatherization.⁶²

10 **Q. Please describe NW Natural's OLIEE program.**

11 A. The OLIEE program invests in weatherization and energy efficiency upgrades for low-
12 income customers. Low-income customers often cannot afford energy efficiency or
13 weatherization upgrades to their homes, even when rebates or incentives are offered. For that
14 reason, the OLIEE program fully funds these upgrades for qualifying low-income ratepayers. On
15 top of paying for weatherization and appliance upgrades, OLIEE program funds may be used for
16 incidental home repair. These are home repairs that are necessary to install weatherization and
17 appliance upgrades.

18 To qualify for benefits under the OLIEE program, households must meet the following
19 requirements: (1) have a gas service line installed in the home, (2) the primary space heating

⁶⁰ Oregon Executive Order 20-04, Directing State Agencies to Take Actions to Reduce and Regulate Greenhouse Gas Emissions (Mar. 10, 2020) at 8.

⁶¹ ORS § 757.230.

⁶² ORS § 757.695.

1 equipment is powered by gas, and (3) the premises currently has or will have an active account
2 with NW Natural.

3 NW Natural administers the OLIEE program by disbursing funds from the program
4 through either the Community Action Program (“CAP”) or the Open Solicitation Program.
5 Under the CAP, NW Natural funds qualified CAP Agencies to perform home energy efficiency
6 evaluations and home weatherization services for low-income ratepayers. NW Natural then
7 reimburses those agencies for costs up to a certain amount.

8 Under the Open Solicitation Program, NW Natural invites “proposals that include
9 projects for new affordable housing, existing retrofit opportunities, and owner-occupied or rental
10 dwellings.”⁶³ The company may allocate program funds to a project when it determines a
11 proposal would increase the number of households being served by the OLIEE program.

12 **Q. What weatherization and energy efficiency upgrades are allowed using OLIEE**
13 **program funds?**

14 A. OLIEE Program funds may be used for “qualifying energy efficiency measures.”⁶⁴
15 Efficient appliance and weatherization upgrades are allowed only if a home energy audit
16 determines that installation would be cost effective. However, certain measures are exempt from
17 this cost-effectiveness test, including: replacement of non-functioning or red-tagged heating
18 equipment with a high efficiency gas furnace, installing smart thermostats, attic insulation and
19 wall insulation, and other measures identified as cost effective by third party organizations like
20 the Energy Trust of Oregon, and measures deemed cost-effective by the Department of Energy.

⁶³ NW Natural, Schedule 320, Third Revision of Sheet 320-1.

⁶⁴ *Id.*

1 **Q. What changes were made to the OLIEE program through settlement in NW**
2 **Natural's last rate case?**

3 A. Through settlement, the parties agreed to increase the total amount of funding per
4 dwelling by \$4,000.⁶⁵ Of this \$4,000, a significant portion must be allocated to health and safety
5 repairs. The original tariff for Schedule 320 only allowed CAP agencies to recover \$1,000 for
6 health and safety repair costs. The settlement agreement more than doubled that amount
7 requiring at least an additional \$1,500 funds available per home for health and safety repair
8 costs—for total of \$2,500 per home.⁶⁶ The settlement exempted smart thermostats, wall
9 insulation, and attic insulation from the cost effectiveness test. And, lastly, the settlement limited
10 installation of gas furnaces in some cases.⁶⁷ The Commission approved the changes to the
11 OLIEE program when it approved the settlement in the Second Stipulation.⁶⁸

12 **Q. How have the above-described changes required by the settlement improved**
13 **implementation of the OLIEE program?**

14 A. According to NW Natural/200, Direct Testimony of Cecelia J. Tanaka, changes to the
15 OLIEE Program achieved through settlement substantially increased program spending by
16 \$400,000, most of which was spent on health and safety repairs.⁶⁹ However, installation of

⁶⁵ Exhibit Coalition/310, Fain-Segovia Rodriguez-Daryanani/Page 6, Consolidated UG 435 and UG 411 Second Partial Stipulation.

⁶⁶ *Id.*

⁶⁷ *Id.*

⁶⁸ Commission Order No. 22-388, First Partial Stipulation Adopted Subject to Modification; Second and Third Partial Stipulations Adopted; Application for General Rate Revision Approved as Revised, UG 435, <https://apps.puc.state.or.us/orders/2022ords/22-388.pdf>.

⁶⁹ NW Natural/200, Tanaka/Page 25-26.

1 weatherization measures largely remained the same.⁷⁰ The number of jobs involving attic and
2 wall insulations appear to remain largely the same between the 2020-2021 Test Year, and the
3 2022-2023 Test Year.⁷¹

4 B. NW Natural should maximize spending for its OLIEE program.

5 **Q. Why is investing in low-income energy efficiency and weatherization a win-win for**
6 **all ratepayers?**

7 A. Low-income weatherization and energy efficiency programs reduce energy costs for low-
8 income households by reducing energy usage. As the company acknowledges, this relieves
9 energy burden for ratepayers.⁷² These upgrades can also significantly reduce NW Natural's
10 systemwide greenhouse gas emissions. A study prepared by the Commission, the Oregon
11 Department of Energy, and the Oregon Housing and Community Services found that investing in
12 weatherization and energy efficiency in low-income homes would reduce greenhouse gas
13 emissions by 396,000 metric tons of CO₂eq annually and would cumulatively save low-income
14 rate payers \$114 million annually.⁷³ While these estimates are for statewide emissions and
15 energy savings, they highlight the tremendous win-win benefits of investing in low-income
16 weatherization.

⁷⁰ NW Natural Oregon Low-Income Energy Efficiency Program (OLIEE) Annual Report (2022-2023 Program Year), December 28, 2023, at 4, <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq325867054.pdf>. (“OLIEE Program Report”).

⁷¹ *Compare* Exhibit Coalition/308, Fain-Segovia Rodriguez-Daryanani/Page 27 with OLIEE Program Report at 4.

⁷² NW Natural/200, Tanaka/Page 21-22.

⁷³ S. Beaulieu, et al., *Ten-Year Plan: Reducing the Energy Burden in Oregon's Affordable Housing*, Or. Dept of Energy, Or. PUC, and Or. Housing & Community Services Dep't, Page iii, <https://www.oregon.gov/energy/Get-Involved/Documents/2018-BEEWG-Ten-Year-Plan-Energy-Burden.pdf>.

1 **Q. Are low-income people accessing the OLIEE energy efficiency programming?**

2 A. No, NW Natural has chronically underspent its OLIEE funds and denied low-income
3 ratepayers deep cost savings through energy efficiency measures. The OLIEE program received
4 \$15,461,226.87 in revenue in the 2022-2023 Program Year, but NW Natural only expensed
5 \$3,878,048.00, resulting in a carryover of \$11,583,178.87—nearly three times the annual budget
6 for the program.⁷⁴ Put another way, NW Natural expensed only one-fourth of the OLIEE
7 program's revenue despite many low-income households needing weatherization and other
8 energy efficiency measures. This is unacceptable and NW Natural must seriously expand its
9 OLIEE program's reach.

10 **Q. Please describe recent changes to funding for the OLIEE program.**

11 A. NW Natural has cut funding completely for its OLIEE program. Under Schedule 301,
12 NW Natural historically imposed a public purpose charge on all residential and commercial gas
13 utility customers to pay for low-income weatherization programs, and energy efficiency
14 programs thereby funding the OLIEE program with ratepayer dollars. However, in its most
15 revision to Schedule 301 that went into effect on January 1st, 2024, the Company eliminated the
16 public purpose charge funding for the OLIEE program.⁷⁵

17 According to an advice filing that NW Natural submitted to the Commission a month
18 before filing this rate case, NW Natural has underspent its funding for the OLIEE Program, and
19 the program is fully funded. Accordingly, NW Natural paused collecting OLIEE funding from

⁷⁴ OLIEE Program Report (December 28, 2023) at 6,
<https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq325867054.pdf>.

⁷⁵ NW Natural Schedule 301, Eleventh Revision, Sheet 301-1.

1 ratepayers “due to a build-up of the balance in the OLIEE account.”⁷⁶ NW Natural states it will
2 monitor the balance for the OLIEE program and restart collection when needed.⁷⁷ NW Natural
3 should spend OLIEE program funding instead of cutting its revenue source.

4 **Q. What changes do you recommend making to the CAP portion of the OLIEE**
5 **program to increase spending?**

6 A. For the CAP program, we recommend changing per-home restrictions on funding to
7 maximize investment in energy efficiency upgrades for low-income ratepayers. Eliminating
8 restrictions on funding per-home will ensure that low-income ratepayers receive the greatest
9 benefit from the OLIEE program, and it will provide CAP agencies with more flexibility in how
10 they administer the program—hopefully resulting in a more comprehensive investment in low-
11 income weatherization services.

12 **Q. What are the current restrictions on spending per home?**

13 A. As described in the most recent OLIEE report, expenditure per home is limited as
14 follows:⁷⁸

Per Project Reimbursement Caps

Expense category	Cap
Max per dwelling	\$21,600
Weatherization Only	10,000
Heating Equipment Only	5,000
Administration per dwelling	1,600
Health, Safety and Repairs per dwelling	1,000
Flexible Spending (EE Measures, H/S/R, Admin)	4,000
Reimbursement per dwelling	21,600

⁷⁶ ADV 1562, NW Natural Advice No. 23-25 (Nov. 16, 2023) at 2, accessible at <https://edocs.puc.state.or.us/efdocs/UAA/uaa10214.pdf>.

⁷⁷ *Id.*

⁷⁸ OLIEE Program Report at 4.

1 **Q. How would you recommend changing these per-home funding restrictions?**

2 A. We recommend eliminating the restrictions on per home funding of \$21,600 altogether
3 and eliminating the restriction of \$10,000 on weatherization upgrades. The OLIEE program
4 already contains restrictions to ensure that investments in weatherization and energy efficiency
5 upgrades are cost effective. Specifically, as described above, certain upgrades are already
6 considered cost effective, e.g., wall insulation and attic insulation, and other upgrades are
7 allowed only if they satisfy the cost-effectiveness test. Creating financial limits on spending per
8 home actually prevents CAP Agencies from making cost effective weatherization improvements
9 to a home if doing so would exceed the per-home project cap. Eliminating these per home
10 financial restrictions will give CAP Agencies more flexibility to perform weatherization
11 upgrades that a home needs.

12 We also recommend increasing the limit for health and safety repairs to \$10,000. Health
13 and safety repairs are often the critical repairs needed before weatherization improvements can
14 be made. For example, contractors cannot provide attic insulation if a roof has holes in it.
15 Providing wall insulation, or upgrading energy efficiency appliances, can require upgrades to a
16 home's electrical system. These measures are often expensive, and without them, weatherization
17 improvements cannot be made. If costs for these health and safety measures are not included in
18 the budget for a home, it may mean critical upgrades to a home cannot be performed. Given the
19 substantial budget available for the OLIEE program, we recommend investing in these repairs to
20 ensure all cost-effective weatherization upgrades can be made to a home.

1 **Q. How can NW Natural improve its efforts at targeting low-income customers with a**
2 **high potential for energy savings from efficiency and weatherization upgrades from an**
3 **energy justice perspective?**

4 A. As recommended above, in its LINA the Company should identify low-income customers
5 with a high potential for energy savings through weatherization and energy efficiency upgrades.
6 It should then target those customers for upgrades through its OLIEE program funding.

7 The CAP Agencies provide weatherization upgrades through the OLIEE program only if
8 one of their clients is a NW Natural customer. CAP agencies do not target specific individuals
9 for weatherization upgrades, and often have long waitlists for service, making it hard to conduct
10 this type of targeted outreach.⁷⁹

11 Rather than placing this burden on CAP Agencies to perform targeted outreach to
12 customers with a high potential for energy savings, NW Natural should itself proactively target
13 these customers and connect them directly with the CAP Agencies in their region that can
14 perform the upgrades to their homes. Targeting these customers for weatherization program
15 funding would not only reduce energy burden for these ratepayers but would also help to achieve
16 NW Natural's decarbonization targets by reducing gas consumption. We note in the Testimony
17 of Nora Apter and Meredith Connolly that NW Natural has inappropriately used its Category A
18 budget to engage in promotional advertising.⁸⁰ However, reaching out to ratepayers about how to
19 access the company's OLIEE program is not promotional advertising, but exactly the type of
20 informational advertising the Company should publish.

⁷⁹ Exhibit Coalition/307, Fain-Segovia Rodriguez-Daryanani/Page 41.

⁸⁰ See Exhibit Coalition/200.

1 To be successful, the Company must run its OLIEE CAP as a larger-scale program with
2 measurable goals, rather than weatherizing homes only when community action clients happen to
3 be NW Natural customers. Further, changes to per-home funding should help encourage
4 investment rather than prohibit cost-effective weatherization investments that may exceed the
5 per-home budget.

6 **Q. How would you recommend changing NW Natural’s administration of the OLIEE’s**
7 **Open Solicitation Program?**

8 A. We recommend the Commission eliminate NW Natural’s discretion in choosing which
9 project proposals receive Open Solicitation Program funding and require the Company to spend
10 designated funds on the program. According to the Company’s testimony, the program has
11 “delivered 2.8 million in energy efficiency and weatherization funding and served roughly 630
12 low-income households and families.”⁸¹ On average, that is about \$4,400 per household, but our
13 on-the-ground experience leads us to believe that key energy efficiency repairs can cost upwards
14 of \$10,000. We therefore recommend the Commission eliminate the Company’s discretion to
15 grant OLIEE funds to Open Solicitation Project proponents and instead require the Company to
16 spend at least \$2.5 million on the program in the Test Year. By guaranteeing a portion of funds
17 to the Open Solicitation Project, project proponents and possible delivery channels who might
18 otherwise not have the funds can offer cost-effective projects that provide energy efficiency
19 assistance to more low-income households.

⁸¹ NW Natural/201, Tanaka/Page 27.

1 **Q. How would you recommend improving NW Natural’s outreach about the OLIEE**
2 **Program?**

3 A. We recommend the Commission require NW Natural to prepare a communications plan
4 to improve ratepayer understanding of how to access its OLIEE program. Currently, NW Natural
5 does not perform any outreach to the public regarding its OLIEE program. All outreach for its
6 OLIEE program is performed by CAP Agencies through participation in community events.⁸² As
7 result, very few low-income ratepayers know about the OLIEE program. According to NW
8 Natural’s LINA, only 25% of participants had heard of its OLIEE program even though most
9 stated they would want to participate in and would benefit from the program.⁸³

10 We recommend the Commission require NW Natural to develop a communications plan
11 to increase ratepayer knowledge of its OLIEE program to 75%. This plan should require NW
12 Natural to communicate to ratepayers about how to access OLIEE program funds through their
13 local CAP Agency. Further, since the LINA identified bill inserts and e-newsletters as the most
14 effective means of communicating to low-income ratepayers, these communications tools should
15 advertise the OLIEE program.

16 C. The Commission should require NW Natural to use OLIEE funds to allow low-
17 income ratepayers to choose electrification.

18 **Q. How will fuel switching from gas to electric utility service reduce energy burdens**
19 **and make homes more climate resilient for Oregonians?**

⁸² NW Natural/200, Tanaka/Page 26-28.

⁸³ Exhibit Coalition/313, Fain-Segovia Rodriguez-Daryanani/Page 4, NW Natural Response to Coalition DR 113, Attachment 2.

1 A. In UG 435, we provided extensive testimony about the need to provide resources for low-
2 income ratepayers to transition away from gas utility service through electrification of their
3 home energy use. We incorporate that testimony by reference here.⁸⁴ Electrification can lower
4 operating costs for households, reduce indoor air pollution, make homes less vulnerable to
5 temperature extremes brought on by climate change, and enable states to eliminate carbon
6 pollution and meet their emissions goals. NW Natural can positively contribute to the benefits of
7 electrification by spending its built-up OLIEE funds on electrification measures for low-income
8 customers.

9 **Q. Why is this rate case the perfect time to start using OLIEE funds to electrify homes?**

10 A. NW Natural should use OLIEE funds to electrify homes for three reasons; first,
11 electrification can unlock deep cost savings for families and create added comfort through both
12 heating and cooling upgrades available from heat pumps. Second, electrification both promotes
13 energy equity for low-income and other marginalized communities and reduces NW Natural's
14 greenhouse gas emissions. Third, NW Natural has a large, accrued balance for its OLIEE
15 program, and can afford to pay for electrification upgrades for low-income customers.

16 First, the Commission should require NW Natural to increase investments in
17 electrification because they help unlock deep cost savings for low-income families. According to
18 data from the U.S. Census Bureau's American Housing Survey, there are around 35 million low-
19 income U.S. households that could save a combined \$15 billion per year on their energy bills if

⁸⁴ See Exhibit Coalition/308.

1 they were using new, efficient electric space and water heaters.⁸⁵ These home upgrades would
2 help provide long-term energy affordability for families and reduce their need for energy
3 assistance, which could in turn stretch program dollars to assist more low-income households in
4 need.

5 Second, low-income households have been left behind by advances in electrification
6 because of systemic exclusion and inaccessibility. Affluent households are seizing electric space
7 and water heating benefits and rapidly electrifying their homes.⁸⁶ Lower income households,
8 however, are not because they cannot afford the higher upfront costs of electric space and water
9 heater installation.⁸⁷ As the number of electrified households increases, the fixed connection
10 costs of gas utility service will rise as utilities are forced to increase costs to prevent financial
11 losses due to their eroding customer base. Lower income homeowners and renters, unable to
12 afford to leave the fossil gas system, will be left to bear the burden of these higher system costs.

13 Lastly, the OLIEE program provides the perfect opportunity to electrify low-income
14 ratepayers. The OLIEE program provides funding to upgrade heating appliances. Currently, the
15 program and requires replacement of non-functioning or red-tagged heating equipment with a

⁸⁵ T. Higgins, A. M., Matusiak, A., Calisch, S., & Lai, D, *To Decarbonize Households, America Needs Incentives for Electric Appliances*, Center for American Progress, (June 3, 2021), <https://www.americanprogress.org/issues/green/reports/2021/06/03/500084/decarbonize-households-america-needs-incentives-electric-appliances/>.

⁸⁷ J. Smith, *How States Can Equitably Deliver Home Electrification Rebates*, Center for American Progress (Nov. 3, 2023), <https://www.americanprogress.org/article/how-states-can-equitably-deliver-home-electrification-rebates/>.

1 high efficiency gas furnace.⁸⁸ But “[e]very time a gas furnace breaks and is not replaced with an
2 electric heat pump, that home loses the chance to be all electric for another two decades.”⁸⁹ More
3 than 25% of NW Natural’s LINA Survey respondents have heating systems that are near the end
4 of their useful life.⁹⁰ Therefore, it makes little sense to install gas furnace for low-income
5 customers that would lock them into another 15-year cycle of gas dependency. Accordingly, we
6 recommend that the Commission amend the OLIEE program to permit electrification of home
7 heating appliances if the customer desires.

8 **Q. Why is it important for the Commission to require that low-income ratepayers can**
9 **use OLIEE program funds to electrify their homes?**

10 A. Community organizations face restrictions that prevent them from electrifying home
11 energy uses for low-income customers, because programs that invest in weatherization, like the
12 OLIEE program, restrict that funding according to existing fuel use. In just one example, funding
13 for one of CEP’s programs will only allow us to install high-efficiency electric heat pump water
14 heaters in homes where the existing water heater is also electric. CEP is thus unable to help the
15 60% of clients we serve in Portland who currently have gas water heaters—leaving energy
16 savings and substantial carbon emissions reductions on the table for NW Natural to act on. These

⁸⁸ NW Natural Schedule 320, Third Revision of Sheet 320-1.

⁸⁹ T. Higgins, A. M., Matusiak, A., Calisch, S., & Lai, D, *To Decarbonize Households, America Needs Incentives for Electric Appliances*, Center for American Progress, (June 3, 2021), <https://www.americanprogress.org/issues/green/reports/2021/06/03/500084/decarbonize-households-america-needs-incentives-electric-appliances/>.

⁹⁰ NW Natural/201, Tanaka/Page 12.

1 restrictions defy well-established findings that show why gas utility service is imprudent.⁹¹
2 “Electrification is likely the most cost-effective decarbonization strategy for most buildings[.]
3 Utilities and their regulators should start planning now to avoid costly gas pipeline replacements
4 and assist households that are overburdened by energy costs with the transition off planet-
5 warming fuels.”⁹²

6 Our organizations encounter obstacles when trying to do what is in the best interest for both
7 our clients and the environment because of outdated restrictions that prevent us from using
8 energy efficiency dollars to support electrification, and cost-effectiveness calculations that limit
9 the amount of financial support we can provide.

10 In this rate case, the Commission can change the tide while we still have the time to do so.
11 Our communities’ livelihoods depend on it.

12 **Q. What changes should the Commission make to Schedule 320 that would allow low-**
13 **income residents to electrify?**

14 A. We recommend the Commission amend the OLIEE program to remove mandatory
15 installation of new gas furnaces, and instead allow CAP Agencies to use OLIEE program funds
16 to electrify space heating for low-income customers. We recommend the Commission remove
17 language in Schedule 320 that requires replacing red-tagged appliances with a high-efficiency
18 gas furnace. Further, the Commission should require NW Natural to amend Schedule 320 to

⁹¹ E.g., S. Nadel, *Impact of Electrification and Decarbonization on Gas Distribution Costs* at 11, (June 2023) American Council on Energy-Efficient Economy
<https://www.aceee.org/sites/default/files/pdfs/U2302.pdf>.

⁹² B. Somberg, *Household Gas Bills Expected to Rise Sharply; Strategic Decarbonization Needed*, (Jun. 6, 2023), <https://www.aceee.org/press-release/2023/06/household-gas-bills-expected-rise-sharply-strategic-decarbonization-planning> (last visited Apr. 17, 2024).

1 allow customers to choose to electrify their home-heating appliances. This change would allow
2 energy-burdened Oregonians to access cost-effective electrification, preventing these customers
3 from remaining stranded on the gas system into the future.

4 **Q. Please summarize your recommendations regarding low-income weatherization and**
5 **energy efficiency upgrades that would advance equity and energy justice.**

6 A. We have six recommendations:

7 1. The Commission should require NW Natural to amend Schedule 320 to make the
8 following changes:

9 a. Encourage spending of existing program funds by removing financial caps on
10 spending per dwelling that limit investment in energy efficiency and
11 weatherization upgrades for low-income homes.

12 b. Increase the budget for health and safety repairs to \$10,000 per home to enable
13 CAP Agencies to make the repairs necessary to accommodate home
14 weatherization and appliance upgrades.

15 c. Remove the requirement to replace broken gas furnace with new gas furnaces.
16 Instead, allow low-income customers to choose electric heat pumps for their space
17 heating needs.

18 2. Further the Commission should require NW Natural to improve its program
19 administration by:

20 a. Using OLIEE program funds to proactively target customers with high energy
21 burden that have the potential to greatly benefit from energy efficiency upgrades.

22 b. Developing a communications plan to advertise its OLIEE program to low-
23 income ratepayers and connect them with their local CAP agencies.

1 c. Spending at least \$2.5 million of the Company’s built-up OLIEE funds on its
2 Open Solicitation Program.

3 **V. THE FIXED RATE CHARGE IMPOSES AN UNFAIR COST ON LOW-INCOME**
4 **CUSTOMERS.**

5 **Q. Please describe the fixed rate charge that NW Natural is proposing in this rate case.**

6 A. NW Natural is proposing to charge customers who move into new premises a fixed rate
7 charge of \$26.25 on their monthly bill. We provide an in-depth explanation of the fixed rate
8 charge in the Testimony of Brad Cebulko, Coalition Exhibit/100 and incorporate that explanation
9 here.

10 **Q. What is your concern about the fixed rate charge?**

11 A. Low-income customers already struggle to pay their bills, and adding a fixed charge
12 increase will make gas rates unaffordable for them. The Company has confirmed that low-
13 income people who move into new premises will still be charged the fixed rate charge, despite
14 being eligible for energy assistance programming.⁹³ NW Natural’s testimony contains no
15 analysis or recommendation on how its new proposed fixed charge would affect low-income
16 customers currently enrolled in the bill discount program.

17 We are concerned because low-income customers will move into new housing or new
18 “premises” and thus be subject to this steep cost. Governor Tina Kotek and the Oregon
19 legislature have committed to increasing affordable housing stock.⁹⁴ Unfortunately, if these new

⁹³ Exhibit Coalition/314.

⁹⁴ L. Dake, *Lawmakers Approve Gov. Tina Kotek’s Top Priority for the Session; Funding Expected to Ease Oregon Housing Crisis* (Mar. 4, 2024), <https://www.opb.org/article/2024/03/04/lawmakers-approve-kotek-top-priority-for-session-funding-expected-to-ease-oregon-housing-crisis/>.

1 housing developments have gas connections and are in NW Natural’s service area, they will have
2 to pay an exceedingly high fixed rate charge when they already struggle financially.

3 **Q. Please summarize your recommendation regarding NW Natural’s fixed rate charge.**

4 A. We recommend the Commission prohibit NW Natural from charging low-income
5 customers who move into new premises any fixed rate charge. Even if customers are eligible for
6 energy assistance, it makes no difference if their savings are eaten up by an unfair fixed rate
7 charge. Accordingly, low-income customers should not be subject to any fixed rate charge.

8 **VI. RATE CASES DENY LOW-INCOME OREGONIANS MEANINGFUL**
9 **PARTICIPATION IN THE RATE-MAKING PROCESS AND CONFLICT WITH**
10 **THE PRINCIPLES OF PROCEDURAL EQUITY AND JUSTICE.**

11 **Q. Please define procedural equity.**

12 A. Procedural equity is “a call for equitable procedures that engage all stakeholders in a non-
13 discriminatory way.”⁹⁵ Procedural equity demands more than a level playing field for access and
14 participation by requiring decision-makers to assess “whether and to what extent programs and
15 policies perpetuate systemic barriers to opportunities and benefits for people of color and other
16 underserved groups.”⁹⁶ In this rate case, procedural equity requires the inclusion and meaningful
17 participation to the fullest extent of low-income environmental justice community members that
18 are NW Natural customers.

⁹⁵ D. Adler, et al., *Procedural Equity at Public Utility Commissions: Developing a Baseline Assessment of Barriers and Opportunities* (Jan. 2024) at 6, https://policyintegrity.org/files/publications/Procedural_Equity_at_PUCs_Report.pdf.

⁹⁶R. Balu, et al., *Pathways to Equity at Scale* (Mar. 2023) at 2, https://www.urban.org/sites/default/files/2023-03/Pathways%20to%20Equity%20at%20Scale_0.pdf.

1 **Q. Why are rate cases uniquely predisposed to procedural inequity?**

2 A. Two components of rate cases specifically give rise to procedural inequity: the subject
3 matter and the procedural requirements to participate. First, the highly technical subject matter in
4 rate cases excludes people that do not work in the energy industry, people who are English
5 Language Learners, and people who simply do not have the cognitive time and space to digest
6 cumbersome, complex utility filings. To truly understand the issues that affect low-income
7 communities directly in the way of a rate hike, those communities must have one or more
8 experienced—and often specialized—persons “translate” the several testimonies, reports,
9 workpapers, and other filings, in a rate case.

10 Second, the structure and process within rate cases leaves marginalized people without an
11 access point. For example, rate cases are resource and time intensive, but CBOs are limited-
12 resource organizations, often with limited staff that are responsible for many things on top of rate
13 cases. Beyond funding, rate cases require CBOs to expend considerable resources such as
14 personnel time, creating institutionalized knowledge to train newly hired staff on ratemaking,
15 and robust community outreach to ensure we are advocating true to our communities’ needs.
16 Additionally, rate cases are months-long endeavors with norms that are familiar to frequent
17 participants but exclude the inexperienced. The data request process is a prime example as it
18 requires technical and legal literacy that few organizations have access to.

19 Rate cases can present deep inequities for CBOs because these two components are
20 integral to rate cases and unlike any other proceedings that our organizations participate in.
21 Despite this, we are working together to advocate for our communities in this forum.

1 **Q. What are the deterrents for CBOs that want to be parties in rate cases but are not?**

2 A. As explained above, the rate case process requires several severely limited resources for
3 CBOs: time, money, and staff. To meaningfully participate in these proceedings, we must not
4 only capture the issues relevant to environmental justice during more than one rate case at one
5 time but also simultaneously make recommendations to advocate for improved conditions unique
6 to each of those rate cases. The voluminous records, the time commitments of meetings, the
7 pressure to create solutions for utilities without their buy-in, and the minimal assistance provided
8 to CBOs leaves many organizations exasperated and stretched too thin. This results in
9 disengagement from the process out of necessity to preserve organizational resources.

10 Further, the options for non-intervenors remain slim despite the awareness that
11 organizations may want to participate without making a commitment as a party. For legitimacy
12 in settlement discussions and even access to utility workshops, one must be a party to the case
13 rather than engaging on a non-intervenor basis. And the drawback of that is two-fold. First,
14 parties must attend long, full-day settlement discussions to ensure nothing they have an interest
15 in is settled upon in a detrimental way despite the irrelevance of the other settlement matters. For
16 example, a CBO might want to participate in discussions that inform a future LINA, but not in
17 discussions on IT expenses. Second, non-intervenors who want to participate but are resource-
18 strapped cannot commit to making substantive arguments are left without a role in the process.
19 They must then resort to being silent participants—a disservice to their roles as community
20 advocates that can lead to disengagement.

21 **Q. Is the fix here simply for interested CBOs to hire an attorney?**

22 A. No. Having counsel is an immeasurable benefit for accessing this forum, but structural
23 changes are needed. Not every organization will have access to an attorney, nor should they have

1 to. Rates affect all ratepayers and are thus a matter of the public interest. Therefore, the
2 Commission must take a defined approach to include the public that results in systems change to
3 rate case proceedings.

4 **Q. Please summarize your recommendations regarding procedural equity in this rate**
5 **case.**

6 A. We have four recommendations:

7 1. We recommend that the Commission require NW Natural to file their testimony on
8 energy justice and issues relevant to environmental justice as a separate filing in the docket. We
9 suggest naming this separate filing such that it is easily identifiable for non-intervenors and
10 community members, such as “environmental justice packet.” Staff should proof this filing to
11 ensure an accessible literacy level for the community is used. We recommend this separate filing
12 cover the issues most important to environmental advocacy groups including (1) anticipated cost
13 of the rate increase to individuals enrolled in the bill discount program and whether the proposed
14 increase will exacerbate energy burden, (2) implementation of the Company’s low-income
15 weatherization program, (3) measures taken by the Company to improve enrollment in the bill
16 discount program, and (4) implementation of an arrearage management program.

17 2. We recommend the Commission impose structural changes to rate cases by requiring
18 Staff to host workshops with environmental justice advocates at the outset of rate cases—not
19 during the proceedings—to learn from the community what issues are important to them in the
20 rate case. Staff can then advocate for the public by elevating these concerns in their testimony
21 and during settlement.

22 3. We recommend the Commission and Staff meaningfully collaborate with CBOs in
23 hosting workshops through mandated co-creation of meeting agendas, a designated meeting

1 minutes note-taker from Staff, and advance notice of the workshops or meetings by at least three
2 weeks. It is a disservice to all involved to be invited to repeatedly speak and share the same
3 concerns with no subsequent changes. Instead, we recommend a productive space with active
4 dialogue between Staff, the Commission, and CBOs.

5 4. We recommend the Commission create a policy for instances where CBOs lack
6 representation by outside counsel. This policy should be carried out by Staff investigators to
7 work with CBOs to develop issues and testimony in the case that elevate energy justice issues.
8 We are not recommending that Staff represent the CBO's concerns. Instead, we recommend
9 creating an independent position within Staff that exclusively collaborates with environmental
10 justice communities and CBOs that are unrepresented in the case.

11 **Q. Does this conclude your testimony?**

12 A. Yes it does, thank you.

WITNESS QUALIFICATION STATEMENT

NAME: Charity Fain

EMPLOYER: Community Energy Project

TITLE: Executive Director

ADDRESS: 2705 E. Burnside, Suite 112
Portland, OR 97214

EDUCATION: Bachelor of Arts, International Relations The American University,
Washington, D.C.

EXPERIENCE:

I have over 25 years of experience building stronger communities in the US and around the world. As the Executive Director of the Community Energy Project (“CEP”), where I have been for almost nine years, I am responsible for the overall direction, leadership and management of the organization.

Community Energy Project, Inc. believes that everyone deserves a safe, healthy and efficient, home, regardless of income. CEP provides free home services focused on safety, health, and energy efficiency. We provide free community education and supplies, as well as direct home energy upgrades and repairs. All our services are made possible by partnerships with community members and service organizations, utilities, corporations, foundations, and government agencies. Through our work we hope to create a future where all people can afford to live in their homes with dignity, comfort, and safety. We believe in equitable distribution of resources, reducing barriers to entry, empowering everyone to be capable, reaching clients where they are, and reducing our environmental impact.

CEP has worked in residential weatherization, repairs and energy efficiency since 1979, and we continue to be committed to ensuring safe, healthy, and efficient homes, regardless of income. CEP began life in 1979 as a project of Responsible Urban Neighborhood Technology (RUNT) in response to the oil crises of the 1970’s. A VISTA national service member offered the first workshops, teaching people practical energy conservation solutions like caulking and building temporary plastic storm windows. CEP incorporated in Oregon in 1987 and became a contractor with the City of Portland’s Bureau of Housing and Community Development, offering training to low-income people through workshops and direct weatherization services to seniors and people with disabilities. Over time, we added workshops in water conservation and lead poisoning prevention. Currently, our workshops are open to people of all income levels.

Thanks to our community partners, we serve a diversity of clients. Fifty-two percent of our clients are people of color, and 72% live at or below the 50% Median Family Income level. Twenty-seven percent of the people served have someone in the household with a disability. The majority, 59%, of our clients identify as women. Further, we've managed to provide the bulk of our services to renters, with 56% of our clients being renters, and 23% being homeowners. Further, 29% of our clients are over the age of 55.

CEP's programs teach people to weatherize their homes, and our direct install program provides weatherization and energy efficiency upgrades directly to low-income homeowners. I oversee staff who are experts in Home Performance and home repair who work with clients and contractors to make needed upgrades.

I also work closely with Energy Trust of Oregon. For example, I have served on the Diversity Advisory Council and the Foundational DAC. I am currently a member of the CAC. I also work with ETO staff to design new programs to better serve low-income customers. CEP's insights into the needs of low-income homeowners and renters for energy efficiency help ETO staff in the residential markets.

I have testified and provided written comments in various Commission dockets, including DSP (UM 2005) and COVID relief (UM 2114), and I was very active in community solar implementation and rulemaking (UM 1930). I recently provided written testimony in PGE's rate case (UE 416). I have also testified before the Portland Clean Energy Fund's committee on low-income energy efficiency program design, and to the Portland City Council in support of the Home Energy Score program. I am currently a member of DEQ's RAC for the Climate Protection Plan.

I have presented at a Home Performance Conference in Portland, at Commission DSP workshops, an Efficiency Exchange conference, and at the Grid FWD conference on equity in DSP and grid innovation.

CHARITY FAIN

EDUCATION: The American University, Washington, DC
B. A. International Studies, Russian Minor, *Cum Laude*

Professional Experience

Community Energy Project, 9/13-Present:

Executive Director

Serve as chief executive officer responsible for managing the affairs of the organization. Direct new program development in sustainability, energy efficiency, weatherization, solar and healthy homes for low-income, BIPOC and seniors. Direct advocacy efforts on climate and energy justice initiatives. Develop annual budget and oversee finances and accounting practices in accordance with non-profit organization best practices and legal requirements. Maintain internal administrative policies and procedures to carry out CEP programs and policies.

City Club of Portland, 6/08-9/12

Executive Director

Acted as chief executive officer responsible for managing the affairs of the organization. Developed annual budget and oversaw finances and accounting practices in accordance with non-profit organization best practices and legal requirements. Developed and promoted the visibility, image, and influence of the Club through positive community relations. Maintained internal administrative policies and procedures to carry out City Club programs and policies.

Internews Network, Bishkek, Kyrgyzstan, 10/05-9/07

Country Director

Directed Kyrgyzstan-based activities under USAID funded media support programs including: a grants program, training program, media law advocacy program and a media policy reform project. Supervised thirty employees in the Kyrgyzstan office including: hiring and training, planning, assigning and directing work, appraising performance, addressing complaints and resolving problems. Managed financial matters including: receiving cash, overseeing financial reporting and compliance with U.S government regulations and Internews' policies, as well as projecting expenditures and burn rates.

International Women's Media Foundation, 02/04-09/05

Program Manager

Managed IWMF programs including: *Leadership Institute*, *IWMF Fellowship*, *Public Health Fellowship* and *Elizabeth Neuffer Fund*. Maintained accurate records for assigned projects, including ensuring financial expenditures remained within budgeted amounts and that records were accurate and up-to-date. Organized conferences and events relating to IWMF programs, including securing locations, catering arrangements, publicizing programs and other logistical details.

The Advocacy Project, Consultant, 02/02-06/02

Open Society Institute, Coordinator, 04/98-6/00

WITNESS QUALIFICATION STATEMENT

NAME: Anahi Segovia Rodriguez

EMPLOYER: Verde

TITLE: Energy Justice Coordinator
“Verde serves communities by building environmental wealth through social enterprise, outreach, and advocacy.”

ADDRESS: 4145 NE Cully Blvd, Portland, OR 97218

EDUCATION: Bachelor of Science in Political Science: Public Service, Minor in Civic Leadership from Portland State University.

EXPERIENCE:

I currently work as the Energy Justice Coordinator for Verde, where I am passionate about advocating for low-income and BIPOC communities by running education workshops for non-English speakers, ensuring that policies in Salem are equitable for all communities in Oregon, and providing green spaces for communities in Portland.

Currently, Verde has been engaging in the Idaho Power Rate Case and has been providing feedback on equity issues. I have also previously been a part of the UM 2211, ADV 1365, ADV 1390, and ADV 1412, LC 80, LC 82 dockets as a non-intervener. Here I helped support fellow organizations. Before my time at Verde, I was a Legislative Assistant and then Chief of Staff in the House of Representatives in the Oregon Legislature. I have also worked as a campaign manager for successful campaigns in SE Portland, Gresham, and Gladstone, Oregon.

Anahi Segovia Rodriguez

Segoviaanahi.14@gmail.com
She/Her

Experience

VERDE / Energy Justice Coordinator

April 2023 - Current NE Portland, OR

Utilize local data and support community voice to identify community vulnerability and climate action priorities.

Lead community education workshops around renewable energy project benefits and ongoing news with the Public Utility Commission.

Monitor and provide strategic advice, policy briefings, and recommendations on energy policy issues at the state and municipal levels.

Office of State Representative Farrah Chaichi / Chief of Staff

December 2022 - March 2023 Salem, OR

Manages the office's day-to-day activities, including clerical tasks, record-keeping, research, and reports.

Interfaces with the general public, constituents, lobbyists, business leaders, other legislators, legislative staff, and interest groups to understand issues, draft legislation, and help get legislation passed and signed into law.

Researches bills, policies, current laws, and topics. Create reports based on findings.

East County Rising PAC / Campaigns Director

June 2022 - December 2022 Gresham, OR

Collaborated and built relationships with East Portland campaigns, and partner organizations to launch joint events, fundraisers, and canvasses.

Hired and managed a team of 10 field organizers to execute voter contact programs in East Portland that successfully knocked on 14,840 doors in East County.

Compiled potential volunteer databases through community outreach efforts, which were used to schedule phone and canvassing shifts to reach contact goals.

Annessa Hartman for Oregon HD 40 / Campaign Manager

February 2022 - May 2022, Gladstone, OR

Maintained daily campaign operations including fundraising, politics, communications, logistical/event scheduling, and administrative activities and functions.

Acted as an on-site manager during the campaign fundraising event, overseeing activities, staff, and vendors.

Negotiated contracts with all vendors, consultants, and staff including general, fundraising, field, and media.

Managed media campaign, website, Facebook, and design of print material.

North Clackamas Chamber of Commerce / Business Recovery Center Outreach Specialist

February 2022 - July 2022, Remote

Assisted in the Business Recovery Center's (BRC) marketing and outreach efforts with a focus on small business owners including underserved populations of minority, women, and veteran-owned businesses impacted by COVID-19.

Reviewed and participated in BRC's implementation of an equitable application and grant distribution to the Clackamas Community.

Directly assisted in translating grant applications and instructions for the Hispanic community.

Office of State Representative Power / Legislative Assistant

January 2022 - February 2022, Remote, OR

Reviewed and researched constituent cases and connected with the appropriate entities.

Maintained office calendar to coordinate workflow and meetings.

Oversaw relations with Congressional offices, federal agencies, labor unions, and regional/local business organizations.

Engaged in all areas of the legislative process including committee, policy strategy sessions, and caucus meetings.

Oregon Housing and Community Services / Oregon Emergency Rental Assistance Specialist

July 2021 - December 2021, Salem, OR

Assisted the OERAP team, including elevating best practices around data entry practices, data quality, application processing, and privacy policies and procedures.

Worked with network partners to process applications, troubleshoot system issues appropriately, and elevate portal and application-specific issues/needs to OHCS leadership.

Provided step-by-step assistance to Spanish-speaking tenants from around the State of Oregon.

Assisted the OERAP team in achieving a 30,000+ tenant outreach campaign.

Office of State Representative Dexter / Legislative Assistant

July 2020 - September 2020, Portland, OR

Crafted and delivered written and verbal communications on behalf of the state representative to constituents on a multitude of topics.

Conducted legislative research, tracked legislation, and maintained an internal legislative calendar.

Served as the direct liaison with legislative, policy, and agency staff on constituent matters.

Nolan for Metro / Campaign Manager

Feb 2020 - May 2020, Portland, OR

Organized and executed a grassroots effort that contacted voters via phone calls and emails.

Provided input into the development of a strategic plan for the fundraising campaign, including fundraising goals, budget recommendations, vendors, volunteer goals, and timelines.

Designed and distributed campaign yard signs and canvassing literature that branded and identified the campaign's goals.

Skills

Proficient in Google and Microsoft Suite, VAN, Canva, Instagram, Twitter, Facebook, YouTube, Mailchimp, ORESTAR, Adobe, Hootsuite, GoDaddy Website, and Zoom.

Native Spanish fluency, written and spoken.

Customer service skills.

Conflict resolution skills.

Trauma-informed communication.

Office coordination and administration.

Communications.

Management.

Legislative analysis and research.

September 2015- May 2016, Gresham, OR

WITNESS QUALIFICATION STATEMENT

NAME: Nikita Daryanani
EMPLOYER: Coalition of Communities of Color
TITLE: Climate and Energy Policy Manager
ADDRESS: 221 NW 2nd Ave., Ste 303, Portland OR 97209
EDUCATION: Master of Development Practice (MDP)
University of California, Berkeley

EXPERIENCE:

Coalition of Communities of Color (CCC) is an alliance of culturally-specific community based organizations that work directly with Black, Indigenous, and people of color (BIPOC) community members on issues such as housing, education, environmental justice and economic justice. CCC addresses the socioeconomic disparities, institutional racism, and inequity of services experienced by our families, children, and communities; and to organize our communities for collective action resulting in social change to obtain self-determination, wellness, justice, and prosperity.

I received my Bachelor of Science in Environmental Policy Analysis and Planning from University of California, Davis, and my Master of Development Practice from University of California, Berkeley. My graduate academic research focused on community-driven approaches to development and international environmental policy. Prior to this graduate program, I coordinated community-led advocacy efforts around environmental and climate justice in California's San Joaquin Valley.

As CCC's Climate and Energy Policy Manager, I help lead statewide advocacy for energy justice and support collaborative partnerships between local government and community leaders. Since Fall of 2020 I have been heavily involved in PUC dockets relating to the implementation of clean energy legislation (HB 2021) and energy affordability (HB 2475). I have demonstrably worked to uplift the importance of centering the needs of community members and low-income, communities of color in program design and implementation. I've provided feedback to utilities and PUC about engagement and community benefits to utility planning efforts. In 2022, I was involved in the NW Natural General Rate Case (UG 435) alongside other environmental organizations, and have worked closely in coalition with other energy advocates to advance equitable energy policy in Oregon.

- UC Berkeley elected representative for global MDP Student and Alumni Advisory Council
- MDP blog: [Just Move: Climate Change, Migration, and the Refugee Crisis](#), and [Diving Deep into Climate Justice](#)

B.S. ENVIRONMENTAL POLICY ANALYSIS AND PLANNING

SEPTEMBER 2011 – JULY 2015

UNIVERSITY OF CALIFORNIA, DAVIS

- Major: Environmental Policy Analysis & Planning (Track: Conservation Management)
- Minor: Global and International Studies (Emphasis: Gender and Media in Global Development and International Conflict)

EXPERIENCE

CLIMATE AND ENERGY POLICY MANAGER

NOVEMBER 2020 – PRESENT

COALITION OF COMMUNITIES OF COLOR, PORTLAND OR

- Works alongside organizational partners to advocate for and implement policies to advance energy affordability, community climate resilience, and increase access to clean energy for frontline communities in Oregon.
- Organizes community members and environmental justice leaders locally and statewide to increase collective capacity to engage on issues related to energy justice and climate resilience.

RESEARCH ASSISTANT (GRADUATE FINAL PROJECT)

JANUARY 2020 – MAY 2020

AMAZON WATCH, OAKLAND CA

- Analyzed current international policies relating to deforestation and human rights abuses from the purchasing of Brazilian beef and soy to identify potential avenues for legal, consumer, and policy advocacy.
- Evaluated agribusiness and financier human rights policies and codes of conduct according to human rights benchmarking standards.

CO-COORDINATOR

AUGUST 2019 – MAY 2020

UC BERKELEY OFFICE OF GRADUATE DIVERSITY, BERKELEY CA

- Coordinated the Getting into Graduate School (GiGS) program – a program aimed at supporting undergraduate students from marginalized communities plan for and apply to graduate school - by leading weekly workshops on career development and connecting students with on-campus resources.
- Planned and conducted trainings for graduate student mentors.

POLICY COORDINATOR

APRIL 2016 – JUNE 2018

LEADERSHIP COUNSEL FOR JUSTICE AND ACCOUNTABILITY, FRESNO CA

- Led climate justice portfolio by monitoring and analyzing relevant California state policy alongside community members.
- Planned and facilitated coalition meetings and events with local, state, and national partners.
- Created hand-outs and educational materials for resident leaders on policy priorities and coordinated community meetings.
- Testified at state hearings on behalf of the organization and regularly provided written comment letters to shape policy implementation based on community leaders' concerns.

Environmental Intervenors/400
Springer/3

1 **Q. Please state your name, occupation, and business address.**

2 A. My name is Benedikt Springer. I am a utility policy analyst with the Community
3 Action Partnership of Oregon (CAPO). My business address is 2475 Center Street
4 NE, Salem, OR 97301.

5 **Q. Please describe your educational background and work experience.**

6 A. I hold a bachelor's degree in economics and political science from the University of
7 Tübingen (Germany). I earned a PhD in political science from the University of
8 Oregon in 2018.

9 As a utility policy analyst at CAPO, my job is to advocate for low-income
10 interests in utility regulation and improve the energy assistance and weatherization
11 programs our network administers. Our goal is that everyone can meet their basic
12 needs, like accessing electricity, without financial stress.

13 Previously, I worked as a policy analyst at the Morrison Institute for Public
14 Policy at Arizona State University. In that position, I co-led major policy research
15 projects on housing affordability, housing for people with serious mental illness, and
16 homelessness. I have also done policy analysis for the Bureau of Labor and Industries
17 (BOLI), advising the labor commissioner and its (wage and hour, antidiscrimination)
18 law enforcement divisions. As a PhD student and after, I have taught political science
19 classes at the University of Oregon, Portland Community College, and Mount Hood
20 Community College.

Environmental Intervenors/400
Springer/4

1 **Q. What is the Community Action Partnership of Oregon (CAPO) and why are**
2 **you offering testimony in this rate case?**

3 A. CAPO is a 501(c)(3) non-profit formed by the 17 Oregon community action agencies
4 and a special purpose organization, the Oregon Human Development Corporation.
5 Our organizations plan, implement, and deliver anti-poverty programs across all of
6 Oregon's 36 counties, including homeless shelters, food banks, and Head Start. Our
7 network is also responsible for implementing state- and federally-funded
8 weatherization programs (e.g., ECHO, WAP) as well as energy assistance programs
9 (e.g., LIHEAP, OEAP). We also implement assistance programs for Avista. Five
10 member organizations have clients that are served by Avista: Community Connection
11 of NE Oregon in Union County, Klamath and Lake County Community Action
12 Services in Klamath County, the Oregon Human Development Corporation in
13 Klamath County, ACCESS in Jackson County, and United Community Action
14 Network in Josephine and Douglas County. As an association, our mission is to
15 magnify the anti-poverty efforts of our network through advocacy in legislative and
16 regulatory proceedings. Nation-wide, there are over 1,000 community action
17 agencies. What unites them is combining direct service delivery with efforts to
18 address the root causes of poverty.

19 I am offering testimony on behalf of CAPO in this rate case because natural
20 gas rates that are affordable to everyone are critically important to addressing the
21 causes of poverty. Affordable energy rates mean families don't have to choose
22 between feeding their children and keeping the heat on in their homes in the winter.
23 We serve tens of thousands of low-income households every year. Our advocacy is

Environmental Intervenors/400
Springer/5

1 based on this experience. Unfortunately, in the past, low-income customers have seen
2 little representation in contested proceedings like this general rate revision. We are
3 here to change this.

4 **Q. Please describe your experience appearing before the Oregon Public Utilities**
5 **Commission.**

6 A. Since I started working for CAPO, I have been involved with three major dockets at
7 the OPUC. In collaboration with a coalition of Environmental Justice Advocates, I
8 contributed to the rulemaking in AR 653. In the wake of the COVID pandemic and
9 the passage of HB 2475, AR 653 was a docket to revise Oregon administrative rules
10 contained under 860-021 with the intent of making them more protective for low-
11 income customers. Among other things, I provided research and testimony that led to
12 a disconnection moratorium when temperatures fall below 32 degrees F and the
13 abolition of customer deposits for those with low incomes.

14 I was also heavily involved in UM 2211 and adjacent activities surrounding
15 the establishment of low-income bill discount programs at all investor-owned utilities
16 in Oregon. My analysis and testimony were integral to showing that discounts not
17 exceeding 25% are insufficient for those with very low incomes. As a result, NW
18 Natural and Pacific Power agreed to adopt an additional discount tier of 40%.

19 Currently, I am also intervening in PGE's pending rate case on behalf of
20 CAPO, (UE 416). My opening testimony there raises similar Energy Justice issues,
21 arguing that the public interest demands stronger consideration of questions regarding
22 distributive and procedural justice. In all three cases, CAPO received intervenor
23 funding from the OPUC.

Environmental Intervenors/400
Springer/6

1 I interact regularly with Oregon’s investor-owned utilities, including Avista,
2 outside of OPUC proceedings. Since community action agencies administer energy
3 assistance and weatherization programs for these utilities, I attend coordination
4 meetings to represent our interests and advocate for program improvements.

5 **Q. What is the purpose of your testimony?**

6 A. The purpose of my testimony is to show that Avista’s rate schedules, policies, and
7 investments insufficiently consider Energy Justice factors—this is true for the past
8 and for the newly proposed rates in this case. The proposed rate increase for the
9 residential class will exacerbate affordability issues for low-income customers. I
10 encourage the Commission to reject the proposed general rate revision if no
11 additional accommodations for low-income customers are made, and Energy Justice
12 factors are not considered more strongly. The Energy Justice factors, we would like to
13 see considered more strongly by all parties, can be summarized as follows:

14 (1) Ensure that basic necessities like home energy utility service is made
15 available to all Oregonians without causing energy burden.

16 (2) Decisions about generation, distribution, and cost-attribution should be
17 based on a comprehensive analysis of cost and benefits to differentially situated
18 groups especially those in marginalized communities—recognition justice—and take
19 into account communities’ varying abilities to contribute based on their available
20 resources and histories of oppression—distributional justice.

21 (3) Give more weight in utility governance decisions to voices and
22 perspectives that have been historically powerless—procedural justice.

1 (4) Incorporate a broader set of values, theories, and concepts in rate case
2 discussions and decisions by reforming traditional regulatory processes.¹

3 **Q. How is your testimony organized?**

4 A. The first section explains Energy Justice and its implications for just and reasonable
5 rates. The second section looks at some of Avista's investment decisions and system
6 subsidies, concluding that there are excessive risks for low-income customers. The
7 third section dives into why Avista's rates are insufficiently affordable, and how this
8 can be remedied. The last section reviews Avista's low-income energy efficiency
9 programs, arguing that they fall short of their goals.

10 **Q. What are your concrete recommendations Commissioners should consider in**
11 **this case?**

12 A. To achieve energy justice, and uphold the Commission's duty to consider energy
13 burden in setting rates for energy utilities, I recommend that the Commission take the
14 following actions:

- 15 • Insulate low-income customers from regulatory risks that disproportionately affect
16 them and do not require them to contribute to risky investments. Specifically,
17 require Avista to review bill discount tiers and amounts to determine whether
18 they have kept up with increasing costs. Exempt low-income customers from
19 contributing to Avista's customer growth expenditures including line extension

¹ For discussions of Energy Justice see: Kirsten Jenkins et al., 2016, "Energy justice: A Conceptual Review," Energy Research & Social Science, Volume 11, <https://doi.org/10.1016/j.erss.2015.10.004>; Salma Elmallah, Tony G. Reames, and Anna Spurlock, 2022, "Frontlining Energy Justice: Visioning Principles for Energy Transitions from Community-Based Organizations in the United States," Energy Research & Social Science, Volume 94, <https://doi.org/10.1016/j.erss.2022.102855>.

Environmental Intervenors/400
Springer/8

1 allowances (it might be more practical to exempt all residential customers).
2 Exempt low-income customers from paying for high-risk speculative
3 technologies like RNG, hydrogen, synthetic methane, and biogas. Consider
4 allowing cost-effective electrification through the low-income energy efficiency
5 program as a way to protect low-income customers from likely price shocks.
6 • Require Avista to reflect more stakeholder perspectives in its proposal and
7 testimony in future rate case proceedings. Any substantive ask in a rate case
8 should first receive input from the Low-Income Advisory Council (“LAIC”),
9 including those that can speak to Energy Justice. The LAIC should be consulted
10 prior to the filing of a utility rate case, to ensure that any proposed rate increase
11 does not exacerbate existing energy burdens for low-income customers.
12 • Require the company to estimate rate increase effects on metrics like the number
13 of energy-burdened customers and the size of the energy affordability gap.
14 Require the publication of disconnection rates by socio-demographic factors like
15 income and race.
16 • Use data analysis and modeling to automatically enroll low-income customers
17 into the assistance programs they are eligible for. Proactive enrollment is the only
18 way to keep natural gas affordable to low-income customers and prevent
19 disconnections. Such a proactive approach is specifically important for likely
20 low-income customers with a disconnection notice. It simply does not make
21 sense that Avista currently disconnects customers whom the company knows to
22 likely qualify for assistance.

1 rates are just, fair, and reasonable, the Commission should look to whether the
2 proposed rate increase conforms to the principles of Energy Justice.

3 **Q. What is an Energy Justice framework?**

4 A. The framework of Energy Justice centers on human dignity by viewing access to
5 energy as a human right, meaning everyone should be able to utilize life-sustaining
6 amounts of energy regardless of their ability to pay. This implies access to energy
7 should only be restricted in extreme circumstances (e.g., disconnection).² Energy
8 Justice promotes specific values and considerations that have historically been
9 neglected in the regulatory process.

10 Energy Justice, or more broadly, environmental justice has grown out of the
11 civil rights movement, the Indigenous environmental movement, and the anti-
12 globalization movement.³ What started with identifying specific instances of
13 “environmental racism,” for instance locating hazardous waste facilities in
14 predominantly African-American neighborhoods, which had been ignored by the
15 mainstream environmental movement, Energy Justice grew to recognize that the
16 burdens and benefits of energy production are unequally distributed along familiar
17 lines of marginalization (White vs. People of Color; global South vs. global North,
18 low-income populations vs. the rest). From these origins, Energy Justice has not only

² Resolution, First National People of Color Environmental Leadership Summit held on October 24-27, 1991, <https://climatejusticealliance.org/ej-principles/>.

³ Alejandro Colsa Perez et al., 2015, “Evolution of the Environmental Justice Movement,” Environmental Research Letters Volume 10, <https://iopscience.iop.org/article/10.1088/1748-9326/10/10/105002/pdf>.

1 become widely recognized throughout society⁴ but has been transformed by
2 academics into an analytical framework that can guide thinking about policy and
3 regulation regarding energy. The main insight is this: decisions about energy, like the
4 ones in this rate case, “involve aspects of equity and morality that are seldom explicit
5 in contemporary energy planning and analysis.”⁵ Energy Justice as a tool seeks to
6 make these aspects explicit by considering the following three issues:⁶

- 7 1) **Recognition Justice** requires identifying communities that have been ignored,
8 misrepresented, or not represented at all in energy decisions. This requires analyzing
9 comprehensively how issues like disconnections or prices affect differentially-
10 situated groups along ethnic, racial, and socio-economic lines differently. Recognition
11 Justice forces us to consider that residential customers are in fact not homogenous
12 individuals but groups of customers that experience the same tariffs and policies very
13 differently.
- 14 2) **Procedural Justice** requires that all groups can meaningfully participate in energy
15 decisions that affect them. Procedural Justice forces us to consider who holds power
16 in decision-making processes not only in terms of legal rules but also in actual
17 practice. For decision-makers, Procedural Justice suggests considering a diversity of

⁴ See for instance, Presidential Executive Order in 1994: Bill Clinton, 1994, “Executive Order 12898 of February 11, 1994,” Federal Register 59 (32), <https://www.archives.gov/files/federal-register/executive-orders/pdf/12898.pdf>; or the current [Website](#) of the US Department of Energy.

⁵ Benjamin K. Sovacool and Michael H. Dworkin, 2015, “Energy justice: Conceptual Insights and Practical Applications,” Applied Energy, Volume 142, p. 435, <https://doi.org/10.1016/j.apenergy.2015.01.002>.

⁶ Kirsten Jenkins et al., 2016, “Energy justice: A Conceptual Review,” Energy Research & Social Science, Volume 11, <https://doi.org/10.1016/j.erss.2015.10.004>.

Environmental Intervenors/400
Springer/12

1 voices and perspectives, especially those that have been historically marginalized,
2 instead of solely relying on the well-resourced perspectives that always show up
3 loudly.

- 4 3) **Distributive Justice** requires that benefits and burdens of energy decisions are
5 distributed somewhat equally with regard to outcomes (“equitably”) considering the
6 differential ability of different customers to contribute. Distributive justice means that
7 if affordability is a goal, we need to make energy affordable to those that are rich and
8 those that are poor.

9 **Q. How is Energy Justice related to existing regulatory principles?**

10 A. Utility law in general, and in Oregon specifically, requires OPUC to regulate utilities
11 to protect the public interest.⁷

12 We can look at the legislative and regulatory climate in Oregon to understand
13 what factors OPUC should consider when arriving at what’s in the public interest. I
14 find that those are Energy Justice principles:

- 15 - Oregon Executive Order No. 20-04 orders OPUC to 5 B (3) “[...] exercise its
16 broad statutory authority to reduce Greenhouse Gas (GHG) emissions, *mitigate*
17 *energy burden experienced by utility customers*, and ensure system reliability and
18 resource adequacy;” and (6) “in cooperation with Oregon Housing and
19 Community Services, establish a public process to address and mitigate
20 *differential energy burdens* and other inequities of affordability and

⁷ ORS 756.040 (1).

Environmental Intervenors/400
Springer/13

1 *environmental justice*, including rate design and other programs to mitigate
2 energy burden.”⁸

3 - HB 2475, passed in 2021, explicitly authorizes OPUC to take steps to mitigate
4 energy burdens by requiring utilities to set differential rates to ensure low-income
5 customers can afford access to energy.⁹ This law also provides financial
6 assistance for the representation of low-income residential customers and the
7 interest of residential customers that are members of environmental justice
8 communities in rate cases. The only reason I can see for such a provision is that
9 the Oregon Legislature wants OPUC to seriously consider Energy Justice factors
10 when deciding what is in the public interest.

11 - HB 4077, passed in 2022, establishes an environmental justice council to advise
12 the Governor.¹⁰

13 - Oregon’s DEI Action Plan specifically calls out the role of OPUC to “engage,
14 protect, and advance benefits to vulnerable communities.”¹¹

15 Taken together, this indicates that regulating in the public interest means
16 considering Energy Justice factors. However, as I explain below, Avista’s proposed
17 rates and testimony do not take into account these factors sufficiently.

Environmental Intervenors/400
Springer/14

1 **Q. How is Energy Justice related to just and reasonable rates?**

2 A. In my opinion, integrating Energy Justice principles into utility rate design and the
3 revenue requirement is needed to determine whether a proposed increase in rates is
4 fair, just, and reasonable. These are not technical terms that can be calculated with
5 sufficient data, but instead raise questions of distributive justice.

6 The OPUC itself states that “the legislature has expressed no specific process
7 or method the Commission must use to determine the level of just and reasonable
8 rates[.]”¹² In light of the requirements of Executive Order 20-04, and HB 2475, the
9 Commission should take into account energy justice principles in evaluating Avista’s
10 proposal for a rate as follows:

11 • In reviewing Avista’s petition for a rate increase, the Commission must consider
12 the ability of residential customers to afford this increase. Unfortunately, I find
13 that Avista’s rates, as they are currently implemented, are not affordable to at
14 least 12,000 low-income customers, who are eligible but not enrolled in the bill
15 discount program. This problem will be exacerbated by the rate increase.
16 Furthermore, a subset of non-average customers remains energy-burdened
17 despite enrollment in the bill discount program.¹³ Leaving low-income customers
18 with unaffordable bills is neither just nor reasonable. The terms “just” and
19 “reasonable” cannot be determined only with respect to the average customer,
20 but needs to take into account differentially situated groups. It’s hardly

¹² OPUC Order No. 08-487.

¹³ It is unknown how many non-low-income customers are energy-burdened.

Environmental Intervenors/400
Springer/15

1 reasonable or fair to assume that a natural gas rate will affect a millionaire and a
2 family in poverty similarly. Hence, different accommodations must be made.

- 3 • Avista is disconnecting customers without enrolling them in arrearage
4 management programs, even when these customers are known to qualify for
5 enrollment. Disconnecting households due to inability to pay is neither just nor
6 reasonable. Utilities are publicly regulated because they provide an “essential
7 service,” and rates charged by these companies must be in the public interest for
8 all customers regardless of their income level. Energy Justice principles provide
9 that access to energy is a fundamental right that should only be abridged in
10 extreme circumstances.¹⁴ Simply being in debt is no such extreme circumstance.
11 Energy insecurity is detrimental to families, creates mortality risks and directly
12 affects health of families, with huge costs to society at large.¹⁵ Unfortunately, I

¹⁴ Jean Su, 2021, “Climate, Environmental, and Energy Justice: Integrating Justice into Electricity System Design and Decision-Making,” in: Chandra Farley et. al, *Advancing Equity in Utility Regulation*, Future of Electric Utility Regulation, Report No. 12, US Department of Energy, 2021, <https://escholarship.org/uc/item/1mr715sx>, pp. 82-83.

¹⁵ Simply put, when families are forced to choose between paying utility bills or other competing priorities, they are forced to cut back on essentials like food, medicine, or sufficient heating/cooling. This results in measurably negative outcomes. High utility bills are also an independent contributor to eviction and homelessness. In my opinion, preventing these outcomes is not only good for individuals directly affected but society at large because it reduces negative externalities down the line (i.e., prevention is cheaper). Furthermore, thriving families have many positive externalities. Kay Jowers, et al., 2021, “Housing Precarity & the Covid-19 Pandemic: Impacts of Utility Disconnection and Eviction Moratoria on Infections and Deaths Across U.S. Counties,” NBER Working Paper 28394, <http://www.nber.org/papers/w28394>; Diana Hernandez and Eva Siegel, 2018, “Energy insecurity and its ill health effects: A community perspective on the energy-health nexus in New York City,” *Energy Res. Soc. Sci*, Volume 47, <https://doi.org/10.1016%2Fj.erss.2018.08.011>; John Cook et al., 2008, “A brief indicator of household energy security: associations with food security, child health, and child development in US infants and toddlers,” *Pediatrics*, Volume 122 (4), <https://doi.org/10.1542/peds.2008-0286>. Diana Hernandez, 2016, “Understanding ‘energy

1 find that Avista's rates, as they are currently implemented, do disconnect
2 households that are unable to pay. This problem will be exacerbated by the rate
3 increase.

4 **Q. What is missing from Avista's proposal and testimony from the perspective of**
5 **recognition justice?**

6 A. Recognition justice requires us to consider how differentially-situated groups might
7 experience uniform rates and policies. In opening testimony, Avista CEO Dennis
8 Vermillion explains, "We are placing emphasis upon our customer focus as being
9 central to all that we do to ensure our services are safe, responsible, and affordable,"¹⁶
10 Despite this positive intention, Avista's petition does not evaluate how low-income
11 customers will be affected by its proposed increase. Instead, residential customers are
12 treated as a homogenous group, even though they are not.

13 Recognition justice requires that (1) Avista document and consider how its
14 rate increase will aggravate the energy affordability gap, and the number of energy-
15 burdened customers. (2) Assess disconnection rates separately for different socio-
16 economic groups, including for low-income customers specifically. Unfortunately,
17 over 2,800 pages of testimony do not mention disconnections at all. (3) The
18 Commission should ensure that low-income customers are not required to pay for

insecurity' and why it matters to health," Soc. Sci. Med., Volume 167,

Environmental Intervenors/400
Springer/17

1 infrastructure investments that don't benefit them, like customer growth expenditures
2 for line extension subsidies and risky and expensive new technologies like renewable
3 natural gas, or hydrogen blending.

4 **Q. What is missing from Avista's proposal and testimony from the perspective of**
5 **procedural justice?**

6 A. With regards to procedural justice, let me note that it is difficult for low-income
7 ratepayers to participate in these proceedings. Low-income ratepayers often lack the
8 time, resources, and expertise required to participate in contested proceedings. While
9 the Commission may hear from the public through the public comment period, in
10 making its decision on the petition, the Commission typically relies on evidence
11 presented by the parties—rather than comments made by the public during the
12 hearing process.

13 In light of this, I recommend that the Commission require Avista to convene
14 stakeholder meetings with the Low-Income Advisory Council (LAIC) prior to
15 submitting a petition for a rate increase and incorporate their suggestions in
16 testimony. While it is true that Avista regularly consults with various community and
17 environmental justice groups, those opportunities are often narrowly tailored to
18 specific "low-income" issues. For instance, Avista meets with community action
19 agencies and other stakeholders to discuss the administration of the bill discount
20 program as well as low-income weatherization issues.¹⁷ Avista also maintains an

¹⁷ I attend those meetings.

Environmental Intervenors/400
Springer/18

1 “Equity Advisory Group” in Washington.¹⁸ Given that a rate increase has the
2 potential to increase energy burden for existing low-income ratepayers, it is critically
3 important to inform the LAIC of Avista’s proposal to increase rates, and obtain
4 feedback from that group prior to filing a petition for a rate increase. Feedback must
5 be elicited not only on “low-income” issues, but all the main parts of the proposal
6 since those inform the rate increase and how the impact of a rate increase on low-
7 income customers can be limited.

8 **INVESTMENT RISK**

9 **Q. Why and how are Energy Justice considerations relevant for Avista’s capital**
10 **investment decisions?**

11 A. The main issue is how the risks of investment decisions are distributed among all
12 company stakeholders (including customers), and who is able to bear those risks. Due
13 to efforts to stop climate change, regulators in Oregon have imposed strict GHG
14 emission reduction targets on gas utilities. In this new situation, any investment in
15 acquiring more customers becomes risky, but low-income customers face higher
16 risks.

17 For the average residential customer, if Avista makes risky investment choices
18 that result in ballooning utility rates, electricity provides a near-perfect substitute for
19 natural gas. If prices were too high, the average customer would simply purchase a
20 heat pump, a heat pump water heater, and an electric stove, and then close their

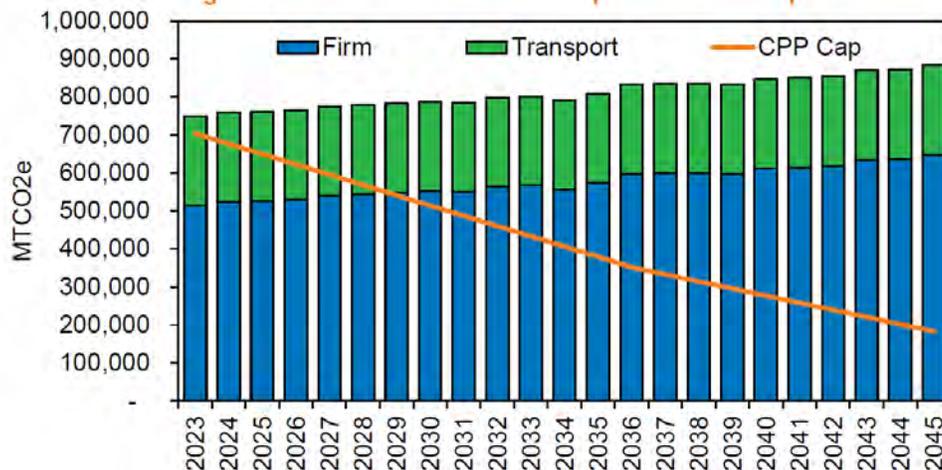

¹⁸ Avista Advisory Groups, <https://www.myavista.com/-/media/myavista/content-documents/about-us/ceta/avista-advisory-groups.pdf>.

1 customer account with the gas utility. They have now been insulated from the
2 company's investment risks.

3 Not so the average low-income residential customers. They cannot afford to
4 electrify their home energy usage. Furthermore, they are likely to be a renter and not
5 legally allowed to convert their dwelling from natural gas to electricity. Clearly, the
6 risks of Avista's investment choices are much higher for low-income customers. A
7 situation like that is neither just nor reasonable. Steps must be taken to insulate low-
8 income customers from these regulatory risks.

9 **Q. What are the risks that Avista needs to protect low-income customers from?**

10 A. Ballooning natural gas costs, coupled with average customers leaving the natural gas
11 system, are a distinct possibility. These risks are due to the regulatory landscape. The
12 figure below shows Avista's projected GHG emissions in Oregon compared to
13 allowed emissions. This is quite obviously a problem; solutions might be extremely
14 costly.

15
16 *Figure 1: Emissions Forecast Compared to CPP Cap, Avista 2023 Gas IRP*

Environmental Intervenors/400
Springer/20

1 Recent modeling by the American Council for an Energy-Efficient Economy (ACEEE)
2 finds that compliance will indeed be very costly.¹⁹ The primary author explains,
3 continued investment in gas utility service is high risk:

4 Electrification is likely the most cost-effective decarbonization
5 strategy for most buildings. Businesses and households that remain
6 on the gas system could see a significant increase in their bills going
7 forward. [...] Utilities and their regulators should start planning now
8 to avoid costly gas pipeline replacements and assist households that
9 are overburdened by energy costs with the transition off planet-
10 warming fuels.²⁰

11
12 This perspective is underlined by Avista’s estimation of fuel costs in its 2023 integrated
13 resource plan (IRP). Even in 2045, various climate-friendly fuels are estimated to cost 3x

Year	Hydrogen	Dairy	Food Waste	LFG	Wastewater	Synthetic Methane	AECO
2025	\$35.43	\$36.84	\$50.43	\$9.62	\$16.68	\$48.35	\$3.43
2030	\$25.20	\$41.05	\$56.15	\$10.72	\$18.54	\$32.90	\$3.03
2035	\$19.05	\$45.72	\$62.49	\$11.93	\$20.60	\$30.48	\$3.55
2040	\$16.09	\$50.92	\$69.56	\$13.28	\$22.91	\$23.13	\$4.19
2045	\$12.19	\$56.71	\$77.43	\$14.79	\$25.47	\$14.84	\$5.05

“Regular” Natural Gas

Figure 2: Resource Price Comparisons, \$/Dth, 2023 Avista IRP

14 to 15x of natural gas. If this is true, it would seem likely that only the hardest to electrify
15 industrial sectors would continue using these expensive fuels. As I discussed above, low-
16 income customers will not be able to afford to insulate themselves from these cost risks
17 via electrification.

18 Low-income customers also need to be insulated from investing in these high-
19 risk speculative technologies. Low-income customers categorically should not be

Environmental Intervenors/400
Springer/21

1 required to contribute to connecting new customers (line extension allowance)
2 because in the current regulatory climate this is a very risky investment. Because they
3 are often renters, or are unlikely to be new-home buyers, low-income customers are
4 unlikely to benefit from these customer growth subsidies. Consequently, they should
5 also not be required to contribute to them.

6 **Q. How can low-income customers be protected from these risks?**

7 A. I have several proposals:

- 8 • Do not allocate the costs of line extensions to low-income customers. These customer
9 growth subsidies typically do not benefit low-income customers, and increase rates.
10 Given that there is no low-income customer class, it might be more practical to
11 eliminate this costly subsidy altogether.
- 12 • Protect low-income customers from ballooning costs risk by adjusting the bill
13 discount program to keep bills affordable. It is likely that many future rate increases
14 will not be subject to general rate revisions, but be passed on through various
15 automatic adjustment clauses. Hence, Avista should be required to review and adjust
16 its discount tiers and amounts every two years to ensure that they have kept up with
17 rising costs.
- 18 • Low-income ratepayers should not be required to pay for high-risk technologies like
19 synthetic methane and green hydrogen. This is especially the case when Avista is not
20 investing in least-cost decarbonization solutions like electrification, and low-income
21 weatherization that reduce gas demand at a fraction of the cost.

Environmental Intervenors/400
Springer/23

1 A. I used publicly available data to estimate how many customers are energy-burdened
2 and how large that burden is. I compared theoretical affordability to actual
3 affordability: for instance, a low-income customer might in fact be able to afford gas
4 utility service, if they are enrolled in the appropriate bill discount tier. However, if
5 they are not enrolled, they will remain energy-burdened. I also construct illustrative
6 examples that show the types of situations where energy burden might arise under the
7 current rates (e.g., high usage). This allows us to arrive at specific recommendations
8 on changes that need to be made for affordability. In each section, I explain what
9 specific data and procedures were used.

10 **Q. Why does your affordability analysis focus on low-income customers and how is**
11 **low income defined?**

12 A. I focus on populations below 60% of State Median Income (SMI) or 200% of Federal
13 Poverty Level (FPL). Those are the households most likely to have issues with
14 affordability. These are also levels for which data is most commonly available.
15 However, it is important to note that actual poverty is more complicated. There are
16 people that earn incomes above these thresholds but still struggle to pay for energy
17 bills because of their life circumstances. At the same time, there are people below
18 these poverty thresholds that are not energy burdened, such as people with high
19 earning potentials that are currently unemployed (e.g., a neurologist taking a year off
20 from work) and people with little income but a large number of assets to tap in for
21 emergencies.

22 Focusing on income thresholds in terms of SMI and FPL is a necessary
23 simplification to be able to look at data. Let me explain those terms now. US Census

Environmental Intervenors/400
Springer/24

1 Bureau data generally bins income data into categories based on a percentage of the
2 Federal Poverty Level (FPL). Eligibility for most federal assistance programs, for
3 instance Medicaid or SNAP, is commonly expressed as a percentage of FPL, adjusted
4 for household size. FPL thresholds were developed in the 1960s based on food
5 expenditures and have since only been adjusted for inflation.²³ As a result, FPL is
6 somewhat outdated as a measure of income necessary for self-sufficiency and many
7 programs now consider households at 200% of FPL as poor and in need of instance
8 (e.g., the federal Weatherization Assistance Program in Oregon).

9 Many state programs, including Avista's bill discount program, use a
10 percentage of State Median Income (SMI), most commonly 60%, to define low
11 income. SMI percentage thresholds do not refer to actual percentiles of the income
12 distribution, but instead to an administratively prescribed proportion of median
13 income. Adjustments for household size are also made based on fixed percentages
14 found in federal rules. The table below provides an overview of this classification
15 scheme. As you can see, 200% of FPL and 60% of SMI are somewhat comparable.
16 While adjustment for household size makes sense, it complicates assessments of the
17 low-income population. Avista knows the size of every customer's bill, but does not
18 know their household size. Because of that, arriving at the number of low-income
19 customers and their energy burden needs to rely on surveys or estimation/imputation
20 through third-party data (e.g., credit ratings).

Figure 3: Comparison of FPL and SMI in 2023.

Q. How many customers in Avista’s service territory are energy burdened?

A. Poverty rates are above average for Oregon in the five counties with Avista presence. According to data from the American Community Survey, there are 74,439 households below 200% of FPL.²⁴ Comparing their energy bills to income shows that low-income households in these five counties are over \$48 million short of not being energy burdened (Energy Affordability Gap).²⁵ This is substantially more than utility, state, and federal spending taken together. On average, each household would need around \$646 in assistance. This is shown in Figure 2.

Union	Klamath	Jackson	Josephine	Douglas	Total
\$2,797,395	\$9,397,590	\$17,823,884	\$9,619,737	\$8,414,338	\$48,052,944
3,857	12,395	32,265	15,832	10,090	74,439

²⁵ Applying a 6% threshold to their total energy costs.

Environmental Intervenors/400
Springer/26

1 If we focus just on Avista customers and the proportion of Avista’s
2 responsibility, the picture looks less grim.²⁶ Avista commissioned a report called
3 “Oregon Energy Burden Assessment,” published in June 2022.²⁷ This report
4 estimates that there is an Energy Affordability Gap of \$1.8 million. As can be seen in
5 Figure 3, I estimate that Avista currently spends around \$1 million on bill discounts
6 and LIHEAP contributes around 302,000. This leaves a gap of around \$457,000
7 annually. Some of that gap can be explained by insufficient enrollment.

Customers below 60% of SMI ²⁸	Energy Affordability Gap	Bill Discount Enrollment	Avista Spending ²⁹	LIHEAP Spending ³⁰	Gap \$/people
17,000	\$1,800,000	5,086	\$1,040,745	\$302,050	\$457,205/ 11,914

8 *Figure 5: Energy Affordability Gap Among Avista Customers*

9 **Q. What is the current structure of Avista’s bill discount rate and how can it be**
10 **accessed?**

11 A. Avista’s bill discount program, called “my energy rate,” has four discount tiers for
12 customers based on their gross income as percentage of SMI:

- 13 - 0-5% of SMI: 90%

²⁶ A customer can have an affordable natural gas bill, but still be energy-burdened considering their total energy bills.

²⁷ Ex. Environmental Intervenors/403, Avista LINA.

²⁸ *Id.*

²⁹ Extrapolated from PY Quarter 2 data. Set the two winter quarters at 100%, the summer quarters at 60%. A more accurate calculation could be done with actual billing data.

³⁰ FY 2019. Amounts during Covid are not representative of current levels of federal funding.

https://public.tableau.com/app/profile/oregon.housing.and.community.services/viz/EnergyDashboard_16117046261640/LandingPage.

Environmental Intervenors/400
Springer/27

- 1 - 6-20% of SMI: 60%
- 2 - 21-40% of SMI: 25%
- 3 - 41-60% of SMI: 15%

4 There are two main ways customers access this assistance program. First,
5 recipients of federal energy assistance are automatically enrolled. Oregon Housing
6 and Community Services shares income information directly with Avista in order to
7 enroll customers in the correct tier. Currently, about half of the customers were
8 enrolled through this mechanism.³¹ Second, customers can also enroll proactively
9 through the following options: company website, calling customer service, mailing an
10 application, or contacting a community action agency. Customers who use this option
11 self-attest their income.

12 **Q. Is the average Avista gas utility bill affordable to low-income customers?**

13 A. At existing rates, the bill discount program does a decent job of keeping the average
14 bill affordable to low-income customers. However, it can only do so, if they are
15 actually enrolled in the program. Further, this analysis does not account for Avista's
16 proposed rate increase.

17 To assess the sufficiency of the bill discount program, I looked at theoretical
18 households. Figure 4 shows the affordability gap for households with different sizes
19 and different income levels for average bills. The overall average bill is \$670/year. I
20 adjusted for a one-person household at 80% and a 3-person household at 120%. As
21 you can see, the discount tiers generally do a good job of keeping energy affordable.

³¹ Reporting in RG 100, <https://edocs.puc.state.or.us/efdocs/HAQ/rg100haq141729.pdf>.

1 Negative numbers indicate a discount that is higher than required by the energy
 2 burden calculation. Positive numbers indicate the amount of money missing annually
 3 to not be energy burdened.

Income/Household Size	One	Two	Three
5% of SMI	\$-24.56	\$-35.21	\$-45.86
10% of SMI	\$58.08	\$63.58	\$69.08
21% of SMI	\$73.72	\$73.21	\$72.70
41% of SMI	\$-80.40	\$-100.50	\$-120.60

4 *Figure 6: Energy Affordability Gap After Applying Discount (+), Excessive Discount (-)*

5 This theoretical exercise helps us identify potential problem areas for
 6 affordability. Households that are just above the income threshold for receiving the
 7 highest discount remain somewhat burdened, albeit only by a few dollars a month.
 8 The same is true for households at 21% of SMI, who earn a little too much to receive
 9 the 60% discount. On the other end, customers at 60% of SMI receive more
 10 assistance than is needed to keep the average bill affordable (up to around
 11 \$10/month). This is not necessarily an undesirable effect since the ability to pay is an
 12 important fairness consideration. However, it is important to keep in mind that not
 13 every dollar goes directly to relieve energy burden.

14 **Q. What other forms of assistance are available to low-income customers?**

15 A. Avista’s “my energy rate” includes an arrearage management program.
 16 Customers with debts of up to \$1000 can receive forgiveness (<20% of SMI) or
 17 discounts if they make regular payments (21% - 60% of SMI). This program can be
 18 accessed by calling customer service or through a community action agency.

Environmental Intervenors/400
Springer/29

1 Avista also offers assistance for hardships or emergencies, so-called “project
2 share.” The amount of assistance offered through this program and the criteria are
3 unknown to the public.

4 The other main assistance available to customers is the federal Low-Income
5 Home Energy Assistance Program (LIHEAP). This assistance is administered by
6 Oregon Housing and Community Services, which contracts with community action
7 agencies for service delivery. Assistance is available to households below 60% of
8 SMI, subject to availability (Assistance is available to about 17% of eligible
9 households based on current funding levels). Assistance amounts are calculated
10 according to a matrix that considers heating source and income, but not bill amounts.

11 **Q. Why are there low-income and energy-burdened customers who cannot access**
12 **Avista assistance programs and what are the consequences?**

13 A. Avista’s own studies show that the company has failed to enroll 70% of eligible
14 customers in its low-income bill-discount program. Avista commissioned a report
15 called “Oregon Energy Burden Assessment,” published in June 2022.³² This report
16 estimates that there are 17,000 customer households below 60% of SMI, eligible for
17 the bill discount program. Unfortunately, only 30% (5086) are enrolled.³³ Those
18 eligible but not enrolled in the bill discount might be at risk of disconnection or may
19 forgo other expenses, like food and medicine, to pay for their natural gas bill. Further,
20 Avista’s report estimates that 6,400 customers have a very high energy burden, but I
21 do not know whether they are among those 5,086 people enrolled in the bill discount

³² Ex. Environmental Intervenors/403, Avista LINA.

³³ ADV 1410 – Avista Utilities Quarterly Report, April 2023.

Environmental Intervenors/400
Springer/30

1 program. It is fundamentally unfair to not enroll customers in the correct bill discount
2 tier, especially since all residential ratepayers are contributing to the program
3 financially.

4 Separately, with regard to the Arrearage Management/Forgiveness Program,
5 likewise Avista is not enrolling eligible ratepayers into this program either, which
6 may result in service disconnection. The number of currently eligible customers is not
7 known, but we can look at those enrolled in the bill discount program as an
8 illustration of the problem. There are 752 enrollees in the bill discount program with a
9 past due bill over 60 days, making them eligible for arrearage management or
10 forgiveness.³⁴ However, Avista has only enrolled 103 of them in that assistance
11 program. This situation is problematic. There are 649 customers at risk of
12 disconnection, even though the company knows that they are eligible for assistance.
13 These ratepayers should be automatically enrolled in the Arrearage Management
14 Program, to prevent disconnection. Service disconnection is a harsh penalty for a low-
15 income customer to pay when they qualify for existing support.

16 The simple answer to the question of why enrollment is too low is that Avista
17 is insufficiently proactive about the issue. Low program enrollment is especially a
18 problem when low-income households are expected to complete numerous procedural
19 steps before qualifying for aid. Households in poverty experience difficulty accessing
20 programs like weatherization programs, arrearage management, or discounted rates,
21 be it due to a lack of information or lack of time. Living in poverty, including

³⁴ Company Presentation, April 2023.

Environmental Intervenors/400
Springer/31

1 juggling jobs and family, competing and unaffordable bills, as well as managing
2 bureaucratic hurdles, tends to be a huge tax on cognitive capacity and time.³⁵
3 Households in poverty have to overcome several hurdles: they need to know about
4 the program, they need to assess whether it might help them, and they need to
5 actually enroll, completing the documentation requirements that come with it.
6 Furthermore, trust is a difficult issue since low-income households are a frequent
7 target of scams and might have experienced disappointment from assistance providers
8 in the past.³⁶ Transparency is often lacking. Fragmented programs and complicated
9 rules make it hard to know whether one is eligible for a program and what the
10 anticipated benefits are. Given the time and cognitive constraints these households
11 face, low enrollment is not surprising.³⁷

12 Many customers that come to community action agencies report never having
13 heard of the bill discount program. Some clients that came to us reported that Avista
14 customer service told them they needed to go to community action agencies to enroll
15 in the bill discount program, even though they can actually self-enroll online.

16 Transparency is another issue. Community action agency employees have been told

³⁵ Annie Lowrey, 2021, “The Time Tax,” The Atlantic,

Environmental Intervenors/400
Springer/32

1 by Avista to not inform the public about available discount tiers.³⁸ Avista's website
2 comes with its own issues. Customers cannot learn about the program without first
3 logging into their account or providing their address, while calling Avista can be a
4 major time commitment.

5 **Q. Are the assistance programs sufficient to avoid disconnections of low-income**
6 **customers?**

7 A. No. Average bills can be affordable. Unfortunately, many customers are not enrolled
8 in the programs that achieve this affordability. Furthermore, bills are often
9 unaffordable for above-average low-income users. As a result, disconnection is not
10 the rarity it should be. In April alone, Avista disconnected 232 customers for non-
11 payment.³⁹ Avista does not publish its own data on the likelihood that any of those
12 are low-income customers. But probably quite a few are. Seventeen were receiving
13 federal energy assistance at the time of the disconnect.

14 **Q. How can disconnections be reduced?**

15 A. Avista should automatically enroll qualified customers into its bill discount program,
16 and its arrearage management program. Avista should also examine its data to
17 determine if a customer with a disconnection notice likely qualifies for assistance
18 (discount and arrearage management). If they do, automatically enroll them in such
19 assistance programs instead of trying to reach them to ask whether they would like to
20 have assistance instead of being disconnected. If the status of the customer is
21 undetermined, work with community action agencies (or other community-based

³⁸ Ex. Environmental Intervenors/404, Avista Email.

³⁹ <https://edocs.puc.state.or.us/efdocs/HAQ/ro12haq132544.pdf>.

Environmental Intervenors/400
Springer/33

1 partners) on an intensive outreach plan. Nobody should be disconnected *before*
2 personal contact was made in which someone explained how the household might
3 qualify for assistance.

4 **Q. What changes would you recommend to help customers access the bill discount**
5 **program?**

6 A. Since we know what customers qualify for low-income bill discount programs, those
7 individuals should automatically be enrolled in the program. Further, if a customer is
8 already enrolled in Avista's bill discount program and has a past due account, they
9 should automatically be enrolled in the Arrearage Management Program to prevent
10 service disconnection.

11 We would recommend putting the burden on Avista to reach enrollment of at
12 least 90% of those eligible by the end of program year two. The way to do that is for
13 Avista to utilize the information it already possesses. According to Hassan Shaban,
14 the author of the "Oregon Energy Burden Assessment" for Avista, his analysis
15 assigned every customer a probability of being low-income and estimated an income
16 range. Outcomes like this can be modeled based on internal data (e.g., payment
17 history), census tract data (e.g., median income), county assessor data (e.g., housing
18 characteristics), and purchased third-party data (e.g., income from credit bureaus).
19 Avista should auto-enroll any customer that the discussed report identified as having
20 an income below 60% of SMI. Such customers should then receive a communication
21 that tells them how they can, with one click or phone call, enroll in the right discount
22 tier, in case their income estimate was too high.

Environmental Intervenors/400
Springer/34

1 We recommend similarly pro-active approaches in all program areas. For
2 instance, customers known to qualify for arrearage forgiveness, should receive it
3 automatically. Data should also be leveraged for planned audits. Currently, Avista
4 plans to ask 3% of bill discount enrollees to verify their income. It is expected that
5 many households will not reply to that request and will be unenrolled despite most
6 likely being eligible. A data-driven approach is much preferable. Avista should
7 identify integrity risk thresholds that trigger audits, not audit randomly.

8 **Q. Isn't it better to require individuals to enroll themselves to prevent enrolling**
9 **individuals who are not qualified in the program?**

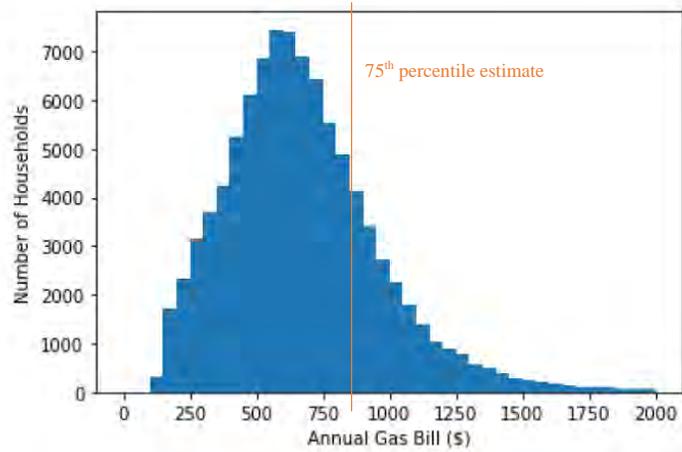

10 A. No. To answer that, we need to look at cost vs. benefit. If the enrollment was
11 currently at 99%, I would agree. However, when we are missing 70% of those
12 eligible, the harm of not enrolling people outweighs the cost of potential fraud. In my
13 opinion, the cost of enrolling some ineligible people based on uncertainty in the data
14 is much smaller than the cost of keeping many low-income customers energy
15 burdened. Furthermore, relying on outreach to inform households is also expensive. I
16 would rather have high enrollment and "lose" \$50,000 on non-energy-burdened
17 customers, than have low enrollment, while spending \$50,000 on outreach.

18 **Q. What are the outliers that might not be caught by the existing assistance system?**

19
20
21
22

Environmental Intervenors/400
 Springer/35

1 A. Energy bills are not uniformly distributed. Energy use varies a lot based on factors
 2 that households cannot influence, especially if they are low-income tenants. Even if the
 3 median bill is affordable, 49% of above-median bills might not be. Hence, we are interested
 4 in the right tail of the distribution in Figure 5, which is from Avista’s “Oregon Energy
 5 Burden Assessment”. Some will be low-income clients; others might be owners of large
 6 mansions that are expensive to
 7 heat. Unfortunately, I don’t
 8 have the underlying billing
 9 data. This means, I have to
 10 estimate to make some
 11 illustrative examples. The 75th
 12 percentile user has a bill

13 around \$850. I recreated the table from Figure 4 with this higher bill in Figure 6. The energy
 14 burden of households between approximately 6% and 36% of SMI increases substantially.
 15 Now we are talking about more than a few dollars a month. At community action agencies,
 16 we see customers, whose annual bills exceed \$1000. Those customers will have unaffordable
 17 bills despite the discount program, especially if they fall into the identified income range.

5% of SMI	-\$10.16	-\$17.21	-\$24.26
10% of SMI	\$115.68	\$135.58	\$155.48
21% of SMI	\$181.72	\$208.21	\$234.70
41% of SMI	-\$62.93	-\$100.50	-\$120.60

Figure 8: Figure 9: Energy Affordability Gap After Applying Discount (+), Excessive Discount (-), non-Average Customer

Environmental Intervenors/400
Springer/36

1 **Q. What should Avista do to address affordability problems with non-average bills?**

2 A. As with the issue of enrollment, Avista already has all the data to address this. The
3 income of all bill discount program enrollees is known. Hence, energy burden can be
4 calculated. If the affordability gap exceeds more than a few dollars a month (>\$10),
5 action needs to be taken.

6 The first simple step that could be taken would be to simply adjust the
7 individual discount amount to keep natural gas affordable. Alternatively, Avista could
8 work with community action agencies to get those customers enrolled in LIHEAP.
9 While community action agencies cannot prioritize these customers over others, they
10 could do more intensive outreach with Avista's help. However, it might be cheaper to
11 simply provide higher discounts instead of spending money on outreach with
12 uncertain outcomes.

13 The second step needs to be targeting these customers for weatherization. This
14 is especially important for very high bills (>\$1200 annually). I will address how to do
15 that in the next section.

16 **Q. How will Avista's proposed rate increase affect energy burdened customers?**

17 A. The problems will be the same with the proposed rate increase, but worse
18 proportionally to the increase.

Current Bill (annual)	Bill with 25% discount	New bill with 8.1% increase	New bill with 25% discount	Bill Increase with discount
\$680	\$510	\$735.08	\$551.31	8.1%

19 *Figure 10: A generic bill discount including Avista's proposed rate increase*

20 For every household that is already energy-burdened, any increase in rates will
21 translate dollar for dollar into an increase in energy burden. Below, I detail how low-

Environmental Intervenors/400
Springer/37

1 income rates will increase as a result of Avista's proposed rate hike. Every household
2 that currently has an energy burden between 2.78% and 2.99% will cross the
3 threshold to 3%. The number of households could be calculated with Census Bureau
4 data.

5 Avista's opening testimony has provided no information on how its proposed
6 increase in rates will exacerbate energy burden for its existing customers. Nor has
7 Avista proposed any changes to its existing bill discount program to ensure rates
8 remain affordable in light of the company's proposed increase. Using income data
9 from the bill discount program enrollment, the company could estimate the new
10 energy affordability gap. To show that the current proposal is just and reasonable,
11 Avista should make a good faith effort to calculate these numbers.

ENERGY EFFICIENCY

12
13 **Q. What is the connection between Energy Justice and Energy Efficiency?**

14 **A.** One main connection between Energy Justice and energy efficiency is that low-
15 income households pay for energy efficiency as ratepayers but often do not benefit as
16 individuals. To access energy efficiency rebates customers must individually
17 contribute a significant portion of the cost of an energy efficiency measure. Low-
18 income households cannot afford to do so. Furthermore, low-income households are
19 much more likely to be renters. Energy efficiency upgrades are hard to achieve for
20 renters since they are fundamentally an investment in the landlord's property.

21 Nevertheless, energy efficiency and weatherization is an important component
22 of making gas utility service affordable for low-income ratepayers. Housing

Environmental Intervenors/400
Springer/38

1 interventions that promote weatherization are among the most effective options to
2 lower bill costs, improve housing conditions, and improve health outcomes.

3 It is well known that the federal Weatherization Assistance Program is as
4 much an energy efficiency program as it is a homelessness prevention program
5 because it preserves affordable housing stock. It is important that these larger societal
6 benefits are taken into consideration when making choices about funding low-income
7 energy efficiency.

8 **Q. What Energy Efficiency programs does Avista offer to low-income households?**

9 A. Avista has an Oregon Low-Income Energy Efficiency (AOLIEE) program which is
10 operated by the community action agencies in its territory. This program serves
11 households below 200% of FPL. According to the newest program rules, the program
12 pays for any energy-efficiency measures with a grouped Savings-to-Investment ratio
13 of 1 or more, and provides up to \$2,000 per household for administrative
14 costs/program delivery to the agencies. Fuel switching, even if cost-effective, is not
15 allowed.

16 **Q. How could Avista's low-income energy efficiency program be improved from an
17 Energy Justice perspective?**

18 A. In calendar year 2022, AOLIEE served 39 households and spent \$437,490, about \$26
19 per low-income customers.⁴⁰ Only about 50% of the available funds were spent.⁴¹ It
20 is unclear why Avista chronically underfunding and underspending its low-income
21 weatherization program. Low-income weatherization not only reduces Avista's GHG

⁴⁰ 2022 AOLIEE Report, <https://edocs.puc.state.or.us/efdocs/HAQ/rg81haq151254.pdf>.

⁴¹ Advice No. 22-11-G, <https://edocs.puc.state.or.us/efdocs/UAA/uaa161151.pdf>.

Environmental Intervenors/400
Springer/39

1 emissions, but it also can alleviate energy burden and reduce poverty by making bills
2 more affordable.

3 At minimum, Avista must spend all of its existing budget for its AOILEE
4 program. It is unacceptable that low-income ratepayers cannot afford energy bills,
5 and get disconnected from service, when Avista has existing money to spend on
6 weatherizing homes. The Commission should order Avista to spend the total annual
7 available funding for low-income customers.

8 Second, Avista should allow non-energy benefits to be better taken into
9 account when determining what can be funded through the AOILEE program.
10 Currently, only measures with a Savings-to-Investment Ratio larger than one plus
11 some health and safety repairs are allowed.⁴² This disregards the other important
12 benefits that come with weatherization, like better health outcomes, more thermal
13 comfort, and preservation of affordable housing stock. Weatherization workers often
14 identify small, deferred maintenance and safety issues, that are hugely detrimental to
15 the client, but cannot currently be justified as an allowable expense.

16 These benefits can be realized by giving delivery partners more flexibility in
17 how to spend their health, safety, and repair budget (HSR). Currently, community
18 action agencies interpret health and safety as defined by US Department of Energy
19 rules. This means, health and safety generally refers to that of weatherization workers
20 and contractors not dangers to the client (although the latter benefit incidentally).

21 Alternatively, the spending must be justified as necessary to install the weatherization

⁴² Updated rules as of December 2022.

Environmental Intervenors/400
Springer/40

1 measure. In this framework, fixing a step that is a trip hazard would not be allowable,
2 even though it would be beneficial. Delivery partners should be able to spend these
3 funds on any interventions that provide the beneficial effects discussed above. This
4 should include the ability to “buy-down” measures that fail the cost-effectiveness test
5 but would increase comfort substantially.

6 Furthermore, since delivery partners work on a reimbursement-for-work basis,
7 the 15% HSR cap is de facto a per-project cap. It would be best not to attach a
8 specific percentage per project value on this budget, but instead, give the partners a
9 yearly allowance that is more generous. This will allow them to make critical
10 investments that reduce energy use, preserve affordable housing, and improve health.

11 Third, administrative funds need to be increased and distributed differently.
12 As a per-project reimbursement, the funds do little to allow delivery partners to build
13 capacity or conduct outreach to Avista customers. Instead, the funds are solely used
14 for expenses directly associated with the project.

15 Overall, Avista should improve the program through these three changes.
16 However, a simpler, more effective program design might be to contract with delivery
17 partners for a set amount of weatherization projects over a multi-year period, without
18 micro-managing all the details. The latter has much more of a chance to make a large
19 difference.

20 **Q. How can Avista change the implementation of its AOLIEE program to reduce**
21 **GHG emissions while simultaneously reducing energy burden for ratepayers?**

22 A. The AOLIEE program can be utilized to simultaneously meet emission targets and
23 benefit vulnerable low-income customers. Avista should increase the budget for its

Environmental Intervenors/400
Springer/41

1 AOLIEE program to \$3.5 million per year to reach the 3,500 highest potential
2 customers over the next 10 years. Weatherization upgrades provide the greatest
3 decarbonization benefit because they reduce energy consumption and make homes
4 climate resilient. These are the best types of investments a utility can make to reduce
5 GHG emissions, and energy burden for ratepayers. However, Avista greatly
6 underfunds this program. Low-income weatherization is likely a far more cost-
7 effective use of ratepayer funding than high-risk speculative technologies like
8 synthetic methane and green hydrogen.

9 Avista's "Oregon Energy Burden Assessment" identified 3,570 customers as
10 having high-energy burden and high-efficiency potential. At Avista's current rate of
11 program implementation, it will take 92 years to reach all of them. Furthermore,
12 nothing is currently done to proactively reach those customers that have already been
13 identified as the best candidates.

14 As currently administered, community action agencies run weatherization
15 programs, and request reimbursement from Avista's OLIEE program if one of their
16 clients is an Avista customer. However, community action agencies do not target
17 particular individuals for weatherization upgrades. Community Action Agencies often
18 have long waitlists for service, making it hard to conduct this type of targeted
19 outreach. Rather than placing this burden on community action agencies, Avista
20 should proactively target customers with high energy burden in inefficient housing
21 stock that have the potential to greatly benefit from energy efficiency upgrades.

22 Targeting these customers for weatherization program funding would not only reduce

Environmental Intervenors/400
Springer/42

1 energy burden for these ratepayers but would also help to achieve Avista's
2 decarbonization targets by reducing gas consumption.

3 To be successful, Avista must run AOLIEE as a larger-scale program with
4 measurable goals, instead of weatherizing homes only when community action clients
5 happen to be Avista customers. Detailed rules should be replaced with simple
6 performance metrics.

7 **Q. Does this conclude your testimony?**

8 **A. Yes.**

I. INTRODUCTION

Q. Please state your name and position with Community Energy Project and summarize your educational background and experience with energy regulation and proceedings before the Public Utilities Commission.

A. My name is Charity Fain, and I am the Executive Director of Community Energy Project. I have included a description of my credentials in the attached Witness Qualifications Statement.

Q. What is the purpose of your testimony?

A. The purpose of my testimony is to describe how everyday Oregonians will be harmed by the rate hike proposed by NW Natural in its opening testimony. Energy insecurity affects a large number of Oregonians, causing cascading impacts to their health, well-being, and financial security. Relief provided by the Oregon Public Utility Commission (the “Commission”) during the Covid-19 pandemic relieved some of these harms by placing a moratorium on disconnection of services. However, with the lifting of that moratorium, those with the least resources will once again face the risk of disconnection and escalating bill debts.

Governor Brown’s Executive Order directed the Commission to “exercise its broad statutory authority” to “mitigate energy burden experienced by utility customers.”¹ Additionally, pursuant to HB 2475, utilities must consider “differential energy burdens on low-income customers and other economic, social equity or environmental justice factors that affect affordability for certain classes of utility customers[.]”² The statute

¹ Oregon Executive Order 20-04, at 8.
² H.B. 2475, Sec. 2.

1 requires that utilities use these considerations to set differential rates for low-income
2 customers who face financial difficulties paying for gas utility service, and that the utility
3 invest in energy efficiency measures to reduce energy consumption.

4
5 The bill assistance proposal put forward by NW Natural provides a start in this direction,
6 but fails to provide real relief for customers. NW Natural does not place a monetary
7 ceiling on residential bills for low-income customers, but rather offers these customers a
8 percentage reduction on their monthly payments. NW Natural's bill discount program
9 would defray the cost of the proposed bill increase put forward by NW Natural in this
10 rate case. However, low-income ratepayers already cannot afford the existing rates of
11 NW Natural gas service. Further, because the proposed bill assistance only provides a
12 percentage reduction, not a cap on total bill amount, low-income customers remain
13 vulnerable to future rate increases.

14
15 Next, I discuss the importance of investing in home weatherization for low-income
16 Oregonians. Home weatherization is an investment in climate resilience because it
17 makes a dwelling less vulnerable to temperature extremes. Particularly for energy
18 insecure Oregonians, home weatherization can mean the difference between eating a
19 healthy meal and heating one's home. Reducing the need for home heating reduces
20 associated energy costs, lowering the financial stress on low-income ratepayers.

21
22 Through its Public Purpose Charge, NW Natural does fund some weatherization work,
23 but funding for incidental repairs, as described in Schedule 320, is limited to \$1,000 per

1 home. In stark contrast, of the total \$15,000 allocated for energy efficiency upgrades,
2 NW Natural sets aside \$5,000 for gas furnace upgrades. Low-income ratepayers will lose
3 out on any short-term gains in reduced bill costs associated with more efficient gas
4 appliances as gas utility service rates continue to climb. Comprehensive weatherization
5 makes homes more climate resilient, and provides lasting benefits to low-income
6 customers that reduce energy consumption and total bill costs.

7
8 Accordingly, we recommend that NW Natural use all Oregon Low-Income Energy
9 Efficiency (“OLIEE”) funds generated through the Public Purpose Charge for home
10 weatherization. We also recommend that the Commission allocate more for incidental
11 repairs to housing structures that are necessary to safely weatherize a home. We also
12 recommend that the Commission add language to Schedule 320 to promote investments
13 in attic and wall insulation—even where these investments do not achieve the 1.0 cost
14 efficiency ratio. Further, we recommend that the Commission eliminate use of this
15 funding to pay for gas-powered appliances.

16
17 Lastly, I discuss the importance of switching low-income and middle-income customers
18 away from gas utility service. CEP has taken a stance that advocates for fuel switching
19 away from gas utility service to electricity service to decrease carbon emissions and
20 improve indoor air quality. Costs for low-income gas utility customers will likely rise in
21 the coming years as more affluent residential customers leave the gas utility. Yet, despite
22 these important policy reasons for supporting fuel switching away from gas service, it has
23 been difficult for CEP to find funding to actually support fuel switching from gas to

1 electric service given constraints on energy efficiency funding set by the Energy Trust of
2 Oregon. We ask the Commission to eliminate any restrictions on funding from the Public
3 Purpose charge that would prevent the Energy Trust of Oregon from investing in fuel
4 switching away from gas utility service to electric utility service. This will give
5 residential customers the freedom to shift away from gas utility service, if that is the kind
6 of change they desire.

7
8 I also briefly discuss documents produced through data requests that indicate NW Natural
9 is encouraging residential consumers to switch from electric utility service to gas utility
10 service through energy efficiency rebates.

11 **Q. Please explain why income level, energy burdens and insecurity, and home**
12 **weatherization and efficiency are relevant considerations to NW Natural’s**
13 **application for a general rate revision.**

14 A. Governor Brown’s Executive Order directed the Commission to “exercise its broad
15 statutory authority” to “mitigate energy burden experienced by utility customers.”³
16 Additionally, in H.B. 2475, the Oregon Legislature mandated that the Commission
17 consider energy burdens and insecurity, and affordability issues that would set a
18 differential rate for low-income customers to alleviate some of the financial burdens
19 associated with accessing basic needs such as home heating, cooking, and bathing. This
20 law also authorized the Commission to consider mitigating energy burdens through
21 weatherization programs, and energy efficiency measures when setting rates.⁴ Despite
22 this legislative mandate, NW Natural’s opening testimony provides almost no discussion

³ Oregon Executive Order 20-04, at 8.

⁴ See H.B. 2475 Sec. 7(1).

1 of how it intends to alleviate energy burdens on low-income ratepayers through reduced
2 rates, low-income weatherization, or energy efficiency measures. Given the urgent needs
3 of Oregonians, the Commission should take up and consider these issues in this rate case,
4 instead of waiting for future dockets to start addressing this serious problem.

5 II. ENERGY INSECURITY HARMS LOW-INCOME OREGONIANS

6 **Q. Please describe the concept of energy insecurity.**

7 A. Energy is essential to meeting our basic needs—cooking, boiling water, lighting, and
8 heating—and is a prerequisite for good health.⁵ As costs for residential heating, cooling,
9 and other household energy needs increase, they account for a higher percentage of
10 household budgets.⁶ Energy insecurity or energy poverty is a public health threat and is
11 extremely prevalent in the United States.⁷ Energy insecurity is defined as the inability to
12 adequately meet basic household energy needs.⁸ For renters, landlords may not
13 weatherize or invest in energy efficiency due to the high upfront costs, forcing renters to
14 bear the financial burden of increased energy bills. When low-income, energy insecure
15 households choose to defer utility payments in order to prioritize other household
16 expenses, such as rent or mortgage payments, they can enter a cycle of debt accumulation

⁷ K. Jowers, et al., “Housing Precarity & the Covid-19 Pandemic: Impacts of Utility Disconnection and Eviction Moratoria on Infections and Deaths Across U.S. Counties,” Nat’l Bureau of Econ. Research (“NBER”), at 3 (Jan. 2021), <http://www.nber.org/papers/w28394>.

⁸ D. Hernandez, “Understanding ‘energy insecurity’ and why it matters to health,” :Soc Sci Med. 2016 Oct; 167: 1–10, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5114037/>.

1 and payment deferral that puts them at an even greater risk of losing their home
2 altogether.⁹

3
4 There are different aspects to energy insecurity. Economic energy insecurity is the
5 disproportionate financial burden that imposes high energy costs on low-income
6 households.¹⁰ Households often experience a “cliff effect” where they become ineligible
7 for safety net benefits once they gain some form of employment, but they still lack the
8 financial resources to experience full economic self-sufficiency.¹¹ Economic energy
9 insecurity reflects not only the limited resources of the individual to pay for bills, but also
10 the excessive cost for home energy needs. These costs accumulate as arrearages build up,
11 when households are unable to pay their full bill balance. They also occur in cheap or
12 subsidized housing that lacks adequate weatherization and energy efficiency
13 appliances—causing high energy costs to heat homes or use other basic services.¹²
14 Physical energy insecurity includes deficiencies in the physical structure of the home that
15 impacts home heating and increases energy costs—such as malfunctioning heating
16 systems.¹³

17
18 Energy insecurity is an important social, economic, and environmental determinant of
19 health.¹⁴ Energy insecurity is associated with respiratory illnesses, such as asthma and

⁹ K. Jowers, et al., “Housing Precarity & the Covid-19 Pandemic: Impacts of Utility Disconnection and Eviction Moratoria on Infections and Deaths Across U.S. Counties,” Nat’l Bureau of Econ. Research (“NBER”), at 3 (Jan. 2021), <http://www.nber.org/papers/w28394>.

¹¹ *Id.*

¹² *Id.*

¹³ *Id.*

¹⁴ *Id.*

1 pneumonia, as well as with mental health challenges, such as depression and anxiety.¹⁵
2 Service disconnections may strain chronic health conditions and force individuals to seek
3 additional medical care, which compounds the financial burdens placing them at even
4 greater risk of eviction. Energy insecurity often overlaps with food insecurity—meaning
5 that people sometimes have to choose between putting food on the table and keeping the
6 heat on in the winter.¹⁶

7
8 The Energy Information Administration’s most recent Residential Energy Consumption
9 Survey (“RECS”) found that in 2020, almost one-third of U.S. households (27%)
10 reported difficulty paying energy bills, or kept their home at an unsafe temperature
11 because of energy cost concerns.¹⁷ The majority of energy insecure individuals rented
12 (41%), and a large percentage had children in the household (37%). Individuals
13 identifying as either Black or Latino reported higher rates of energy insecurity.¹⁸ Since
14 the time this survey was taken, energy costs have only increased for residential
15 consumers. Energy insecurity is driven by increasing utility costs, as well as
16 neighborhood demographic factors and the quality of housing stock.¹⁹

¹⁵ K. Jowers, et al., “Housing Precarity & the Covid-19 Pandemic: Impacts of Utility Disconnection and Eviction Moratoria on Infections and Deaths Across U.S. Counties,” Nat’l Bureau of Econ. Research (“NBER”), at 3 (Jan. 2021), <http://www.nber.org/papers/w28394>.

¹⁷ EIA, “In 2020, 27% of U.S. households had difficulty meeting their energy needs,” Apr. 11, 2022, <https://www.eia.gov/todayinenergy/detail.php?id=51979>.

¹⁸ *Id.*

¹⁹ K. Jowers, et al., “Housing Precarity & the Covid-19 Pandemic: Impacts of Utility Disconnection and Eviction Moratoria on Infections and Deaths Across U.S. Counties,” Nat’l Bureau of Econ. Research (“NBER”) (Jan. 2021), <http://www.nber.org/papers/w28394>.

1 **Q. How has the Covid-19 pandemic affected energy insecurity?**

2 A. In response to the Covid-19 pandemic, governments adopted policies to reduce impacts
3 of the pandemic on people facing financial difficulties due to the severe disruption the
4 pandemic had on the national economy. These policies included eviction moratoria,
5 prohibiting landlords from evicting tenants, and moratoria on utility disconnection due to
6 non-payment for services.

7

8 The researchers at the National Bureau of Economic Research studied the impact these
9 policy changes had on public health, and specifically Covid-19 infection rates.²⁰ The
10 study evaluated Covid-19 infection rates during the height of the pandemic, from March
11 1, 2020 through November 28, 2020. The study found that cumulatively moratoria on
12 evictions, and utility disconnection effectively reduced the Covid-19 infection rate by
13 8.2%, and that a moratorium on utility shutoffs by itself reduced infection rates by
14 4.4%.²¹ The study found that if governments had imposed moratoria on utility
15 disconnections from the start of their study period, on March 1, 2020, they would have
16 reduced the Covid-19 infection rate by 8.7%.²² The study then evaluated the impact that
17 these policies had on human survival for people infected by the coronavirus. Researchers
18 found that instituting a moratorium on utility disconnection saved significant lives by
19 reducing deaths due to Covid-19 by 7.4%, and if this moratorium had been in place from
20 the start—it would have avoided 9.49% of deaths.²³

21

²⁰ *Id.*

²¹ *Id.*

²² *Id.*

²³ *Id.*

1 This report by the National Bureau of Economic Research demonstrates the profound
2 impact that energy insecurity can have on human health, and the basic survival needs of
3 Oregonians. In Oregon, the Public Utilities Commission placed a moratorium on
4 residential utility disconnections until July, 2021.²⁴ Even with this moratorium in place,
5 during 2020 the Oregon Health Authority recorded 121,440 cases of Covid-19, of those
6 7,416 people were hospitalized from the infection, and 2,061 people died.²⁵ As this data
7 shows, keeping home energy costs low is essential for protecting public health.

8 **Q. Could you please explain why low-income individuals often have a high energy**
9 **burden?**

10 A. Before answering this question, I'd first like to define the term "low-income" because
11 income is the primary lens by which a person qualifies for public assistance programs,
12 including utility benefits such as bill assistance, or bill discount programs. When
13 creating a new program, defining the income threshold will have significant implications
14 on who benefits from the service.²⁶ Defining this term should take into account service
15 territory, equity, and access. If services are limited and highly sought-after, you may
16 choose lower income guidelines to reach those most in need. If a program is new, niche,
17 complicated, or serves a high number of participants, you may want to cast a wider net
18 and increase the income guidelines.²⁷

²⁴ *In the Matter of Investigation Into the Effects of the Covid-19 Pandemic on Utility Customers*, Dkt. No. UM 2114, Order No. 21-164 (May 23, 2021).

²⁵ Or. Health Authority, *Covid-19 2020 Report*, Dec.22, 2021,

<https://www.oregon.gov/oha/covid19/Documents/DataReports/2020-Annual-Data-Report.pdf>.

²⁶ Community Energy Project, *Defining and Verifying Low-Income Participants*,

<https://www.communityenergyproject.org/wp-content/uploads/2021/11/Self-Verification-and-Income-Levels.pdf>.

²⁷ *Id.*

1 The experience of financial insecurity varies depending upon where a person lives.
2 Common income thresholds include the federal poverty line, state median income, and
3 area median income for a smaller area such as a county or city. CEP recommends using
4 either state median income (“SMI”) or Area Median Income (“AMI”) depending on the
5 program provided and its reach. SMI can provide greater advantage to areas with higher
6 poverty rates across the state, but may put higher income urban areas with more
7 expensive living conditions at disadvantage. If the program is city or county-wide, CEP
8 recommends using AMI as that will most accurately reflect the needs of the community
9 being served.²⁸

10
11 In Oregon, 13% of people earned income below the federally defined poverty threshold,
12 representing over half a million Oregonians, 134,000 of which are children.²⁹ People of
13 color experienced double the rate of poverty as white Oregonians from 2014-2018.
14 Approximately 156,000 people live on the edge of homelessness in Oregon, meaning
15 they spend at least 50% on rent and have a range of risks that make their house insecure,
16 including unexpected medical bills, a lay-off, utility shut-off, or a car repair.³⁰

17
18 Next, I’d like to define the term energy burden, to help the Commission understand why
19 low-income households experience financial stress when they pay for utility bills.

20 Energy burden is the percentage of household income spent on energy and transportation
21 costs, as an indication of energy affordability. Home energy burden specifically focuses

²⁸ *Id.*

²⁹ Or. Dep’t of Energy, *2020 Biennial Energy Report*, at 92 (Nov. 1, 2020), <https://www.oregon.gov/energy/Data-and-Reports/Documents/2020-BER-Energy-101.pdf#page=94>.

³⁰ *Id.*

1 on energy bills for a home in comparison to the total income of the household.³¹ In
2 Oregon, if a household spends 6% or more of its total income on energy bills for the
3 home it is considered energy burdened, and if the household spends 10% or more on
4 energy bills it is considered severely energy burdened.³²

5
6 Of Oregon’s approximately 1.5 million households, approximately 375,000 households
7 struggle to pay their energy bills. The Oregon Department of Energy reported that about
8 25% of Oregon households are energy burdened. In addition, the 100,456 households
9 with incomes below 50 percent of the Federal Poverty Level are severely energy
10 burdened and pay an average 23% of their annual income on home energy bills.³³

11 Further, a recent study published in the well-respected publication, *Nature Energy*, found
12 that the Covid-19 pandemic has deepened the prevalence of energy insecurity nationwide
13 among low-income households with indication of growing disparities.³⁴

14
15 The Oregon Department of Energy identifies four key drivers of home energy burden as
16 including:³⁵

- 17 • **Physical:** housing age (older homes are less efficient), energy costs to heat and cool
18 homes, building envelope issues (e.g. poor insulation, leaky roofs, inefficient heating and

³¹ *Id.*

³² *Id.*

³³ *Id.* at 94.

³⁴ T. Memmott, et al., “Sociodemographic disparities in energy insecurity among low-income households before and during the COVID-19 pandemic,” *Nature Energy* volume 6, pages186–193 (2021), <https://www.nature.com/articles/s41560-020-00763-9>.

³⁵ Or. Dep’t of Energy, *2020 Biennial Energy Report*, at 94-95 (Nov. 1, 2020), <https://www.oregon.gov/energy/Data-and-Reports/Documents/2020-BER-Energy-101.pdf#page=94>.

1 cooling systems, and inadequate air sealing), appliances and lighting efficiency,
2 topography and location, and climate change creating weather extremes.

3 • **Socio economic:** economic hardship due to persistent low-income, sudden economic
4 hardship due to illness, unemployment or disaster, inability to afford upfront costs of
5 energy efficiency investments, difficulty qualifying for financing options for energy
6 efficiency investments, and systemic inequalities related to race, income, disability or
7 other factors.

8 • **Behavioral:** informational barriers to access bill assistance and energy efficiency
9 programs, lack of trust about investments or savings opportunities, lack of cultural
10 competence in outreach and education, and increased energy use due to occupant age,
11 number of people, health related needs, or disability.

12 • **Policy related:** insufficient or inaccessible policies and programs for bill assistance,
13 energy efficiency, and weatherization for low-income households, and utility rate design
14 that includes high customer fixed charges that limit customer ability to respond through
15 energy efficiency or conservation.

16
17 High home energy burdens may affect mental and physical health of families through
18 increased financial stress and can be an indicator of poor efficiency of a home. If homes
19 are not heated, cooled, or ventilated properly, they can contribute to asthma, respiratory
20 problems, heart disease, arthritis, and rheumatism.³⁶

³⁶ *Id.* at 95.

1 III. NW NATURAL'S PROPOSED BILL DISCOUNT PROGRAM UNDER H.B. 2475
2 WILL NOT PROVIDE SUFFICIENT RELIEF TO OREGONIANS

3 **Q. Why is NW Natural considering a bill discount program for low-income customers?**

4 A. Pursuant to HB 2475, utilities must consider “differential energy burdens on low-income
5 customers and other economic, social equity or environmental justice factors that affect
6 affordability for certain classes of utility customers[.]”³⁷ Considering these criteria, the
7 Commission “may authorize classifications or schedules of rates applicable to individual
8 customers or groups of customers[.]” otherwise known as differential rates.³⁸ H.B. 2475
9 was passed during the 2021 legislative session.

10 The Commission is setting differential rates through a separate docket, Dkt. No. UM
11 2211, and CEP is participating in that docket. On March 22, 2022, NW Natural
12 presented its first workshop on the bill discount program it is proposing to comply with
13 the requirements of H.B. 2475. CEP participated in the workshop. To our knowledge,
14 the program described in NW Natural’s proposed workshop is preliminary, and the
15 company is accepting comments and feedback on its draft proposal.

16 **Q. Please describe NW Natural’s Proposed Discount Program.**

17 A. NW Natural proposes to provide preliminary relief to comply with the requirements of
18 H.B. 2475 by (1) requesting more funding for its arrearages management program, and
19 (2) instituting an interim bill discount program. The bill discount program will put into
20 place a reduction in the total bill amount while NW Natural prepares its proposal
21 regarding a long-term low-income rate program.³⁹

³⁷ H.B. 2475, Sec. 2.

³⁸ *Id.*

³⁹ NW Natural, “UM 2211—NW Natural’s Interim Action Plan,” PUC Dkt. No UM 2211, Feb. 28, 2022,
<https://edocs.puc.state.or.us/efdocs/HAH/um2211hah153648.pdf>.

1 For its bill discount program, NW Natural proposes adopting a three tiered approach that
2 is income dependent. The company proposes to use state median income (“SMI”) as a
3 qualifier for a bill discount, and would provide discounts ranging from 15% to 25%
4 depending upon need:

- 5 • For households earning 60% SMI, NW Natural would provide a 15% discount on the
6 total monthly bill.
- 7 • For households earning 45% SMI, NW Natural would provide a 20% discount on the
8 total monthly bill.
- 9 • For households earning 30% SMI, NW Natural would provide a 25% discount on the
10 total monthly bill.

11 **Q. Are you asking the PUC to change the structure of NW Natural’s proposed bill**
12 **discount program in this proceeding?**

13 A. No. I do not ask the PUC to change the structure of NW Natural’s proposed bill discount
14 program in this proceeding, because it is undergoing detailed review in Dkt. No. UM
15 2211. CEP participated in the last workshop held by NW Natural regarding its proposal.
16 We will continue to raise critiques regarding our concerns with the bill discount’s
17 program’s design in Dkt. No. UM 2211.

18 **Q. Why do you think it’s important to consider NW Natural’s proposed bill discount**
19 **program in this rate case?**

20 A. The Commission can only allow increases in utility rates that are fair, just, and
21 reasonable. Pursuant to H.B. 2475, the Commission should consider energy burdens, and
22 the ability of low-income customers to afford the rates when setting tariffs.⁴⁰ Whether

⁴⁰ See H.B. 2475 Sec. 1.

1 energy burdened Oregonians can afford NW Natural’s proposed rate increase is directly
2 relevant to this Commission’s duty to protect the public from unreasonable exactions for
3 at least the following three reasons:

4
5 First, while NW Natural has committed to putting in place an interim bill discount
6 program by the effective date that it would receive an order in this rate case, it is
7 imperative to low-income ratepayers that the Commission ensure that such a rate is in
8 place to protect them before approving any order authorizing an increase in rates. As
9 described above, approximately 25% of Oregonians are currently considered energy
10 burdened. Increasing utility rates without putting in place any relief measures would
11 make energy bills even less affordable for these ratepayers who cannot afford their
12 existing utility bills.

13
14 Second, the Commission should consider the discount program when determining the
15 fairness and reasonableness of the rate increase—specifically, would the proposed bill
16 discount program exacerbate or alleviate energy burdens in light of NW Natural’s
17 proposed rate increase? Here, NW Natural’s bill discount program barely provides a
18 drop in the bucket to struggling ratepayers. In 2021, the Commission approved a 13%
19 rate increase for NW Natural residential gas utility customers. If the Commission
20 approves the 12% rate increase that NW Natural seeks in this proceeding, cumulatively
21 over the course of two years Oregon ratepayers will be paying 25% more in gas utility
22 rates.

23

1 For the lowest-income earners earning 30% SMI, NW Natural's proposed bill discount
2 will not provide them relief from their current energy burdens. NW Natural proposes to
3 provide them with a 25% discount on their bills, but if the Commission approves the rate
4 increase, proposed gas utility rates would have increased by 25% in the past two years.
5 Thus, the proposed bill discount program would only ensure that the poorest Oregonians
6 are not harmed by the increase in rates, it would alleviate none of their existing energy
7 burdens. This is concerning because the lowest income ratepayers face severe energy
8 burdens. As noted above, 100,456 households in Oregon earn incomes below 50 percent
9 of the Federal Poverty Level and pay an average of 23% of their annual income on home
10 energy bills. If the Commission approves the rate increase proposed in this case, even
11 with a bill discount program these households would likely continue to contribute a
12 quarter of their total income toward home energy bills.

13
14 Similarly, under NW Natural's proposed bill discount program, ratepayers earning 60%
15 SMI would barely break-even by avoiding the rate increase proposed in this case. In this
16 case, NW Natural proposes increasing rates by 12% for residential customers. NW
17 Natural's bill discount would not alleviate their existing energy burden. Instead, it would
18 simply mean that they would not have to pay for the rate increase proposed by the
19 company in this case. However, ratepayers earning 60% SMI would still have to pay for
20 rate increase approved by the Commission last year.

21
22 Whether low-income households can afford rising gas utility rates is especially relevant
23 now because NW Natural is proposing this rate increase at a time of high inflation when

1 the cost of transportation costs, living expenses, and consumer goods have risen
2 significantly. Consumer prices are 8.5% higher than last year, gasoline prices have
3 increased by 48%, and grocery prices are up 10%.⁴¹

4
5 Lastly, the Commission should consider NW Natural’s bill discount program in light of
6 why NW Natural is asking the Commission to increase rates—especially because the
7 proposed discount would simply cover the company’s proposed rate increase. The total
8 cost to ratepayers of the low-income bill discount program is approximately \$7.4 million.
9 The Commission should compare this cost with the \$11 million that NW Natural requests
10 in its petition to pay for executive compensation and salary bonuses—including \$4
11 million for top executives. NW Natural business executives should not earn recompense
12 from ratepayers through salary bonuses when 25% of Oregonians can barely afford to
13 pay their energy bills.

14 IV. INVESTING IN LOW-INCOME WEATHERIZATION MAKES COMMUNITIES
15 CLIMATE RESILIENT

16 **Q. Why is weatherization one of the most effective solutions to provide relief for energy**
17 **burdened Oregonians?**

18 A. Housing interventions that promote weatherization are among the most effective options
19 to improve health outcomes because they improve housing conditions, lower bill costs,
20 and thereby beneficially improve the socio-economic determinants of health. Studies
21 show that investments in weatherization improve housing conditions, reduce fuel costs,
22 and increase comfort and a sense of pride in one’s home, which then lead to direct and

⁴¹ S. Horsley, “How soaring inflation forces stark choices,” *NPR*, April 12, 2022,
<https://www.opb.org/article/2022/04/12/how-soaring-inflation-forces-stark-choices/>.

1 indirect improvements in general health, respiratory health, and mental health.⁴²

2 Improved health outcomes mean less sick time away from school and work, helping
3 parents and children stay productive and thriving. Addressing energy insecurity through
4 home weatherization has the potential to break chronic cycles of hardship along this path
5 of disadvantage.⁴³

6
7 Weatherization service typically refers to programs that address the efficiency of the
8 building envelope and building systems (such as unit heating, cooling, lighting, windows,
9 and water heating) through energy audits and upgrades. However, as discussed further
10 below, we recommend that the Commission expand this definition to include critical
11 repairs to homes necessary for safe installation of weatherization services.

12 Weatherization programs reduce energy consumption by low-income consumers, which
13 in turn lowers energy bills.

14 **Q. How does home weatherization make Oregonians more climate resilient and reduce**
15 **climate emissions?**

16 A. As climate change impacts the planet, it will create more extreme weather events in
17 Oregon that require significant home energy expenditures for temperature regulation—
18 heating in winter and cooling in the summer. Weatherizing homes makes them more
19 resilient to these temperature extremes because it changes building envelope efficiencies
20 to reduce heat loss in the winter, while also keeping buildings cooler in the summer.

21 These changes reduce energy consumption by low-income customers, and make homes

⁴² D. Hernandez, “Understanding ‘energy insecurity’ and why it matters to health,” *Soc Sci Med.* 2016 Oct; 167: 1–10, <https://www.ncbi.nlm.nih.gov/pmc/articles/PMC5114037/>.

⁴³ *Id.*

1 more comfortable to live in and less expensive. These changes also have the potential to
2 significantly reduce greenhouse gas emissions. A study prepared by the Commission, the
3 Oregon Department of Energy, and the Oregon Housing and Community Services found
4 that investing in weatherization and energy efficiency in low-income homes would
5 reduce greenhouse gas emissions by 396,000 metric tons of CO_{2eq} annually and would
6 cumulatively save low-income rate payers \$114 million annually.⁴⁴

7 **Q. Why is it important to consider low-income weatherization programs in this rate**
8 **case?**

9 A. Weatherizing homes of low-income ratepayers would reduce their energy burdens and
10 would make their monthly gas utility expenses more affordable. In E.O. 20-04, the
11 Governor tasked the Commission with considering energy burdens.⁴⁵ Similarly, in H.B.
12 2475, the Legislature tasked the Commission with considering energy burdens on low-
13 income communities when setting rates.⁴⁶ Further, the Oregon Legislature specifically
14 authorized the Commission to mitigate energy burdens through weatherization:

15 In addition to comprehensive classifications, tariff schedules, rates and bill
16 credits, the Public Utility Commission may address the mitigation of energy
17 burdens through bill reduction measures or programs that may include, but
18 need not be limited to, demand response or weatherization.⁴⁷

19 NW Natural imposes a Public Purpose Charge on all ratepayers in Oregon to pay for
20 energy efficiency rebates and low-income weatherization programs. It is important for
21 the Commission to analyze and review these programs in this proceeding because they

⁴⁴ S. Beaulieu, et al., *Ten-Year Plan: Reducing the Energy Burden in Oregon's Affordable Housing*, Or. Dept of Energy, Or. PUC, and Or. Housing & Community Services Dep't, www.oregon.gov/energy/Get-Involved/Documents/2018-BEEWG-TenYear-Plan-Energy-Burden.pdf.

⁴⁵ Oregon Executive Order 20-04, at 8.

⁴⁶ H.B. 2475, Sec. 2.

⁴⁷ H.B. 2475, Sec. 7(1).

1 can lower energy burdens for low-income customers, making gas utility rates more
2 affordable.

3 **Q. Please describe how NW Natural customers currently support weatherization and**
4 **energy efficiency measures in low income homes.**

5 A. Pursuant to Schedule 301, NW Natural imposes a Public Purpose Charge on all
6 residential and commercial gas utility customers to pay for low-income weatherization
7 programs, and energy efficiency programs. A portion of this public purpose charge
8 (0.85% of the total energy use billed) is used to pay for low-income weatherization and
9 energy efficiency programs described in NW Natural’s Schedule 320, referred to as the
10 Oregon Low-Income Energy Efficiency (“OLIEE”) Program.⁴⁸ To qualify for benefits,
11 households must meet the following requirements: (1) the dwelling has a gas service line
12 installed in the home, (2) the primary space heating is powered by gas, and (3) the
13 premises currently has or will have an active account with the company.⁴⁹
14 Through the OLIEE Program, NW Natural funds community action program (“CAP”)
15 agencies to perform weatherization services and energy efficiency upgrades for low-
16 income ratepayers. NW Natural solicits agencies to perform home weatherization
17 services for low-income ratepayers. NW Natural then reimburses those agencies for
18 costs up to a certain amount. Schedule 320 allows CAP agencies to charge up to \$1,600
19 for program administration services. For each dwelling, the CAP agencies can spend up
20 to \$15,000 per home on weatherization and energy efficiency upgrades. Further, CAP
21 agencies can conduct incidental home repairs that average up to \$1,000 per home to

⁴⁸ Exhibit Coalition/302, NW Natural Gas Company, Schedule 320, Third Revision.

⁴⁹ See Schedule 320.

1 protect the health and safety of residents and ensure the efficacy of the efficiency
2 upgrades.

3 **Q. What weatherization and energy efficiency upgrades can CAP agencies make using**
4 **these funds?**

5 A. Schedule 320 requires CAP agencies to perform a home energy audit using Energy
6 Analyzer Software that then recommends what weatherization upgrades a home would
7 need. Schedule 320 requires that weatherization upgrades meet a savings to investment
8 ratio of 1.0 or better. This ratio is calculated using Oregon's residential gas price as
9 determined by the Energy Information Administration. There are two exceptions to this
10 requirement – regardless of efficiency ratios, CAP agencies can upgrade and replace gas
11 furnaces. Of the total \$15,000, NW Natural sets aside \$5,000 for gas furnace upgrades.
12 There is also an exception to this requirement for measures identified as cost effective by
13 a third-party such as the Energy Trust of Oregon. Finally, funds may be available for the
14 costs of health, safety, and repair measures, but each agency must ensure that these funds
15 average not more than \$1,000 per home.

16 **Q. What concerns do you have about limiting expenditures for low-income residences**
17 **in this manner?**

18 A. I have two concerns. First, NW Natural sets aside \$5,000 for gas furnace upgrades, even
19 when those investments would not be cost effective. This set aside will likely impose
20 greater cost on low-income customers in the future as gas utility rates rise and
21 Oregonians transition away from gas to electric utility service. Second, \$1,000 per home
22 is extremely low. Often, critical upgrades are necessary before weatherization
23 investments can be effective.

17
18
19

As described in the testimony of Nora Apter, Oregonians need to transition away from gas utility service to avoid climate catastrophe.⁵⁰ Continued investment in growth of the fossil gas system will likely result in stranded assets. These stranded assets will cause gas utility rates to significantly increase in the coming decade, and low-income customers who lack the financial resources to transition to electric utility service will disproportionately bear the costs of escalating rates.⁵¹ Given these concerns, setting aside funds to specifically finance gas furnace upgrades, even when those upgrades are not cost effective, will cost low-income customers more money in the future as gas utility service bills continue to rise.

The exception for gas furnaces was created in the most recent update to Schedule 320.⁵² In that update, NW Natural recommended changing the program to add an additional \$5,000 per dwelling to specifically pay for heating upgrades. Further, NW Natural proposed clarifying the language in the “Energy Efficiency Measures” section to specifically allow for gas furnace upgrades, even when these upgrades are not cost effective. The previous Schedule 320 policy required *all* weatherization and energy efficiency upgrades to meet the 1.0 ratio cost effective requirement.⁵³

⁵⁰ Coalition/100/Apter/5-11

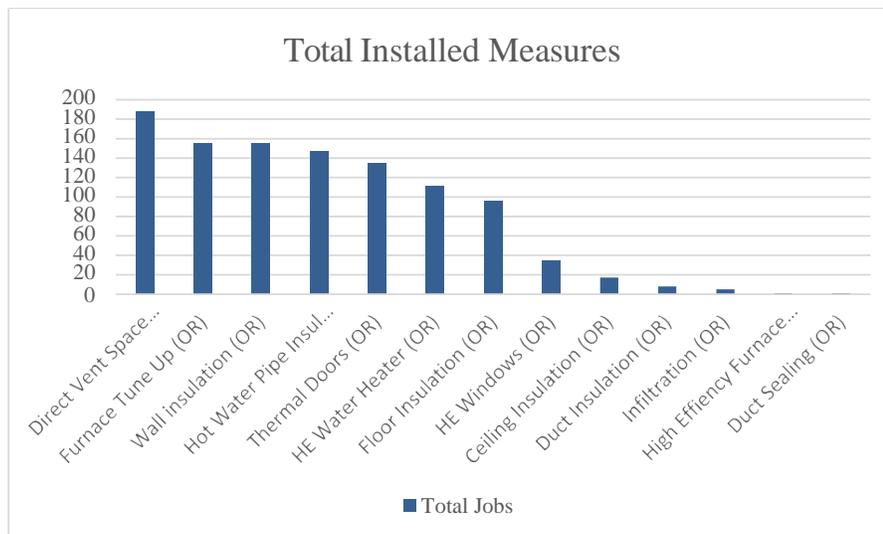

⁵¹ Coalition/100/Apter/14-15

⁵² NWN OPUC Advice No. 19-19, Schedule 320—Oregon Low-Income Energy Efficiency (OLIEE) Programs, Nov. 19, 2019, <https://edocs.puc.state.or.us/efdocs/UAA/uaa17445.pdf>.

⁵³ NWN OPUC Advice No. 16-01, Schedule 320, Oregon Low-Income Energy Efficiency Program (OLIEE), at p. 6, Jan. 29, 2016, <https://edocs.puc.state.or.us/efdocs/UAA/uaa123344.pdf>.

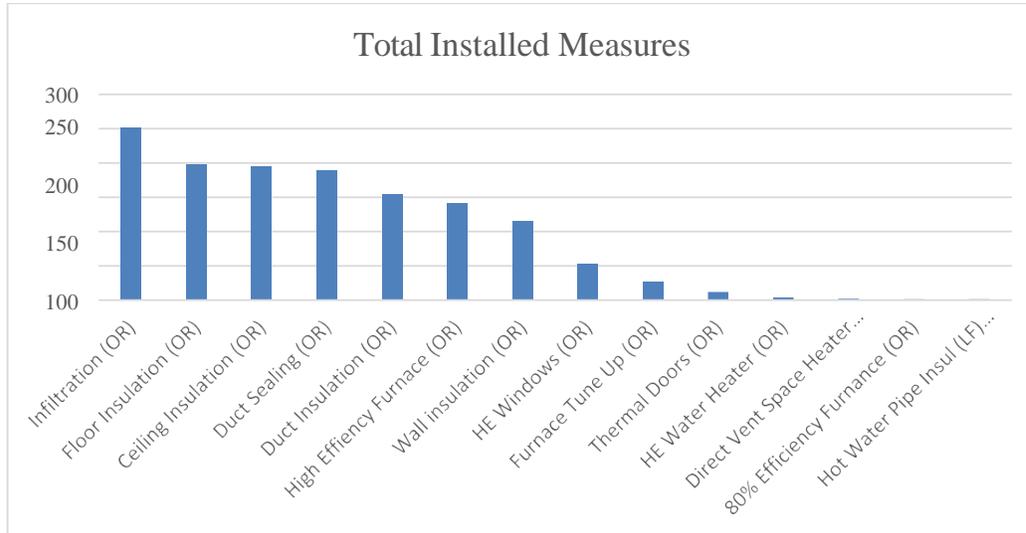

1 The impact of this policy change—creating an exception for gas furnaces—has meant a
2 significant rise in the number of gas furnaces installed in low-income homes through the
3 OLIEE Program. Below are a series of charts taken from the annual reports prepared by
4 NW Natural describing weatherization and energy efficiency upgrades funded by the
5 OLIEE Program. Each graph depicts the number of weatherization measures installed
6 annually by type.

Oregon Program Year: October 2016- September 2017⁵⁴

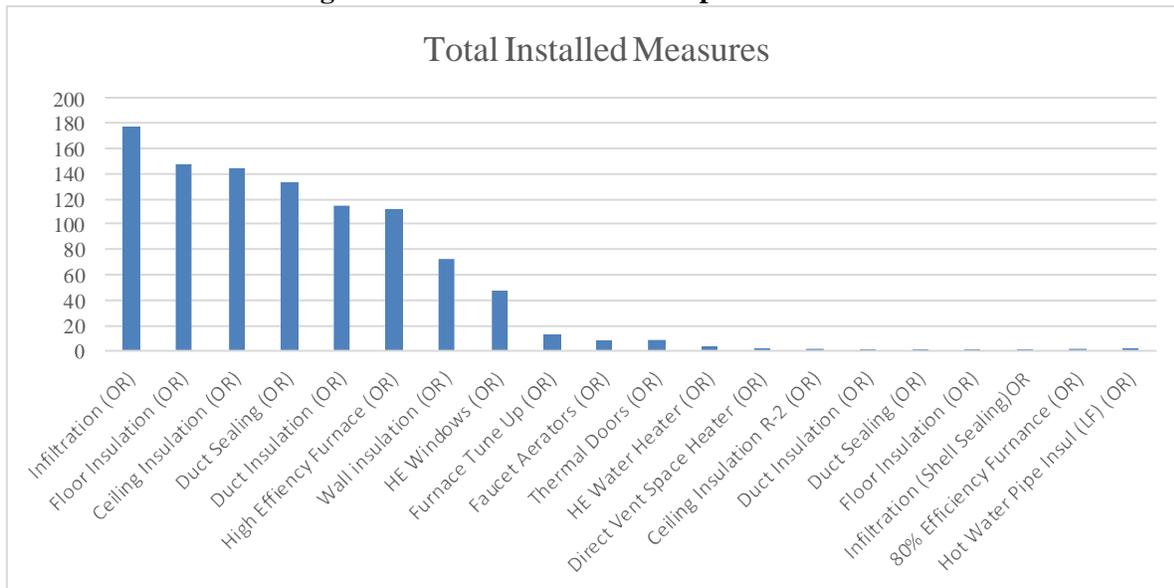

⁵⁴ NW Natural, RG-13 - Oregon Low-Income Energy Efficiency Program (OLIEE) Annual Report (Program Year 2016-2017), <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq103413.pdf>.

Program Year: October 2017- September 2018⁵⁵

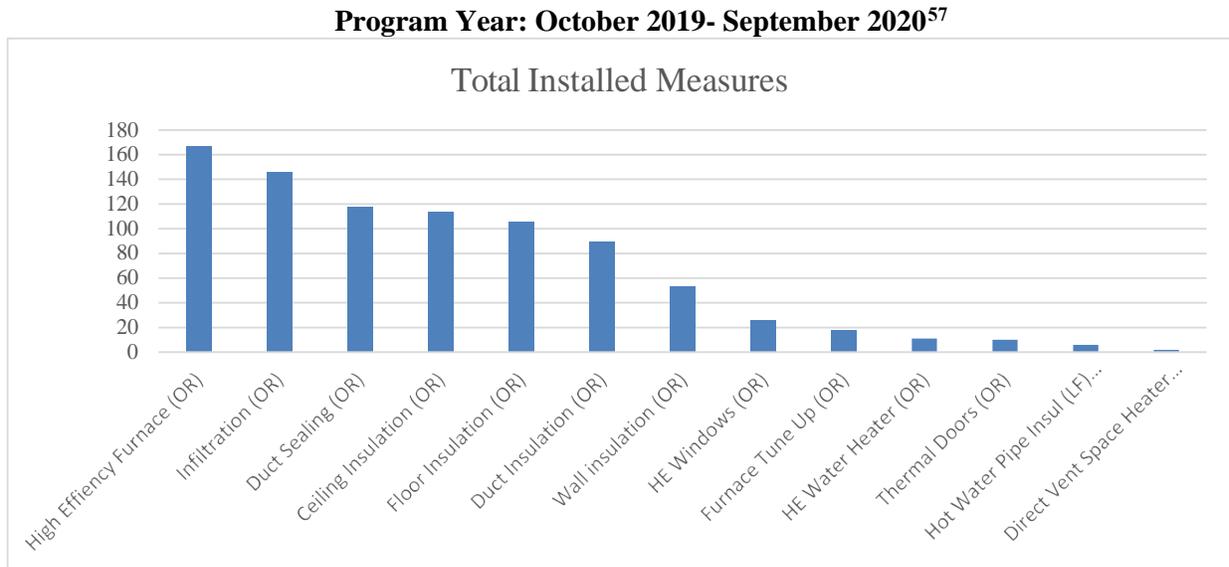

Program Year: October 2018 - September 2019⁵⁶

⁵⁵ NW Natural, RG-13 - Oregon Low-Income Energy Efficiency Program (OLIEE) Annual Report (Program Year 2017-2018), <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq162154.pdf>.

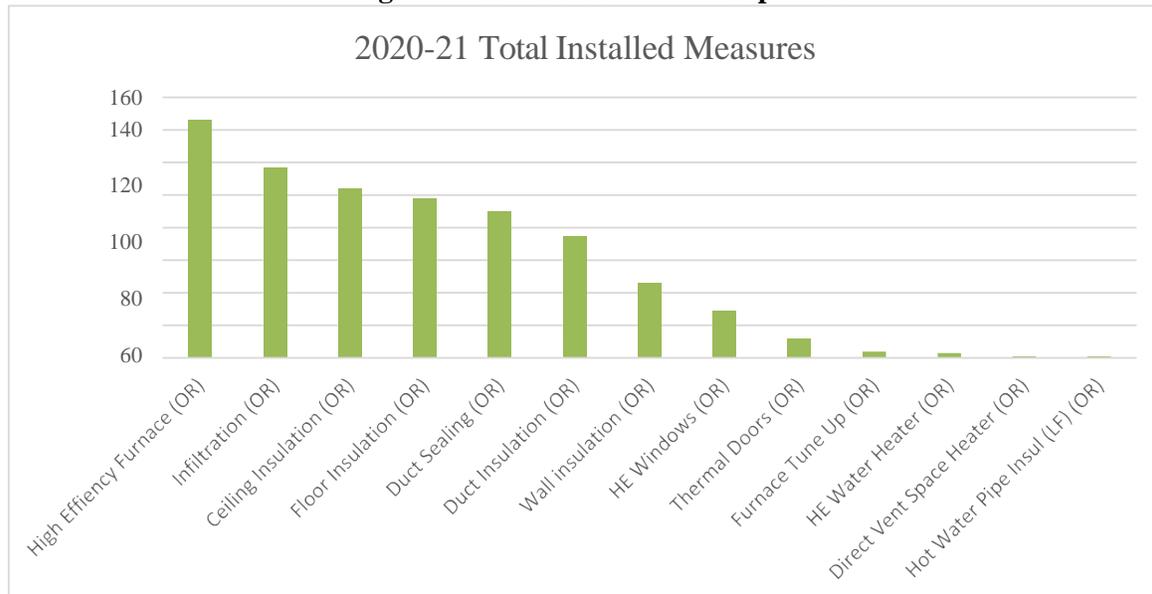

⁵⁶ NW Natural, RG-13 - Oregon Low-Income Energy Efficiency Program (OLIEE), Annual Report (Program Year 2018-2019), <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq121533.pdf>.

1 As shown above, from 2016-2019, CAP agencies did not install many gas furnaces, presumably
2 because these investments were not cost effective. However, once NW Natural changed its
3 policy in 2019 to create an exception and a \$5,000 allowance for gas furnaces, gas furnaces
4 became the primary energy efficiency upgrade in homes.

⁵⁷ NW Natural, RG 13—Oregon Low-Income Energy Efficiency Program (OLIEE) Annual Report (2019-2020 Program Year), <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq10449.pdf>.

Program Year: October 2020 - September 2021⁵⁸

1 Low-income weatherization and efficiency upgrades funded by the OLIEE program are
2 paid for by ratepayers through the Public Purpose Charge. These funds should not be
3 used to preferentially install gas furnaces, which keep low-income customers connected
4 to gas utility service. Keeping low-income customers connected to gas utility service,
5 while other more affluent customers transition away, could significantly increase costs
6 for low-income ratepayers in the future.

7 **Q. Are there any other concerns that you have about the administration of the OLIEE**
8 **program?**

9 A. Yes. In 2019, NW Natural amended Schedule 320 to increase the amount of the Public
10 Purpose Charge that funds the OLIEE Program.⁵⁹ The goal of this change was to
11 increase funding for the program and enable weatherization of more homes. This policy

⁵⁸ NW Natural, RG 13—Oregon Low-Income Energy Efficiency Program (OLIEE) Annual Report (2020-2021 Program Year), <https://edocs.puc.state.or.us/efdocs/HAQ/rg13haq10637.pdf>.

⁵⁹ NWN OPUC Advice No. 19-19, Schedule 320—Oregon Low-Income Energy Efficiency (OLIEE) Programs, Nov. 19, 2019, <https://edocs.puc.state.or.us/efdocs/UAA/uaa17445.pdf>.

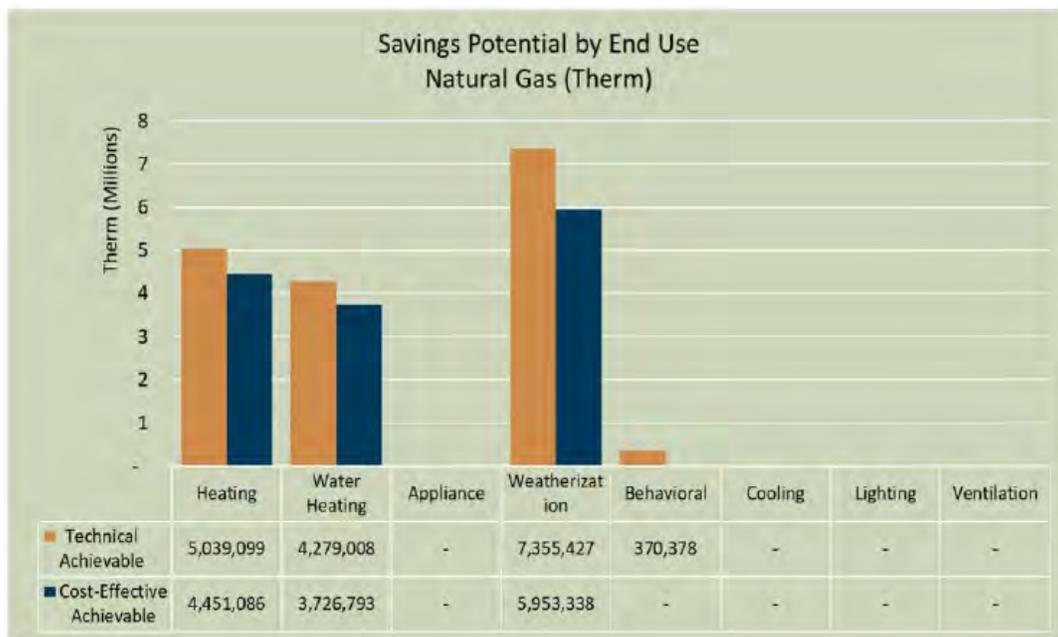

1 change generated more revenue to finance low-income weatherization, but an analysis of
2 the annual reports reveals that NW Natural has not spent all of the revenue on low-
3 income weatherization. In program year 2019-2020, the Public Purpose Charge
4 generated approximately \$4 million for the OLIEE program, but NW Natural only spent
5 \$2.3 million. In program year 2020-2021, the Public Purpose Charge generated
6 approximately \$4.8 million, but NW Natural only spent \$2.2 million on the OLIEE
7 program that year. It is unclear from NW Natural's annual reports what happens to the
8 surplus funds, and why all the funds are not used for home weatherization programs. We
9 are interested to gain more information from NW Natural on this issue, and reserve it for
10 future analysis in the next round of responsive testimony.

11 **Q. What changes would you recommend that the Commission make to Schedule 320**
12 **and the OLIEE program administered by NW Natural?**

13 A. I strongly recommend that the Commission eliminate the use of OLIEE program funds to
14 pay for gas furnaces. As NW Natural's own documents reflect, gas furnaces often are not
15 cost effective. Further, upgrading this equipment means that low-income customers
16 remain connected to gas utility service, instead of fuel switching to electric utility service.
17 As documented in the testimony of Nora Apter, staying connected to gas utility service
18 will likely impose significant additional costs on ratepayers in the future, as the company
19 attempts to decarbonize its product and more affluent customers fuel-switch away to
20 electric utility service.

21
22 I also recommend that the Commission add language to Schedule 320 to promote
23 investments in attic and wall insulation—even where these investments do not achieve

1 the 1.0 cost efficiency ratio. The Energy Trust of Oregon (“ETO”), the Commission, and
 2 the Oregon Housing and Community Services (“OHCS”) studied how to reduce the
 3 energy burdens of low-income Oregonians. The resulting report evaluated technically
 4 achievable weatherization and energy efficiency upgrades, and compared cost effective
 5 measures to determine what investments would deliver the highest reduction in energy
 6 burden to low-income customers. With regard to gas utility customers, the Commission,
 7 ETO, and OHCS found that wall insulation and smart thermostats are the best
 8 weatherization and energy efficiency upgrades that would most significantly reduce
 9 energy consumption in low-income dwellings.

10 Overall, the report found that weatherization would deliver the greatest savings in therms.
 11 The report further noted high-performance insulation in exterior walls, and the
 12 conventional technologies of duct and air sealing, as the most cost effective way to
 13 reduce energy burdens. Since the Commission, ETO, and OCHS already found these

1 measures cost effective, they should be installed in low-income homes; the Commission
2 should add this to Section 320.

3
4 Finally, I strongly recommend that the Commission increase allocation of funds for
5 healthy, safety, and repair measures, and eliminate the requirement that agencies must
6 spend no more than \$1,000 on average per home.

7 V. THE CLIMATE AND LOW-INCOME RATEPAYERS NEED FINANCIAL
8 RESOURCES TO FUEL SWITCH AWAY FROM GAS UTILITY SERVICE.

9 **Q. How will fuel switching from gas to electric utility service reduce energy burdens
10 and make homes more climate resilient for Oregonians?**

11 A. Frontline communities are disproportionately impacted by the effects of climate change.
12 These communities typically do not have the capacity or resources to adequately prepare
13 for or recover from extreme weather events, and they often experience more economic
14 hardship in the wake of climate-related disasters. Over the last three years, 68% of
15 CEP's clients have been people of color, 95% were low-income, and 74% were women.
16 All of our clients have disproportionately high safety and energy burdens, which
17 compromise their ability to remain housed. The pandemic and recession have made these
18 problems worse.⁶⁰

19
20 Investments in electrification can help unlock cost savings and improve health for low-
21 income families. According to data from the U.S. Census Bureau's American Housing
22 Survey, there are an estimated 35 million low-income U.S. households that could save a

⁶⁰ Community Energy Project, *CEP's Stance on Electrification*, <https://www.communityenergyproject.org/wp-content/uploads/2021/11/CEP-Policy-on-Electrification-1.pdf>.

1 combined \$15 billion per year on their energy bills if they were using new, efficient
2 electric space and water heaters.⁶¹ These home upgrades would help provide long-term
3 energy affordability for families and reduce their need for energy assistance, which could
4 in turn stretch program dollars to further assist more low-income households in need.
5 Reducing energy costs will make bills more affordable and reduce the risks of shut-offs.

6
7 Unfortunately, low-income households have been left behind by advances in
8 electrification. More and more affluent households are seizing the benefits of electric
9 space and water heating and rapidly electrifying their homes. Lower income households,
10 unable to afford the high costs of electric space and water heating, are not. When
11 increasing numbers of households electrify, the fixed connection costs of gas utility
12 service will rise as utilities are forced to increase costs to prevent financial losses due to
13 their eroding customer base. Lower income homeowners and renters, unable to afford to
14 leave the fossil gas system, will be left to bear the burden of these higher system costs.

15
16 At present, community organizations like CEP, that are tasked with making energy
17 efficiency upgrades for low-income customers, struggle to do what is in the best interest
18 for both our clients and the environment because of outdated restrictions that prevent us
19 from using energy efficiency dollars to support electrification, and cost-effectiveness
20 calculations that limit the amount of financial support we can provide. For example,
21 funding for one of CEP's programs will only allow us to install high-efficiency electric

⁶¹ T. Higgins, A. M., Matusiak, A., Calisch, S., & Lai, D, *To decarbonize households, America needs incentives for electric appliances*, Center for American Progress, (Jun. 3 2021), <https://www.americanprogress.org/issues/green/reports/2021/06/03/500084/decarbonize-households-america-needs-incentives-electric-appliances/>.

1 heat pump water heaters in homes where the old water heater is also electric. CEP is thus
2 unable to help the 60% of clients we serve in Portland who currently have gas water
3 heaters—leaving energy savings and substantial carbon emissions reductions on the table.
4 Like CEP, CAP agencies are required to replace their clients’ old oil and gas furnaces
5 with new oil and gas furnaces instead of efficient electric heat pumps.

6 **Q. What changes should the Commission make to promote fuel switching from gas to**
7 **electric utility service for low-income customers?**

8 A. Without critical policy and funding mechanisms to ensure equitable electrification,
9 frontline communities will shoulder the worst impacts of the climate crisis. CEP supports
10 electrification and recommends the following policy changes to that end:

- 11 1) To support these communities’ need to electrify their space and water heating, we
12 must change the Oregon PUC’s policies that prevent utilities and programs like those
13 at Energy Trust of Oregon from spending rate-payer dollars on electrification.
- 14 2) In addition, utility cost-effectiveness calculations must be adjusted to account for
15 more than just “face-value” costs and benefits to consider other important factors
16 including the social cost of carbon and the benefits of improved health and quality of
17 life, which disproportionately impact lower-income communities.
- 18 3) Alternately, utility cost-effectiveness calculations should not be used for low-income
19 programs as deferred maintenance in houses in need of electrification results in costs
20 that make such calculations impractical.
- 21 4) Funding for megaprojects to support electrification needs to be increased at the local,
22 state, and federal levels.

23

1 CEP has boots on the ground now and is ready to help transition hundreds of low-income
2 households to energy efficient, electric space and water heaters, but we need funding and
3 support from the Commission, utilities, local, state, and federal governments to make this
4 work happen.

5 **Q. Does this conclude your direct testimony?**

6 A. Yes, it does. Thank you.

1. METHODOLOGY

1.1 GENERAL APPROACH

This energy burden assessment relies on collecting customer-level data, modeling missing attributes, then aggregating key metrics by geographic, demographic or building variables for analysis. The customer data comes from various sources as described in the rest of Section 1. Some demographic attributes were modeled or inferred using statistical techniques due to lack of primary data in the Customer Information System (CIS) or other sources. American Community Survey data was mainly used to sanity check aggregate statistics of customer-level data at the census tract level.

Three types of metrics were calculated:

- Metrics related to energy burden based on demographic and geographic characteristics
- Participation and funding in Energy Assistance Programs
- Customer energy use characteristics

The final dataset and results were packaged in a web dashboard for Avista staff.

1.2 DATA SOURCES

The data sources leveraged for the analysis are described in this section.

DATA PROVIDED BY AVISTA

Customer Information System (CIS): This data included monthly electricity bills for 36 months in 2019-21, account numbers and service addresses. A separate data extract included the dates and customer accounts that received late payment notices, allowing us to calculate the on-time payment rate for different customer segments.

Direct Assistance Program Data: We received a list of participating accounts in LIHEAP and the Low Income Rate Assistance Program (LIRAP) program in 2019-21, along with discount amounts and dates. This allowed us to calculate the total assistance funding at the household level.

Energy Efficiency Program Data: We received a list of participating accounts in the low income weatherization program in 2019-21, along with installed measures,

estimated therm savings and funding. The deemed therm savings were used to estimate the annual bill impact based on average bill savings of \$0.98/therm.

Agency Profiles: Avista provided demographic and program participation profiles for the four community action agencies in its service territory.

DATA OBTAINED FROM OTHER SOURCES

Geocoding: All customer addresses were geocoded to a latitude/longitude pair to facilitate geographic analysis. In addition, we mapped the latitude/longitude pairs to census tracts, block groups and blocks in order to pull additional aggregate statistics.

County Assessor Data: We obtained publicly available assessor data from Douglas, Jackson, Josephine, Klamath and Union counties. The assessor data included appraised values for homes, square footage, building year built, building use codes (residential, mobile homes, commercial and industrial), number of buildings on a land parcel, and other minor data points that were useful for performing general QA.

The addresses in this dataset were standardized to US Postal Service format, then matched with addresses in the CIS data. Some addresses existed in the CIS data but not in the assessor data (typically happens when multiple buildings occupy the same land parcel).

Customer Demographics: Data was purchased from a third-party data compiler that aggregates data from

public sources and credit bureaus. This data was mapped to the CIS dataset using customer addresses and included total household income, age of occupants, and homeownership status for a little over 77% of residential households. Demographic attributes for some customers were modeled due to lack of primary data in CIS or other sources. The modeling approaches are described in the next section.

American Community Survey (ACS): ACS data (2019 5 year estimates) was primarily used for QA to ensure that aggregate counts for various demographic attributes match the expected distributions from ACS.

1.3 FINAL ATTRIBUTES AND METRICS

The calculation methods for the metrics and attributes used in this report are described in this section. For all attributes, we also captured metadata related to the source of data and the confidence in the value (for example, data from primary sources has a high confidence, while modeled data has lower confidence). All of the data is robust for aggregate analysis, while high confidence data is better suited to customer-level marketing and program targeting.

Household Income: Income data was only available for 77% of households in Avista's Oregon service territory. To estimate the incomes for the remaining 23%, we used an iterative procedure.

Starting from the households for which we had income data, we applied an imputation model – this is a statistical method for filling in missing data by using the home's location, home value and building type. In other words, each household is assigned an income range based on the incomes of similar households in their area. This is the initial guess for that household's total annual income. Then, an iterative calibration procedure uses

those initial guesses and adjusts them to ensure that the overall income distribution within a census tract is similar to the overall income distribution from the ACS. The calibration iteratively takes a small sample of households (under 10%) and bumps them up or down by one income level within certain bounds until the modeled income distribution resembles the ACS income distribution.

Validation: From prior validation analysis, this modeling procedure yields fairly good results - it is able to reproduce the incomes accurately for a hold-out set of data from the original dataset, with errors under \$5k/year in household income for 85% of the test set and errors under \$20k/year in household income for the other 15%. Larger errors tend to happen for households with a larger income, which are not the focus of this study anyway. More importantly, the aggregate metrics related to energy burden (e.g. energy assistance need and overall burden) are very robust to errors in individual results because we are ensuring that overall distribution of

income is as accurate as possible, while the energy use does not change dramatically among similar households.

Poverty Status: The number of people living in a household cannot be easily obtained from any public data sources. This makes it difficult to identify a household's poverty status compared to the Federal Poverty Limit or the Area Median Income, both of which are defined by household size. The median household size in the five Avista counties in Oregon varies from 2.3 to 2.4 and household size for income thresholds is a configurable parameter in the data dashboard (for sensitivity analysis).

Building type: Meters were classified into one of five building types: single family, mobile homes, multifamily apartments, commercial or master metered and unoccupied. Commercial meters were those tagged with a specific commercial use by the county assessor or that were on a commercial rate class (unless they were clearly apartments). Additionally, we filtered out meters using in excess of 2,000 therms/year as those are likely associated with commercial uses or are master metered. Meters that showed energy consumption less than 20 therms/year were flagged as potentially unoccupied.

Overall, the number of household meters excluding commercial and unoccupied meters was approximately 94,000. Addresses with multiple units or tagged as multifamily properties by the county assessor were flagged as apartments. Mobile homes were either labelled as such by the county assessor or were sited in a mobile home park. Non-multifamily homes with addresses but without an identified land parcel are usually accessory dwelling units, trailers or mobile homes – these were all included in the “mobile home/other” category.

Validation: The aggregate housing type counts (91% single family, 6% multifamily and 3% mobile/ ADU homes) are similar to data from the DOE's LEAD tool for gas-heated homes in the five Avista counties (87% single family, 8% multifamily and 5% mobile/manufactured/ADU homes), although the LEAD tool only accounts for 67,000 gas-heated households, greatly underestimating the 94,000 actual residential customers in Avista's CIS system.

Homeownership Status: Homeownership status (rent vs. own) was determined using two methods. The demographic dataset included homeownership for approximately 77% of customers. For the other 23%,

households in multifamily apartments were tagged as “Likely Renters”, and households without any account changes during the two year analysis period were tagged as “Likely Homeowners”. Households with an account change and an accompanying sales record were also tagged as “Likely Homeowners”. This approach can potentially undercount long-term renters and tag them as homeowners. However, the accuracy of the approach seems sufficient for the purposes of large-scale aggregate analysis as in this study.

Validation: The owner-occupied housing rate for gas-heated homes in the DOE LEAD tool is approximately 71% in the five Avista counties. The homeownership rate from this analysis is up to 80% (56% confirmed and up to an additional 24% of either homeowners or long-term renters), so the two estimates fall within each other’s margin of error.

Gas Burden and Energy Efficiency Potential

thresholds: These thresholds were set as follows:

- High-burden threshold: Greater than 3%¹
- High efficiency potential threshold: Greater than 0.4 therms/sq.ft/yr.

Gas Burden: Gas burden for a household is calculated simply by dividing annual gas expenses by gross household income.

$$\text{Gas Energy Burden} = \frac{\text{Annual Gas Expenses}}{\text{Annual Household Income}}$$

Excess Burden: Excess burden is the portion of a household's energy burden in excess of the 3% threshold.

Excess Burden

$$\begin{aligned} &= \max(0, \text{Gas Energy Burden} \\ &\quad - \text{High Burden Threshold}) \\ &\quad \times \text{Annual Household Income} \end{aligned}$$

On-Time Payment Rate: This is the proportion of all energy bills that did not require a late payment or disconnect notice to be sent out.

Energy Assistance Funding: The dollar amount of funding flowing through energy assistance programs (including discount, donation and weatherization programs) through discounts or rebates.

Customer Bill Reductions (Avoided Burden): The total bill impact from energy assistance programs. This is the same as the assistance funding for direct assistance programs and is based on measure savings for energy efficiency programs as described in Section 1.2.

¹ The state of New Jersey uses a split high burden threshold by fuel: for customers with natural gas and electric service from different utilities, no more than 3% of income should be devoted to each. We use this as a high-burden guideline for gas heated homes in this assessment, recognizing that

there could be different interpretations or methods for designating customers as "high-burden". The dashboard allows for adjusting the gas burden thresholds, in order to test different reasonable thresholds.

Avoided Need: The total bill impact specifically for customers flagged as “high-burden”.

Census Tract Statistics: Since each customer has been mapped to a census tract and block group, we are also able to match customers to census tract average statistics (e.g. highly impacted communities, presence of children, non-English speakers, education level, environmental pollution etc.).

Energy Assistance Need: This is the sum of excess burden across all customers.

DOE Disadvantaged Community Score: The number of community vulnerability criteria (social, health and environmental) that are exceeded in a census tract. This data comes from the Department of Energy’s Climate and Environmental Justice Screening Tool.

1.4 SOURCES OF UNCERTAINTY

- **Household income** is a dynamic piece of data as residents move in and out of homes and income data can become outdated within a year or two.

- **Poverty status.** Since household size cannot be reliably captured through any available data source, household poverty status is subject to uncertainty. The Federal Poverty Limit and Area Median Income both use household size as a scaling factor. So, for any analysis, it is recommended to perform a sensitivity analysis with the household size assumption (this is facilitated through the web dashboard). In general, using 2 and 3 person household assumptions has been found comparable to statistics from income-verified programs.

- **Individual vs. aggregate data usage.** The underlying dataset has customer-level flags for data quality – data from primary sources is considered high quality while modeled data is considered medium or low quality, depending on the availability of supporting sources of information (example, home values and location). Higher quality data can be used for individual program targeting,

lower quality data can be used for program design and aggregate reporting.

- **Building types.** There is some uncertainty in the classification of building types as described in Section 1.3. This could result in misclassifying non-residential meters as occupied households or vice versa.

- **Achievable reductions in energy assistance need.** This analysis presents a *technical* energy assistance need based on energy burden. However, in our experience due to a variety of barriers like access to information, application process difficulties, stigma and lack of trust, many customers may not be willing to participate in programs, regardless of program design or available benefits. Understanding the *economically achievable* reduction in energy assistance need through utility programs would require a qualitative research of non-participants in a utility's service area.

2. AVISTA'S ENERGY BURDEN BASELINE

2.1 AVISTA'S OREGON RESIDENTIAL SECTOR PROFILE

Avista's service territory in Oregon state was composed of approximately **94,000 occupied households** (with a detectable energy use and not designated as shops, garages or commercial properties).

Ethnicity: According to the U.S. Census Bureau, approximately 83% of residents in Avista's service area are non-Hispanic white. Hispanic residents comprise 11% of the population, mostly concentrated in Klamath county.

Household Income: The median household income for residents in Avista's service area is approximately \$52,000, well below the state average of \$66,000. Approximately **14%** of all households would fall under 100% of the federal poverty limit.

Energy Bills: Avista residential natural gas rates are about average for the region. Annual energy bills in 2019-21 averaged **approximately \$670/year with an average annual consumption of 550 therms**. Figure 1 shows the distribution of annual natural gas bills; with about half of households paying more than \$640/year on their bills. Customers on the east side of the Cascades (Klamath and

Union counties) generally have higher bills (\$740 on average) compared to the west side (\$650 on average).

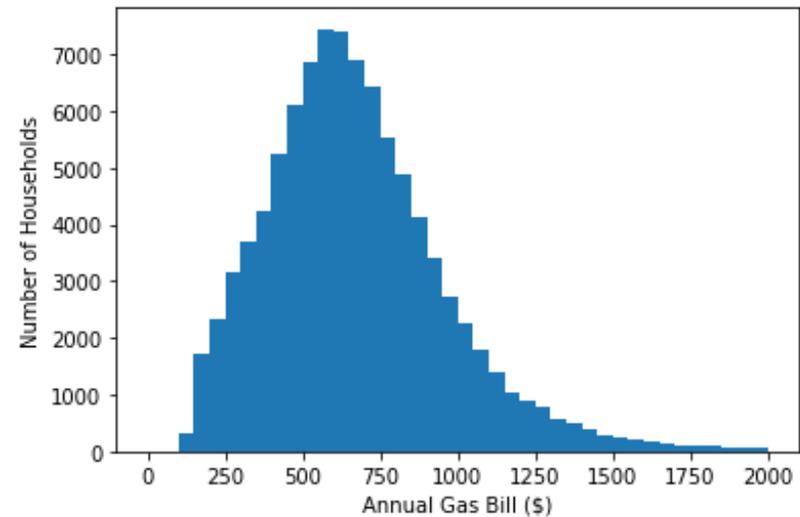

Figure 1. Household natural gas bill distribution for Avista's Oregon residential customers

2.2 ENERGY BURDEN

Avista customers have an **average and median gas energy burden of 1.2% and 0.7%**, respectively. Figure 2 shows various gas energy burden metrics in the five Avista counties. The proportion of customers who have a high energy burden is relatively low in the Western counties (4-7% of customers) vs. the Eastern counties (9-14% of customers).

The average household paid \$670/year in natural gas bills in 2019-21. Of 94,000 identified households, **6,400 were deemed to have a high energy burden**, meaning that annual natural gas bills exceeded 3% of their income. These high-burden customers paid an average of \$740 in annual natural gas bills; the higher bill average reflects their higher likelihood to live in less efficient or older homes. The **total energy assistance need for Avista’s Oregon customers is approximately \$1.8M**—the total reduction that would bring all customer natural gas bills below the 3% high burden threshold.

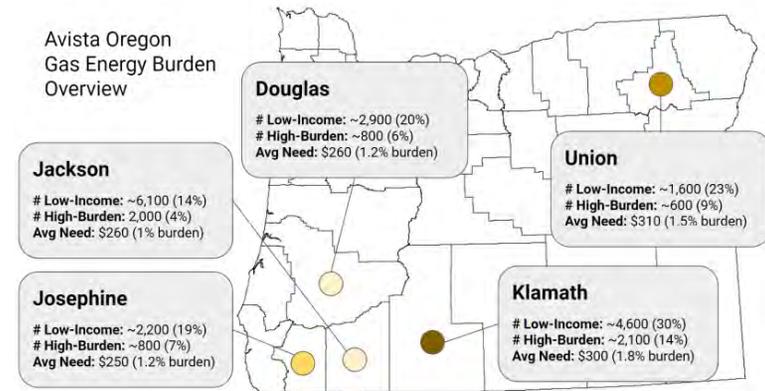

Figure 2. Energy burden benchmarking

Although averages and medians give a general indication of energy burden across a service territory, the reality is that **energy burden is a customer-level metric** and its distribution is a better indicator of the burden that customers experience. The distribution of energy burden among Avista customers is shown in Figure 3.

The goal of an effective energy assistance portfolio should be to prioritize the customers who most need the assistance, i.e. the customers to the right of the 3% threshold.

Approximately 67% of the energy assistance need is borne by single family households, with 16% in mobile

homes and the remainder in multifamily homes. The highest concentration of need is in mobile homes, requiring more than \$316/household in assistance on average, compared to \$283/household for single family and \$234/household multifamily households.

Approximately 48% of the energy assistance need for Avista customers is among renters, indicating that conservation programs targeted at high-burden customers will need to grapple with the split incentive problem between landlords and tenants, but energy burden among homeowners is equally significant. Other customer segments can be investigated in more detail in the data dashboard.

Number of Occupied Households
~94k

Low Income Households
Under 60% SMI: **~17k**

Gas Energy Burden
Median: **~0.7%**
Average: **~1.2%**

High Burden Households
~6,400

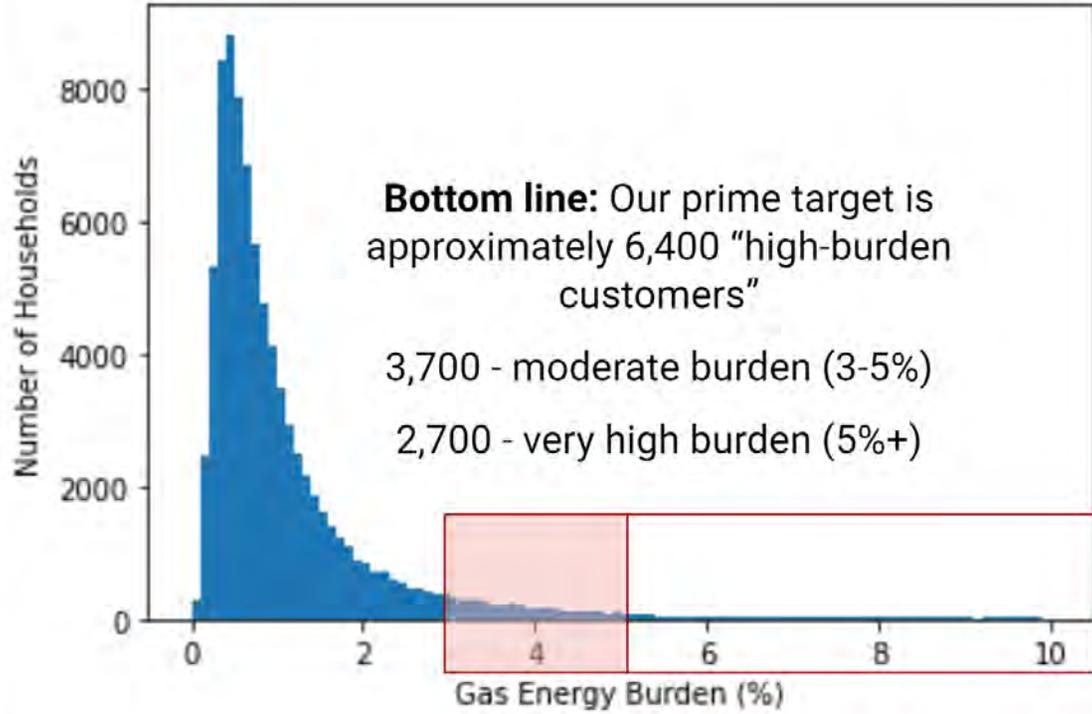

Figure 3. Distribution of energy burden among Avista's Oregon customers.

2.3 CONSERVATION VS DIRECT ASSISTANCE

Figure 4 shows the distribution of energy burden and energy efficiency potential (defined through Energy Use Intensity thresholds) across all low-income residential customers. In a perfect world, the energy assistance portfolio would match these customer segments. For example:

- Conservation programs should primarily serve **high burden, high potential** households
- Direct assistance programs should primarily serve **high burden, low potential** households
- Crisis/emergency programs should primarily serve **low burden, low potential** households
- Traditional conservation programs with financing should serve **low burden, high potential** households

Aligning targeted customers with program strengths results are the most cost-effective pathway to energy burden reduction.

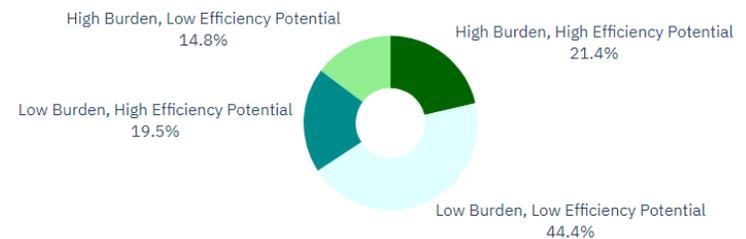

Figure 4. Avista's Oregon low-income customer segments by energy burden and energy efficiency potential.

Approximately 44% of Avista's low-income customers are low-burden and low-efficiency potential. These customers' energy bills may not be a huge expense relative to housing, medical and education expenses, and they should not be prioritized in the more intensive programs, such as weatherization.

21% of high burden customers also have a high efficiency potential indicating that the energy assistance program mix should equally prioritize sustained energy burden reductions through energy efficiency and weatherization.

3. KEY CUSTOMER SEGMENTS

3.1 OVERVIEW

This section presents statistics and profiles related to key customer segments in Avista's Oregon service area. These customer segments were selected for a combination of reasons:

1. Flagged in this assessment as having high overall burden or high prevalence of energy burden
2. Meets the Department of Energy criteria for vulnerable communities
3. Identified as high priority through interviews with agencies

This analysis is primarily geographic, focusing on specific neighborhoods. The maps in the following sections display the level of energy assistance need in these areas as well as locations of social services for potential outreach.

These customer segments represent a big portion, but not the entirety of the high energy burden among Avista's customers, so they should be targeted for any new programs or initiatives in the future using lists of customers who live in the block groups identified below.

3.2 EASTERN COUNTIES

PROFILE: The figure below shows the energy assistance need and average energy assistance funding in the five counties in Avista’s Oregon service area. In general, the energy assistance need is about 30% higher in Klamath and Union counties, east of the Cascades, while the average level of funding is almost equal in all counties. The difference in average need can mostly be explained by the difference in climate. Figure 5 shows the seasonal average temperatures in Medford and Klamath Falls (which are only 80 miles apart) – areas east of the Cascades experience colder temperatures in winter and the shoulder seasons, resulting in higher gas bills and burden.

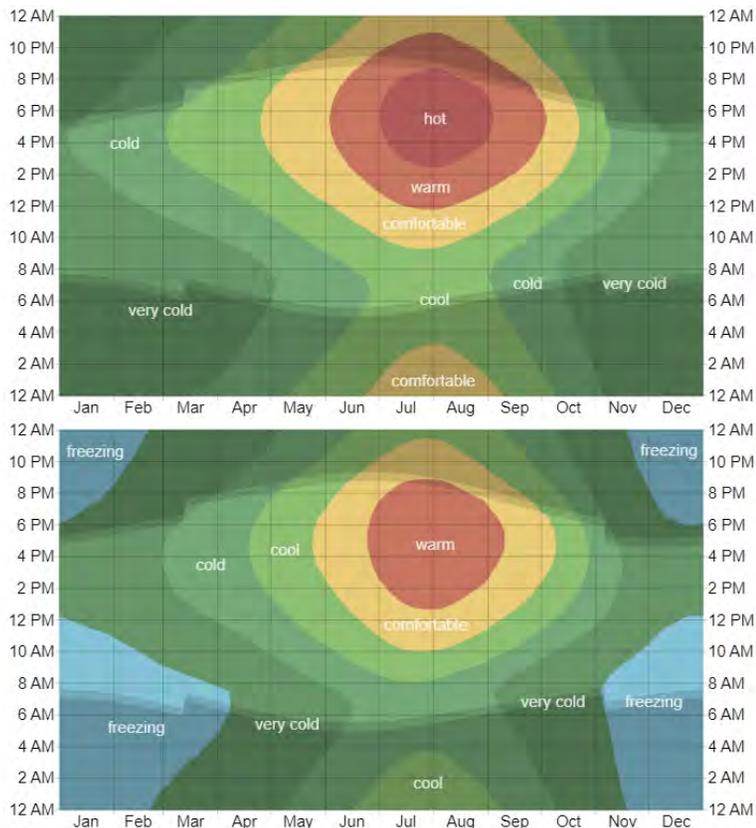

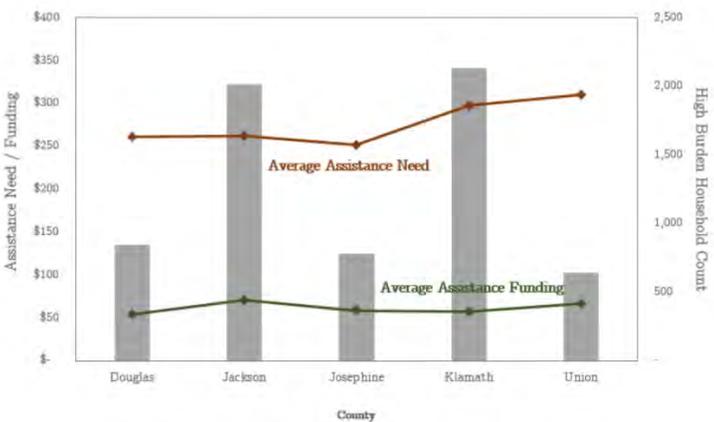

Figure 5. Seasonal average temperatures in Medford (top) and Klamath Falls (bottom) – from WeatherSpark.com.

RECOMMENDATIONS: We recommend adding the level of gas assistance need or gas burden as an additional consideration when apportioning program budgets among Avista’s partner agencies. Relying on customer counts alone misses the fact that gas energy burden is not evenly distributed among the different counties. This

would roughly imply a budget breakdown as follows: a third in Jackson county, a third in Klamath county and the remaining third split evenly between Douglas, Josephine and Union counties. The following table shows that three quarters of Avista’s customers are located west of the cascades, but they only shoulder about half of the gas burden.

County	Proportion of gas assistance need	Proportion of current program spending	Proportion of Avista customers
Douglas	12%	11%	16%
Jackson	30%	43%	48%
Josephine	11%	9%	12%
Klamath	36%	28%	17%
Union	11%	9%	7%

3.3 DOWNTOWN KLAMATH FALLS

Census block groups: **410359718001, 410359718002, 410359718003, 410359719005**

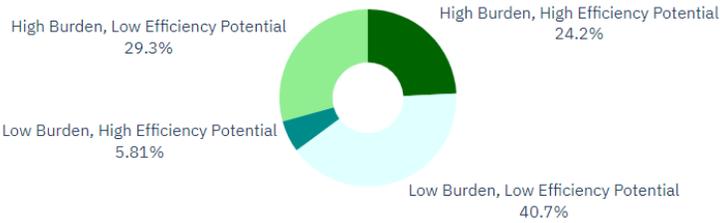

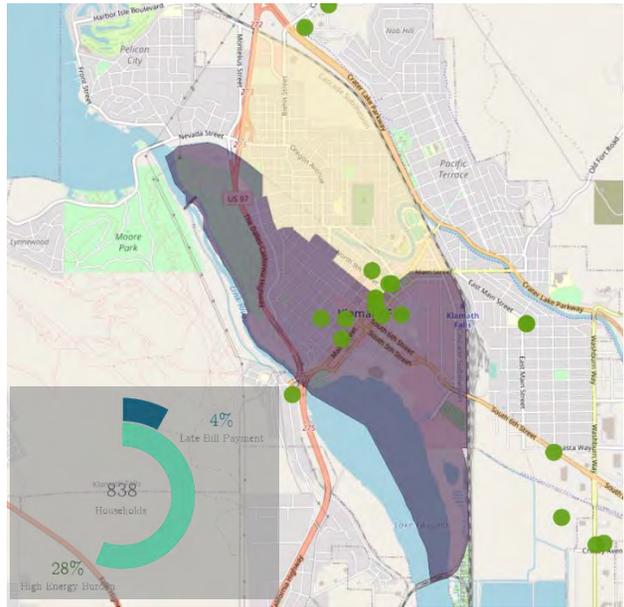

Total Assistance Need: **\$68k (4% of total)**

Total Assistance Funding: **\$18k (2% of total)**

DOE Disadvantaged Community Score: **2.6**

PROFILE: Customers in downtown Klamath Falls tend to live in older single family homes – about a third of these customers rent their homes. Although 20% of the local population are considered people of color (Hispanic), most customers are bilingual. The area has some light industrial activity and has historically had relatively high rates of unemployment and poverty.

RECOMMENDATIONS: This customer segment is urban but dispersed. KLCAS has primarily relied on word of mouth to recruit program participants. There are numerous social services organizations in the area, which introduces an opportunity to build partnerships with local community organizations.

3.4 ALTAMONT

Census block groups: **410359712001, 410359715002, 410359716003**

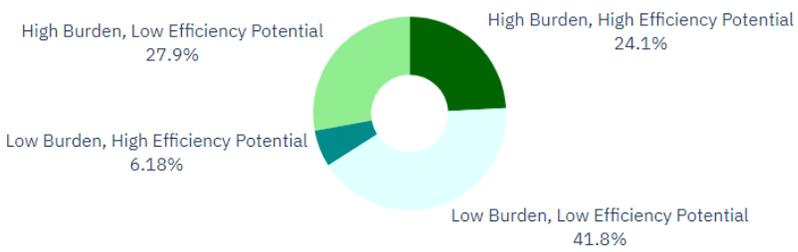

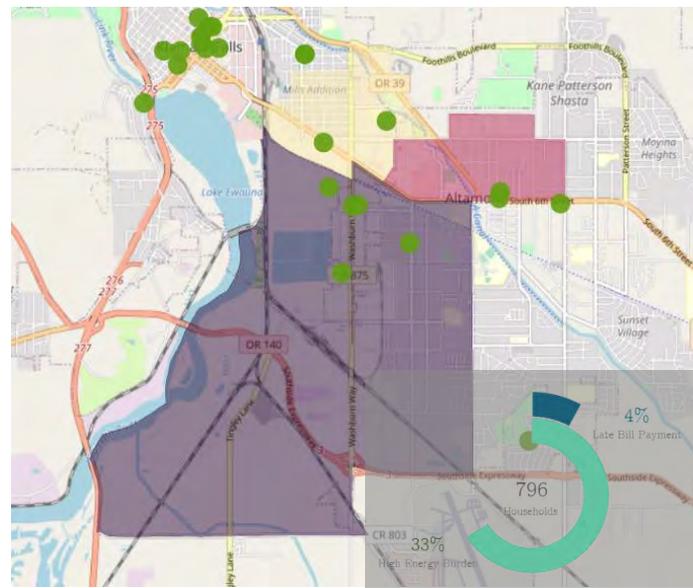

Total Assistance Need: **\$88k (5% of total)**

Total Assistance Funding: **\$40k (3% of total)**

DOE Disadvantaged Community Score: **4.7**

PROFILE: Altamont is an unincorporated community just south of Klamath Falls. Most homes in the area are smaller, older, stick-built on concrete slabs – more than 90% of homes were built prior to 1980. Almost a third of customers in the area have a gas energy burden higher than 3%, but on-time bill payment rates are still reasonably high. There is a large proportion of senior customers in the area. The area appears to be slightly underserved by existing programs, but the local agency is moving to a new location in summer 2022, which should be more accessible by public transit.

RECOMMENDATIONS: This customer segment is more dispersed than Klamath Falls and physical access to services may be harder. Consider targeted mail campaigns to the area informing customers of programs. KLCAS is introducing a new online application system that could improve program access for these customers.

3.5 OLD MEDFORD

Census block groups: 410290003002, 410290001001

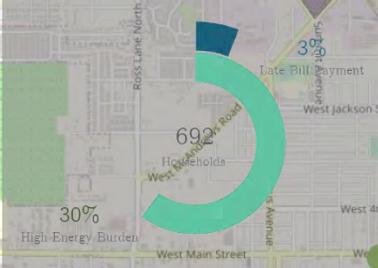

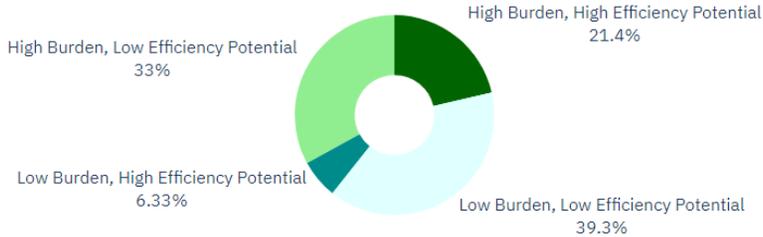

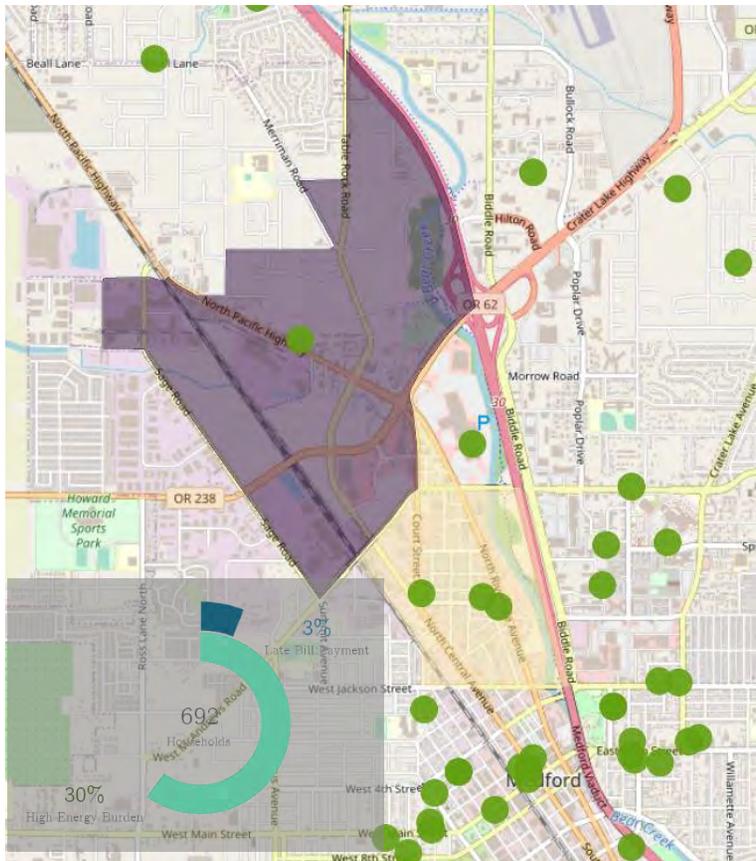

Total Assistance Need: **\$66k (4% of total)**

Total Assistance Funding: **\$18k (1% of total)**

DOE Disadvantaged Community Score: **2.6**

PROFILE: The area surrounding Northwest Medford is an older part of town and includes several gas-heated mobile home parks that were flagged as having a high gas energy burden. The area has a high rate of property crime and appears to be somewhat underserved by existing programs.

RECOMMENDATIONS: Outreach to trailer park managers can be very effective at recruiting program participants who reside in mobile homes. The area should be prioritized for weatherization or lighter touch energy efficiency (e.g. energy savings kits, thermostats and air sealing), as more than half of customers have a high gas savings potential.

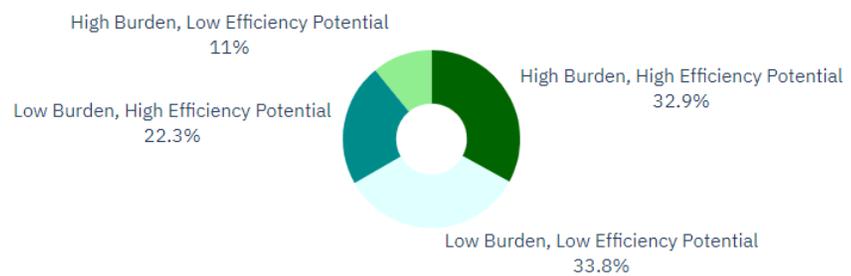

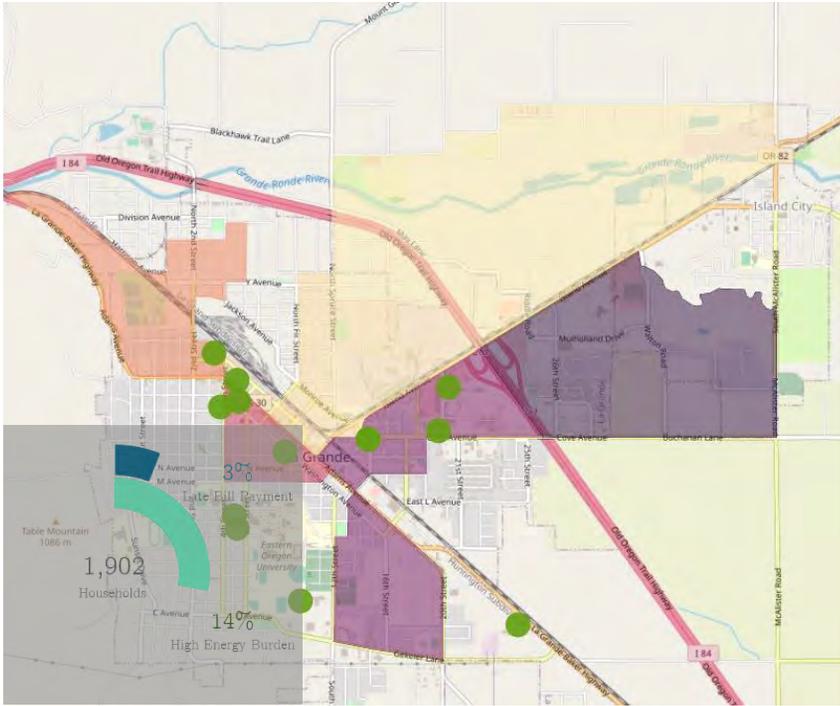

3.6 NORTHEAST LA GRANDE

Census block groups: **410619704002, 410619704003, 410619705002, 410619707001, 410619707003, 410619708001, 410619708002**

Total Assistance Need: **\$82k (5% of total)**
Total Assistance Funding: **\$37k (3% of total)**
DOE Disadvantaged Community Score: **0**

PROFILE: The high priority areas in La Grande have predominantly older housing and a relatively large senior/fixed income population. Northeast La Grande is surrounded by agricultural land.

RECOMMENDATIONS: As rural areas, traditional mass communications may not be effective at reaching this customer segment. Collaborating with local schools, churches or community organizations (like Union County Casa) will be more effective. Door-to-door canvassing may also be feasible in collaboration with the local agency.

3.7 SOUTH GRANTS PASS

Census block groups: **410333612001**

Total Assistance Need: **\$22k (1.2% of total)**

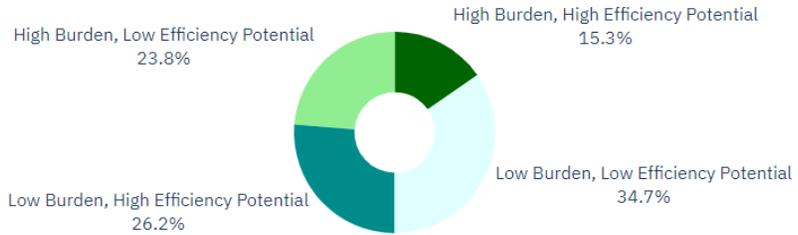

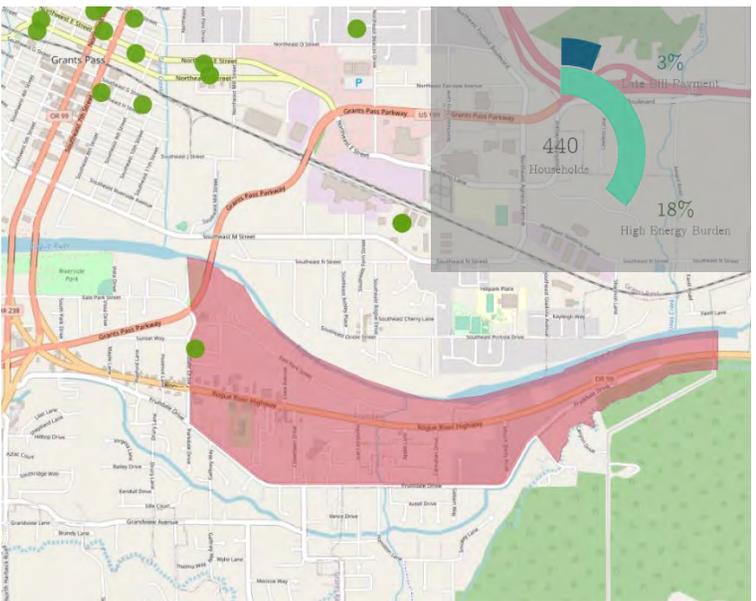

Total Assistance Funding: **\$5k (0.4% of total)**

DOE Disadvantaged Community Score: **1**

PROFILE: The area south of Grants Pass has various neighborhoods composed of mobile homes and ADUs. Some of these were affected by wildfires in the past few years.

Old Town Roseburg (410191300001) is also an area of older manufactured homes, with a high level of homelessness due to the availability of social services.

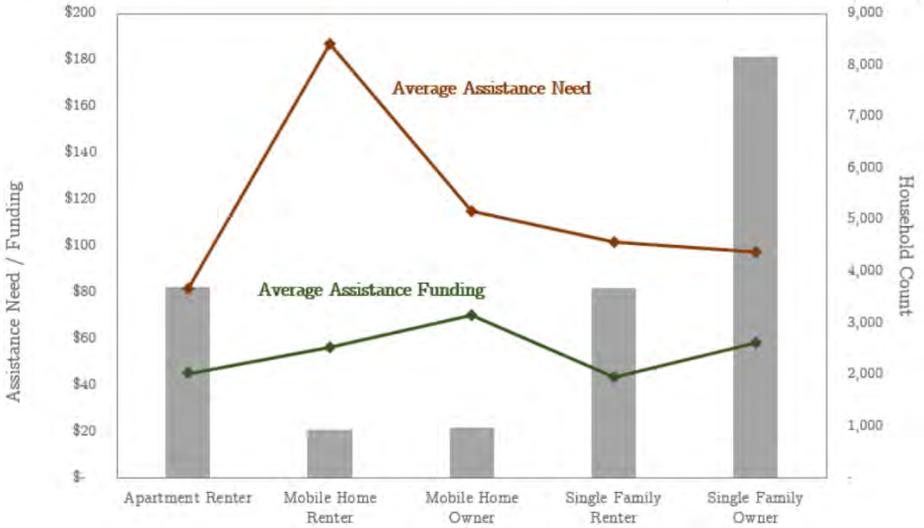

RECOMMENDATIONS: UCANCAP already has a satellite office in Grants Pass that accepts and processes program applicants. Targeted marketing campaigns to these block groups as well as trust building through local partnerships will be essential to reach this customer segment.

3.8 MOBILE HOME RENTERS

PROFILE: The figure to the right shows the energy assistance need and average energy assistance funding for all low-income customers in Avista’s Oregon service area, categorized by housing type and homeownership. In general, it appears that apartment dwellers are relatively well-served by existing programs as the gap between average need and average funding is very small. On the other hand, the least well-served segment appears to be renters living in mobile homes.

RECOMMENDATIONS: Mobile home dwellers can be best reached through outreach to trailer park managers. In addition to building partnerships with local schools, churches and community organizations, it is recommended to develop targeted energy assistance marketing campaigns (direct mail and email) for these customers through the dataset developed in this assessment. Onerous program application requirements are also a big barrier to participation for this customer segment.

**BEFORE THE PUBLIC UTILITY COMMISSION
OF OREGON**

UG 435 AND UG 411

In the Matter of

NW NATURAL GAS COMPANY D/B/A
NW NATURAL

Request for a General Rate Revision
(UG 435), and

Advice 20-19, Schedule 198 Renewable
Natural Gas Recovery Mechanism
(ADV 1215) (UG 411).

SECOND PARTIAL STIPULATION

I. INTRODUCTION

1 The purpose of this Second Partial Stipulation (“Second Stipulation”) is to resolve
2 certain issues including decoupling, residential customer deposits, the Oregon Low
3 Income Energy Efficiency Program (“OLIEE”), and COVID-19 deferral costs among
4 Northwest Natural Gas Company d/b/a NW Natural (“NW Natural” or the “Company”),
5 Staff of the Public Utility Commission of Oregon (“Staff”), the Oregon Citizens’ Utility
6 Board (“CUB”), the Alliance of Western Energy Consumers (“AWEC”), and the Coalition
7 of Communities of Color, Climate Solutions, Verde, Columbia Riverkeeper, Oregon
8 Environmental Council, Community Energy Project, and Sierra Club (“Coalition”)
9 (collectively, the “Stipulating Parties”) in consolidated Dockets UG 435 and UG 411. The
10 Stipulating Parties expect that this Second Stipulation will address all remaining issues
11 among the Stipulating Parties, except for those that are listed in Paragraph 5 of this
12 Second Stipulation that will continue to be litigated in these consolidated cases or,
13 pending additional settlement discussions, may be incorporated into a separate stipulated

1 agreement entered into at a later date. The Small Business Utility Advocates (“SBUA”)
2 is also a party to these consolidated proceedings, but does not join this Second
3 Stipulation.

II. BACKGROUND

4 On December 17, 2021, NW Natural filed a request for a general rate increase (the
5 “Initial Filing”) to become effective November 1, 2022 (the “Rate Effective Date”). The
6 Company’s Initial Filing requested a revision to customer rates that would increase the
7 Company’s annual Oregon jurisdictional revenues by \$73.5 million which would have
8 resulted in an approximate 9.9 percent increase to current customer rates.¹
9 Administrative Law Judge (“ALJ”) Sarah Spruce convened a prehearing conference on
10 January 19, 2022. On February 28, 2022, NW Natural made an errata filing increasing
11 the revenue requirement to \$78.020 million (the “Errata Filing”).

12 On January 25, 2022, ALJ Spruce issued a Procedural Conference Memorandum
13 which, in addition to setting forth the schedule of UG 435, consolidated UG 411 with UG
14 435. On January 26, 2022, ALJ Spruce issued an Amended Procedural Conference
15 Memorandum. On February 18, 2022, the Company filed its Opening Testimony on
16 Schedule 198, Renewable Natural Gas Recovery Mechanism, in compliance with that
17 Amended Procedural Conference Memorandum.

18 On January 21, 2022, the parties held a settlement conference regarding cost of
19 capital, and on February 4, 2022, the parties held a workshop addressing TSA Security
20 Directive 2. Staff and intervenors filed their Opening Testimony on April 22, and

¹ Initial Filing, NW Natural’s Executive Summary at 1.

1 thereafter, the parties participated in settlement conferences on May 4, 2022, May 11,
2 2022, May 17, 2022, and May 20, 2022. As a result of the settlement discussions, all
3 parties, excluding the Coalition, reached a partial settlement of the issues in these
4 consolidated cases and filed the First Stipulation on May 31, 2022, followed by Joint
5 Testimony in Support of the First Stipulation on June 8, 2022. NW Natural filed Reply
6 Testimony on June 6, 2022, and all parties participated in settlement conferences on June
7 15, 2022 and June 16, 2022. As a result of the settlement discussions, the Stipulating
8 Parties reached a partial settlement of the issues in these consolidated cases, resolving
9 all issues among the Stipulating Parties except for those issues that are specifically
10 excluded per Paragraph 5 of the Second Stipulation. Although SBUA also participated in
11 the settlement conferences, SBUA ultimately did not join the Second Stipulation, and the
12 Stipulating Parties understand that SBUA intends to litigate the COVID-19 Deferral in
13 Paragraph 4 of the Second Stipulation. This Second Stipulation memorializes the
14 Stipulating Parties' agreements from their most recent settlement conferences.

III. TERMS OF AGREEMENT

15 The Stipulating Parties agree to resolve the remaining issues raised in these
16 consolidated cases as follows:

17 1. Decoupling. The Stipulating Parties agree that the Company will include
18 the following information in its next rate case:

19 a. The Company will present use per customer ("UPC") data, which will
20 include:

21 i. The Company's UPC for existing residential customers; and

1 ii. Ten years of data to develop a UPC for customers taking
2 service at new residential premises. By providing ten years
3 of data, the Stipulating Parties have not agreed that ten years
4 is the appropriate time period to develop a UPC for new
5 residential customers.

6 b. The number of new customers forecasted within the rate case filing.

7 c. NW Natural is not obligated to propose a modification to the
8 decoupling program in its next rate case, but will not argue that no
9 modification can be made as a result of this Second Stipulation and
10 will not argue that implementing a two-part (existing customers/new
11 customers) decoupling mechanism is not technically feasible. NW
12 Natural may present evidence and argument regarding the costs to
13 implement any proposed modifications to its decoupling program.

14 2. Residential Customer Deposits. The Stipulating Parties agree that,
15 beginning November 1, 2022, NW Natural will cease collecting customer deposits from:

16 a. New residential customers, and

17 b. Residential customers who are currently enrolled in LIHEAP and/or
18 the Company's energy assistance programs or who self-certify as
19 low-income. The income eligibility for self-certification will be set at
20 60 percent of State Median Income (adjusted for household size);
21 however, if the rulemaking in AR 653 establishes an income eligibility
22 for customer deposits, NW Natural will update its income eligibility

1 for customer deposits to be consistent with the results of the AR 653
2 rulemaking.

3 3. Oregon Low Income Energy Efficiency Program (Tariff Schedule 320). The
4 Stipulating Parties agree to increase the OLIEE funding by \$4,000 per dwelling, subject
5 to additional consultation between with the OLIEE Advisory Group and the Community
6 Action Partner (“CAP”) agencies as to the allocation of this increase among energy
7 efficiency measures, CAP administrative costs, or Health, Safety, and Repair (“HSR”)
8 measures allowance. Of this \$4,000, at least \$1,500 should be reserved for the Health,
9 Safety, and Repair (“HSR”) measures allowance, to the extent there are HSR measures
10 at the dwelling. In addition to the increase in funding per premise, NW Natural will make
11 the following revisions to Schedule 320:

12 a. Clarify that high-efficiency gas furnace installations are subject to a
13 cost-effectiveness test, with an exception for red-tagged furnace
14 replacements, and that the existing exception for furnace
15 replacements under the HSR Allowance in Schedule 320 remains in
16 place as described below in sub-part(c):

17 i. Sheet 320-4 – the second sentence in the paragraph under
18 Energy Efficiency Measures will be revised: “All measures
19 prescribed by the Energy Analyzer Software for the whole
20 house, including (non-HSR) gas furnaces, must meet or
21 exceed a Savings to Investment Ratio (SIR) of 1.0 or better
22 unless identified through number 2 or 3 below.”

- 1 b. Clarify that smart thermostats, attic insulation and wall insulation
2 need not be subject to the cost effectiveness test.
- 3 i. Sheet 320-4 – the last sentence in the paragraph under
4 Energy Efficiency Measures will be revised: “...,3) Measures,
5 including smart thermostats, attic insulation and wall
6 insulation, identified as cost effective by third party
7 organizations (Regional Technical Forum, Energy Trust of
8 Oregon, etc.).
- 9 c. Sheet 320-4 - Amend the following language from the Health, Safety
10 and Repair (“HSR”) allowance section as follows:
- 11 i. “Standard efficiency furnace replacements may qualify for
12 HSR funds if the existing furnace is broken, is found to
13 produce an unsafe level of CO emissions, is back-drafting, or
14 has a cracked heat exchanger and a ~~high efficiency furnace~~
15 ~~is not cost-effective~~ or it is physically impossible to install a
16 high-efficiency furnace. When a furnace is replaced with a
17 standard efficiency furnace, the agency must ~~specify the~~
18 ~~reasons for the replacement in the reimbursement request.~~
19 **demonstrate why the furnace required replacement, and**
20 **why a high efficiency furnace could not be installed.”**
- 21 4. COVID-19 Deferral. The Stipulating Parties agree to the following treatment
22 of the Company’s deferral of costs and savings associated with the COVID-19 public

1 health emergency as provided in Docket No. UM 2068, Order No. 20-380, subject to the
2 following terms:

- 3 a. Amortize the 2020 and 2021 balances of the Company's COVID-19
4 Deferral, including interest accrued on those balances, subject to an
5 adjustment of (\$163) thousand.
- 6 b. The amortization period will be two years.
- 7 c. Certain portions of the COVID-19 deferral as recommended by Staff
8 will be subject to an earnings test set at the Company's authorized
9 return on equity.
- 10 d. The Stipulating Parties agree to apply a rate spread allocation
11 methodology consistent with Appendix B to the First Stipulation.
- 12 e. NW Natural may request a prudency review and amortization of post-
13 2021 balances in a future proceeding.

14 5. Issues Excluded from this Second Stipulation. The Stipulating Parties agree
15 that the following issues raised by the Stipulating Parties are not addressed by this
16 Second Stipulation and will continue to be litigated in these consolidated proceedings or,
17 pending additional settlement discussions, may be incorporated into a separate stipulated
18 agreement entered into at a later date.

- 19 a. The Coalition's Objections to the First Stipulation (Coalition's
20 Objection Testimony to be filed by June 30, 2022);
- 21 b. Line Extension Allowance (CUB/100, Coalition/200, NWN/1800);
- 22 c. RNG Automatic Adjustment Clause (NWN/1500, Staff/1700,
23 AWEC/100, CUB/200, NWN/1600); and

1 d. Cost Recovery and Rate Spread of the Lexington RNG Project and
2 Deferral (NWN/1100, CUB/200, Staff/1700, AWEC/100,
3 Coalition/100, NWN/2100, NWN/2300).

4 e. Ensuring that differential rates for low-income customers are in place
5 on or before the rate effective date for these consolidated
6 proceedings, November 1, 2022.

7 6. The Coalition takes no position on Paragraphs 1 and 4 of the Second
8 Stipulation. The Coalition does not oppose Paragraphs 1 and 4 of the Second Stipulation.

9 7. The Stipulating Parties agree that this Second Stipulation is in the public
10 interest, and will result in rates that are fair, just and reasonable, consistent with the
11 standard in ORS 756.040.

12 8. This Second Stipulation will be offered into the record as evidence pursuant
13 to OAR 860-001-350(7). The Stipulating Parties agree to support this Second Stipulation
14 throughout these consolidated proceedings and any appeal, provide witnesses to sponsor
15 this Second Stipulation at hearing, and recommend that the Commission issue an order
16 adopting this Second Stipulation. The Stipulating Parties also agree to cooperate in
17 drafting and submitting joint testimony or a brief in support of this Second Stipulation in
18 accordance with OAR 860-001-0350(7).

19 9. If this Second Stipulation is challenged, the Stipulating Parties agree that
20 they will continue to support the Commission's adoption of the terms of this Second
21 Stipulation. The Stipulating Parties agree to cooperate in cross-examination and put on
22 such a case as they deem appropriate to respond fully to the issues presented, which

1 may include raising issues that are incorporated in the settlements embodied in this
2 Second Stipulation.

3 10. The Stipulating Parties have negotiated this Second Stipulation as an
4 integrated document. If the Commission rejects all or any material portion of this Second
5 Stipulation or imposes additional material conditions in approving this Second Stipulation,
6 any of the Stipulating Parties are entitled to withdraw from this Second Stipulation or
7 exercise any other rights provided in OAR 860-001-0350(9).

8 11. By entering into this Second Stipulation, no Stipulating Party approves,
9 admits, or consents to the facts, principles, methods, or theories employed by any other
10 Stipulating Party in arriving at the terms of this Second Stipulation, other than those
11 specifically identified in the body of this Second Stipulation. No Stipulating Party shall be
12 deemed to have agreed that any provision of this Second Stipulation is appropriate for
13 resolving issues in any other proceeding, except as specifically identified in this Second
14 Stipulation.

15 12. The substantive terms of this Second Stipulation are not enforceable by any
16 Stipulating Party unless and until adopted by the Commission in a final order. Each
17 Stipulating Party avers that it is signing this Second Stipulation in good faith and that it
18 intends to abide by the terms of this Second Stipulation unless and until this Second
19 Stipulation is rejected or adopted only in part by the Commission. The Stipulating Parties
20 agree that the Commission has exclusive jurisdiction to enforce or modify this Second
21 Stipulation. If the Commission rejects or modifies this Second Stipulation, the Stipulating
22 Parties reserve the right to seek reconsideration or rehearing of the Commission order

1 under ORS 756.561 and OAR 860-001-0720 or to appeal the Commission order under
2 ORS 756.610.

3 13. This Second Stipulation may be executed in counterparts and each signed
4 counterpart shall constitute an original document.

5 This Second Stipulation is entered into by each Stipulating Party on the date
6 entered below such Stipulating Party's signature.

WAYS TO SAVE

Upgrade to high-efficiency natural gas heating for less

Natural gas fireplaces burn with up to a 90% efficiency rating, and can heat up to 1,000 square feet of living space at low cost. This means that you can turn down your thermostat and lower your heating bills. Rebates from NW Natural Fireplace Retailers and Energy Trust of Oregon can help you make the upgrade.

[See rebates »](#)

MORE WAYS TO SAVE

Tips to manage energy use and save

Heating makes up a home's biggest energy expense. To help lower heating costs, turn down the thermostat to 65–68°F during the day and 58–60°F at night. Adjust ceiling fans to turn clockwise on low speed, which pushes warm air down and circulates it throughout a room.

WAYS TO SAVE

Reduce energy bills and maintain indoor temperatures year-round

The better your insulation, the less your heating and cooling system has to work to maintain comfortable temperatures. As a NW Natural customer, you can get cash back incentives when you upgrade your attic, wall or floor insulation. An average 1,000-square-foot home can save up to \$1,500 on new insulation installations.

BILLING OPTIONS

Equal Pay can help smooth out monthly payments

The Equal Pay plan is designed to take the ups and downs out of your monthly gas bill, which would typically rise and fall depending on the weather and your seasonal gas use. The goal is for you to receive steady, predictable bills throughout the year.

NW NATURAL CUSTOMER NEWSLETTER • JUNE 2023 • NWNATURAL.COM

Your safety comes first in summer and every season

We provide natural gas service to approximately 2.5 million people in Oregon and Southwest Washington, with one of the tightest, most modern pipeline systems in the U.S. As with any utility, safety awareness is key. That's why we remind you this summer to notify 811 before digging on your property. And, when you grill, keep that grill at least 10 feet from other objects, like siding, fences and bushes.

WAYS TO SAVE

Enter the "Keep it Toasty" sweepstakes

Do you know how to stay warm if the electricity goes out? Take an easy quiz, and be entered for a chance to win toasty prizes. The grand prize is a high-efficiency natural gas fireplace with installation. Four other winners will receive \$100 Visa gift cards. Giveaway ends April 30, 2023.

SMART COOKING

Make it a habit: Turn on the fan when you cook

Did you know that an important part of cooking safety is good kitchen ventilation—especially for frying, broiling and other high-temperature cooking—no matter what type of cooktop you have? It's why exhaust hoods are required for all new homes in Oregon, whether they have gas or electric cooktops.

 **CUSTOMER SERVICE**

Understand your bill with the online guide

There's a lot of useful information on your NW Natural bill. We can help you understand it with the online guide. It shows how to read your bill, understand its various parts, find your current gas use and rate, and more.

[See guide »](#)

 **BILLING INFORMATION**

Committed to helping you manage energy costs

We work in advance to purchase gas at lower costs. We store this gas, then tap into it during the heating season when gas is most in demand. We also do not mark-up the cost of gas. These are steps we take every day to keep costs as low as possible for you.

Insulation upgrade prepares Cottage Grove Community Center for winter

Through limited-time increased incentives from Energy Trust of Oregon and NW Natural, the City of Cottage Grove added 23,700 sq. feet of high-efficiency insulation to its community center. The new insulation is estimated to save the City of Cottage Grove \$3,900 on annual utility costs and improve indoor comfort.

Comfort Zone

NW NATURAL CUSTOMER NEWSLETTER • JANUARY 2023 • NWNATURAL.COM

Know what to do if you smell rotten eggs

Your safety is always first. So we add a rotten-egg odor to natural gas to help you detect even the smallest natural gas leak. If you smell rotten eggs indoors, leave the area then call 24-hour emergency 800-882-3377 to report the odor. We'll visit day or night to check things out.

Remember to: Smell. Go. Then Let us know.

Make a difference by enrolling in Smart Energy

Join over 90,000¹ NW Natural customers who are reducing their carbon emissions by participating in the Smart Energy program.

When you enroll in Smart Energy, the carbon emissions from your natural gas use will be offset through projects that reduce, or prevent the release of, greenhouse gases. Since 2007, Smart Energy participants have collectively funded over 2 million tons of emission reductions from carbon-offset projects.

Start making a difference.

You choose the participation level that is right for you, depending on how much of your natural gas use you wish to offset. Participation is installation-free, requires no contracts, and can be changed or canceled at any time.

Enroll by August 17, 2023 with code EM23A and receive an exclusive Smart Energy water bottle as our thank-you gift.

Subject: We can help you manage your energy bill this winter

**We can help you manage your energy
bill this winter**

A combination of factors has raised natural gas costs this winter and, unfortunately, resulted in higher bills for many of our customers compared to last year. These factors may include: New rates reflecting a significant increase in global natural gas prices and system investments; a colder November and December; and a longer December billing cycle with extra days during an extreme winter weather event.

[Resources to help manage energy bills](#)

Unpredictable energy costs can be stressful, which is why we provide payment and billing options that can help:

- **Temporary payment plans.** Flexible monthly payment options can make your bill more manageable.
- **Payment extensions.** You may be able to extend your payment due date and pay in a timeframe that works for you.

- **Residential Bill Discount Program for Oregon customers.** Our income-qualified discount program can save you 15% to 40% on monthly bills.

See assistance resources [here](#).

Connect with customer service

In preparation for the rest of winter, we have added resources to help you manage energy costs.

- Send us an email from the [customer service portal](#) and we will respond to your question within 2-3 business days.
- Visit [nwnatural.com](#) for immediate information and see ways to manage your payments.
- Call 800-422-4012 and leave your call-back number. We will do our best to return your call within 24 hours.

Thank you for being a NW Natural customer and for your patience.

Rates & Regulatory Affairs
UG 490
Request for a General Rate Revision
Data Request Response

Request No.: UG 490 Coalition DR 107

How much money did GAP receive during the Base Year through state funding grants?

Response:

NW Natural's Gas Assistance Program ("GAP") received no money during the Base Year through state funding grants. NW Natural does an annual donation drive for GAP, but the program does not solicit or receive state funding. GAP is wholly incremental above other low-income energy assistance programs and is funded by voluntary contributions from customers, employees, and occasionally by private grants.

NW Natural also contributes shareholder dollars to the program annually from its Corporate Philanthropy fund. NW Natural itself (not its customers) covers all the program delivery and administrative costs so that every dollar goes to GAP recipients.

Please refer to the below table from NW Natural/200, Tanaka/Page 23:

Table 3 - Proposed Bill Discount Tiers

Bill Discount Program Impacts, Assuming Household of 4:				
	SMI 60%	SMI 45%	SMI 30%	SMI 15%
	Tier 3 - 15%	Tier 2 - 20%	Tier 1 - 40%	Tier 0 - 80%
Income mid-point of tier	\$56,246	\$40,176	\$24,106	\$8,035
Average annual bill	\$1,124.87	\$1,124.87	\$1,124.87	\$1,124.87
Bill as % income before discount	2.0%	2.8%	4.7%	14.0%
Bill discount	\$168.73	\$224.97	\$449.95	\$899.90
Bill after discount	\$956.14	\$899.90	\$674.92	\$224.97
Bill as % income after discount	1.7%	2.2%	2.8%	2.8%

Note that this table reflects the rates for Residential Schedule 2 proposed in this case and income eligibility tables for 2023-2024.

Please revise this table assuming that the low-income households are subject to NW Natural’s proposed fixed rate charge for new customers.

Response:

Note that the Company has proposed a higher fixed charge to be applied only to customers residing at new *premises* connected to the Company’s system after the rate effective date in this proceeding (November 1, 2024). Please refer to the Company’s response to UG 490 Coalition DR 114 for further clarification.

Table 3 cited above is reproduced below as Table 3-A for customers residing at new single-family premises (subject to the proposed \$26.25 fixed rate charge) who are eligible for the Company’s Bill Discount Program. The calculations in Table 3-A are based on the New Premise Use-per-Customer (“UPC”) weather normalized annual usage of 449.4 therms as described at NW Natural/1900, Wyman/Pages 21-24.

Table 3-A: Proposed Bill Discount Tiers for New Premise Single-Family Customers

Bill Discount Program Impacts, Assuming Household of 4:				
	SMI 60%	SMI 45%	SMI 30%	SMI 15%
	Tier 3 - 15%	Tier 2 - 20%	Tier 1 - 40%	Tier 0 - 80%
Income mid-point of tier	\$56,246	\$40,176	\$24,106	\$8,035
Average annual bill	\$997.98	\$997.98	\$997.98	\$997.98
Bill as % income before discount	1.8%	2.5%	4.1%	12.4%
Bill discount	\$149.70	\$199.60	\$399.19	\$798.38
Bill after discount	\$848.28	\$798.38	\$598.79	\$199.60
Bill as % income after discount	1.5%	2.0%	2.5%	2.5%

Note that this table reflects the rates for Residential Schedule 2 proposed in this case and income eligibility tables for 2023-2024.

Table 3 cited above is reproduced below as Table 3-B for customers residing at new multi-family premises (subject to the proposed \$24.25 fixed rate charge) who are eligible for the Company's Bill Discount Program. Table 3-B, like Table 3-A, is based on the New Premise UPC.

Table 3-B: Proposed Bill Discount Tiers for New Premise Multi-Family Customers

Bill Discount Program Impacts, Assuming Household of 4:				
	SMI 60%	SMI 45%	SMI 30%	SMI 15%
	Tier 3 - 15%	Tier 2 - 20%	Tier 1 - 40%	Tier 0 - 80%
Income mid-point of tier	\$56,246	\$40,176	\$24,106	\$8,035
Average annual bill	\$973.98	\$973.98	\$973.98	\$973.98
Bill as % income before discount	1.7%	2.4%	4.0%	12.1%
Bill discount	\$146.10	\$194.80	\$389.59	\$779.18
Bill after discount	\$827.88	\$779.18	\$584.39	\$194.80
Bill as % income after discount	1.5%	1.9%	2.4%	2.4%

Note that this table reflects the rates for Residential Schedule 2 proposed in this case and income eligibility tables for 2023-2024.

Please describe any program that NW Natural provides to assist customers with arrearage management.

Response:

NW Natural ended its Arrearage Management Program (AMP) in July 2022 as the impacts of COVID-19 started to ease. However, despite ending our original AMP, we continue to offer other programs and options to assist customers with arrearage balances.

Time Payment Arrangements (TPAs) – our Customer Service Representatives (CSRs) are required to offer information to all eligible customers about TPAs, or payment plans.

NW Natural offers two types of TPAs: Current Bill Plus (CB+) and Level Pay Plan (LPP). There are the following time periods of those TPAs:

- Formal residential plans = 12 months
- Informal residential plans = any # of months up to 11 months
- Customer can be placed on longer plan terms up to 24 months with management approval.
- Small commercial plans = up to 3 months (CB+ only)

Current Bill Plus (Formal) – this plan takes the total account balance and divides it into 12 equal plan installments (or fewer months for an informal plan term). Typically, the customer pays one plan installment, or 1/12th of the total balance, to start. Afterward, they will receive the current bill's charges plus a plan installment for the next 11 months.

Level Pay Plan (LPP Formal) – this plan offers an option for a customer to pay a flat amount each month for 12 months (or fewer months for an informal plan term). The calculation for a formal LPP is based on 1/12th of the total balance due plus an equal installment of the total gas use from the prior 12-month period at the customer's home.

For example, if the customer's balance is \$200 ($\$200/12 = \16 or $\$200 \text{ balance}/12\text{-month plan term} = \$16 \text{ plan installment}$), we would combine their \$16 plan installment with the average monthly gas use calculation at their home. If the average monthly gas use calculation for the prior 12-month period is \$75, the LPP amount would be \$91 ($\$75 \text{ average monthly gas use} + \$16 \text{ LPP installment}$). Our CIS will automatically calculate the LPP amount based on the # of months in the plan term the customer chooses, but they are always offered a formal plan. The LPP amount is reviewed at least twice per plan year and may be adjusted to reflect any changes in rates or usage to achieve a zero balance by the end of the plan term.

Customers who enter into a TPA have the option of re-negotiating the terms of their plan one time if they become past due on their payment arrangement. This option is intended to offer customers an additional opportunity to successfully complete their payment plans and bring their accounts current, which also helps prevent disconnections for non-payment.

Energy Assistance (EA) Programs – CSRs are required to offer EA information to our customers on all billing and credit-related calls if the customer has an account balance. This requirement serves two purposes. The first is to ensure that customers in need of assistance are given information to pursue those resources if they choose.

The second is to increase awareness of the programs, how they work and who they serve. We offer regular outreach and advertising annually for our energy assistance and low-income programs, but customers do not always avail themselves of these resources and our recent Low-Income Needs Assessment (LINA) indicates target populations still may not be aware of these programs and how they work. Providing this information in real-time for customers is a crucial opportunity.

NW Natural's Residential Bill Discount Program (Schedule 330) – The Residential Bill Discount Program (BDP) launched on November 1, 2022, and is available for income-qualified Oregon residential customers on Rate Schedule 2. Oregon low-income customers, or customers with a gross household income at or below 60% of State Median Income, will qualify for the program. Customers can self-certify their income via NW Natural's website and by phone with a CSR.

Low-Income Flag – Oregon customers who have self-certified their income and enrolled in the BDP or have been income-qualified for and received energy assistance via an agency (and auto-enrolled in the BDP) will have a flag placed on their account to receive the following exemptions:

- **Deposits** – will not be required to pay a deposit under any circumstances
- **Late Fees** – will not be assessed late fees on their monthly bills

Customers with the Low-Income Flag are also eligible for the following exemptions if they become applicable:

- **Delinquent Turn-on (DTO) Fees** – may receive one (1) next-day DTO fee exemption per calendar year.
 - Customers requesting a same-day (after 5 pm) or weekend/holiday reconnection order will be required to pay the full DTO fee and cannot apply their annual exemption to the cost.
- **Field Collection Fees** – may receive one (1) Field Collection fee exemption per rolling 12-month period

Customers will receive the Low-Income Exemptions when enrolled in the Residential Bill Discount Program under Rate Schedule 2 at one (1) residential location at a time.

Extensions – customers can arrange an extension on past due arrearage balances via our self-service tools on the NW Natural website and IVR up to the due date on an urgent notice. CSRs may also be able to offer several additional days beyond the self-service tools depending on the circumstances if the customer isn't interested in a TPA or energy assistance and just needs an additional day or two to make a payment.

These programs and customer options are also designed to ease energy burden and help manage energy costs, which also helps low-income customers to avoid new or ongoing arrearage balances.
