(3) Use of Army property by the Civil Air Patrol. Whenever the Civil Air Patrol is authorized to use Army real property, a Department of the Army permit to the Air Force will first be processed in accordance with this chapter; then the Department of the Air Force must issue a license to allow use of the property under permit by the Civil Air Patrol. The commencement dates of each related permit and license being the same. A condition of the license will make it expressly subject to the terms and conditions of the underlying permit. Since the use of such facilities by the Civil Air Patrol shall be at no cost to the Air Force, the license shall provide that the grantee will pay the Department of the Army directly for all expenses incurred by the Army for utilities and services. The license form may be written to meet particular administrative requirements consistent with policies and procedures in this chapter.

(4) Licenses for Mineral Exploration on Army-Controlled Lands.

(a) State laws on the rights of the mineral estate owners vary significantly from state to state. Prior to granting any mineral exploration licenses state law should be consulted to determine the rights of both the surface and mineral owners. If the exploration or development activity proposed involves subordinated mineral interests, see Section XV on Consents.

ER 405-1-12  
Change 30  
30 Sep 94

(b) If parties propose to explore for minerals or to perform geophysical tests, an Army license is required following the availability procedures set out in AR 405-30 and TM 405-80. District Engineers or their designees may delegate license authority to installations when time does not permit normal processing. If a Federal mineral lease has been executed for the property, availability of lands for exploration will not be denied, although it may be conditioned.

(c) The written request for a mineral exploration license should include the following: a map identifying the lands to be surveyed, date and method of survey, and the contact person. The method should give the location of the survey line, the energy source to be used (e.g. explosive charge, vibrator truck), the arrangement of energy source points, and access routes. To accommodate mission requirements and protect resources, the survey line may be realigned and energy source points may be skipped or offset. Consideration should be given to licensing at times when survey will result in minimal damage because of ground conditions (e.g. wet, frozen).

(d) Under the Secretary's general administrative powers, the license grants non-exclusive right to explore and conduct geophysical tests. Consideration may be waived, if the applicant already has a mineral lease, otherwise fair market value should be required. All licenses should contain a restoration provision which may be supported by a bonding requirement. Restoration provisions should be of long duration because subsidence may not appear until several months after underground explosions carried out by the licensee.

g. Execution. See Paragraph 8-198.

h. Revocation. See Paragraph 8-199.

#### 8-201. Licenses Granted Under Easement Statutes.

a. Statutory Authority. The same statutes which authorize the granting of easements for rights-of-way for various purposes (Section XIV) may also be used for granting temporary use of Army property by means of a revocable license.

b. Administrative Finding. The same findings relative to the authorizing easement statutes in Section XIV are required for granting a license.

c. Widths of Rights-of-Way. The right-of-way should occupy only the land reasonably necessary for the particular purpose and will not, in any case, exceed any maximum width contained in the authorizing statute.

d. Competition. Competition is not required because of the nature of the use. Should competition be determined to be beneficial, availability of the property for the proposed use will be advertised.

ER 405-1-12  
Change 30  
30 Sep 94

e. Consideration. Except as provided below, consideration will be reserved for licenses in accordance with Paragraph 8-195 above. A license without monetary consideration may be granted to a state, local governmental agency, a nonprofit corporation or association, or when exercise of the privileges provides sufficient consideration to the United States.

f. Term. Each license or renewal thereof shall be for a term not exceeding 5 years and revocable at will by the Secretary of the Army. An easement should be issued if a longer term is required.

g. Format. There is no prescribed form for licenses issued under easement statutes, however, the format shown in Appendix 8-E, Figure 8-E-1 should be used as a guide. Conditions from the appropriate easement format may be added to meet requirements specific to the type of easement right-of-way granted and those formats should be reviewed to insure that all such conditions are identified and included in the license. Conditions may also be added for site specific environmental, cultural, historical, and operational requirements, provided that such changes are consistent with policies and procedures in this chapter. Proposed easements of major importance, unusual character, or controversial nature which deviate from instructions in this chapter will be sent with full explanation to HQUSACE (CERE-M). The following changes may be made by the District Engineer:

(1) Condition 2 on Consideration shall be revised under the following circumstance when no monetary consideration will be charged Condition 2 A and 2 B will be replaced with the statement shown in Paragraph 8-195 above. In the event the consideration is a lump sum payment for the entire term, Condition 2 B shall be deleted.

(2) The Condition on Indemnity shall be deleted in easements granted to non-federal governmental entities.

(3) When the license is granted without monetary consideration, the Condition on Non-Discrimination will be replaced with the wording shown in the Condition on Non-Discrimination in the Public Road Easement (appendix D, Figure 8-D-3).

h. Execution. See Paragraph 8-198.

i. Revocation. See Paragraph 8-199.

8-202. License for Fish and Wildlife Management Purposes.

a. Purpose. This section prescribes procedures and responsibilities for authorizing states or local governmental agencies to use lands at water resource development projects for certain purposes; i.e., fish and wildlife management not subject to cost-sharing arrangements and for public purposes other than parks and recreation. A license is appropriate where the grantee needs only non-exclusive use to perform specific management activities or when some management activities will be jointly performed by project personnel. However, in many

ER 405-1-12  
Change 30  
30 Sep 94

instances the grantee's use of the land requires more than non-exclusive use, especially where mitigation and improvements are present, and therefore a lease will be appropriate. See Paragraph 8-155. of this chapter.

b. Reference. ER 1105-2-100, Environmental Resources.

c. Authority.

(1) Section 4, Act of Congress, 22 December 1944, as amended 16 U.S.C. § 460d).

(2) Section 3, Fish and Wildlife Coordination Act of 1934, as amended (16 U.S.C. § 663).

d. Application of Authority.

(1) Based on an approved plan, licenses are granted to a state for fish and wildlife management under authority of the Fish and Wildlife Coordination Act. The procedure for developing such plans is found in ER 1105-2-100.

(2) Since it is occasionally in the public interest to do so, Section 4, 16 U.S.C. § 460d authorizes granting of a license to a state to manage fish and wildlife at a project before a general plan is approved.

(3) Both Section 3, 16 U.S.C. § 663 and Section 4 of 16 U.S.C. § 460d, as amended, apply to licenses which authorize use of a reservoir area for public purposes other than fish and wildlife management, for example, forest management. Use Or a portion of the same area for public parks and recreation requires a separate lease as prescribed in Section XII, this chapter.

(4) Section 3, 16 U.S.C. § 663 does not authorize cultivation of crops for food or habitat for wildlife. A license for fish and wildlife management under 16 U.S.C. § 460d may authorize state or other governmental agencies to cultivate food or habitat for wildlife on project lands directly, by service contract, or by sharecrop agreements. A license which authorizes use of project lands to produce food or habitat for wildlife and forest management should cite both 16 U.S.C. § 460d and 16 U.S.C. § 663. All standard fish and wildlife licenses will contain Condition 9 as shown in Appendix 8-E, Figure 8-E-2: License For Fish and Wildlife Management, without deviation, except that existing licenses containing the same provision in Condition 5 will continue to be administered under that condition.

e. Consideration. Not required.

f. Term. Neither of the above statutes limits the-term of a license; it is considered desirable that the term not exceed 25 years, except that cost-sharing contracts usually have 50-year terms. These licenses are not revocable at will.

ER 405-1-12  
Change 30  
30 Sep 94

g. Licenses for Development and Conservation of Fish and Wildlife, Forests and Other Natural Resources.

(1) Annual Management Plan. The licensed property will be used according to an annual management plan mutually agreed on by the licensee and District Engineer. This plan may be an annual increment of a management plan of 5 years or longer. The District Engineer must determine that the plan is sufficiently explicit and that it authorizes activities which further the objectives of the master plan. The District Engineer will review the plan for: activities planned; areas for propagation of fish and wildlife; areas for outgrant by agricultural agreement or sharecrop; crops and rotation of crops; areas for wildlife cover and types of cultivated cover; all structures and improvements. The plan should estimate annual revenues and detail expenditure of these funds. Activities of third parties which will generate income for the licensee and expenditures by the licensee should be carefully scrutinized for conformance with the license conditions and with the approved plan. A proposed management plan will be considered in light of the licensee's operations of the preceding year, conformance with approved plans, and assurance that the previous year's expenditures were authorized in the plan. Expenditures should be authorized in advance, not after the fact.

(2) Authorized Expenditures. The licensee may pay reasonable expenses directly related to the particular license out of income generated by the operation. The expenses must be for such purposes as: planning and developing wildlife habitats, including wildlife food plots; incidental timber cutting; erosion control, fire breaks and fencing; farming and construction equipment; patrol or work boats; road and parking lot construction equipment; enforcement check stations; shelters for habitat improvement; restocking of fish or wildlife; and protection of endangered species. The licensee may pay salaries of employees immediately involved in carrying out the activities of the management plan at the project. Other general administrative costs, including planning activities away from the license location, may not be paid. Licenses which preclude payments for the above purposes must be administered individually. If a licensee requests modification of old Condition No. 5, the amendment is subject to condition: funds which the licensee accumulates will be paid to the District Engineer or escrowed for uses authorized in the license; the licensee must account separately for such funds annually. Funds remaining after the 5-year accounting period or after the term of the license, whichever occurs first, will be administered according to paragraph (3) below.

(3) Payment of Proceeds to the Government. Licensee's monetary proceeds which are not required to further activities as in paragraph (2) above will be paid directly to the Government at the end of each 5-year period; monies committed for authorized, approved expenditures in the 5th year may be withheld for up to 1 year. State laws may require that monies from operations on licensed land be deposited in miscellaneous receipts or similar state funds; in such cases, an amount from the state equal to the monies generated must have been expended on or committed to the project which generated the funds. If the amount paid into state funds exceeds the amount expended or committed by the state over the 5 years, the District Engineer should reduce the authority of the state to generate funds to insure that the state expends such excess

ER 405-1-12  
Change 30  
30 Sep 94

funds within 12 months. While it is desirable that the terms of the license and the 5-year accounting periods coincide, it is recognized that transition accounting periods may be shorter.

(4) Grazing. The District Engineer will lease lands available for grazing under conditions which he deems compatible with the licensee's use of the property. The licensee is not authorized to enter into grazing leases or agreements.

(5) Sharecrop Agreements. Sharecrop agreements with farmers are expected to provide crops as food or habitat and for compensation to the farmer. Certain services may also be required of the farmer toward development and conservation of fish and wildlife, land, water, forests, and other natural resources. The District Engineer should have copies of each sharecrop agreement to monitor the licensee's compliance with the approved management plan.

(6) Agricultural Agreements. Agricultural agreements may provide for planting and harvesting crops, including hay. Rental paid to licensee may be in cash and/or services to further license purposes. Where possible, these agreements will be granted by competitive bid. The District Engineer should have copies of each agricultural agreement to monitor the licensee's compliance with the approved management plan.

(7) Administration. The District Engineer will obtain current management plans from licensees and coordinate them with the Operations Division and other interested district elements. Real estate personnel will perform outgrant administration including the required annual compliance inspection.

h. Timber and Crops. If lands intended for development and conservation of forest or other natural resources are licensed, as in 16 U.S.C. § 460d, the licensee "may be authorized to cut timber and harvest crops as may be necessary to further such beneficial uses and to collect and utilize the proceeds of any sales of timber and crops in the development, conservation, maintenance, and utilization of such lands. Any balance of proceeds not so utilized shall be paid to the United States" no later than the end of each 5 years of the license term. If the license authorizes forest management, timber sales shall follow an approved forest management plan, and the proceeds expended to further the timber management program.

i. Format. Format for preparation of a license is shown at Appendix 8-E, Figure 8-E-2. Conditions 7 and 8 will be omitted if the purpose of the license is not fish and wildlife management. Recommendations for deviations will be sent to HQUSACE (CERE-M) WASH DC 20314-1000 and explained in the transmittal correspondence.

j. Execution. See Paragraph 8-198.

8-203. Licenses to States for National Guard Purposes.

ER 405-1-12  
Change 30  
30 Sep 94

a. Authority. Title 32, U.S.C., Section 503, authorizes the Secretary of the Army to provide for the National Guard to participate in encampments, maneuvers, or outdoor target practice. The Secretary is also authorized to grant revocable licenses to the states for temporary use and occupancy of Army property by the National Guard. States may not assign or sublet the property or use it for other purposes. Specific congressional authority is required to erect a permanent National Guard armory on a military reservation and to donate property of the Federal Government to states, counties, or municipalities.

b. Quartering of Employees. Licenses for use and occupancy of military reservations for the National Guard prohibit quartering of personnel for National Guard activities, except for personnel in the Federal service. National Guard caretaker maintenance personnel paid by Army or Air Force disbursing officers from National Guard Bureau funds are considered employees and may be furnished quarters for fair rental according to AR 210-12. Paragraph 8-128 of this chapter gives instructions for leasing quarters to state-paid employees of the National Guard.

c. Determination of Availability. The state Adjutant General will submit requests for licenses or modification of existing licenses for use of facilities for National Guard purposes, along with the report of availability, through the appropriate MACOM to the National Guard Bureau.

d. Consideration. No monetary consideration required.

e. Term. Unless otherwise provided in the availability report, licenses to states for National Guard purposes will be granted for an indefinite term, revocable at will by the Government. Where the Government has acquired a lease of real property, specifically to license it to a state for National Guard purposes, the term of the license should be concurrent with the term of the lease.

f. Format. The approved format for a license for National Guard purposes is shown in Appendix 8-E, Figure 8-E-3. Conditions may be added for site specific environmental, cultural, historic, and operational requirements, provided that such changes are consistent with policies and procedures in this chapter. All other proposed deviations will be fully justified and forwarded to HQUSACE (CERE-M) for approval.

g. Execution. See Paragraph 8-198.

h. Revocation. See Paragraph 8-199.

8-204. Licenses to the American Red Cross.

ER 405-1-12  
Change 30  
30 Sep 94

a. Authority. Licenses may be granted to the American Red Cross for use of Government real property in accordance with the following:

(1) Storage Buildings. Title 10 U.S.C., Section 2670 authorizes the Secretary of Army to grant revocable licenses to the American Red Cross for the construction and maintenance of buildings or the use of Government owned buildings for the storage of supplies to aid the civilian population in time of a national disaster.

(2) Licenses for administration and office space and other purposes are issued under the general administrative authority of the Secretary.

b. Consideration. No monetary consideration will be charged.

c. Term. Licenses under either of the above statutes will be limited to a maximum term of five years.

d. Format. The approved format for a license is shown in Appendix 8-E, Figure 8-E-1. Conditions may be added for site specific environmental, cultural, historic, and operational requirements, provided that such changes are consistent with policies and procedures in this chapter. All other proposed deviations will be fully justified and forwarded to HQUSACE (CERE-M) for approval. The following changes may be made by the District Engineer:

(1) Condition 2.a. and 2.b. will be replaced with the statement shown in see Paragraph 8-195 above.

(2) The Condition on Non-Discrimination will be replaced with the wording shown in the Condition on Non-Discrimination in the Public Road Easement (Appendix 8-D, Figure 8-D-3).

e. Execution. See Paragraph 8-198.

f. Revocation. See Paragraph 8-199.

8-205. Licenses to the Young Mens Christian Association (YMCA).

a. Authority. Title 10, U.S.C., Sections 4778 and 9778, respectively, authorize the Secretaries of the Army and Air Force to grant revocable licenses to the Young Men's Christian Association to erect and maintain buildings on military reservations for the promotion of social, physical, intellectual, and moral welfare of the members of such reservations.

b. Consideration. No monetary consideration is required, but the installation must be reimbursed for utilities.

c. Term. Licenses to the YMCA will be granted for a maximum term of five years.

ER 405-1-12  
Change 30  
30 Sep 94

d. Format. The approved format for a license is shown in Appendix 8-E, Figure 8-E-1. Conditions may be added for site specific environmental, cultural, historic, and operational requirements, provided that such changes are consistent with policies and procedures in this chapter. All other proposed deviations will be fully justified and forwarded to HQUSACE (CERE-M) for approval. The following changes may be made by the District Engineer:

(1) Condition 2.a. and 2.b. will be replaced with the statement shown in see Paragraph 8-195 above.

(2) The Condition on Non-Discrimination will be replaced with the wording shown in the Condition on Non-Discrimination in the Public Road Easement (Appendix 8-D, Figure 8-D-3).

e. Execution. See Paragraph 8-198.

f. Revocation. See Paragraph 8-199.

8-206. Rental Boat Licenses to Adjacent Private Resort Owners.

a. Authority. Title 10 U.S.C., Section 460d

b. Policy. Rental boat licenses may be granted to owners of resorts contiguous to water resource development projects to rent boats and motors, except houseboats or other floating facilities with overnight accommodations, to bona fide overnight resort guests. Such licenses may be issued to resort owners without regard to the location of commercial concessions, provided that:

(1) All interested parties are informed prior to issuance of any such license.

(2) Only one boat is allowed for each unit of the resort which accommodates bona fide overnight guests, and the boats are rented only for the use of such guests.

(3) No other commercial activity e.g. as gas sales, bait sales or repair service is permitted on Government property, except for guide service for persons renting boats and motors while guests at such private resort. Such guide service will only be permitted where needed because of distance or accessibility and when the income of commercial concessions will not be diminished.

c. Consideration. Consideration will be reserved in accordance with Paragraph 8-195 above.

d. Term. The term of each license will not exceed 5 years.

ER 405-1-12  
Change 30  
30 Sep 94

e. Format. The approved format for a license as shown in Appendix 8-E, Figure 8-E-1 will be used. A condition may be added to the license to authorize guide service, if appropriate. The Condition on Cost of Utilities may be deleted, if not applicable. Conditions may be added for site specific environmental, cultural, historic, and operational requirements, provided that such changes are consistent with policies and procedures in this chapter. All other proposed deviations will be fully justified and forwarded to HQUSACE (CERE-M) for approval. The following modifications will be made:

1. The authority of 16 U.S.C. § 460d will be cited.

2. The purpose for the license will be stated as “to place \_\_\_\_\_ boats upon the waters of the \_\_\_\_\_ Project near the grantee’s place of business for the purpose of renting said boats to persons who are bona fide overnight guests at the grantee’s place of business.”

3. A conditions will be added “That the boats placed and rented under this license shall not exceed \_\_\_\_\_ feet in length each.”

f. Execution. See Paragraph 8-198

g. Revocation. See Paragraph 8-199

#### 8-207. Licenses to Use Army Reserve Facilities.

a. Authority. Title 10, U.S.C., Section 2235.

b. General. The local USAR Commander may grant short-term licenses in accordance with Chapter 9, AR 140-483. A short term license is one which authorizes use of facilities for a maximum of four days. Short term licenses are normally executed by the USAR Commander and will be issued by Districts only upon specific request. All other licenses require the same availability considerations and determinations as other military outgrants and are prepared and executed at the support District.

c. Consideration. No charge is required for a short term license issued by the USARC Commander. All other licenses require consideration as shown in Paragraph 8-195 except that licenses granted to nonprofit corporations or associations, states, counties, cities or other government agencies will be without monetary consideration if the facilities will be used for a public purpose.

d. Term. Licenses will not exceed five (5) years.

e. Format. DA Form 833-R will be used for short term licenses issued by the USAR Commander. Licenses granted by Districts will be prepared using the Format shown in Appendix 8-E, Figure 8-E-1 as a guide. Conditions may be added for site specific environmental, cultural, historic, and operational requirements, provided that such changes are

ER 405-1-12  
Change 30  
30 Sep 94

consistent with policies and procedures in this chapter. All other proposed deviations will be fully justified and forwarded to HQUSACE (CERE-M) for approval. If the request is for a right-of-way which should more properly be covered by a license under an easement statute or an easement refer to the appropriate section of this chapter for guidance.

f. Execution. See Paragraph 8-198.

g. Revocation. See Paragraph 8-199.

8-208. Licenses for Mineral Exploration on Army Controlled Lands.

a. If parties propose to explore for minerals without a mineral lease (Paragraph 8-119) or to perform geophysical tests under a mineral lease, an Army license is required. See AR 405-30. District Engineers or their designees may delegate license authority to installations when time does not permit normal processing. If a mineral lease has been executed for the property, availability of lands for exploration should not be denied, although it may be conditioned.

b. The written request for a mineral exploration license should include the following: a map identifying the lands to be surveyed, date and method of survey, and the contact person. The method should give the location of the survey line, the energy source to be used (e.g. explosive charge, vibroseis truck), the arrangement of energy source points, and access routes. To accommodate mission requirements and protect resources, the survey line may be realigned and energy source points may be skipped or offset. Consideration should be given to licensing at times when survey will result in minimal damage because of ground conditions (e.g. wet, frozen).

c. Under the Secretary's general administrative powers, the license grants non-exclusive right to explore and conduct geophysical tests. Consideration may be waived, if the applicant already has a mineral lease, otherwise fair market value should be required. All licenses should contain a restoration provision which may be supported by a bonding requirement. Restoration provisions should be of long duration because subsidence may not appear until several months after underground explosions carried out by the licensee.

d. In unusual circumstances, including exploration by means of complex technology which requires BLM expertise, and which could result in litigation, the District Engineer may elect to ask BLM to issue permits for mineral exploration. See AR 405-30.

ER 405-1-12  
Change 30  
30 Sep 94

## SECTION XVII - PERMITS TO OTHER GOVERNMENT AGENCIES

### 8-209. General.

a. This section explains the procedures and responsibilities for granting, amending, and terminating permits over lands controlled by the Department of the Army.

b. A permit is a bare authority to an individual, an organization, a corporation, a state or local governmental entity, or another federal agency, to do a specified act or series of acts on the permitor's property without acquiring any estate therein, and authorizes an act which would otherwise constitute a trespass. Use is not exclusive and there is no alienation of title, ownership, or control of Government property. The permit instrument provides evidence of the permission granted and of the obligations, responsibilities, and liabilities imposed on the permittee. A permit authorizes only the specified use of the property by the permittee. For real estate purposes, the terms permit and license are considered identical and interchangeable. Wherever a permit is used, a license could properly be used.

c. A real estate permit is generally used to authorize use of DA real property by another Federal agency. A license usually would be used for other types of grantees. See also the cooperative agreements between the Army and the U.S. Fish and Wildlife Service, as discussed in Paragraph 8-222 below. ARPA Permits are addressed in Section XVIII below.

d. General procedures and guidance on processing instruments as shown in Section VII of this chapter, are applicable to processing permits, except as otherwise provided.

e. Space or facilities on an Army installation which are assigned for use by other Army users do not require a permit unless required by the using command. Permits are not subject to the requirements and provisions of Title 10 U.S.C. § 2662.

8-210. Authority. Although no general statute authorizes permits, Federal agencies and Secretaries of military departments have long issued permits granting use of real property under their control to other Federal agencies, with the tacit approval of Congress, where such use would not interfere with the purpose for which the property was originally acquired or is being retained.

8-211. Consideration. Fair market value will be charged for land and building space permitted to non-DOD agencies, in their official capacity; except as follows:

a. Permits for the use of real property and related services provided to an organization that solely supports or substantially benefits a project or installation mission (e.g., to FAA for air control operations on an air base, to the Department of Agriculture for timber or research and development programs, to Department of Commerce, National Weather Service, for the NEXRAD network or National Oceanic and Atmospheric Administration for seismograph

ER 405-1-12  
Change 30  
30 Sep 94

stations, or to the Federal Communications Commission (FCC) for a communication tower). The Coast Guard is an Armed Service (see Title 10 U.S.C. § 101) and will be treated like a DOD agency.

b. Existing permits. Agencies should only be charged entering into new permits or renewal of existing permits.

c. Permits for land or facilities if the activity being conducted on the property benefits or enhances the national defense.

d. Permits for which the income produced by a charge is less than the expense of administering the charge.

e. Permits in the nature of easements granting a right-of-way for roads, pipelines, cables, or similar purposes.

8-212. Reimbursement and Other Charges.

a. Collection of costs for utilities and services furnished to the grantee is the responsibility of the officer having immediate jurisdiction over the real property. DOD 4000.19-R governs interservice support agreements which cover utilities, maintenance, and other services furnished by the host department to a tenant activity of another military department.

b. When real property is leased to or used by the Army and rent or a charge is paid, any use of the real property for non-Army use will provide for reimbursement of a proportionate part of the rental or charge in lieu of consideration. HQUSACE (CERE-M) must approve otherwise.

8-213. Prior Approval. Prior approval of SAILE is required for the following permitting actions:

a. Where there are significant deviations from established policy; or the proposed permit is of major importance, unusual character, or controversial issue.

b. Cases not covered by this regulation and such other specific cases as directed by HQUSACE (CERE-M).

c. Permits for which no charge is proposed solely on the basis that the activity being conducted on the property benefits or enhances the national defense,

d. When the use of military or civil works real property, regardless of value, may significantly reduce, redirect, add to or affect missions at a military installation or civil works project.

ER 405-1-12  
Change 30  
30 Sep 94

8-214. Term. There are no limitations on the length of term, however it should be limited to the actual time required by the grantee. A termination date should always be specified on the permit. If an extension of the term is required, a new permit should be processed in the same manner as an original application. Permits which are not limited to a specified term and/or which cannot be revoked at will are tantamount to a transfer and normally should not be granted. As an exception, permits may be granted for indefinite terms to Federal agencies which use Army property at water resources development projects and market power generated at such projects.

8-215. Format. The approved format for permits to Federal agencies is shown in Appendix 8-F, Figure 8-F-1. This is intended as a generic format for use at Civil Works projects as well as Army Installations.

a. Condition 10 of the approved format contains a requirement for restoration of the permitted property by the grantee. Some agencies have specific or continuing authority which allows for a restoration obligation. It is the Army policy that a restoration requirement will be included in those permits for which a monetary charge will be made. Those permits which do not impose a monetary charge will be revised to delete the restoration requirement. The approved format for permits includes specific guidance on the wording change to be made in Condition 10 when no restoration provision is required.

b. Some Federal agencies cannot comply with the requirement of Condition 10 because of a lack of statutory authority to obligate the agency to a restoration obligation. If an agency paying fair market value objects to the restoration condition after reviewing the standard language in Condition 10 of the approved format, the following Condition 10 may be substituted:

10. On or before the date of the expiration of this permit or its relinquishment by the grantee, the grantee shall vacate the premises, remove its property therefrom and SHALL MAKE A GOOD FAITH EFFORT TO OBTAIN THE NECESSARY FUNDS in order to restore the premises to a condition satisfactory to said officer, ordinary wear and tear and damage beyond the control of the grantee excepted. If, however, this permit is revoked, the grantee shall vacate the premises, remove its property therefrom, and shall MAKE A GOOD FAITH EFFORT TO OBTAIN THE NECESSARY FUNDS in order to restore the premises as aforesaid.

c. Site specific environmental, cultural, historic, or operational requirements may be added.

8-216. Execution. Except as provided in succeeding parts of this section, Division Engineers, Division Directors of Real Estate, District Engineers and District Chiefs of Real Estate, without authority to redelegate, are authorized to execute, amend, and renew permits on Army-controlled real property. Such instruments will be executed "by authority of the Secretary of the Army." Proposed permits of major importance, unusual character, or controversial nature

ER 405-1-12  
Change 30  
30 Sep 94

which deviate from instructions in this chapter will be sent with full explanation to HQUSACE (CERE-M).

8-217. Revocation and Termination. Permits are revocable at will by the grantor. The grantee may terminate a permit at any time by a written notice of relinquishment. When permitted property is needed, the District Engineer should immediately advise local representatives of the grantee and request them to release the property within a specified time. If the grantee does not agree to relinquish the permit within the time limit, HQUSACE (CERE-M) will be notified. Authority to revoke permits has not been delegated and all proposals for revocation will be forwarded to HQUSACE (CERE-M) with a complete explanation.

8-218. Excess and Surplus Property.

Requests for use of excess property reported to GSA or surplus property should be referred to that agency.

8-219. Stream Gaging Stations. The U.S. Geological Survey, Department of the Interior, maintains a primary network of stream gaging stations and must sometimes install and operate such stations on rivers, harbors, and flood control projects; these stations provide streamflow records for planning, design, and operation of Army Civil Works projects. To avoid the need for numerous permits for each station on such lands, the Secretary of the Army granted general permission to the Secretary of the Interior, U.S. Geological Survey, in a letter of 6 April 1951: USGS may enter lands as the District Engineer designates, and must abide by regulations that the District Engineer may prescribe, to construct, operate and maintain stream gaging stations. In each specific instance, the District Engineer or Chief of Real Estate may grant permission in a letter to the local representative of the U.S. Geological Survey.

8-220. Construction and Operation of Schools. Permits may be granted to the U.S. Department of Education for construction and use of education facilities on military installations. The approved format for such permits is shown in Appendix 8-f, Figure 8-F-2. Authority for execution of such permits has not been delegated and will be forwarded to CERE-M for execution in SAILE.

8-221. Department of Defense Agencies (Non-Military Department). Title 10, U.S.C., Section 2682, provides that certain real property activities for an activity or agency of the Department of Defense (other than a military department) will be accomplished by or through a military department designated by the Secretary of Defense. A real property facility under the jurisdiction of the Department of Defense which is used by an activity or agency of the Department of Defense (other than a military department) shall be under the jurisdiction of a military department designated by the Secretary of Defense. Pursuant to this law, all or part of an installation may be permitted to DOD agencies for activities which are not part of a military department, e.g. Defense Mapping Agency, Defense Logistics Agency, etc. The approved permit format shown in Appendix 8-F, Figure 8-F-1 will be used. This authority shall be cited in the

ER 405-1-12  
Change 30  
30 Sep 94

permit. The military department will retain accountability for the entire installation. The grantee will reimburse the military department for services furnished and other incurred costs.

8-222. Cooperative Agreements with the U.S. Fish and Wildlife Service.

a. The Fish and Wildlife Coordination Act, amended (16 U.S.C. § 663, et seq.) generally governs the management of wildlife resources at water resource development projects; a General Plan Agreement is entered into and executed by the Secretaries of the Army and Interior and by the head of the state agency responsible for wildlife conservation. According to the agreement, either the state, under a fish and wildlife outgrant as outlined in Section IV, or the U.S. Fish and Wildlife Service (USF&WS) will manage wildlife resources.

b. If the USF&WS manages project resources, the District or Division Engineer and the regional officer of the USF&WS will determine terms and conditions of a Cooperative Agreement. The agreement will be forwarded to HQUSACE (CERE-M) for execution by the Secretary of Army and Interior or their designees.

ER 405-1-12  
Change 30  
30 Sep 94

SECTION XVIII. OUTGRANTS FOR TREASURE TROVE, ANTIQUITY, OR  
ARCHAEOLOGICAL PURPOSES

8-224. Requests to Search for Treasure Trove.

a. Any request to search for treasure will be sent to HQUSACE (CERE-M) with the names and addresses of all parties to the proposed contract or license and with a local map showing the general search area. The military command or HQUSACE for civil works determines whether the search may be authorized and any terms, limitations, and conditions as necessary.

b. GSA issues contracts to protect the interest of the Government in searches for and sales of treasure trove, which has been wrecked, abandoned, or become derelict, and which should be returned to the Government, under Section 3755 of the Revised Statutes (40 U.S.C. § 310). These contracts allow for just and reasonable compensation to be paid to the persons who salvage the property. This statute has been determined to cover salvage of shipwrecks. GSA should not issue the contract until the Army consent is obtained. The GSA contract will state the terms, limitations and conditions of the land availability. By law, the requested search may not cause any costs or claims to the Government.

c. Request to search for treasure trove may also be authorized under a license, especially if the Government's asserts no right to the treasure. The format for a general license will be used with the terms, limitations and conditions of the availability added.

8-225. The Antiquity Act. The Antiquity Act, Title 16, U.S.C., Section 432, et seq, applies to certain historic and prehistoric ruins and objects of antiquity on Federal lands, and authorizes scientific investigation of these antiquities, subject to permits and other regulatory requirements. This act may apply in situations not covered by ARPA, below, such as paeoleontological remains. 43 CFR 3 implements the Antiquity Act. If in doubt as to which act applies, refer request to HQUSACE (CERE-M).

8-226. Archaeological Resources Protection Act Uniform Regulations.

a. Authority. Section 10(b) of the Archaeological Resources Protection Act of 1979 (ARPA) (16 U.S.C. § 470) requires issuance of appropriate rules and regulation for carrying out Public Law 96-95. ARPA was enacted to protect archaeological resources on public and Indian lands, and to increase communication among governmental authorities, professionals, and private individuals. On 6 January 1984, Final Uniform Regulations were issued by the Departments of Interior, Agriculture, Defense (32 CFR Part 229), and the Tennessee Valley Authority. These regulations establish basic government-wide standards for the issuance of ARPA permits, responsibilities of ARPA permittees, procedures for filing appeals and implementation of civil penalty provisions should ARPA violations occur. The Corps of

ER 405-1-12  
Change 30  
30 Sep 94

Engineers assumed responsibility for the issuance of permits for ARPA related work on Army-controlled military and civil lands on 1 October 1985. Division and District Engineers having real estate responsibilities are responsible for these permit requirements.

b. ARPA Permit Application. Applicants proposing to excavate and/or remove archaeological resources from Army military and civil lands must apply for an ARPA permit from the appropriate District office. Applicants must submit an application form, including a written proposal that clearly documents the information required in 32 CFR Parts 229.6 and 229.8. An incomplete application will be promptly returned to applicant for any additional information required. An ARPA permit is not required for purposes other than the excavation and/or removal of archaeological resources even though those activities might incidentally result in the disturbance of archaeological resources as stated by Section 229.5 (b) (I) of the Uniform Regulation. Federal land managers are not relieved of responsibility to comply with other authorities which protect archaeological resources prior to approving permits, leases, licenses and entitlements for use.

c. Application Processing Procedures. Processing should be completed within 90 days to include the following unless otherwise noted:

(1) Coordination. The District Real Estate office will coordinate with other elements of the District office as to the availability of civil lands for the permit activity. Coordination should be concurrent with technical review except as follows. Determination of availability for military land will be made in accordance with AR 405-80, Granting Use of Real Estate, and applicable provisions of AR 405-70, Utilization of Real Estate, and will be made prior to the District's technical review. Military land permits require approval by the Installation Commander and the MACOM which may result in additional processing time beyond 90 days.

(2) Notification of Indian Tribes. It is incumbent on the District to identify and notify Indian tribes which may be affected by the proposed permit activity in accordance with 32 CFR 229.7. This notification is to be performed as part of the Technical Review.

(3) Technical Review. Technical review requires a specialist in the field of archaeological resources qualified to determine that the application meets all the requirements of the provisions of 32 CFR 229.6 and 229.8. Such specialist will be designated by the District and Division Engineers for each office. In the event the District or Division office lacks the services of a qualified archaeologist, coordination with another Division or District may be sought. When reviewing applications, particular attention should be paid to professional and institutional qualifications, research design, the applicant's technical and financial ability to complete the work and produce a final report in a timely manner, certification of adequate curation of material remains, original field notes, photographs, special collections, and other research materials. In addition, the review of the proposal should be consistent with state cultural resource preservation plans and relevant Corps plans for the project or installation.

ER 405-1-12  
Change 30  
30 Sep 94

(4) Division Technical Review Approval. Applications meeting technical approval of the District will be sent to the appropriate Division office for technical review approval by the Division cultural resource specialist. After review the application will state the reasons denied and returned to the District. Any denial will state the reasons therefor. In the event the Division office lacks the services of a qualified archaeologist, a qualified person at the District level or coordination with another Division or District may be sought.

(c) Denial of Permit. A permit may be denied for reasons of technical inadequacy, inability to demonstrate research relevance, or for incompatibility with District, military or State programs. the applicant should be notified in writing by the District Engineer of the reason(s) reusability if denied is for technical reasons.

(d) Issuance of Permit. On receipt of applications approved by the Division office, the permit, containing the terms and conditions set forth in 32 CFR Part 229.9 and such other special conditions and stipulations as appropriate requested by the using agency, will be issued by the District Real Estate Office. In instances where the District has been requested to provide technical review of applications for civil lands not managed by the Corps, the permit must be cosigned by the appropriate land manager.

(e) Monitoring of Permit Activity.

(1) District personnel will monitor work conducted on civil lands to assure compliance with the terms of the permit.

(2) On military lands, the Installation Commander's staff will monitor work conducted to assure compliance with the terms of the permit.

(3) Civil Penalties. Civil penalties will be enforced in accordance with 32 CFR Part 229.15 and implementing instructions.

(4) Revocation. A permit may be revoked if it is determined that the applicant has not complied with conditions of the permit, has misrepresented the work to be accomplished, or if continuance of the activity will impair any District or military function or public health and safety.

(5) Appeals. Any appeal of a permit denied or revoked for technical insufficiency will be forwarded to the appropriate Division Engineer for review by the Division cultural resource specialist. The Determination on Appeal will be signed by the Division Engineer.

(6) Surface Collection. In accordance with the ARPA, the intent of Congress, and implementing regulations, no permit shall be required for any persons collecting coins, minerals, arrowheads or bullets located on the surface of the ground (except in known archaeological sites or as required by 42 U.S.C. § 1996, American Indian Religious Freedom Act). The use of metal

ER 405-1-12  
Change 30  
30 Sep 94

or density detectors, for the purpose of undersurface discovery, or the use of any means of ground or underwater disturbance without proper permit is prohibited.

c. Format. The approved format for an Archaeological Resources Protection Act Permit is shown in ENG Form 4923-R. The application is ENG Form 4922-R. Master forms are available from the local Forms office.

Utilization Evaluation Questions  
Part B

B-1. The standards and definition set out in 41 CFR 101-47.801 should be used in the evaluation and are not repeated here. The following are also suggested for consideration in developing the narrative portion of the report. This is not intended to be a complete list of all possible questions and should not be used as a checklist. Some items may not be applicable while others not on the list may be essential. It is intended only as a guide to aid in the preparation of the report:

(a) Are all lands and facilities thereon being used for Congressionally authorized purposes and programs?

(b) Based on (a) above, is utilization consistent with the master plan, operational master plans, appendices, supplement or other approved documents? Are there significant deviations?

(c) What are the public use trends and how do they affect project visitation?

(d) Do services and facilities meet public use adequately? Do private facilities interfere with public use?

(e) Have land or facilities been significantly developed since the previous survey? How?

(f) Are there natural resources inventories available for this project? Is there an OMP containing resource use objectives and site specific prescriptions for the management of the resources? Is there multiple use forest and woodland management?

(g) Are adequate boundary monuments maintained? Have funding constraints prevented boundary survey or maintenance?

(h) If the land is not utilized, would any interim use be appropriate, such as Agricultural & Grazing leasing?

(i) Is there evidence of unauthorized use? Is there evidence of trends of unauthorized use or certain areas where the problem is more prevalent? Is there a lack of public awareness that could be overcome with a public affairs effort? Is legal action needed?

(j) Is there evidence of unauthorized Government use of adjoining property? Is this of a recurring nature that would necessitate acquisition of the private party or that has already resulted in a taking? Is a legal opinion of the possible taking needed?

(k) Are Government quarters furnished to employees with the proper rental arrangement and documentation? What is the status of the phase-out actions required by the Housing Management Plan?

Figure 8-A-2 (Continued)

ER 405-1-12  
Change 30  
30 Sep 94

(l) What is the status of previously reported utilization problems? Did the necessary follow-up action take place?

(m) What percent of project buildings is occupied? Has a space management survey been performed?

(n) Has all property identified as underutilized, not utilized or not put to optimum use been reported to HUD for determination of suitability for use by the homeless under the McKinney Act?

(o) Is the property over-utilized? Is the visitation excessive in relation to the current design carrying capacity? Should acquisition of additional property be considered? Is the property inadequate for reasonable near-term future development? Is plant growth deterioration beyond natural capability to regenerate? Are facilities overcrowded on days of normal (not peak) use? Are maintenance requirements above those required for routine wear?

(p) Is maintenance being deferred due to funding constraints?

(q) You should be sensitive to instances where District and Division rankings of O&M money may have caused deficiencies beyond the control of the project personnel. However, the management evaluation report is not the place for crusades. Where funding is a factor, it should be noted in a neutral manner.

REPORT OF AVAILABILITY

A. GENERAL:

1. Project: (Use official name from Chief of Engineer report)
2. Tract No(s) and Name, if any: (Segment maps, Master Plan designations)
3. Type of Outgrant:  lease  license  easement  permit
4. Proposed use:  Commercial Concession  Park and Recreation  Fish and Wildlife  Agricultural and Grazing  Road  Pipeline  Other \_\_\_\_\_ (list may be varied to name outgrants commonly issued)
5. Recommended Term of outgrant: Proposed for \_\_\_\_\_ years. Start date, if applicable: \_\_\_\_\_
6. Use requested by:  Army element  private party  adjoining grantee  State, local government  other Federal agency  Other \_\_\_\_\_
7. General property description/characteristics of the property:  
Acreage \_\_\_\_\_; Land character \_\_\_\_\_.
8. Are Government buildings and improvements included in the area:  No  Yes. If yes, give details on buildings and improvements and attach copy of floor plan, if applicable:  
  
Building Identification No. \_\_\_\_\_; Square footage outgranted/percentage of building \_\_\_\_\_; Condition of the facilities \_\_\_\_\_.
9. If building space only and land is not included in grant, explain why the improvement is not excess: \_\_\_\_\_
10. United States property interest:  fee simple title  easement  in-lease; or  other.
11. Army jurisdiction:  primary jurisdiction,  permit from a Federal Agency,  withdrawn from the public domain.
12. If land is being made available for a public road, show type of access, governmental entity, any restrictions: \_\_\_\_\_ Is jurisdiction to be relinquished?  Yes  No
13. Are Utilities available?  Yes  No. Will utilities or other support services be provided by Army on reimbursable basis?  Yes  No
14. Destruction, relocation, and replacement of Government facilities:  
  
 I Certify the proposed use will not require the destruction, relocation, or replacement of any Government facilities.  
  
 The following information is provided with regard to the destruction, relocation, or replacement of any Government facilities:  
\_\_\_\_\_  
\_\_\_\_\_
15. I certify that the grant of the proposed use will not interfere with operation of the project, or with contemplated development and other

REPORT OF AVAILABILITY

B. ENVIRONMENTAL and CULTURAL CONSIDERATION:

1. COASTAL ZONE MANAGEMENT (CZM) (if applicable):

CZM is not applicable.

CZM is applicable and the proposed use is/will be consistent with the approved state CZM Plan.

2. CLEAN WATER ACT (FEDERAL WATER POLLUTION CONTROL ACT):

This action will not involve the discharge of any pollutants into the waters of the United States or less than one million gallons of discharge per day will be made.

This action will entail the discharge of more than one million gallons of pollutants into the waters of the United States per day.

The applicant has applied for and received a NPDES Permit from the EPA/appropriate state agency. If not received, state circumstances:

The Grantee is complying with the requirements of a NPDES Permit and the Grantee has a monitoring and reporting procedure.

Subsequent requests for expansion or additional construction should be reviewed to assure the Grantee is in compliance with the five acre rule.

3. FLOODPLAIN:

This property is not located within the 100 year floodplain and does not fall under the purview of Executive Order 11988.

This property is located within the 100 year floodplain and does fall under the purview of Executive Order 11988 and (circle the appropriate):

a. The proposed occupancy or modification will not adversely impact the floodplain.

b. There is no other practicable alternative available for this intended use.

c. The proposed occupancy or modification may be allowed subject to the following restrictions being incorporated in the outgrant document:

4. WETLANDS:

This property is not located within a wetlands area and, therefore, does not fall under the purview of Executive Order 11990.

This property is located within a wetlands area and does fall under the purview of Executive Order 11990, accordingly, the following restrictions must be incorporated in the outgrant document:

(Status of 404 Permit process

ER 405-1-12  
Change 30  
30 Sep 94

5. ENDANGERED SPECIES:

This action will not jeopardize the habitat of any endangered species of fish, wildlife, or plants pursuant to the Endangered Species Act.

This action jeopardizes the habitat of endangered species of fish, wildlife, and/or plants identified on an attached map. Accordingly, the following restrictions must be incorporated in the outgrant document to protect the habitat: \_\_\_\_\_

6. FISH AND WILDLIFE COORDINATION ACT:

This action will not jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA.

This action will jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA. Impact description: \_\_\_\_\_  
RECOMMENDED ACTIONS PRIOR TO AVAILABILITY: \_\_\_\_\_

7. HISTORICAL AND CULTURAL RESOURCES:

The area has been surveyed for historical and cultural resources and there have been none identified on this property, and this action is in compliance with the National Historic Preservation Act and other relevant laws; Executive order 11593, Protection and Enhancement of the Cultural Environment; or any MOA's related thereto.

A survey has identified historical and/or cultural resources on this property. This action has been coordinated with the State Historic Preservation Officer and the Advisory Council on Historic Preservation in accordance with 36 CFR 800. The following restrictions must be incorporated into the outgrant document to protect the resource:  
\_\_\_\_\_

Native American graves or artifacts have been identified on this property. Refer to requirements of the American Indian Religious Freedom Act and Native American's Graves Protection and Repatriation Act.

Archaeological sites or resources have been identified on this property. Refer to the Antiquities Act; Archaeological and Historical Preservation Act; and Archaeological Resources Protection Act.

8. MISCELLANEOUS PROVISIONS.

The proposed outgrant activity will involve the use of pesticides, e.g. Agricultural, golf courses, restaurants. Refer to the Federal Insecticide, Fungicide, and Rodenticide Act and state pesticide regulations, as necessary.

The proposed outgrant activity will impact an area designated under the Wild and Scenic Rivers Act. Attach any site specific restrictions necessary to protect the area.

The proposed outgrant activity will include fuel burners, incinerators, gas pumps, solvent or other volatile compounds. Refer to the

ER 405-1-12  
Change 30  
30 Sep 94

Clean Air Act and state and local regulations. Give status of state and local permits.

The proposed outgrant activity will include substances covered by the Toxic Substances Control Act.

Other special purpose environmental laws, as follows:

---

9. NEPA REQUIREMENTS:

This action falls under one of the Categorical Exclusions (CX) contained in AR 200-2 or ER 200-2-2 (Procedures for Implementing NEPA). The environmental affect of the action has been considered. A Record of Environmental Consideration (REC) is attached.

The impact of this action is considered to be minimal or insignificant. An Environmental Assessment (EA) with a Finding of No Significant Impact (FONSI) is attached/is being prepared.

The impact of this action is considered to be significant. An Environmental Impact Statement (EIS), or supplement thereto, is attached/is being prepared.

10. The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Environmental Baseline Study (EBS) or Preliminary Assessment Screening (PAS):

An EBS/PAS has been conducted and no HTRW substances were identified as released, stored, or disposed on the property in the threshold quantities. Copy is attached.

released, stored, or disposed on the property in the threshold quantities. The CERCLA notice should be included in the outgrant document. Copy is attached containing the details. Choose one:

a. Remedial actions have been taken so that the property is considered safe for the proposed use.

b. Remedial actions have not been taken. Provide details and justification for outgranting in the current condition.

11. Real Property Contaminated with Ammunition, Explosives or Chemicals.

The property has been decontaminated using the most appropriate technology consistent with the proposed use of the property.

Transfers is to another Federal agencies for compatible use of surface de-contaminated real property, subject to the following limitations, restrictions and prohibitions concerning the use of the property, to ensure personnel and environmental protection: \_\_\_\_\_

Access rights are reserved to implement any monitoring plan.

REPORT OF AVAILABILITY

c. PRELIMINARY PROCEDURES:

1. STEWART B. MCKINNEY HOMELESS REQUIREMENTS:

McKinney Act requirements do not apply to this action.

McKinney Act requirements apply, necessary screening has been completed, and no interest was expressed.

2. INVENTORY AND CONDITION REPORTS:

No Government improvements are included in the proposed outgrant, so an inventory and condition report is not required.

Government improvements are included and an inventory and condition report is required/attached.

3. CONSIDERATION:

There is no monetary consideration required for this action.

Consideration is the greater of the administrative costs of \$ \_\_\_\_\_ or the FAIR MARKET RENTAL value for the property of \$ \_\_\_\_\_. Give source of value (i.e. appraisal, estimate).

offsets (In kind amounts) for the improvement, maintenance, protection, repair or restoration of the property leased will be provided in lieu of rent in the amount of \$ \_\_\_\_\_. Offsets to be provided are attached.

Consideration is less than fair market value and the outgrant document must contain assurances for Civil Rights Act non-discrimination and the Rehabilitation Act.

4. WAIVER OF COMPETITION:

A waiver of competition is not required.

A waiver of competition is recommended/not recommended. Provide full justification and proposed grantee, if waiver is recommended.

5. Other applicable laws, regulations, MOA'S, etc. requiring consideration for processing this action:

---

6. TECHNICAL SPECIFICATIONS: (Attach a copy here or indicate where a copy is available.) (Conservation plan for A&G leasing; Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.); Safety requirements; Master plan data, if necessary to potential outgrantee. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.)

7. Additional information that will assist in processing this application/action: \_\_\_\_\_

#### INSTRUCTIONS

The Determination of Availability would be signed by the official with the delegated authority to approve the outgrant, whether the District, the Division, or SAILE.

Section A. of the ROA would usually be the starting of the outgrant process. If the outgrant is the culmination of the Master Plan process, then this section would pull information from the Master Plan and project data. If a private party has requested the outgrant or outgrant expansion, then the office which takes the request would fill in as much information as is available and submit it for further processing. This section would usually be done by the operation element.

Section B. would be completed by the appropriate environmental office or offices with expertise in the various areas. This section could be divided into more than one subpart if the district/project organization involves several offices which each need to sign a portion.

Section C. contains general preliminary information. This section would usually be done by the Real Estate element.

DETERMINATION OF AVAILABILITY  
CIVIL WORKS PROJECTS

---

1. The attached Report of Availability and its findings has been reviewed.

2. I have determined that the intended use of this property as set out in the attached Report of Availability is in the public interest or will further project purposes is consistent with delegated authorities and Government regulations.

3. I have determined that the proposed use is not a potential embarrassment to the Army.

4. I have determined that the property is not excess to the overall project purpose and has not been identified as not utilized in a Real Property Management Report. (PROVIDE JUSTIFICATION WHERE NECESSARY).

5. I have determined (for 10 USC 2667 leases) that the rental consideration is not less than the fair market value of the lease interest, taking into account the benefit to the United States, to the public and to the Department of Army and that the amount stated in the Report of Availability is appropriate and includes cash or in kind amounts for the improvement, maintenance, protection, repair or restoration of the property leased.

(For other outgrants) I have determined that the rental consideration is appropriate for the use proposed.

6. The proposed use as \_\_\_\_\_ is approved subject to (state any modifications to the restrictions stated in the Report of Availability which must be placed in the outgrant document).

7. Coordination:  
(list)

8. It has been determined that the property is available for the proposed use with the restrictions as stated in the Report of Availability (and as added above) and may be outgranted in accordance with applicable laws, rules and regulations.

APPLICATION INFORMATION PACKAGE  
FOR  
(RECREATION DEVELOPMENT) / (INDUSTRIAL DEVELOPMENT)  
AT  
(SITE/SITES)

The information below must appear in the lower left corner of Lease Application envelope.

Sealed Application for Lease of Real Property

To be opened:

Time: \_\_\_\_\_

Date: \_\_\_\_\_

Notice No. \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

The application package should include:

1. A description of the site/sites. Use project brochures and other available information, if possible. Include technical specifications.
2. Purpose of leasing (Marina, resort, industrial, etc.)
3. The minimum development required; types of development not allowed, i.e. residential, timeshare, condominiums
4. The maximum development allowed, if applicable.
5. Note restrictions on storage of solid waste and storage of toxic or hazardous materials.
6. Description of the government's ownership.
7. Copy of the lease with known information completed
8. Rent provisions.
9. If the considerations is less than fair market value, then state that this is considered a type of federal financial assistance and a Civil Rights assurance is required. Otherwise, point out the non-discrimination condition in the lease.
10. Arrangements for inspection of the site, POC, etc.
11. Schedule, if any, between Notice and execution of lease
12. Selection criteria
13. Submission Instructions

I. SUBMISSION INSTRUCTIONS

A. Sealed, written Applications should be submitted: (District/address) Give number of copies and any special requirements, i.e. 3-ring binders, drawing no larger than 11x14.

B. Applications will not be accepted after (time) and (date). Modifications of applications may be made in sealed envelopes, as for original application, up to that time.

C. REJECTION of Application. The right is reserved, as the interests of the Government may require, to reject at any time any and all applications, to waive any informality in applications received, and to accept or reject any items of any applications unless such application is qualified by specific limitation.

D. DEFAULT. In the event that the successful applicant fails to enter into a lease within ten (10) days after receipt of Government notification that his application has been accepted and receipt of a draft lease for execution, or in the event that the successful applicant fails to otherwise comply with the terms of this Notice, the Government may declare the applicant in default in writing giving the applicant 10 days to respond or correct the default. The Government may then select the next highest rated applicant.

E. ADDITIONAL INFORMATION. Any additional information may be obtained from \_\_\_\_\_ (fill in District POC).

F. AWARD OF LEASE. Leases will be granted to the applicant with the best application, who is responsive to this Notice, provided that the applicant is responsible, the application is reasonable, and it is in the interest of the Government to issue the lease.

G. DEPOSIT. Applicant will submit a (non)refundable application fee/deposit of \$ \_\_\_\_\_. Amount will apply to initial rental for successful bidder.

II. APPLICATION INFORMATION: The following information must be provided to assist the Government in selecting the successful lease applicant:

A. General Information: Provide name, address, and telephone number of the applicant and, if applicable, the name, address, and telephone number of a representative authorized to act on behalf of the applicant during the course of the project.

B. Experience and Background: (Not required for federal, state or local governmental entities)

1. List any/all previous business endeavors with a description of the business operations and status.

2. Provide a description of any management qualifications and experience.

3. Provide third party personal and business references.

4. If applicant is a corporation it must provide:

a. Articles of Incorporation and by-laws.

b. Names, addresses, dates of birth, and Social Security numbers

of officers and participating principals and all addresses they have used for the last ten (10) years.

- c. Corporate resolution authorizing the proposed transaction.
- d. Summary of Corporate Activity.

5. If applicant is a partnership it must provide:

- a. The partnership agreement.
- b. Names, addresses, dates of birth, and Social Security numbers of the partners and all addresses they have used for the last ten (10) years.

6. If applicant is a sole proprietor he/she must provide Social Security number, date of birth, current address, and all addresses used for the last ten (10) years.

c. Financial Capability (Note: All financial data will be held in confidence).

1. If applicant is a corporation or limited partnership it must provide a current financial statement prepared by an independent Certified Public Accountant or by an independent licensed public accountant. It must also include a personal financial statement of the key owners/principals.

2. If applicant is an individual or partnership he/she/they must provide a complete and current personal financial statement.

3. Except for governmental agencies, provide the names, addresses, and telephone numbers of at least two commercial or institutional credit references from which the applicant has previously obtained financing. Attach a letter authorizing each credit reference to respond to inquiries from the Government.

4. Provide a preliminary budget, projected cash flow, estimated operating costs, and detailed plans of financing including identity of proposed lenders. Identify all interim and permanent sources of funds and include copies of loan documents used to implement the assignment.

D. Plan of Operation and Development.

1. Provide a five-year plan for operation and development of the leased premises. The plan must show goals and objectives for each year showing the estimated cost of any development.

2. Identify key positions and their duties and responsibilities as they relate to the business.

3. Depending on the scope of development and individual circumstances of the applicants, a performance bond, letter of credit, or performance deposit may be required to defray Government expenses of going through the lease selection process should applicant default.

4. If the property is subject to Coastal Zone Management, provide a consistency certification.

5. Other information may be requested as required by the District Engineer or his authorized representative.

ER 405-1-12  
Change 30  
30 Sep 94

III. APPLICATION CONDITIONS.

A. It is the responsibility of the applicant to make sure that all lease provisions are understood and the condition of the premises proposed for lease are known. Prior to selection of the successful applicant, the Corps will conduct a pre-lease conference with the applicants. At this conference the lease will be reviewed, Corps policies will be discussed, and, at the conclusion, the applicants will be required to sign an acknowledgement attesting to the conference and the information provided therein.

B. By submittal of an application, the applicant agrees to provide non-discrimination and Civil Rights assurances, if applicable.

C. The information provided by the applicant may be used by the Corps to conduct a comprehensive background and credit check.

D. All questions may be directed to the Corps' \_\_\_\_\_ District Real Estate Division at \_\_\_\_\_, telephone number \_\_\_\_\_.

IV. GENERAL SUBMITTAL INFORMATION

A. SELECTION CRITERIA: The following will be considered to assist the Government in selecting the successful lease applicant:

1. Diversity of Recreation Opportunities/Operation Proposed
  - a. Proposed operation and development
  - b. Design
  - c. Quality and nature of development
  - d. Consistency with the lake setting/mobilization or installation mission
  - e. Proposed construction sequencing/phasing
1. Experience and background
  - a. Business experience and training
  - b. Comparable experience
  - c. Current or previous work with Federal Government
  - d. Business and personal references
2. Financial capability
  - a. Bank references
  - b. Financial Statement
  - c. Financial Plan for first three years
3. Credit and Criminal Background Check

V. TECHNICAL SPECIFICATIONS

Attach a copy here or indicate where a copy is available for inspection.

- Conservation plan for A&G leasing
- Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.)
- Note wetland or floodplain areas, if any, and any restrictions.
- List any environmental, cultural or historical restrictions, if any. If environmental reports are too bulky to provide with the application package, state where they may be inspected. The cost of providing copies to applicant may be calculated as part of the cost to receive application package or as an extra costs.
- Industrial lease technical guidance (e.g., environmental data, safety requirements, etc.)
- If there is residual contamination from ammunition, explosives, or chemicals, detail extent and include any restrictions and prohibitions concerning use.
- Master plan data, if necessary to applicant. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.
- Topographic site maps
- Etc.

DEPARTMENT OF THE ARMY  
SUBMITTED BY OFFICE, CHIEF OF ENGINEERS  
REAL ESTATE  
DISPOSAL REPORT NO. \_\_\_\_\_

Submitted pursuant to Title 10, United State Code, Section 2662.

Name of Installation/Agency: (Use the official Blue Book inventory name, not common variations, with location of the proposed space by city and state);

Using Service: (MACOM, e.g. U.S. Forces Command; DOD agency, e.g. Defense Contract Audit Agency);

Present Use: (e.g. administrative, storage, housing, office, special purpose);

Interest: (fee, easement, etc.)

Area: (Space in acres, square feet, etc.);

Original Cost: (give land:, improvements: , total:);

Acquisition Date: (give land and improvements separate, round to nearest decade if more than one year);

Proposed Action: (outgrant, disposal, outgrant renewal);

Authority: cite the authority for the action, e.g. Title 10, United States Code, Section 2667; Federal Property and Administrative Services Act of 1949, as amended;

(a) three or four numbered paragraphs: [It has been reasonably said that a T-10 report should be clear and convincing to the man-on-the-street. Remember, the report is reviewed by several people, who will have only your submittal to review the action(s) by.]

1. The Department of the Army proposes to lease/dispose (# of acres/square feet) of Government owned real property/(type) space at (installation) in (city, state).

2. Brief narrative of the installation/unit, giving MACOM/Agency, its mission, and the number of personnel (actual and authorized).

3. Describe the present situation (e.g. brief description by categories of improvements and current total costs of construction, if applicable, interest owned, with separate breakdown of troop and family housing data; summary of any related outleaping history and current total annual rental received;) Explain why the action is necessary.

4. Describe: (a) property which is available for leasing with brief reason therefor; (b) specific property, of only a portion of an installation is involved, including acreages or square feet, cost of land and date of acquisition, description and cost of improvements, and description of other outgrants; (c) any property to be retained in 4.(b) detailed and including

ER 405-1-12  
Change 30  
30 Sep 94

family and troop housing data; (d) other information or circumstances peculiar or essential to the proposed action such as production capacity of Army Ammunition Plants; and (e) estimated savings for operations and maintenance or care and maintenance that would result from leasing.

5. (Brief concluding statement of proposal including information on advertising, period of lease, termination privileges, consideration, and other significant provisions.)

Note: See recent guidance from HQUSACE (CERE-L) on acquisition reports for further comments.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_ LEASE

FOR AGRICULTURAL OR GRAZING PURPOSES

LOCATED ON

\_\_\_\_\_  
(PROJECT, INSTALLATION)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE** \_\_\_\_\_, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 10, United States Code, Section 2667, and for the consideration set forth herein, hereby leases to the Lessee the property hereinafter identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for \_\_\_\_\_ purposes, and in accordance with the land use regulations identified in Exhibit(s) \_\_\_\_\_, which is attached hereto and made a part hereof.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ (months) (years), beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

2. **CONSIDERATION**

a. (Use if there will be no rental offsets) The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

a. (Alternate Condition) (Use if there will be rental offsets) As consideration for this lease, the Lessee shall pay cash rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_. Such cash rental shall be offset by the value of work items which shall be accomplished by the Lessee for the maintenance, protection, repair, restoration, and improvement

ER 405-1-12  
Change 30  
30 Sep 94

of the leased premises as described in the Land Use Regulations attached as Exhibit \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717) . This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the lessee, to \_\_\_\_\_

\_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer", include their duly authorized representatives. Any reference to "Lessee" shall include any sublessees, assignees, transferees, successors and their duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER (INSTALLATION COMMANDER)

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation) hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

6. **APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

7. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representation or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The reports will constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY.**

8. **TRANSFERS AND ASSIGNMENTS**

Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the District Engineer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

9. **COST OF UTILITIES**

The Lessee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

10. **PROTECTION OF PROPERTY**

The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other Lessee causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

ER 405-1-12  
Change 30  
30 Sep 94

11. **RENTAL ADJUSTMENT**

In the event the United States revokes this lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this lease. Where the said premises are being used for farming purposes, the Lessee shall have the right to harvest, gather and remove such crops as may have been planted or grown on said premises, or the District Engineer may require the Lessee to vacate immediately and, if funds are available, compensation will be made to the Lessee for the value of the remaining crops. Any adjustment of rent or the right to harvest, gather and remove crops shall be evidenced by a written supplemental agreement, executed by the District Engineer; PROVIDED, however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this lease and in that event any remaining crops shall become property of the United States upon such revocation.

12. **RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purposes necessary or convenient in connection with government purposes; to make inspections; to remove timber or other materials, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever, and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claims for damages on account thereof against the United States or any officer, agent or employee thereof.

13. **INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

14. **RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate or as otherwise specified by the provisions of the condition on **RENTAL ADJUSTMENT**. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages

against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**15. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap or national origin.

**16. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the premises by the Lessee.

**17. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development of Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessees operations or would be contrary to local law.

**18. TERMINATION**

This lease may be terminated by the Lessee at any time by giving at least sixty (60) days notice thereof, in writing, to the District Engineer. In the case of such termination, no refund by the United States of any rental previously paid shall be made and payment in full of all rent becoming due during the period of notice will be required. In the event the effective date of termination occurs after the start of the grazing, planting or harvesting season as specified in the Land Use Regulations, any rent due for the balance of the annual term, or the rental due for the remaining term if the lease is for less than one year, shall be due and payable on or before the date of such termination.

**19. PROHIBITED USES**

a. Certain soil conservation practices may be required by the land use regulations which are identified as rental offsets. By acceptance of such offsets, the Lessee agrees that he will not accept any Federal or State cost-sharing payments or subsidies for the same soil conservation practices.

b. The Lessee shall not construct or place any structure, improvement or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

**20. PROTECTION OF NATURAL RESOURCES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee shall use the premises in accordance with the attached Land Use Regulations and shall at all times: (a) maintain the premises in good condition and free from weeds, brush, washes, gullies and other erosion which is detrimental to the value of the premises for agricultural purposes; (b) cut no timber, conduct no mining operations, remove no sand, gravel or kindred substances from the premises; (c) commit no waste of any kind nor in any manner substantially change the contour or condition of the premises except changes required to accomplish soil and water conservation measures as may be authorized by said officer.

21. **DISPUTES**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer

ER 405-1-12  
Change 30  
30 Sep 94

must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certification described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the Condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 22. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the premises against pollution of its air, ground and water. The Lessee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this lease. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from activities of the Lessee, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

## 23. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said

ER 405-1-12  
Change 30  
30 Sep 94

officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**24. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon the premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed in writing by the District Engineer.

**25. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the premises shall be promptly paid by the Lessee. If and to the extent that the property owned by the Government is later made taxable by State or local governments under an Act of Congress, the lease shall be renegotiated.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage or contingent fees, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

**27. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**28. SEVERAL LESSEES**

If more than one Lessee is named in this lease, the obligation of said Lessees herein named shall be joint and several obligations.

**29. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modifications of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**30. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned. The Lessee shall obtain any permit or license which may be required by Federal, state or local statute in connection with

ER 405-1-12  
Change 30  
30 Sep 94

the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LEASE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF** I have hereunto set my hand by direction of he Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO \_\_\_\_\_  
DEPARTMENT OF THE \_\_\_\_\_ LEASE

\_\_\_\_\_  
(PROJECT/ INSTALLATION)

\_\_\_\_\_  
COUNTY, STATE

THIS LEASE, made on behalf of the United States, between the SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee.

**WITNESSETH:**

That the Secretary, by the authority of Title 10, United States Code, Section 2667, and for the consideration hereinafter set forth, hereby leases to the Lessee the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for \_\_\_\_\_ purposes.

THIS LEASE is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

2. **CONSIDERATION**

a. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee) . An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or

ER 405-1-12  
Change 30  
30 Sep 94

portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include any sublessees, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander) \_\_\_\_\_ (District) (Installation) hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property

ER 405-1-12  
Change 30  
30 Sep 94

must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

8. **TRANSFERS AND ASSIGNMENTS**

Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the District Engineer.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

9. **COST OF UTILITIES**

The Lessee shall pay the cost, as determined by the officer having jurisdiction over the premises, of producing and/or supplying any utilities and other services furnished by the government or through government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the government-owned facilities by which such utilities or services are produced or supplied. The government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

10. **PROTECTION OF PROPERTY**

The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

11. **INSURANCE (DELETE CONDITIONS A&B IF LIABILITY INSURANCE IS NOT APPLICABLE)**

a. At the commencement of this lease, the Lessee shall obtain, from a reputable insurance company, or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The minimum amount of liability insurance coverage is subject to revision by the District Engineer every three years or upon renewal or modification of this lease.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types

ER 405-1-12  
Change 30  
30 Sep 94

of facilities, services and activities involved. The lessee shall require that the insurance company give the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. The District Engineer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**12. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes; to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**13. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**14. RESTORATION**

ER 405-1-12  
Change 30  
30 Sep 94

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate or as otherwise specified by the provisions of the condition on **RENTAL ADJUSTMENT**. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

15. **NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

16. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the premises by the Lessee,

17. **SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the lessee's operations or would be contrary to local law.

18. **TERMINATION**

This lease may be terminated by the Lessee at any time by giving the District Engineer at least thirty (30) days notice in writing provided that no refund by the United States of any rental previously paid shall be made, and provided further, that in the event that said notice is not given at least thirty (30) days prior to the rental due date, the Lessee shall be required to pay the rental for the period shown in the condition on **CONSIDERATION**.

19. **RENTAL ADJUSTMENT**

In the event the United States revokes this lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee

ER 405-1-12  
Change 30  
30 Sep 94

prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this lease. Such adjustment of rental shall be evidenced by a supplemental agreement in writing; PROVIDED however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this lease.

20. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance. The Lessee shall not sell, store or dispense, or permit the sale, storage, or dispensing of beer or other intoxicating liquors on the premises.

b. The Lessee shall not construct or place any structure, improvement or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

21. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises except as authorized in writing by the District Engineer.

22. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A Claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief;

ER 405-1-12  
Change 30  
30 Sep 94

(iii) and the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest or the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, or action arising under the lease, and comply with any decision of the District Engineer.

### 23. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the premises against pollution of its air, ground, and water. The Lessee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, State, interstate or local governmental agency are hereby made a condition of this lease. The Lessee shall not discharge waste or effluent from the premises

ER 405-1-12  
Change 30  
30 Sep 94

in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from activities of the lessee, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**24. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**25. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**26. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

**27. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the premises shall be paid promptly by the Lessee. If and to the extent that the property owned by the Government is later made taxable by State or local governments under an Act of Congress, the lease shall be renegotiated.

**28. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to

ER 405-1-12  
Change 30  
30 Sep 94

the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

29. **OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

30. **SEVERAL LESSEES**

If more than one Lessee is named in this lease the obligations of said Lessees herein contained shall be joint and several obligations.

31. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as all other conditions of this lease.

32. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**NOTE:** The following condition should be deleted only on leases of military property when the annual rental value exceeds \$200,000.

**THIS LEASE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF,** I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

**DEPARTMENT OF THE ARMY  
LEASE  
  
UNDER  
  
BASE REALIGNMENT AND CLOSURE (BRAC)**

\_\_\_\_\_  
(Name of Installation)

\_\_\_\_\_  
(County, State)

Lease Number \_\_\_\_\_

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY** (“Lessor”), and \_\_\_\_\_ (“Lessee”).

**WITNESSETH:**

That the Secretary of the Army, by the authority of Title 10, United States Code, Section 2667, and for the consideration hereinafter set forth, hereby leases to the Lessee the property identified in Exhibit A, attached hereto and made a part hereof, hereinafter referred to as the “Leased Premises”.

**THIS LEASE** is granted subject to the following conditions:

**1. AUTHORIZED REPRESENTATIVES**

The Secretary of the Army, the “Lessor”, may act by and through the [the same DA official designated in Condition 7] or the District Engineer, \_\_\_\_\_ District, or through other duly authorized representatives. The (designated DA official) or the District Engineer may also act by and through their duly authorized representatives. Except as otherwise specifically provided, any reference herein to "Lessor", "[Installation Commander or DA official]", “District Engineer”, or "said officer" shall include their duly authorized representatives. The Lessee also may act by and through duly authorized representatives. Any reference to "Lessee" shall include any assignees, or successors and their duly authorized representatives.

ER 405-1-12  
Change 33  
31 Aug 99

[Note: If there is no reuse plan, delete reference to it.]

## **2. USE OF THE LEASED PREMISES AND PERSONAL PROPERTY.**

a. The sole purpose(s) for which the Leased Premises and any improvements thereon may be used, in the absence of prior written approval of the Lessor for any other use, is for the use designated in or consistent with the approved Reuse Plan covering the Leased Premises, attached hereto as Exhibit B, [In the absence of a Reuse Plan or if the Reuse Plan fails to adequately identify uses that will be permitted under the Lease, permissible use of the Leased Premises must be specifically described by building or area, showing any building modification, demolition, new construction, and improvements.] which use of the Leased Premises has been properly evaluated by the Lessor under the National Environmental Policy Act of 1969, 42 U.S.C. 4321 to 4370d (NEPA).

b. The Lessor, in the Lessor's sole discretion, must approve any change in the use of the Leased Premises as set forth in subcondition a. above. Prior to approval of any changes in use requested by the Lessee, the Lessee shall furnish, at the Lessee's expense, any additional environmental analyses and documentation deemed necessary by the Lessor to comply with the National Environmental Policy Act of 1969, as amended, and implementing regulations, and other applicable environmental laws and regulations. In granting approval for the change in use, the Lessor reserves the right to impose such additional environmental protection provisions and restrictions as the Lessor deems appropriate.

c. During the term of this Lease, the Lessee shall have the use of the personal property described in Exhibit E hereto in accordance with the terms of this Lease, which personal property shall be deemed to be a part of the Leased Premises.

## **3. TERM**

a. The Leased Premises are leased for a term of \_\_\_\_\_ [The term of the Lease should be the shortest term that will meet the needs of the parties, generally five (5) years] years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, or until terminated under the condition on **TERMINATION, REVOCATION, DEFAULT AND, RELINQUISHMENT**, whichever is sooner.

[Alternate Language for use in Master Leases]

a. The Leased Premises are leased for a term of \_\_\_\_\_ [The term of the Lease should be the shortest term that will meet the needs of the parties, generally five (5) years] years, commencing as provided for herein and ending \_\_\_\_\_ years thereafter or until terminated under the condition on **TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**, whichever is sooner. The term of this Lease

shall commence, and the provisions of this Lease shall become effective, in accordance with the schedules and procedures set forth below:

(1) The Original Lease Term for the Leased Premises, as described in Exhibit A-1, shall commence on \_\_\_\_\_.

(2) With regard to expansion of the Leased Premises, the Lessee may request additional land and/or buildings (“Additional Leased Premises”) be added to the Leased Premises hereunder by written notice to the Lessor, acting by and through the District Engineer and the Installation Commander (“Expansion Request”), which Expansion Request shall include a plan of the Additional Leased Premises requested, any recommended site or use specific lease terms related thereto, a brief description of the intended use for the Additional Leased Premises, the commencement date of the Original Lease Term for said Additional Leased Premises, and copies of any subleases or licenses that will commence on the date of the Original Lease Term.

(3) Upon receipt of an Expansion Request by the Lessee, the Lessor shall promptly prepare an amendment to this Lease (“Amendment”), which Amendment shall incorporate a plan of the Additional Leased Premises into Exhibit A, as Exhibit A-2; establish the commencement date of the Original Lease Term for the Additional Leased Premises; incorporate site or use specific terms into the Lease as may be agreed by the parties; and amend the Environmental Protection Provisions below by incorporating site specific restrictions regarding the Additional Leased Premises contained in the Finding of Suitability to Lease (FOSL) for the Additional Leased Premises. As of the date the Lessor and the Lessee sign the Amendment, the Lease shall be deemed modified and amended thereby, without the need for additional action by either party.

b. [Include the following only if an option to extend the term has been approved and may be needed to coincide with the estimated dates for environmental completion:] The Lessee shall have the right to extend the original term of the Lease for one (1) successive period of \_\_\_\_\_ [Not to exceed five (5)] years (“Option Term”), provided that, as to this option, Lessee shall give written notice to the Lessor of its election to extend the Lease term at least eighteen (18) months prior to the time when the term expires; provided that, at the time when such notice is given, there shall not be any uncured event of default on the part of Lessee and the lease term has not been terminated or revoked by the Lessor under the Condition on **TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**. If the Lessee exercises the option under this subcondition b., the terms and conditions of this Lease shall remain in effect, except that the annual base rental shall increase to \_\_\_\_\_ [Set out increased consideration] during the Option Term.

#### **4. TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**

a. Termination.

ER 405-1-12  
Change 33  
31 Aug 99

(1) In the event of the Lessor's decision to convey the Leased Premises or a portion thereof to the Lessee, the Lease shall terminate upon conveyance of the Leased Premises or a portion thereof to the Lessee with respect to that portion so conveyed.

(2) In the event the Lessor decides to convey the Leased Premises or a portion thereof to a third party and the Lessor executes a Finding of Suitability to Transfer (FOST), the Lessor may terminate this Lease with respect to any portion of the Leased Premises to be so conveyed, upon giving the Lessee sixty (60) days written notice of termination.

(3) The Lessor may terminate this Lease and remove the Lessee, and any sublessees, in the event of a national emergency as declared by the President or the Congress of the United States.

b. Default. The following events shall be deemed to be events of default by the Lessee under this Lease:

(1) Lessee shall fail to pay any rental payment hereunder within thirty (30) days after written notice thereof from Lessor. (Delete this default event if this is a public benefit discounted rental.)

(2) Lessee shall fail to comply with any condition, provision, covenant, or warranty made under this Lease by Lessee (other than the payment of rent) and shall not cure such failure within ninety (90) days after written notice thereof to Lessee, unless said non-compliance is the subject of a shorter notice given by a federal, state, or local governmental agency, in which case the shorter notice shall apply.

(3) Lessee shall become insolvent, or shall make a transfer in fraud of creditors, or shall make an assignment for the benefit of creditors.

(4) Lessee shall file a petition under any Section or Chapter of the United States Bankruptcy Code, as amended, or under any similar law or statute of the United States or any State thereof, or there shall be filed against the Lessee a petition for reorganization for an insolvency or a similar proceeding filed against Lessee.

(5) A receiver or trustee shall be appointed for the Leased Premises or for all or substantially all of the assets of the Lessee.

(6) Lessee shall do or permit to be done anything which creates a lien upon the Leased Premises.

c. Revocation. The Lessee is charged at all times with full knowledge of all the conditions and requirements of this Lease, and the necessity for correction of defaults and

non-compliance. Upon the occurrence of any of the aforesaid events of default, Lessor shall have the option to revoke this Lease, in which event Lessee shall immediately surrender the Leased Premises to Lessor, and if Lessee fails to do so, Lessor may, without prejudice to any other remedy which it may have for possession or arrearages in rent, enter upon and take possession of the Leased Premises and expel or remove Lessee and any other person who may be occupying said Leased Premises or any part thereof, without being liable for any claim of damages therefor; Lessee hereby agreeing to pay to Lessor on demand the amount of all loss and damage which Lessor may suffer by reason of such termination. Pursuit of any of the foregoing remedies shall not preclude pursuit of any other remedy herein provided, including closure of the Leased Premises or temporary suspension of activities under the Lease, or any other remedy provided by law or at equity, nor shall pursuit of any remedy herein provided constitute an election of remedies, thereby excluding the later election of an alternate remedy. Forbearance by Lessor to enforce one or more of the remedies herein provided upon an event of default shall not be deemed or construed to constitute a waiver of such default. Lessee agrees to pay to Lessor all costs and expenses incurred by Lessor in the enforcement of this Lease, including, without limitation, the reasonable fees of Lessor's attorneys when such attorneys are employed by Lessor to effect collection of any sums due hereunder or to enforce any right or remedy of Lessor.

d. Sublessees. In accordance with the Condition on **TRANSFERS, ASSIGNMENTS, AND SUBLEASING**, any sublease is to be subject to the conditions and terms of this Lease. Nevertheless, should default and non-compliance described in subcondition b. above stem from the activities of a sublessee, the Lessee is responsible for ensuring compliance, either by corrective action itself or through the sublessee. If the Lessee is making diligent, good faith efforts to obtain corrective action and compliance by the sublessee, to the satisfaction of the Lessor, then the Lessor's exercise of rights under subcondition c. will only be for that part of the Leased Premises under the control of the sublessee.

e. Relinquishment. This Lease may be terminated or relinquished by the Lessee by giving thirty (30) days prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES** [Delete the following proviso if the lease is for a public benefit discounted rental], and provided further, that in the event that said notice is not given at least thirty (30) days prior to the rental due date, the Lessee shall be required to pay the rental for the period shown in the condition on **CONSIDERATION**.

[Select the appropriate condition on Consideration – either fair market rental or public benefit discounted rental, as applicable]

**5. CONSIDERATION** [Cash payment/fair market rental]

ER 405-1-12  
Change 33  
31 Aug 99

a. [Use if there will be no rental offsets] The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

a. [Alternate Condition a. Use if there will be rental offsets] As consideration for this Lease, the Lessee shall pay fair market rental in the amount of \_\_\_\_\_, (\$ \_\_\_\_\_) payable in cash in advance to the United States in the amount of \_\_\_\_\_, (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_. In addition, such cash rental may be offset by the value of work items which shall be accomplished by the Lessee for the maintenance, protection, repair, restoration, and improvement of the Leased Premises as described in the Re-Use Plan attached as Exhibit \_\_\_\_.

b. All rent and other payments due under the terms of this Lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative, and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**5. CONSIDERATION** [Public Benefit Discounted Rental - less than Fair Market Value - Generally only allowed if the lessee is the LRA]

a. The consideration for this Lease is the operation and maintenance of the Leased Premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

b. All monies received by the Lessee from operations conducted on the Leased Premises, including, but not limited to, use fees and rental or other consideration received from its sublessees or licensees, shall be utilized by the Lessee for the protection, operation, maintenance, repair, improvement, and costs related to the Leased Premises and the installation, to include marketing and management activities of the Lessee. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. The Lessor shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, sublessees or licensees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the Lessor with the results of such an audit.

## 6. NOTICES

All correspondence and notices to be given pursuant to this Lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to [insert mailing location for legal notice] the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_ District, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. [Copies of correspondence and notices will also be furnished to \_\_ (Installation Commander or DA official), \_\_\_\_\_.] Notices must be given in a properly sealed envelope, addressed as aforesaid, and deposited postage prepaid by either registered mail, return receipt requested, or by certified mail, return receipt requested, in a post office regularly maintained by the United States Postal Service. The service of the notice shall be deemed complete upon the receipt of said notice, or the refusal thereof, by the applicable party.

## 7. SUPERVISION OF THE LEASED PREMISES

The use and occupation of the Leased Premises shall be subject to the general supervision and approval of the Installation Commander [If not the IC, then designate the DA officer who will have day-to-day supervision] for \_(insert name)\_\_\_\_\_ Installation, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

## 8. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable Federal, state, and local laws, ordinances, regulations, and standards that are or may become applicable to their activities

ER 405-1-12

Change 33

31 Aug 99

on the Leased Premises, including, but not limited to, those regarding the environment, construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. Additional compliance conditions are included in the condition on **ENVIRONMENTAL PROTECTION**.

## **9. CONDITION OF THE LEASED PREMISES**

a. The Lessee acknowledges that it has inspected the Leased Premises, knows its condition, and understands that the same is leased in an "as is," and "where is" condition, without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto, except as may be specifically provided herein.

b. The Lessor and the Lessee have jointly conducted an inventory and condition survey of the Leased Premises, to include the environmental condition, prior to lease execution by either party. The inventory and condition survey is documented in a Condition Survey report prepared by the Lessor, signed by the duly authorized representatives of both parties, and attached as Exhibit D to this Lease. The Condition Survey will refer to and incorporate by reference the Environmental Baseline Survey (EBS) prepared by the Lessor, as well as any other environmental conditions that may not be specifically identified in the EBS. Preceding expiration, revocation, or termination of this Lease, the Lessor and the Lessee will jointly conduct a close-out survey. The Lessor will prepare a close-out report. The Lessee shall fully fund the Lessor's preparation of an updated EBS that will document the environmental condition of the property at that time as part of the close-out survey. The close-out survey and report will refer to, and incorporate by reference, the updated EBS. All significant variances from the initial Condition Survey shall be clearly documented in the close-out report. This close-out report will constitute the basis for settlement by the parties for any leased property shown to be lost, damaged, contaminated, or destroyed during the lease term, in determining any environmental restoration requirements to be completed by the Lessee, and restoration of the property as required in the condition on **RESTORATION**.

## **10. TRANSFERS, ASSIGNMENTS, AND SUBLEASING**

a. Successors. This Lease and the covenants and conditions herein contained shall be binding upon Lessee, its successors and assignees; and shall inure to the benefit of Lessee and only such successors or assignees of the Lessee to whom the transfer or assignment by Lessee has been consented to by Lessor in writing. No transfers or assignments shall be valid unless the successor or assignees shall, by an instrument in a form sufficient for recording and acceptable to the Lessor, enter into an assumption

agreement and assume all of the Lessee's obligations under this Lease. A duplicate original of that assumption agreement will be delivered to the Lessor, and the assignment shall not take effect until delivery is made.

b. Sublease. The Lessee may sublease the Leased Premises, so long as the Lessee remains primarily liable for performance of all the obligations of Lessee hereunder. The Lessee shall neither sublease, license, nor grant any interest in the Leased Premises or any part thereof or any property thereon, nor grant any other interest, privilege, or license whatsoever in connection with this Lease, without prior written notice to the Lessor, as set out in the condition on **NOTICES**. The Lessee shall provide the Lessor a copy of every executed sublease hereunder. No sublease shall be valid unless and until the Lessee shall have delivered to the Lessor a copy of the executed sublease. Every sublease shall contain the Environmental Protection provisions set out in this Lease and shall state that it is subject to the conditions and terms of this Lease and that, in case of any conflict between the instruments, this Lease will control. The Lessee shall provide each approved sublessee or licensee with a copy of this Lease.

c. Notice to EPA and State. The Lessee further agrees that in the event of an assignment or sublease of the Leased Premises, it shall provide to the EPA and [state agency] by certified mail a copy of the agreement or sublease of the Leased Premises within 14 days after the effective date of such transaction. The Lessee may delete the financial terms and any other proprietary information from the copy of any agreement or assignment or sublease furnished pursuant to this condition.

[If DA is to provide utilities, do not execute lease until a utility contract is signed. Delete the following condition if not applicable, or modify it to state the situation.]

## **11. COST OF UTILITIES**

a. As set out in the Utility Contract, executed by the Lessee and said officer having jurisdiction over the Leased Premises, dated \_\_\_\_\_, the Lessee shall pay the cost of producing and/or supplying any utilities and other services furnished by the Lessor or through government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the government-owned facilities by which such utilities or services are produced or supplied. Payment shall be made in the manner prescribed in said Utility Contract.

b. The United States shall be under no obligation to furnish utilities or services. The supplying of utilities or other services by the Lessor is not a commitment to provide utilities after Lessor's activities at the installation cease. The Lessee should develop plans for assumption of the utilities by a local utility provider or other qualified entity.

## **12. PROTECTION OF PROPERTY**

ER 405-1-12  
Change 33  
31 Aug 99

The Lessee shall keep the Leased Premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee and/or its sublessees or licensees under this Lease, and shall exercise due diligence in the protection of all property located on the Leased Premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property, except personal property, to a condition satisfactory to said officer.

### 13. INSURANCE

a. At the commencement of this Lease, the Lessee shall obtain, from a reputable insurance company, or companies, comprehensive liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable, and consistent with sound business practices or an amount not less than a combined single limit of \$\_\_\_[insert amount based upon risk of activities, but no less than \$1,500,000] \_\_\_ DOLLARS (\$\_\_\_\_\_), whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons upon the Leased Premises or arising from activities conducted under this Lease.

b. The liability insurance policy shall insure the hazards of the Leased Premises and operations conducted in and on the Leased Premises, independent contractors, contractual liability (covering the indemnity included in this Lease agreement), and shall name the United States as an insured party. Each policy will provide that any losses shall be payable notwithstanding any act or failure to act or negligence of the Lessee or the United States or any other person; provide that the insurer will have no right of subrogation against the United States; and be reasonably satisfactory to the Lessor in all respects. Under no circumstances will the Lessee be entitled to assign to any third party rights of action that it may have against the United States arising out of this Lease.

c. The Lessee shall require that the insurance company give said officer and the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. Said officer or the District Engineer may require closure of any or all of the Leased Premises during any period for which the Lessee does not have the required insurance coverage. The Lessee shall require its insurance company to furnish to said officer and to the District Engineer a copy of the policy or policies, or if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The minimum amount of liability insurance coverage is subject to revision by the District Engineer every two (2) years or upon renewal or modification of this Lease.

[Delete the following condition if no government structures or improvements are within the leased premises, or if structures and improvements are included but the determination of availability waives the requirement for fire insurance.]

d. As to those structures and improvements on the Leased Premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the Leased Premises pursuant to the terms and conditions of this Lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the Leased Premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used for the repair, restoration, or replacement of the property damaged or destroyed or of the Leased Premises, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the District Engineer does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore, or replace the Leased Premises or any part thereof should it be diminished in value, damaged, or destroyed.

e. The Lessee may require any sublessees, assignees, transferees, or successors, as joint and several responsible parties with the Lessee for those portions of the Leased Premises under their control, to maintain and carry at their expense portions of the insurance requirement.

f. [Include if there is an insurance policy.] Notwithstanding anything herein to the contrary, each party hereto hereby releases the other party, its agents, sublessees and employees, to the full extent recoverable under the insurance policies of the releasing party, from any and all liability for any loss or damage which may be inflicted upon the property of such party, notwithstanding that such loss or damage shall have arisen out of the negligent or the tortious act or omission of the other party, its agents, sublessees or employees; provided, however, that this release shall be effective only with respect to loss or damage occurring during such time as the appropriate policy of insurance of the party so releasing shall contain a clause to the effect that such release shall not affect the said policy or the right of the insured to recover thereunder, and each party at the request of the other shall use reasonable efforts to have such a clause included in its said policies. Each party hereto shall notify the other in the event such a clause is not included in its said policies, or is withdrawn therefrom, in which event the release herein of the other party shall be null and void.

ER 405-1-12

Change 33

31 Aug 99

f. [Use for self-insured municipal governments only] Notwithstanding anything contained herein to the contrary, Lessee may self-insure against the risks provided for in this Condition under a plan of self-insurance maintained in accordance with sound accounting practices and the state laws, which Lessee may from time to time have in force and effect. The Lessee's insurance status shall not eliminate the requirement for its sub-lessees to have insurance from a reputable insurance carrier as set out above or to also be self-insured, if applicable.

#### **14. RIGHT TO ENTER**

a. The right is reserved to the United States, its officers, agents, and employees to enter upon the Leased Premises at any time and for any purpose necessary or convenient in connection with government purposes; to make inspections, to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. Additional rights to enter are reserved in the condition on **ENVIRONMENTAL PROTECTION**.

#### **15. INDEMNITY AND HOLD HARMLESS**

a. The Lessee agrees to assume all risks of loss or damage to property and injury or death to persons by reason of or incident attributable or incident to the condition or state of repair of the Leased Premises or to its possession and/or use of the Leased Premises or the activities conducted under this Lease. The Lessee expressly waives all claims against the United States of America for any such loss, damage, personal injury, or death caused by or occurring as a consequence of such condition, possession and/or use of the Leased Premises by the Lessee, or the conduct of activities or the performance of responsibilities under this lease by the Lessee. The Lessee further agrees to indemnify and hold harmless the United States of America, the Lessor, its officers, agents, and employees from and against all suits, claims, demands or actions, liabilities, judgments, costs, and attorneys' fees arising out of, or in any manner predicated upon, personal injury, death, or property damage resulting from, related to, caused by, or arising out of the possession and/or use of the Leased Premises by the Lessee. The Lessor will give the Lessee notice of any claim against it covered by this indemnity as soon after learning of such claim as practicable.

b. The Lessee shall indemnify and hold harmless the United States of America from any costs, expenses, liabilities, fines, or penalties resulting from discharges, releases, emissions, spills, storage, disposal, or any other action by the Lessee giving rise to United States of America liability, civil or criminal, or responsibility under Federal, state, or local environmental laws.

c. Subconditions a. and b. of this Condition and the obligations of the Lessee hereunder shall survive the expiration or termination of the Lease and the conveyance of the Leased Premises. The Lessee's obligation hereunder shall apply whenever the United States incurs costs or liabilities for the Lessee's actions giving rise to liability under this condition.

d. In leasing the Leased Premises, the United States recognizes its obligation to hold harmless, defend, and indemnify the Lessee and any successor, assignee, transferee, lender, or sublessee of the Lessee as provided for in Section 330 of the Department of Defense Authorization Act of 1993, as amended, and to otherwise meet its obligations under the law.

e. Any sublessees, assignees, transferees, or successors shall be jointly and severally responsible with the Buyer/Lessee for those portions of the Leased Premises under their control.

## **16. RESTORATION**

On or before the expiration of this Lease or its termination by the Lessee, the Lessee shall vacate the Leased Premises, remove the property of the Lessee, and restore the Leased Premises to a condition satisfactory to said officer. If, however, this Lease is revoked, the Lessee shall vacate the Leased Premises, remove said property and restore the Leased Premises to the aforesaid condition within such time as the said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the Leased Premises, then, at the option of the said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this Lease in restoring the Leased Premises.

[Select one of the following conditions on non-discrimination, as appropriate, based upon the consideration.]

## **17. NON-DISCRIMINATION** [Use if lease is for fair market value]

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs, or activities conducted on the Leased Premises because of race, color, religion, sex, age, handicap, or national origin.

ER 405-1-12  
Change 33  
31 Aug 99

**17. NON-DISCRIMINATION** [Alternate if lease is for public benefit discounted rental]

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs, or activities conducted on the Leased Premises because of race, color, religion, sex, age, handicap, or national origin.

b. The Lessee, by acceptance of this Lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sub-lessees, and assignees.

**18. SUBJECT TO EASEMENTS**

This Lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the Leased Premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the Leased Premises by the Lessee.

**19. SUBJECT TO MINERAL INTERESTS**

This Lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Lessor will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the Leased Premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

[Delete the following condition if there is no rental]

**20. RENTAL ADJUSTMENT**

In the event the United States revokes this Lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this Lease. Such adjustment of rental shall be evidenced by a supplemental agreement in writing; provided, however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this Lease.

## **21. PROHIBITED USES**

a. The Lessee shall not permit gambling, except for state lottery tickets in accordance with applicable state and local laws and regulations, on the Leased Premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the Leased Premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the Leased Premises any activity which would constitute a nuisance.

b. The Lessee shall not construct or place any structure, improvement, or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

c. The Lessee shall not sell, store, or dispense, or permit the sale, storage, or dispensing of beer or other intoxicating liquors on the Leased Premises.

[If the proposed use by the lessee will allow hotel, restaurant, or other similar facilities the following paragraph may be used instead of the above c.]

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines, or other intoxicating beverages on the Leased Premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

## **22. WASTE OF NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the Leased Premises except as authorized in writing by the District Engineer.

## **23. DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this Lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this Lease. A claim arising under this Lease, unlike a claim relating to this Lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee.

ER 405-1-12

Change 33

31 Aug 99

However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$100,000 is not a claim under the Act until certified as required by subparagraph c(2) below. [Delete the following sentence if there is no rent.] The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the  (designate Lessee's official or named individual) .

(2) For Lessee claims exceeding \$100,000, the Lessee shall submit with the claim a certification that—

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief and;

(iii) the amount requested accurately reflects the Lease adjustment for which the Lessee believes the Lessor is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$100,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For lessee-certified claims over \$100,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in subparagraph c(2) of this condition, and be executed in accordance with subparagraph c(3) of this condition.

g. The Government shall pay interest or the amount found due and unpaid by the Lessor from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each six-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the Lease, pending final resolution of any request for relief, claim, or action arising under the Lease, and comply with any decision of the District Engineer.

#### **24. ENVIRONMENTAL PROTECTION**

a. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from activities of the Lessee, the Lessee shall be liable to restore the damaged resources. [Add, if applicable: The Lessee shall not discharge waste or effluent from the Leased Premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.] The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the Leased Premises.

[The following provisions are based on the model EPA language. The district should closely compare the actual language in the FOSL for deviations. Use the language in the FOSL.]

b. The Lessee shall be responsible for obtaining and paying for any environmental or other permits required for its operations under the Lease, independent of any existing permits.

c. The Government's rights under this Lease specifically include the right for Government officials to inspect, upon reasonable notice, the Leased Premises for compliance with environmental, safety, and occupational health laws and regulations, whether or not the Government is responsible for enforcing them. Such inspections are without prejudice to the right of duly constituted enforcement officials to make such inspections. The Government normally will give the Lessee twenty-four (24) hours prior notice of its intention to enter the Leased Premises unless it determines the entry is required for safety, environmental, operations, or security purposes. The Lessee shall have no claim on account of any entries against the United States or any officer, agent, employee, or contractor thereof.

ER 405-1-12  
Change 33  
31 Aug 99

[Note: Use the following provision, if the leased premises is part of a NPL site; Adapt to cleanup agreements under state regulatory authorities; e.g., non-NPL sites.]

d. The Government acknowledges that (insert the name of the military installation) has been identified as a National Priorities List Site under CERCLA. The Lessee acknowledges that the Government has provided it with a copy of the (military installation) Federal Facility Agreement (FFA) entered into by the United States EPA Region ( ), the State of ( ), and the Lessor and effective on \_\_\_\_\_ date, and will provide the Lessee with a copy of any amendments thereto. The Lessee agrees that should any conflict arise between the terms of the FFA, as it presently exists or may be amended, and the provisions of this Lease, the terms of the FFA will take precedence. The Lessee further agrees that notwithstanding any other provision of the Lease, the Government assumes no liability to the Lessee should implementation of the FFA interfere with the Lessee's use of the Leased Premises. The Lessee shall have no claim on account of any such interference against the United States or any officer, agent, employee, or contractor thereof, other than for abatement of rent.

[Note: Use the following provision if a Federal Facilities Agreement (FFA) or Interagency Agreement (IAG) applies to the leased premises; e.g., an NPL site.]

e. The Lessor, EPA, and the (insert State agency), their officers, agents, employees, contractors, and subcontractors have the right, upon reasonable notice to the Lessee, and to parties in possession, to enter upon the Leased Premises for purposes consistent with the applicable provisions of the FFA, and for the following purposes:

(1) to conduct investigations and surveys, including, where necessary, drilling, soil and water sampling, test pitting, soil boring tests, and other activities related to the (Installation name) Installation Restoration Program, FFA, or IAG;

(2) to inspect field activities of the Lessor and its employees, agents, contractors, and subcontractors in implementing that IRP, FFA, or IAG;

(3) to conduct any test or survey required by EPA or (state agency) relating to the implementation of the FFA or environmental conditions at the Leased Premises, or to verify any data submitted to the EPA or (state agency) by the Lessor relating to such conditions; and

(4) to construct, operate, maintain, or undertake any other response or remedial action as required or necessary under the IRP, FFA, or IAG, including, but not limited to, monitoring wells, soil removal, pumping wells, and treatment facilities.

[Note: Use the following alternative provision if the Installation Restoration Program (IRP) or other environmental investigation applies to the leased premises; e.g., a non-NPL site.]

e. The Lessor and its officers, agents, employees, contractors, and subcontractors have the right, upon reasonable notice to the Lessee, and to parties in possession, to enter upon the Leased Premises for purposes enumerated in this subparagraph:

(1) to conduct investigations and surveys, including, where necessary, drilling, soil and water sampling, test pitting, soil boring tests, and other activities related to the (Installation name) Installation Restoration Program (IRP);

(2) to inspect field activities of the Lessor and its employees, agents, contractors, and subcontractors in implementing the IRP;

(3) to conduct any test or survey related to the implementation of the IRP or environmental conditions at the Leased Premises, or to verify any data submitted to the EPA or (state agency) by the Lessor relating to such conditions; and

(4) to construct, operate, maintain, or undertake any other response or remedial action as required or necessary under the (insert name of installation) IRP, including, but not limited to, monitoring wells, pumping wells, and treatment facilities.

f. The Lessee agrees to comply with the provisions of any health or safety plan in effect under the IRP or the FFA during the course of the above-described response or remedial actions. Any inspection, survey, investigation, or other response or remedial action will, to the extent practicable, be coordinated with representatives designated by the Lessee. The Lessee shall have no claim on account of such entries against the United States or any officer, agent, employee, contractor, or subcontractor thereof. In addition, the Lessee shall comply with all applicable Federal, state, and local occupational safety and health regulations.

g. The Lessee shall comply with the requirements of 10 U.S.C. 2692(b)(9) to obtain the Lessor's approval for the storage, treatment, or disposal of toxic or hazardous materials not owned by the Department of Defense on the Leased Premises.

h. The Lessee shall comply with the hazardous waste permit requirements under the Resource Conservation and Recovery Act (RCRA), or its (state) equivalent, and any other applicable laws, rules, or regulations. Except as specifically authorized by the Lessor in writing, the Lessee must provide, at its own expense, such hazardous waste management facilities, including storage, treatment, or disposal facilities, complying with all applicable laws and regulations. Hazardous waste management facilities of the Lessor will not be available to the Lessee. Any violation of the requirements of this provision shall be deemed a material breach of this Lease.

i. Any of Lessor's accumulation points for hazardous and other wastes will not be used by the Lessee. The Lessee will not permit its hazardous waste to be commingled with hazardous waste of the Lessor.

ER 405-1-12  
Change 33  
31 Aug 99

j. The Lessee shall have a plan approved by the Lessor for responding to hazardous waste, fuel, and other chemical spills prior to commencement of operations on the Leased Premises, which approval shall not be unreasonably withheld or delayed. Such plan shall be independent of (installation name) and, except for initial fire response and/or spill containment, shall not rely on use of installation personnel or equipment. Should the Lessor provide any personnel or equipment, whether for initial fire response and/or spill containment, or otherwise on the request of the Lessee, or because the Lessee was not, in the opinion of the Lessor, conducting timely cleanup actions, the Lessee agrees to reimburse the Lessor for its costs. The plan may be developed in phases as sublease activities are identified. Sublessees shall provide to the Lessee a plan to cover their activities and portion of the Leased Premises prior to commencement of operations on the subleased portion, which will be incorporated by the Lessee into the overall plan.

k. The Lessee shall not construct or make or permit its sublessees or assigns to construct or make any substantial alterations, additions, or improvements to or installations upon or otherwise modify or alter the Leased Premises in any way which may adversely affect the cleanup, human health, or the environment without the prior written consent of the Lessor. Such consent may include a requirement to provide the Lessor with a performance and payment bond satisfactory to it in all respects and other requirements deemed necessary to protect the interests of the United States. For construction or alterations, additions, modifications, improvements, or installations in the proximity of operable units that are part of a National Priorities List (NPL) site, such consent may include a requirement for written approval by the Lessor's Remedial Project Manager.

l. The Lessee shall not conduct or permit its sublessees to conduct any subsurface excavation, digging, drilling, or other disturbance of the surface without the prior written approval of the Lessor.

## **25. HAZARDOUS SUBSTANCES NOTICE**

To the extent such information is available on the basis of a complete search of Lessor's files, notice regarding hazardous substances stored for one year or more, known to have been released or disposed of on the Leased Premises, is provided in Exhibit G. The Lessee should consult the Condition Survey and the EBS for more detailed information.

[Include the following conditions if required by the FOSL. The FOSL is not attached as an exhibit to the lease. It is an internal decision document. Modifications of these conditions may be made to comply with the FOSL.]

[Select the appropriate condition below on lead-based paint, as applicable.]

[Alternate Condition 26 where the leased premises do not include residential housing]

**26. LEAD-BASED PAINT WARNING AND COVENANT**

a. The Leased Premises do not contain residential housing and are not being leased for residential purposes. The Lessee is notified that the Leased Premises contain buildings built prior to 1978 that contain lead-based paint. Exposure to lead from lead-based paint may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to lease.

b. Available information concerning known lead-based paint and/or lead-based paint hazards, the location of lead-based paint and/or lead-based paint hazards, and the condition of painted surfaces is contained in the EBS, referenced in the Condition Survey attached as Exhibit D, which has been provided to the Lessee. [If applicable: Additionally, the following reports pertaining to lead-based paint and/or lead-based paint hazards have been provided to the Lessee: \_\_\_\_\_.] Additionally, the Lessee has been provided with a copy of the federally-approved pamphlet on lead poisoning prevention. The Lessee hereby acknowledges receipt of all the information described in this subcondition.

c. The Lessee acknowledges that it has received the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards prior to execution of this Lease.

d. The Lessee shall not permit use of any buildings or structures on the Leased Premises for residential habitation without first obtaining the written consent of the Lessor. As a condition of its consent, the Lessor may require the Lessee to:

(1) inspect for the presence of lead-based paint and/or lead-based paint hazards;

(2) abate and eliminate lead-based paint hazards by treating any defective lead-based paint surface in accordance with all applicable laws and regulations; and

(3) comply with the notice and disclosure requirements under applicable Federal and state law. The Lessee agrees to be responsible for any future remediation of lead-based paint found to be necessary on the Leased Premises.

[Alternative Condition 26 where the leased premises contains residential housing]

**26. NOTICE OF THE PRESENCE OF LEAD-BASED PAINT AND COVENANT**

a. The Lessee is hereby informed and does acknowledge that all buildings on the Leased Premises, which were constructed or rehabilitated prior to 1978, are presumed to

ER 405-1-12  
Change 33  
31 Aug 99

contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 residential housing, lessors must disclose to lessees and sublessees the presence of lead-based paint and/or lead-based paint hazards therein. "Residential housing" means any housing constructed prior to 1978, except housing for the elderly (households reserved for and composed of one or more persons 62 years of age or more at the time of initial occupancy) or persons with disabilities (unless any child who is less than 6 years of age resides or is expected to reside in such housing) or any 0-bedroom dwelling. A risk assessment or inspection for possible lead-based paint hazards by the Lessee is recommended prior to lease.

b. Available information concerning known lead-based paint and/or lead-based paint hazards, the location of lead-based paint and/or lead-based paint hazards, and the condition of painted surfaces is contained in the EBS, referenced in the Condition Survey attached as Exhibit D, which have been provided to the Lessee. [If applicable: Additionally, the following reports pertaining to lead-based paint and/or lead-based paint hazards have been provided to the Lessee: \_\_\_\_\_.] Additionally, the Lessee has been provided with a copy of the federally-approved pamphlet on lead poisoning prevention, and acknowledges that all sublessees must also receive this pamphlet. The Lessee hereby acknowledges receipt of all of the information described in this subparagraph.

c. The Lessee acknowledges that it has received the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards prior to execution of this Lease.

d. The Lessee shall not permit the occupancy or use of any buildings or structures as residential housing without complying with this section and all applicable federal, state, and local laws and regulations pertaining to lead-based paint and/or lead-based paint hazards. Prior to permitting the occupancy of residential housing, if required by law or regulation, the Lessee, at its sole expense, will abate and eliminate lead-based paint hazards by treating any defective lead-based paint surface in accordance with all applicable laws and regulations.

e. The United States assumes no liability for remediation or damages for personal injury, illness, disability, or death to the Lessee, its successors or assigns, sublessees, or to any other person, including members of the general public, arising from or incident to possession and/or use of any portion of the Leased Premises containing lead-based paint as residential housing. The Lessee further agrees to indemnify and hold harmless the United States, its officers, agents, and employees, from and against all suits, claims, demands or actions, liabilities, judgments, costs, and attorneys' fees arising out of, or in any manner predicated upon, personal injury, death, or property damage resulting from, related to, caused by, or arising out of the possession and/or use of any portion of the Leased Premises containing lead-based paint as residential housing. This Condition and

the obligations of the Lessee hereunder shall survive the expiration or termination of this Lease and any conveyance of the Leased Premises to the Lessee. The Lessee's obligation hereunder shall apply whenever the United States of America incurs costs or liabilities for actions giving rise to liability under this section.

(Include the following if required by the FOSL. Modification may be made to comply with the terms of the FOSL. In particular, an alternate provision, as set forth in the FOSL, will be needed where the leased premises contain asbestos that poses an unacceptable risk to human health and the lessee is required to remediate prior to use or occupancy.)

## **27. NOTICE OF THE PRESENCE OF ASBESTOS AND COVENANT**

a. The Lessee is hereby informed and does acknowledge that (friable and) non-friable asbestos or asbestos-containing materials (ACM) has been found on the Leased Premises, as described in the Condition Survey attached as Exhibit D. To the best of the Lessor's knowledge, the ACM on the Leased Premises does not currently pose a threat to human health or the environment.

b. In addition to the Lessee's general indemnity contained in the condition on **INDEMNITY AND HOLD HARMLESS**, with regard specifically to ACM, the Lessee covenants and agrees that its use and occupancy of the Leased Premises will be in compliance with all applicable laws relating to asbestos; and that the Lessor assumes no liability for future remediation of asbestos or damages for personal injury, illness, disability, or death to the Lessee, its successors or assigns, sublessees, or to any other person, including members of the general public, arising from, or incident to, the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with asbestos on the Leased Premises described in this Lease, whether the Lessee, its successors or assigns have properly warned or failed to properly to warn the individual(s) injured. The Lessee agrees to be responsible for any future remediation of asbestos found to be necessary on the Leased Premises.

## **28. OTHER ENVIRONMENTAL RESTRICTION**

[Insert from the FOSL any site specific environmental restrictions or provisions, such as endangered species, underground storage tanks. The FOSL is not attached to the lease as an exhibit. It is an internal decision document.]

## **29. SITE SPECIFIC RESTRICTIONS**

[Insert from the FOSL/Report of Availability any site specific restrictions or provisions, such as UXOs, restrict use of wetlands, support coastal zone management plans, limit flood plain activities.]

[Note: Additional numbered conditions may be inserted for clarity or due to length.]

ER 405-1-12  
Change 33  
31 Aug 99

### **30. HISTORIC PRESERVATION**

a. The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural, or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the Leased Premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

b. [Include any provision required by a Memorandum of Agreement or Programmatic Agreement with the State Historic Preservation Officer and Advisory Council on Historic Preservation.]

### **31. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said Leased Premises at the beginning of or that may be constructed by the Lessee during the term of this Lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the Leased Premises. Any soil erosion occurring outside the Leased Premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

### **32. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the Leased Premises shall be paid promptly by the Lessee. If and to the extent that the property owned by the United States is later made taxable by state or local governments under an Act of Congress, the Lease shall be renegotiated.

### **33. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this Lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this Lease without liability or, in its discretion, to require the Lessee to pay, in addition to the Lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

#### **34. OFFICIALS NOT TO BENEFIT**

No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this Lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this Lease is for the general benefit of such corporation or company.

#### **35. SEVERAL LESSEES**

If more than one Lessee is named in this Lease the obligations of said Lessees herein contained shall be joint and several obligations.

#### **36. MODIFICATIONS**

This Lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative, and this provision shall apply to this condition as well as all other conditions of this Lease.

#### **37. NO COMMITMENTS FOR FUTURE USE**

This Lease does not commit the United States to any renewals of the use authorized herein [delete if no option to extend: beyond the extension of the term provided for in the Condition on **TERM**] or to any future reuse or disposal and does not create any right or expectation for the Lessee or its sublessees or tenants to acquire the leased property.

#### **38. DISCLAIMER**

This Lease is effective only insofar as the rights of the United States in the Leased Premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the Leased Premises. It is understood that the granting of this Lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of March 3, 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

#### **39. AVAILABILITY OF FUNDS**

The Lessor's obligation to pay or reimburse any money under this Lease is subject to the availability of appropriated funds, and nothing in this Lease shall be interpreted to require obligations or payments by the United States in violation of the

ER 405-1-12  
Change 33  
31 Aug 99

Anti-Deficiency Act; provided that the Lessor shall otherwise comply with applicable statutory requirements and its obligations under the terms of this lease.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

2. **CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

3. **NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_;  
and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_,  
\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. **AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer or "Lessor" shall

ER 405-1-12  
Change 30  
30 Sep 94

include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit \_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

**8. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and said improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the

ER 405-1-12  
Change 30  
30 Sep 94

expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

#### 11. **FEEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. **ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of

ER 405-1-12  
Change 30  
30 Sep 94

Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance,

c. The District Engineer may require closure of any or all of the premises during any period for which the sub-lessees and concessionaires do not have the required insurance coverage.

#### 17. RESTORATION

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. NON-DISCRIMINATION

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. S 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sub-lessees and assignees.

#### 19. SUBJECT TO EASEMENTS

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

**20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM4), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**21. COMPLIANCE, CLOSURE, REVOICATION AND RELINQUISHMENT**

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on NOTICES.

**22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

ER 405-1-12  
Change 30  
30 Sep 94

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

ER 405-1-12  
Change 30  
30 Sep 94

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby

ER 405-1-12  
Change 30  
30 Sep 94

made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Service for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINENT FEES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**34. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**35. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_  
\_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO NON-STATE GOVERNMENTAL AGENCIES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_;

and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_;

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

ER 405-1-12  
Change 30  
30 Sep 94

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

#### 5. DEVELOPMENT PLANS

The Lessee shall be guided by an annual Plan of Operation and Maintenance in furtherance of the Lessee's implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit \_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. No later than \_\_\_\_\_ of each year the Lessee will submit the annual Plan to be mutually agreed on between the Lessee and the District Engineer. Such annual Plan shall include but is not limited to the following:

a. Plans for management, maintenance and development activities to be undertaken by the Lessee and any sublessees.

b. Report of the management, maintenance and development accomplishments of the Lessee for the preceding year.

c. Report on any significant modification of policies or procedures which are planned for the following year as well as those implemented in the preceding year.

d. Minor modifications to the Development Plan. Major modifications are to be accomplished by amendment to the Plan before proceeding to implement any changes in the development or management of the leased premises.

e. Budget of the Lessee for carrying out all activities for the upcoming year.

f. Personnel to be used in the management of the leased premises.

g. Annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. STRUCTURE AND EQUIPMENT

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**. However, not structures may be erected or altered upon the premises unless and until the type of use, design, and proposed location or alteration thereof shall have been approved in writing by the District Engineer. The District Engineer may require the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, upon the completion of each of the proposed developments to furnish complete "as built" construction plans for all facilities.

#### 7. **APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disability Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

##### **(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

**10. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**12. ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall establish and maintain accurate records and accounts and provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner

ER 405-1-12  
Change 30  
30 Sep 94

whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum Combined Single Limit of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee, sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. In the event the Lessee is self-insured, the Lessee shall certify such self-insurance in writing in the minimum amount specified above to the District Engineer. The Lessee's insurance status shall not eliminate the requirement for its sub-lessees and concessionaires to have insurance from a reputable insurance carrier as set out above.

d. The District Engineer may require closure of any or all of the premises during any period for which the Lessee and/or its sub-lessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the

ER 405-1-12  
Change 30  
30 Sep 94

premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. NON-DISCRIMINATION

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is rec Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### 19. SUBJECT TO EASEMENTS

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

#### 20. SUBJECT TO MINERAL INTERESTS

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### 21. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and

ER 405-1-12  
Change 30  
30 Sep 94

continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sub-lessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

## 22. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

## 23. **PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

## 24. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the

ER 405-1-12  
 Change 30  
 30 Sep 94

premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

## 25. NATURAL RESOURCES

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

## 26. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENT PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. my such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any spoil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full ammount of such commision, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However nothing herein contained shall be construed to extend to

ER 405-1-12  
Change 30  
30 Sep 94

any incorporated company if the lease be for the general benefit of such corporation or company.

**34. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**35. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE FOR**  
**FISH AND WILDLIFE MANAGEMENT PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section(s) \_\_\_\_\_, and for the consideration hereinafter set forth, hereby grants to the Lessee: the land and/or water areas under the primary jurisdiction of the Department of the Army as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for fish and wildlife management purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and

ER 405-1-12  
Change 30  
30 Sep 94

deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZE REPRESENTATIVES INCLUDED**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include its successors, employees and duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by a Fish and Wildlife Development and Management Plan (Development Plan), attached as Exhibit \_\_\_\_\_, which shows the facilities and management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to accomplish the purposes of this lease. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the condition on **RESTORATION**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, and use of pesticides. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises, if any, have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

**8. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

ER 405-1-12  
Change 30  
30 Sep 94

b. An inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

**9. FISH AND WILDLIFE ACTIVITIES**

a. The lessee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the lessee for wildlife habitat will be made available for lease by the District Engineer for agricultural or grazing purposes under conditions which would not be incompatible with the lessee's use of the premises.

c. The Lessee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

**10. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the demised premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. Agreements covered by the condition on **FISH AND WILDLIFE ACTIVITIES** are not subject to this condition.

**11. ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the Lessee from operations conducted on the premises may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. The District Engineer shall have the right to perform audits of the Lessee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of Lessee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

ER 405-1-12  
Change 30  
30 Sep 94

c. Proceeds derived from the sale of fishing and hunting leases are not subject to this condition.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

**14. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

ER 405-1-12  
Change 30  
30 Sep 94

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

**18. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to the United States in the manner prescribed in the condition on **NOTICES**.

20. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean and safe condition.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

21. **PUBLIC USE**

No attempt shall be made by the Lessee to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

22. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the condition on **DEVELOPMENT PLANS**. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

23. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer,

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 24. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the

ER 405-1-12  
Change 30  
30 Sep 94

premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticide or herbicides are applied to the premises.

#### 25. PRELIMINARY ASSESSMENT SCREENING

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### 26. HISTORIC PRESERVATION

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### 27. SOIL AND WATER CONSERVATION

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

#### 28. TRANSIENT USE

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

#### 29. COVENANT AGAINST CONTINGENT FEES

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**30. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**31. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**32. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE**  
**FOR COMMERCIAL CONCESSION PURPOSES**

\_\_\_\_\_  
 SITE

\_\_\_\_\_  
 PROJECT NAME

\_\_\_\_\_  
 COUNTY, STATE

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for commercial concession purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION**

a. The rent due to the United States in consideration of this lease shall be calculated using the Revised Graduated Rental System (RGRS). The total gross receipts for each rental payment period will be multiplied by the applicable percentage rate and the resulting total due payable within ten days to \_\_\_\_\_

The percentage rate for the upcoming rental year will be selected from the following RGRS rental rate chart, using the line for the total gross receipts of the ending rental year:

GROSS RECEIPTS (GR)	% RENT
Under \$50,000	2.0%
\$50,000-\$200,000	2.1%
\$200,000-\$400,000	2.2%
\$400,000-\$600,000	2.3%
\$600,000-\$800,000	2.4%
\$800,000-\$1,000,000	2.5%

\$2,600,000-\$2,800,000	3.4%
\$2,800,000-\$3,000,000	3.5%
\$3,000,000-\$3,200,000	3.6%
\$3,200,000-\$3,400,000	3.7%
\$3,400,000-\$3,600,000	3.8%
\$3,600,000-\$3,800,000	3.9%
\$3,800,000-\$4,000,000	4.0%
\$4,000,000-\$4,200,000	4.1%
\$4,200,000-\$4,400,000	4.2%
\$4,400,000-\$4,600,000	4.3%
\$4,600,000-\$4,800,000	4.4%
\$4,800,000-\$5,000,000	4.5%
\$5,000,001 and above	4.6%

(1) Gross receipts are defined as the total of the concessionaire's receipts from business operations conducted on the premises, including receipts of sub-lessees and licensees. No reductions are permitted except the costs of hunting and fishing licenses, and license fees and taxes collected for direct remittance to a taxing authority, and the exact amount collected from customers for electrical service which is metered to the customer and collected by the Lessee as the servicing agent and paid to the power company. (OPTIONAL: Sale receipts from boats and motors are excluded and assessed a straight one-percent rent.)

(2) The rental payment shall be (monthly) (quarterly) (semi-annually) (annually) with the first payment due \_\_\_\_\_. The rental year (will begin on the beginning date of this lease, and each anniversary date thereafter) (will be a partial year the first year, beginning on the date of this lease and ending on 31 December\_\_\_\_; for each rental year thereafter, the year will begin on 1 January and end on 31 December.)

(3) RENT PAYMENT CALCULATION FORM

Reporting period \_\_\_\_\_

a) Gross receipts for this period: \$ \_\_\_\_\_

b) Rent rate: x \_\_\_\_\_

c) Amount due (a x b) \$ \_\_\_\_\_

IF OPTIONAL BOAT RATE SELECTED:

d) Boat and motor sales: \$ \_\_\_\_\_

e) Rate: x 0.01

f) Amount due (d x e) \$ \_\_\_\_\_

TOTAL DUE (C+f) \$ \_\_\_\_\_

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. § 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an

ER 405-1-12  
Change 30  
30 Sep 94

additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charges.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_, and, if to the United States, to the District Engineer, Attn: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sub-lessees, assignees, transferees, concessionaires, and its duly authorized representatives.

### 5. USE AND DEVELOPMENT OF THE PREMISES

a. The premises may be occupied and used by the Lessee or duly authorized agents, sublessees, assignees, or transferees solely for the conduct of business in connection with the recreational development of the premises for the general use of the public. Lessee shall provide facilities and activities in accordance with the Use and Development Plan and its architectural theme and sign plan, as supplemented or amended, (Development Plan) and attached hereto as Exhibit\_\_\_\_\_. **(FOR RENEWALS WITHOUT SIGNIFICANT PROPOSED NEW DEVELOPMENT, REPLACE PRECEDING SENTENCE WITH THE FOLLOWING):** Lessee shall continue to provide current facilities and activities in accordance with a Use Plan showing location of existing facilities and current activities, attached exhibit \_\_\_\_\_, and will place and maintain signs in accordance with the sign plan, attached as exhibit\_\_\_\_\_.) The sign plan will be in accordance with the Sign Standards Manual, EP 310-1-6A, Chapter 17.

b. No structure may be erected or altered upon the premises unless and until said Development Plan **(FOR RENEWALS WITHOUT A DEVELOPMENT PLAN, REPLACE "said Development Plan" with "such Structure)** has been approved in writing by the District Engineer. The District Engineer may require the Lessee, upon

ER 405-1-12  
Change 30  
30 Sep 94

completion of each of the proposed developments, to furnish a complete "as built" site plan and "as built" construction plans for all facilities with certification by a Professional Engineer that the construction meets all codes and standards.

**(DELETE THE FOLLOWING CONDITION FOR RENEWAL WITHOUT DEVELOPMENT PLANS)**

c. The District Engineer may agree in writing to an extension of time for providing the facilities and activities designated in said Development Plan or may waive the providing thereof for other than those specified for the first lease year as designated in said development Plan, whenever, in the opinion of the District Engineer, the public demand does not reach the anticipated level at the time stated, or when a delay in providing the facilities and services is beyond the control of the Lessee; provided, however, that at the discretion of the District Engineer, such undeveloped areas may be withdrawn from the leased premises.

d. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. Modifications to said Development Plan must be approved in writing by the District Engineer prior to implementation of the change.

e. All structures and equipment furnished by the Lessee shall be and remain the property of the Lessee, except as otherwise provided in the Condition on RESTORATION.

**(DELETE THE FOLLOWING CONDITION FOR LEASE RENEWALS)**

**6. PERFORMANCE OF CONTRACT**

The Lessee agrees to obtain and deliver to the District Engineer, within thirty (30) days, either a valid surety bond issued by a surety corporation licensed by a state regulatory entity, a performance deposit, or an irrevocable letter of credit issued by a Federally insured financial institution in a form satisfactory to the District Engineer. Said surety bond, performance deposit, or letter of credit shall be in the sum of \$\_\_\_\_\_, payable to the United States, and conditioned upon full and satisfactory performance of the obligations of the Lessee herein set forth in this lease. To insure favorable performance by the Lessee of all the covenants, terms and conditions of this lease, said deposit shall be retained or said bond or letter of credit shall be kept in full force and effect by the Lessee until released in writing by the District Engineer upon completion of the development set out in said Development Plan, attached as Exhibit \_\_\_\_\_, as supplemented or amended, is completed.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be

ER 405-1-12  
Change 30  
30 Sep 94

either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY.**

**8. RATES AND PRICES**

a. The rates and prices charged by the Lessee or its sub-lessees shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The District Engineer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. The Lessee shall keep such rates and prices posted at all times in an appropriate and conspicuous place on the premises. The District Engineer may require submission of a schedule of the rates and prices at any time.

b. However, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**12. INSURANCE**

a. At the commencement of this lease, the Lessee will obtain from a reputable insurance company, or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and

ER 405-1-12  
Change 30  
30 Sep 94

consistent with sound business practices or a minimum Combined Single Limit of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee under the terms and conditions of this lease, and the Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, a certificate of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance coverage required. The policy shall provide that the insurance company give the District Engineer thirty (30) days written notice of any cancellation, non-renewal or change in such insurance.

b. The lessee's sublessees and licensees, at the commencement of operating under the terms of this lease, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and licensees under the terms of this lease. The lessee shall require any insurance carrier or carriers to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

c. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. The District Engineer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

d. As to those structures and improvements on the premises constructed by or at the expense of the United States, for such periods the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration, or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration, or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however, that the insurer, after payment of any proceeds to the Lessee in accordance with the provisions of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore, or replace the leased premises or any part thereof.

ER 405-1-12  
Change 30  
30 Sep 94

**13. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the leased premises. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

**15. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

**16. TAXES**

Payment of any and all taxes imposed by the state or its political subdivisions upon the property or business of the Lessee on the premises is the responsibility of the Lessee.

ER 405-1-12  
Change 30  
30 Sep 94

17. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easments subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

18. **SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to Federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

19. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or a controlling interest therein (including, without limitation, mergers, consolidations, reorganizations, or other business combinations), nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease, nor shall this lease be assignable or transferable by process or operation of law including, but not limited to, insolvency proceedings, bankruptcy, or intestacy, or in any other manner whatever.

(1) Failure to comply with this condition or the procedures described herein shall constitute a material breach of this lease for which this lease may be revoked immediately by the District Engineer, and, the secretary shall not be obligated to recognize any right of any person or entity to an interest in this lease or to own or operate the facilities authorized hereunder acquired in violation hereof.

(2) The Lessee shall advise the person(s) or entity proposing to enter into a transaction described in Subsection a. above that the District Engineer shall be notified and that the proposed transaction is subject to review and approval by the District Engineer. The Lessee shall request in writing the District Engineer's approval of the proposed transaction and shall promptly provide the District Engineer all relevant documents related to the transaction, and the name(s) and qualifications of the person(s) or entity involved in the proposed transaction.

b. The District Engineer, in exercising discretion to approve or disapprove transfer, assignments, or subleases, shall among other matters, take into consideration the management qualifications of the individuals or entities that would thereby obtain a controlling interest in the facilities or services authorized hereunder, the experience of such individuals or entities with similar operations, and the ability of such individuals or entities to operate the operations authorized hereunder in the public interest.

c. The term "controlling interest" in a Lessee's ownership shall mean, in the instance of a corporate Lessee, an interest beneficial or otherwise, of sufficient outstanding voting securities or capital of the Lessee so as to permit exercise of substantial managerial influence over the operations of the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, and, in the instance of a partnership, joint venture, or individual Lessee, any beneficial ownership of the capital assets of the Lessee sufficient to permit substantial managerial influence over the operations of the Lessee. The District Engineer will determine at the request of interested parties whether or not an interest in a lease constitutes a controlling interest within the meaning hereof.

d. The Lessee may not enter into any agreement with any entity or person, except employees of the Lessee, to exercise substantial management responsibilities for the operation authorized hereunder or any part thereof without the prior written approval of the District Engineer.

e. No mortgage shall be executed, and no bonds, shares of stock, or other evidence of interest in, or indebtedness upon the assets of the Lessee located on the premises, including this lease, shall be issued, except for the purposes of installing, enlarging, refinancing or improving concession plant, equipment and facilities, provided that, such assets, in addition, may be encumbered for the purposes of purchasing existing concession plant, equipment and facilities. In the event of default on such a mortgage, encumbrance, or such other indebtedness, or of other assignment, transfer, or encumbrance, the creditor or any assignee thereof shall succeed to the interest of the Lessee in such assets but shall not thereby acquire operating rights or privileges. Such rights or privileges shall be subject to disposition by the District Engineer.

f. The lessee may allow independent private service companies to enter and conduct business on the premises for the benefit of the Lessee's customers on an as-called basis without a formal sublease or license agreement, provided that the service is occasional and incidental to the Lessee's operation and that any compensation paid to the Lessee is included in gross receipts.

g. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

## 20. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of its terms and conditions and continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving six months prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the District Engineer may elect to revoke this lease by notification in writing to the Lessee.

#### 21. HEALTH AND SAFETY

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to the health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee will be obligated to pay rental, notwithstanding any interruption or suspension of activities. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

#### 22. PUBLIC USE

No attempt shall be made by the Lessee, nor any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

#### 23. PROHIBITED USES

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

ER 405-1-12  
Change 30  
30 Sep 94

24. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Condition on **USE AND DEVELOPMENT OF THE PREMISES** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber.

25. **ACCOUNTS AND RECORDS**

a. The Lessee shall maintain complete and accurate records and no later than 120 days following the end of the Lessee's fiscal year shall submit to the District Engineer reports and data for the preceding year to include a financial statement for the activity covered by the lease and compiled by an independent certified public accountant or by an independent licensed public accountant certified or licensed by a regulatory authority of a state.

b. The District Engineer shall have the right at any time (1) to verify all financial reports and copy the books, correspondence, memoranda, income tax returns and other records of the Lessee and sublessees, if any, and of the records of proprietary or affiliated companies, if any, related to this lease during the period of the lease (This right shall extend for such time thereafter as may be necessary to accomplish such verification, but in no event more than five (5) years after the close of the business year of the Lessee); (2) to require the Lessee to furnish an audited financial statement; or (3) to require the Lessee to furnish an audited statement of gross receipts for the concession operation, including the gross income of any sublease operation, and certification of the accuracy of the reported income.

c. Statements will be prepared by an independent certified public accountant or by a licensed public accountant certified or licensed by a regulatory authority of a state. Audits will be in accordance with the auditing standards and procedures promulgated by the American Institute of Certified Public Accountant. Financial statements requiring audits and accompanied by remarks such as "prepared from client records without audit" are unacceptable. Audited and reviewed financial statements shall contain appropriate footnotes. The independent licensed or certified public accountant shall include a statement to the effect that the amounts included in the financial report are consistent with those included in the Federal tax returns. If the amounts are not consistent, then a statement showing differences shall be included. An audit of Lessees tax returns is not required.

26. **ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation

ER 405-1-12  
Change 30  
30 Sep 94

facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the property in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

#### **27. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### **28. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### **29. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected as directed by the District Engineer.

#### **30. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

#### **31. HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

ER 405-1-12  
Change 30  
30 Sep 94

32. **TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites, said system to be acceptable to the District Engineer.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by the District Engineer.

33. **DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-6113) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certification described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the Condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 34. **COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

#### 35. **OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

#### 36. **SEVERAL LESSEES**

If more than one Lessee is named in this lease the obligations of said Lessees herein contained shall be joint and several obligations.

ER 405-1-12  
Change 30  
30 Sep 94

37. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

38. **DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**

**LEASE TO NONPROFIT ORGANIZATION  
FOR PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
SITE

\_\_\_\_\_  
PROJECT NAME

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration set forth herein, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for

\_\_\_\_\_

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue

ER 405-1-12  
Change 30  
30 Sep 94

from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**2. CONSIDERATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON NON-DISCRIMINATION)**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. APPLICABLE LAWS AND REGULATIONS**

a. The lessee shall comply with all applicable federal laws and regulations and with all applicable laws, ordinances and regulations of the state, county and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

ER 405-1-12  
Change 30  
30 Sep 94

b. The lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

#### 7. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

#### 8. **DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for park or recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

#### 9. **AVAILABILITY OF THE PREMISES**

The Lessee agrees that the premises are leased for organized group recreational use only and that the premises and the facilities thereon must be made available on a rotational basis among any various groups within the lessee organization, and their guests. The Lessee further agrees to make the site and facilities available to other nonprofit organizations on a first come, first served reservation basis when not scheduled for use by members of the Lessee organization. The Lessee will not unreasonably withhold availability to such organizations.

#### 10. **TRANSFERS AND ASSIGNMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee will not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for use of the premises or facilities constructed thereon. The said officer shall have the right to review such fees and require an increase or reduction when it is determined that the objectives of this lease have been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. All monies received by the Lessee from operations conducted on the premises must be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Any such monies not so utilized or programmed for use within a reasonable time shall be paid to said officer at the end of each 5 year period. The Lessee shall furnish annual statements of receipts and expenditures to said officer.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**14. INSURANCE**

a. At the commencement of this, the Lessee shall obtain from a reputable insurance company or companies, liability insurance. The insurance

ER 405-1-12  
 Change 30  
 30 Sep 94

shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the lessee under the terms of this lease. The Lessee shall require its insurance company to furnish to said officer a copy of the policy or policies, or if acceptable to said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give said officer thirty (30) days written notice of any cancellation or change in such insurance. Said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessees cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**15. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the lessee, or for damages to the property or injuries to the person of the lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**16. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the

lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**17. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**17. NON-DISCRIMINATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON CONSIDERATION)**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**18. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

**19. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said

ER 405-1-12  
Change 30  
30 Sep 94

mineral leases that are designed to protect the premises from activities that would interfere with the lessee's operations or would be contrary to local law.

**20. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event the Lessee violates any of its terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Decisions by the said officer concerning future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall reflect the lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on NOTICES.

**21. HEALTH AND SAFETY**

a. The lessee shall keep the premises in good order and in a clean, sanitary and safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

**22. PUBLIC USE**

The lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

**23. PROHIBITED USES**

a. The lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

ER 405-1-12  
Change 30  
30 Sep 94

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the lessee organization and their guests. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

#### 24. NATURAL RESOURCES

The lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The lessee may salvage fallen or dead timber on the leased premises for use as firewood only. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

#### 25. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) (i) If the Lessee is an individual, the certificate shall be executed by that individual.

(ii) If the Lessee is not an individual, the certification shall be executed by:

ER 405-1-12  
Change 30  
30 Sep 94

(A) A senior company official in charge at the Lessee's location involved; or

(B) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 26. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The lessee shall require all sanitation facilities on boats moored at the lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**27. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**28. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

**29. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

**30. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**31. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

**32. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**33. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**34. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

IN WITNESS WHEREOF, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

LEASE FOR  
PRIVATE RECREATION PURPOSES

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
PROJECT

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for private recreation purposes consisting of \_\_\_\_\_

\_\_\_\_\_.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

A. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$\_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

ER 405-1-12  
Change 30  
30 Sep 94

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

### 5. SUPERVISION BY THE DISTRICT ENGINEER

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable federal, laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable NFPA codes.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is to be attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

**8. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for private recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the condition on RESTORATION, and shall be maintained by the Lessee to the satisfaction of said officer.

**9. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee shall not subdivide nor develop the premises into private residential development.

**10. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property

ER 405-1-12  
Change 30  
30 Sep 94

located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**11. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**15. SUBJECT TO EASEMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

#### **16. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

#### **17. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on **NOTICES**.

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the said officer may elect to revoke this lease by notification in writing to the Lessee.

#### **18. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, safe and sanitary condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

19. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the Lessee organization and their guests only.

c. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by said officer.

20. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The Lessee may salvage fallen or dead timber, however, no commercial use shall be made of such timber. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

21. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

- (i) The claim is made in good faith;
  - (ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and
  - (iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.
- (3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:
- (i) A senior company official in charge at the Lessee's location involved; or
  - (ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.
- d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.
- e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.
- f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.
- g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.
- h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 22. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or

ER 405-1-12  
Change 30  
30 Sep 94

instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### 23. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirement of the Lessee. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

#### 24. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

#### 25. **SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

#### 26. **COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

27. **OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

28. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

29. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**

**LEASE TO NONPROFIT ORGANIZATION  
FOR COOPERATIVE MANAGEMENT OF**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, a non-profit corporation duly organized and existing under and by virtue of the laws of the State of \_\_\_\_\_, with its principal office in the City of \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and pursuant to a Cooperative Agreement dated \_\_\_\_\_, hereinafter referred to as the Agreement, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the premises, for the development and management, in cooperation with the Secretary.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee, in cooperation with the Secretary, for the benefit of the United States and the general public in accordance with the terms of this lease and those of the Agreement. It is understood and agreed that this lease will be controlling if there are any conflicts between the two documents.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_

and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage

ER 405-1-12  
Change 30  
30 Sep 94

prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, successors, and its duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer, including any special provisions that may be established due to the cooperative joint management of the premises by the Lessee and the United States as contemplated by the Agreement.

**6. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county, and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, Repairs to additions thereto except as may be required to carry out its responsibilities pursuant to the terms of the Agreement.

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the said officer and the Lessee to reflect the condition of the said property and improvements. A copy of the said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such settlement will take into account the cooperative relationship of the parties, and will reflect an equitable apportionment of damages.

**8. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the said officer the lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**9. FEES, RATES AND PRICES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee may charge a general admission fee and/or fees for visitor/interpretative services or special events. The said officer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. Monies received by the Lessee from operations conducted on the premises shall be utilized by the Lessee to fulfill its obligations under the Agreement. The Lessee shall furnish an annual report of itemized receipts and expenditures to said officer.

**10. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises in accordance with the Agreement. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

**11. PROTECTION OF PROPERTY**

The lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the lessee to a condition satisfactory to the said officer, or at the election of the said officer, reimbursement made therefor by the lessee in an amount necessary to restore or replace the property to a condition satisfactory to the said officer.

**12. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**13. INSURANCE**

a. At the commencement of this lease, the lessee shall obtain, from a reputable insurance company or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this lease. The Lessee shall require the insurance company or companies to furnish the said officer a copy

ER 405-1-12  
Change 30  
30 Sep 94

of the policy or policies, or if acceptable to the said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the said officer thirty (30) days written notice of any cancellation or change in such insurance. The said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessee's cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**14. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and

ER 405-1-12  
Change 30  
30 Sep 94

restore the premises, then, at the option of the said officer, said property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation. 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of the said officer, interfere with the use of the premises by the Lessee.

**18. SUBJECT TO MINERAL INTEREST**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licenses are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance.

ER 405-1-12  
Change 30  
30 Sep 94

Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving Ninety (90) days prior written notice to the said officer in the manner prescribed in the Condition on NOTICES.

#### 20. HEALTH AND SAFETY

a. The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, the said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

#### 21. PUBLIC USE

The Lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

#### 22. PROHIBITED USES

The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

#### 23. NATURAL RESOURCES

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT**. The Lessee may salvage fallen or dead timber on the premises for use as firewood. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

ER 405-1-12  
Change 30  
30 Sep 94

#### 24. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. § 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph C. (2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A Claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A Claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

ER 405-1-12  
Change 30  
30 Sep 94

g. The Government shall pay interest or the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, or action arising under the lease, and comply with any decision of the said officer.

#### 25. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. Services for waste disposal shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### 26. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation, or relinquishment of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining the environmental restoration requirements of the Lessee. Appropriate consideration will be given to the cooperative relationship between the parties.

#### 27. **HISTORIC PRESERVATION**

Except as may be otherwise provided in the Agreement, the Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the said officer and protect

ER 405-1-12  
Change 30  
30 Sep 94

the site and the material from further disturbance until the said officer gives clearance to proceed.

**28. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. My soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

**29. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**30. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

**31. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**32. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**33. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of

ER 405-1-12  
Change 30  
30 Sep 94

this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 U.S.C. § 403), and Section 404 of the Clean Waters Act (33 U.S.C. § 1344) .

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR COST-SHARED PUBLIC PARK AND RECREATIONAL PURPOSES

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

THIS LEASE is made on behalf of the United States, between the SECRETARY OF THE ARMY, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Sections 460d and 4601-13, and Title 33, United States Code, Section 2213, and pursuant to a Project Cooperation Agreement entered into on \_\_\_\_\_ (hereinafter referred to as the PCA), and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the praires, for public park and recreational purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of fifty (50) years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION AND OBLIGATIONS**

The consideration for this lease is the operation and maintenance of the premises and the operation, maintenance, replacement and rehabilitation of the facilities and improvements shown on the inventory prepared under the condition on CONDITION OF THE PREMISES, by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth. As used in this lease the term "replacement" shall be construed to mean the replacement in whole or in part of any structure or improvement so worn or damaged by any cause as to no longer adequately serve its designed function with normal maintenance. As used in this lease the term "rehabilitation" shall mean to restore in whole or in part any structure or improvement to a good and useable condition.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee to \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

\_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

#### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives: Any reference to "Lessee" shall include sublessees, transferees, concessionaires, and its duly authorized representatives.

#### 5. DEVELOPMENT PLANS

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) \*\* NOTE adopted pursuant to Article I of the PCA and by this reference made a part hereof and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

**\*\*NOTE** The PCA, Art. I, attaches project technical documents, i.e. feasibility studies, GDM. If Federal land will be provided for recreational development, then the documents need to have the same details that would be in a non-cost shared park lease Development Plan.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. STRUCTURES AND EQUIPMENT

The Lessee shall have the right, during the term of the lease at its own expense, to erect additional structures and to provide such equipment upon the premises as may be necessary to furnish additional facilities and services in accordance with an approved amendment to the Plan as provided in the condition on **DEVELOPMENT PLANS**. Those additional structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**, and shall not be added to the inventory described in the Condition on **CONDITION OF THE PREMISES**.

#### 7. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of law cited in the granting clause.

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitation Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises and all structures and improvements, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

b. As of the date of this lease an inventory and condition report of all personal property and improvements constructed in whole or in part with Federal funds under the terms of the PCA included in this lease shall be made by a representative of the District Engineer and a representative of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sublessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or any property constructed in whole or in part with Federal funds on the premises. The lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodation, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

b. The Lessee shall neither sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, or license whatsoever in connection with this lease without prior written permission from the District Engineer.

**(ALTERNATE b.) USE IF THE ENTIRE WATER RESOURCE DEVELOPMENT PROJECT IS LEASED SO THAT THE STATE IS THE PRIMARY LAND MANAGER**

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee may grant permits and licenses to adjacent private property owners for use of a portion of the premises if the use is conditioned on:

- (1) Unrestricted use by the general public,
- (2) Free and unimpeded passage along the shore,
- (3) Compatibility with the Plan and the Environmental Impact Statement adopted for the project,
- (4) Signs being posted to the effect that "This is public property open to the general public."

#### 11. FEES

Fees may be charged by the lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. ACCOUNTS, RECORDS AND RECEIPTS

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee to fulfill its obligations under the PCA. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sublessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

#### 13. PROTECTION OF PROPERTY

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes.

#### 14. RIGHT TO ENTER AND FLOOD

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

ER 405-1-12  
Change 30  
30 Sep 94

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. The District Engineer may require closure of any or all of the premises during any period for which the sublessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and so restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work.

**18. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102);

the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### **19. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

#### **20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Department of the Army will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### **21. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

The Lessee and/or any sublessees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such violation. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent.

#### **22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions within the area covered by the lease that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its concessionaires or sublessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sublessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613)(the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim

ER 405-1-12  
Change 30  
30 Sep 94

under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The disposal of any toxic or hazardous materials within the premises is specifically **PROHIBITED**. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

## 28. PRELIMINARY ASSESSMENT SCREENING

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

## 29. HISTORIC PRESERVATION

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

## 30. SOIL AND WATER CONSERVATION

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

## 31. TRANSIENT USE

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60)

ER 405-1-12  
Change 30  
30 Sep 94

consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. HOLD HARMLESS**

The Lessee shall hold and save the Government free from damages arising from the operation, maintenance, replacement and rehabilitation of the premises and the facilities and improvement, except for damages due to the fault or negligence of the Government or the Government's contractors.

**33. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**34. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**35. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**36. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_ .

CONTRACT NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE  
FOR COTTAGE SITE PURPOSES

\_\_\_\_\_  
SITE  
\_\_\_\_\_  
PROJECT NAME  
\_\_\_\_\_  
COUNTY, STATE

THIS LEASE, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and of Section 1134 of the Act of Congress approved 17 November 1986 (P.L. 99-662) and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for recreational cottage site purposes and purposes incidental thereto.

That this lease grants no vested property rights but affords only a limited right to occupy the land pending termination as set out in Condition 14.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term beginning \_\_\_\_\_, 19\_\_, and ending on \_\_\_\_\_ 20\_\_, or until such time as the lease is terminated by the lessee, or by the secretary, as set out in Condition 14 on Termination.

2. **CONSIDERATION**

a. The consideration for this lease is the fair market rental, reviewed and adjusted every 5 years for compliance with fair market value, of the initial sum of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), payable as shown in the attached Exhibit A in advance to the order of the Finance and Accounting Officer (FAO), \_\_\_\_\_, and delivered in the same manner as set out in condition 3 on Notices.

b. All rent and other payments due under the terms of this instrument must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, Title 31, United

ER 405-1-12  
Change 30  
30 Sep 94

States Code, Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from the due date. An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

### **3. NOTICES**

All notices to be given pursuant to this lease shall be addressed, if to the Lessee, to if to the United States, to the District Engineer, \_\_\_\_\_ hereinafter referred to as the District Engineer, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage prepaid in a post office or branch post office regularly maintained by the United States Postal Service.

### **4. AUTHORIZED REPRESENTATIVES INCLUDED**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, and their duly authorized representatives.

### **5. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, use of pesticides, licenses or permits. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer and to such rules and regulations as may be prescribed from time to time.

### **6. USE OF THE PREMISES**

a. The leased premises may be used by the lessee, lessee's family, agents, and guests, for recreational cottage site purposes and purposes incidental thereto and for no other different object or purpose. The lessee may maintain an existing private recreational dwelling, and may maintain existing accessory improvements, but agrees not to unreasonably expand these existing improvements. These existing improvements erected by the lessee or a predecessor under a previous lease shall remain the property of lessee, subject, however, to the provisions of Condition 15 hereof, and shall be maintained by the lessee in a usable and safe condition. Failure to maintain may be grounds for termination under Condition 14.

ER 405-1-12  
Change 30  
30 Sep 94

b. No improvement may be erected, expanded or altered upon the premises unless and until the type of use, design, and proposed location or alterations thereof shall have been approved in writing by the District Engineer.

**7. CONDITION OF PREMISES**

The Lessee acknowledges that he has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**8. TRANSFERS, ASSIGNMENTS, SUBLEASES**

The Lessee shall neither transfer nor assign this lease or any property on the demised premises, nor sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, in license whatsoever in connection with this lease without permission in writing from the District Engineer. The provisions and conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the lessee's heirs, representatives, successors and assigns.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all improvements, trees or timber, and other property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer or at the election of the District Engineer, reimbursement may be made at the current market value.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. This property is located within the 100-year floodplain and is subject to periodic flooding. This lease is subject to floodplain management requirements unless inconsistent with the approved cottage site use.

**11. HOLD HARMLESS**

The lessee agrees to hold the United States harmless from any claim for damages or injury to persons or property arising from the occupancy of or through the use of the premises.

**12. LIGHTS, SIGNALS AND NAVIGATION**

ER 405-1-12  
Change 30  
30 Sep 94

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**13. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which, in the opinion of the District Engineer, is contrary to good morals or is otherwise objectionable; or use the premises or permit them to be used for any illegal or immoral business or purpose. There shall not be carried on or permitted upon the premises any activity which would constitute a nuisance and the Lessee will use the premises in a quiet and inoffensive manner.

b. The Lessee will not conduct any commercial or business activities on the premises.

**14. TERMINATION**

a. This lease may be terminated by the lessee, any successors or assigns of the lessee, at any time by giving ten-days' notice in writing to the District Engineer. Provided that, in case of such termination, no remission shall be made by the United States of any rental theretofore paid, and provided further that, in the event that the notice is not given at least ten days prior to the next rental due date, the lessee shall be required to pay that rental payment. Abandonment or nonuse of the premises for one year or nonpayment of the rent for 90-days past the due date will be considered notice of termination of the lease by the lessee.

b. The Secretary may terminate this lease only if the premises are needed for immediate use for public park purposes or other higher public use or for a navigation or flood control project; or if lessee substantially violates a provision of the lease. The lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies and with compliance with reasonable requests by the District Engineer. The lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. A termination notice will be given in writing to the lessee at least 30 days prior to the termination date and designating the time for compliance with Condition 15.

c. In the event of termination by the lessee or the Secretary, the District Engineer may re-enter the premises andg from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

d. This lease does not exclude lessee from being required to obtain a Department of the Army permit under 33 U.S.C 403 or Section 404.

**22. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**23. SOIL AND WATER CONSERVATION**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all terraces, retaining walls, drop structures, revetments and other soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the use and maintenance of the premises by the Lessee shall be in accordance with good soil and water conservation practices.

**24. SEVERAL LESSEES**

If more than one lessee is named in this lease the obligations of said lessees shall be joint and several obligations.

**25. HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, id States in the premises are concerned. The lessee shall obtain any further permission necessary on account of any other existing rights.

Before the execution of this lease, conditions were deleted, revised and added in the following manner:

IN WITNESS WHEREOF I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
EASEMENT FOR ELECTRIC POWER OR  
COMMUNICATION FACILITY  
LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
County, State

**THE SECRETARY OF THE** \_\_\_\_\_, under and by virtue of the authority vested in the Secretary by Title 43, United States Code, Section 961, having found that the granting of this easement is not incompatible with the public interest, hereby grants to:

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for

\_\_\_\_\_  
hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of (\$ \_\_\_\_\_) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the

ER 405-1-12  
Change 30  
30 Sep 94

amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located, including but not limited to, the provisions of the latest edition of the National Electrical Safety Code (NESC) and the Environmental Protection Agency regulations on Polychlorinated Biphenyls (PCB'S).

### 7. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

ER 405-1-12  
Change 30  
30 Sep 94

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, the United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The Grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C § 403), Section 404 of the clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PIPELINE RIGHT-OF-WAY

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10 United States Code, Section 2669, having found that the granting of this easement will be in the public interest and will not substantially injure the interests of the United States, hereby grants to,

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for \_\_\_\_\_, hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

ER 405-1-12  
Change 30  
30 Sep 94

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

ER 405-1-12  
Change 30  
30 Sep 94

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account there against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

ER 405-1-12  
Change 30  
30 Sep 94

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, The United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous

ER 405-1-12  
Change 30

substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions, of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403) Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PUBLIC ROAD OR STREET

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10, United States Code, Section 2668, having found that the granting of this easement will not be against the public interest, hereby grants to \_\_\_\_\_

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for a road or street, hereinafter referred to as the facilities, over, across, in and upon the lands of the United States as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS EASEMENT** is granted subject to the following conditions:

**1. TERM**

This easement is granted in perpetuity.

**2. CONSIDERATION**

The consideration for this easement shall be the construction, operation and maintenance of a public road for the benefit of the United States and the general public in accordance with the terms herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and if to the United States, to the District, Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

ER 405-1-12  
Change 30  
30 Sep 94

**5. SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Instalation Commander), \_\_\_\_\_(District)(Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this easement, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. RIGHT TO CONNECT**

The United States reserves the right to make such connections between the road or street herein authorized and roads and streets on other government lands as said officer may from time consider necessary, and also reserves to

ER 405-1-12  
Change 30  
30 Sep 94

itself rights-of-way for all purposes across, over or under the right-of-way hereby granted; provided that such rights shall be used in a manner that will not create unnecessary interference with the use and enjoyment by the grantee of the right-of-way herein granted.

**12. OTHER AGENCY AGREEMENTS**

It is understood that the provisions of the conditions on **SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)** and **RIGHT TO ENTER** above shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the construction, maintenance, or repair of the facilities herein authorized.

**13. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**14. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state, interstate, and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**16. PRELIMINARY ASSESSMENT SCREENING**

ER 405-1-12  
Change 30  
30 Sep 94

A Preliminary Assessment Screening (PAS), documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

#### **17. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **18. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national, origin or religion.

b. The grantee, by acceptance of this easement, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defence Directive 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the grantee, its agents, successors, transferees, and assignees.

#### **19. RESTORATION**

On or before the termination or revocation of this easement, the grantee shall, without expense to the United States and within such time as said officer may indicate, restore the premises to the satisfaction of said officer. In the event the grantee shall fail to restore the premises, at the option of said officer, said improvements shall either become the property of the United States without compensation therefore, or said officer shall have the option to perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

#### **20. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity for obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state, interstate or local laws in connection with the use of the premises.

DEPARTMENT OF \_\_\_\_\_

EASEMENT AND RELINQUISHMENT OF ACCESS RIGHTS FOR A SECTION OF  
THE NATIONAL SYSTEM OF INTERSTATE AND DEFENSE HIGHWAYS

(Indicate reservations)

The United States of America, acting by and through the SECRETARY OF THE \_\_\_\_\_, under and by virtue of the authority of Title 10, U.S.C., Section 2668, and in furtherance of Title 23, U.S.C., Section 107(d), hereby grants to the State of \_\_\_\_\_ (appropriate title of the highway department), hereinafter designated as the grantee, an easement for a right-of-way for a controlled-access highway, as part of the National System of Interstate and Defense Highways, on, over, across, in and upon lands of the United States which are a portion of \_\_\_\_\_ the (indicate reservation), as shown on the map marked Exhibit \_\_\_\_\_, and more particularly described on Exhibit \_\_\_\_\_, which exhibits are attached hereto and made a part hereof, together with all abutters' existing, future or potential rights of access to, from and between the right-of-way of the public way known as \_\_\_\_\_ and the remaining lands of said reservation, except for such rights as may be hereinafter specifically reserved in this instrument.

THIS EASEMENT is granted subject to the following provisions and conditions:

1. That the grantee shall, at all times, maintain said highway in good condition and shall promptly make all repairs thereto needed to preserve a smooth-surface highway.
2. That any property of the United States damaged or destroyed by the grantee incident to the use and occupation of the said premises shall be promptly repaired, replaced or relocated by the grantee, to the satisfaction of the local representative of the DEPARTMENT OF \_\_\_\_\_, and in accordance with plans and specifications approved, in advance, by the said officer, or, in lieu of such repair, replacement or relocation, the grantee shall, if so required by said representative, pay to the United States, money in an amount sufficient to compensate for the loss sustained by the United States by reason of damages to, or destruction of, United States property.
3. a. That the United States reserves the right to construct, from time to time, grade separation crossing structures or pedestrian crossing structures over or under the controlled-access highway, at such points as it may deem necessary; provided, that such structures shall be constructed in accordance with standards for the National System of Interstate and Defense Highways, approved by the Department of Transportation, Bureau of Public Roads. The United States also reserves the right to cross over and/or under the right-of-way hereby granted with utility lines and related facilities; provided, however, that such rights shall be exercised in accordance with regulations issued by the Secretary of Transportation and policies adopted by the Federal Highway Administrator.
- b. That, during any emergency declared by the President or Congress of the United States, the United States shall have the right to enter and exit directly to and from said right-of-way from the abutting Government-owned land, including the right to construct temporary direct entrances and exits, crossings at grade, or substandard grade-separation structures, including acceleration and deceleration lanes; provided, that all such temporary facilities shall, subject to availability of appropriations, be removed within a reasonable time after official termination of the emergency.

ER 405-1-12  
Change 30  
30 Sep 94

4. That it is to be understood that this instrument is effective only insofar as the rights of the United States in the property over which the said highway is to be extended are concerned, and that the grantee shall obtain such permission as may be necessary because of any other existing rights.

5. That all, or any part, of such right-of-way herein granted may be terminated by the Secretary of the \_\_\_\_\_ for failure to comply with any or all of the terms or conditions of this grant, or for nonuse for a two-year period, or abandonment of rights granted herein.

6. Additional special provisions as may be necessary to meet particular circumstances of each case, such as the following:

a. Provision for construction and maintenance at the expense of grantee of necessary controlled-access facilities to, over, under and across the highway to meet the requirements of the military installation affected, pursuant to plans, specifications and maps approved by the installation commanders and attached as exhibits to the grant.

b. Provision of construction and maintenance of special signs, signals, markers, etc.

c. Relocation of facilities adjacent to and adversely affected by the highway construction, etc.

7. That the grantee, within the limits of its respective legal powers, shall comply with all Federal, interstate, state and/or local governmental regulations, conditions, or instructions for the protection of the environment and all other matters as they relate to real property interests granted herein.

8. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until a professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

9. That the grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin or religion in the conduct of operations on the easement premises.

10. Merger Clause. Prior to the execution of this easement, the following conditions were deleted: \_\_\_\_\_; changed: \_\_\_\_\_; added:

\_\_\_\_\_

This easement is not subject to Title 10, U.S.C., Section 2662.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of

\_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_  
**THIS EASEMENT** is also executed by the grantee this \_\_\_\_\_ day of

DEPARTMENT OF THE ARMY  
EASEMENT FOR  
FUEL CARRYING PIPELINE

THE SECRETARY OF THE ARMY, under and by virtue of the eauthority vested in him by 30 U.S.C. 185, hereby grants to \_\_\_\_\_ hereinafter designated as the grantee, for a period of \_\_\_\_\_ years from \_\_\_\_\_, an easement for a right-of-way for the installation, construction, operation, maintenance, and repair of a \_\_\_\_\_-inch underground gas pipeline for the purpose of \_\_\_\_\_ over, across, in, and upon land the Army at the location shown in red on Exhibit \_\_\_\_\_ attached hereto and made a part hereof, and described on Exhibit \_\_\_\_\_ attached hereto and made a part hereof.

THE EASEMENT is granted subject to the following conditions:

1. The grantee shall pay to the United States in advance upon delivery of this easement the sum of \_\_\_\_\_ per annum for the easement, the sum of \_\_\_\_\_ as reimbursement for the costs incurred by the United States in processing the application, and the sum of \_\_\_\_\_ as reimbursement for the cost of monitoring construction, operation and maintenance of said pipeline for the entire term of the easement. In the event of termination of this easement, the grantee further agrees to reimburse the United States for any and all costs incurred by the United States in monitoring the termination. All payments shall be made to the Finance and Accounting Office, U.S. Army Corps of Engineers and forwarded by the grantee to the District Commander, U.S. Army Engineer District, \_\_\_\_\_ no later than \_\_\_\_\_. The U.S. will impose a charge, the amount to be determined by law or regulation on late payment of rent or other payments due under this agreement for each 30 day period that the payment is overdue. The full late charge will also be applicable to periods of less than 30 days.
2. The grantee shall construct, operate, maintain, and terminate the said pipeline in all accordance Federal, state, county, and municipal laws, regulations, and ordinances.
3. The installation and/or operation and maintenance of said line shall be accomplished without cost or expense to the United States under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter designated as "said officer," and in such manner as not to endanger personnel or property of the United States on the said United States land or obstruct travel on any road thereon. The grantee shall have the right of ingress and egress for such purposes, subject to approval of access by said officer.
4. The use and occupation of said land incident to the exercise of the privileges hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.
5. Upon completion of the installation of said line and the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition in which they existed prior to the commencement of such work, to the satisfaction of the said officer. The grantee shall supervise the said line and cause it to be inspected at reasonable intervals, and shall immediately repair any leaks found therein as a result of such inspection, or when requested by said officer to repair any defects.

ER 405-1-12  
Change 30  
30 Sep 94

6. The grantee shall be strictly liable to the United States for damage or injury which may arise from or be incident to the construction, maintenance or removal of said line and the use or occupation of the right-of-way herein granted. Damages to property of the United States shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer, or in lieu of such repair or replacement the grantee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States. All owners of any interest in, and all affiliates or subsidiaries of the grantee, except for corporate stockholders, shall be jointly and severally liable to the United States in the event that a claim for damage or injury is not satisfied by the grantee. Liability without fault hereunder shall be limited to (insert maximum amount commensurate with the foreseeable risks or hazards presented) for any one incident. Liability of such grantee for damages in excess (insert figure above) shall be in accord with ordinary rules of negligence. However, this condition shall not impose strict liability on the grantee for damage or injury resulting from (a) an act of war, or (b) negligence of the United States. In any case where liability without fault is imposed pursuant to this condition and the damage or injuries involved were caused by the negligence of a third party, the rules of subrogation shall apply in accordance with the law of the jurisdiction where the damage or injury occurred.

7. The United States shall not be responsible for damages or injuries which may arise from or be incident to the construction, maintenance, and use of said line, nor for damages to the property of the grantee, nor for damages to the property or injuries to the person of the grantee's officers, agents, servants, or employees, or others who may be on said premises at the grantee's invitation or any one of them. The grantee does hereby accept liability, if any, imposed by Federal and state statutes to third parties for injuries incurred in connection with the use and occupancy of the right-of-way. The grantee shall hold the United States harmless from any and all such claims.

8. The United States reserves to itself and its grantees or licensees the right to construct, use, and maintain on or adjacent to the right-of-way hereby granted, electric transmission, telephone, telegraph, water, gas, gasoline, oil and sewer lines, roads and permits for other compatible uses in such manner as not to create any unreasonable interference with the use of the right-of-way herein granted.

9. That the grantee shall furnish through said line such service as may be required from time to time for governmental purposes on said land, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates charged by the grantee for similar service.

10. In the event all or any portion of said land occupied by said line shall be needed by the United States, or in the event the existence of said line shall be considered detrimental to governmental activities, the grantee shall, from time to time, upon notice to do so, and as often as so notified, remove said line and related facilities to such other location or locations on said land as may be designated by said officer. And in the event said line shall not be removed or relocated within ninety (90) days after any aforesaid notice, the United States may cause the same to be done at the expense of the grantee.

11a. Abandonment of a right of way herein granted or noncompliance with any provisions of this easement or applicable provisions of 30 U.S.C. 185 may be grounds for suspension or termination of the right of way if ta) after due notice to the holder of the right of way, (b) a reasonable opportunity to comply with this section, and (c) an appropriate administrative proceeding

ER 405-1-12  
Change 30  
30 Sep 94

pursuant to Title 5, U.S.C., Section 554, the Secretary determines that any such ground exists that suspension or termination is justified.

b. If the Secretary of the Army determines that an immediate temporary suspension of activities within a right-of-way or permit area is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding.

c. Deliberate failure of the grantee to use the right-of-way for the purpose for which it was granted or renewed for any continuous two-year period shall constitute a rebuttable presumption of abandonment of the right-of-way: Provided, that where the failure to use the right-of-way is due to circumstances not within the holder's control, the Secretary is not required to commence proceedings to suspend or terminate the right-of-way.

12. Upon the expiration or termination of this grant, the grantee shall, without expense to the United States, and within such time as the Secretary of the Army may indicate, remove the said line from said land and restore the premises hereby authorized to be used and occupied to a condition satisfactory to the said officer. In the event the grantee shall fail, neglect, or refuse to remove the said line and so restore the premises, the United States shall have the option either to take over the said line as the property of the United States, without compensation therefor, or to remove the said line and perform the restoration work as aforesaid at the expense of the grantee, and in no event shall the grantee have any claim for damages against the United States or its officers or agents, on account of the taking over of said line or on account of its removal.

13. The conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the representatives, successors, and assigns of the grantee.

14. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned, and that the grantee shall obtain such permission as may be necessary on account of any other existing rights.

15. The pipeline and related facilities herein authorized shall be constructed, operated, and maintained as common carriers. The owners or operators of the pipeline herein authorized shall accept, convey, transport, or purchase without discrimination all oil or gas delivered to the pipeline without regard to whether such oil or gas was produced on Federal or nonfederal lands. (Delete this clause if inapplicable)

16. It is understood that the provision of Condition No. 3, above, shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the installation, operation, or maintenance of said line.

17. That the pipeline will be buried at a depth of not less than \_\_\_\_\_ feet below the surface and such installation will be in accordance with applicable Federal and state standards.

18. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until

ER 405-1-12

a professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

This easement is not subject to Title 10, U.S.C., Section 2662.

IN WITNESS WHEREOF, I have hereunto set my hand this \_\_\_\_\_  
day \_\_\_\_\_ of 19 \_\_\_\_ by authority of the Secretary of the Army.

\_\_\_\_\_

The above easement is hereby accepted this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_ by authority of the Secretary of the Army.

DEPARTMENT OF THE \_\_\_\_\_  
CONSENT TO CROSS U. S. GOVERNMENT EASEMENT  
AT  
\_\_\_\_\_

KNOW ALL MEN BY THESE PRESENTS:

That the consent of the United States is hereby granted to \_\_\_\_\_ hereinafter designated as grantee, to construct, use, maintain, control, operate and repair a \_\_\_\_\_, herein referred to as "structure", across, over and under the lands where the United States has acquired a perpetual \_\_\_\_\_ easement identified as Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_ (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ county, (State). The right-of-way for said structure for the purpose of this consent is specifically identified-as Parcel(s) \_\_\_\_\_, located as shown on Exhibit "A" attached hereto and made a part hereof and described as follows:

This consent is granted subject to the following conditions:

1. That it is understood that this consent is effective only insofar as the pxproperty rights of the United States in the land to be occupied are concerned, and that it does not relieve the grantee from the necessity of obtaining grants from the owners of the fee and/or other interests therein.
2. That the proposed construction authorized herein shall not be commenced until appropriate rights shall have been obtained by the grantee from the record owners and encumbrances of the fee title to the lands involved.
3. That the exercise of the privileges hereby consented to shall be without cost or expense to the Department of the \_\_\_\_\_, under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter referred to as "said officer," and subject to such regulations as may be prescribed by the District Commander, \_\_\_\_\_, District, from time to time, including, but not limited to, the specific conditions, requirements and specifications set forth in Exhibit "B" attached hereto and made a part hereof.
4. That the grantee shall supervise and maintain the said structure and cause it to be inspected at reasonable intervals, and shall immediately repair any damage found therein as a result of such inspection, or when requested by said officer to repair any defects. Upon completion of the installation of said structure or the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition as that in which they existed prior to the commencement of such work, to the satisfaction of said officer.
5. That any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges hereby granted shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer or in lieu of such repair or replacement, the grantee shall, if so required by the said officer and at his option, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damage to or destruction of Government property.
6. That the United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the

ER 405-1-12  
Change 30  
30 Sep 94

privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee, or the persons of grantee's officers, agents, servants, or employees or others who may be on said premises at their invitation or the invitation of one of them arising from governmental activities on or in the vicinity of the said premises, and the grantee shall hold the United States harmless from any and all such claims.

7. That this consent is effective only as to the following rights of the United States in the lands hereinabove described.

8. That the United States shall in no case be liable for any damage or injury to the construction herein authorized which may be caused by any action of the Government, under the rights obtained in its easements, either hidden or known, or that may result from future operations under taken by the Government, and no claim or right to compensation shall accrue from such damage or injury, and if further operations of the United States require the alteration or removal of the structure herein authorized, the grantee shall, upon due notice from the Chief of Engineers, Department of Army, alter or remove said structure without expense to the Government and subject to the supervision and approval of the officer having jurisdiction over the property and no claim for damages shall be made against the United States on account of such alterations or removal.

9. That construction and/or operation maintenance and use of said structure incident to the exercise of the privileges hereby granted shall be in such a manner as not to conflict with the rights of the Government, nor to interfere with the operations by the Government under such rights, nor to endanger lives and safety of the public.

10. That this consent may be terminated by the Secretary of the \_\_\_\_\_ upon reasonable notice to the grantee if the Secretary of the \_\_\_\_\_ shall determine that installation to which consent is hereby granted interferes with the use of said land or any part thereof by the United States, and this consent may be annulled and forfeited by the declaration of the Secretary of the \_\_\_\_\_ for failure to comply with any and all of the provisions and conditions of this consent, or for nonuse for a period of two years, or for abandonment.

11. That upon the relinquishment, termination, revocation, forfeiture or annulment of the consent herein granted, the grantee shall vacate the premises, remove all property of the grantee therefrom, and restore the premises to a condition satisfactory to the officers having immediate jurisdiction over the property. If the grantee shall fail or neglect to remove said property and so restore the premises, then, at the option of the Secretary of the \_\_\_\_\_, the said property shall either become the property of the United States without compensation therefor, or the Secretary of the \_\_\_\_\_ may cause it to be removed and the premises to be so restored at the expense of the grantee, and no claim for damages against the United States, or its officers or agents, shall be created by or made on account of such removal and restoration.

12. That the terms and conditions of this consent shall extend to and be binding upon the heirs, successors and assigns of the grantee.

13. That the grantee within the limits of his respective legal powers shall comply with all Federal, interstate, state and/or local governmental regulations, conditions or instructions for the protection of the environment and all other matters as they relate to real property interests granted herein.

ER 405-1-12  
Change 30  
30 Sep 94

14. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until a Professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

15. Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

16. Merger clause. Prior to the execution of this consent, the following conditions were deleted: \_\_\_\_\_; changed: \_\_\_\_\_; or added: \_\_\_\_\_.

This consent is not subject to Title 10, U.S.C., Section 2662.

In Witness Whereof, I have hereunto set my hand, by authority of the Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_.

DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS  
\_\_\_\_\_ DISTRICT

Consent No. \_\_\_\_\_  
Project: \_\_\_\_\_  
Tract No. \_\_\_\_\_

CONSENT TO EASEMENT STRUCTURES

WHEREAS, the United States has acquired a perpetual \_\_\_\_\_ easement over Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_, (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ County, \_\_\_\_\_ (State).

(DELETE THE FOLLOWING WHEREAS, IF NOT APPLICABLE)

WHEREAS, said easement grants to the United States the right of prior approval for any structure to be located within the easement area, which area is under the administrative control of the District, Corps of Engineers;

WHEREAS, the United States has been requested to give consent for ( the construction / placement / location of \_\_\_\_\_ ) on the above identified tract (s).

NOW THEREFORE, the United States hereby gives consents to \_\_\_\_\_ for (the construction / placement / location of \_\_\_\_\_) at the location shown on Exhibit "A" attached hereto;

PROVIDED HOWEVER, that this consent is subject to the following conditions:

1. All activities conducted on the premises shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.
2. The giving of this consent does not in any way subordinate the United States prior easement rights. The United States shall in no case be liable for any damage or injury to the structures herein consented to, which may be caused by any action of the United States under its easement, or that may result from future operations undertaken by the United States, and no claim or right to compensation shall accrue from such exercise of the United States' easement rights.
3. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the consented activity.
4. This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the consentee shall obtain such permission as may be required on account of any other existing rights. It is understood that this consent does not eliminate the necessity for obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state, interstate or local laws in connection with the use of the premises.

No. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_ LICENSE

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_, hereby grants to

\_\_\_\_\_  
hereinafter referred to as the grantee, a license for \_\_\_\_\_

over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

THIS LICENSE is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

b. All consideration and other payments due under the terms of this license must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall

ER 405-1-12  
Change 30  
30 Sep 94

accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All notices and correspondence to be given pursuant to this license shall be addressed, if to the grantee, to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_;

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

### 7. CONDITIONAL USE BY GRANTEE

The exercise of the privileges herein granted shall be:

- a. without cost or expense to the United States;
- b. subject to the right of the United States to improve, use or maintain the premises.
- c. subject to other outgrants of the United States on the premises.
- d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

### 8. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any

ER 405-1-12  
Change 30  
30 Sep 94

representations or warranties whatsoever and without any obligation on the part of the United States.

#### **9. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate supervision over the premises, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

#### **10. PROTECTION OF PROPERTY**

The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

#### **12. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

#### **13. NON-DISCRIMINATION**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities because of race, color, religion, sex, age, handicap or national origin in the conduct of operations on the premises. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

#### **14. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least ten (10) days notice in writing provided that no refund by the United States of any consideration previously paid shall be made and provided further, that in the event that said notice is not given at least ten (10) days prior to the rental due date, the grantee shall be required to pay the consideration for the period shown in the Condition on CONSIDERATION.

#### **15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### **16. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **17. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army

ER 405-1-12  
Change 30  
30 Sep 94

permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

THIS LICENSE is also executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY LICENCE  
FOR FISH AND WILDLIFE ACTIVITIES ON**

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

**THE SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_ hereby grants to \_\_\_\_\_ hereinafter referred to as the grantee, a license for fish and wildlife activities over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS LICENSE** is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_ and ending \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

The consideration for this license is the operation and maintenance of the premises by the grantee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this license shall be addressed, if to the grantee to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_; or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. STRUCTURES AND EQUIPMENT**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall have the right, during the term of the license, to erect such structures and to provide such equipment upon the premises to accomplish the purposes of the license and as provided for in the Annual Management Plan. Those structures and equipment shall be and remain the property of the grantee, except as otherwise provided in the condition on **RESTORATION**.

#### **7. ANNUAL MANAGEMENT PLANS**

The grantee shall administer the premises in accordance with an Annual Management Plan which shows the management and development activities to be undertaken by the grantee. No later than \_\_\_\_\_ of each year, the grantee will submit the Annual Management Plan to be mutually agreed upon between the grantee and the said officer. Such Annual Management Plan shall include but is not limited to the following:

- a. Plans for management, maintenance, and development activities to be undertaken by the grantee or jointly by the Corps of Engineers and the grantee which shall include plans for any proposed structures and improvements.
- b. The areas to be utilized for agricultural purposes.
- c. The variety and scope of crops to be planted, as well as any rotations.
- d. The type of wildlife cover to be cultivated, if any.
- e. The areas designated for various species of fish and wildlife propagation.

#### **8. FISH AND WILDLIFE ACTIVITIES**

a. The grantee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the grantee for wildlife habitat will be made available for lease by the said officer for agricultural or grazing purposes under conditions which would not be incompatible with the grantee's use of the premises.

c. The grantee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

#### **9. ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the grantee from operations conducted on the premises may be utilized by the grantee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this license and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid

ER 405-1-12  
Change 30  
30 Sep 94

to said officer. The grantee shall provide an annual statement of receipts and expenditures to the said officer. The said officer shall have the right to perform audits of the grantee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of grantee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

c. Proceeds derived from the sale of fishing and hunting leases are not

#### **10. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

#### **11. CONDITIONAL USE BY GRANTEE**

The exercise of the privileges herein granted shall be:

a. without cost or expense to the United States;

b. subject to the right of the United States to improve, use or maintain the premises.

c. subject to other outgrants of the United States on the premises.

d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

#### **12. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the United States.

#### **13. PROTECTION OF PROPERTY**

The premises shall at all times be protected and maintained in good order and condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **14. RESTORATION**

ER 405-1-12  
Change 30  
30 Sep 94

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

#### **15. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises, because of race, color, religion, sex, age, handicap or national origin. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The grantee, by acceptance of this license, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directive 5500.11 and 1020.1, and Army Regulation 600-7.

#### **16. TERMINATION**

This license may be terminated by the grantee at any time by giving the said officer at least thirty (30) days notice in writing.

#### **17. NATURAL RESOURCES**

The grantee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the approved Annual Management Plan. The grantee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the grantee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the grantee under the provisions of this license.

#### **18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or

ER 405-1-12  
Change 30  
30 Sep 94

local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**19. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**20. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be require by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LICENSE** is also executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
LICENSE FOR  
NATIONAL GUARD PURPOSES

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under the authority of Title 32, United States Code, Section 503, hereby grants to the State of \_\_\_\_\_, hereinafter referred to as the grantee, a license to use and occupy for training and support of the \_\_\_\_\_ National Guard certain land and improvements, hereinafter referred to as the premises, as shown identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof.

THIS LICENSE is granted subject to the following conditions:

**1. TERM**

This license is granted for (an indefinite term,) (a term of \_\_\_\_\_ years, beginning \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_,) but revocable at will by the Secretary.

**\*NOTE:** See chapter 8 for additional wording when licensed area is not owned in fee by the United States.

**2. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The use and occupancy of the premises shall be without cost to the regular establishment of the military departments of the Department of Defense and shall be under the general supervision of the (District Engineer) (Active Army Installation Commander) (U.S. Property and Fiscal Officer), \_\_\_\_\_, (District) (Installation) hereinafter referred to as said officer, and subject' to such rules and regulations as may be prescribed from time to time by said officer.

**3. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county, and municipal laws, ordinances, and regulations wherein the premises are located

**4. FACILITY MAINTENANCE**

The grantee shall maintain and keep the premises in good repair and condition and all costs of operation, maintenance, and restoration shall be paid for from funds available to the grantee, or from funds other than those appropriated for the regular establishment of the military departments.

**5. RIGHT TO USE**

The United States, hereinafter referred to as the Government, reserves the right to use the premises, or any part thereof, including all buildings

ER 405-1-12  
Change 30  
30 Sep 94

and improvements situated thereon, for such purposes as said officer deems necessary in the interest of national defense.

**6. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing and/or supplying any utilities or other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced and supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

**7. USE RESTRICTIONS**

The buildings and improvements included in this license shall not be used for the quartering of personnel engaged in the national guard activities except when such personnel are in the federal service or are participating in authorized training.

**8. IMPROVEMENTS AND ALTERATIONS**

Additions to or alteration or improvement of the premises shall not be made without prior written approval of the District Engineer. All such additions, alterations or improvements shall be maintained by the grantee in good repair and condition. All such work designated as permanent by said officer shall, upon completion, become property of the Government.

**9. CONDITION OF PREMISES**

a. The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the Government.

**DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this license, an inventory and condition report of all personal property and improvements of the Government included in this license shall be made by the District Engineer and the grantee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this license, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored as provided for in the condition on **RESTORATION.**

**10. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least thirty (30) days notice in writing.

**11. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove its property (except those permanent additions, alterations, and improvements which have become

ER 405-1-12  
Change 30  
30 Sep 94

property of the Government under provision of the condition on **IMPROVEMENTS AND ALTERATIONS**) and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises within such time as the said officer may designate. In either event, if the grantee fails to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the Government without compensation therefor, or said officer may cause the property to be removed at the expense of the grantee, and no claim for damages against the Government shall be created on account of such action.

## **12. USE BY OTHERS**

The grantee shall not transfer or assign this license, or any interest in the premises, however, upon concurrence of the Director, (Army) (Air force) National Guard, National Guard Bureau, the grantee may (1) permit the temporary or intermittent use of the premises by elements of the Department of Defense for joint use or individual training purposes, provided such use will not interfere with the National Guard use; or (2) issue licenses for nonprofit, community service-type activities under the same conditions as those allowed by active installation commanders by existing (Army) (Air Force) regulations.

## **13. PROTECTION OF PROPERTY**

a. The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

b. Upon termination of the grantee's requirement for the premises, the grantee shall remain responsible to protect and maintain the premises until transfer to and acceptance by another accountability officer is accomplished or in accordance with applicable laws, rules and regulations.

## **14. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**15. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this license, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee to the satisfaction of the said officer.

**16. HISTORICAL PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural, or other cultural artifacts, relics, or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until the said officer gives clearance to proceed.

**17. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises because of race, color, religion, sex, age, handicap or national origin. The grantee by acceptance of this license, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973 as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Department of Defense Directive 5500.11 (32 CFR Part 300) issued on December 28, 1964.

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_.

\_\_\_\_\_

This license is executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

PERMIT TO OTHER FEDERAL GOVERNMENT DEPARTMENT OR AGENCY

TO USE PROPERTY LOCATED ON

\_\_\_\_\_  
(project, installation)

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary hereby grants to \_\_\_\_\_, hereinafter referred to as the grantee, a permit for \_\_\_\_\_, over, access, in and upon the lands identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the premises.

THIS PERMIT is granted subject to the following conditions.

1. This permit is hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

2. The grantee shall pay rental to the Department of the \_\_\_\_\_ in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

3. All correspondence and notices to be given pursuant to this permit shall be addressed, if to the grantee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. The use and occupation of the premises shall be without cost or expense to the Department of the \_\_\_\_\_, and under the general supervision and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), or his duly authorized representative, hereinafter referred to as said officer and to such rules and regulations as may be prescribed from time to time by said officer.

5. The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the Department of the \_\_\_\_\_.

6. The grantee shall, at its own expense and without cost or expense to the Department of the \_\_\_\_\_, maintain and keep the premises-in good repair and condition.

7. Any interference with the use of or damage to property under control of the Department of the \_\_\_\_\_ incident to the exercise of the

Utilization Evaluation Questions  
Part B

B-1. The standards and definition set out in 41 CFR 101-47.801 should be used in the evaluation and are not repeated here. The following are also suggested for consideration in developing the narrative portion of the report. This is not intended to be a complete list of all possible questions and should not be used as a checklist. Some items may not be applicable while others not on the list may be essential. It is intended only as a guide to aid in the preparation of the report:

(a) Are all lands and facilities thereon being used for Congressionally authorized purposes and programs?

(b) Based on (a) above, is utilization consistent with the master plan, operational master plans, appendices, supplement or other approved documents? Are there significant deviations?

(c) What are the public use trends and how do they affect project visitation?

(d) Do services and facilities meet public use adequately? Do private facilities interfere with public use?

(e) Have land or facilities been significantly developed since the previous survey? How?

(f) Are there natural resources inventories available for this project? Is there an OMP containing resource use objectives and site specific prescriptions for the management of the resources? Is there multiple use forest and woodland management?

(g) Are adequate boundary monuments maintained? Have funding constraints prevented boundary survey or maintenance?

(h) If the land is not utilized, would any interim use be appropriate, such as Agricultural & Grazing leasing?

(i) Is there evidence of unauthorized use? Is there evidence of trends of unauthorized use or certain areas where the problem is more prevalent? Is there a lack of public awareness that could be overcome with a public affairs effort? Is legal action needed?

(j) Is there evidence of unauthorized Government use of adjoining property? Is this of a recurring nature that would necessitate acquisition of the private party or that has already resulted in a taking? Is a legal opinion of the possible taking needed?

(k) Are Government quarters furnished to employees with the proper rental arrangement and documentation? What is the status of the phase-out actions required by the Housing Management Plan?

Figure 8-A-2 (Continued)

ER 405-1-12  
Change 30  
30 Sep 94

(l) What is the status of previously reported utilization problems? Did the necessary follow-up action take place?

(m) What percent of project buildings is occupied? Has a space management survey been performed?

(n) Has all property identified as underutilized, not utilized or not put to optimum use been reported to HUD for determination of suitability for use by the homeless under the McKinney Act?

(o) Is the property over-utilized? Is the visitation excessive in relation to the current design carrying capacity? Should acquisition of additional property be considered? Is the property inadequate for reasonable near-term future development? Is plant growth deterioration beyond natural capability to regenerate? Are facilities overcrowded on days of normal (not peak) use? Are maintenance requirements above those required for routine wear?

(p) Is maintenance being deferred due to funding constraints?

(q) You should be sensitive to instances where District and Division rankings of O&M money may have caused deficiencies beyond the control of the project personnel. However, the management evaluation report is not the place for crusades. Where funding is a factor, it should be noted in a neutral manner.

REPORT OF AVAILABILITY

A. GENERAL:

1. Project: (Use official name from Chief of Engineer report)
2. Tract No(s) and Name, if any: (Segment maps, Master Plan designations)
3. Type of Outgrant:  lease  license  easement  permit
4. Proposed use:  Commercial Concession  Park and Recreation  Fish and Wildlife  Agricultural and Grazing  Road  Pipeline  Other \_\_\_\_\_ (list may be varied to name outgrants commonly issued)
5. Recommended Term of outgrant: Proposed for \_\_\_\_\_ years. Start date, if applicable: \_\_\_\_\_
6. Use requested by:  Army element  private party  adjoining grantee  State, local government  other Federal agency  Other \_\_\_\_\_
7. General property description/characteristics of the property:  
Acreage \_\_\_\_\_; Land character \_\_\_\_\_.
8. Are Government buildings and improvements included in the area:  No  Yes. If yes, give details on buildings and improvements and attach copy of floor plan, if applicable:  
  
Building Identification No. \_\_\_\_\_; Square footage outgranted/percentage of building \_\_\_\_\_; Condition of the facilities \_\_\_\_\_.
9. If building space only and land is not included in grant, explain why the improvement is not excess: \_\_\_\_\_
10. United States property interest:  fee simple title  easement  in-lease; or  other.
11. Army jurisdiction:  primary jurisdiction,  permit from a Federal Agency,  withdrawn from the public domain.
12. If land is being made available for a public road, show type of access, governmental entity, any restrictions: \_\_\_\_\_ Is jurisdiction to be relinquished?  Yes  No
13. Are Utilities available?  Yes  No. Will utilities or other support services be provided by Army on reimbursable basis?  Yes  No
14. Destruction, relocation, and replacement of Government facilities:  
  
 I Certify the proposed use will not require the destruction, relocation, or replacement of any Government facilities.  
  
 The following information is provided with regard to the destruction, relocation, or replacement of any Government facilities:  
\_\_\_\_\_  
\_\_\_\_\_
15. I certify that the grant of the proposed use will not interfere with operation of the project, or with contemplated development and other

REPORT OF AVAILABILITY

B. ENVIRONMENTAL and CULTURAL CONSIDERATION:

1. COASTAL ZONE MANAGEMENT (CZM) (if applicable):

CZM is not applicable.

CZM is applicable and the proposed use is/will be consistent with the approved state CZM Plan.

2. CLEAN WATER ACT (FEDERAL WATER POLLUTION CONTROL ACT):

This action will not involve the discharge of any pollutants into the waters of the United States or less than one million gallons of discharge per day will be made.

This action will entail the discharge of more than one million gallons of pollutants into the waters of the United States per day.

The applicant has applied for and received a NPDES Permit from the EPA/appropriate state agency. If not received, state circumstances:

The Grantee is complying with the requirements of a NPDES Permit and the Grantee has a monitoring and reporting procedure.

Subsequent requests for expansion or additional construction should be reviewed to assure the Grantee is in compliance with the five acre rule.

3. FLOODPLAIN:

This property is not located within the 100 year floodplain and does not fall under the purview of Executive Order 11988.

This property is located within the 100 year floodplain and does fall under the purview of Executive Order 11988 and (circle the appropriate):

a. The proposed occupancy or modification will not adversely impact the floodplain.

b. There is no other practicable alternative available for this intended use.

c. The proposed occupancy or modification may be allowed subject to the following restrictions being incorporated in the outgrant document:

4. WETLANDS:

This property is not located within a wetlands area and, therefore, does not fall under the purview of Executive Order 11990.

This property is located within a wetlands area and does fall under the purview of Executive Order 11990, accordingly, the following restrictions must be incorporated in the outgrant document:

(Status of 404 Permit process

30 Sep 94

5. ENDANGERED SPECIES:

This action will not jeopardize the habitat of any endangered species of fish, wildlife, or plants pursuant to the Endangered Species Act.

This action jeopardizes the habitat of endangered species of fish, wildlife, and/or plants identified on an attached map. Accordingly, the following restrictions must be incorporated in the outgrant document to protect the habitat: \_\_\_\_\_

6. FISH AND WILDLIFE COORDINATION ACT:

This action will not jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA.

This action will jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA. Impact description: \_\_\_\_\_  
RECOMMENDED ACTIONS PRIOR TO AVAILABILITY: \_\_\_\_\_

7. HISTORICAL AND CULTURAL RESOURCES:

The area has been surveyed for historical and cultural resources and there have been none identified on this property, and this action is in compliance with the National Historic Preservation Act and other relevant laws; Executive order 11593, Protection and Enhancement of the Cultural Environment; or any MOA's related thereto.

A survey has identified historical and/or cultural resources on this property. This action has been coordinated with the State Historic Preservation Officer and the Advisory Council on Historic Preservation in accordance with 36 CFR 800. The following restrictions must be incorporated into the outgrant document to protect the resource:  
\_\_\_\_\_

Native American graves or artifacts have been identified on this property. Refer to requirements of the American Indian Religious Freedom Act and Native American's Graves Protection and Repatriation Act.

Archaeological sites or resources have been identified on this property. Refer to the Antiquities Act; Archaeological and Historical Preservation Act; and Archaeological Resources Protection Act.

8. MISCELLANEOUS PROVISIONS.

The proposed outgrant activity will involve the use of pesticides, e.g. Agricultural, golf courses, restaurants. Refer to the Federal Insecticide, Fungicide, and Rodenticide Act and state pesticide regulations, as necessary.

The proposed outgrant activity will impact an area designated under the Wild and Scenic Rivers Act. Attach any site specific restrictions necessary to protect the area.

The proposed outgrant activity will include fuel burners, incinerators, gas pumps, solvent or other volatile compounds. Refer to the

ER 405-1-12  
Change 30  
30 Sep 94

Clean Air Act and state and local regulations. Give status of state and local permits.

The proposed outgrant activity will include substances covered by the Toxic Substances Control Act.

Other special purpose environmental laws, as follows:

---

9. NEPA REQUIREMENTS:

This action falls under one of the Categorical Exclusions (CX) contained in AR 200-2 or ER 200-2-2 (Procedures for Implementing NEPA). The environmental affect of the action has been considered. A Record of Environmental Consideration (REC) is attached.

The impact of this action is considered to be minimal or insignificant. An Environmental Assessment (EA) with a Finding of No Significant Impact (FONSI) is attached/is being prepared.

The impact of this action is considered to be significant. An Environmental Impact Statement (EIS), or supplement thereto, is attached/is being prepared.

10. The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Environmental Baseline Study (EBS) or Preliminary Assessment Screening (PAS):

An EBS/PAS has been conducted and no HTRW substances were identified as released, stored, or disposed on the property in the threshold quantities. Copy is attached.

released, stored, or disposed on the property in the threshold quantities. The CERCLA notice should be included in the outgrant document. Copy is attached containing the details. Choose one:

a. Remedial actions have been taken so that the property is considered safe for the proposed use.

b. Remedial actions have not been taken. Provide details and justification for outgranting in the current condition.

11. Real Property Contaminated with Ammunition, Explosives or Chemicals.

The property has been decontaminated using the most appropriate technology consistent with the proposed use of the property.

Transfers is to another Federal agencies for compatible use of surface de-contaminated real property, subject to the following limitations, restrictions and prohibitions concerning the use of the property, to ensure personnel and environmental protection: \_\_\_\_\_

Access rights are reserved to implement any monitoring plan.

Coordination with HQDA, DACS-SF and DAMO-SWS attached with the Land Disposal Site Plan (LDSP). Reference AR 385-64, "U.S. Army Explosives Safety Program."

REPORT OF AVAILABILITY

c. PRELIMINARY PROCEDURES:

1. STEWART B. MCKINNEY HOMELESS REQUIREMENTS:

McKinney Act requirements do not apply to this action.

McKinney Act requirements apply, necessary screening has been completed, and no interest was expressed.

2. INVENTORY AND CONDITION REPORTS:

No Government improvements are included in the proposed outgrant, so an inventory and condition report is not required.

Government improvements are included and an inventory and condition report is required/attached.

3. CONSIDERATION:

There is no monetary consideration required for this action.

Consideration is the greater of the administrative costs of \$ \_\_\_\_\_ or the FAIR MARKET RENTAL value for the property of \$ \_\_\_\_\_. Give source of value (i.e. appraisal, estimate).

offsets (In kind amounts) for the improvement, maintenance, protection, repair or restoration of the property leased will be provided in lieu of rent in the amount of \$ \_\_\_\_\_. Offsets to be provided are attached.

Consideration is less than fair market value and the outgrant document must contain assurances for Civil Rights Act non-discrimination and the Rehabilitation Act.

4. WAIVER OF COMPETITION:

A waiver of competition is not required.

A waiver of competition is recommended/not recommended. Provide full justification and proposed grantee, if waiver is recommended.

5. Other applicable laws, regulations, MOA'S, etc. requiring consideration for processing this action:

---

6. TECHNICAL SPECIFICATIONS: (Attach a copy here or indicate where a copy is available.) (Conservation plan for A&G leasing; Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.); Safety requirements; Master plan data, if necessary to potential outgrantee. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.)

#### INSTRUCTIONS

The Determination of Availability would be signed by the official with the delegated authority to approve the outgrant, whether the District, the Division, or SAILE.

Section A. of the ROA would usually be the starting of the outgrant process. If the outgrant is the culmination of the Master Plan process, then this section would pull information from the Master Plan and project data. If a private party has requested the outgrant or outgrant expansion, then the office which takes the request would fill in as much information as is available and submit it for further processing. This section would usually be done by the operation element.

Section B. would be completed by the appropriate environmental office or offices with expertise in the various areas. This section could be divided into more than one subpart if the district/project organization involves several offices which each need to sign a portion.

Section C. contains general preliminary information. This section would usually be done by the Real Estate element.

DETERMINATION OF AVAILABILITY  
CIVIL WORKS PROJECTS

---

1. The attached Report of Availability and its findings has been reviewed.

2. I have determined that the intended use of this property as set out in the attached Report of Availability is in the public interest or will further project purposes is consistent with delegated authorities and Government regulations.

3. I have determined that the proposed use is not a potential embarrassment to the Army.

4. I have determined that the property is not excess to the overall project purpose and has not been identified as not utilized in a Real Property Management Report. (PROVIDE JUSTIFICATION WHERE NECESSARY).

5. I have determined (for 10 USC 2667 leases) that the rental consideration is not less than the fair market value of the lease interest, taking into account the benefit to the United States, to the public and to the Department of Army and that the amount stated in the Report of Availability is appropriate and includes cash or in kind amounts for the improvement, maintenance, protection, repair or restoration of the property leased.

(For other outgrants) I have determined that the rental consideration is appropriate for the use proposed.

6. The proposed use as \_\_\_\_\_ is approved subject to (state any modifications to the restrictions stated in the Report of Availability which must be placed in the outgrant document).

7. Coordination:  
(list)

8. It has been determined that the property is available for the proposed use with the restrictions as stated in the Report of Availability (and as added above) and may be outgranted in accordance with applicable laws, rules and regulations.

US ARMY CORPS OF ENGINEERS

NOTICE OF AVAILABILITY FOR LEASING  
(RECREATIONAL)/(INDUSTRIAL) SITES  
(DISTRICT/ADDRESS)

SITE SELECTED: (Site name, project/installation, city, county, state)

CONSISTING OF (Acreage, type of real property; nature of Government improvements, if any; zoning, if applicable)

FOR (Park and Recreation/ Commercial Concession/ Industrial Leasing purpose)

The site will be leased on a competitive basis to the individual or corporation presenting the best plan for development.

Applications will be evaluated by: (1) quality of proposed development, (2) compatibility with overall project/installation mission; (3) expertise of potential Lessee, (4) return to the United States, and (5) return to the potential Lessee.

Potential Lessees may request Applications for Leasing describing the sites and giving details of the lease requirements through (Date). To obtain a copy, send a check for \$ \_\_\_\_\_ to:  
(District/address)

Checks should be made payable to the F&A Officer, ( ) District, Corps of Engineers.

Applications will be submitted in sealed envelopes which will be opened and evaluated on:

APPLICATION INFORMATION PACKAGE  
FOR  
(RECREATION DEVELOPMENT) / (INDUSTRIAL DEVELOPMENT)  
AT  
(SITE/SITES)

The information below must appear in the lower left corner of Lease Application envelope.

Sealed Application for Lease of Real Property

To be opened:

Time: \_\_\_\_\_

Date: \_\_\_\_\_

Notice No. \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

The application package should include:

1. A description of the site/sites. Use project brochures and other available information, if possible. Include technical specifications.
2. Purpose of leasing (Marina, resort, industrial, etc.)
3. The minimum development required; types of development not allowed, i.e. residential, timeshare, condominiums
4. The maximum development allowed, if applicable.
5. Note restrictions on storage of solid waste and storage of toxic or hazardous materials.
6. Description of the government's ownership.
7. Copy of the lease with known information completed
8. Rent provisions.
9. If the considerations is less than fair market value, then state that this is considered a type of federal financial assistance and a Civil Rights assurance is required. Otherwise, point out the non-discrimination condition in the lease.
10. Arrangements for inspection of the site, POC, etc.
11. Schedule, if any, between Notice and execution of lease
12. Selection criteria
13. Submission Instructions

ER 405-1-12  
Change 30  
30 Sep 94

I. SUBMISSION INSTRUCTIONS

A. Sealed, written Applications should be submitted: (District/address) Give number of copies and any special requirements, i.e. 3-ring binders, drawing no larger than 11x14.

B. Applications will not be accepted after (time) and (date). Modifications of applications may be made in sealed envelopes, as for original application, up to that time.

C. REJECTION of Application. The right is reserved, as the interests of the Government may require, to reject at any time any and all applications, to waive any informality in applications received, and to accept or reject any items of any applications unless such application is qualified by specific limitation.

D. DEFAULT. In the event that the successful applicant fails to enter into a lease within ten (10) days after receipt of Government notification that his application has been accepted and receipt of a draft lease for execution, or in the event that the successful applicant fails to otherwise comply with the terms of this Notice, the Government may declare the applicant in default in writing giving the applicant 10 days to respond or correct the default. The Government may then select the next highest rated applicant.

E. ADDITIONAL INFORMATION. Any additional information may be obtained from \_\_\_\_\_ (fill in District POC).

F. AWARD OF LEASE. Leases will be granted to the applicant with the best application, who is responsive to this Notice, provided that the applicant is responsible, the application is reasonable, and it is in the interest of the Government to issue the lease.

G. DEPOSIT. Applicant will submit a (non)refundable application fee/deposit of \$ \_\_\_\_\_. Amount will apply to initial rental for successful bidder.

II. APPLICATION INFORMATION: The following information must be provided to assist the Government in selecting the successful lease applicant:

A. General Information: Provide name, address, and telephone number of the applicant and, if applicable, the name, address, and telephone number of a representative authorized to act on behalf of the applicant during the course of the project.

B. Experience and Background: (Not required for federal, state or local governmental entities)

1. List any/all previous business endeavors with a description of the business operations and status.

2. Provide a description of any management qualifications and experience.

3. Provide third party personal and business references.

4. If applicant is a corporation it must provide:

a. Articles of Incorporation and by-laws.

b. Names, addresses, dates of birth, and Social Security numbers

of officers and participating principals and all addresses they have used for the last ten (10) years.

c. Corporate resolution authorizing the proposed transaction.

d. Summary of Corporate Activity.

5. If applicant is a partnership it must provide:

a. The partnership agreement.

b. Names, addresses, dates of birth, and Social Security numbers of the partners and all addresses they have used for the last ten (10) years.

6. If applicant is a sole proprietor he/she must provide Social Security number, date of birth, current address, and all addresses used for the last ten (10) years.

c. Financial Capability (Note: All financial data will be held in confidence).

1. If applicant is a corporation or limited partnership it must provide a current financial statement prepared by an independent Certified Public Accountant or by an independent licensed public accountant. It must also include a personal financial statement of the key owners/principals.

2. If applicant is an individual or partnership he/she/they must provide a complete and current personal financial statement.

3. Except for governmental agencies, provide the names, addresses, and telephone numbers of at least two commercial or institutional credit references from which the applicant has previously obtained financing. Attach a letter authorizing each credit reference to respond to inquiries from the Government.

4. Provide a preliminary budget, projected cash flow, estimated operating costs, and detailed plans of financing including identity of proposed lenders. Identify all interim and permanent sources of funds and include copies of loan documents used to implement the assignment.

D. Plan of Operation and Development.

1. Provide a five-year plan for operation and development of the leased premises. The plan must show goals and objectives for each year showing the estimated cost of any development.

2. Identify key positions and their duties and responsibilities as they relate to the business.

3. Depending on the scope of development and individual circumstances of the applicants, a performance bond, letter of credit, or performance deposit may be required to defray Government expenses of going through the lease selection process should applicant default.

4. If the property is subject to Coastal Zone Management, provide a consistency certification.

5. Other information may be requested as required by the District Engineer or his authorized representative.

ER 405-1-12  
Change 30  
30 Sep 94

III. APPLICATION CONDITIONS.

A. It is the responsibility of the applicant to make sure that all lease provisions are understood and the condition of the premises proposed for lease are known. Prior to selection of the successful applicant, the Corps will conduct a pre-lease conference with the applicants. At this conference the lease will be reviewed, Corps policies will be discussed, and, at the conclusion, the applicants will be required to sign an acknowledgement attesting to the conference and the information provided therein.

B. By submittal of an application, the applicant agrees to provide non-discrimination and Civil Rights assurances, if applicable.

C. The information provided by the applicant may be used by the Corps to conduct a comprehensive background and credit check.

D. All questions may be directed to the Corps' \_\_\_\_\_ District Real Estate Division at \_\_\_\_\_, telephone number \_\_\_\_\_.

IV. GENERAL SUBMITTAL INFORMATION

A. SELECTION CRITERIA: The following will be considered to assist the Government in selecting the successful lease applicant:

1. Diversity of Recreation Opportunities/Operation Proposed
  - a. Proposed operation and development
  - b. Design
  - c. Quality and nature of development
  - d. Consistency with the lake setting/mobilization or installation mission
  - e. Proposed construction sequencing/phasing
1. Experience and background
  - a. Business experience and training
  - b. Comparable experience
  - c. Current or previous work with Federal Government
  - d. Business and personal references
2. Financial capability
  - a. Bank references
  - b. Financial Statement
  - c. Financial Plan for first three years
3. Credit and Criminal Background Check

V. TECHNICAL SPECIFICATIONS

Attach a copy here or indicate where a copy is available for inspection.

- Conservation plan for A&G leasing
- Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.)
- Note wetland or floodplain areas, if any, and any restrictions.
- List any environmental, cultural or historical restrictions, if any. If environmental reports are too bulky to provide with the application package, state where they may be inspected. The cost of providing copies to applicant may be calculated as part of the cost to receive application package or as an extra costs.
- Industrial lease technical guidance (e.g., environmental data, safety requirements, etc.)
- If there is residual contamination from ammunition, explosives, or chemicals, detail extent and include any restrictions and prohibitions concerning use.
- Master plan data, if necessary to applicant. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.
- Topographic site maps
- Etc.

DEPARTMENT OF THE ARMY  
SUBMITTED BY OFFICE, CHIEF OF ENGINEERS  
REAL ESTATE  
DISPOSAL REPORT NO. \_\_\_\_\_

Submitted pursuant to Title 10, United State Code, Section 2662.

Name of Installation/Agency: (Use the official Blue Book inventory name, not common variations, with location of the proposed space by city and state);

Using Service: (MACOM, e.g. U.S. Forces Command; DOD agency, e.g. Defense Contract Audit Agency);

Present Use: (e.g. administrative, storage, housing, office, special purpose);

Interest: (fee, easement, etc.)

Area: (Space in acres, square feet, etc.);

Original Cost: (give land:, improvements: , total:);

Acquisition Date: (give land and improvements separate, round to nearest decade if more than one year);

Proposed Action: (outgrant, disposal, outgrant renewal);

Authority: cite the authority for the action, e.g. Title 10, United States Code, Section 2667; Federal Property and Administrative Services Act of 1949, as amended;

(a) three or four numbered paragraphs: [It has been reasonably said that a T-10 report should be clear and convincing to the man-on-the-street. Remember, the report is reviewed by several people, who will have only your submittal to review the action(s) by.]

1. The Department of the Army proposes to lease/dispose (# of acres/square feet) of Government owned real property/(type) space at (installation) in (city, state).

2. Brief narrative of the installation/unit, giving MACOM/Agency, its mission, and the number of personnel (actual and authorized).

3. Describe the present situation (e.g. brief description by categories of improvements and current total costs of construction, if applicable, interest owned, with separate breakdown of troop and family housing data; summary of any related outleaping history and current total annual rental received;) Explain why the action is necessary.

4. Describe: (a) property which is available for leasing with brief reason therefor; (b) specific property, of only a portion of an installation is involved, including acreages or square feet, cost of land and date of acquisition, description and cost of improvements, and description of other outgrants; (c) any property to be retained in 4.(b) detailed and including

ER 405-1-12  
Change 30  
30 Sep 94

family and troop housing data; (d) other information or circumstances peculiar or essential to the proposed action such as production capacity of Army Ammunition Plants; and (e) estimated savings for operations and maintenance or care and maintenance that would result from leasing.

5. (Brief concluding statement of proposal including information on advertising, period of lease, termination privileges, consideration, and other significant provisions.)

Note: See recent guidance from HQUSACE (CERE-L) on acquisition reports for further comments.

Utilization Evaluation Questions  
Part B

B-1. The standards and definition set out in 41 CFR 101-47.801 should be used in the evaluation and are not repeated here. The following are also suggested for consideration in developing the narrative portion of the report. This is not intended to be a complete list of all possible questions and should not be used as a checklist. Some items may not be applicable while others not on the list may be essential. It is intended only as a guide to aid in the preparation of the report:

(a) Are all lands and facilities thereon being used for Congressionally authorized purposes and programs?

(b) Based on (a) above, is utilization consistent with the master plan, operational master plans, appendices, supplement or other approved documents? Are there significant deviations?

(c) What are the public use trends and how do they affect project visitation?

(d) Do services and facilities meet public use adequately? Do private facilities interfere with public use?

(e) Have land or facilities been significantly developed since the previous survey? How?

(f) Are there natural resources inventories available for this project? Is there an OMP containing resource use objectives and site specific prescriptions for the management of the resources? Is there multiple use forest and woodland management?

(g) Are adequate boundary monuments maintained? Have funding constraints prevented boundary survey or maintenance?

(h) If the land is not utilized, would any interim use be appropriate, such as Agricultural & Grazing leasing?

(i) Is there evidence of unauthorized use? Is there evidence of trends of unauthorized use or certain areas where the problem is more prevalent? Is there a lack of public awareness that could be overcome with a public affairs effort? Is legal action needed?

(j) Is there evidence of unauthorized Government use of adjoining property? Is this of a recurring nature that would necessitate acquisition of the private party or that has already resulted in a taking? Is a legal opinion of the possible taking needed?

(k) Are Government quarters furnished to employees with the proper rental arrangement and documentation? What is the status of the phase-out actions required by the Housing Management Plan?

Figure 8-A-2 (Continued)

ER 405-1-12  
Change 30  
30 Sep 94

(l) What is the status of previously reported utilization problems? Did the necessary follow-up action take place?

(m) What percent of project buildings is occupied? Has a space management survey been performed?

(n) Has all property identified as underutilized, not utilized or not put to optimum use been reported to HUD for determination of suitability for use by the homeless under the McKinney Act?

(o) Is the property over-utilized? Is the visitation excessive in relation to the current design carrying capacity? Should acquisition of additional property be considered? Is the property inadequate for reasonable near-term future development? Is plant growth deterioration beyond natural capability to regenerate? Are facilities overcrowded on days of normal (not peak) use? Are maintenance requirements above those required for routine wear?

(p) Is maintenance being deferred due to funding constraints?

(q) You should be sensitive to instances where District and Division rankings of O&M money may have caused deficiencies beyond the control of the project personnel. However, the management evaluation report is not the place for crusades. Where funding is a factor, it should be noted in a neutral manner.

REPORT OF AVAILABILITY

A. GENERAL:

1. Project: (Use official name from Chief of Engineer report)
2. Tract No(s) and Name, if any: (Segment maps, Master Plan designations)
3. Type of Outgrant:  lease  license  easement  permit
4. Proposed use:  Commercial Concession  Park and Recreation  Fish and Wildlife  Agricultural and Grazing  Road  Pipeline  Other \_\_\_\_\_ (list may be varied to name outgrants commonly issued)
5. Recommended Term of outgrant: Proposed for \_\_\_\_\_ years. Start date, if applicable: \_\_\_\_\_
6. Use requested by:  Army element  private party  adjoining grantee  State, local government  other Federal agency  Other \_\_\_\_\_
7. General property description/characteristics of the property:  
Acreage \_\_\_\_\_; Land character \_\_\_\_\_.
8. Are Government buildings and improvements included in the area:  No  Yes. If yes, give details on buildings and improvements and attach copy of floor plan, if applicable:  
  
Building Identification No. \_\_\_\_\_; Square footage outgranted/percentage of building \_\_\_\_\_; Condition of the facilities \_\_\_\_\_.
9. If building space only and land is not included in grant, explain why the improvement is not excess: \_\_\_\_\_
10. United States property interest:  fee simple title  easement  in-lease; or  other.
11. Army jurisdiction:  primary jurisdiction,  permit from a Federal Agency,  withdrawn from the public domain.
12. If land is being made available for a public road, show type of access, governmental entity, any restrictions: \_\_\_\_\_ Is jurisdiction to be relinquished?  Yes  No
13. Are Utilities available?  Yes  No. Will utilities or other support services be provided by Army on reimbursable basis?  Yes  No
14. Destruction, relocation, and replacement of Government facilities:  
  
 I Certify the proposed use will not require the destruction, relocation, or replacement of any Government facilities.  
  
 The following information is provided with regard to the destruction, relocation, or replacement of any Government facilities:  
\_\_\_\_\_

REPORT OF AVAILABILITY

B. ENVIRONMENTAL and CULTURAL CONSIDERATION:

1. COASTAL ZONE MANAGEMENT (CZM) (if applicable):

CZM is not applicable.

CZM is applicable and the proposed use is/will be consistent with the approved state CZM Plan.

2. CLEAN WATER ACT (FEDERAL WATER POLLUTION CONTROL ACT):

This action will not involve the discharge of any pollutants into the waters of the United States or less than one million gallons of discharge per day will be made.

This action will entail the discharge of more than one million gallons of pollutants into the waters of the United States per day.

The applicant has applied for and received a NPDES Permit from the EPA/appropriate state agency. If not received, state circumstances:

The Grantee is complying with the requirements of a NPDES Permit and the Grantee has a monitoring and reporting procedure.

Subsequent requests for expansion or additional construction should be reviewed to assure the Grantee is in compliance with the five acre rule.

3. FLOODPLAIN:

This property is not located within the 100 year floodplain and does not fall under the purview of Executive Order 11988.

This property is located within the 100 year floodplain and does fall under the purview of Executive Order 11988 and (circle the appropriate):

a. The proposed occupancy or modification will not adversely impact the floodplain.

b. There is no other practicable alternative available for this intended use.

c. The proposed occupancy or modification may be allowed subject to the following restrictions being incorporated in the outgrant document:

4. WETLANDS:

This property is not located within a wetlands area and, therefore, does not fall under the purview of Executive Order 11990.

This property is located within a wetlands area and does fall under the purview of Executive Order 11990, accordingly, the following restrictions must be incorporated in the outgrant document:

(Status of 404 Permit process

ER 405-1-12  
Change 30  
30 Sep 94

5. ENDANGERED SPECIES:

This action will not jeopardize the habitat of any endangered species of fish, wildlife, or plants pursuant to the Endangered Species Act.

This action jeopardizes the habitat of endangered species of fish, wildlife, and/or plants identified on an attached map. Accordingly, the following restrictions must be incorporated in the outgrant document to protect the habitat: \_\_\_\_\_

6. FISH AND WILDLIFE COORDINATION ACT:

This action will not jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA.

This action will jeopardize fish and wildlife species or habitat integral to Congressionally authorized mitigation or General Plans, or Army agreed to recommendations in Fish and Wildlife reports prepared under the provisions of the FWCA. Impact description: \_\_\_\_\_  
RECOMMENDED ACTIONS PRIOR TO AVAILABILITY: \_\_\_\_\_

7. HISTORICAL AND CULTURAL RESOURCES:

The area has been surveyed for historical and cultural resources and there have been none identified on this property, and this action is in compliance with the National Historic Preservation Act and other relevant laws; Executive order 11593, Protection and Enhancement of the Cultural Environment; or any MOA's related thereto.

A survey has identified historical and/or cultural resources on this property. This action has been coordinated with the State Historic Preservation Officer and the Advisory Council on Historic Preservation in accordance with 36 CFR 800. The following restrictions must be incorporated into the outgrant document to protect the resource: \_\_\_\_\_

Native American graves or artifacts have been identified on this property. Refer to requirements of the American Indian Religious Freedom Act and Native American's Graves Protection and Repatriation Act.

Archaeological sites or resources have been identified on this property. Refer to the Antiquities Act; Archaeological and Historical Preservation Act; and Archaeological Resources Protection Act.

8. MISCELLANEOUS PROVISIONS.

The proposed outgrant activity will involve the use of pesticides, e.g. Agricultural, golf courses, restaurants. Refer to the Federal Insecticide, Fungicide, and Rodenticide Act and state pesticide regulations, as necessary.

The proposed outgrant activity will impact an area designated under the Wild and Scenic Rivers Act. Attach any site specific restrictions necessary to protect the area.

The proposed outgrant activity will include fuel burners, incinerators, gas pumps, solvent or other volatile compounds. Refer to the

ER 405-1-12  
Change 30  
30 Sep 94

Clean Air Act and state and local regulations. Give status of state and local permits.

The proposed outgrant activity will include substances covered by the Toxic Substances Control Act.

Other special purpose environmental laws, as follows:

---

9. NEPA REQUIREMENTS:

This action falls under one of the Categorical Exclusions (CX) contained in AR 200-2 or ER 200-2-2 (Procedures for Implementing NEPA). The environmental affect of the action has been considered. A Record of Environmental Consideration (REC) is attached.

The impact of this action is considered to be minimal or insignificant. An Environmental Assessment (EA) with a Finding of No Significant Impact (FONSI) is attached/is being prepared.

The impact of this action is considered to be significant. An Environmental Impact Statement (EIS), or supplement thereto, is attached/is being prepared.

10. The Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) and the Environmental Baseline Study (EBS) or Preliminary Assessment Screening (PAS):

An EBS/PAS has been conducted and no HTRW substances were identified as released, stored, or disposed on the property in the threshold quantities. Copy is attached.

released, stored, or disposed on the property in the threshold quantities. The CERCLA notice should be included in the outgrant document. Copy is attached containing the details. Choose one:

a. Remedial actions have been taken so that the property is considered safe for the proposed use.

b. Remedial actions have not been taken. Provide details and justification for outgranting in the current condition.

11. Real Property Contaminated with Ammunition, Explosives or Chemicals.

The property has been decontaminated using the most appropriate technology consistent with the proposed use of the property.

Transfers is to another Federal agencies for compatible use of surface de-contaminated real property, subject to the following limitations, restrictions and prohibitions concerning the use of the property, to ensure personnel and environmental protection: \_\_\_\_\_

Access rights are reserved to implement any monitoring plan.

Coordination with HQDA, DACS-SF and DAMO-SWS attached with the Land Disposal Site Plan (LDSP). Reference AR 385-64, "U.S. Army Explosives Safety Program."

REPORT OF AVAILABILITY

c. PRELIMINARY PROCEDURES:

1. STEWART B. MCKINNEY HOMELESS REQUIREMENTS:

McKinney Act requirements do not apply to this action.

McKinney Act requirements apply, necessary screening has been completed, and no interest was expressed.

2. INVENTORY AND CONDITION REPORTS:

No Government improvements are included in the proposed outgrant, so an inventory and condition report is not required.

Government improvements are included and an inventory and condition report is required/attached.

3. CONSIDERATION:

There is no monetary consideration required for this action.

Consideration is the greater of the administrative costs of \$ \_\_\_\_\_ or the FAIR MARKET RENTAL value for the property of \$ \_\_\_\_\_. Give source of value (i.e. appraisal, estimate).

offsets (In kind amounts) for the improvement, maintenance, protection, repair or restoration of the property leased will be provided in lieu of rent in the amount of \$ \_\_\_\_\_. Offsets to be provided are attached.

Consideration is less than fair market value and the outgrant document must contain assurances for Civil Rights Act non-discrimination and the Rehabilitation Act.

4. WAIVER OF COMPETITION:

A waiver of competition is not required.

A waiver of competition is recommended/not recommended. Provide full justification and proposed grantee, if waiver is recommended.

5. Other applicable laws, regulations, MOA'S, etc. requiring consideration for processing this action:

---

6. TECHNICAL SPECIFICATIONS: (Attach a copy here or indicate where a copy is available.) (Conservation plan for A&G leasing; Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.); Safety requirements; Master plan data, if necessary to potential outgrantee. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.)

7. Additional information that will assist in processing this application/action: \_\_\_\_\_

#### INSTRUCTIONS

The Determination of Availability would be signed by the official with the delegated authority to approve the outgrant, whether the District, the Division, or SAILE.

Section A. of the ROA would usually be the starting of the outgrant process. If the outgrant is the culmination of the Master Plan process, then this section would pull information from the Master Plan and project data. If a private party has requested the outgrant or outgrant expansion, then the office which takes the request would fill in as much information as is available and submit it for further processing. This section would usually be done by the operation element.

Section B. would be completed by the appropriate environmental office or offices with expertise in the various areas. This section could be divided into more than one subpart if the district/project organization involves several offices which each need to sign a portion.

Section C. contains general preliminary information. This section would usually be done by the Real Estate element.

DETERMINATION OF AVAILABILITY  
CIVIL WORKS PROJECTS

---

1. The attached Report of Availability and its findings has been reviewed.

2. I have determined that the intended use of this property as set out in the attached Report of Availability is in the public interest or will further project purposes is consistent with delegated authorities and Government regulations.

3. I have determined that the proposed use is not a potential embarrassment to the Army.

4. I have determined that the property is not excess to the overall project purpose and has not been identified as not utilized in a Real Property Management Report. (PROVIDE JUSTIFICATION WHERE NECESSARY).

5. I have determined (for 10 USC 2667 leases) that the rental consideration is not less than the fair market value of the lease interest, taking into account the benefit to the United States, to the public and to the Department of Army and that the amount stated in the Report of Availability is appropriate and includes cash or in kind amounts for the improvement, maintenance, protection, repair or restoration of the property leased.

(For other outgrants) I have determined that the rental consideration is appropriate for the use proposed.

6. The proposed use as \_\_\_\_\_ is approved subject to (state any modifications to the restrictions stated in the Report of Availability which must be placed in the outgrant document).

7. Coordination:  
(list)

8. It has been determined that the property is available for the proposed use with the restrictions as stated in the Report of Availability (and as added above) and may be outgranted in accordance with applicable laws, rules and regulations.

US ARMY CORPS OF ENGINEERS

NOTICE OF AVAILABILITY FOR LEASING  
(RECREATIONAL)/(INDUSTRIAL) SITES  
(DISTRICT/ADDRESS)

SITE SELECTED: (Site name, project/installation, city, county, state)

CONSISTING OF (Acreage, type of real property; nature of Government  
improvements, if any; zoning, if applicable)

FOR (Park and Recreation/ Commercial Concession/ Industrial Leasing purpose)

The site will be leased on a competitive basis to the individual or  
corporation presenting the best plan for development.

Applications will be evaluated by: (1) quality of proposed development, (2)  
compatibility with overall project/installation mission; (3) expertise of  
potential Lessee, (4) return to the United States, and (5) return to the  
potential Lessee.

Potential Lessees may request Applications for Leasing describing the sites  
and giving details of the lease requirements through (Date). To obtain a  
copy, send a check for \$ \_\_\_\_\_ to:  
(District/address)

Checks should be made payable to the F&A Officer, ( ) District, Corps of  
Engineers.

Applications will be submitted in sealed envelopes which will be opened and  
evaluated on:

APPLICATION INFORMATION PACKAGE  
FOR  
(RECREATION DEVELOPMENT) / (INDUSTRIAL DEVELOPMENT)  
AT  
(SITE/SITES)

The information below must appear in the lower left corner of Lease Application envelope.

Sealed Application for Lease of Real Property

To be opened:

Time: \_\_\_\_\_

Date: \_\_\_\_\_

Notice No. \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

The application package should include:

1. A description of the site/sites. Use project brochures and other available information, if possible. Include technical specifications.
2. Purpose of leasing (Marina, resort, industrial, etc.)
3. The minimum development required; types of development not allowed, i.e. residential, timeshare, condominiums
4. The maximum development allowed, if applicable.
5. Note restrictions on storage of solid waste and storage of toxic or hazardous materials.
6. Description of the government's ownership.
7. Copy of the lease with known information completed
8. Rent provisions.
9. If the considerations is less than fair market value, then state that this is considered a type of federal financial assistance and a Civil Rights assurance is required. Otherwise, point out the non-discrimination condition in the lease.
10. Arrangements for inspection of the site, POC, etc.
11. Schedule, if any, between Notice and execution of lease
12. Selection criteria
13. Submission Instructions

ER 405-1-12

I. SUBMISSION INSTRUCTIONS

A. Sealed, written Applications should be submitted: (District/address) Give number of copies and any special requirements, i.e. 3-ring binders, drawing no larger than 11x14.

B. Applications will not be accepted after (time) and (date). Modifications of applications may be made in sealed envelopes, as for original application, up to that time.

C. REJECTION of Application. The right is reserved, as the interests of the Government may require, to reject at any time any and all applications, to waive any informality in applications received, and to accept or reject any items of any applications unless such application is qualified by specific limitation.

D. DEFAULT. In the event that the successful applicant fails to enter into a lease within ten (10) days after receipt of Government notification that his application has been accepted and receipt of a draft lease for execution, or in the event that the successful applicant fails to otherwise comply with the terms of this Notice, the Government may declare the applicant in default in writing giving the applicant 10 days to respond or correct the default. The Government may then select the next highest rated applicant.

E. ADDITIONAL INFORMATION. Any additional information may be obtained from \_\_\_\_\_ (fill in District POC).

F. AWARD OF LEASE. Leases will be granted to the applicant with the best application, who is responsive to this Notice, provided that the applicant is responsible, the application is reasonable, and it is in the interest of the Government to issue the lease.

G. DEPOSIT. Applicant will submit a (non)refundable application fee/deposit of \$ \_\_\_\_\_. Amount will apply to initial rental for successful bidder.

II. APPLICATION INFORMATION: The following information must be provided to assist the Government in selecting the successful lease applicant:

A. General Information: Provide name, address, and telephone number of the applicant and, if applicable, the name, address, and telephone number of a representative authorized to act on behalf of the applicant during the course of the project.

B. Experience and Background: (Not required for federal, state or local governmental entities)

1. List any/all previous business endeavors with a description of the business operations and status.

2. Provide a description of any management qualifications and experience.

3. Provide third party personal and business references.

4. If applicant is a corporation it must provide:

a. Articles of Incorporation and by-laws.

b. Names, addresses, dates of birth, and Social Security numbers

of officers and participating principals and all addresses they have used for the last ten (10) years.

- c. Corporate resolution authorizing the proposed transaction.
- d. Summary of Corporate Activity.

5. If applicant is a partnership it must provide:

- a. The partnership agreement.
- b. Names, addresses, dates of birth, and Social Security numbers of the partners and all addresses they have used for the last ten (10) years.

6. If applicant is a sole proprietor he/she must provide Social Security number, date of birth, current address, and all addresses used for the last ten (10) years.

c. Financial Capability (Note: All financial data will be held in confidence).

1. If applicant is a corporation or limited partnership it must provide a current financial statement prepared by an independent Certified Public Accountant or by an independent licensed public accountant. It must also include a personal financial statement of the key owners/principals.

2. If applicant is an individual or partnership he/she/they must provide a complete and current personal financial statement.

3. Except for governmental agencies, provide the names, addresses, and telephone numbers of at least two commercial or institutional credit references from which the applicant has previously obtained financing. Attach a letter authorizing each credit reference to respond to inquiries from the Government.

4. Provide a preliminary budget, projected cash flow, estimated operating costs, and detailed plans of financing including identity of proposed lenders. Identify all interim and permanent sources of funds and include copies of loan documents used to implement the assignment.

D. Plan of Operation and Development.

1. Provide a five-year plan for operation and development of the leased premises. The plan must show goals and objectives for each year showing the estimated cost of any development.

2. Identify key positions and their duties and responsibilities as they relate to the business.

3. Depending on the scope of development and individual circumstances of the applicants, a performance bond, letter of credit, or performance deposit may be required to defray Government expenses of going through the lease selection process should applicant default.

4. If the property is subject to Coastal Zone Management, provide a consistency certification.

5. Other information may be requested as required by the District Engineer or his authorized representative.

ER 405-1-12  
Change 30  
30 Sep 94

III. APPLICATION CONDITIONS.

A. It is the responsibility of the applicant to make sure that all lease provisions are understood and the condition of the premises proposed for lease are known. Prior to selection of the successful applicant, the Corps will conduct a pre-lease conference with the applicants. At this conference the lease will be reviewed, Corps policies will be discussed, and, at the conclusion, the applicants will be required to sign an acknowledgement attesting to the conference and the information provided therein.

B. By submittal of an application, the applicant agrees to provide non-discrimination and Civil Rights assurances, if applicable.

C. The information provided by the applicant may be used by the Corps to conduct a comprehensive background and credit check.

D. All questions may be directed to the Corps' \_\_\_\_\_ District Real Estate Division at \_\_\_\_\_, telephone number \_\_\_\_\_.

IV. GENERAL SUBMITTAL INFORMATION

A. SELECTION CRITERIA: The following will be considered to assist the Government in selecting the successful lease applicant:

1. Diversity of Recreation Opportunities/Operation Proposed
  - a. Proposed operation and development
  - b. Design
  - c. Quality and nature of development
  - d. Consistency with the lake setting/mobilization or installation mission
  - e. Proposed construction sequencing/phasing
1. Experience and background
  - a. Business experience and training
  - b. Comparable experience
  - c. Current or previous work with Federal Government
  - d. Business and personal references
2. Financial capability
  - a. Bank references
  - b. Financial Statement
  - c. Financial Plan for first three years
3. Credit and Criminal Background Check

V. TECHNICAL SPECIFICATIONS

Attach a copy here or indicate where a copy is available for inspection.

- Conservation plan for A&G leasing
- Project technical information (e.g. flood control, hydroelectric, navigation; any water level fluctuations; environmental data, etc.)
- Note wetland or floodplain areas, if any, and any restrictions.
- List any environmental, cultural or historical restrictions, if any. If environmental reports are too bulky to provide with the application package, state where they may be inspected. The cost of providing copies to applicant may be calculated as part of the cost to receive application package or as an extra costs.
- Industrial lease technical guidance (e.g., environmental data, safety requirements, etc.)
- If there is residual contamination from ammunition, explosives, or chemicals, detail extent and include any restrictions and prohibitions concerning use.
- Master plan data, if necessary to applicant. Where additional areas for similar development are shown in the Master Plan, all interested parties should be advised of the Government's tentative plans for these sites.
- Topographic site maps
- Etc.

DEPARTMENT OF THE ARMY  
 SUBMITTED BY OFFICE, CHIEF OF ENGINEERS  
 REAL ESTATE  
 DISPOSAL REPORT NO. \_\_\_\_\_

Submitted pursuant to Title 10, United State Code, Section 2662.

- Name of Installation/Agency: (Use the official Blue Book inventory name, not common variations, with location of the proposed space by city and state);
- Using Service: (MACOM, e.g. U.S. Forces Command; DOD agency, e.g. Defense Contract Audit Agency);
- Present Use: (e.g. administrative, storage, housing, office, special purpose);
- Interest: (fee, easement, etc.)
- Area: (Space in acres, square feet, etc.);
- Original Cost: (give land:, improvements: , total:);
- Acquisition Date: (give land and improvements separate, round to nearest decade if more than one year);
- Proposed Action: (outgrant, disposal, outgrant renewal);
- Authority: cite the authority for the action, e.g. Title 10, United States Code, Section 2667; Federal Property and Administrative Services Act of 1949, as amended;

(a) three or four numbered paragraphs: [It has been reasonably said that a T-10 report should be clear and convincing to the man-on-the-street. Remember, the report is reviewed by several people, who will have only your submittal to review the action(s) by.]

1. The Department of the Army proposes to lease/dispose (# of acres/square feet) of Government owned real property/(type) space at (installation) in (city, state).
2. Brief narrative of the installation/unit, giving MACOM/Agency, its mission, and the number of personnel (actual and authorized).
3. Describe the present situation (e.g. brief description by categories of improvements and current total costs of construction, if applicable, interest owned, with separate breakdown of troop and family housing data; summary of any related outleaping history and current total annual rental received;) Explain why the action is necessary.
4. Describe: (a) property which is available for leasing with brief reason therefor; (b) specific property, of only a portion of an installation is involved, including acreages or square feet, cost of land and date of acquisition, description and cost of improvements, and description of other outgrants; (c) any property to be retained in 4.(b) detailed and including

ER 405-1-12  
Change 30  
30 Sep 94

family and troop housing data; (d) other information or circumstances peculiar or essential to the proposed action such as production capacity of Army Ammunition Plants; and (e) estimated savings for operations and maintenance or care and maintenance that would result from leasing.

5. (Brief concluding statement of proposal including information on advertising, period of lease, termination privileges, consideration, and other significant provisions.)

Note: See recent guidance from HQUSACE (CERE-L) on acquisition reports for further comments.

**BASE REALIGNMENT AND CLOSURE (BRAC)**

\_\_\_\_\_  
(Name of Installation)

\_\_\_\_\_  
(County, State)

Lease Number \_\_\_\_\_

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY** (“Lessor”), and \_\_\_\_\_ (“Lessee”).

**WITNESSETH:**

That the Secretary of the Army, by the authority of Title 10, United States Code, Section 2667, and for the consideration hereinafter set forth, hereby leases to the Lessee the property identified in Exhibit A, attached hereto and made a part hereof, hereinafter referred to as the “Leased Premises”.

**THIS LEASE** is granted subject to the following conditions:

**1. AUTHORIZED REPRESENTATIVES**

The Secretary of the Army, the “Lessor”, may act by and through the [the same DA official designated in Condition 7] or the District Engineer, \_\_\_\_\_ District, or through other duly authorized representatives. The (designated DA official) or the District Engineer may also act by and through their duly authorized representatives. Except as otherwise specifically provided, any reference herein to "Lessor", "[Installation Commander or DA official]", “District Engineer”, or "said officer" shall include their duly authorized representatives. The Lessee also may act by and through duly authorized representatives. Any reference to "Lessee" shall include any assignees, or successors and their duly authorized representatives.

ER 405-1-12  
Change 33  
31 Aug 99

[Note: If there is no reuse plan, delete reference to it.]

## **2. USE OF THE LEASED PREMISES AND PERSONAL PROPERTY.**

a. The sole purpose(s) for which the Leased Premises and any improvements thereon may be used, in the absence of prior written approval of the Lessor for any other use, is for the use designated in or consistent with the approved Reuse Plan covering the Leased Premises, attached hereto as Exhibit B, [In the absence of a Reuse Plan or if the Reuse Plan fails to adequately identify uses that will be permitted under the Lease, permissible use of the Leased Premises must be specifically described by building or area, showing any building modification, demolition, new construction, and improvements.] which use of the Leased Premises has been properly evaluated by the Lessor under the National Environmental Policy Act of 1969, 42 U.S.C. 4321 to 4370d (NEPA).

b. The Lessor, in the Lessor's sole discretion, must approve any change in the use of the Leased Premises as set forth in subcondition a. above. Prior to approval of any changes in use requested by the Lessee, the Lessee shall furnish, at the Lessee's expense, any additional environmental analyses and documentation deemed necessary by the Lessor to comply with the National Environmental Policy Act of 1969, as amended, and implementing regulations, and other applicable environmental laws and regulations. In granting approval for the change in use, the Lessor reserves the right to impose such additional environmental protection provisions and restrictions as the Lessor deems appropriate.

c. During the term of this Lease, the Lessee shall have the use of the personal property described in Exhibit E hereto in accordance with the terms of this Lease, which personal property shall be deemed to be a part of the Leased Premises.

## **3. TERM**

a. The Leased Premises are leased for a term of \_\_\_\_\_ [The term of the Lease should be the shortest term that will meet the needs of the parties, generally five (5) years] years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, or until terminated under the condition on **TERMINATION, REVOCATION, DEFAULT AND, RELINQUISHMENT**, whichever is sooner.

[Alternate Language for use in Master Leases]

a. The Leased Premises are leased for a term of \_\_\_\_\_ [The term of the Lease should be the shortest term that will meet the needs of the parties, generally five (5) years] years, commencing as provided for herein and ending \_\_\_\_\_ years thereafter or until terminated under the condition on **TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**, whichever is sooner. The term of this Lease

shall commence, and the provisions of this Lease shall become effective, in accordance with the schedules and procedures set forth below:

(1) The Original Lease Term for the Leased Premises, as described in Exhibit A-1, shall commence on \_\_\_\_\_.

(2) With regard to expansion of the Leased Premises, the Lessee may request additional land and/or buildings (“Additional Leased Premises”) be added to the Leased Premises hereunder by written notice to the Lessor, acting by and through the District Engineer and the Installation Commander (“Expansion Request”), which Expansion Request shall include a plan of the Additional Leased Premises requested, any recommended site or use specific lease terms related thereto, a brief description of the intended use for the Additional Leased Premises, the commencement date of the Original Lease Term for said Additional Leased Premises, and copies of any subleases or licenses that will commence on the date of the Original Lease Term.

(3) Upon receipt of an Expansion Request by the Lessee, the Lessor shall promptly prepare an amendment to this Lease (“Amendment”), which Amendment shall incorporate a plan of the Additional Leased Premises into Exhibit A, as Exhibit A-2; establish the commencement date of the Original Lease Term for the Additional Leased Premises; incorporate site or use specific terms into the Lease as may be agreed by the parties; and amend the Environmental Protection Provisions below by incorporating site specific restrictions regarding the Additional Leased Premises contained in the Finding of Suitability to Lease (FOSL) for the Additional Leased Premises. As of the date the Lessor and the Lessee sign the Amendment, the Lease shall be deemed modified and amended thereby, without the need for additional action by either party.

b. [Include the following only if an option to extend the term has been approved and may be needed to coincide with the estimated dates for environmental completion:] The Lessee shall have the right to extend the original term of the Lease for one (1) successive period of \_\_\_\_\_ [Not to exceed five (5)] years (“Option Term”), provided that, as to this option, Lessee shall give written notice to the Lessor of its election to extend the Lease term at least eighteen (18) months prior to the time when the term expires; provided that, at the time when such notice is given, there shall not be any uncured event of default on the part of Lessee and the lease term has not been terminated or revoked by the Lessor under the Condition on **TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**. If the Lessee exercises the option under this subcondition b., the terms and conditions of this Lease shall remain in effect, except that the annual base rental shall increase to \_\_\_\_\_ [Set out increased consideration] during the Option Term.

#### **4. TERMINATION, REVOCATION, DEFAULT, AND RELINQUISHMENT**

a. Termination.

ER 405-1-12  
Change 33  
31 Aug 99

(1) In the event of the Lessor's decision to convey the Leased Premises or a portion thereof to the Lessee, the Lease shall terminate upon conveyance of the Leased Premises or a portion thereof to the Lessee with respect to that portion so conveyed.

(2) In the event the Lessor decides to convey the Leased Premises or a portion thereof to a third party and the Lessor executes a Finding of Suitability to Transfer (FOST), the Lessor may terminate this Lease with respect to any portion of the Leased Premises to be so conveyed, upon giving the Lessee sixty (60) days written notice of termination.

(3) The Lessor may terminate this Lease and remove the Lessee, and any sublessees, in the event of a national emergency as declared by the President or the Congress of the United States.

b. Default. The following events shall be deemed to be events of default by the Lessee under this Lease:

(1) Lessee shall fail to pay any rental payment hereunder within thirty (30) days after written notice thereof from Lessor. (Delete this default event if this is a public benefit discounted rental.)

(2) Lessee shall fail to comply with any condition, provision, covenant, or warranty made under this Lease by Lessee (other than the payment of rent) and shall not cure such failure within ninety (90) days after written notice thereof to Lessee, unless said non-compliance is the subject of a shorter notice given by a federal, state, or local governmental agency, in which case the shorter notice shall apply.

(3) Lessee shall become insolvent, or shall make a transfer in fraud of creditors, or shall make an assignment for the benefit of creditors.

(4) Lessee shall file a petition under any Section or Chapter of the United States Bankruptcy Code, as amended, or under any similar law or statute of the United States or any State thereof, or there shall be filed against the Lessee a petition for reorganization for an insolvency or a similar proceeding filed against Lessee.

(5) A receiver or trustee shall be appointed for the Leased Premises or for all or substantially all of the assets of the Lessee.

(6) Lessee shall do or permit to be done anything which creates a lien upon the Leased Premises.

c. Revocation. The Lessee is charged at all times with full knowledge of all the conditions and requirements of this Lease, and the necessity for correction of defaults and

non-compliance. Upon the occurrence of any of the aforesaid events of default, Lessor shall have the option to revoke this Lease, in which event Lessee shall immediately surrender the Leased Premises to Lessor, and if Lessee fails to do so, Lessor may, without prejudice to any other remedy which it may have for possession or arrearages in rent, enter upon and take possession of the Leased Premises and expel or remove Lessee and any other person who may be occupying said Leased Premises or any part thereof, without being liable for any claim of damages therefor; Lessee hereby agreeing to pay to Lessor on demand the amount of all loss and damage which Lessor may suffer by reason of such termination. Pursuit of any of the foregoing remedies shall not preclude pursuit of any other remedy herein provided, including closure of the Leased Premises or temporary suspension of activities under the Lease, or any other remedy provided by law or at equity, nor shall pursuit of any remedy herein provided constitute an election of remedies, thereby excluding the later election of an alternate remedy. Forbearance by Lessor to enforce one or more of the remedies herein provided upon an event of default shall not be deemed or construed to constitute a waiver of such default. Lessee agrees to pay to Lessor all costs and expenses incurred by Lessor in the enforcement of this Lease, including, without limitation, the reasonable fees of Lessor's attorneys when such attorneys are employed by Lessor to effect collection of any sums due hereunder or to enforce any right or remedy of Lessor.

d. Sublessees. In accordance with the Condition on **TRANSFERS, ASSIGNMENTS, AND SUBLEASING**, any sublease is to be subject to the conditions and terms of this Lease. Nevertheless, should default and non-compliance described in subcondition b. above stem from the activities of a sublessee, the Lessee is responsible for ensuring compliance, either by corrective action itself or through the sublessee. If the Lessee is making diligent, good faith efforts to obtain corrective action and compliance by the sublessee, to the satisfaction of the Lessor, then the Lessor's exercise of rights under subcondition c. will only be for that part of the Leased Premises under the control of the sublessee.

e. Relinquishment. This Lease may be terminated or relinquished by the Lessee by giving thirty (30) days prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES** [Delete the following proviso if the lease is for a public benefit discounted rental], and provided further, that in the event that said notice is not given at least thirty (30) days prior to the rental due date, the Lessee shall be required to pay the rental for the period shown in the condition on **CONSIDERATION**.

[Select the appropriate condition on Consideration – either fair market rental or public benefit discounted rental, as applicable]

**5. CONSIDERATION** [Cash payment/fair market rental]

ER 405-1-12  
Change 33  
31 Aug 99

a. [Use if there will be no rental offsets] The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

a. [Alternate Condition a. Use if there will be rental offsets] As consideration for this Lease, the Lessee shall pay fair market rental in the amount of \_\_\_\_\_, (\$ \_\_\_\_\_) payable in cash in advance to the United States in the amount of \_\_\_\_\_, (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_. In addition, such cash rental may be offset by the value of work items which shall be accomplished by the Lessee for the maintenance, protection, repair, restoration, and improvement of the Leased Premises as described in the Re-Use Plan attached as Exhibit \_\_\_\_.

b. All rent and other payments due under the terms of this Lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative, and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**5. CONSIDERATION** [Public Benefit Discounted Rental - less than Fair Market Value - Generally only allowed if the lessee is the LRA]

a. The consideration for this Lease is the operation and maintenance of the Leased Premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

b. All monies received by the Lessee from operations conducted on the Leased Premises, including, but not limited to, use fees and rental or other consideration received from its sublessees or licensees, shall be utilized by the Lessee for the protection, operation, maintenance, repair, improvement, and costs related to the Leased Premises and the installation, to include marketing and management activities of the Lessee. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. The Lessor shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, sublessees or licensees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the Lessor with the results of such an audit.

## 6. NOTICES

All correspondence and notices to be given pursuant to this Lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to [insert mailing location for legal notice] the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_ District, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. [Copies of correspondence and notices will also be furnished to \_\_ (Installation Commander or DA official), \_\_\_\_\_.] Notices must be given in a properly sealed envelope, addressed as aforesaid, and deposited postage prepaid by either registered mail, return receipt requested, or by certified mail, return receipt requested, in a post office regularly maintained by the United States Postal Service. The service of the notice shall be deemed complete upon the receipt of said notice, or the refusal thereof, by the applicable party.

## 7. SUPERVISION OF THE LEASED PREMISES

The use and occupation of the Leased Premises shall be subject to the general supervision and approval of the Installation Commander [If not the IC, then designate the DA officer who will have day-to-day supervision] for \_(insert name)\_\_\_\_\_ Installation, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

## 8. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable Federal, state, and local laws, ordinances, regulations, and standards that are or may become applicable to their activities

ER 405-1-12  
Change 33  
31 Aug 99

on the Leased Premises, including, but not limited to, those regarding the environment, construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. Additional compliance conditions are included in the condition on **ENVIRONMENTAL PROTECTION**.

## **9. CONDITION OF THE LEASED PREMISES**

a. The Lessee acknowledges that it has inspected the Leased Premises, knows its condition, and understands that the same is leased in an "as is," and "where is" condition, without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto, except as may be specifically provided herein.

b. The Lessor and the Lessee have jointly conducted an inventory and condition survey of the Leased Premises, to include the environmental condition, prior to lease execution by either party. The inventory and condition survey is documented in a Condition Survey report prepared by the Lessor, signed by the duly authorized representatives of both parties, and attached as Exhibit D to this Lease. The Condition Survey will refer to and incorporate by reference the Environmental Baseline Survey (EBS) prepared by the Lessor, as well as any other environmental conditions that may not be specifically identified in the EBS. Preceding expiration, revocation, or termination of this Lease, the Lessor and the Lessee will jointly conduct a close-out survey. The Lessor will prepare a close-out report. The Lessee shall fully fund the Lessor's preparation of an updated EBS that will document the environmental condition of the property at that time as part of the close-out survey. The close-out survey and report will refer to, and incorporate by reference, the updated EBS. All significant variances from the initial Condition Survey shall be clearly documented in the close-out report. This close-out report will constitute the basis for settlement by the parties for any leased property shown to be lost, damaged, contaminated, or destroyed during the lease term, in determining any environmental restoration requirements to be completed by the Lessee, and restoration of the property as required in the condition on **RESTORATION**.

## **10. TRANSFERS, ASSIGNMENTS, AND SUBLEASING**

a. Successors. This Lease and the covenants and conditions herein contained shall be binding upon Lessee, its successors and assignees; and shall inure to the benefit of Lessee and only such successors or assignees of the Lessee to whom the transfer or assignment by Lessee has been consented to by Lessor in writing. No transfers or assignments shall be valid unless the successor or assignees shall, by an instrument in a form sufficient for recording and acceptable to the Lessor, enter into an assumption

agreement and assume all of the Lessee's obligations under this Lease. A duplicate original of that assumption agreement will be delivered to the Lessor, and the assignment shall not take effect until delivery is made.

b. Sublease. The Lessee may sublease the Leased Premises, so long as the Lessee remains primarily liable for performance of all the obligations of Lessee hereunder. The Lessee shall neither sublease, license, nor grant any interest in the Leased Premises or any part thereof or any property thereon, nor grant any other interest, privilege, or license whatsoever in connection with this Lease, without prior written notice to the Lessor, as set out in the condition on **NOTICES**. The Lessee shall provide the Lessor a copy of every executed sublease hereunder. No sublease shall be valid unless and until the Lessee shall have delivered to the Lessor a copy of the executed sublease. Every sublease shall contain the Environmental Protection provisions set out in this Lease and shall state that it is subject to the conditions and terms of this Lease and that, in case of any conflict between the instruments, this Lease will control. The Lessee shall provide each approved sublessee or licensee with a copy of this Lease.

c. Notice to EPA and State. The Lessee further agrees that in the event of an assignment or sublease of the Leased Premises, it shall provide to the EPA and [state agency] by certified mail a copy of the agreement or sublease of the Leased Premises within 14 days after the effective date of such transaction. The Lessee may delete the financial terms and any other proprietary information from the copy of any agreement or assignment or sublease furnished pursuant to this condition.

[If DA is to provide utilities, do not execute lease until a utility contract is signed. Delete the following condition if not applicable, or modify it to state the situation.]

## **11. COST OF UTILITIES**

a. As set out in the Utility Contract, executed by the Lessee and said officer having jurisdiction over the Leased Premises, dated \_\_\_\_\_, the Lessee shall pay the cost of producing and/or supplying any utilities and other services furnished by the Lessor or through government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the government-owned facilities by which such utilities or services are produced or supplied. Payment shall be made in the manner prescribed in said Utility Contract.

b. The United States shall be under no obligation to furnish utilities or services. The supplying of utilities or other services by the Lessor is not a commitment to provide utilities after Lessor's activities at the installation cease. The Lessee should develop plans for assumption of the utilities by a local utility provider or other qualified entity.

## **12. PROTECTION OF PROPERTY**

ER 405-1-12  
Change 33  
31 Aug 99

The Lessee shall keep the Leased Premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee and/or its sublessees or licensees under this Lease, and shall exercise due diligence in the protection of all property located on the Leased Premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property, except personal property, to a condition satisfactory to said officer.

### **13. INSURANCE**

a. At the commencement of this Lease, the Lessee shall obtain, from a reputable insurance company, or companies, comprehensive liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable, and consistent with sound business practices or an amount not less than a combined single limit of \$\_\_\_[insert amount based upon risk of activities, but no less than \$1,500,000] \_\_\_ DOLLARS (\$\_\_\_\_\_), whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons upon the Leased Premises or arising from activities conducted under this Lease.

b. The liability insurance policy shall insure the hazards of the Leased Premises and operations conducted in and on the Leased Premises, independent contractors, contractual liability (covering the indemnity included in this Lease agreement), and shall name the United States as an insured party. Each policy will provide that any losses shall be payable notwithstanding any act or failure to act or negligence of the Lessee or the United States or any other person; provide that the insurer will have no right of subrogation against the United States; and be reasonably satisfactory to the Lessor in all respects. Under no circumstances will the Lessee be entitled to assign to any third party rights of action that it may have against the United States arising out of this Lease.

c. The Lessee shall require that the insurance company give said officer and the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. Said officer or the District Engineer may require closure of any or all of the Leased Premises during any period for which the Lessee does not have the required insurance coverage. The Lessee shall require its insurance company to furnish to said officer and to the District Engineer a copy of the policy or policies, or if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The minimum amount of liability insurance coverage is subject to revision by the District Engineer every two (2) years or upon renewal or modification of this Lease.

[Delete the following condition if no government structures or improvements are within the leased premises, or if structures and improvements are included but the determination of availability waives the requirement for fire insurance.]

d. As to those structures and improvements on the Leased Premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the Leased Premises pursuant to the terms and conditions of this Lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the Leased Premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used for the repair, restoration, or replacement of the property damaged or destroyed or of the Leased Premises, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the District Engineer does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore, or replace the Leased Premises or any part thereof should it be diminished in value, damaged, or destroyed.

e. The Lessee may require any sublessees, assignees, transferees, or successors, as joint and several responsible parties with the Lessee for those portions of the Leased Premises under their control, to maintain and carry at their expense portions of the insurance requirement.

f. [Include if there is an insurance policy.] Notwithstanding anything herein to the contrary, each party hereto hereby releases the other party, its agents, sublessees and employees, to the full extent recoverable under the insurance policies of the releasing party, from any and all liability for any loss or damage which may be inflicted upon the property of such party, notwithstanding that such loss or damage shall have arisen out of the negligent or the tortious act or omission of the other party, its agents, sublessees or employees; provided, however, that this release shall be effective only with respect to loss or damage occurring during such time as the appropriate policy of insurance of the party so releasing shall contain a clause to the effect that such release shall not affect the said policy or the right of the insured to recover thereunder, and each party at the request of the other shall use reasonable efforts to have such a clause included in its said policies. Each party hereto shall notify the other in the event such a clause is not included in its said policies, or is withdrawn therefrom, in which event the release herein of the other party shall be null and void.

ER 405-1-12  
Change 33  
31 Aug 99

f. [Use for self-insured municipal governments only] Notwithstanding anything contained herein to the contrary, Lessee may self-insure against the risks provided for in this Condition under a plan of self-insurance maintained in accordance with sound accounting practices and the state laws, which Lessee may from time to time have in force and effect. The Lessee's insurance status shall not eliminate the requirement for its sub-lessees to have insurance from a reputable insurance carrier as set out above or to also be self-insured, if applicable.

#### **14. RIGHT TO ENTER**

a. The right is reserved to the United States, its officers, agents, and employees to enter upon the Leased Premises at any time and for any purpose necessary or convenient in connection with government purposes; to make inspections, to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. Additional rights to enter are reserved in the condition on **ENVIRONMENTAL PROTECTION**.

#### **15. INDEMNITY AND HOLD HARMLESS**

a. The Lessee agrees to assume all risks of loss or damage to property and injury or death to persons by reason of or incident attributable or incident to the condition or state of repair of the Leased Premises or to its possession and/or use of the Leased Premises or the activities conducted under this Lease. The Lessee expressly waives all claims against the United States of America for any such loss, damage, personal injury, or death caused by or occurring as a consequence of such condition, possession and/or use of the Leased Premises by the Lessee, or the conduct of activities or the performance of responsibilities under this lease by the Lessee. The Lessee further agrees to indemnify and hold harmless the United States of America, the Lessor, its officers, agents, and employees from and against all suits, claims, demands or actions, liabilities, judgments, costs, and attorneys' fees arising out of, or in any manner predicated upon, personal injury, death, or property damage resulting from, related to, caused by, or arising out of the possession and/or use of the Leased Premises by the Lessee. The Lessor will give the Lessee notice of any claim against it covered by this indemnity as soon after learning of such claim as practicable.

b. The Lessee shall indemnify and hold harmless the United States of America from any costs, expenses, liabilities, fines, or penalties resulting from discharges, releases, emissions, spills, storage, disposal, or any other action by the Lessee giving rise to United States of America liability, civil or criminal, or responsibility under Federal, state, or local environmental laws.

c. Subconditions a. and b. of this Condition and the obligations of the Lessee hereunder shall survive the expiration or termination of the Lease and the conveyance of the Leased Premises. The Lessee's obligation hereunder shall apply whenever the United States incurs costs or liabilities for the Lessee's actions giving rise to liability under this condition.

d. In leasing the Leased Premises, the United States recognizes its obligation to hold harmless, defend, and indemnify the Lessee and any successor, assignee, transferee, lender, or sublessee of the Lessee as provided for in Section 330 of the Department of Defense Authorization Act of 1993, as amended, and to otherwise meet its obligations under the law.

e. Any sublessees, assignees, transferees, or successors shall be jointly and severally responsible with the Buyer/Lessee for those portions of the Leased Premises under their control.

## **16. RESTORATION**

On or before the expiration of this Lease or its termination by the Lessee, the Lessee shall vacate the Leased Premises, remove the property of the Lessee, and restore the Leased Premises to a condition satisfactory to said officer. If, however, this Lease is revoked, the Lessee shall vacate the Leased Premises, remove said property and restore the Leased Premises to the aforesaid condition within such time as the said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the Leased Premises, then, at the option of the said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this Lease in restoring the Leased Premises.

[Select one of the following conditions on non-discrimination, as appropriate, based upon the consideration.]

## **17. NON-DISCRIMINATION** [Use if lease is for fair market value]

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs, or activities conducted on the Leased Premises because of race, color, religion, sex, age, handicap, or national origin.

ER 405-1-12  
Change 33  
31 Aug 99

**17. NON-DISCRIMINATION** [Alternate if lease is for public benefit discounted rental]

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs, or activities conducted on the Leased Premises because of race, color, religion, sex, age, handicap, or national origin.

b. The Lessee, by acceptance of this Lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sub-lessees, and assignees.

**18. SUBJECT TO EASEMENTS**

This Lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the Leased Premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the Leased Premises by the Lessee.

**19. SUBJECT TO MINERAL INTERESTS**

This Lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Lessor will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the Leased Premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

[Delete the following condition if there is no rental]

**20. RENTAL ADJUSTMENT**

In the event the United States revokes this Lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this Lease. Such adjustment of rental shall be evidenced by a supplemental agreement in writing; provided, however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this Lease.

## **21. PROHIBITED USES**

a. The Lessee shall not permit gambling, except for state lottery tickets in accordance with applicable state and local laws and regulations, on the Leased Premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the Leased Premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the Leased Premises any activity which would constitute a nuisance.

b. The Lessee shall not construct or place any structure, improvement, or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

c. The Lessee shall not sell, store, or dispense, or permit the sale, storage, or dispensing of beer or other intoxicating liquors on the Leased Premises.

[If the proposed use by the lessee will allow hotel, restaurant, or other similar facilities the following paragraph may be used instead of the above c.]

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines, or other intoxicating beverages on the Leased Premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

## **22. WASTE OF NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the Leased Premises except as authorized in writing by the District Engineer.

## **23. DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this Lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this Lease. A claim arising under this Lease, unlike a claim relating to this Lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee.

ER 405-1-12  
Change 33  
31 Aug 99

However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$100,000 is not a claim under the Act until certified as required by subparagraph c(2) below. [Delete the following sentence if there is no rent.] The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the            (designate Lessee's official or named individual)           .

(2) For Lessee claims exceeding \$100,000, the Lessee shall submit with the claim a certification that—

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief and;

(iii) the amount requested accurately reflects the Lease adjustment for which the Lessee believes the Lessor is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$100,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For lessee-certified claims over \$100,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in subparagraph c(2) of this condition, and be executed in accordance with subparagraph c(3) of this condition.

g. The Government shall pay interest or the amount found due and unpaid by the Lessor from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each six-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the Lease, pending final resolution of any request for relief, claim, or action arising under the Lease, and comply with any decision of the District Engineer.

#### **24. ENVIRONMENTAL PROTECTION**

a. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from activities of the Lessee, the Lessee shall be liable to restore the damaged resources. [Add, if applicable: The Lessee shall not discharge waste or effluent from the Leased Premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.] The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the Leased Premises.

[The following provisions are based on the model EPA language. The district should closely compare the actual language in the FOSL for deviations. Use the language in the FOSL.]

b. The Lessee shall be responsible for obtaining and paying for any environmental or other permits required for its operations under the Lease, independent of any existing permits.

c. The Government's rights under this Lease specifically include the right for Government officials to inspect, upon reasonable notice, the Leased Premises for compliance with environmental, safety, and occupational health laws and regulations, whether or not the Government is responsible for enforcing them. Such inspections are without prejudice to the right of duly constituted enforcement officials to make such inspections. The Government normally will give the Lessee twenty-four (24) hours prior notice of its intention to enter the Leased Premises unless it determines the entry is required for safety, environmental, operations, or security purposes. The Lessee shall have no claim on account of any entries against the United States or any officer, agent, employee, or contractor thereof.

ER 405-1-12  
Change 33  
31 Aug 99

[Note: Use the following provision, if the leased premises is part of a NPL site; Adapt to cleanup agreements under state regulatory authorities; e.g., non-NPL sites.]

d. The Government acknowledges that (insert the name of the military installation) has been identified as a National Priorities List Site under CERCLA. The Lessee acknowledges that the Government has provided it with a copy of the (military installation) Federal Facility Agreement (FFA) entered into by the United States EPA Region ( ), the State of ( ), and the Lessor and effective on \_\_\_\_\_ date, and will provide the Lessee with a copy of any amendments thereto. The Lessee agrees that should any conflict arise between the terms of the FFA, as it presently exists or may be amended, and the provisions of this Lease, the terms of the FFA will take precedence. The Lessee further agrees that notwithstanding any other provision of the Lease, the Government assumes no liability to the Lessee should implementation of the FFA interfere with the Lessee's use of the Leased Premises. The Lessee shall have no claim on account of any such interference against the United States or any officer, agent, employee, or contractor thereof, other than for abatement of rent.

[Note: Use the following provision if a Federal Facilities Agreement (FFA) or Interagency Agreement (IAG) applies to the leased premises; e.g., an NPL site.]

e. The Lessor, EPA, and the (insert State agency), their officers, agents, employees, contractors, and subcontractors have the right, upon reasonable notice to the Lessee, and to parties in possession, to enter upon the Leased Premises for purposes consistent with the applicable provisions of the FFA, and for the following purposes:

(1) to conduct investigations and surveys, including, where necessary, drilling, soil and water sampling, test pitting, soil boring tests, and other activities related to the (Installation name) Installation Restoration Program, FFA, or IAG;

(2) to inspect field activities of the Lessor and its employees, agents, contractors, and subcontractors in implementing that IRP, FFA, or IAG;

(3) to conduct any test or survey required by EPA or (state agency) relating to the implementation of the FFA or environmental conditions at the Leased Premises, or to verify any data submitted to the EPA or (state agency) by the Lessor relating to such conditions; and

(4) to construct, operate, maintain, or undertake any other response or remedial action as required or necessary under the IRP, FFA, or IAG, including, but not limited to, monitoring wells, soil removal, pumping wells, and treatment facilities.

[Note: Use the following alternative provision if the Installation Restoration Program (IRP) or other environmental investigation applies to the leased premises; e.g., a non-NPL site.]

e. The Lessor and its officers, agents, employees, contractors, and subcontractors have the right, upon reasonable notice to the Lessee, and to parties in possession, to enter upon the Leased Premises for purposes enumerated in this subparagraph:

(1) to conduct investigations and surveys, including, where necessary, drilling, soil and water sampling, test pitting, soil boring tests, and other activities related to the (Installation name) Installation Restoration Program (IRP);

(2) to inspect field activities of the Lessor and its employees, agents, contractors, and subcontractors in implementing the IRP;

(3) to conduct any test or survey related to the implementation of the IRP or environmental conditions at the Leased Premises, or to verify any data submitted to the EPA or (state agency) by the Lessor relating to such conditions; and

(4) to construct, operate, maintain, or undertake any other response or remedial action as required or necessary under the (insert name of installation) IRP, including, but not limited to, monitoring wells, pumping wells, and treatment facilities.

f. The Lessee agrees to comply with the provisions of any health or safety plan in effect under the IRP or the FFA during the course of the above-described response or remedial actions. Any inspection, survey, investigation, or other response or remedial action will, to the extent practicable, be coordinated with representatives designated by the Lessee. The Lessee shall have no claim on account of such entries against the United States or any officer, agent, employee, contractor, or subcontractor thereof. In addition, the Lessee shall comply with all applicable Federal, state, and local occupational safety and health regulations.

g. The Lessee shall comply with the requirements of 10 U.S.C. 2692(b)(9) to obtain the Lessor's approval for the storage, treatment, or disposal of toxic or hazardous materials not owned by the Department of Defense on the Leased Premises.

h. The Lessee shall comply with the hazardous waste permit requirements under the Resource Conservation and Recovery Act (RCRA), or its (state) equivalent, and any other applicable laws, rules, or regulations. Except as specifically authorized by the Lessor in writing, the Lessee must provide, at its own expense, such hazardous waste management facilities, including storage, treatment, or disposal facilities, complying with all applicable laws and regulations. Hazardous waste management facilities of the Lessor will not be available to the Lessee. Any violation of the requirements of this provision shall be deemed a material breach of this Lease.

i. Any of Lessor's accumulation points for hazardous and other wastes will not be used by the Lessee. The Lessee will not permit its hazardous waste to be commingled with hazardous waste of the Lessor.

ER 405-1-12  
Change 33  
31 Aug 99

j. The Lessee shall have a plan approved by the Lessor for responding to hazardous waste, fuel, and other chemical spills prior to commencement of operations on the Leased Premises, which approval shall not be unreasonably withheld or delayed. Such plan shall be independent of (installation name) and, except for initial fire response and/or spill containment, shall not rely on use of installation personnel or equipment. Should the Lessor provide any personnel or equipment, whether for initial fire response and/or spill containment, or otherwise on the request of the Lessee, or because the Lessee was not, in the opinion of the Lessor, conducting timely cleanup actions, the Lessee agrees to reimburse the Lessor for its costs. The plan may be developed in phases as sublease activities are identified. Sublessees shall provide to the Lessee a plan to cover their activities and portion of the Leased Premises prior to commencement of operations on the subleased portion, which will be incorporated by the Lessee into the overall plan.

k. The Lessee shall not construct or make or permit its sublessees or assigns to construct or make any substantial alterations, additions, or improvements to or installations upon or otherwise modify or alter the Leased Premises in any way which may adversely affect the cleanup, human health, or the environment without the prior written consent of the Lessor. Such consent may include a requirement to provide the Lessor with a performance and payment bond satisfactory to it in all respects and other requirements deemed necessary to protect the interests of the United States. For construction or alterations, additions, modifications, improvements, or installations in the proximity of operable units that are part of a National Priorities List (NPL) site, such consent may include a requirement for written approval by the Lessor's Remedial Project Manager.

l. The Lessee shall not conduct or permit its sublessees to conduct any subsurface excavation, digging, drilling, or other disturbance of the surface without the prior written approval of the Lessor.

## **25. HAZARDOUS SUBSTANCES NOTICE**

To the extent such information is available on the basis of a complete search of Lessor's files, notice regarding hazardous substances stored for one year or more, known to have been released or disposed of on the Leased Premises, is provided in Exhibit G. The Lessee should consult the Condition Survey and the EBS for more detailed information.

[Include the following conditions if required by the FOSL. The FOSL is not attached as an exhibit to the lease. It is an internal decision document. Modifications of these conditions may be made to comply with the FOSL.]

[Select the appropriate condition below on lead-based paint, as applicable.]

[Alternate Condition 26 where the leased premises do not include residential housing]

**26. LEAD-BASED PAINT WARNING AND COVENANT**

a. The Leased Premises do not contain residential housing and are not being leased for residential purposes. The Lessee is notified that the Leased Premises contain buildings built prior to 1978 that contain lead-based paint. Exposure to lead from lead-based paint may place young children at risk of developing lead poisoning. Lead poisoning in young children may produce permanent neurological damage, including learning disabilities, reduced intelligence quotient, behavioral problems, and impaired memory. A risk assessment or inspection for possible lead-based paint hazards is recommended prior to lease.

b. Available information concerning known lead-based paint and/or lead-based paint hazards, the location of lead-based paint and/or lead-based paint hazards, and the condition of painted surfaces is contained in the EBS, referenced in the Condition Survey attached as Exhibit D, which has been provided to the Lessee. [If applicable: Additionally, the following reports pertaining to lead-based paint and/or lead-based paint hazards have been provided to the Lessee: \_\_\_\_\_.] Additionally, the Lessee has been provided with a copy of the federally-approved pamphlet on lead poisoning prevention. The Lessee hereby acknowledges receipt of all the information described in this subcondition.

c. The Lessee acknowledges that it has received the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards prior to execution of this Lease.

d. The Lessee shall not permit use of any buildings or structures on the Leased Premises for residential habitation without first obtaining the written consent of the Lessor. As a condition of its consent, the Lessor may require the Lessee to:

(1) inspect for the presence of lead-based paint and/or lead-based paint hazards;

(2) abate and eliminate lead-based paint hazards by treating any defective lead-based paint surface in accordance with all applicable laws and regulations; and

(3) comply with the notice and disclosure requirements under applicable Federal and state law. The Lessee agrees to be responsible for any future remediation of lead-based paint found to be necessary on the Leased Premises.

[Alternative Condition 26 where the leased premises contains residential housing]

**26. NOTICE OF THE PRESENCE OF LEAD-BASED PAINT AND COVENANT**

a. The Lessee is hereby informed and does acknowledge that all buildings on the Leased Premises, which were constructed or rehabilitated prior to 1978, are presumed to

ER 405-1-12  
Change 33  
31 Aug 99

contain lead-based paint. Lead from paint, paint chips, and dust can pose health hazards if not managed properly. Lead exposure is especially harmful to young children and pregnant women. Before renting pre-1978 residential housing, lessors must disclose to lessees and sublessees the presence of lead-based paint and/or lead-based paint hazards therein. "Residential housing" means any housing constructed prior to 1978, except housing for the elderly (households reserved for and composed of one or more persons 62 years of age or more at the time of initial occupancy) or persons with disabilities (unless any child who is less than 6 years of age resides or is expected to reside in such housing) or any 0-bedroom dwelling. A risk assessment or inspection for possible lead-based paint hazards by the Lessee is recommended prior to lease.

b. Available information concerning known lead-based paint and/or lead-based paint hazards, the location of lead-based paint and/or lead-based paint hazards, and the condition of painted surfaces is contained in the EBS, referenced in the Condition Survey attached as Exhibit D, which have been provided to the Lessee. [If applicable: Additionally, the following reports pertaining to lead-based paint and/or lead-based paint hazards have been provided to the Lessee: \_\_\_\_\_.] Additionally, the Lessee has been provided with a copy of the federally-approved pamphlet on lead poisoning prevention, and acknowledges that all sublessees must also receive this pamphlet. The Lessee hereby acknowledges receipt of all of the information described in this subparagraph.

c. The Lessee acknowledges that it has received the opportunity to conduct a risk assessment or inspection for the presence of lead-based paint and/or lead-based paint hazards prior to execution of this Lease.

d. The Lessee shall not permit the occupancy or use of any buildings or structures as residential housing without complying with this section and all applicable federal, state, and local laws and regulations pertaining to lead-based paint and/or lead-based paint hazards. Prior to permitting the occupancy of residential housing, if required by law or regulation, the Lessee, at its sole expense, will abate and eliminate lead-based paint hazards by treating any defective lead-based paint surface in accordance with all applicable laws and regulations.

e. The United States assumes no liability for remediation or damages for personal injury, illness, disability, or death to the Lessee, its successors or assigns, sublessees, or to any other person, including members of the general public, arising from or incident to possession and/or use of any portion of the Leased Premises containing lead-based paint as residential housing. The Lessee further agrees to indemnify and hold harmless the United States, its officers, agents, and employees, from and against all suits, claims, demands or actions, liabilities, judgments, costs, and attorneys' fees arising out of, or in any manner predicated upon, personal injury, death, or property damage resulting from, related to, caused by, or arising out of the possession and/or use of any portion of the Leased Premises containing lead-based paint as residential housing. This Condition and

the obligations of the Lessee hereunder shall survive the expiration or termination of this Lease and any conveyance of the Leased Premises to the Lessee. The Lessee's obligation hereunder shall apply whenever the United States of America incurs costs or liabilities for actions giving rise to liability under this section.

(Include the following if required by the FOSL. Modification may be made to comply with the terms of the FOSL. In particular, an alternate provision, as set forth in the FOSL, will be needed where the leased premises contain asbestos that poses an unacceptable risk to human health and the lessee is required to remediate prior to use or occupancy.)

## **27. NOTICE OF THE PRESENCE OF ASBESTOS AND COVENANT**

a. The Lessee is hereby informed and does acknowledge that (friable and) non-friable asbestos or asbestos-containing materials (ACM) has been found on the Leased Premises, as described in the Condition Survey attached as Exhibit D. To the best of the Lessor's knowledge, the ACM on the Leased Premises does not currently pose a threat to human health or the environment.

b. In addition to the Lessee's general indemnity contained in the condition on **INDEMNITY AND HOLD HARMLESS**, with regard specifically to ACM, the Lessee covenants and agrees that its use and occupancy of the Leased Premises will be in compliance with all applicable laws relating to asbestos; and that the Lessor assumes no liability for future remediation of asbestos or damages for personal injury, illness, disability, or death to the Lessee, its successors or assigns, sublessees, or to any other person, including members of the general public, arising from, or incident to, the purchase, transportation, removal, handling, use, disposition, or other activity causing or leading to contact of any kind whatsoever with asbestos on the Leased Premises described in this Lease, whether the Lessee, its successors or assigns have properly warned or failed to properly to warn the individual(s) injured. The Lessee agrees to be responsible for any future remediation of asbestos found to be necessary on the Leased Premises.

## **28. OTHER ENVIRONMENTAL RESTRICTION**

[Insert from the FOSL any site specific environmental restrictions or provisions, such as endangered species, underground storage tanks. The FOSL is not attached to the lease as an exhibit. It is an internal decision document.]

## **29. SITE SPECIFIC RESTRICTIONS**

[Insert from the FOSL/Report of Availability any site specific restrictions or provisions, such as UXOs, restrict use of wetlands, support coastal zone management plans, limit flood plain activities.]

[Note: Additional numbered conditions may be inserted for clarity or due to length.]

ER 405-1-12  
Change 33  
31 Aug 99

### **30. HISTORIC PRESERVATION**

a. The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural, or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the Leased Premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

b. [Include any provision required by a Memorandum of Agreement or Programmatic Agreement with the State Historic Preservation Officer and Advisory Council on Historic Preservation.]

### **31. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said Leased Premises at the beginning of or that may be constructed by the Lessee during the term of this Lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the Leased Premises. Any soil erosion occurring outside the Leased Premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

### **32. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the Leased Premises shall be paid promptly by the Lessee. If and to the extent that the property owned by the United States is later made taxable by state or local governments under an Act of Congress, the Lease shall be renegotiated.

### **33. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this Lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this Lease without liability or, in its discretion, to require the Lessee to pay, in addition to the Lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

#### **34. OFFICIALS NOT TO BENEFIT**

No member of or delegate to Congress or resident commissioner shall be admitted to any share or part of this Lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this Lease is for the general benefit of such corporation or company.

#### **35. SEVERAL LESSEES**

If more than one Lessee is named in this Lease the obligations of said Lessees herein contained shall be joint and several obligations.

#### **36. MODIFICATIONS**

This Lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative, and this provision shall apply to this condition as well as all other conditions of this Lease.

#### **37. NO COMMITMENTS FOR FUTURE USE**

This Lease does not commit the United States to any renewals of the use authorized herein [delete if no option to extend: beyond the extension of the term provided for in the Condition on **TERM**] or to any future reuse or disposal and does not create any right or expectation for the Lessee or its sublessees or tenants to acquire the leased property.

#### **38. DISCLAIMER**

This Lease is effective only insofar as the rights of the United States in the Leased Premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the Leased Premises. It is understood that the granting of this Lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of March 3, 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

#### **39. AVAILABILITY OF FUNDS**

The Lessor's obligation to pay or reimburse any money under this Lease is subject to the availability of appropriated funds, and nothing in this Lease shall be interpreted to require obligations or payments by the United States in violation of the

ER 405-1-12  
Change 33  
31 Aug 99

Anti-Deficiency Act; provided that the Lessor shall otherwise comply with applicable statutory requirements and its obligations under the terms of this lease.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_ LEASE

FOR AGRICULTURAL OR GRAZING PURPOSES

LOCATED ON

\_\_\_\_\_  
(PROJECT, INSTALLATION)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE** \_\_\_\_\_, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 10, United States Code, Section 2667, and for the consideration set forth herein, hereby leases to the Lessee the property hereinafter identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for \_\_\_\_\_ purposes, and in accordance with the land use regulations identified in Exhibit(s) \_\_\_\_\_, which is attached hereto and made a part hereof.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ (months) (years), beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

2. **CONSIDERATION**

a. (Use if there will be no rental offsets) The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

a. (Alternate Condition) (Use if there will be rental offsets) As consideration for this lease, the Lessee shall pay cash rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_. Such cash rental shall be offset by the value of work items which shall be accomplished by the Lessee for the maintenance, protection, repair, restoration, and improvement

ER 405-1-12  
Change 30  
30 Sep 94

of the leased premises as described in the Land Use Regulations attached as Exhibit \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717) . This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the lessee, to \_\_\_\_\_

\_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer", include their duly authorized representatives. Any reference to "Lessee" shall include any sublessees, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER (INSTALLATION COMMANDER)**

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation) hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

6. **APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

7. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representation or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The reports will constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY.**

8. **TRANSFERS AND ASSIGNMENTS**

Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the District Engineer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

9. **COST OF UTILITIES**

The Lessee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

10. **PROTECTION OF PROPERTY**

The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other Lessee causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

ER 405-1-12  
Change 30  
30 Sep 94

11. **RENTAL ADJUSTMENT**

In the event the United States revokes this lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this lease. Where the said premises are being used for farming purposes, the Lessee shall have the right to harvest, gather and remove such crops as may have been planted or grown on said premises, or the District Engineer may require the Lessee to vacate immediately and, if funds are available, compensation will be made to the Lessee for the value of the remaining crops. Any adjustment of rent or the right to harvest, gather and remove crops shall be evidenced by a written supplemental agreement, executed by the District Engineer; PROVIDED, however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this lease and in that event any remaining crops shall become property of the United States upon such revocation.

12. **RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purposes necessary or convenient in connection with government purposes; to make inspections; to remove timber or other materials, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever, and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claims for damages on account thereof against the United States or any officer, agent or employee thereof.

13. **INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

14. **RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate or as otherwise specified by the provisions of the condition on **RENTAL ADJUSTMENT**. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages

against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**15. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap or national origin.

**16. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the premises by the Lessee.

**17. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development of Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessees operations or would be contrary to local law.

**18. TERMINATION**

This lease may be terminated by the Lessee at any time by giving at least sixty (60) days notice thereof, in writing, to the District Engineer. In the case of such termination, no refund by the United States of any rental previously paid shall be made and payment in full of all rent becoming due during the period of notice will be required. In the event the effective date of termination occurs after the start of the grazing, planting or harvesting season as specified in the Land Use Regulations, any rent due for the balance of the annual term, or the rental due for the remaining term if the lease is for less than one year, shall be due and payable on or before the date of such termination.

**19. PROHIBITED USES**

a. Certain soil conservation practices may be required by the land use regulations which are identified as rental offsets. By acceptance of such offsets, the Lessee agrees that he will not accept any Federal or State cost-sharing payments or subsidies for the same soil conservation practices.

b. The Lessee shall not construct or place any structure, improvement or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

**20. PROTECTION OF NATURAL RESOURCES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee shall use the premises in accordance with the attached Land Use Regulations and shall at all times: (a) maintain the premises in good condition and free from weeds, brush, washes, gullies and other erosion which is detrimental to the value of the premises for agricultural purposes; (b) cut no timber, conduct no mining operations, remove no sand, gravel or kindred substances from the premises; (c) commit no waste of any kind nor in any manner substantially change the contour or condition of the premises except changes required to accomplish soil and water conservation measures as may be authorized by said officer.

21. **DISPUTES**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer

ER 405-1-12  
Change 30  
30 Sep 94

must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certification described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the Condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 22. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the premises against pollution of its air, ground and water. The Lessee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this lease. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from activities of the Lessee, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

## 23. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said

ER 405-1-12  
Change 30  
30 Sep 94

officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**24. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon the premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed in writing by the District Engineer.

**25. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the premises shall be promptly paid by the Lessee. If and to the extent that the property owned by the Government is later made taxable by State or local governments under an Act of Congress, the lease shall be renegotiated.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage or contingent fees, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

**27. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**28. SEVERAL LESSEES**

If more than one Lessee is named in this lease, the obligation of said Lessees herein named shall be joint and several obligations.

**29. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modifications of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**30. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned. The Lessee shall obtain any permit or license which may be required by Federal, state or local statute in connection with

ER 405-1-12  
Change 30  
30 Sep 94

the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LEASE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF** I have hereunto set my hand by direction of he Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO \_\_\_\_\_  
DEPARTMENT OF THE \_\_\_\_\_ LEASE  
\_\_\_\_\_  
(PROJECT/ INSTALLATION)  
\_\_\_\_\_  
COUNTY, STATE

THIS LEASE, made on behalf of the United States, between the SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee.

**WITNESSETH:**

That the Secretary, by the authority of Title 10, United States Code, Section 2667, and for the consideration hereinafter set forth, hereby leases to the Lessee the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for \_\_\_\_\_ purposes.

THIS LEASE is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

2. **CONSIDERATION**

a. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee) . An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or

ER 405-1-12  
Change 30  
30 Sep 94

portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include any sublessees, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander) \_\_\_\_\_ (District) (Installation) hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property

ER 405-1-12  
Change 30  
30 Sep 94

must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

8. **TRANSFERS AND ASSIGNMENTS**

Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the District Engineer.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

9. **COST OF UTILITIES**

The Lessee shall pay the cost, as determined by the officer having jurisdiction over the premises, of producing and/or supplying any utilities and other services furnished by the government or through government-owned facilities for the use of the Lessee, including the Lessee's proportionate share of the cost of operation and maintenance of the government-owned facilities by which such utilities or services are produced or supplied. The government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

10. **PROTECTION OF PROPERTY**

The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee. The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

11. **INSURANCE (DELETE CONDITIONS A&B IF LIABILITY INSURANCE IS NOT APPLICABLE)**

a. At the commencement of this lease, the Lessee shall obtain, from a reputable insurance company, or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The minimum amount of liability insurance coverage is subject to revision by the District Engineer every three years or upon renewal or modification of this lease.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types

ER 405-1-12  
Change 30  
30 Sep 94

of facilities, services and activities involved. The lessee shall require that the insurance company give the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. The District Engineer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**12. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes; to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**13. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**14. RESTORATION**

ER 405-1-12  
Change 30  
30 Sep 94

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate or as otherwise specified by the provisions of the condition on **RENTAL ADJUSTMENT**. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the said officer, the property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

15. **NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

16. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with the use of the premises by the Lessee,

17. **SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the lessee's operations or would be contrary to local law.

18. **TERMINATION**

This lease may be terminated by the Lessee at any time by giving the District Engineer at least thirty (30) days notice in writing provided that no refund by the United States of any rental previously paid shall be made, and provided further, that in the event that said notice is not given at least thirty (30) days prior to the rental due date, the Lessee shall be required to pay the rental for the period shown in the condition on **CONSIDERATION**.

19. **RENTAL ADJUSTMENT**

In the event the United States revokes this lease or in any other manner materially reduces the leased area or materially affects its use by the Lessee

ER 405-1-12  
Change 30  
30 Sep 94

prior to the expiration date, an equitable adjustment will be made in the rental paid or to be paid under this lease. Such adjustment of rental shall be evidenced by a supplemental agreement in writing; PROVIDED however, that none of the provisions of this paragraph shall apply in the event of revocation because of noncompliance by the Lessee with any of the terms and conditions of this lease.

20. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance. The Lessee shall not sell, store or dispense, or permit the sale, storage, or dispensing of beer or other intoxicating liquors on the premises.

b. The Lessee shall not construct or place any structure, improvement or advertising sign or allow or permit such construction or placement without prior written approval of the District Engineer.

21. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises except as authorized in writing by the District Engineer.

22. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A Claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief;

(iii) and the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest or the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, or action arising under the lease, and comply with any decision of the District Engineer.

### 23. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the premises against pollution of its air, ground, and water. The Lessee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, State, interstate or local governmental agency are hereby made a condition of this lease. The Lessee shall not discharge waste or effluent from the premises

ER 405-1-12  
Change 30  
30 Sep 94

in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from activities of the lessee, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**24. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**25. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**26. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

**27. TAXES**

Any and all taxes imposed by the state or its political subdivisions upon the property or interest of the Lessee in the premises shall be paid promptly by the Lessee. If and to the extent that the property owned by the Government is later made taxable by State or local governments under an Act of Congress, the lease shall be renegotiated.

**28. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to

ER 405-1-12  
Change 30  
30 Sep 94

the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

29. **OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

30. **SEVERAL LESSEES**

If more than one Lessee is named in this lease the obligations of said Lessees herein contained shall be joint and several obligations.

31. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as all other conditions of this lease.

32. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**NOTE:** The following condition should be deleted only on leases of military property when the annual rental value exceeds \$200,000.

**THIS LEASE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF,** I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

2. **CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

3. **NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_

\_\_\_\_\_;  
and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_,

\_\_\_\_\_ , or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. **AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer or "Lessor" shall

ER 405-1-12  
Change 30  
30 Sep 94

include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit \_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

**8. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and said improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the

ER 405-1-12  
Change 30  
30 Sep 94

expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

#### 11. **FEEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. **ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of

ER 405-1-12  
Change 30  
30 Sep 94

Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance,

c. The District Engineer may require closure of any or all of the premises during any period for which the sub-lessees and concessionaires do not have the required insurance coverage.

#### 17. **RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. **NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. S 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sub-lessees and assignees.

#### 19. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

**20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM4), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**21. COMPLIANCE, CLOSURE, REVOICATION AND RELINQUISHMENT**

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on NOTICES.

**22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

ER 405-1-12  
Change 30  
30 Sep 94

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

ER 405-1-12  
Change 30  
30 Sep 94

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby

ER 405-1-12  
Change 30  
30 Sep 94

made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Service for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINENT FEES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**34. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**35. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_  
\_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO NON-STATE GOVERNMENTAL AGENCIES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_;

and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_,

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

ER 405-1-12  
Change 30  
30 Sep 94

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

#### 5. DEVELOPMENT PLANS

The Lessee shall be guided by an annual Plan of Operation and Maintenance in furtherance of the Lessee's implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit\_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. No later than \_\_\_\_\_ of each year the Lessee will submit the annual Plan to be mutually agreed on between the Lessee and the District Engineer. Such annual Plan shall include but is not limited to the following:

a. Plans for management, maintenance and development activities to be undertaken by the Lessee and any sublessees.

b. Report of the management, maintenance and development accomplishments of the Lessee for the preceding year.

c. Report on any significant modification of policies or procedures which are planned for the following year as well as those implemented in the preceding year.

d. Minor modifications to the Development Plan. Major modifications are to be accomplished by amendment to the Plan before proceeding to implement any changes in the development or management of the leased premises.

e. Budget of the Lessee for carrying out all activities for the upcoming year.

f. Personnel to be used in the management of the leased premises.

g. Annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. STRUCTURE AND EQUIPMENT

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**. However, not structures may be erected or altered upon the premises unless and until the type of use, design, and proposed location or alteration thereof shall have been approved in writing by the District Engineer. The District Engineer may require the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, upon the completion of each of the proposed developments to furnish complete "as built" construction plans for all facilities.

#### 7. **APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disability Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

##### **(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

**10. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**12. ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall establish and maintain accurate records and accounts and provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner

ER 405-1-12  
Change 30  
30 Sep 94

whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum Combined Single Limit of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee, sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. In the event the Lessee is self-insured, the Lessee shall certify such self-insurance in writing in the minimum amount specified above to the District Engineer. The Lessee's insurance status shall not eliminate the requirement for its sub-lessees and concessionaires to have insurance from a reputable insurance carrier as set out above.

d. The District Engineer may require closure of any or all of the premises during any period for which the Lessee and/or its sub-lessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the

ER 405-1-12  
Change 30  
30 Sep 94

premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. NON-DISCRIMINATION

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is rec Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### 19. SUBJECT TO EASEMENTS

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

#### 20. SUBJECT TO MINERAL INTERESTS

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### 21. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and

ER 405-1-12  
Change 30  
30 Sep 94

continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sub-lessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

## 22. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

## 23. **PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

## 24. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the

ER 405-1-12  
Change 30  
30 Sep 94

premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

## 25. NATURAL RESOURCES

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

## 26. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENT PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. my such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any spoil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full ammount of such commision, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However nothing herein contained shall be construed to extend to

ER 405-1-12  
Change 30  
30 Sep 94

any incorporated company if the lease be for the general benefit of such corporation or company.

34. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

35. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE FOR**  
**FISH AND WILDLIFE MANAGEMENT PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section(s) \_\_\_\_\_, and for the consideration hereinafter set forth, hereby grants to the Lessee: the land and/or water areas under the primary jurisdiction of the Department of the Army as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for fish and wildlife management purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and

ER 405-1-12  
Change 30  
30 Sep 94

deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZE REPRESENTATIVES INCLUDED**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include its successors, employees and duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by a Fish and Wildlife Development and Management Plan (Development Plan), attached as Exhibit \_\_\_\_\_, which shows the facilities and management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to accomplish the purposes of this lease. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the condition on **RESTORATION**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, and use of pesticides. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises, if any, have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

**8. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

ER 405-1-12  
Change 30  
30 Sep 94

b. An inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

**9. FISH AND WILDLIFE ACTIVITIES**

a. The lessee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the lessee for wildlife habitat will be made available for lease by the District Engineer for agricultural or grazing purposes under conditions which would not be incompatible with the lessee's use of the premises.

c. The Lessee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

**10. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the demised premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. Agreements covered by the condition on **FISH AND WILDLIFE ACTIVITIES** are not subject to this condition.

**11. ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the Lessee from operations conducted on the premises may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. The District Engineer shall have the right to perform audits of the Lessee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of Lessee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

ER 405-1-12  
Change 30  
30 Sep 94

c. Proceeds derived from the sale of fishing and hunting leases are not subject to this condition.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

**14. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

ER 405-1-12  
Change 30  
30 Sep 94

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

**18. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to the United States in the manner prescribed in the condition on **NOTICES**.

20. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean and safe condition.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

21. **PUBLIC USE**

No attempt shall be made by the Lessee to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

22. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the condition on **DEVELOPMENT PLANS**. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

23. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer,

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 24. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the

ER 405-1-12  
Change 30  
30 Sep 94

premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticide or herbicides are applied to the premises.

#### 25. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### 26. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### 27. **SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

#### 28. **TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

#### 29. **COVENANT AGAINST CONTINGENT FEES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**30. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**31. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**32. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE**  
**FOR COMMERCIAL CONCESSION PURPOSES**

\_\_\_\_\_  
 SITE

\_\_\_\_\_  
 PROJECT NAME

\_\_\_\_\_  
 COUNTY, STATE

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for commercial concession purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION**

a. The rent due to the United States in consideration of this lease shall be calculated using the Revised Graduated Rental System (RGRS). The total gross receipts for each rental payment period will be multiplied by the applicable percentage rate and the resulting total due payable within ten days to \_\_\_\_\_

The percentage rate for the upcoming rental year will be selected from the following RGRS rental rate chart, using the line for the total gross receipts of the ending rental year:

GROSS RECEIPTS (GR)	% RENT
Under \$50,000	2.0%
\$50,000-\$200,000	2.1%
\$200,000-\$400,000	2.2%
\$400,000-\$600,000	2.3%
\$600,000-\$800,000	2.4%
\$800,000-\$1,000,000	2.5%

\$2,600,000-\$2,800,000	3.4%
\$2,800,000-\$3,000,000	3.5%
\$3,000,000-\$3,200,000	3.6%
\$3,200,000-\$3,400,000	3.7%
\$3,400,000-\$3,600,000	3.8%
\$3,600,000-\$3,800,000	3.9%
\$3,800,000-\$4,000,000	4.0%
\$4,000,000-\$4,200,000	4.1%
\$4,200,000-\$4,400,000	4.2%
\$4,400,000-\$4,600,000	4.3%
\$4,600,000-\$4,800,000	4.4%
\$4,800,000-\$5,000,000	4.5%
\$5,000,001 and above	4.6%

(1) Gross receipts are defined as the total of the concessionaire's receipts from business operations conducted on the premises, including receipts of sub-lessees and licensees. No reductions are permitted except the costs of hunting and fishing licenses, and license fees and taxes collected for direct remittance to a taxing authority, and the exact amount collected from customers for electrical service which is metered to the customer and collected by the Lessee as the servicing agent and paid to the power company. (OPTIONAL: Sale receipts from boats and motors are excluded and assessed a straight one-percent rent.)

(2) The rental payment shall be (monthly) (quarterly) (semi-annually) (annually) with the first payment due \_\_\_\_\_. The rental year (will begin on the beginning date of this lease, and each anniversary date thereafter) (will be a partial year the first year, beginning on the date of this lease and ending on 31 December\_\_\_\_; for each rental year thereafter, the year will begin on 1 January and end on 31 December.)

(3) RENT PAYMENT CALCULATION FORM

Reporting period \_\_\_\_\_

a) Gross receipts for this period: \$ \_\_\_\_\_

b) Rent rate: x \_\_\_\_\_

c) Amount due (a x b) \$ \_\_\_\_\_

IF OPTIONAL BOAT RATE SELECTED:

d) Boat and motor sales: \$ \_\_\_\_\_

e) Rate: x 0.01

f) Amount due (d x e) \$ \_\_\_\_\_

TOTAL DUE (C+f) \$ \_\_\_\_\_

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. § 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an

ER 405-1-12  
Change 30  
30 Sep 94

additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charges.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_, and, if to the United States, to the District Engineer, Attn: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sub-lessees, assignees, transferees, concessionaires, and its duly authorized representatives.

### 5. USE AND DEVELOPMENT OF THE PREMISES

a. The premises may be occupied and used by the Lessee or duly authorized agents, sublessees, assignees, or transferees solely for the conduct of business in connection with the recreational development of the premises for the general use of the public. Lessee shall provide facilities and activities in accordance with the Use and Development Plan and its architectural theme and sign plan, as supplemented or amended, (Development Plan) and attached hereto as Exhibit\_\_\_\_\_. **(FOR RENEWALS WITHOUT SIGNIFICANT PROPOSED NEW DEVELOPMENT, REPLACE PRECEDING SENTENCE WITH THE FOLLOWING):** Lessee shall continue to provide current facilities and activities in accordance with a Use Plan showing location of existing facilities and current activities, attached exhibit \_\_\_\_\_, and will place and maintain signs in accordance with the sign plan, attached as exhibit\_\_\_\_\_.) The sign plan will be in accordance with the Sign Standards Manual, EP 310-1-6A, Chapter 17.

b. No structure may be erected or altered upon the premises unless and until said Development Plan **(FOR RENEWALS WITHOUT A DEVELOPMENT PLAN, REPLACE "said Development Plan" with "such Structure)** has been approved in writing by the District Engineer. The District Engineer may require the Lessee, upon

ER 405-1-12  
Change 30  
30 Sep 94

completion of each of the proposed developments, to furnish a complete "as built" site plan and "as built" construction plans for all facilities with certification by a Professional Engineer that the construction meets all codes and standards.

**(DELETE THE FOLLOWING CONDITION FOR RENEWAL WITHOUT DEVELOPMENT PLANS)**

c. The District Engineer may agree in writing to an extension of time for providing the facilities and activities designated in said Development Plan or may waive the providing thereof for other than those specified for the first lease year as designated in said development Plan, whenever, in the opinion of the District Engineer, the public demand does not reach the anticipated level at the time stated, or when a delay in providing the facilities and services is beyond the control of the Lessee; provided, however, that at the discretion of the District Engineer, such undeveloped areas may be withdrawn from the leased premises.

d. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. Modifications to said Development Plan must be approved in writing by the District Engineer prior to implementation of the change.

e. All structures and equipment furnished by the Lessee shall be and remain the property of the Lessee, except as otherwise provided in the Condition on RESTORATION.

**(DELETE THE FOLLOWING CONDITION FOR LEASE RENEWALS)**

**6. PERFORMANCE OF CONTRACT**

The Lessee agrees to obtain and deliver to the District Engineer, within thirty (30) days, either a valid surety bond issued by a surety corporation licensed by a state regulatory entity, a performance deposit, or an irrevocable letter of credit issued by a Federally insured financial institution in a form satisfactory to the District Engineer. Said surety bond, performance deposit, or letter of credit shall be in the sum of \$\_\_\_\_\_, payable to the United States, and conditioned upon full and satisfactory performance of the obligations of the Lessee herein set forth in this lease. To insure favorable performance by the Lessee of all the covenants, terms and conditions of this lease, said deposit shall be retained or said bond or letter of credit shall be kept in full force and effect by the Lessee until released in writing by the District Engineer upon completion of the development set out in said Development Plan, attached as Exhibit \_\_\_\_\_, as supplemented or amended, is completed.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be

ER 405-1-12  
Change 30  
30 Sep 94

either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY.**

**8. RATES AND PRICES**

a. The rates and prices charged by the Lessee or its sub-lessees shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The District Engineer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. The Lessee shall keep such rates and prices posted at all times in an appropriate and conspicuous place on the premises. The District Engineer may require submission of a schedule of the rates and prices at any time.

b. However, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**12. INSURANCE**

a. At the commencement of this lease, the Lessee will obtain from a reputable insurance company, or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and

ER 405-1-12  
Change 30  
30 Sep 94

consistent with sound business practices or a minimum Combined Single Limit of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee under the terms and conditions of this lease, and the Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, a certificate of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance coverage required. The policy shall provide that the insurance company give the District Engineer thirty (30) days written notice of any cancellation, non-renewal or change in such insurance.

b. The lessee's sublessees and licensees, at the commencement of operating under the terms of this lease, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and licensees under the terms of this lease. The lessee shall require any insurance carrier or carriers to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

c. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. The District Engineer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

d. As to those structures and improvements on the premises constructed by or at the expense of the United States, for such periods the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration, or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration, or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however, that the insurer, after payment of any proceeds to the Lessee in accordance with the provisions of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore, or replace the leased premises or any part thereof.

ER 405-1-12  
Change 30  
30 Sep 94

**13. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the leased premises. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

**15. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

**16. TAXES**

Payment of any and all taxes imposed by the state or its political subdivisions upon the property or business of the Lessee on the premises is the responsibility of the Lessee.

ER 405-1-12  
Change 30  
30 Sep 94

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easments subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

**18. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to Federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**19. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or a controlling interest therein (including, without limitation, mergers, consolidations, reorganizations, or other business combinations), nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease, nor shall this lease be assignable or transferable by process or operation of law including, but not limited to, insolvency proceedings, bankruptcy, or intestacy, or in any other manner whatever.

(1) Failure to comply with this condition or the procedures described herein shall constitute a material breach of this lease for which this lease may be revoked immediately by the District Engineer, and, the secretary shall not be obligated to recognize any right of any person or entity to an interest in this lease or to own or operate the facilities authorized hereunder acquired in violation hereof.

(2) The Lessee shall advise the person(s) or entity proposing to enter into a transaction described in Subsection a. above that the District Engineer shall be notified and that the proposed transaction is subject to review and approval by the District Engineer. The Lessee shall request in writing the District Engineer's approval of the proposed transaction and shall promptly provide the District Engineer all relevant documents related to the transaction, and the name(s) and qualifications of the person(s) or entity involved in the proposed transaction.

b. The District Engineer, in exercising discretion to approve or disapprove transfer, assignments, or subleases, shall among other matters, take into consideration the management qualifications of the individuals or entities that would thereby obtain a controlling interest in the facilities or services authorized hereunder, the experience of such individuals or entities with similar operations, and the ability of such individuals or entities to operate the operations authorized hereunder in the public interest.

c. The term "controlling interest" in a Lessee's ownership shall mean, in the instance of a corporate Lessee, an interest beneficial or otherwise, of sufficient outstanding voting securities or capital of the Lessee so as to permit exercise of substantial managerial influence over the operations of the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, and, in the instance of a partnership, joint venture, or individual Lessee, any beneficial ownership of the capital assets of the Lessee sufficient to permit substantial managerial influence over the operations of the Lessee. The District Engineer will determine at the request of interested parties whether or not an interest in a lease constitutes a controlling interest within the meaning hereof.

d. The Lessee may not enter into any agreement with any entity or person, except employees of the Lessee, to exercise substantial management responsibilities for the operation authorized hereunder or any part thereof without the prior written approval of the District Engineer.

e. No mortgage shall be executed, and no bonds, shares of stock, or other evidence of interest in, or indebtedness upon the assets of the Lessee located on the premises, including this lease, shall be issued, except for the purposes of installing, enlarging, refinancing or improving concession plant, equipment and facilities, provided that, such assets, in addition, may be encumbered for the purposes of purchasing existing concession plant, equipment and facilities. In the event of default on such a mortgage, encumbrance, or such other indebtedness, or of other assignment, transfer, or encumbrance, the creditor or any assignee thereof shall succeed to the interest of the Lessee in such assets but shall not thereby acquire operating rights or privileges. Such rights or privileges shall be subject to disposition by the District Engineer.

f. The lessee may allow independent private service companies to enter and conduct business on the premises for the benefit of the Lessee's customers on an as-called basis without a formal sublease or license agreement, provided that the service is occasional and incidental to the Lessee's operation and that any compensation paid to the Lessee is included in gross receipts.

g. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

## 20. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of its terms and conditions and continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving six months prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the District Engineer may elect to revoke this lease by notification in writing to the Lessee.

#### 21. HEALTH AND SAFETY

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to the health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee will be obligated to pay rental, notwithstanding any interruption or suspension of activities. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

#### 22. PUBLIC USE

No attempt shall be made by the Lessee, nor any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

#### 23. PROHIBITED USES

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

ER 405-1-12  
Change 30  
30 Sep 94

24. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Condition on **USE AND DEVELOPMENT OF THE PREMISES** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber.

25. **ACCOUNTS AND RECORDS**

a. The Lessee shall maintain complete and accurate records and no later than 120 days following the end of the Lessee's fiscal year shall submit to the District Engineer reports and data for the preceding year to include a financial statement for the activity covered by the lease and compiled by an independent certified public accountant or by an independent licensed public accountant certified or licensed by a regulatory authority of a state.

b. The District Engineer shall have the right at any time (1) to verify all financial reports and copy the books, correspondence, memoranda, income tax returns and other records of the Lessee and sublessees, if any, and of the records of proprietary or affiliated companies, if any, related to this lease during the period of the lease (This right shall extend for such time thereafter as may be necessary to accomplish such verification, but in no event more than five (5) years after the close of the business year of the Lessee); (2) to require the Lessee to furnish an audited financial statement; or (3) to require the Lessee to furnish an audited statement of gross receipts for the concession operation, including the gross income of any sublease operation, and certification of the accuracy of the reported income.

c. Statements will be prepared by an independent certified public accountant or by a licensed public accountant certified or licensed by a regulatory authority of a state. Audits will be in accordance with the auditing standards and procedures promulgated by the American Institute of Certified Public Accountant. Financial statements requiring audits and accompanied by remarks such as "prepared from client records without audit" are unacceptable. Audited and reviewed financial statements shall contain appropriate footnotes. The independent licensed or certified public accountant shall include a statement to the effect that the amounts included in the financial report are consistent with those included in the Federal tax returns. If the amounts are not consistent, then a statement showing differences shall be included. An audit of Lessees tax returns is not required.

26. **ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation

ER 405-1-12  
Change 30  
30 Sep 94

facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the property in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

#### 27. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### 28. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### 29. **SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected as directed by the District Engineer.

#### 30. **LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

#### 31. **HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

ER 405-1-12  
Change 30  
30 Sep 94

32. **TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites, said system to be acceptable to the District Engineer.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by the District Engineer.

33. **DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-6113) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certification described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the Condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 34. **COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

#### 35. **OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

#### 36. **SEVERAL LESSEES**

If more than one Lessee is named in this lease the obligations of said Lessees herein contained shall be joint and several obligations.

ER 405-1-12  
Change 30  
30 Sep 94

37. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

38. **DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE TO NONPROFIT ORGANIZATION**  
**FOR PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
SITE

\_\_\_\_\_  
PROJECT NAME

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration set forth herein, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for

\_\_\_\_\_

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue

ER 405-1-12  
Change 30  
30 Sep 94

from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**2. CONSIDERATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON NON-DISCRIMINATION)**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. APPLICABLE LAWS AND REGULATIONS**

a. The lessee shall comply with all applicable federal laws and regulations and with all applicable laws, ordinances and regulations of the state, county and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

ER 405-1-12  
Change 30  
30 Sep 94

b. The lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

#### 7. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

#### 8. **DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for park or recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

#### 9. **AVAILABILITY OF THE PREMISES**

The Lessee agrees that the premises are leased for organized group recreational use only and that the premises and the facilities thereon must be made available on a rotational basis among any various groups within the lessee organization, and their guests. The Lessee further agrees to make the site and facilities available to other nonprofit organizations on a first come, first served reservation basis when not scheduled for use by members of the Lessee organization. The Lessee will not unreasonably withhold availability to such organizations.

#### 10. **TRANSFERS AND ASSIGNMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee will not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for use of the premises or facilities constructed thereon. The said officer shall have the right to review such fees and require an increase or reduction when it is determined that the objectives of this lease have been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. All monies received by the Lessee from operations conducted on the premises must be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Any such monies not so utilized or programmed for use within a reasonable time shall be paid to said officer at the end of each 5 year period. The Lessee shall furnish annual statements of receipts and expenditures to said officer.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**14. INSURANCE**

a. At the commencement of this, the Lessee shall obtain from a reputable insurance company or companies, liability insurance. The insurance

ER 405-1-12  
 Change 30  
 30 Sep 94

shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the lessee under the terms of this lease. The Lessee shall require its insurance company to furnish to said officer a copy of the policy or policies, or if acceptable to said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give said officer thirty (30) days written notice of any cancellation or change in such insurance. Said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessees cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**15. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the lessee, or for damages to the property or injuries to the person of the lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**16. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the

lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**17. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**17. NON-DISCRIMINATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON CONSIDERATION)**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**18. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

**19. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said

ER 405-1-12  
Change 30  
30 Sep 94

mineral leases that are designed to protect the premises from activities that would interfere with the lessee's operations or would be contrary to local law.

**20. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event the Lessee violates any of its terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Decisions by the said officer concerning future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall reflect the lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on NOTICES.

**21. HEALTH AND SAFETY**

a. The lessee shall keep the premises in good order and in a clean, sanitary and safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

**22. PUBLIC USE**

The lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

**23. PROHIBITED USES**

a. The lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

ER 405-1-12  
Change 30  
30 Sep 94

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the lessee organization and their guests. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

#### 24. NATURAL RESOURCES

The lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The lessee may salvage fallen or dead timber on the leased premises for use as firewood only. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

#### 25. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) (i) If the Lessee is an individual, the certificate shall be executed by that individual.

(ii) If the Lessee is not an individual, the certification shall be executed by:

ER 405-1-12  
Change 30  
30 Sep 94

(A) A senior company official in charge at the Lessee's location involved; or

(B) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 26. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The lessee shall require all sanitation facilities on boats moored at the lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**27. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**28. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

**29. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

**30. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**31. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

**32. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**33. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**34. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

IN WITNESS WHEREOF, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE FOR**  
**PRIVATE RECREATION PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
PROJECT

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for private recreation purposes consisting of \_\_\_\_\_

\_\_\_\_\_.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

A. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$\_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

 Change 30  
 30 Sep 94

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

### 5. SUPERVISION BY THE DISTRICT ENGINEER

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable federal, laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable NFPA codes.

#### **7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

#### **(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is to be attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

#### **8. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for private recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the condition on RESTORATION, and shall be maintained by the Lessee to the satisfaction of said officer.

#### **9. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee shall not subdivide nor develop the premises into private residential development.

#### **10. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property

ER 405-1-12  
Change 30  
30 Sep 94

located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**11. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**15. SUBJECT TO EASEMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

#### **16. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

#### **17. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on **NOTICES**.

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the said officer may elect to revoke this lease by notification in writing to the Lessee.

#### **18. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, safe and sanitary condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

19. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the Lessee organization and their guests only.

c. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by said officer.

20. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The Lessee may salvage fallen or dead timber, however, no commercial use shall be made of such timber. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

21. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 22. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or

ER 405-1-12  
Change 30  
30 Sep 94

instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### **23. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirement of the Lessee. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

#### **24. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

#### **25. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

#### **26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

27. **OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

28. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

29. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**

**LEASE TO NONPROFIT ORGANIZATION  
FOR COOPERATIVE MANAGEMENT OF**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, a non-profit corporation duly organized and existing under and by virtue of the laws of the State of \_\_\_\_\_, with its principal office in the City of \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and pursuant to a Cooperative Agreement dated \_\_\_\_\_, hereinafter referred to as the Agreement, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the premises, for the development and management, in cooperation with the Secretary.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee, in cooperation with the Secretary, for the benefit of the United States and the general public in accordance with the terms of this lease and those of the Agreement. It is understood and agreed that this lease will be controlling if there are any conflicts between the two documents.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_

and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage

ER 405-1-12  
Change 30  
30 Sep 94

prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, successors, and its duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer, including any special provisions that may be established due to the cooperative joint management of the premises by the Lessee and the United States as contemplated by the Agreement.

**6. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county, and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, Repairs to additions thereto except as may be required to carry out its responsibilities pursuant to the terms of the Agreement.

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the said officer and the Lessee to reflect the condition of the said property and improvements. A copy of the said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such settlement will take into account the cooperative relationship of the parties, and will reflect an equitable apportionment of damages.

**8. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the said officer the lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**9. FEES, RATES AND PRICES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee may charge a general admission fee and/or fees for visitor/interpretative services or special events. The said officer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. Monies received by the Lessee from operations conducted on the premises shall be utilized by the Lessee to fulfill its obligations under the Agreement. The Lessee shall furnish an annual report of itemized receipts and expenditures to said officer.

**10. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises in accordance with the Agreement. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

**11. PROTECTION OF PROPERTY**

The lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the lessee to a condition satisfactory to the said officer, or at the election of the said officer, reimbursement made therefor by the lessee in an amount necessary to restore or replace the property to a condition satisfactory to the said officer.

**12. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**13. INSURANCE**

a. At the commencement of this lease, the lessee shall obtain, from a reputable insurance company or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this lease. The Lessee shall require the insurance company or companies to furnish the said officer a copy

ER 405-1-12  
Change 30  
30 Sep 94

of the policy or policies, or if acceptable to the said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the said officer thirty (30) days written notice of any cancellation or change in such insurance. The said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessee's cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**14. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and

ER 405-1-12  
Change 30  
30 Sep 94

restore the premises, then, at the option of the said officer, said property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation. 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of the said officer, interfere with the use of the premises by the Lessee.

**18. SUBJECT TO MINERAL INTEREST**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licenses are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance.

ER 405-1-12  
Change 30  
30 Sep 94

Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving Ninety (90) days prior written notice to the said officer in the manner prescribed in the Condition on NOTICES.

#### 20. HEALTH AND SAFETY

a. The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, the said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

#### 21. PUBLIC USE

The Lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

#### 22. PROHIBITED USES

The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

#### 23. NATURAL RESOURCES

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT**. The Lessee may salvage fallen or dead timber on the premises for use as firewood. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

ER 405-1-12  
Change 30  
30 Sep 94

#### 24. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. § 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph C. (2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A Claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A Claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

ER 405-1-12  
Change 30  
30 Sep 94

g. The Government shall pay interest or the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, or action arising under the lease, and comply with any decision of the said officer.

#### 25. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. Services for waste disposal shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### 26. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation, or relinquishment of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining the environmental restoration requirements of the Lessee. Appropriate consideration will be given to the cooperative relationship between the parties.

#### 27. **HISTORIC PRESERVATION**

Except as may be otherwise provided in the Agreement, the Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the said officer and protect

ER 405-1-12  
Change 30  
30 Sep 94

the site and the material from further disturbance until the said officer gives clearance to proceed.

**28. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. My soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

**29. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**30. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

**31. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**32. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**33. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of

ER 405-1-12  
Change 30  
30 Sep 94

this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 U.S.C. § 403), and Section 404 of the Clean Waters Act (33 U.S.C. § 1344) .

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR COST-SHARED PUBLIC PARK AND RECREATIONAL PURPOSES

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

THIS LEASE is made on behalf of the United States, between the SECRETARY OF THE ARMY, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Sections 460d and 4601-13, and Title 33, United States Code, Section 2213, and pursuant to a Project Cooperation Agreement entered into on \_\_\_\_\_ (hereinafter referred to as the PCA), and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the praires, for public park and recreational purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of fifty (50) years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION AND OBLIGATIONS**

The consideration for this lease is the operation and maintenance of the premises and the operation, maintenance, replacement and rehabilitation of the facilities and improvements shown on the inventory prepared under the condition on CONDITION OF THE PREMISES, by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth. As used in this lease the term "replacement" shall be construed to mean the replacement in whole or in part of any structure or improvement so worn or damaged by any cause as to no longer adequately serve its designed function with normal maintenance. As used in this lease the term "rehabilitation" shall mean to restore in whole or in part any structure or improvement to a good and useable condition.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee to \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

\_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives: Any reference to "Lessee" shall include sublessees, transferees, concessionaires, and its duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) \*\* NOTE adopted pursuant to Article I of the PCA and by this reference made a part hereof and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

**\*\*NOTE** The PCA, Art. I, attaches project technical documents, i.e. feasibility studies, GDM. If Federal land will be provided for recreational development, then the documents need to have the same details that would be in a non-cost shared park lease Development Plan.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease at its own expense, to erect additional structures and to provide such equipment upon the premises as may be necessary to furnish additional facilities and services in accordance with an approved amendment to the Plan as provided in the condition on **DEVELOPMENT PLANS**. Those additional structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**, and shall not be added to the inventory described in the Condition on **CONDITION OF THE PREMISES**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of law cited in the granting clause.

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitation Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises and all structures and improvements, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

b. As of the date of this lease an inventory and condition report of all personal property and improvements constructed in whole or in part with Federal funds under the terms of the PCA included in this lease shall be made by a representative of the District Engineer and a representative of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sublessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or any property constructed in whole or in part with Federal funds on the premises. The lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodation, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

b. The Lessee shall neither sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, or license whatsoever in connection with this lease without prior written permission from the District Engineer.

**(ALTERNATE b.) USE IF THE ENTIRE WATER RESOURCE DEVELOPMENT PROJECT IS LEASED SO THAT THE STATE IS THE PRIMARY LAND MANAGER**

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee may grant permits and licenses to adjacent private property owners for use of a portion of the premises if the use is conditioned on:

- (1) Unrestricted use by the general public,
- (2) Free and unimpeded passage along the shore,
- (3) Compatibility with the Plan and the Environmental Impact Statement adopted for the project,
- (4) Signs being posted to the effect that "This is public property open to the general public."

#### 11. FEES

Fees may be charged by the lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. ACCOUNTS, RECORDS AND RECEIPTS

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee to fulfill its obligations under the PCA. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sublessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

#### 13. PROTECTION OF PROPERTY

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes.

#### 14. RIGHT TO ENTER AND FLOOD

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

ER 405-1-12  
Change 30  
30 Sep 94

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. The District Engineer may require closure of any or all of the premises during any period for which the sublessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and so restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work.

**18. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102);

ER 405-1-12  
Change 30  
30 Sep 94

the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### **19. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

#### **20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Department of the Army will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### **21. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

The Lessee and/or any sublessees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such violation. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent.

#### **22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions within the area covered by the lease that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its concessionaires or sublessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sublessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613)(the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim

ER 405-1-12  
Change 30  
30 Sep 94

under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The disposal of any toxic or hazardous materials within the premises is specifically **PROHIBITED**. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

## 28. PRELIMINARY ASSESSMENT SCREENING

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

## 29. HISTORIC PRESERVATION

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

## 30. SOIL AND WATER CONSERVATION

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

## 31. TRANSIENT USE

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60)

ER 405-1-12  
Change 30  
30 Sep 94

consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. HOLD HARMLESS**

The Lessee shall hold and save the Government free from damages arising from the operation, maintenance, replacement and rehabilitation of the premises and the facilities and improvement, except for damages due to the fault or negligence of the Government or the Government's contractors.

**33. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**34. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**35. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**36. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

CONTRACT NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE  
FOR COTTAGE SITE PURPOSES

\_\_\_\_\_  
SITE  
\_\_\_\_\_  
PROJECT NAME  
\_\_\_\_\_  
COUNTY, STATE

THIS LEASE, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and of Section 1134 of the Act of Congress approved 17 November 1986 (P.L. 99-662) and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for recreational cottage site purposes and purposes incidental thereto.

That this lease grants no vested property rights but affords only a limited right to occupy the land pending termination as set out in Condition 14.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term beginning \_\_\_\_\_, 19\_\_, and ending on \_\_\_\_\_ 20\_\_, or until such time as the lease is terminated by the lessee, or by the secretary, as set out in Condition 14 on Termination.

2. **CONSIDERATION**

a. The consideration for this lease is the fair market rental, reviewed and adjusted every 5 years for compliance with fair market value, of the initial sum of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), payable as shown in the attached Exhibit A in advance to the order of the Finance and Accounting Officer (FAO), \_\_\_\_\_, and delivered in the same manner as set out in condition 3 on Notices.

b. All rent and other payments due under the terms of this instrument must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, Title 31, United

ER 405-1-12  
Change 30  
30 Sep 94

States Code, Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from the due date. An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

### **3. NOTICES**

All notices to be given pursuant to this lease shall be addressed, if to the Lessee, to if to the United States, to the District Engineer, \_\_\_\_\_ hereinafter referred to as the District Engineer, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage prepaid in a post office or branch post office regularly maintained by the United States Postal Service.

### **4. AUTHORIZED REPRESENTATIVES INCLUDED**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, and their duly authorized representatives.

### **5. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, use of pesticides, licenses or permits. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer and to such rules and regulations as may be prescribed from time to time.

### **6. USE OF THE PREMISES**

a. The leased premises may be used by the lessee, lessee's family, agents, and guests, for recreational cottage site purposes and purposes incidental thereto and for no other different object or purpose. The lessee may maintain an existing private recreational dwelling, and may maintain existing accessory improvements, but agrees not to unreasonably expand these existing improvements. These existing improvements erected by the lessee or a predecessor under a previous lease shall remain the property of lessee, subject, however, to the provisions of Condition 15 hereof, and shall be maintained by the lessee in a usable and safe condition. Failure to maintain may be grounds for termination under Condition 14.

ER 405-1-12  
Change 30  
30 Sep 94

b. No improvement may be erected, expanded or altered upon the premises unless and until the type of use, design, and proposed location or alterations thereof shall have been approved in writing by the District Engineer.

**7. CONDITION OF PREMISES**

The Lessee acknowledges that he has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**8. TRANSFERS, ASSIGNMENTS, SUBLEASES**

The Lessee shall neither transfer nor assign this lease or any property on the demised premises, nor sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, in license whatsoever in connection with this lease without permission in writing from the District Engineer. The provisions and conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the lessee's heirs, representatives, successors and assigns.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all improvements, trees or timber, and other property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer or at the election of the District Engineer, reimbursement may be made at the current market value.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. This property is located within the 100-year floodplain and is subject to periodic flooding. This lease is subject to floodplain management requirements unless inconsistent with the approved cottage site use.

**11. HOLD HARMLESS**

The lessee agrees to hold the United States harmless from any claim for damages or injury to persons or property arising from the occupancy of or through the use of the premises.

**12. LIGHTS, SIGNALS AND NAVIGATION**

ER 405-1-12  
Change 30  
30 Sep 94

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**13. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which, in the opinion of the District Engineer, is contrary to good morals or is otherwise objectionable; or use the premises or permit them to be used for any illegal or immoral business or purpose. There shall not be carried on or permitted upon the premises any activity which would constitute a nuisance and the Lessee will use the premises in a quiet and inoffensive manner.

b. The Lessee will not conduct any commercial or business activities on the premises.

**14. TERMINATION**

a. This lease may be terminated by the lessee, any successors or assigns of the lessee, at any time by giving ten-days' notice in writing to the District Engineer. Provided that, in case of such termination, no remission shall be made by the United States of any rental theretofore paid, and provided further that, in the event that the notice is not given at least ten days prior to the next rental due date, the lessee shall be required to pay that rental payment. Abandonment or nonuse of the premises for one year or nonpayment of the rent for 90-days past the due date will be considered notice of termination of the lease by the lessee.

b. The Secretary may terminate this lease only if the premises are needed for immediate use for public park purposes or other higher public use or for a navigation or flood control project; or if lessee substantially violates a provision of the lease. The lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies and with compliance with reasonable requests by the District Engineer. The lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. A termination notice will be given in writing to the lessee at least 30 days prior to the termination date and designating the time for compliance with Condition 15.

c. In the event of termination by the lessee or the Secretary, the District Engineer may re-enter the premises andg from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

d. This lease does not exclude lessee from being required to obtain a Department of the Army permit under 33 U.S.C 403 or Section 404.

**22. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**23. SOIL AND WATER CONSERVATION**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all terraces, retaining walls, drop structures, revetments and other soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the use and maintenance of the premises by the Lessee shall be in accordance with good soil and water conservation practices.

**24. SEVERAL LESSEES**

If more than one lessee is named in this lease the obligations of said lessees shall be joint and several obligations.

**25. HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, id States in the premises are concerned. The lessee shall obtain any further permission necessary on account of any other existing rights.

Before the execution of this lease, conditions were deleted, revised and added in the following manner:

IN WITNESS WHEREOF I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

2. **CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

3. **NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_;  
and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_,  
\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. **AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer or "Lessor" shall

ER 405-1-12  
Change 30  
30 Sep 94

include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

**5. DEVELOPMENT PLANS**

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit \_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

**6. STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**.

**7. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

**8. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and said improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the

ER 405-1-12  
Change 30  
30 Sep 94

expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

#### 11. **FEEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. **ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of

ER 405-1-12  
Change 30  
30 Sep 94

Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance,

c. The District Engineer may require closure of any or all of the premises during any period for which the sub-lessees and concessionaires do not have the required insurance coverage.

#### 17. RESTORATION

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. NON-DISCRIMINATION

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. S 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sub-lessees and assignees.

#### 19. SUBJECT TO EASEMENTS

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

**20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM4), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**21. COMPLIANCE, CLOSURE, REVOICATION AND RELINQUISHMENT**

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on NOTICES.

**22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

ER 405-1-12  
Change 30  
30 Sep 94

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

ER 405-1-12  
Change 30  
30 Sep 94

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby

ER 405-1-12  
Change 30  
30 Sep 94

made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Service for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINENT FEES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**34. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**35. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_  
\_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY  
LEASE TO NON-STATE GOVERNMENTAL AGENCIES  
FOR PUBLIC PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for public park and recreational purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_;

and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_;

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

ER 405-1-12  
Change 30  
30 Sep 94

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, and its duly authorized representatives.

#### 5. DEVELOPMENT PLANS

The Lessee shall be guided by an annual Plan of Operation and Maintenance in furtherance of the Lessee's implementing Plan of Recreation Development and Management (Development Plan) attached as Exhibit\_\_\_\_\_ which shows the facilities and services necessary to meet the current and potential public demand and the management and development activities to be undertaken by the Lessee and any sublessees. No later than \_\_\_\_\_ of each year the Lessee will submit the annual Plan to be mutually agreed on between the Lessee and the District Engineer. Such annual Plan shall include but is not limited to the following:

a. Plans for management, maintenance and development activities to be undertaken by the Lessee and any sublessees.

b. Report of the management, maintenance and development accomplishments of the Lessee for the preceding year.

c. Report on any significant modification of policies or procedures which are planned for the following year as well as those implemented in the preceding year.

d. Minor modifications to the Development Plan. Major modifications are to be accomplished by amendment to the Plan before proceeding to implement any changes in the development or management of the leased premises.

e. Budget of the Lessee for carrying out all activities for the upcoming year.

f. Personnel to be used in the management of the leased premises.

g. Annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. STRUCTURE AND EQUIPMENT

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to furnish the facilities and services authorized. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**. However, not structures may be erected or altered upon the premises unless and until the type of use, design, and proposed location or alteration thereof shall have been approved in writing by the District Engineer. The District Engineer may require the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, upon the completion of each of the proposed developments to furnish complete "as built" construction plans for all facilities.

#### 7. **APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. The Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disability Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

##### **(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sub-lessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

**10. TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sub-lessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**12. ACCOUNTS, RECORDS AND RECEIPTS**

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall establish and maintain accurate records and accounts and provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sub-lessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

**13. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**14. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner

ER 405-1-12  
Change 30  
30 Sep 94

whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies contracts of liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum Combined Single Limit of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee, sub-lessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. In the event the Lessee is self-insured, the Lessee shall certify such self-insurance in writing in the minimum amount specified above to the District Engineer. The Lessee's insurance status shall not eliminate the requirement for its sub-lessees and concessionaires to have insurance from a reputable insurance carrier as set out above.

d. The District Engineer may require closure of any or all of the premises during any period for which the Lessee and/or its sub-lessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the

ER 405-1-12  
Change 30  
30 Sep 94

premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

#### 18. **NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is rec Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### 19. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

#### 20. **SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### 21. **COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee and/or any sub-lessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and

ER 405-1-12  
Change 30  
30 Sep 94

continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sub-lessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving one (1) year prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

## 22. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sub-lessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

## 23. **PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

## 24. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the

ER 405-1-12  
Change 30  
30 Sep 94

premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

## 25. NATURAL RESOURCES

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

## 26. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

## 27. ENVIRONMENT PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

**28. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. my such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

**29. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**30. SOIL AND WATER CONSERVATION**

The Lessee shall maintain in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any spoil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**31. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full ammount of such commision, percentage, brokerage, or contingent fee.

**33. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However nothing herein contained shall be construed to extend to

ER 405-1-12  
Change 30  
30 Sep 94

any incorporated company if the lease be for the general benefit of such corporation or company.

34. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

35. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE FOR**  
**FISH AND WILDLIFE MANAGEMENT PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section(s) \_\_\_\_\_, and for the consideration hereinafter set forth, hereby grants to the Lessee: the land and/or water areas under the primary jurisdiction of the Department of the Army as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for fish and wildlife management purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and

ER 405-1-12  
Change 30  
30 Sep 94

deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

#### 4. AUTHORIZE REPRESENTATIVES INCLUDED

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include its successors, employees and duly authorized representatives.

#### 5. DEVELOPMENT PLANS

a. The Lessee shall be guided by a Fish and Wildlife Development and Management Plan (Development Plan), attached as Exhibit\_\_\_\_\_, which shows the facilities and management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. STRUCTURES AND EQUIPMENT

The Lessee shall have the right, during the term of the lease, to erect such structures and to provide such equipment upon the premises as may be necessary to accomplish the purposes of this lease. Those structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the condition on **RESTORATION**.

#### 7. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, and use of pesticides. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of 16 U.S.C. § 460d.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises, if any, have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitations Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. CONDITION OF PREMISES

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

ER 405-1-12  
Change 30  
30 Sep 94

b. An inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY**.

#### 9. **FISH AND WILDLIFE ACTIVITIES**

a. The lessee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the lessee for wildlife habitat will be made available for lease by the District Engineer for agricultural or grazing purposes under conditions which would not be incompatible with the lessee's use of the premises.

c. The Lessee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

#### 10. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease, nor sublet the demised premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease.

b. Agreements covered by the condition on **FISH AND WILDLIFE ACTIVITIES** are not subject to this condition.

#### 11. **ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the Lessee from operations conducted on the premises may be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this lease and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid to the District Engineer. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. The District Engineer shall have the right to perform audits of the Lessee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of Lessee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

ER 405-1-12  
Change 30  
30 Sep 94

c. Proceeds derived from the sale of fishing and hunting leases are not subject to this condition.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

**14. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

ER 405-1-12  
Change 30  
30 Sep 94

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

**18. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to the United States in the manner prescribed in the condition on **NOTICES**.

20. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean and safe condition.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

21. **PUBLIC USE**

No attempt shall be made by the Lessee to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

22. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the condition on **DEVELOPMENT PLANS**. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

23. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to the lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer,

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 24. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the

ER 405-1-12  
Change 30  
30 Sep 94

premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from the District Engineer before any pesticide or herbicides are applied to the premises.

#### 25. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### 26. **HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### 27. **SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

#### 28. **TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

#### 29. **COVENANT AGAINST CONTINGENT FEES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**30. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**31. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**32. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**  
**LEASE**  
**FOR COMMERCIAL CONCESSION PURPOSES**

\_\_\_\_\_  
 SITE

\_\_\_\_\_  
 PROJECT NAME

\_\_\_\_\_  
 COUNTY, STATE

**THIS LEASE** is made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for commercial concession purposes.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION**

a. The rent due to the United States in consideration of this lease shall be calculated using the Revised Graduated Rental System (RGRS). The total gross receipts for each rental payment period will be multiplied by the applicable percentage rate and the resulting total due payable within ten days to \_\_\_\_\_

The percentage rate for the upcoming rental year will be selected from the following RGRS rental rate chart, using the line for the total gross receipts of the ending rental year:

GROSS RECEIPTS (GR)	% RENT
Under \$50,000	2.0%
\$50,000-\$200,000	2.1%
\$200,000-\$400,000	2.2%
\$400,000-\$600,000	2.3%
\$600,000-\$800,000	2.4%
\$800,000-\$1,000,000	2.5%

ER 405-1-12  
 Change 30

\$1,000,000-\$1,200,000	2.6%
\$1,200,000-\$1,400,000	2.7%
\$1,400,000-\$1,600,000	2.8%
\$1,600,000-\$1,800,000	2.9%
\$1,800,000-\$2,000,000	3.0%
\$2,000,000-\$2,200,000	3.1%
\$2,200,000-\$2,400,000	3.2%
\$2,400,000-\$2,600,000	3.3%
\$2,600,000-\$2,800,000	3.4%
\$2,800,000-\$3,000,000	3.5%
\$3,000,000-\$3,200,000	3.6%
\$3,200,000-\$3,400,000	3.7%
\$3,400,000-\$3,600,000	3.8%
\$3,600,000-\$3,800,000	3.9%
\$3,800,000-\$4,000,000	4.0%
\$4,000,000-\$4,200,000	4.1%
\$4,200,000-\$4,400,000	4.2%
\$4,400,000-\$4,600,000	4.3%
\$4,600,000-\$4,800,000	4.4%
\$4,800,000-\$5,000,000	4.5%
\$5,000,001 and above	4.6%

(1) Gross receipts are defined as the total of the concessionaire's receipts from business operations conducted on the premises, including receipts of sub-lessees and licensees. No reductions are permitted except the costs of hunting and fishing licenses, and license fees and taxes collected for direct remittance to a taxing authority, and the exact amount collected from customers for electrical service which is metered to the customer and collected by the Lessee as the servicing agent and paid to the power company. (OPTIONAL: Sale receipts from boats and motors are excluded and assessed a straight one-percent rent.)

(2) The rental payment shall be (monthly) (quarterly) (semi-annually) (annually) with the first payment due \_\_\_\_\_. The rental year (will begin on the beginning date of this lease, and each anniversary date thereafter) (will be a partial year the first year, beginning on the date of this lease and ending on 31 December\_\_\_\_; for each rental year thereafter, the year will begin on 1 January and end on 31 December.)

(3) RENT PAYMENT CALCULATION FORM

Reporting period _____	
a) Gross receipts for this period:	\$ _____
b) Rent rate: _____ x _____	_____
c) Amount due (a x b)	\$ _____
IF OPTIONAL BOAT RATE SELECTED:	
d) Boat and motor sales:	\$ _____
e) Rate: _____ x _____	0.01
f) Amount due (d x e)	\$ _____
TOTAL DUE (C+f)	\$ _____

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. § 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an

ER 405-1-12  
Change 30  
30 Sep 94

additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charges.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_, and, if to the United States, to the District Engineer, Attn: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sub-lessees, assignees, transferees, concessionaires, and its duly authorized representatives.

### 5. USE AND DEVELOPMENT OF THE PREMISES

a. The premises may be occupied and used by the Lessee or duly authorized agents, sublessees, assignees, or transferees solely for the conduct of business in connection with the recreational development of the premises for the general use of the public. Lessee shall provide facilities and activities in accordance with the Use and Development Plan and its architectural theme and sign plan, as supplemented or amended, (Development Plan) and attached hereto as Exhibit\_\_\_\_\_. **(FOR RENEWALS WITHOUT SIGNIFICANT PROPOSED NEW DEVELOPMENT, REPLACE PRECEDING SENTENCE WITH THE FOLLOWING):** Lessee shall continue to provide current facilities and activities in accordance with a Use Plan showing location of existing facilities and current activities, attached exhibit \_\_\_\_\_, and will place and maintain signs in accordance with the sign plan, attached as exhibit\_\_\_\_\_.) The sign plan will be in accordance with the Sign Standards Manual, EP 310-1-6A, Chapter 17.

b. No structure may be erected or altered upon the premises unless and until said Development Plan **(FOR RENEWALS WITHOUT A DEVELOPMENT PLAN, REPLACE "said Development Plan" with "such Structure)** has been approved in writing by the District Engineer. The District Engineer may require the Lessee, upon

ER 405-1-12  
Change 30  
30 Sep 94

completion of each of the proposed developments, to furnish a complete "as built" site plan and "as built" construction plans for all facilities with certification by a Professional Engineer that the construction meets all codes and standards.

**(DELETE THE FOLLOWING CONDITION FOR RENEWAL WITHOUT DEVELOPMENT PLANS)**

c. The District Engineer may agree in writing to an extension of time for providing the facilities and activities designated in said Development Plan or may waive the providing thereof for other than those specified for the first lease year as designated in said development Plan, whenever, in the opinion of the District Engineer, the public demand does not reach the anticipated level at the time stated, or when a delay in providing the facilities and services is beyond the control of the Lessee; provided, however, that at the discretion of the District Engineer, such undeveloped areas may be withdrawn from the leased premises.

d. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer. Modifications to said Development Plan must be approved in writing by the District Engineer prior to implementation of the change.

e. All structures and equipment furnished by the Lessee shall be and remain the property of the Lessee, except as otherwise provided in the Condition on RESTORATION.

**(DELETE THE FOLLOWING CONDITION FOR LEASE RENEWALS)**

**6. PERFORMANCE OF CONTRACT**

The Lessee agrees to obtain and deliver to the District Engineer, within thirty (30) days, either a valid surety bond issued by a surety corporation licensed by a state regulatory entity, a performance deposit, or an irrevocable letter of credit issued by a Federally insured financial institution in a form satisfactory to the District Engineer. Said surety bond, performance deposit, or letter of credit shall be in the sum of \$\_\_\_\_\_, payable to the United States, and conditioned upon full and satisfactory performance of the obligations of the Lessee herein set forth in this lease. To insure favorable performance by the Lessee of all the covenants, terms and conditions of this lease, said deposit shall be retained or said bond or letter of credit shall be kept in full force and effect by the Lessee until released in writing by the District Engineer upon completion of the development set out in said Development Plan, attached as Exhibit \_\_\_\_\_, as supplemented or amended, is completed.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the District Engineer and of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be

ER 405-1-12  
Change 30  
30 Sep 94

either replaced or restored to the condition required by the Condition on **PROTECTION OF PROPERTY.**

**8. RATES AND PRICES**

a. The rates and prices charged by the Lessee or its sub-lessees shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The District Engineer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. The Lessee shall keep such rates and prices posted at all times in an appropriate and conspicuous place on the premises. The District Engineer may require submission of a schedule of the rates and prices at any time.

b. However, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer, or, at the election of the District Engineer, reimbursement may be made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to the District Engineer.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government purposes; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**12. INSURANCE**

a. At the commencement of this lease, the Lessee will obtain from a reputable insurance company, or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and

ER 405-1-12  
Change 30  
30 Sep 94

consistent with sound business practices or a minimum Combined Single Limit of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the Lessee under the terms and conditions of this lease, and the Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, a certificate of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance coverage required. The policy shall provide that the insurance company give the District Engineer thirty (30) days written notice of any cancellation, non-renewal or change in such insurance.

b. The lessee's sublessees and licensees, at the commencement of operating under the terms of this lease, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and licensees under the terms of this lease. The lessee shall require any insurance carrier or carriers to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

c. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the District Engineer thirty (30) days written notice of any cancellation or change in such insurance. The District Engineer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

d. As to those structures and improvements on the premises constructed by or at the expense of the United States, for such periods the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain at the Lessee's cost a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration, or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration, or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purposes hereinabove set forth, then such proceeds shall be paid to the United States, provided however, that the insurer, after payment of any proceeds to the Lessee in accordance with the provisions of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore, or replace the leased premises or any part thereof.

ER 405-1-12  
Change 30  
30 Sep 94

**13. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the leased premises. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

**15. APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

**16. TAXES**

Payment of any and all taxes imposed by the state or its political subdivisions upon the property or business of the Lessee on the premises is the responsibility of the Lessee.

ER 405-1-12  
Change 30  
30 Sep 94

17. **SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easments subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The lessee will not close any established access routes without written permission of the District Engineer.

18. **SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to Federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

19. **TRANSFERS, ASSIGNMENTS, SUBLEASES**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or a controlling interest therein (including, without limitation, mergers, consolidations, reorganizations, or other business combinations), nor sublet the premises or any part thereof, nor grant any interest, privilege, or license whatsoever in connection with this lease, nor shall this lease be assignable or transferable by process or operation of law including, but not limited to, insolvency proceedings, bankruptcy, or intestacy, or in any other manner whatever.

(1) Failure to comply with this condition or the procedures described herein shall constitute a material breach of this lease for which this lease may be revoked immediately by the District Engineer, and, the secretary shall not be obligated to recognize any right of any person or entity to an interest in this lease or to own or operate the facilities authorized hereunder acquired in violation hereof.

(2) The Lessee shall advise the person(s) or entity proposing to enter into a transaction described in Subsection a. above that the District Engineer shall be notified and that the proposed transaction is subject to review and approval by the District Engineer. The Lessee shall request in writing the District Engineer's approval of the proposed transaction and shall promptly provide the District Engineer all relevant documents related to the transaction, and the name(s) and qualifications of the person(s) or entity involved in the proposed transaction.

b. The District Engineer, in exercising discretion to approve or disapprove transfer, assignments, or subleases, shall among other matters, take into consideration the management qualifications of the individuals or entities that would thereby obtain a controlling interest in the facilities or services authorized hereunder, the experience of such individuals or entities with similar operations, and the ability of such individuals or entities to operate the operations authorized hereunder in the public interest.

c. The term "controlling interest" in a Lessee's ownership shall mean, in the instance of a corporate Lessee, an interest beneficial or otherwise, of sufficient outstanding voting securities or capital of the Lessee so as to permit exercise of substantial managerial influence over the operations of the

ER 405-1-12  
Change 30  
30 Sep 94

Lessee, and, in the instance of a partnership, joint venture, or individual Lessee, any beneficial ownership of the capital assets of the Lessee sufficient to permit substantial managerial influence over the operations of the Lessee. The District Engineer will determine at the request of interested parties whether or not an interest in a lease constitutes a controlling interest within the meaning hereof.

d. The Lessee may not enter into any agreement with any entity or person, except employees of the Lessee, to exercise substantial management responsibilities for the operation authorized hereunder or any part thereof without the prior written approval of the District Engineer.

e. No mortgage shall be executed, and no bonds, shares of stock, or other evidence of interest in, or indebtedness upon the assets of the Lessee located on the premises, including this lease, shall be issued, except for the purposes of installing, enlarging, refinancing or improving concession plant, equipment and facilities, provided that, such assets, in addition, may be encumbered for the purposes of purchasing existing concession plant, equipment and facilities. In the event of default on such a mortgage, encumbrance, or such other indebtedness, or of other assignment, transfer, or encumbrance, the creditor or any assignee thereof shall succeed to the interest of the Lessee in such assets but shall not thereby acquire operating rights or privileges. Such rights or privileges shall be subject to disposition by the District Engineer.

f. The lessee may allow independent private service companies to enter and conduct business on the premises for the benefit of the Lessee's customers on an as-called basis without a formal sublease or license agreement, provided that the service is occasional and incidental to the Lessee's operation and that any compensation paid to the Lessee is included in gross receipts.

g. The Lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodations, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

## 20. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event that the Lessee violates any of its terms and conditions and continues and persists in such non-compliance, or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving six months prior written notice to the District Engineer in the manner prescribed in the Condition on **NOTICES**.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the District Engineer may elect to revoke this lease by notification in writing to the Lessee.

#### 21. HEALTH AND SAFETY

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions on the premises that presents an immediate threat to the health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected within the time specified, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee will be obligated to pay rental, notwithstanding any interruption or suspension of activities. The Lessee and its assignees or sub-lessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

#### 22. PUBLIC USE

No attempt shall be made by the Lessee, nor any of its sub-lessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee to manage the premises and provide safety and security to the visiting public.

#### 23. PROHIBITED USES

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal; or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

ER 405-1-12  
Change 30  
30 Sep 94

24. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Condition on **USE AND DEVELOPMENT OF THE PREMISES** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber.

25. **ACCOUNTS AND RECORDS**

a. The Lessee shall maintain complete and accurate records and no later than 120 days following the end of the Lessee's fiscal year shall submit to the District Engineer reports and data for the preceding year to include a financial statement for the activity covered by the lease and compiled by an independent certified public accountant or by an independent licensed public accountant certified or licensed by a regulatory authority of a state.

b. The District Engineer shall have the right at any time (1) to verify all financial reports and copy the books, correspondence, memoranda, income tax returns and other records of the Lessee and sublessees, if any, and of the records of proprietary or affiliated companies, if any, related to this lease during the period of the lease (This right shall extend for such time thereafter as may be necessary to accomplish such verification, but in no event more than five (5) years after the close of the business year of the Lessee); (2) to require the Lessee to furnish an audited financial statement; or (3) to require the Lessee to furnish an audited statement of gross receipts for the concession operation, including the gross income of any sublease operation, and certification of the accuracy of the reported income.

c. Statements will be prepared by an independent certified public accountant or by a licensed public accountant certified or licensed by a regulatory authority of a state. Audits will be in accordance with the auditing standards and procedures promulgated by the American Institute of Certified Public Accountant. Financial statements requiring audits and accompanied by remarks such as "prepared from client records without audit" are unacceptable. Audited and reviewed financial statements shall contain appropriate footnotes. The independent licensed or certified public accountant shall include a statement to the effect that the amounts included in the financial report are consistent with those included in the Federal tax returns. If the amounts are not consistent, then a statement showing differences shall be included. An audit of Lessees tax returns is not required.

26. **ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation

ER 405-1-12  
Change 30  
30 Sep 94

facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the property in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from the District Engineer before any pesticides or herbicides are applied to the premises.

#### **27. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

#### **28. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

#### **29. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of, this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected as directed by the District Engineer.

#### **30. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

#### **31. HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

ER 405-1-12  
Change 30  
30 Sep 94

32. **TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites, said system to be acceptable to the District Engineer.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by the District Engineer.

33. **DISPUTES CLAUSE**

Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-6113) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

ER 405-1-12  
Change 30  
30 Sep 94

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certification described in paragraph c.(2) of this clause, and executed in accordance with paragraph c.(3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the Condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

#### 34. **COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

#### 35. **OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

#### 36. **SEVERAL LESSEES**

If more than one Lessee is named in this lease the obligations of said Lessees herein contained shall be joint and several obligations.

ER 405-1-12  
Change 30  
30 Sep 94

37. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

38. **DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LEASE** is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**

**LEASE TO NONPROFIT ORGANIZATION  
FOR PARK AND RECREATIONAL PURPOSES**

\_\_\_\_\_  
SITE

\_\_\_\_\_  
PROJECT NAME

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration set forth herein, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for

\_\_\_\_\_

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue

ER 405-1-12  
Change 30  
30 Sep 94

from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**2. CONSIDERATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON NON-DISCRIMINATION)**

The consideration for this lease is the operation and maintenance of the premises by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. APPLICABLE LAWS AND REGULATIONS**

a. The lessee shall comply with all applicable federal laws and regulations and with all applicable laws, ordinances and regulations of the state, county and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

ER 405-1-12  
Change 30  
30 Sep 94

b. The lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable codes.

#### 7. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

#### 8. **DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for park or recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

#### 9. **AVAILABILITY OF THE PREMISES**

The Lessee agrees that the premises are leased for organized group recreational use only and that the premises and the facilities thereon must be made available on a rotational basis among any various groups within the lessee organization, and their guests. The Lessee further agrees to make the site and facilities available to other nonprofit organizations on a first come, first served reservation basis when not scheduled for use by members of the Lessee organization. The Lessee will not unreasonably withhold availability to such organizations.

#### 10. **TRANSFERS AND ASSIGNMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof, nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee will not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**11. FEES**

Fees may be charged by the Lessee for use of the premises or facilities constructed thereon. The said officer shall have the right to review such fees and require an increase or reduction when it is determined that the objectives of this lease have been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. All monies received by the Lessee from operations conducted on the premises must be utilized by the Lessee for the administration, maintenance, operation and development of the premises. Any such monies not so utilized or programmed for use within a reasonable time shall be paid to said officer at the end of each 5 year period. The Lessee shall furnish annual statements of receipts and expenditures to said officer.

**12. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**13. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**14. INSURANCE**

a. At the commencement of this, the Lessee shall obtain from a reputable insurance company or companies, liability insurance. The insurance

ER 405-1-12  
 Change 30  
 30 Sep 94

shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$ \_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the lessee under the terms of this lease. The Lessee shall require its insurance company to furnish to said officer a copy of the policy or policies, or if acceptable to said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give said officer thirty (30) days written notice of any cancellation or change in such insurance. Said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessees cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**15. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the lessee, or for damages to the property or injuries to the person of the lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**16. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the

lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**17. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**17. NON-DISCRIMINATION (ALTERNATE) (USE ONLY WITH THE ALTERNATE CONDITION ON CONSIDERATION)**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**18. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

**19. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said

ER 405-1-12  
Change 30  
30 Sep 94

mineral leases that are designed to protect the premises from activities that would interfere with the lessee's operations or would be contrary to local law.

**20. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licensees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event the Lessee violates any of its terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Decisions by the said officer concerning future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall reflect the lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on NOTICES.

**21. HEALTH AND SAFETY**

a. The lessee shall keep the premises in good order and in a clean, sanitary and safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

**22. PUBLIC USE**

The lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

**23. PROHIBITED USES**

a. The lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

ER 405-1-12  
Change 30  
30 Sep 94

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the lessee organization and their guests. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

#### 24. NATURAL RESOURCES

The lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The lessee may salvage fallen or dead timber on the leased premises for use as firewood only. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

#### 25. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) (i) If the Lessee is an individual, the certificate shall be executed by that individual.

(ii) If the Lessee is not an individual, the certification shall be executed by:

ER 405-1-12  
Change 30  
30 Sep 94

(A) A senior company official in charge at the Lessee's location involved; or

(B) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 26. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The lessee shall require all sanitation facilities on boats moored at the lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**27. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**28. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

**29. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

**30. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**31. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

**32. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**33. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**34. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

IN WITNESS WHEREOF, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

NO \_\_\_\_\_  
**DEPARTMENT OF THE ARMY**  
**LEASE FOR**  
**PRIVATE RECREATION PURPOSES**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
PROJECT

\_\_\_\_\_  
COUNTY, STATE

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_ hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises for private recreation purposes consisting of \_\_\_\_\_

\_\_\_\_\_.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

A. The Lessee shall pay rental in advance to the United States in the amount of \_\_\_\_\_ (\$\_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_.

b. All rent and other payments due under the terms of this lease must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 USC Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

ER 405-1-12  
Change 30  
30 Sep 94

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the Lessee). An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary of the Army", "District Engineer" or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include, assignees, transferees, successors and their duly authorized representatives.

### 5. SUPERVISION BY THE DISTRICT ENGINEER

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

a. The Lessee shall comply with all applicable federal, laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business.

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Americans with Disabilities Act, noting any deficiencies and providing a schedule for correction.

ER 405-1-12  
Change 30  
30 Sep 94

c. In addition to other applicable codes, the Lessee shall comply with the current editions of the National Fire Protection Association (NFPA) code 70, National Electric Code, ANSI/NFPA standard 303, Marinas and Boatyards (DELETE IF NOT A MARINA), and other applicable codes and standards covering the type of facilities. Upon request by the District Engineer, the Lessee will provide a certification that all electrical installations on the premises have been inspected by a qualified individual and comply with the applicable NFPA codes.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs or additions thereto.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by said officer and the Lessee to reflect the condition of said property and improvements. A copy of said report is to be attached as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. The report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored to the condition required by the condition on **PROTECTION OF PROPERTY**.

**8. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises for private recreation purposes only and in accordance with a development and management plan as approved in writing by said officer. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the condition on RESTORATION, and shall be maintained by the Lessee to the satisfaction of said officer.

**9. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of said officer the Lessee shall neither transfer nor assign this lease nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee shall not subdivide nor develop the premises into private residential development.

**10. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all property

ER 405-1-12  
Change 30  
30 Sep 94

located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the Lessee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**11. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the Lessee, to flood the premises, to manipulate the level of the lake or pool in any manner whatsoever and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. RESTORATION**

On or before the expiration of this lease or its termination by the lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property, and restore the premises to the aforesaid condition within such time as said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, said property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation or termination of this lease in restoring the premises.

**14. NON-DISCRIMINATION**

The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

**15. SUBJECT TO EASEMENTS**

ER 405-1-12  
Change 30  
30 Sep 94

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the Lessee.

#### **16. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally-owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

#### **17. COMPLIANCE, CLOSURE, REVOCATION, AND RELINQUISHMENT**

a. The Lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving thirty (30) days prior written notice to said officer in the manner prescribed in the condition on **NOTICES**.

c. In addition to the above right of revocation, if the rent or other payments provided to be paid by the Lessee or any part thereof shall be in arrears and unpaid for thirty (30) days after the same shall become due, then, and in such case, the said officer may elect to revoke this lease by notification in writing to the Lessee.

#### **18. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, safe and sanitary condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed until such condition is corrected and the danger eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

19. **PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

b. In accordance with state and local laws and regulations, the Lessee may store, or dispense, or permit the storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises for members of the Lessee organization and their guests only.

c. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees, residing on the premises, for security purposes, if authorized by said officer.

20. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT PLANS**. The Lessee may salvage fallen or dead timber, however, no commercial use shall be made of such timber. All sales of timber or forest products will be conducted by the United States and the proceeds therefrom shall not be available to the lessee under the provisions of this lease.

21. **DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that:

ER 405-1-12  
Change 30  
30 Sep 94

- (i) The claim is made in good faith;
  - (ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and
  - (iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.
- (3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by:
- (i) A senior company official in charge at the Lessee's location involved; or
  - (ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.
- d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.
- e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.
- f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c.(3) of this clause.
- g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.
- h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim or action arising under the lease, and comply with any decision of said officer.

## 22. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or

ER 405-1-12  
Change 30  
30 Sep 94

instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the lessee as appropriate. The lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the lessee shall be liable to restore the damaged resources.

c. The lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**23. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this lease another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirement of the Lessee. Any such requirements will be completed by the Lessee in accordance with the condition on **RESTORATION**.

**24. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify said officer and protect the site and the material from further disturbances until said officer gives clearance to proceed.

**25. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by said officer.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

ER 405-1-12  
Change 30  
30 Sep 94

27. **OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

28. **MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

29. **DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state or local statute in connection with the use of the premises. It is understood that the granting of this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY**

**LEASE TO NONPROFIT ORGANIZATION  
FOR COOPERATIVE MANAGEMENT OF**

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT)

\_\_\_\_\_  
(COUNTY, STATE)

**THIS LEASE**, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, a non-profit corporation duly organized and existing under and by virtue of the laws of the State of \_\_\_\_\_, with its principal office in the City of \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and pursuant to a Cooperative Agreement dated \_\_\_\_\_, hereinafter referred to as the Agreement, and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the premises, for the development and management, in cooperation with the Secretary.

**THIS LEASE** is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_.

**2. CONSIDERATION**

The consideration for this lease is the operation and maintenance of the premises by the Lessee, in cooperation with the Secretary, for the benefit of the United States and the general public in accordance with the terms of this lease and those of the Agreement. It is understood and agreed that this lease will be controlling if there are any conflicts between the two documents.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee, to \_\_\_\_\_

and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage

ER 405-1-12  
Change 30  
30 Sep 94

prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, concessionaires, successors, and its duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer, including any special provisions that may be established due to the cooperative joint management of the premises by the Lessee and the United States as contemplated by the Agreement.

**6. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal, state, county, and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, Repairs to additions thereto except as may be required to carry out its responsibilities pursuant to the terms of the Agreement.

b. As of the date of this lease, an inventory and condition report of all personal property and improvements of the United States included in this lease shall be made by the said officer and the Lessee to reflect the condition of the said property and improvements. A copy of the said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such settlement will take into account the cooperative relationship of the parties, and will reflect an equitable apportionment of damages.

**8. TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the said officer the lessee shall neither transfer nor assign this lease, nor sublet the premises or any part thereof nor grant any interest, privilege or license whatsoever in connection with this lease. Failure to comply with this condition shall constitute a noncompliance for which the lease may be revoked immediately by the said officer.

b. The Lessee shall not sponsor or participate in timeshare ownership of any structure, facilities, accommodations, or personal property on the premises. The Lessee will not subdivide nor develop the premises into private residential development.

**9. FEES, RATES AND PRICES**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee may charge a general admission fee and/or fees for visitor/interpretative services or special events. The said officer shall have the right to review such rates and prices and require an increase or reduction when it is determined that the objective of this paragraph has been violated. However, no user fees may be charged by the Lessee for use of facilities developed in whole or in part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law. Monies received by the Lessee from operations conducted on the premises shall be utilized by the Lessee to fulfill its obligations under the Agreement. The Lessee shall furnish an annual report of itemized receipts and expenditures to said officer.

**10. DEVELOPMENT AND MANAGEMENT PLANS**

The Lessee shall construct, operate and maintain the premises in accordance with the Agreement. All structures shall be constructed and landscaping accomplished in accordance with plans approved by said officer. The Lessee also agrees to prohibit any exclusive or private use of all or any part of the premises by any individual or group of individuals. Title to improvements constructed or placed on the premises by the Lessee shall remain vested in the Lessee, subject to the Condition on **RESTORATION**, and shall be maintained by the Lessee to the satisfaction of said officer.

**11. PROTECTION OF PROPERTY**

The lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the lessee under this lease, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the lessee to a condition satisfactory to the said officer, or at the election of the said officer, reimbursement made therefor by the lessee in an amount necessary to restore or replace the property to a condition satisfactory to the said officer.

**12. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the lands as may be necessary in connection with government purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent or employee thereof.

**13. INSURANCE**

a. At the commencement of this lease, the lessee shall obtain, from a reputable insurance company or companies, liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices or a minimum combined single limit in the amount of \$\_\_\_\_\_, whichever is greater, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons resulting from the operations of the Lessee under the terms of this lease. The Lessee shall require the insurance company or companies to furnish the said officer a copy

ER 405-1-12  
Change 30  
30 Sep 94

of the policy or policies, or if acceptable to the said officer, certificates of insurance evidencing the purchase of such insurance. The District Engineer shall have the right to review and revise the amount of minimum liability insurance required.

b. The insurance policy or policies shall be of comprehensive form of contract and shall specifically provide protection appropriate for the types of facilities, services and activities involved. The Lessee shall require that the insurance company give the said officer thirty (30) days written notice of any cancellation or change in such insurance. The said officer may require closure of any or all of the premises during any period for which the Lessee does not have the required insurance coverage.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

c. As to those structures and improvements on the premises constructed by or owned by the United States, for such periods as the Lessee is in possession of the premises pursuant to the terms and conditions of this lease, the Lessee shall procure and maintain, at the Lessee's cost, a standard fire and extended coverage insurance policy or policies on the leased premises to the full insurable value thereof. The Lessee shall procure such insurance from a reputable company or companies. The insurance policy shall provide that in the event of loss thereunder, the proceeds of the policy or policies, at the election of the United States, shall be payable to the Lessee to be used solely for the repair, restoration or replacement of the property damaged or destroyed, and any balance of the proceeds not required for such repair, restoration or replacement shall be paid to the United States. If the United States does not elect by notice in writing to the insurer within sixty (60) days after the damage or destruction occurs to have the proceeds paid to the Lessee for the purpose hereinabove set forth, then such proceeds shall be paid to the United States, provided however that the insurer, after payment of any proceeds to the Lessee in accordance with the provision of the policy or policies, shall have no obligation or liability with respect to the use or disposition of the proceeds by the Lessee. Nothing herein contained shall be construed as an obligation upon the United States to repair, restore or replace the leased premises or any part thereof.

**14. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the Lessee, or for damages to the property or injuries to the person of the Lessee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the Lessee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**15. RESTORATION**

On or before the expiration of this lease or its termination by the Lessee, the Lessee shall vacate the premises, remove the property of the Lessee, and restore the premises to a condition satisfactory to the said officer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the Lessee shall fail or neglect to remove said property and

ER 405-1-12  
Change 30  
30 Sep 94

restore the premises, then, at the option of the said officer, said property shall either become the property of the United States without compensation therefor, or the said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The Lessee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this lease in restoring the premises.

**16. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin. The Lessee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural And Transportation Barriers Compliance Board.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation. 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

**17. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, or those subsequently granted, as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and the easements will not be granted which will, in the opinion of the said officer, interfere with the use of the premises by the Lessee.

**18. SUBJECT TO MINERAL INTEREST**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM) which has responsibility for mineral development on federal lands. The Secretary will provide lease stipulations to BLM for inclusion in said mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local law.

**19. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

a. The Lessee and/or any sublessees or licenses are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the said officer. This lease may be revoked in the event that the Lessee violates any of the terms and conditions and continues and persists in such non-compliance or fails to obtain correction of deficiencies by sublessees or licensees. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance.

ER 405-1-12  
Change 30  
30 Sep 94

Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent. Future requests by the Lessee to extend the lease, expand the premises, modify authorized activities, or assign the lease shall take into consideration the Lessee's past performance and compliance with the lease terms.

b. This lease may be relinquished by the Lessee by giving Ninety (90) days prior written notice to the said officer in the manner prescribed in the Condition on NOTICES.

#### 20. **HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, safe condition by and at the expense of the Lessee.

b. In addition to the right of revocation for non-compliance previously stated, the said officer, upon discovery of any hazardous condition on the premises that present an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected said officer will have the option to (1) correct the hazardous condition and collect the cost of repairs from the Lessee, or (2) revoke the lease. The Lessee shall have no claim for damages against the United States, or any officer, agent or employee thereof on account of action pursuant to this condition.

#### 21. **PUBLIC USE**

The Lessee shall not forbid the full use by the public of the water areas of the project, subject however, to the authority and responsibility of the Lessee to carry out its responsibilities under this lease to manage the premises and provide safety and security to the facility users.

#### 22. **PROHIBITED USES**

The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted on the premises any activity which would constitute a nuisance. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by the Lessee if permissible by state and local law. Any request to conduct a game of chance must be submitted in writing to said officer.

#### 23. **NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the condition on **DEVELOPMENT AND MANAGEMENT**. The Lessee may salvage fallen or dead timber on the premises for use as firewood. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

ER 405-1-12  
Change 30  
30 Sep 94

#### 24. DISPUTES CLAUSE

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. § 601-613) (the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim", as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to this lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph C. (2) below. The routine request for rental payments that is not in dispute is not a claim under the Act. The request may be converted to a claim under the Act, by this clause, if it is disputed either as a liability or amount or is not acted upon in a reasonable time.

c. (1) A Claim by the Lessee shall be made in writing and submitted to the said officer for a written decision. A Claim by the Government against the Lessee shall be subject to a written decision by the said officer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) the claim is made in good faith; and

(ii) supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) the amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by --

(i) a senior company official in charge of the Lessee's location involved; or

(ii) an officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the said officer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the said officer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The said officer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the said officer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

ER 405-1-12  
Change 30  
30 Sep 94

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the said officer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury as provided in the Act, which is applicable to the period during which the said officer receives the claim and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, or action arising under the lease, and comply with any decision of the said officer.

#### 25. **ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground and water. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the leased area is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or by any federal, state, interstate or local governmental agency, are hereby made a condition of this lease. Services for waste disposal shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

c. The Lessee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### 26. **PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit         . Upon expiration, revocation, or relinquishment of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining the environmental restoration requirements of the Lessee. Appropriate consideration will be given to the cooperative relationship between the parties.

#### 27. **HISTORIC PRESERVATION**

Except as may be otherwise provided in the Agreement, the Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the said officer and protect

ER 405-1-12  
Change 30  
30 Sep 94

the site and the material from further disturbance until the said officer gives clearance to proceed.

**28. SOIL AND WATER CONSERVATION**

The Lessee shall maintain, in a manner satisfactory to the said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. My soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the said officer.

**(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

**29. TRANSIENT USE**

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60) consecutive day period is prohibited.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes if authorized by said officer.

**30. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bon fide employees or established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach of violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage or contingent fee.

**31. OFFICIALS NOT TO BENEFIT**

No member of or delegate to congress or resident commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if this lease is for the general benefit of such corporation or company.

**32. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this lease, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative and this provision shall apply to this condition as well as other conditions of this lease.

**33. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the Lessee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of

ER 405-1-12  
Change 30  
30 Sep 94

this lease does not preclude the necessity of obtaining any Department of the Army permit for activities which involve the discharge of dredge or fill material or placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 U.S.C. § 403), and Section 404 of the Clean Waters Act (33 U.S.C. § 1344) .

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the Army, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_

NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE TO STATES  
FOR COST-SHARED PUBLIC PARK AND RECREATIONAL PURPOSES

\_\_\_\_\_  
(SITE)

\_\_\_\_\_  
(PROJECT NAME)

\_\_\_\_\_  
(COUNTY, STATE)

THIS LEASE is made on behalf of the United States, between the SECRETARY OF THE ARMY, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Sections 460d and 4601-13, and Title 33, United States Code, Section 2213, and pursuant to a Project Cooperation Agreement entered into on \_\_\_\_\_ (hereinafter referred to as the PCA), and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the praires, for public park and recreational purposes.

THIS LEASE is granted subject to the following conditions:

**1. TERM**

Said premises are hereby leased for a term of fifty (50) years, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_.

**2. CONSIDERATION AND OBLIGATIONS**

The consideration for this lease is the operation and maintenance of the premises and the operation, maintenance, replacement and rehabilitation of the facilities and improvements shown on the inventory prepared under the condition on CONDITION OF THE PREMISES, by the Lessee for the benefit of the United States and the general public in accordance with the conditions herein set forth. As used in this lease the term "replacement" shall be construed to mean the replacement in whole or in part of any structure or improvement so worn or damaged by any cause as to no longer adequately serve its designed function with normal maintenance. As used in this lease the term "rehabilitation" shall mean to restore in whole or in part any structure or improvement to a good and useable condition.

**3. NOTICES**

All correspondence and notices to be given pursuant to this lease shall be addressed, if to the Lessee to \_\_\_\_\_

ER 405-1-12  
Change 30  
30 Sep 94

\_\_\_\_\_ and, if to the United States, to the District Engineer, ATTN: Chief, Real Estate Division, \_\_\_\_\_

\_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

#### 4. **AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," or "said officer" shall include their duly authorized representatives: Any reference to "Lessee" shall include sublessees, transferees, concessionaires, and its duly authorized representatives.

#### 5. **DEVELOPMENT PLANS**

a. The Lessee shall be guided by an implementing Plan of Recreation Development and Management (Development Plan) \*\* NOTE adopted pursuant to Article I of the PCA and by this reference made a part hereof and the management and development activities to be undertaken by the Lessee and any sublessees. The Lessee shall provide a copy of any amendment to the Development Plan before proceeding to implement any changes in the development or management of the leased premises. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer.

**\*\*NOTE** The PCA, Art. I, attaches project technical documents, i.e. feasibility studies, GDM. If Federal land will be provided for recreational development, then the documents need to have the same details that would be in a non-cost shared park lease Development Plan.

b. During the term of the lease, the District Engineer will notify the Lessee of any updates to the existing project Master Plan affecting the premises and the Lessee may provide comments.

#### 6. **STRUCTURES AND EQUIPMENT**

The Lessee shall have the right, during the term of the lease at its own expense, to erect additional structures and to provide such equipment upon the premises as may be necessary to furnish additional facilities and services in accordance with an approved amendment to the Plan as provided in the condition on **DEVELOPMENT PLANS**. Those additional structures and equipment shall be and remain the property of the Lessee, except as otherwise provided in the Condition on **RESTORATION**, and shall not be added to the inventory described in the Condition on **CONDITION OF THE PREMISES**.

#### 7. **APPLICABLE LAWS AND REGULATIONS**

a. The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, food service, water supply, sanitation, use of pesticides, and licenses or permits to do business. The Lessee shall make and enforce such regulations as are necessary and within its legal authority in exercising the privileges granted in this lease, provided that such regulations are not inconsistent with those issued by the Secretary of the Army or with the provisions of law cited in the granting clause.

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee will provide an annual certification that all water and sanitary systems on the premises have been inspected and comply with Federal, state and local standards. Lessee will also provide a statement of compliance with the Rehabilitation Act and the Americans with Disabilities Act, as required in the condition on **NON-DISCRIMINATION**, noting any deficiencies and providing a schedule for correction.

#### 8. **CONDITION OF PREMISES**

a. The Lessee acknowledges that it has inspected the premises and all structures and improvements, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

b. As of the date of this lease an inventory and condition report of all personal property and improvements constructed in whole or in part with Federal funds under the terms of the PCA included in this lease shall be made by a representative of the District Engineer and a representative of the Lessee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation, or termination of this lease, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement.

#### 9. **FACILITIES AND SERVICES**

The Lessee shall provide the facilities and services as agreed upon in the Development Plan referred to in the Condition on **DEVELOPMENT PLANS** either directly or through subleases or concession agreements that have been reviewed and accepted by the District Engineer. These subleases or agreements shall state: (1) that they are granted subject to the provisions of this lease; and (2) that the agreement will not be effective until the third party activities have been approved by the District Engineer. The Lessee will not allow any third party activities with a rental to the Lessee or prices to the public which would give the third party an undue economic advantage or circumvent the intent of the Development Plan. The rates and prices charged by the Lessee or its sub-lessees or concessionaires shall be reasonable and comparable to rates charged for similar goods and services by others in the area. The use of sublessees and concessionaires will not relieve the Lessee from the primary responsibility for ensuring compliance with all of the terms and conditions of this lease.

#### 10. **TRANSFERS AND ASSIGNMENTS**

a. Without prior written approval of the District Engineer, the Lessee shall neither transfer nor assign this lease or any property constructed in whole or in part with Federal funds on the premises. The lessee will not sponsor or participate in timeshare ownership of any structures, facilities, accommodation, or personal property on the premises. The lessee will not subdivide nor develop the premises into private residential development.

b. The Lessee shall neither sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, or license whatsoever in connection with this lease without prior written permission from the District Engineer.

**(ALTERNATE b.) USE IF THE ENTIRE WATER RESOURCE DEVELOPMENT PROJECT IS LEASED SO THAT THE STATE IS THE PRIMARY LAND MANAGER**

ER 405-1-12  
Change 30  
30 Sep 94

b. The Lessee may grant permits and licenses to adjacent private property owners for use of a portion of the premises if the use is conditioned on:

- (1) Unrestricted use by the general public,
- (2) Free and unimpeded passage along the shore,
- (3) Compatibility with the Plan and the Environmental Impact Statement adopted for the project,
- (4) Signs being posted to the effect that "This is public property open to the general public."

#### 11. FEES

Fees may be charged by the lessee for the entrance to or use of the premises or any facilities, however, no user fees may be charged by the Lessee or its sublessees for use of facilities developed in whole or part with federal funds if a user charge by the Corps of Engineers for the facility would be prohibited under law.

#### 12. ACCOUNTS, RECORDS AND RECEIPTS

All monies received by the Lessee from operations conducted on the premises, including, but not limited to, entrance, admission and user fees and rental or other consideration received from its concessionaires, may be utilized by the Lessee to fulfill its obligations under the PCA. The Lessee shall provide an annual statement of receipts and expenditures to the District Engineer. Annual or weekly entrance fees not collected on the Project, which also are honored at other recreational areas operated by the Lessee, are excluded from this requirement. The District Engineer shall have the right to perform audits or to require the Lessee to audit the records and accounts of the Lessee, third party concessionaires and sublessees, in accordance with auditing standards and procedures promulgated by the American Institute of Certified Public Accountants or by the state, and furnish the District Engineer with the results of such an audit.

#### 13. PROTECTION OF PROPERTY

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes.

#### 14. RIGHT TO ENTER AND FLOOD

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee.

ER 405-1-12  
Change 30  
30 Sep 94

**15. LIGHTS, SIGNALS AND NAVIGATION**

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**16. INSURANCE**

a. At the commencement of this lease, the Lessee, unless self-insured, and its sub-lessees and concessionaires at the commencement of operating under the terms of this lease as third parties, shall obtain from a reputable insurance company or companies liability insurance. The insurance shall provide an amount not less than that which is prudent, reasonable and consistent with sound business practices, for any number of persons or claims arising from any one incident with respect to bodily injuries or death resulting therefrom, property damage, or both, suffered or alleged to have been suffered by any person or persons, resulting from the operations of the sublessees and concessionaires under the terms of this lease. The Lessee shall require its insurance company to furnish to the District Engineer a copy of the policy or policies, or, if acceptable to the District Engineer, certificates of insurance evidencing the purchase of such insurance.

b. The insurance policy or policies shall specifically provide protection appropriate for the types of facilities, services and products involved; and shall provide that the District Engineer be given thirty (30) days notice of any cancellation or change in such insurance.

c. The District Engineer may require closure of any or all of the premises during any period for which the sublessees and concessionaires do not have the required insurance coverage.

**17. RESTORATION**

On or before the expiration of this lease, the Lessee shall vacate the premises, remove the property of the Lessee therefrom, and restore the premises to a condition satisfactory to the District Engineer. If, however, this lease is revoked, the Lessee shall vacate the premises, remove said property therefrom, and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the Lessee shall fail or neglect to remove said property and so restore the premises, then, at the option of the District Engineer, said property shall either become the property of the United States without compensation therefor, or the District Engineer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work.

**18. NON-DISCRIMINATION**

a. The Lessee shall not discriminate against any person or persons or exclude them from participation in the Lessee's operations, programs or activities conducted on the leased premises, because of race, color, religion, sex, age, handicap, or national origin.

b. The Lessee, by acceptance of this lease, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102);

ER 405-1-12  
Change 30  
30 Sep 94

the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directives 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the Lessee, its agents, successors, transferees, sublessees and assignees.

#### **19. SUBJECT TO EASEMENTS**

This lease is subject to all existing easements, easements subsequently granted, and established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the Lessee, and easements will not be granted which will, in the opinion of the District Engineer, interfere with developments, present or proposed, by the Lessee. The Lessee will not close any established access routes without written permission of the District Engineer.

#### **20. SUBJECT TO MINERAL INTERESTS**

This lease is subject to all outstanding mineral interests. As to federally owned mineral interests, it is understood that they may be included in present or future mineral leases issued by the Bureau of Land Management (BLM), which has responsibility for mineral development on Federal lands. The Department of the Army will provide lease stipulations to BLM for inclusion in such mineral leases that are designed to protect the premises from activities that would interfere with the Lessee's operations or would be contrary to local laws.

#### **21. COMPLIANCE, CLOSURE, REVOCATION AND RELINQUISHMENT**

The Lessee and/or any sublessees are charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies, and with compliance with reasonable requests by the District Engineer. This lease may be revoked in the event the Lessee violates any of the terms and conditions and continues and persists in such violation. The Lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. Failure to satisfactorily correct any substantial or persistent non-compliance within the specified time is grounds for closure of all or part of the premises, temporary suspension of operation, or revocation of the lease, after notice in writing of such intent.

#### **22. HEALTH AND SAFETY**

a. The Lessee shall keep the premises in good order and in a clean, sanitary, and safe condition and shall have the primary responsibility for ensuring that any sublessees and concessionaires operate and maintain the premises in such a manner.

b. In addition to the rights of revocation for non-compliance, the District Engineer, upon discovery of any hazardous conditions within the area covered by the lease that presents an immediate threat to health and/or danger to life or property, will so notify the Lessee and will require that the affected part or all of the premises be closed to the public until such condition is corrected and the danger to the public eliminated. If the condition is not corrected, the District Engineer will have the option to: (1) correct the hazardous conditions and collect the cost of repairs from the Lessee; or, (2) revoke the lease. The Lessee and its concessionaires or sublessees shall have no claim for damages against the United States, or any officer, agent, or employee thereof on account of action taken pursuant to this condition.

ER 405-1-12  
Change 30  
30 Sep 94

**23. PUBLIC USE**

No attempt shall be made by the Lessee, or any of its sublessees or concessionaires, to forbid the full use by the public of the premises and of the water areas of the project, subject, however, to the authority and responsibility of the Lessee under this lease to manage the premises and provide safety and security to the visiting public.

**24. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which is illegal, or use the premises or permit them to be used for any illegal business or purpose. There shall not be conducted on or permitted upon the premises any activity which would constitute a nuisance.

b. As an exception, some games of chance, such as raffles, games and sporting events, may be conducted by nonprofit organizations under special use permits issued in conjunction with special events, if permissible by state and local law. Any request to conduct such activities must be submitted in writing to the District Engineer.

c. In accordance with state and local laws and regulations, the Lessee may sell, store, or dispense, or permit the sale, storage, or dispensing of beer, malt beverages, light wines or other intoxicating beverages on the premises in those facilities where such service is customarily found. Bar facilities will only be permitted if offered in connection with other approved activities. Advertising of such beverages outside of buildings is not permitted. Carry out package sales of hard liquor is prohibited.

**25. NATURAL RESOURCES**

The Lessee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the Development Plan described in the Condition on **DEVELOPMENT PLANS** herein. The Lessee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the Lessee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the Lessee under the provisions of this lease.

**26. DISPUTES CLAUSE**

a. Except as provided in the Contract Disputes Act of 1978 (41 U.S.C. 601-613)(the Act), all disputes arising under or relating to this lease shall be resolved under this clause and the provisions of the Act.

b. "Claim," as used in this clause, means a written demand or written assertion by the Lessee seeking, as a matter of right, the payment of money in a sum certain, the adjustment of interpretation of lease terms, or other relief arising under or relating to this lease. A claim arising under this lease, unlike a claim relating to that lease, is a claim that can be resolved under a lease clause that provides for the relief sought by the Lessee. However, a written demand or written assertion by the Lessee seeking the payment of money exceeding \$50,000 is not a claim under the Act until certified as required by subparagraph c. (2) below. The routine request for rental payment that is not in dispute is not a claim under the Act. The request may be converted to a claim

ER 405-1-12  
Change 30  
30 Sep 94

under the Act, by this clause, if it is disputed either as to liability or amount or is not acted upon in a reasonable time.

c. (1) A claim by the Lessee shall be made in writing and submitted to the District Engineer for a written decision. A claim by the Government against the Lessee shall be subject to a written decision by the District Engineer.

(2) For Lessee claims exceeding \$50,000, the Lessee shall submit with the claim a certification that--

(i) The claim is made in good faith;

(ii) Supporting data are accurate and complete to the best of the Lessee's knowledge and belief; and

(iii) The amount requested accurately reflects the lease adjustment for which the Lessee believes the Government is liable.

(3) If the Lessee is an individual, the certificate shall be executed by that individual. If the Lessee is not an individual, the certification shall be executed by

(i) A senior company official in charge at the Lessee's location involved; or

(ii) An officer or general partner of the Lessee having overall responsibility of the conduct of the Lessee's affairs.

d. For Lessee claims of \$50,000 or less, the District Engineer must, if requested in writing by the Lessee, render a decision within 60 days of the request. For Lessee-certified claims over \$50,000, the District Engineer must, within 60 days, decide the claim or notify the Lessee of the date by which the decision will be made.

e. The District Engineer's decision shall be final unless the Lessee appeals or files a suit as provided in the Act.

f. At the time a claim by the Lessee is submitted to the District Engineer or a claim by the Government is presented to the Lessee, the parties, by mutual consent, may agree to use alternative means of dispute resolution. When using alternate dispute resolution procedures, any claim, regardless of amount, shall be accompanied by the certificate described in paragraph c. (2) of this clause, and executed in accordance with paragraph c. (3) of this clause.

g. The Government shall pay interest on the amount found due and unpaid by the Government from (1) the date the District Engineer received the claim (properly certified if required), or (2) the date payment otherwise would be due, if that date is later, until the date of payment. Simple interest on claims shall be paid at the rate, fixed by the Secretary of the Treasury, as provided in the Act, which is applicable to the period during which the District Engineer receives the claim, and then at the rate applicable for each 6-month period as fixed by the Treasury Secretary during the pendency of the claim. Rental amounts due to the Government by the Lessee will have interest and penalties as set out in the condition on **CONSIDERATION**.

h. The Lessee shall proceed diligently with the performance of the lease, pending final resolution of any request for relief, claim, appeal, or action arising under the lease, and comply with any decision of the District Engineer.

ER 405-1-12  
Change 30  
30 Sep 94

## 27. ENVIRONMENTAL PROTECTION

a. Within the limits of their respective legal powers, the parties to this lease shall protect the project against pollution of its air, ground, and water. The disposal of any toxic or hazardous materials within the premises is specifically **PROHIBITED**. The Lessee shall comply promptly with any laws, regulations, conditions or instructions affecting the activity hereby authorized, if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. Such regulations, conditions, or instructions in effect or prescribed by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency, are hereby made a condition of this lease. The Lessee shall require all sanitation facilities on boats moored at the Lessee's facilities, including rental boats, to be sealed against any discharge into the lake. Services for waste disposal, including sewage pump-out of watercraft, shall be provided by the Lessee as appropriate. The Lessee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The Lessee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the lessee's activities, the Lessee shall be liable to restore the damaged resources.

## 28. PRELIMINARY ASSESSMENT SCREENING

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this lease, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the District Engineer in determining any environmental restoration requirements. Any such requirements will be completed by the lessee in accordance with the condition on **RESTORATION**.

## 29. HISTORIC PRESERVATION

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

## 30. SOIL AND WATER CONSERVATION

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all soil and water conservation structures that may be in existence upon said premises at the beginning of, or that may be constructed by the Lessee during the term of this lease, and the Lessee shall take appropriate measures to prevent or control soil erosion within the premises. Any soil erosion occurring outside the premises resulting from the activities of the Lessee shall be corrected by the Lessee as directed by the District Engineer.

## 31. TRANSIENT USE

a. Camping, including transient trailers or recreational vehicles, at one or more campsites for a period longer than thirty (30) days during any sixty (60)

ER 405-1-12  
Change 30  
30 Sep 94

consecutive day period is prohibited. The Lessee will maintain a ledger and reservation system for the use of any such campsites.

b. Occupying any lands, buildings, vessels or other facilities within the premises for the purpose of maintaining a full- or part-time residence is prohibited, except for employees residing on the premises for security purposes, if authorized by the District Engineer.

**32. HOLD HARMLESS**

The Lessee shall hold and save the Government free from damages arising from the operation, maintenance, replacement and rehabilitation of the premises and the facilities and improvement, except for damages due to the fault or negligence of the Government or the Government's contractors.

**33. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, in its discretion, to require the Lessee to pay, in addition to the lease rental or consideration, the full amount of such commission, percentage, brokerage, or contingent fee.

**34. OFFICIALS NOT TO BENEFIT**

No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this lease or to any benefits to arise therefrom. However, nothing herein contained shall be construed to extend to any incorporated company if the lease be for the general benefit of such corporation or company.

**35. MODIFICATIONS**

This lease contains the entire agreement between the parties hereto, and no modification of this agreement, or waiver, or consent hereunder shall be valid unless the same be in writing, signed by the parties to be bound or by a duly authorized representative; and this provision shall apply to this clause as well as all other conditions of this lease.

**36. DISCLAIMER**

This lease is effective only insofar as the rights of the United States in the premises are concerned; and the lessee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this lease does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), or Section 404 of the Clean Water Act (33 U.S.C. § 1344).

**IN WITNESS WHEREOF** I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

CONTRACT NO. \_\_\_\_\_

DEPARTMENT OF THE ARMY  
LEASE  
FOR COTTAGE SITE PURPOSES

\_\_\_\_\_  
SITE  
\_\_\_\_\_  
PROJECT NAME  
\_\_\_\_\_  
COUNTY, STATE

THIS LEASE, made on behalf of the United States, between the **SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, and \_\_\_\_\_, hereinafter referred to as the Lessee,

**WITNESSETH:**

That the Secretary, by authority of Title 16, United States Code, Section 460d, and of Section 1134 of the Act of Congress approved 17 November 1986 (P.L. 99-662) and for the consideration hereinafter set forth, hereby leases to the Lessee, the property identified in Exhibit \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises, for recreational cottage site purposes and purposes incidental thereto.

That this lease grants no vested property rights but affords only a limited right to occupy the land pending termination as set out in Condition 14.

**THIS LEASE** is granted subject to the following conditions:

1. **TERM**

Said premises are hereby leased for a term beginning \_\_\_\_\_, 19\_\_, and ending on \_\_\_\_\_ 20\_\_, or until such time as the lease is terminated by the lessee, or by the secretary, as set out in Condition 14 on Termination.

2. **CONSIDERATION**

a. The consideration for this lease is the fair market rental, reviewed and adjusted every 5 years for compliance with fair market value, of the initial sum of \_\_\_\_\_ Dollars (\$ \_\_\_\_\_), payable as shown in the attached Exhibit A in advance to the order of the Finance and Accounting Officer (FAO), \_\_\_\_\_, and delivered in the same manner as set out in condition 3 on Notices.

b. All rent and other payments due under the terms of this instrument must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, Title 31, United

ER 405-1-12  
Change 30  
30 Sep 94

States Code, Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of rent. Interest will accrue from the due date. An administrative charge to cover the cost of processing and handling each late payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

### **3. NOTICES**

All notices to be given pursuant to this lease shall be addressed, if to the Lessee, to if to the United States, to the District Engineer, \_\_\_\_\_ hereinafter referred to as the District Engineer, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited postage prepaid in a post office or branch post office regularly maintained by the United States Postal Service.

### **4. AUTHORIZED REPRESENTATIVES INCLUDED**

Except as otherwise specifically provided, any reference herein to "Secretary of the Army," "District Engineer," "said officer" or "Lessor" shall include their duly authorized representatives. Any reference to "Lessee" shall include sublessees, assignees, transferees, and their duly authorized representatives.

### **5. APPLICABLE LAWS AND REGULATIONS**

The Lessee shall comply with all applicable Federal laws and regulations and with all applicable laws, ordinances, and regulations of the state, county, and municipality wherein the premises are located, including, but not limited to, those regarding construction, health, safety, water supply, sanitation, use of pesticides, licenses or permits. The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer and to such rules and regulations as may be prescribed from time to time.

### **6. USE OF THE PREMISES**

a. The leased premises may be used by the lessee, lessee's family, agents, and guests, for recreational cottage site purposes and purposes incidental thereto and for no other different object or purpose. The lessee may maintain an existing private recreational dwelling, and may maintain existing accessory improvements, but agrees not to unreasonably expand these existing improvements. These existing improvements erected by the lessee or a predecessor under a previous lease shall remain the property of lessee, subject, however, to the provisions of Condition 15 hereof, and shall be maintained by the lessee in a usable and safe condition. Failure to maintain may be grounds for termination under Condition 14.

ER 405-1-12  
Change 30  
30 Sep 94

b. No improvement may be erected, expanded or altered upon the premises unless and until the type of use, design, and proposed location or alterations thereof shall have been approved in writing by the District Engineer.

**7. CONDITION OF PREMISES**

The Lessee acknowledges that he has inspected the premises, knows its condition, and understands that the same is leased without any representations or warranties whatsoever and without obligation on the part of the United States to make any alterations, repairs, or additions thereto.

**8. TRANSFERS, ASSIGNMENTS, SUBLEASES**

The Lessee shall neither transfer nor assign this lease or any property on the demised premises, nor sublet the demised premises or any part thereof or any property thereon, nor grant any interest, privilege, in license whatsoever in connection with this lease without permission in writing from the District Engineer. The provisions and conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the lessee's heirs, representatives, successors and assigns.

**9. PROTECTION OF PROPERTY**

The Lessee shall be responsible for any damage that may be caused to property of the United States by the activities of the Lessee under this lease, and shall exercise due diligence in the protection of all improvements, trees or timber, and other property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the Lessee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the Lessee to the satisfaction of the District Engineer or at the election of the District Engineer, reimbursement may be made at the current market value.

**10. RIGHT TO ENTER AND FLOOD**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with Government work; to make inspections; to remove timber or other material, except property of the Lessee; to flood the premises; to manipulate the level of the lake or pool in any manner whatsoever; and/or to make any other use of the land as may be necessary in connection with project purposes, and the Lessee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

b. This property is located within the 100-year floodplain and is subject to periodic flooding. This lease is subject to floodplain management requirements unless inconsistent with the approved cottage site use.

**11. HOLD HARMLESS**

The lessee agrees to hold the United States harmless from any claim for damages or injury to persons or property arising from the occupancy of or through the use of the premises.

**12. LIGHTS, SIGNALS AND NAVIGATION**

ER 405-1-12  
Change 30  
30 Sep 94

There shall be no unreasonable interference with navigation by the exercise of the privileges granted by this lease. If the display of lights and signals on any work hereby authorized is not otherwise provided for by law, such lights and signals as may be prescribed by the Coast Guard or by the District Engineer shall be installed and maintained by and at the expense of the Lessee.

**13. PROHIBITED USES**

a. The Lessee shall not permit gambling on the premises or install or operate, or permit to be installed or operated thereon, any device which, in the opinion of the District Engineer, is contrary to good morals or is otherwise objectionable; or use the premises or permit them to be used for any illegal or immoral business or purpose. There shall not be carried on or permitted upon the premises any activity which would constitute a nuisance and the Lessee will use the premises in a quiet and inoffensive manner.

b. The Lessee will not conduct any commercial or business activities on the premises.

**14. TERMINATION**

a. This lease may be terminated by the lessee, any successors or assigns of the lessee, at any time by giving ten-days' notice in writing to the District Engineer. Provided that, in case of such termination, no remission shall be made by the United States of any rental theretofore paid, and provided further that, in the event that the notice is not given at least ten days prior to the next rental due date, the lessee shall be required to pay that rental payment. Abandonment or nonuse of the premises for one year or nonpayment of the rent for 90-days past the due date will be considered notice of termination of the lease by the lessee.

b. The Secretary may terminate this lease only if the premises are needed for immediate use for public park purposes or other higher public use or for a navigation or flood control project; or if lessee substantially violates a provision of the lease. The lessee is charged at all times with full knowledge of all the limitations and requirements of this lease, and the necessity for correction of deficiencies and with compliance with reasonable requests by the District Engineer. The lessee will be notified of any non-compliance, which notice shall be in writing or shall be confirmed in writing, giving a period of time in which to correct the non-compliance. A termination notice will be given in writing to the lessee at least 30 days prior to the termination date and designating the time for compliance with Condition 15.

c. In the event of termination by the lessee or the Secretary, the District Engineer may re-enter the premises andg from the Lessee's activities, the Lessee shall be liable to restore the damaged resources.

d. This lease does not exclude lessee from being required to obtain a Department of the Army permit under 33 U.S.C 403 or Section 404.

**22. HISTORIC PRESERVATION**

The Lessee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archaeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the Lessee shall immediately notify the District Engineer and protect the site and the material from further disturbance until the District Engineer gives clearance to proceed.

**23. SOIL AND WATER CONSERVATION**

ER 405-1-12  
Change 30  
30 Sep 94

The Lessee shall maintain, in a manner satisfactory to the District Engineer, all terraces, retaining walls, drop structures, revetments and other soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the Lessee during the term of this lease, and the use and maintenance of the premises by the Lessee shall be in accordance with good soil and water conservation practices.

**24. SEVERAL LESSEES**

If more than one lessee is named in this lease the obligations of said lessees shall be joint and several obligations.

**25. HUNTING AND TRAPPING**

The Lessee shall not hunt or trap or allow hunting or trapping on the premises.

**26. COVENANT AGAINST CONTINGENT FEES**

The Lessee warrants that no person or selling agency has been employed or retained to solicit or secure this lease upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Lessee for the purpose of securing business. For breach or violation of this warranty, the United States shall have the right to annul this lease without liability or, id States in the premises are concerned. The lessee shall obtain any further permission necessary on account of any other existing rights.

Before the execution of this lease, conditions were deleted, revised and added in the following manner:

IN WITNESS WHEREOF I have hereunto set my hand by authority/direction of the Secretary of the Army this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

\_\_\_\_\_

THIS LEASE is also executed by the Lessee this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
EASEMENT FOR ELECTRIC POWER OR  
COMMUNICATION FACILITY  
LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
County, State

**THE SECRETARY OF THE** \_\_\_\_\_, under and by virtue of the authority vested in the Secretary by Title 43, United States Code, Section 961, having found that the granting of this easement is not incompatible with the public interest, hereby grants to:

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for

\_\_\_\_\_  
hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of ( \_\_\_\_\_ \$ \_\_\_\_\_ ) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the

ER 405-1-12  
Change 30  
30 Sep 94

amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located, including but not limited to, the provisions of the latest edition of the National Electrical Safety Code (NESC) and the Environmental Protection Agency regulations on Polychlorinated Biphenyls (PCB'S).

### 7. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

ER 405-1-12  
Change 30  
30 Sep 94

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, the United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The Grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C § 403), Section 404 of the clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PIPELINE RIGHT-OF-WAY

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10 United States Code, Section 2669, having found that the granting of this easement will be in the public interest and will not substantially injure the interests of the United States, hereby grants to,

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for \_\_\_\_\_, hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

ER 405-1-12  
Change 30  
30 Sep 94

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

ER 405-1-12  
Change 30  
30 Sep 94

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account there against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

ER 405-1-12  
Change 30  
30 Sep 94

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, The United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous

ER 405-1-12  
Change 30  
30 Sep 94

substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions, of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403) Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PUBLIC ROAD OR STREET

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10, United States Code, Section 2668, having found that the granting of this easement will not be against the public interest, hereby grants to \_\_\_\_\_

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for a road or street, hereinafter referred to as the facilities, over, across, in and upon the lands of the United States as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS EASEMENT** is granted subject to the following conditions:

**1. TERM**

This easement is granted in perpetuity.

**2. CONSIDERATION**

The consideration for this easement shall be the construction, operation and maintenance of a public road for the benefit of the United States and the general public in accordance with the terms herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and if to the United States, to the District, Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

ER 405-1-12  
Change 30  
30 Sep 94

**5. SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Instalation Commander),  
(District)(Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this easement, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. RIGHT TO CONNECT**

The United States reserves the right to make such connections between the road or street herein authorized and roads and streets on other government lands as said officer may from time consider necessary, and also reserves to

ER 405-1-12  
Change 30  
30 Sep 94

itself rights-of-way for all purposes across, over or under the right-of-way hereby granted; provided that such rights shall be used in a manner that will not create unnecessary interference with the use and enjoyment by the grantee of the right-of-way herein granted.

**12. OTHER AGENCY AGREEMENTS**

It is understood that the provisions of the conditions on **SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)** and **RIGHT TO ENTER** above shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the construction, maintenance, or repair of the facilities herein authorized.

**13. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**14. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state, interstate, and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**16. PRELIMINARY ASSESSMENT SCREENING**

Change 30  
30 Sep 94

A Preliminary Assessment Screening (PAS), documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

#### **17. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains, or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **18. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national, origin or religion.

b. The grantee, by acceptance of this easement, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defence Directive 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the grantee, its agents, successors, transferees, and assignees.

#### **19. RESTORATION**

On or before the termination or revocation of this easement, the grantee shall, without expense to the United States and within such time as said officer may indicate, restore the premises to the satisfaction of said officer. In the event the grantee shall fail to restore the premises, at the option of said officer, said improvements shall either become the property of the United States without compensation therefore, or said officer shall have the option to perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

#### **20. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain such permission as may be required on account of any other existing rights. DEPARTMENT OF \_\_\_\_\_

EASEMENT AND RELINQUISHMENT OF ACCESS RIGHTS FOR A SECTION OF  
 THE NATIONAL SYSTEM OF INTERSTATE AND DEFENSE HIGHWAYS

(Indicate reservations)

The United States of America, acting by and through the SECRETARY OF THE \_\_\_\_\_, under and by virtue of the authority of Title 10, U.S.C., Section 2668, and in furtherance of Title 23, U.S.C., Section 107(d), hereby grants to the State of \_\_\_\_\_ (appropriate title of the highway department), hereinafter designated as the grantee, an easement for a right-of-way for a controlled-access highway, as part of the National System of Interstate and Defense Highways, on, over, across, in and upon lands of the United States which are a portion of \_\_\_\_\_ the (indicate reservation), as shown on the map marked Exhibit \_\_\_\_\_, and more particularly described on Exhibit \_\_\_\_\_, which exhibits are attached hereto and made a part hereof, together with all abutters' existing, future or potential rights of access to, from and between the right-of-way of the public way known as \_\_\_\_\_ and the remaining lands of said reservation, except for such rights as may be hereinafter specifically reserved in this instrument.

THIS EASEMENT is granted subject to the following provisions and conditions:

1. That the grantee shall, at all times, maintain said highway in good condition and shall promptly make all repairs thereto needed to preserve a smooth-surface highway.
2. That any property of the United States damaged or destroyed by the grantee incident to the use and occupation of the said premises shall be promptly repaired, replaced or relocated by the grantee, to the satisfaction of the local representative of the DEPARTMENT OF \_\_\_\_\_, and in accordance with plans and specifications approved, in advance, by the said officer, or, in lieu of such repair, replacement or relocation, the grantee shall, if so required by said representative, pay to the United States, money in an amount sufficient to compensate for the loss sustained by the United States by reason of damages to, or destruction of, United States property.
3. a. That the United States reserves the right to construct, from time to time, grade separation crossing structures or pedestrian crossing structures over or under the controlled-access highway, at such points as it may deem necessary; provided, that such structures shall be constructed in accordance with standards for the National System of Interstate and Defense Highways, approved by the Department of Transportation, Bureau of Public Roads. The United States also reserves the right to cross over and/or under the right-of-way hereby granted with utility lines and related facilities; provided, however, that such rights shall be exercised in accordance with regulations issued by the Secretary of Transportation and policies adopted by the Federal Highway Administrator.
- b. That, during any emergency declared by the President or Congress of the United States, the United States shall have the right to enter and exit directly to and from said right-of-way from the abutting Government-owned land, including the right to construct temporary direct entrances and exits, crossings at grade, or substandard grade-separation structures, including acceleration and deceleration lanes; provided, that all such temporary facilities shall, subject to availability of appropriations, be removed within a reasonable time after official termination of the emergency.

ER 405-1-12  
Change 30  
30 Sep 94

4. That it is to be understood that this instrument is effective only insofar as the rights of the United States in the property over which the said highway is to be extended are concerned, and that the grantee shall obtain such permission as may be necessary because of any other existing rights.

5. That all, or any part, of such right-of-way herein granted may be terminated by the Secretary of the \_\_\_\_\_ for failure to comply with any or all of the terms or conditions of this grant, or for nonuse for a two-year period, or abandonment of rights granted herein.

6. Additional special provisions as may be necessary to meet particular circumstances of each case, such as the following:

a. Provision for construction and maintenance at the expense of grantee of necessary controlled-access facilities to, over, under and across the highway to meet the requirements of the military installation affected, pursuant to plans, specifications and maps approved by the installation commanders and attached as exhibits to the grant.

b. Provision of construction and maintenance of special signs, signals, markers, etc.

c. Relocation of facilities adjacent to and adversely affected by the highway construction, etc.

7. That the grantee, within the limits of its respective legal powers, shall comply with all Federal, interstate, state and/or local governmental regulations, conditions, or instructions for the protection of the environment and all other matters as they relate to real property interests granted herein.

8. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until a professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

9. That the grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin or religion in the conduct of operations on the easement premises.

10. Merger Clause. Prior to the execution of this easement, the following conditions were deleted: \_\_\_\_\_; changed: \_\_\_\_\_; added:

\_\_\_\_\_

This easement is not subject to Title 10, U.S.C., Section 2662.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of

\_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_  
**THIS EASEMENT** is also executed by the grantee this \_\_\_\_\_ day of

DEPARTMENT OF THE ARMY  
EASEMENT FOR  
FUEL CARRYING PIPELINE

THE SECRETARY OF THE ARMY, under and by virtue of the authority vested in him by 30 U.S.C. 185, hereby grants to \_\_\_\_\_ hereinafter designated as the grantee, for a period of \_\_\_\_\_ years from \_\_\_\_\_, an easement for a right-of-way for the installation, construction, operation, maintenance, and repair of a \_\_\_\_\_-inch underground gas pipeline for the purpose of \_\_\_\_\_ over, across, in, and upon land the Army at the location shown in red on Exhibit \_\_\_\_\_ attached hereto and made a part hereof, and described on Exhibit \_\_\_\_\_ attached hereto and made a part hereof.

THE EASEMENT is granted subject to the following conditions:

1. The grantee shall pay to the United States in advance upon delivery of this easement the sum of \_\_\_\_\_ per annum for the easement, the sum of \_\_\_\_\_ as reimbursement for the costs incurred by the United States in processing the application, and the sum of \_\_\_\_\_ as reimbursement for the cost of monitoring construction, operation and maintenance of said pipeline for the entire term of the easement. In the event of termination of this easement, the grantee further agrees to reimburse the United States for any and all costs incurred by the United States in monitoring the termination. All payments shall be made to the Finance and Accounting Office, U.S. Army Corps of Engineers and forwarded by the grantee to the District Commander, U.S. Army Engineer District, \_\_\_\_\_ no later than \_\_\_\_\_. The U.S. will impose a charge, the amount to be determined by law or regulation on late payment of rent or other payments due under this agreement for each 30 day period that the payment is overdue. The full late charge will also be applicable to periods of less than 30 days.
2. The grantee shall construct, operate, maintain, and terminate the said pipeline in all accordance Federal, state, county, and municipal laws, regulations, and ordinances.
3. The installation and/or operation and maintenance of said line shall be accomplished without cost or expense to the United States under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter designated as "said officer," and in such manner as not to endanger personnel or property of the United States on the said United States land or obstruct travel on any road thereon. The grantee shall have the right of ingress and egress for such purposes, subject to approval of access by said officer.
4. The use and occupation of said land incident to the exercise of the privileges hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.
5. Upon completion of the installation of said line and the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition in which they existed prior to the commencement of such work, to the satisfaction of the said officer. The grantee shall supervise the said line and cause it to be inspected at reasonable intervals, and shall immediately repair any leaks found therein as a result of such inspection, or when requested by said officer to repair any defects.

ER 405-1-12  
Change 30  
30 Sep 94

6. The grantee shall be strictly liable to the United States for damage or injury which may arise from or be incident to the construction, maintenance or removal of said line and the use or occupation of the right-of-way herein granted. Damages to property of the United States shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer, or in lieu of such repair or replacement the grantee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States. All owners of any interest in, and all affiliates or subsidiaries of the grantee, except for corporate stockholders, shall be jointly and severally liable to the United States in the event that a claim for damage or injury is not satisfied by the grantee. Liability without fault hereunder shall be limited to (insert maximum amount commensurate with the foreseeable risks or hazards presented) for any one incident. Liability of such grantee for damages in excess (insert figure above) shall be in accord with ordinary rules of negligence. However, this condition shall not impose strict liability on the grantee for damage or injury resulting from (a) an act of war, or (b) negligence of the United States. In any case where liability without fault is imposed pursuant to this condition and the damage or injuries involved were caused by the negligence of a third party, the rules of subrogation shall apply in accordance with the law of the jurisdiction where the damage or injury occurred.

7. The United States shall not be responsible for damages or injuries which may arise from or be incident to the construction, maintenance, and use of said line, nor for damages to the property of the grantee, nor for damages to the property or injuries to the person of the grantee's officers, agents, servants, or employees, or others who may be on said premises at the grantee's invitation or any one of them. The grantee does hereby accept liability, if any, imposed by Federal and state statutes to third parties for injuries incurred in connection with the use and occupancy of the right-of-way. The grantee shall hold the United States harmless from any and all such claims.

8. The United States reserves to itself and its grantees or licensees the right to construct, use, and maintain on or adjacent to the right-of-way hereby granted, electric transmission, telephone, telegraph, water, gas, gasoline, oil and sewer lines, roads and permits for other compatible uses in such manner as not to create any unreasonable interference with the use of the right-of-way herein granted.

9. That the grantee shall furnish through said line such service as may be required from time to time for governmental purposes on said land, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates charged by the grantee for similar service.

10. In the event all or any portion of said land occupied by said line shall be needed by the United States, or in the event the existence of said line shall be considered detrimental to governmental activities, the grantee shall, from time to time, upon notice to do so, and as often as so notified, remove said line and related facilities to such other location or locations on said land as may be designated by said officer. And in the event said line shall not be removed or relocated within ninety (90) days after any aforesaid notice, the United States may cause the same to be done at the expense of the grantee.

11a. Abandonment of a right of way herein granted or noncompliance with any provisions of this easement or applicable provisions of 30 U.S.C. 185 may be grounds for suspension or termination of the right of way if ta) after due notice to the holder of the right of way, (b) a reasonable opportunity to comply with this section, and (c) an appropriate administrative proceeding

ER 405-1-12  
Change 30  
30 Sep 94

pursuant to Title 5, U.S.C., Section 554, the Secretary determines that any such ground exists that suspension or termination is justified.

b. If the Secretary of the Army determines that an immediate temporary suspension of activities within a right-of-way or permit area is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding.

c. Deliberate failure of the grantee to use the right-of-way for the purpose for which it was granted or renewed for any continuous two-year period shall constitute a rebuttable presumption of abandonment of the right-of-way: Provided, that where the failure to use the right-of-way is due to circumstances not within the holder's control, the Secretary is not required to commence proceedings to suspend or terminate the right-of-way.

12. Upon the expiration or termination of this grant, the grantee shall, without expense to the United States, and within such time as the Secretary of the Army may indicate, remove the said line from said land and restore the premises hereby authorized to be used and occupied to a condition satisfactory to the said officer. In the event the grantee shall fail, neglect, or refuse to remove the said line and so restore the premises, the United States shall have the option either to take over the said line as the property of the United States, without compensation therefor, or to remove the said line and perform the restoration work as aforesaid at the expense of the grantee, and in no event shall the grantee have any claim for damages against the United States or its officers or agents, on account of the taking over of said line or on account of its removal.

13. The conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the representatives, successors, and assigns of the grantee.

14. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned, and that the grantee shall obtain such permission as may be necessary on account of any other existing rights.

15. The pipeline and related facilities herein authorized shall be constructed, operated, and maintained as common carriers. The owners or operators of the pipeline herein authorized shall accept, convey, transport, or purchase without discrimination all oil or gas delivered to the pipeline without regard to whether such oil or gas was produced on Federal or nonfederal lands. (Delete this clause if inapplicable)

16. It is understood that the provision of Condition No. 3, above, shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the installation, operation, or maintenance of said line.

17. That the pipeline will be buried at a depth of not less than \_\_\_\_\_ feet below the surface and such installation will be in accordance with applicable Federal and state standards.

18. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until

ER 405-1-12  
Change 30  
30 Sep 94

a professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

This easement is not subject to Title 10, U.S.C., Section 2662.

IN WITNESS WHEREOF, I have hereunto set my hand this \_\_\_\_\_ day \_\_\_\_\_ of 19 \_\_\_\_\_ by authority of the Secretary of the Army.

\_\_\_\_\_

The above easement is hereby accepted this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_\_ by authority of the Secretary of the Army.

DEPARTMENT OF THE \_\_\_\_\_  
CONSENT TO CROSS U. S. GOVERNMENT EASEMENT  
AT

KNOW ALL MEN BY THESE PRESENTS:

That the consent of the United States is hereby granted to \_\_\_\_\_ hereinafter designated as grantee, to construct, use, maintain, control, operate and repair a \_\_\_\_\_, herein referred to as "structure", across, over and under the lands where the United States has acquired a perpetual \_\_\_\_\_ easement identified as Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_ (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ county, (State). The right-of-way for said structure for the purpose of this consent is specifically identified-as Parcel(s) \_\_\_\_\_, located as shown on Exhibit "A" attached hereto and made a part hereof and described as follows:

This consent is granted subject to the following conditions:

1. That it is understood that this consent is effective only insofar as the pxproperty rights of the United States in the land to be occupied are concerned, and that it does not relieve the grantee from the necessity of obtaining grants from the owners of the fee and/or other interests therein.
2. That the proposed construction authorized herein shall not be commenced until appropriate rights shall have been obtained by the grantee from the record owners and encumbrances of the fee title to the lands involved.
3. That the exercise of the privileges hereby consented to shall be without cost or expense to the Department of the \_\_\_\_\_, under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter referred to as "said officer," and subject to such regulations as may be prescribed by the District Commander, \_\_\_\_\_, District, from time to time, including, but not limited to, the specific conditions, requirements and specifications set forth in Exhibit "B" attached hereto and made a part hereof.
4. That the grantee shall supervise and maintain the said structure and cause it to be inspected at reasonable intervals, and shall immediately repair any damage found therein as a result of such inspection, or when requested by said officer to repair any defects. Upon completion of the installation of said structure or the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition as that in which they existed prior to the commencement of such work, to the satisfaction of said officer.
5. That any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges hereby granted shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer or in lieu of such repair or replacement, the grantee shall, if so required by the said officer and at his option, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damage to or destruction of Government property.
6. That the United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the

ER 405-1-12  
Change 30  
30 Sep 94

privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee, or the persons of grantee's officers, agents, servants, or employees or others who may be on said premises at their invitation or the invitation of one of them arising from governmental activities on or in the vicinity of the said premises, and the grantee shall hold the United States harmless from any and all such claims.

7. That this consent is effective only as to the following rights of the United States in the lands hereinabove described.

8. That the United States shall in no case be liable for any damage or injury to the construction herein authorized which may be caused by any action of the Government, under the rights obtained in its easements, either hidden or known, or that may result from future operations under taken by the Government, and no claim or right to compensation shall accrue from such damage or injury, and if further operations of the United States require the alteration or removal of the structure herein authorized, the grantee shall, upon due notice from the Chief of Engineers, Department of Army, alter or remove said structure without expense to the Government and subject to the supervision and approval of the officer having jurisdiction over the property and no claim for damages shall be made against the United States on account of such alterations or removal.

9. That construction and/or operation maintenance and use of said structure incident to the exercise of the privileges hereby granted shall be in such a manner as not to conflict with the rights of the Government, nor to interfere with the operations by the Government under such rights, nor to endanger lives and safety of the public.

10. That this consent may be terminated by the Secretary of the \_\_\_\_\_ upon reasonable notice to the grantee if the Secretary of the \_\_\_\_\_ shall determine that installation to which consent is hereby granted interferes with the use of said land or any part thereof by the United States, and this consent may be annulled and forfeited by the declaration of the Secretary of the \_\_\_\_\_ for failure to comply with any and all of the provisions and conditions of this consent, or for nonuse for a period of two years, or for abandonment.

11. That upon the relinquishment, termination, revocation, forfeiture or annulment of the consent herein granted, the grantee shall vacate the premises, remove all property of the grantee therefrom, and restore the premises to a condition satisfactory to the officers having immediate jurisdiction over the property. If the grantee shall fail or neglect to remove said property and so restore the premises, then, at the option of the Secretary of the \_\_\_\_\_, the said property shall either become the property of the United States without compensation therefor, or the Secretary of the \_\_\_\_\_ may cause it to be removed and the premises to be so restored at the expense of the grantee, and no claim for damages against the United States, or its officers or agents, shall be created by or made on account of such removal and restoration.

12. That the terms and conditions of this consent shall extend to and be binding upon the heirs, successors and assigns of the grantee.

13. That the grantee within the limits of his respective legal powers shall comply with all Federal, interstate, state and/or local governmental regulations, conditions or instructions for the protection of the environment and all other matters as they relate to real property interests granted herein.

ER 405-1-12  
Change 30  
30 Sep 94

14. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until a Professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

15. Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

16. Merger clause. Prior to the execution of this consent, the following conditions were deleted: \_\_\_\_\_; changed: \_\_\_\_\_; or added: \_\_\_\_\_.

This consent is not subject to Title 10, U.S.C., Section 2662.

In Witness Whereof, I have hereunto set my hand, by authority of the Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_.

APPLICATION FOR CONSENT TO CROSS U. S. GOV'T EASEMENT

Date \_\_\_\_\_

APPLICATION IS MADE for the consent of the Department of \_\_\_\_\_ to construct, maintain, control, operate and repair a (state type of structure) located as shown on the attached print, over, under or across the Easement vested in the United States of America, and identified as Acquisition Tract No. \_\_\_\_\_ and situated in Section \_\_\_\_\_, Township North, Range \_\_\_\_\_, Montana Principal Meridian \_\_\_\_\_, County \_\_\_\_\_.

Names and addresses of Record Owners are \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Names and addresses of Record Encumbrances are \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(Fill in as applicable)

1. Width of right-of-way desired \_\_\_\_\_.
2. Diameter of pipe \_\_\_\_\_.
3. Kind of pipe \_\_\_\_\_.
4. Substance pipe to carry \_\_\_\_\_.
5. Type of service if electrical (Power, feeder, light feeder, telephone) \_\_\_\_\_.
6. A.C. or D.C. \_\_\_\_\_, Voltage \_\_\_\_\_ Phase \_\_\_\_\_  
Cycle \_\_\_\_\_
7. No. wires or cables \_\_\_\_\_, ultimate number wires or cable conductors \_\_\_\_\_, guage \_\_\_\_\_, diameter of cable \_\_\_\_\_, kind of wire (copper, iron, etc.) \_\_\_\_\_. Is wire bare or insulated \_\_\_\_\_, solid or strand \_\_\_\_\_?

The undersigned agrees that construction of the facility or structure involved in this application shall not begin until the Consent to Cross U.S. Government Easement, herein applied for, shall have been granted and appropriate rights shall have been acquired from the record owners and encumbrances of the underlying fee in the land involved.

DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS  
\_\_\_\_\_ DISTRICT

Consent No. \_\_\_\_\_  
Project: \_\_\_\_\_  
Tract No. \_\_\_\_\_

CONSENT TO EASEMENT STRUCTURES

WHEREAS, the United States has acquired a perpetual \_\_\_\_\_ easement over Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_, (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ County, \_\_\_\_\_ (State).

(DELETE THE FOLLOWING WHEREAS, IF NOT APPLICABLE)

WHEREAS, said easement grants to the United States the right of prior approval for any structure to be located within the easement area, which area is under the administrative control of the District, Corps of Engineers;

WHEREAS, the United States has been requested to give consent for ( the construction / placement / location of \_\_\_\_\_ ) on the above identified tract (s).

NOW THEREFORE, the United States hereby gives consents to \_\_\_\_\_ for (the construction / placement / location of \_\_\_\_\_) at the location shown on Exhibit "A" attached hereto;

PROVIDED HOWEVER, that this consent is subject to the following conditions:

1. All activities conducted on the premises shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.
2. The giving of this consent does not in any way subordinate the United States prior easement rights. The United States shall in no case be liable for any damage or injury to the structures herein consented to, which may be caused by any action of the United States under its easement, or that may result from future operations undertaken by the United States, and no claim or right to compensation shall accrue from such exercise of the United States' easement rights.
3. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the consented activity.
4. This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the consentee shall obtain such permission as may be required on account of any other existing rights. It is understood that this consent does not eliminate the necessity for obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state, interstate or local laws in connection with the use of the premises.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
EASEMENT FOR ELECTRIC POWER OR  
COMMUNICATION FACILITY  
LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
County, State

**THE SECRETARY OF THE** \_\_\_\_\_, under and by virtue of the authority vested in the Secretary by Title 43, United States Code, Section 961, having found that the granting of this easement is not incompatible with the public interest, hereby grants to:

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for

\_\_\_\_\_  
hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of (\$ \_\_\_\_\_) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the

ER 405-1-12  
Change 30  
30 Sep 94

amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located, including but not limited to, the provisions of the latest edition of the National Electrical Safety Code (NESC) and the Environmental Protection Agency regulations on Polychlorinated Biphenyls (PCB'S).

### 7. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

ER 405-1-12  
Change 30  
30 Sep 94

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, the United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENT PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising

ER 405-1-12  
Change 30  
30 Sep 94

from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The Grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C § 403), Section 404 of the clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PIPELINE RIGHT-OF-WAY

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10 United States Code, Section 2669, having found that the granting of this easement will be in the public interest and will not substantially injure the interests of the United States, hereby grants to,

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for \_\_\_\_\_,  
\_\_\_\_\_ hereinafter referred to as the facilities, over, across, in and upon lands of the United States as identified in Exhibit(s) \_\_\_\_\_, hereinafter referred to as the premises, and which are attached hereto and made a part hereof.

**THIS EASEMENT** is granted subject to the following conditions.

**1. TERM**

This easement is hereby granted for a term of \_\_\_\_\_ years beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_) (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_

b. All consideration and other payments due under the terms of this easement must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, 31 U.S.C. Section 3717. This statute requires the imposition of an interest charge for the late payment of debts owed to the United States, an administrative charge to cover the costs of processing and handling delinquent debts, and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

ER 405-1-12  
Change 30  
30 Sep 94

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment, or portion thereof, more than ninety (90) days past due. The penalty shall accrue from the date of the delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and, if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited postage prepaid in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

**5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

ER 405-1-12  
Change 30  
30 Sep 94

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this easement and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account there against the United States or any officer, agent, or employee thereof.

**11. TRANSFERS AND ASSIGNMENTS**

Without prior written approval by said District Engineer, the grantee shall neither transfer nor assign this easement or any part thereof nor grant any interest, privilege or license whatsoever in connection with this easement. The provisions and conditions of this easement shall extend to and be binding upon and shall inure to the benefit of the representatives, successors and assigns of the grantee.

**12. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

**13. SUBJECT TO EASEMENTS**

This easement is subject to all other existing easements, or those subsequently granted as well as established access routes for roadways and utilities located, or to be located, on the premises, provided that the proposed grant of any new easement or route will be coordinated with the grantee, and easements will not be granted which will, in the opinion of said officer, interfere with the use of the premises by the grantee.

**14. REQUIRED SERVICES**

The grantee shall furnish through said facilities such services as may be required from time to time for governmental purposes, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates granted by the grantee for similar service.

ER 405-1-12  
Change 30  
30 Sep 94

**15. RELOCATION OF FACILITIES**

In the event all or any portion of the premises occupied by the said facilities shall be needed by the United States, or in the event the existence of said facilities is determined to be detrimental to governmental activities, the grantee shall from time to time, upon notice to do so, and as often as so notified, remove said facilities to such other location on the premises as may be designated by said officer. In the event said facilities shall not be removed or relocated within ninety (90) days after such notice, The United States may cause such relocation at the sole expense of the grantee.

**16. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**17. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground, and water. The grantee shall promptly comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is strictly prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**19. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous

ER 405-1-12  
Change 30  
30 Sep 94

substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or termination of this easement, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee in accordance with the condition on **RESTORATION**.

**20. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until said officer gives clearance to proceed.

**21. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national origin, or religion in the conduct of operations on the premises.

**22. RESTORATION**

On or before the expiration or termination of this easement, the grantee shall, without expense to the United States, and within such time as said officer may indicate, remove said facilities and restore the premises to the satisfaction of said officer. In the event the grantee shall fail to remove said facilities and restore the premises, the United States shall have the option to take over said facilities without compensation, or to remove said facilities and perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

**23. DISCLAIMER**

This instrument is effective only insofar as the rights of the United States in the property are concerned, and the grantee shall obtain such permission as may be required on account of any other existing rights. It is understood that the granting of this easement does not eliminate the necessity of obtaining any Department of the Army permit which may be required pursuant to the provisions, of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403) Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state or local statute in connection with use of the premises.

**THIS EASEMENT** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_  
**THIS EASEMENT** is also executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_,

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

EASEMENT FOR PUBLIC ROAD OR STREET

LOCATED ON

\_\_\_\_\_  
(Project, Installation)

\_\_\_\_\_  
(County, State)

**THE SECRETARY OF THE** \_\_\_\_\_ under and by virtue of the authority vested in the Secretary by Title 10, United States Code, Section 2668, having found that the granting of this easement will not be against the public interest, hereby grants to \_\_\_\_\_

\_\_\_\_\_  
hereinafter referred to as the grantee, an easement for a road or street, hereinafter referred to as the facilities, over, across, in and upon the lands of the United States as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS EASEMENT** is granted subject to the following conditions:

**1. TERM**

This easement is granted in perpetuity.

**2. CONSIDERATION**

The consideration for this easement shall be the construction, operation and maintenance of a public road for the benefit of the United States and the general public in accordance with the terms herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this easement shall be addressed, if to the grantee, to \_\_\_\_\_

and if to the United States, to the District, Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

Change 30  
30 Sep 94

**5. SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)**

The construction, operation, maintenance, repair or replacement of said facilities, including culverts and other drainage facilities, shall be performed at no cost or expense to the United States and subject to the approval of the (District Engineer) (Instalation Commander), \_\_\_\_\_(District)(Installation), hereinafter referred to as said officer. Upon the completion of any of the above activities, the Grantee shall immediately restore the premises to the satisfaction of said officer. The use and occupation of the premises for the purposes herein granted shall be subject to such rules and regulations as said officer prescribes in writing from time to time.

**6. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

**7. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows the condition, and understands that the same is granted without any representation or warranties whatsoever and without any obligation on the part of the United States.

**8. INSPECTION AND REPAIRS**

The grantee shall inspect the facilities at reasonable intervals and immediately repair any defects found by such inspection or when required by said officer to repair any such defects.

**9. PROTECTION OF GOVERNMENT PROPERTY**

The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this easement, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

**10. RIGHT TO ENTER**

The right is reserved to the United States, its officers, agents, and employees to enter upon the premises at any time and for any purpose necessary or convenient in connection with government purposes, to make inspections, to remove timber or other material, except property of the grantee, to flood the premises and/or to make any other use of the lands as may be necessary in connection with government purposes, and the grantee shall have no claim for damages on account thereof against the United States or any officer, agent, or employee thereof.

**11. RIGHT TO CONNECT**

The United States reserves the right to make such connections between the road or street herein authorized and roads and streets on other government lands as said officer may from time consider necessary, and also reserves to

ER 405-1-12  
Change 30  
30 Sep 94

itself rights-of-way for all purposes across, over or under the right-of-way hereby granted; provided that such rights shall be used in a manner that will not create unnecessary interference with the use and enjoyment by the grantee of the right-of-way herein granted.

**12. OTHER AGENCY AGREEMENTS**

It is understood that the provisions of the conditions on **SUPERVISION BY THE (DISTRICT ENGINEER)(INSTALATION COMMANDER)** and **RIGHT TO ENTER** above shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the construction, maintenance, or repair of the facilities herein authorized.

**13. TERMINATION**

This easement may be terminated by the Secretary upon 30 days written notice to the grantee if the Secretary shall determine that the right-of-way hereby granted interferes with the use or disposal of said land by the United States, or it may be revoked by the Secretary for failure of the grantee to comply with any or all of the conditions of this easement, or for non-use for a period of two (2) years, or for abandonment.

**14. SOIL AND WATER CONSERVATION**

The grantee shall maintain, in a manner satisfactory to said officer, all soil and water conservation structures that may be in existence upon said premises at the beginning of or that may be constructed by the grantee during the term of this easement, and the grantee shall take appropriate measures to prevent or control soil erosion within the right-of-way herein granted. Any soil erosion occurring outside the premises resulting from the activities of the grantee shall be corrected by the grantee as directed by said officer.

**15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties hereto shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by the said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this easement. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The use of any pesticides or herbicides within the premises shall be in conformance with all applicable Federal, state, interstate, and local laws and regulations. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

c. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs arising from the grantee's activities, the grantee shall be liable to restore the damaged resources.

In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **18. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or persons because of race, color, age, sex, handicap, national, origin or religion.

b. The grantee, by acceptance of this easement, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. § 2000d); the Age Discrimination Act of 1975 (42 U.S.C. § 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. § 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defence Directive 5500.11 and 1020.1, and Army Regulation 600-7. This assurance shall be binding on the grantee, its agents, successors, transferees, and assignees.

#### **19. RESTORATION**

On or before the termination or revocation of this easement, the grantee shall, without expense to the United States and within such time as said officer may indicate, restore the premises to the satisfaction of said officer. In the event the grantee shall fail to restore the premises, at the option of said officer, said improvements shall either become the property of the United States without compensation therefore, or said officer shall have the option to perform the restoration at the expense of the grantee, and the grantee shall have no claim for damages against the United States or its officers or agents for such action.

#### **20. DISCLAIMER**

DEPARTMENT OF THE ARMY  
EASEMENT FOR  
FUEL CARRYING PIPELINE

THE SECRETARY OF THE ARMY, under and by virtue of the eauthority vested in him by 30 U.S.C. 185, hereby grants to \_\_\_\_\_ hereinafter designated as the grantee, for a period of \_\_\_\_\_ years from \_\_\_\_\_, an easement for a right-of-way for the installation, construction, operation, maintenance, and repair of a \_\_\_\_\_-inch underground gas pipeline for the purpose of \_\_\_\_\_ over, across, in, and upon land the Army at the location shown in red on Exhibit \_\_\_\_\_ attached hereto and made a part hereof, and described on Exhibit \_\_\_\_\_ attached hereto and made a part hereof.

THE EASEMENT is granted subject to the following conditions:

1. The grantee shall pay to the United States in advance upon delivery of this easement the sum of \_\_\_\_\_ per annum for the easement, the sum of \_\_\_\_\_ as reimbursement for the costs incurred by the United States in processing the application, and the sum of \_\_\_\_\_ as reimbursement for the cost of monitoring construction, operation and maintenance of said pipeline for the entire term of the easement. In the event of termination of this easement, the grantee further agrees to reimburse the United States for any and all costs incurred by the United States in monitoring the termination. All payments shall be made to the Finance and Accounting Office, U.S. Army Corps of Engineers and forwarded by the grantee to the District Commander, U.S. Army Engineer District, \_\_\_\_\_ no later than \_\_\_\_\_. The U.S. will impose a charge, the amount to be determined by law or regulation on late payment of rent or other payments due under this agreement for each 30 day period that the payment is overdue. The full late charge will also be applicable to periods of less than 30 days.
2. The grantee shall construct, operate, maintain, and terminate the said pipeline in all accordance Federal, state, county, and municipal laws, regulations, and ordinances.
3. The installation and/or operation and maintenance of said line shall be accomplished without cost or expense to the United States under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter designated as "said officer," and in such manner as not to endanger personnel or property of the United States on the said United States land or obstruct travel on any road thereon. The grantee shall have the right of ingress and egress for such purposes, subject to approval of access by said officer.
4. The use and occupation of said land incident to the exercise of the privileges hereby granted shall be subject to such rules and regulations as the said officer may from time to time prescribe.
5. Upon completion of the installation of said line and the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition in which they existed prior to the commencement of such work, to the satisfaction of the said officer. The grantee shall supervise the said line and cause it to be inspected at reasonable intervals, and shall immediately repair any leaks found therein as a result of such inspection, or when requested by said officer to repair any defects.

ER 405-1-12  
Change 30  
30 Sep 94

6. The grantee shall be strictly liable to the United States for damage or injury which may arise from or be incident to the construction, maintenance or removal of said line and the use or occupation of the right-of-way herein granted. Damages to property of the United States shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer, or in lieu of such repair or replacement the grantee shall, if so required by the said officer, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States. All owners of any interest in, and all affiliates or subsidiaries of the grantee, except for corporate stockholders, shall be jointly and severally liable to the United States in the event that a claim for damage or injury is not satisfied by the grantee. Liability without fault hereunder shall be limited to (insert maximum amount commensurate with the foreseeable risks or hazards presented) for any one incident. Liability of such grantee for damages in excess (insert figure above) shall be in accord with ordinary rules of negligence. However, this condition shall not impose strict liability on the grantee for damage or injury resulting from (a) an act of war, or (b) negligence of the United States. In any case where liability without fault is imposed pursuant to this condition and the damage or injuries involved were caused by the negligence of a third party, the rules of subrogation shall apply in accordance with the law of the jurisdiction where the damage or injury occurred.

7. The United States shall not be responsible for damages or injuries which may arise from or be incident to the construction, maintenance, and use of said line, nor for damages to the property of the grantee, nor for damages to the property or injuries to the person of the grantee's officers, agents, servants, or employees, or others who may be on said premises at the grantee's invitation or any one of them. The grantee does hereby accept liability, if any, imposed by Federal and state statutes to third parties for injuries incurred in connection with the use and occupancy of the right-of-way. The grantee shall hold the United States harmless from any and all such claims.

8. The United States reserves to itself and its grantees or licensees the right to construct, use, and maintain on or adjacent to the right-of-way hereby granted, electric transmission, telephone, telegraph, water, gas, gasoline, oil and sewer lines, roads and permits for other compatible uses in such manner as not to create any unreasonable interference with the use of the right-of-way herein granted.

9. That the grantee shall furnish through said line such service as may be required from time to time for governmental purposes on said land, provided that payment for such service will be made by the United States at rates which shall be mutually agreeable but which shall never exceed the most favorable rates charged by the grantee for similar service.

10. In the event all or any portion of said land occupied by said line shall be needed by the United States, or in the event the existence of said line shall be considered detrimental to governmental activities, the grantee shall, from time to time, upon notice to do so, and as often as so notified, remove said line and related facilities to such other location or locations on said land as may be designated by said officer. And in the event said line shall not be removed or relocated within ninety (90) days after any aforesaid notice, the United States may cause the same to be done at the expense of the grantee.

11a. Abandonment of a right of way herein granted or noncompliance with any provisions of this easement or applicable provisions of 30 U.S.C. 185 may be grounds for suspension or termination of the right of way if ta) after due notice to the holder of the right of way, (b) a reasonable opportunity to comply with this section, and (c) an appropriate administrative proceeding

ER 405-1-12  
Change 30  
30 Sep 94

pursuant to Title 5, U.S.C., Section 554, the Secretary determines that any such ground exists that suspension or termination is justified.

b. If the Secretary of the Army determines that an immediate temporary suspension of activities within a right-of-way or permit area is necessary to protect public health or safety or the environment, he may abate such activities prior to an administrative proceeding.

c. Deliberate failure of the grantee to use the right-of-way for the purpose for which it was granted or renewed for any continuous two-year period shall constitute a rebuttable presumption of abandonment of the right-of-way: Provided, that where the failure to use the right-of-way is due to circumstances not within the holder's control, the Secretary is not required to commence proceedings to suspend or terminate the right-of-way.

12. Upon the expiration or termination of this grant, the grantee shall, without expense to the United States, and within such time as the Secretary of the Army may indicate, remove the said line from said land and restore the premises hereby authorized to be used and occupied to a condition satisfactory to the said officer. In the event the grantee shall fail, neglect, or refuse to remove the said line and so restore the premises, the United States shall have the option either to take over the said line as the property of the United States, without compensation therefor, or to remove the said line and perform the restoration work as aforesaid at the expense of the grantee, and in no event shall the grantee have any claim for damages against the United States or its officers or agents, on account of the taking over of said line or on account of its removal.

13. The conditions of this instrument shall extend to and be binding upon and shall inure to the benefit of the representatives, successors, and assigns of the grantee.

14. That it is understood that this instrument is effective only insofar as the rights of the United States in the said property are concerned, and that the grantee shall obtain such permission as may be necessary on account of any other existing rights.

15. The pipeline and related facilities herein authorized shall be constructed, operated, and maintained as common carriers. The owners or operators of the pipeline herein authorized shall accept, convey, transport, or purchase without discrimination all oil or gas delivered to the pipeline without regard to whether such oil or gas was produced on Federal or nonfederal lands. (Delete this clause if inapplicable)

16. It is understood that the provision of Condition No. 3, above, shall not abrogate or interfere with any agreements or commitments made or entered into between the grantee and any other agency of the United States with regard to financial aid to the grantee in connection with the installation, operation, or maintenance of said line.

17. That the pipeline will be buried at a depth of not less than \_\_\_\_\_ feet below the surface and such installation will be in accordance with applicable Federal and state standards.

18. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until

ER 405-1-12  
Change 30  
30 Sep 94

a professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

This easement is not subject to Title 10, U.S.C., Section 2662.

IN WITNESS WHEREOF, I have hereunto set my hand this \_\_\_\_\_  
day \_\_\_\_\_ of 19 \_\_\_\_ by authority of the Secretary of the Army.

\_\_\_\_\_

The above easement is hereby accepted this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_ by authority of the Secretary of the Army.

DEPARTMENT OF THE \_\_\_\_\_  
CONSENT TO CROSS U. S. GOVERNMENT EASEMENT  
AT

KNOW ALL MEN BY THESE PRESENTS:

That the consent of the United States is hereby granted to \_\_\_\_\_ hereinafter designated as grantee, to construct, use, maintain, control, operate and repair a \_\_\_\_\_, herein referred to as "structure", across, over and under the lands where the United States has acquired a perpetual \_\_\_\_\_ easement identified as Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_ (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ county, (State). The right-of-way for said structure for the purpose of this consent is specifically identified-as Parcel(s) \_\_\_\_\_, located as shown on Exhibit "A" attached hereto and made a part hereof and described as follows:

This consent is granted subject to the following conditions:

1. That it is understood that this consent is effective only insofar as the pxproperty rights of the United States in the land to be occupied are concerned, and that it does not relieve the grantee from the necessity of obtaining grants from the owners of the fee and/or other interests therein.
2. That the proposed construction authorized herein shall not be commenced until appropriate rights shall have been obtained by the grantee from the record owners and encumbrances of the fee title to the lands involved.
3. That the exercise of the privileges hereby consented to shall be without cost or expense to the Department of the \_\_\_\_\_, under the general supervision and subject to the approval of the officer having immediate jurisdiction over the property, hereinafter referred to as "said officer," and subject to such regulations as may be prescribed by the District Commander, \_\_\_\_\_, District, from time to time, including, but not limited to, the specific conditions, requirements and specifications set forth in Exhibit "B" attached hereto and made a part hereof.
4. That the grantee shall supervise and maintain the said structure and cause it to be inspected at reasonable intervals, and shall immediately repair any damage found therein as a result of such inspection, or when requested by said officer to repair any defects. Upon completion of the installation of said structure or the making of any repairs thereto, the premises shall be restored immediately by the grantee, at the grantee's own expense, to the same condition as that in which they existed prior to the commencement of such work, to the satisfaction of said officer.
5. That any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges hereby granted shall be promptly repaired or replaced by the grantee to the satisfaction of the said officer or in lieu of such repair or replacement, the grantee shall, if so required by the said officer and at his option, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States by reason of damage to or destruction of Government property.
6. That the United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the

ER 405-1-12  
Change 30  
30 Sep 94

privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee, or the persons of grantee's officers, agents, servants, or employees or others who may be on said premises at their invitation or the invitation of one of them arising from governmental activities on or in the vicinity of the said premises, and the grantee shall hold the United States harmless from any and all such claims.

7. That this consent is effective only as to the following rights of the United States in the lands hereinabove described.

8. That the United States shall in no case be liable for any damage or injury to the construction herein authorized which may be caused by any action of the Government, under the rights obtained in its easements, either hidden or known, or that may result from future operations under taken by the Government, and no claim or right to compensation shall accrue from such damage or injury, and if further operations of the United States require the alteration or removal of the structure herein authorized, the grantee shall, upon due notice from the Chief of Engineers, Department of Army, alter or remove said structure without expense to the Government and subject to the supervision and approval of the officer having jurisdiction over the property and no claim for damages shall be made against the United States on account of such alterations or removal.

9. That construction and/or operation maintenance and use of said structure incident to the exercise of the privileges hereby granted shall be in such a manner as not to conflict with the rights of the Government, nor to interfere with the operations by the Government under such rights, nor to endanger lives and safety of the public.

10. That this consent may be terminated by the Secretary of the \_\_\_\_\_ upon reasonable notice to the grantee if the Secretary of the \_\_\_\_\_ shall determine that installation to which consent is hereby granted interferes with the use of said land or any part thereof by the United States, and this consent may be annulled and forfeited by the declaration of the Secretary of the \_\_\_\_\_ for failure to comply with any and all of the provisions and conditions of this consent, or for nonuse for a period of two years, or for abandonment.

11. That upon the relinquishment, termination, revocation, forfeiture or annulment of the consent herein granted, the grantee shall vacate the premises, remove all property of the grantee therefrom, and restore the premises to a condition satisfactory to the officers having immediate jurisdiction over the property. If the grantee shall fail or neglect to remove said property and so restore the premises, then, at the option of the Secretary of the \_\_\_\_\_, the said property shall either become the property of the United States without compensation therefor, or the Secretary of the \_\_\_\_\_ may cause it to be removed and the premises to be so restored at the expense of the grantee, and no claim for damages against the United States, or its officers or agents, shall be created by or made on account of such removal and restoration.

12. That the terms and conditions of this consent shall extend to and be binding upon the heirs, successors and assigns of the grantee.

13. That the grantee within the limits of his respective legal powers shall comply with all Federal, interstate, state and/or local governmental regulations, conditions or instructions for the protection of the environment and all other matters as they relate to real property interests granted herein.

ER 405-1-12  
Change 30  
30 Sep 94

14. That the grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, vestiges, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify the District Commander, \_\_\_\_\_ District, and the site and the material shall be protected by the grantee from further disturbance until a Professional examination of them can be made or until clearance to proceed is authorized by the District Commander.

15. Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include assignees, transferees and their duly authorized representatives.

16. Merger clause. Prior to the execution of this consent, the following conditions were deleted: \_\_\_\_\_; changed: \_\_\_\_\_; or added: \_\_\_\_\_.

This consent is not subject to Title 10, U.S.C., Section 2662.

In Witness Whereof, I have hereunto set my hand, by authority of the Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_.

APPLICATION FOR CONSENT TO CROSS U. S. GOV'T EASEMENT

Date \_\_\_\_\_

APPLICATION IS MADE for the consent of the Department of \_\_\_\_\_ to construct, maintain, control, operate and repair a (state type of structure) located as shown on the attached print, over, under or across the Easement vested in the United States of America, and identified as Acquisition Tract No. \_\_\_\_\_ and situated in Section \_\_\_\_\_, Township North, Range \_\_\_\_\_, Montana Principal Meridian \_\_\_\_\_, County \_\_\_\_\_.

Names and addresses of Record Owners are \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Names and addresses of Record Encumbrances are \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

(Fill in as applicable)

1. Width of right-of-way desired \_\_\_\_\_.
2. Diameter of pipe \_\_\_\_\_.
3. Kind of pipe \_\_\_\_\_.
4. Substance pipe to carry \_\_\_\_\_.
5. Type of service if electrical (Power, feeder, light feeder, telephone) \_\_\_\_\_.
6. A.C. or D.C. \_\_\_\_\_, Voltage \_\_\_\_\_ Phase \_\_\_\_\_  
Cycle \_\_\_\_\_
7. No. wires or cables \_\_\_\_\_, ultimate number wires or cable conductors \_\_\_\_\_, guage \_\_\_\_\_, diameter of cable \_\_\_\_\_, kind of wire (copper, iron, etc.) \_\_\_\_\_. Is wire bare or insulated \_\_\_\_\_, solid or strand \_\_\_\_\_?

The undersigned agrees that construction of the facility or structure involved in this application shall not begin until the Consent to Cross U.S. Government Easement, herein applied for, shall have been granted and appropriate rights shall have been acquired from the record owners and encumbrances of the underlying fee in the land involved.

DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS  
\_\_\_\_\_ DISTRICT

Consent No. \_\_\_\_\_  
Project: \_\_\_\_\_  
Tract No. \_\_\_\_\_

CONSENT TO EASEMENT STRUCTURES

WHEREAS, the United States has acquired a perpetual \_\_\_\_\_ easement over Tract(s) No(s) \_\_\_\_\_, \_\_\_\_\_, (Project/Installation) and which is recorded in Deed Book \_\_\_\_\_, Page \_\_\_\_\_, in the records of \_\_\_\_\_ County, \_\_\_\_\_ (State).

(DELETE THE FOLLOWING WHEREAS, IF NOT APPLICABLE)

WHEREAS, said easement grants to the United States the right of prior approval for any structure to be located within the easement area, which area is under the administrative control of the District, Corps of Engineers;

WHEREAS, the United States has been requested to give consent for ( the construction / placement / location of \_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_) on the above identified tract (s).

NOW THEREFORE, the United States hereby gives consents to \_\_\_\_\_ for (the construction / placement / location of \_\_\_\_\_) at the location shown on Exhibit "A" attached hereto;

PROVIDED HOWEVER, that this consent is subject to the following conditions:

1. All activities conducted on the premises shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.
2. The giving of this consent does not in any way subordinate the United States prior easement rights. The United States shall in no case be liable for any damage or injury to the structures herein consented to, which may be caused by any action of the United States under its easement, or that may result from future operations undertaken by the United States, and no claim or right to compensation shall accrue from such exercise of the United States' easement rights.
3. The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the consented activity.
4. This instrument is effective only insofar as the rights of the United States in the premises are concerned; and the consentee shall obtain such permission as may be required on account of any other existing rights. It is understood that this consent does not eliminate the necessity for obtaining any Department of the Army permit which may be required pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (30 Stat. 1151; 33 U.S.C. § 403), Section 404 of the Clean Water Act (33 U.S.C. § 1344) or any other permit or license which may be required by Federal, state, interstate or local laws in connection with the use of the premises.

No. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_ LICENSE

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_, hereby grants to

\_\_\_\_\_  
hereinafter referred to as the grantee, a license for \_\_\_\_\_

over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

THIS LICENSE is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

b. All consideration and other payments due under the terms of this license must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall

ER 405-1-12  
Change 30  
30 Sep 94

accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All notices and correspondence to be given pursuant to this license shall be addressed, if to the grantee, to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_;

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

### 7. CONDITIONAL USE BY GRANTEE

The exercise of the privileges herein granted shall be:

- a. without cost or expense to the United States;
- b. subject to the right of the United States to improve, use or maintain the premises.
- c. subject to other outgrants of the United States on the premises.
- d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

### 8. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any

ER 405-1-12  
Change 30  
30 Sep 94

representations or warranties whatsoever and without any obligation on the part of the United States.

#### **9. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate supervision over the premises, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

#### **10. PROTECTION OF PROPERTY**

The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

#### **12. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

#### **13. NON-DISCRIMINATION**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities because of race, color, religion, sex, age, handicap or national origin in the conduct of operations on the premises. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

#### **14. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least ten (10) days notice in writing provided that no refund by the United States of any consideration previously paid shall be made and provided further, that in the event that said notice is not given at least ten (10) days prior to the rental due date, the grantee shall be required to pay the consideration for the period shown in the Condition on CONSIDERATION.

#### **15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### **16. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **17. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army

ER 405-1-12  
Change 30  
30 Sep 94

permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY LICENCE  
FOR FISH AND WILDLIFE ACTIVITIES ON**

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

**THE SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_ hereby grants to \_\_\_\_\_ hereinafter referred to as the grantee, a license for fish and wildlife activities over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS LICENSE** is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_ and ending \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

The consideration for this license is the operation and maintenance of the premises by the grantee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this license shall be addressed, if to the grantee to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_; or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. STRUCTURES AND EQUIPMENT**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall have the right, during the term of the license, to erect such structures and to provide such equipment upon the premises to accomplish the purposes of the license and as provided for in the Annual Management Plan. Those structures and equipment shall be and remain the property of the grantee, except as otherwise provided in the condition on **RESTORATION**.

#### **7. ANNUAL MANAGEMENT PLANS**

The grantee shall administer the premises in accordance with an Annual Management Plan which shows the management and development activities to be undertaken by the grantee. No later than \_\_\_\_\_ of each year, the grantee will submit the Annual Management Plan to be mutually agreed upon between the grantee and the said officer. Such Annual Management Plan shall include but is not limited to the following:

- a. Plans for management, maintenance, and development activities to be undertaken by the grantee or jointly by the Corps of Engineers and the grantee which shall include plans for any proposed structures and improvements.
- b. The areas to be utilized for agricultural purposes.
- c. The variety and scope of crops to be planted, as well as any rotations.
- d. The type of wildlife cover to be cultivated, if any.
- e. The areas designated for various species of fish and wildlife propagation.

#### **8. FISH AND WILDLIFE ACTIVITIES**

a. The grantee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the grantee for wildlife habitat will be made available for lease by the said officer for agricultural or grazing purposes under conditions which would not be incompatible with the grantee's use of the premises.

c. The grantee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

#### **9. ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the grantee from operations conducted on the premises may be utilized by the grantee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this license and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid

ER 405-1-12  
Change 30  
30 Sep 94

to said officer. The grantee shall provide an annual statement of receipts and expenditures to the said officer. The said officer shall have the right to perform audits of the grantee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of grantee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

c. Proceeds derived from the sale of fishing and hunting leases are not

#### **10. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

#### **11. CONDITIONAL USE BY GRANTEE**

The exercise of the privileges herein granted shall be:

a. without cost or expense to the United States;

b. subject to the right of the United States to improve, use or maintain the premises.

c. subject to other outgrants of the United States on the premises.

d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

#### **12. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the United States.

#### **13. PROTECTION OF PROPERTY**

The premises shall at all times be protected and maintained in good order and condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **14. RESTORATION**

ER 405-1-12  
Change 30  
30 Sep 94

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

**15. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises, because of race, color, religion, sex, age, handicap or national origin. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The grantee, by acceptance of this license, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directive 5500.11 and 1020.1, and Army Regulation 600-7.

**16. TERMINATION**

This license may be terminated by the grantee at any time by giving the said officer at least thirty (30) days notice in writing.

**17. NATURAL RESOURCES**

The grantee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the approved Annual Management Plan. The grantee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the grantee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the grantee under the provisions of this license.

**18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or

ER 405-1-12  
Change 30  
30 Sep 94

local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**19. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**20. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be require by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LICENSE** is also executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
LICENSE FOR  
NATIONAL GUARD PURPOSES

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under the authority of Title 32, United States Code, Section 503, hereby grants to the State of \_\_\_\_\_, hereinafter referred to as the grantee, a license to use and occupy for training and support of the \_\_\_\_\_ National Guard certain land and improvements, hereinafter referred to as the premises, as shown identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof.

THIS LICENSE is granted subject to the following conditions:

**1. TERM**

This license is granted for (an indefinite term,) (a term of \_\_\_\_\_ years, beginning \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_,) but revocable at will by the Secretary.

**\*NOTE:** See chapter 8 for additional wording when licensed area is not owned in fee by the United States.

**2. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The use and occupancy of the premises shall be without cost to the regular establishment of the military departments of the Department of Defense and shall be under the general supervision of the (District Engineer) (Active Army Installation Commander) (U.S. Property and Fiscal Officer), \_\_\_\_\_, (District) (Installation) hereinafter referred to as said officer, and subject' to such rules and regulations as may be prescribed from time to time by said officer.

**3. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county, and municipal laws, ordinances, and regulations wherein the premises are located

**4. FACILITY MAINTENANCE**

The grantee shall maintain and keep the premises in good repair and condition and all costs of operation, maintenance, and restoration shall be paid for from funds available to the grantee, or from funds other than those appropriated for the regular establishment of the military departments.

**5. RIGHT TO USE**

The United States, hereinafter referred to as the Government, reserves the right to use the premises, or any part thereof, including all buildings

ER 405-1-12  
Change 30  
30 Sep 94

and improvements situated thereon, for such purposes as said officer deems necessary in the interest of national defense.

**6. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing and/or supplying any utilities or other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced and supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

**7. USE RESTRICTIONS**

The buildings and improvements included in this license shall not be used for the quartering of personnel engaged in the national guard activities except when such personnel are in the federal service or are participating in authorized training.

**8. IMPROVEMENTS AND ALTERATIONS**

Additions to or alteration or improvement of the premises shall not be made without prior written approval of the District Engineer. All such additions, alterations or improvements shall be maintained by the grantee in good repair and condition. All such work designated as permanent by said officer shall, upon completion, become property of the Government.

**9. CONDITION OF PREMISES**

a. The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the Government.

**DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this license, an inventory and condition report of all personal property and improvements of the Government included in this license shall be made by the District Engineer and the grantee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this license, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored as provided for in the condition on **RESTORATION.**

**10. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least thirty (30) days notice in writing.

**11. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove its property (except those permanent additions, alterations, and improvements which have become

ER 405-1-12  
Change 30  
30 Sep 94

property of the Government under provision of the condition on **IMPROVEMENTS AND ALTERATIONS**) and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises within such time as the said officer may designate. In either event, if the grantee fails to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the Government without compensation therefor, or said officer may cause the property to be removed at the expense of the grantee, and no claim for damages against the Government shall be created on account of such action.

## **12. USE BY OTHERS**

The grantee shall not transfer or assign this license, or any interest in the premises, however, upon concurrence of the Director, (Army) (Air force) National Guard, National Guard Bureau, the grantee may (1) permit the temporary or intermittent use of the premises by elements of the Department of Defense for joint use or individual training purposes, provided such use will not interfere with the National Guard use; or (2) issue licenses for nonprofit, community service-type activities under the same conditions as those allowed by active installation commanders by existing (Army) (Air Force) regulations.

## **13. PROTECTION OF PROPERTY**

a. The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

b. Upon termination of the grantee's requirement for the premises, the grantee shall remain responsible to protect and maintain the premises until transfer to and acceptance by another accountability officer is accomplished or in accordance with applicable laws, rules and regulations.

## **14. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**15. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this license, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee to the satisfaction of the said officer.

**16. HISTORICAL PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural, or other cultural artifacts, relics, or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until the said officer gives clearance to proceed.

**17. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises because of race, color, religion, sex, age, handicap or national origin. The grantee by acceptance of this license, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973 as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Department of Defense Directive 5500.11 (32 CFR Part 300) issued on December 28, 1964.

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_.

\_\_\_\_\_

This license is executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

No. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_ LICENSE

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_, hereby grants to

\_\_\_\_\_  
hereinafter referred to as the grantee, a license for \_\_\_\_\_

over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

THIS LICENSE is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_, \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

a. The grantee shall pay in advance to the United States the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), (in full for the term hereof) (payable \_\_\_\_\_) to the order of the Finance and Accounting Officer, \_\_\_\_\_ District, and delivered to \_\_\_\_\_

b. All consideration and other payments due under the terms of this license must be paid on or before the date they are due in order to avoid the mandatory sanctions imposed by the Debt Collection Act of 1982, (31 U.S.C. Section 3717). This statute requires the imposition of an interest charge for the late payment of debts owed to the United States; an administrative charge to cover the costs of processing and handling delinquent debts; and the assessment of an additional penalty charge on any portion of a debt that is more than 90 days past due. The provisions of the statute will be implemented as follows:

(1) The United States will impose an interest charge, the amount to be determined by law or regulation, on late payment of debts. Interest will accrue from (the due date) (the later of the due date or the date notification of the amount due is mailed to the grantee). An administrative charge to cover the cost of processing and handling each payment will also be imposed.

(2) In addition to the charges set forth above, the United States will impose a penalty charge of six percent (6%) per annum on any payment or portion thereof, more than ninety (90) days past due. The penalty shall

ER 405-1-12  
Change 30  
30 Sep 94

accrue from the date of delinquency and will continue to accrue until the debt is paid in full.

(3) All payments received will be applied first to any accumulated interest, administrative and penalty charges and then to any unpaid rental or other payment balance. Interest will not accrue on any administrative or late payment penalty charge.

### 3. NOTICES

All notices and correspondence to be given pursuant to this license shall be addressed, if to the grantee, to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_;

or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

### 4. AUTHORIZED REPRESENTATIVES

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", "Installation Commander", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

### 5. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)

The use and occupation of the premises shall be subject to the general supervision and approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

### 6. APPLICABLE LAWS AND REGULATIONS

The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

### 7. CONDITIONAL USE BY GRANTEE

The exercise of the privileges herein granted shall be:

- a. without cost or expense to the United States;
- b. subject to the right of the United States to improve, use or maintain the premises.
- c. subject to other outgrants of the United States on the premises.
- d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

### 8. CONDITION OF PREMISES

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any

ER 405-1-12  
Change 30  
30 Sep 94

representations or warranties whatsoever and without any obligation on the part of the United States.

#### **9. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate supervision over the premises, of producing and/or supplying any utilities and other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced or supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

#### **10. PROTECTION OF PROPERTY**

The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **11. INDEMNITY**

The United States shall not be responsible for damages to property or injuries to persons which may arise from or be incident to the exercise of the privileges herein granted, or for damages to the property of the grantee, or for damages to the property or injuries to the person of the grantee's officers, agents, or employees or others who may be on the premises at their invitation or the invitation of any one of them, and the grantee shall hold the United States harmless from any and all such claims not including damages due to the fault or negligence of the United States or its contractors.

#### **12. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the District Engineer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

#### **13. NON-DISCRIMINATION**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities because of race, color, religion, sex, age, handicap or national origin in the conduct of operations on the premises. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

#### **14. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least ten (10) days notice in writing provided that no refund by the United States of any consideration previously paid shall be made and provided further, that in the event that said notice is not given at least ten (10) days prior to the rental due date, the grantee shall be required to pay the consideration for the period shown in the Condition on CONSIDERATION.

#### **15. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

#### **16. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

#### **17. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be required by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army

NO. \_\_\_\_\_

**DEPARTMENT OF THE ARMY LICENCE  
FOR FISH AND WILDLIFE ACTIVITIES ON**

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

**THE SECRETARY OF THE ARMY**, hereinafter referred to as the Secretary, under authority of \_\_\_\_\_ hereby grants to \_\_\_\_\_ hereinafter referred to as the grantee, a license for fish and wildlife activities over, across, in and upon lands of the United States, as identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS LICENSE** is granted subject to the following conditions.

**1. TERM**

This license is granted for a term of \_\_\_\_\_, beginning \_\_\_\_\_ and ending \_\_\_\_\_, but revocable at will by the Secretary.

**2. CONSIDERATION**

The consideration for this license is the operation and maintenance of the premises by the grantee for the benefit of the United States and the general public in accordance with the conditions herein set forth.

**3. NOTICES**

All correspondence and notices to be given pursuant to this license shall be addressed, if to the grantee to \_\_\_\_\_; and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division, \_\_\_\_\_; or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope, or wrapper, addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

**4. AUTHORIZED REPRESENTATIVES**

Except as otherwise specifically provided, any reference herein to "Secretary", "District Engineer", or "said officer" shall include their duly authorized representatives. Any reference to "grantee" shall include any duly authorized representatives.

**5. SUPERVISION BY THE DISTRICT ENGINEER**

The use and occupation of the premises shall be subject to the general supervision and approval of the District Engineer, hereinafter referred to as said officer, and to such rules and regulations as may be prescribed from time to time by said officer.

**6. STRUCTURES AND EQUIPMENT**

ER 405-1-12  
Change 30  
30 Sep 94

The grantee shall have the right, during the term of the license, to erect such structures and to provide such equipment upon the premises to accomplish the purposes of the license and as provided for in the Annual Management Plan. Those structures and equipment shall be and remain the property of the grantee, except as otherwise provided in the condition on **RESTORATION**.

#### **7. ANNUAL MANAGEMENT PLANS**

The grantee shall administer the premises in accordance with an Annual Management Plan which shows the management and development activities to be undertaken by the grantee. No later than \_\_\_\_\_ of each year, the grantee will submit the Annual Management Plan to be mutually agreed upon between the grantee and the said officer. Such Annual Management Plan shall include but is not limited to the following:

- a. Plans for management, maintenance, and development activities to be undertaken by the grantee or jointly by the Corps of Engineers and the grantee which shall include plans for any proposed structures and improvements.
- b. The areas to be utilized for agricultural purposes.
- c. The variety and scope of crops to be planted, as well as any rotations.
- d. The type of wildlife cover to be cultivated, if any.
- e. The areas designated for various species of fish and wildlife propagation.

#### **8. FISH AND WILDLIFE ACTIVITIES**

a. The grantee may plant or harvest crops, either directly, by service contract, by sharecrop agreements with local farmers, or by agricultural agreements to provide food and/or habitat for wildlife and for the development and conservation of land, fish and wildlife, forests, and other natural resources. Where feasible, contracts and agreements with third parties shall be by competitive bid procedures.

b. Any lands not being managed by the grantee for wildlife habitat will be made available for lease by the said officer for agricultural or grazing purposes under conditions which would not be incompatible with the grantee's use of the premises.

c. The grantee may take, trap, remove, stock or otherwise control all forms of fish and wildlife on the premises, and may place therein such additional forms of fish and wildlife as it may desire from time to time, and shall have the right to close the area, or any parts thereof from time to time, to fishing, hunting or trapping, provided that the closing of any area to such use shall be consistent with the state laws for the protection of fish and wildlife.

#### **9. ACCOUNTS, RECORDS AND RECEIPTS**

a. All monies received by the grantee from operations conducted on the premises may be utilized by the grantee for the administration, maintenance, operation and development of the premises. Beginning 5 years from the date of this license and continuing at 5-year intervals, any such monies not so utilized or programmed for utilization within a reasonable time shall be paid

ER 405-1-12  
Change 30  
30 Sep 94

to said officer. The grantee shall provide an annual statement of receipts and expenditures to the said officer. The said officer shall have the right to perform audits of the grantee's records and accounts.

b. Payment of direct expenses is authorized for planning and development of optimum wildlife habitat including planting of wildlife food plots, necessary timber clearing, erosion control or habitat improvements such as shelter, restocking of fish and wildlife, and protection of endangered species. Payment of grantee's employees who are directly engaged in such activities at the project is also authorized. However, proceeds will not be used for the payment of general administrative expenses.

c. Proceeds derived from the sale of fishing and hunting leases are not

#### **10. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

#### **11. CONDITIONAL USE BY GRANTEE**

The exercise of the privileges herein granted shall be:

a. without cost or expense to the United States;

b. subject to the right of the United States to improve, use or maintain the premises.

c. subject to other outgrants of the United States on the premises.

d. personal to the grantee, and this license, or any interest therein, may not be transferred or assigned.

#### **12. CONDITION OF PREMISES**

The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the United States.

#### **13. PROTECTION OF PROPERTY**

The premises shall at all times be protected and maintained in good order and condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to the property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

#### **14. RESTORATION**

ER 405-1-12  
Change 30  
30 Sep 94

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove the property of the grantee, and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises to the aforesaid condition within such time as the said officer may designate. In either event, if the grantee shall fail or neglect to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the United States without compensation therefor, or said officer may cause the property to be removed and no claim for damages against the United States or its officers or agents shall be created by or made on account of such removal and restoration work. The grantee shall also pay the United States on demand any sum which may be expended by the United States after the expiration, revocation, or termination of this license in restoring the premises.

**15. NON-DISCRIMINATION**

a. The grantee shall not discriminate against any person or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises, because of race, color, religion, sex, age, handicap or national origin. The grantee will comply with the Americans with Disabilities Act and attendant Americans with Disabilities Act Accessibility Guidelines (ADAAG) published by the Architectural and Transportation Barriers Compliance Board.

b. The grantee, by acceptance of this license, is receiving a type of Federal assistance and, therefore, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964, as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973, as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Directive of the Department of Defense (32 CFR Part 300) issued as Department of Defense Directive 5500.11 and 1020.1, and Army Regulation 600-7.

**16. TERMINATION**

This license may be terminated by the grantee at any time by giving the said officer at least thirty (30) days notice in writing.

**17. NATURAL RESOURCES**

The grantee shall cut no timber, conduct no mining operations, remove no sand, gravel, or kindred substances from the ground, commit no waste of any kind, nor in any manner substantially change the contour or condition of the premises, except as may be authorized under and pursuant to the approved Annual Management Plan. The grantee may salvage fallen or dead timber; however, no commercial use shall be made of such timber. Except for timber salvaged by the grantee when in the way of construction of improvements or other facilities, all sales of forest products will be conducted by the United States and the proceeds therefrom shall not be available to the grantee under the provisions of this license.

**18. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions, or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or

ER 405-1-12  
Change 30  
30 Sep 94

local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions, or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

c. The grantee must obtain approval in writing from said officer before any pesticides or herbicides are applied to the premises.

**19. HISTORIC PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural or other cultural artifacts, relics, remains or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and the material from further disturbance until said officer gives clearance to proceed.

**20. DISCLAIMER**

This license is effective only insofar as the rights of the United States in the premises are concerned; and the grantee shall obtain any permit or license which may be require by Federal, state, or local statute in connection with the use of the premises. It is understood that the granting of this license does not preclude the necessity of obtaining a Department of the Army permit for activities which involve the discharge of dredge or fill material or the placement of fixed structures in the waters of the United States, pursuant to the provisions of Section 10 of the Rivers and Harbors Act of 3 March 1899 (33 USC 403), and Section 404 of the Clean Waters Act (33 USC 1344).

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

\_\_\_\_\_

**THIS LICENSE** is also executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_  
LICENSE FOR  
NATIONAL GUARD PURPOSES

\_\_\_\_\_  
PROJECT/INSTALLATION

\_\_\_\_\_  
COUNTY, STATE

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary, under the authority of Title 32, United States Code, Section 503, hereby grants to the State of \_\_\_\_\_, hereinafter referred to as the grantee, a license to use and occupy for training and support of the \_\_\_\_\_ National Guard certain land and improvements, hereinafter referred to as the premises, as shown identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof.

THIS LICENSE is granted subject to the following conditions:

**1. TERM**

This license is granted for (an indefinite term,) (a term of \_\_\_\_\_ years, beginning \_\_\_\_\_ and ending \_\_\_\_\_, \_\_\_\_\_,) but revocable at will by the Secretary.

**\*NOTE:** See chapter 8 for additional wording when licensed area is not owned in fee by the United States.

**2. SUPERVISION BY THE (DISTRICT ENGINEER) (INSTALLATION COMMANDER)**

The use and occupancy of the premises shall be without cost to the regular establishment of the military departments of the Department of Defense and shall be under the general supervision of the (District Engineer) (Active Army Installation Commander) (U.S. Property and Fiscal Officer), \_\_\_\_\_, (District) (Installation) hereinafter referred to as said officer, and subject' to such rules and regulations as may be prescribed from time to time by said officer.

**3. APPLICABLE LAWS AND REGULATIONS**

The grantee shall comply with all applicable Federal, state, county, and municipal laws, ordinances, and regulations wherein the premises are located

**4. FACILITY MAINTENANCE**

The grantee shall maintain and keep the premises in good repair and condition and all costs of operation, maintenance, and restoration shall be paid for from funds available to the grantee, or from funds other than those appropriated for the regular establishment of the military departments.

**5. RIGHT TO USE**

The United States, hereinafter referred to as the Government, reserves the right to use the premises, or any part thereof, including all buildings

ER 405-1-12  
Change 30  
30 Sep 94

and improvements situated thereon, for such purposes as said officer deems necessary in the interest of national defense.

**6. COST OF UTILITIES**

The grantee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing and/or supplying any utilities or other services furnished by the Government or through Government-owned facilities for the use of the grantee, including the grantee's proportionate share of the cost of operation and maintenance of the Government-owned facilities by which such utilities or services are produced and supplied. The Government shall be under no obligation to furnish utilities or services. Payment shall be made in the manner prescribed by the officer having such jurisdiction.

**7. USE RESTRICTIONS**

The buildings and improvements included in this license shall not be used for the quartering of personnel engaged in the national guard activities except when such personnel are in the federal service or are participating in authorized training.

**8. IMPROVEMENTS AND ALTERATIONS**

Additions to or alteration or improvement of the premises shall not be made without prior written approval of the District Engineer. All such additions, alterations or improvements shall be maintained by the grantee in good repair and condition. All such work designated as permanent by said officer shall, upon completion, become property of the Government.

**9. CONDITION OF PREMISES**

a. The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the Government.

**DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)**

b. As of the date of this license, an inventory and condition report of all personal property and improvements of the Government included in this license shall be made by the District Engineer and the grantee to reflect the condition of said property and improvements. A copy of said report is attached hereto as Exhibit \_\_\_\_\_ and made a part hereof. Upon the expiration, revocation or termination of this license, another inventory and condition report shall be similarly prepared. This report shall constitute the basis for settlement for property damaged or destroyed. Any such property must be either replaced or restored as provided for in the condition on **RESTORATION.**

**10. TERMINATION**

This license may be terminated by the grantee at any time by giving the District Engineer at least thirty (30) days notice in writing.

**11. RESTORATION**

On or before the expiration of this license or its termination by the grantee, the grantee shall vacate the premises, remove its property (except those permanent additions, alterations, and improvements which have become

ER 405-1-12  
Change 30  
30 Sep 94

property of the Government under provision of the condition on **IMPROVEMENTS AND ALTERATIONS**) and restore the premises to a condition satisfactory to said officer. If, however, this license is revoked, the grantee shall vacate the premises, remove said property and restore the premises within such time as the said officer may designate. In either event, if the grantee fails to remove said property and restore the premises, then, at the option of said officer, the property shall either become the property of the Government without compensation therefor, or said officer may cause the property to be removed at the expense of the grantee, and no claim for damages against the Government shall be created on account of such action.

#### **12. USE BY OTHERS**

The grantee shall not transfer or assign this license, or any interest in the premises, however, upon concurrence of the Director, (Army) (Air force) National Guard, National Guard Bureau, the grantee may (1) permit the temporary or intermittent use of the premises by elements of the Department of Defense for joint use or individual training purposes, provided such use will not interfere with the National Guard use; or (2) issue licenses for nonprofit, community service-type activities under the same conditions as those allowed by active installation commanders by existing (Army) (Air Force) regulations.

#### **13. PROTECTION OF PROPERTY**

a. The grantee shall keep the premises in good order and in a clean, safe condition by and at the expense of the grantee. The grantee shall be responsible for any damage that may be caused to property of the United States by the activities of the grantee under this license, and shall exercise due diligence in the protection of all property located on the premises against fire or damage from any and all other causes. Any property of the United States damaged or destroyed by the grantee incident to the exercise of the privileges herein granted shall be promptly repaired or replaced by the grantee to a condition satisfactory to said officer, or at the election of said officer, reimbursement made therefor by the grantee in an amount necessary to restore or replace the property to a condition satisfactory to said officer.

b. Upon termination of the grantee's requirement for the premises, the grantee shall remain responsible to protect and maintain the premises until transfer to and acceptance by another accountability officer is accomplished or in accordance with applicable laws, rules and regulations.

#### **14. ENVIRONMENTAL PROTECTION**

a. Within the limits of their respective legal powers, the parties to this license shall protect the premises against pollution of its air, ground and water. The grantee shall comply with any laws, regulations, conditions or instructions affecting the activity hereby authorized if and when issued by the Environmental Protection Agency, or any Federal, state, interstate or local governmental agency having jurisdiction to abate or prevent pollution. The disposal of any toxic or hazardous materials within the premises is specifically prohibited. Such regulations, conditions or instructions in effect or prescribed by said Environmental Protection Agency, or any Federal, state, interstate or local governmental agency are hereby made a condition of this license. The grantee shall not discharge waste or effluent from the premises in such a manner that the discharge will contaminate streams or other bodies of water or otherwise become a public nuisance.

ER 405-1-12  
Change 30  
30 Sep 94

b. The grantee will use all reasonable means available to protect the environment and natural resources, and where damage nonetheless occurs from the grantee's activities, the grantee shall be liable to restore the damaged resources.

**15. PRELIMINARY ASSESSMENT SCREENING**

A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon, is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this license, another PAS shall be prepared which will document the environmental condition of the property at that time. A comparison of the two assessments will assist the said officer in determining any environmental restoration requirements. Any such requirements will be completed by the grantee to the satisfaction of the said officer.

**16. HISTORICAL PRESERVATION**

The grantee shall not remove or disturb, or cause or permit to be removed or disturbed, any historical, archeological, architectural, or other cultural artifacts, relics, or objects of antiquity. In the event such items are discovered on the premises, the grantee shall immediately notify said officer and protect the site and material from further disturbance until the said officer gives clearance to proceed.

**17. NON-DISCRIMINATION**

The grantee shall not discriminate against any person or persons or exclude them from participation in the grantee's operations, programs or activities conducted on the licensed premises because of race, color, religion, sex, age, handicap or national origin. The grantee by acceptance of this license, hereby gives assurance that it will comply with the provisions of Title VI of the Civil Rights Act of 1964 as amended (42 U.S.C. 2000d); the Age Discrimination Act of 1975 (42 U.S.C 6102); the Rehabilitation Act of 1973 as amended (29 U.S.C. 794); and all requirements imposed by or pursuant to the Department of Defense Directive 5500.11 (32 CFR Part 300) issued on December 28, 1964.

**THIS LICENSE** is not subject to Title 10, United States Code, Section 2662, as amended.

**IN WITNESS WHEREOF**, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_, this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_.

\_\_\_\_\_

This license is executed by the grantee this \_\_\_\_\_ day of \_\_\_\_\_, \_\_\_\_\_.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

**PERMIT TO OTHER FEDERAL GOVERNMENT DEPARTMENT OR AGENCY**

TO USE PROPERTY **LOCATED** ON

\_\_\_\_\_  
(project, installation)

**THE SECRETARY OF THE** \_\_\_\_\_, hereinafter referred to as the Secretary hereby **grants** to \_\_\_\_\_, hereinafter referred to as the grantee, a permit for \_\_\_\_\_, over, across, in and upon the lands identified in Exhibit(s) \_\_\_\_\_, attached hereto and made a part hereof, hereinafter referred to as the premises.

**THIS PERMIT** is granted **subject** to the following conditions.

1. This permit is hereby granted for a term of \_\_\_\_\_ **years**, beginning \_\_\_\_\_, and ending \_\_\_\_\_, but revocable at will by the Secretary.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

2. The grantee shall pay rental to the Department of the \_\_\_\_\_ in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

3. All **correspondence** and notices to be given pursuant to **this** permit shall be addressed, if to the grantee, to \_\_\_\_\_, and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_ or as may **from time to time** otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as **aforsaid**, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. The **use** and occupation of the **premises** shall be without cost or expense to the Department of the \_\_\_\_\_, and under the general supervision and subject to the **approval** of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), or his duly authorized representative, hereinafter referred to as said officer and to such rules and regulations as may be prescribed from time to time by said officer.

5. The grantee acknowledges that it **has inspected** the premises, <sup>knows</sup> its condition, and understands that the same is granted without any **representations** or **warranties whatsoever** and without any obligation on the part of the Department of the \_\_\_\_\_.

6. The grantee shall, at its own **expense** and without cost or expense to the Department of the \_\_\_\_\_, maintain and keep the premises in good repair and condition.

7. Any interference with the **use** of or damage to property under control of the Department of the \_\_\_\_\_ incident to the **exercise** of the

ER 405-1-12  
Change 30  
30 Sep 94

privileges herein granted shall be promptly corrected by the grantee to the satisfaction of said officer.

8. The grantee shall pay the cost, as determined by the officer having immediate jurisdiction over the premises, of producing or supplying any utilities and/or other services furnished by or through the Department of the \_\_\_\_\_ for the use of the grantee.

9. No additions to or alterations of the premises shall be made without the prior written approval of the District Engineer.

10. On or before the date of expiration of this permit or its relinquishment by the grantee, the grantee shall vacate the premises, remove its property therefrom \*(and restore the premises to a condition satisfactory to Baid officer, ordinary wear and tear and damage beyond the control of the grantee excepted.) If, however, this permit is revoked, the grantee shall vacate the premises and remove its property therefrom within such time as the District Engineer may designate.

**\*NOTE:** The above restoration clause shown in parenthesis is to be deleted in those permits where no monetary consideration is charged.

11. The grantee shall comply with all applicable Federal, state, county and municipal laws, ordinances and regulations wherein the premises are located.

12. A Preliminary Assessment Screening (PAS) documenting the known history of the property with regard to the storage, release or disposal of hazardous substances thereon is attached hereto and made a part hereof as Exhibit \_\_\_\_\_. Upon expiration, revocation or relinquishment of this permit, another PAS shall be prepared which will document the environmental condition of the property at that time. **NOTE** The following wording in parenthesis is to be included in only those permits which contain a restoration requirement in condition 10 above. (A comparison of the two assessments will assist the Baid officer in determining any environmental restoration requirements of the grantee. Any such requirements will be completed by the grantee in accordance with the restoration provisions in condition 10 above.)

(The following condition should be deleted in permits where there is no interagency or interservice support agreements)

13. It is understood that the requirements of this permit pertaining to maintenance, repair, protection, and restoration of the premises and reimbursement for utilities and other services, shall be effective only insofar as they do not conflict with any agreement, pertaining to such matters made between local representatives of the grantor and grantee in accordance with existing regulations.

THIS PERMIT is not subject to Title 10, United States Code, Section 2662, as amended.

DEPARTMENT OF THE \_\_\_\_\_  
 PERMIT FOR SCHOOL PURPOSES ON  
 \_\_\_\_\_

The Secretary of Education (Department of Education), hereinafter called the Permittee, is hereby granted a permit, effective the \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, by the Secretary of \_\_\_\_\_, hereinafter called the Permittee, to use and occupy for school purposes, with the right of ingress and egress thereto, as more fully described below, a tract of land of the United States within the \_\_\_\_\_ (Installation), \_\_\_\_\_ now under control of the Secretary of \_\_\_\_\_, at the location shown in red on Exhibit "A" attached hereto, and more particularly described as follows:

This permit is granted subject to the following provisions and conditions:

1. The Permittee, or its designee, shall use said land for the purpose of providing school facilities and making arrangements for conducting an educational program in accordance with Public Law 815, approved 23 September 1950 (64 Stat. 967) and Public Law 874, approved 30 September 1950 (64 Stat. 1100), as amended, or subsequent similar legislation.
2. The Permittee, or its designee, if necessary, shall have the right to connect to the base utility systems at its own expense, and to connect with public utility systems, if necessary.
3. The Permittee or its designee shall pay all proper charges for utilities and services furnished, except police and fire protection and the construction and maintenance of roads.
4. The Permittee, or its designee, shall, at its own cost and expense, protect, preserve, maintain, repair and keep in good order and condition, any facilities erected on the land and made available hereunder, which obligation shall extend to the making of capital repairs and replacements to the facilities as long as the Permittee has authority to do so and deems the facilities to be necessary to the accomplishment of its statutory obligations. Prior to any substantial addition or alteration of any building erected on the premises, by the Permittee or its designee, the Permittee shall consult with the Permittee, or its representative, as to plans and specifications therefor.
5. This permit may be revoked by the Permittee:
  - (a) At will.
  - (b) Upon termination of the authority and responsibility of the Permittee to make arrangements for the education of, and to provide school facilities for children residing on Federal establishments pursuant to Public Laws 815 and 874.
  - (c) In the event the Permittee, or its designee, fails to use and occupy the land for a period of one year.
6. The Secretary of Education may terminate obligations under this permit by reasonable notice to the Permittee in the event of either of the following contingencies:

ER 405-1-12  
Change 30  
30 Sep 94

(a) The Secretary deems the use of the property and facilities occupied under this permit to be **unnecessary** to the fulfillment of statutory obligations under Public Laws 815 and 874, as amended.

(b) Statutory authority of the Secretary to provide for the maintenance or make arrangements for the operation of the facilities erected and occupied under the permit is terminated or expires.

7. The Permittee or **its designee** operating the school shall exercise such authority and control over the facilities erected on the land described herein as it shall deem necessary for the education of children in attendance at the **school** facilities. It is understood and agreed, however, that the **activities** authorized hereunder shall be subject to such rules and regulations as the officer having immediate **jurisdiction** over the premises may, from time to time, **prescribe** for safety and security purposes consistent with the use of the **premises** for educational purposes.

8. The operation of school facilities which may be located on the property described herein shall be conducted without segregation on the **basis** of race or color.

9. The "**designee**" of the Permittee, referred to herein, is the local educational agency or Federal agency with whom an arrangement is made for the conducting of an educational program under the provisions of Public Laws 815 or 874, **as** amended.

10. Upon termination of **this** permit either by the Department \_\_\_\_\_ of or the Permittee, the accountability for all Government-owned improvements constructed upon the premises by the Permittee shall automatically transfer to the Department of \_\_\_\_\_ without compensation therefor.

11. The Permittee shall comply with all applicable Federal, state, county, and municipal laws, **regulations**, and ordinances.

IN WITNESS WHEREOF, I have hereunto set my hand by authority of the Secretary of the \_\_\_\_\_ this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_.

\_\_\_\_\_  
The terms and conditions of this permit are acceptable to the Secretary of Education, Department of Education.

NO. \_\_\_\_\_

DEPARTMENT OF THE \_\_\_\_\_

PERMIT TO OTHER FEDERAL GOVERNMENT DEPARTMENT OR AGENCY

TO USE PROPERTY LOCATED ON

\_\_\_\_\_  
(project, installation)

THE SECRETARY OF THE \_\_\_\_\_, hereinafter referred to as the Secretary hereby grants to \_\_\_\_\_, hereinafter referred to as the grantee, a permit for \_\_\_\_\_, over, access, in and upon the lands identified in Exhibit(s) \_\_\_\_\_ attached hereto and made a part hereof, hereinafter referred to as the premises.

THIS PERMIT is granted subject to the following conditions.

1. This permit is hereby granted for a term of \_\_\_\_\_ years, beginning \_\_\_\_\_, \_\_\_\_\_, and ending \_\_\_\_\_, \_\_\_\_\_, but revocable at will by the Secretary.

(DELETE THE FOLLOWING CONDITION IF NOT APPLICABLE)

2. The grantee shall pay rental to the Department of the \_\_\_\_\_ in the amount of \_\_\_\_\_ (\$ \_\_\_\_\_), payable \_\_\_\_\_ to the order of the Finance and Accounting Officer, \_\_\_\_\_ District and delivered to \_\_\_\_\_.

3. All correspondence and notices to be given pursuant to this permit shall be addressed, if to the grantee, to \_\_\_\_\_ and if to the United States, to the District Engineer, Attention: Chief, Real Estate Division \_\_\_\_\_, or as may from time to time otherwise be directed by the parties. Notice shall be deemed to have been duly given if and when enclosed in a properly sealed envelope or wrapper addressed as aforesaid, and deposited, postage prepaid, in a post office regularly maintained by the United States Postal Service.

4. The use and occupation of the premises shall be without cost or expense to the Department of the \_\_\_\_\_, and under the general supervision and subject to the approval of the (District Engineer) (Installation Commander), \_\_\_\_\_ (District) (Installation), or his duly authorized representative, hereinafter referred to as said officer and to such rules and regulations as may be prescribed from time to time by said officer.

5. The grantee acknowledges that it has inspected the premises, knows its condition, and understands that the same is granted without any representations or warranties whatsoever and without any obligation on the part of the Department of the \_\_\_\_\_.

6. The grantee shall, at its own expense and without cost or expense to the Department of the \_\_\_\_\_, maintain and keep the premises-in good repair and condition.

7. Any interference with the use of or damage to property under control of the Department of the \_\_\_\_\_ incident to the exercise of the

\*

CHAPTER 9

FEDERAL LEGISLATIVE JURISDICTION AND ANNEXATION

SECTION I. FEDERAL LEGISLATIVE JURISDICTION

9-1. Federal Legislative Jurisdiction. AR 405-20 sets forth the policies, procedures and responsibilities relating to the acquisition and retrocession of Federal legislative jurisdiction over land areas within the United States under the control of the Department of the Army and the Department of the Air Force.

SECTION II. ANNEXATION

9-2. Purpose. This section sets forth procedures attributable to those situations where a political subdivision of a State seeks to alter its existing boundaries to include real estate under the control of the Department of the Army. These guidelines will also be used by the Corps of-Engineers in processing annexation of lands under control of the Department of the Air Force.

9-3. Applicability. This section is applicable to all Division and District Engineers having real estate responsibilities.

9-4. General:

a. Political subdivisions, including municipalities, usually acquire the power to tax private persons and private property within the annexed area. To some extent, military personnel and Government instrumentalities (such as Post Exchanges) are exempt from this taxation where the land is under exclusive Federal jurisdiction. Local taxes may be imposed on Army contractors and concessionaires or others, which may result in their charging higher prices to the Department of the Army or Army personnel. In some instances, taxes may be imposed on dependents of military personnel as Congress has enacted laws authorizing such taxation.

b. Annexation does not change the kind of Federal jurisdiction held over Army-controlled land and does not result in any interference with official Army activities or functions because these lands are protected by Federal constitutional immunity (see AR 405-20). However, upon annexation of lands, the annexing State political subdivision assumes the responsibility for providing a number of governmental functions and services which it may not be authorized to offer under its State constitution and statutes if the Federal government holds and exercises exclusive legislative jurisdiction over the lands involved. This element should be fully explored and explained to the community proposing annexation.

\*

ER 405-1-12

Change 4

5 Sep 78

\*

9-5. Procedure.

a. General. Upon receipt of information or official notice that a political subdivision is in the process of undertaking an annexation, and also upon receipt of a request by a political subdivision of a State for annexation, the initial action will be taken by the commanding officer of the installation concerned as to military real property and by the District Engineer as to civil works lands.

b. Military Lands. The installation commander involved will immediately request the appropriate District Engineer to prepare an Annexation Assembly and Evaluation Report in quadruplicate. The installation commander will submit the report in triplicate through channels, with comments and recommendations, to the major field commander, chief, or executive with command responsibility, who will forward the assembly, with his comments and recommendations, through the Chief of Engineers (DAEN-REM) and The Judge Advocate General, in turn, for submission to the Assistant Secretary of the Army (Installations, Logistics and Financial Management), for determination of Army position. The District Engineer will forward to the Division Engineer, simultaneously, a copy of the Annexation Assembly and Evaluation Report. When Air Force land is involved, Annexation Assemblies and Evaluation Reports prepared by the District Engineer will be referred to Headquarters, U.S. Air Force with recommendation for determination by the Secretary of the Air Force.

c. Civil Works Lands. The District Engineer having real estate responsibility for the area involved will immediately notify HQDA (DAEN-REM), WASH DC 20314 by electrical message, with information copies to the appropriate Division Engineer, when he learns or receives notice that an annexation proceeding is in process or has occurred. He will prepare an Annexation Assembly and Evaluation Report for submission through the Division Engineer to HQDA (DAEN-REM) with comments and recommendations. The Chief of Engineers will evaluate the Annexation Assembly in the light of Departmental policy and forward it with recommendations to the Assistant Secretary of the Army (Installations, Logistics and Financial Management) for determination of Army position.

9-6. Annexation Assembly. The District Engineer's annexation assembly with report will be prepared in coordination with the installation commander when Army or Air Force military real property is involved and with internal coordination when civil works real property is involved. The assembly will be furnished in triplicate and will include all information and exhibits to be considered in the determination of the Army position pursuant to policies and requirements stated in AR 405-25. It should include the following:

\*

ER 405-1-12

Change 4

5 Sep 78

a. Background material: Identification of area to be annexed, present use and purpose and the political subdivision of the particular State proposing or undertaking annexation.

b. Details of acquisition and kind of title held by the Government in the property proposed to be annexed.

c. Kind of legislative jurisdiction held by the Federal government over the property proposed for annexation and copies of instruments of cession, if any.

d. Citations and copies of State annexation laws and, where applicable, city ordinances.

e. A map of the general area, showing the present boundaries of the annexing political subdivision and the area proposed for annexation, which is color-coded to indicate kind of jurisdiction. A real estate drawing or map of the Government installation or project with the portion involved in the annexation proceeding color-coded to reflect both the boundaries of area to be annexed and the type of jurisdiction. A general State highway map color-coded to reflect the Government lands of the entire installation or project, the lands proposed for annexation, the geographical limits of both the present political subdivision and those of the political subdivision after annexation.

f. The source of utilities presently being provided by outside sources to the installation or project and the probable future source of utilities.

g. A determination whether annexation would adversely affect the mission of the Army at the installation or project concerned. Where applicable, this should include an in-depth discussion of problems which might arise because of disruption of arrangements for utilities and sanitation services, fire and police protection, schools, street maintenance, snow removal, or other services provided by local governments or by utility companies, and the probability of increased or decreased costs for services and utilities. Include also any probable adverse effects on military and civilian personnel and their dependents from municipal taxation, licensing or other prospective municipal actions, including any increased costs or prices, which might result from the annexing unit imposing taxes on Army concessionaires, contractors, or lessees.

h. A determination whether annexation would affect the master plan for the installation or project.

ER 405-1-12

Change 4

5 Sep 78

\*

i. A determination that actual benefits to the installation or project or its personnel will result from annexation, such as the provisions Of municipal fire protection, maintenance of streets, snow removal police services, use of schools, sanitation services and the costs therefor, and utility services or reduced utility rates. Definite information of the annexor's capability to furnish such services should be provided by the annexing political subdivision.

j. Comments on the effect, if any, on the budget of the installation or project which might result from the annexation, such as higher prices charged by Army contractors or others due to municipal taxation or higher costs for services resulting from annexation.

k. Reasons advanced by the State political subdivision for annexing the Government land.

l. Interest in, approval of, or objection to the proposed annexation, if any, of other political subdivisions, including the view of the political subdivision in which the land involved presently lies.

m. Conclusions and recommendations regarding the annexation.

9-7. Approved Annexation Requests. Upon receipt of notice of approval of a request for annexation of land, and with direction by the Department of the Army, or Department of the Air Force, as appropriate, the District Engineer will communicate with the appropriate government official of the annexing political subdivision and execute the required Army or Air Force consent to the action or, if required, prepare the necessary document or petition for annexation in a form mutually considered to be appropriate. Upon completion of the annexation, the District Engineer will furnish three copies of all pertinent documents reflecting the complete annexation to HQDA (DAEN-REM) WASH DC 20314 and if military land is involved, one copy to the commander of the annexed installation.

9-8. Public Access to Information. Division and District Engineers may make available for inspection factual information reflecting annexation of Army or Air Force lands, such as letters, public documents evidencing annexation, not of public record; together with maps, descriptions, title opinions, and property records of these lands. A schedule of fees to be charged for copying, certification, and search of records, as authorized in 5 U.S.C. 552, is furnished in AR 340-17. \*

## CHAPTER 10

## REAL ESTATE CLAIMS

## SECTION I. GENERAL

\* 10-1. Purpose and Scope. This chapter describes the procedures to be followed by the Division and District Engineers in the administration of claims pertaining to real estate. This includes the following classes of contractual claims:

a. Claims for rent and payments for janitor, custodial, utility and other similar contractual services.

b. Claims for damages to real property founded upon express or implied contract.

c. Claims for permanent or recurring damages to real property situated in the United States or its territories resulting in the Government taking of an interest in real estate for which compensation must be made pursuant to the Fifth Amendment to the Constitution.

All real estate claims based on express or implied contract or involving a taking under the Fifth Amendment to the Constitution will be processed to the General Accounting Office pursuant to AR 405-15.

## SECTION II. AUTHORITIES

10-2. Statutory Authorities.

a. General. Except as otherwise provided by law, all claims and demands whatever by the Government of the United States or against it, and all accounts whatever in which the Government of the United States is concerned, either as debtor or creditor, shall be settled and adjusted in the General Accounting Office (GAO). (Title 31, United States Code, Section 71)

b. Limitation of Time on Claims and Demands. Every claim or demand (except a claim or demand by any state, territory, possession or District of Columbia) against the United States cognizable by GAO under a and b of this paragraph, shall be forever barred unless such claim, bearing the signature and address of the claimant or of an authorized agent or attorney, shall be received in GAO within six years after the date such claim first accrued; provided, that when a claim of any person serving in the military or naval forces of the United States accrues in time of war, or when war intervenes within five years after its accrual, such claim may be presented within five years after peace is established. (Title 31, United States Code, Section 71a)

\*

ER 405-1-12  
Change 14  
22 Apr 81

c. Other Claims Acts.

(1) Military Claims Act - Title 10, United States Code, Section 2733, authorizes administrative settlement of certain claims for property loss, personal injury or death incident to noncombat activities for the Departments of the Army, Navy or Air Force in an amount not over \$25,000. That Act is implemented by Chapter 3 of AR 27-20. Claims cognizable under the Act include claims for damage to real property occupied under a lease, express or implied, or occupied otherwise. This includes damages arising out of trespass or other tort, even though claimed as rent. Claims under the Military Claims Act must be presented in writing within two years after they accrue.

(2) The Meritorious Claims Act - When a claim is presented to GAO which has merit or one which GAO would allow except that there is no statutory basis for payment, the Meritorious Claims Act (Title 31, United States Code, Section 236) permits the Comptroller General of the United States to submit the claim to Congress by a special report containing the material facts and his recommendation thereon.

10-3. Regulations.

a. Contractual Claims. AR 405-15 is applicable to real estate claims founded upon express or implied contract and which may be settled administratively by the Division or District Engineer or which must be submitted to GAO for settlement pursuant to Title 31, United States Code, Sections 71 or 236.

b. Other Claims. AR 27-20 is the Army's general claims regulation and pertains principally to claims of a noncontractual nature. Certain claims may be processed under either AR 27-20 or AR 405-15 as specified therein.

c. Air Force Claims.

(1) Under basic agreements between the Departments of the Army and Air Force, as stated in AR 405-5, the latter will use the services of the Chief of Engineers for the acquisition and disposal of real estate.

(2) These services include processing of Air Force real estate claims founded upon express or implied contract which the Army would recognize under AR 405-15 or AR 27-20. Any claims which cannot be settled in the field will be reported through channels to the appropriate Air Force Major Command for further instructions. If submission to GAO is necessary, the case file will also be transmitted to HQDA (DAEN-REM) WASH DC 20314. \*

- \* 10-4. Delegation of Authority. Under the delegation of authority provided in paragraph 3-14b of AR 27-20, Division and District Engineers and the Chief of Engineers are authorized to settle claims in the amount of \$5,000 or less. All claims under Chapter 3 of AR 27-20 exceeding this authority, and all disapprovals of such claims must be submitted to the Army Claims Service through command channels.

### SECTION III. GUIDANCE

#### 10-5. Guidance.

- a. Avoidance of Claims. It is the desire of the Department of the Army that efforts be made to minimize the number of claims presented. The prompt negotiation of a lease will often avoid the subsequent submission of a claim for use and occupancy of real property.
- b. Avoidance of Duplicate Payments. Care should be taken to avoid duplicate payment of a claim. This possibility exists particularly where litigation is pending involving the same subject matter as contained in the claim. In this case, payment of the claim should be withheld pending outcome of the litigation.
- c. Claims for Rent or Other Payments. Claims for rent or other payments of a contractual nature, regardless of amount, arising out of the use and occupancy of real estate will be processed under AR 405-15 subject to the limitations set forth in sub-paragraph e below.
- d. Claims Accrued Over Four Years. Any claim cognizable by the GAO under Title 31, United States Code, Section 71 which is received four years or more after accrual of right of payment, and which cannot promptly be approved and paid in the full amount claimed because of the time required for adjudication, will immediately be referred to GAO through appropriate channels in order to permit their filing in that office within the legally permissive period of six years. After recording, the claim will be returned for processing.
- e. Mixed Claims. Claims for rent, damages, or other payments involving the acquisition, use, possession or disposition of real property or interests therein by and for the Department of the Army are generally payable under AR 405-15. Claims for damage to real property and incidental personal property damage during noncombat activities of the Army are payable under either AR 405-15 or AR 27-20. Such claims usually arise during a maneuver or training exercise or an emergency operation. If the property is occupied pursuant to a lease or use permit and O&M funds are available for payment of damage claims, AR 405-15 should be utilized. Care should be exercised to \*

ER 405-1-12

Change 14

22 Apr 81

\* avoid splitting the claim and considering the real property aspect under AR 405-15 and the incidental personal property part under AR 27-20. Rather, efforts should be made to consider the entire claim under AR 405-15. If such is not possible, or if O&M funds are not available, a statement to this effect should be included in the file and the claim or remainder thereof should be processed under Chapter 3, 10, or 13 of AR 27-20.

SECTION IV. SUBMISSION TO GAO

10-6. Claims to be Submitted to GAO.

a. The "GAO Policy and Procedures Manual for Guidance of Federal Agencies" lists the type and classes of claims to be submitted and provides the procedures which must be followed for claims submitted to GAO.

b. Section 5 of the manual reads as follows:

"5.1 CLAIMS REQUIRED TO BE SUBMITTED TO CLAIMS DIVISION

"The following classes of claims may not be paid or denied administratively, but must be forwarded to the Claims Division for adjudication, unless otherwise specifically provided by law:

"(1) Claims which involve doubtful questions of law or fact, except those under \$25, as provided in section 5.3 of this title, and claims which have been the subject of an advance decision of the Comptroller General, in which case a reference to the decision must appear on the voucher supporting the payment;

"Note: When a claim contains items which involve doubt and items which the agency can settle administratively, only the doubtful portions over \$25 should be referred to GAO for settlement.

"(2) Claims, regardless of doubt, which are required by statute, by regulation appearing in other chapters of this title, or by decision of the Comptroller General, to be settled in the General Accounting Office before payment is made or denied;

"(3) Reclaims of items previously denied by the administrative agency, unless it is determined administratively that the action taken was clearly in error and properly can be corrected by the agency; and

"(4) Claims which appear to be barred by an applicable statute of limitation at the time of receipt by an administrative agency."

\*

\* "5.2 DOUBTFUL CLAIM DEFINED

"A claim is doubtful when in the exercise of reasonable prudence either a person having final responsibility for deciding appropriate administrative action or the person who, in accordance with applicable statutes, will be held accountable if the claim were paid and then found to be incorrect, illegal, or improper, is unable to decide with reasonable certainty the validity and correctness of the claim."

"5.3 SIMPLIFIED PROCEDURE FOR DOUBTFUL CLAIMS OF \$25 OR LESS

"Claims of \$25 or less, involving doubtful questions of law or fact, may be settled by the agency in which the claim arose, relying upon written advice from an agency official designated by the head of each department or agency to provide such advice. If paid, a copy of the document containing such advice should be attached to the voucher, and the propriety of any such payment will be considered conclusive on the General Accounting Office in its settlement of the accounts involved."

10-7. Procedure.

a. Form of Claim.

(1) No specific form is required for claims submitted to GAO. A claim will be considered only when presented in writing over the signature and address of the claimant or over the signature of the claimant's authorized agent or attorney and when a demand is made for a specified sum of money. Standard Form 95, Claim For Damage, Injury, or Death, may be used if it fits the facts of the claim.

(2) A claim filed by an agent or attorney must be supported by a duly executed power of attorney or other documentary evidence of the agent's or attorney's right to act for the claimant.

b. Real Estate Claims Officers. Division and District Engineers will appoint commissioned officers or qualified civilian employees as real estate claims officers and assistant real estate claims officers. AR 27-20 contains appointment procedure for claims cognizable both under that regulation and AR 405-15.

c. Investigations. Claims officers will obtain all evidence necessary for a full consideration of the claim. In the investigation of claims arising out of Government use and occupancy of real property, sufficient evidence will be obtained to establish with certainty the following general points: \*

\*

(1) The interest of the claimant and other in the property. Use of ENG Form 900, Tract Ownership Data, is suggested.

(2) Dates and circumstances under which occupation of premises occurred and date of vacation. If under a lease, state the lease number and date of lease.

(3) If claim is for rental without formal lease or agreement, ENG Form 869-R, 15 Percent Valuation Certificate, will be required. The GSA requires the data set forth in ENG Form 869-R, or equivalent information. In the case of farm lands, rental value of similar lands is required.

d. Transmittal of Reports and Assemblies.

(1) Preparation of Reports. Upon conclusion of the investigation, the claims officer will prepare a report setting forth completely but briefly the nature and amount of the claim, all pertinent facts necessary to determine the rights and liabilities of the claimant and the Government, and the claims officer's conclusions and recommendations as to allowance or disallowance of the claim in whole or in part and reasons therefor, including citations to any laws, court or administrative decisions which would substantiate the recommendation. The report will be reviewed by the Division or District Counsel and Counsel's recommendations will be included with the report. The original, photostatic reproduction, or true copy (indicated as such and signed by the officer or civilian preparing the same) of all supporting papers, including transcript of any hearing or proceedings held, will be attached to each number of the claims officer's report. The original written claim signed by claimant or claimant's duly authorized agent accompanied by a power of attorney must be included in the claims assembly and will be attached to the original of the claims officer's report.

(2) Assemblies. Each copy of the claims officer's report, together with supporting documents, will be assembled in the following order, with such variations or additions as the circumstances require, and be fastened together with a jacket cover or heavy paper backing by an Acco or similar fastener;

(a) Claims officer's report.

(b) Written claim and amendments, if any. The original copy of the claim must be included.

(c) Order appointing claims officer.

(d) Copy of lease, agreement, or permit under which premises were occupied-

(e) Copies of initial and terminal survey or condition report. \*

\*

(f) Pertinent bills, invoices, reports, etc., evidencing payments by claimant.

(g) Such maps diagrams and plats, when pertinent, as will aid in a clear understanding of claim.

(h) Any other pertinent data relating to the claim. Enclosures will be marked as exhibits with letter designations, A, B, C, etc., in the order that they appear in the assembly. Inclosures to exhibits will be designated in the following manner: Inclosure 1, Exhibit A; Inclosure 2, Exhibit B, etc.

(3) Transmittal. The claims assembly being submitted to GAO for settlement will be transmitted through channels to HQDA (DAEN-REM) WASH DC 20314 for review and processing to GAO. Letters of transmittal will furnish fiscal information required by AR 405-15 and will include as a minimum, a citation of funds to be charged in the event payment is allowed by the Comptroller General and a statement that the claim will not be paid except pursuant to certification in the name of the Comptroller General. If payment of the claim, in whole or in part, is recommended, a certified voucher for the amount of recommended payment must be included with the report, stating the complete citation of funds to be charged.

10-8. GAO Settlement of Account.

a. Certificate of Settlement of Account. When GAO authorizes payment of a claim in any amount, a Certificate of Settlement of Account is included with the material returned to the Department of the Army. Any Certificate of Settlement of Account received by the Office of the Chief of Engineers will be forwarded through channels to the Division or District Engineer originating the claims officer's report. The Division or District Engineer will notify the claimant and prepare the appropriate real estate instruments to effect payment in accordance with the decision of GAO. The original and two copies of the Certificate of Settlement of Account, the voucher, and the real estate instruments prepared will be forwarded to Commander, U.S. Army Finance and Accounting Center (USAFAC), ATTN: FINCY-AB, Indianapolis, Indiana 46249. Copies will be retained in the files of the office of the originating Division or District Engineer.

b. Denial of Payment of Claim. If payment of a claim is denied by GAO, the Division or District Engineer will notify the claimant and annotate the file accordingly.

\*

ER 405-1-12

Change 14

22 Apr 81

\*

10-9. Resubmittal or Appeal of Claim. Any resubmittal or appeal of any claim denied wholly or partly by GAO will be processed like a new claim, except that the investigation and report will be submitted only on new matters raised on appeal or reconsideration unless otherwise requested by OCE or GAO. A copy of the original assembly will be forwarded with the transmittal to HQDA (DAEN-REM) WASH DC 20314.

## CHAPTER 11

## DISPOSAL

## SECTION I. GENERAL

\*

11-1. Purpose. This chapter sets forth general authority, responsibilities, procedures, methods, and guidance for the performance of real property disposal functions.

11-2. Applicability. This chapter is applicable to Division and District Engineers having real estate responsibilities.

11-3. Authority. The major portion of real property disposal actions performed by the Corps of Engineers is predicated on authority derived from the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 471, et seq.), hereinafter referred to as the Federal Property Act, and the rules, regulations and delegations of authority issued by the General Services Administration (GSA) thereunder. Other authorities relating to the disposal of military real property are found in AR 405-90. The Army and Air Force Basic Real Estate Agreements covering disposal of Air Force real estate are found in AR 405-5 and AFR 87-15.

11-4. Rules and Regulations of the General Services Administration (GSA). Under the rules, regulations and delegations of authority issued by GSA under the Federal Property Act, the military departments are authorized to dispose of the following:

a. Real property under its control (except land withdrawn or reserved from the public domain), together with the improvements thereon and related personal property, which has a value of less than \$1,000.

b. Leases, permits, licenses, easements, or similar interests, including Government-owned improvements on the premises, unless it is determined that the interest should be included with the disposal of other property being reported to GSA for disposal.

c. Fixtures, structures, and improvements of any kind to be disposed of without the underlying land.

d. Standing timber and embedded gravel, sand, and stone to be disposed of without the underlying land.

11-5. Disposal Priorities. Consistent with the best interest of the United States and with applicable laws and regulations, the following priorities should be followed in disposing of real property no longer needed by the Departments of the Army and Air Force: \*

ER 405-1-12

Change 12

27 Oct 80

\*

a. Transfer to other Department of Defense agencies and the U.S. Coast Guard.

b. Transfer to other Federal agencies.

c. Conveyance to eligible non-Federal agencies.

d. Sale to the public.

11-6. Environmental Considerations. The National Environmental Policy Act of 1969 (NEPA), as amended, (42 U.S.C. 4321 et seq.) directs that a five point Environmental Impact Statement (EIS) be prepared, circulated among interested Federal, State and local agencies, and filed with the Environmental Protection Agency (EPA) before a major Federal action is taken which affects the quality of the human environment. This may include some disposals. No major disposal action will be undertaken where the Corps of Engineers is the disposal agency, or is acting for the disposal agency, until the required EIS has been submitted to the EPA unless a "Finding of No Significant Impact" (FONSI) has been prepared for the action, or if the action is classified as a "categorically excluded" item because it has no significant effect on the environment. The Environmental Assessment is subject to review and approval in accordance with instructions found in AR 200-1 and AR 200-2 (to be printed) for military real property disposal, and the forthcoming Engineer Regulation for civil works real property disposal. Where property is reported to GSA for disposal, GSA is responsible for compliance with NEPA.

11-7. Preserving Historic Landmarks and Properties. Purposes of the National Historic Preservation Act of 1966, as amended, (16 U.S.C. 470) and Executive Order 11593, Protection and Enhancement of the Cultural Environment (13 May 1971) have been set forth in Chapter 8, para 8-2b, supra, and the authorities there cited also apply to the disposal of real property. Specific policy guidance in connection with disposals having historic significance is published in AR 200-1 and AR 405-90 for military real properties and in ER 1105-2-460 for civil works real properties.

a. The Criteria of Adverse Effect on eligible properties may occur under conditions which include but are not limited to:

(1) Destruction or alteration of all or part of a property.

(2) Isolation from or alteration of the property's surrounding environment.

(3) Transfer or sale of a property without adequate conditions or restrictions regarding preservation, maintenance, or use.

\*

b. It is normally intended that the agency responsibilities under Section 106 of the National Historic Presentation Act of 1966 and Executive Order 11593 run concurrently with the NEPA review process. However, obligations pursuant thereto are independent from NEPA requirements and must be complied with even when an environmental impact statement is not required.

11-8. Compliance with State Coastal Zone Management Programs.

Paragraph 8-2c of Chapter 9, supra, outlines the provisions of the Coastal Zone Management Act of 1972, as amended (16 U.S.C. 1451 et seq.). These provisions also apply to the disposal of land or water resources when the action is subject to the Federal consistency requirements of the Act and when the disposal is consistent with an approved state management program.

11-9. Protection of Wetlands. The requirements of Executive Order 11990, Protection of Wetlands, 42 Fed. Reg. 26961, (24 May 1977) are applicable to the disposal of Federal lands and facilities, and the policy and procedures implementing the order are as set forth in paragraph 8-2d of Chapter 8, supra.

11-10. Floodplain Management. The requirements of Executive Order 11988, Floodplain Management, 42 Fed. Reg. 26951, (24 May 1977) and its implementation are outlined in paragraph 8-2e of Chapter 8, supra. In accordance with ER 1165-2-26, paragraph 13, when civil works property in floodplains is proposed for disposal to non-Federal public or private parties, the Corps of Engineers shall reference in the conveyance those uses that are restricted under Federal, State and local floodplain regulations and attach other restrictions to uses of the property as may be deemed appropriate.

11-11. Nondiscrimination Covenant. As required by Section 101-47.307-2 of the Federal Property Management Regulations (FPMR), substantially the following covenant will be included in all deeds or other disposal instruments to public bodies when the sale is negotiated under Section 101-47.304.9(4) of the FPMR:

The grantee covenants for itself, its heirs, successors, and assigns and every successor in interest to the property hereby conveyed, or any part thereof, that said grantee and such heirs, successors, and assigns shall not discriminate upon the basis of race, color, religion, age, sex, handicap, or national origin in the use, occupancy, sale, or lease of the property, or in their employment practices conducted thereon. The covenant shall not apply, however, to the lease or rental of a room or rooms within a family dwelling unit; nor shall it apply with respect to religion to premises used primarily for religious purposes. The United States of America shall be deemed a beneficiary of this covenant without regard to whether it \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

remains the owner of any land or interest therein in the locality of the property hereby conveyed and shall have the sole right to enforce this covenant in any court of competent jurisdiction.

11-12. Disposition of Proceeds from Disposal.

a. Land and Water Conservation Fund. Except as provided in b and c below, and unless otherwise obligated by existing or future acts of Congress, all proceeds received from any civil works project disposal of surplus real property or related personal property under the Federal Property Act, shall be covered into the land and water conservation fund in the Treasury of the United States (16 U.S.C 460L-5(a), FPMR Section 101-47.307-6). This includes the net proceeds from the sale of timber and structures.

b. Department of Defense Family Housing Management Account. Section 501(b) of Public Law 87-554, as amended, 42 U.S.C 1594a-1, provides that the proceeds from the disposal of family housing of the Department of Defense, including related land and improvements, shall be transferred to Family Housing Management Account, Defense. This does not include civil works housing, or houses on land acquired for military purposes unless the housing was specifically acquired to house military personnel. This means that excess military family housing and related land and improvements should be reported to GSA on Standard Form 118 separate and apart from Reports of Excess for other portions of an excess installation. Particular care should be taken to ensure that the following statement be included in each such report of excess to GSA:

"Net proceeds from the sale of family housing, including related land and improvements, shall be remitted to the Department of Defense for deposit to Family Housing Management Account, Defense (97 X 0700)."

c. Proceeds from Sale or Transfer of Property Acquired. Under Section 5 of the Act of 13 June 1902, as amended (33 U.S.C. 558), the proceeds from a sale or transfer of buildings or other improvements on river and harbor improvement projects may be credited to the appropriation for the work for which the property was acquired. Buildings or other improvements, including timber, which are on nonexcess land come within the purview of this law. Where both land and buildings or other improvements are excess, proceeds from the sale of land and buildings, or either one, will be deposited in the land and water conservation fund as provided in paragraph a, above.

11-13. Reserved.

11-14. Reserved.

11-15. Reserved.

\*

SECTION II. PROCEDURE FOR PLACING REAL  
PROPERTY IN EXCESS STATUS

\*

11-16. Army Military Real Property. Military real property, including industrial real property, under the control of the Department of the Army will be placed in excess status as outlined in AR 405-90.

11-17. Air Force Military Real Property. Military real property under the control of the Department of the Air Force will be placed in excess status as outlined in AFR 87-4.

11-18. Army Military Leased Property.

a. Department of the Army command installations or parts thereof held by lease, permit, or other similar right of occupancy, excess to the needs of the using service will be reported direct to the Division or District Engineer for disposition wherever essential continuing operations of the installation will not be adversely affected, and the annual rental does not exceed \$50,000.

b. Division Engineers are authorized to make the finding that leased real estate of the Corps of Engineers, where essential continuing operations of the installation are not adversely affected, and the annual rental does not exceed \$100,000, is excess and to take necessary action to cancel or otherwise dispose of leases.

c. Any leased command real estate not coming within the category outlined in a and b above will not be considered by the Division Engineer as excess until notice is received from the Chief of Engineers (COE) that the property has been placed in excess status in accordance with AR 405-90.

11-19. Army Civil Works Real Property.

a. Fee-Owned Land and Easements.

(1) Action by Division/District Engineer (DE). When the DE is of the opinion that real property acquired in fee or easement for a civil works project is no longer required for such purpose, he will submit a report and recommendation to HQDA (DAEN-REM) WASH DC 20314, accompanied by:

(a) A brief description of the character or nature of the land with an appropriately marked map showing the approximate acreage consideration to be excess. Detailed perimeter descriptions need not be procured or furnished with the report and recommendation for exessing.

(b) Description of buildings and improvements.

\*

ER 405-1-12

Change 12

27 Oct 80

\*

(c) Information as to circumstances that might hinder or prevent disposition, e.g. remoteness of location, unfavorable topography, and lack of legal access.

(d) Information as to when and how the property was acquired.

(e) Information as to the estate which the Government has in the land, reservations and exceptions in and to the Government's title, and outstanding interests granted by the Government or reserved or excepted in the acquisition of the land, will be stated with particularity. The map or plat will delineate any grant, exception or reservation, such as telephone, telegraph, electric transmission, oil, gas, and water lines.

(f) Purchase price of lands (estimate if only a portion of original tract), buildings and improvements acquired with the lands, and the cost of buildings and improvements, if any, constructed by the United States.

(2) Action by the Office of the Chief of Engineers. When the value of an easement interest reported pursuant to (a)(1) above does not exceed \$1,500, OCE will make the final determination of excess and authorize action accordingly. In the case of fee-owned land regardless of value, or easement interests having a value in excess of \$1,500, when OCE finds that no requirement for the property exists, a recommendation will be made to the Secretary of the Army that authority be granted for disposal of the property.

b. Leaseholds. When the DE is of the opinion that real property acquired by lease for a civil works project is no longer required for such purpose, and after screening the property for other Federal requirements in accordance with Section III of this Chapter, he will take necessary action to terminate the lease in accordance with the procedure outlined in Section X.

11-20. Reserved.

11-21. Reserved.

11-22. Reserved.

\*

SECTION III. SCREENING, REASSIGNMENT AND  
TRANSFER OF REAL PROPERTY

\*

11-23. Screening for Defense Needs. Real property which becomes excess to the needs of any element of the Army or Air Force will be screened against requirements of other Department of Defense (DOD) agencies and the U.S. Coast Guard in order to promote and obtain the most efficient and complete utilization of real property before disposing of it.

a. Procedure for Screening Army Military Property. Screening for defense requirements with respect to base closures publicly announced by the Secretary of Defense or Secretary of the Army which result in excessing of real property will not be accomplished unless directed by HQDA (DAEN-ZCI) WASH DC 20314. Instructions to screen will be included in the disposal directive transmitted to the DE when such action is desired. In the absence of such instructions, it is presumed that DOD has negatively evaluated all possible requirements of DOD agencies before making the public announcement.

(1) Pre-owned Land. Screening is required in all other cases unless specifically directed otherwise. Property will be screened simultaneously against other Army requirements, and for Navy, Air Force, Coast Guard, and Defense agency requirements. The property should also be screened against known Department of the Army Civil Works requirements.

(a) The DE will dispatch a screening message promptly upon receipt of an excess directive or recommendation pursuant to AR 405-90. The sample screening message (Figure 11-1), or a letter similar in form and content will be used without substantial deviation.

(b) All action addressees and parties listed for information on Figure 11-1 will be included, except that Air Force real property in Hawaii will be screened with the Commander-in-Chief, Pacific Air Forces, in lieu of HQ, USAF. The appropriate major Army command, when not the using command, will be listed as an action addressee.

(c) In no case will screening be deferred unless authorized by DAEN-REM. At the expiration of the screening period (normally 30 days) a report of results will be forwarded and subsequent action initiated as provided in paragraph e below.

(d) For certain cases, most frequently in connection with base realignments or Executive Order 11954 surveys, accelerated screening procedures are set out in AR 405-90.

(2) Capehart and Wherry Housing Projects. Due to the complicated financial arrangements under which such projects are constructed and \*

ER 405-1-12

Change 12

27 Oct 80

\*

operated, the disposal thereof, whether separately or as a part of a larger installation, requires careful study. In order to assure maximum time in which to discover and evaluate problems arising in each of such cases, the DE will notify HQDA (DAEN-REM) WASH DC 20314, by teletype, immediately upon receipt of information of an installation commander's recommendation of excess involving Capehart and acquired Wherry housing projects. Included with this notice will be advice on the source of utilities and any problems of which the DE may be aware.

b. Leaseholds, Buildings and Improvements. Leaseholds, buildings, and other improvements will not be screened formally within the Department of the Army (DA). When such property is made available or disposal under AR 405-90 and Section II of this chapter, it will be screened by the responsible DE with the Air Force, Coast Guard, and Navy and against known Army military and civil works requirements within the Division. Screening with the Air Force of leaseholds having an annual rental in excess of \$50,000 will be addressed to HQ, USAF. Other Air Force screening under this subparagraph will be with local Air Force installations. Screening with the Navy will be addressed to the appropriate naval district. Screening with the Coast Guard and Defense agencies will be with the local representatives of those agencies. Property under the jurisdiction of GSA which has been assigned to the DA or Department of the Air Force (DAF) for use is not subject to this screening procedure, but the DE will determine whether such property would serve any current unfulfilled real property acquisition directives pending in his office.

(1) Family Housing Leases. Family housing leases under authority of Section 515, public Law 84-161, 69 Stat. 352, as amended and extended, will be terminated promptly upon determination that the property is excess to the needs of the using command, without screening for other requirements.

(2) Limit Screening. Screening which would serve no useful purpose is to be avoided. Screening of buildings and improvements on sites needed for approved construction should be limited as construction schedules require. The DE will take timely action to minimize additional cost and rental payments due to screening and may, at his discretion, limit screening of leaseholds and improvements to be removed from the site to informal notices to appropriate local. Defense agencies. The DEs are authorized to waive screening of nonassignable or short term interests in real property when such screening would serve no useful purpose.

(3) Notice of Restoration Requirements. All screening notices of leaseholds and improvements available for off-site removal will indicate that transferees will be required to perform necessary site \*

\*

restoration as a prerequisite to obtaining transfer and will reflect the extent of restoration required.

c. Procedure for Screening Civil Works Property. Buildings and improvements, leaseholds, and fee-owned land that have been determined excess to civil works requirements in accordance with this Chapter will be screened with the appropriate major Army and local service commanders, and with the Navy, Air Force, Coast Guard, and Defense agencies. (GSA property assigned to the Army for use is not subject to formal screening hereunder but will be screened against known acquisition directives or requirements in the DE office.) Except to the extent that DEs determine they are inappropriate, screening procedures for civil works property will be the same as for Army military property.

d. Screening of Air Force Property. HQ, USAF and the major Air Force commands screen Air Force real property before authorizing disposal action by the Corps of Engineers in accordance with AFR 87-4. DEs will act on requests for disposal action on buildings and improvements and leased property received directly from major Air Force commands which conform with AFR 87-4. Disposal directives on fee-owned land and easements will be issued by HQ, USAF and referred through DAEN-REM.

e. Report on Screening and Related Actions. Immediately following the screening of fee-owned land, the DE will forward to DEAN-REM a report of the results of the screening (with comments and recommendations where a further Army or other Defense requirement is indicated). This report will serve as one of the basis of a determination whether the property is excess to the requirements of the DOD. Upon dispatch of the screening report, the DE will proceed with further action pursuant to Sections IV and VIII of this Chapter. No report on screening of civil works property is required unless there is a request for transfer or reassignment of the property screened.

f. Property with an Estimated Value of \$100,000 or Less. If the property has an estimated value of \$100,000 or less, the determination that the property is excess to Army requirements will be made by the Department of the Army without referral to DOD, and the Chief of Engineers will direct the DE accordingly. Upon receipt of this disposal directive, prompt action will be taken to report the property to GSA or take other disposal action as appropriate.

g. Estimated Value in Excess of \$100,000. If military property has an estimated value in excess of 100,000, it must be reported to the Armed Services Committees of Congress pursuant to Title 10, United States Code, Section 2662. The final Army determination of excess and recommendations to the Assistant Secretary of Defense (MRA&L) to \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

approve the proposed disposal report to the Armed Services Committees by the Chief of Engineers, utilizing Real Estate Disposal Report, ENG Form 2187R, are combined in a single action. The Chief of Engineers will advise of DOD approval of the proposed disposal when made. Upon receipt of this information responsible Division and District Engineers will furnish GSA a preliminary report of excess. The preliminary report of excess will be finalized, upon receipt of instructions from the Chief of Engineers. This procedure is also applicable to Air Force disposals. If the preliminary report of excess is sufficiently complete and accurate, it may be finalized by letter or simple statement on Standard Form 118, Report of Excess Real Property.

h. Date of Excess for Reporting Purposes. From the above, it will be noted that where property has an estimated value in excess of \$100,000, the determination that the property is excess to the requirements of the Department of the Army is, in effect, made concurrently with the determination that the property is excess to the requirements of the DOD, or is approved for transfer to another military department. For all practical purposes, these determinations are best evidenced by the Assistant Secretary of Defense's approval of the proposed disposal. The date of approval may be used as the date the property was determined excess to Army requirements for reporting purposes.

11-24. Reassignment and Transfer Procedures. Reassignment refers to the changing of the administrative or command jurisdiction of real property from one command to another within the same military department. Reassignments may be accomplished by the Secretary or the staff without prior approval of the DOD or the Armed Services Committees of the Congress. Transfer refers to changing the jurisdiction for using and administering real property from one military department to another.

a. Reassignment Procedures - Army.

(1) Military. Reassignments of military real property are accomplished pursuant to a directive from DAEN-REM. These are not real estate disposal actions.

(2) Civil Works. Reassignments from civil works to military jurisdiction, and vice versa, are accomplished pursuant to directive or approval of the Secretary of the Army based on the recommendations of the Chief of Engineers.

(3) Information Required. Information to support recommendation for reassignments of military or civil real property to another using service of the Army, or to change the military or civil accountability within the Corps, will be furnished by the DE to DAEN-REM as follows: \*

\*

- (a) Reference to excess directive, if any.
- (b) Description and map of lands.
- (c) Date, manner, and cost of acquisition of land and improvements.
- (d) Reference to any encumbrances which might affect the reassignment and use.
- (e) Proposed effective date of reassignment.
- (f) Proposal new use.

b. Reassignment of Air Force Property. The Air Force Staff re-assigns real property within the Department of the Air Force.

c. Transfer of Military Property. Procedure for transfer among military departments is substantially the same as for transfer to other Federal agencies, and is set forth in Sections IX and XI of this Chapter.

11-25. Screening of Excess DOD Property for Nondefense Federal Agency Needs.

a. Screening by GSA.

(1) GSA will screen all excess real property reported to it for disposal, to determine whether the property is surplus to all Federal agencies.

(2) GSA will screen certain classes of excess real property which must be reported to it for screening, even though the Department of the Army will act as the disposal agency (Section V of this Chapter).

(3) Under the FPMR, Federal agencies are allowed 30 days to advise whether there is a tentative or firm requirement and another 30 days to determine and advise whether the tentative requirement is firm. Where there is a firm requirement, agencies are allowed an additional 60 days to prepare and submit a formal request for transfer pursuant to FPMR Section 101-47.203-7. The DE should obtain from GSA information on the status of screening if advice is not furnished promptly after expiration of the screening period.

b. Screening by Corps of Engineers. Properties which are not reported to GSA for disposal or screening will be screened by the DE with nondefense Federal agencies at the same time they are screened with Defense agencies. Screening of such properties will be limited to \*

ER 405-1-12

Change 12

27 Oct 80

\*

agencies that maintain local offices and may be done on an informal basis. The DE may waive screening of nonassignable and short term interests in real property when they determine such screening will serve no useful purpose. When screening discloses no requirement, the property will be determined surplus and disposed of.

11-26. Notices to Departments of Interior (DI); Health and Human Resources (HHR); Education; and Housing and Urban Development (HUD). Simultaneously with screening under paragraph 11-25b notices of availability will be given to DI of land suitable for public park and recreation or an historical monument site; to HHR and/or Department of Education property suitable for educational purposes or to protect the public health, and to HUD of property for housing and related facilities (Section 101-47.203.5 FPMR). Where such notice is given, these departments will be notified promptly if screening discloses another Federal requirement for the property. They will also be notified if there is no other Federal requirement and the property is determined surplus.

11-27. Source of Supply-Blank Forms. ENG Forms with the "R" suffix mentioned in this Chapter are available from local Forms Management Officers. All other forms mentioned in this Chapter are available through normal publications supply channels with the exception of Standard Form 118, Report of Excess Real Property, which will be procured directly from the General Service Administration.

11-28. Reserved.

11-29. Reserved.

\*

SECTION IV, CLEARANCES - ARMY MILITARY REAL PROPERTY

\*

11-30. Reports to the Armed Services Committees.

a. This Section describes the responsibilities of the Chief of Engineers in, and prescribes procedures for, clearing proposals for certain leasing and for disposals of Army real property with the Department of Defense and the Armed Services Committees of the Senate and House of Representatives. (The Air Force obtains its own clearance.) It is applicable to Division and District Engineers having military real estate responsibility. Clearance is not required for civil works properties.

b. Title 10 U.S.C. 2662, as amended by P.L. 96-418, 10 October 1980, provides, in part that:

"(a) The Secretary of a military department, or his designee, may not enter into any of the following listed transactions by or for the use of that department until after the expiration of 30 days from the date upon which a report of the facts concerning the proposed transaction is submitted to the Committees on Armed Services of the Senate and of the House of Representatives:

\* \* \* \* \*

"(3) A lease or license of real property owned by the United States, if the estimated annual fair market rental value of the property is more than \$100,000.

"(4) A transfer of real property owned by the United States to another Federal agency or another military department or to a State, if the estimated value is more than \$100,000.

"(5) A report of excess real property owned by the United States to a disposal agency, if the estimated value is more than \$100,000.

"(6) Any termination of modification by either the grantor or grantee of an existing license or permit of real property owned by the United States to a military department, under which substantial investments have been or are proposed to be made in connection with the property by the military department.

\* \* \* \* \*

"(c) This section applies only to real property in the United States, Puerto Rico, Guam, the American Virgin Islands, American Samoa, and the Trust Territory of the Pacific Islands. It does not apply to real property for river and harbor projects or flood control projects, or to leases of Government-owned real property for agricultural or \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

grazing purposes or to any real property acquisition specifically authorized in a Military Construction Authorization Act.

"(d) A statement in an instrument of conveyance, including a lease, that the requirements of this section have been met, or that the conveyance is not subject to this section, is conclusive."

c. While not specifically required by 10 U.S.C. 2662, DOD has directed that all proposed relinquishments of public domain land will be reported to the Armed Services Committees where (1) the area exceeds 500 acres or (2) the estimated fair market value of the property exceeds \$100,000.

11-31. Clearance with the Armed Services Committees.

a. Prior to a final report of excess, or transfer to another Federal agency or a State, of any Government-owned military real property with an estimated value, including the value of existing improvements, in excess of \$100,000 the proposed disposal must be reported to the Committees. Also, proposals to outlease military real property for other than agricultural or grazing purposes must be reported if the estimated annual rental consideration is more than \$100,000. A formal appraisal for estimating value need not be made. Reports to the Committees pertaining to Army military real property are made by the Chief of Engineers, and copies of reports are furnished the two senators of the State, and the congressman of the district where the property is located. Reports pertaining to Air Force property are made by that department. DEs, upon request, will assist Air Force commands in assembling the required data.

b. For Army property, data will be furnished in the format shown in Figure 11-2 (ENG Form 2187-R, Real Estate Dispsal Report), and three copies forwarded to HQDA (DAEN-REM) WASH DC 20314. The information should be submitted within three weeks after dispatch of the screening message, or within three weeks after receipt of the disposal directive when screening is not required.

c. Clearance for transfer to another military department is obtained by the acquiring department. However, HQDA (DAEN-REL) obtains clearance for transfer of Army property to a nondefense Federal agency where authorized by law.

11-32. Prior Approval of Department of Defense.

a. DOD Instruction 4165.12 requires advance approval by the Assistant Secretary of Defense (MRA&L) of disposal actions requiring congressional committee clearance. DOD approval is also required for \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

withdrawal from excess of real estate, or an interest in real estate, which has an estimated fair market value in excess of \$100,000

b. The data submitted pursuant to paragraph 11-31 will be used to obtain DOD approval of projects to be submitted to the Armed Services Committees. Appropriate information will be furnished to obtain required DOD approval of withdrawals from excess.

11-33. Additional Data for Clearance with the Committees. To support Army witnesses appearing before the Armed Services Committees, and to satisfy other information requirements, include the following data when forwarding the ENG Form 2187-R (Figure 11-2).

a. Four copies of a site plan of the installation, clearly depicting the property involved, and four copies of a real estate map, color coded with legend, showing the area and acreage to be excessed.

(1) Segment-size maps and plans should be of excellent quality, current, show accurate acreages, and current name of installation. They must be clearly visible at a distance of 30 feet or more.

(2) Basic color codes for maps are:

Red - Excess Area(s)

Green - Retained Area

Yellow - Previously Excessed Area(s)

Black or Dark Blue - Installation Boundary, in heavy definition

Other Colors - for other purposes

b. Copy of last utilization inspection report, plus information as to when and how the excess property was last used by the Army.

c. Basis for disposal: Base closure announcement, E.O. Survey; Command Report of Excess, Report of Availability, etc.

d. A list of and general terms of any outgrants in effect on the excess area.

e. Whether continuing military activities are housed on the property proposed for disposal; arrangements which have been made to provide space for these activities; estimated cost of leasing or converting space for that purpose, and any other costs of closing or severing the installation and relocating the activities. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

f. Whether civilian employees will lose their employment, number of employees involved, and to what extent they can be employed elsewhere.

g. Details of significant history of acquisition, development, and disposal, if not included in ENG Form 2187-R. Include official name of installation and former designations.

h. Description of any related or off-post family housing, giving number of units, type (MCA-Capehart, etc.) acreage of site, land and construction costs, and distance from installations served

i. Probable impact on local economy, if any.

j. Estimate of any annual savings in operating and maintenance costs.

k. Statement as to exchange potential of excess area.

l. Estimate of value, including any restrictions or limitations on prospective use of the land by subsequent users.

m. Character and use of area in vicinity of excess area.

n. Care and custody costs for excess area.

o. Staff/MACOM coordination.

p. Environmental Assessment.

q. Any other pertinent information, e.g., any adverse factors severance or undesirable impact on utility systems, and local interest in acquiring the property.

r. Congressional district in which the property is located.

11-34. Coordination with GSA. At the time of formal submission of the Disposal Report to the Armed Services Committees, DAEN-REM will furnish-ed copies to the DEs and to the central and regional offices of GSA as advance information to permit preliminary disposal planning.

11-35. Reserved.

11-36. Reserved.

11-37. Reserved.

\*

SECTION V. REPORTS OF EXCESS REAL PROPERTY  
AND RELATED PERSONAL PROPERTY TO  
GENERAL SERVICES ADMINISTRATION  
(GSA)

\*

11-38. Delegation of Authority to Division and District Engineers. Much of the authority and responsibility of the COE as real estate agent for the Departments of the Army and Air Force to report excess real and related personal property to GSA in accordance with the provisions of the Federal Property Act, and the Federal Property Management Regulations (FPMR), subpart 101-47.3 has been delegated to Division and District Engineers having responsibility for real estate operations. Final reports will be made only after the property has been determined excess to the needs of the Department of Defense, in accordance with Section III supra, and has been cleared with congressional committees, if required, in accordance with Section IV.

11-39. Excess Property Reported for Disposal. The following types of excess real property must be reported to GSA for disposal, utilizing Standard Form 118 (SF 118), Report of Excess Real property, as set forth in paragraph 11-45 of this section:

a. Fee-owned. All fee-owned property, with improvements and related personal property, which has, in the opinion of the DE, an estimated fair market value of \$1,000 or more, together with such incidental, related, or appurtenant lesser interests, with or without Government-owned improvements and related personal property, held under lease, permit, license, easement, or similar instrument, useful in connection therewith, except property which is subject to:

- (1) A lease containing an option to purchase;
- (2) A lease containing a right of first refusal to purchase or to lease for an additional period;
- (3) A right in the Government's grantor to the reversion of title;  
or
- (4) A right reserved by the Government's grantor to repurchase the property.

b. Public Domain. All withdrawn or reserved public domain lands, together with the improvements thereon which, in the opinion of the DE, have an estimated fair market value of \$1,000 or more, and for which notification, pursuant to 43 CFR 2374.1, has been received from the Bureau of Land Management (BLM) that the property, in effect, has been determined excess within the meaning of the Federal Property Act (see Section VII for procedures for disposal of public domain land). \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

Minerals in the lands will be specifically excluded from the report of excess unless BLM advises otherwise. The Report of Excess, SF 118, will include as a part of the report on the Government's legal title, a true copy of the notice by BLM to report the property excess, and information of record in BLM on claims, if any, by other agencies, and any claims or encumbrances under the public land laws.

11-40. Excess Property Reported for Screening. The types of property described in a, b, and c below must be reported to GSA for screening purposes notwithstanding the fact that the military departments have been delegated authority to dispose of such property. SF 118 will be utilized for reporting these types of property without attaching the usual Schedules A, B, and C and supporting documents. A notice should be included on the face sheet that "This report is made for screening purposes only. Disposal will be accomplished by the Corps of Engineers." Distribution of copies of such reports within the departments is not required.

a. Land held under lease, permit, license, easement, or similar instrument, other than listed in paragraph 11-41.

b. Improvements located on nonexcess Government-owned lands (including improvements on land held under permit from another Government agency; see Section VII infra, for preliminary procedure in these cases), which improvements, with related personal property, in the opinion of the responsible DE, have an estimated net salvage value of \$1,000 or more.

c. Improvements located on excess land held under lease or other temporary right of occupancy (even though a report of excess is not required for the leasehold itself or other right of occupancy interest under the criteria set forth in paragraph 11-41) when, in the opinion of the DE, the improvements have a net salvage or market value of \$1,000 or more, and it is proposed to dispose of such improvements by sale for removal from site. The report of excess will contain an estimate of the cost of restoration necessary under the lease that a prospective transferee agency will be required to assume.

d. Fee-owned property which, with improvements and related personal property, in the opinion of the responsible Division or District engineer, have a fair market value of \$1,000 or more, and is not reported to the General Services Administration for disposal as a result of the exception contained in paragraph 11-39a, above (because of outstanding options to purchase, etc., or because of rights retained by the Government grantor). \*

\*

11-41. Excess Property Exempted from Reporting. No reports to GSA are required for the following types of excess property:

a. Fee-owned land, including withdrawn or reserved public domain land which BLM made available for disposal under Federal Property Act, together with the Government-owned improvements and related personal property, having an estimated fair market value of less than \$1,000 in the opinion of the responsible DE;

b. Excess non-Government-owned property held under lease, license, easement, or similar instrument, when Government-owned improvements with related personal property have a net salvage value of less than \$1,000 or are to be transferred to the owner of the land in retraction settlement, and;

(1) The lease or similar instrument is subject to termination by the grantor of the premises within nine months; or

(2) The remaining term of the lease or similar instrument, including renewal rights, will provide for less than nine months of use and occupancy; or

(3) A provision of the lease or similar instrument would preclude transfer to another Federal agency or disposal to a third party; or

(4) The lease or similar instrument provides for use and occupancy of space for office, storage, and related facilities, which does not exceed a total of 2,500 square feet; or

(5) Where additional rental would be incurred.

c. Excess Government-owned improvements on nonexcess land, which improvements, in the opinion of the responsible DE, have a net salvage value of less than \$1,000.

d. Leased space assigned by GSA, and land and improvements owned by and permitted from other Government agencies.

e. Excess timber, sand, gravel and stone-quarried products, and growing crops on nonexcess land regardless of value.

f. Excess withdrawn or reserved public domain lands, regardless of value, which are offered to and accepted by the Department of Interior for return to the public domain pursuant to Section VII infra.

g. Prefabricated movable structures, such as Butler-type storage warehouses and quonset huts, and house trailers (with or without

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*

undercarriages), which are located on nonexcess land for off-site use. These types of structures shall be reported as personal property in accordance with FPMR, Part 101-43, Utilization of Personal Property. However, when such structures are located on leased permitted land subjecting the Department to any restoration obligations, the property will be treated as real property for the purpose of satisfying such obligations to the maximum extent feasible

11-42. Evaluation and Reporting of Flood Hazards. Pursuant to Executive Order 11296, 10 August 1966, the DE having civil works responsibility for the area where property proposed for disposal is located will evaluate the property (civil or military) for the presence of flood hazards. If such hazards are found, a report will be forwarded to HQDA (DAEN-REM) recommending appropriate restrictions with respect to future uses of the property, or that the property be withheld from disposal. If decision is made to proceed with disposal, detailed information regarding the flood hazard will be reported to GSA on SF 118 as required by FPMR, 101-47.202-2, with the appropriate restrictions with respect to use of the property by a purchaser and his successors. (See ER 1105-2-40 for information on the Flood Plain Management Services Program.)

11-43. Determination of Values for Reporting. Where more than one parcel or item of excess property is involved at the same project or installation, the total value of all such parcels or items will be included in determining whether the property has an estimated value of \$1,000 or more for the purpose of making reports of excess. Estimates of value should be made by qualified real estate employees, but not necessarily by a professional appraiser.

11-44. Conditional Reports of Excess. As an exceptions to its general policy, GSA has agreed with the Department of Defense to accept reports of excess on some facilities with instructions on their disposal, specifically:

a. Defense Industrial Reserve (DIR). The Defense Industrial Reserve Act 50 U.S.C. 451 et seq., authorizes the Secretary of Defense to determine which excess industrial properties should become a part of DIR and to formulate a national security clause or recapture provisions to preserve the production capacity of the plants for use in the event of a national emergency. Excess DIR plants are reported to GSA for disposal subject to the national security clause or the recapture provisions. (See FPMR Subsection 101-47.306-2 for procedures where GSA is unable to dispose of the property because of the restrictions imposed by the national security clause or recapture provisions.) \*

\*

b. Reserving Property for Civil Defense Purposes. GSA has agreed to accept reports of excess of missile sites and other facilities having similar protective features, with restrictions on their disposal. DEs will be notified when DOD advises that a specified local government unit is interested in acquiring such property. Reports of excess will specify the local government unit interested. Disposal of the property will be limited to conveyance to the local government unit, with conditions restricting its use to civil defense purposes for a period of 20 years, with reverter to the United States for breach of condition. In appropriate cases, GSA will enter into a temporary lease arrangement if necessary to afford a local government unit an opportunity to obtain the necessary funds for purchase. This procedure is limited to causes where DOD has determined and advised there is a civil defense need. Disposal action will not be delayed pending receipt of such advice.

11-45. Preparation and Submission of Reports of Excess.

a. Preparation.

(1) General. Reports of excess will be prepared on SF 118, with schedules, in accordance with the instructions contained in FPMR section 101-47.4902, and paragraph 11-39. However, since the type of information called for in Block 9 of SF 118 and Columns f, g, h, and i of schedule A is not generally applicable to camps, airfields, etc., such information will be furnished only when it is available and can be furnished without additional cost. Reports of excess will include all related or appurtenant easements, licenses, and related personal property. Decontamination data will be included as prescribed in Section XIII, infra. Information on flood hazard will be included as required by paragraph 11-42.

(2) GSA Regulations. Pursuant to GSA regulations, all final reports of excess will be made only after the property has been determined excess to the needs of the Department of Defense and will bear the statement: "This property has been screened against the known defense needs of the Department of Defense." Report of excess will indicate that the provisions of Title 10, United States Code, Section 2662, requiring reports to the Armed Services Committees of Congress, have been met, or that the report of excess is not subject to this section.

(3) Reports of Excess - Air Force Property. The Air Force will prepare SF 118, with Schedules A and C, and transmit them to the DE for completion and execution. Land descriptions, title reports, and other data required by the FPMR will be the responsibility of the DE. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

(4) Reports of Excess - Army Property. DEs will prepare the SF 118 and the schedules for excess Army property.

b. Submission. Reports of excess will be transmitted directly by the DE to the appropriate regional office of GSA. Each DE making such reports of excess will assign a number in Block 1 of SF 118, beginning with No. 1 for the first report and continuing in numerical sequence for succeeding reports made during the calendar year. The number will be preceded by the symbol of the DE making the report and the calendar year e.g., SWF-79-6, for the sixth report submitted by Fort Worth District of Southwestern Division for calendar year 1979.

11-46. Report on Government Title. In all cases where Government-owned land is reported, there shall be attached to and made a part of SF 118 (original and copies thereof), a report prepared by a qualified employee of the holding agency on the Government's title to the property, based upon his review of the records of the agency. The report shall recite:

- a. The description of the property.
- b. The date title vested in the United States.
- c. All exceptions, reservations, conditions and restrictions relating to the title acquired.
- d. Detailed information concerning any action, thing or circumstance that occurred from the date of the acquisition of the property by the United States to the date of the report which in any way affected, or may have affected, the right, title, and interest of the United States in and to the real property (together with copies of such legal comments or opinions as may be contained in the file concerning the manner in which and the extent to which such right, title or interest may have been affected). In the absence of any such action, thing or circumstance, a statement to that effect shall be made a part of the report.
- e. The status of legislative civil and criminal jurisdiction over the land peculiar to the property by reason of it being Government-owned land. If the United States does not hold such legislative jurisdiction, the report on government title should so state.
- f. All exceptions, reservations, conditions and restrictions imposed by higher authority on the property at time of disposal. No additions or substantive changes to these will be made without prior approval from HQDA (DAEN-REM) WASH DC 20314. \*

\*

g. If the property, or any portion of it, has been listed in the National Register of Historic Places, or has been nominated for listing or nomination, this should be included in the SF 118. Specific fixtures and related personal property having possible historic or artistic value should also be included. (See Section I, para 11-7, supra, for information on historic preservation.)

11-47. Outgrant Instruments, Appraisals and Muniments of Title. There shall be transmitted with the SF 118 copies of outgrants involving the property reported, all conveyances, encumbrances and other instruments affecting the use and operation of the property, including deeds, mortgages, and agreements covering and licenses to use any patents, processes, techniques, or inventions. Where there is more than one like instrument as, for example, agricultural leases, it may be preferable to list them, locate them on the land use map, and furnish a sample copy. FPMR contemplates that muniments of title will be transmitted with the report of excess. The title report (paragraph 11-46, supra) will state that HQDA (DAEN-REP) WASH DC 20314 is the custodian of title papers and has been requested by the DE to transmit applicable title papers direct to the GSA Regional Office. Accordingly, as soon as practicable after receipt of an information copy of the declaration of excess by the using service, and a disposal directive, the DE will assign a disposal report number and advise DAEN-REP to transmit the pertinent title papers directly to the appropriate GSA Regional Office, citing the disposal report number as a reference. Simultaneous action by DAEN-REP and the DE to assemble necessary reporting data is important to avoid delay of acceptance by GSA of the Report of Excess. If experience should demonstrate that such simultaneous preparation and transmittal of data is not practical in saving time and effort, the DE will arrange in advance for transmittal of the necessary title data from DAEN-REP for incorporation in the Report of Excess before transmittal by the DE to the GSA Regional Office.

11-48. Deposit of Proceeds from Disposal of Family Housing in the Family Housing Management Account.

a. Title 42 U.S.C. 1594a-1(b) provides that the proceeds from the disposition of Department of Defense Housing, including related land and improvements, shall be transferred to the DOD Family Housing Management Account for the purpose of debt service. Arrangements have been made between DOD and GSA to implement this law and apply it to excess MCA housing as well as to housing encumbered by mortgage debts such as Capehart and Wherry Housing projects. (See Section I, para 11-12b, supra.)

b. The agreement with GSA calls for separate identification and description in the Report of Excess (SF 118) of those improvements \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

which are considered family housing within the purview of the law and a request in the report that proceeds from disposal be transferred to the DOD Family Housing Management Account. (The actual transfer of funds will be accomplished at Washington level.)

c. Where the Report of Excess includes both housing and property not related to housing, separate schedules (SF 118a and b) will be prepared to cover the housing involved, including related land and other improvements. The housing schedules should be annotated and arranged categorically to show:

(1) Number of structures by type of authorization, i.e. Wherry Act, Capehart Act, Military Construction Authorization Act, Lanham Act, etc.

(2) The number of family units.

(3) Those improvements and collateral facilities which are considered "related" to the housing.

(4) Where reasonably apparent, a description of the acreage or boundaries of the family housing areas as distinguished from other excess lands.

(5) A statement as follows: "Net proceeds from the sale of this family housing, including related lands and improvements, shall be remitted to DOD for deposit to Family Housing Management Account, Defense 97X0700."

11-49. Supplemental Information. The DE will cooperate to the greatest extent practicable in furnishing further information and assistance requested by GSA Regional Offices. However, requests for engineering surveys should be carefully monitored in the interest of economy. When such requests appear excessive or other requests for services appear to require unnecessary expenditures, DAEN-REM will be fully informed, with recommendations, in order that the matter may be resolved through appropriate coordination with the GSA central office.

11-50. Reports Submitted for Screening. Excess leaseholds and buildings and improvements to be disposed of separately from the land which, pursuant to paragraph 11-40, must be reported to GSA for screening purposes only, will be reported immediately when the property is determined to be excess to the particular military department having jurisdiction. The report will contain the statement: "This property is reported for screening with civilian agencies by GSA prior to its disposal by the Corps of Engineers. The property is being screened within DOD and when the screening has been completed, appropriate certification will be submitted to GSA." Screening against defense requirements, \*

\*

pursuant to Section III, supra, will then be completed and GSA notified of the result. If such screening results in the development of a requirement by one of the other military services, the Report of Excess will be withdrawn and the transfer of the property to the requesting military service effected. This specialized procedure for this type of property is adopted to allow screening for defense requirements by the Corps of Engineers to be accomplished simultaneously with the screening of civilian agencies by GSA. Where circumstances require that this type of property be screened within a limited period of time, the period should be specified and an explanation set forth on the face of the Report of Excess, as, for example: "Buildings are in the way of planned new construction and must be removed or demolished not later than (date). Accordingly, advice must be received on or before (date) as to whether a requirement exists for the property, or whether it is to be transferred or assigned to another Federal agency for removal within the time specified." If such advice is not received by the time specified, the property should be disposed of without further delay and GSA notified of the action.

11-51. Distribution of Report of Excess. Copies of the final Report of Excess (SF 118) will be distributed simultaneously as follows:

a. Complete copies to:

- (1) Regional Office, GSA - original. and four copies
- (2) District Engineer - one copy.

b. Division Engineer - one copy of the cover sheet (SF 118), and transmittal letter.

c. A complete copy, except Schedule C (SF 118c), to HQDA (DAEN-REP) WASH DC 20314 and one copy of the cover sheet to HQDA (DAEN-REM) WASH DC 20314.

d. Where family housing is involved, one copy of the cover sheet and the pertinent schedules A and B to the Deputy Assistant Secretary of Defense (Installations and Housing), Washington, DC 20301.

11-52. Notice of Receipt. GSA should promptly notify the holding agency of the date of acceptance of each Report of Excess (SF 118). The date GSA will assume the expense of cost and custody as provided in section VI, infra, will be figured from this date.

11-53. Withdrawals or Corrections of Reports of Excess.

\*

ER 405-1-12

Change 12

27 Oct 80

\*

a. Subject to the approval of GSA, and to such conditions as GSA considers appropriate, Reports of Excess may be withdrawn or corrected at any time prior to disposition of the property, by filing a corrected SF 118 with the regional office of GSA. Corrections and withdrawals will bear the same number as the report of excess to which they pertain, but will bear a letter suffix beginning with "A" for the first correction or withdrawal and continuing in alphabetical sequence for succeeding corrections or withdrawals. "Correction: will be conspicuously stamped on the face of the SF 118 for both withdrawals and corrections. Distribution of requests for withdrawal or correction will be the same as that made of the Report of Excess to which the withdrawal or correction pertains.

b. Property which is reported to GSA for disposal will not be withdrawn without the prior approval of HQDA (DAEN-REM) WASH DC 20314, nor will return of the SF 118 be accepted without the approval of DAEN-REM. (See Section IV, supra, concerning prior approval of DOD for withdrawals from excess of real property having an estimated fair market value in excess of \$50,000.)

11-54. Supply of Forms. SF 118, 118a, 118b, and 118c, are not available in normal Adjutant General supply channels. The forms should be procured from GSA.

11-55. Reserved.

11-56. Reserved.

11-57. Reserved.

\*

\* SECTION VI. CARE AND CUSTODY OF EXCESS AND SURPLUS PROPERTY

11-58. Procedures and Responsibilities for Care, Custody, Accountability, and Maintenance.

a. Department of the Army Military Property. Care, custody, accountability, and maintenance of excess Army military real property will be as prescribed in AR 405-90.

b. Department of the Army Civil Works Property. DEs will retain custody and accountability of all excess civil works real property under their jurisdiction until final disposition is effected.

c. Department of the Air Force Property. Pursuant to AFR 87-4, the Department of the Air Force is responsible for care and custody of excess Air Force real property. However, upon request by the Air Force DEs may assume custody if no costs are involved, or where cost is involved if funds therefor are furnished upon request by the DE.

d. Department of Energy (DOE), National Aeronautics and Space Administration (NASA), and Other Federal Agencies. Where the Corps of Engineers is acting as real estate agent for other Federal agencies, DEs, at the request of the agency, may assume care and custody of excess real property on a reimbursable basis.

11-59. Guidelines for Protection and Maintenance of Excess and Surplus Real Property. Detailed guidelines are provided in FPMR Subsection 101-47.4913.

a. Calculated Risk. These guidelines, which are binding on holding agencies, embody the principle of calculated risk. In applying this principle, the anticipated losses and deteriorations, including pilferage and vandalism, in terms of realizable values are expected to be less than expenditures to minimize the risks. Normally, where property is of little value, only periodic surveillance is necessary and care and custody forces will not be maintained. However, where property, regardless of realizable value, is potentially an attractive nuisance to children and curiosity seekers, or is inherently dangerous, the public should be protected by guards stationed on the property or by other satisfactory means. Every effort should be made to minimize the cost of care, protection and maintenance consistent with these principles.

b. Improvements or Alterations. FPMR Subsection 101-47.401-5, provides that improvements and alterations to excess and surplus real property may be considered, with the prior approval of GSA, where disposal cannot be made. However, it is not considered likely that a situation will arise in the Corps' disposal operations where such improve- \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

ments or alterations can be justified. Repairs necessary for protection and maintenance of marketable property will not be undertaken except to prevent serious loss to the Government. Excess equipment or facilities should not be updated or improved. At predisposal conferences, or earlier where practical, the DE, in coordination with GSA representatives, will furnish specific guidance to the using command as to the minimum acceptable GSA requirement for care and custody. The requirement for minimum maintenance does not extend to historic places. Historic places in excess or surplus status will be maintained in accordance with the letter and spirit of approved Department of the Army criteria for protection, preservation and maintenance of historic places.

11-60. Transfer of Custody to General Services Administration (GSA).

a. Custody of an excess installation reported to the GSA for disposal will continue to be held until GSA transfers to its purchaser or other designee. All expenses pertaining to care, custody and maintenance will be borne by the holding department or agency, except that such expense for property reported to GSA for disposal and not disposed of within 12 months from the date the formal report of excess was received by GSA, shall be assumed by GSA as of the first day of the succeeding quarter of the fiscal year. GSA will give notice of the receipt of the report of excess and will, within 15 days, furnish advice on the acceptability of the report. (See FPMR as amended, Subsection 101-47.202-10.) Any request made to the disposal agency to defer disposal action, or failure to submit an acceptable report, will extend the obligation of the department with respect to expenses for care and custody caused by such deferment. In the event the department is not relieved of custody within the period for which it is obligated to stand the expense thereof, the retention of care and custody thereafter will be reimbursed by the disposal agency. Because of the magnitude of custodial expense for larger installations and the longer periods of time often consumed in effecting their disposal, it is imperative that reports of excess be made as promptly as possible in order that the 12-month period may commence and terminate as soon as possible and the department's expense minimized.

b. The DE will maintain close liaison with GSA with a view to obtaining prompt transfer of custody and accountability from the department to that agency, and will coordinate transfers between the using service and GSA. However, DEs will not take over custody of an installation or coordinate the transfer of custody until a statement of clearance or a statement that such clearance is not necessary because of the use of the installation has been furnished. Under GSA procedures, the department generally retains the responsibility for care, custody, and accountability of its excess facilities until final disposition \*

\*

is made by GSA. Until that time, the property is to be carried on the real property inventory of the department.

11-61. Contracting for Care and Custody. Care and custody of excess and surplus installations should be performed by contract whenever it is legally possible and more economical to do so. Due to the temporary nature of such services and the extreme variations in kind and fluctuations in quality of such services required from time to time, contracting for custodial service will often prove to be more economical and efficient. In contracting for such services which include watchman, patrol and protective services, attention is invited to the prohibition against hiring detective agencies pursuant to the following Act of Congress: "\*\*\* An individual employed by the Pinkerton Detective Agency, or similar organization, may not be employed by the Government of the United States or the Government of the District of Columbia." (5 U.S.C. 3108). This has been construed to apply to employees of organizations which provide the services of a detective agency, but not to organizations which are organizations to render watchman, patrol or protective services and do not include detective services as one of their functions (26 Comp. Gen. 303). Custodial and protective services referred to herein are the type ordinarily procured by contract by GSA and other Government agencies charged with the responsibility for care and handling of excess and surplus real property pending its disposal in accordance with the FPMR.

11-62. Care and Custody through Interim Use.

a. General. Upon receipt of initial information that real property is excess, the DE should promptly initiate planning for interim productive use. Interim use should be planned to save care and custody expense but must not interfere with, delay, or retard transfer of the property to another Federal agency or its disposal otherwise. Any permit or lease must have the prior approval of GSA, and shall be for a period not exceeding one year and shall be revocable on 30 days' notice (FPMR Sections 101-47. 203-9 and 101-47. 312).

b. Permits to other Federal Agencies. Interested Federal agencies will be afforded a priority in the interim use of excess and surplus real property. The permit will require the Federal agency to perform care and custody and perform routine maintenance. 41 CFR Section 101-47.203-8, provides for temporary assignment, conditional transfers, and rental or user charges for use of excess property by Federal agencies.

c. Leases for Non-Federal Use. Leases of excess and surplus property are made under authority of the Federal Property and Administrative Services Act of 1949, as amended and AR 405-80. Such leases are subject to the Economy Act (40 U.S.C. 303b), and must be \*

ER 405-1-12

Change 12

27 Oct 80

\*

for a money consideration only. The lessee can and should, however, be made responsible for ordinary maintenance and restoration as required by standard Corps of Engineers lease forms. Where a portion of an excess or surplus installation is leased, it may be advantageous to enter into an agreement with the lessee for care and custody of the remainder. The agreement cannot provide for a reduction of rental for the portion leased. The Economy Act may not apply in some cases where industrial plants are determined excess subject to the National Security Clause or similar recapture conditions. Such cases should be coordinated with DAEN-REM on an individual basis.

11-63. Reserved.

11-64. Reserved.

11-65. Reserved.

\*

SECTION VII. RETURN OF PUBLIC DOMAIN LANDS  
AND LANDS OBTAINED ON A TEMPORARY  
BASIS FROM ANOTHER FEDERAL AGENCY

\*

11-66. Procedure for Disposal of Public Domain Land

a. Lands withdrawn or reserved from the public domain, together with Government-owned improvements, which have been determined to be excess to the department, after screening with other DOD agencies and the U.S. Coast Guard in accordance with Section III of this chapter, will be processed for disposal in accordance with 43 CFR 2370-2374 and paragraph 11-71 hereof. The DE will file a Notice of Intention to Relinquish as provided by 43 CFR 2372.1. The notice will be filed in the Bureau of Land management (BLM) Land Office having jurisdiction.

Excess buildings and improvements on the property should be left in place and no disposal action taken thereon pending further instructions from BLM, unless it is determined that they should be abandoned in accordance with the procedures set forth in Section XI of this chapter. A copy of the Notice of Intention to Relinquish submitted to the appropriate BLM Land Office will be transmitted to HQDA (DAEN-REM) WASH DC 20314 and to the appropriate GSA regional office.

b. If any restoration, or other work, is proposed to be performed on the land, the matter will be forwarded to DAEN-REM for prior approval. Where the DE recommends disposition of the land by GSA as excess property rather than return to the public domain, no restoration of the property will be proposed (see 43 CFR 2372.1). Generally, lands which are unimproved, or contain only minor improvements, will be recommended for return to the public domain. Exception to this procedure should be made where development surrounding, or in the vicinity of the land, has changed its character, although the land itself has not been improved. Another exception would be the situation described in paragraph 11-40d supra. Generally lands which are extensively improved will be recommended to BLM for disposal. as excess property.

c. If the authorized officer of BLM determines, pursuant to 43 CFR 2372.3, that the conditions prescribed by that regulation have been met and that the land is suitable for return to the public domain, he will notify the DE, as the representative of the holding agency, that the Department of the Interior accepts accountability and responsibility for the property. A copy of this notification will be furnished to HQDA (DAEN-REP) WASH DC 20314.

d. If the authorized officer of BLM determines, pursuant to 43 CFR 2374.1, that the land is not suitable for return to the public domain because it is substantially changed in character, and GSA concurs in this determination, he will notify the DE to report the land and \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

improvements, with or without minerals, to GSA as excess property. Upon receipt of this notice, the DE will advise DAEN-REP and report the property to GSA on SF 118, Report of Excess Real Property, including the information on claims and encumbrances furnished by BLM under 43 CFR 2374.1 (c). The holding agency has the same responsibility for care, custody, and accountability of excess public domain as for other property reported to GSA for disposal.

11-67. Formal Revocation of public Land Withdrawals and Reservations.

When the authorized officer of BLM determines that the land is suitable for return to the public domain, the BLM Land Office will transmit to the DE a draft of public land order (PLO) designed to formally revoke the order or reservation which withdrew or reserved the land. The DE will review the draft PLO for accuracy and return it unsigned. The draft PLO will be transmitted through BLM channels to DAEN-REM for signature of the Secretary of the Army or Air Force and return to the Washington office of BLM.

11-68. Cancellation of Permits.

a. Land obtained by permit, or some other form of instrument, from another Federal agency on a temporary basis which has not been substantially improved while being utilized by the Department, when determined to be excess in accordance with the procedure set forth in Section II of this chapter, will be returned to the Federal agency from which it was obtained.

b. When it is determined by the DE that land obtained by permit, or other form of instrument, from another Federal agency on a temporary basis has been substantially improved while being utilized by the Department, the DE will request DAEN-REM to determine whether the land is excess, or is expected to become excess, to the requirements of the agency from which it was obtained.

(1) If the agency from which the land was obtained advises that the land is excess, or is expected to become excess, to its requirements, the improvements will be reported to GSA on SF 118 in accordance with the procedure described in Section V of this chapter, with a statement that the agency from which the land was obtained has advised that the land is excess, or is expected to become excess to its requirements, and that the agency will be or has been requested to reassume administrative control over the land. Coincident with the report of excess, action will be initiated to return the land to the agency from which it was obtained. \*

\*

(2) If the agency from which the land was obtained advises that the land is not excess, and is not expected to become excess to its requirements, improvements constructed thereon while the property was being utilized by the Department will be disposed of in accordance with the provisions of paragraph 11-71 infra. Where the improvements are substantial, and cannot be utilized effectively by the agency from which the land was obtained, and it appears that the best interests of the Government may not be served by disposal of the improvements for removal from the site, a report, with recommendations, should be forwarded to DAEN-REM for a determination whether the permit and improvements should be reported to GSA for disposal, or whether other action would be appropriate.

c. The Chief of Engineers, or his duly authorized representatives, will execute and deliver necessary papers effecting the relinquishment of permits and the transfer of real property to other Federal agencies when the installations to which such real property or permits pertain have been determined to be excess. However, where permits were obtained at local level, DEs will effect relinquishment in the same manner. Unless otherwise instructed, no action will be taken by the DE to restore or return the lands pertaining to an industrial installation to the agency which granted the permit. DEs will, however, submit the report required in paragraph 11-69, infra.

d. Where an installation embraces lands acquired in fee by a military department and lands acquired for temporary use from other departments or agencies, and if return of the latter type of lands to the department or agency which granted the permit would destroy the integrity of the installation or affect its ultimate disposal as a unit, a report will be made to DAEN-REM with recommendations that they will provide disposition instructions.

11-69. Procedure for Cancellation of Permits.

a. When permitted land is excess and the permit is to be executed, the DE will submit the following information with his recommendations to DAEN-REM:

- (1) Description and location of the property;
- (2) Date use was acquired;
- (3) Department agency from which acquired;
- (4) Manner of acquisition; that is, by permit or other means, with copy of document; \*

ER 405-1-12

Change 12

27 Oct 80

\*

(5) ENG Form 1440-R, Cost of Restoration (Engineer Estimate and Appraisal), which includes a statement of cost and value of improvements or structures placed on the lands by the department;

(6) Statement of restoration work performed by the department if any;

(7) Statement of local representative of owning agency as to whether restoration will be required, or, where restoration work has been performed, whether such restoration is satisfactory; and

(8) Statement that no clearance of explosives or other harmful elements is necessary because of the manner in which the land was used, or, if otherwise, statement of clearance action taken or necessary.

b. Upon receipt of the foregoing information, the Chief of Engineers will effect relinquishment of the land by letter. Where the DE has authority to relinquish the land as outlined in paragraph 11-68c, he will effect relinquishment by letter addressed to the permittor, with a copy to DAEN-REM.

11-70. Restoration of Lands Made Available by Other Government Agencies.

a. Requirement. Where the Department retransfers real property, the use of which has been obtained from other Federal agencies (including withdrawals from the public domain recommended for return to the public domain) by means of use permits, public land orders, or other methods, the property should be restored to a condition as good as that which existed at the time the department took possession, damages by the elements or by circumstances over which the Department has no control excepted, unless the agency from which the property was obtained expressly waives restoration. Restoration of public domain land will not be initiated until the determination is made that the land is suitable for return to the public domain. Public domain land that is to be reported excess to GSA will not be restored. The procedure enunciated in Section XIII of this chapter relative to neutralization of unexploded bombs or artillery projectiles located on leased premises applies with equal force to Government-owned lands returned to other Federal agencies and to public domain land that is to be reported as excess for disposal by GSA.

b. Authority. The report of the Senate Appropriations Committee on the DOD Appropriation Bill, 1966 (Senate Report 625, 89th Congress, dated 18 August 1965), contained the following language: \*

\*

"Such funds as may be required may be used to restore lands under jurisdiction of other Government agencies, damaged while being used for military training purposes under agreement with such agencies."

The Comptroller General considers the foregoing to be a clear expression of Congressional intent, and that authority exists for the Department of the Army to restore (or make payment in lieu thereof) lands of other Federal agencies which have been damaged by the Army while being used under agreement.

c. Determination of Restoration Costs. ENG Form 1440-R, Cost of Restoration, appropriately modified, will be used for the preparation of an estimate of cost of restoration, or salvage or market value, for the purpose of determining the cost of restoration.

d. Payments for, or in Lieu of Restoration.

(1) Work Performed by the Department of the Army. If the work is performed by the Department, payment will be made from funds available to the office performing the work.

(2) Work Performed by Controlling Agency. If the work has been performed by the agency having administrative control over the property, pursuant to agreement with the Department, reimbursement to that agency may be made by properly supported SF 1080, Voucher for Transfer Between Appropriations and/or Funds, from funds available to the DE.

(3) Payment in Lieu of Restoration. If the work has not been performed by either agency and a payment is desired in lieu of restoration, the payment is, in effect, an advance of funds. As such, the advance of funds will be accomplished in OCE, based on controlling agency of SF 1080 properly supported.

11-71. Disposal of Buildings and Other Improvements. Where improvements have a net salvage value and are not to be reported to GSA for disposal with the land, the permitting agency, or Department of the Interior in the case of public domain land, will be required to reimburse the Army for their net salvage value, or the buildings or improvements will be disposed of in accordance with Section XI of this chapter.

27 Oct 80

SECTION VIII. PREDISPOSAL ACTION

\*

11-75. Record of Excess Classification. The DE will establish record on ENG Form 836A, Real Property Disposal Report, of the excess classification of each Army property and each Air Force property for which a preliminary or final real estate directive has been issued (Chapter 14 of this handbook).

11-76. Utilization for Other Needs. The DE will determine the feasibility of utilizing each installation classified as excess to fulfill current directives for acquisition of real estate or known or foreseen potential needs of the Army or Air Force, which may have been generated since the screening process. If redistribution for this purpose is deemed advantageous, recommendations will be submitted to HQDA (DAEN-REM) WASH DC 20314 on the proposed action, indicating when excess status was determined and by which element of the Departments of the Army or Air Force.

11-77. Suspension of Acquisition Action on Installations Proposed for Disposal. When a fee-owned installation is recommended for excess by the installation commander, or a preliminary or final real estate disposal directive is issued by the Air Force, any pending acquisition in connection with the installation will be suspended, unless the directive provides otherwise. A recommended plan for curtailment of uncompleted acquisition will be submitted to HQDA (DAEN-REA-L) WASH DC 20314. The plan will include the following information: Identification by tract numbers, names of owners, and area of each tract for which an option has been accepted or a declaration of taking filed, but as to which it is considered practicable and economical to obtain cancellation of the option or a stipulation for dismissal of the condemnation proceeding and revestment of title. Specific information as to the extent and nature of demolition of improvements, new construction, or other damages or changes made by the Government to the premises, and the probable cost of restoration in case of such cancellation or stipulation, will be included. Pertinent public relations aspects should also be covered. Generally, tracts on which a declaration of taking has been filed will not be returned to the owners by stipulation for amendment or dismissal of the condemnation proceedings. Exceptions to this may be recommended when shown to be in the best of interest of the United States.

11-78. Army Military - Screening, Clearance, Preliminary Report of Excess, Except where an E.O. 11954 Survey has been made. Upon receipt of a copy of the installation commander's recommendation of excess, the DE will take the following actions:

a. Immediately notify DAEN-REM by teletype, furnishing a brief statement of the real estate included in the recommendation. \*

\*

b. Promptly screen the property against Army and other defense requirements if required by and in accordance with Section III of this Chapter, and advise DAEN-REM of the results.

c. As soon as the screening message is dispatched under b above, or immediately upon receipt of a disposal directive from DAEN-REM when screening is not required by Section III, DEs will prepare and forward:

(1) SF 118, Report of Excess Real Property and other documentation required in reporting the excess property to GSA.

(2) ENG Form 2187-R, Disposal Report (Figure 11-2), for clearance with DOD and the Armed Services Committees (ASC) of Congress where required in accordance with Section IV. This should be forwarded to DAEN-REL within three weeks of dispatch of the screening message, or receipt of the disposal directive. This schedule will allow the Chief of Engineers to process the disposal assembly through the DA and DOD secretariats and to obtain necessary clearances from the ASC. DAEN-REM will furnish the DE copies of the DOD approval and the report to the ASC. This office will also furnish copies of the ASC report to the Washington and regional offices of GSA, to permit screening with other Government agencies.

d. DOD approval of the disposal (property having estimated value in excess of \$100,000) signifies the property is excess to Defense requirements. Upon receipt of this approval, the DE will forward a preliminary Report of Excess to GSA by transmitting necessary copies of the completed SF 118, with attachments, carefully identified as preliminary. Where screening is negative for property having an estimated value of \$100,000 or less, the property is considered excess to Defense requirements and a final report of excess should be forwarded promptly to GSA.

11-79. Army Military - Modified Predisposal Procedures where E.O. 11954 Surveys have been made.

a. DEs will be advised of military installations to be surveyed under E.O. 11954 by a DOD or GSA survey team.

b. If property is to be declared excess as a result of a decision by the Department of the Army, appropriate commanders and DEs will be advised. The major commander will be requested to submit a Report of Excess pursuant to AR 405-90 to HQDA (DAEN-REM) WASH DC 20314 within 15 days. DEs will be furnished a copy of the report. \*

ER 405-1-12

Change 12

27 Oct 80

\*

c. Upon receipt of advice that property will be excessed, the DE, in coordination with the installation commander concerned, will commence preparation of ENG Form 2187-R, if required, for submission to DAEN-REL.

d. When the Report of Excess is approved, DAEN-REM will advise the DE and will request that screening be initiated. The approved report will be promptly referred through channels to the DE for further appropriate action.

e. The ENG Form 2187-R will be forwarded to DAEN-REM not later than 15 days after receipt of the approved Report of Excess.

f. As soon as the areas to be excessed are clearly defined, action will be initiated to assemble all necessary data so that the final SF 118 may be submitted to GSA within 30 days after necessary Congressional clearance is obtained under 10 U.S.C. 2662.

g. When the estimated value of the property does not exceed \$100,000 and preparation of an ENG Form 2187-R is not required, the DE, upon being notified of the approval of the Report of Excess, will notify DAEN-REM of the date the SF 118 will be submitted to GSA.

11-80. Executive Order 11954 Surveys of Civil Works Properties. Procedures to be followed by DEs when civil works properties are surveyed by GSA under E.O. 11954 are contained in Chapter 8 of this pamphlet.

11-81. Predisposal Conference.

a. Where a substantial Army installation, or portion thereof, is involved, the DE will convene a predisposal conference with representatives of the using command, GSA, and other interested parties. Where an Air Force installation is involved, the Major Air Command will take the initiative in convening the conference. In any cases involving flying facilities, Federal Aviation Administration representatives will be invited. The agenda of the predisposal conference should provide for:

(1) Determinations on maintenance guidelines based on probable future uses of the property with emphasis on agreements concerning responsibility for assumption of care and custody, in accordance with AR 405-90, AFR 87-4, and Section VI of this Chapter.

(2) Review of the SF 118 to assure its acceptability to GSA.

(3) Review with GSA, when appropriate, of the advisability of transferring custody and maintenance responsibilities to GSA at an early date. \*

\*

(4) Planning for and, to the extent possible, making definite determinations on interim utilization pending disposal by GSA.

b. It is of utmost importance that excess installations be put to productive use as military operations are phased out. This will do much to lessen the impact of the installation's closing on the economy of the local community. For this purpose, installations, in many cases, will be reported to GSA prior to phase out of military operations. In these cases, the DE has responsibility to insure, to the extent practicable, that other productive use is phased in as military operations are phased out. This can be accomplished only by careful planning and continuous coordination by the DE with using command and GSA. The using command will plan and execute the military phase out. However, the DE will assure that the Report of Excess to GSA specifically identifies and excludes the real and personal property to be retained by the military department. This information is required by GSA for disposal purposes.

c. A report on the predisposal conference will be forwarded to DAEN-REM. Any difficulties indicated by GSA will be summarized in the report, along with any other problems encountered or foreseen.

d. When requested, and on an individual project basis, the DE will prepare a real estate disposal study concerning the transfer of custody and maintenance responsibilities to GSA prior to final disposal. This study will be developed in conjunction with appropriate using command and GSA representatives. Its purpose will be to determine whether the transfer of the excess property to GSA would be more economical and in the best interest of the Government. Important benefits to DOD agencies would be reduction in expenditures and personnel of the military departments for such functions. Copies of the study will be furnished the using command concerned for timely review and recommendations.

11-82. Air Force - Preliminary Report of Excess. The DAD will issue a preliminary real estate disposal directive when a disposal project is forwarded to the Assistant Secretary of Defense (Manpower, Reserve Affairs and Logistics) for clearance. (Air Force screens its own properties for other defense requirements and clears the disposal with DOD and the Armed Services Committees of the Congress.) When the preliminary real estate disposal directive is received, the DE, unless directed otherwise, will proceed to perform all necessary actions in coordination with the installation commander concerned, for submission of a preliminary Report of Excess to GSA.

11-83. Final Report of Excess to GSA. Where a preliminary Report of Excess is made to GSA, the DE will promptly finalize the report upon receipt to the final Air Force disposal directive. In all cases where a disposal is reported to the Armed Services Committee, the DE will furnish \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

HQDA (DAEN-REM) advice when the final report is made to GSA. Where the report is finalized by statement confirming a preliminary report as final, copies of the preliminary report and confirming statement should be distributed in accordance with Section V of this Chapter. Distribution of preliminary Reports of Excess, except to GSA, will not be made in other cases.

11-84. Protection of Disposal Information. To Prevent premature disclosure to the public, information on and plans for disposal of all or a portion of an installation should be protected (AR 340-16), until such time as the property is determined excess to Army or Air Force requirements. (The Air Force preliminary real estate disposal directive is not issued until a determination has been made that the property is excess to Air Force requirements.) After determinations of excess are made, it is desirable that information on the availability of the property for disposal be widely disseminated. "FOR OFFICIAL USE ONLY" marking on plans and correspondence pertaining to the excess action may be cancelled by any recipient or holder. Where the classification "CONFIDENTIAL" or higher has been used, documents must be declassified in accordance with AR 380-5.

11-85. Coordination on Disposal Problems. If any major change or problem requires a significant revision in the time schedule for disposal, prompt action will be taken to advise offices concerned. HQDA (DAEN-REM) should be promptly informed of any problem adversely affecting a specific disposal project or the overall program for disposal or property.

11-86. Assignment of Personnel to Administer. To extent appropriate according to the circumstances and nature of the property, the DE will assign a responsible representative to each installation, or group of installations, to act under his staff supervision in performance of the following functions:

a. Monitoring and expediting the actions described by this Section and maintaining close liaison with GSA on disposal problems and actions.

b. Monitoring and expediting performance of such demolition, dismantling or other construction work as may be authorized.

c. Administration, operation and maintenance of the excess installation until final disposal, making every effort by consolidation of activities and otherwise to reduce the costs consistent with economic management of the facilities.

d. Coordination of ultimate transfer of assumed custodial responsibility to other agencies or persons as directed. \*

SECTION IX. DISPOSAL OF FEE-OWNED REAL PROPERTY  
 AND EASEMENT INTERESTS

\*

11-90. Authorities (General).

a. Statutory Authorities. Power to dispose of real estate belonging to the United States is vested in Congress (paragraph 2, Section 3, Article IV, Constitution of the United States), and no real estate of the Department will be sold or otherwise disposed of without authority of Congress. By the Federal Property and Administrative Services Act of 1949 (Federal Property Act), (Public Law 152, 81st Congress; 63 Stat. 377) as amended, (40 U.S.C. 471 et seq.), Congress provided authority for utilization of excess property and the disposal of surplus Federal property, and established the General Services Administration (GSA) to administer the provisions of that Act. All excess and surplus Federal real estate and real property components will be disposed of under authority of the Federal Property Act, as amended, unless other statutory authority for such disposal is specifically withheld under the provisions of the Act or enacted subsequent thereto. In connection with disposals made under statutory authority other than the Federal Property Act, attention should be given to the purposes of the legislation and insofar as practicable, disposal of property should be in accordance with the provisions of the Act and the regulations issued thereunder, in order that the greatest overall efficiency and economy be effected.

b. Rules and Regulations.

(1) Issued by the GSA. Rules and regulations issued by the GSA to effectuate its authority in respect to disposal of real estate and real property components are contained in FPMR, Section 101-47, as amended, including disposition of timber, embedded sand, gravel and stone, buildings and other structures, and leaseholds and other rights to use or occupy real estate. The DE will be governed by these rules and regulations. GSA also issues, from time to time, special delegations of authority to the Department of Defense with power of redelegation.

(2) Issued by the Departments. Policies and procedures of the departments with respect to the control, management, maintenance, and disposition of real estate and real property components located within the continental United States and its territories and possessions, placed in excess status or to be placed in excess status are contained in AR 405-90, AFR 87-4, and AR 405-5/AFR 87-15, except Army civil works property which is governed by this handbook.

c. Authorities Delegated to the Department of Defense. Under the publications and special delegations issued by GSA, the Department of Defense has been designated disposal agency categories enumerated in paragraph 11-4 supra. \*

\*

d. Authorities Delegated to the Army and Air Force. Department of Defense Directive 4165.6, among other things, redelegates to the Secretaries of the Army, Navy and Air Force, and to such individuals as they may designate for the purpose of administering real estate actions within their respective departments, the authorities which were then, or may hereafter be, assigned and delegated to, or vested in the Secretary of Defense by:

(1) Sections 401 and 402 of the Federal Property and Administrative Services Act of 1949, as amended (40 U.S.C. 511 and 512) and regulations of the GSA promulgated thereunder.

(2) The Administrator of General Services, pursuant to Section 203(a), (b) and (c) of the Federal Property and Administrative Services Act of 1949, as amended (40 U. S. C. 484).

(3) Other specific delegations from the Administrator of General Services.

e. Authorities (Special). In addition to the general authority cited in paragraph (2) above, the Department derives authority from a number of special purpose statutes to transfer real property to other Federal agencies and to dispose of real property for special purposes, or to special classes or in a specific manner to achieve a specific objective. Some of these acts are utilized in conjunction with regulations of GSA and some are exercised independently thereof according to the nature of the particular law. These laws are described in subsequent sections of this handbook.

11-91. Transfers - General. Resumes of the principal legislative acts authorizing transfer of Army and Air Force real property to other Federal departments are contained in succeeding paragraphs. The authorities in these acts are exercised independently of GSA regulations. Transfers under these authorities are made without reimbursement. Real property can also be retransferred under the Federal Property Act within the scope of disposal authority delegated by GSA. Transfers under the Federal Property Act are subject to reimbursement as prescribed by FPMR, section 101-47.203-7. Property reported to GSA for disposal will be transferred only at the direction of GSA. Exceed property excepted from reporting may be transferred by the DE under GSA regulations. Transfers to the Department of the Interior of surplus lands

11-92. Transfers Among the Armed Services. 10 U. S. C. 2571(a) authorizes the interchange without reimbursement of military stores, supplies, and equipment of every character, including real estate \*

Er 405-1-12  
Change 12  
27 Oct 80

\*

owned by the Government, between the Army, Navy, Air Force and Coast Guard upon request by the head of one service and with the approval of the head of the other service.

11-93. Transfers to Tennessee Valley Authority. 10 U. S. C. 831f(b) authorizes the President of the United States to provide for the transfer to the Tennessee Valley Authority of the use, possession and control of such real or personal property of the United States as he may from time to time deem necessary and proper for its purposes. This authority is applicable to property under the jurisdiction or control of the Secretaries of the Army and the Air Force. The authority vested in the President by this law has been delegated to the Office of Management and Budget by Executive Order No. 10530 dated 11 May 1954, as amended (see footnote to 3 U. S. C. 301).

11-94. Transfers to Federal Prison Industries, Inc. 18 U. S. C. 4122 authorizes any department or agency of the Department of Defense to transfer without exchange of funds, to Federal Prison Industries, Inc., any property or equipment suitable for use in performing the functions and duties covered by agreement entered into under subsection (d) of this Act. The provisions include the industrial employment and training of prisoners convicted by general courts-martial and confined in any institution under the jurisdiction of any DOD agency or department.

11-95. Transfers to Veterans Administration. 38 U. S. C. 5003 authorizes the secretaries of the military departments to transfer, without reimbursement, to the Veterans Administration, facilities, supplies, equipment, or material necessary and proper for the authorized care of veterans. The word "facilities," as used in this Act, has been construed to include buildings and grounds.

11-96. Transfers to Secretary of Transportation and the National Weather Service. 49 U. S. C. 1157 authorizes the Department of Defense to transfer, without charge, to the Secretary of Transportation, airport property and airway property, exclusive of meteorological facilities in territory outside the continental limits of the United States (including Alaska). Section (b) of this Act, similarly authorizes transfer of meteorological facilities, without charge, to the National Weather Service.

11-97. Transfers to District of Columbia. 40 U.S.C. 122 authorizes Federal and District authorities administering properties within the District of Columbia, owned by the United States or by the District, to transfer jurisdiction over parts or all of such property among or between themselves for purposes of administration and maintenance under such conditions as may be mutually agreed upon, provided that, prior to the consummation of any such transfer, the proposed transfer shall be \*

\*

recommended by the National Capital Planning Commission. All such transfers and agreements shall be reported to Congress by the District authorities concerned.

11-98. Interchange of National Forest and Military and Civil Works Lands. 16 U.S.C. 505a, 505b authorizes the Secretary of Agriculture, with respect to national forest lands, and the Secretary of a military department with respect to lands under the control of the military department which lie within or adjacent to the exterior boundaries of a national forest, to interchange such lands, or parts thereof, without reimbursement or transfer of funds whenever they shall determine that such interchange will facilitate land management and provide maximum use thereof, for authorized purposes. This law further provides that no transfer thereunder shall become effective until 45 days after the submission to the Congress by the respective Secretaries of notice of intention to make the interchange. The law also provides, in effect, that lands so transferred shall thereafter be subject only to the laws applicable to the lands of which the transferred lands become a part. Lands under the administrative control of the Congress, both military and civil, and that of the Air Force are within the scope of this law.

11-99. Procedures for Interchange of National Forest Lands.

a. General. The interchange of national forest lands is accomplished in three steps: first, agreement must be reached between the two departments involved as to which lands will be interchanged; second, the two departments will jointly notify the Speaker of the House of Representatives and the President of the Senate, by letter, of the intention of the two departments to make the interchange agreed upon; third, upon the expiration of 45 days from the date of submission of the notice of intention (counting only days occurring during any regular or special session of the Congress) the two secretaries will execute jointly and cause to be published in the Federal Register an order transferring the respective lands of each department to the other.

b. Initiation of Requests for Interchange. Requests for interchange of lands may be originated by either the military department involved or the Department of Agriculture. Those originated by the Department of the Army may result from land requirements generated by newly authorized civil works or military construction projects or from authorized expansion of existing projects or as a result of property utilization surveys. Department of the Air Force requirements may develop similarly. When a request originates with the Department of the Air Force requirements may develop similarly. When a request originates with the Department of Agriculture pertaining to a civil-works project or a military installation, it will be analyzed and coordinated by the DE with local representatives of the Department of Agriculture and \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

the using service, as appropriate, to determine the feasibility of and need for the acquisition of any forest land to improve administration of the Army project or installation and the availability of Army lands for transfer to the Department of Agriculture. When coordinated analysis indicates the propriety of an interchange, an interchange planning report will be developed by by the DE, in coordination with interested local elements of the two departments and submitted to HQDA (DAEN-REM) WASH DC 20314, with appropriate recommendations.

c. Contents of Interchange Planning Report. The planning report should include the following information:

(1) Location of the areas proposed for interchange, including the county or municipality, names of the forest, project or installation, and number of acres to be interchanged by each department.

(2) If the areas involved include public domain lands, the number and date of the Executive Order or Public Land Order by which withdrawn or established.

(3) If the areas include acquired lands:

(a) Approximate dates, methods and cost of acquisition of Department of the Army lands proposed for interchange.

(b) Interest, restrictions and reservations currently outstanding, to which the lands were subject when acquired, together with such rights subsequently granted by the Government and presently in force.

(4) Any additional reservations, conditions or restrictions under which the interchange is to be made.

(5) A map, in triplicate, indicating by appropriate color scheme the lands of each department which are to be interchanged. The map should show the jurisdictional boundary, and, where appropriate, the contour elevations used as a basis for determining the extent of the interchange.

(6) An informal estimate of the current values of the areas to be interchanged.

(7) Information upon which to base a determination by the two Secretaries that the interchange will facilitate land management and provide maximum use thereof for authorized purposes.

\*

\*

(8) Any other information or data that might be helpful to representatives of the Department of the Army in answering pertinent questions that may be raised by the committees of Congress.

(9) A draft of order of interchange prepared, in sextuplicate, in coordination with representatives of the Forest Service for execution jointly by the two Secretaries.

(10) Recommendations of the District and Division Engineers.

d. Relinquishment and Assumption of Possession. Upon notification by the Chief of Engineers that an order of interchange has been published, the DE will coordinate with local representatives of the Forest Service, and the using service if appropriate, the exchange of custody and accountability of the respective areas.

11-100. Procedure for Other Transfers.

a. Applicability - Exceptions. This paragraph and paragraphs 11-101 and 11-102 are applicable to all transfers of real and related personal property to other Federal agencies by the Army and Air Force except as provided above.

b. Authority to Execute.

(1) Secretaries of the Army and Air Force. Instruments effecting the transfer of fee-owned land (except fee-owned land that has been reported to GSA and is transferred at the direction of GSA) will be executed at Secretarial level. The Secretary of the Army, or his designee, will execute instruments transferring Air Force land to other Federal agencies.

(2) Divison and District Engineers will execute instruments transferring real property and related personal property to other Federal agencies: (a) which has been reported to GSA and which is transferred at the direction of GSA; (b) leaseholds, easements, and other lesser interests in lands; and (c) buildings, fixtures, and other improvements.

11-101. Form of Inter-Agency Transfer Instrument.

a. Inter-agency transfer instruments will be prepared by the Chief of Engineers in either memorandum or letter form. The instruments will be prepared for signature of the Secretary of the transferring department and will be addressed to the Secretary or head of the receiving department or agency. The instrument will provide, as a minimum, the following: citation of statutory authority for the transfer; statement as to whether the transfer is made with or without reimbursement; \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

statement of the reimbursement amount, if applicable; statement as to whether the requirements of 10 U.S.C. 2662 have been met or that the transfer is not subject thereto; statement as to the acreage of land involved; and, by means of an inclosure, a description of the property being transferred. Based on the circumstances and nature of the property, other appropriate data outlined below will be included in the instrument.

(1) Effective date of transfer (where right-of-entry has been granted or custody transferred, this date will be used.)

(2) Restrictions, conditions, reservations and exceptions, as necessary.

(3) When, where, how and by whom transfer of physical possession and accountability for the property will be accomplished.

(4) Location and proposed disposition of title papers pertaining to the property.

(5) Description of the land and copy of map depicting the property and reflecting its relation to retained property, if any, and to encumbrances such as rights-of-way, easements, and leaseholds.

(6) Instructions concerning payment of rent where a lease is involved. The transfer will be conditioned upon assumption of all obligations incurred in connection with the leasehold, including obligations to restore the premises.

(7) Instructions concerning removal and site restoration where buildings or timber, or sand and gravel or other separable property is involved.

(8) Statement of source of title and cost of acquisition where land is involved. Reservations and exceptions in and to the Government's title and easements and other rights in the property granted by the Government will be stated with particularity.

(9) List and description of buildings and improvements and cost of buildings and improvements not acquired with the land.

(10) Preference to excess or other directive making the property available for transfer when instrument is executed by District Engineer.

(11) Statement of responsibility and reimbursement for utility services.

\*

\*

(12) Reference to Report of Excess, Standard Form 118, where property has been reported to GSA.

(13) Other appropriate information.

b. The DE will provide the data outlined in a above to HQDA (DAEN-REM) WASH DC 20314 for use in preparing transfers to be executed at the Secretariat level. The forwarding correspondence will contain sufficient information for a full and complete understanding of the proposed transfer action, including an appraisal when reimbursement is required, together with other appropriate comments and recommendations.

11-102. Transfer of Custody and Accountability. The DE will transfer custody and accountability or will coordinate the transfer, as appropriate. The DE will collect any reimbursement and obtain any releases required. Where a leasehold is involved, the DE will furnish the transferee a copy of the lease and advice of the last rental paid and when the next rent is due. Upon completion of the transfer, proper notice will be given to the General Accounting Office, the lessor, and the Finance Officer as to the responsibility of the transferee for future rental payments. This action will be initiated or completed promptly upon receipt of a copy of the executed instrument, and a conformed copy thereof will be furnished to HQDA (DAEN-REP) WASH DC 20314.

11-103. Exchanges of Fee-owned Land and Easement Interests. The statutes identified in the following paragraphs authorize the exchange of Government-owned lands and interests therein for private lands and lands owned by states, other non-Federal agencies, and their instrumentalities. As a general rule, any exchange of lands should be restricted to lands of approximately equal value. Where the Government property proposed for exchange has a value substantially in excess of the private land to be acquired, the question of whether the transaction is truly an exchange arises. In drafting relocation contracts, care must be exercised to insure that there is legal authority for execution of the conveyance or easement proposed.

11-104. MCA Acts. The annual military construction authorization acts usually contain general authority for the acquisition, "by donation, purchase, exchange of Government-owned lands, or otherwise," of lands and interests therein at specified installations or for specified military purposes. The annual acts must be examined to determine that specific authority exists to acquire land by exchange, unless a contemplated exchange falls within the scope of one of the special laws mentioned in paragraphs 11-105 through 11-109.

11-105. Army Military and Air Force Lands - \$50,000 Limitation. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

a. 10 U.S.C. 2672 authorizes the Secretary of a military department to acquire land and interests in land by gift, purchase, exchange of Government-owned land, or otherwise, that:

(1) The Secretary or his designee determines is needed in the interest of national defense, and

(2) Does not cost more than \$50,000.

b. 10 U.S.C. 2672a authorizes the Secretary of a military department to acquire any interest in land, including by exchange of Government-owned land, that:

(1) The Secretary or his designee determines is needed in the interest of national defense;

(2) Is required to maintain the operational integrity of a military installation, and

(3) Considerations of urgency do not permit the delay necessary to include the required acquisition in an annual Military Construction Authorization Act.

11-106. Army Civil Works Lands. The Secretary of the Army is authorized to exchange lands acquired for river and harbor and flood control projects for privately-owned lands required for such purposes (33 U.S.C. 558b and 558b-1).

11-107. For MCA Family Housing. The Act of 1 September 1954, Public Law 765, 83rd Congress (68 Stat. 1119), as amended by Sec. 415 of Public Law 968, 84th Congress, Act of 3 August 1956 (70 Stat. 1018) authorizes the acquisition of real estate by donation, purchase, exchange of Government-owned lands, or otherwise, for "Military Construction-Army Family Housing at Military Installations and Facilities."

11-108. Procedure for Exchange.

a. Each agreement for the exchange of real property should be formalized by written contract specifying the terms and conditions of the exchange, including, by reference to exhibits incorporated therein or otherwise, the form and terms of the conveyance of the title to the property to and from the Government. The agreement, in the case of relocation contracts, will be developed in accordance with ER 1180-1-1 (Sec. 73, ECI). Where an exchange of land or interests therein is considered desirable in the course of a condemnation proceeding, the agreement can be incorporate in a stipulation therein (Section IV, Chapter 5 of this handbook).

\*

\*

b. Submission to the Chief of Engineers of draft of conveyance.

(1) Conveyance will usually be executed by the Secretary or head of the agency involved (paragraph 11-131). To avoid impinging on his discretionary powers, the execution of any contract or agreement involving an exchange of real property interests must be approved in advance or be deferred pending execution of the conveyance, or provide that the terms and conditions of any grant to be made pursuant to the contract will be subject to approval by the Secretary or agency head. It is considered preferable that the contract contain a draft of conveyance as an exhibit thereto and, where time will permit, be submitted to DAEN-REM for review prior to final execution of the contract in order to avoid possible difficulties arising from subsequent disagreement over terms acceptable to the signatory of the Government's conveyance.

(2) In submitting for final approval and execution the conveyance of the Government's interest in land pursuant to a contract for exchange, the following data should be included to support the proposed action:

(a) Description and map of the property to be conveyed.

(b) Statement as to how and when the Government acquired title to the property, the nature and extent of its interest therein, and a statement of any encumbrance to which the property is subject and the nature thereof, such as easements for road rights-of-way, utility lines, etc.

(c) A sufficient number of drafts of the conveyance to permit distribution thereof to interested agencies and the grantee.

(d) Two copies of the contract, option, stipulation in condemnation or other agreement which provides for the proposed conveyance, or, in lieu thereof, pertinent excerpts therefrom sufficient to clearly show the nature and extent of the Government's obligation to execute the conveyance.

(e) A citation of the statutory authority on which the execution of the conveyance is to be predicated.

(f) Any additional information necessary to a proper understanding of the proposed transaction.

(g) When the exchange agreement is other than a relocation contract, an appraisal report showing the relative fair values of the properties to be exchanged.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*

(h) A copy of the conveyance to be made to the United States, or a statement by the Attorney General that an acceptable conveyance has been executed and delivered to the United States, and that an opinion of good title has been made or it not required by regulation to be made.

(i) Recommendations of the Division and District Engineers.

11-109. Public Law 87-852 Easements. P.L. 87-852, approved 23 October 1962 (76 Stat. 1129), authorizes executive agencies to grant easements on real property of the United States for rights-of-way or other purposes on terms and considerations deemed necessary to protect the interest of the United States, with or without monetary consideration, or other consideration, including any interest in real property. The Act also authorizes the relinquishment of legislative jurisdiction to the State.

11-110. Disposal of Property in which the Military Departments have a Continuing Interest Under Special Acts of Congress. General. Because of the continuing interest of the departments in the following properties and in view of the determinations under the Acts on which the disposals are premised, properties that can be conveyed under authorities discussed in paragraphs 11-111 through 11-114 are not considered surplus or excess within the meaning of these terms as defined in the Federal Property Act.

11-111. Highway Purposes. Title 23 U.S.C. 317 provides that upon application of the Secretary of Transportation, land or materials may be transferred to a state for the construction or maintenance of a right-of-way for any highway adjacent to a Government installation. If, within a period of four months after such application by the Secretary of Transportation, the Secretary of the Department shall not have certified to the Secretary of Transportation that the proposed appropriation of such land or material is contrary to the public interest or inconsistent with the purpose for which such land or materials have been reserved, they may be appropriated and transferred to the state for such purposes. When the need for such land or material ceases to exist, they shall revert to the control of the department. This section applies only to projects constructed on a Federal-aid system, or under the provisions of Chapter 2 of Title 23 U.S.C. Usually applications for highway rights-of-way or the use of borrow material made under this Act by the Federal Highway Administration, Department of Transportation, on behalf of a particular state can be and are more simply satisfied by the issuance of a road easement or a license to take borrow material. This latter procedure is also desirable in that controls necessary to satisfy military requirements may be retained. Title 23 U.S.C. 107(d) directs Federal agencies to cooperate with the Secretary of Transportation \*

in providing rights-of-way, including control of access, for the interstate highway system over lands and interests in lands owned by the United States.

11-112. Authorized Widening of a Public Highway, Street, or Alley.

40 U.S.C. 345c authorizes the conveyance, upon application, of such interest in real property as is determined will not be adverse to the interests of the United States, to the states or political subdivisions for authorized widening of a public highway, street, or alley. The conveyance may be made with or without consideration, and subject to terms and conditions deemed necessary to protect the interests of the United States. Excepted from this authority is the conveyance of any interest in real property that can be transferred under Title 23 of the United States code (see paragraph 11-111), and to public lands in the National Forest System.

11-113. Airport Development.

a. Authority. 49 U.S.C. 1723 provides that

"(a) ...whenever the Secretary of Transportation determines that use of any lands owned or controlled by the United States is reasonably necessary for carrying out a project for airport development under this subchapter, or for the operation of any public airport, including lands reasonably necessary to meet future development of an airport in accordance with the national airport system plan, he shall file with the head of the department or agency having control of the lands a request that the necessary property interests therein be conveyed to the public agency sponsoring the project in question or owning or controlling the airport. The property interest may consist of the title to, or any other interest in, land or any easement through or other interest in airspace. (b) Upon receipt of a request from the Secretary under this section, the head of the department or agency having control of the lands in question shall determine whether the requested conveyance is inconsistent with the needs of the department or agency, and shall notify the Secretary of his determination within a period of four months after receipt of the Secretary's request. If the department or agency head determines that the requested conveyance is not inconsistent with the needs of that department or agency, the department agency head is hereby authorized and directed, with the approval of the President and the Attorney General of the United States, and without any expense to the United States, to perform any acts and to execute any instruments necessary to make the conveyance requested. A conveyance may be made only on the condition that, at the option of the Secretary, the property interest conveyed shall revert to the United States in the event that the lands in question are not developed for airport purposes or used \*

ER 405-1-12

Change 12

27 Oct 80

\*

in a manner consistent with the terms of the conveyance. If only a part of the property interest conveyed is not developed for airport purposes, or used in a manner consistent with the terms of the conveyance, only that particular part shall at the option of the Secretary, revert to the United States."

b. Approval. The requirement for approval by the President was waived by Executive Order 12079 dated 18 September 1978. The Attorney General delegated his authority to approve to the Assistant Attorney General, Land and Natural Resources Division, by Section 0.67 of Title 28 of the Code of Federal Regulations (Order No. 468.71 of the Attorney General, October 22, 1971: 36 F.R. 20428). The instrument of conveyance must cite authority for the waiver and the delegation as shown in Suggested format of deed (Figure 11-3).

c. Requirements for Conveyance Instrument. Under authority delegated by the Secretary of Transportation to the Federal Aviation Administration (FAA), when the Administrator of the FAA requests a conveyance from a military department, the instrument of conveyance requires the following provisions as covenants running with the land, binding the grantee, its successors and assigns.

(1) That the grantee will use the property interest for airport purposes, and will develop that interest for airport purposes within one year after the date of this conveyance, except that if the property interest is necessary to meet future development of an airport in accordance with the National Airport System Plan the grantee will develop that interest for airport purposes on or before the period provided in the plan or within a period satisfactory to the Administrator and any interim use of that interest for other than airport purposes will be subject to such terms and conditions as the Administrator may prescribe.

(2) That the airport, and its appurtenant areas and its buildings and facilities, whether or not the land is conveyed, will be operated as a public airport on fair and reasonable terms, without discrimination on the basis of race, color, religion, age, sex, handicap or national origin, as to airport employment practices, and as to accommodations, services, facilities, and other public uses of the airport.

(3) That the grantee will not grant or permit any exclusive forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now owned or controlled by it. \*

\*

(4) That the grantee agrees that no personal shall be excluded from any participation, be denied any benefits or be otherwise subjected to any discrimination on the grounds of race, color, religion, age, sex, handicap or national origin.

(5) That the grantee agrees to comply with all requirements imposed by or pursuant to Part 21 of the Regulations of the Office of the Secretary of Transportation (49 CFR 21) - nondiscrimination in federally assisted programs of the Department of Transportation - effectuation of Title IV of the Civil Rights Act of 1964.

(6) That in furtherance of the policy of the FAA under this covenant, the grantee:

(a) Agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which because of their direct relationship to the operation of aircraft can be regarded as an aeronautical activity;

(b) Agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before 17 July 1962 at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

(c) Agrees that it will terminate forthwith any other exclusive right to conduct any aeronautical activity now existing at such an airport.

(7) That any later transfer of the property interest conveyed will be subject to the covenants and conditions in the instrument of conveyance.

(8) That, if the covenant to develop the property interest (or any part thereof) for airport purposes within one year after the date of this conveyance is breached, or if the property interest (or any part thereof) is not used in a manner consistent with the terms of the conveyance, the Administrator may give notice to the grantee requiring him to take specified action towards development within a fixed \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

period. These notices may be issued repeatedly, and outstanding notices may be amended or supplemented. Upon expiration of a period so fixed without completion by the grantee of the required action, the Administrator may, on behalf of the United States, enter, and take title to, the property interest conveyed or the particular part of the interest to which the breach relates.

(9) That, if any covenant condition in the instrument of conveyance, other than the covenant contained in paragraph 7 above, is breached, the Administrator may, on behalf of the United States, immediately enter, and take title to, the property interest conveyed or, in his discretion, that part of that interest to which the breach relates.

(10) That a determination by the Administrator that one of the foregoing covenants has been breached is conclusive of the facts; and that, if the right of entry and possession of title stipulated in the foregoing covenants is exercised, the grantee will, upon demand of the Administrator, take any action (including prosecution of suit or executing of instruments) that may be necessary to evidence transfer to the United States of title to the property interest conveyed, or, in the Administrator's discretion, to that part of that interest to which the breach relates.

d. Procedure for Conveyance. Upon receipt of a deed from the District Engineer, DAEN-REM will submit the deed to the appropriate Secretary for execution, and to the Assistant Attorney General, Land and Natural Resources Division, for approval before returning it to the District Engineer for delivery to the grantee.

(1) The deed assembly submitted will contain, in triplicate:

(a) The request from the Administrator of FAA to the Secretary of the military department concerned;

(b) The reply from the Secretary involved to the Administrator, making the property available;

(c) The resolution by the appropriate governing body of the public agency sponsoring the project in question indicating authorization for acquisition by such agency and its concurrence with the terms and conditions of the conveyance.

(2) Transmittal correspondence shall also set forth:

(a) The type and condition of the property, including improvements acquired therewith or constructed since acquisition; \*

\*

(b) Whether there has been any change in the nature, quantity, etc., of the property requested by the agency from the date of its original request to the present. If so, details should be furnished together with an appropriate amendatory resolution (in triplicate) by the governing body of the sponsoring agency;

(c) Expenses of transfer. In view of the provision in the Act that the conveyance will be made without any expense to the United States, if land surveys are required the transferee agency will be required to pay cost of making such surveys.

11-114. Development of Public Port or Industrial Facilities.

a. Authority. Section 108 of Public Law 86-645 approved 14 July 1960 (33 U.S.C. 578) authorizes the Secretary of the Army, after certain determinations are made, to convey land which is a part of a water resource development project to a state, political subdivision thereof, port district, port authority, or other body created by the State or through a compact between two or more States for the purpose of developing or encouraging the development of public port or industrial facilities.

b. Limitation. Only lands within a navigation project will be made available for conveyance for these purposes.

c. Delegations, Rules, and Regulations. Pursuant to rules and regulations published in the Federal Register 11 March 1961 (26 F.R. 2117-2118; 33 C.F.R. 211.141-211.147),

(1) The Chief of Engineers or the Director of Civil Works has been delegated authority to determine:

(a) That the development of public port or industrial facilities on land within a project will be in the public interest;

(b) That such development will not interfere with the operation and maintenance of the project;

(c) That the disposition of the land for these purposes under this Act will serve the objectives of the project;

(d) If two or more agencies file applications for the same land, which agency's intended use of the land will best promote the purpose for which the project was authorized; and

(e) The conditions, reservations and restrictions to be included in a conveyance under the Act. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

(2) The District Engineer has been delegated authority to:

(a) Give notice of any proposed conveyance under the Act and afford an opportunity to interested eligible agencies in the general vicinity of the land to apply for its purchase; and

(b) Determine the period of time in which applications for conveyances may be filed.

(3) Notice. The District Engineer shall give notice of the availability of any land for conveyance under this Act and afford an opportunity to eligible agencies in the general vicinity of the land to apply for its purchase (a) by publication at least twice at not less than 15-day intervals in two newspapers having general circulation within the state in which the available land is located and, if any agency of an adjoining state or states may have an interest in the development of such land for public port or industrial facilities, by publication at least twice at not less than 15-day intervals in two newspapers having general circulation within such state or states, and (b) by letters to all agencies who may be interested in the development of public port or industrial facilities on the available land.

(4) Filing of Application. Any agency interested in the development of public ports or Industrial facilities upon the available land shall file a written application with the District Engineer within the time designated in the public notice. The application shall state fully the purposes for which the land is desired and the scope of proposed development.

(5) Price. No conveyance shall be made for a price less than the fair market value of the land.

(6) Conveyance. Any conveyance of land under this Act for public port or industrial facilities will be by quitclaim deed in the form of Figure 11-5, executed by the Secretary of the Army.

d. Procedure.

(1) Proposals to convey land included in navigation projects for development of public port or industrial facilities will be forwarded by the District Engineer, through the Division Engineer, to HQDA (DAEN-REM), with recommendations, and with the information required by paragraph 11-19 of Section II, and such additional information as will enable the Chief of Engineers to make the determinations required under c above. \*

\*

(2) Upon receipt of notification from the Chief of Engineers that the property is available for sale for development of public port or industrial facilities, the District Engineer shall give notice of such availability in accordance with c(3) above. The public notice will follow substantially the guide format in Figure 11-4.

(3) If two or more applications are received from eligible agencies, all applications, with recommendations, will be forwarded, through the Division Engineer, to DAEN-REM for the determination referred to in c(1) (d) above.

(4) Upon determination of the actual property to be included in a conveyance, the fair market value thereof will be established by an appraisal.

(5) Upon the acceptance of an application, negotiations will be conducted at the price established by the appraisal. However, the applicant will be advised that the price is subject to approval by the Secretary of the Army. This is necessary since the Secretary of the Army has not delegated his authority to determine the fair market value for conveyances under this Act. If public port facilities that can be used in connection with proposed industrial facilities have not been constructed in the vicinity, no disposal under this authority will be authorized which does not provide for construction of public port facilities.

(6) Upon completion of negotiations a quitclaim deed following the sample format in Figure 11-5 will be prepared and forwarded, through the Division Engineer, to HQDA (DAEN-REM) for execution by the Secretary of the Army, in accordance with the general procedure for submission of deeds for execution as outlined in paragraph 11-131.

11-115. Authority and Procedure for Disposal of Surplus Property by DA to Eligible Public Agencies. FPMR Section 101-47.303-2 provides that the disposal agency shall allow a reasonable period of time for states, municipalities, and their instrumentalities, to perfect a comprehensive and coordinated plan of use and procurement of surplus property in which they may be interested. This provision applies to surplus property that can be disposed of by negotiated sale under the special acts listed in paragraphs 11-118 through 11-122 for public highways, streets, and alleys under the Act listed in paragraphs 11-111 and 11-112, by transfer to the District of Columbia under paragraph 11-97, and under the individual agency negotiating authority of the Federal Property Act, (40 U.S.C. 484(e)3). A listing of the special acts, with the eligible public agencies, and some guides for classification of property for disposal are contained in FPMR, Section 101-47.4905. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

11-116. Classification. Pursuant to FPMR, Section 101-47.303-1, any item of surplus land not reported to GSA for disposal under the provisions of Section V of this Chapter will be classified according to its highest and best use, e.g., industrial, commercial, agricultural, or for disposal under the special acts referred to above. Where required by the special acts, classification will be coordinated with the interested Federal agency. The classification will be recorded on ENG Form 1825 (Real Property Classification), with sufficient information to justify the classification. Surplus property may be reclassified from time to time whenever such action is deemed appropriate. Based on its classification, notice of the availability of surplus land for disposal will be given to public agencies eligible to procure such property as provided in the following paragraph.

11-117. Notice to Eligible Public Agencies. FPMR, Section 101-47.303-2 and Section 101-47.308-1, et seq., provide a procedure of formal notice to eligible public agencies of the availability of surplus land for disposal. Notices are not required for property having an estimated fair market value of less than \$1,000, except where the disposal agency has reason to believe that an eligible public agency may be interested in the property. Notices as provided in this section will be given for all surplus airport property and surplus fee-owned land for which the Army is the disposal agency, that is classified for disposal under a special act, or if there is reason to believe that a public agency may be interested in acquiring the land by negotiation at its appraised fair market value under the Federal Property Act (40 U.S.C. 484(e) (3) (H)).

11-118. Airport Property.

a. Eligible Transferees. The right to acquire surplus property without monetary consideration for airport purposes, under 50 U.S.C. 1622(g), with the approval of the Administrator of GSA, is limited to states, political subdivisions, municipalities and tax-supported institutions. This is the proper statutory provision governing transfers of entire military airports to state or local agencies for their use as public airports. The right of such transferees is subordinate to the priority of Federal agencies to acquire the property for their own use. Airport property will not be disposed of for any other non-Federal use until every reasonable effort has been made to dispose of it for airport purposes.

b. Preliminary Procedures.

(1) Request a determination by the Administrator of the FAA that the surplus land is essential, suitable or desirable for the development, improvement, operation or maintenance of a public airport as required by 50 U.S.C. 1622(g) (1). \*

\*

(2) Upon receipt of a determination by the Administrator of FAA, furnish the FAA Regional Office with a description of the property, or a copy of the Standard Form 118 if the property has been reported to GSA for screening, together with a list of the operating and maintenance equipment available for disposal with the airfield, and request that a survey under the Surplus Property Act be made and that, based thereon, recommendations for classification of the property under the Act be furnished.

c. Classification. District Engineers are authorized to approve ENG Form 1825, Real Property Classification, based on FAA recommendations. Generally, the recommendations of FAA in regard to classification of property, will be followed, except the following will be forwarded to DAEN-REM without final classification action: cases involving reduction in land areas, runways, taxiways, etc.; controversial cases; and cases where changes in the reservations, restrictions, or conditions specified in the Act are recommended by FAA, District Engineers will not classify as airport property, property in excess of that recommended by FAA or property of which the highest and best use is determined to be industrial. Where the District Engineer does not agree with the report of FAA, he will immediately submit complete data setting forth all objections to the report, together with his recommendations, to DAEN-REM.

d. Notice of Availability. Upon classification of the property as airport property, notice of the proposed disposal will be sent by certified mail to the political subdivisions, or municipalities in which the property is located, and also to any other state, political subdivision, municipality, or tax-supported institution which the District Engineer has reason to believe may be interested in the property. A reasonable time will be allowed eligible agencies to submit an acceptable application. Figure 11-6 is a format for use in preparing the notice.

e. Advertising. The proposed disposal of airport property will be advertised in at least two newspapers of general circulation within the state in which the airport is located. This advertising will insure notification to political subdivisions, tax-supported institutions, and others that the property is available. Property not classified as airport property will be advertised in accordance with the applicable requirements for the type of property. However, the first advertising of non-airport property adjacent to an airport will contain a statement that the property may be acquired under Section 13(g) of the Surplus Property Act of 1944, as amended, for airport purposes, provided FAA \* approves such acquisition.

ER 405-1-12  
Change 12  
27 Oct 80

\*

f. Form of Application. Public agencies desiring to acquire surplus airport property will be required to submit an Application For Airport Property (Figure 11-7). The application includes the provisions of Section 13(g) of the Surplus Property Act of 1944, as amended. If the applicant desires to enter and use the property prior to conveyance, such other terms and conditions considered desirable and necessary governing interim use of the property by the applicant will be included. The application will be signed by the applicant and forwarded to DAEN-REM for acceptance by proper authority in the Department. Evidence of the applicant's legal and financial ability to maintain and operate the property, as proposed, will also be submitted with the application.

g. Request for Modifications in the Provisions of Section 13(g) of the Surplus Property Act of 1944, as Amended. Should an applicant request modifications in the restrictions and conditions imposed by Section 13(g) of the Surplus Property Act of 1944, as amended, the application and all pertinent data, including the FAA report, will be forwarded to DAEN-REM. If the requested modification is approved, the case will again be referred to FAA for its recommendation. If FAA does not concur in the modification, the fact will be reported to DAEN-REM for further necessary action.

h. Personal Property. Non-industrial personal property of any other nature or description made available for disposal with an airport and located on it may be transferred with the airport on recommendation by FAA.

i. Meetings with Public Bodies. Close cooperation will be maintained with FAA, and its representatives will be invited to participate in negotiations with public bodies in connection with transfer of airport property.

j. Land Survey. In the event that a property survey is required to establish a correct metes and bounds description of the land to be transferred as airport property, a survey will be provided by the prospective transferee without cost to the Government.

k. Transfer Instruments. The type of instrument used in conveying or transferring the Government's interest will vary according to the type of property that may be involved, i.e., wholly Government-owned, mixed owned and leased, and leased property. However, instruments of conveyances will contain provisions required by the Surplus Property Act of 1944, as amended. Where a lease is involved and it is from other than the prospective transferee, such transferee will be required to obtain a long term lease on the land prior to conveyance of the Government-owned improvements. Execution of the lease to the \*

\*

prospective transferee and acceptance of the application by the Government should be handled simultaneously. Figure 11-8 is a format of quitclaim deed covering fee-owned and leased land (Airport Property). A quitclaim deed can be used to surrender leased land and convey the improvements and related personal property, or this can be done by supplemental agreement to the lease or other type of contract as considered desirable in accordance with local conveyancing practices.

l. Recordation. All transfer instruments will be recorded by and at the expense of the transferee.

m. Compliance. The Administrator, FAA, is responsible for determining an enforcing compliance of conditions and restrictions contained in any instrument of disposal of airport property, and is authorized to reform, correct, or amend any such instrument for such action as deemed necessary by him under applicable law. Care will be exercised to furnish copies of the application, classification, and instrument of conveyance to FAA so that it can properly perform its compliance function.

11-119. Wildlife Purposes.

a. Authority. The military departments, when acting as a disposal agency, are authorized under the provisions of 16 U.S.C. 667b-d. in connection with land and improvements that: (1) can be utilized for wildlife conservation purposes by the agency of the state exercising administration over the wildlife resources of the state wherein the real property lies, or by the Secretary of the Interior; and (2) are chiefly valuable for use for any such purpose and which, in the determination of the GSA is available for such use, to convey such property to such agency without reimbursement or transfer of funds if the management thereof for the conservation of wildlife relates to other than migratory birds, or to the Secretary of the Interior if the property has particular value in carrying out the national migratory bird program. Personal property cannot be conveyed or transferred under this authority and only such improvements as the District Engineer determines to be necessary for proper execution of the applicant's program may be conveyed.

b. Notice of Availability. If property is considered by the District Engineer to be valuable for wildlife conservation purposes, or if interest has been shown in acquiring the property for that purpose, notice of availability should be given to the agency administering state wildlife resources and to the Federal Fish and Wildlife Service if the property has particular value in carrying out the national migratory bird program. \*

ER 405-1-12

Change 12

27 Oct 80

\*

c. Classification - Factors to be Considered and Determinations to be Made by Disposal Agency. Should the property be classified as being chiefly valuable for purposes other than wildlife conservation purposes, such as agricultural, commercial, etc., the property may not be transferred to any state or to the Department of the Interior, under the authority cited in a above. However, should an application be received for conveyance of the property for wildlife conservation purposes, and the classification of the property indicates that it is chiefly valuable for other purposes, the classification, all pertinent papers and the application, together with the Division Engineer's recommendation, will be forwarded to HQDA (DAEN-REM) WASH DC 20314. In addition to the determination that the property is chiefly valuable for wildlife conservation purposes and is available for such use, the Division Engineer will determine, when recommending that property be conveyed for such use, that the applicant has the legal and financial ability to acquire, operate and maintain the property as proposed, and will furnish information to DAEN-REM to support his opinion. With proper safeguards, contaminated property can be made available for use in the wildlife conservation program.

d. Application. Any state desiring to make application for property for wildlife conservation will be furnished copies of Application For Real Property For the Conservation of Wildlife with accompanying instructions for preparation (Figure 11-9). In evaluating the application, the responsible District Engineer will request review of the application by the Regional Office of the Fish and Wildlife Service, Department of the Interior, and will obtain that Service's recommendation as to the value of the property for wildlife conservation purposes.

e. Instrument of Conveyance. Any instrument of conveyance of property for wildlife conservation will contain the restrictions and conditions required by 16 U.S.C. 667b, c, d. A Sample for conveyance of Land and Improvements For Conservation of Wildlife, with the statutory restrictions and conditions is provided as Figure 11-10.

f. Publication of Order. The order required to be published in the Federal Register after disposal of the property under this authority will be processed for publication by the Chief of Engineers.

11-120. Shrines, Memorials, or Religious purposes. Pursuant to the provisions of FPMR, Section 101-47.308-5, when the Department, acting as a disposal agency, determines that a chapel may properly be used in place, a suitable area of land may be sold with the chapel for use as a shrine, memorial, or for religious purposes. The sale price of land for this purpose will be its fair market value based on its highest and \*

\*

best use as established by an appraisal. Deeds conveying lands for such purposes will contain no restriction on the use of the land. Sale of the chapel building will be subject to the procedure and terms and conditions provided in Section XI of this Chapter.

11-121. Power Transmission Lines.

a. Authority. Pursuant to the provisions of Section 13(d) of the Surplus Property Act of 1944, as amended (50 U.S.C., App. 1622(d)), any state, or political subdivision thereof, or any state or Government agency or instrumentality may certify to the disposal agency that a surplus power transmission line and the right of way acquired for its construction is needed for or adaptable to the requirements of a public or cooperative power project. Whenever any property is reported to GSA for screening, it will be assumed that GSA has screened Federal agencies for such purpose and no further screening with such agencies is necessary. Property not reported to GSA for screening will be screened in accordance with Section III of this Chapter. Screening with the appropriate state agencies will be conducted in all cases.

b. Procedure. Whenever a State, or political subdivision thereof, or state or Federal agency or instrumentality certifies that such property is needed for or adaptable to the requirements of a public or cooperative power project, the property may be sold for such utilization at its appraised fair market value. In the event that a sale cannot be consummated and the certification is not withdrawn, such facts will be reported to DAEN-REM in order that a determination of the action to be taken maybe obtained from the Administrator, GSA. If no certification from a state or Federal instrumentality as outlined above is received after proper notice is given, the property may be disposed of in the same manner as other excess or surplus real property.

11-122. Assignment to Department of Health, Education, and Welfare (HEW) or Successor Agencies for Health or Educational Purposes.

a. Authority. Under Section 203(k) (1) of the Federal Property Act of 1949, as amended (40 U.S.C. 484(k) (1)) the Administrator, GSA is authorized, under such regulations as he may prescribe and in his discretion, to assign to the Secretary of HEW for disposal, such surplus real property as is recommended by the Secretary of HEW as being needed for school, classroom, or other educational use, or for use in the protection of public health, including research. The Secretary of HEW is authorized under Section 203(k) (1), subject to disapproval by the Administrator, GSA after notice to him from the Department of Health, Education, and Welfare (HEW), to sell or lease surplus real property for such purposes. Pursuant to FPMR, Section 101-47.308-4, a military department, when acting as disposal agency is authorized to assign \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

property to HEW for disposal for education or health purposes and to disapprove, within 30 days after notice, any transfer of property proposed to be made by HEW for such purposes.

b. Notice to Department of Health, Education, and Welfare or Successor Agencies.

When real property is reported to GSA for screening prior to disposal by the military department, notification will be given HEW by the GSA Regional Office simultaneously with notification to the District Engineer that the property has been determined surplus to Federal requirements. The District Engineer will furnish such notification directly to the appropriate regional representative of the Department of HEW in the case of nonreportable real property immediately after he determines that the property is surplus to Federal requirements. Such notification will include the following information:

(1) A brief description of the property in sufficient detail to enable a determination of its probable suitability for uses authorized in Section 203(k) (1) of the Act.

(2) When the property may be inspected and where and how arrangements may be made for inspection of the property.

(3) That the property will be withheld from advertisement for bids for a period of 20 days from the time of the notification unless the office submitting the notification is sooner informed in writing as to whether the property is needed for school, classroom, or other educational use, or for use in the protection of public health, including research. If within that time notice is received of a known potential need, the property will be held for an additional 45 days or until a certification of need or request for assignment is received, whichever occurs first.

(4) The District Engineer shall not give such notification to HEW on surplus buildings and improvements located on surplus leaseholds where their removal from the site will increase the Government's restoration obligations under the lease. Where such a situation exists and GSA is to screen the property prior to disposal by the Department, GSA should be advised to this effect. Where any surplus buildings and improvements (on leaseholds or fee-owned land) are available for off-site disposal, notification will be given HEW (unless time restrictions prohibit as set out in Sections III and V) but the notification will include the same restoration obligations as would be placed in a sale of the property to a private party. \*

\*

(5) During the 20-day period, action will be taken preparatory to advertising the property for sale. All inquiries received concerning acquisition of the property for such purposes from the state, or local agencies, or qualified organizations, seeking the purchase of available real property for health or educational purposes will be referred to the appropriate field representatives of HEW. If, within the 20 day period, HEW shall inform the District Engineer of any known potential requirement, the District Engineer will withhold disposition until a certification of need is received but not to exceed 45 days.

(6) Upon receipt from HEW of a certification that the property is needed for educational or public health purposes and a request from HEW for assignment of the property, if the property is available for such purposes, it will be assigned by the responsible District Engineer by letter addressed to the HEW office from which the request for assignment was received, citing the Act and GSA regulations as authority therefor. A copy of such letter of assignment will be furnished to the Regional Office of GSA.

(7) When notification of the proposed disposal is received from HEW, subsequent to assignment, if there is no reason for disapproval of the proposed disposition, notice from the responsible District Engineer to HEW of approval thereof is not necessary. Under Section 203(k) (1), approval is automatically given in the absence of notice of disapproval within 30 days from the date of notification of the proposed disposal. If in the request for assignment HEW furnishes the name of the proposed transferee and states that an application from the transferee is on file and that the proposed use by the transferee is one authorized under Section 203(k) (1), the District Engineer, in making the assignment to HEW, may state that no objection is interposed to the proposed transfer of the property.

(8) GSA has advised that it is not anticipated that the Corps of Engineers, in acting as the disposal agency, would investigate each request to it by the Department of HEW, because to make such investigations in each case would clearly duplicate the function assigned to the Department of HEW. Doubtful cases would only arise in connection with property for which the highest and best use is industrial or commercial, or where further study may be required by the Federal Government concerning future requirements for the property. In accordance with a further suggestion by GSA, where there is a reasonable doubt as to the propriety of an assignment to HEW or a proposed disposal by it, the request will be referred to GSA for final decision. Such referrals will be made through DAEN-REM.

\*

ER 405-1-12

Change 12

27 Oct 80

\*

(9) The District Engineer making the assignment of the property will request HEW to furnish two copies of the sales contract. Upon receipt of these copies, together with a request from HEW that the property be transferred, custody will be given to the grantee or transferee named in the sales contract.

11-123. Surplus Disposal to Private Parties. General.

Paragraphs 11-125b through 11-130 cover general procedures for the sale of surplus fee-owned land and easement interests and includes actions to be taken preliminary to proceeding with the appropriate sale procedures set forth in Section XIV of this Chapter.

11-124. Cottage Site Disposal.

Disposal of lots for cottage site development and use is authorized by P.L. 84-999 (16 U.S.C. 460e). No new allocations of land for private cottage use will be made. The policy concerning phasing out of existing cottage site areas is set out in ER 1130-2-400. The DE has delegated authority to sell or lease cottage sites. Contract of Sale, ENG Form 3297-R, will be used.

11-125. Procedure.

a. Fee-owned land. When fee-owned land for which the department is acting as disposal agency has been found to be surplus to requirements of the Federal Government, has been classified under paragraph 11-116 and disposal is not made to a state, political subdivision, etc., the property will be offered for sale to the highest responsible bidder, except under special circumstances provided in Section XIV of this Chapter.

b. Easements. Easements that are readily assignable will be disposed of in the same manner as fee-owned land. Easements will usually be disposed of with land to which they are appurtenant. Easements may be disposed of to the owner of land which is subject to the easement (the servient estate). A determination should be made as to whether the disposal should be with or without reimbursement to the Government on the basis of all the circumstances and factors involved and with due regard to the acquisition cost to the Government. The amount of such reimbursement should be the appraised fair market value of the easement. In the case of disposal of an easement acquired for the deposit of spoil material a minimum charge of \$225.00 will be imposed where relinquishment is being accomplished for the benefit of the owner of the servient estate and where no direct benefit will inure to the Government. A statement as to the commercial value will be made when recommending an easement for disposal. The circumstances and factors leading to these determinations shall be documented and retained in the files (FPMR, Section 101-47.313-1).

\*

\*

11-126. Appraisal. Under the usual circumstances prompt action will be taken to appraise surplus property concurrently with its classification. Appraisals will not be undertaken for property which has been or is likely to be classified for disposal for any of the following purposes: airport; wildlife conservation; public highways, streets and alleys; disposal to the District of Columbia; and property assigned to HEW for disposal. Property that is to be disposed of for other than the above listed purposes will be appraised.

11-127. Disposal Plan for Fee-owned Land. A disposal plan will be made for each surplus property. It will include the District Engineer's recommendation of the method or methods of disposal and the reasons therefor; for example, whether improvements or minerals and lands should be sold separately; improvements cannibalized; whether the property should be subdivided; the media for advertising; and other pertinent factors. In addition, the following will be included as part of the disposal plan:

- a. Description and map of the lands.
- b. Description of buildings and other improvements.
- c. Appraisal made in accordance with Chapter 4 of this pamphlet, unless exempted by paragraph 11-126.
- d. Information as to when, from whom, and how the property was acquired.
- e. Information as to the estate which the Government has in the land, and reservations and exceptions in and to the Government's title. Outstanding interests granted by the Government or reserved or excepted in the acquisition of the lands will be stated with particularity. The map or plat will delineate any grant, exception, or reservation, such as telephone and telegraph, electric transmission, oil, gas and water lines.
- f. Purchase price of land, buildings and improvements acquired with the lands, and the cost of buildings and improvements, if any, constructed by the United States.
- g. If there is an indication of valuable minerals, such statement will be made with full explanatory data.
- h. Where the estimated value of the land together with improvements and related personal property is in excess of \$1,000, the disposal plan will be submitted to DAEN-REM for approval. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

11-128. Disposal Plan for Easements. When recommending disposal of a surplus easement the District Engineer will submit the following:

- a. Information as to when and from whom the easement was acquired.
- b. The consideration paid therefor.
- c. Identification of the installation to which it is appurtenant.

d. If the easement has no commercial value, the amount that should be paid by the owner of the servient estate, representing a rebate on the purchase price, or the amount paid for severance damages will be specified. (For example, if the easement was acquired for a 15-year period and the price paid therefor was substantial and one year after acquisition it is returned to the owner of the servient estate, an effort should be made to obtain a rebate on the purchase price although the easement has no commercial value. The same would be applicable to the payment for severance damages).

e. If the owner of the servient estate or other prospective grantee, is not willing to pay the appraised value in consideration of the release of an easement acquired for a substantial consideration, all action to release the easement will be held in abeyance until such time as an adequate consideration can be obtained for the release. Note the minimum payment for release of spoil easements discussed in paragraph 11-125b.

11-129. Sale and Conveyance. Sales procedure, including advertising, will be in accordance with Section XIV of the Chapter. Normally conveyance will be by deed, prepared and executed as provided in paragraph 11-131.

11-130. Application of Antitrust Laws. Section 207 of the Federal Property Act provides that real property and related personal property with an aggregate total cost of \$1,000,000 or more, or patents, processes, techniques, or inventions, regardless of costs, shall not be disposed of until the advice of the Attorney General has been received as to whether the proposed disposal would tend to create or maintain a situation inconsistent with the antitrust laws. Prior to obligating the Government on any such disposal, the District Engineer will furnish DAEN-REM information the probable terms or conditions. DAEN-REM will use this information as the basis for a request to the Attorney General for advice (FPMR, Section 101-47.301-2).

11-131. Preparation and Execution of Deeds.

\*

ER 405-1-12  
Change 23  
20 Nov 85

\* a. Authority to Execute. All conveyances of fee ownership and other permanent interests in land which the Army and Air Force have authority to convey under the statutory authorities and delegation set forth in this section of Chapter 11, will be executed by the Secretary of the Army, for Army land, and by direction of the Secretary of the Air Force, for Air Force land. Conveyances of surplus property that have been assigned to HHS for disposal will be executed by officers of that department.

b. Form of Deed or Instrument. Conveyances of fee-owned land and easements shall be by quitclaim deed prepared in conformance with local law and practice except where it is found that another form of conveyance is necessary or desirable to obtain a reasonable price for the property, or to render the title marketable, or for other reasons. Appropriate recommendations will be forwarded to CDR USACE (DAEN-REM) WASH DC 20314-1000. Forwarding correspondence should contain information as to the requirements of local law for witnesses, acknowledgment, authentication of acknowledgment, and other special requirements. The instrument of conveyance should contain a statement that the requirements of 10 U.S.C. 2662 have been met, or that the conveyance is not subject to these requirements. \*

c. Authority for Conveyance. Authority for conveyance will be recited in the granting clause. Conveyances under the Federal Property Act will recite: "\*\*\*\* under and pursuant to the Federal Property and Administrative Services Act of 1949 (63 Stat. 377), as amended, and the delegation of authority to the Secretary of Defense from the Administrator of General Services Administration (41 C.F.R. 101-47.601) and the redelegation of authority from the Secretary of Defense to the Secretary of the Army (Air Force) (20 F.R. 7113)." Conveyances to states and their instrumentalities under the special statutes, listed in paragraphs 11-115 through 11-122, will recite the special statutes, as continued in effect by the Federal Property Act and the delegations. Conveyances to states for wildlife conservation purposes under Public Law 537, 80th Congress (paragraph 11-119a) will cite the special act and recite that the property has been determined surplus under the Federal Property Act and delegations thereunder. Conveyances releasing the restrictions contained in a flowage easement prohibiting the construction and maintenance of structures for human habitation should cite as authority for the conveyance the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) as amended, and the Federal Property Management Regulations (101-47.313-11).

d. Conditions in the Conveyance. The deed will contain the reservations, restrictions, or conditions, required by: (1) the directive which authorized the disposal; (2) any special acts under which the property is conveyed; and (3) by any contract of sale, agreement to extend credit, or relocation contract, pursuant to which conveyance is made.

ER 405-1-12

Change 23

20 Nov 85

e. Acceptance by Grantee. Where the instrument of conveyance imposes obligations on the grantee, the instrument will be executed and accepted by or on behalf of the grantee prior to forwarding for execution. If the grantee is a corporation or body politic, the instrument will contain a certificate attesting to the authority of the officer executing the instrument to act for and bind the corporation or body politic, and that his signature is genuine. Where a resolution or other special action is necessary to legally bind the grantee, a copy will be attached to the instrument.

f. Execution of Deed.

\* (1) The Division Commander will forward to DAEN-REM a draft of the deed, prepared in final form, together with copies of as many of the items listed below as are appropriate depending on the nature and purpose of the conveyance, any other information necessary for a complete understanding of the case, and the remarks and recommendations of the Division and District Commander. Upon approval of the proposed disposal by DAEN-REM, the deed will be forwarded to higher authority for execution and returned to the District Commander for delivery and distribution.

(2) Items to be forwarded with draft of deed proposed for execution, as appropriate:

(a) Real Property Classification, ENG Form 1825.

(b) Application or plan for use and procurement with recommendations and determinations of other interested Federal agencies when the conveyance is under one of the special acts listed in paragraphs 11-115 through 11-122.

(c) Disposal plans.

(d) Appraisal where not included in (c) above.

(e) Statement on advertising conducted.

(f) Abstract of bids.

(g) Relocation contract or exchange agreement.

\*

ER 405-1-12  
Change 23  
20 Nov 85

\* g. Distribution of Deeds. The District Commander will deliver deeds, which will be recorded by or at the expense of the grantee. Copies of the deed will be conformed by writing the following on them: date and manner of delivery; date, time, and place of recordation in public land records. Place copies in the Division/District Real Estate Files. According to FPMR, Section 101-47.307-3, two conformed copies will be sent to any Federal agency charged with enforcement of reservations, restrictions or conditions of the deed. A confirmed copy will be sent to the holding agency. \*

11-132. Reserved.

11-133. Reserved.

ER 405-1-12  
 Change 12  
 27 Oct 80

SECTION X. DISPOSAL OF LEASEHOLDS AND  
 LEASEHOLD IMPROVEMENTS

\*

11-134. Authority. Surplus leasehold interests in real property are disposed of under authority delegated by the General Services Administration (GSA) to the Department of Defense (DOD). DOD has redelegated this authority to the military departments. DEs, within the limits of the authority delegated, have been authorized to terminate leases, execute agreements in settlement of restoration obligations, and perform necessary restoration work required by lease terms, directly or by contract, in accordance with the provisions of this section. Exceptions are where: (a) under the terms of the lease the leasehold is transferable to third parties or Government-owned improvements on leased airport or other special types of leased property have an in-place value to the lessor for airport or other special purposes; or (b) the leasehold or Government-owned improvements may be disposed of to eligible public agencies under special statutes (FPMR 101-47.4905), in which cases the procedures provided in Section IX will be applied to the extent applicable. Disposals within the scope of the above exceptions require the prior approval of DAEN-REM.

11-135. Procedure for Termination of Leases. When leased premises are no longer required for use by the Government, a notice of termination will be given to the lessor in accordance with the terms of the lease, effective as of the date of vacation. The termination notice will be served sufficiently in advance to allow time for compliance by the Government with terms providing for removal of improvements and restoration of premises. Where a lease does not contain provision for continuing renewal without notice and will automatically expire, the Government is not required to give notice when it intends to surrender the premises at the expiration of the lease. However, the lessor should be informed, as far in advance as possible, of the Department's intention to vacate, in order that he may plan for a new tenant for other use of the premises. Where a lease provides for a continuing renewal without notice, the DE will ascertain in advance of the beginning of each fiscal year whether the using service has need during the fiscal year for the premises. When the premises are no longer required, a notice of termination will be served in accordance with the terms of the lease. In the event the lease does not provide for termination by the Government, but the lessor will consent to termination, either in its entirety or partially, a supplemental agreement should be entered into to terminate or amend the lease as of the date the premises will be vacated, Government improvements removed, and restoration completed.

a. Forms of Notice of Termination. Where leases provide for restoration, Notice of Cancellation (Restoration) will be prepared in sextuplet in accordance with Figure 11-11. Figure 11-12, Notice of

\*

\*

Cancellation, will be used for leases which do not provide for restoration or for leases where written notice requiring restoration has been submitted by the lessor prior to termination. Notice of termination will be prepared on the letterhead of the DE concerned, who will assign his own form-letter number.

b. Manner of Serving, Notice of Cancellation. The Notice of Termination must conform to requirements of state law, and will, whenever possible, be served personally upon the lessor. In some states, to be legally effective personal service is mandatory, unless expressly waived. The lessor will be requested to execute the acknowledgment of receipt of notice on the form. Where the service is effected by registered or certified mail, a return receipt will be requested and a sufficient number of days (in addition to the stipulated period of notice) will be allowed for transmission and receipt of notice. The return receipt properly signed will be evidence that full notice required by the lease has been given. Should the owner refuse or fail to acknowledge receipt of the notice, the officer serving the notice will so certify thereon, giving the date and method of service. In the case of an absentee lessor, where time will not permit use of certified or registered mail for effecting service, notice will be given by telegram to be delivered, not telephoned, to the addressee. In the case of notice by personal service, any available Army facility or personnel in the lessor's locality may be used.

c. Distribution of Notice of Termination. The original notice of termination will be delivered to the lessor; one copy to the finance and accounting officer who pays the rental; one copy to the using service; and one copy to the DE office files.

11-136. Vacation and Protection of Premises. The DE will take action to insure that the premises are vacated by the using service on or before the date specified in the termination notice (or the date of expiration of the lease where formal notice is not required), and will assure provision is made by either the using service or the DE, as appropriate, for proper protection of the property pending the transfer of custody to the lessor pursuant to Section VI of this Chapter and AR 405-90.

11-137. Joint Survey of Premises.

a. When Required. As soon as practical after restoration is requested by the lessor, a terminal condition report to reflect the condition of the leased property as of the termination of the lease, and a terminal survey to determine the extent of restoration required, if any, will be prepared. The lessor will be invited to have his estimators accompany the survey party. The lessor's estimates of restoration \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

costs should be obtained promptly, and included in the terminal survey for purposes of comparison in accordance with paragraph 11-144c. Survey and condition reports will not be limited to items for which the lessor specifically requests restoration, but will include all items which the DE determines should be restored in order to fulfill the Government's obligation under the lease.

b. Contents. The report will show, in detail, the work items necessary to place the premises in as good a condition as they were at the time they were taken over by the Government, as disclosed by the survey and condition report made at that time, reasonable and ordinary wear and tear, damages by the elements, or circumstances over which the Government has no control, excepted.

c. Housing Leases. The tenant of leased housing is personally responsible for damage to the property, beyond reasonable and ordinary wear and tear, resulting from his acts, the acts of members of his family, his invitees and licensees. Restoration of leased housing therefor should be coordinated with the using service to minimize payments for repairs which are the obligation of the Government's tenant.

11-138. Limits on Government Obligation to Restore. The standard lease forms may provide that the Government will, if stipulated notice is given by the lessor, restore the premises to as good a condition as they were in at the time of entering into possession, reasonable and ordinary wear and tear, and damages by the elements, or circumstances over which the Government has no control, excepted. This requirement is subject to certain limitations.

a. Restoration Not to Exceed Fee Simple Value. The cost of restoration, or settlement in lieu thereof, will not exceed the fee simple value of the property restored to the condition that existed at time of entering into possession, reasonable and ordinary wear and tear, and damages by the elements, or circumstances over which the Government has no control, excepted. The valuation should be fixed as of the time of termination of the lease.

b. Where Estimated Cost of Restoration Exceeds Diminution in Value. When it appears that the estimated cost of restoration substantially exceeds the diminution in the value of the premises, occasioned by the Government's use and the damage therefrom, an appraisal will be made of the present value of the property in its unrestored condition and a separate appraisal will be made of the present value of the property, assuming restoration is accomplished as provided in the lease. The difference between the unrestored and restored value, as determined by comparison of the appraisals will be the amount of diminution in the value of the lessor's property and will be the maximum amount of \*

\*

the restoration obligation. As to the measure of damages to be used in establishing the Government's restoration obligation under leases which contain the standard restoration provision, the Comptroller General decided that, "This office would not be warranted in concluding that any greater amount could be legally expended for restoration or paid to the lessor in lieu thereof than the amount by which the market value of the premises has been diminished" (28 Comp. Gen 206). As a corollary, restoration, or payment in lieu thereof, is not authorized where Government improvements enhance the value of the property. Representatives of the General Accounting Office have advised informally that it is not the intention to have appraisals made of the before and after value in each instance and that the lack of such appraisals will not be the cause for questioning a restoration settlement. It is considered, however, that where the estimated cost of restoration is a substantial amount in comparison with the value of the property covered by the lease, such appraisals should be made. Obviously, however, it would not be to the Government's advantage to make appraisals where the estimated restoration cost is small.

11-139. Requirement for Notice by Lessor. Ordinarily, notification by the lessor of his intention to require restoration of the premises is, when required by the terms of the lease, a condition precedent to any obligation on the part of the Government to restore and is a vested contract right which no part of the Government has authority to give away or surrender (16 Comp. Gen 92; Simpson vs. United States, 172 U.S. 372; United States vs. American Sales Corp., 27 F. 2d 389, affirmed in 32 F. 2d 141, certiorari denied, 280 U.S. 574; Pac. Hardware Co. vs. United States, 49 Ct. CL 327, 335). However, it has been held in the case of Smith vs. United States, 96 Ct. CL 326, that a formal written notice of demand for restoration might be waived, provided knowledge of the lessor's intention to require restoration was conveyed to the Government orally or by implication at, or prior to, the time required under the terms of the lease. In opinion B-48678, 10 April 1945, the Comptroller General expressed the following views along this line:

a. In leases containing to provisions for termination by the Government prior to the end of the term, and which require 60 days written notice of demand for restoration, a supplemental agreement relinquishing space prior to the end of the term, which contains a stipulation excepting restoration from the provisions of the release may be regarded as notice to the Government of the lessor's intention to require restoration and an otherwise proper claim for restoration may be considered where the entire transaction is in the interest of the United States.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*

b. In leases which require 30 days written notice of termination and 30 days notice of demand for restoration, waiver of termination notice by the lessor would constitute sufficient consideration to support a waiver of restoration notice by the Government where the effect of waiving the notices would be to protect more adequately the Government's interest through immediate termination of the lease.

c. Generally, in leases which require 90 days written notice of demand for restoration and 30 days written notice of termination, if it is determined administratively under the particular facts, that the failure to give restoration notice until receipt of termination notice does not affect the merits of the claim for restoration, or operate to the prejudice of the United States, an otherwise proper claim for restoration may be considered.

d. As a general rule, in leases which require 30 days written notice of termination and 30 days written notice of demand for restoration, notice of demand for restoration given within a reasonable time after receipt of termination notice would be sufficient and, in this connection, a few days delay would not be regarded as unreasonable. Where restoration is predicated on other than strict compliance by the lessor with requirements of the lease relative to notice requiring restoration, the facts will be clearly stated in the restoration assembly.

11-140. Items Excluded from Usual Restoration Obligation. Damage to the following items will not ordinarily be restored as under the standard provisions of the lease it will be attributable to reasonable and ordinary wear and tear, damage by the elements, or damages by circumstances over which the Government has no control. (However, where the lease requires the Government to maintain the interior or exterior, or both, such of the items as the Government is obligated to repair during the term of the lease should be included in the restoration if they have not been maintained adequately by the Government and are not in the required condition upon the termination of the lease.)

- a. Foundation work.
- b. Waterproofing or membraning.
- c. Exterior tuck pointing.
- d. Cleaning or repair of catch basins, cesspools, or manholes.
- e. Repair of:
  - (1) Interior unfinished walls.

\*

\*

- (2) Unfinished hollow tile, concrete block, or gypsum block walls.
- (3) Floor joints, roof trusses (including roof boards and roofing), and framing timbers (including studs, sheathings, and exterior surface).
- (4) Insulating materials in walls necessitated by leakage in walls or roofs.
- (5) Damage to plaster caused by leakage in wall or roof.
- (6) Windows and floors, where the damage is caused by elements or inadequate hinging, counterweighing, caulking or sealing.
- (7) Sheet metal such as eaves, gutters, downspouts, flashings, hips, valleys, skylights, ventilators, and metal ceilings.
- (8) Structural steel or iron.
- (9) Fire escapes.
- (10) Heating systems.
- (11) Plumbing systems.
- (12) Ventilating systems and air conditioning systems.
- (13) Power Plants.
- (14) Electric wiring.
- (15) Lighting fixtures (or replacement).
- (16) Sprinkler systems.
- f. Settling or subsidence.
- g. Other structural repairs to buildings or equipment.

11-141. Nature of Required Restoration. Restoration by the Government will ordinarily include the following:

- a. Wear and tear beyond that which is reasonable and ordinary.
- b. Damage due to negligence by Government personnel.
- c. Restoration or reinstallations necessitated by alterations or removals by the Government.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*

d. Neutralization of unexploded bombs or artillery projectiles, disposition of military scrap, and decontamination of chemically contaminated lands or improvements. (See Section XIII of this Chapter).

11.142. Minor Restoration Cases - Determining Extent of Restoration Required.

a. In minor restoration cases, ENG Form 1440A-R, Joint Terminal Condition Survey (Figure 11-13) will be used. The Government representative, in these cases, will also make a detailed investigation as to the extent of damages, cost of repairs, and other factors sufficient to properly complete and sign ENG Form 14401B-R, Cost of Restoration. (Figure 11-14). In order to effect economies, the DE may arrange for the utilization of the services of the Facilities Engineer or the using service to perform joint terminal condition surveys. Such use, however, should be coupled with issuance of proper instructions for guidance of the respective personnel. A restoration case is considered to be minor under the following conditions:

(1) The initial cost of Government improvements or alterations did not exceed \$5,000; and

(2) The net salvage value of Government improvements remaining does not exceed \$1,000; and

(3) The cash payment to the lessor in lieu of restoration does not exceed \$1,000; and

(4) The lessor has agreed to accept a cash settlement in lieu of physical restoration.

b. Preparation of ENG Form 1440-R. Use of ENG Form 1440B-R is premised upon the ability of the field investigator to adequately analyze conditions and develop sufficient supporting data as to the cost of the items of restoration involved. While this form is considered self-explanatory, the following is to be noted:

(1) The procedure hereunder envisions the use of both ENG Form 1440A-R and ENG Form 1440B-R, which complement each other.

(2) The use of ENG Form 1440B-R for estimating restoration costs does not waive the requirements for a proper evaluation of the Government's restoration obligations either as to the legal principles or as to the proper measure of damages.

(3) Distribution of these forms, together with any supporting exhibits, will be accomplished in the same manner as set forth in 11-150b below,

\*

\*

11-143. Major Restoration Cases - Determining Extent of Restoration Required.

a. Engineer Estimate and Appraisal. Any restoration case not covered by the definitions of minor restoration case in paragraph 11-142a above is a major restoration case. A complete engineer estimate and appraisal will be prepared by the DE for use in negotiating a cash settlement, or to determine the cost of restoration, if the work is to be performed by the Government. ENG Form 1440-R, Cost of Restoration, (Figure 11-15) will be used for this purpose. A copy of this form will be transmitted to the General Accounting Office in support of settlements made with landowners in the case of military property and contains the minimum data required by that office. Such transmittal is not required when civil works property is involved. In order to afford a measure of flexibility, ENG Form 1440-R is divided into five parts, each relating to specific factors, to be used as conditions may require.

b. Preparation of ENG Form 1440-R. Comments and instructions for preparation of ENG Form 1440-R are contained in the following paragraphs which are keyed to the item numbers on the Recapitulation sheet, Part I of the form:

(1) "1" to "6" Self-explanatory.

(2) "7.Original Cost (Actual or Estimated) of Government-owned improvements, fixtures and alterations: (Part 4)." The General Accounting Office requires that, in all cases involving the relinquishment of Government-owned improvements to lessors in lieu of restoration, and in any other cases where a contract is entered into between the Government and another party to transfer improvements, the original cost of the improvements be given. If not ascertainable, an estimate should be submitted. In exceptional cases, where, because of the circumstances or expense of the work involved, neither the original cost nor a reasonably accurate estimate can be given, an explanation of the facts and circumstances is required. Where structures have been built under contract, or improvements made under contract, a citation to the contract under which the work was performed should be submitted with the original cost statement, estimate, or explanation.

(3) "8. Estimated Market Value, (Value in place of Government-owned improvements, fixtures, and alterations) : (Part 4)." An estimate will be made of the current market value of the buildings or improvements in place. In those cases where it is indicated that the Government-owned buildings or improvements located on leased lands may materially enhance the value of the leased site, an appraiser will estimate the market value of the fee title to the leased area in its unrestored condition. He will also separately estimate the market

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*

value of the site, assuming restoration as provided in the existing lease. The difference between the fee title value and restored land value will be reported as the "value in place" of the improvements to be sold or otherwise disposed of. "Value in place" is defined as the amount by which the improvements involved enhance the market value of the leased site. This value will serve to establish the top sales price expectancy in negotiations with the landowner.

(4) "9. Gross Salvage Value of Government-owned property: (Part 4)". The "gross salvage value" is the highest price obtainable in the open market for Government-owned improvements when sold for use elsewhere than on the leased premises, assuming that no expense to the buyer is involved in the dismantling and/or removal of the improvements from the leased property to the nearest probable market or location of future use. The estimate of gross salvage value should be made in accordance with established property appraisal procedures. Because market demand usually determines the highest and best use to which the components of a group of improvements will be put (e.g., whether a building will be worth more on the market for rining intact to a new site for continued use as a building, or worth more as a stockpile of used construction material), it is important to consider not only prevailing market prices and demand for used construction materials in the vicinity by contacting sources such as local building trades, wrecking companies, used material dealers, etc., but to also give consideration to possible interest by house moving and construction companies and individuals who might utilize improvements intact. Due consideration should also be given in making the estimate to the effect that such facts as the original cost of the improvements, the original cost of the materials therein, and the deterioration or depreciation of the materials in place might have upon the market value.

(5) "10. Estimated Cost of Dismantling and/or Removal of Government-owned Property: (Part 4)." The estimated dismantling cost and/or cost of removal will be itemized in the appropriate column opposite the itemized listing of improvements on the ENG Form 1440-R (Part 4), and the total will be reflected on the recapitulation sheet (Part 1). The dismantling cost is the amount of expenditure necessary to accomplish dismantlement in a manner providing the greatest net return to the Government. Net return is the value of the improvements when detached or dismantled, less the cost of dismantling or detaching, and less the cost of removal. The cost of removal is the cost of moving the detached or dismantled improvements to the nearest probable market or the nearest installation of the Department having adequate storage space. In cases of frame buildings having concrete or similar permanent-type floors or foundations, the cost of removal of such floors or foundations will not be included as an item of dismantling and/or removal cost. Instead, it will be treated as an item in the

\*

\*

estimated "Cost of Restoration other than Cost of Dismantling and Removal" (Item 12). In developing estimates of gross salvage value and costs of dismantling and/or removal, inquiry should be made of experienced tradesmen, used material dealers, wrecking contractors, etc., familiar with the local market for the types of materials and services involving the current costs of loading, hauling, unloading, cleaning, stockpiling and other economic factors contributing to the current local market value of similar materials in useable form.

(6) "11. Estimated Net Salvage Value of Government-owned Property: (Part 4)". This amount is obtained by subtracting the estimated cost of dismantling and/or removal (Item 10) from the estimated gross salvage value (Item 9).

(7) "12. Cost of Restoration other than Cost of Dismantling and Removal: (Part 3)". From information developed by the joint survey of the property, paragraph 11-137 above, it is the responsibility of the real estate officer, or his representative, to advise the personnel responsible for preparing the restoration cost estimate of the items which will require restoration, repair or replacement under the terms of the lease. A brief statement as to the probable cause of damage, in excess of ordinary wear and tear, or resulting from other than circumstances over which the Government has no control, will be included in the supporting data.

(8) "13. Total Cost of Restoration: (Item 10 plus Item 12)". The estimates of cost under Items 10 and 12 will be based on sound estimating practices generally employed for the type of work involved. The estimates will be predicated on performance of the work by contract and, therefore, consideration will be given to justifiable allowances for contractor's profits, insurance, employees compensation payments, and overhead.

(9) "14. Net Cost of Restoration: (Item 9 minus Item 13)". In those cases where the cost of dismantling and/or removal of Government-owned improvements (as defined in Item 10), and the other costs of restoration (as defined in Item 12), exceed the gross salvage value (as defined in Item 9), the difference is a minus quantity and constitutes the maximum amount of money which the Government can pay the lessor, in addition to transferring all improvements to him in lieu of restoration and paying rent during the estimated period of restoration (provided such improvements are not considered to have an "in place" value). If this is a plus quantity, it represents the minimum amount of cash that the Government can accept from the lessor after transferring to him all items of property or equipment shown in the report, less the allowance for rental during the estimated period of restoration. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

(10) "15. Approximate Time Required for Actual Salvaging and Restoration Operations". So long as the owner is deprived of use of his property he is entitled to rental stipulated in the lease. A fair allowance will be made in a settlement with the lessor to cover a reasonable time required to fit the premises for use. If all improvements are to be left in place, it may well be that no allowance for rental will be required by the lessor for time required for salvaging.

11-144. Negotiating Restoration Settlements. Negotiated settlements in lieu of performance of actual restoration work by the Government are ordinarily favored because they most satisfactorily achieve the objectives of fulfilling the Government's obligations under the lease in the most efficient and economical manner, recouping the greatest amount of the Government's investment in improvements to leased property and maintaining good public relations in the acquisition and disposal of leaseholds. However, because of variable circumstances, this principle cannot be stated as an inflexible rule applicable to every case. It is the responsibility of the DE to carefully consider all possible approaches within the scope of this chapter and select the best course of procedure in each case.

a. Financial Limitations Which preclude Actual Restoration. In view of the limitations of the Government's restoration obligations to amounts not in excess of the fee value of the leased property, or the difference in values of the leased property with and without restoration, actual performance of restoration work is precluded where these amounts would be exceeded, and a settlement in lieu of restoration is in order in amounts not to exceed the limitations indicated.

b. Settlement Where Property Enhanced in Value by Improvements. Where the leased property has been enhanced in value by the Government's improvements, no restoration should be performed nor payment by the Government made in lieu thereof. Instead, effort should first be made to obtain from the lessor a cash payment to the Government equal to the in place value of the improvements, together with a full release of the Government from any restoration obligations. If the lessor is not willing to pay the in place value, but will offer a lesser amount in excess of the estimated net salvage value, settlement may be reached on that basis. If the lessor will not agree to make payment of any amount, or will offer only an amount which is less than the net salvage value of the improvements, consideration should be given to selling the improvements for removal and accomplishing any remaining restoration by payment in lieu thereof or by actual performance of the work. If it becomes necessary or advisable to arrange for separate sale of any or all of the improvements, the sale should be accomplished in accordance with Section XIV. The terms of sale in such case will require the removal of the improvements on or before the expiration or termination of the lease \*

\*

and contains any other special requirements applicable to the particular case, including site restoration. Bids received should be compared with the highest price offered by the lessor, due consideration being given to the cost of restoration, if any, which would remain after removal of the improvements. It must always be borne in mind that the disposition of public property to private parties must be at prices which can be shown to be in the best interests of the Government.

c. Reaching Agreement on Estimates of Cost. The terminal survey and condition reports specify the Items to be restored and the lessor's estimate of cost. Those items reflected on the ENG Form 1440-R (Part 3) afford comparison between the lessor's and the Government's estimates. Where there is a variance in the estimates and the lessor's total estimate is lower, effort will be made to settle on the basis of his estimate. If the lessor's overall estimate is higher than the Government's, effort will be made to reach agreement on acceptance of the Government's total estimate. If the lessor's estimate is substantially higher on specific items, it may be desirable to disclose the basis on which the Government's estimate is predicated in order to demonstrate its reasonableness. The Government's estimate of cost for items of restoration maybe made available to the lessor upon request. When the lessor requests items of work not shown on the Government's estimate, careful consideration will be given to his request, further inspection of the premises made, when necessary, and a determination made as to whether the Government is obligated under the lease to perform the work. If no liability is determined to exist, the lessor will be fully informed as to the reasons for noninclusion in the estimate. If liability is determined to exist, the estimate will be adjusted accordingly. In any case where the existence or extent of the legal obligation of the Government to restore is questionable, the DE will submit the facts, in writing, to DAEN-REM together with his recommendation. No lease restoration settlement will be allowed to become involved in litigation or formal claims procedure without the matter having been submitted to DAEN-REM for review. When a satisfactory cash settlement by the Government cannot be negotiated, the DE is authorized to perform the actual restoration work.

11-145. Claims for Loss or Damage of Personal Property. In some cases, owners have been allowed to store personal property, owned by them or under their control, on premises leased from such owners by the Government, the personal property not being covered by the lease. The rooms in which this property was stored have been broken into and, upon termination of the lease, it has been found that much of the property is damaged or is missing. Unless the lease specifically places some responsibility on the Government, payment for such damaged or missing property cannot be included in restoration settlements for payment. In the event the lessor refuses to sign a full release, a provision may be included in the supplemental agreement releasing the Government from \*

ER 405-1-12

Change 12

27 Oct 80

\*

all liability except for claims for damage, loss, or destruction of personal property stored on the leased premises and not covered by the lease, and the lessor advised that he may submit a claim for the amounts which he considers due him.

11-146. Rent During the Period Required for Restoration. A sufficient period of time for performance of the restoration, commencing on the date premises are vacated by the Government, will be specified in the Government's estimate, and rent allowed in the settlement during such period to the extent that the lessor is actually deprived of beneficial use. If there is an outstanding maintenance and operation contract with the lessor, contained in either the lease or in an independent instrument, which fixes compensation in addition to the rent, the settlement agreement with the lessor will include the rent and such part of the compensation for maintenance and operation as will be necessarily incurred by the lessor during the performance of restoration.

11-147. Settlement Where Part of the Premises is Surrendered. Where there is a partial reduction of area in a lease requiring restoration, the supplemental agreement may contain a settlement in lieu of restoration of the area surrendered. A waiver of further claims covering the space released will be contained in the supplemental agreement.

11-148. Documenting Lease Terminations and Restoration Settlements. In the case of leases in which there is no obligation to restore, and in all cases of leases where terminal survey discloses no damage to the premises for which the Government is liable, an effort will be made to obtain an unqualified release from the lessor as of the date the premises are vacated and Government improvements removed. Releases will also be obtained as indicated in paragraph 11-152 below.

a. Form to be Used. Releases will be executed, in triplicate, on ENG Form 232-R, Release (Corporation), or ENG Form 231, Release (Partnership), according to whether the lessor is a corporation, or partnership. If signed by an attorney or agent, evidence of authority should be attached to the release. If the lessor is an individual, a letter incorporating a Notice of Termination and a Release Clause will be sent. The letter will substantially follow the form shown in Figure 11-16. Distribution of releases will be accomplished in the same manner as set forth in paragraph 11-150. ENG Form 232-R is shown as Figure 11-17.

b. Qualified Release. In case the lessor declines to sign an unqualified release, he should be requested to execute an appropriate release subject to exceptions. The exceptions may be enumerated on the reverse side of the form. \*

\*

11-149. Preparation of Supplemental Agreements Effecting Settlement. The terms of settlement in lieu of restoration, negotiated with the lessor, will be embodied in a supplemental agreement: to the lease, antedating termination, substantially in accordance with ENG Form 341, Supplemental Agreement Transferring Improvements to Lessor. Supplemental agreements may be used to effect restoration settlements of obligations incurred under permits, trespass right agreements, and other unnumbered contracts for the temporary use of land. Restoration settlements may also be effected even though the premises were occupied rent free and without formal contract, provided use of the premises was authorized properly by the Government (Decision of the Comptroller General B-63340, February 1947). Care should be exercised in determining the existence and extent of the legal obligation of the Government to restore. Payment will not be made for doubtful items: instead, the other party to the agreement will be advised of his right to submit a claim. On the other hand, every effort will be made to agree upon a reasonable settlement as to items for which the Government is legally responsible.

11-150. Supplemental Agreement Assembly.

a. Composition. Supplemental agreement assembly, covering agreement for settlement in lieu of restoration, will be composed of the following:

- (1) Completed Notice of Termination (Figure 11-11 or 11-12).
- (2) ENG Form 340 (Supplemental Agreement Accepting Proposed Restoration) or ENG Form 341 (Supplemental Agreement Transferring Improvements to Lessor).
- (3) Lessor's notice requiring restoration, unless the lessor has signified that restoration is not required (Figure 11-11).
- (4) Joint terminal survey and condition report.
- (5) ENG Form 1440-R, or 1440A-R and 1440B-R.
- (6) Estimated cost of restoration of leased personal property if not otherwise included.
- (7) Statement of cost of any restoration actually performed by the Government.

b. Distribution. An executed copy of the assembly will be retained by the DE. An executed copy of the supplemental agreement will be furnished the lessor. Conformed copies will be transmitted to the \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

major command, the installation commander and, when monetary consideration is involved, to the appropriate finance and accounting office.

11-151. Payment for Restoration or Settlement in Lieu of Restoration. Voucher forms, appropriate to the circumstances, will be used in making payment of the settlement. Reference should be made on the voucher to the lease and supplemental agreement. The cost of restoration work performed directly by the Government, or by contract, or compensation in any settlement agreement in lieu of restoration, will be paid from funds available for the payment of rental. The limitations of Section 322 of the Economy Act of 1932, as amended (40 U.S.C. 278a and b), on the expenditure of funds for the alteration, improvement, or repair of leased premises to 25 percent of rent for the first year, are not applicable to costs of performing restoration work pursuant to obligations of the lease nor for payments of settlements in lieu thereof (20 Comp. Gen. 105).

11-152. Performance of Restoration Work by District Engineer - Extension of Time. Where the lessor will not accept a cash settlement in lieu of restoration, or desires the work to be done by the Government, the restoration will be performed, without delay, directly or by contract, within the limitations outlined in this Chapter. Any contract entered into for such work should provide for required restoration work to be performed on or before the determined effective date of termination of the lease. A complete record of the items of work performed and the costs thereof will be kept. If the lessor, prior to commencement of the work, is not agreeable to executing ENG Form 340, DA Supplemental Agreement Accepting proposed Restoration, efforts will be made, upon completion of the work, to obtain a release on ENG Forms 232-R, or 231, or on ENG Form 341 in the event of a cash settlement for that part of the restoration not performed. Where the Government is obligated to perform restoration and remove improvements, and it cannot be accomplished by the Government prior to the effective date of termination, a supplemental agreement will be prepared, antedating the effective date of termination, for such periods as may be required to effect restoration and to remove improvements, if the lessor is unwilling to terminate the lease and rental thereunder, with the reservation that the Government will have a right upon the premises for the purpose of performing restoration, conducting sales of improvements thereon, or doing similar acts related to restoration.

11-153. Termination and Settlement of Leasehold Condemnation Proceedings. \*

\*

a. Leasehold Condemnation Termination Assembly. When leasehold estates in land, or other similar limited estates or terms for years, acquired or in the process of acquisition, have been determined surplus in accordance with this chapter, a prompt report will be made to DAEN-REM containing the following items of information as appropriate and necessary to a full understanding of the proposed disposition action.

- (1) Name of project and using using service.
- (2) Style and civil number of the condemnation proceedings in which the land is involved.
- (3) Particular tract or tracts involved.
- (4) A citation of the authority pursuant to which the surplus status has been determined.
- (5) Three copies of ENG Form 1440-R, or 1440A-R and 1440B-R.
- (6) The proposed date of vacation of premises by Government.
- (7) The term condemned and rights of the Government as to extension and cancellation thereof.
- (8) Whether a declaration of taking, or supplement thereto, has been filed and the amount of deposit, if any.
- (9) Whether an award or order for payment has been made, and the amount of the owner's withdrawal, if any.
- (10) The estimated rental cost through the end of the term acquired in the condemnation proceeding.
- (11) The estimated fair rental value of the land for the period of occupancy by the Government, including time for restoration.
- (12) Recommendation as to the advisability of abandoning the proceeding.
- (13) Request for termination of condemnation proceeding.

b. Action by Chief of Engineers. DAEN-REM will review the termination assembly and settlement proposal recommended and, if approved, recommend to the Department of Justice a basis for settlement at the same time requesting the Department of Justice to move for termination or conclusion of the proceedings. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

11-154. Negotiating Stipulation Where Proposed Settlement Not Acceptable. Should the court overrule the motion for abandonment, or should it appear that claims for damages will be interposed by the property owner, the responsible DE and the Department of Justice representative will negotiate with the owner for the purpose of obtaining his consent to the abandonment of the condemnation action. The Government will agree to pay the owner a sum representing the rental value of the premises for the period of occupancy by the Government, plus the cost of restoration as determined under paragraphs 11-142 and 11-143. Such estimate will include the value of personal property, buildings, crops, and other property damaged, destroyed or lost by the Government. DAEN-REM upon recommendation of the DE will request the amendment of the proceeding to include the taking of any property for which compensation is to be paid. The same criteria for settlement with lessors as under a negotiated lease will govern. In the event the landowner will not agree to settle, his best offer will be submitted to DAEN-REM, with the DE's recommendation, for consideration. If a tentative settlement is reached, the term will be included in a stipulation to be filed in the condemnation proceedings, after approval by DAEN-REM and the Department of Justice, which stipulation will specifically provide:

a. That the property owner releases and relinquishes all claims of any nature whatsoever which have arisen, or may arise, out of the Government's occupancy of the property; and

b. that the owner consents to the abandonment and dismissal of the condemnation proceedings. Where the settlement amount is to be paid directly to the owner by the DE in lieu of deposit in the proceedings, the stipulation will so provide.

11-155. Physical Restoration Where Stipulation Not Obtained. If such stipulation is not obtainable, then, whether or not a declaration of taking has been filed, the owner will be requested to designate, in writing, the restoration for which he believes the Government is liable. The Government will restore the property to the condition existing at the time of first entry by the Government, except for reasonable and ordinary wear and tear, damage due to acts of God, or circumstances over which the Government has no control. The cost of restoration or settlement in lieu thereof will be limited as outlined in this chapter.

11-156. Release and Record of physical Restoration. The responsible DE, upon completion of restoration, will make every effort to obtain a release of further claims for damages. A complete record of all items of restoration and the cost will be kept for use at the final hearing in condemnation or in any collateral proceedings, in the event a release is not obtained. Where litigation is anticipated, photographic evidence of work performed will be obtained.

\*

\*

11-157. Condition Reports. Survey and inspection reports covering the real estate, and inventory and condition reports covering the personal property located therein, made prior to first entry by the Government under condemnation proceeding, will be compared with the condition shown by similar reports made when the using service vacates the property.

11-158. Settlement of Claims. Claims for damages or restoration filed in condemnation cases, when practicable, will be settled in the condemnation proceeding to avoid separate suit by the owner to recover compensation to which he may be entitled. In such cases request will be made of DAEN-REA-C to have the proceeding amended to enlarge the issues to include restoration.

SECTION XI

DISPOSAL OF BUILDINGS AND OTHER  
IMPROVEMENTS (WITHOUT THE RELATED LAND)

\*

11-162. Authority. Under authority vested in the GSA by the Federal Property Act, and the delegation of such authority made by GSA in FPMR, Section 101-47.302-2, the Department of the Army is designated as the disposal agency for the following property:

a. Leases, permits, licenses, easements, and similar real estate interests held by the Government in non-Government-owned property (including Government-owned improvements located on the premises), except when it is determined by either the holding agency or GSA that the Government's interest will be best served by the disposal of such real estate interests together with other property owned or controlled by the Government, that has been or is being reported to GSA as excess; and

b. Fixtures, structures, and improvements of any kind to be disposed of without the underlying land.

11-163. Methods of Disposal. Excess buildings and other improvements may be disposed of by the following methods:

a. By demolition for utilization of salvage materials in the over-all Army or Air Force construction or maintenance program. Screening with other military departments is not necessary for this purpose.

b. By transfer to another Federal agency.

c. By assignment to the Department of HEW for disposal for health or educational purposes pursuant to Section 203k(1) of the Federal Property Act (FPMR 101-47.308-4).

d. By sale intact for removal from site to the most appropriate of the following, according to the circumstances:

(1) Eligible public agencies (Sections IX and XIV).

(2) Boy Scouts of America (Section XIV).

(3) Military chapel buildings and chapel equipment to nonprofit organizations for use, first as a shrine or memorial and, second as a denominational house of worship.

(4) Owner of the underlying land as a part of restoration settlement where disposal of a leasehold is involved. \*

\*

(5) An emergency Plant Facilities contractor.

(6) The general public, through competitive bidding, unless special circumstances warrant a negotiated sale for a specific purpose.

e. By donation, abandonment or destruction.

11-164. Determining Method of Disposal. DEs are designees of the Chief of Engineers under AR 405-90 to determine the method of disposal authorized by law or regulations which is most advantageous to the Government. Where alternatives are presented, there will be an affirmative finding that the method of disposal approved is most advantageous. In the exercise of this authority, due consideration will be given to the effect of particular methods of disposal on safety and sanitation in the area, the proposed or probable future utilization of Government-owned sites by the Government, or in the case of leased lands, the restoration obligations of the Government under the lease. In order to assure consideration of these factors, disposals by transfer to other Government agencies or by sale intact will be brought to the attention of the installation commander or his representative prior to initiation of disposal action. Reasonable requirements for site clearance consistent with the foregoing criteria should be favorably considered and disposal conditioned accordingly, notwithstanding the fact that such action may result in a greater burden to transferee agencies or, in the case of disposal by sale intact, may result in a reduction in the monetary return which might be reasonably expected in a sale involving less stringent site clearance requirements. DAEN-REM will be informal of any instances of excessive or unreasonable requirements with respect to site clearance. The DE will determine by inspection and survey the method to be used in disposal of buildings and improvements.

11-165. Excessing Army Military and Air Force Property. The procedures for placing buildings and improvements in excess status are set forth in AR 405-90 and AFR 87-4. In instances of land acquisition where buildings and improvements were acquired incident thereto, DEs are designated by the Chief of Engineers under AR 405-90 to make disposition of this property. Coordination with the installation commander concerned is required. When, under AFR 87-4, the responsible DE is called upon by the Air Force Command to furnish an estimate of the value of buildings and improvements for the purpose of determining the approval authority for excessing the property, no formal appraisal will be made. If, in his opinion, the total property exceeds a value of \$100,000, he will furnish only a rough estimate of its value in round figures. If the property is, in his opinion, of a value of \$100,000 or less, he will limit his statement to this fact and will not specify an estimated valuation. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

11-166. Excessing Civil Works Property. The DE are authorized to approve the disposal of buildings and improvements acquired incidental to the acquisition of land in reservoir areas, regardless of the original cost thereof, when they are in the way of authorized construction or when the land upon which they are located is to be permanently or frequently inundated. DEs may authorize the disposal of buildings and other improvements in any one or more of the following categories, which are located on lands which are not excess and which are not expected to become excess, and the sale is to be made after advertising:

a. Buildings or improvements on land acquired by the Government determined to be available for disposal pursuant to ER 735-2-1 (Property Accounting Procedures - Civil).

b. Buildings or improvements which cannot be kept in repair at a reasonable cost.

c. Buildings or improvements which are dangerous to life or likely to damage adjoining structures or have become hazardous or nuisances.

d. Buildings or improvements which are damaged or unsuitable for public service.

e. Buildings or improvements constructed by the Federal Government which occupy or interfere with sites for new construction or for other civil works purposes.

f. Temporary buildings or improvements which have served the purpose for which they were constructed.

11-167. Civil Works property - Reimbursement of Appropriation. Under Title 33, United States Code, Section 558, the proceeds from a sale or transfer of buildings or improvements may be credited to the appropriation for the work for which the property was acquired. Buildings or other improvements, including timber, on non-excess land come within the purview of this law. For further instructions on disposition of proceeds, see paragraph 11-12 Supra.

11-168. Demolition of Buildings and Other Improvements for Utilization of Salvage Material. With respect to DA property, demolition may be undertaken by the DE of buildings on non-excess land made available for disposal, when the salvage is to be used in construction or maintenance work by the Corps of Engineers or upon specific request from another service, where funds for the purpose are made available. Real Estate funds will not be used for such demolition. Determination of practicability for use of buildings or improvements in authorized new construction at other sites or for salvage of materials will be made by the DE in accordance with existing instructions relating to use of materials \*

\*

in new construction. Where restoration of leased premises is being performed, it is the responsibility of the Corps of Engineers to perform the necessary demolition work as part of the restoration obligation, as set forth in Section X. Demolition may be accomplished under contract when special or expert services are required for removal of certain types of structures and funds are available therefor. Unused salvage materials will be turned over to redistribution and salvage officers for redistribution or disposal in accordance with existing regulations pertaining to personal property. The relocation of buildings or improvements on the same installation or for re-erection at another installation is not to be accomplished as a real estate function (AR 420-70). Further, it is provided in AR 420-70 that demolition of buildings or improvements where retention of the salvage for use at the installation is approved, or where no requirement or market is found for buildings or improvements approved for disposal by the Corps of Engineers, is a facilities engineering responsibility. Pursuant to AFR 87-4, disposal of AF buildings and improvements by sale will be accomplished by the Corps of Engineers, but all disposal of such property by salvage will be accomplished by the base commander.

11-169. Authority for Transfer of Buildings and Improvements to Other Federal Agencies. Buildings and other improvements which have been screened for defense requirements as outlined in Section III, Supra, may be transferred to another Federal agency as hereinafter outlined. The authority for the transfer of such property to other Federal agencies is outlined in Section IX, Supra. The responsible DE is authorized to transfer buildings or structures for removal from the site, which have been made available for disposal by proper authority, upon receipt of a request signed by an official of another Federal agency.

11-170. Procedure for Transfer. Transfer of buildings to other Federal agencies will be accomplished by Form 1354. An estimate of value will be shown on DD Form 1354, Transfer and Acceptance of Military Real Property or other forms used and, in the case of transfer without reimbursement, the following footnote will be made: "Transfer to (Department or Agency), adjustment of funds not required." When the transfer is made at the direction of GSA, an explanation therefor will also be made on the form. Buildings and other improvements which are reported to GSA for screening against requirements of other Federal agencies (Section V) will be transferred to another Federal agency only at the direction of GSA and for the amount of reimbursement, if any, determined by GSA. Buildings and improvements which are not required to be reported to GSA will be screened against requirements of other Federal agencies by the responsible DE as provided in Section III. Upon request by a Federal agency for transfer of such property, the responsible DE will determine the amount of reimbursement, if any, in accordance with the criteria outlined in Section IX. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

11-171. Responsibility of Transferee. Where buildings or other improvements are on lands leased to the United States, the agency requesting the buildings will be expected to remove the building and restore the premises, as required by the terms of the lease, or to accept an assignment of the lease together with all obligations thereunder. Where the buildings or other improvements are to be removed from non-excess land, the transferee agency will be expected to perform reasonable site clearance as may be required by the commanding officer.

11-172. Assignment to Department of HEW or Successor Agencies. Pursuant to delegation of authority contained in FRMR, Section 101-47.308-4, as set forth in Section IX, Supra, the responsible DE may assign buildings or other improvements made available for disposal and not required for Federal purposes to HEW upon receipt of request therefore from the appropriate regional representative of that department for disposal for public health or educational Purposes. Assignments will be effected by letter addressed as indicated in paragraph 11-173 infra. Further, pursuant to delegation of authority the Department may disapprove within 30 days after notice from HEW, any transfer of property proposed to be made by that agency for such purpose. The DE will be guided by the policy set forth in Section IX, in regard to the delegation to disapprove transfers by HEW.

11-173. Notification of Department of HEW or Successor Agencies. When buildings or other structures are reported to GSA for screening pursuant to Section V, supra, the Reports of Excess are available to HEW by the Regional Office of GSA, and no notice of the proposed disposal need be given by the DEs. Where buildings and other structures are not reported to GSA simultaneously with circularization of other Federal agencies, HEW will be notified in writing of the availability of such structures. Such notification will be addressed to the appropriate field representative of HEW, and will include the following information:

a. A brief description of the buildings and improvements, including dimensions of buildings, types of construction, and demountable characteristics, if any.

b. The extent of building site clearance expected.

c. That the improvements must be removed and site clearance completed within a specified definite period from the date of assignment to HEW (usually 60 to 90 days, depending upon the size of the removal operation).

d. When improvements may be inspected.

\*

\*

e. That the improvements will be withheld from advertisement for bids for a period of 20 days from the date of the notification, unless the office submitting the notification is sooner informed in writing that such property is not needed for school, classroom, or other educational use or for use in the protection of public health, including research. If within the 20-day period, notice is received of a potential need, the property may be held an additional 45 days until a certification of need or request for assignment is received.

11-174. Procedure for Disposal through the Department of HEW or Successor Agencies. During the period held, action preparatory to the publication of Invitations for Bids and Specifications of Sale of Buildings and Improvements will be taken in order to minimize the time lapse between the expiration of the 20-day period and the beginning of the sale procedure. Inquiries received prior to the expiration of the holding period from state or local agencies or qualified organizations seeking the purchase of available improvements for health or educational purposes, will be referral to the appropriate field representatives of HEW.

a. Final disposal is not effected until the improvements have been transferred by HEW to an eligible recipient. Therefore, in the letter of assignment, HEW will be requested to furnish to the responsible DE, three copies of the sales contract. One copy of the contract will be forwarded to the officer accountable for the property, together with a certificate of performance upon completion of the operation (the latter to be furnished by the HEW contracting officer), and one copy will be furnished to the property auditor charged with periodic audit of the property records.

b. Should HEW fail to consummate disposition of the improvements after assignment to it and request cancellation of the assignment, the assignment may be cancelled by a letter of cancellation and appropriate disposition of the improvements affected. If there is an excessive number of such requests, DAEN-REM will be informed in order that corrective action may be requested of HEW.

11-175. Sale of Buildings and Other Improvements. Buildings and other improvements made available for disposal by competent authority and not needed for further Federal utilization, or assigned to HEW, will be disposed of by sale by the responsible DE. Sales will be accomplished in the following manner:

a. Sale to Lessor Where Restoration is not Required. Where the terms of a lease do not require restoration by the Government, it may nevertheless be in the best interest of the Government to negotiate a sale of the improvements to the lessor. In such cases, the DE is authorized to negotiate such sale where the net salvage value of all \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

improvements located on the premises involved in any one lease is less than \$1,000, and the sales price is determined to be as high as can be expected under the circumstances and compares favorably with the Government estimate prepared in accordance with d. below.

b. Sale Under Options. All leases or other rights of occupancy will be examined to determine whether the owner of the land has an option to purchase buildings or other improvements. See paragraph 11-176 for sale of improvements constructed under Emergency Plant Facilities or similar contracts.

c. Sale to Eligible Public Agencies, the Boy Scouts, and the public. The sales procedure, including notice to eligible public agencies and advertising, set forth in Section XIV will be followed in the sale of buildings or other improvements.

d. Appraisal. Except as otherwise provided in Section XIV, infra, buildings and other improvements will be appraised prior to sale. Except as provided in paragraph 11-180, appraisal will be based on the highest and best use which may be for (1) removal and use intact; or (2) for dismantling, and removal and stockpiling the salvageable material for reuse or sale.

11-176. Disposal of Buildings and Improvements Constructed Under Emergency Plant Facilities (EPF) or Similar Contracts. Procedure for the disposal of property constructed under a facilities contract on lands neither owned by nor leased to the Department is set forth as follows:

a. By Using Service. Disposal of structural components as well as equipment may be accomplished by the using service. The term "structure" is defined to mean plant equipment which:

- (1) Is held under a facilities contract of the Department;
- (2) Is not readily severable;

(3) Is a separate building or a complete structural addition to a building in which the Government otherwise has no interest, such as a wing, and in which a defense contractor carries on part or all of his defense production.

b. By the Corps of Engineers. Where disposal of structures, as well as other plant equipment located within such structure, is to be accomplished by the Corps of Engineers, instructions will be issued as to the extent to which the Corps of Engineers will participate in such action. Subject to special instructions by DAEN-REM, the following coordinated actions will be taken: \*

\*

(1) The using service will report to the Corps of Engineers the property which is excess to the Department's needs.

(2) The excess directive report will include the designation by name and address of a responsible officer of the using service to join with the DE concerned as a representative of the Chief of Engineers. These two representatives will meet with the contractor within seven days of their appointment to determine his interest in acquiring all or any part of the facilities. This determination will be made in the shortest possible time.

(3) The meeting with the contractor will promptly establish those facilities to be retained by the contractor and those to be declared excess. Waiver of existing options will be obtained where necessary.

(4) Equipment that is of no interest to the contractor will be disposed of by using service in accordance with applicable regulations.

(5) Custody of and accountability for the entire facility remains with the using service until other arrangements have been completed.

(6) The Corps of Engineers will complete negotiations for property to be retained by the contractor as rapidly as possible.

(7) When an agreement has been reached with the contractor, the DE or his contracting officer may execute the supplemental agreement to the lease or facilities contract transferring improvements, including machinery and equipment as a unit. Authority for the transfer should be recited in the supplemental agreement. In the case of a supplemental agreement to a facilities contract, authority will be obtained from the using service through its local representative for the DE or his contracting officer to sign the supplemental agreement transferring the improvements, including machinery and equipment to the contractor, (Figure 11-18 is the suggested format for Supplemental Agreement to Emergency Plant Facilities Contract.)

(8) Upon completion of negotiations, the responsible DE will issue instructions to the using service to dispose of equipment not included in the final negotiations in accordance with applicable regulations. Accountability for the property will be transferred at this time to the new owner or, in the case of real property retained by the Department, to the Corp of Engineers.

(9) Property not disposed of to the contractor will be disposed of in the same manner as improvements located on surplus leasehold property.

\*

ER 405-1-12

Change 12

27 Oct 80

\*

11-177. Procedure for Disposal of Surplus Chapels. By direction of the President and pursuant to GSA and Army regulations, special procedures have been established for disposal of chapels. Surplus chapels must be segregated from other buildings for sale intact, separate and apart from the land, for use as shrines, memorials, or for religious purposes. Where the chapel is located on surplus land and it is determined the chapel may properly be used in place, a suitable area of land may be set aside for such purposes and sold with the chapel (Section IX Supra).

11-178. Soliciting Applications for Purchase of Chapels. Promptly upon receipt of an approved DA Form 337 (Request for Approval of Disposal of Building and Improvements) or AF Form 300, the DE will solicit applications by public advertising. Advertising will consist of publication of notice in newspapers, paid advertising when necessary, posting of notices in public places, and mailing of invitations to all known local churches. A period of thirty (30) days will be allowed in which to file written applications. Instructions will provide that the applicant will give his name, address, and denomination if applicable. The advertisement will describe the chapel, give its location, terms and conditions of sale, and the time and place where application must be filed. The advertisement will also state that the sale price will be made available upon request of interested parties, and that the Chief of Chaplains will select the purchaser. To assist that office in making a recommendation, the following information should be included in applications for the purchase of chapels:

- a. Purpose and intent of the use of the chapel.
- b. Facilities currently being used by the church/organization applying.
- c. Membership size of the church/organization.
- d. History of the church/organization and when established locally.
- e. Denomination and/or organization.

11-179. Conditions of Sale of Chapels. When sold under the provisions of paragraph 11-180, chapels shall be sold subject to the condition that during their useful life they will be maintained and used as shrines or memorials or for religious purposes, and not for any commercial, industrial, or other similar use. The contract or deed of sale will provide further that in the event the purchaser fails to maintain and use the chapel for such purposes there shall become due and payable to the Government the difference, if any, between the appraisal fair market value of the chapel, as of the date of the sale, without restriction on its use, and the price actually paid. This difference should be figured at the time of sale and included in the contract of sale or deed of conveyance.

11-180. Determining Price and Provisions of Sale for Chapels.

a. Price. The sale price of the chapel structure in the case of sale for use as a shrine, or memorial, or denominational house of worship, will be at its fair value in the light of the conditions imposed relating to its future use, and the estimated cost of removal from the site. Appraisals made to establish the price of specific chapels will be predicated on:

(1) The fair value of the material in place, less the cost of dismantling, removal of the material to the outside limits of the installation, and the cost of restoring the site.

(2) The restrictions imposed on the future use of the chapel with due regard to the difference between the fair value price obtainable in the open market and that which might be obtainable in the limited market to which sale is restricted.

(3) In addition to the criteria set forth in (1) and (2) above, cognizance will be taken of the prevailing prices of chapels being sold by other disposal agencies within the general area in which chapels are being disposed of by the Corps of Engineers.

b. Provisions of Sale.

(1) Disposal of chapels which are not excess or surplus will be conditioned on the removal of the chapels from the premises. In the disposal of chapels located on excess or surplus leased land, no commitments will be made to purchasers for the continued use of utilities and services (sewer, water, electric, fire protection, guarding). Arrangements may be made between the lessor of the premises and the purchaser to leave the chapels in place, provided the lessor releases the Government from any and all obligations to restore the premises occupied by the chapel.

(2) Care will be exercised that, prior to the disposal of the chapel, equipment such as organs, hymn books, and other ecclesiastical furnishings have been removed or shipped in accordance with applicable regulations.

(3) All copies of the contract evidencing the sale of chapels will be accompanied by copies of the instructions, if any, received from the Chief of Chaplains authorizing the disposal. If no such instructions have been received, the DE will attach a statement that in the absence of instructions, all known interested parties have been contacted and that the disposal has been made after due consideration of applications, the uses to be made of the chapel building and the need therefor. \*

ER 405-1-12

Change 12

27 Oct 80

\*

11-181. Coordination with the Chief of Chaplains. The DE will submit applications for the purchase of chapels to DAEN-REM, who will request the Chief of Chaplains to select the purchaser and advise DAEN-REM of his selection. Where no applications are obtained as a result of the advertising, the DE will so advise the Chief of Chaplains, reporting steps taken to obtain a purchaser, and recommending that the chapel be sold without conditions, in the same manner as provided for disposal of other buildings. If the Chief of Chaplains does not approve this recommendation or issue other appropriate disposal instructions within a period of 60 days, DAEN-REM will be informed.

11-182. Report on disposal of Chapel. As soon as practicable after the sale has been consummated, notification of disposal of chapels will be made by the DE direct to the Chief of Chaplains, with a copy to HQDA (DAEN-REM) WASH DC 20314, by letter, which will contain the following information:

- a. Location and brief description of chapel or chapels.
- b. Reference to disposal instructions, if any, received from the Chief of Chaplains.
- c. Identity of purchaser and price paid.

11-183. Release of Restrictions on Chapels Sold. Where the purchaser fails to maintain and use the chapel in accordance with the conditions of sale, or the purchaser requests release of the conditions, the facts will be reported to DAEN-REM with appropriate recommendations. DAEN-REM may release the purchaser from the conditions of sale without payment of a monetary consideration upon a determination that the property no longer serves the purpose for which it was sold, or that such release will not prevent accomplishment of the purpose for which the property was sold.

11-184. Donation, Abandonment or Destruction.

a. General. Improvements may be abandoned, destroyed or donated to a public body, upon a finding in writing by the DE (but in no event shall such finding be made by the official directly accountable for the property) that the property has no commercial value or that the estimated cost of its continued care and handling would exceed the estimated proceeds from its sale, or that abandonment or destruction is required by military necessity, or by considerations of health, safety or security.

b. Finding of Fact. The finding will be prepared as a separate document headed: FINDING OF FACT FOR \_\_\_\_\_. The finding will be sufficiently complete within itself to justify the decision to donate, abandon, or destroy the property proposed, without outside reference. It will be drafted to provide, where the finding is made \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

by the District Engineer, for approval by the Division Engineer. Finding of fact concerning property which had an original cost in excess of \$500,000 requires the approval of DAEN-REM. A copy of each such finding, so approved, will be forwarded by the DE to the regional office of GSA.

11-185. Donation to a Public Body. A public body, as defined by GSA for this purpose, means any State, territory or possession of the United States, any Political subdivision thereof, the District of Columbia, any agency or instrumentality of any of the foregoing, or any agency of the Federal Government. Property as to which findings of fact have been made, may be donated to a public body.

11-186. Abandonment. Abandonment, as used herein, has reference to cases where the lessor or a permittor Government agency is unwilling to accept transfer of buildings or improvements in lieu of restoration, but is willing to permit the Department to leave buildings or improvements having no net salvage value on their premises. It is desirable to transfer title of or accountability for improvements having no net salvage value to lessors or permittors instead of obtaining their consent to abandon such improvements. Abandonment as authorized herein will not be a means for dropping accountability or responsibility for maintenance of improvements on non-excess land.

11-187. Destruction. Disposal by the Corps of Engineers, as authorized in AR 405-90, does not contemplate expenditure of funds for destruction of improvements which have no sale or salvage value. Accordingly, where such improvement have been approved for disposal by the Corps of Engineers, they will be referred back to the appropriate Army or Air Force command for disposal action under AR 405-90 or AFR 87-4 as appropriate. However, improvements with little or no salvage value may be included in the same item with other improvements being offered for sale which are more attractive improvements without an expenditure of Government funds.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\* SECTION XII. DISPOSAL OF STANDING TIMBER, CROPS, AND EMBEDDED GRAVEL,  
SAND AND STONE

11-191 Authority.

a. Crops. Crops are defined as personal property in FPMR Section 101-47.103-12 and are disposed of under FPMR Section 101-45.309-1 (Sale, Abandonment, or Destruction of Personal Property). The Corps of Engineers does not dispose of crops on military lands. However, when lands are in the custody of the Corps for construction purposes, the Corps will dispose of crops thereon.

b. Standing Timber, Embedded Gravel, Sand or Stone. These are defined as real property (FPMR Section 101-47.103-12(c)). The holding agency is designated as disposal agency for standing timber and embedded gravel, sand, and stone to be disposed of without the underlying land. (FPMR Section 101-47.302-2) .

c. Small Lots of Standing Timber. In accordance with AR 405-90, installation commanders are authorized to sell small lots of standing timber with a value not more than \$1000 that are in conformity with the installation Forest Management Plan. Public notice is required of the availability of the timber for sale. The total of such sales in any one calendar year will not exceed \$10,000.

d. Restriction on Removal of Sand, Clay, Gravel, Stone and Similar Material. The Army is without authority to remove such products from public domain land located within the military installation where the material is to be used off the installation. With permission of the Secretary of the Interior, such material may be removed pursuant to 30 U.S.C 601. In such cases, DAEN-REM will obtain the necessary permission.

11-192. Determination of Excess Status.

a. Military. The procedure for excessing and disposal of standing timber and embedded gravel, sand and stone is outlined in AR 405-90. The procedure for the determination of availability of timber for disposal is outlined in AR 420-74.

b. Civil Works.

(1) When the DE believes that standing timber, embedded gravel, sand or stone (whether designated for disposition with the land or by severance and removal from the land) is excess to requirements, he will submit a recommendation to DAEN-REM for approval. The DE is authorized, however, to dispose of standing timber or other forest products \*

\*

required to be removed incident to construction and operational requirements of the project; that which is generated incident to recreational development or the management of public park and recreational areas or wildlife management areas; or that which is generated in accordance with approved forest management supplements to the approved Master Plan (ER 1130-2-400). As far as practicable, high grade species in short supply will not be disposed of, but will be retained for possible defense requirements. When the amount for sawtimber under the above criteria available for disposal exceeds 5,000,000 board feet, request will be made to DAEN-REM, for determination of whether there are any defense requirements for the timber. The request will include an estimate of the amounts by species and the range in sizes. All timber disposals, except those involving timber below the project clearing line or in construction sites, will be compatible with the planned use of the areas for the purpose to which they are allocated in approved Master Plans and such disposals will be incidental to that use. The DE may authorize the disposal of growing crops when their disposal is deemed necessary to prevent waste.

(2) Under the provisions of Section 5 of the Act of 13 June 1902, as amended (33 U.S.C. 558), proceeds from disposal of these items on civil works property may be returned to the appropriation.

11-193. Methods of Disposal. Standing timber, crops, sand, gravel, or stone-quarried products, authorized for disposal in accordance with the foregoing, will be disposed of by transfer to another Federal agency or by sale.

11-194. Disposal Plan for Timber. The DE will take appropriate action to assure that construction contractors are not authorized, in the clearance of construction sites, to burn or otherwise destroy merchantable timber unless circumstances exist which preclude sale or salvage. In preparing for disposal of timber, a disposal plan will be prepared which will include the following:

a. Live timber and merchantable dead timber will be marked for cutting in accordance with the land management plan, Master Plan, or forestry supplement thereto, and cutting will be limited to the timber so marked. The disposal plan will contain sufficient information in this respect to permit preparation of specifications for inclusion in the invitation for bids.

b. Utilization of existing roadways and construction of new roads and saw mills should be limited to the minimum necessary.

c. Requirement that the customary practices in elimination of fire hazards be observed with necessary specifications therefor. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

d. The installation commander will be consulted to obtain his desires in connection with security measures, and other matters affecting the installations, and the requirements of such measures will be set forth specifically.

e. Any measures considered necessary to protect timber and young growth not marked for cutting will be specified.

f. Where an appraisal is required, the appraisal report will be prepared by a competent forester. The report will indicate the number and size of each species and classification of trees to be cut; the estimated board feet in log scale measurement; linear estimates of pole timber, and amount of cord wood. The appraiser should indicate in the appraisal report what, in his opinion, should be acceptable as a minimum price for different types of timber, as well as a total or lump sum estimate for the whole. Methods of administration and sale of timber by the Army or Air Force should follow the same general rules employed by the U.S. Forest Service in its sales and forestry practices. U.S. Forest Service personnel may be available for this work, if desired, on a reimbursable basis, provided the size of the area in question and the location render such arrangements feasible.

g. Minor sales, involving lots with an estimated value of \$1000 or less, may be accomplished by the reservoir manager on civil works projects under general guidance issued by the Real Estate Branch. In such minor sales, two or more informal bids, in writing, will be obtained, if possible. If only one bid can be obtained, the proposed sale will be posted for a period of ten (10) days.

11-195. Disposal Plan for Embedded Gravel, Sand or Stone. Prior to offering sand, gravel, or stone for disposal, a disposal plan will be prepared, which will include the following:

a. Control of transportation facilities which will limit use of roads and construction of new roads to the minimum necessary.

b. Security measures established by consultation with the installation commander to properly protect Government property and other interests of the Government.

c. Where applicable, the depth or level to which the material may be removed, and any restoration of the site after removal.

d. Specifications as to methods to establish amount of material removed for the purpose of payment.

\*

\*

e. With certain exceptions as discussed in paragraph 11-234d, infra, an appraisal report will be prepared by a person familiar with the material involved and the operations for mining, quarrying or otherwise removing it, giving the type or grade of material involved and an opinion as to the minimum price that should be acceptable.

11-196. Procedure for Transfer to Another Federal Agency. As soon as possible after standing timber, embedded sand, gravel, or stone are made available for disposal, other Federal agencies having activities within the vicinity of the location of the property and which, in the opinion to the responsible DE, may desire transfer of the property will, to the extent practical or economical, be notified of the availability of the property for disposal. Such notification should include the following: information concerning how arrangements can be made to inspect the property; information concerning conditions governing cutting, harvesting, mining, or removal of the property and a statement that the property will be advertised for sale upon the expiration of fifteen (15) calendar days from the date of the notification, unless a request for transfer of the property, or a statement that a request for transfer of the property, or a statement that a request therefor may be made, is received within the fifteen (15) day period. Should a Federal agency request within the fifteen (15) day period, that disposal of the property be withheld pending determination of a requirement, disposal will be withheld not longer than sixty (60) days from the date of notice of availability, unless DAEN-REM approves withholding disposal for a longer period. Disposal will not be withheld for such sixty (60) day period, extended if applicable, if to do so would interfere with construction or other necessary operations. Should a request be received from a Federal agency for transfer of the property, the property will be transferred in accordance with existing procedures without reimbursement except as provided by FPMR Section 101-47.203-7. If no request for transfer is received, the property will be considered surplus and disposed of by one of the methods outlined in succeeding paragraphs. The foregoing instructions do not apply to land clearance operations performed either by contractor force account. It applies only to those cases where it is proposed to offer property for sale.

11-197. Sales. DEs will be governed by the general procedure set forth in Section XIV in selling standing timber, growing crops, embedded sand or gravel or stone products.

11-198. Agreement with Small Business Administration (SBA) on Sale of Timber. The Department of Defense has entered into an agreement with the SBA for the development of a program of assistance for small concerns operating in the timber business. This agreement is published for compliance as Figure 11-19. In the implementation of this agreement, \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

the DE will cooperate with field representatives of SBA to the fullest extent compatible with efficient administration of the Army's timber disposal program.

11-199. Status as Small Business.

a. Definition. Each invitation for bids for the sale of timber with an estimated value of \$2,000 or more will contain a definition of small business and provision for self-certification of the bidder's status within its terms. A definition for use in invitations for bids on Army timber is provided in the "Certificate as to Small Business Status" (Figure 11-20).

b. Self Certification. The Code of Federal Regulations (13 CFR 121.3-9(c)) provides: "In the absence of a written protest or other information which would cause him to question the veracity of the self-certification, the contracting officer shall accept the self-certification at face value for the particular sale involved."

c. Definition for Set-Asides. The definition of small business provided in Figure 11-20 omits portions of the definition prescribed by SBA regulations which are not presently applicable to sales of Army timber. The omitted portions relate to sales of timber reserved for or involving preferential treatment of small business (para 11-202). These portions of the definition are subject to frequent revision by SBA.

11-200. Information for SBA on Timber Sales. Representatives of SBA will visit District offices from time to time for purposes of coordination and assistance; to furnish names and information on prospective bidders from the SBA facilities list; and to obtain information on programmed sales of Army timber. In addition to the information which may be furnished during the course of these visits, the following items of information will be furnished to appropriate SBA field offices on each sale of timber products with an estimated value of \$2,000 or more:

a. Advice on proposed or prospective timber sales of Army timber.

b. Copies of invitation for bids.

c. Name of successful bidder, his status as a small business, the bid price, and an estimate of the amount of timber sold.

11-201. Certificate of Competency by SBA Section 8(b)(7) of the Small Business Act (15 U.S.C. 637(b) (7)) authorizes the SBA to certify the competency of a small business concern as to capacity and credit. In any case where timber is being sold on a credit basis, if the bid \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

is being questioned solely on the financial ability of the bidder and the bidder is a small business concern, the DE will notify the appropriate SBA field office immediately and follow the other procedures provided by Section III of the DOD-SBA Agreement (Figure 11-19). A certificate of competency issued by SBA will be honored in such cases.

11-202. DA-SBA Joint Set-Aside Determination. Section 15 of the Small Business Act (15 U.S.C. 644), provides that where certain joint determinations are made by the SBA and a disposal agency, the award of a contract for the sale of Government property shall be made to a small business concern. Section IV, Joint Set-Aside Determination of the DOD-SBA Agreement implements Section 15 of the Small Business Act. It is not anticipated that SBA will recommend that Army timber be reserved or set aside for sale to small business concerns on an exclusive or preferential basis. In the event recommendations on set asides of Army timber are received from SBA field offices, the SBA recommendations will be forwarded promptly to HQDA (DAEN-REM) WASH DC 20314 with DE comments and recommendation.

SECTION XIII. CLEARANCE OF EXPLOSIVE HAZARDS  
AND OTHER CONTAMINATION FROM PROPOSED  
EXCESS LAND AND IMPROVEMENTS

\*

11-206. Clearance of Air Force Lands. The Chief of Engineers has no responsibility for inspecting or clearing excess Air Force land of explosives or chemical/biological contaminants. When a target or bombing range, or other land under the control of the Department of the Air Force, which might be contaminated with explosives or other harmful or dangerous substances, becomes excess to Defense requirements, the appropriate DE will obtain a certificate as to the extent of contamination and clearance thereof from the Commander, Air Force Logistics Command (AFLC), Wright-Patterson Air Force Base, Ohio 45433. The Corps of Engineers will continue to be the agency with which the disposal agencies, purchasers, and former lessors will communicate when explosives or objects resembling explosives, are discovered on the land after disposition has been effected. The AFLC, upon request of the DE, will neutralize or remove such objects or substances and make a report to the requesting agency or person. See paragraph 11-225 infra, for support required of the Corps.

11-207. Clearance of Army Lands. The responsibility for performing clearance of ordnance contaminated excess Army military real property is placed upon and remains with the using command. That command, after completion of the clearance work, will furnish the DE a "Statement of Clearance" (Appendix E, AR 405-90) and a record of the clearance work performed. In addition to the Statement of Clearance, the following information will be furnished to the DE upon completion of the neutralization:

- a. Records of the neutralization work performed, including statement of methods employed.
- b. List of dangerous and explosive materials removed.
- c. Number and names of demolition technicians employed.
- d. Other data that may be pertinent in the defense of any suit or claim that might subsequently arise as a result of civilian occupancy.

11-208. Determination of Categories. Prior to making a recommendation for excess, the state of contamination of the property must be determined by the installation commander as either of the following:

- a. Category One. Those lands such as ammunition plants, storage, test, impact and training areas, bombing or target ranges, which may contain explosives or unexploded ordnance. The report will include proposed methods of neutralization and the costs thereof. \*

\*

b. Category Two. Those lands or buldings which are suspected of being contaminated with radiological, industrial-military chemicals, or explosives. The U.S. Army Toxic and Hazardous Materials Agency (USATHAMA), Aberdeen Proving Ground, Maryland 21010), will be requested to determine if the land contains any of the above contaminants, to determine the extent of the contamination, and to decontaminate, if necessary before such property is reported for dispsal.

11-209. Responsibilities.

a. Category One. The DE, as designee of the Chief of Engineers, will satisfy himself that the clearance work, as certified in the Statement of Clearance, has been performed and that such clearance complies with the requirements of this section. If the DE determines that the completed clearance work is not sufficient, he will request the using command to perform the necessary additional clearance. The Department of Defense Explosives Safety Board (DDESB), has responsibility for reviewing and approving, from an explosive safety viewpoint clearance reports for real property declared excess and offered for disposal. DDESB should be consulted for review and analysis of accomplished clearance work for Category One property when determinations of adequacy are not within the capacities of the DE. Requests, fully documented, for review and/or analysis by the Board may be forwarded to DAEN-REM for submission to the Board. Department of Defense procedures include staff study of all proposed excess reports by the Board before grant of "Prior Approval" for those disposals requiring reports to the Armd Services Committees (10 U.S.C. 2662). When the clearance work has been satisfactorily performed, disposal action will be continued as set forth in this chapter. If the DE determines that further clearance work is necessary to render the land safe for use but that such further clearance work is not economically justified, he will make a report to DAEN-REM with his recommendations and pertinent supporting data. The report will include a statement of the current status of the excess action.

b. Category Two. The U.S. Army Toxic and Hazardous Materials Agency (USATHAMA) is responsible for the identification and containment and elimination of all toxic and hazardous materials, and related contamination on all land and/or buildings where an excessing action is planned. USATHAMA will conduct the survey and assessments of all proposal excess property to establish the type and quantities of contaminants and then plan, direct and control the program to decontaminate and clean up the property. Following the completion of the decontamination clean up program, USATHAMA will prepare a clearance statement stating the property has been cleared of all toxic and hazardous materials reasonably possible to detect using present state-of-the-art methodology, and it will provide any exceptions or restriction for utilization of the property. Clearance statements which identify contaminations

ER 405-1-12  
Change 12  
27 Oct 80

\*

of ammunition and explosives will be submitted to the DDESB for review. Category Two items may include chemical munitions or agents, liquid propellants and pyrotechnics. The clearance statement will be forwarded through the MACOM to DAEN-REM.

(1) Decontamination of Category Two real property will comply with the requirements of TB 700-4 (Decontamination of Facilities and Equipment). The Bulletin provides general policies, responsibilities and procedures applicable whenever potentially contaminate facilities are disposed of to other Government agencies, qualified users in industry, or to the general public.

(2) The degrees of decontamination are designated in TB 700-4. Contaminated real and personal property excessed for disposal shall be decontaminated to XXXXX before it can be removed from the Government premises, or transferred to nonqualified Government or industry users.

11-210. Contaminated Industrial Property.

a. GSA may arrange to sell contaminated chemical or other industrial plants to a purchaser whose operations will result in the same type of contamination, or who agrees to perform the necessary decontamination. Any decontamination work required will be monitored by USATHAMA who will also review the completed program for adequacy of decontamination. If these arrangements cannot be worked out, USATHAMA will decontaminate the property at the request of OCE, or the property may be withdrawn from excess and returned to the using command for care and custody.

b. A Statement of Clearance is required for industrial property to be declared excess in order to establish a qualitative and quantitative base line for the contaminants present. In the Statement, USATHAMA will provide an adequate description of the nature and extent of the contamination. The description furnished to the DE should include the following information:

(1) Name and location of installation.

(2) Date of final clearance.

(3) Reference to attached real estate map showing locations of contaminated, cleared and restricted areas. The map(s) will be attached to the description of contamination.

(4) Statement that the area has been cleared of toxic and hazardous materials reasonably possible to detect either by present state-of-the-art methodology or by a visual inspection. \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

(5) Recommendation as to whether the land or structures may be used for any purpose for which it is suited, clearly identifying any areas recommended for restricted use and listing restricted tract and building numbers.

11-211. Limitations on Clearance Cost. The following principles are established for determination of the financial limit of clearance operations at excess installations:

a. Government-owned land. Clearance work will not be undertaken where the estimated cost thereof exceeds the value of the land after decontamination plus the estimated cost of keeping it security-fenced and posted for a period of 25 years.

b. Leased land. Clearance will not be undertaken where the estimated cost, plus the cost of any other required land restoration work, exceeds the value of the land after clearance and restoration plus the estimated cost of keeping it security-fenced and posted for a period of 25 years.

11-212. Clearance of Military Scrap. Military scrap can contain or be contaminated with explosives, chemicals, and other hazardous materials. The primary consideration in determining whether scrap metal will be removed should be the safety of persons coming on the land in question and, secondarily, the prevention of accidents resulting from the sale and/or use of the scrap metal subsequent to the land passing from the jurisdiction of the Department. The DE will insure the removal or destruction, by using command, of all military scrap and scrap metal from lands suitable for cultivation or other subsurface operations. In the case of land unsuitable for cultivation or other subsurface operations, all military scrap will be removed or destroyed and scrap metal removed, if it is reasonably possible to do so. Cases where it is considered impracticable to remove the scrap metal, will be reported to DAEN-REM for final decision. In such instances, pertinent data and the recommendation of the DE will be furnished. Disposition of military scrap or scrap metal by dumping into inland waters or by land burial in other than an approved landfill is prohibited.

11-213. Restricting Future of Artillery and Other Ranges. Experience indicates that, on ranges where high explosive projectiles have been fired or dropped, such as artillery, bombs, mortars, rockets, grenades, and the like, it is impossible to make certain that land in impact areas is absolutely safe for unrestricted use. Such impact areas receive a high concentration of fire, and the properties of these projectiles are such that many duds are deeply buried. Depth of burial, as well as the concentration of fragments or components, will affect the dependability of mine detectors. Since there is no knowndefinite period within which such projectiles will become inert through

ER 405-1-12  
Change 12  
27 Oct 80

\*

weathering and corrosion, such contaminated areas can be safely released for restricted use only, even after decontamination work as been carried to its practicable limit. Such restrictions will usually be in the form of a recommendation that the land be restricted to surface use only. Restrictions will be based solely on the type and/or extent of contamination. If land is contaminated to such a degree that it is considered it cannot be rendered safe for any use, disposal action will be suspended and the facts will be reported to DAEN-REM-C with the DE recommendations.

11-214. Reporting Contaminated Land to the General Services Administration. Contaminated areas, except industrial properties as covered by paragraph 11-210, will not be included in a Report of Excess to GSA until such time as the affected areas have been cleared by the using command to the satisfaction of the DE and a Statement of Clearance has been received. If an exception is granted and the Department of the Army, with the concurrence of GSA, reports contaminated nonindustrial property excess, the report of excess will include statements concerning:

- a. The extent and type of such contamination;
- b. Plans for decontamination, if any; and
- c. The extent to which the property may be excessed without future decontamination.

11-215. Statement of Clearance in Reporting Excess Property to GSA. The Report of Excess will include the Statement of Clearance furnished by the using command (paragraph 11-207). The record of the clearance work performed by the using command will not be included in the Report of Excess but will be preserved in the permanent records of the DE. It is anticipated in these cases that the disposal agency (GSA) will, at the time the land is offered for sale or lease, give public notice of the circumstances surrounding its past and future restricted use. Included in such notice will be the statement that the Department of the Army is willing to remove or destroy any potentially dangerous materials discovered at any time in the future, subject to the availability of funds for this purpose.

11-216. Reporting Target Ranges. All Reports of Excess to GSA covering lands which have been used as target ranges of any kind will contain an affirmative or negative statement in regard to contamination. This will be by appropriate schedule and reference thereto in the following manner: \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

a. If the statement is negative, it will declare that no explosive or other contaminating materials were used or stored on any portion of the installation.

b. If the statement is affirmative, reference will be made to appropriate schedules of the Report of Excess containing statements of clearance on the installation, or portions thereof.

11-217. Recording Statements of Clearance. On property disposals for which the Corps of Engineers is the disposal agency, the DE will have the Statement of Clearance recorded, if possible, as part of the permanent history of the property involved, with the proper county land record office. A copy of the report of clearance work performed will be furnished DAEN-REM and DAEN-REP.

11-218. Return of Contaminated Leased Land to Owners. Where leased land has been contaminated, whether excess to military requirements or being used, it may often prove advisable and economical to acquire the fee to such properties. Prior to considering the return of contaminated leased land to owners, District Engineers will assist installation commanders in preparing an analysis as a basis for recommendation to acquire or not acquire such areas. In the case of recommended restriction of use, notice should be given the lessor as described in paragraph 11-215.

a. Where such a restriction reduces the value of the land, the Department will, if consistent with the terms of the lease, pay damages equal to the reduction in value as of the effective date of termination.

b. As stated in paragraph 11-215, the owner should be advised that the Department is willing to remove or destroy any potentially dangerous materials that may be discovered in the future, subject to the availability of funds.

11-219. Supplemental Agreement with Owner of Contaminated Leased Land. In the event that it becomes necessary to pay damages to a lessor in lieu of restoration i.e., decontamination, the following clause, appropriately modified to fit the circumstances, will be made a part of the supplemental agreement terminating the lease and effecting monetary settlement in lieu of restoration. Additionally, in order to protect the Government from possible claims for damages from future purchasers, the executed supplemental agreement will, in those jurisdictions permitting recordation, be recorded by the DE thus providing legal notice to subsequent purchasers of the condition of the premises. \*

ER 405-1-12  
change 12  
27 Oct 80

SUGGESTED CLAUSE FOR USE IN SUPPLEMENTAL AGREEMENT

\*

WHEREAS, by reason of the use made of the premises by the Government it is impossible to ascertain after completion of decontamination operations by the Government that the following described portion of land is safe for unrestricted use by the lessor (or state because of use made by Government that use of land must be restricted to grazing, etc.):

(Legal Description; utilize hachured/annotated maps(s) as attachment plus legal description.)

Now, therefore, in consideration of the payment by the Government of the United States to the lessor, (Name of lessor), of dollars (\$\_\_\_\_\_), representing the estimated compensation to which the lessor is entitled by reason of the loss of the unrestricted use of the above described property, the lessor hereby releases the Government from all claims for damages to property and/or injury to persons which may arise out of the existence on the premises of unexploded ammunition or chemical/biological agents. It is mutually understood, however, that for a period of 25 years from the date hereof, the Government shall, upon request of the lessor, remove or destroy any potentially dangerous materials that may be discovered on the land, provided that adequate appropriations are available to cover the cost of such service. (If use of the land is restricted to surface use, the lessor should agree and covenant, in consideration of the payment, to use the land for such purposes only.)

11-220. Conditions in Conveying Land Suspected of Contamination. The following conditions, appropriately modified to conform to local law, will be included in deeds conveying land which is, or is suspected of being, contaminated with explosive or toxic materials and is restricted to surface use: (GSA should be requested to include these conditions in deeds that they prepare.)

WHEREAS, said property was a part of (Name of Installation), a military installation used for \_\_\_\_\_, and portions of this property were subject to contamination by the introduction into the said installation of bombs, shells and other charges (insert reference to toxic chemical/biological agents, if applicable) either below or upon the surface thereof; and

WHEREAS, the grantor has caused the property to be inspected and has decontaminated the said property to the extent deemed reasonably necessary, and, to the extent deemed consistent with sound economic limitations, has cleared the property of all dangerous and explosive materials and/or chemical/biological agents, reasonably possible to detect, and has made certain recommendations pertaining to the use \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

to which the land may be devoted, and the said recommendations are contained in a statement, a copy of which is attached hereto and made a part hereof; and

WHEREAS, the grantor, by attaching such statement, does not intend to make, nor shall it be construed to have made, any representations or warranties pertaining to the condition of the land; and

WHEREAS, the hereinafter-designated grantee has entered into a contract to purchase said property with full knowledge of, and notwithstanding the foregoing recitals which are incorporated for the purpose of disclosing the former use made of the property hereinafter described; and

WHEREAS, by acceptance of this instrument, the grantee admits and confesses to full knowledge with respect to the facts contained in the foregoing recitals as to possible contaminated condition of the property;

NOW, therefore, by acceptance of this instrument, and as a further consideration for this conveyance, the grantee here covenants and agrees for himself, his heirs, successors, or assigns, to assume all risk for all personal injuries and property damages arising out of ownership, maintenance, use, and occupation of the foregoing property; and further covenants and agrees to indemnify and save harmless the United States of America, its servants, agents, officers, and employees, against any and all liability, claims, causes of action, or suits, due to, arising out of, or resulting from, immediately or remotely, the possible contaminated condition, ownership, use, occupation, or presence of the grantee, or any other person, upon the property, lawfully or otherwise.

11-221. Warning to Public of Danger in Handling Explosive Missiles.  
When any land which has been contaminated with explosive objects, or chemical/biological agents, is released for disposal to, or use by, the general public in addition to the clearance statement furnished to the disposal agency, the DE will publicize, to the fullest extent practicable, the possibility of contaminants remaining on the land and the inherent danger of handling explosives or other contaminants. Such publication should be in the form of articles in official news media, or posting of the premises whenever the latter is considered most feasible. Such publicity should include instructions that, in the event of the discovery of an explosive missile, or an object resembling an explosive missile, or other contaminant, or in the event of an injury caused by an explosion or exposure to toxic agents, such discovery or injury should be reported immediately to the DE. An effort should be made to obtain the cooperation of local law enforcing agencies to \*

ER 405-1-12

Change 12  
27 Oct 80

\*

insure the prompt reporting of an accident, or the discovery of an explosive missile. The majority of accidents are the result of the removal of explosive missiles by individuals for sale to scrap dealers. Scrap dealers in the vicinity of contaminated lands should be informed of the inherent dangers and asked to cooperate by refusing to buy military scrap from private parties.

11-222. Reporting Accidents. Immediately upon receipt of information of an accident involving, or appearing to involve, explosive or chemical/biological elements remaining on, or carried from an excess or surplus installation, whether under the jurisdiction of the Corps of Engineers, other Government agency, or sold or returned to public or private owners, the DE will institute an investigation and prepare a report prescribed by AR 385-40 and OCE Supplement thereto. Further, upon determination that an accident has occurred, the former using command should be requestd to send qualified explosive, chemical or biological specialists to the scene of the accident immediately, in order that proper corrective measures to eliminate future accidents may be instituted. HQDA (DAEN-REM) will be immediately informed, by teletype, of any accidents due to explosives on lands which have been used by the Department involving injuries to persons and/or animals, or damages to private property.

11-223. Contamination Discovered After Return of Land to Owner, or Sale. When land has been previously declared clear of explosives or other dangerous material so as to be safe for all uses and disposed of, but is later found to have been contaminated to such an extent that, in his opinion, it is dangerous to the public, the DE will request the former using command to re-examine the land for the purpose of determining the extent to which the original Statement of Clearance should be revisal and to determine the kind and cost of any further clearance work by the using command which would be required to place the property in the condition set forth in the original Statement of Clearance. If further clearance work is necessary and considered economically justified, the DE will request the using command to perform such work and furnish a new Statement of Clearance and record of the further clearance effected. If further clearance work is not considered economically justified, he will make a report thereof to DAEN-REM with his recommendations and pertinent supporting data. Recommendation for reacquisition of contaminated lands will be limited to those which involve full restrictions of both surface and subsurface uses. Where subsurface use of lands only is to be restricted, it is preferable to make compensation to the owners through claim procedure, when and if instituted by the owner on his own initiative. \*

\*

11-224. Return of Public Domain Land.

a. General. The procedures described elsewhere in this section to carry out the continuing responsibility of the Department of the Army to assist and advise the land holder and protect the public from dangerous substances on or in the land after release are equally applicable to public domain lands. Air Force policy and procedures are generally comparable.

b. Congressional. A provision has been added to several laws enacted by Congress that upon request of the Secretary of the Interior at the time of final termination of the reservation effected by the Act, the Department of the Army shall make safe for nonmilitary uses the land withdrawn and reserved, or such portions thereof as may be specified by the Secretary of the Interior, by neutralizing unexploded ammunition, bombs, artillery projectiles, or other explosive objects and chemical agents. The intent of the provision is explained by a statement of the Committee on Interior and Insular Affairs, House of Representatives, in Report No. 279, 87th Congress, 1st Session: The committee concluded that it would be appropriate to amend the bill to designate the Secretary of the Interior to act on behalf of the Federal Government in delineating the areas to be made safe for nonmilitary use when the lands are no longer required for defense purposes. "It is expected that the Secretary of the Interior will not require the Department of the Army to proceed with expensive cleanup work in areas where there would be no direct benefit. On the other hand, it is anticipated that when potential resources or use values are such, as to make deduinding or decontamination advisable, the Secretary of the Interior will identify those resources and values for the Secretary of the Army. This will permit a full and complete justification in the event that a separate appropriation therefor is required." Report No. 279 also quoted the following policy statement by the then Bureau of the Budget: "... requirement for decontamination should be related to a standard not only of practicability, but also to one of economic feasibility that takes into account the desired future use and value of the land to be decontaminated."

c. Army. The congressional policy outlined above does not change the existing Army policy. Its principal effect is to make it clear that the Secretary of the Interior has an equal interest with the Secretary or the Army in the final decision on whether it is practicable or feasible to clear lands for return to the public domain, and the extent of clearance. No difficulties in reaching agreement with Interior in these matters are anticipated. Where large expenditures are involved, it will usually be necessary to request a special appropriation, leaving the final decision to Congress. In any instance, if difficulty in \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

reaching agreement with officials of the Bureau of Land Management (or the Secretary of the Interior) should occur, it will be reported promptly to DAEN-REM with complete background data for review and instructions.

11-225. Support in Clearance of Air Force Lands. Where Air Force range lands are proposed for disposal, the AFLC, in most cases, will make an economic study to determine the extent of clearance that is justified by the relative values of the property before and after decontamination. For this purpose, AF comands declaring range lands excess will submit a copy of the excess recommendation to the AFLC. Upon request, the DE will prepare and furnish a disposal planning report to the AF Logistics Command for assistance in making the economic study. The disposal planning report will include, but need not be limited to, the following:

a. A map which depicts and annotates differing areas according to their estimated highest and best use.

b. An appraisal report reflecting the fair market value of each of the differing areas based on their highest and best use, and based on the assumption that the lands are entirely free of dangerous materials or other contamination. AFLC will compare such evaluation with cost of decontamination work. While needed primarily in connection with the return of AF range lands to the public domain, economic studies may be made and disposal planning reports requested by the AF in other areas.

11-229. RESERVED.

## SECTION XIV

## SALE PROCEDURE

\*

11-230. Advertising.

a. Definition and Purposes. GSA regulations require that disposal agencies shall widely publicize all surplus real property which becomes available for sale. Sales will be made to the highest responsible bidder after advertising. Advertising consists of the preparation of Invitation for Bids, the posting of copies thereof in public places, their distribution to interested persons or prospective bidders, and publication of notice of sale in newspapers where such publication is deemed advisable or is required by this chapter. The purpose of advertising and obtaining competition in selling Government property is:

(1) To give all qualified persons equal opportunity to bid for the property.

(2) To secure for the Government the benefits which flow from competition.

(3) To prevent criticism that favoritism has been shown by officers or employees of the Government in making sales of public property.

b. Notice to Department of Commerce. A condensed statement of proposed sales of surplus real property by advertising for competitive bids, except where the estimated fair market value of all the property included in the advertisement is less than \$5,000, shall be prepared for publication in the U.S. Department of Commerce publications, "Commerce Business Daily." Guideline is contained in the Defense Acquisition Regulation (DAR) 1-1005.1, (formerly the Armed Services Procurement Regulation). Forward statement to: U.S. Department of Commerce, Commerce Business Daily, P.O. Box 5999, Chicago, Illinois 60680.

c. Procedure. Whether newspaper advertising in addition to distribution and posting of Invitation for Bids is desirable will depend upon the value of the property and in some instances the anticipated interest in the property. The ever-changing market requires different methods or efforts to obtain the best price for the Government. The time allowed for submission of bids will depend upon the time available, usually 30 days. If available, a longer period may be desirable based on value and other factors. A shorter period may be necessary and, in an emergency, a period of less than 10 days may be allowed. However, the contracting officer should make a record of written findings to support such a decision. If the emergency is based on requirements of the using command that appear questionable, a report with recommendations should be forwarded to DAEN-REM by the most expeditious means. \*

ER 405-1-12

Change 12  
27 Oct 80

\*

d. Bidders Mailing Lists. Instructions contained in procurement regulations are applicable generally for establishing, maintaining, and controlling bidders mailing lists (DAR 2-205). Generally, all proposed sales should be preceded by an advance notice, to eliminate disinterested bidders and as a measure of economy in printing and distributing voluminous Invitation for Bids. Notice to bidders will provide that their failure to respond to two successive sales offerings will result in the removal of their names from the bidders list. When time does not permit an advance notice, one copy of the Invitation may be sent to the potential bidder, which contains the following notice: "Attention Bidders. If interested in bidding on any or all items, three (3) additional copies will be furnished on request." The advance notice will describe the property offered and ordinarily provide that Invitation for Bids will be mailed on request or may be picked up at the installation or project at the time the property is inspected.

e. Inspection of the Property. Upon request, interested persons should be permitted to make appropriate inspection of the property, including inventory records, plans, specifications, and engineering reports, subject to any restrictions necessary in the interest of national security and to such reasonable rules as may be prescribed by the using command or the DE.

11-231. Award of Contract.

a. Opening of Bids. All bids shall be opened and publicly disclosed by a duly authorized representative of the responsible DE at the time and place stated in the Invitation and advertisements.

b. Award and Notice to Bidders. Award shall be made with reasonable promptness by notice to the responsible bidder whose bid, conforming to the Invitation for Bids, will be most advantageous to the Government, price and other factors considered, provided that any or all bids may be rejected when it is in the public interest to do so. When an award is made, unsuccessful bidders should be notified promptly and their earnest money deposits returned.

c. Equal Offers. Equal offers mean two or more offers that are equal in all respects taking into consideration the best interests of the Government. When equal acceptable offers are received, award shall be made by a drawing by lot limited to the equal acceptable offers received (See also paragraph 11-232.)

d. Public Auction. When authorized by GSA, sales of surplus property may be made through contract auctioneers. Consideration should be given to auction sales when there is likely to be considerable interest in the property. GSA Regional Offices have had experience with actions, maintain lists of qualified auctioneers, are in a position \*

\*

to give other advice and assistance, and may authorize auction sales on behalf of GSA, pursuant to FPMR, Section 101-47.304-7. Auctioneers retained under contract shall be required to publicly advertise for bids in accordance with applicable provisions of that regulation. The prior approval of DAEN-REM will be obtained before auction sales are undertaken.

11-232. Application of Anti-Trust Laws. The Federal Property Act provides that real property and related personal property with an aggregate total cost of \$1,000,000 or more (or personal property with an acquisition cost of \$3,000,000 or more) or patents, processes, techniques, or inventions, regardless of cost, shall not be disposed of to any private interest until the advice of the Attorney General has been received as to whether the proposed disposal would tend to create or maintain a situation inconsistent with the anti-trust laws. Prior to obligating the Government on any such disposal, Division Engineers will furnish DAEN-REM information on the probable terms and conditions of the sale. DAEN-REM will use the information as the basis for a request to the Attorney General for advice. Under the provision cited, the Attorney General is allowed up to 60 days to furnish the advice requested. The Federal Property Management Regulation, Section 101-47.301.2 provides guidance on the information to be furnished. Where identical bids in excess of the \$2,500 are received, FPMR, Section 101-47.304-8 provides for a report to the Department of Justice. Section 101-47.304-8 provides guidance for such reports to be addressed to the Attorney General, WASH, DC, 20530.

11-233. Determination of Acceptable Offers After Advertising.

a. Generally an acceptable offer is one which:

- (1) Is submitted by a responsible bidder.
- (2) Conforms to the Invitation for Bids.
- (3) Equals or exceeds the appraised fair market value of the property.
- (4) Was independently arrived at in open competition.

b. A formal appraisal is not required where real property components:

- (1) Are to be offered on a competitive sale basis that will adequately test the market.
- (2) Are at the same location and are to be sold under a single advertisement.

\*

ER 405-1-12

Change 12  
27 Oct 80

\*

(3) Have a total estimated fair market value of \$10,000 or less for all property to be sold.

The determination as to necessity for a formal appraisal because of the \$10,000 limitation may be made by an experienced real estate employee who need not be a real estate appraiser. This determination may be in the form of a simple written statement that in the judgment of the signer the property is not considered to exceed \$10,000 in value. In these cases, awards will be supported by a determination by the DE that the market was adequately tested, and the price bid reasonable. For the purpose of records and reports, the sale price will be recorded as the fair market value. If it appears the market was not adequately tested, bids will be rejected and the property readvertised, or, if time does not permit readvertising, a sale may be consummated using the procedure provided in d and e below.

c. All land, irrespective of estimated value, and all other real property and components with an estimated value in excess of \$10,000 will be appraised. Where an acceptable offer, as defined in a and b above, is not received for such property as a result of public advertising, it will be readvertised unless the responsible DE determines, based upon written findings which shall be preserved as part of the permanent file, that further public advertising will serve no useful purpose.

d. Where no acceptable bid is received as a result of the second advertising, or a determination was made that further advertising would serve no useful purpose or is not feasible, the DE may negotiate a sale at the highest price obtainable, provided:

(1) All bids are first rejected.

(2) The total of the appraised value for all property included in any single sales contract does not exceed \$1,000.

(3) All past bidders, on any of the items, and any other known interested parties are afforded a fair opportunity to participate in the negotiations.

(4) The sale price is in excess of the highest bid received as a result of advertising.

(5) In his opinion the price is reasonable.

e. Where the appraised or estimated value of all items to be included in a single sales contract exceeds \$1,000, and no acceptable bid is received, the high bidder may at the discretion of the DE be given a reasonable period, not to exceed five working days, to

\*

\*

increase his bid. At the same time all other bids shall be rejected and bid deposits returned. If the high bidder increases his offer to an amount equal to the total appraised or estimated value of the items involved, the DE may consummate the sale. All other cases will be forwarded to DAEN-REM together with an opinion as to whether the market was adequately tested and the highest price offered is reasonable, and with recommendations as to the course of action to be followed. If a negotiated sale to other than the highest bidder is recommended, information for preparation of a report to the Government Operations Committees of Congress will be included, as required in paragraph 11-234C(2).

11-234. Negotiated Sales.

a. To Private Parties. Negotiated sales to private parties are not viewed with favor. Generally, such negotiated sales will be approved only where an emergency exists that will not permit advertising, where advertising would serve no useful purpose, or where a negotiated sale is in the best interest of the Government. Emergencies which justify sales without advertising do not ordinarily justify sales without competition. Instances are rare where the emergency is such that time does not permit the oral solicitation of quotations from more than one source. In any sales which are made without benefit of advertising, competition by informal solicitation and quotation will be obtained to the maximum extent feasible under the circumstances. Such sales should be negotiated at the best terms obtainable and at not less than the appraised fair market value.

b. To Eligible Agencies

(1) Acts of Congress listed in the Federal Property Management Regulation, Section 101-47.4905 (Illustrations), authorize negotiated sales of surplus real property to states and other eligible public agencies listed therein. The Acts listed, except Section 203(c) (3) (H) of the Federal property Act (40 U.S.C. 484(c) (3) (H)), cover special classifications of property for specialized use, the most important of which is disposal of airport property. The Section of the Act cited authorizes negotiated sales of surplus property to states, territories, possessions, political subdivisions thereof, or tax-supported agencies thereof, provided the appraised fair market value of the property and other satisfactory terms of disposal are obtained. (The other Acts listed in Section 101-47.4905 provide for disposal subject to conditions of use but without consideration, or at reduced consideration, except power transmission lines which are sold without conditions but at the appraised fair market value.) Notification that surplus property is available for disposal will be given to eligible public agencies for \*

ER 405-1-12  
Change 12  
27 Oct 80

\*

all airport property and for any other property where there is reason to believe that an eligible public agency may be interested in the property or that the property may be adaptable to the agency's use (Section IX).

(2) Title 10, United States Code, Section 4682, authorizes the Secretary of the Army to sell obsolete or excess material at fair value to the National Council of the Boy Scouts of America. The Judge Advocate General has held that buildings and other improvements no longer required by the Department be sold to that organization at the appraised fair market value.

c. Authority to Negotiate

(1) The DE is authorized to dispose of land, improvements, related personal property and real property components (including standing timber and embedded sand, gravel, and stone-quarried products in their unmined or natural state) with an estimated fair market value of \$1,000 or less by negotiated sale without advertising, provided that such action is within the purview of a and b above, and satisfactory terms of disposal can be obtained. Except as provided in paragraphs 11-233 and 234b, all sales are not less than the appraised fair market value. See d below for requirement for appraisal by contract.

(2) Another proposals to negotiate sales without advertising will be submitted to DAEN-REM for advance approval. In submitting such proposals, the nature of the emergency or other situation justifying the waiver of advertising will be clearly stated. The property involved will be adequately defined, and the appraised fair market value and proposed price will be set forth. Negotiated sales of surplus property with an appraised value in excess of \$1,000 under provisions of the Federal Property Act cited in b(1) above, require submission of an explanatory statement to the Government Operations Committees of Congress. Under the FPMR, a statement must be submitted at least 35 days in advance of each such negotiated disposal. When required, the DE will forward a draft of statement to HQDA (DAEN-REM) for transmittal to GSA for submission to the Committees.

d. Appraisal by Contract. Pursuant to Federal Property Management Regulation, Section 101-47.304-9(b), where sales are to be negotiated under the authority provided by paragraph 11-234 a and b above, a contract appraisal should be obtained provided that the cost of such a contract would not be out of proportion to the recoverable value of the property and is in the best interest of the Government. If such is not the case, the head of the disposal agency, or his designee, may authorize any other appropriate method to obtain an estimate of fair market value. Requests for waiver will be forwarded to DAEN-REM. \*

e. Record to Justify Waiver of Advertising

(1) A written justification for negotiated sales made under the authority of these instructions will be prepared and filed by the DE with the record of disposal in each case. A copy of Standard Form 1036 may be used for this purpose.

(2) Except for those cases covered by b above, the nature of the emergency compelling waiver of advertising, the reason why it was considered that advertising would serve no useful purpose, or why the negotiated sale was considered to be in the best interest of the Government, will be clearly stated. In cases where an explanatory statement is transmitted to the Committees on Government Operations, a copy of that statement will be furnished the appropriate GSA Regional Office and filed with record of the case as the required documentation of justification for waiver of advertising. DAEN-REM will make available to the DE necessary copies of such statements for filing or distribution.

11-235. Form of Invitation for Bids and Contract of Sale. Sale contract forms will be prepared by the DE conducting the sale. ENG Form 571-R, DA Invitation for Bids, Bid and Acceptance, Sale of Surplus Real Property (Figure 11-21) will be used as a guide in sales of bare land or improved land and related personal property. ENG Form 1038-R, DA Invitation for Bids, Bid and Acceptance, Sale and Removal of Buildings (or other Real Estate Improvements) Located At \_\_\_\_\_ Figure 11-22), will be used as a guide in sales of buildings and other improvements for removal from the site. These forms are designed for use in normal sales of land and real estate improvements pursuant to existing delegations of authority. The DE is authorized to change formats, to rearrange the sequence of paragraphs, and to add or to delete paragraphs in whole or part, as local circumstances require, but no substantive departure from the forms is authorized without prior specific approval of DAEN-REM. Whenever a sale is to be conducted pursuant to a special delegation of authority, and whenever the circumstances of a sale are such as to render use of these forms inappropriate, a form will be devised by the DE to meet the requirements of the particular sale involved, and forwarded to  
\* DAEN-REM for approval. ENG Form 4808, Minor Forest Products Sales Contract, will be used to sell timber byproducts. Copies will be furnished to the purchaser, District Financial Accounting Officer, head of project office and the resource manager or post forester. Minor forest products are defined as timber byproducts with a fair market value of less than \$1,000. Suggested additional provisions and conditions for use in the sale of  
\* standing timber are contained in ENG Form 2140-R, Supplement to Standard Form 114 for Use in Timber Sales Contract (Figure 11-23). In preparing sale contract forms, the following instructions will be followed:

- a. A definite date and time will be set for the opening of bids.
- b. Bids will be prepared in quadruplicate, all copies to be signed by the bidder.

ER 405-1-12  
Change 20  
10 Jun 83

\* c. The Invitation for Bids will require each bidder to submit with his bid a certified check, cashier's check, traveler's check, or United States postal money order drawn to the order of the "Finance and Accounting Officer, U.S. Army Corps of Engineers" for at least 20 percent of the bid. \* When the cash bid may be a small part of the total consideration (where such dismantling and restoration is involved), the DE should set a definite higher amount as a bid deposit. Also, in such cases a performance bond, adequate to discourage breach of contract after only partial performance, may be required.

d. For real property components the Invitation for Bids will require payment in full within seven days after the successful bidder is notified that his bid is accepted and, in any event, prior to removal of the property. The time specified for completion of payment for land will depend upon the sum of money involved.

e. Bids may be submitted for one or any number of items. Items or lots of real property will be offered in such reasonable quantities as to permit all bidders, small as well as large, to compete on equal terms. Land, however, will not be subdivided solely for this purpose, and in the case of timber sales or sales of embedded sand, gravel and stone, it may not be feasible to have more than one purchaser operating in the same area. Further, it may not be to the Government's interest. Buildings will be offered for sale as single items whenever practicable but submission of bids covering specified groups as an item or all of the buildings may be permitted if the DE considers such a procedure is in the best interest of the Government. It may sometimes be advantageous to divide the buildings into appropriate groups and to permit bidding on individual buildings or on specified groups of buildings or on the entire lot. When such bids are permitted, the Invitation for Bids, ENG Form 1038-R, will be flagged to inform bidders that lump sum bids on the entire lot (and specified groupings, if this procedure is appropriate) may be made but will not be accepted unless the lump sum bid exceeds the total of the highest bids received on each item (or on the groupings).

11-236. Credit. Payment of the purchase price over an extended period of time should be considered only when the price is a considerable amount, and it may be to the Government's interest to extend credit. prior to offering property for sale on an extended payment plan basis, approval from DAEN-REM will be obtained. Extension of credit will be within the limitations of FPMR, Section 101-47.304-4. Credit cannot be extended, except to state or local governments, nor can any other special condition be applied, unless provision was made for it in the Invitation for Bids.

\*

11-237. Extensions of Time. Granting an extension of time, where unusual or unforeseeable circumstances are not present, is contrary to the form of the Invitation for Bids, and amounts to the application of special conditions not provided for therein. This violates GSA regulations and the principles of fair competition. Adoption of the following guides in the development and administration of sales programs will help to avoid unjustified requests for extensions of time:

a. Establishment of realistic periods for completion of the sales contract.

b. Necessary and justified extensions to be authorized subject to posting additional bond to insure performance and payment of adequate consideration where use of Government land is involved.

c. Reasonable restrictions on resale of improvements at the site.

d. Prohibition against posting advertising signs and storage of salvaged material on the installation pending sale to other customers.

11-238. Abstract of Bids. At the opening of bids, DD Form 1501 or 1501-1 (Abstract of Bids) will be prepared showing bid received, the amount for each item, and the total. The successful bid will be encircled in red or typed in red.

11-239. Payments. All payments should be in the form of cash, cashier's check, money order, traveler's check, draft, or any other form of payment not subject to stoppage or revocation. All such checks, money orders, or drafts should be drawn to the order of the "Treasurer of the United States. "

11-240. Sale To Employees or Military Personnel. The sale of Government real property will not be made to civilian employees or military members of the Department of Defense (including an agent, employee or member of the immediate family of such personnel) whose duties include any functional or supervisory responsibility for the disposal of real property under Army control.

11-241. Equal Opportunity - Sales of Timber, Embedded Sand, Gravel, Stone, and Surplus Structures. Consistent with Executive Order No. 11246 as amended by Executive Order No. 11375, every Government contract involving employment shall include provisions for equal opportunity in employment, in connection with the performance of work under the contract. The equal employment opportunity clause in DAR 7-103.18 will be included in all contracts and first-tier sub-contracts over \$10,000 pertaining to the following real estate actions in the United States and its possessions, unless exempted under the provisions of DAR 12-805. \*

ER 405-1-12

Change 12  
27 Oct 80

\*

a. Sale of standing timber.

b. Sale of embedded sand, gravel, and stone in their natural state.

c. Sale of surplus structures where an appreciable amount of dismantling and site restoration is involved.

11-242. Statement of Contingent or Other Fees. The instructions and procedures contained in Section I, Part 5, DAR, are applicable to the sale of Government-owned real property and will be followed. Where applicable the statement set forth in DAR 1-506 will be included in Invitation for Bids and Contracts of Sale and an identical signed statement will be secured from the prospective purchaser where the property is to be sold without advertising for competitive bids. In addition to the statement, Standard Form 119 (Contractor's Statement of Contingent or Other Fees for Soliciting or Securing, or Resulting From Award of Contract) will be completed where either part of the statement is answered in the affirmative. The exceptions to the use of the statement and Standard Form 119 are set forth in DAR 1-506-3 and may apply generally to real property sales of the Army, Air Force and non-defense agencies except that the monetary limitation prescribed by DAR 1-506.3 is \$1,000 insofar as sales or property of the Department of Energy are concerned.

11-243. Preparation and Distribution of Sales Documents and Reports of Sales.

a. Report of Funds Received. As funds are collected from sales, reports will be prepared promptly. Sales may be allowed to accumulate to permit the making of fewer reports, but in no case will they go unreported longer than 48 hours. DD Form 1131 and supporting papers will be signed by the DE conducting the sale.

b. Numbering of Contracts. The numbering of contracts involving the receipt or expenditure of funds will be in accordance with ER 1180-1-1 (ECI 30-203).

c. Documentation and Reports of Sale. The DE responsible for the sale will prepare and retain copies of documents pertaining to the sale, and will make required distribution of the following (see d below):

(1) Contract - one signed and two authenticated copies.

(2) DD Form 1501 or 1501C (Abstract of Bids)- one copy (not required for negotiated sales).

\*

\*

(3) DD Form 1131 - four copies. All sales will be listed on DD Form 1131, extended if necessary. Separate forms are not required for each contract. When receipts from more than one contract are reported on one DD Form 1131, all related contracts will be attached to and transmitted with the form.

4) Standard Form 1036, Statement and Certificate of Award, attached to the original signed contract and the DE's copy of each contract, or separate statement justifying negotiation (paragraph 11-234, supra).

(5) Advertisement, if any - two copies.

(6) Bond, if any - two signed copies.

d. Distribution of Reports of Sale.

(1) Military Property. The finance officer will be furnished one authenticated copy of the contract and four executed copies of DD Form 1131, together with funds collected. The finance officer will retain the contract, funds, and one copy of DD Form 1131, and will receipt and return to the responsible DE three copies of DD Form 1131.

(2) Civil Works Property. The finance officer will be furnished four executed copies of DD Form 1131, together with funds collected, an authenticated copy of each contract, Standard Form 1036 or a statement justifying negotiation, copy of advertisement, if any, and or original signed bond, if any. Three copies of DD Form 1131 (Cash Collection Voucher) will be receipted and returned to the DE.

11-244. Insurance Against Loss or Damages to Buildings and Improvements by Fire or Acts of God. The Department does not carry property insurance of any nature. Vendees, however, may be advised as to their liability for certain losses and that insurance protection against such risks is optional. Under the FPMR, the vendee must provide insurance to protect the United States when credit is extended (Section 101-47.304-4(f)).

SECTION XV  
INSPECTIONS TO INSURE COMPLIANCE WITH  
DISPOSAL CONDITIONS

\*

11-248. Properties Requiring Compliance Inspections. The principal properties conveyed which require inspections are for the training of civilian components of the Armed Forces. However, other properties are sometimes conveyed under special acts of Congress subject to conditions required by the authorizing act. These properties will also be inspected for compliance with such conditions.

11-249. Civilian Component Training Facilities.

a. Authority. Under the provisions of the Surplus Property Act of 1944, as amended, a number of surplus real properties of the United States certified by the Governor of the state in which located and by the Secretary of the Army, Navy or Air Force as the case was, as being suitable and needed for use in training and maintaining civilian components of the Armed Forces under their respective jurisdictions, were conveyed by the Administrator of the War Assets Administration or by the General Services Administration to states, their political subdivisions or tax-supported instrumentalities for such purposes. These conveyances contained a number of covenants, conditions, restrictions and reservations, designed to insure the use and maintenance of the property and appurtenances for the purpose for which conveyed and otherwise to protect the interests of the United States. The Secretary of Defense is authorized by 40 U.S.C. (484(k) (4) (d) to:

(1) Determine and enforce compliance with the terms, conditions, reservations and restrictions contained in any instrument by which such transfer was made;

(2) Reform, correct, or amend any such instrument by the execution of a corrective, reformative, or amendatory instrument where necessary to correct such instrument or to conform such transfer to the requirements of applicable law; and

(3) Grant releases from any of the terms, conditions, reservations and restrictions contained in, and convey, quitclaim, or release to the transferee or other eligible user any right or interest reserved to the United States by any instrument by which such transfer was made, if he determines that the property so transferred no longer serves the purpose for which it was transferred, or that such release, conveyance, or quitclaim deed will not prevent accomplishment of the purpose for which such property was transferred: Provided, that any such release, conveyance, or quitclaim deed may be granted on, or made subject to, such terms and conditions as he shall deem necessary to protect or advance the interest of the United States. \*

\*

b. Authority Delegated. The authority vested in the Secretary of Defense under the Act cited in a above has been redelegate to the Secretary of the Army and the Secretary of the Force, respectively (Department of Defense Directive 5100.10, dated 16 March 1972).

11-250. Inspections of Civilian Component Training Facilities and Other Properties Conveyed Subject to Conditions. The DE, within whose areas of military real estate operations are located the facilities conveyed under paragraph 11-249, supra, will make physical inspections thereof for the purpose of determining compliance with the terms of the conveyance. Any evidence of noncompliance should be reported to DAEN-REM in order that appropriate recommendations may be made to the respective Secretary for corrective action. A detailed statement of the facts and recommendations of the DE should be included in the report. Inspections should be scheduled and integratd with outlease compliance inspection itineraries in the interest of economy. This requirement for inspections extends to properties conveyed by the Secretary of the Army or Air Force under special legislation, where the deed of conveyance imposes conditions on future use of the land. These inspections need not be made annually but frequently enough so that the DE is assured that the conditions are being observed, and at least every three years. Compliance with conditions in deeds for property conveyed for airport purposes under 49 U.S.C. 1723 and 50 App. U.S.C. 1622g is the responsibility of the Secretary of Transportation; for property conveyed for purposes of health and education, the Secretary of Health, Education, and Welfare or its successor agencies (40 U.S.C. 484(k) (4)). The Commander, U.S. Army Materiel Development and Readiness Command, is responsible for compliance with the National Security Clause, and similar conditions, in deeds conveying industrial properties.

11-251. Inspections of Civil Works Properties. Disposal of real estate interests which impose restrictions on the use of the land, or reserve an estate in the land, will be inspected for compliance on an annual or other reasonable basis to assure compliance.

DEPARTMENT OF THE ARMY  
 SUBMITTED BY OFFICE, CHIEF OF ENGINEERS  
 REAL ESTATE  
 DISPOSAL REPORT NO. \_\_\_\_

Submitted pursuant to Title 10, United States Code, Section 2662

Name of Installation: Fort Brown, Greenfield, Connecticut  
 Using Service (Command): United States Army Forces Command  
 Former Use: Training Camp  
 Interest: Fee  
 Area: 3,000 Acres  
 Original Cost: Land: \$ 250,000  
 Improvements: 5,000,000  
 Total \$5,250,000  
 Acquisition Date: 1942  
 Proposed Action: Report to General Services Administration  
 as excess real property  
 Authority: Federal Property and Administrative  
 Services Act of 1949 (63 Stat. 377)

Par. 1. "The Department of the Army proposes . . . ." (Here make a brief statement of the proposed action being reported to the Congress.)

Par. 2. Set out concise historical background of installation involved, which may include: Date and purpose of establishment; summary history of real estate data including original land acquisition and cost, with fee, easement and other types of ownership to be listed separately, and similar information for additional acquisitions, disposals, and for the current holdings, showing total acreage and cost of fee, easement, and other types of real estate holdings and costs thereof.

Brief chronological summary of installation, indicating active and inactive periods, current mission and present uses for other than assigned mission including other Army, Navy and Air Force, non-military Government, and civilian use. \*

DEED WITHOUT WARRANTY

THIS DEED, made this \_\_\_\_\_, 19\_\_\_\_  
by and between the United States of America, Grantor, acting by and  
through the Secretary of the Army, under and pursuant to the powers and  
authority contained in Section 23 of the Airport and Airways Development  
Act of 1970 (84 Stat. 232; 49 U.S.C. 1723) and in conformity with Part 154  
of Title 14 and Section 0.67 of Title 28 of the Code of Federal Regulations  
and Executive Order No.12079, 43 Fed. Reg. 42233 (1978) and in accordance  
with the request of the Administrator of the Federal Aviation Administra-  
tion (herein called the "Administrator"), and the City of \_\_\_\_\_,  
organized and existing as a City of the \_\_\_\_\_ Class under the laws  
of the State of \_\_\_\_\_ with principal office and place  
of business in the City of \_\_\_\_\_, State of \_\_\_\_\_,  
Grantee.

WHEREAS, it has been determined that the conveyance requested by the  
City of \_\_\_\_\_ is not inconsistent with the needs of the  
Department of the Army.

WITNESSETH: That the Grantor, in consideration of the benefits which  
shall accrue to the public by virtue of the use of the property herein-  
after described for public airport purposes, does hereby bargain, sell  
grant and convey without warranty, express or implied subject to the  
conditions, covenants and reservations hereinafter set forth, unto the  
Grantee all of its right, title and interest in and all those certain  
parcels of land designated as a portion of Fort \_\_\_\_\_ Military  
Reservation, situated in the County of \_\_\_\_\_,  
State of \_\_\_\_\_, to wit:

A tract of land in the \_\_\_\_\_ of Section \_\_\_\_\_,  
Township \_\_\_\_\_, Range of the \_\_\_\_\_ Meridan  
in \_\_\_\_\_ County \_\_\_\_\_, described as  
follows:

Beginning at \_\_\_\_\_ (Complete legal description of tract) \_\_\_\_\_.  
The tract of land hereby conveyed contains \_\_\_\_\_ acres, more or  
less.

\*

Figure 11-3a

ER 405-1-12

Change 12

27 Oct 80

This Grant is subject to the following covenants and conditions which the Grantee, by acceptance of this deed, assumes for itself and its successors and assigns, as covenants running with the land:

1. That the grantee will use the property interest for airport purposes, and will develop that interest for airport purposes within one year after the date of this conveyance, except that if the property interest is necessary to meet future development of an airport, in accordance with the National Airport System Plan, the grantee will develop that interest for airport purposes on or before the period provided in the plan or within a period satisfactory to the Administrator and any interim use of that interest for other than airport purposes will be subject to such terms and conditions as the Administrator may prescribe.

2. That the airport, and its appurtenant areas and its buildings and facilities, whether or not on the land conveyed, will be operated as a public airport on fair and reasonable terms, without discrimination on the basis of race, color, or national origin, as to airport employment practices, and as to accommodations, services, facilities, and other public uses of the airport.

3. That the grantee will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now owned or controlled by it.

4. That in the operation of the airport and its appurtenant areas, the grantee:

a. agrees that no person shall be excluded from any participation, be denied any benefits or be otherwise subjected to any discrimination, on the grounds of race, color, or national origin;

b. agrees to comply with all requirements imposed by or pursuant to Part 21 of the Regulations of the Office of the Secretary of Transportation (49 CFR 21) - nondiscrimination in federally assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.

5. That the furtherance of the policy of the FAA under this covenant, the grantee:

a. agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft \*

Figure 11-3b

ER 405-1-12  
Change 12

\* rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which, because of their direct relationship to the operation of aircraft, can be regarded as an aeronautical activity; and

b. agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

c. agrees that it will terminate forthwith any other exclusive right to conduct any aeronautical activity now existing at such an airport.

6. That any later transfer of the property interest conveyed will be subject to the covenants and conditions in this instrument of conveyance.

7. That, if the covenant to develop the property interest (or any part thereof) for airport purposes within one year after the date of this conveyance is breached, or if the property interest (or any part thereof) is not used in a manner consistent with the terms of the conveyance, the Administrator may give notice to the grantee requiring him to take specified action towards development within a fixed period. These notices may be issued repeatedly, and outstanding notices may be amended or supplemented. Upon expiration of a period so fixed without completion by the grantee of the required action, the Administrator may, on behalf of the United States, enter, and take title to, the property interest conveyed or the particular part of the interest to which the breach relates.

8. That, if any covenant or condition in the instrument of conveyance, other than the covenant contained in paragraph 7 of this section, is breached, the Administrator may, on behalf of the United States, immediately enter, and take title to, the property interest conveyed or, in his discretion, that part of that interest to which the breach relates.

9. That a determination by the Administrator that one of the foregoing covenants has been breached is conclusive of the facts; and that, if the right of entry and possession of title stipulated in the foregoing covenants is exercised, the grantee will, upon demand of the Administrator, or his successor in function, take any action (including prosecution of suit or executing of instruments) that may be necessary to evidence transfer to the United States of title to the property interest conveyed, or, in the Administrator's discretion, to that part of that interest to which the breach relates. \*

TO PUBLIC BODIES IN THE \_\_\_\_\_

Notice of the Availability of Land for Development  
of Public Port or Industrial Facilities

Pursuant to provisions contained in Section 108 of Public Law 86-645,  
86th Congress, \_\_\_\_\_ (General Description of Property)

is available for sale to the State of \_\_\_\_\_, political  
subdivisions thereof, port districts, port authorities, or other bodies  
created by the State for the purpose of developing or encouraging the  
development of public port or industrial facilities. The parcel of land  
is about \_\_\_\_\_ (location).

Any sale of this property shall be at the fair market value of the land,  
as determined by the Secretary of the Army, upon condition that the prop-  
erty shall be used for public port or industrial purposes and subject to  
such conditions, reservations or restrictions as the Secretary may  
determine to be necessary for the development, maintenance, or operation  
of the \_\_\_\_\_ (Project)  
or otherwise in the public interest.

A legal description of this land will be mailed upon request.

Applications for purchase of this property must be filed in writing  
with me by \_\_\_\_\_. Applications must state fully  
the purposes for which the land is desired and the scope of the proposed  
development.

SAMPLE QUITCLAIM DEED

FOR PUBLIC PORT OR INDUSTRIAL FACILITIES

THIS INDENTURE, made by and between the United States of America, acting by and through the Secretary of the Army, under and pursuant to the powers and authority contained in Section 108 of the Act of Congress approved July 14, 1960 (Public Law 86-645; 74 Stat. 486), party of the first part, and the \_\_\_\_\_, party of the second part.

WHEREAS, pursuant to said Act and to the Delegations, Rules and Regulations of the Secretary of the Army, as published in the Federal Register of March 11, 1961 (Volume 26, No. 47, pages 2117-2118), it has been determined (1) that the development of public port and industrial facilities on the hereinafter described land within the \_\_\_\_\_ Project, a water resource development project under the jurisdiction of the Department of the Army, will be in the public interest; (2) that such development will not interfere with the operation and maintenance of the \_\_\_\_\_; and (3) that disposition of such land for this purpose will serve the objectives of the \_\_\_\_\_ Project.

NOW, THEREFORE, in consideration of the sum of \_\_\_\_\_ (\$ \_\_\_\_\_), and subject to the exceptions, reservation, restrictions, covenants and conditions hereinafter set forth, the party of the first part hereby conveys and quitclaims unto the party of the second part, its successors and assigns: \*

Figure 11-5a

ER 405-1-12  
Change 12  
27 Oct 80

\* FOR PUBLIC PORT PURPOSES ONLY, all right, title and interest of the United States of America in and to the real estate described as follows:

TRACT A

and,

FOR INDUSTRIAL PURPOSES ONLY, all right, title and interest of the United States of America in and to the real estate described as follows:

TRACT B

SUBJECT TO the following exceptions and rights outstanding in third parties: Existing easements for public roads and highways, public utilities, railroads and pipelines.

EXCEPTING, SAVING AND RESERVING unto the United States of America and its assigns, from this conveyance the following rights, power, privileges and easements, namely:

(Set forth exceptions and reservations deemed necessary for purpose of the project.)

The said party of the second part does by the acceptance of this deed, covenant and agree for itself, and its successors and assigns, forever, as follows:

(Set forth conditions of conveyance)

- 1.
- 2.
- 3.
- 4.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*  
5. The Grantee agrees to construct public port facilities only on the area described as Tract A and to construct industrial facilities only on the area described as Tract B.

PROVIDED, HOWEVER, that if any portion of the above described tracts is used for any purpose other than the purpose designated in Condition 5 above then all right, title and interest in and to the portion of the tract so used shall revert to and become the property of the United States at its option and it shall have the immediate right of entry upon said premises, subject to the conditions hereafter set forth.

In the event of a breach of the above condition pertaining to public port and industrial use, the Grantor shall, before claiming any forfeiture, give notice in writing of said breach, and of its intention to exercise said option, to the then occupant of the premises. Said occupant shall have a period of sixty (60) days after receipt of said notice to correct and cure said breach. The right of entry of the Grantor shall arise and become exercisable only after the termination of said sixty (60) day period and failure of the then occupant to correct or cure said breach.

In the event of the failure or refusal of the then occupant of said premises to correct or cure said breach within the time limited, and after exercise by the Grantor of its right of entry, said occupant shall have a reasonable time, not to exceed 120 days, to remove any improvements that have theretofore been placed upon said premises. Such right of removal shall under no circumstances permit such occupant to cause damage to the land involved. In the event that said occupant fails to

\*

Figure 11-5c

11-214

\* remove said improvements within the time limited, they shall become the property of the United States.

Failure of the United States to exercise its right of entry upon breach of the above condition pertaining to public port and industrial use shall not be construed as a waiver or relinquishment of said right.

TO HAVE AND TO HOLD the above-described premises unto the said  
its successors and assigns, forever, subject  
to the exceptions, reservations, restrictions covenants, and conditions  
herein contained.

FORMAT FOR NOTICE OF AVAILABILITY

GOVERNMENT AIRPORT PROPERTY

FOR DISPOSAL

(BRIEF DESCRIPTION - LOCATION)

Terms and conditions of disposal, and all necessary information about this property, will be furnished upon request at the office of the District Engineer, U.S. Army Engineer District, \_\_\_\_\_, \_\_\_\_\_.

Acquisition of this property is subject to the following priorities: (1) Federal Government agencies; (2) State and local governments, and tax-supported institutions. Your priority expires \_\_\_\_\_ days after date of this notice, if no advice is received of your interest in acquiring the property.

To receive consideration, proposals from priority holders must be submitted on special forms obtainable at the \_\_\_\_\_ District Engineer's Office, and must arrive at that office within \_\_\_\_\_ days after date of this notice, or not later than (a reasonable time so determined by the District Engineer)\_\_\_\_\_.

States, political subdivisions, municipalities and tax-supported institutions may, on a priority basis immediately following that of Federal Government agencies, acquire this property under the terms and conditions of Title 50, Appendix, United States Code, Section 1622(g) as amended. \*

Figure 11-6

ER 405-1-12  
Change 12  
27 Oct 80

\* APPLICATION FOR AIRPORT PROPERTY  
BY STATE, POLITICAL SUBDIVISION, MUNICIPALITY, OR TAX-SUPPORTED INSTITUTION

APPLICATION is hereby made to the District Engineer, \_\_\_\_\_,  
by \_\_\_\_\_  
(hereinafter referred to as Applicant) for the transfer to it, upon the  
terms and conditions hereinafter set forth, of surplus property consti-  
tuting all or part of the installation generally known as \_\_\_\_\_  
Air Force Base located near \_\_\_\_\_, State of \_\_\_\_\_,  
including certain personal property, all as more particularly described in  
Schedule "A" attached hereto and made a part hereof. All real or personal  
property described in Schedule "A" is hereinafter referred to as the  
"airport."

TERMS AND CONDITIONS

1. This application and its acceptance by the District Engineer, \_\_\_\_\_  
\_\_\_\_\_, hereinafter referred to as the Government shall constitute  
the entire agreement between the applicant and the Government unless  
modified in writing signed by both parties.
2. Applicant warrants that no person or agency has been employed or  
retained to solicit or secure acceptance of this application upon an  
agreement or understanding for a commission, percentage, brokerage,  
or other contingent fee, except bona fide employees or bona fide  
commercial agencies maintained by the applicant for the purpose of  
doing business. For breach or violation of this warranty, the Govern-  
ment shall have the right to annul this contract without liability, or  
in its discretion to require applicant to pay to it the full amount of  
such commission, percentage, brokerage, or contingent fee.
3. The failure of applicant to inspect fully the property described in  
Schedule "A" or to be fully informed as to the condition thereof will not  
constitute grounds for any noncompliance with the terms of this applica-  
tion if accepted by the Government. \*

Figure 11-7a

\* 4. The property offered for disposal will be transferred "as is" and "where is" without warranty or guaranty, express or implied, of any kind or nature.

5. Transfer of property shall be accomplished by an instrument of transfer in form satisfactory to the Government without warranty, express or implied, and shall contain covenants running with the land for the observance by the transferee of the following reservations, restrictions, and conditions; except that the provisions of a(1) and (2) shall be included in the instrument of transfer as conditions subsequent rather than covenants:

a. Use by the Transferee.

(1) That, except as provided in subsection (4) hereof, the above-described property, hereinafter called "the airport," shall be used for the use and benefit of the public as a public airport on reasonable terms and without unjust discrimination and without grant or exercise of any exclusive right for use of the airport within the meaning of subsection 13 (g) (2) (C) of the Surplus Property Act of 1944, as amended.

(2) That, except as provided in subsection (4) hereof, the entire landing area, and all structures, improvements, facilities and equipment in which any interest is transferred shall be maintained for the use and benefit of the public at all times in good and serviceable condition to assure its efficient operation, provided, however, that such maintenance shall be required as to improvements, facilities, and equipment only during the remainder of their estimated life as determined by the Administrator of the Federal Aviation Agency or his successor. In the event materials are required to rehabilitate or repair certain of the aforementioned improvements, facilities, or equipment, they may be procured by demolition of other improvements facilities, or equipment conveyed as a result of this application and located on the above-described premises, which, in the opinion of the Administrator of the Federal Aviation Agency or his successor, have outlived their use as airport property.

(3) That insofar as is within its power, the transferee shall adequately clear and protect the aerial approaches to the airport by removing, lowering, relocating, marking, or lighting, or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

(4) That none of the property described in Schedule "A" shall be used, leased, sold, salvaged, or disposed of by the grantee or transferee for other than airport purposes without the written consent of the Administrator of the Federal Aviation Agency, which consent shall\*

Figure 11-7b

ER 405-1-12

Change 12

27 Oct 80

- \* be granted only if the Administrator of the Federal Aviation Agency determines that the property can be used, leased, sold, salvaged, or disposed of for other than airport purposes without materially and adversely affecting the development, improvement, operation, or maintenance of the airport at which such property is located.

b. Use by the Government.

(1) That the United States of America through any of its employees or agents shall at all times have the right to make nonexclusive use of the landing area of the airport at which any property applied for herein is located or used, without charge; provided, however, that such use may be limited as may be determined at any time by the Administrator of the Federal Aviation Agency to be necessary to prevent undue interference with use by other authorized aircraft; provided, further that the United States shall be obligated to pay for damages caused by such use, or, if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area commensurate with the use made by it.

(2) That during any national emergency declared by the President of the United States of America or the Congress thereof, including any existing national emergency, the United States shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession, without charge, of the airport at which the surplus property applied for herein is located or used, as it then exists, or of such portion thereof as it may desire; provided, however, that the United States shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively, or over which it may have exclusive possession or control, during the period of such use, possession, or control and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintenance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession; provided, further, that the United States shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively, of any improvements to the airport made without United States aid and never owned by the United States.

c. Miscellaneous.

(1) That no exclusive right, as defined in subsection (g)(2)(C) of section 13 of the Surplus Property Act of 1944, as amended, for the use of the airport at which the property applied for herein is located or used shall be vested (either directly or indirectly) in any person or persons to the exclusion of others in the same class. \*

Figure 11-7c

11-220

\* (2) That the applicant shall grant or obtain for the benefit of the United States a release from any and all liability it may be under for restoration or other damages under any lease or other agreement covering the use by the United States of any airport, or part thereof, owned, controlled, or operated by the applicant, upon which, adjacent to which, or in connection with which the surplus property applied for herein was located or used; provided, that no such release shall be construed as depriving the applicant of any right it may otherwise have to receive reimbursement under section 17 of the Federal Airport Act for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal Agency.

d. Reservations and Restrictions.

(1) That, in the event that any of the terms, conditions, reservations, and restrictions upon or subject to which the property is disposed of are not met, observed, or complied with, whether due to legal inability or otherwise, the title, right of possession, and all other rights transferred shall at the option of the United States revert in then existing condition to the United States upon demand made in writing by the Administrator of the Federal Aviation Agency, or his successor, at least sixty (60) days prior to the date fixed for the reversion of such title, right of possession, and other rights transferred, provided the breach shall not have been remedied within such sixty (60) day period.

(2) That any of the property described in Schedule "A" maybe successively transferred only with approval of the Administrator of the Federal Aviation Agency, or his successor, to the extent required by the provisions of Subsection (a)(4) of Section 5 hereof, with proviso that any such transferee assumes all the obligations imposed herein.

(3) If the construction as covenants of any of the foregoing reservations and restrictions recited herein as covenants or the application of the same as covenants in any particular instance is held invalid, the particular reservations or restrictions in question shall be construed instead merely as conditions upon the breach of which the United States may exercise its option to cause the title, interest, right of possession, and other rights transferred, or any portion thereof, to revert to it, and the application of such reservations or restrictions as covenants in any other instance and the construction of the remainder of such reservations and restrictions as covenants shall not be affected thereby.

e. Transferee's Obligations. The transferee shall take title subject to such rights, if any, as third persons may have in the above-described premises at the date of disposal of said premises by virtue

\*

Figure 11-7d

ER 405-1-12  
Change 12  
27 Oct 80

\* of any grant from the United States or others and shall assume all duties, obligations, and liabilities of the United States or any agency thereof thereunder and hold the same harmless from all claims arising therefrom.

f. Mineral Rights. Subsurface rights to minerals or other interests included in the real property transferred for airport purposes may not be exploited in such a way as will interfere with the efficient operation of the airport.

g. United States Rights. The reservation in the United States of the right, title, and interest in and to all property of whatsoever nature not specifically transferred, together with right of removal thereof from the premises within a reasonable time, which shall not be construed to mean any period less than one (1) year after the date of the instrument of transfer. During such period, the United States, its agents, customers, transferees, successors in interest, and assigns shall have a right of ingress to and egress from the premises for the purpose of using, disposing of by sale or otherwise, and removing such property.

h. Application of Subparagraphs a, b, and c. The condition that, if permitted by law, the provisions of subparagraphs a, b, and c, above shall apply with equal force and effect to the airport in its present location, in instances where the airport itself is not included in the disposal.

i. Payment in Cash of Taxes, Assessments, etc. The transferee shall make payment in cash to the Government of an amount of money equivalent to the pro rata amount, as of the date of acceptance of the bid of the transferee, of all taxes, assessments, and similar charges made against the property conveyed, in instances where the particular Government agency holding the property is liable for the payment of such taxes, assessments, or charges.

j. Waiver of Any Existing Option. The transferee must obtain for the benefit of the Government, in form satisfactory to it, a waiver of any existing option granted to purchase the airport or any portion thereof.

6. From the time the Government gives notice of acceptance of the application, the applicant shall bear all risks and shall bear any and all losses sustained by reason of damage or injuries that may be suffered by the airport property, and notwithstanding such losses, damage, or injuries, each and all of the provisions of the agreement formed by acceptance of this application shall remain unimpaired and in full force and effect. \*

Figure 11-7e

\* 7. Upon receipt of Notice of Acceptance of the application by the Government, the successful applicant may, at its option, and upon notification to the Government and approval of the holding Government agency, immediately enter into possession of the airport property and use, operate, and maintain the same subject to, and in accordance with, all of the terms and conditions hereinabove set out and in addition, for the period prior to delivery of the instrument or instruments of transfer conveying legal title, subject to, and in accordance with, following provisions and conditions:

a. Transferee Shall Comply with all Pertinent Rules, Etc. The operation of the airport property shall be subject to such regulations as may be prescribed by the Administrator of the Federal Aviation Agency from time to time, and the transferee shall comply with all pertinent laws, ordinances, rules, orders, or other applicable regulations and shall hold the United States harmless from any liability or penalty which may be imposed by reason of any asserted violation thereof by the transferee.

b. Limitations on Major Structural Changes. The transferee shall not make, permit, or suffer any additions, improvements, or alterations to the airport property which constitute any major structural change or changes unless such change or changes (1) are made in carrying out a project under the Federal Airport Act of 1946, as amended (49 U.S.C. 1101); or (2) are made with the prior written consent of the Administrator of the Federal Aviation Agency. Change or changes made with the prior written consent of said Administrator and not under the Federal-Aid Airport Program shall be solely at the expense of the transferee, and unless such consent provides specifically that title to the addition or improvements so made shall vest in the transferee, title thereto shall at all the transferee, title thereto shall at all times remain in the United States and such additions or improvements shall be subject to all terms and conditions of this instrument. The transferee agrees to hold the United States harmless from mechanics' and materialmen's liens arising from any additions, improvements, or alterations effected by the transferee.

c. Right of Inspection. The District Engineer and the Federal Aviation Agency, or the designated representatives of either of them, shall have the right to inspect the airport at all times.

d. Claim for Damages. The transferee agrees to maintain, indemnify, and save harmless the United States against and from any and all claims for damages which may arise from or in connection with the privileges herein granted, excepting claims for injuries or death to persons resulting from willful or negligent acts or omissions of the United States or any of its officers, employees, agents, or agencies. \*

Figure 11-7f

ER 405-1-12  
Change 12  
27 Oct 80

\* e. Payment of Charges Due. The transferee shall assume responsibility for the payment of all taxes and assessments and public utility charges becoming due on the property from the date of its entering into possession of the airport property.

f. Violation or Neglect of Contract. That if the transferee violates or neglects to perform any of the terms or conditions of the agreement formed by the acceptance of its application, it will, if required by the Administration, vacate said premises, remove all property of the transferee therefrom and restore the land, improvements, facilities, and equipment included herein to as good condition on such date of expiration or relinquishment as when received, ordinary wear and tear excepted. If the transferee shall fail or neglect to remove said property and to restore the land, improvements, facilities, and equipment included herein, then, at the option of the Government, said property shall either become the property of the United States without compensation therefor, or the Government may cause the property to be removed and the land, improvements, facilities, and equipment included herein to be so restored at the expense of the transferee and no claim for damage against the United States or its officers or agents shall be created by or made on account of such removal and restoration.

g. When Government Property is Unaccounted For. If, upon removal of the transferee from the premises prior to its acceptance of delivery of the instrument or instruments of transfer conveying title to the airport, any property (other than usable supplies and maintenance materials) of the United States is unaccounted for, the transferee shall make replacement to the satisfaction of the Administrator of the Federal Aviation Agency, or in lieu of such replacement, the transferee shall, if so required by the Administrator of the Federal Aviation Agency, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States or any of its agencies.

8. The successful applicant agrees to perform all acts necessary or desirable to enable it to enter into possession of the property within \_\_\_\_\_ days after acceptance of its application by the Administration and agrees to enter into possession not later than that date, under the same provisions and conditions of possession as set out in paragraph 7 above. Time shall be of the essence in the agreement formed by such acceptance.

9. The District Engineer assign or transfer its right, title, and interest in the agreement formed by its acceptance of the application to any other branch or agency of the United States, and upon such assignment or transfer, such branch or agency shall succeed to all the rights, powers, privileges, immunities, duties, and obligations of the District Engineer hereunder, and the District Engineer shall cease to have any duties or obligations hereunder. \*

Figure 11-7g

ER 405-1-12  
Change 12  
27 Oct 80

\* 10. Neither the agreement formed by acceptance of this application nor any interest therein shall be assigned or transferred by the applicant to any other party.

11. No member of or delegate to Congress or Resident Commissioner shall be admitted to any share or part of the agreement formed by the acceptance of this Application or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such agreement if made with a corporation for its general benefit.

SCHEDULE "A"

As the result of a field survey and recommendations made by the Administrator of the Federal Aviation Agency, the property hereinafter described has been classified as available for disposal as airport property under the Federal Property and Administrative Services Act, as amended, and the Surplus Property Act of 1944, as amended. (The descriptions are believed to be correct, but any error or omission shall not constitute any ground or reason for any claim by applicant against the General Services Administration or the Federal Government.)

a. Land. All that certain parcel of land located in the City of \_\_\_\_\_, County of \_\_\_\_\_, State of \_\_\_\_\_.  
more particularly described as:

b. Buildings and Improvements.

c. Necessary Operating Equipment.

Figure 11-7i

## INSTRUCTIONS TO APPLICANTS FOR AIRPORT PROPERTY

1. Standard Application Form. Applications must be submitted on the inclosed standard Application Form. Additional copies and any additional information desired may be obtained at the office of the District Engineer located at \_\_\_\_\_.

2. Rights Reserved. The right is reserved to waive any defect or informality in the applications received and to accept or reject any application. In the case of receipt of two or more applications of equal priority and merit, choice of the transferee will ordinarily be based on need for the property as airport property.

3. Property Offered in its Entirety. The property described in the application is offered for disposal in its entirety and is not severable, and bids for separate portions thereof will not be considered; provided, however, that the applicant may delete from Schedule "A" such buildings, improvements, and equipment as it does not desire to acquire hereunder.

4. If Applicant is Political Entity. If the applicant is a political entity, there shall be attached to the application copies, in duplicate, of so much of the records of its governing body as will show the official character and authority of the officer signing the application; authorize him to accept delivery of all formal instruments of transfer and agree that the transferee shall be bound by all the terms, reservations restrictions, and conditions of transfer set forth in the application. Such copies shall be duly certified to be true copies by the secretary or other official with powers of certification, and the official seal of the applicant shall be affixed to such certification.

5. Applicant Must Furnish Legal Authority. The applicant shall furnish with its application, and as a condition precedent to the delivery of the aforesaid instruments of transfer, evidence satisfactory to the Administration of its legal authority to accept transfer of the property applied for herein and to covenant to operate and maintain the same in the manner required hereby.

6. Airport Subject to Inspection. The airport is now subject to inspection by prospective transferees. Office of the District Engineer \_\_\_\_\_ will, upon request, make arrangements for such inspection.

7. Administration's Notice of Acceptance. Notice by the Government of acceptance or rejection of the application, if not personally made to a \*

QUITCLAIM DEED AND TRANSFER AGREEMENT

(AIRPORT PROPERTY)

THIS QUITCLAIM DEED AND TRANSFER AGREEMENT, made and entered into by and between the UNITED STATES OF AMERICA, acting by and through the Secretary of the Army (Air Force), under and pursuant to the powers and authorities contained in the Surplus Property Act of 1944, 58 Stat. 765, as amended, 50 U.S.C. APP. 1622(g) (1948 ed.), and the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended 40 U.S.C. Chapter 10, (1958 ed.), and the delegation of authority to the Secretary of Defense from the Administrator of the General Services Administration (41 CFR Sections 101-47.302-2 and 101-47.308-2), and the redelegation of authority from the Secretary of Defense to the Secretary of the Army (Air Force) (20 Fed. Reg. 7113), Party of the First Part, and the (City of \_\_\_\_\_, \_\_\_\_\_, a body cooperate and politic under the laws of the State of \_\_\_\_\_, its successors and assigns, Party of the Second Part:

W I T N E S S E T H :

That the said Party of the First Part, for and in consideration of the assumption by the Party of the Second Part of all the obligations and its taking subject to certain reservations, restrictions and conditions and its covenant to abide by and agreement to certain other reservations, restrictions and conditions, all as set out hereinafter, conveys and \*

\* EXCEPTING, HOWEVER, from this conveyance all right, title and interest in and to all its property in the nature of equipment, furnishings and other personal property located on the above described premises which can be removed from the land without material injury to the land or structures located thereon, other than property of such nature located on the premises hereby conveyed or surrendered from lease which is reasonably necessary for the operation or maintenance of the airport or for the operation or maintenance of the structures and improvements specifically listed hereinabove as being transferred hereby, for any reasonable use for which such structures or improvements are readily adaptable; and further excepting from this conveyance all its structures on said premises other than structures specifically described or enumerated above as being conveyed hereunder, including \_\_\_\_\_.

\* \* \* \* \*

And reserving to the Party of the First Part for itself and its lessees, licensees, permittees, agents and assigns the right to use the property and structures excepted hereby in such a manner as will not materially and adversely affect the development, improvement, operation, or maintenance of the airport and the right of removal from said premises of such property and structures, all within a reasonable period of time after the date hereof, which shall not be construed to mean any period more than one (1) year after the date of this instrument, together with a right of ingress to and egress from said premises for such purposes; \*

Figure 11-8d

ER 405-1-12  
Change 12  
27 Oct 80

\* PROVIDED, FURTHER, that if any or all of the buildings and improvements described herein revert to Party of the First Part under the terms hereof, and at the time of such reversion some are located on land of Party of the Second Part not subject to reversion to Party of the First Part, Party of the First Part shall be allowed twelve (12) months from the date of such reversion to remove same, together with the right of ingress and egress for such purposes.

TO HAVE AND TO HOLD said premises, with appurtenances, subject to the exceptions, reservations, restrictions and conditions referred to and set forth in this instrument, unto said Party of the Second Part, its successors and assigns, forever.

By the acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, its successors and assign, forever.

By the acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, its successors and assigns, agrees that the surrender of leasehold and the transfer of the property transferred by this instrument, is accepted subject to the following restrictions set forth in subparagraphs (1) and (2) of this paragraph, which shall run with the land, imposed pursuant to the authority of Article 4, Section 3, Clause 2 of the Constitution of the United States of America, the Surplus Property Act of 1944, as amended, the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) and applicable rules, regulations and orders:

\*

Figure 11-8e

ER 405-1-12  
Change 12  
27 Oct 80

(1) That, except as provided in subparagraph (6) of the next succeeding unnumbered paragraph, the land, leased premises, buildings, structures and improvements in which this instrument transfers any interest shall be used for public airport purposes for the use and benefit of the public, on reasonable terms and without unjust discrimination and without grant or exercise of any exclusive right for use of the airport within the meaning of the term "exclusive right" as used in subparagraph (4) of the next succeeding paragraph. As used in this instrument, the term "airport" shall be deemed to include at least all such leased premises, buildings, structures and improvements;

(2) That, except as provided in subparagraph (6) of the next succeeding paragraph, the entire landing area, as defined in Title 44, C.F.R. Chapter 1, Subchapter C, Section 101.19 (15 F.R. 1346) approved March 8, 1950, and all structures and improvements in which this instrument transfers any interest shall be maintained for the use and benefit of the public at all times in good and serviceable condition, provided, however, that such maintenance shall be required as to structures and improvements only during the remainder of their estimated life, as determined by the Administrator of the Federal Aviation Agency. In the event materials are required to rehabilitate or repair certain of the aforementioned structures and improvements, they may be procured by demolition or other structures and improvements transferred hereby and located on the above described premises which have outlived their use as airport property in the opinion of the Administrator of the Federal Aviation Agency. \*

Figure 11-8f

ER 405-1-12  
Change 12  
27 Oct 80

\* By acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, for itself, its successors and assigns, also assumes the obligations of, covenants to abide by and agrees to, and this transfer is made subject to, the following reservations and restrictions set forth in subparagraphs (1) to (7), inclusive, of this paragraph, which shall run with the land, imposed pursuant to the authority of Article 4, Section 3, Clause 2 of the Constitution of the United States of America, the Surplus Property Act of 1944, as amended, the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) and applicable rules, regulations and orders:

(1) That insofar as it is within its powers, the Party of the Second Part shall adequately clear and protect the aerial approaches to the airport by removing, lowering, relocating, marking or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

(2) That the United States of America (hereinafter sometimes referred to as the "Government") through any of its employees or agents shall at all times have the right to make nonexclusive use of the landing area of the airport at which any of the property transferred by this instrument is located or used, without charge: Provided, however, that such use may be limited as may be determined at any time by the Administrator of the Federal Aviation Agency to be necessary to prevent undue interference with use of other authorized aircraft: Provided, further, that the Government shall be obligated \*

Figure 11-8g

ER 405-1-12  
Change 12  
27 Oct 80

\* to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

(3) That during any national emergency declared by the President of the United States of America or the Congress thereof, the Government shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession, without charge, of the airport at which any of the property transferred by this instrument is located or used, or of such portion thereof as it may desire, provided, however, that the Government shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively, or over which it may have exclusive possession or control, during the period of such use, possession, or control, and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintenance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession; Provided, further, that the Government shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively of any improvements to the airport made without United States aid.

(4) That no exclusive right for the use of the airport at which the property transferred by this instrument is located shall be vested (directly or indirectly) in any person or persons to the exclusion of others in the same class, the term "exclusive right" being defined to mean: \*

Figure 11-8h

ER 405-1-12  
Change 12  
27 Oct 80

\* (a) Any exclusive right to use the airport for conducting any particular aeronautical activity requiring operation of aircraft;

(b) any exclusive right to engage in the sale or supplying of aircraft, aircraft accessories, equipment, or supplies (excluding the sale of gasoline and oil), or aircraft services necessary for the operation of aircraft (including the maintenance and repair of aircraft, aircraft engines, propellers, and appliances).

(5) That, except as provided in subparagraph (6) of this paragraph, the property transferred hereby may be successively transferred only with the proviso that any such subsequent transferee assumes all the obligations imposed upon the Party of the Second Part by the provisions of this instrument.

(6) That no property transferred by this instrument shall be used, leased, sold, salvaged, or disposed of by the Party of the Second Part for other than airport purposes without the written consent of the Administrator of the Federal Aviation Agency which shall be granted only if said Administrator determines that the property can be used, leased, sold, salvaged or disposed of for other than airport purposes without materially and adversely affecting the development, improvement, operation or maintenance of the airport at which such property is located;

(7) The Party of the Second Part does hereby release the Government and will take whatever action may be required by the Secretary of the \_\_\_\_\_ to assure the complete release of the Government from any and all liability the Government may be under for \*

Figure 11-8i

ER 405-1-12  
Change 12  
27 Oct 80

\* restoration or other damages under any lease or other agreement covering the use by the Government of the Airport, or part thereof, owned, controlled or operated by the Party of the Second Part, adjacent to which, or in connection with which, any property transferred by this instrument was located or used; provided, that no such release shall be construed as depriving the Party of the Second Part of any right it may otherwise have to receive reimbursement under Section 17 of the Federal Airport Act for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency.

By acceptance of this instrument or any rights hereunder, the Party of the Second Part further agrees with the Party of the First Part, as follows:

(1) That in the event that any of the aforesaid terms, conditions, reservations or restrictions are not met, observed, or complied with by the Party of the Second Part, or any subsequent transferee, whether caused by the legal inability of said Party of the Second Part or subsequent transferee to perform any of the obligations herein set out, or otherwise, the title, right of possession and all other rights transferred by this instrument to the Party of the Second Part, or any portion thereof, shall at the option of the Party of the First Part revert to the Party of the First Part sixty (60) days following the date upon which demand to this effect is made in writing by the Administrator of the Federal Aviation Agency, unless within said sixty (60) days such default or violation shall have been cured and all such terms, conditions,\*

Figure 11-8j

ER 405-1-12  
Change 12  
27 Oct 80

\* reservations and restrictions shall have been met, observed or complied with, in which event said reversion shall not occur and title, right of possession, and all other rights transferred hereby, except such, if any, as shall have previously reverted, shall remain vested in the Party of the Second Part, its transferees, successors and assigns.

(2) That if the construction as covenants of any of the foregoing reservations and restrictions recited herein as covenants or the application of the same as covenants in any particular instance is held invalid, the particular reservations or restrictions in question shall be construed instead merely as conditions upon the breach of which the Government may exercise its option to cause the title, right of possession and all other rights transferred to Party of the Second Part, or any portion thereof, to revert to it, and the application of such reservations or restrictions as covenants in any other instance and the construction of the remainder of such reservations and restrictions as covenants shall not be affected thereby.

This conveyance shall not in any manner waive, cancel, or abridge any rights previously granted or reserved to the Government by Quitclaim Deed dated June 8, 1948, to the City of \_\_\_\_\_ by Instrument of Transfer dated December 21, 1948, to the City of \_\_\_\_\_, or by any other agreement or instrument.

(3) This conveyance is not subject to Title 10, United States Code, Section 2662.

(Date) \_\_\_\_\_

To: District Engineer

\_\_\_\_\_  
(Address)

The \_\_\_\_\_ acting by and through  
(State Government)

\_\_\_\_\_  
\_\_\_\_\_  
(Street Address)

of the City of \_\_\_\_\_ pursuant to the provisions of the Act of Congress approved May 19, 1948 (Public Law 537, 80th Congress), and to the Rules and Regulations of the General Services Administration, hereby expresses its intention to acquire from the United States of America the following described property described in detail in "Program of Utilization" attached hereto and made a part hereof as "Exhibit A," located at the installation identified as follows:

(Here insert the name of the installation where the property desired is located.)

The Government reserves the right, as its interest may require, to reject any and all requests, or part of any request for property contained in this application; to waive defects, informalities, and irregularities; and to permit alteration of this application by the State by increasing or decreasing the property to be acquired herewith.

Enclosed herewith is a certification as to the authority of the undersigned to execute this application and to do all other acts necessary to consummate the transaction.

The undersigned agrees that this application is made upon the further terms and conditions: \*

Figure 11-9a

ER 405-1-12  
Change 12  
27 Oct 80

- \* 1. Upon approval of this application, notice in writing of the extent of the property which may be transferred and of any boundary surveys which may be required to be performed at the expense of the transferee will be transmitted by the District Engineer, \_\_\_\_\_ to the undersigned.
- 2. Within five days from the receipt of such notice, the undersigned will elect to accept transfer of the property or to withdraw its application and will communicate such election in writing to the District Engineer at the above address.
- 3. It is understood that property transferred as a result of this request will be subject to:
  - (a) Reservation by the United States of all oil, gas, and mineral rights;
  - (b) The condition that the property shall continue to be used for wildlife conservation; and
  - (c) The condition that in the event the property transferred is no longer used for such purposes, or in the event the property is needed for national defense purposes, title thereto shall revert to the United States.

In support of its eligibility for transfer of the requested property, the undersigned submits a proposal entitled "Program of Utilization," in an original and five copies, which are attached hereto as Exhibit A, which proposal is drawn in accordance with, and contains the information required by "Instructions for Preparation of Applications for Real Property for the Conservation of Wildlife."

PROGRAM OF UTILIZATION

Real Property for the Conservation of Wildlife

Exhibit "A" of Application dated \_\_\_\_\_ 19 \_\_\_\_

Outline. The following information must be submitted under the above title and date line as a part of each application in connection with each property requested:

a. Name of Applicant Agency and Representative.

(1) Legal name of prospective transferee; and

(2) Name, title, and address of person having authority to consummate transaction as shown by attached certificate.

b. Property Name and Location.

(1) Name and identification of property; and

(2) Location of property the subject of this request:

(a) County;

(b) Nearest town; and

(c) Distance and direction from nearest town.

c. Description of Property.

(1) Land:

(a) Acreage;

(b) Boundaries - by legal description;

(c) Types of land, expressed as percentage of the total requested:

(a) agriculture, (b) wild hay, (c) grazing, (d) timber lands, (e) marsh, (f) brush, (g) submerged land, (h) lakes, (i) river, (j) other types;

(d) Land suitability: Discuss (a) farming, (b) grazing (c) trapping, (d) hunting, (e) logging, (f) fisheries, (g) other;

(e) Timber: Describe species and whether virgin, culled, or cut-over, approximate average stand.

\*

Figure 11-9c

\* (2) Buildings: Describe individually by building number and designation as "Barracks," "PX," etc., and give dimensions and square feet of floor space.

(3) Utilities:

(a) Designation; and

(b) Description.

b. Program Brief. Here give in detail a complete plan for the administration and utilization of the property covering thoroughly the following:

(1) Portion of area to be set aside as refuge;

(2) Wildlife species to be primarily benefited;

(3) What protection will be afforded wildlife;

(4) What uses will be made of the lands other than for game propagation; and

(5) Specific use for each structure and for utilities.

e. Proof of Need.\*

f. Suitability of Property. \*

g. Plans to Finance and Maintain the Property. \*

h. Tax or Public Revenue Support. \*

i. Current and Planned Land Utilization for Wildlife Conservation. \*

\*Items e through i should be prepared in accordance with e through i of the instructions.

Conclude with a statement under oath as required in the instructions. \*

INSTRUCTIONS FOR PREPARATION OF APPLICATIONS  
FOR REAL PROPERTY FOR THE CONSERVATION OF WILDLIFE

1. General.

a. Separate Applications. A separate application for such property shall be submitted for each surplus installation or portion thereof. Each application must have attached as a part thereof a "Program of Utilization."

b. Preparation and Distribution of Applications. Applications for such property shall be prepared in an original and five signed copies.

(1) The original and copies as indicated above, consisting of "Application for Real Property for the Conservation of Wildlife" and "Program of Utilization" and exhibits and certificates necessary to meet the requirements of these instructions, shall be forwarded to the Regional Commissioner, General Services Administration, \_\_\_\_\_

(2) The applicant should keep one signed copy.

2. Special Instructions. In preparing the "Program of Utilization" the specific instructions set forth below shall be adhered to:

a. Name of Applicant Agency and Representative. Indicate the correct name of the applicant state, state commission, or agency, etc., to which conveyance may be made. The name, title, and address of the person to whom inquiries concerning the program are to be addressed shall be indicated.

b. Name and Location of Property. Indicate the official name of the surplus installation and its location, showing county and state and distance and direction from the nearest town.

c. Description of Property in Detail. The real property required shall be described. Buildings shall be identified by number, size, and type of construction. Where land and a considerable portion of an installation is applied for, a plat map of the installation, indicating the facilities required, should be attached if possible, and the total acreage, total number of buildings and structures, utilities, easements, etc., shall be summarized thereon. Such maps usually may be obtained from the installation custodian.

Figure 11-9e

ER 405-1-12

Change 12

27 Oct 80

\* d. Program Brief. A complete program brief is required in order for the District Engineer to determine whether the property (1) can be utilized for wildlife purposes; and (2) is chiefly valuable for such purpose.

(1) Briefs should cover specific plans for such programs as:

(a) Refuge Lands. Inviolable sanctuaries for the unmolested feeding and breeding of wildlife, generally unavailable to the public;

(b) Game Management Units. Areas of value for the feeding, resting, and breeding purposes, part or all of which may be open to controlled public shooting during specified periods as a means of harvesting the surplus wildlife crop;

(c) Nurseries and Game Farms. Limited areas within the state to be used for the production of food plants and certain game species for planting and release on other areas within the state; and

(d) Research Areas. Units primarily used for research purposes in studying the life history, habits and management procedures of wildlife species in their native habitat.

(2) Programs which contemplate the unrestricted harvesting of game or the unrestricted shooting or trapping thereof or which for any reason do not contemplate positive action on the part of the requesting state to protect and/or propagate wildlife will not be acceptable. Areas sought solely for field trials, dog runs, etc., are not subject to transfer under the provisions of Public Law 537, 80th Congress.

e. Must Show Definite Proof of Need. Surplus property may not be determined to be chiefly valuable for the conservation of wildlife except where property is shown to be needed for such purposes. It is important that definite proof of need and the degree of inadequacy of existing facilities in the area where the property is sought be reflected in the program.

f. Must Show Suitability or Adaptability. The facilities to be conveyed must be suitable for the program proposed, or readily adaptable to such purposes. A statement as to suitability and/or plans for conversion of the property is required.

g. Must Evidence Plans to Finance and Maintain Property. A full and complete statement of ability to finance, operate, and maintain the facilities to be acquired shall be reflected, and plans for the conversion, staffing, operation and maintenance shall be discussed fully. \*

Figure 11-9f

\* h. Tax or Public Revenue Support. Indicate the degree of tax support. Include any appropriation of public revenues for the operation of the facilities either through contracts for services, etc., or direct appropriation.

i. Current and Planned Land Utilization for Wildlife Conservation. Attach, for the original and for each copy of the application, copies of a map of the state and show thereon the location, acreage, and program designation for each area being used by the state and/or its agencies for wildlife conservation purposes, and indicate by different color or shading the location, acreage, and proposed use of the property requested in this and previous applications and also other property which the state proposes to acquire for wildlife conservation purposes under the provisions of Public Law 537. Also, as paragraph "i" of the "Program of Utilization," itemize all requests previously submitted for property under the provisions of Public Law 537, identifying each by name of installation from which the property was requested, by date of request, and by acreage requested.

j. Statement Under Oath. The authorized official of the state instrumentality making this application shall state under oath that the applicant is an instrumentality of State Government; and that the facilities to be acquired will be used chiefly for the conservation of wildlife. This statement shall be attached to the application.

k. Notice of Intent and Time of Filing. Neither written nor oral inquiries nor oral requests to withhold the disposal of property will be given consideration. Before the District Engineer will take action on a proposal to acquire property, it must receive a formal letter of intent, or an executed application, to acquire such property. However, any requestor filing a timely letter of intent will be given thirty days from the date the letter of intent is received in the District Engineer's office in which to submit a formal application. \*

SAMPLE DEED FOR CONVEYANCE OF LAND AND IMPROVEMENTS  
FOR CONSERVATION OF WILDLIFE

THIS INDENTURE by and between the United States of America, acting by and through the Secretary of the Army (Air Force) under and pursuant to the powers and authority contained in the Act of 19 May 1948, C.310, 62 Stat. 240, 241 as amended, 16 U.S.C. 667 b-d (1958 ed.), and the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended 40 U.S.C. Chapter 10 (1958 ed.) and the delegation of authority to the Secretary of Defense from the Administrator of the General Services Administration dated 28 March 1957, 22 Fed. Reg. 2265 - 2266, and the redelegation of authority from the Secretary of Defense to the Secretary of the Army (Air Force) dated 24 April 1957, 22 Fed, Reg. 3164, Party of the First Part and the State of \_\_\_\_\_.

Party of the Second Part:

WITNESSETH:

That the said party of the first part for and in consideration of the continuous use and management of the property hereinafter described for wildlife conservation purposes, and the benefits that will accrue to the United States from its continued use for such purposes, and its taking subject to the reservations, restrictions, and conditions hereinafter set out, does release and quitclaim to the said party of the second part, \*

Figure 11-10a

\* under and subject to the said reservations, restrictions, and conditions, all its right, title and interest in and to the following described property in the county (ies) of \_\_\_\_\_ State of \_\_\_\_\_, to wit:

DESCRIPTION

(Metes and bounds description)

being (apart of) the same property acquired by the United States of America under \_\_\_\_\_, recorded in \_\_\_\_\_.

TO HAVE AND TO HOLD the foregoing described premises, together with all and singular, the appurtenances, rights, powers, and privileges thereunto belonging or in anywise appertaining, subject to the reservations, restrictions, and conditions hereinafter set forth, unto the said party of the second part.

The land and property conveyed by this instrument are subject to the reservation by the United States of all oil, gas, and other minerals, and there is reserved to the United States all oil, gas, and other minerals in the land conveyed hereby, together with the right of the United States, its authorized agents, representatives, lessees, or assigns, to enter upon the said land at any time to prospect for, mine, drill for, and remove, any and all such minerals.

The land and property conveyed by this instrument are subject to the condition that they shall be continuously used and managed for the conservation of wildlife and are conveyed upon and subject to the condition \*

Figure 11-10b

ER 405-1-12  
Change 12

LOCATION \_\_\_\_\_ TYPE OF PROPERTY \_\_\_\_\_  
LESSOR \_\_\_\_\_  
RENTAL \_\_\_\_\_ TERMINATION DATE \_\_\_\_\_

This lease provides for, and the lessor has established a legal right restoration of the leased premises by the Government.

I hereby certify that an investigation has been made as to each of the items of restoration or damages listed on the attached Joint Terminal Condition Survey and that: they are bona fide; that such resulted from use by the Government of the leased premises; that such are in excess of reasonable and ordinary wear and tear and damages by the elements or by circumstances over which the Government has no control. I further certify that the estimate of cost assigned to each item is just and fair, and that such prices are comparable to charges made to the public generally for like materials and services in the vicinity of the leased premises.

Recapitulation of restoration factors:

Estimated cost of Government improvements ----- \$ \_\_\_\_\_  
Estimated gross salvage value of Government  
improvements -----  
Estimated net salvage value of Government  
improvements -----  
Estimated cost of restoration -----  
Net cost of restoration -----

It is recommended that the Government pay the lessor the sum of \$ \_\_\_\_\_ in lieu of physical restoration of the premises by the Government.

PART 2

ANALYSIS AND RECOMMENDATIONS OF DIVISION  
REAL ESTATE OFFICER OR HIS REPRESENTATIVE

Analysis

1. Lease No. \_\_\_\_\_ provides for, and the lesser has established a legal right to restoration of the leased premises by the Government to the extent hereinafter set forth.

2. The Joint Terminal Condition Survey, substantiated by investigation, indicates that certain items of damages/restoration listed therein result from use by the Government. As a consequence, there exists a legal obligation on the part of the Government to either physically restore the leased premises or effect a cash settlement in lieu of restoration.

3. The itemized list of damages, together with cost estimates of the lessor and the Government (Part 3), indicates in summary that it will cost the Government \$ \_\_\_\_\_ to accomplish physical restoration of the leased premises by contract.

4. Substantiation for the pertinent cost estimates as stated in Part 1, Recapitulation, is reflected in the following supporting documents:

a. Part 3 - Itemized List of Damages with Estimate of Restoration costs.

b. Part 4 - Itemized List of Government-owned Improvements, Fixtures and Alterations Placed on Property with Estimated Values.

c. Part 5 - Fee Value Appraisal of Leased Premises. This includes data pertinent to diminution of value.

Proposed Settlement

Recommendations

Certification

I certify that the items of restoration and damages listed herein have been incurred as a result of use by the Government, and are considered above and beyond reasonable and ordinary wear and tear, and damages by the elements or by circumstances over which the Government has no control.

FORMAT FOR  
SUPPLEMENTAL AGREEMENT NO. \_\_\_\_\_  
TO EMERGENCY PLANT FACILITIES CONTRACT NO. \_\_\_\_\_

This Supplemental Agreement entered into this \_\_\_\_\_ day of \_\_\_\_\_  
19 \_\_\_\_, by and between the United States of America, hereinafter called  
the Government represented by the Contracting Officer executing this  
Agreement and \_\_\_\_\_, a corporation organized and existing under  
the laws of the State of \_\_\_\_\_, of the City of \_\_\_\_\_, in the  
State of \_\_\_\_\_, hereinafter called the Contractor, WITNESSETH THAT:

WHEREAS, the parties hereto have previously entered into Letter  
Contract No. \_\_\_\_\_ under date of \_\_\_\_\_, which  
Letter Contract was last amended by Supplement No. 6 thereto, \_\_\_\_\_  
\_\_\_\_\_; and

WHEREAS, pursuant to said contract and in accordance with the terms  
of Article 32 of Formal Supplement No. 3 thereto, executed by the parties  
on \_\_\_\_\_, and hereinafter referred to as the  
"principal contract," the Contractor constructed certain improvements  
designated in paragraph (a) of said Article 32 as Items 1 to 7 inclusive  
more particularly described hereinafter, on land owned by the Contractor  
at its plant located at \_\_\_\_\_, \_\_\_\_\_, in  
connection with its work under Contract No. \_\_\_\_\_, the  
costs for which Items 1 to 7 inclusive the Government has reimbursed the \*

\* the Government has reimbursed the Contractor in accordance with provisions of paragraph (b) of said Article 32, and which contract provides that title to Items 1 to 4 inclusive listed in the said paragraph (a) shall vest in the Government upon reimbursement by the Government to the Contractor of the costs thereof and that said Items 1 to 4 inclusive, hereinafter sometimes referred to as "Government-owned improvements," and all materials incorporated in for forming a part of said Items shall be deemed personality even though affixed to realty, and which contract further provides that title to said Items 5 to 7 inclusive shall be and remain in the Contractor, the Contractor to use said Items 1 to 7 inclusive without payment of rental therefor, in connection with its work under the said contract; and

WHEREAS, said contract further provides that the Contractor shall retain title to said Items 5 to 7 inclusive for a period of five years from the completion or termination of Contract No. \_\_\_\_\_, and that with respect to all improvements designated Items 1 to 7 inclusive the Contractor shall, for a of five years from the completion or termination of said Contract, perform certain obligations set forth in paragraph (e) of said Article 32 of the principal contract, which paragraph (e) further provides that the Contractor shall be released from the said obligations with respect to the said Items 1 to 7 inclusive as follows:

(1) Items 1 and 2, upon payment by the Contractor of the Government of the "added value" (as the same is defined in paragraph (h) of \*

Figure 11-18b

\* this article) of all such improvements, or upon the election by the Government to purchase the land upon which the same are located or to convey to the Contractor as provided for in paragraph (k);

(2) Items 3 and 4, upon payment by the Contractor to the Government of the "added value" of such improvements;

(3) Items 5, 6, and 7 upon the written determination of the Contracting Officer that the Government's interests will not be adversely affected by releasing the Contractor from such obligations and in any event upon the Contractor's being released from the above obligations with respect to the improvements described in Items 1, 2, 3, and 4 of paragraph (a); and

WHEREAS, pursuant to provisions of paragraph (g) (1) of said Article 32, the parties hereto have mutually agreed that the added value of Contractor's plant (as the same is defined in said paragraph (h) by reason of the Government-owned improvements designated as Items 1, 2, 3, and 4 is in the sum of Ninety Thousand Dollars (\$90,000.00); and

WHEREAS, it has been determined to be advantageous and in the interest of the Government to convey the said Items 1, 2, 3, and 4 to the Contractor upon payment to the Government of the said sum agreed upon by the added value to the plant of the Contractor,

NOW THEREFORE, pursuant to provisions of said contract and supplements thereto, and in consideration of the premises as well as the mutual obligations of the parties herein made and undertaken, the parties do mutually agree as follows:

\*

Figure 11-18c

ER 405-1-12  
Change 12

\* 1. That the Government, under authority of the Federal Property and Administrative Services Act of 1949, as amended, and regulations issued thereunder, and for and in consideration of the payment of Ninety Thousand Dollars (\$90,000.00), and the covenants, promises, and agreements on the part of the Contractor, herein contained and made, agrees and hereby does, effective as of \_\_\_\_\_ sell, relinquish, transfer and deliver to the Contractor without warranty, express or implied, and the Contractor agrees to and hereby does for the price of Ninety Thousand Dollars (\$90,000.00) aforesaid, payable in full on or before \_\_\_\_\_, 19 \_\_\_\_, purchase all rights, title and interest of the Government in and to the following property:

Item 1 - An addition to the west side of the existing plant at the north and thereof containing approximately 44,600 square feet, sometimes referred to as the "main addition."

Item 2 - A building approximately 12 feet by 12 feet located just west of the main addition, sometimes referred to as the "Switch house."

Item 3 - An addition to the west side of the existing plant at the south end of the present tool room containing approximately 2,500 square feet, sometimes referred to as the "tool room addition."

Item 4 - A building approximately 21.4 feet by 41.4 feet located a short distance west of the tool room addition and used for plant and oil storage, sometimes referred to as the "paint and oil storage house."

2. That the Government, as of the \_\_\_\_\_, 19 \_\_\_\_, releases the Contractor from all obligations under the said contract, as \*

\* supplemented with respect to Items 1, 2, 3, and 4 listed in the foregoing paragraph, and releases the Contractor from all obligations set forth in paragraph (e) of said Article 32 of the principal contract with respect to said Items 1 to 7 inclusive.

3. That the Government, as of \_\_\_\_\_, 19 \_\_\_\_, cancels and relinquishes forever any rights and licenses granted to it by the Contractor under the terms of Contract No. \_\_\_\_\_ and supplements thereto, relating to the said Items 1 to 4 inclusive.

4. That the Contractor will, on \_\_\_\_\_, 19 \_\_\_\_, accept the surrender of the said Government-owned improvements heretofore designated as Items 1, 2, 3, and 4 and appurtenances thereto, in their present condition, and will assume the custody and care of said improvements and the risk of loss or damage thereto by fire or any other cause thereafter, the Government being thereafter relieved from any responsibility therefor.

5. That the Contractor relinquishes and forever discharges the Government, its officers, agents and employees of and from all manner of actions, liabilities and claims which, against the Government, its officers, agents and employees, the contractor now has or ever will have, for the restoration of the land upon which the said improvements designated Items 1 to 4 inclusive were constructed and for any restoration whatsoever of the property of the Contractor in connection with said Items 5, 6 and 7, and for any matter, cause of thing whatsoever arising out of the occupation by the Government or the aforesaid land or buildings of the Contractor, under the said contract and supplements thereto. \*

\* 6. That the Contractor warrants that it has examined the premises and the buildings and structures thereon and appurtenances thereto to be conveyed hereunder and is fully familiar with the conditions of the same and the Government makes no representation or warranties as to the condition of any item thereof.

7. That the Contractor represents and warrants that it intends that all property being acquired under this contract shall be used in its production and that it is not acquiring any of such property for the purpose of reselling it directly or indirectly at a profit.

8. Except as herein modified, either expressly or by necessary implication, all the terms, covenants and conditions of Contract No. \_\_\_\_\_, as amended shall continue in full force and effect and apply equally to the provisions herein.

IN WITNESS WHEREOF, the parties hereto have executed this contract as of the \_\_\_\_\_ DAY OF \_\_\_\_\_, 19 \_\_\_\_.

C       AGREEMENT BETWEEN THE DEPARTMENT OF DEFENSE AND THE SMALL  
O       BUSINESS ADMINISTRATION FOR THE DEVELOPMENT OF A PROGRAM  
P       OF ASSISTANCE FOR SMALL BUSINESS CONCERNS IN THE SALE OF  
Y       TIMBER AND RELATED FOREST PRODUCTS FROM FORESTS ON FEDERAL  
          LANDS UNDER THE JURISDICTION OF DEPARTMENT OF DEFENSE

-----

SECTION I.   PURPOSE

The purpose of this Memorandum of Understanding between the Department of Defense (DOD) and the Small Business Administration (SBA) is to implement the provisions of the Small Business Act, as amended, relative to the sale of Government timber in such manner as will effectuate sections 8(b)(7) and 15 of the Small Business Act.

SECTION II.   UNIFORM POLICY COVERING ASSISTANCE TO SMALL BUSINESS CONCERNS

The DOD will issue regulations requiring each military department to cooperate with SBA in an effort to aid, counsel, assist and protect, insofar as possible, the interests of small business concerns in acquiring timber and to insure that a fair proportion of the total sales be made to such concerns.

The regulations will also require each military department in cooperation with the Small Business Administration:

(A) To utilize to the fullest extent SBA facilities inventory files in order to identify interested small business concerns;

(B) To develop and disseminate sales promotion information designed to broaden small business participation;

(C) To review the terms and conditions of sales programs to assure that participation by small business concerns is being encouraged;       \*

Figure 11-19a

\*

(D) To utilize the definition of small business established by SBA to maintain records to reflect the sales of timber made to small business concerns;

(E) To review periodically the results of sales programs to assure that small business is receiving a fair proportion of the total sales of timber;

(F) To utilize the certificate of competency authority vested in SBA by section 8(b)(7) of the Small Business Act when timber is being sold on a credit basis.

SECTION III. CERTIFICATES OF COMPETENCY

In cases of timber being sold on a credit basis, whenever a small business concern has submitted an otherwise acceptable bid or proposal but has been determined by the disposal officer not to be responsible as to capacity or credit, and if the bid or proposal is to be rejected solely for this reason: (1) SBA shall be notified of the circumstances so as to permit it, if warranted, to process a Certificate of Competency, and (2) award shall be withheld pending SBA action up to 10 working days from date of notification.

This procedure shall be mandatory for all sales except where the contracting officer certifies in writing that award must be made without delay and a statement justifying the action is signed by the contracting officer and placed in the contract file.

To assist SBA in determining the capacity and credit of any small business concern involved in a particular sale, the selling agency shall \*

Figure 11-19b

ER 405-1-12  
Change 12  
27 Oct 80

- \* make available to SBA, at the time of notification, all available pertinent data, including technical and financial information, with respect to the small business concern involved.

SECTION IV. JOINT SET-ASIDE DETERMINATION

The DOD will afford the SBA an opportunity to review its proposed program of timber and other forest product offerings involving sales which have an estimated value of \$2,000 or more. It is agreed that the SBA will consider the forest management and other pertinent factors involved in such program and will review such matters with the contracting officer before requesting a set-aside. Following consideration and review of the said factors the SBA may request in writing that the contracting officer make certain set-asides for small business concerns under authority of Section 15 of the Small Business Act.

The contracting officers of the DOD will agree to and will make set-asides when recommended by SBA unless such action is inconsistent with program requirements of the DOD, in which case the DOD will submit its reasons for refusal to SBA in writing.

If a set-aside has been agreed to and subsequent events indicate that such action would not be in the best interest of the Government, the contracting officer will request the SBA representative to concur in a withdrawal of the joint determination; if the SBA representative concurs, the set-aside will be canceled; if the SBA representative does not concur, he will be given an opportunity to express his opinion, but the final decision for all sales action will remain with the contracting officer.

\*

Figure 11-19c

ER 405-1-12  
Change 12  
27 Oct 80

\* SECTION V, PROCEDURES

DOD, in cooperation with SBA, will develop its own operational procedures designed to carry out this Memorandum of Understanding, Such procedures will be similar in effect to Chapter VII, Section 703, SBA Manual 600.

SECTION VI. AMENDMENT

This Understanding may be amended at any time by written agreement of the parties.

SECTION VII. EFFECTIVE DATE

This Understanding shall take effect upon the date of the execution thereof.

CERTIFICATE AS TO SMALL BUSINESS STATUS

The bidder certifies that he (is) (is not) a small business concern within the terms of the following definition:

In sales of Army forest timber a "small business" is a concern that:  
(1) is primarily engaged in the logging or forest products industry; (2) is independently owned and operated; (3) is not dominant in its field of operation; and (4) together with its affiliates does not employ more than 500 persons.

(From 13 CFR 121,3-9(b),  
Rev. 29 Fed. Reg. 2988, 5 Mar 64)

\_\_\_\_\_  
DATE

\_\_\_\_\_  
SIGNATURE OF BIDDER

Intentional falsification of this certificate is a criminal offense punishable by a fine of not more than \$5,000 or by imprisonment for not more than two years, or both. (Title 15, United States Code, Section 645 (a).)

INSTRUCTIONS: This certificate must be attached to and is a part of every invitation to bid on the sale of Army timber with an estimated value of \$2,000 or more. Failure to properly execute this certificate will not invalidate a bid, but a proper statement must be signed before the bid is accepted by the Government. Refusal or delay in executing a proper statement is grounds for rejecting the bid. \*

Invitation No. \_\_\_\_\_

DEPARTMENT OF THE ARMY

(Name and Address of Issuing Office)

INVITATION FOR BIDS, BID AND ACCEPTANCE

SALE OF SURPLUS REAL PROPERTY

I N V I T A T I O N F O R B I D S

Sealed bids will be received until \_\_\_\_\_ (time of day)  
on \_\_\_\_\_ (date), 19\_\_\_\_, at \_\_\_\_\_ (place)  
and then and there publicly opened, for purchase, subject to the terms  
and conditions and in accordance with the instructions to bidders  
hereinafter contained, of Government-owned real property described as  
follows (including any described related personal property and  
appurtenances, and subject to any stated exceptions, reservations and  
restrictions) : \_\_\_\_\_

The terms and conditions of the sale and instructions to bidders  
are as follows:

1. All bids submitted shall be deemed to have been made with full  
knowledge of all of the terms, conditions, and requirements herein  
contained.

2. The property offered for sale is now subject to inspection by  
prospective bidders. The District Engineer, \_\_\_\_\_  
will, upon request, arrange for inspection of the property, and will  
furnish such further information as may be necessary with respect to  
the terms, conditions and instructions herein contained. Any title  
evidence, including abstracts, and continuations thereof, title  
certificates, or policies of title insurance which may be desired by  
the successful bidder will be procured by him at his sole cost and  
expense. The Government will, however, permit examination and  
inspection of such deeds, abstracts, tax receipts, affidavits of title,  
judgments in condemnation proceedings, or other documents relating to  
the title to the property involved, as it may have available. The \*

ENG Form 571-R  
1 Feb 66

Figure 11-21a

ER 405-1-12

Change 12

27 Oct 80

\* failure of any bidder to inspect, or to be fully informed regarding the title to or the condition of all or any portion of the property, or negligence or mistake on the part of the bidder in preparing the bid, will not constitute grounds for any claim or demand for adjustment or withdrawal of a bid after and prior to award opening. The foregoing description of the property is believed to be sufficiently specific for purposes of identification. Any error or omission in such description shall not constitute any ground or reason for non-performance of the contract or claim by the successful bidder for any allowance, refund, or deduction from the amounts offered. The property is offered for sale "as is" and "where is." The Government does not make any guaranty or warranty, express or implied, with respect to the property as to title, quantity, quality, character or condition, size or kind; or that the property is in condition or fit to be used for the purpose for which intended.

3. The sale will be on an all-cash basis. Each bid must be accompanied by a certified check, cashier's check or postal money order, payable to the order of the "treasurer of the United States" (1) for the full amount bid if such amount is \$250.00 or less, or (2) for 25% of the amount bid, or \$250.00, whichever is greater, if the amount bid is more than \$250.00. All bids will remain open for acceptance or rejection for a period of \_\_\_\_\_ days from the date of opening bids. The deposit of the successful bidder will be retained by the Government to apply against payment of the purchase price and deposits of unsuccessful bidders will be returned, without interest, as promptly as possible after rejection, provided, however, that in the event of default by any bidder hereunder, that bidder's deposit may be applied by the Government to any loss, cost and expense occasioned to the Government thereby, including any loss, cost and expense incurred in selling the property and including any difference between the amount specified in the bid and the amount for which the Government may sell the property, if the latter amount be less than the former. The bidder is liable for the full amount of damages sustained by the Government because of his default; such liability is not limited to the amount of the bidder's deposit.

4. The balance of the purchase price will be paid by the successful bidder with \_\_\_\_\_ days after notice has been given by the Government of its readiness to deliver a deed. The United States will thereafter deliver to the successful bidder a quitclaim deed (and bill of sale, if needed to cover any related personal property) conveying all right, title, and interest of the United States in and to the property, without warranty, express or implied. The successful bidder will pay any required documentary revenue stamp tax. Title and the right of possession will remain in the United States until the deed has been delivered. The formal instruments of conveyance shall within a reasonable time after delivery be placed of record in the manner prescribed by local recording statues, \*

Figure 11-21b

ER 405-1-12  
 Change 12  
 27 Oct 80

\* all at the sole cost and expense of the successful bidder. The successful bidder will assume possession of and responsibility for the property upon delivery of the deed.

5. Sealed bids must be executed and submitted in quadruplicate on the bid form accompanying this Invitation for Bids, Bid and Acceptance or on exact copies thereof. Additional copies of the bid form may be obtained from the District Engineer.

6. A bid executed by an attorney or agent on behalf of the bidder must be accompanied by four authenticated copies of his Power of Attorney or other evidence of his authority to act on behalf of the bidder. If the bidder is a corporation, the CERTIFICATE OF CORPORATE BIDDER must be executed. If the bid is signed by the secretary of the corporation, the CERTIFICATE must be executed by some other officer of the corporation under the corporate seal. In lieu of the CERTIFICATE OF CORPORATE BIDDER, there may be attached to the bid copies so much of the records of the corporation as will show the official character and authority of the officer signing, duly certified by the secretary or assistant secretary, under the corporate seal, to be true copies.

7. The invitation number and bid-opening time must be plainly marked on the left side of envelopes in which bids are submitted, for example:

---

Return Address

Sealed Bid

To be opened:

To:

REAL ESTATE DIVISION

Time \_\_\_\_\_

Date \_\_\_\_\_

INVITATION NO. \_\_\_\_\_

8. It will be the duty of each bidder to see that his bid is delivered by the time and at the place prescribed in the invitation. Bids received prior to the time of opening will be securely kept, unopened. The person whose duty it is to open them will decide when the specified time has arrived, and no bid or modifications of a bid or withdrawals of a bid received thereafter will be considered, except that those received before award is made but delayed in the mails by occurrences beyond control of the bidder maybe considered if written certification is \*

Figure 11-21c

ER 405-1-12  
Change 12  
27 Oct 80

\* furnished by authorized postal authorities to that effect. No responsibility will attach for the premature opening of a bid not properly addressed and identified. All modifications of a bid or withdrawals of a bid must be in writing. Telegraphic bids will not be considered, but modifications or withdrawals by telegraph of bids already submitted will be considered if received prior to the time set for opening bids.

9. At the time fixed for the opening of bids, their contents will be made public by announcement for the information of bidders and others properly interested who may be present either in person or by representative, provided, however, that any information submitted in support thereof, the disclosure of which might tend to subject the person submitting it to a competitive business disadvantage, will upon request be held in strict confidence by the United States.

10. The right is reserved, as the interest of the Government may require, to reject any or all bids, to waive any defect or informality in bids received, and to accept or reject any bid or portion thereof.

11. Notice of acceptance or rejection of bids and notice that the Government is ready to deliver a deed and/or Bill of Sale shall be deemed to have been sufficiently given when telegraphed or mailed to the bidder or his duly authorized representative at the address indicated in the bid.

12. Except as otherwise provided in this Invitation for Bids, any dispute concerning a question of fact arising under this Invitation for Bids which is not disposed of by agreement shall be decided by the District Engineer, who shall reduce his decision to writing, and mail or otherwise furnish a copy thereof to the bidder. The decision of the District Engineer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the bidder mails or otherwise furnishes to the District Engineer a written appeal addressed to the Secretary of the Army. The decision of the Secretary, or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition, the bidder shall be afforded an opportunity to be heard and to offer evidence in support of appeal. Pending final decision of a dispute hereunder, the bidder shall proceed diligently with the performance of the contract and in accordance with the District Engineer's decision. This condition does not preclude consideration of questions of law provided that nothing in this condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law. \*

Figure 11-21d

ER 405-1-12  
Change 12  
27 Oct 80

\*

13. This Invitation for Bids, including all the instructions, and conditions set forth herein, and the Bid, when accepted by the Government, shall constitute the contract of sale between the successful bidder and the Government. Such agreement shall constitute the whole contract, unless modified in writing and signed by both parties. No oral statements or representations made by, for, or ostensibly on behalf of either party shall be a part of such contract. Neither this contract, nor any interest therein, shall be transferred or assigned by the successful bidder.

14. No member of or delegate to the Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

15. The successful bidder warrants that he has not employed any person or agency to solicit or secure this contract upon any agreement for a commission, percentage, brokerage or contingent fee. Breach of this warranty shall give the Government the right to annul the contract without liability or at its option to recover from the successful bidder the amount of such commission, percentage, brokerage or contingent fee in addition to the consideration herein set forth. This warranty shall not apply to commissions payable by the successful bidder upon a contract secured or made through bona fide established commercial agencies maintained by the successful bidder for the purpose of doing business. "Bona fide established commercial agencies" has been construed to include licensed real estate brokers engaged in the business generally. \*

Invitation No. \_\_\_\_\_

DEPARTMENT OF THE ARMY

(Name and Address of Issuing Office)

INVITATION FOR BIDS, BID AND ACCEPTANCE

SALE AND REMOVAL OF BUILDINGS (OR OTHER REAL ESTATE IMPROVEMENTS)

LOCATED AT \_\_\_\_\_

I N V I T A T I O N F O R B I D S

Sealed bids will be received until \_\_\_\_\_ (time of day)  
on \_\_\_\_\_, 19\_\_\_\_, at \_\_\_\_\_ (place)  
and then and there publicly opened, for the purchase and removal from  
the site, subject to the terms and conditions and in accordance with  
the instructions to bidders hereinafter contained, of that Government-  
owned property described on the accompanying bid form. This invitation  
does not include personal property, except fixtures firmly attached,  
unless specifically listed or identified herein.

The terms and conditions of the sale and instructions to bidders  
are as follows:

1. All bids submitted shall be deemed to have been made with  
full knowledge of all of the terms, conditions, and requirements  
herein contained.

2. (Note: To be modified at discretion of the District Engineer,  
as provided by applicable regulations.) Bids may be submitted for one  
or any number of items but a separate amount must be bid for each item  
for which a bid is submitted. Lump sum bids covering several or all  
items will not be considered. The Government may accept or reject any  
item or items of any bid, unless such bid is qualified by specific  
limitation.

3. All bids will remain open for acceptance or rejection for a  
period of \_\_\_\_\_ calendar days from the date of opening bids. \*

ENG Form 1038-R  
1 Feb 66

Figure 11-22a

\*

4. The property for sale is located at \_\_\_\_\_ and is now subject to inspection by prospective bidders. The District Engineer, \_\_\_\_\_ will, upon request, arrange for inspection of the property, and will furnish such further information as may be necessary with respect to the terms, conditions and instructions herein contained. The failure of any bidder to inspect, or to be fully informed regarding the condition and location of all or any portion of the property will not constitute grounds for any claim or demand for adjustment or withdrawal of a bid after opening. The description of the property is believed to be sufficiently specific for purposes of identification. Any error or omission in the description (including locations, when specified) shall not constitute any ground or reason for nonperformance of the contract or claim by the successful bidder for any allowance, refund, or deduction from the amounts offered. The property is offered for sale "as is" and "where is." The Government does not make any guaranty or warranty, express or implied, with respect to the property as to quantity, quality, character or condition, size or kind, or that the property is in condition or fit to be used for the purpose for which intended.

5. The sale will be on an all-cash basis. Each bid must be accompanied by a certified check, cashier's check, travelers check, or postal money order, payable to the order of the "Treasurer of the United States": (1) for the full amount bid if such amount is \$100 or less; or (2) for \$100 or 20 per cent of the amount bid whichever is greater if the bid is more than \$100. All bids will remain open for acceptance or rejection by the Government for a period of \_\_\_\_\_ days after the date set for opening of bids by this invitation. The deposit of the successful bidder will be retained by the Government and applied as part payment of the purchase price. The balance of the purchase price must be paid within \_\_\_\_\_ calendar days after notice of acceptance of the bid has been given by the Government. Title to the property will remain in the United States until the full purchase price has been paid. The successful bidder will not remove any property until payment in full is made and a fully executed copy of the contract of sale is received from the said District Engineer, with authorization to proceed with removal. (Note: Requirement for bid deposit may be waived for state and local governments as provided in FPMR Section 101-45.302-11.

6. Upon receipt of authority to proceed with removal of the purchased property, the successful bidder will assume all responsibility for the care and protection of the property and will expeditiously remove the property from the site and restore the site in a manner and to a condition satisfactory to the \_\_\_\_\_ in accordance with the following specifications: \*

Figure 11-22b

ER 405-1-12  
Change 12  
27 Oct 80

(Note: Insert specifications covering the extent and method for accomplishment of work to be performed in connection with each item. The specifications should indicate whether or not removal of foundations, piers, curbs, slabs, floods, etc., is required and if so to what extent, and should include instructions regarding the cutting off of utilities, the capping of utility lines, the disposal of debris resulting from salvage operations, and any other data necessary to assure a proper understanding between the contracting parties as to the work to be performed under the contract.)

The successful bidder will bear all expense involved in accomplishment of the work required here under.

7. The successful bidder will complete all removal and restoration work required hereunder within \_\_\_\_\_ calendar days from the date of notice that removal of the property is authorized. The successful bidder will prosecute the work, or any separate portion thereof, with such diligence as will insure its completion within the time specified. Work may be performed between the hours of \_\_\_\_\_ to \_\_\_\_\_ daily, \_\_\_\_\_ excluded. When more than one item is sold hereunder, the time specified herein for completion of removal and restoration will run concurrently as to each item and not consecutively. No extensions of the time herein specified for completion of removal and restoration work will be granted unless, in the opinion of the said District Engineers unusual and unforeseeable circumstances justify such extensions, and agreement is reached on an adequate consideration for the extension.

(Note: Adequate additional consideration will be obtained for extensions unless the District Engineer determines a charge is inequitable as due to catastrophic circumstances or in some degree to Government action; or a charge would not be feasible because of likelihood of a default or other result not in the best interests of the Government. Where time is of the essence, in order to conform to construction schedules, or for other reasons, a statement to such effect should be made in this paragraph, and a statement that no extensions will be allowed should be substituted for the last sentence of condition 7 above.)

8. (Note: To be used at the discretion of the District Engineer.) In addition to the payments required under paragraph 5 above, each successful bidder will, within \_\_\_\_\_ calendar days after notice of acceptance of his bid by the Governments deliver to the said District Engineer a certified check, cashier's check or postal money order, payable to the order of the "Treasurer of the United States," in an amount equal to the total of the performance deposits specified below for all items on which he is the successful bidder, in order to insure faithful performance under this contract. The amount of the performance deposit required for each item is as follows:

\*

Figure 11-22c

Item No.Performance Deposit

(Note: Insert for each item the amount of performance deposit required. The amount specified for each item should be sufficient to protect the interest of the Government in the event of failure of the purchaser to perform all the work required under the contract incident to removal of the listed item within the time limit prescribed. The performance deposit listing may, if more convenient, be shown on the attached bid form, with appropriate reference in this paragraph to the listing there.)

In lieu of the deposit of a certified check, cashier's check, or postal money orders the purchaser may furnish a performance bond with surety approved by, and in a form acceptable, to the said District Engineer, the penal sum of such bond to be the same as the total of performance deposits provided for above. Standard Form 25, available at all surety and guaranteeing offices, may be used for this purpose.

9. In the event of any default by any bidder hereunder, all claim to and any title held in the property for sale, or any portion of it remaining, will be forfeited and all payments made by the defaulting bidder (including bid or performance deposits or bonds) will be applied by the Government to any loss, cost and expense occasioned to the Government by the default (including any loss, cost and expense in selling or otherwise disposing of such property in such manner, whether economic or not, as time limitations may allow). The defaulting bidder is liable for the full amount of damages sustained by the Government because of his default; such liability is not limited to the amount of the aforesaid payments. If the obligations of the successful bidder under this contract are discharged to the complete satisfaction of the said District Engineer, any performance deposit required hereunder will be promptly returned without interest. In the absence of default, the deposits of unsuccessful bidders will be returned without interest as promptly as possible after rejection of the bids.

10. The successful bidder will assume responsibility and liability for all injuries to persons or damages to property directly or indirectly due to, or arising out of, the operations of the successful bidder under this contract and the successful bidder agrees to indemnify and save harmless the United States against any and all claims of whatsoever kind and nature due to, or arising out of, this contract.

(Note: The District Engineer may, at his discretion, add here a requirement that the successful bidder carry liability insurance.)

11. (Note: To be used at the discretion of the District Engineer.)  
The successful bidder will not resell the property, or any portion \*

Figure 11-22d

ER 405-1-12  
Change 12  
27 Oct 80

\* thereof, or advertise the property, or any portion thereof, for resale until the property, or any portion thereof proposed for resale, has been removed from the site in accordance with this contract.

12. Sealed bids must be executed and submitted, in quadruplicate, on the bid form accompanying this invitation for bids, bid and acceptance, or on exact copies thereof. Additional copies of the bid form may be obtained from the said District Engineer.

13. A bid executed by an attorney or agent on behalf of the bidder must be accompanied by four authenticated copies of his Power of Attorney or other evidence of his authority to act on behalf of the bidder. If the bidder is a corporation, the Certificate Of Corporate Bidder must be executed. If the bid is signed by the secretary of the corporation, the Certificate must be executed by some other officer of the corporation under the corporate seal. In lieu of the Certificate of Corporate Bidder, there may be attached to the bid copies of so much of the records of the corporation as will show the official character and authority of the officer signing, duly certified by the secretary or assistant secretary, under the corporate seal, to be true copies.

14. The invitation number and bid-opening time must be plainly marked on the left side of the sealed envelope in which bids are submitted, for example:

Return Address

Sealed Bid

To be opened:

Time \_\_\_\_\_

Date \_\_\_\_\_

INVITATION NO. \_\_\_\_\_

TO: District Engineer, \_\_\_\_\_

ATTN: REAL ESTATE DIVISION

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

15. It will be the duty of each bidder to see that his bid is delivered by the time and at the place prescribed in the invitation. Bids received prior to the time of opening will be securely kept, unopened. The person whose duty it is to open them will decide when the specified time has arrived, and no bid or modifications of a bid, or withdrawals of a bid received thereafter, will be considered, except that those received before award is made, but delayed in the mails by occurrences beyond control of the bidder, may be considered if written certification is furnished by authorized postal authorities to that effect. \*  
No responsibility will attach for the premature opening of a bid not

Figure 11-22e

\* properly addressed and identified. All modifications of a bid or withdrawals of a bid must be in writing. Telegraphic bids will not be considered, but modifications or withdrawals, by telegraph, Of bids already submitted will be considered, if received prior to the time set for opening bids.

16. At the time fixed for the opening of bids, their contents will be made public by announcement for the information of bidders and others properly interested, who may be present, either in person or by representative; provided, however, that any information submitted in support thereof, the disclosure of which might tend to subject the person submitting it to a competitive business disadvantage, will upon request be held in strict confidence by the United States.

17. The right is reserved, as the interest of the Government may require, to withdraw any and all items from the sale; to reject any or all bids; and to waive any defect or informality in bids received.

18. Notice of acceptance or rejection of bids, notice of authority to proceed with removal of the purchased property, and any other notices hereunder shall be deemed to have been sufficiently given when telegraphed or mailed to the bidder, or his duly authorized representative, at the address indicated in the bid.

19. Any property of the United States damaged or destroyed by a bidder will be promptly repaired or replaced by the bidder to the satisfaction of the said District Engineer or, in lieu of such repair or replacement, the bidder will, if so required by the said District Engineer, pay to the United States an amount determined by the said District Engineer to be sufficient to compensate for the loss sustained by the United States.

20. Except as otherwise provided in this invitation for bids, any dispute concerning a question of fact arising under this invitation for bids, which is not disposed of by agreement, shall be decided by the District Engineer, who shall reduce his decision to writing, and mail, or otherwise furnish, a copy thereof to the bidder. The decision of the District Engineer shall be final and conclusive, unless, within 30 days from the date of receipt of such copy, the bidder mails, or otherwise furnishes, to the District Engineer a written appeal addressed to the Secretary of the Army. The decision of the Secretary, or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition, the bidder shall be afforded an opportunity to be heard \*

Figure 11-22f

ER 405-1-12  
Change 12  
27 Oct 80

\* and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the bidder shall proceed diligently with the performance of the contract and in accordance with the District Engineer's decision. This condition does not preclude consideration of questions of law in connection with those decisions; provided, that nothing in this condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

21. This invitation for bids, including all the instructions, terms, and conditions set forth herein, and the bid, when accepted by the Government, shall constitute the contract of sale between the successful bidder and the Government. Such agreement shall constitute the whole contract, unless modified in writing and signed by both parties. No oral statements or representations made by, for, or ostensibly on behalf of, either party shall be a part of such contract. Neither this contract, nor any interest therein, shall be transferred or assigned by the successful bidder.

22. No Member of or Delegate to the Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

23. The successful bidder warrants that he has not employed any person or agency to solicit or secure this contract upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Government the right to annul the contract without liability, or, at its option, to recover from the successful bidder the amount of such commission, percentage, brokerage or contingent fee in addition to the consideration herein set forth. This warranty shall not apply to commissions payable by the successful bidder upon a contract secured or made through bona fide established commercial agencies maintained by the successful bidder for the purpose of doing business. "Bona fide established commercial agencies" has been construed to include licensed real estate brokers engaged in the business generally.

SPECIAL INSTRUCTION TO BIDDERS. ATTENTION IS INVITED TO THE FACT THAT THE INTERSTATE COMMERCE ACT MAKES IT UNLAWFUL FOR ANYONE OTHER THAN THOSE DULY LICENSED UNDER THE ACT TO TRANSPORT THIS PROPERTY IN INTERSTATE COMMERCE FOR HIRE. ANYONE AIDING OR ABETTING IN SUCH VIOLATION IS A PRINCIPAL IN COMMITTING THE OFFENSE (49 U.S.C. 301-327 and 18 U.S.C. 2). \*

SUPPLEMENT TO STANDARD FORM 114  
FOR USE IN TIMBER SALES CONTRACT

1. At the discretion of the Division or District Engineer, provisions similar to provisions 8 and 9, ENG Form 1038-R, Appendix II, may be included. (See FPMR, Section 101-45 .302-9, 302-10, and 302-11.)

2. Timber will be cut and removed in strict accordance with the terms and conditions of sale and instructions issued by the contracting officer. All timber shall be cut and removed on or before and none later than \_\_\_\_\_ . Stumps shall be cut to cause the least possible waste and not higher than \_\_\_\_\_ inches on the side adjacent to the highest ground; all trees shall be utilized to as low a diameter in the tops as practicable so as to cause the least waste and to a minimum diameter of \_\_\_\_\_ inches.

3. Timber shall be scaled by Scribner Decimal C log rule or counted or measured as prescribed by the contracting officer. If measurement is to be made after falling timber shall be piled or skidded for measurement as directed by the contracting officer or his duly authorized representative.

4. Slash and other refuse shall be disposed of as directed by the contracting officer.

5. All telephone lines, ditches, and fences, locate within or immediately outside the exterior boundaries of the sale area, shall be protected so far as possible in logging operations and, if injured, shall be repaired immediately by the purchaser. The contracting officer may, when in his judgment it is necessary, require the purchaser to move any such telephone line or fence from one location to another. Roads and trails shall at all times be kept free of logs, brush, and debris resulting from the purchaser's operations hereunder. Any road or trail used by the purchaser in connection with this sale that is damaged or injured beyond ordinary wear and tear, through such use, shall promptly be repaired by him to its original condition.

SPECIAL INSTRUCTION TO BIDDERS. ATTENTION IS INVITED TO THE FACT THAT THE INTERSTATE COMMERCE ACT MAKES IT UNLAWFUL FOR ANYONE OTHER THAN THOSE DULY LICENSED UNDER THE ACT TO TRANSPORT THIS PROPERTY IN INTERSTATE COMMERCE FOR HIRE. ANYONE AIDING OR ABETTING IN SUCH VIOLATION IS A PRINCIPAL IN COMMITTING THE OFFENSE (49 U.S.C. 301-327 and 18 U.S.C. 2).

CONTRACT OF SALE  
EP 405-1-2

THIS CONTRACT OF SALE made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, by and between the District Engineer, U. S. Army Engineer District, \_\_\_\_\_, for and on behalf of the United States of America, hereinafter called the "Government", and \_\_\_\_\_, whose address is \_\_\_\_\_, hereinafter called the "Purchaser", WITNESSETH:

THAT under authority of Public Law 999, 84th Congress, approved 6 August 1956 (70 Stat.1065), as implemented by the Delegations, Rules and Regulations issued by the Secretary of the Army (33 CFR 211.71-81; 28 FR 69, pp. 3450, 3451; 28 FR 86, p. 4375) the Government has made available for sale for cottage site development the following \_\_\_\_\_ land in the \_\_\_\_\_ Reservoir area, \_\_\_\_\_ County, State of \_\_\_\_\_:

(DESCRIPTION)

NOW, THEREFORE, in consideration of the \_\_\_\_\_ performance by each of the parties hereto, of the terms and \_\_\_\_\_ hereinafter set forth, it is mutually agreed as follows:

1. The Government agrees to \_\_\_\_\_ the Purchaser agrees to purchase the above-described \_\_\_\_\_ land, for (individual) (omit this word if inapplicable) cottage site development and use only, for the sum of \_\_\_\_\_ (\$\_\_\_\_\_). In addition thereto, the Purchaser shall \_\_\_\_\_ costs of survey and boundary markers necessary as an incident to \_\_\_\_\_ of the land to be conveyed. A deposit in an amount equal to \_\_\_\_\_ (20) per centum of the purchase price shall be paid by the \_\_\_\_\_ at the time of execution of this contract, receipt of which \_\_\_\_\_ acknowledged. Such payment shall be made payable to the \_\_\_\_\_ of the United States. In the event of default by the \_\_\_\_\_ this deposit shall be retained by the Government as liquidated \_\_\_\_\_ Payment in full for the balance of the purchase price and for \_\_\_\_\_ costs of the survey and boundary markers shall be made simultaneously \_\_\_\_\_ with delivery of the executed deed by the Government to the Purchaser.

2. The property hereinbefore described is sold "as is" and without recourse against the Government. The Government makes no representation or warranty, express or implied, as to condition, fitness for any use or purpose, or accuracy of the description. Accordingly, downward adjustment in the purchase price or demand for rescission based upon the failure of the property to correspond with the above description or inability by the Purchaser to use said property for cottage site purposes will not be

ENG Form 3297-R  
1 Dec 64

(PROPONENT: DAEN-REP)

ER 405-1-12  
Change 22  
1 Apr 85

considered. In the event a survey reveals that the property to be conveyed contains a substantially greater acreage than contemplated, the Purchaser shall also pay to the Government the appraised fair value of such additional land, simultaneously with delivery of the deed.

3. The conveyance shall be by quitclaim deed, executed by the District Engineer, U. S. Army Engineer District, \_\_\_\_\_, at \_\_\_\_\_.

4. a. The property shall be used for cottage site purposes only. The term "cottage site" as used herein is defined in the Code of Federal Regulations, Title 33, Section 211.72. (The property to be conveyed is an Individual Cottage Site, i.e. a parcel of land developed or to be developed by the construction of a private cottage thereon or to be used, for private recreational purposes. The property shall not be subdivided but shall remain intact as a single unit. More than one (1) cottage may be constructed on such site. If this restriction is breached, title to the land and all interests placed thereon shall revert to and vest in the Government. The Government is required to institute legal proceedings to enforce its right to reversion, the grantee (Purchaser) shall bear the costs of such action.) (Strike the last four sentences. Inapplicable.)

b. The conveyance shall be subject to existing easements for public roads, highways and streets, and public utilities and pipe lines.

c. The Government reserves a perpetual easement to flood those lands lying below elevation \_\_\_\_\_ feet, mean sea level (strike this clause, if inapplicable).

d. The deed shall be placed on record in the manner prescribed by the laws of the State of \_\_\_\_\_ and at the sole cost and expense of the Purchaser, including payment of any required documentary stamp tax.

5. The Government is not obligated and shall not be liable for construction, maintenance or service of access roads or other improvements to the property. The Government shall not be responsible for the improvement of the lands included in this contract of sale.

6. Title to the property sold hereunder shall vest in the Purchaser at the time of delivery of the executed quitclaim deed.

7. If the Purchaser is presently in possession as a lessee of the premises to be conveyed, then it is mutually agreed that effective upon the date of delivery of the executed quitclaim deed, such lease is terminated and any unearned prepaid rental will be refunded to the Purchaser.

ENG FORM 3297-R

ER 405-1-12  
Change 22  
1 Apr 85

8. In any case where liability of the Government to the Purchaser, under this Contract of Sale, has been established, the Government's maximum liability shall be limited to the refund of any monies paid by the Purchaser to the Government under this Contract of Sale.

9. The Purchaser warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Purchaser for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract or in its discretion to require the Purchaser to pay the full amount of consideration herein set forth, the full amount of commission, percentage, brokerage, or contingent fee.

10. No Member of or Delegate to Congress or Resident Commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a view to the promotion for its general benefit.

11. a. That, except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the said officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Purchaser. The decision of the said officer shall be final and conclusive unless, within ten days from the date of receipt of such copy, the Purchaser mails or otherwise furnishes to the said officer a written appeal addressed to the Secretary of the Army. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition the Purchaser shall be afforded an opportunity to be heard and to present evidence in support of its appeal. Pending final decision of an appeal hereunder, the Purchaser shall proceed diligently with the performance of this contract and in accordance with the said officer's decision.

b. This Condition does not preclude consideration of law questions in connection with decisions provided for in paragraph a above: Provided that nothing in this Condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

12. a. The Government may, by written notice to the Purchaser, terminate this contract if it is found, after notice and hearing, by the Secretary of the Army or his duly authorized representative, that gratuities

ER 405-1-12  
Change 22  
1 Apr 85

(in the form of entertainment, gifts, or otherwise) were offered or given by the Purchaser, or any agent or representative of the Purchaser, to any officer or employee of the Government with a view toward securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing, of this contract provided, that the existence of the facts upon which the Secretary of \_\_\_\_\_ or his duly authorized representative makes such findings shall \_\_\_\_\_ and may be reviewed in any competent court.

b. In the event this contract is terminated, provided in paragraph a hereof, the Government shall be entitled to pursue the same remedies against the Purchaser as it would be in the event of a breach of the contract by the Purchaser \_\_\_\_\_ a penalty in addition to any other damages to which it may be entitled by law, to exemplary damages in an amount (as determined by the Secretary of the Army or his duly authorized representative) \_\_\_\_\_ be not less than three nor more than ten times the costs \_\_\_\_\_ by the Purchaser in providing any such gratuities to any such \_\_\_\_\_ employee.

c. The rights and remedies of the Government provided in this clause shall not be \_\_\_\_\_ and are in addition to any other rights and remedies provided \_\_\_\_\_ under this contract.

13. No part of this contract nor any interest therein shall be assigned or transferred by the Purchaser to any other party.

IN WITNESS WHEREOF, the parties hereto have executed this contract \_\_\_\_\_ and year first above written.

DEPARTMENT OF THE ARMY  
 SUBMITTED BY OFFICE, CHIEF OF ENGINEERS  
 REAL ESTATE  
 DISPOSAL REPORT NO. \_\_\_\_

Submitted pursuant to Title 10, United States Code, Section 2662

Name of Installation: Fort Brown, Greenfield, Connecticut  
 Using Service (Command): United States Army Forces Command  
 Former Use: Training Camp  
 Interest: Fee  
 Area: 3,000 Acres  
 Original Cost: Land: \$ 250,000  
 Improvements: 5,000,000  
 Total \$5,250,000  
 Acquisition Date: 1942  
 Proposed Action: Report to General Services Administration  
 as excess real property  
 Authority: Federal Property and Administrative  
 Services Act of 1949 (63 Stat. 377)

Par. 1. "The Department of the Army proposes . . . ." (Here make a brief statement of the proposed action being reported to the Congress.)

Par. 2. Set out concise historical background of installation involved, which may include: Date and purpose of establishment; summary history of real estate data including original land acquisition and cost, with fee, easement and other types of ownership to be listed separately, and similar information for additional acquisitions, disposals, and for the current holdings, showing total acreage and cost of fee, easement, and other types of real estate holdings and costs thereof.

Brief chronological summary of installation, indicating active and inactive periods, current mission and present uses for other than assigned mission including other Army, Navy and Air Force, non-military Government, and civilian use. \*

DEED WITHOUT WARRANTY

THIS DEED, made this \_\_\_\_\_, 19\_\_\_\_  
by and between the United States of America, Grantor, acting by and  
through the Secretary of the Army, under and pursuant to the powers and  
authority contained in Section 23 of the Airport and Airways Development  
Act of 1970 (84 Stat. 232; 49 U.S.C. 1723) and in conformity with Part 154  
of Title 14 and Section 0.67 of Title 28 of the Code of Federal Regulations  
and Executive Order No.12079, 43 Fed. Reg. 42233 (1978) and in accordance  
with the request of the Administrator of the Federal Aviation Administra-  
tion (herein called the "Administrator"), and the City of \_\_\_\_\_,  
organized and existing as a City of the \_\_\_\_\_ Class under the laws  
of the State of \_\_\_\_\_ with principal office and place  
of business in the City of \_\_\_\_\_, State of \_\_\_\_\_,  
Grantee.

WHEREAS, it has been determined that the conveyance requested by the  
City of \_\_\_\_\_ is not inconsistent with the needs of the  
Department of the Army.

WITNESSETH: That the Grantor, in consideration of the benefits which  
shall accrue to the public by virtue of the use of the property herein-  
after described for public airport purposes, does hereby bargain, sell  
grant and convey without warranty, express or implied subject to the  
conditions, covenants and reservations hereinafter set forth, unto the  
Grantee all of its right, title and interest in and all those certain  
parcels of land designated as a portion of Fort \_\_\_\_\_ Military  
Reservation, situated in the County of \_\_\_\_\_,  
State of \_\_\_\_\_, to wit:

A tract of land in the \_\_\_\_\_ of Section \_\_\_\_\_,  
Township \_\_\_\_\_, Range of the \_\_\_\_\_ Meridan  
in \_\_\_\_\_ County \_\_\_\_\_, described as  
follows:

Beginning at \_\_\_\_\_ (Complete legal description of tract) \_\_\_\_\_.  
The tract of land hereby conveyed contains \_\_\_\_\_ acres, more or  
less.

\*

Figure 11-3a

ER 405-1-12

Change 12

27 Oct 80

This Grant is subject to the following covenants and conditions which the Grantee, by acceptance of this deed, assumes for itself and its successors and assigns, as covenants running with the land:

1. That the grantee will use the property interest for airport purposes, and will develop that interest for airport purposes within one year after the date of this conveyance, except that if the property interest is necessary to meet future development of an airport, in accordance with the National Airport System Plan, the grantee will develop that interest for airport purposes on or before the period provided in the plan or within a period satisfactory to the Administrator and any interim use of that interest for other than airport purposes will be subject to such terms and conditions as the Administrator may prescribe.

2. That the airport, and its appurtenant areas and its buildings and facilities, whether or not on the land conveyed, will be operated as a public airport on fair and reasonable terms, without discrimination on the basis of race, color, or national origin, as to airport employment practices, and as to accommodations, services, facilities, and other public uses of the airport.

3. That the grantee will not grant or permit any exclusive right forbidden by Section 308(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1349(a)) at the airport, or at any other airport now owned or controlled by it.

4. That in the operation of the airport and its appurtenant areas, the grantee:

a. agrees that no person shall be excluded from any participation, be denied any benefits or be otherwise subjected to any discrimination, on the grounds of race, color, or national origin;

b. agrees to comply with all requirements imposed by or pursuant to Part 21 of the Regulations of the Office of the Secretary of Transportation (49 CFR 21) - nondiscrimination in federally assisted programs of the Department of Transportation - effectuation of Title VI of the Civil Rights Act of 1964.

5. That the furtherance of the policy of the FAA under this covenant, the grantee:

a. agrees that, unless authorized by the Administrator, it will not, either directly or indirectly, grant or permit any person, firm or corporation the exclusive right at the airport, or at any other airport now owned or controlled by it, to conduct any aeronautical activities, including, but not limited to, charter flights, pilot training, aircraft \*

Figure 11-3b

ER 405-1-12  
Change 12  
27 Oct 80

\* rental and sightseeing, aerial photography, crop dusting, aerial advertising and surveying, air carrier operations, aircraft sales and services, sale of aviation petroleum products whether or not conducted in conjunction with other aeronautical activity, repair and maintenance of aircraft, sale of aircraft parts, and any other activities which, because of their direct relationship to the operation of aircraft, can be regarded as an aeronautical activity; and

b. agrees that it will terminate any existing exclusive right to engage in the sale of gasoline or oil, or both, granted before July 17, 1962, at such an airport, at the earliest renewal, cancellation, or expiration date applicable to the agreement that established the exclusive right; and

c. agrees that it will terminate forthwith any other exclusive right to conduct any aeronautical activity now existing at such an airport.

6. That any later transfer of the property interest conveyed will be subject to the covenants and conditions in this instrument of conveyance.

7. That, if the covenant to develop the property interest (or any part thereof) for airport purposes within one year after the date of this conveyance is breached, or if the property interest (or any part thereof) is not used in a manner consistent with the terms of the conveyance, the Administrator may give notice to the grantee requiring him to take specified action towards development within a fixed period. These notices may be issued repeatedly, and outstanding notices may be amended or supplemented. Upon expiration of a period so fixed without completion by the grantee of the required action, the Administrator may, on behalf of the United States, enter, and take title to, the property interest conveyed or the particular part of the interest to which the breach relates.

8. That, if any covenant or condition in the instrument of conveyance, other than the covenant contained in paragraph 7 of this section, is breached, the Administrator may, on behalf of the United States, immediately enter, and take title to, the property interest conveyed or, in his discretion, that part of that interest to which the breach relates.

9. That a determination by the Administrator that one of the foregoing covenants has been breached is conclusive of the facts; and that, if the right of entry and possession of title stipulated in the foregoing covenants is exercised, the grantee will, upon demand of the Administrator, or his successor in function, take any action (including prosecution of suit or executing of instruments) that may be necessary to evidence transfer to the United States of title to the property interest conveyed, or, in the Administrator's discretion, to that part of that interest to which the breach relates. \*

TO PUBLIC BODIES IN THE \_\_\_\_\_

Notice of the Availability of Land for Development  
of Public Port or Industrial Facilities

Pursuant to provisions contained in Section 108 of Public Law 86-645,  
86th Congress, \_\_\_\_\_ (General Description of Property)

is available for sale to the State of \_\_\_\_\_, political  
subdivisions thereof, port districts, port authorities, or other bodies  
created by the State for the purpose of developing or encouraging the  
development of public port or industrial facilities. The parcel of land  
is about \_\_\_\_\_ (location).

Any sale of this property shall be at the fair market value of the land,  
as determined by the Secretary of the Army, upon condition that the prop-  
erty shall be used for public port or industrial purposes and subject to  
such conditions, reservations or restrictions as the Secretary may  
determine to be necessary for the development, maintenance, or operation  
of the \_\_\_\_\_ (Project)  
or otherwise in the public interest.

A legal description of this land will be mailed upon request.

Applications for purchase of this property must be filed in writing  
with me by \_\_\_\_\_. Applications must state fully  
the purposes for which the land is desired and the scope of the proposed  
development.

SAMPLE QUITCLAIM DEED

FOR PUBLIC PORT OR INDUSTRIAL FACILITIES

THIS INDENTURE, made by and between the United States of America, acting by and through the Secretary of the Army, under and pursuant to the powers and authority contained in Section 108 of the Act of Congress approved July 14, 1960 (Public Law 86-645; 74 Stat. 486), party of the first part, and the \_\_\_\_\_, party of the second part.

WHEREAS, pursuant to said Act and to the Delegations, Rules and Regulations of the Secretary of the Army, as published in the Federal Register of March 11, 1961 (Volume 26, No. 47, pages 2117-2118), it has been determined (1) that the development of public port and industrial facilities on the hereinafter described land within the \_\_\_\_\_ Project, a water resource development project under the jurisdiction of the Department of the Army, will be in the public interest; (2) that such development will not interfere with the operation and maintenance of the \_\_\_\_\_; and (3) that disposition of such land for this purpose will serve the objectives of the \_\_\_\_\_ Project.

NOW, THEREFORE, in consideration of the sum of \_\_\_\_\_ (\$ \_\_\_\_\_), and subject to the exceptions, reservation, restrictions, covenants and conditions hereinafter set forth, the party of the first part hereby conveys and quitclaims unto the party of the second part, its successors and assigns: \*

Figure 11-5a

ER 405-1-12  
Change 12  
27 Oct 80

\* FOR PUBLIC PORT PURPOSES ONLY, all right, title and interest of the United States of America in and to the real estate described as follows:

TRACT A

and,

FOR INDUSTRIAL PURPOSES ONLY, all right, title and interest of the United States of America in and to the real estate described as follows:

TRACT B

SUBJECT TO the following exceptions and rights outstanding in third parties: Existing easements for public roads and highways, public utilities, railroads and pipelines.

EXCEPTING, SAVING AND RESERVING unto the United States of America and its assigns, from this conveyance the following rights, power, privileges and easements, namely:

(Set forth exceptions and reservations deemed necessary for purpose of the project.)

The said party of the second part does by the acceptance of this deed, covenant and agree for itself, and its successors and assigns, forever, as follows:

(Set forth conditions of conveyance)

- 1.
- 2.
- 3.
- 4.

\*

ER 405-1-12  
Change 12  
27 Oct 80

\*  
5. The Grantee agrees to construct public port facilities only on the area described as Tract A and to construct industrial facilities only on the area described as Tract B.

PROVIDED, HOWEVER, that if any portion of the above described tracts is used for any purpose other than the purpose designated in Condition 5 above then all right, title and interest in and to the portion of the tract so used shall revert to and become the property of the United States at its option and it shall have the immediate right of entry upon said premises, subject to the conditions hereafter set forth.

In the event of a breach of the above condition pertaining to public port and industrial use, the Grantor shall, before claiming any forfeiture, give notice in writing of said breach, and of its intention to exercise said option, to the then occupant of the premises. Said occupant shall have a period of sixty (60) days after receipt of said notice to correct and cure said breach. The right of entry of the Grantor shall arise and become exercisable only after the termination of said sixty (60) day period and failure of the then occupant to correct or cure said breach.

In the event of the failure or refusal of the then occupant of said premises to correct or cure said breach within the time limited, and after exercise by the Grantor of its right of entry, said occupant shall have a reasonable time, not to exceed 120 days, to remove any improvements that have theretofore been placed upon said premises. Such right of removal shall under no circumstances permit such occupant to cause damage to the land involved. In the event that said occupant fails to

\*

Figure 11-5c

11-214

\* remove said improvements within the time limited, they shall become the property of the United States.

Failure of the United States to exercise its right of entry upon breach of the above condition pertaining to public port and industrial use shall not be construed as a waiver or relinquishment of said right.

TO HAVE AND TO HOLD the above-described premises unto the said  
its successors and assigns, forever, subject  
to the exceptions, reservations, restrictions covenants, and conditions  
herein contained.

FORMAT FOR NOTICE OF AVAILABILITY

GOVERNMENT AIRPORT PROPERTY

FOR DISPOSAL

(BRIEF DESCRIPTION - LOCATION)

Terms and conditions of disposal, and all necessary information about this property, will be furnished upon request at the office of the District Engineer, U.S. Army Engineer District, \_\_\_\_\_, \_\_\_\_\_.

Acquisition of this property is subject to the following priorities: (1) Federal Government agencies; (2) State and local governments, and tax-supported institutions. Your priority expires \_\_\_\_\_ days after date of this notice, if no advice is received of your interest in acquiring the property.

To receive consideration, proposals from priority holders must be submitted on special forms obtainable at the \_\_\_\_\_ District Engineer's Office, and must arrive at that office within \_\_\_\_\_ days after date of this notice, or not later than (a reasonable time so determined by the District Engineer)\_\_\_\_\_.

States, political subdivisions, municipalities and tax-supported institutions may, on a priority basis immediately following that of Federal Government agencies, acquire this property under the terms and conditions of Title 50, Appendix, United States Code, Section 1622(g) as amended. \*

Figure 11-6

ER 405-1-12  
Change 12  
27 Oct 80

\* APPLICATION FOR AIRPORT PROPERTY  
BY STATE, POLITICAL SUBDIVISION, MUNICIPALITY, OR TAX-SUPPORTED INSTITUTION

APPLICATION is hereby made to the District Engineer, \_\_\_\_\_,  
by \_\_\_\_\_  
(hereinafter referred to as Applicant) for the transfer to it, upon the  
terms and conditions hereinafter set forth, of surplus property consti-  
tuting all or part of the installation generally known as \_\_\_\_\_  
Air Force Base located near \_\_\_\_\_, State of \_\_\_\_\_,  
including certain personal property, all as more particularly described in  
Schedule "A" attached hereto and made a part hereof. All real or personal  
property described in Schedule "A" is hereinafter referred to as the  
"airport."

TERMS AND CONDITIONS

1. This application and its acceptance by the District Engineer, \_\_\_\_\_  
\_\_\_\_\_, hereinafter referred to as the Government shall constitute  
the entire agreement between the applicant and the Government unless  
modified in writing signed by both parties.
2. Applicant warrants that no person or agency has been employed or  
retained to solicit or secure acceptance of this application upon an  
agreement or understanding for a commission, percentage, brokerage,  
or other contingent fee, except bona fide employees or bona fide  
commercial agencies maintained by the applicant for the purpose of  
doing business. For breach or violation of this warranty, the Govern-  
ment shall have the right to annul this contract without liability, or  
in its discretion to require applicant to pay to it the full amount of  
such commission, percentage, brokerage, or contingent fee.
3. The failure of applicant to inspect fully the property described in  
Schedule "A" or to be fully informed as to the condition thereof will not  
constitute grounds for any noncompliance with the terms of this applica-  
tion if accepted by the Government. \*

Figure 11-7a

\* 4. The property offered for disposal will be transferred "as is" and "where is" without warranty or guaranty, express or implied, of any kind or nature.

5. Transfer of property shall be accomplished by an instrument of transfer in form satisfactory to the Government without warranty, express or implied, and shall contain covenants running with the land for the observance by the transferee of the following reservations, restrictions, and conditions; except that the provisions of a(1) and (2) shall be included in the instrument of transfer as conditions subsequent rather than covenants:

a. Use by the Transferee.

(1) That, except as provided in subsection (4) hereof, the above-described property, hereinafter called "the airport," shall be used for the use and benefit of the public as a public airport on reasonable terms and without unjust discrimination and without grant or exercise of any exclusive right for use of the airport within the meaning of subsection 13 (g) (2) (C) of the Surplus Property Act of 1944, as amended.

(2) That, except as provided in subsection (4) hereof, the entire landing area, and all structures, improvements, facilities and equipment in which any interest is transferred shall be maintained for the use and benefit of the public at all times in good and serviceable condition to assure its efficient operation, provided, however, that such maintenance shall be required as to improvements, facilities, and equipment only during the remainder of their estimated life as determined by the Administrator of the Federal Aviation Agency or his successor. In the event materials are required to rehabilitate or repair certain of the aforementioned improvements, facilities, or equipment, they may be procured by demolition of other improvements facilities, or equipment conveyed as a result of this application and located on the above-described premises, which, in the opinion of the Administrator of the Federal Aviation Agency or his successor, have outlived their use as airport property.

(3) That insofar as is within its power, the transferee shall adequately clear and protect the aerial approaches to the airport by removing, lowering, relocating, marking, or lighting, or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

(4) That none of the property described in Schedule "A" shall be used, leased, sold, salvaged, or disposed of by the grantee or transferee for other than airport purposes without the written consent of the Administrator of the Federal Aviation Agency, which consent shall\*

Figure 11-7b

ER 405-1-12

Change 12

27 Oct 80

- \* be granted only if the Administrator of the Federal Aviation Agency determines that the property can be used, leased, sold, salvaged, or disposed of for other than airport purposes without materially and adversely affecting the development, improvement, operation, or maintenance of the airport at which such property is located.

b. Use by the Government.

(1) That the United States of America through any of its employees or agents shall at all times have the right to make nonexclusive use of the landing area of the airport at which any property applied for herein is located or used, without charge; provided, however, that such use may be limited as may be determined at any time by the Administrator of the Federal Aviation Agency to be necessary to prevent undue interference with use by other authorized aircraft; provided, further that the United States shall be obligated to pay for damages caused by such use, or, if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area commensurate with the use made by it.

(2) That during any national emergency declared by the President of the United States of America or the Congress thereof, including any existing national emergency, the United States shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession, without charge, of the airport at which the surplus property applied for herein is located or used, as it then exists, or of such portion thereof as it may desire; provided, however, that the United States shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively, or over which it may have exclusive possession or control, during the period of such use, possession, or control and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintenance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession; provided, further, that the United States shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively, of any improvements to the airport made without United States aid and never owned by the United States.

c. Miscellaneous.

(1) That no exclusive right, as defined in subsection (g)(2)(C) of section 13 of the Surplus Property Act of 1944, as amended, for the use of the airport at which the property applied for herein is located or used shall be vested (either directly or indirectly) in any person or persons to the exclusion of others in the same class. \*

Figure 11-7c

11-220

\* (2) That the applicant shall grant or obtain for the benefit of the United States a release from any and all liability it may be under for restoration or other damages under any lease or other agreement covering the use by the United States of any airport, or part thereof, owned, controlled, or operated by the applicant, upon which, adjacent to which, or in connection with which the surplus property applied for herein was located or used; provided, that no such release shall be construed as depriving the applicant of any right it may otherwise have to receive reimbursement under section 17 of the Federal Airport Act for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal Agency.

d. Reservations and Restrictions.

(1) That, in the event that any of the terms, conditions, reservations, and restrictions upon or subject to which the property is disposed of are not met, observed, or complied with, whether due to legal inability or otherwise, the title, right of possession, and all other rights transferred shall at the option of the United States revert in then existing condition to the United States upon demand made in writing by the Administrator of the Federal Aviation Agency, or his successor, at least sixty (60) days prior to the date fixed for the reversion of such title, right of possession, and other rights transferred, provided the breach shall not have been remedied within such sixty (60) day period.

(2) That any of the property described in Schedule "A" maybe successively transferred only with approval of the Administrator of the Federal Aviation Agency, or his successor, to the extent required by the provisions of Subsection (a)(4) of Section 5 hereof, with proviso that any such transferee assumes all the obligations imposed herein.

(3) If the construction as covenants of any of the foregoing reservations and restrictions recited herein as covenants or the application of the same as covenants in any particular instance is held invalid, the particular reservations or restrictions in question shall be construed instead merely as conditions upon the breach of which the United States may exercise its option to cause the title, interest, right of possession, and other rights transferred, or any portion thereof, to revert to it, and the application of such reservations or restrictions as covenants in any other instance and the construction of the remainder of such reservations and restrictions as covenants shall not be affected thereby.

e. Transferee's Obligations. The transferee shall take title subject to such rights, if any, as third persons may have in the above-described premises at the date of disposal of said premises by virtue

\*

Figure 11-7d

ER 405-1-12  
Change 12  
27 Oct 80

\* of any grant from the United States or others and shall assume all duties, obligations, and liabilities of the United States or any agency thereof thereunder and hold the same harmless from all claims arising therefrom.

f. Mineral Rights. Subsurface rights to minerals or other interests included in the real property transferred for airport purposes may not be exploited in such a way as will interfere with the efficient operation of the airport.

g. United States Rights. The reservation in the United States of the right, title, and interest in and to all property of whatsoever nature not specifically transferred, together with right of removal thereof from the premises within a reasonable time, which shall not be construed to mean any period less than one (1) year after the date of the instrument of transfer. During such period, the United States, its agents, customers, transferees, successors in interest, and assigns shall have a right of ingress to and egress from the premises for the purpose of using, disposing of by sale or otherwise, and removing such property.

h. Application of Subparagraphs a, b, and c. The condition that, if permitted by law, the provisions of subparagraphs a, b, and c, above shall apply with equal force and effect to the airport in its present location, in instances where the airport itself is not included in the disposal.

i. Payment in Cash of Taxes, Assessments, etc. The transferee shall make payment in cash to the Government of an amount of money equivalent to the pro rata amount, as of the date of acceptance of the bid of the transferee, of all taxes, assessments, and similar charges made against the property conveyed, in instances where the particular Government agency holding the property is liable for the payment of such taxes, assessments, or charges.

j. Waiver of Any Existing Option. The transferee must obtain for the benefit of the Government, in form satisfactory to it, a waiver of any existing option granted to purchase the airport or any portion thereof.

6. From the time the Government gives notice of acceptance of the application, the applicant shall bear all risks and shall bear any and all losses sustained by reason of damage or injuries that may be suffered by the airport property, and notwithstanding such losses, damage, or injuries, each and all of the provisions of the agreement formed by acceptance of this application shall remain unimpaired and in full force and effect. \*

Figure 11-7e

\* 7. Upon receipt of Notice of Acceptance of the application by the Government, the successful applicant may, at its option, and upon notification to the Government and approval of the holding Government agency, immediately enter into possession of the airport property and use, operate, and maintain the same subject to, and in accordance with, all of the terms and conditions hereinabove set out and in addition, for the period prior to delivery of the instrument or instruments of transfer conveying legal title, subject to, and in accordance with, following provisions and conditions:

a. Transferee Shall Comply with all Pertinent Rules, Etc. The operation of the airport property shall be subject to such regulations as may be prescribed by the Administrator of the Federal Aviation Agency from time to time, and the transferee shall comply with all pertinent laws, ordinances, rules, orders, or other applicable regulations and shall hold the United States harmless from any liability or penalty which may be imposed by reason of any asserted violation thereof by the transferee.

b. Limitations on Major Structural Changes. The transferee shall not make, permit, or suffer any additions, improvements, or alterations to the airport property which constitute any major structural change or changes unless such change or changes (1) are made in carrying out a project under the Federal Airport Act of 1946, as amended (49 U.S.C. 1101); or (2) are made with the prior written consent of the Administrator of the Federal Aviation Agency. Change or changes made with the prior written consent of said Administrator and not under the Federal-Aid Airport Program shall be solely at the expense of the transferee, and unless such consent provides specifically that title to the addition or improvements so made shall vest in the transferee, title thereto shall at all the transferee, title thereto shall at all times remain in the United States and such additions or improvements shall be subject to all terms and conditions of this instrument. The transferee agrees to hold the United States harmless from mechanics' and materialmen's liens arising from any additions, improvements, or alterations effected by the transferee.

c. Right of Inspection. The District Engineer and the Federal Aviation Agency, or the designated representatives of either of them, shall have the right to inspect the airport at all times.

d. Claim for Damages. The transferee agrees to maintain, indemnify, and save harmless the United States against and from any and all claims for damages which may arise from or in connection with the privileges herein granted, excepting claims for injuries or death to persons resulting from willful or negligent acts or omissions of the United States or any of its officers, employees, agents, or agencies. \*

Figure 11-7f

ER 405-1-12  
Change 12  
27 Oct 80

\* e. Payment of Charges Due. The transferee shall assume responsibility for the payment of all taxes and assessments and public utility charges becoming due on the property from the date of its entering into possession of the airport property.

f. Violation or Neglect of Contract. That if the transferee violates or neglects to perform any of the terms or conditions of the agreement formed by the acceptance of its application, it will, if required by the Administration, vacate said premises, remove all property of the transferee therefrom and restore the land, improvements, facilities, and equipment included herein to as good condition on such date of expiration or relinquishment as when received, ordinary wear and tear excepted. If the transferee shall fail or neglect to remove said property and to restore the land, improvements, facilities, and equipment included herein, then, at the option of the Government, said property shall either become the property of the United States without compensation therefor, or the Government may cause the property to be removed and the land, improvements, facilities, and equipment included herein to be so restored at the expense of the transferee and no claim for damage against the United States or its officers or agents shall be created by or made on account of such removal and restoration.

g. When Government Property is Unaccounted For. If, upon removal of the transferee from the premises prior to its acceptance of delivery of the instrument or instruments of transfer conveying title to the airport, any property (other than usable supplies and maintenance materials) of the United States is unaccounted for, the transferee shall make replacement to the satisfaction of the Administrator of the Federal Aviation Agency, or in lieu of such replacement, the transferee shall, if so required by the Administrator of the Federal Aviation Agency, pay to the United States money in an amount sufficient to compensate for the loss sustained by the United States or any of its agencies.

8. The successful applicant agrees to perform all acts necessary or desirable to enable it to enter into possession of the property within \_\_\_\_\_ days after acceptance of its application by the Administration and agrees to enter into possession not later than that date, under the same provisions and conditions of possession as set out in paragraph 7 above. Time shall be of the essence in the agreement formed by such acceptance.

9. The District Engineer assign or transfer its right, title, and interest in the agreement formed by its acceptance of the application to any other branch or agency of the United States, and upon such assignment or transfer, such branch or agency shall succeed to all the rights, powers, privileges, immunities, duties, and obligations of the District Engineer hereunder, and the District Engineer shall cease to have any duties or obligations hereunder. \*

Figure 11-7g

ER 405-1-12  
Change 12  
27 Oct 80

\* 10. Neither the agreement formed by acceptance of this application nor any interest therein shall be assigned or transferred by the applicant to any other party.

11. No member of or delegate to Congress or Resident Commissioner shall be admitted to any share or part of the agreement formed by the acceptance of this Application or to any benefit that may arise therefrom, but this provision shall not be construed to extend to such agreement if made with a corporation for its general benefit.

Dated this \_\_\_\_\_ day of \_\_\_\_\_, 19 \_\_\_\_\_.

SCHEDULE "A"

As the result of a field survey and recommendations made by the Administrator of the Federal Aviation Agency, the property hereinafter described has been classified as available for disposal as airport property under the Federal Property and Administrative Services Act, as amended, and the Surplus Property Act of 1944, as amended. (The descriptions are believed to be correct, but any error or omission shall not constitute any ground or reason for any claim by applicant against the General Services Administration or the Federal Government.)

a. Land. All that certain parcel of land located in the City of \_\_\_\_\_, County of \_\_\_\_\_, State of \_\_\_\_\_.  
more particularly described as:

b. Buildings and Improvements.

c. Necessary Operating Equipment.

Figure 11-7i

## INSTRUCTIONS TO APPLICANTS FOR AIRPORT PROPERTY

1. Standard Application Form. Applications must be submitted on the inclosed standard Application Form. Additional copies and any additional information desired may be obtained at the office of the District Engineer located at \_\_\_\_\_.

2. Rights Reserved. The right is reserved to waive any defect or informality in the applications received and to accept or reject any application. In the case of receipt of two or more applications of equal priority and merit, choice of the transferee will ordinarily be based on need for the property as airport property.

3. Property Offered in its Entirety. The property described in the application is offered for disposal in its entirety and is not severable, and bids for separate portions thereof will not be considered; provided, however, that the applicant may delete from Schedule "A" such buildings, improvements, and equipment as it does not desire to acquire hereunder.

4. If Applicant is Political Entity. If the applicant is a political entity, there shall be attached to the application copies, in duplicate, of so much of the records of its governing body as will show the official character and authority of the officer signing the application; authorize him to accept delivery of all formal instruments of transfer and agree that the transferee shall be bound by all the terms, reservations restrictions, and conditions of transfer set forth in the application. Such copies shall be duly certified to be true copies by the secretary or other official with powers of certification, and the official seal of the applicant shall be affixed to such certification.

5. Applicant Must Furnish Legal Authority. The applicant shall furnish with its application, and as a condition precedent to the delivery of the aforesaid instruments of transfer, evidence satisfactory to the Administration of its legal authority to accept transfer of the property applied for herein and to covenant to operate and maintain the same in the manner required hereby.

6. Airport Subject to Inspection. The airport is now subject to inspection by prospective transferees. Office of the District Engineer \_\_\_\_\_ will, upon request, make arrangements for such inspection.

7. Administration's Notice of Acceptance. Notice by the Government of acceptance or rejection of the application, if not personally made to a \*

QUITCLAIM DEED AND TRANSFER AGREEMENT

(AIRPORT PROPERTY)

THIS QUITCLAIM DEED AND TRANSFER AGREEMENT, made and entered into by and between the UNITED STATES OF AMERICA, acting by and through the Secretary of the Army (Air Force), under and pursuant to the powers and authorities contained in the Surplus Property Act of 1944, 58 Stat. 765, as amended, 50 U.S.C. APP. 1622(g) (1948 ed.), and the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended 40 U.S.C. Chapter 10, (1958 ed.), and the delegation of authority to the Secretary of Defense from the Administrator of the General Services Administration (41 CFR Sections 101-47.302-2 and 101-47.308-2), and the redelegation of authority from the Secretary of Defense to the Secretary of the Army (Air Force) (20 Fed. Reg. 7113), Party of the First Part, and the (City of \_\_\_\_\_, \_\_\_\_\_, a body cooperate and politic under the laws of the State of \_\_\_\_\_, its successors and assigns, Party of the Second Part:

W I T N E S S E T H :

That the said Party of the First Part, for and in consideration of the assumption by the Party of the Second Part of all the obligations and its taking subject to certain reservations, restrictions and conditions and its covenant to abide by and agreement to certain other reservations, restrictions and conditions, all as set out hereinafter, conveys and \*

\* EXCEPTING, HOWEVER, from this conveyance all right, title and interest in and to all its property in the nature of equipment, furnishings and other personal property located on the above described premises which can be removed from the land without material injury to the land or structures located thereon, other than property of such nature located on the premises hereby conveyed or surrendered from lease which is reasonably necessary for the operation or maintenance of the airport or for the operation or maintenance of the structures and improvements specifically listed hereinabove as being transferred hereby, for any reasonable use for which such structures or improvements are readily adaptable; and further excepting from this conveyance all its structures on said premises other than structures specifically described or enumerated above as being conveyed hereunder, including \_\_\_\_\_.

\* \* \* \* \*

And reserving to the Party of the First Part for itself and its lessees, licensees, permittees, agents and assigns the right to use the property and structures excepted hereby in such a manner as will not materially and adversely affect the development, improvement, operation, or maintenance of the airport and the right of removal from said premises of such property and structures, all within a reasonable period of time after the date hereof, which shall not be construed to mean any period more than one (1) year after the date of this instrument, together with a right of ingress to and egress from said premises for such purposes; \*

Figure 11-8d

ER 405-1-12  
Change 12  
27 Oct 80

\* PROVIDED, FURTHER, that if any or all of the buildings and improvements described herein revert to Party of the First Part under the terms hereof, and at the time of such reversion some are located on land of Party of the Second Part not subject to reversion to Party of the First Part, Party of the First Part shall be allowed twelve (12) months from the date of such reversion to remove same, together with the right of ingress and egress for such purposes.

TO HAVE AND TO HOLD said premises, with appurtenances, subject to the exceptions, reservations, restrictions and conditions referred to and set forth in this instrument, unto said Party of the Second Part, its successors and assigns, forever.

By the acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, its successors and assign, forever.

By the acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, its successors and assigns, agrees that the surrender of leasehold and the transfer of the property transferred by this instrument, is accepted subject to the following restrictions set forth in subparagraphs (1) and (2) of this paragraph, which shall run with the land, imposed pursuant to the authority of Article 4, Section 3, Clause 2 of the Constitution of the United States of America, the Surplus Property Act of 1944, as amended, the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) and applicable rules, regulations and orders:

\*

Figure 11-8e

ER 405-1-12  
Change 12  
27 Oct 80

(1) That, except as provided in subparagraph (6) of the next succeeding unnumbered paragraph, the land, leased premises, buildings, structures and improvements in which this instrument transfers any interest shall be used for public airport purposes for the use and benefit of the public, on reasonable terms and without unjust discrimination and without grant or exercise of any exclusive right for use of the airport within the meaning of the term "exclusive right" as used in subparagraph (4) of the next succeeding paragraph. As used in this instrument, the term "airport" shall be deemed to include at least all such leased premises, buildings, structures and improvements;

(2) That, except as provided in subparagraph (6) of the next succeeding paragraph, the entire landing area, as defined in Title 44, C.F.R. Chapter 1, Subchapter C, Section 101.19 (15 F.R. 1346) approved March 8, 1950, and all structures and improvements in which this instrument transfers any interest shall be maintained for the use and benefit of the public at all times in good and serviceable condition, provided, however, that such maintenance shall be required as to structures and improvements only during the remainder of their estimated life, as determined by the Administrator of the Federal Aviation Agency. In the event materials are required to rehabilitate or repair certain of the aforementioned structures and improvements, they may be procured by demolition or other structures and improvements transferred hereby and located on the above described premises which have outlived their use as airport property in the opinion of the Administrator of the Federal Aviation Agency. \*

Figure 11-8f

ER 405-1-12  
Change 12  
27 Oct 80

\* By acceptance of this Agreement or any rights hereunder, the said Party of the Second Part, for itself, its successors and assigns, also assumes the obligations of, covenants to abide by and agrees to, and this transfer is made subject to, the following reservations and restrictions set forth in subparagraphs (1) to (7), inclusive, of this paragraph, which shall run with the land, imposed pursuant to the authority of Article 4, Section 3, Clause 2 of the Constitution of the United States of America, the Surplus Property Act of 1944, as amended, the Federal Property and Administrative Services Act of 1949 (63 Stat. 377) and applicable rules, regulations and orders:

(1) That insofar as it is within its powers, the Party of the Second Part shall adequately clear and protect the aerial approaches to the airport by removing, lowering, relocating, marking or lighting or otherwise mitigating existing airport hazards and by preventing the establishment or creation of future airport hazards.

(2) That the United States of America (hereinafter sometimes referred to as the "Government") through any of its employees or agents shall at all times have the right to make nonexclusive use of the landing area of the airport at which any of the property transferred by this instrument is located or used, without charge: Provided, however, that such use may be limited as may be determined at any time by the Administrator of the Federal Aviation Agency to be necessary to prevent undue interference with use of other authorized aircraft: Provided, further, that the Government shall be obligated \*

Figure 11-8g

ER 405-1-12  
Change 12  
27 Oct 80

\* to pay for damages caused by such use, or if its use of the landing area is substantial, to contribute a reasonable share of the cost of maintaining and operating the landing area, commensurate with the use made by it.

(3) That during any national emergency declared by the President of the United States of America or the Congress thereof, the Government shall have the right to make exclusive or nonexclusive use and have exclusive or nonexclusive control and possession, without charge, of the airport at which any of the property transferred by this instrument is located or used, or of such portion thereof as it may desire, provided, however, that the Government shall be responsible for the entire cost of maintaining such part of the airport as it may use exclusively, or over which it may have exclusive possession or control, during the period of such use, possession, or control, and shall be obligated to contribute a reasonable share, commensurate with the use made by it, of the cost of maintenance of such property as it may use nonexclusively or over which it may have nonexclusive control and possession; Provided, further, that the Government shall pay a fair rental for its use, control, or possession, exclusively or nonexclusively of any improvements to the airport made without United States aid.

(4) That no exclusive right for the use of the airport at which the property transferred by this instrument is located shall be vested (directly or indirectly) in any person or persons to the exclusion of others in the same class, the term "exclusive right" being defined to mean: \*

Figure 11-8h

ER 405-1-12  
Change 12  
27 Oct 80

\* (a) Any exclusive right to use the airport for conducting any particular aeronautical activity requiring operation of aircraft;

(b) any exclusive right to engage in the sale or supplying of aircraft, aircraft accessories, equipment, or supplies (excluding the sale of gasoline and oil), or aircraft services necessary for the operation of aircraft (including the maintenance and repair of aircraft, aircraft engines, propellers, and appliances).

(5) That, except as provided in subparagraph (6) of this paragraph, the property transferred hereby may be successively transferred only with the proviso that any such subsequent transferee assumes all the obligations imposed upon the Party of the Second Part by the provisions of this instrument.

(6) That no property transferred by this instrument shall be used, leased, sold, salvaged, or disposed of by the Party of the Second Part for other than airport purposes without the written consent of the Administrator of the Federal Aviation Agency which shall be granted only if said Administrator determines that the property can be used, leased, sold, salvaged or disposed of for other than airport purposes without materially and adversely affecting the development, improvement, operation or maintenance of the airport at which such property is located;

(7) The Party of the Second Part does hereby release the Government and will take whatever action may be required by the Secretary of the \_\_\_\_\_ to assure the complete release of the Government from any and all liability the Government may be under for \*

Figure 11-8i

ER 405-1-12  
Change 12  
27 Oct 80

\* restoration or other damages under any lease or other agreement covering the use by the Government of the Airport, or part thereof, owned, controlled or operated by the Party of the Second Part, adjacent to which, or in connection with which, any property transferred by this instrument was located or used; provided, that no such release shall be construed as depriving the Party of the Second Part of any right it may otherwise have to receive reimbursement under Section 17 of the Federal Airport Act for the necessary rehabilitation or repair of public airports heretofore or hereafter substantially damaged by any Federal agency.

By acceptance of this instrument or any rights hereunder, the Party of the Second Part further agrees with the Party of the First Part, as follows:

(1) That in the event that any of the aforesaid terms, conditions, reservations or restrictions are not met, observed, or complied with by the Party of the Second Part, or any subsequent transferee, whether caused by the legal inability of said Party of the Second Part or subsequent transferee to perform any of the obligations herein set out, or otherwise, the title, right of possession and all other rights transferred by this instrument to the Party of the Second Part, or any portion thereof, shall at the option of the Party of the First Part revert to the Party of the First Part sixty (60) days following the date upon which demand to this effect is made in writing by the Administrator of the Federal Aviation Agency, unless within said sixty (60) days such default or violation shall have been cured and all such terms, conditions,\*

Figure 11-8j

ER 405-1-12  
Change 12  
27 Oct 80

\* reservations and restrictions shall have been met, observed or complied with, in which event said reversion shall not occur and title, right of possession, and all other rights transferred hereby, except such, if any, as shall have previously reverted, shall remain vested in the Party of the Second Part, its transferees, successors and assigns.

(2) That if the construction as covenants of any of the foregoing reservations and restrictions recited herein as covenants or the application of the same as covenants in any particular instance is held invalid, the particular reservations or restrictions in question shall be construed instead merely as conditions upon the breach of which the Government may exercise its option to cause the title, right of possession and all other rights transferred to Party of the Second Part, or any portion thereof, to revert to it, and the application of such reservations or restrictions as covenants in any other instance and the construction of the remainder of such reservations and restrictions as covenants shall not be affected thereby.

This conveyance shall not in any manner waive, cancel, or abridge any rights previously granted or reserved to the Government by Quitclaim Deed dated June 8, 1948, to the City of \_\_\_\_\_ by Instrument of Transfer dated December 21, 1948, to the City of \_\_\_\_\_, or by any other agreement or instrument.

(3) This conveyance is not subject to Title 10, United States Code, Section 2662. \*

APPLICATION FOR REAL PROPERTY  
FOR THE CONSERVATION OF WILDLIFE

(Place) \_\_\_\_\_

(Date) \_\_\_\_\_

To: District Engineer

\_\_\_\_\_  
(Address)

The \_\_\_\_\_ acting by and through  
(State Government)

\_\_\_\_\_  
\_\_\_\_\_  
(Street Address)

of the City of \_\_\_\_\_ pursuant to the provisions of the Act of Congress approved May 19, 1948 (Public Law 537, 80th Congress), and to the Rules and Regulations of the General Services Administration, hereby expresses its intention to acquire from the United States of America the following described property described in detail in "Program of Utilization" attached hereto and made a part hereof as "Exhibit A," located at the installation identified as follows:

(Here insert the name of the installation where the property desired is located.)

The Government reserves the right, as its interest may require, to reject any and all requests, or part of any request for property contained in this application; to waive defects, informalities, and irregularities; and to permit alteration of this application by the State by increasing or decreasing the property to be acquired herewith.

Enclosed herewith is a certification as to the authority of the undersigned to execute this application and to do all other acts necessary to consummate the transaction.

The undersigned agrees that this application is made upon the further terms and conditions: \*

Figure 11-9a

ER 405-1-12  
Change 12  
27 Oct 80

- \* 1. Upon approval of this application, notice in writing of the extent of the property which may be transferred and of any boundary surveys which may be required to be performed at the expense of the transferee will be transmitted by the District Engineer, \_\_\_\_\_ to the undersigned.
- 2. Within five days from the receipt of such notice, the undersigned will elect to accept transfer of the property or to withdraw its application and will communicate such election in writing to the District Engineer at the above address.
- 3. It is understood that property transferred as a result of this request will be subject to:
  - (a) Reservation by the United States of all oil, gas, and mineral rights;
  - (b) The condition that the property shall continue to be used for wildlife conservation; and
  - (c) The condition that in the event the property transferred is no longer used for such purposes, or in the event the property is needed for national defense purposes, title thereto shall revert to the United States.

In support of its eligibility for transfer of the requested property, the undersigned submits a proposal entitled "Program of Utilization," in an original and five copies, which are attached hereto as Exhibit A, which proposal is drawn in accordance with, and contains the information required by "Instructions for Preparation of Applications for Real Property for the Conservation of Wildlife."

PROGRAM OF UTILIZATION

Real Property for the Conservation of Wildlife

Exhibit "A" of Application dated \_\_\_\_\_ 19 \_\_\_\_

Outline. The following information must be submitted under the above title and date line as a part of each application in connection with each property requested:

a. Name of Applicant Agency and Representative.

(1) Legal name of prospective transferee; and

(2) Name, title, and address of person having authority to consummate transaction as shown by attached certificate.

b. Property Name and Location.

(1) Name and identification of property; and

(2) Location of property the subject of this request:

(a) County;

(b) Nearest town; and

(c) Distance and direction from nearest town.

c. Description of Property.

(1) Land:

(a) Acreage;

(b) Boundaries - by legal description;

(c) Types of land, expressed as percentage of the total requested:

(a) agriculture, (b) wild hay, (c) grazing, (d) timber lands, (e) marsh, (f) brush, (g) submerged land, (h) lakes, (i) river, (j) other types;

(d) Land suitability: Discuss (a) farming, (b) grazing (c) trapping, (d) hunting, (e) logging, (f) fisheries, (g) other;

(e) Timber: Describe species and whether virgin, culled, or cut-over, approximate average stand.

\*

Figure 11-9c

\* (2) Buildings: Describe individually by building number and designation as "Barracks," "PX," etc., and give dimensions and square feet of floor space.

(3) Utilities:

(a) Designation; and

(b) Description.

b. Program Brief. Here give in detail a complete plan for the administration and utilization of the property covering thoroughly the following:

(1) Portion of area to be set aside as refuge;

(2) Wildlife species to be primarily benefited;

(3) What protection will be afforded wildlife;

(4) What uses will be made of the lands other than for game propagation; and

(5) Specific use for each structure and for utilities.

e. Proof of Need.\*

f. Suitability of Property. \*

g. Plans to Finance and Maintain the Property. \*

h. Tax or Public Revenue Support. \*

i. Current and Planned Land Utilization for Wildlife Conservation. \*

\*Items e through i should be prepared in accordance with e through i of the instructions.

Conclude with a statement under oath as required in the instructions. \*

INSTRUCTIONS FOR PREPARATION OF APPLICATIONS  
FOR REAL PROPERTY FOR THE CONSERVATION OF WILDLIFE

1. General.

a. Separate Applications. A separate application for such property shall be submitted for each surplus installation or portion thereof. Each application must have attached as a part thereof a "Program of Utilization."

b. Preparation and Distribution of Applications. Applications for such property shall be prepared in an original and five signed copies.

(1) The original and copies as indicated above, consisting of "Application for Real Property for the Conservation of Wildlife" and "Program of Utilization" and exhibits and certificates necessary to meet the requirements of these instructions, shall be forwarded to the Regional Commissioner, General Services Administration, \_\_\_\_\_

(2) The applicant should keep one signed copy.

2. Special Instructions. In preparing the "Program of Utilization" the specific instructions set forth below shall be adhered to:

a. Name of Applicant Agency and Representative. Indicate the correct name of the applicant state, state commission, or agency, etc., to which conveyance may be made. The name, title, and address of the person to whom inquiries concerning the program are to be addressed shall be indicated.

b. Name and Location of Property. Indicate the official name of the surplus installation and its location, showing county and state and distance and direction from the nearest town.

c. Description of Property in Detail. The real property required shall be described. Buildings shall be identified by number, size, and type of construction. Where land and a considerable portion of an installation is applied for, a plat map of the installation, indicating the facilities required, should be attached if possible, and the total acreage, total number of buildings and structures, utilities, easements, etc., shall be summarized thereon. Such maps usually may be obtained from the installation custodian.

ER 405-1-12

Change 12

27 Oct 80

\* d. Program Brief. A complete program brief is required in order for the District Engineer to determine whether the property (1) can be utilized for wildlife purposes; and (2) is chiefly valuable for such purpose.

(1) Briefs should cover specific plans for such programs as:

(a) Refuge Lands. Inviolable sanctuaries for the unmolested feeding and breeding of wildlife, generally unavailable to the public;

(b) Game Management Units. Areas of value for the feeding, resting, and breeding purposes, part or all of which may be open to controlled public shooting during specified periods as a means of harvesting the surplus wildlife crop;

(c) Nurseries and Game Farms. Limited areas within the state to be used for the production of food plants and certain game species for planting and release on other areas within the state; and

(d) Research Areas. Units primarily used for research purposes in studying the life history, habits and management procedures of wildlife species in their native habitat.

(2) Programs which contemplate the unrestricted harvesting of game or the unrestricted shooting or trapping thereof or which for any reason do not contemplate positive action on the part of the requesting state to protect and/or propagate wildlife will not be acceptable. Areas sought solely for field trials, dog runs, etc., are not subject to transfer under the provisions of Public Law 537, 80th Congress.

e. Must Show Definite Proof of Need. Surplus property may not be determined to be chiefly valuable for the conservation of wildlife except where property is shown to be needed for such purposes. It is important that definite proof of need and the degree of inadequacy of existing facilities in the area where the property is sought be reflected in the program.

f. Must Show Suitability or Adaptability. The facilities to be conveyed must be suitable for the program proposed, or readily adaptable to such purposes. A statement as to suitability and/or plans for conversion of the property is required.

g. Must Evidence Plans to Finance and Maintain Property. A full and complete statement of ability to finance, operate, and maintain the facilities to be acquired shall be reflected, and plans for the conversion, staffing, operation and maintenance shall be discussed fully. \*

Figure 11-9f

\* h. Tax or Public Revenue Support. Indicate the degree of tax support. Include any appropriation of public revenues for the operation of the facilities either through contracts for services, etc., or direct appropriation.

i. Current and Planned Land Utilization for Wildlife Conservation. Attach, for the original and for each copy of the application, copies of a map of the state and show thereon the location, acreage, and program designation for each area being used by the state and/or its agencies for wildlife conservation purposes, and indicate by different color or shading the location, acreage, and proposed use of the property requested in this and previous applications and also other property which the state proposes to acquire for wildlife conservation purposes under the provisions of Public Law 537. Also, as paragraph "i" of the "Program of Utilization," itemize all requests previously submitted for property under the provisions of Public Law 537, identifying each by name of installation from which the property was requested, by date of request, and by acreage requested.

j. Statement Under Oath. The authorized official of the state instrumentality making this application shall state under oath that the applicant is an instrumentality of State Government; and that the facilities to be acquired will be used chiefly for the conservation of wildlife. This statement shall be attached to the application.

k. Notice of Intent and Time of Filing. Neither written nor oral inquiries nor oral requests to withhold the disposal of property will be given consideration. Before the District Engineer will take action on a proposal to acquire property, it must receive a formal letter of intent, or an executed application, to acquire such property. However, any requestor filing a timely letter of intent will be given thirty days from the date the letter of intent is received in the District Engineer's office in which to submit a formal application. \*

SAMPLE DEED FOR CONVEYANCE OF LAND AND IMPROVEMENTS  
FOR CONSERVATION OF WILDLIFE

THIS INDENTURE by and between the United States of America, acting by and through the Secretary of the Army (Air Force) under and pursuant to the powers and authority contained in the Act of 19 May 1948, C.310, 62 Stat. 240, 241 as amended, 16 U.S.C. 667 b-d (1958 ed.), and the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended 40 U.S.C. Chapter 10 (1958 ed.) and the delegation of authority to the Secretary of Defense from the Administrator of the General Services Administration dated 28 March 1957, 22 Fed. Reg. 2265 - 2266, and the redelegation of authority from the Secretary of Defense to the Secretary of the Army (Air Force) dated 24 April 1957, 22 Fed, Reg. 3164, Party of the First Part and the State of \_\_\_\_\_.

Party of the Second Part:

WITNESSETH:

That the said party of the first part for and in consideration of the continuous use and management of the property hereinafter described for wildlife conservation purposes, and the benefits that will accrue to the United States from its continued use for such purposes, and its taking subject to the reservations, restrictions, and conditions hereinafter set out, does release and quitclaim to the said party of the second part, \*

Figure 11-10a

\* under and subject to the said reservations, restrictions, and conditions, all its right, title and interest in and to the following described property in the county (ies) of \_\_\_\_\_ State of \_\_\_\_\_, to wit:

DESCRIPTION

(Metes and bounds description)

being (apart of) the same property acquired by the United States of America under \_\_\_\_\_, recorded in \_\_\_\_\_.

TO HAVE AND TO HOLD the foregoing described premises, together with all and singular, the appurtenances, rights, powers, and privileges thereunto belonging or in anywise appertaining, subject to the reservations, restrictions, and conditions hereinafter set forth, unto the said party of the second part.

The land and property conveyed by this instrument are subject to the reservation by the United States of all oil, gas, and other minerals, and there is reserved to the United States all oil, gas, and other minerals in the land conveyed hereby, together with the right of the United States, its authorized agents, representatives, lessees, or assigns, to enter upon the said land at any time to prospect for, mine, drill for, and remove, any and all such minerals.

The land and property conveyed by this instrument are subject to the condition that they shall be continuously used and managed for the conservation of wildlife and are conveyed upon and subject to the condition \*

Figure 11-10b

ER 405-1-12  
Change 12

COST OF RESTORATION

LEASE NO. \_\_\_\_\_ USING SERVICE \_\_\_\_\_  
LOCATION \_\_\_\_\_ TYPE OF PROPERTY \_\_\_\_\_  
LESSOR \_\_\_\_\_  
RENTAL \_\_\_\_\_ TERMINATION DATE \_\_\_\_\_

This lease provides for, and the lessor has established a legal right restoration of the leased premises by the Government.

I hereby certify that an investigation has been made as to each of the items of restoration or damages listed on the attached Joint Terminal Condition Survey and that: they are bona fide; that such resulted from use by the Government of the leased premises; that such are in excess of reasonable and ordinary wear and tear and damages by the elements or by circumstances over which the Government has no control. I further certify that the estimate of cost assigned to each item is just and fair, and that such prices are comparable to charges made to the public generally for like materials and services in the vicinity of the leased premises.

Recapitulation of restoration factors:

Estimated cost of Government improvements ----- \$ \_\_\_\_\_  
Estimated gross salvage value of Government  
improvements -----  
Estimated net salvage value of Government  
improvements -----  
Estimated cost of restoration -----  
Net cost of restoration -----

It is recommended that the Government pay the lessor the sum of \$ \_\_\_\_\_ in lieu of physical restoration of the premises by the Government.

PART 2

ANALYSIS AND RECOMMENDATIONS OF DIVISION  
REAL ESTATE OFFICER OR HIS REPRESENTATIVE

Analysis

1. Lease No. \_\_\_\_\_ provides for, and the lesser has established a legal right to restoration of the leased premises by the Government to the extent hereinafter set forth.

2. The Joint Terminal Condition Survey, substantiated by investigation, indicates that certain items of damages/restoration listed therein result from use by the Government. As a consequence, there exists a legal obligation on the part of the Government to either physically restore the leased premises or effect a cash settlement in lieu of restoration.

3. The itemized list of damages, together with cost estimates of the lessor and the Government (Part 3), indicates in summary that it will cost the Government \$ \_\_\_\_\_ to accomplish physical restoration of the leased premises by contract.

4. Substantiation for the pertinent cost estimates as stated in Part 1, Recapitulation, is reflected in the following supporting documents:

a. Part 3 - Itemized List of Damages with Estimate of Restoration costs.

b. Part 4 - Itemized List of Government-owned Improvements, Fixtures and Alterations Placed on Property with Estimated Values.

c. Part 5 - Fee Value Appraisal of Leased Premises. This includes data pertinent to diminution of value.

Proposed Settlement

Recommendations

Certification

I certify that the items of restoration and damages listed herein have been incurred as a result of use by the Government, and are considered above and beyond reasonable and ordinary wear and tear, and damages by the elements or by circumstances over which the Government has no control.

FORMAT FOR  
SUPPLEMENTAL AGREEMENT NO. \_\_\_\_\_  
TO EMERGENCY PLANT FACILITIES CONTRACT NO. \_\_\_\_\_

This Supplemental Agreement entered into this \_\_\_\_\_ day of \_\_\_\_\_  
19 \_\_\_\_, by and between the United States of America, hereinafter called  
the Government represented by the Contracting Officer executing this  
Agreement and \_\_\_\_\_, a corporation organized and existing under  
the laws of the State of \_\_\_\_\_, of the City of \_\_\_\_\_, in the  
State of \_\_\_\_\_, hereinafter called the Contractor, WITNESSETH THAT:

WHEREAS, the parties hereto have previously entered into Letter  
Contract No. \_\_\_\_\_ under date of \_\_\_\_\_, which  
Letter Contract was last amended by Supplement No. 6 thereto, \_\_\_\_\_  
\_\_\_\_\_; and

WHEREAS, pursuant to said contract and in accordance with the terms  
of Article 32 of Formal Supplement No. 3 thereto, executed by the parties  
on \_\_\_\_\_, and hereinafter referred to as the  
"principal contract," the Contractor constructed certain improvements  
designated in paragraph (a) of said Article 32 as Items 1 to 7 inclusive  
more particularly described hereinafter, on land owned by the Contractor  
at its plant located at \_\_\_\_\_, \_\_\_\_\_, in  
connection with its work under Contract No. \_\_\_\_\_, the  
costs for which Items 1 to 7 inclusive the Government has reimbursed the \*

Figure 11-18a

ER 405-1-12  
Change 12

\* the Government has reimbursed the Contractor in accordance with provisions of paragraph (b) of said Article 32, and which contract provides that title to Items 1 to 4 inclusive listed in the said paragraph (a) shall vest in the Government upon reimbursement by the Government to the Contractor of the costs thereof and that said Items 1 to 4 inclusive, hereinafter sometimes referred to as "Government-owned improvements," and all materials incorporated in for forming a part of said Items shall be deemed personality even though affixed to realty, and which contract further provides that title to said Items 5 to 7 inclusive shall be and remain in the Contractor, the Contractor to use said Items 1 to 7 inclusive without payment of rental therefor, in connection with its work under the said contract; and

WHEREAS, said contract further provides that the Contractor shall retain title to said Items 5 to 7 inclusive for a period of five years from the completion or termination of Contract No. \_\_\_\_\_, and that with respect to all improvements designated Items 1 to 7 inclusive the Contractor shall, for a of five years from the completion or termination of said Contract, perform certain obligations set forth in paragraph (e) of said Article 32 of the principal contract, which paragraph (e) further provides that the Contractor shall be released from the said obligations with respect to the said Items 1 to 7 inclusive as follows:

(1) Items 1 and 2, upon payment by the Contractor of the Government of the "added value" (as the same is defined in paragraph (h) of \*

Figure 11-18b

\* this article) of all such improvements, or upon the election by the Government to purchase the land upon which the same are located or to convey to the Contractor as provided for in paragraph (k);

(2) Items 3 and 4, upon payment by the Contractor to the Government of the "added value" of such improvements;

(3) Items 5, 6, and 7 upon the written determination of the Contracting Officer that the Government's interests will not be adversely affected by releasing the Contractor from such obligations and in any event upon the Contractor's being released from the above obligations with respect to the improvements described in Items 1, 2, 3, and 4 of paragraph (a); and

WHEREAS, pursuant to provisions of paragraph (g) (1) of said Article 32, the parties hereto have mutually agreed that the added value of Contractor's plant (as the same is defined in said paragraph (h) by reason of the Government-owned improvements designated as Items 1, 2, 3, and 4 is in the sum of Ninety Thousand Dollars (\$90,000.00); and

WHEREAS, it has been determined to be advantageous and in the interest of the Government to convey the said Items 1, 2, 3, and 4 to the Contractor upon payment to the Government of the said sum agreed upon by the added value to the plant of the Contractor,

NOW THEREFORE, pursuant to provisions of said contract and supplements thereto, and in consideration of the premises as well as the mutual obligations of the parties herein made and undertaken, the parties do mutually agree as follows:

\*

Figure 11-18c

ER 405-1-12  
Change 12  
27 Oct 80

\* 1. That the Government, under authority of the Federal Property and Administrative Services Act of 1949, as amended, and regulations issued thereunder, and for and in consideration of the payment of Ninety Thousand Dollars (\$90,000.00), and the covenants, promises, and agreements on the part of the Contractor, herein contained and made, agrees and hereby does, effective as of \_\_\_\_\_ sell, relinquish, transfer and deliver to the Contractor without warranty, express or implied, and the Contractor agrees to and hereby does for the price of Ninety Thousand Dollars (\$90,000.00) aforesaid, payable in full on or before \_\_\_\_\_, 19 \_\_\_\_, purchase all rights, title and interest of the Government in and to the following property:

Item 1 - An addition to the west side of the existing plant at the north and thereof containing approximately 44,600 square feet, sometimes referred to as the "main addition."

Item 2 - A building approximately 12 feet by 12 feet located just west of the main addition, sometimes referred to as the "Switch house."

Item 3 - An addition to the west side of the existing plant at the south end of the present tool room containing approximately 2,500 square feet, sometimes referred to as the "tool room addition."

Item 4 - A building approximately 21.4 feet by 41.4 feet located a short distance west of the tool room addition and used for plant and oil storage, sometimes referred to as the "paint and oil storage house."

2. That the Government, as of the \_\_\_\_\_, 19 \_\_\_\_, releases the Contractor from all obligations under the said contract, as \*

Figure 11-18d

ER 405-1-12  
Change 12

\* supplemented with respect to Items 1, 2, 3, and 4 listed in the foregoing paragraph, and releases the Contractor from all obligations set forth in paragraph (e) of said Article 32 of the principal contract with respect to said Items 1 to 7 inclusive.

3. That the Government, as of \_\_\_\_\_, 19 \_\_\_\_, cancels and relinquishes forever any rights and licenses granted to it by the Contractor under the terms of Contract No. \_\_\_\_\_ and supplements thereto, relating to the said Items 1 to 4 inclusive.

4. That the Contractor will, on \_\_\_\_\_, 19 \_\_\_\_, accept the surrender of the said Government-owned improvements heretofore designated as Items 1, 2, 3, and 4 and appurtenances thereto, in their present condition, and will assume the custody and care of said improvements and the risk of loss or damage thereto by fire or any other cause thereafter, the Government being thereafter relieved from any responsibility therefor.

5. That the Contractor relinquishes and forever discharges the Government, its officers, agents and employees of and from all manner of actions, liabilities and claims which, against the Government, its officers, agents and employees, the contractor now has or ever will have, for the restoration of the land upon which the said improvements designated Items 1 to 4 inclusive were constructed and for any restoration whatsoever of the property of the Contractor in connection with said Items 5, 6 and 7, and for any matter, cause of thing whatsoever arising out of the occupation by the Government or the aforesaid land or buildings of the Contractor, under the said contract and supplements thereto. \*

Figure 11-18e

ER 405-1-12  
Change 12  
27 Oct 80

\* 6. That the Contractor warrants that it has examined the premises and the buildings and structures thereon and appurtenances thereto to be conveyed hereunder and is fully familiar with the conditions of the same and the Government makes no representation or warranties as to the condition of any item thereof.

7. That the Contractor represents and warrants that it intends that all property being acquired under this contract shall be used in its production and that it is not acquiring any of such property for the purpose of reselling it directly or indirectly at a profit.

8. Except as herein modified, either expressly or by necessary implication, all the terms, covenants and conditions of Contract No. \_\_\_\_\_, as amended shall continue in full force and effect and apply equally to the provisions herein.

IN WITNESS WHEREOF, the parties hereto have executed this contract as of the \_\_\_\_\_ DAY OF \_\_\_\_\_, 19 \_\_\_\_.

C       AGREEMENT BETWEEN THE DEPARTMENT OF DEFENSE AND THE SMALL  
O       BUSINESS ADMINISTRATION FOR THE DEVELOPMENT OF A PROGRAM  
P       OF ASSISTANCE FOR SMALL BUSINESS CONCERNS IN THE SALE OF  
Y       TIMBER AND RELATED FOREST PRODUCTS FROM FORESTS ON FEDERAL  
          LANDS UNDER THE JURISDICTION OF DEPARTMENT OF DEFENSE

-----

SECTION I.   PURPOSE

The purpose of this Memorandum of Understanding between the Department of Defense (DOD) and the Small Business Administration (SBA) is to implement the provisions of the Small Business Act, as amended, relative to the sale of Government timber in such manner as will effectuate sections 8(b)(7) and 15 of the Small Business Act.

SECTION II.   UNIFORM POLICY COVERING ASSISTANCE TO SMALL BUSINESS CONCERNS

The DOD will issue regulations requiring each military department to cooperate with SBA in an effort to aid, counsel, assist and protect, insofar as possible, the interests of small business concerns in acquiring timber and to insure that a fair proportion of the total sales be made to such concerns.

The regulations will also require each military department in cooperation with the Small Business Administration:

(A) To utilize to the fullest extent SBA facilities inventory files in order to identify interested small business concerns;

(B) To develop and disseminate sales promotion information designed to broaden small business participation;

(C) To review the terms and conditions of sales programs to assure that participation by small business concerns is being encouraged;       \*

Figure 11-19a

ER 405-1-12  
Change 12  
27 Oct 80

\*

(D) To utilize the definition of small business established by SBA to maintain records to reflect the sales of timber made to small business concerns;

(E) To review periodically the results of sales programs to assure that small business is receiving a fair proportion of the total sales of timber;

(F) To utilize the certificate of competency authority vested in SBA by section 8(b)(7) of the Small Business Act when timber is being sold on a credit basis.

SECTION III. CERTIFICATES OF COMPETENCY

In cases of timber being sold on a credit basis, whenever a small business concern has submitted an otherwise acceptable bid or proposal but has been determined by the disposal officer not to be responsible as to capacity or credit, and if the bid or proposal is to be rejected solely for this reason: (1) SBA shall be notified of the circumstances so as to permit it, if warranted, to process a Certificate of Competency, and (2) award shall be withheld pending SBA action up to 10 working days from date of notification.

This procedure shall be mandatory for all sales except where the contracting officer certifies in writing that award must be made without delay and a statement justifying the action is signed by the contracting officer and placed in the contract file.

To assist SBA in determining the capacity and credit of any small business concern involved in a particular sale, the selling agency shall \*

Figure 11-19b

ER 405-1-12  
Change 12  
27 Oct 80

- \* make available to SBA, at the time of notification, all available pertinent data, including technical and financial information, with respect to the small business concern involved.

SECTION IV. JOINT SET-ASIDE DETERMINATION

The DOD will afford the SBA an opportunity to review its proposed program of timber and other forest product offerings involving sales which have an estimated value of \$2,000 or more. It is agreed that the SBA will consider the forest management and other pertinent factors involved in such program and will review such matters with the contracting officer before requesting a set-aside. Following consideration and review of the said factors the SBA may request in writing that the contracting officer make certain set-asides for small business concerns under authority of Section 15 of the Small Business Act.

The contracting officers of the DOD will agree to and will make set-asides when recommended by SBA unless such action is inconsistent with program requirements of the DOD, in which case the DOD will submit its reasons for refusal to SBA in writing.

If a set-aside has been agreed to and subsequent events indicate that such action would not be in the best interest of the Government, the contracting officer will request the SBA representative to concur in a withdrawal of the joint determination; if the SBA representative concurs, the set-aside will be canceled; if the SBA representative does not concur, he will be given an opportunity to express his opinion, but the final decision for all sales action will remain with the contracting officer.

\*

Figure 11-19c

ER 405-1-12  
Change 12  
27 Oct 80

\* SECTION V, PROCEDURES

DOD, in cooperation with SBA, will develop its own operational procedures designed to carry out this Memorandum of Understanding, Such procedures will be similar in effect to Chapter VII, Section 703, SBA Manual 600.

SECTION VI. AMENDMENT

This Understanding may be amended at any time by written agreement of the parties.

SECTION VII. EFFECTIVE DATE

This Understanding shall take effect upon the date of the execution thereof.

CERTIFICATE AS TO SMALL BUSINESS STATUS

The bidder certifies that he (is) (is not) a small business concern within the terms of the following definition:

In sales of Army forest timber a "small business" is a concern that:  
(1) is primarily engaged in the logging or forest products industry; (2) is independently owned and operated; (3) is not dominant in its field of operation; and (4) together with its affiliates does not employ more than 500 persons.

(From 13 CFR 121,3-9(b),  
Rev. 29 Fed. Reg. 2988, 5 Mar 64)

\_\_\_\_\_  
DATE

\_\_\_\_\_  
SIGNATURE OF BIDDER

Intentional falsification of this certificate is a criminal offense punishable by a fine of not more than \$5,000 or by imprisonment for not more than two years, or both. (Title 15, United States Code, Section 645 (a).)

INSTRUCTIONS: This certificate must be attached to and is a part of every invitation to bid on the sale of Army timber with an estimated value of \$2,000 or more. Failure to properly execute this certificate will not invalidate a bid, but a proper statement must be signed before the bid is accepted by the Government. Refusal or delay in executing a proper statement is grounds for rejecting the bid. \*

Invitation No. \_\_\_\_\_

DEPARTMENT OF THE ARMY

(Name and Address of Issuing Office)

INVITATION FOR BIDS, BID AND ACCEPTANCE

SALE OF SURPLUS REAL PROPERTY

I N V I T A T I O N F O R B I D S

Sealed bids will be received until \_\_\_\_\_ (time of day)  
on \_\_\_\_\_ (date), 19\_\_\_\_, at \_\_\_\_\_ (place)  
and then and there publicly opened, for purchase, subject to the terms  
and conditions and in accordance with the instructions to bidders  
hereinafter contained, of Government-owned real property described as  
follows (including any described related personal property and  
appurtenances, and subject to any stated exceptions, reservations and  
restrictions) : \_\_\_\_\_

The terms and conditions of the sale and instructions to bidders  
are as follows:

1. All bids submitted shall be deemed to have been made with full  
knowledge of all of the terms, conditions, and requirements herein  
contained.

2. The property offered for sale is now subject to inspection by  
prospective bidders. The District Engineer, \_\_\_\_\_  
will, upon request, arrange for inspection of the property, and will  
furnish such further information as may be necessary with respect to  
the terms, conditions and instructions herein contained. Any title  
evidence, including abstracts, and continuations thereof, title  
certificates, or policies of title insurance which may be desired by  
the successful bidder will be procured by him at his sole cost and  
expense. The Government will, however, permit examination and  
inspection of such deeds, abstracts, tax receipts, affidavits of title,  
judgments in condemnation proceedings, or other documents relating to  
the title to the property involved, as it may have available. The \*

ER 405-1-12

Change 12

27 Oct 80

\* failure of any bidder to inspect, or to be fully informed regarding the title to or the condition of all or any portion of the property, or negligence or mistake on the part of the bidder in preparing the bid, will not constitute grounds for any claim or demand for adjustment or withdrawal of a bid after and prior to award opening. The foregoing description of the property is believed to be sufficiently specific for purposes of identification. Any error or omission in such description shall not constitute any ground or reason for non-performance of the contract or claim by the successful bidder for any allowance, refund, or deduction from the amounts offered. The property is offered for sale "as is" and "where is." The Government does not make any guaranty or warranty, express or implied, with respect to the property as to title, quantity, quality, character or condition, size or kind; or that the property is in condition or fit to be used for the purpose for which intended.

3. The sale will be on an all-cash basis. Each bid must be accompanied by a certified check, cashier's check or postal money order, payable to the order of the "treasurer of the United States" (1) for the full amount bid if such amount is \$250.00 or less, or (2) for 25% of the amount bid, or \$250.00, whichever is greater, if the amount bid is more than \$250.00. All bids will remain open for acceptance or rejection for a period of \_\_\_\_\_ days from the date of opening bids. The deposit of the successful bidder will be retained by the Government to apply against payment of the purchase price and deposits of unsuccessful bidders will be returned, without interest, as promptly as possible after rejection, provided, however, that in the event of default by any bidder hereunder, that bidder's deposit may be applied by the Government to any loss, cost and expense occasioned to the Government thereby, including any loss, cost and expense incurred in selling the property and including any difference between the amount specified in the bid and the amount for which the Government may sell the property, if the latter amount be less than the former. The bidder is liable for the full amount of damages sustained by the Government because of his default; such liability is not limited to the amount of the bidder's deposit.

4. The balance of the purchase price will be paid by the successful bidder with \_\_\_\_\_ days after notice has been given by the Government of its readiness to deliver a deed. The United States will thereafter deliver to the successful bidder a quitclaim deed (and bill of sale, if needed to cover any related personal property) conveying all right, title, and interest of the United States in and to the property, without warranty, express or implied. The successful bidder will pay any required documentary revenue stamp tax. Title and the right of possession will remain in the United States until the deed has been delivered. The formal instruments of conveyance shall within a reasonable time after delivery be placed of record in the manner prescribed by local recording statues, \*

Figure 11-21b

ER 405-1-12  
 Change 12  
 27 Oct 80

\* all at the sole cost and expense of the successful bidder. The successful bidder will assume possession of and responsibility for the property upon delivery of the deed.

5. Sealed bids must be executed and submitted in quadruplicate on the bid form accompanying this Invitation for Bids, Bid and Acceptance or on exact copies thereof. Additional copies of the bid form may be obtained from the District Engineer.

6. A bid executed by an attorney or agent on behalf of the bidder must be accompanied by four authenticated copies of his Power of Attorney or other evidence of his authority to act on behalf of the bidder. If the bidder is a corporation, the CERTIFICATE OF CORPORATE BIDDER must be executed. If the bid is signed by the secretary of the corporation, the CERTIFICATE must be executed by some other officer of the corporation under the corporate seal. In lieu of the CERTIFICATE OF CORPORATE BIDDER, there may be attached to the bid copies so much of the records of the corporation as will show the official character and authority of the officer signing, duly certified by the secretary or assistant secretary, under the corporate seal, to be true copies.

7. The invitation number and bid-opening time must be plainly marked on the left side of envelopes in which bids are submitted, for example:

---

Return Address

Sealed Bid

To be opened:

To:

REAL ESTATE DIVISION

Time \_\_\_\_\_

Date \_\_\_\_\_

INVITATION NO. \_\_\_\_\_

8. It will be the duty of each bidder to see that his bid is delivered by the time and at the place prescribed in the invitation. Bids received prior to the time of opening will be securely kept, unopened. The person whose duty it is to open them will decide when the specified time has arrived, and no bid or modifications of a bid or withdrawals of a bid received thereafter will be considered, except that those received before award is made but delayed in the mails by occurrences beyond control of the bidder maybe considered if written certification is \*

Figure 11-21c

ER 405-1-12  
Change 12  
27 Oct 80

\* furnished by authorized postal authorities to that effect. No responsibility will attach for the premature opening of a bid not properly addressed and identified. All modifications of a bid or withdrawals of a bid must be in writing. Telegraphic bids will not be considered, but modifications or withdrawals by telegraph of bids already submitted will be considered if received prior to the time set for opening bids.

9. At the time fixed for the opening of bids, their contents will be made public by announcement for the information of bidders and others properly interested who may be present either in person or by representative, provided, however, that any information submitted in support thereof, the disclosure of which might tend to subject the person submitting it to a competitive business disadvantage, will upon request be held in strict confidence by the United States.

10. The right is reserved, as the interest of the Government may require, to reject any or all bids, to waive any defect or informality in bids received, and to accept or reject any bid or portion thereof.

11. Notice of acceptance or rejection of bids and notice that the Government is ready to deliver a deed and/or Bill of Sale shall be deemed to have been sufficiently given when telegraphed or mailed to the bidder or his duly authorized representative at the address indicated in the bid.

12. Except as otherwise provided in this Invitation for Bids, any dispute concerning a question of fact arising under this Invitation for Bids which is not disposed of by agreement shall be decided by the District Engineer, who shall reduce his decision to writing, and mail or otherwise furnish a copy thereof to the bidder. The decision of the District Engineer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the bidder mails or otherwise furnishes to the District Engineer a written appeal addressed to the Secretary of the Army. The decision of the Secretary, or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition, the bidder shall be afforded an opportunity to be heard and to offer evidence in support of appeal. Pending final decision of a dispute hereunder, the bidder shall proceed diligently with the performance of the contract and in accordance with the District Engineer's decision. This condition does not preclude consideration of questions of law provided that nothing in this condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law. \*

Figure 11-21d

ER 405-1-12  
Change 12  
27 Oct 80

\*

13. This Invitation for Bids, including all the instructions, and conditions set forth herein, and the Bid, when accepted by the Government, shall constitute the contract of sale between the successful bidder and the Government. Such agreement shall constitute the whole contract, unless modified in writing and signed by both parties. No oral statements or representations made by, for, or ostensibly on behalf of either party shall be a part of such contract. Neither this contract, nor any interest therein, shall be transferred or assigned by the successful bidder.

14. No member of or delegate to the Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or to any benefit that may arise therefrom, but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

15. The successful bidder warrants that he has not employed any person or agency to solicit or secure this contract upon any agreement for a commission, percentage, brokerage or contingent fee. Breach of this warranty shall give the Government the right to annul the contract without liability or at its option to recover from the successful bidder the amount of such commission, percentage, brokerage or contingent fee in addition to the consideration herein set forth. This warranty shall not apply to commissions payable by the successful bidder upon a contract secured or made through bona fide established commercial agencies maintained by the successful bidder for the purpose of doing business. "Bona fide established commercial agencies" has been construed to include licensed real estate brokers engaged in the business generally. \*

Invitation No. \_\_\_\_\_

DEPARTMENT OF THE ARMY

(Name and Address of Issuing Office)

INVITATION FOR BIDS, BID AND ACCEPTANCE

SALE AND REMOVAL OF BUILDINGS (OR OTHER REAL ESTATE IMPROVEMENTS)

LOCATED AT \_\_\_\_\_

I N V I T A T I O N F O R B I D S

Sealed bids will be received until \_\_\_\_\_ (time of day)  
on \_\_\_\_\_, 19\_\_\_\_, at \_\_\_\_\_ (place)  
and then and there publicly opened, for the purchase and removal from  
the site, subject to the terms and conditions and in accordance with  
the instructions to bidders hereinafter contained, of that Government-  
owned property described on the accompanying bid form. This invitation  
does not include personal property, except fixtures firmly attached,  
unless specifically listed or identified herein.

The terms and conditions of the sale and instructions to bidders  
are as follows:

1. All bids submitted shall be deemed to have been made with  
full knowledge of all of the terms, conditions, and requirements  
herein contained.

2. (Note: To be modified at discretion of the District Engineer,  
as provided by applicable regulations.) Bids may be submitted for one  
or any number of items but a separate amount must be bid for each item  
for which a bid is submitted. Lump sum bids covering several or all  
items will not be considered. The Government may accept or reject any  
item or items of any bid, unless such bid is qualified by specific  
limitation.

3. All bids will remain open for acceptance or rejection for a  
period of \_\_\_\_\_ calendar days from the date of opening bids. \*

ENG Form 1038-R  
1 Feb 66

Figure 11-22a

\*

4. The property for sale is located at \_\_\_\_\_ and is now subject to inspection by prospective bidders. The District Engineer, \_\_\_\_\_ will, upon request, arrange for inspection of the property, and will furnish such further information as may be necessary with respect to the terms, conditions and instructions herein contained. The failure of any bidder to inspect, or to be fully informed regarding the condition and location of all or any portion of the property will not constitute grounds for any claim or demand for adjustment or withdrawal of a bid after opening. The description of the property is believed to be sufficiently specific for purposes of identification. Any error or omission in the description (including locations, when specified) shall not constitute any ground or reason for nonperformance of the contract or claim by the successful bidder for any allowance, refund, or deduction from the amounts offered. The property is offered for sale "as is" and "where is." The Government does not make any guaranty or warranty, express or implied, with respect to the property as to quantity, quality, character or condition, size or kind, or that the property is in condition or fit to be used for the purpose for which intended.

5. The sale will be on an all-cash basis. Each bid must be accompanied by a certified check, cashier's check, travelers check, or postal money order, payable to the order of the "Treasurer of the United States": (1) for the full amount bid if such amount is \$100 or less; or (2) for \$100 or 20 per cent of the amount bid whichever is greater if the bid is more than \$100. All bids will remain open for acceptance or rejection by the Government for a period of \_\_\_\_\_ days after the date set for opening of bids by this invitation. The deposit of the successful bidder will be retained by the Government and applied as part payment of the purchase price. The balance of the purchase price must be paid within \_\_\_\_\_ calendar days after notice of acceptance of the bid has been given by the Government. Title to the property will remain in the United States until the full purchase price has been paid. The successful bidder will not remove any property until payment in full is made and a fully executed copy of the contract of sale is received from the said District Engineer, with authorization to proceed with removal. (Note: Requirement for bid deposit may be waived for state and local governments as provided in FPMR Section 101-45.302-11.

6. Upon receipt of authority to proceed with removal of the purchased property, the successful bidder will assume all responsibility for the care and protection of the property and will expeditiously remove the property from the site and restore the site in a manner and to a condition satisfactory to the \_\_\_\_\_ in accordance with the following specifications: \*

Figure 11-22b

ER 405-1-12  
Change 12  
27 Oct 80

(Note: Insert specifications covering the extent and method for accomplishment of work to be performed in connection with each item. The specifications should indicate whether or not removal of foundations, piers, curbs, slabs, floods, etc., is required and if so to what extent, and should include instructions regarding the cutting off of utilities, the capping of utility lines, the disposal of debris resulting from salvage operations, and any other data necessary to assure a proper understanding between the contracting parties as to the work to be performed under the contract.)

The successful bidder will bear all expense involved in accomplishment of the work required here under.

7. The successful bidder will complete all removal and restoration work required hereunder within \_\_\_\_\_ calendar days from the date of notice that removal of the property is authorized. The successful bidder will prosecute the work, or any separate portion thereof, with such diligence as will insure its completion within the time specified. Work may be performed between the hours of \_\_\_\_\_ to \_\_\_\_\_ daily, \_\_\_\_\_ excluded. When more than one item is sold hereunder, the time specified herein for completion of removal and restoration will run concurrently as to each item and not consecutively. No extensions of the time herein specified for completion of removal and restoration work will be granted unless, in the opinion of the said District Engineers unusual and unforeseeable circumstances justify such extensions, and agreement is reached on an adequate consideration for the extension.

(Note: Adequate additional consideration will be obtained for extensions unless the District Engineer determines a charge is inequitable as due to catastrophic circumstances or in some degree to Government action; or a charge would not be feasible because of likelihood of a default or other result not in the best interests of the Government. Where time is of the essence, in order to conform to construction schedules, or for other reasons, a statement to such effect should be made in this paragraph, and a statement that no extensions will be allowed should be substituted for the last sentence of condition 7 above.)

8. (Note: To be used at the discretion of the District Engineer.) In addition to the payments required under paragraph 5 above, each successful bidder will, within \_\_\_\_\_ calendar days after notice of acceptance of his bid by the Governments deliver to the said District Engineer a certified check, cashier's check or postal money order, payable to the order of the "Treasurer of the United States," in an amount equal to the total of the performance deposits specified below for all items on which he is the successful bidder, in order to insure faithful performance under this contract. The amount of the performance deposit required for each item is as follows:

\*

Figure 11-22c

Item No.Performance Deposit

(Note: Insert for each item the amount of performance deposit required. The amount specified for each item should be sufficient to protect the interest of the Government in the event of failure of the purchaser to perform all the work required under the contract incident to removal of the listed item within the time limit prescribed. The performance deposit listing may, if more convenient, be shown on the attached bid form, with appropriate reference in this paragraph to the listing there.)

In lieu of the deposit of a certified check, cashier's check, or postal money orders the purchaser may furnish a performance bond with surety approved by, and in a form acceptable, to the said District Engineer, the penal sum of such bond to be the same as the total of performance deposits provided for above. Standard Form 25, available at all surety and guaranteeing offices, may be used for this purpose.

9. In the event of any default by any bidder hereunder, all claim to and any title held in the property for sale, or any portion of it remaining, will be forfeited and all payments made by the defaulting bidder (including bid or performance deposits or bonds) will be applied by the Government to any loss, cost and expense occasioned to the Government by the default (including any loss, cost and expense in selling or otherwise disposing of such property in such manner, whether economic or not, as time limitations may allow). The defaulting bidder is liable for the full amount of damages sustained by the Government because of his default; such liability is not limited to the amount of the aforesaid payments. If the obligations of the successful bidder under this contract are discharged to the complete satisfaction of the said District Engineer, any performance deposit required hereunder will be promptly returned without interest. In the absence of default, the deposits of unsuccessful bidders will be returned without interest as promptly as possible after rejection of the bids.

10. The successful bidder will assume responsibility and liability for all injuries to persons or damages to property directly or indirectly due to, or arising out of, the operations of the successful bidder under this contract and the successful bidder agrees to indemnify and save harmless the United States against any and all claims of whatsoever kind and nature due to, or arising out of, this contract.

(Note: The District Engineer may, at his discretion, add here a requirement that the successful bidder carry liability insurance.)

11. (Note: To be used at the discretion of the District Engineer.)  
The successful bidder will not resell the property, or any portion \*

Figure 11-22d

ER 405-1-12  
Change 12  
27 Oct 80

\* thereof, or advertise the property, or any portion thereof, for resale until the property, or any portion thereof proposed for resale, has been removed from the site in accordance with this contract.

12. Sealed bids must be executed and submitted, in quadruplicate, on the bid form accompanying this invitation for bids, bid and acceptance, or on exact copies thereof. Additional copies of the bid form may be obtained from the said District Engineer.

13. A bid executed by an attorney or agent on behalf of the bidder must be accompanied by four authenticated copies of his Power of Attorney or other evidence of his authority to act on behalf of the bidder. If the bidder is a corporation, the Certificate Of Corporate Bidder must be executed. If the bid is signed by the secretary of the corporation, the Certificate must be executed by some other officer of the corporation under the corporate seal. In lieu of the Certificate of Corporate Bidder, there may be attached to the bid copies of so much of the records of the corporation as will show the official character and authority of the officer signing, duly certified by the secretary or assistant secretary, under the corporate seal, to be true copies.

14. The invitation number and bid-opening time must be plainly marked on the left side of the sealed envelope in which bids are submitted, for example:

Return Address

Sealed Bid

To be opened:

Time \_\_\_\_\_

Date \_\_\_\_\_

INVITATION NO. \_\_\_\_\_

TO: District Engineer, \_\_\_\_\_

ATTN: REAL ESTATE DIVISION

\_\_\_\_\_

\_\_\_\_\_

\_\_\_\_\_

15. It will be the duty of each bidder to see that his bid is delivered by the time and at the place prescribed in the invitation. Bids received prior to the time of opening will be securely kept, unopened. The person whose duty it is to open them will decide when the specified time has arrived, and no bid or modifications of a bid, or withdrawals of a bid received thereafter, will be considered, except that those received before award is made, but delayed in the mails by occurrences beyond control of the bidder, may be considered if written certification is furnished by authorized postal authorities to that effect. \*  
No responsibility will attach for the premature opening of a bid not

Figure 11-22e

\* properly addressed and identified. All modifications of a bid or withdrawals of a bid must be in writing. Telegraphic bids will not be considered, but modifications or withdrawals, by telegraph, Of bids already submitted will be considered, if received prior to the time set for opening bids.

16. At the time fixed for the opening of bids, their contents will be made public by announcement for the information of bidders and others properly interested, who may be present, either in person or by representative; provided, however, that any information submitted in support thereof, the disclosure of which might tend to subject the person submitting it to a competitive business disadvantage, will upon request be held in strict confidence by the United States.

17. The right is reserved, as the interest of the Government may require, to withdraw any and all items from the sale; to reject any or all bids; and to waive any defect or informality in bids received.

18. Notice of acceptance or rejection of bids, notice of authority to proceed with removal of the purchased property, and any other notices hereunder shall be deemed to have been sufficiently given when telegraphed or mailed to the bidder, or his duly authorized representative, at the address indicated in the bid.

19. Any property of the United States damaged or destroyed by a bidder will be promptly repaired or replaced by the bidder to the satisfaction of the said District Engineer or, in lieu of such repair or replacement, the bidder will, if so required by the said District Engineer, pay to the United States an amount determined by the said District Engineer to be sufficient to compensate for the loss sustained by the United States.

20. Except as otherwise provided in this invitation for bids, any dispute concerning a question of fact arising under this invitation for bids, which is not disposed of by agreement, shall be decided by the District Engineer, who shall reduce his decision to writing, and mail, or otherwise furnish, a copy thereof to the bidder. The decision of the District Engineer shall be final and conclusive, unless, within 30 days from the date of receipt of such copy, the bidder mails, or otherwise furnishes, to the District Engineer a written appeal addressed to the Secretary of the Army. The decision of the Secretary, or his duly authorized representative for the determination of such appeals, shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent or capricious or arbitrary or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition, the bidder shall be afforded an opportunity to be heard \*

Figure 11-22f

ER 405-1-12  
Change 12  
27 Oct 80

\* and to offer evidence in support of his appeal. Pending final decision of a dispute hereunder, the bidder shall proceed diligently with the performance of the contract and in accordance with the District Engineer's decision. This condition does not preclude consideration of questions of law in connection with those decisions; provided, that nothing in this condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

21. This invitation for bids, including all the instructions, terms, and conditions set forth herein, and the bid, when accepted by the Government, shall constitute the contract of sale between the successful bidder and the Government. Such agreement shall constitute the whole contract, unless modified in writing and signed by both parties. No oral statements or representations made by, for, or ostensibly on behalf of, either party shall be a part of such contract. Neither this contract, nor any interest therein, shall be transferred or assigned by the successful bidder.

22. No Member of or Delegate to the Congress, or Resident Commissioner, shall be admitted to any share or part of this contract or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a corporation for its general benefit.

23. The successful bidder warrants that he has not employed any person or agency to solicit or secure this contract upon any agreement for a commission, percentage, brokerage, or contingent fee. Breach of this warranty shall give the Government the right to annul the contract without liability, or, at its option, to recover from the successful bidder the amount of such commission, percentage, brokerage or contingent fee in addition to the consideration herein set forth. This warranty shall not apply to commissions payable by the successful bidder upon a contract secured or made through bona fide established commercial agencies maintained by the successful bidder for the purpose of doing business. "Bona fide established commercial agencies" has been construed to include licensed real estate brokers engaged in the business generally.

SPECIAL INSTRUCTION TO BIDDERS. ATTENTION IS INVITED TO THE FACT THAT THE INTERSTATE COMMERCE ACT MAKES IT UNLAWFUL FOR ANYONE OTHER THAN THOSE DULY LICENSED UNDER THE ACT TO TRANSPORT THIS PROPERTY IN INTERSTATE COMMERCE FOR HIRE. ANYONE AIDING OR ABETTING IN SUCH VIOLATION IS A PRINCIPAL IN COMMITTING THE OFFENSE (49 U.S.C. 301-327 and 18 U.S.C. 2). \*

SUPPLEMENT TO STANDARD FORM 114  
FOR USE IN TIMBER SALES CONTRACT

1. At the discretion of the Division or District Engineer, provisions similar to provisions 8 and 9, ENG Form 1038-R, Appendix II, may be included. (See FPMR, Section 101-45 .302-9, 302-10, and 302-11.)

2. Timber will be cut and removed in strict accordance with the terms and conditions of sale and instructions issued by the contracting officer. All timber shall be cut and removed on or before and none later than \_\_\_\_\_ . Stumps shall be cut to cause the least possible waste and not higher than \_\_\_\_\_ inches on the side adjacent to the highest ground; all trees shall be utilized to as low a diameter in the tops as practicable so as to cause the least waste and to a minimum diameter of \_\_\_\_\_ inches.

3. Timber shall be scaled by Scribner Decimal C log rule or counted or measured as prescribed by the contracting officer. If measurement is to be made after falling timber shall be piled or skidded for measurement as directed by the contracting officer or his duly authorized representative.

4. Slash and other refuse shall be disposed of as directed by the contracting officer.

5. All telephone lines, ditches, and fences, locate within or immediately outside the exterior boundaries of the sale area, shall be protected so far as possible in logging operations and, if injured, shall be repaired immediately by the purchaser. The contracting officer may, when in his judgment it is necessary, require the purchaser to move any such telephone line or fence from one location to another. Roads and trails shall at all times be kept free of logs, brush, and debris resulting from the purchaser's operations hereunder. Any road or trail used by the purchaser in connection with this sale that is damaged or injured beyond ordinary wear and tear, through such use, shall promptly be repaired by him to its original condition.

SPECIAL INSTRUCTION TO BIDDERS. ATTENTION IS INVITED TO THE FACT THAT THE INTERSTATE COMMERCE ACT MAKES IT UNLAWFUL FOR ANYONE OTHER THAN THOSE DULY LICENSED UNDER THE ACT TO TRANSPORT THIS PROPERTY IN INTERSTATE COMMERCE FOR HIRE. ANYONE AIDING OR ABETTING IN SUCH VIOLATION IS A PRINCIPAL IN COMMITTING THE OFFENSE (49 U.S.C. 301-327 and 18 U.S.C. 2). \*

CONTRACT OF SALE  
EP 405-1-2

THIS CONTRACT OF SALE made and entered into this \_\_\_\_\_ day of \_\_\_\_\_, 19\_\_\_\_, by and between the District Engineer, U. S. Army Engineer District, \_\_\_\_\_, \_\_\_\_\_, for and on behalf of the United States of America, hereinafter called the "Government", and \_\_\_\_\_, whose address is \_\_\_\_\_, hereinafter called the "Purchaser", WITNESSETH:

THAT under authority of Public Law 999, 84th Congress, approved 6 August 1956 (70 Stat.1065), as implemented by the Delegations, Rules and Regulations issued by the Secretary of the Army (33 CFR 211.71-81; 28 FR 69, pp. 3450, 3451; 28 FR 86, p. 4375) the Government has made available for sale for cottage site development the following \_\_\_\_\_ land in the \_\_\_\_\_ Reservoir area, \_\_\_\_\_ County, State of \_\_\_\_\_:

(DESCRIPTION)

NOW, THEREFORE, in consideration of the \_\_\_\_\_ performance by each of the parties hereto, of the terms and \_\_\_\_\_ hereinafter set forth, it is mutually agreed as follows:

1. The Government agrees to \_\_\_\_\_ the Purchaser agrees to purchase the above-described \_\_\_\_\_ land, for (individual) (omit this word if inapplicable) cottage site development and use only, for the sum of \_\_\_\_\_ (\$\_\_\_\_\_). In addition thereto, the Purchaser shall \_\_\_\_\_ costs of survey and boundary markers necessary as an incident to \_\_\_\_\_ of the land to be conveyed. A deposit in an amount equal to \_\_\_\_\_ (20) per centum of the purchase price shall be paid by the \_\_\_\_\_ at the time of execution of this contract, receipt of which \_\_\_\_\_ acknowledged. Such payment shall be made payable to the \_\_\_\_\_ of the United States. In the event of default by the \_\_\_\_\_ this deposit shall be retained by the Government as liquidated \_\_\_\_\_ Payment in full for the balance of the purchase price and for \_\_\_\_\_ costs of the survey and boundary markers shall be made simultaneously \_\_\_\_\_ with delivery of the executed deed by the Government to the Purchaser.

2. The property hereinbefore described is sold "as is" and without recourse against the Government. The Government makes no representation or warranty, express or implied, as to condition, fitness for any use or purpose, or accuracy of the description. Accordingly, downward adjustment in the purchase price or demand for rescission based upon the failure of the property to correspond with the above description or inability by the Purchaser to use said property for cottage site purposes will not be

ENG Form 3297-R  
1 Dec 64

(PROPONENT: DAEN-REP)

considered. In the event a survey reveals that the property to be conveyed contains a substantially greater acreage than contemplated, the Purchaser shall also pay to the Government the appraised fair value of such additional land, simultaneously with delivery of the deed.

3. The conveyance shall be by quitclaim deed, executed by the District Engineer, U. S. Army Engineer District, \_\_\_\_\_, at \_\_\_\_\_.

4. a. The property shall be used for cottage site purposes only. The term "cottage site" as used herein is defined in the Code of Federal Regulations, Title 33, Section 211.72. (The property to be conveyed is an Individual Cottage Site, i.e. a parcel of land developed or to be developed by the construction of a private cottage thereon or to be used, for private recreational purposes. The property shall not be subdivided but shall remain intact as a single unit. More than one (1) cottage may be constructed on such site. If this restriction is breached, title to the land and all interests placed thereon shall revert to and vest in the Government. The Government is required to institute legal proceedings to enforce its right to reversion, the grantee (Purchaser) shall bear the costs of such action.) (Strike the last four sentences. Inapplicable.)

b. The conveyance shall be subject to existing easements for public roads, highways and streets, and public utilities and pipe lines.

c. The Government reserves a perpetual easement to flood those lands lying below elevation \_\_\_\_\_ feet, mean sea level (strike this clause, if inapplicable).

d. The conveyance shall be placed on record in the manner prescribed by the laws of the State of \_\_\_\_\_ and at the sole cost and expense of the Purchaser, including payment of any required documentary stamp tax.

5. The Government is not obligated and shall not be liable for construction, maintenance or service of access roads or other improvements to the property. The Government shall be responsible for the maintenance of the lands included in this contract of sale.

6. Title to the property sold hereunder shall vest in the Purchaser at the time of delivery of the executed quitclaim deed.

7. If the Purchaser is presently in possession as a lessee of the premises to be conveyed, then it is mutually agreed that effective upon the date of delivery of the executed quitclaim deed, such lease is terminated and any unearned prepaid rental will be refunded to the Purchaser.

**(Local reproduction authorized - blank masters available from local FMO)**

ER 405-1-12  
Change 22  
1 Apr 85

8. In any case where liability of the Government to the Purchaser, under this Contract of Sale, has been established, the Government's maximum liability shall be limited to the refund of any monies paid by the Purchaser to the Government under this Contract of Sale.

9. The Purchaser warrants that no person or selling agency has been employed or retained to solicit or secure this contract upon an agreement or understanding for a commission, percentage, brokerage, or contingent fee, excepting bona fide employees or bona fide established commercial or selling agencies maintained by the Purchaser for the purpose of securing business. For breach or violation of this warranty the Government shall have the right to annul this contract or in its discretion to require the Purchaser to pay the full amount of consideration herein set forth, the full amount of commission, percentage, brokerage, or contingent fee.

10. No Member of or Delegate to Congress, Resident Commissioner shall be admitted to any share or part of this contract or to any benefit that may arise therefrom; but this provision shall not be construed to extend to this contract if made with a view to the promotion for its general benefit.

11. a. That, except as otherwise provided in this contract, any dispute concerning a question of fact arising under this contract which is not disposed of by agreement shall be decided by the said officer, who shall reduce his decision to writing and mail or otherwise furnish a copy thereof to the Purchaser. The decision of the said officer shall be final and conclusive unless, within 30 days from the date of receipt of such copy, the Purchaser mails or otherwise furnishes to the said officer a written appeal addressed to the Secretary of the Army. The decision of the Secretary or his duly authorized representative for the determination of such appeals shall be final and conclusive unless determined by a court of competent jurisdiction to have been fraudulent, or capricious, or arbitrary, or so grossly erroneous as necessarily to imply bad faith, or not supported by substantial evidence. In connection with any appeal proceeding under this condition the Purchaser shall be afforded an opportunity to be heard and to present evidence in support of its appeal. Pending final decision of an appeal hereunder, the Purchaser shall proceed diligently with the performance of this contract and in accordance with the said officer's decision.

b. This Condition does not preclude consideration of law questions in connection with decisions provided for in paragraph a above: Provided that nothing in this Condition shall be construed as making final the decision of any administrative official, representative, or board on a question of law.

12. a. The Government may, by written notice to the Purchaser, terminate this contract if it is found, after notice and hearing, by the Secretary of the Army or his duly authorized representative, that gratuities

ER 405-1-12  
Change 22  
1 Apr 85

(in the form of entertainment, gifts, or otherwise) were offered or given by the Purchaser, or any agent or representative of the Purchaser, to any officer or employee of the Government with a view toward securing favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing, of this contract provided, that the existence of the facts upon which the Secretary of \_\_\_\_\_ or his duly authorized representative makes such findings shall \_\_\_\_\_ and may be reviewed in any competent court.

b. In the event this contract is terminated as provided in paragraph a hereof, the Government shall be entitled to pursue the same remedies against the Purchaser as it would be in the event of a breach of the contract by the Purchaser \_\_\_\_\_ a penalty in addition to any other damages to which it may be entitled by law, to exemplary damages in an amount (as determined by the Secretary of the Army or his duly authorized representative) \_\_\_\_\_ be not less than three nor more than ten times the costs \_\_\_\_\_ by the Purchaser in providing any such gratuities to any such \_\_\_\_\_ employee.

c. The rights and remedies of the Government provided in this clause shall not be \_\_\_\_\_ and are in addition to any other rights and remedies provided \_\_\_\_\_ under this contract.

13. No part of this contract nor any interest therein shall be assigned or transferred by the Purchaser to any other party.

IN WITNESS WHEREOF, the parties hereto have executed this contract \_\_\_\_\_ and year first above written.

CHAPTER 12  
REAL ESTATE ROLES AND RESPONSIBILITIES FOR CIVIL WORKS:  
COST SHARED AND FULL FEDERAL PROJECTS

SECTION I. GENERAL

12-1. Purpose. This chapter sets forth the roles and responsibilities for real estate planning and land acquisition for cost shared and full Federal water resource projects.

12-2. Applicability. This chapter is applicable to all Headquarters, U.S. Army Corps of Engineers (HQUSACE) elements and all USACE commands having civil works real estate responsibilities. While it applies to all civil works projects - specifically authorized, continuing authority, full Federal or cost shared - the level of detail necessary to apply the requirements of this chapter will vary depending upon the scope and complexity of each project. Further, if there is a conflict between the crediting provisions of this chapter and the terms and conditions of a Project Cooperation Agreement (PCA), a Local Cooperation Agreement (LCA), or a Letter of Assurance executed prior to the effective date of this chapter, then the provisions of such PCA, LCA, or Letter shall govern. The provisions of this chapter supersede all conflicting provisions contained in Sections II, III, IV, VI, and VIII of Chapter 2 and any conflicting provisions of Chapter 5 of ER 405-1-12.

12-3. References. See Appendix 12-A.

12-4. Glossary. A glossary of the acronyms and abbreviations used in this chapter is included as Appendix 12-B.

12-5. Program and Project Management Process. It is HQUSACE policy that Real Estate participate fully in the Program and Project Management process. Real Estate involvement is continuous throughout the development and implementation of the project, although the level of involvement varies during the different phases. Real Estate staff fully supports the Project Manager (PM) in coordinating real estate activities with non-Federal interests. For further information regarding the Program and Project Management process, see ER 5-1-11, Program and Project Management.

ER 405-1-12  
Change 31  
1 May 98

SECTION II. REAL ESTATE PRINCIPLES AND GUIDELINES

12-6. General.

a. Under the Fifth Amendment to the U.S. Constitution, private property cannot be taken by the Federal government (Government) for authorized public purposes without the payment of just compensation. This same principle applies to States and political subdivisions thereof through the Fourteenth Amendment to the U.S. Constitution.

b. In addition to these constitutional provisions, general real estate acquisition policies for Federal and Federally funded projects, including cost shared water resource projects, are described in The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Public Law 91-646, as amended by Title IV of the Surface Transportation and Uniform Relocation Assistance Act of 1987, Public Law 100-17; and the Uniform Regulations contained in 49 C.F.R. Part 24 (hereinafter collectively referred to as "P.L. 91-646"). Except as otherwise allowed therein, P.L. 91-646 requires that an acquiring agency comply with the following basic policies among others:

(1) the acquiring agency must make every reasonable effort to acquire the real property expeditiously by negotiation;

(2) real property must be appraised before the initiation of negotiations with the landowner and the initial offer to the landowner shall not be less than the approved appraisal of the fair market value of the property to be acquired;

(3) lawful occupants of real property that will be acquired shall not be required to move unless he or she has received at least 90 days advance written notice of the earliest date by which he or she may be required to move;

(4) before requiring an owner to surrender possession of the real property, the acquiring agency must pay the agreed purchase price to the owner, or in the case of a condemnation, deposit with the court, for the benefit of the owner, an amount not less than the acquiring agency's approved appraisal of the fair market value of such property, or the court award of compensation in the condemnation proceeding for the property;

(5) the acquiring agency must not advance the time of condemnation, or defer negotiations or condemnation or the deposit of funds with the court, or take any other coercive action in order to induce an agreement on the price to be paid for the property;

(6) if the acquisition of only a portion of a property would leave the owner with an uneconomic remnant, the acquiring agency must offer to acquire the uneconomic remnant along with the portion of the property needed for the project; and

ER 405-1-12  
Change 31  
1 May 98

(7) if the acquiring agency intends to acquire any interest in real property by exercise of the power of eminent domain, it must institute formal condemnation proceedings and not intentionally make it necessary for the owner to institute legal proceedings to prove the fact of the taking of the real property.

12-7. Navigation Servitude

a. Definition. The navigation servitude is the dominant right of the Government under the Commerce Clause of the U.S. Constitution (U.S. CONST. art.I, §8,cl.3) to use, control and regulate the navigable waters of the United States and the submerged lands thereunder for various commerce-related purposes including navigation and flood control. In tidal areas, the servitude extends to all lands below the mean high water mark. In non-tidal areas, the servitude extends to all lands within the bed and banks of a navigable stream that lie below the ordinary high water mark.

b. Determination of Availability. The determination of the availability of the navigation servitude is a two-step process. First, the Government must determine whether the project feature serves a purpose which is in the aid of commerce. Such purposes recognized by the courts include navigation, flood control and hydro-electric power. If it is so determined, then the second step is to determine whether the land at issue is located below the mean or ordinary high water mark of a navigable watercourse.

c. Exercise of Navigation Servitude. As a general rule, the Government does not acquire interests in real property that it already possesses or over which its use or control is or can be legally exercised. Therefore, if the navigation servitude is found to be available as a result of application of the process described in subparagraph b of this paragraph, then the Government will generally exercise its rights thereunder and, to the extent of such rights, will not acquire a real property interest in the land to which the navigation servitude applies. Generally, it is the policy of the U.S. Army Corps of Engineers (USACE) to utilize the navigation servitude in all situations where available, whether or not the project is cost shared or full Federal.

12-8. Relocation of Facilities or Public Utilities.

a. Substitute Facility Doctrine. Generally, the criteria for just compensation is the fair market value of the property at the time of the taking. A generally accepted definition of "fair market value" is "the amount in cash, or on terms reasonably equivalent to cash, for which in all probability the property would be sold by a knowledgeable owner willing but not obligated to sell to a knowledgeable purchaser who desired but is not obligated to buy." INTERAGENCY LAND ACQUISITION CONFERENCE, UNIFORM APPRAISAL STANDARDS FOR FEDERAL LAND ACQUISITIONS (1992), at 3-4. Deviation from this criteria for measurement of just compensation has been required only when fair market value has been too difficult to ascertain or when its application would result in manifest injustice to the owner or to the public. In such cases,

ER 405-1-12  
Change 31  
1 May 98

the cost of constructing a substitute facility may be used as the measure of just compensation paid to the facility owner where a substitute facility is, in fact, necessary. The substitute facility should generally serve the owner in the same manner and reasonably as well as does the existing facility. Typically, the substitute facility doctrine is applied to acquisitions of public utilities, highways and certain other publicly owned facilities (e.g., schools, courthouses, etc.), railroads, and cemeteries.

b. Relocations. The substitute facility doctrine is the underpinning for the concept of relocations as applied to implementation of water resources projects by the Corps of Engineers. Thus, the term "relocation" generally means providing a functionally equivalent facility to the owner of an existing utility, cemetery, highway or other eligible public facility, and railroad when such action is authorized in accordance with applicable legal principles of just compensation. Providing a functionally equivalent facility may take the form of alteration, lowering, raising, or replacement (and attendant removal) of the affected facility or part thereof. For cost shared projects where it is the responsibility of a non-Federal sponsor to perform or assure the performance of relocations, this general definition must be modified as applied to railroad bridges (and approaches thereto) or as applied to bridges over navigable waters of the United States depending upon the authorized purposes of the specific project. For flood control projects, see Article I.G. of the Model PCA for Structural Flood Control approved March 1994; for commercial navigation projects at harbors or inland harbors, see Article I.J. of the Model PCA for Commercial Navigation Harbor Projects approved May 1996. In addition, the authorizing legislation for a project or any report referenced in that legislation may alter the definition of the term "relocation" as it applies to that project or may alter its applicability to a particular facility.

c. Necessary Findings. Before replacement, alteration or other modification to a facility can properly be categorized as a relocation, generally the following criteria must be satisfied:

- (1) the project design requires that the existing facility be removed in whole, or in part, or that the project will negatively impact the ongoing function or operation of the facility;
- (2) the owner of the facility has a compensable real property interest in the land on which the impacted portion of the facility is located;
- (3) the facility serves a public purpose;
- (4) the owner has a duty to replace the facility as a result of legal or factual necessity; and
- (5) the fair market value of the interest that must be acquired due to project impact is too difficult to obtain; or payment of fair market value instead of providing a substitute facility would result in manifest injustice to the owner or to the public.

ER 405-1-12  
Change 31  
1 May 98

d. **Attorney's Opinion of Compensability.** Preparation of an Attorney's Opinion of Compensability is the principal process for determining the extent of the legal obligation to relocate a utility or public facility that will be impacted by the construction or operation of a project. For additional information on Attorney's Opinions of Compensability, see paragraphs 12-17 and 12-22 of this chapter.

12-9. Determining the Appropriate Interest to Acquire.

a. **General.** It is the policy of USACE to acquire, or to require a non-Federal sponsor to provide, the minimum interest in real property necessary to support a project. The interests described in the following paragraphs have been determined to represent the minimum interest generally required to support the described purposes or features and must be utilized unless otherwise approved as described in subparagraph e of this paragraph. Greater or lesser interests may be appropriate depending upon the purposes of a project or other circumstances relating to project requirements or a particular acquisition.

b. **Fee Title.** Generally, fee title is required for the following:

- (1) dam sites;
- (2) lock and dam sites;
- (3) disposal and borrow areas required for future maintenance work;
- (4) public access areas;
- (5) recreation; and

(6) fish and wildlife mitigation lands, ecosystem restoration, and other environmental purposes. However, a lesser, or easement estate, may be appropriate based on the extent of interest required for the operation or requirements of a project.

(7) disposal areas located on fast land that are required for commercial navigation projects for a harbor or inland harbor.

c. **Permanent Easements.** Generally, permanent easements are required for the following:

- (1) levees, floodwalls and other permanent structures;
- (2) flowage areas;
- (3) ponding areas for dry dams;
- (4) channel rectification works and adequate access thereto;

ER 405-1-12  
Change 31  
1 May 98

(5) areas impacted by induced flooding where the impact rises to the level of a taking;

(6) roads;

(7) waterway improvements and the right to permanently flood areas needed for navigation pools;

(8) the construction and maintenance of aids to navigation (the location and extent of land required for aids to navigation shall be coordinated by the District Commander with the local Coast Guard District Commander at the time the land is being obtained).

d. Temporary Easements. Generally, temporary easements are required for the following:

(1) adequate access and work areas required during construction of the project;

(2) disposal areas for all projects other than commercial navigation projects for a harbor or inland harbor if needed only to support construction; and

(3) Borrow Areas. While a temporary easement is generally required to support borrowing of materials, it is noted that small amounts of borrow materials, or disposal capacity, may sometimes be supplied by the construction contractor through use of a readily available commercial site. If so determined by an analysis conducted by PM, Engineering, Real Estate and other District and non-Federal sponsor offices, and if no other constraints exist, the construction contract solicitation documents should clearly request bids therefor and provision of such materials or capacity by the construction contractor would be in the nature of a construction item not LERRD (lands, easements, rights-of-way, relocations, and dredged or excavated material disposal areas). In no instance, however, should a contractor be required to provide lands, easements or rights-of-way (LER) for the project in support of borrow or disposal.

e. Approval Authority. Unless approved as part of a Real Estate Plan (REP) contained in an approved decision document for the project, requests to deviate from application of the interests required by subparagraphs b., c., or d. of this paragraph, together with adequate justification, must be forwarded in writing through Division to HQUSACE (ATTN: CERE-AP) for coordination, review and approval.

#### 12-10. Determining the Appropriate Estate.

a. Meaning. The term "estate" as used in this chapter means the written description of the type, nature, and extent of the real property interest that is required to support the construction, operation, or maintenance of a project.

ER 405-1-12  
Change 31  
1 May 98

b. **Standard Estates.** Standard estates approved for use in either full Federal or cost shared projects are contained in Chapter 5 of this regulation. Once the appropriate interest is determined through application of the requirements of paragraph 12-9 of this chapter, the corresponding standard estate must be used if it is among those listed in Chapter 5.

c. **Non-Standard Estates.** Where there is no corresponding standard estate for the interest to be required, or where changes to the corresponding standard estate (or previously approved non-standard estate) are desired, a non-standard estate must be drafted and approved. The District Chief of Real Estate may approve non-standard estates if they serve the intended project purpose, substantially conform with and do not materially deviate from the corresponding standard estate contained in Chapter 5, and do not increase the costs nor potential liability of the Government. Changing an estate from easement to fee, or vice versa, or altering an estate so as to affect project purposes, is not within the scope of the District's approval authority. For all non-standard estates not within the scope of District's approval authority, approval may be obtained either by placing the body of the non-standard estate in the REP of a feasibility report or other study decision document that is approved by HQUSACE, or by request for approval forwarded prior to use of such estate through Division to HQUSACE (ATTN: CERE-A) for appropriate coordination, review, and final determination.

d. **Coordination with Non-Federal Sponsor.** Because a non-Federal sponsor is generally responsible for acquiring lands, easements, and rights-of-way pursuant to state law and procedure, full coordination and consultation with the non-Federal sponsor must occur prior to the Government's determination of the interests and estates required for a cost shared project. These efforts should begin in the early stages of plan formulation and continue, as appropriate, to the conclusion of the acquisition process.

**12-11. Rights-of-Entry.**

a. **General.** Two types of rights-of-entry are typically obtained by the Government: construction and survey and exploration. Section VI of Chapter 5 of this regulation contains guidance on the use of rights-of-entry by the Government.

b. **Forms.** ENG Form 1258-R, Right-of-Entry for Survey and Exploration, and ENG Form 2803-R, Right-of-Entry for Construction, will be used when the Government obtains rights-of-entry for these purposes. These forms are included as Appendices 12-C and 12-D of this chapter.

c. **Use of Rights-of-Entry by Non-Federal Sponsors.** Non-Federal sponsors are not required to utilize the standard forms for obtaining rights-of-entry for cost shared projects. However, the District Chief of Real Estate must assure that any right-of-entry to be obtained for a project by a non-Federal sponsor is sufficient for the intended project purpose and that it does not subject the Government to risk or liability. For other topics related to the use of rights-of-entry for cost shared projects, see paragraph 12-26 (Certification of Availability) and paragraph 12-37a (credit issues) of this chapter.

ER 405-1-12  
Change 31  
1 May 98

12-12. Joint Land Acquisition Policy for Full Federal Reservoir Projects.

a. The Policy. The joint policy of the Department of the Interior and the Department of the Army governing the acquisition of land for full Federal reservoir projects was published in the Federal Register on 22 February 1962 in Volume 27 beginning at page 1734, and was again published on 2 July 1966 in Volume 31 beginning at page 9108. This policy statement recites, in part, that "[i]n so far as permitted by law, it is the policy of the Departments of the Interior and of the Army to acquire, as part of reservoir project construction, adequate interest in lands necessary for the realization of optimum values for all purposes including additional land areas to assure full realization of optimum present and future outdoor recreational and fish and wildlife potentials of each reservoir." The published policy also contains detailed provisions regarding the estates that are to be acquired in relationship to the reservoir's permanent features, storage pool, and other boundaries. For the full text of the published policy, see 32 C.F.R. §644.4. For implementing guidance, see Section IV of Chapter 2 of this regulation.

b. Applicability to Cost Shared Projects. Generally, the Joint Land Acquisition Policy will not apply to control the extent of land acquisition for cost shared reservoir projects, or to cost shared modifications to existing full Federal projects, where the lands, easements, and rights-of-way (LER) required to implement such project, or modification, must be provided by a non-Federal sponsor. Guidance will be provided by HQUSACE on a case-by-case basis in these circumstances.

SECTION III. PLANNING

12-13. Reconnaissance.

a. General. Before initiation of a feasibility study, USACE is generally required to perform, at Federal expense, a reconnaissance study of the water resources problem in order to identify potential solutions to such problem in sufficient detail to determine whether or not planning to develop a project should proceed to the preparation of a feasibility report.

b. Expedited Reconnaissance Study Phase. Beginning with all FY 97 new reconnaissance starts, an expedited reconnaissance study process applies that is more limited in scope than historical reconnaissance level efforts yet still addresses the requirements of Section 905(b) of the Water Resources Development Act of 1986 (WRDA 86), as amended. Four essential tasks must be accomplished:

(1) Determine that the water resource problem(s) warrant Federal participation;

(2) Define the Federal interest based on a preliminary appraisal consistent with Department of Army policies;

(3) Prepare a Project Study Plan (PSP); and

(4) Assess the level of interest and support from non-Federal entities in the identified potential solutions and cost sharing of feasibility phase and construction.

ER 405-1-12  
Change 31  
1 May 98

c. **Level of Detail.** While the study must include a preliminary analysis of the Federal interest, costs, benefits, environmental impacts, and an estimate of the costs of preparing the feasibility report, generally only existing, readily available data should be used. Generally, the study costs are not to exceed \$100,000.

d. **Real Estate's Role.** Detailed real estate information is not required. However, since cost estimates will typically include costs attributable to real estate requirements, Real Estate is responsible for providing the real estate cost estimate that will be used in the study and for providing the Real Estate Section or information contained in the analysis or report to the same level of detail as contained in the analysis or report generally. In addition, since a major focus of the reconnaissance process is preparation of the PSP, Real Estate is responsible for providing informed input into the PSP regarding a realistic real estate cost estimate, scope of work, schedules and other real estate matters and tasks. Accordingly, Real Estate representatives should attend and participate in reconnaissance phase meetings as necessary to perform these responsibilities. For cost shared projects, the District should consult with the non-Federal sponsor during the preparation of the Real Estate Section, the real estate cost estimate, and the PSP.

12-14. Feasibility - General. If it is determined that there is a Federal interest, and for cost shared projects that a non-Federal sponsor is willing to support additional study, a feasibility phase of study is initiated. For cost shared projects, a Feasibility Cost Sharing Agreement (FCSA) is executed between the Government and the non-Federal sponsor that requires study costs to be shared equally between the Government and the non-Federal sponsor. At least 50 percent of a non-Federal sponsor's share must be in cash and the remaining 50 percent of the non-Federal sponsor's share may be contributed as in-kind products or services.

12-15. Feasibility - Real Estate's Role

a. It is essential that the real estate requirements for a water resource project are adequately identified and that the estimated costs and schedule for land acquisition are accurately established before authorization. Therefore, a comprehensive Real Estate Plan (REP) to the Feasibility Report, General Reevaluation Report, Limited Reevaluation Report, Detailed Project Report, Special Project Report, or other decision document, is generally required for all water resource projects whether cost shared or full federal. The contents of the REP are described in paragraph 12-16c below.

b. To effectively contribute to the formulation of a project, Real Estate should participate with Planning, the PM and other District elements in discussions and meetings held during the feasibility phase, any Alternative Formulation Briefing (AFB) and the Feasibility Review Conference (FRC). The AFB and FRC in the feasibility phase are the principal mechanisms for resolution of identified policy or legal issues. Real Estate representatives should attend these meetings, as appropriate, and should review and comment on subsequent MFRs and PGMs.

ER 405-1-12  
Change 31  
1 May 98

c. For cost shared projects, real estate acquisition and performance of facility and utility relocations are major responsibilities of the non-Federal sponsor. Therefore, Real Estate should participate with Planning, PM and other District elements in the discussion of project requirements with the non-Federal sponsor. Further, Real Estate should initiate discussions with the non-Federal sponsor regarding acquisition policies and procedures, including compliance with P.L. 91-646, as amended, LERRD crediting procedures, and milestones for land acquisition. Real Estate must also regularly consult with the non-Federal sponsor throughout the feasibility phase as to the LER and facility/utility relocation requirements of the project as it proceeds to final formulation.

d. It is the responsibility of the District Chief of Real Estate to assure that the acquisition process is conducted in compliance with the requirements of P.L. 91-646. Accordingly, the feasibility phase work effort must be conducted so that schedules, assignments, and costs include these requirements. Since P.L. 91-646 requirements also attach to the acquisition of LER by non-Federal sponsors for cost shared projects (see paragraph 12-6.b of this chapter), it is the responsibility of the District Chief of Real Estate to monitor the non-Federal sponsor's acquisition program to assure its compliance with the requirements of P.L. 91-646. Accordingly, in addition to providing necessary advice and consultation during the feasibility phase on P.L. 91-646 process, procedures, and requirements, Real Estate must also advise the non-Federal sponsor that:

(1) P.L. 91-646 requirements apply to acquisition of real property that occur in anticipation of a Federal project including such acquisitions that occur prior to the execution of the PCA for the project;

(2) the non-Federal sponsor must maintain records that demonstrate compliance with the requirements of P.L. 91-646 including that landowners have been properly advised of their rights under the program and that evidence appropriate benefit determinations. These records must be maintained for a minimum of three years after the period of construction (as defined in the project PCA) and resolution of all relevant claims arising therefrom including P.L. 91-646 claims or appeals; and

(3) the non-Federal sponsor must have an appeals procedure for the prompt review of claims that it has allegedly failed to properly consider applications or provision of assistance under P.L. 91-646.

e. Project Management Plan (PMP). By the end of the feasibility phase, Real Estate should have a complete REP for inclusion in the Feasibility Report and a Baseline Cost Estimate for Real Estate for inclusion in the M-CACES cost estimate. Real Estate should ensure that the REP is provided to the PM for incorporation of real estate requirements and pertinent real estate data into the PMP. The PMP establishes the scope, schedule, budgets and technical performance requirements for the construction, operation, and management of the project.

ER 405-1-12  
Change 31  
1 May 98

12-16. Real Estate Plan.

a. General. A Real Estate Plan (REP) is the Real Estate work product that supports project plan formulation. It identifies and describes the lands, easements and rights-of-way (LER) required for the construction, operation and maintenance of a proposed project, including those required for relocations, borrow material, and dredged or excavated material disposal. The REP also identifies and describes the facility/utility relocations that are necessary to implement the project. Further, the REP describes the estimated LER value, together with the estimated administrative and incidental costs attributable to providing project LER, and the acquisition process (e.g., who will be acquiring, the types of ownerships, non-Federal sponsor's ability to acquire land) that will be required to support project implementation. For cost shared projects, the REP can be prepared by either USACE or non-Federal sponsor Real Estate personnel. Regardless of who prepares the REP, USACE and the non-Federal sponsor should fully coordinate and consult with each other throughout the drafting and approval process to ensure consistency with applicable Federal and state law, policy, and procedure and to ensure that the expressed conclusions and plans are implementable in a timely fashion. Due to variations among project purposes, state law, and non-Federal sponsors, each REP should be tailored to the particular facts and circumstances of the project at issue with full explanation provided where exceptions to policy are being proposed. The REP must be prepared to the same level of detail as, and be part of, the decision document which it supports (e.g. Feasibility Report, General Reevaluation Report (GRR), Detailed Project Report (DPR), etc).

b. Project Type & Applicability. A REP must be prepared in support of decision documents for all types of water resources projects whether full Federal or cost shared, specifically authorized or continuing authority. The level of detail required for each item described in subparagraph c below will vary depending on the scope and complexity of each project.

c. Scope & Content. The REP must include a discussion of the following significant topics, including sufficient description of the rationale supporting each conclusion presented:

(1) The purpose of the REP must be described in relation to the project document that it supports. For example, if the REP is in support of a GRR, it should state this fact together with a brief description of prior REPs prepared for the project with approval status and the relationship of the subject REP to such prior project REPs (e.g., separable element, next in sequence, supplement, replacement).

(2) For each project purpose and feature, a description of the LER required for the construction, operation and maintenance of the project including those required for relocations, borrow material and dredged or excavated material disposal. This information should include acreage, estates, number of tracts and ownerships, and estimated value. The total acreage will be broken down as to fee and the various types and duration of easements required. Information should also be included regarding the extent that

ER 405-1-12  
Change 31  
1 May 98

project LER is owned by private parties, by the non-Federal sponsor if applicable, and by other public entities. If the project will have more than one stage or phase, then the acreage will be further broken down by stage or phase consistent with the description of the project contained in the main report.

(3) For cost shared projects, a description of all LER required for the project that is already owned by the non-Federal sponsor, the acreage and interest owned, and whether the existing estates are sufficient and available for the project. Because unique aspects of state or local law may be involved, a sufficiency determination should be made by the Government only after full consultation with the non-Federal sponsor. The REP should also briefly discuss special value considerations or crediting principles that may be applicable to existing non-Federal sponsor ownerships (e.g., Federal appraisal rules, no credit for lands previously provided as an item of local cooperation; see paragraphs 12-37 and 12-38 of this chapter for additional information).

(4) Copies of proposed non-standard estates, if available, together with adequate justification therefor if approval of such estates is desired through approval of the decision document for the project.

(5) Whether there is an existing Federal project that lies fully or partially within the LER required for the project. If so, the REP must also briefly describe the existing project; the extent of overlap of the two projects; the identity of the sponsor, if any, of the existing project; whether the LER that supports the existing project was previously provided as an item of local cooperation for such project; the owner of the LER that supports the existing project; the nature of the estate(s) owned; and the sufficiency and availability of the existing estate(s) for the new project.

(6) Whether there is any Federally owned land included within the LER required for the project. If there is such land, the REP must also describe the purpose for which the land is required for the project; the identity of the managing agency for the land, the acreage and estate owned by the United States, and the acreage and estate required for the project; the views of the local representative of the managing Federal agency as to use for the project; and the acquisition plan for acquiring the required real property interests or other possessory rights. (Note: for interchange of national forest land, see 16 U.S.C. §505a).

(7) The extent, if any, that the LER required for the project lies below the ordinary high water mark, or the mean high water mark, as the case may be, of a navigable watercourse together with a brief discussion of whether the navigation servitude is available and will be exercised for project purposes. See paragraph 12-7 of this chapter for further discussion. Any proposed deviations from this policy or questions as to the availability of the navigation servitude should be identified as early as possible in the study phase and forwarded for resolution to CERE-AP who will coordinate with appropriate HQUSACE elements.

(8) A map clearly depicting the project area, the tracts required to support the project, significant utilities and facilities to be relocated, and any known or potential HTRW lands.

ER 405-1-12  
Change 31  
1 May 98

(9) A discussion of whether there will be flooding induced by the construction or the operation and maintenance of the project. If induced flooding is reasonably anticipated, the REP should briefly describe the nature and extent thereof and whether additional acquisition of LER must, or should, occur as a result. Where significant induced flooding is anticipated, or where otherwise required, a written analysis (i.e., a Physical Takings Analysis) separate from the REP should be prepared with the conclusions of such analysis included in the REP. The analysis should incorporate the facts relating to the depth, frequency, duration, and extent of the expected induced flooding; discuss such facts in relationship to relevant case law regarding physical invasion takings and just compensation payment requirements; and present a reasoned conclusion on whether the expected induced flooding would rise to the level of a taking for which just compensation would be owed.

(10) A Baseline Cost Estimate for Real Estate as described in paragraph 12-18 below.

(11) The relocation assistance benefits anticipated to be required in accordance with P.L. 91-646 including the number of persons, farms and businesses to be displaced and estimated costs. Further, it must describe the availability of replacement housing and any need for last resort housing benefits.

(12) A description of the present or anticipated mineral activity in the vicinity of the proposed project that may affect construction, operation, or maintenance of the project together with a recommendation, including rationale, regarding acquisition of mineral rights or interests including oil or gas. The REP should also discuss other subsurface minerals or timber harvesting activity if applicable.

(13) For cost shared projects, a thorough assessment of the non-Federal sponsor's legal and professional capability and experience to acquire and provide the LER for the construction, operation and maintenance of the project, including its condemnation authority and quick-take capability. The Capability Assessment checklist, included as Appendix 12-E to this chapter, must be completed and included as part of the REP. This paragraph should also indicate that the non-Federal sponsor has been advised of P.L. 91-646 requirements and the requirements for documenting expenses for credit purposes. If it is proposed that the Government will acquire project LER on behalf of the non-Federal sponsor, the REP must fully explain the reasons for the Government performing such work. See paragraph 12-34 for information regarding acquisition by the Government on behalf of a non-Federal sponsor.

(14) If application or enactment of zoning ordinances is proposed in lieu of, or to facilitate, acquisition in connection with the project, a discussion of the type of ordinance, its intended purpose, and whether application or enactment and enforcement of the ordinance will result in a taking of a real property interest for which compensation must be paid.

(15) A reasonable and detailed schedule of all land acquisition milestones, including LER certification. The dates reflected in the schedule must be agreed upon by Real Estate, the PM and the non-Federal sponsor, if any.

ER 405-1-12  
Change 31  
1 May 98

(16) A description of the facility or utility relocations that must be performed including information regarding the general nature of the impact to each facility or utility; the identity of the owners of the affected facilities and utilities; the purpose of the affected facilities and utilities; whether the owners have compensable real property interests in the land on which the impacted portion of the facility or utility is located; the conclusions reached in the Attorney's Opinion of Compensability prepared in support of the relocation determinations; whether special legal authority or direction affects relocation classification [for example, the project's authorizing legislation or reports referenced therein; Section 111 of the River and Harbor and Flood Control Act of 1958 (33 U.S.C. §633)]; and other information relevant to the proper identification and performance of relocations necessitated by construction, operation, or maintenance of the project. Each relocation determination must be supported by either a Preliminary or Final Attorney's Opinion of Compensability as described in paragraphs 12-17 and 12-22 of this chapter. In lieu of repeating general relocation information in the REP, specific citations to other report sections may be substituted for REP discussion to the extent that such sections provide the information required by this subparagraph and are consistent with the discussion that is contained in the REP.

(17) A concise discussion of the impacts on the real estate acquisition process and the LER value estimate due to known or suspected presence of contaminants that are located in, on, under, or adjacent to the LER required for the construction, operation or maintenance of the project including LER that is subject to the navigation servitude. See paragraph 12-37g of this chapter and Chapter 4 of this regulation for information on appraisal assumptions for contaminated lands. The discussion must include the status of the district's investigation for such contaminants, whether such contaminants are regulated under the Comprehensive Environmental Response, Compensation and Liability Act, as amended, 42 U.S.C. §9601 et seq., (CERCLA); other Federal statutes [e.g., the Resource Conservation and Recovery Act, as amended, 42 U.S.C. §6921 et seq.(RCRA)]; or specified state law. In the alternative, the status of the districts investigation may be included by referencing to a specific report section that contains such information. The REP must also disclose whether clean-up or other response actions of non-CERCLA regulated material will be required to implement the project and, if the project is cost shared, who will be responsible for performing, and paying the costs of performing such work, as between the Government and the non-Federal sponsor.

(18) A discussion of known or anticipated support for, or opposition to, the project by landowners in the project area and any known or anticipated landowner concerns related to issues that could impact the acquisition process (e.g., selection of estates, willing seller provisions, amount of acreage).

(19) If applicable, a statement that the non-Federal sponsor has been notified in writing about the risks associated with acquiring land before the execution of the PCA and the Government's formal notice to proceed with acquisition. See paragraph 12-31 of this chapter for further information.

(20) A description of any other real estate issue relevant to planning, designing or implementing the project.

ER 405-1-12  
Change 31  
1 May 98

12-17. Preliminary Attorney's Opinions of Compensability.

a. Background. As described in paragraph 12-8 of this chapter, the provision of a functionally equivalent facility to the owner of an existing facility may be an appropriate form of just compensation for the acquisition of a real property interest. Also as described in such paragraph, the provision of the new or modified facility is called a relocation. Since relocation costs on one or more major facilities can increase project costs to a significant degree, and dramatically increase the performance and payment responsibilities of the non-Federal sponsor for a cost shared project, it is critical that informed decisions be made during project planning phases regarding the relocations that will be required as part of project implementation.

b. Attorney's Opinions of Compensability. Preparation of an Attorney's Opinion of Compensability is the principal process for determining the extent of the Government's or non-Federal sponsor's legal obligation to relocate a utility or public facility that will be impacted by construction or operation of a project. See paragraph 12-16c(16) of this chapter regarding the requirements to prepare an Attorney's Opinion of Compensability to support each relocation determination contained in an REP. For cost shared projects, analysis and full consideration of state law will generally be required in determining whether the owner of an impacted facility or utility has a compensable interest in real property. However, full consideration must also be provided as to Federal principles that apply to Federal projects such as the applicability and exercise of the navigation servitude and the existence and terms of Federally issued permits. Therefore, regardless of whether the Government or the non-Federal sponsor prepares the Attorney's Opinions of Compensability, full coordination and consultation must occur between the Government and non-Federal sponsor on this and other relocation issues.

c. Preliminary Attorney's Opinions of Compensability. The preparation of Attorney's Opinions of Compensability for the purposes of finally determining and performing necessary relocation items requires a large degree of certainty regarding project impact as well as significant time to properly investigate the underlying facts and form appropriate legal conclusions based on those facts and applicable law. See paragraph 12-22 of this chapter for extended discussion regarding Final Attorney's Opinions of Compensability. Since significant time may pass from a feasibility level study phase to performance of relocation items and since project impacts may not be fully understood during a feasibility level of study, a lesser degree of certainty and formality is required for Attorney's Opinions prepared for study purposes rather than for final determination and performance purposes. Therefore, to support relocation determinations for an REP, final opinions do not have to be prepared if, in lieu thereof, Preliminary Attorney's Opinions of Compensability have been prepared consistent with the following requirements:

(1) The level and formality of investigation generally, and the level of detail to be included in the preliminary opinion, must be commensurate with the significance of the relocation item(s) to project formulation and estimated project costs. Factors that must be considered include the amount

ER 405-1-12  
Change 31  
1 May 98

of the estimated cost of the particular relocation item as well as the significance of such costs as compared to estimated total project costs; the significance of the relocation as related to successful implementation of the proposed project; the significance of the relocation as related to acceptability of the proposed project by the non-Federal sponsor, other political entities that may be providing funding to the non-Federal sponsor, or the public in general; the size and complexity of the relocation; and other relevant factors.

(2) A separate opinion must be prepared for each significant relocation proposed. Smaller relocation items of similar categorization may be combined into one preliminary opinion so long as each item is individually identified in the opinion.

(3) Title evidence reflecting ownership of a specific real property interest is not generally required and, after consideration of the significance of the individual relocation as discussed in subparagraph c.(1) of this paragraph, the attorney preparing the preliminary opinion may rely on any credible evidence (e.g., deed copy, assertions by the purported owner as to its unconditional interest) in determining the facility owner and the nature of the underlying real property interest.

(4) The preliminary opinion must be in writing and must, at a minimum, include the following matters: the identity of the facility affected and its owner; the general nature of the project impact to the facility; the real property interest owned by the facility owner in the general location of the impact; whether project impact is such that the owner of the facility is entitled to payment of just compensation; whether the facility must be modified, or otherwise relocated, as a result of application of applicable legal principles of just compensation or whether the appropriate measure of just compensation is fair market value; and the applicable legal principles of just compensation applied in the opinion.

(5) Statements must be included in the REP that Preliminary Attorney's Opinions of Compensability have been prepared and used for the purpose of completing the study and that final opinions and final relocation determinations will later occur as required by paragraph 12-22 of this chapter.

(6) In addition to the statements required by subparagraph c.(5) of this paragraph, for all decision documents that will serve as the basis for Congressional authorization of the project, a statement substantially similar to the following must be included in the REP:

"ANY CONCLUSION OR CATEGORIZATION CONTAINED IN THIS REPORT THAT AN ITEM IS A UTILITY OR FACILITY RELOCATION TO BE PERFORMED BY THE NON-FEDERAL SPONSOR AS PART OF ITS LERRD RESPONSIBILITIES IS PRELIMINARY ONLY. THE GOVERNMENT WILL MAKE A FINAL DETERMINATION OF THE RELOCATIONS NECESSARY FOR THE CONSTRUCTION, OPERATION, OR MAINTENANCE OF THE PROJECT AFTER FURTHER ANALYSIS AND COMPLETION AND APPROVAL OF FINAL ATTORNEY'S OPINIONS OF COMPENSABILITY FOR EACH OF THE IMPACTED UTILITIES AND FACILITIES."

ER 405-1-12  
Change 31  
1 May 98

12-18. Baseline Cost Estimate for Real Estate.

a. General. A baseline cost estimate (BCE) for a project is the estimated total cost (for both the Government and the non-Federal sponsor, if applicable) to implement the project. It includes estimated costs for LERRD, planning & design, construction management, construction, contingencies, etc. The BCE is developed in accordance with ER 5-1-11, ER 37-2-10, ER 1110-2-1302 and the Civil Works Work Breakdown Structure (WBS), which provides the list of work activities/items to be included in the BCE.

b. Development of the Baseline Cost Estimate for Real Estate (BCERE). The BCERE includes the fair market value of the LER required for the construction, operation and maintenance of a proposed project, including those required for relocations, borrow material, and dredged or excavated material disposal; the costs of relocating displaced persons from homes, farms or business under P.L. 91-646, as amended; the incidental acquisition costs for both the Government and the non-Federal sponsor, if any; and estimated risk-based contingencies.

(1) The BCERE will be shown under Feature Code 01, Lands and Damages. The Gross Appraisal estimate developed for the REP in Feasibility (see Chapter 4 of this regulation) will be incorporated into the BCERE under Land Payments in the 01 account.

(2) If phased construction is proposed, costs for each construction phase should be separately identified in the BCERE. A list of all construction contracts, as determined during the feasibility phase, must be provided by the PM to Real Estate for use in developing the BCERE.

(3) Incidental acquisition costs for the Government or non-Federal sponsor may include those incurred for title work, appraisals, review of appraisals, coordination meetings, review of documents, review of P.L. 91-646 actions, legal support and other costs that are incidental to the acquisition of LER required for the project and that are otherwise reasonable, allocable and allowable. Government costs for staff monitoring and for reviewing, approving and crediting LER provided by a non-Federal sponsor are also included.

c. In developing the BCERE, the estimated values and costs are based upon financial costs attributable to market value not economic costs since the purpose of the estimate is to determine the total cost of implementing the project. It is noted, however, that cost estimates from Real Estate are also required in support of the economic analysis where the purpose is to estimate the economic costs of a project. Because the amount of these cost estimates may differ, it is important to clearly communicate as to the purpose and the application of all Real Estate cost estimates. For additional information on the distinction between financial and economic costs, see ER 1105-2-100, paragraph 6-149d and the NED Manual on National Economic Development Costs (IWR Report 93-R-12).

ER 405-1-12  
Change 31  
1 May 98

12-19. Real Estate Design Memorandum (REDM).

a. Historical Perspective. Historically, after enactment of construction authorization, an REDM was prepared to present a detailed description of the real estate requirements for the project including utility and public facility relocations. Approval of the REDM at HQUSACE also represented approval to initiate land acquisition for the project. Supplements to the approved REDM were generally approved by the Division Commander acting through the Chief of Real Estate.

b. Post WRDA '86. With the enactment of WRDA '86, the majority of new projects were required to be cost shared by a non-Federal interest and increased emphasis was placed on cost estimate accountability and on streamlining the feasibility study and project authorization processes. As a result, Real Estate's planning efforts and cost estimates were integrated into those required for formulation of the selected project plan for which construction authorization would be sought. Thus, the REP became the most frequently used Real Estate planning document rather than a separate REDM.

c. Continuing Usage. Even though an REP will generally be the required Real Estate planning document, there may be circumstances requiring the preparation and approval of an REDM. One example is where acquisition of real property by the Government is tantamount to implementation of the project and approval of a decision document is required prior to commencement of the acquisition effort (e.g., some fish and wildlife mitigation projects). In addition, an REDM may be appropriate when there is a new acquisition requirement for an existing project for which REDMs were previously utilized.

d. Contents. Where an REDM is required, preparation shall be in accordance with the requirements contained in paragraph 2-19 of Chapter 2 of this regulation.

e. Approval Authority.

(1) In those circumstances where an REDM must be prepared, HQUSACE approval is required when the purpose of the REDM is to gain initial approval for implementing a project, or a separable element thereof, or when the REDM is otherwise classified as a project decision document that must be reviewed and approved at HQUSACE. In these circumstances, six copies of the REDM must be forwarded to CERE-AP for coordination with CECW-AR and other involved offices. Division Commanders are authorized to approve all other REDMs but without the authority to redelegate approval authority to District Commanders.

(2) Where substantial departure from an approved REDM is deemed to be necessary or advisable, an REDM Supplement must be prepared by the District and must be approved by the office that had the approval authority for the REDM being supplemented.

(3) Where REDM approval authority is unclear, a written request for guidance, together with a recommendation must be forwarded to HQUSACE (ATTN: CERE-A) for determination.

ER 405-1-12  
Change 31  
1 May 98

SECTION IV. FINALIZING REAL ESTATE REQUIREMENTS

12-20. Project Boundaries. In preparing real estate acquisition boundaries, the following guidelines should be observed to the greatest extent possible:

a. Close blocking out will be accomplished in accordance with sound real estate practices.

b. For land acquired in fee, the blocked out final real estate acquisition line will be established in such manner as to minimize costs and cause the least disruption in the use of the remainder of the ownership.

c. Severance damages will be avoided to the greatest extent possible consistent with real estate requirements for the project. A remnant without access need not be acquired if the owner desires to retain the property and releases the Government or non Federal sponsor from damages for lack of access.

12-21. Full Federal Projects and Approval of Acquisition Lines. An approved REDM (see paragraph 12-19 of this chapter) contains maps depicting tentative acquisition lines that are, to some extent, irregular and located without full regard to their effect upon fringe tracts. It will, therefore, be necessary to establish final acquisition lines in accordance with sound real estate practices. Accordingly, fringe tracts must not be acquired until the final acquisition lines are approved by the Division Engineer in accordance with the submission and approval provisions contained in paragraphs 2-22 and 2-23 of Chapter 2 of this regulation.

12-22. Final Attorney's Opinions of Compensability.

a. Requirement. As provided in paragraph 12-17 of this chapter, a Preliminary Attorney's Opinion of Compensability may be prepared for the purpose of making a preliminary determination of whether a necessary utility or facility modification should be classified as a relocation in a REP. Regardless of whether a preliminary opinion or more formal work product was utilized for the purpose of preparing an REP, a Final Attorney's Opinion of Compensability must be prepared in writing for each proposed utility or facility relocation in accordance with the requirements contained below in this paragraph.

b. Timing.

(1) For cost shared projects where a non-Federal sponsor has the responsibility to perform or assure the performance of relocations, a Final Attorney's Opinion of Compensability must be prepared for each proposed relocation as follows:

(a) A Final Attorney's Opinion of Compensability must be prepared during Planning, Engineering and Design (PED) and prior to the execution of a PCA for the project for each relocation that has an estimated cost of \$250,000

ER 405-1-12  
Change 31  
1 May 98

or more, including the value of additional real estate that may be required to perform the relocation, and for other relocations where determined by the District to be required due to the need for additional certainty or other reason.

(b) For all other relocations, a Final Attorney's Opinion of Compensability must be prepared in a timely manner prior to the Government's formal notice to the non-Federal sponsor of the relocations that it must perform, or for which it must assure performance, as determined by the Government to be necessary for construction, operation and maintenance of the project. See Article III.C. of the Model PCA for Structural Flood Control (March 1994) and see Article III.C. of the Model PCA for Commercial Navigation Harbor Projects (May 1996).

(2) For all other projects, a Final Attorney's Opinion of Compensability must be prepared for each proposed relocation prior to the Government entering into a relocation agreement with the owner of the utility or facility.

c. Contents. A Final Attorney's Opinion of Compensability must contain the following information:

(1) A complete record that adequately presents relevant factual and background information including the identity of the project, whether the Government or a non-Federal sponsor has the responsibility to perform or assure the performance of relocations for the project, a description of the utility or facility at issue, and the general nature of the impact to the utility or facility that is attributable to the construction, operation or maintenance of the project.

(2) A description of whether utility or facility modifications will occur in place or whether the current location of the utility or facility, or an identified part thereof, must be changed to facilitate construction, operation or maintenance of the project.

(3) A statement indicating whether the owner of the utility or facility has a duty to continue the operation of the utility or facility either as a matter of law or practical necessity.

(4) The attorney's opinion, supported by appropriate legal analysis, as to whether the owner of the utility or facility has a compensable interest in real property together with a description of such interest. Muniments of title must be utilized in reaching this conclusion and must be identified in the opinion.

(5) The attorney's opinion, supported by appropriate legal analysis, as to whether fair market value or payment based on the cost of providing a functionally equivalent facility is the proper measure of just compensation for the real property interest that must be acquired from the owner of the utility or facility. For all public facilities, the analysis supporting such opinion should include statements regarding whether it is of a type

ER 405-1-12  
Change 31  
1 May 98

commonly bought and sold on the open market, whether the fair market value thereof is ascertainable, and whether providing fair market value rather than a substitute facility would result in manifest injustice as that term is used in relevant case law. See, for example, *United States v. 50 Acres of Land*, 469 U.S. 24 (1984).

(6) As appropriate, citations to the legal authority of the owner of the affected utility or facility to vacate, abandon, or convey the necessary interests in real property or to accept the conveyance of a substitute facility.

d. Acquisition by Relocation Agreement or Condemnation. Utilities and public facilities are normally acquired through execution of a relocation agreement. The agreement includes the engineering details of the relocation work as well as a right-of-entry for construction and provisions regarding exchange of the required real property interests. After construction of the relocation is completed in accordance with the agreement, deeds are exchanged to convey to the Government, or the non-Federal sponsor as the case may be, the real property interest required to support the project and to convey to the utility or public facility owner an interest in any additional land that was required for the relocation. If a relocation agreement cannot be negotiated with the utility or public facility owner, condemnation may be necessary to obtain the required real property interest on that tract. Cemeteries are always acquired by condemnation through the filing of a complaint only (rather than a complaint with Declaration of Taking),

#### SECTION V. ACQUISITION ACTIVITIES

12-23. General. This section describes acquisition activities which apply to both full Federal and cost shared projects, unless otherwise noted.

12-24. Public Meetings.

a. General. The real estate activities of USACE or the non-Federal sponsor are extremely sensitive, since they can disrupt peoples lives through the acquisition of their homes, farms and businesses. Therefore, it is important to keep landowners and others having an interest in the land informed of the land acquisition program. Timely dissemination of accurate information about the acquisition program and process is intended to avoid rumors and to permit affected landowners to plan for the future.

b. Public meetings are required by Section 302 of the Land Acquisition Policy Act of 1960, Public Law 86-645 (33 U.S.C. 597). Within six months after the date Congress authorizes construction of a water resources project, USACE or the non-Federal sponsor must advise owners and occupants in and adjacent to the project area as to the requirements for, and probable timing of, the acquisition of lands for the project. Within a reasonable time after initial appropriations are made for land acquisition or construction, including relocations, USACE or the non-Federal sponsor shall conduct public

ER 405-1-12  
Change 31  
1 May 98

meetings at locations convenient to owners and tenants to be displaced by the project in order to advise them of the proposed plans for acquisition and to afford them an opportunity to comment. The Congressional delegation of the district or districts in which the project is located should be invited to attend. Normally, the public meetings should be scheduled prior to the commencement of the land acquisition program.

c. At a minimum, information regarding the following matters should be disseminated at the public meeting:

- (1) factors considered in making the appraisals;
- (2) desire to purchase property without going to court;
- (3) legal right to submit to condemnation proceedings;
- (4) payments for moving expenses or other losses not covered by appraised market value;
- (5) occupancy during construction;
- (6) removal of improvements;
- (7) payments required from occupants of Government-acquired land;
- (8) withdrawals by owners of deposits made in court by the Government or non-Federal sponsor;
- (9) use of land by owner when easement is acquired; and
- (10) all other information that will assist landowners and tenants in understanding USACE's or non-Federal sponsor's real estate procedures such as acquisition schedules; the type of land interests to be acquired; the general policies that control land acquisition; approximate acquisition lines; and management of the project, etc.

d. Inquiries, comments of landowners and tenants, and problems developed at the landowners meetings should be recorded, video-taped, or, at least, a detailed written record should be made. The Division and CERE-AP should be informed as to the outcome of these meetings. Effective follow-up to supply any information not available at the meeting, or to consider any particular problems presented, is essential to realize the full advantage of the public relations program.

e. In addition to the foregoing, pamphlets containing this information and the information brochure explaining the benefits to landowners under P.L. 91-646 will be given wide distribution at approximately the same time the landowners meeting program is initiated. Copies will be furnished to the appropriate Congressional delegation.

ER 405-1-12  
Change 31  
1 May 98

12-25. Timing of Acquisition for Fish and Wildlife Mitigation and for Recreation.

a. Fish and Wildlife Mitigation. As required by Section 906(a) of WRDA 86, in the case of any water resources project which is authorized to be constructed before, on, or after 17 November, 1986, construction of which has not commenced as of such date, and which necessitates the mitigation of fish and wildlife losses, LER required to support mitigation must be acquired before commencement of construction of the project or it must be acquired concurrently with the LER required to support the basic project purpose, whichever the Secretary of the Army, or his designee, determines is appropriate.

b. Recreation. As required by Section 926(a) of WRDA 86, in the case of any water resources project which is authorized to be constructed before, on, or after 17 November 1986, construction of which has not commenced before such date, and which involves the acquisition of LER for recreation purposes, such LER must be acquired along with the acquisition of LER for the basic project purpose.

12-26. Certification of Availability of Real Estate for Solicitation of Construction Contracts.

a. For either a full Federal or cost shared project, prior to issuance of the solicitation for a construction contract that requires real property interests, the District Chief of Real Estate is required to certify in writing to the district element responsible for such solicitation that sufficient real property interests are available to support construction pursuant to the contract.

b. In making this certification, the District Chief of Real Estate may base his or her conclusion on examination and evaluation of such records as are appropriate under the circumstances including:

(1) if the project is cost shared, the non-Federal sponsor's Authorization for Entry and Certificate of Authority (see paragraph 12-32 of this chapter and Appendix 12-F);

(2) copies of recorded deeds of conveyance;

(3) copies of Orders of Possession entered in eminent domain proceedings; or

(4) other documents deemed adequate by the Chief of Real Estate.

c. In exceptional circumstances, a right-of-entry that has been approved by the District Chief of Real Estate as sufficient for construction purposes may be utilized for the purpose of certifying the availability of real property interests that are required to support issuance of a solicitation and award of a construction contract. However, if a right-of-entry is used for this purpose, acquisition of any real property interest for the tract at issue that is required to support operation or maintenance must be finalized prior to completion of construction pursuant to such contract.

ER 405-1-12  
Change 31  
1 May 98

d. If sufficient real property interests are not available to support construction at the time of the request for the certification, the District Chief of Real Estate should advise the requesting office as to the status of the required acquisition effort together with his or her estimate of time required to complete acquisition and certify real property availability.

12-27. Solicitation of Construction Contracts Without Availability of Real Estate. Solicitations for construction contracts should not be publicized until the District Chief of Real Estate has certified in writing that sufficient real property interests are available to support construction in accordance with paragraph 12-26 of this chapter. A decision by Project Management to proceed contrary to this general policy should be made only after full risk assessment. Real Estate input should include the status of acquisition, identification of all activities that must occur to complete acquisition, realistic schedules for such activities, and advice on the probability of finalizing acquisition in a timely manner.

SECTION VI. LAND ACQUISITION AND RELOCATION PERFORMANCE  
FOR COST SHARED PROJECTS

12-28. General. This section describes general land acquisition processes and procedures applicable to cost shared projects.

12-29. LER and Relocations Required for the Project.

a. Determination of Requirements. Because the non-Federal sponsor generally must provide the LER and perform the facility/utility relocations required for the project and because acquisition and performance by the non-Federal sponsor will generally be in accordance with state law and procedure, it is important that District Real Estate - with Engineering and PM participation - and the non-Federal sponsor agree upon an acceptable process by which LER requirements can be developed through exchange of information and ongoing consultation. After consultation with the non-Federal sponsor, the Government shall determine the LER required for the construction, operation, and maintenance of the project, including those required for relocations, borrow materials, and dredged or excavated material disposal.

b. Distinction Between LER Required and LER Provided. After the Government determines what LER is required for the project, it generally is the responsibility of the non-Federal sponsor to provide those LER. See Sections 101(a) and 103(a) and (I) of WRDA 86. However, it is important to distinguish between LER "required" for the project and that which the non-Federal sponsor must "provide." For example, although lands located within the navigation servitude may be "required", the non-Federal sponsor should not be instructed to acquire and "provide" such land if it is otherwise available for project purposes through exercise of the navigation servitude rights by the Government. See paragraph 12-7 of this chapter for additional information regarding the navigation servitude. Further, Federal lands managed by USACE may be available for use by the project without the need for transfer to the non-Federal sponsor. As a third example, another Federal agency may be

ER 405-1-12  
Change 31  
1 May 98

authorized to allow USACE, but not a non-Federal entity, to use Federal land it manages for the project without payment of compensation or transfer of interest. Accordingly, in all such circumstances, although required for the project, the non-Federal sponsor would not be required to provide a real property interest regarding that land and its value therefore would not be included in total project costs and credit would not be afforded.

12-30. Notice to Proceed with Acquisition and Performance. Following execution of the PCA, the district must provide the non-Federal sponsor with general written descriptions, including maps as appropriate, of the LER and the facility/utility relocations that the Government has determined the non-Federal sponsor must provide and perform for the construction, operation, and maintenance of the project. The LER descriptions must include specific estate, acreage, location and schedule requirements in detail sufficient to enable the non-Federal sponsor to fulfill its obligations to provide the LER in a timely fashion. Similarly, the relocation descriptions must include sufficient detail so as to enable the non-Federal sponsor to perform its relocation responsibilities in a timely fashion. In addition, the district must provide the non-Federal sponsor with a written notice to proceed with acquisition of such LER and performance of such relocations.

12-31. Acquisition Prior to PCA Execution. Although it should not be encouraged by the district, there may be instances when the non-Federal sponsor chooses to acquire land it anticipates will be required for the project prior to the execution of the PCA or prior to the Government's formal notice to proceed with acquisition after PCA execution. The district must formally advise the non-Federal sponsor in writing of the risks associated with acquisition under such circumstances and that the non-Federal sponsor assumes full and sole responsibility for any and all costs, responsibility, or liability arising out of the acquisition effort. Generally, these risks include, but may not be limited to, the following:

- (1) Congress may not appropriate funds to construct the proposed project;
- (2) the proposed project may otherwise not be funded or approved for construction;
- (3) a PCA mutually agreeable to the non-Federal sponsor and the Government may not be executed and implemented;
- (4) the non-Federal sponsor may incur liability and expense by virtue of its ownership of contaminated lands, or interests therein, whether such liability should arise out of local, state, or Federal laws or regulations including liability arising out of CERCLA, as amended;
- (5) the non-Federal sponsor may acquire interests or estates that are later determined by the Government to be inappropriate, insufficient, or otherwise not required for the project;

ER 405-1-12  
Change 31  
1 May 98

(6) the non-Federal sponsor may initially acquire insufficient or excessive real property acreage which may result in additional negotiations and/or benefit payments under P.L. 91-646 as well as the payment of additional fair market value to affected landowners which could have been avoided by delaying acquisition until after PCA execution and the Government's notice to commence acquisition and performance of LERRD; and

(7) the non-Federal sponsor may incur costs or expenses in connection with its decision to acquire or perform LERRD in advance of the executed PCA and the Government's notice to proceed which may not be creditable under the provisions of Public Law 99-662 or the PCA.

12-32. Authorization for Entry for Construction. After the non-Federal sponsor completes its acquisition effort and prior to issuance of the solicitation for each construction contract, an informed, authorized, and accountable official of the non-Federal sponsor must execute and provide the district a written Authorization for Entry to all LER that the Government determined the non-Federal sponsor must provide for that contract. The authorization form must also recite that the non-Federal sponsor is vested with sufficient title and interest in such LER. Further, the non-Federal sponsor must also provide the district with a Certificate of Authority that recites that the official signing the Authorization for Entry form on behalf of the non-Federal sponsor has the authority to furnish such right to the Government. A sample Authorization for Entry with Certificate of Authority form is attached as Appendix 12-F of this chapter.

12-33. Completion of Acquisition by the Non-Federal Sponsor. Prior to the end of the period of construction, as that period is defined in the project PCA, the non-Federal sponsor must complete acquisition, perform or ensure performance of all facility/utility relocations, and provide all LER that the Government required of the non-Federal sponsor as described in the written descriptions discussed above in paragraph 12-30. As typically required as an item of cooperation and expressed in the project PCA, the non-Federal sponsor must ensure for so long as the project remains authorized that the LER that the Government determined to be required for the operation and maintenance of the project and that were provided by the non-Federal sponsor are retained in public ownership for uses compatible with the project. In addition, the non-Federal sponsor must provide the Government with a right to enter, at reasonable times and in a reasonable manner, upon property that the non-Federal sponsor owns or controls for access to the project for purposes of inspection, and if necessary, for the purpose of completing, operating, maintaining, repairing, replacing, or rehabilitating the project. Typically, this right is provided to the Government in the PCA and no separate written form is therefore required. Management of project LER by the non-Federal sponsor cannot interfere with this right.

ER 405-1-12  
Change 31  
1 May 98

12-34. Government Acquisition of LER and Performance of Relocations on Behalf of Non-Federal Sponsors.

a. As discussed in paragraph 12-29 of this chapter, the provisions of WRDA '86, as amended, assigned to non-Federal sponsors the responsibility of providing the lands, easements and rights-of-way and of performing the facility/utility relocations required for cost shared projects. Thus, it is not only the costs of the project that are shared with the Government, but the performance responsibilities are also shared including the risks that attach thereto. Accordingly, if a non-Federal sponsor has the capability to acquire and provide LER and to perform the relocations required for the project in a reasonable and timely fashion, performance responsibility should remain with the non-Federal sponsor.

b. However, there may be circumstances where a non-Federal sponsor cannot acquire LER required for the project in a timely fashion and requests the Government to acquire LER on its behalf. In such event, the decision to acquire LER on behalf of the non-Federal sponsor lies within the sole discretion of the Government.

c. So long as no tract to be acquired is known or suspected to be contaminated with CERCLA regulated materials, not more than five Federal condemnation actions are anticipated, and the district has sufficient available resources to perform in a timely fashion while completing its other real estate missions, the District Commander, acting through the District Chief of Real Estate, may agree to a non-Federal sponsor's written request for the Government to acquire LER on behalf of that non-Federal sponsor under one or more of the following circumstances:

(1) the non-Federal sponsor lacks the professional capability to acquire LER required for the project and cannot reasonably obtain contract services from sources other than the Government;

(2) although the non-Federal sponsor has sufficient general acquisition authority, it lacks legal authority to acquire particular tracts and its request to the Government is limited to acquisition of such tracts; or

(3) the non-Federal sponsor lacks "quick-take" authority and reasonable acquisition schedules therefore cannot be met (see 40 U.S.C. §258a regarding the Government's quick-take authority).

d. Written request for the Government to acquire LER on behalf of a non-Federal sponsor under all circumstances other than as described in subparagraph c of this paragraph must be forwarded by the District, through Division, to HQUSACE (ATTN: CERE-A) for coordination and decision. Each written request must be accompanied by written justification and recommendation.

e. Acquisition by the Government on behalf of non-Federal sponsors will be conducted in accordance with Federal law, policies, practices and procedures, including those contained in Chapters 4 and 5 of this regulation. The value of LER acquired by the Government, including incidental and administrative costs, will be based on actual costs incurred by the Government. See Section VII below on Credits for LERRD.

ER 405-1-12  
Change 31  
1 May 98

f. Condemnation.

(1) The Secretary of the Army may cause condemnation proceedings to be instituted in Federal court in the name of the United States on behalf of a non-Federal sponsor for acquisition of real estate interests required for the project. General project authority will be cited as the authority of the United States to acquire title in its name and to reconvey title to the non-Federal sponsor at the conclusion of the condemnation proceeding.

(2) Whenever condemnation is proposed, condemnation assemblies will be prepared and forwarded through Division to CERE-AP for processing in the manner prescribed by Chapter 5 of this regulation. The non-Federal sponsor must furnish such sums of money to the District Chief of Real Estate as are necessary to pay any award that may be made in any such condemnation proceedings, including any awards made pursuant to the Equal Access to Justice Act (Public Law 96-481, title II, October 21, 1980, 94 Stat. 2325, as amended; 5 U.S.C. §504, 15 U.S.C §634b, 28 U.S.C. §2412, 42 U.S.C. §1988). In addition, the non-Federal sponsor must pay such legal and administrative costs and expenses of USACE and the Department of Justice (DOJ) as may be required that are incident to filing and prosecuting the proceedings. District Chiefs of Real Estate will determine the amounts needed to assure continued availability of sufficient funds for processing and trying each case. Such funds will be made available by the sponsor prior to the commencement of work by the Government. Further, the non-Federal sponsor must promptly pay any deficiency and interest beyond the original amount furnished should any such deficiency and interest occur, as well as additional amounts that may be required during the course of the proceedings.

g. If the Government approves a request of a non-Federal sponsor to acquire LER on its behalf, the Government and the non-Federal sponsor must agree in writing on the applicable terms and conditions which must include that the non-Federal sponsor will pay to the Government all estimated acquisition costs (including administrative costs) in advance of the actual work being performed and including that either party may terminate the agreement by first providing 60 days notice in writing to such effect. Moreover, all terms and conditions must be consistent with those contained in the PCA for the project. Where only a small number of tracts are to be acquired with no complex appraisal or acquisition issues contemplated, a formal Memorandum of Agreement (MOA) is not required. However, care must be exercised to otherwise reduce the terms and conditions of the agreement to writing. For all other circumstances, a written MOA must be entered into prior to the Government's commencement of acquisition services. Until such time that a Model MOA for this purpose is approved and distributed for use, a draft MOA must be forwarded to HQUSACE (ATTN: CERE-AP) for coordination, review, and approval prior to execution by either the district or the non-Federal sponsor.

h. In the event that a non-Federal sponsor requests in writing that the Government perform facility/utility relocations necessary for the project on behalf of the non-Federal sponsor, the decision to perform such relocations lies within the sole discretion of the Government. If the Government elects to perform the services requested, or any portion thereof, the terms and

ER 405-1-12  
Change 31  
1 May 98

conditions must be in writing and be consistent with the provisions of the PCA for the project. The non-Federal sponsor remains responsible for all costs of the relocations work and must pay the Government in advance of the Government incurring costs for performance of such work. For elaboration on performance of relocations on behalf of the non-Federal sponsor, see ER 1165-2-131, LOCAL COOPERATION AGREEMENTS FOR NEW START CONSTRUCTION PROJECTS.

SECTION VII. CREDITS FOR LANDS, EASEMENTS AND RIGHTS-OF-WAY  
AND RELOCATIONS FOR COST SHARED PROJECTS

12-35. General.

a. Title I of WRDA 86 describes the general cost sharing responsibilities of non-Federal sponsors for many types of civil works water resources projects. As discussed in paragraph 12-29 of this chapter, such responsibilities include that a non-Federal sponsor must provide the LER and must perform or ensure the performance of relocations required for the project. As described in Sections 103(a) and (I) of WRDA 86 for flood control and other purposes and as described in Section 101(a) of WRDA 86, as amended, for harbor or inland harbor commercial navigation projects, the non-Federal sponsor is entitled to credit against its share of project costs for the value of LER it provides and the value of relocations that are required for the project. Generally, the amount of credit afforded will directly effect the amount of the non-Federal sponsor's cash contribution otherwise required for construction of the project.

b. Generally, for the purpose of determining the amount of credit to be afforded, the value of LER is the fair market value of the real property interests, plus certain incidental costs of acquiring those interests, that the non-Federal sponsor provided for the project as required by the Government. Generally, the fair market value is determined by, or is based upon, an appraisal prepared by a qualified appraiser. A more detailed description of the valuation and crediting process, including exceptions to this general rule, is presented in the following paragraphs of this section. In addition, the specific requirements relating to valuation and crediting contained in the executed PCA for a project must also be reviewed and applied.

c. Generally, for the purpose of determining the amount of credit to be afforded, the value of facility/utility relocations other than a highway is the portion of relocation costs that the Government determines is necessary to provide a functionally equivalent facility, reduced by depreciation, as applicable, and by the salvage value of any removed items. For a relocation of a highway, the value is the portion of relocation costs necessary to accomplish the relocation in accordance with the design standard that the state where the highway is located would apply under similar conditions of geography and traffic load, reduced by the salvage value of any removed items. For elaboration on policies pertaining to credits for relocations, see ER 1165-2-131, LOCAL COOPERATION AGREEMENTS FOR NEW START CONSTRUCTION PROJECTS.

ER 405-1-12  
Change 31  
1 May 98

d. In reviewing requests for credit from the non-Federal sponsor, Real Estate must be aware of its fiscal responsibilities to both the non-Federal sponsor and the Government. In order to provide for uniform and consistent treatment of non-Federal sponsors concerning the crediting of LER for cost shared projects, procedures in this section should be followed to the greatest extent practicable. Requests for deviation from the policies described in this section, or requests for guidance on unique or unusual categories of LER credit claims not addressed herein, should be forwarded through Division to HQUSACE, (ATTN: CERE-AP), for appropriate coordination and final determination.

12-36. Value of Lands, Easements, and Rights-of-Way (LER).

a. Date of Valuation.

(1) The fair market value of LER owned by the non-Federal sponsor on the effective date of the PCA for the project is the fair market value of the real property interests as of the date the non-Federal sponsor provides the Government with authorization for entry thereto for construction purposes.

(2) The fair market value of LER acquired by the non-Federal sponsor after the effective date of the PCA for the project is the fair market value of the real property interests at the time the interests are acquired.

(3) For LER owned by the non-Federal sponsor on the effective date of the PCA for the project that are required for the construction of work by the non-Federal sponsor that is authorized under Section 104 of WRDA 86, as amended, the fair market value is the value of the real property interests as of the date the non-Federal sponsor awards the first construction contract for the Section 104 work, or, if the non-Federal sponsor performs the construction with its own labor, the date that the non-Federal sponsor begins construction of the Section 104 work. The same principles apply to construction efforts by the non-Federal sponsor approved pursuant to authorities other than Section 104 including Section 215 of the Flood Control Act of 1968, as amended, Section 204 of WRDA 86, as amended, and Section 211 of WRDA 96.

b. General Valuation Procedure. For each real property interest, the non-Federal sponsor must obtain an appraisal that is prepared by a qualified appraiser who is acceptable to the Government. See Chapter 4 of this regulation. The appraisal must be prepared in accordance with applicable rules of just compensation, as specified by the Government. The fair market value of the real property interest is the amount set forth in the non-Federal sponsor's appraisal if that appraisal is approved by the Government. In the event that such appraisal is not approved by the Government, the non-Federal sponsor may obtain a second appraisal, and the fair market value is the amount set forth in the second appraisal if that appraisal is approved by the Government. In the event that the Government does not approve the non-Federal sponsor's second appraisal, or the non-Federal sponsor does not choose to obtain a second appraisal, or otherwise fails to provide the second appraisal in a timely fashion, the Government must obtain an appraisal and the fair market value is the amount set forth in the Government's appraisal if such

ER 405-1-12  
Change 31  
1 May 98

appraisal is approved by the non-Federal sponsor. In the event that the non-Federal sponsor does not approve the Government's appraisal, the Government, after consultation with the non-Federal sponsor, shall consider the Government's and the non-Federal sponsor's appraisals and determine an amount based thereon which shall be deemed to be the fair market value.

c. Applicable Rules of Just Compensation. Although State rules will typically control the appraisal process for acquisition and crediting purposes by a non-Federal sponsor, application of Federal rules of just compensation may be required as a matter of policy for crediting purposes. For discussion on this issue, see paragraph 12-37.c of this chapter; and Chapter 4, Appraisal, of this regulation. Also see 33 U.S.C. §595 regarding the Federal special benefits rule and 33 U.S.C. §595.a regarding the Federal rule for partial takings of lands adjacent to navigable waters.

d. Payments Exceeding Approved Appraised Amount.

(1) Approval Process. If the amount paid or proposed to be paid by the non-Federal sponsor to a landowner for the real property interest exceeds the amount determined pursuant to subparagraph b of this paragraph to be fair market value, the Government, at the request of the non-Federal sponsor, must consider all factors relevant to determining fair market value and, in its sole discretion, after consultation with the non-Federal sponsor, may approve in writing an amount greater than the amount determined pursuant to subparagraph b of this paragraph but not to exceed the amount actually paid or proposed to be paid. If the Government approves such an amount, the fair market value shall be the lesser of the approved amount or the amount paid by the non-Federal sponsor, but no less than the amount determined pursuant to subparagraph b of this paragraph. See 49 C.F.R. §24.102(I) regarding administrative settlements as a part of the acquisition process.

(2) Approval Authority. Division Commanders and their Chiefs of Real Estate and District Commanders and their Chiefs of Real Estate can determine fair market value in accordance with subparagraph d.(1) of this paragraph up to the amounts and percentages set forth in their respective written delegations of authority for acceptance of offers to sell for Federal acquisitions. A copy of the general written delegation of authority to divisions is included as Appendix 12-G to this chapter. If a division has redelegated a portion of its delegated authority as authorized in Appendix 12-G, its districts will have a written redelegation of authority that describes the extent of its approval authority for acceptance of offers for Federal acquisitions. For determinations that exceed the amount of delegated or redelegated authority, a request must be submitted by the district, together with recommendation, to the division, or through division to CERE-A as the case may be, for determination.

(3) Redelegation to Non-Federal Sponsors. U.S. Army District Commanders and their Chiefs of Real Estate may redelegate their authority provided by subparagraph d.(2) of this paragraph, in whole or in part, to a non-Federal sponsor as follows:

ER 405-1-12  
Change 31  
1 May 98

(a) Factors that should be weighed in determining whether to exercise this discretionary authority include the experience, qualifications, and overall professional capability of the non-Federal sponsor as well as the nature and extent of the relationship established between the non-Federal sponsor and the district including the Chief of Real Estate.

(b) Redelegated approval authority cannot exceed the amounts or percentages that are contained in the specific written redelegation of authority for acceptance of offers to sell for Federal acquisitions that has been provided to that U.S. Army District Commander and Chief of Real Estate from its respective U.S. Army Division Commander and Chief of Real Estate.

(c) Limits to and conditions of redelegated authority as established by the District Chief of Real Estate must be fully discussed with the responsible non-Federal sponsor representative and the nature and extent of the redelegated authority must be reduced to writing prior to its application.

(d) Redelegation to non-Federal sponsors is intended to expedite the acquisition process where, during negotiations with a landowner, a non-Federal sponsor desires credit assurances for proposed payments to a landowner in excess of the amount set forth in the non-Federal sponsor's appraisal that has previously been approved by the Government. Accordingly, redelegated authority to non-Federal sponsors does not apply to value determinations where acquisition has been completed on the subject tract.

e. Valuation Procedure for Condemnations.

(1) For LER acquired through condemnation proceedings instituted after the effective date of the PCA for the project, the non-Federal sponsor must, prior to instituting such proceedings, submit to the Government notification in writing of its intent to institute the proceedings together with an appraisal of the specific real property interests to be acquired.

(2) After receipt of the written notice and appraisal, the Government has 60 days to review the appraisal. If the Government has previously approved the appraisal by application of the process discussed in subparagraph b of this paragraph, or provides written approval of, or takes no action on, the appraisal within this 60-day period, the non-Federal sponsor must use the amount set forth in the appraisal as the estimate of just compensation for the purpose of instituting its eminent domain proceeding.

(3) If the Government provides written disapproval of the appraisal to the non-Federal sponsor within the 60-day period, the Government and non-Federal sponsor must consult in good faith to promptly resolve the issues or areas of disagreement identified in the Government's written disapproval. If, after good faith consultation, the Government and the non-Federal sponsor agree as to an appropriate amount, then the non-Federal sponsor must use that amount as the estimate of just compensation for the purpose of instituting the eminent domain proceeding. However, if, after good faith consultation, no agreement can be reached as to an appropriate amount, then the non-Federal sponsor may use the amount set forth in its appraisal as the estimate of just compensation for the purpose of instituting the eminent domain proceeding.

ER 405-1-12  
Change 31  
1 May 98

(4) Fair market value for LER acquired by eminent domain proceedings in accordance with the above procedures shall be either the amount of the court award for the real property interests taken to the extent that the Government determined such interests are required for the construction, operation, and maintenance of the project or the amount of any stipulated settlement or portion thereof that the Government approves in writing. To the greatest extent practicable, the Government and the non-Federal sponsor should consult and cooperate prior to a settlement conference in an effort to reach advance agreement on an amount, or range of amounts, for which the non-Federal sponsor would be entitled to credit if settlement was reached during that conference in such amount, or within such range.

(5) U.S. Army Division Commanders and their Chiefs of Real Estate and U.S. Army District Commanders and their Chiefs of Real Estate can determine fair market value by approving stipulated settlements in condemnation actions initiated by the non-Federal sponsor in accordance with subparagraph e.(4) of this paragraph up to the amounts set forth in their respective written delegations of authority for approval of settlement offers in Federal condemnation actions. A copy of the general written delegation of authority to divisions is included as Appendix 12-G. If a division has redelegated a portion of its delegated authority as authorized in Appendix 12-G, its districts will have a written redelegation of authority that describes the extent of its approval authority for settlement offers in Federal condemnation actions. For stipulated settlement amounts that exceed the amount of delegated or redelegated authority, a request for determination must be submitted by the district, together with recommendation, to the division, or through division to CERE-A as the case may be, for determination.

(6) For LER acquired by a non-Federal sponsor through condemnation proceedings instituted prior to the effective date of the PCA for the project, the valuation procedures discussed in subparagraphs b and d of this paragraph will apply once the PCA is executed.

f. Incidental Costs.

(1) For LER acquired by a non-Federal sponsor within a five-year period preceding the effective date of the PCA for the project, or at any time after the effective date of that PCA, the value of the real property interests also will include the documented incidental costs of acquiring such interests, as determined by the Government, subject to an audit to determine the reasonableness, allocability, and allowability of costs. See OMB Circular A-87, Cost Principles for State and Local Governments for applicable principles. These incidental costs include, but are not necessarily limited to, closing and title costs, appraisal costs, survey costs, attorney's fees, plat maps and mapping costs, as well as the actual amounts expended for payment of P.L. 91-646 relocation assistance benefits as required for compliance with law and implementing regulations.

(2) These incidental costs may also include payments made for personal property, loss of business or good will, or other payments, that are generally recognized as compensable, and required to be paid, by applicable State law due to the acquisition of a real property interest required for the project as

ER 405-1-12  
Change 31  
1 May 98

determined by the Government. Credit requests for payments made for personal property, loss of business or good will, or other payments, must be submitted with sufficient documentation, as determined by the Government, to show that the non-Federal sponsor was required to make payment therefor under State law.

(3) Credit afforded for incidental costs shall not include any amount that is excluded from credit eligibility by application of the policies expressed in paragraphs 12-37c and 12-38 of this chapter.

12-37. Special Considerations.

a. Rights-of-Entry. Generally, a right-of-entry is not an interest in real property and has no market value. Therefore, no credit can be afforded for a market value of a right-of entry for construction provided by a non-Federal sponsor. However, costs incurred by the non-Federal sponsor in the process of obtaining the right-of-entry may be treated as incidental costs and credited when the real property interest required for that tract is later acquired by the non-Federal sponsor. In the rare event that the Government has determined that a formal real property interest is not required and that a right-of-entry is sufficient, the District Chief of Real Estate may approve a credit amount for a right-of-entry as based upon the reasonable, allocable, and allowable costs incurred by the non-Federal sponsor in obtaining the right-of-entry.

b. Donations by Non-Federal Sponsor. Although a non-Federal sponsor may want to provide LER without claiming credit therefor, the value of all LER required for the project that must be provided by the non-Federal sponsor must be included as a part of project costs with credit afforded in such amount except as otherwise stated in paragraph 12-38 of this chapter.

c. Application of Federal Appraisal Principles. In addition to when the Government acquires LER on behalf of the non-Federal sponsor as discussed in paragraph 12-34 of this chapter, Federal appraisal principles must be applied to determine market value for crediting purposes in the following circumstances:

(1) For LER owned by the non-Federal sponsor prior to the date of Congressional authorization of a specifically authorized project or prior to the date of the Division Commander's approval of the project for continuing authority projects; and

(2) For Shore Protection Projects, lands subject to shore erosion that are required for project purposes and that must be provided by the non-Federal sponsor must be appraised for crediting purposes considering special benefits in accordance with relevant Federal statutes and Department of Justice regulations. For private land holdings, the non-Federal sponsor must receive credit for the LER value, if any, that results from application of this special benefits analysis. For public land holdings, any credit amount proposed must first be approved by HQUSACE through a request forwarded, through Division, to HQUSACE (ATTN: CERE). For additional discussion, see Memorandum from the Director of Civil Works, Revision to Policy Guidance Letter No. 11, Credit for Lands, Easements, and Rights-of-Way (LER) at Shore Protection Projects, dated 21 April 1989.

ER 405-1-12  
Change 31  
1 May 98

d. **Informal Value Estimates.** As provided in 49 CFR Part 24.102(c), an appraisal is not required for acquisition purposes if (1) the landowner is donating the property and releases the acquiring agency from this obligation, or (2) the acquiring agency determines that an acquisition appraisal is unnecessary because the valuation problem is uncomplicated and the fair market value is estimated at \$2500 or less, based on a review of available data. Where no acquisition appraisal has been prepared by the non-Federal sponsor pursuant to either of these circumstances, and where the value estimate does not exceed \$2500, the non-Federal sponsor may submit, and the District Chief of Real Estate may approve, the non-Federal sponsor's informal value documentation and conclusions for the purpose of affording credit. Upon approval, the informal value documentation submitted shall be considered to be an appraisal for the limited purpose of compliance with the appraisal requirements in the PCA for the tract at issue. For all other tracts, credit appraisals must be submitted with approval authority commensurate with delegated authority amounts for appraisal approvals generally.

e. **Multi-Purpose Projects.** Where a project will be constructed to serve more than one authorized purpose, it is important that the LER requirements for each purpose are clearly identified so that the respective values can be properly assigned among the purposes with appropriate credit afforded toward the non-Federal sponsor's share of the costs of each project purpose. This is particularly important when the purposes have different cost sharing formulas or when there are different non-Federal sponsors for construction and Operation, Maintenance, Repair, Replacement and Rehabilitation (OMRR&R) of the project purposes. For example, if the LER required for a flood control project consists of standard permanent levee easements, those interests must be so identified, valued, and assigned to the basic flood control project purpose. Additional estates on the same tracts that are required to support recreation must be separately identified with the incremental additional values assigned to the recreation project purpose. In no event can the value for the flood control easement combined with that of the additional interest required to support recreation on the same tract exceed the fee value for that tract. Once the values have been properly assigned among purposes, those values will be included in total project costs for the respective purposes and credit will be afforded in such amounts. For additional discussion, see CECW Policy Guidance Letters No. 30, Recreation Cost Sharing Credit For Increased Real Estate Interest for Recreation Development at Non-Reservoir Projects, dated 6 December 1991 and 36, Recreation Development at (Non-Lake) Structural Flood Control and Harbor Projects, dated 21 October 1992.

f. **Impact of Project Changes.** Where a non-Federal sponsor acquires an interest in real property after PCA execution and receipt of the Government's written notice to proceed with acquisition but subsequent project changes (e.g. design change) eliminate the need for such interest, the amount of credit afforded (or to be afforded as the case may be) must be reduced in accordance with consistent with the following principles:

ER 405-1-12  
Change 31  
1 May 98

(1) If the acquired real property interest has a market value, credit and total project costs must be reduced by the lesser of the market value of the interest credited to the sponsor or the reasonable sales proceeds received by the non-Federal sponsor if such interest is sold to a third party in a timely fashion in an arms length transaction.

(2) Credit must still be afforded for the amount of the approved incidental costs of acquiring such interest pursuant to the terms of the PCA (including P.L. 91-646 benefit payments) as well as for the documented incidental costs, if any, of selling such interest subject to an audit to determine reasonableness, allocability and allowability.

(3) Application of these principles are not intended to penalize a non-Federal sponsor for acquiring real property as requested by the Government. Accordingly, it is acknowledged that many estates acquired by non-Federal sponsors for USACE projects have no market value (e.g. levee easements, temporary construction easements). In such cases the credit reduction principles are not applicable. It is further acknowledged that application of these principles may not under all circumstances produce an acceptable result as it relates to credit reduction. In such cases, and pursuant to a request by the non-Federal sponsor, a written request for deviation from application of such principles together with a full explanation of the circumstances and a recommendation for decision should be transmitted through division to CERE-AP for appropriate coordination, consideration and decision.

g. Hazardous, Toxic, and Radioactive Wastes (HTRW). As used in ER 1165-2-132, HAZARDOUS, TOXIC, AND RADIOACTIVE WASTE (HTRW) GUIDANCE FOR CIVIL WORKS PROJECTS, and as used in this chapter, the term "hazardous, toxic, and radioactive waste", or "HTRW", means any material listed as a "hazardous substance" under the Comprehensive Environmental Response, Compensation and Liability Act, as amended, 42 U.S.C. §9601 et seq. (CERCLA). See 42 U.S.C. §9601(14). For crediting purposes, LER required for the project that is contaminated with CERCLA regulated materials shall be appraised with the assumption that the lands are no longer contaminated; that is, that an appropriate response action has occurred. Notwithstanding that an appropriate response action has been completed, the market value of the tract may be lessened due to the stigma that arises from its history of contamination. See Chapter 4, Appraisal, of this regulation; Real Estate Policy Guidance Letter No.1--Appraisal of Lands Containing Hazardous and Toxic Wastes, dated 19 November 1990; and Project Management Guidance Letter No.8--Appraisal of Lands Containing Hazardous & Toxic Wastes on Local Cooperation Projects, dated 5 November 1990.

h. Other Contaminants. The policy explained above in subparagraph g is limited to LER contaminated with CERCLA regulated materials. For crediting purposes, LER required for the project that is contaminated with materials not regulated by CERCLA shall be appraised for crediting purposes as it exists on the applicable date of valuation.

ER 405-1-12  
Change 31  
1 May 98

12-38. Exceptions to LER Credit. As a matter of policy, a non-Federal sponsor will not be afforded credit for the following categories of LER required for a project. Further, for projects that include LER value as a part of shared total project costs, the value amount that is non-creditable must be excluded from total project costs. Requests for exceptions to this policy together with persuasive rationale must be forwarded through Division to HQUSACE (ATTN: CERE-AP) for coordination and final determination.

a. Previously Provided as an Item of Cooperation. The non-Federal sponsor shall not receive credit for the value of any LER, including incidental costs, that have been provided previously as an item of cooperation for another Federal project.

b. Federal Funds. The non-Federal sponsor shall not receive credit for the value of LER, including incidental costs, to the extent that they were provided using Federal funds unless the Federal granting agency verifies in writing that such credit is expressly authorized by statute.

c. Federal Lands. The non-Federal sponsor shall not receive credit for the value of LER acquired from Federal agencies if the acquisition of same was accomplished at no cost other than incidental costs. However, credit may be afforded for the non-Federal sponsor's documented incidental costs of acquiring such interests subject to an audit to determine reasonableness, allocability, and allowability. USACE will cooperate and, where possible, facilitate the non-Federal sponsor's effort to secure land for project use that is managed by a Federal agency.

d. Excessive Interests. Except as otherwise provided in paragraph 12-36f of this chapter, if the non-Federal sponsor acquires LER in excess of the requirements of the project as determined by the Government, only the value of the acreage or interest required to support the project as determined by the Government shall be eligible for credit.

e. Section 14 Projects. The valuation of LER for crediting purposes for continuing authority projects constructed pursuant to Section 14 of the Flood Control Act of 1946, as amended, 33 U.S.C. §701r, is the same as for other projects except for cases in which the required LER is part of the tract of land that includes the facility or structure being protected. In such cases, the non-Federal sponsor shall not receive credit for the value of LER it provides that:

(1) are part of the tract of land on which the facility or structure to be protected is located; and

(2) are owned by either the non-Federal-sponsor or the owner of the facility or structure when the PCA for the project is executed.

f. Navigation Servitude. In no event shall credit be afforded for lands that are available to the project through exercise of the navigation servitude.

g. Contingencies. In no event shall credit be afforded for contingency values designated in reconnaissance estimates, Gross Appraisals, M-CACES cost estimates, or other planning estimates of LER values.

ER 405-1-12  
Change 31  
1 May 98

12-39. Stipulating to Credit Amount in PCA.

a. Section 14 Projects. Where the cost of appraising LER that is eligible for credit for a Section 14 continuing authority project is estimated to exceed the market value of such interest, or interests, the non-Federal sponsor and Government may stipulate in the PCA for the project that the value of, and the credit amount for, the required interest, or interests, that are to be provided by the non-Federal sponsor is zero thereby avoiding the necessity and expense of the appraisal for such interest or interests. It must be noted, however, that use of such a stipulation is a deviation from Model PCA provisions and additional PCA approval may therefore be required.

b. Other Circumstances. Other than as discussed above, all proposals for stipulating to value and credit amounts in the PCA for some or all LER required for the project that must be provided by the non-Federal sponsor will be considered on a case-by-case basis. Such proposals must be agreed to by the non-Federal sponsor and must be submitted in writing together with justification to HQUSACE (ATTN: CERE-AP) for coordination and approval. Proposals for all stipulations in an amount greater than \$2500 must be based upon an appraisal approved by the Government that has been prepared in accordance with Chapter 4 of this regulation. Generally, submittal and approval of the proposal must occur prior to submittal of the draft PCA to CECW-AR for review so as to not delay PCA processing and approval.

12-40. Process and Procedures.

a. Timing of Credit Requests.

(1) Market Value of LER. To facilitate affording of credit for the market value of LER in a timely manner, the non-Federal sponsor should submit its credit request with supporting documents within 180 days after it provides the Government authorization for entry for such LER.

(2) Incidental Costs. For all other creditable items associated with the acquisition of LER, such as P.L. 91-646 relocation assistance payments or other documented acquisition costs, the non-Federal sponsor should submit its credit request with supporting documentation as soon as practicable but not less than on an annual basis.

(3) Reasonable Effort To Comply. Although these time frames for submission of credit requests may not be achievable in all events due to complexities in negotiations, condemnations, or other reasons, reasonable compliance efforts should be made so that project costs are appropriately and timely apportioned between the parties consistent with PCA accounting provisions and sound fiscal procedures.

b. Credits and Project Accounting Records. After Real Estate has preliminarily approved a LER credit amount in accordance with delegated authority policies, this amount should be reviewed and discussed with the PM. Real Estate should make available to the PM all information necessary for the PM to review the non-Federal sponsor's credit request. Once the LER credits are finally approved, it is the PM's responsibility to assure that credit amounts are recorded in project accounting records.

ER 405-1-12  
Change 31  
1 May 98

c. No Credit Request. If a non-Federal sponsor does not submit a credit request, or sufficient documentation therefor in a timely manner, the District Chief of Real Estate should document actions taken in trying to obtain the credit request or documentation and provide such information to the PM for further action.

DEPARTMENT OF THE ARMY  
RIGHT-OF-ENTRY FOR SURVEY AND EXPLORATION

\_\_\_\_\_  
*Project, Installation or Activity*

\_\_\_\_\_  
*(Tract Number or Other Property Identification)*

The undersigned, hereinafter called the "Owner," hereby grants to the UNITED STATES OF AMERICA, hereinafter called the "Government," a permit or right-of-entry upon the following terms and conditions:

1. The Owner hereby grants to the Government an irrevocable right to enter upon the lands hereinafter described at any time within a period of ( ) months from the date of this instrument, in order to survey, make test borings, and carry out such other exploratory work as may be necessary to complete the investigation being made of said lands by the Government.

2. This permit includes the right of ingress and egress on other lands of the Owner not described below, provided such ingress and egress is necessary and not otherwise conveniently available to the Government.

3. All tools, equipment, and other property taken upon or placed upon the land by the Government shall remain the property of the Government and may be removed by the Government at any time within a reasonable period after the expiration of this permit or right-of-entry.

4. If any action of the Government's employees or agents in the exercise of this right-of-entry results in damage to the real property, the Government will, at its option, either repair such damage or make an appropriate settlement with the owner. In no event shall such repair or settlement exceed the fair market value of the fee interest of the real property at the time immediately preceding such damage. The Government's liability under this clause may not exceed appropriations available for such payment and nothing contained in this agreement may be considered as implying that Congress will at a later date appropriate funds sufficient to meet deficiencies. The provisions of this clause are without prejudice to any rights the Owner may have to make a claim under applicable laws for any other damages than provided herein.

5. The land affected by this permit or right-of-entry is located in the State of \_\_\_\_\_, County of \_\_\_\_\_, and is described as follows:

DEPARTMENT OF THE ARMY  
RIGHT-OF-ENTRY FOR CONSTRUCTION

\_\_\_\_\_  
*(Project, Installation or Activity)*

\_\_\_\_\_  
*(Tract Number or Other Property Identification)*

The undersigned, hereinafter called the "Owner," in consideration of the total compensation to be paid by the UNITED STATES OF AMERICA, hereinafter called the 'Government,' for all land or easement rights hereinafter described, to be determined by subsequent agreement between the Owner and the Government, or by judicial proceedings, hereby grants to the Government, a permit or right-of-entry upon the following terms and conditions:

1. The Owner hereby grants to the Government an irrevocable right to enter upon the lands hereinafter described at any time within a period of ( ) months from the date of this instrument, in order to erect buildings or any other type of improvements and to perform construction work of any nature.
2. This permit includes the right of ingress and egress on other lands of the Owner not described below, provided that such ingress and egress is necessary and not otherwise conveniently available to the Government.
3. All tools, equipment, buildings, improvements, and other property taken upon or placed upon the land by the Government shall remain the property of the Government and may be removed by the Government at any time within a reasonable period after the expiration of this permit or right-of-entry.
4. The Government shall have the right to patrol and police the lands hereinafter described during the period of this permit or right-of-entry.
5. If aircraft flights over said lands, or entry upon the land by means of helicopter or other type aircraft, are necessary, the Government shall inform the Owner, in advance, of each such flight or entry.
6. In the event that the Government does not acquire title or other necessary interest in said land prior to the expiration of this permit or right-of-entry, or other renewal thereof, the parties agree that, if any action of the Government's employees or agents in the exercise of this right-of-entry results in damage to the real property, the Government will, at its option, either repair such damage or make an appropriate settlement with the Owner. In no event shall such repair or settlement exceed the fair market value of the fee interest of the real property at the time immediately preceding such damage. The Government's liability under this clause may not exceed appropriations available for such payment and nothing contained in this agreement may be considered as implying that Congress will at a later date appropriate funds sufficient to meet deficiencies. The provisions of this clause are without prejudice to any rights the Owner may have to make a claim under applicable laws for any other damages than provided herein. If the Government does acquire such title or other necessary interest, damages would be limited to the decrease in the fair market value of the owner's remainder caused by such damage.

The land affected by this permit or right-of-entry is located in the County of \_\_\_\_\_ State of \_\_\_\_\_, and is described as follows:

APPENDIX 12-E

ASSESSMENT OF NON-FEDERAL SPONSOR'S  
REAL ESTATE ACQUISITION CAPABILITY

I. Legal Authority:

- a. Does the sponsor have legal authority to acquire and hold title to real property for project purposes? (yes/no)
- b. Does the sponsor have the power of eminent domain for this project? (yes/no)
- c. Does the sponsor have "quick-take" authority for this project? (yes/no)
- d. Are any of the lands/interests in land required for the project located outside the sponsor's political boundary? (yes/no)
- e. Are any of the lands/interests in land required for the project owned by an entity whose property the sponsor cannot condemn? (yes/no)

II. Human Resource Requirements:

- a. Will the sponsor's in-house staff require training to become familiar with the real estate requirements of Federal projects including P.L. 91-646, as amended? (yes/no)
- b. If the answer to II.a. is "yes," has a reasonable plan been developed to provide such training? (yes/no)
- c. Does the sponsor's in-house staff have sufficient real estate acquisition experience to meet its responsibilities for the project? (yes/no)
- d. Is the sponsor's projected in-house staffing level sufficient considering its other work load, if any, and the project schedule? (yes/no)
- e. Can the sponsor obtain contractor support, if required in a timely fashion? (yes/no)
- f. Will the sponsor likely request USACE assistance in acquiring real estate? (yes/no) (If "yes," provide description)

III. Other Project Variables:

- a. Will the sponsor's staff be located within reasonable proximity to the project site? (yes/no)
- b. Has the sponsor approved the project/real estate schedule/milestones? (yes/no)

IV. Overall Assessment:

- a. Has the sponsor performed satisfactorily on other USACE projects? (yes/no/not applicable)
- b. With regard to this project, the sponsor is anticipated to be: highly capable/fully capable/moderately capable/marginally capable/insufficiently capable. (If sponsor is believed to be "insufficiently capable," provide explanation)

APPENDIX 12-F  
AUTHORIZATION FOR ENTRY FOR CONSTRUCTION

I, (name of accountable official), (title) for (name of non-Federal sponsor), do hereby certify that the (name of non-Federal sponsor) has acquired the real property interests required by the Department of the Army, and otherwise is vested with sufficient title and interest in lands, to support construction of (project name, specifically identified project features, etc.). Further, I hereby authorize the Department of the Army, its agents, employees and contractors, to enter upon (identify tracts) to construct (Project name, specifically identified project features, etc.) as set forth in the plans and specifications held in the U.S. Army Corps of Engineers' \_\_\_\_\_ District Office, (City and State).

WITNESS my signature as (title) for (name of non-Federal sponsor) this \_\_\_\_\_ day of \_\_\_\_\_, 199\_\_ .

BY: \_\_\_\_\_  
          (name)  
          \_\_\_\_\_

ATTORNEY'S CERTIFICATE OF AUTHORITY

I, (name), (title of legal officer) for (name of non-Federal sponsor), certify that (name of non-Federal sponsor) has authority to grant the above Authorization for Entry; that said Authorization for Entry is executed by the proper duly authorized officer; and that the Authorization for Entry is in sufficient form to grant the authorization therein stated.

WITNESS my signature as (title) for (name of non-Federal sponsor), this \_\_\_\_\_ day of \_\_\_\_\_, 199\_\_ .

APPENDIX 12-G

DELEGATION OF AUTHORITY  
TO  
U.S. ARMY DIVISION AND DISTRICT ENGINEERS  
AND  
CHIEFS OF REAL ESTATE DIVISIONS  
TO  
ACQUIRE REAL PROPERTY AND INTERESTS THEREIN

1. Pursuant to the authority vested in the Chief of Engineers and his Director of Real Estate under a delegation of authority from the Secretary of the Army dated 20 August 1976 made in accordance with 10 U.S.C. § 3012 (subsequently redesignated as 10 U.S.C. § 3013) and the Uniform Relocation Assistance and Real property Acquisition Policies Acts of 1970, P.L. 91-646, as amended, (42 U.S.C. § 4601 *et seq.*), I hereby redelegate to U.S. Army Division Engineers and their Chiefs of Real Estate authority to take the following actions consistent with the provisions of Title III of P.L. 91-646, as amended, and the Uniform Relocation Assistance and Real Property Acquisition Regulations for Federal and Federally Assisted Programs, 49 C.F.R. Part 24:

a. To accept offers to sell and approve administrative settlements as follows:

(1) To accept an offer to sell in the amount of the approved appraisal;

(2) To approve any administrative settlement and accept any offer to sell in an amount in excess of the approved appraisal but which does not exceed \$200,000.00 if it is reasonable, prudent, and in the public interest; and

(3) To approve any administrative settlement and accept any offer to sell in an amount in excess of \$200,000.00 which does not exceed 115 percent of the amount of the approved appraisal and which does not exceed \$1,150,000.00 if it is reasonable, prudent, and in the public interest.

b. To approved any settlement offer in a condemnation action which does not exceed \$1,000,000., if it is reasonable, prudent, and in the public interest.

c. To make findings, determinations, and payments as authorized by Sections 301, 302, 303, 304 and 305 of P.L. 91-646, as amended.

2. U.S. Army Division Engineers may redelegate to U.S. Army District Engineers and their Chiefs of Real Estate authority to take the following actions:

a. To accept offers to sell and approve administrative settlements as follows:

(1) To accept any offer to sell in the amount of the approved appraisal;

(2) To approve any administrative settlement and accept any offer to sell in an amount in excess of the approved appraisal but which does not exceed \$100,000.00 if it is reasonable, prudent, and in the public interest; and

ER 405-1-12  
Change 31  
1 May 98

APPENDIX 12-G

(3) To approve any administrative settlement and accept any offer to sell in an amount in excess of \$100,000.00 which does not exceed 115 percent of the amount of the approved appraisal and which does not exceed \$1,150,000.00 if it is reasonable, prudent, and in the public interest.

b. To approve any settlement offer in a condemnation action which does not exceed \$500,000.00 if it is reasonable, prudent, and in the public interest.

c. To make findings, determinations and payments as authorized by Sections 301,302, 303, 304 and 305 of P. L. 91-646, as amended.

3. Regardless of the amount of monetary consideration involved, any administrative settlement, offer to sell or settlement offer in a condemnation action will be forwarded to Headquarters for approval if the acquisition is controversial, precedential, or involves a novel legal issue.

FORMAT OF AGREEMENT

Use of the following format of agreement is authorized for local cooperation agreements, except those referenced in paragraph 12-7. If substantial variation is to be made from such format, a draft shall be forwarded to HQDA (DAEN-REA-P) WASH DC 20314, for approval prior to execution:

AGREEMENT BETWEEN

THE UNITED STATES OF AMERICA

AND

(Name of Non-Federal Interests)

FOR LOCAL COOPERATION AT

(Name of Project)

THIS AGREEMENT entered into this \_\_\_\_\_ day of \_\_\_\_\_ 19\_\_\_\_ by and between the UNITED STATES OF AMERICA (hereinafter called the "Government"), represented by the Contracting Officer executing this agreement, and \_\_\_\_\_, (hereinafter called \_\_\_\_\_), " \_\_\_\_\_ " WITNESSETH THAT:

WHEREAS, construction of the \_\_\_\_\_ (hereinafter called the "Project") was authorized by (Name of Act), approved \_\_\_\_\_, (Public Law \_\_\_\_\_, \_\_\_\_\_ Congress \_\_\_\_\_; and

WHEREAS, the (State) hereby represents that it has the authority and capability to furnish the non-Federal cooperation required by the Federal legislation authorizing the Project and by other applicable law.

\* Insert "State", "County", or term as appropriate. Wherever the term "State" has been used in brackets, hereafter in this format, it is used for clarity, but the appropriate term must be inserted.

ER 405-1-12  
Change 21  
1 Nov 83

NOW, THEREFORE, the parties agree as follows:

1. The (local sponsor) agrees that, upon notification Government will commence construction of (identify the project) substantially in accordance with Federal legislation authorizing such project, (identify the statute and section thereof), the (local sponsor) shall, in consideration of the Government commencing construction of such project, fulfill the requirements of non-Federal cooperation specified in such legislation, to wit:

(set forth the conditions of non-Federal cooperation as set forth in project document, Public Law 91-646, and other pertinent statutes.\*)

2. \*\*The (local sponsor) hereby gives the Government a right to enter, at reasonable times and in a reasonable manner, upon land which it owns or controls, for access to the project for the purpose of inspection. If such inspection shows that the (local sponsor) for any reason is failing to (complete) (repair and maintain) the project in accordance with the assurances hereunder and has persisted in such failure after a reasonable notice in writing by the Government delivered to (name of official), the government shall have the further right, as stated above, to enter upon the land for the purpose of (completing) (operating) (repairing and maintaining) the project. (Completion) (Operation) (Repair and maintenance) by the Government in such event shall not operate to relieve the (local sponsor) of responsibility to meet its obligations as set forth in paragraph 1 of the Agreement, or to preclude the Government from pursuing any other remedy at law or equity.

\* In a multi-purpose project, it must be made clear that the assurances apply only to the purpose(s) to which this agreement is intended to apply and that the other required assurances will be the subject of separate contracts.

\*\* Include only if non-Federal interests have an obligation to complete, operate, repair or maintain. This paragraph can be adapted to meet those situations wherein there are both Federal and non-Federal interests having an obligation to complete, operate, repair or maintain portions of the project.

CERTIFICATE OF AUTHORITY

I, \_\_\_\_\_ (typed or printed name), do hereby certify  
 that I am the \_\_\_\_\_ (title) of \_\_\_\_\_ (local sponsor)  
 that the \_\_\_\_\_ (local sponsor) is a legal constituted  
 public body with full authority and capability to perform the terms of  
 the agreement between the United States of America and \_\_\_\_\_ (local sponsor)  
 in connection with \_\_\_\_\_ (name of project), and to pay damages,  
 if necessary, in the event of the failure to perform in accordance with  
 Section 221 of Public Law 91-611 and that the person(s) who have executed  
 the contract on behalf of \_\_\_\_\_ (local sponsors) have acted with  
 in their statutory authority.

In Witness Whereof, I have made and executed this Certificate this  
 \_\_\_\_\_ day of \_\_\_\_\_.

**CHANNEL RIGHT OF WAY EASEMENT**

*PERPETUAL*

This deed made this . . . . . day of . . . . . 19. . . . . between . . . . .  
. . . . . of . . . . . County, . . . . . party of the first  
part, and the United States of America, party of the second part, WITNESSETH:

WHEREAS, in the River and Harbor Act of Congress approved . . . . . , provision  
was made for the improvement of . . . . . in accordance with a project set  
forth in House Document (or Rivers and Hudson Committee Document) No. . . . . Congress,  
subject to the condition that local interests furnished free of cost to the United States all lands,  
easements, and rights-of-way needed for the improvement, and

WHEREAS, The party of the first part is the owner in fee simple of a tract of land situated in  
. . . . . County, State of . . . . . , more particularly described as follows:

**(Formal Description)**

AND WHEREAS, the said tract of land is needed in connection with the aforesaid improvement,  
NOW THEREFORE, In consideration of the sum of one dollar (\$1.00), the receipt of which is  
hereby acknowledged and the benefits to the party of the first part that will result from the proposed  
improvement of the . . . . . the party of the first part does hereby grant, bargain, sell, and  
convey unto the party of the second part, and its assigns, the perpetual and assignable right and ease-  
ment to enter upon, dig, or cut away and remove any or all of the hereinbefore described tract of land  
including the right to clear, cut, fell, remove and dispose of any and all timber, trees, underbrush,  
buildings, improvements and/or other obstructions therefrom, and to place on any portion not so cut  
away and removed, dredge or spoil material, earth and water carrying same and for such other pur-  
poses as may be required for the construction and maintenance of the aforesaid work of improvement  
or any enlargement thereof, and to maintain the portion cut away and removed as a part of the  
navigable waters of the United States. RESERVING HOWEVER, to the party of the first part,  
his/her heirs and assigns, all such rights and privileges in said tract of land as may be used and en-  
joyed without interfering with or abridging the rights and easements hereby conveyed to the party of  
the second part.

TO HAVE AND TO HOLD the said rights and easements unto the party of the second part, the  
United States of America, and its assigns, for the purposes aforesaid, forever. And the said party of  
the first part, for himself/herself and for his/her heirs and assigns, does hereby covenant with the  
party of the second part that he/she is lawfully seized in fee of the aforegranted premises; that the  
said premises are free from all encumbrances; that he/ she has good right to sell and convey the same  
as aforesaid; and that he/she will warrant and defend the title of the same to the said party of the se-  
cond part, and its assigns, against the lawful claims and demands of all persons.

IN WITNESS WHEREOF, the said . . . . . , party of the first part,  
has set hereto his/her hand and seal on the day and year above written.

Figure 12-3

## CHAPTER 13

Real Estate  
AUDIT

## SECTION I. GENERAL

13-1. Purpose. This chapter establishes the criteria and prescribes the procedures on real estate audit activities by the Corps of Engineers field elements in the United States, the Canal Zone, Puerto Rico and the Virgin Islands for Department of the Army-Civil Works projects, Department of the Army-Military, Department of the Air Force, Dartment of Engery, National Aeronautics and Space Administration and such other agencies of the Federal Government, states, political subdivisions thereof, private or quasi-Governmental organizations for which the Chief of Engineers is assigned or through agreements other arrangements undertakes, real estate acquisition and disposal programs.

13-2. Applicability. This chapter is applicable to all Division and District Engineers having responsibility for real estate.

13-3. General Procedures and Criteria.

a. Real estate audits will be accomplished on an audit-as-you-go-basis. As each tract is acquired, all actions pertaining to verification and authentication of the acquisition of said tract will be completed. As to real estate actions (such as relocations, extinguishing of outstanding rights, land interchanges, acquisition or subordination of third party interests, deficiency awards, disposal actions, etc.), the verification and recordation of such actions as prescribed in this pamphlet will be accomplished as each action is completed. In addition to maintaining the Acquisition Docket Sheet (Field) (ENG Form 1069), a work-copy of the Tract Register (ENG Form 1019) with entries which agree with information contained in the final acquisition instrument(s) should also be maintained. When verification of data is completed, the entry should be annotated to indicate that the tract data has been audited. Concurrently, graphic and statistical data appearing on the Preliminary Project Map (ENG Form 1456a) should be

ER 405-1-12  
16 Apr 76

revised. When this procedure has been applied to all authorized acquisition, the final tract register and the final map can be completed and readied without undue delay for submission to OCE as part of the audit assembly prescribed in section II of this Chapter. These procedures establish the basis for development of permanent realty historical files, compilation of historical records, retirement of residual data and construction of audit assemblies concurrently with completion of the individual actions.

b. Audit assemblies will be prepared by installations or projects and furnished for approval to HQDA (DAEN-REP-S) WASH DC 20314. The assemblies will include all lands acquired for an installation or project comprising the real property estates or interests covering fee, easements, public domain, other lesser interests such as licenses, permits (federal and private) and leaseholds. Military audit assemblies will be prepared and submitted for COE approval when, in accordance with the criteria set forth in the succeeding subparagraphs, the major portion of land for an installation has been acquired pursuant to authorizing directives. Once the major portion of an installation has been audited and approved, supplemental audit assemblies may be submitted in order of completion of directives without regard to chronological sequence of issuance. Also in this connection, when disposal has been accomplished on lands included in an incomplete acquisition directive, a preliminary audit assembly for that directive will be submitted together with a final map reflecting the disposal in order that disposal statistics may be properly shown against the related acquisition statistics. The preliminary assembly will be made "final" when complete information becomes available. Audit assemblies for civil works projects (including audits of real estate acquired for other Federal agencies) will be submitted for COE approval when all authorized acquisition for the project has been completed.

c. Assemblies will be prepared and submitted when the following actions have been accomplished.

(1) All deeds to the United States for lands acquired by purchase (or donation) have been delivered, deeds recorded and consideration paid, and final opinions have been rendered by the Division/District Engineer in compliance with the Delegation of Authority issued by the Assistant Attorney General; or, if applicable, title papers have been submitted to the Department of Justice for a final opinion by the Attorney General.

(2) Awards in condemnation cases have been made and all monies including deficiencies have been deposited and final judgment entered.

(3) Transfers are accomplished by publication of public land orders or Executive orders. In the case of rights-of-way over the public domain, the written acknowledgment is received from the Department of the Interior that a requested withdrawal has been noted on that department's records.

(4) A copy of memorandum or other communication from the Secretary of the transferring Department, or his delegate, to the Secretary of the receiving Department, or his delegate, has been received; or, when copy of formal transfer papers executed by the Secretary authorized to so transfer has been received. (The "formal transfer papers" is intended to mean transfer of jurisdiction, not accountability.)

(5) A copy of letter permit (use permit) from the permitting agency has been received whether at department level or below.

(6) A copy of the memorandum or other official directive authorizing reassignment is received. Care should be taken to distinguish between the authorizations which merely direct the use of areas at established installations (where the property accountability remains with the host installation) and a bona fide reassignment entailing the transfer of accountability to the command whose jurisdiction extends to the reassigned area. The establishment of U.S. Army Reserve Center facilities at existing installations is particularly susceptible to misinterpretation in this connection.

(7) Authorization is received in the case of transfers between Army-Military and Army-Civil Works. The term "reassigned" used in the authorization is construed as "transferred" for audit purposes.

(8) Leaseholds are acquired by negotiation or condemnation, or by transfer from another Federal agency.

(9) Easements have been reserved in the disposal of fee lands.

(10) Disposal of real estate is accomplished.

d. Installations will be designated in accordance with names assigned and established by General Orders, Directories and or other official publications. In the case of Army National Guard facilities, the geographic location should be shown first, i.e., Shopville Army National Guard Facility. Civil works projects will be designated in accordance with name indicated in the current Annual Report of the Chief of Engineers, Acts of Congress, or other official documents. Minor projects such as cut-offs, bank protection sites, channel rectifications, etc., will be identified with the local geographical name as well as with the name of the waterway affected. Designation of real property acquired for other Government agencies will be obtained from the project representative of the regional, zone, or other designated office of that agency.

\*

\*

e. Dams and lakes are readily identified as civil works projects. Project designations for audit purposes for extensive waterway improvements will be determined locally, being generally based

ER 405-1-12  
Change 2  
25 Apr 78

on definitive construction phases in the overall development program, or other logical determinations. Lands acquired for other civilian Government agencies, or quasi-Governmental organizations will be considered a project whether acquired in conjunction with existing facilities of such bodies or for the establishment of a new facility.

## SECTION II. AUDIT ASSEMBLY

13-4. Assembly Elements. The audit assembly will consist of the following elements:

- a. Tract Register, ENG Form 1019 (dupe).
- b. Ozalid print of Final Project Map.
- c. Resettlement Tract Register, ENG Form 2150 (if applicable), or statement that no relocation costs are involved.
- d. Copies of directives or acquisition authorizations issued at field level and other documents pertaining to licenses, permits, leases, etc., as described in Section X, this chapter, will be furnished to complete the realty records maintained in OCE.
- e. Summary Statement of the Status of Jurisdiction (in duplicate), if applicable. Negative statements may consist of only the word "negative." \* Where the status of jurisdiction cannot be readily ascertained from the summary statement, it is desirable to include a map depicting the Federal legislative jurisdiction with the statement. Additional instructions for \* the preparation of statements are contained in paragraph 13-35c.
- f. Completed ENG Form 1603, Realty Control File Summary (original and two copies). Submission of this element also applies to reaudit for supplemental acquisition and/or disposal. Examples of the form illustrating the manner of completion under various commonly occurring situations, together with general instructions, are included in Figures 13-1 through 13-10.

## SECTION III. TRACT REGISTER

13-5. Form and Source Data. A Tract Register (ENG Form 1019) will be prepared for each military real estate directive issued and each civil works acquisition authorization. In the case of civil works Department of the Army acquisition, the Act of Congress authorizing the project is considered the acquisition authorization. Acquisitions covered by each military directive will be combined when supplemental directives are issued authorizing additional funds; when tracts are included in two or more directives but combined

in a single declaration of taking; when a single tract involving severance as to the remainder of the tract is included in two or more directives, and the latter directives include the remainder of, or a portion of the remainder of, the "parent" tract, and both parcels are acquired in one transaction as a single tract. Acquisition on general directives (signed by the Director of Real Estate, Office of the Chief of Engineers) issued in connection with acquisition of additional tracts will be combined with the data for the related real estate directives. Appurtenant easement, licenses, and permits acquired under the authority delegated by COE will be reflected on the Tract Register enumerating the tracts for which the lesser interests were acquired. Acquisition Docket Sheet (Field), ENG Form 1069, will be the source document in the preparation of the Tract Register. Completed ENG Form(s) 1019 will be reduced by photographic reproduction to 8" X 12 1/2" (trim size) prior to submission to HQDA (DAEN-REP-S). WASH DC 20314.

13-6. Type. The Tract Register submitted will be checked "Final" only when the "Last Action Step Taken" column is complete as to all tracts.

13-7. Project and Purpose. The blocks captioned "Project" (official name) and "Purpose," which are self-explanatory, will be completed.

13-8. Directives or Authorizations. The blocks pertaining to directive and dates thereof will be completed as follows:

a. Military. Cite numbered or unnumbered specific directives and dates thereof, originating at all levels of authority including those written pursuant to the authority delegated in Chapter 2. For minor acquisitions accomplished pursuant to delegated authority for which no specific written directives exists, cite "Del. Auth." and the date of the instrument acquired thereunder. If more than one instrument, cite the date of the earliest instrument.

b. Army Civil Works--Department of the Army Acquisition. Enter the title and date of the Act of Congress authorizing the acquisition, the date(s) of approval of the design memoranda by the Chief of Engineers and the Division Engineer, if applicable under the provisions of Chapter 2, and the date(s) of indorsements(s) from the Assistant Secretary of the Army approving exchanges of land. Also report in this category, those lands acquired for local interests. In such cases, the authority for the acquisition will be the OCE letter and date thereof, transmitting an executed copy of the declaration

of taking to the District or Division Engineer for filing in the court.

c. Army Civil Works--Local Acquisition Projects--Later Conveyance to the U.S. Where lands are furnished by local interests for Civil works projects, enter the term "Del. Auth." and the date of the Division or District's letter to the local interest accepting the assurance. A copy of such letter should accompany the audit assembly in each instance. Include the title and date of the Act(s) of Congress authorizing the acquisition.

d. Army Military--Army Civil Works (Transfers). The directive for acquisition of lands by transfer between Army military and Army civil works is the memorandum or other formal paper signed by the Assistant Secretary of the Army approving the transfer from military account to civil account or vice versa. This document is also the excess authority for the transferor, and the date thereof should be cited as the effective date of the transfer unless another date is stated in the text. For audit purposes, Army military and Army civil works are treated as if separate agencies.

e. Military-Civil Works--Retention of Lesser Interests in Fee Disposals. The authorization for "acquisition" of lesser interests reserved in the disposal of fee lands for the same Department will be the document and date thereof declaring the fee land excess to the needs of the Department having control of the land or, in the absence thereof, the disposal document and date thereof conveying the fee land. The authorization for "acquisition" of lesser interests reserved in the disposal of fee lands for another Department will be the reply to the screening letter from the Department having control of the land or, in the absence thereof, the disposal document and date thereof conveying the fee land. General instructions pertaining to mapping of reserved easements, etc. are illustrated by Figures 3-2 and 3-2a, Chapter 3.

f. Court Action Instituted by Landowners. For lands or interest therein acquired as a result of court action instituted by landowners, cite the Act of Congress under which the claim is allowed and the acquisition completed as the directive and the date of judgment as the directive date.

13-9. Tract Numbering. Tracts will be numbered in accordance with procedure outlined in Chapter 3 except as provided in paragraph 13-13b below. In a Tract Register showing all real property acquisitions, tracts, alphabetically designated, covering lands acquired by transfer from other Government agencies or by reassignment from other installations or projects will be listed first. Leased tracts will be listed last.

13-10 Landowner's Name. The name of the vendor will be shown as the former owner of record. In instances where several persons have an

interest in the same land, the Tract Register will show the first person named in the deed of conveyance followed by "et al," "et ux," or "et vir," as applicable. In condemnation cases the name of the owner(s) of record will likewise be indicated. Where lands are reassigned from one installation or project to another within the same Department, show that Department as the vendor. The specific installation or project from which acquired will be noted in the "Remarks" Column. Lands acquired from other Government agencies will reflect the transferring department name and bureau, if known, as the landowner (vendor). Transferred leases are an exception to the foregoing in that the lessor's (landowners's) name will be shown. The landowner's name for reserved easements or other rights will be the name of the party to whom fee title was conveyed.

13-11. Acreage.

a. Determination and reporting of accurate tract areas in the acreage column is essential. Before reaching the final determination to list the required tract acreage, all source material such as surveys (if available), maps, and instruments of conveyance should be examined.

b. In computing and reporting public domain lands acquired by Executive Orders, public land orders, etc., care should be taken that only the Government-owned land acreage is reported. Perimeter descriptions of such transferred acres often include nonpublic (as well as Federally-owned) lands, the acreage of which should be deleted from the gross area described. When variations between the published acreages (Federal Register) and the actual acreages acquired occur, explanations should be made in the "Remarks" column.

13-12. Price.

a. The actual amount of money paid for a tract will be shown in the "Price" column. Option contract, deeds, or other instruments of conveyance, Attorney's Payment and Closing Sheets and related papers should be referred to in arriving at the proper cost of a tract. Allowance made involving deductions at the time of closing, wherein value of crops or salvage of buildings is withheld from original option contract price, should be taken into consideration in arriving at the net cost. Appropriate notes concerning such items will appear in the "Remarks" column opposite the tracts. In condemnation proceeding, where interest is included as part of the cost of a tract, the amount thereof should be noted in the "Remarks" column opposite the tract. If exact costs of fee and lesser interest areas acquired by a single option, declaration of taking, etc., are not stated in the acquisition instrument, estimated costs based on best available information will be shown in the "Price" column.

ER 405-1-12

16 Apr 76

b. Tracts for which nominal consideration is set forth and no payment is made, will show the word "nominal" in the "Price" column. If payment is made, the amount actually disbursed will be shown.

c. The per annum rental for leased tracts will be shown in the "Price" column.

d. The cost of tracts acquired by the United States with funds furnished by other Government agencies, states, or other political subdivisions will be recorded in the "Remarks" column only, opposite the appropriate tracts. The cost, if determinable, of transferred tracts or areas will be treated likewise unless the transferring agency is reimbursed, in which case normal procedure will be followed. In connection with involuntary acquisitions, where the judgment provides for payment of interest in addition to the amount of the award, the amount of interest will be obtained by the District offices by direct correspondence with the Director, Transportation and Claims Division, U.S. General Accounting Office, Washington, DC 20548.

e. The original cost of tracts or areas acquired by reassignment will be shown in the "Price" column and explained in the "Remarks" that price represents cost of the land when acquired for the reassigning installation.

f. No cost will be shown for lands acquired by an exchange unless in addition to the lands conveyed, the Government pays a sum of money. This amount will then be shown in the "Price" column, and the tract conveyed identified in the "Remarks" column. Where portions of tracts are conveyed, the proportionate original costs of the severed tracts will be tabulated and identified in the "Remarks" column opposite the acquired tract(s). Exception: Where lands aquired in an exchange are for another project, show the cost in the "Price" column, the amount being the cost of the lands conveyed in the exchange.

g. The cost of extinguishing third-party interests will be shown in the price column and explained in the remarks.

#### 13-13. Estate.

a. The applicable symbol indicated in footnote 1/ of the tract Register (ENG Form 1019) will be used to denote the estate acquired. Where the estate may not be specifically mentioned in the amended judgment on tracts acquired by court action, the final judgment should be carefully examined to determine the title, interest or temporary use decreed by the court. Provisions of the use specified in the decree may indicate the estate to be lease, or merely refer to it as

"for damages only." In either instance, the "estate" will be considered a "leasehold" and be so recorded with brief notation on the nature of the action shown in the "Remarks" column. In those cases where title is revested in former owners (as of the date of taking) and no damages are awarded or payment, made, the tracts(s) and landowner(s) will be identified in the usual manner but all other columns left blank except that the circumstances concerning the revestment will be set out briefly in the "Remarks" column.

b. The actual estate acquired will be shown in the "Estate" column for lands acquired by permanent transfer from other Federal Government departments or agencies, reassigned from one installation to another within the same department, or transferred from military to civil account or vice versa within the Department of the Army. Where mixed interests are acquired, all fee interests included in the reassignment or transfer will be consolidated and assigned a single alphabetical designation. Each easement tract will be considered a parcel and assigned an alphabetical designation with a numeric suffix. Licenses, permits (not use permits) and other lesser interests will be treated in the same manner. For example, should a transfer include several fee tracts, and more than one easement, license and permit, the fee tracts should be considered one tract and designated as Tract A; the easement tracts would be designated BE-1, BE-2, BE-3, etc.; the license tracts would be designated CL-1, CL-2, CL-3, etc.; and the permit tracts would be designated DP-1, DP-2, etc. Single alphabetical tract designations (preferably the same as assigned when acquired for the transferring installation) will be assigned to lands acquired by use permit and withdrawal and later reassigned or transferred to another installation. If the original tract identification cannot be used (because the letter has been previously assigned to another tract at the installation) the "Remarks" column will identify the designation by which the tract was formerly known. "F" would be shown in the "Estate" column for the fee tracts, "E" for the easement tracts, "PE" for the permit tracts, and "LI" for the license tracts. The "Method" column for all tracts would show "T", and the remarks for each easement, license, and permit tract would reflect the date of transfer and describe the purpose for which the tract was originally acquired, the original tract number and the term of the easement, permit, or license. The landowner's name for lesser interest tracts would be the transferring agency with parenthetical reference to the owner of the fee (such as "Department of the Army (Fred L. Jones)"). The above is not applicable to transferred leased tracts which will be numbered in accordance with Chapter 3. Statistics for transferred leased tracts will not be combined. The estate will be shown as "Leasehold" and the method as "T".

c. Transfer of a portion of the public domain by Executive Orders, public land orders, use permits, agreements, etc., whether permanent or temporary, will be indicated by the use of the symbols "PD" in the

ER 405-1-12

16 Apr 76

"Estate" column of the Tract Register (ENG Form 1019). On the final map, such lands will be shown in the "Transferred" column of the Tract Register and in the appropriate line of the "Acquisition" block of the "Statistical" column. No estate will be shown for the temporary use of Government lands by use permit not involving the public domain. However, such lands will be shown in the line indicated in the "Statistical" column of the Final Project Map.

d. When the public domain land, over which a right-of-way has been noted on the public land records, is patented reserving an easement, there will be no disposal of public domain, but the necessary changes in landowners name, estate, method, last action step taken, and remarks will be made to the original tract. Renumbering of the tract will not be required as reference to the original acquisition by notation will be included under "Remarks."

e. In the past, it has been the policy not to show permits between the Department of the Army and the Department of the Air Force as acquisition. However, in order that the full scope of an installation may be correctly depicted, all use permits involving land from any Federal agency will be treated as an acquisition for the receiving agency and so reported and mapped. Although the area will be shown as an acquisition for the permitted agency, it will not be shown as a disposal for the permitter agency.

f. Acquisitions concerning nonexclusive use will be in accordance with instructions prescribed in Chapters 3 and 12.

g. Agreements (including easements, licenses, and permits), which have recurring renewals or recurring rental will be listed as leases (Section \_\_\_\_\_, Chapter 12.

13-14. Method. The applicable symbols indicated in footnote 2 / of the Tract Register (ENG Form 1019) will be used to indicate the method by which lands were acquired. In this connection, for donations, tracts acquired for nominal consideration and not actually paid will be designated by "D" for donation; if payment was made, such tracts will be designated by "P" for purchase; or, in the event of \$1.00 deposit in court, they will be shown by "D/T" for declaration of taking. The symbol "T" is to be used to designate all rights, temporary or otherwise, transferring from other Federal agencies, civil works projects or military installations. The symbol "RES" is to be used to designate easements and other rights reserved in disposals of fee. In connection with tracts acquired as a result of court action instituted by landowners, enter an asterisk in the "Method" column reference to the directive citation and explain the circumstances of the acquisition, including the source of the funds, in the "Remarks" column.

13-15. Last Action Step Taken.

a. For tracts acquired from other Federal agencies, military installations or civil works projects, indicate (whether by use permit, public land order, Executive order, or other form of agreement) the number involved and date of action.

b. For fee tracts acquired by direct purchase and condemnation, indicate the final title opinion by: "Final Opinion dated\_\_\_\_\_."

c. For lesser interests acquired by direct purchase and condemnation, indicate the final title opinion by: "Final Opinion dated\_\_\_\_\_."

d. For all lesser interests and those low-cost easement tracts acquired prior to June 1944 by direct purchase, indicate the type of instrument and date thereof.

e. For low-cost easement tracts acquired subsequent to June 1944, indicate: "Low Cost Easement Title Opinion dated \_\_\_\_\_." "Attorney's Memorandum Opinion dated \_\_\_\_\_" "Attorney's Final Certificate of Title dated \_\_\_\_\_" or "Final Certificate of Title," whichever is applicable.

f. For easements reserved in disposal actions, cite the deed and date thereof.

\* g. It is recognized that when an installation or project is eligible for audit completion as prescribed in paragraph 13-3c above, certain "Last Action Steps" will not have been accomplished. Particularly, tracts in condemnation may be awaiting final title opinions by the Attorney General. The dates of final title opinions not available at the time of the audit completion will be furnished as supplemental information as it becomes available and will so continue to be furnished until all "Last Action Steps" for all tracts have been accounted for. At that time, the Tract Register (ENG Form 1019) will be marked "Final." \*

13-16. Remarks. Indicate in this column:

a. Any clarifying information or other explanations deemed significant.

b. Terms of easements, leases and lesser interests.

c. Descriptive items, such as types of easements, licenses, etc.

d. Brief statement, opposite each fee or permanent easement tract, indicating specific type(s) of outstanding right(s), if acquired subject

ER 405-1-12

Change 2

25 Apr 78

thereto. This applies to permanently-transferred areas except those involving the public domain.

e. Notations as to amounts of interests, refunds, or deficiencies in excess of initial deposits.

f. Citation of civil action numbers opposite tracts, when applicable.

g. For fee tracts, date of deed, date of filing of Declaration of Taking, and for tracts taken by straight condemnation, date of final judgment.

h. For reserved easements: " (type) \_\_\_\_\_ easement reserved over entire area of (tracts(s)), " or (type) \_\_\_\_\_ easement reserved over (number) acres of (tract) \_\_\_\_\_ and (number) \_\_\_\_\_ acres of (tract), " etc. Similar cross-reference remarks may be shown opposite the fee tracts.

13-17. Total. At the end of the individual listing of tracts on the Tract Register (ENG Form 1019) for each military real estate directive and civil works authorization, totals will be shown for tract, acreages and price. Rental payments (leases) will be excluded from the price total. Do not include in the tract count those tracts where title is revested in former owners as of the date of taking and no damages are awarded or payments made. For civil works projects involving more than one county, a recapitulation of the statistics for each county will be made, and the grand total will be shown for tracts, acreages and price (other than rentals) in the space provided.

\*

#### SECTION IV. RESETTLEMENT TRACT REGISTER

13-18. Resettlement Act, 10 U.S.C. 2680. When applicable, a Resettlement Tract Register, ENG Form 2150, will be prepared for each directive or authorization issued. Where two or more directives have been combined, pursuant to circumstances as outlined in Section III, this chapter, the Resettlement Tract Register will be submitted on the same basis as ENG Form 1019. The data required by this form are indicated by the self-explanatory captions of the various blocks and columns.

Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970 (Public Law 91-646). Payments to landowners and tenants pursuant to Title II, Public Law 91-646 will be recorded on ENG Form 2150, Resettlement Tract Register. Such payments may be recorded on the same ENG Form 2150 as is used for Resettlement Act payments but will be identified as payments under Public Law 91-646 by asterisk with footnote at the end of the register. Where tract entries contain both owner and tenant or tenant only, identification will be made by (O) or (T) after the name, as appropriate. Dollar amounts paid to individual claimants will be combined into one sum regardless of the type or purpose of payments.

\*

ER 405-1-12

Change 2

25 Apr 78

SECTION V. OUTSTANDING RIGHTS

13-19. Recording of Outstanding Rights. Examination should be made to determine whether individual fee or permanent easement tracts were taken subject to any outstanding rights. If so, such facts should be briefly noted in the "Remarks" column on the Tract Register (ENG Form 1019) opposite each tract affected. To eliminate repetition where numerous tracts within an installation or project are subject to the same outstanding

13-12a

ER 405-1-12  
16 Apr 76

right or rights, the outstanding rights may be listed at the end of the Tract Register (ENG Form 1019) keyed to a symbol such as 1/L, 2/L, etc., which symbol would also be entered in the "Remarks" Column opposite each tract subject to that particular outstanding right.

13-20. Recording of Extinguishment of Outstanding Right. Where tracts acquired subject to outstanding rights that are later extinguished pursuant to the terms of a relocation contract, note such action by a brief explanation in the "Remarks" column of the Tract Register, ENG Form 1019. For example, should a power line easement that traverses a tract (or several tracts) be extinguished by a quitclaim deed from the power company, merely note: "Power line easement ext. by QCD dated \_\_\_\_." Extinguishments involving the use of real estate funds should also be noted in the aforesaid "Remarks" Column with the additional information that the cost of the tract includes the amount of the cost of the extinguishment. In instances where extinguished easement or right traversed several tracts and the cost cannot be determined on a tract basis, the lump-sum cost for all tracts should be placed in the "Price" column of the Tract Register, ENG Form 1019 (as one of the last items), and statement inserted in the "Remarks" column enumerating the tracts involved. Where mineral rights have been subordinated or extinguished, instruments relating thereto will be identified and the recordation data included in the statement.

#### SECTION VI. RELOCATIONS

13-21. Review of Conveyances. A careful review of conveyances by the Government to others should be made for the purpose of determining that the interest conveyed is the same as the interest acquired. That is, that an easement conveyed pursuant to a relocation contract was the sole interest acquired over that same land. An easement conveyed for purposes of relocation over lands acquired in fee is merely an outgrant, not a true disposal.

13-22. Acquisition for Later Conveyance. The acquisition of lands or interests therein by the United States, although for the purpose of later conveyance, will be reported, mapped, and otherwise treated as an orthodox acquisition.

#### SECTION VII. MERGER OF ESTATES

13-23. Merger of Easements in Fee Taking. Where subsequent directives are issued authorizing this greater taking of tracts in which lesser interest were previously taken, the directives relating to the same tracts

ER 405-1-12

16 Apr 76

should be combined and all adjustments made on the tract register reflecting the greater interest when prepared for audit purposes. Should this type of action occur subsequent to the approval of the earlier acquisition, the tract register for that acquisition will be revised to include the later taking. The Realty Control File Summary (ENG Form 1603) and first sheet of the final project map will likewise be adjusted to reflect the net lesser taking, if any, finally acquired. The tract register on the final map will be adjusted by the deletion of the lesser taking acreage where the entire tract was merged in the greater taking or the reduction of the lesser taking tract area by that much of the acreage merged into the greater interest. A brief explanation will be entered in the "Remarks" column of the map tract register as well as on the revised ENG Form 1019. Care should be taken that the cost of the lesser taking is included with the cost of the greater interest tract and explained on that Tract Register, ENG Form 1019.

13-24. Merger of Leasehold Interests Into Greater Estate. Where leasehold interests merge into a greater estate, the annual rental is not to be included in the cost of the greater taking except where lands are leased with the option to purchase and the contract provides for rental to be applied to purchase price when option is exercised.

#### SECTION VIII. RETENTION OF LANDS AT FORMER AIR FORCE FACILITIES

13-25. Background. The Department of the Air Force was established as a separate Department in 1947. Subsequently, Joint Army and Air Force Bulletin No. 17 dated 4 June 1948 was issued. This bulletin, resulting from the Secretary of Defense's Transfer Order 14, transferred, effective 1 July 1948, from the Department of the Army to the Department of the Air Force, all real property (except industrial real property previously transferred) used by the Air Force. By this action all active (and inactive) installations designated Air Force property were so declared and the realty records of such in the District and Division Engineer offices as well as those in the Office of the Chief of Engineers were automatically considered Air Force records. At the same time, all surplus Air Force installations (whether completely disposed of or in the process of disposal) were also considered Air Force property, and jurisdiction, where any existed, was also transferred as of the effective date of the Transfer Order 14, namely, 1 July 1948. The withdrawal from the disposal agency (then War Assets Administration) by the Air Force of all or a portion of an installation was treated as though it had never been surplus but was transferred along with the other active or inactive installations.

13-26. Audit Requirement. A withdrawal of a portion of a former Air Corps installation (declared surplus prior to 1 July 1948 and withdrawn prior to 1 July 1948) for Army use was considered a reassignment within

ER 405-1-12

Change 2

25 Apr 78

\* the Department of the Army effective as of 1 July 1948. The retention of a portion of a former Army Air Corps installation for Army use has a similar effect. In either instance, the withdrawal or retention has the effect of establishing a new Army installation, and if the interest retained (or \* withdrawn) is an auditable one, a separate Army audit assembly is required.

## SECTION IX. REACQUISITION

13-27. Background. Many installations have been disposed of and subsequently reacquired in whole or in part. In some instances, the Government has exercised rights of repossession included in provisions contained in disposal deeds. In other instances, the property was reacquired even though the disposal documents did not provide for repossession by the Government. Occasionally, the reacquisition was by the retransfer of title to the Government. Frequently, leasehold or other agreements were entered into which allowed the Government the reuse of the property.

\* 13-28. Audit Requirement. Where an auditable installation has been disposed of and reacquired by any method, a supplement to the original audit, or a completely new audit, is required. The use made of the reacquired areas will be the controlling factor in deciding whether to reaudit or submit a new audit. If reacquired for the same purpose as the original acquisition and for use by the same Department, a reaudit \* will be submitted. If the area is reacquired, and used for purposes other than that for which originally acquired, or by another department, a new audit will be submitted. The assembly will include as many of the audit elements as may be necessary. A reacquisition, whether in the form of a reaudit or new audit, will require the submission of all audit elements. In most instances, the original existing map may be utilized to form the basis of the map reflecting the recaptured or reacquired area. Upon submission and approval of the assembly reflecting the reacquisition, the original map should be marked: "See subsequent map No. \_\_\_\_\_ dated \_\_\_\_\_ showing (recapture or reacquisition)." and retained in the map exhibit of the audited realty historical file. The revision box of the new map should indicate that it was prepared to show reacquisition of the installation and refer to the original map by date and number for information on original tract data. The audited installation number originally assigned will apply, unless a new audit is established, in which case a new audit number will be assigned. In those instances where portions of installations have been disposed of and reacquired, the reacquisition should be audited in the same manner as any supplemental acquisition.

ER 405-1-12

16 Apr 76

## SECTION X. OTHER MATERIAL TO BE FURNISHED

13-29. Lesser Interest Instruments. Copies (one each) of licenses, permits, franchises, etc., together with copies of use permits and other forms of agreements except leases acquired at field level are required for the realty historical file maintained in the Office of the Chief of Engineers and should accompany the audit assembly when submitted.

13-30. Directives and Authorizations. Copies of leasing directives for wholly-leased installations and copies of directives or acquisition authorizations issued at field level and not previously furnished should accompany the audit assembly. Copies of superseding instruments should be furnished HQDA (DAEN-REP-S) WASH DC 20314 as acquired, together with updated audit elements.

## SECTION XI. OFF-BASE AIR FORCE INSTALLATIONS

13-31. Special Instructions. Along with major Air Force installations listed in U.S. Air Force Installations Directory are many off-base facilities which have been designated "Installations." Separate audits are not required for these operational facilities where overlapping of real estate interests or other considerations make such action infeasible. Generally, such facilities as marker sites, beacon sites, radar and radio annexes will be audited with the parent base. Such facilities when so audited will be listed in the "Title" block of the final project map under the parent base name, using small scale lettering. Inserts drawn to larger scale and properly identified will be used to indicate detail when necessary. If the parent base is drawn to scale, adequately showing detail, the facility name will be indicated opposite the appropriate tracts on the tract register. However, if a facility contiguous to or abutting a parent base is under the jurisdiction of a different command from the main base, it will be audited as a separate installation. Rent-free leased building space provided by General Services Administration and occupied by Air Force elements, although designated installations in a Directory, will not be audited.

13-32. Off-Base Facilities Previously Audited. Off-base facilities heretofore audited and approved as separate installations need not conform to the above instructions. However, district offices are authorized to combine previously audited off-base facilities with the main base where expansion of land holdings cause overlapping of interests or, if for other reasons determined advisable. Cancellations of previously assigned audit numbers should be reported to HQDA (DAEN-REP-S) WASH DC 20314 and revised audit elements submitted for approval to assure uniformity of land records.

## SECTION XII. REALTY HISTORICAL FILE

13-33. Establishment. Upon approval of an audit assembly, permanent realty historical file folder(s) will be established in the office of

- \* record and all papers, maps, documents, and related items will be identified by the assigned audit number. It will not be necessary to affix the audit number to every sheet of multiple page documents, except for maps and ENG Form 1603. \*

13-34. Realty Control File Summary. The contents of the file folder(s) will be separated into exhibits by dividers designated alphabetically A thru F. The exact number of divisions or exhibits will depend upon the scope in each case. The contents of the entire record will be indexed and the statistics and data summarized on the Realty Control File Summary (ENG Form 1603). The captions of the various blocks and boxes above "Land Ownership and Cost Data" indicate the type of information to be inserted therein (Figures 13-11 and 13-11a). Other information concerning the ENG Form 1603 is as follows:

a. The first block under the heading "Land Ownership and Cost Data" will contain the gross acreage acquired, broken down by the various estates in tabular form, and totaled under the subheading "Area." The applicable modified Department of Defense land Category code numbers, (Figures 13-11a) will be inserted opposite the statistics for each separate estate, under the subheading "DOD" Category Code." The gross cost of each estate will be tabulated opposite the "Area" and "Code" entry to which applicable, and totaled. Except for Air Force, codes will not be entered on ENG Forms 1603 covering lands acquired for other Federal agencies.

b. The second block will contain the disposal data similar to that outlined above. In some cases, a discrepancy exists between an acreage as acquired (and/or the cost thereof) and that cited in a report of excess on Standard Form 118 for the same area. If the discrepancy is not of sufficient magnitude to have warranted the submission of a corrected report of excess, a statement should be signed by a responsible Real Estate officer. This statement should affirm that the disposal of area is substantially the same as acquired (or explain the differences in calculating the cost) and should accompany the audit assembly.

c. Third block will be completed by deducting the area and costs shown in block 2 from the area and costs in block 1. The "Net" area should again be reflected in tabular form identified with the applicable modified DOD Land Category Code.

d. The "Remarks" section of the form will be used for notes pertinent to acquisition and disposal actions such as from whom transferred land was acquired and the disposal notations outlined in Chapter 3.

13-35. Exhibits in the Realty Historical File.

a. Acquisition Documents, Exhibit A. A tab or labeled sheet marked "Exhibit A" will be inserted in the folder as the second item,

ER 405-1-12

16 Apr 76

and there will be filed thereunder copies of acquisition papers and instruments of permanent value. Such papers are:

(1) Real Estate directives establishing military necessity and authorizing acquisition; Acts of Congress authorizing specific acquisitions; OCE authorizations to proceed with civil works acquisitions; agreements with local bodies relating to local cooperation in civil works projects and assurances relating thereto; and other authorizations or directives which form the basis for acquisition.

(2) Final Acquisition Progress Report, ENG Form 2440, RCS DAEN-RE-1(R2).

(3) Tract Register (ENG Form 1019) and, where applicable, Resettlement Tract Register (ENG Form 2150).

(4) Reference sheet for civil works projects stating where the definite project report or general design memorandum may be found upon retirement, and the citation of Act(s) under which the acquisition was financed.

(5) Real Estate planning Report (Real Estate Design Memo), or in lieu thereof, a reference sheet indicating where such a report is maintained in the office of record.

(6) Executive orders, public land orders, Presidential proclamations, and use permits relating to the acquisition of land from other Government agencies.

(7) Deeds of fee and easements (all types), declarations of taking with judgments thereon and any amendments thereto; deficiency judgments on excess awards; final judgments; orders of distribution; final title opinions; Department of the Army Attorney's certificate of title, final certificates of title obtained from commercial title companies, and other documents of conveyance to the United States, including all lesser interests except leases.

(8) These papers will be arranged by groups commencing with the earliest directive or authorization followed by the ENG Form 2440 and ENG Form 1019 pertaining thereto. For civil works projects, the consolidated ENG Form 2440 will be filed as the first item in the Exhibit. Directly beneath the ENG Form 1019 will be filed the papers and instruments relating to the individual tracts in the same order as they are listed on the ENG Form 1019. In condemnation cases, it is authorized to file suit files intact in separate volumes, with locator reference sheets inserted in Exhibit A in lieu of acquisition documents. The groups will be arranged so that the group pertaining to the earliest "area" acquisition will be at the bottom of the exhibit and latest at

the top. Upon reacquisition of a disposed of installation, the papers relating to the reacquisition will be filed as above, under a new acquisition exhibit to be designated "Exhibit A-1." This exhibit, relating to the latest acquisition, will be filed on top of Exhibit A.

b. Disposal Documents, Exhibit B. The makeup of Exhibit B will also be on a chronological basis, filed from bottom to top, by authorization, and all papers concerning a given disposal action will be grouped beginning with the earliest disposal authorization and continuing until that specific disposal has been consummated. That is, a second disposal authorization even though issued prior to the consummation of the disposal action under the first authorization, will be the nucleus for a succeeding segment of the disposal exhibit and all papers pertaining thereto will be grouped together chronologically culminating with the last action document, such as quitclaim deeds or transfer papers. Disposal records of a permanent nature are set forth below:

(1) Real property Disposal Report, ENG Form O-836, as furnished by OCE, representing final status.

(2) Classification papers such as directives, general orders, etc., placing an installation in inactive, or surplus (excess) status.

(3) Orders of reassignment, letters of relinquishment, together with letters of intent to relinquish and/or letters of retransfer, letters of transfer, revoking public land orders, SF 118 or equivalent, transfer documents of custody and accountability assumption by disposal agency.

(4) Letters of assignment by General Services Administration to other agencies for disposal; copies of Transfer and Acceptance of Military Real Property, DD Form 1354; copies of quitclaim deeds, grants, or other instruments of conveyance.

(5) Upon completion of all disposal actions for an installation or project, OCE will furnish the office of record a copy of the final ENG Form O-836 itemizing the disposal actions for that installation or project. This report will be filed immediately under the tab or labeled sheet marked "Exhibit B." Upon the disposal of a required installation, a newly established Exhibit B-1 will contain all papers (as above) relating thereto.

c. Jurisdiction, Exhibit C. Under this exhibit will be filed copies of all papers relating to the extent of Federal jurisdiction over the lands acquired by the United States for military purposes or for civil works purposes within the several states. This will include

ER 405-1-12  
16 Apr 76

such documents as deeds of cession, letters of notice to the state of acceptance of jurisdiction by the United States, approved annexation documents, retrocession documents, and related papers. Offices of record will prepare and submit to HQDA (DAEN-REP-S) WASH DC 20314 a current Summary Statement of the Status of Jurisdiction as part of the audit assembly. The summary will be in the style of those previously furnished by this headquarters except that negative statements need consist of simply the word "negative." Where jurisdiction to any extent has been ceded to the United States, cite the general or specific state statute rather than codified identification. In connections with the acquisitions of transferred fee lands, where jurisdictional information cannot be obtained locally from the transferring agency, OCE should be advised prior to submission of the audit in order that such information may be obtained at department level. In order that the summary may be kept current, in cases where Federal jurisdiction has been acquired for an installation, the jurisdiction summary should be revised after each acquisition or disposal action. The revised summary should be submitted concurrently with the revised audit assembly.

d. Relocation, Exhibit D. This exhibit will contain copies of all papers of a permanent value relating to relocation such as utilities relocation contracts or agreements (quitclaim deed (s) related thereto), road relocation closing or vacation documents, and cemetery relocation final reports. They will be filed in an orderly fashion, chronologically segregated.

e. Miscellaneous, Exhibit E. This exhibit will contain extract sheets relating to all claims arising out of the use and occupancy of real property showing the name of claimant, officer's recommendation, regulations under which processed, and final disposition. There will also be included in this exhibit a copy of any unusual or clarifying papers or documents which do not clearly belong under any of the preceding exhibits.

f. Final Project Map, Exhibit F. Under this exhibit there should be included a folded print of the audit-approved final Project Map. If bulk makes this impracticable, the prints may be kept in a flat file separate from the realty historical file with a reference sheet inserted under this exhibit indicating where prints are located. At the discretion of the District or Division Engineer, ENG Forms 3861 with microfilm attached may be substituted for the folded print of the approved final Project Map.

13-36. Deviation Authority. Authority is granted to the District or Division Engineer to deviate from strict adherence to the filing system outlined above if, in his judgment, the substituted procedure materially simplifies record maintenance and/or facilities locating the desired items. This applies to rearrangement of items within the separate exhibits and does not authorize acquisition papers (Exhibit A), for example, to be filed in another exhibit.

ER 405-1-12  
16 Apr 76

13-37. Division Office Historical Files. A skeleton realty historical file may be maintained in the division offices where the responsibility for real estate has been decentralized to district offices. This file will be limited to copies of documents listed below:

- a. Realty Control File Summary, ENG Form 1603.
- b. Copy of documents listed in subparagraphs 13-35a(1), (2), (3), (6), b (1), c and f above.

13-38. Disposition of Real Estate Files. Disposition of real estate files will be in accordance with AR 340-18-15.

#### SECTION XIII. DREDGING, EROSION, AND ACCRETION

13-39. Method of Treatment--Dredged and Eroded Areas. Land dredged away will not be treated as a disposal. Land lost due to erosion will not be treated as a disposal unless adjacent fast lands are disposed of by normal methods. In such circumstances:

- a. The eroded acreage, even though omitted from the disposal document, will be considered as having been included therein.
- b. If the adjacent fast land is transferred between military departments or to a civil works project, the total area, including the eroded portion, will be considered as having been acquired by the receiving installation. The ENG Form 1019 and ENG Form 1603 will explain that a certain portion of the area involves eroded lands.

13-40. Method of Treatment--Accreted Areas. Accreted areas will be treated as acquisitions. However, audited records will not be revised to reflect this type of "acquisition" until circumstances arise that necessitate a revision of the records for other purposes. The accreted area will be considered part of the tract to which it attaches.

#### SECTION XIV. WHERRY HOUSING PROJECTS

13-41. On-Base Acquisitions. Upon completion of directives authorizing the acquisition of sponsor's equity in Wherry Housing projects built on Government-owned land (on base), the documents relating thereto, together with the final ENG Form 2440, prepared in accordance with Chapter 14, will be made a part of the permanent historical record (realty historical file) as a segment of the acquisition Exhibit A and filed in the manner prescribed in paragraph 13-35a above.

13-42. Off-Base Acquisitions. Upon completion of directives authorizing the acquisition of the sponsor's equity in Wherry Housing projects

ER 405-1-12  
16 Apr 76

together with the underlying land, audit assemblies will be prepared and submitted in accordance with procedures outlined in this chapter. Since the cost of land is generally inseparable from the gross sum paid the former sponsor, the price column will remain blank, and the gross cost (to acquire the land and the sponsor's equity in the building(s)) will be reflected in the "Remarks" column of the ENG Form 1019.

13-43. Directives. The authorization for the acquisition of Air Force Wherry Housing, both off-base and on-base, is contained in applicable memorandum to the Under Secretary of the Air Force from the Assistant Secretary of Defense specifically authorizing acquisition in each instance. OCE will furnish District offices copies of these directives together with acquisition documents and related papers. Issuance and distribution of Army directives will follow established procedure.

#### SECTION XV. ACCOUNTABILITY

13-44. Accountability Document--Prior to Audit Approval. ER 735-2-1 prescribes Acquisition Docket Sheet (Field), ENG Form 1069, as the accountability document for civil works lands prior to approval of real estate audits by Office of the Chief of Engineers.

13-45. Accountability Document--Subsequent to Audit Approval. ER 735-2-1 prescribes Tract Register, ENG Form 1019, as the accountability document for civil works lands subsequent to the approval of real estate audits by Office of the Chief of Engineers.

#### SECTION XVI. PROCEDURAL INQUIRIES

13-46. To Office of the Chief of Engineers. Due to the varied and numerous transactions, as well as legal and regulatory complexities, inherent in land acquisition and disposal programs, circumstances not specifically covered in this chapter may be encountered in the real estate audit process. Such specific or unusual circumstances, problems, or inquiries should be referred through the Division Engineer for determination and supplemental instructions by HQDA (DAEN-REP-S) WASH DC 20314.

13-47. To Office of the Division Engineer. Inquiries or problems relating to priority, timing, local procedures, and implementation of land audit activities should be referred to the Division Engineer for guidance, recommendations, or interpretation. Where the Division Engineer determines that the inquiry falls within the categories referred to in paragraph 13-46 above, the matter will be referred for resolution as indicated therein.

Figure 13-10

General Instructions and Modified DOD Category Code  
(ENG Form 1603)

1. Date of (Re)Audit. Enter date the file was audited or revised due to supplemental acquisition or disposal.
2. Audit No. Enter the audit number previously assigned by OCE or a number assigned in accordance with paragraph 3-53, Chapter 3.
3. Reservation Name. Fill in name of installation or project.
4. Location. Insert state(s) name(s) first, in upper case, followed by county (parish or judicial division where applicable) and vicinity location. Examples:
  - a. MICHIGAN. In Wayne County, in the City of Detroit.
  - b. ALASKA. In the Fourth Judicial Division, 50 miles SE of Big Delta.
  - c. LOUISIANA. In Rapides Parish, 10.5 miles SW of Alexandria.
  - d. INDIANA AND ILLINOIS. In Vigo County, Indiana, and Clark County, Illinois, 13.5 miles SW of Terre Haute, Indiana.
5. District. Fill in the name of current district having real estate responsibility. It is not necessary to repeat the word "District."
6. Division. Fill in the name of division. It is not necessary to repeat the word "Division."
7. Officially Designated By.
  - a. Military. Cite the general or special order officially naming the installation. Use the order, by date, citing current designation. If no general or special order designates current installation name, leave space blank. Abbreviations should be used due to space limitations, such as:
    - (1) Department of the Army: DA G.O. #10 dated 2 March 1961.
    - (2) Department of the Air Force:
      - (a) Headquarters, United States Air Force: DAF G.O. #10 dated 10 January 1962.
      - (b) Strategic Air Command: SAC S.O. #G-27 dated 12 March 1962.
      - (c) Alaskan Air Command: AAC S.O. #G-22 dated 19 April 1962.

ER 405-1-12  
16 Apr 76

b. Civil. Cite the Act of Congress naming the entire project. Otherwise, leave space blank.

8. Type. An "X" will be placed in the appropriate block provided to designate the using agency (not using service).

9. Purpose.

a. Military. Insert a brief description of the general use of the installation, such as Cemetery, Recreation Center, Army Reserve Center, SAC Base, Depot, Aircraft Plant, Air Force Station, Training Site, etc. Do not attempt to show all the purposes carried on a series of Tract Registers, ENG Forms 1019.

b. Civil. In most instances, the purpose will be either Flood Control or Rivers and Harbors. However, there may be other purposes, such as Office, Casting Plant, etc.

c. Other. Use insertion similar to military above.

10. "Exhibit" Blocks. Enter "Exhibit F" in the "Map" block. All other exhibit blocks (Jurisdiction, Relocations, and Miscellaneous) will be completed, if applicable.

11. Land Ownership and Cost Data.

a. When there are no disposals, do not fill in the "Net" block.

b. Although reassignments are not true disposals, the area, estate, and cost will be shown in the "Exhibit B" block, with an explanation under "Remarks."

c. Modified DOD Category Code. The code should be shown for Army, Civil Works, and Air Force installations only. Do not enter codes for installations acquired for other Federal agencies. However, the footnotes 1/, 2/, and 3/ may be applicable to all installations.

CODE

ESTATE

911 Fee by purchase, condemnation, donation, reassignment or transfer. (Footnotes 1/ and 3/ following.)

912 Public Domain withdrawn by public land order, Act of Congress, or Executive Order, or by notation on the Public Land Records under provisions of 44 LD 513. (Footnotes 2/ and 3/ following.)

913a Public Domain by use permit from the Department of the Interior or other Federal government agencies. (Footnote 3/ following.)

Figure 13-11a

<u>CODE</u>	<u>ESTATE</u>
913b	Use Permit. Government lands other than Public Domain. Includes "licenses" from the Department of the Navy, Tennessee Valley Authority, Memorandum of Agreements, etc. (Footnote <u>3/</u> following.)
913b	Licenses from other than Federal government agencies. (Footnote <u>3/</u> following.)
913b	Permits from other than Federal government agencies. (Footnote <u>3/</u> following.)
914	This code to be used only for the audit of Hawaii Territorial lands acquired and disposed of prior to statehood.
921	Easements by purchase, condemnation, reservation, reassignment by permanent transfer. Does not include rights of way <u>granted</u> by other Federal agencies. (Footnote <u>3/</u> following.)
922	Leasehold acquisition by purchase, condemnation, reassignment or <u>permanent</u> transfer. (Footnote <u>3/</u> following.)

- 1 / The original cost of transferred land is to be included in the acquisition note under "Remarks" only, unless the transferring agency is reimbursed. The cost of purchased or condemned lands paid for with funds furnished by cities, states, other government agencies, etc., will also be included under "Remarks" only. The cost of reassigned lands will be included in the "Exhibit A" block of the ENG Form 1603 with appropriate explanation under "Remarks."
- 2 / The cost of extinguishing third-party interests, such as mining claims, etc., will be shown under "Cost" and explained briefly in the acquisition note under "Remarks."
- 3 / Although the gross acreage broken down by estate is required under the heading "Land Ownership and Cost Data," each acquisition of an estate(s) by a single action is reportable under "Remarks" for all estates acquired by transfer or reassignment, all public domain lands, and all use permits from other Federal government agencies. The exclusion of joint-use leases with total acreage should also be noted under "Remarks." When footnotes are required, the 1/, 2/, etc., system will be used.

Figure 13-11b

ER 405-1-12  
16 Apr 76

d . Reports of Excess Real Property, Standard Forms 118, often include, in addition to fee, permanent easements, etc., certain lesser interests that automatically terminate after a specified period of non-use. If General Services Administration has disposed of and/or assumed custody and accountability of all land interests except the lesser interests with non-use termination conditions, such rights will be presumed to have expired at the end of the non-use period running from the date of the Report of Excess Real Property. In addition, any non-assignable licenses, permits, etc., reported to GSA together with fee, etc., are considered terminated effective the date the land which they serve is conveyed by GSA or their designated disposal agency.

General Instructions and Modified DOD Category Code  
(ENG Form 1603)

1. Date of (Re)Audit. Enter date the file was audited or revised due to supplemental acquisition or disposal.
2. Audit No. Enter the audit number previously assigned by OCE or a number assigned in accordance with paragraph 3-53, Chapter 3.
3. Reservation Name. Fill in name of installation or project.
4. Location. Insert state(s) name(s) first, in upper case, followed by county (parish or judicial division where applicable) and vicinity location. Examples:
  - a. MICHIGAN. In Wayne County, in the City of Detroit.
  - b. ALASKA. In the Fourth Judicial Division, 50 miles SE of Big Delta.
  - c. LOUISIANA. In Rapides Parish, 10.5 miles SW of Alexandria.
  - d. INDIANA AND ILLINOIS. In Vigo County, Indiana, and Clark County, Illinois, 13.5 miles SW of Terre Haute, Indiana.
5. District. Fill in the name of current district having real estate responsibility. It is not necessary to repeat the word "District."
6. Division. Fill in the name of division. It is not necessary to repeat the word "Division."
7. Officially Designated By.
  - a. Military. Cite the general or special order officially naming the installation. Use the order, by date, citing current designation. If no general or special order designates current installation name, leave space blank. Abbreviations should be used due to space limitations, such as:
    - (1) Department of the Army: DA G.O. #10 dated 2 March 1961.
    - (2) Department of the Air Force:
      - (a) Headquarters, United States Air Force: DAF G.O. #10 dated 10 January 1962.
      - (b) Strategic Air Command: SAC S.O. #G-27 dated 12 March 1962.
      - (c) Alaskan Air Command: AAC S.O. #G-22 dated 19 April 1962.

ER 405-1-12  
16 Apr 76

b. Civil. Cite the Act of Congress naming the entire project. Otherwise, leave space blank.

8. Type. An "X" will be placed in the appropriate block provided to designate the using agency (not using service).

9. Purpose.

a. Military. Insert a brief description of the general use of the installation, such as Cemetery, Recreation Center, Army Reserve Center, SAC Base, Depot, Aircraft Plant, Air Force Station, Training Site, etc. Do not attempt to show all the purposes carried on a series of Tract Registers, ENG Forms 1019.

b. Civil. In most instances, the purpose will be either Flood Control or Rivers and Harbors. However, there may be other purposes, such as Office, Casting Plant, etc.

c. Other. Use insertion similar to military above.

10. "Exhibit" Blocks. Enter "Exhibit F" in the "Map" block. All other exhibit blocks (Jurisdiction, Relocations, and Miscellaneous) will be completed, if applicable.

11. Land Ownership and Cost Data.

a. When there are no disposals, do not fill in the "Net" block.

b. Although reassignments are not true disposals, the area, estate, and cost will be shown in the "Exhibit B" block, with an explanation under "Remarks."

c. Modified DOD Category Code. The code should be shown for Army, Civil Works, and Air Force installations only. Do not enter codes for installations acquired for other Federal agencies. However, the footnotes 1/, 2/, and 3/ may be applicable to all installations.

CODE

ESTATE

911 Fee by purchase, condemnation, donation, reassignment or transfer. (Footnotes 1/ and 3/ following.)

912 Public Domain withdrawn by public land order, Act of Congress, or Executive Order, or by notation on the Public Land Records under provisions of 44 LD 513. (Footnotes 2/ and 3/ following.)

913a Public Domain by use permit from the Department of the Interior or other Federal government agencies. (Footnote 3/ following.)

Figure 13-11a

<u>CODE</u>	<u>ESTATE</u>
913b	Use Permit. Government lands other than Public Domain. Includes "licenses" from the Department of the Navy, Tennessee Valley Authority, Memorandum of Agreements, etc. (Footnote <u>3/</u> following.)
913b	Licenses from other than Federal government agencies. (Footnote <u>3/</u> following.)
913b	Permits from other than Federal government agencies. (Footnote <u>3/</u> following.)
914	This code to be used only for the audit of Hawaii Territorial lands acquired and disposed of prior to statehood.
921	Easements by purchase, condemnation, reservation, reassignment by permanent transfer. Does not include rights of way <u>granted</u> by other Federal agencies. (Footnote <u>3/</u> following.)
922	Leasehold acquisition by purchase, condemnation, reassignment or <u>permanent</u> transfer. (Footnote <u>3/</u> following.)

- 1 / The original cost of transferred land is to be included in the acquisition note under "Remarks" only, unless the transferring agency is reimbursed. The cost of purchased or condemned lands paid for with funds furnished by cities, states, other government agencies, etc., will also be included under "Remarks" only. The cost of reassigned lands will be included in the "Exhibit A" block of the ENG Form 1603 with appropriate explanation under "Remarks."
- 2 / The cost of extinguishing third-party interests, such as mining claims, etc., will be shown under "Cost" and explained briefly in the acquisition note under "Remarks."
- 3 / Although the gross acreage broken down by estate is required under the heading "Land Ownership and Cost Data," each acquisition of an estate(s) by a single action is reportable under "Remarks" for all estates acquired by transfer or reassignment, all public domain lands, and all use permits from other Federal government agencies. The exclusion of joint-use leases with total acreage should also be noted under "Remarks." When footnotes are required, the 1/, 2/, etc., system will be used.

Figure 13-11b

ER 405-1-12  
16 Apr 76

d . Reports of Excess Real Property, Standard Forms 118, often include, in addition to fee, permanent easements, etc., certain lesser interests that automatically terminate after a specified period of non-use. If General Services Administration has disposed of and/or assumed custody and accountability of all land interests except the lesser interests with non-use termination conditions, such rights will be presumed to have expired at the end of the non-use period running from the date of the Report of Excess Real Property. In addition, any non-assignable licenses, permits, etc., reported to GSA together with fee, etc., are considered terminated effective the date the land which they serve is conveyed by GSA or their designated disposal agency.

Figure 13-11c

## CHAPTER 14

## RECORDING AND REPORTING

\*

SECTION I. REAL ESTATE SCHEDULE/COST AND PERFORMANCE,  
RCS DAEN-RE-10(R5), ENG Form 4564-R

14-1. General. This report is designed to reflect both scheduled and actual performance of real estate activities in Divisions and Districts, thereby providing a quarterly comparison of actual performance against planned activities. It is automated as part of the Performance Analysis of Costs, Units and Manpower System (PACUMS) (see paragraph 14-4). Activity descriptions and work units have been developed for purposes of uniformity in scheduling and reporting and to reflect realistic Corps-wide workload statistics for analysis. They are listed below in the order in which they appear on ENG Form 4564-R (Figure 14-17).

a. Line Item 1a, Pre-authorization Planning.

(1) Activity Description - Includes all efforts (except appraisal) directly associated with real estate planning during pre-authorization stages of a project including: preparation and review of real estate data in survey reports, feasibility studies, etc.; preparation of real estate planning reports and supplements thereto; preparation of Available Site Identification and Validation (ASIV) reports.

(2) Work Unit - The unit of measurement is each report or supplement completed by the Real Estate Division and each real estate section in reports prepared by others.

b. Line Item 1b, Post-authorization Planning.

(1) Activity Description - Includes all effort, except appraisal, directly associated with real estate planning during post-authorization stages of a project, including: preparation of real estate design memoranda and supplements thereto; preparation and review of real estate data in general and feature design memoranda; preparation and review of real estate data in master plans, operational plans, supplements and appendices; preparation of cemetery relocation plans; survey of potential replacement housing (Public Law 91-646); public meetings.

\*

ER 405-1-12

Change 27

1 Oct 88

\*

(2) Work Unit - The unit of measurement is each real estate design memorandum, cemetery relocation plan, survey of potential replacement housing (Public Law 91-646), or supplement completed; also each real estate section in general and feature design memoranda, master plan, supplement or appendix, and each public meeting requiring real estate participation.

c. Line Item 2a, Acquisition - Attorney's Opinions.

(1) Activity Description - Includes all effort directly associated with the preparation of attorney's opinion of compensability incorporated in relocation design memoranda or other reports and preparation of final title opinions.

(2) Work Unit - The unit of measurement is each compensability interest opinion completed and each final title opinion submitted for approval.

d. Line Item 2b, Acquisition - All other.

(1) Activity Description - Acquisition (except leaseholds, local cooperation agreements and temporary permits): Includes all effort (except appraisal), both staff and contractual services, directly incident to acquisition of real property and interests therein by purchase, condemnation, donation, exchange, reassignment, transfer from other Federal agencies, permit, and options, such as:

(a) Mapping, Surveying, and Tract Ownership Data: Effort in connection with tract ownership data, surveys, writing descriptions, and mapping for real estate acquisition purposes.

(b) Title Evidence: Effort in connection with obtaining title evidence.

(c) Negotiations and Closing - Effort in connection with all negotiations conducted for acquisition of real property or interests therein by purchase, donation, exchange, reassignment or transfer; closing land purchase cases; title curative work; recording of deeds, delivery of checks to landowners; negotiating relocation agreements; and filing claims for water rights. Also includes work related to acquisition of options.

(d) Pre-condemnation - Effort in connection with preparation of condemnation and assemblies, including declaration of taking and the processing thereof up to and including the filing of the case.

\*

\*

(2) Work Unit - The unit of measurement is each tract acquired, each subordination or acquisition of an outstanding mineral interest, each tract on which a water right is filed, and each tract on which an option to purchase is acquired. Units will be counted when the offer to sell or exchange is accepted, the check is issued for filing of a declaration of taking, possession is obtained under a relocation agreement, transfer from other Federal agencies is completed, and permits or options are obtained. An additional unit will not be counted when the option is exercised.

e. Line Item 3, Condemnation.

(1) Activity Description - Includes all effort (except preparation or update of appraisals) involved in completing condemnation cases such as court exhibits, preparation for trials, testifying, stipulated settlement proposals, revestment actions, and other assistance to the Department of Justice.

(2) Work Unit - The unit of measurement is each tract on which final judgment is entered.

f. Line Item 4a, Inleasing - Recruiting Facilities Program.

(1) Activity Description - All effort (except appraisal) including contractual services, associated with the recruiting facilities program provided to the Army, Navy, Air Force, and Marine Corps either jointly with the General Services Administration or independently by the Corps of Engineers. Effort includes new leases, renewals, supplements, relocations, expansions, upgrades and service contracts. Also includes preparation of plans, specifications and estimates for initial alterations to leased facilities.

(2) Work Unit - The unit of measurement is each new lease agreement, supplement or renewal, space request to GSA, written agreement for upgrade or initial alteration by other than the lessor; each new service contract; and each restoration agreement.

g. Line Item 4b, Inleasing - Non-Recruiting.

(1) Activity Description - All effort (except appraisal), including contractual services, directly involved in the acquisition of leaseholds by negotiations, condemnation or assignment from GSA (except for recruiting facilities). Includes ownership data, preparation of maps and descriptions, negotiations and related work for new leases; supplemental agreements or renewals; restoration under lease provisions; condemnation petitions and declarations of taking; and space requests to GSA. Also includes preparation of plans, specifications

\*

ER 405-1-12  
Change 27  
1 Oct 88

\*

and estimates for initial alterations to leased facilities.

(2) Work Unit - The unit of measurement is each new lease agreement, supplement or renewal thereof, space request to GSA, condemnation case filed and extensions thereof, agreement for initial alterations or upgrade action by other than lessor, each new service contract and each agreement providing for restoration.

h. Line Item 5a, Appraisal - Staff.

(1) Activity Description - All effort involved in completing in-house appraisal reports and cost estimates, such as: inspecting the subject property, compiling and analyzing market, cost and income data, reviewing court house records, obtaining necessary information from other governmental agencies, preparing appraisal exhibits and appraisal review. Includes appraisals for the following purposes: acquisition disposal, inleasing, outgranting, mineral reports, timber cruises, gross appraisals, damage claims, homeowners assistance, planning, encroachments, market analysis/feasibility reports.

(2) Work Unit - The unit of measurement is each appraisal report, supplement, update, revision, cost estimate, market analysis/feasibility report and Public Law 91-646 assistance report completed.

i. Line Item 5b, Appraisal - Contract.

(1) Activity Description - All effort by contractor personnel involved in completing appraisal reports. Also includes in-house effort involved in contract appraisal review and each contract or purchase order for appraisal services such as: inspection of property and comparable sales, review and/or inspection of comparative income and cost information, selection of potential contract appraisers, negotiation of contracts and contract administration, and provision of technical assistance and advice to contract appraisers.

(2) Work Unit - The unit of measurement is each appraisal report, supplement, update, revision, and cost estimate completed and each appraisal reviewed under LCA contracts.

j. Line Item 6a; Relocation Assistance (Public Law 91-646).

(1) Activity Description - Includes all effort except appraisal incident to providing relocation assistance and advisory services to

\*

ER 405-1-12  
Change 27  
1 Oct 88

\*

displaced owners and/or tenants, including processing of applications for relocation payments and processing appeals.

(2) Work Unit - The unit of measurement is each application or appeal processed.

k. Line Item 6b, Homeowners Assistance Program.

(1) Activity Description - Includes all effort (except appraisal) expended under the Homeowners Assistance Program.

(2) Work Unit - The unit of measurement is each application or appeal processed.

l. Line Item 6c, Department of the Army Relocation Services for Employees (DARSE) Program (NAB, ORL, SPK and SWF only).

(1) Activity Description - Includes preliminary data collection, coordination and liaison between employees and contractor, review and appeal or complaint process.

(2) Work Unit - The unit of measurement is each relocation order placed with the contractor and each appeal processed.

m. Line Item 7a, Compliance Inspection, Major.

(1) Activity Description - Includes all effort incident to performing inspections of property granted to others for purposes such as commercial concessions, industrial uses, public park and recreation, quasi-public and group camp use, fish and wildlife habitat management, selected agricultural and grazing uses, complex/extensive outgrants resulting from relocation contracts, and reconveyance clauses/restrictions in deeds normally requiring at least annual inspections to assure compliance with terms and conditions of the grant. Includes preparation of reports, determination of compliance after vacation of property subsequent to expiration, relinquishment or revocation of grant, and corrective measures where non-compliance is noted.

(2) Work Unit - The unit of measurement is each inspection performed and recorded in writing or noted on prescribed inspection forms.

n. Line Item 7b, Compliance Inspection, Minor.

\*

ER 405-1-12  
Change 27  
1 Oct 88

\*

(1) Activity Description - Includes all effort incident to performing inspections of property granted or reserved to others for purposes such as roads, streets, water lines, power lines, and communication lines, rights-of-way and other uses covered by easements, licenses, and permits that do not normally require an annual inspection to assure compliance with terms and conditions of the grant. Includes preparation of reports, determination of compliance after vacation of property subsequent to expiration, relinquishment or revocation of grant, and corrective measures where non-compliance is noted.

(2) Work Unit - The unit of measurement is each inspection or survey completed and recorded in writing in prescribed format.

o. Line Item 8a, Utilization Inspection, Major.

(1) Activity Description - Includes all effort incident to performing inspections of real property under control of or subject to service agreements with the Corps of Engineers where changes in utilization are known to occur frequently and substantially so as to require an annual determination of property utilization. Includes EO 12512 and EO 12411 surveys, and BLM withdrawal reviews, as applicable, and preparation of such reports and other reports related to property utilization.

(2) Work Unit - The unit of measurement is each inspection or survey completed and recorded in writing in prescribed format.

p. Line Item 8b, Utilization Inspection, Minor.

(1) Activity Description - Includes all effort incident to performing inspections of recruiting offices, stream gage stations, radio operator sites, and all other real property under the control of the Corps of Engineers, as well as property subject to utilization inspections under memorandums of agreement with other Federal agencies where utilization inspections are normally required on a less than annual basis.

(2) Work Unit - The unit of measurement is each inspection completed and recorded in writing in prescribed format.

q. Line Item 9a, Outgrants, Major.

(1) Activity Description - All efforts (except appraisal), including contractual services, directly related or incident to granting, or denying, the use of real or personal property to others

\*

\*

for purposes such as commercial concessions, industrial uses, public parks and recreation, quasi-public and group camp use, fish and wildlife management, complex agricultural and grazing uses, military maneuver operations, roads and utilities associated with relocation contracts and situations where availability determinations must be made and mineral lease review. Includes environmental, historical and archaeological review, survey and recommendation; preparation of management plans, review of master plans, supplements and appendices; screening with other Government agencies where appropriate; advertising, preparation and distribution of bids/proposals, mapping, legal descriptions, negotiations, preparation and execution of outgrants, renewals, extensions, and cancellation and termination documents; review of development plans and third party subgrants; responses to requests for use of real or related personal property; review of recreation cost-share, water supply or water storage contracts and applications for mineral leases. Encroachments cured by outgrants will be reported on Line Item 14, Encroachments.

(2) Work Unit - The unit of measurement is each new grant, supplemental agreement, renewal, extension, written denial or cancellation/termination instrument and each application for mineral lease processed.

r. Line Item 9b, Outgrants, Minor.

(1) Activity Description - All efforts (except appraisal) directly related or incident to granting, or denying, the use of real or personal property to others for purposes such as water lines, power lines, communication lines, hay and grazing purposes, roads, streets and any other uses where formal advertising is waived or considered not beneficial to the Government, as well as requests to drill for oil or gas on Government-owned property where no oil or gas lease is required. Includes environmental review unless categorically excluded, survey and recommendation; mapping, legal descriptions, negotiations, preparation and execution of outgrants and renewal, extension, cancellation and termination documents and responses to requests for use of real or related personal property. Encroachments occurred by outgrants will be reported on Line Item 14, Encroachments.

(2) Work Unit - The unit of measurement is each new grant, supplemental agreement, renewal, extension, written denial or cancellation or termination instrument, and each consent to drill for oil or gas on Government-owned property where an oil or gas lease is not required.

\*

ER 405-1-12  
Change 27  
1 Oct 88

\*

s. Line Item 10, Disposals.

(1) Activity Description - All efforts (except appraisals), including contractual services, involved in planning and accomplishing the disposition of real property and components thereof by sale, transfer, etc. Includes environmental, historical, and archaeological review, survey, and recommendation; preparation of maps, screening, advertising or waiver thereof, preparation and distribution of bid documents, negotiations, preparation and execution of disposal documents; sales contract administration; responses to requests for disposal of real property or components thereof. A disposal unit will not be counted where ingrats or outgrants are renewed upon expiration. Encroachments cured by disposals will be reported on Line Item 14, Encroachments.

(2) Work Unit - The unit of measurement is each disposal transaction completed, denied in writing, or rescinded, identified as:

(a) Disposal of parcel (by sale, transfer, exchange, inlease termination, etc.)

(b) Disposal bid item; e.g., buildings, crops, gravel, etc., or groups of these items if included in one disposal transaction.

(c) Each parcel in report of excess to GSA or amendment thereto.

t. Line Item 11, Local Cooperation.

(1) Activity Description - Includes all effort (except appraisal) incident to preparation and processing agreements of local cooperation and rendering assistance to and monitoring the activities of local interests in procuring lands and interests to meet project requirements.

(2) Work Unit - The unit of measurement is each local cooperation agreement negotiated and each tract acquired by local interests and made available for project purposes.

u. Line Item 12, Timber Harvesting.

(1) Activity Description - Includes all effort (except appraisal) incident to sale of forest products under the timber harvesting program including timber cruises, processing invitations for bid, the awarding and administration of contracts, supervision and inspection of production and harvesting of timber, and other forest products.

\*

ER 405-1-12

Change 27

1 Oct 88

\*

(2) Work Unit - The unit of measurement is the number of bid items in each contract. Every twenty-five firewood sales and other small sales will be recorded as one work unit.

v. Line Item 13, Temporary Permits.

(1) Activity Description - Includes all effort (except appraisal) incident to obtaining real estate use rights by permit for conducting military maneuvers, surveys, exploration, obtaining rights of entry for construction, and other short term use. Includes procurement of ownership data, mapping, legal descriptions, negotiations, the filing of condemnation, if necessary, and damage settlements.

(2) Work Unit - The unit of measurement is each permit, right of entry, renewal or other right obtained and each settlement of damages thereunder.

w . Line Item 14, Encroachments.

(1) Activity Description - All effort (except appraisal), including contractual services, involved in resolving encroachment on project lands. An encroachment is defined as a permanent or semi-permanent structure or improvement placed on project lands or easement areas without authority. Efforts include field investigations, surveys associated with individual encroachment cases, negotiating agreements and processing of conveyance instruments for execution, preparation of boundary line agreements, preparation of reports of litigation, providing information to and assisting the Department of Justice and/or the U.S. Attorneys. All resolved encroachments on Government land will be reported on this line, not with the associated method which ultimately cured the encroachment. Any Government encroachment resolved will be reported on other appropriate line items.

(2) Work Unit - The unit of measurement is each action which cures, corrects, or resolves an encroachment on Government lands.

x. Line Item 15, Real Estate Audits.

1) Activity Description - All effort directly involved in the preparation of real estate audit assemblies. Includes verification and Authentication, by tract, of each real estate activity required in connection with acquisition, relocation, extinguishment of outstanding rights, land interchange, acquisition or subordination of third party interest, deficiency awards, disposal, etc.

\*

ER 405-1-12  
Change 27  
1 Oct 88

\*

(2) Work Unit - The unit of measurement is each tract audited for acquisition or disposal. Units will be counted when each tract audit is completed and recorded under the "audit as you go" concept.

y. Work units are not applicable to the following activities:

(1) Line Item 16, Other Activities. All Real Estate effort of a general nature, not chargeable to Line Items 1 through 15 above, such as replies to Congressional and public inquiries of a general nature; investigating and processing claims for damages; processing permanent change of station applications; evaluations of requests for acquisition of exclusive legislative jurisdiction; participation in mobilization exercises; review of Public Notices; recurring and special reports; maintenance of real estate records; programming (real estate schedules, budgets, manpower projections, cost and performance); office administration; personnel matters; training; time and labor distribution reports; organization and management studies; and other general functions and expenses internal to a District or operating Division Real Estate Office or Real Estate Project Office. Includes all technical indirect costs.

(2) Line Item 17, District Overhead. Pro-rata District office overhead includes general overhead costs but not technical indirect cost.

(3) Line Item 18a, Land Payments. Payments made from Construction, O&M or other funds for negotiated purchase of real property or interest therein; transfer from other Government agencies with reimbursement; payments to U.S. District Courts for acquisition by Declaration of Taking (DT), including deficiency judgments, interest payments, stipulated settlements, and judgments in straight condemnation; costs and expenses arising under Sections 303 and 304, PL 91-646; dollar costs at time negotiated offer (option) accepted; checks issued for filing of DT or payment of deficiency; or reimbursement to other agencies.

(4) Line Item 18b, Relocation Assistance Payments (Public Law 91-646) and Homeowners Assistance Program (HAP) Payments. Payments to owners and tenants for relocation expenses and other losses and damages incurred as a direct result of moving occasioned by acquisition of land; other payments or expenses incurred under Sections 205, 206, and 215 of Public Law 91-646. HAP costs under accounts 2100, 2230 and 2240 will be reported. Dollar costs will be reported when the payments accrue.

\*

\*

(5) Line Item 18c, Damage Payments for claims arising from use and occupancy of real property in and to which fee, easements, or lesser interests were not acquired; payments for damage settlements under rights of entry. Dollar costs will be reported when the payments accrue.

(6) Line Item 18d, Rents, Initial Alterations, and Restorations. Payments by the Corps to lessors or their legally constituted representatives for use of real property by DA under lease, including Army National Guard, USACE space, GSA costs and rents, or GSA costs for DOD recruiting space. Payments only of predetermined amounts for suspending the rights of third parties, pursuant to Act of Congress approved 9 July 1942, 43 USC 315q, 56 Stat. 654 (rights of ranchers to graze cattle on certain areas of public domain); costs of construction of initial alterations of leased facilities effected by the lessors or their legally constituted representatives to meet the needs of the using service; costs of restoration effected by the Government, payments for the restoration of lease facilities effected by lessors or their legally constituted representatives, or payments in lieu of restoration. Dollar costs will be reported when the payments accrue.

#### 14-2. Real Estate Schedule.

a. Real estate schedules will be prepared for Army, Air Force, Civil Works and other programs for which real estate services are expected to be provided during the projected fiscal year.

b. Divisions and Districts that have Army funded reimbursable programs--timber harvesting and agriculture grazing--should prepare separate schedules for each of these programs. Scheduled units in these programs should not be included in the schedules for the direct Army program.

c. Divisions and Districts that have Air Force Timber Harvesting, Agriculture Grazing, AICUZ or Civil Works Timber Harvesting programs, should prepare separate schedules for any of these programs that require significant real estate resources, or as needed by the Divisions and Districts for management.

d. Divisions and Districts should prepare separate schedules for any other programs that require significant real estate resources, or as needed by the Divisions and Districts for management.

e. Work assigned to other Districts/Divisions by DA Form 2544 will be scheduled and reported by the assigning District/Division.

\*

ER 405-1-12

Change 27

1 Oct 88

\*

f. Reports for Army and Air Force will include, for current year appropriations only, obligations applicable to the current fiscal year; for no-year appropriations include only cost incurred in the current year and exclude refunds of prior fiscal year condemnation payments or other types of credits involving prior year transactions.

g. The schedule will include all current uncompleted directives, including new starts for which funds are expected to be made available during the projected year. Close coordination must be exercised with project planning and construction to produce realistic civil works real estate schedules, recognizing the capability to meet the schedules within the personnel and fund resources available.

h. The civil works report will include the fiscal year costs for all real estate administrative activities expense in Real Estate Administration and for all real estate payments financed from General Investigations; Construction General; Operation and Maintenance General; Flood Control and Coastal Emergencies; Mississippi River and Tributaries; Revolving Fund and all other Civil Works appropriations.

i. Real Estate scheduled units for the upcoming two fiscal years will be entered in PACUMS around April prior to the first fiscal year for which they are being projected. For this submission, PACUMS allows the entry of scheduled units (non-cumulative) for each quarter or for the fourth quarter alone using cumulative information. This information will be used for manpower planning. Updated scheduled units and dollars by quarter (non-cumulative) for the upcoming fiscal year will be entered around September. An additional update for units and dollars will be permitted after the final budget is established. CERE-PR will provide the specific timetable each year for this information.

#### 14-3. Real Estate Cost and Performance.

a. Actual accomplishments in work units and dollars will be entered into PACUMS non-cumulatively each quarter for all activities for which schedules were submitted. Actual information is due at HQUSACE (CERE-PR) WASH DC 20314-1000 not later than the 20th of the month following the reporting period.

b. The actual dollar amounts should correspond to the obligations incurred in connection with performing the specific activities. Cost accounts for real estate activities are outlined in ER 37-2-10 (civil works) and ER 37-345-10 (military).

\*

\*

14-4. Format.

a. PACUMS provides the option of producing the ENG Form 4564-R report either non-cumulatively or cumulatively from the beginning of the fiscal year.

b. Dollar amounts will be rounded to the nearest thousand dollars. However, PACUMS will accept and report dollar amounts to the nearest tenth of a thousand if required by Divisions/Districts.

c. Real Estate Payments (Line Items 18a-18d). Identifiable amounts for deficiency payments will not be included in the estimated requirements for land payments during the fiscal year but will be footnoted in the "Remarks" section of the PACUMS submission.

14-5. Deviation Report.

a. The purpose of deviation report is to provide a composite of Real Estate performance as well as a District/Division evaluation. Specific and detailed information is absolutely essential for the development of the Quarterly Command Management Review with the CG/DCG and to address off-schedule areas in Program Performance and Budget Execution Review System (PPBERS) and Goals and Objectives. A complete explanation of deviation (over or under) from scheduled activities will be furnished in narrative form to CDR USACE (CERE-P), WASH DC 20314-1000 with the Real Estate Cost and Performance report not later than the 20th of month following close of quarter. This report should include the following information:

(1) Line item and specific work unit that is off-schedule.

(2) Complete explanation.

(3) Action taken to repair schedule, including prognosis.

(4) Impact upon customer/project.

(5) A summary including no more than three or four areas of major concern.

b. Criteria to determine a reportable deviation are: difference between schedule and actual of 25 or more work units for any activity line item or \$100,000 or more at any one project for land acquisition payments. Reportable deviation is 25 percent when there are fewer than 100 units scheduled for an activity or when less than \$400,000 in payments is scheduled for a project.

SECTION II. REAL ESTATE PERSONNEL/REAL ESTATE ADMINISTRATION  
 ACTIVITIES, RCS DAEN-RE-9(R7), ENG Form 1685-R

14-7. General. This report reflects personnel utilized in the performance of real estate administration activities. It constitutes the manpower segment in the integrated management structure established for real estate activities under the general heading of "Real Estate Administration Activities." It is automated as part of the PACUMS.

a. Input to PACUMS will be made quarterly as of the last day of the reporting period and will reflect real estate manpower utilization in the performance of Military (Army, Air Force) and Civil Works real estate administrative activities. The report will also reflect, as appropriate, work done for other agencies, such as NASA, NPS, DOE, etc. and other categories such as Homeowners Assistance Program. Enter the data in PACUMS no later than 20 calendar days after the end of the reporting period.

b. For each of the activities, except District Overhead, in the columns under "Equivalent Personnel of Total Manhours Worked," Division and District Commanders will report the average personnel equivalent expended cumulatively through the reporting period. The average personnel equivalent will be determined by the following formula:

$$\frac{\text{Total hours expended on activity through 1st quarter}}{439 \text{ (effective work hours in 1st quarter per employee)}} = \text{Average personnel equivalent through reporting period}$$

Through 2d quarter - the divisor will be 878

Through 3d quarter - the divisor will be 1316

Through 4th quarter - the divisor will be 1755

Personnel equivalent data will be reported to the nearest tenth, e.g., 1.2, 0.1, 0.9, etc. The divisors represent the total hours available for one employee less the hours for leave and holidays.

(1) Direct labor hours, regular and overtime, for each activity will be taken from Finance and Accounting elements. In addition hours of borrowed labor from other than Real Estate personnel should be included.

(2) For those offices using pre-determined rate method of distributing Real Estate indirect costs, the "Other Activities" (formerly Administrative Activities) hours worked can be provided by F&A offices.

\*

14-12b

ER 405-1-12

Change 27

1 Oct 88

\*

14-8 Instructions.

a. Lines 1 through 15 and 17 of ENG Form 1685-R (Figure 14-18) are self-explanatory using the above formula.

b. Line 16 will account for personnel not reflected elsewhere in the report.

c. Line 17 statistics will be the personnel equivalent charged to overhead and will be determined by dividing the average annual labor cost of overhead employees into the salary portion of the overhead dollars charged through the reporting period. Average annual labor cost for overhead employees should be obtained from the local Manpower Control Officer.

d. The "Authorized Spaces and Actual Strength" portions (Sections III and IV) will be completed to reflect actual conditions as of the end of the quarterly reporting period. Only full time permanent (FTP) personnel should be included. Average salary figures will be based on pay and benefits costs of Real Estate personnel.

e. "Remarks" section will be used to explain difference in equivalent personnel vs. authorized spaces (under or over utilization) and differences in actual strengths vs. authorized spaces. This section will include, but is not limited to, the following supplementary information:

(1) Existing vacancies.

(2) Non-effective time (equivalent personnel of total hours not worked, i.e., greater than normal leave usage, LWOP.

(3) Number and type of other than FTP personnel on board.

(4) The workyear equivalents of borrowed labor and overtime included in each category for which labor is reported.

(5) Workyear equivalents of work performed for other USACE FOAs.

f. This report is used for upward reporting and as such its input should have the approval of Chief, Real Estate Division.

\*

14-12c

\* SECTION III. INSTALLATION CLOSURE POTENTIAL IMPACT REPORT, RCS  
DAEN-RE-21

14-9. General. This report is designed to provide information for use in anticipating future Homeowners Assistance program requirements incident to general program administration and development of annual budget and financial plans. Section 1013(d) of the Development Cities and Metropolitan Development Act of 1966, Public Law 89-754 (80 Stat. 1255, 1290), approved 3 November 1966, Public Law 89-754 (80 Stat. shall be in the Treasury a fund which shall be available to the Secretary of Defense for the purpose of extending the financial assistance provided therein. Among other things, the Secretary of Defense delegated to the Secretary of the Army the responsibility to prepare annual budget and financial plans and report on the operation of the Homeowners Assistance Fund, Defense. Pursuant this report has been established to obtain information necessary for preparation of annual cost estimates and other financial data with final review vested in the ASA(IL&FM).

14-10. Applicability. This reporting instruction is applicable to Divisions/Districts having military real estate responsibility.

14-11. Instructions.

a. A narrative letter report will be submitted to HQDA (DAEN-REH-0) WASH DC 20314 within 60 days from the date of public announcement of a new base closure or reduction action.

b. The report will comprise the following information:

(1) Estimated number of military and civilian Personnel affected, segregated by rank or grade level.

(2) Estimated number of homeowners in each category.

(3) Estimated number of personnel involved in routine transfers affected by closure or realignment action.

(4) Real Estate market conditions.

\*

\* SECTION IV. HOMEOWNERS ASSISTANCE SUMMARY REPORT  
(ACTIVITY UNDER PUBLIC LAW 89-754, AS AMENDED),  
RCS DAEN-RE-12(R-1), ENG FORM 4153-R.

14-12. Purpose. This report summarizes, by installation, action taken by Division/District offices after receipt of a homeowners assistance application.

14-13. Applicability. These reporting instructions apply to commanders of field operating activities (FOA) with responsibility for military real estate.

14-14. Frequency and Submission. Submit semiannual reports to CDR USACE (DAEN-REP-S) WASH 20314-1000 by the third workday following the end of the reporting period.

14-15. Preparation. ENG Form 4153-R, Homeowners Assistance Summary Report (Activity under Public Law 89-754) (Figure 14-3) will be used to provide summary data for each department and installation for which there is reportable activity.

14-16. Instructions. Complete ENG Form 4153-R as follows:

a. Section I. Base Closure Information: name the bases or installation associated with applications currently being processed.

b. Section II. Application/Payments: report types of applications and payments made.

c. Remarks: Use a separate form for each base or installation closure. Then summarize all bases or installations for each department on one sheet; such summaries will be cumulative for one fiscal year. Report payments to the nearest dollar, report FHA application numbers, and comments.

\* SECTION V. RELOCATION ASSISTANCE SUMMARY REPORT  
(ACTIVITY UNDER PUBLIC LAW 91-646)  
RCS DAEN-RE-18(R1), ENG FORM 4890-R

14-19. Purpose This report summarizes information on persons displaced from their homes, businesses, or farms by Federal projects of the Department of the Army (military and civil works), the Department of the Air Force, and Federal agencies which use the real estate services of the Corps of Engineers.

14-20. Applicability. These reporting instructions apply to commanders of field operating activities (FOA) with responsibility for real estate.

14.21. Frequency and Submission. Submit semiannual reports to CDR USACE (DAEN-REP-S) WASH DC 20314-1000 by the fifth working day following the end of the reporting period.

14-22. Preparation. Summarize data on ENG Form 4890-R, Relocation Assistance Summary Report (Activity under Public Law 91-646) (Figure 14-4). Prepare a form for each department with reportable activity.

14-23. Instructions. The following data will be supplied:

a. Part 1. Applications Processed. This section will report only applications processed during the reporting period. Break out items by type of applicant, number, total amount claimed, and amount paid to new applicants. Report money in dollars only.

b. Part 2. Summary of Payments Made by Type.

(1) In this section, show payments made during the fiscal year, according to type. Include payments made during the current fiscal year for those applications received in a previous year.

(2) If a dwelling applicant chooses a dislocation allowance, show the total amount of the dwelling payment and break out the amount of dislocation allowance. Do not include the figures in brackets in the totals under item 10. \*

SECTION VI. RELOCATION ASSISTANCE AND REAL PROPERTY ACQUISITION ACTIVITIES  
AT FEDERALLY-ASSISTED PROJECTS, RCS DAEN-RE-22, ENG Form  
4660-R

14-26. Purpose. The report required by this section is designed to provide summary statistical data pertaining to land and relocation assistance payments made by local interests at federally-assisted projects under the provisions of Titles II and III of Public Law 91-646.

14-27. Applicability. These reporting instructions are applicable to all Divisions/Districts having real estate responsibility.

14-28. Frequency and Submission. One copy of the report will be dispatched annually in sufficient time to reach HQDA (DAEN-REH-0) WASH DC 20314 by 1 November of each year.

14-29. Reporting Instructions. Detailed instructions for completing ENG Form 4660-R are included on reverse side of the form (Figure 14-6). \*

## SECTION VII. ACQUISITION PROGRESS REPORT

RCS DAEN-RE-1(R2), ENG FORM 2440

14-30. Purpose. This report provides data on land (and improvements thereon) in the United States, its possessions, and the Commonwealth of Puerto Rico, acquired by the Corps of Engineers for the Department of the Army (military and civil works), Department of the Air Force, Department of Energy (DOE), National Aeronautics and Space Administration (NASA), and other Federal agencies for which the Corps acts as agent.

14-31. Applicability. These reporting instructions apply to commanders of field operating activities (FOAs) having real estate responsibility.

\* 14-32. Frequency and Submission. Submit quarterly reports to CDR USACE (DAEN-REP-S) WASH DC 20314-1000 by the eighth day of the month following \* the end of the reporting period.

14-33. Preparation.

a. Format.

(1) Acquisition Progress Report, ENG Form 2440, will be furnished. Preparation instructions are included in paragraph 14-35.

(2) Update card images of acquisition data may be transmitted by telecommunication transfer direct to the U.S. Army Engineer Automation Support Activity computer in Washington, D.C. Technical details of the transfer are included at Figure 14-16.

(3) FOAs not using the electronic transmission method above will furnish acquisition data by submission of punched cards accompanied with an 80/80 double-spaced proof listing. Instructions for punch cards are included in paragraph 14-36, and an annotated ENG Form 2440 is included at Figure 14-7.

b. Reportable Actions. The following types of land and methods of acquisition are reportable:

(1) Fee simple title by purchase, condemnation, donation, exchange relocation contract and vacation proceedings.

(2) Federally-owned lands involving transfer of jurisdiction by executive order, public land order or proclamation, or transfer of right by permit, agreements or otherwise.

ER 405-1-12  
Change 21  
1 Nov 83

(3) Easements, regardless of consideration paid or length of term acquired, except that for for local cooperation projects only permanent easements and temporary rights which may be used upon completion of the project, or which involve consideration, are reportable. Exceptions are not required to be reported, audited or mapped.

(4) Licenses and other lesser interests. This includes permits and other use privileges acquired from states, counties, and other political subdivisions, as well as from private landowners.

(5) Leaseholds of land areas by negotiations, condemnation proceedings or transfer from other Federal agencies.

c. Types of Reports. An Initial report will be included in the earliest regular submission after a Real Estate Directive is issued or the first Real Estate Design Memorandum is approved. Thereafter, Recurring reports will be furnished when reportable actions occur during the reporting period, or if a previously submitted report requires correction. However a letter report will be furnished if all reports of a District/Division are negative. When all acquisition has been completed, a Final report will be furnished.

14-34. Data Source and Records Maintenance.

a. Project Offices.

(1) The source record for the data reported on ENG Form 2440 will be the Acquisition Docket Sheet (Field), ENG Form 1069, which shall be used as the official working control record on real property acquisition,

(2) As soon as the individual ownerships have been determined for an authorized acquisition, the basic data relating to each tract will be entered on the Acquisition Docket Sheet.

(3) ENG Form 1069 Will be used for the posting of acquisition progress on all regular (direct Federal) acquisition performed by the Corps of Engineers (i.e., Army-Military, Civil Works, Air Force, DOE, etc). Where local cooperation acquisition is involved (acquisition by local interests in the first instance with subsequent conveyance to the United States), the docket sheet will, be changed or adapted to conform with the action steps taken for the various types of acquisition.

(4) The progress of each transaction for each tract will be recorded chronologically on ENG Form 1069 as each action step is taken.

b. District offices. The only action record required in District offices is the maintenance of a file of all ENG Forms 2440 being currently submitted by the project offices. However, where acquisition is performed directly out of a District office, that office will maintain the record on ENG Form 1069.

\*

ER 405-1-12  
Change 21  
1 Nov 83

\* c. Division Of Offices. The only action record required in Division offices is the maintenance of a file of all ENG Forms 2440 currently submitted by project and/or District offices. However, where acquisition is performed directly out of a Division office, that office will maintain the record otherwise kept by the project and/or District offices.

14-35. Instructions for ENG Form 2440. For the purpose of these instructions, the terms "installation" and "project" are synonymous and will be used to refer to military installations, civil works projects, and those properties acquired for other Federal agencies.

a. General - Military and Other Agency. ENG Forms 2440 for Army-Military, Air Force, DOE, NASA, and other agencies for which the Corps of Engineers acts as agent will be prepared as follows:

(1) A separate record will be maintained and separate reports will be submitted on each real estate directive issued, except in those cases where directives merely provide additional funds. Where lands in two or more directives are merged in the same court proceeding or option, or where a lesser interest is merged into a greater interest, the records and reports will be combined. However, in those instances where one directive covers more than one installation, a separate report will be prepared for each installation. The funds authorized by the directive will be broken down so that the appropriate funds for each installation will be shown on the applicable report. Appropriate explanation will be made in "Remarks" block.

(2) Where lands in more than one installation are included in one court proceeding or option, separate reports are required for each installation and only the statistics pertinent to each will be reported thereon. If one ownership is involved in more than one installation, the acre and dollar statistics should be prorated and one tract shown for each installation.

(3) When a directive number is succeeded by an alphabetical suffix, such as 1023A, 1023B, etc., it does not necessarily mean it should be entered on the ENG Form 2440 covering the original directive number RE-D 1023. If the directive with the alphabetical suffix amends or supplements the original directive of that number, it should be reported on the same report.

(4) An "X" will be placed in the space provided to designate the status of the report (Initial, Recurring, Final and Revised Final).

(5) The purpose for which the acquisition is being accomplished will be indicated in the "Purpose" block.

(6) The real estate directive number(s) and date(s) thereof will be entered in the blocks provided. Cite directives originating at all

\*

ER 405-1-12  
Change 21  
1 Nov 83

\* levels of authority. The Directive Number block will show the real estate directive number or, if unnumbered, the identification of the authority such as "1st Ind DE", "1st Ind AFRCE", or "Letter from OCE". For minor acquisitions where no such specific written authority exists, the term "Del. Auth." and the date of the acquisition instrument may be cited. If there is more than one instrument, show the date of the first instrument.

(7) An "X" will be placed in the space provided to designate the using agency. When Air Force or Army Materiel Development and Readiness Command (DARCOM) acquisition is involved, the initials of the Air Force or DARCOM command having jurisdiction (such as SAC, ADC, DRC-ARRC, DRC-ERDC, etc.) will be entered in parenthesis. When acquisition for others (as agent) is involved, enter the name of the other Federal agency immediately above the words "Other Federal Agency".

(8) The number of tracts, acres, and dollars shown on line 2 of Initial and Recurring reports will be as recited in the directive and will equal subsidiary line totals on lines 2A through 2F. The number of tracts, acres, and dollars on line 2 of Final reports will equal subsidiary line totals on lines 2A through 2F, which lines will in turn equal corresponding entries in the Progress to Date section of the report. The dollar entry on line 2 will include only the amounts authorized for land payments, including amounts from construction funds, operations and maintenance funds, funds authorized by Air Force Regional Civil Engineers, and all other authorizations regardless of administrative level of authority. It will not include amounts authorized for administrative and relocation assistance expenses and amounts authorized for restoration of lands occupied by right-of-entry and not actually acquired.

b. General - Civil Works. ENG Forms 2440 for Army Civil Works will be prepared as follows:

(1) When more than one type of acquisition is involved, a separate report will be prepared for each type. Types of acquisition are classified as:

(a) Department of the Army acquisition

(b) Local acquisition- Later conveyance to U.S. - Reimbursement by U.S. \*

ER 405-1-12

Change 11

12 Aug 80

\* (c) Local acquisition - Later conveyance to U.S. - No reimbursement by U.S.

(2) The reports will be prepared on a project basis broken down by type, as indicated in paragraph b(1) above. Where two or more areas (dam site, reservoir area, etc.) have been authorized for acquisition in connection with the same project, they will be consolidated into one report. The report will include all acquisition prior to 1 January 1943 (excepting lands disposed of prior to 1 January 1943) and the cost (estimated, if necessary) thereof, together with all acquisition accomplished after 1 January 1943. In those cases where information is not available for line-by-line reporting on the ENG Form 2440, the report will show an asterisk in the left margin beside line 2 referring to a remark that the report does not include the acres and cost audited under Civil Audit No. \_\_\_\_\_. The statistics reported in "Remarks" will be included on line 1 (Estimated Total to Complete Project), but will be omitted from all other lines of the report.

(3) If, after an acquisition report becomes Final, an additional acquisition of the same type is authorized, the Final report will be reactivated to include the additional authorization and progress thereof.

(4) In the "Type of Acquisition" block under "Entire project", insert an "X" in appropriate boxes, depending on the number of types of acquisition involved in acquiring the entire project. In the "Type of Acquisition" block under "This Report", insert an "X" only in the block designating the appropriate type of acquisition covered in the report. A separate report will be submitted for each type of acquisition involved (see paragraph b(1) above).

(5) The "Title and Date of Congressional Authority" block of the report will contain the title and date of the Act of Congress authorizing the acquisition.

(6) Date(s) of approval of the design memorandum by the Office of the Chief of Engineers (OCE) or the Division Engineer and identity of the area covered by the design memorandum will be entered in the space provided:

(7) Reports for local acquisition-later conveyance to U.S. will show the date of the Division or District's letter(s) to the local interests accepting the assurance.

(8) Line 1, "Estimated Total to Complete Entire Project", will \*

ER 405-1-12  
Change 11  
12 Aug 80

\* include all land acquisition requirements estimated for the project as approved in the General Design Memorandum or equivalent report. These requirements will be adjusted periodically to conform to revised or refined total project estimates as determined during the course of acquisition. If more than one type of acquisition is involved, requiring more than one Acquisition Progress Report, total requirements for each type will be shown, as applicable.

(9) Line 2, "Present Acquisition (civil)", will include all acquisition contained in approved real estate design memorandums and supplements thereto and will equal subsidiary line totals on lines 2A through 2F.

c. General - All Departments. The following general instructions apply to preparation of ENG Form 2440 for all acquisitions.

(1) When reporting acquisition by transfer from military to civil accounts, or vice versa, each will be considered a separate Federal "agency".

(2) The "Name and Location of Project" block will contain the official name of the project and name of the city(s) and state(s) in which the authorized area is located.

(3) Funds authorized for relocation assistance payments will be entered under "Remarks".

(4) Records will be maintained on a fractional acreage and dollar basis; however, totals thereof will be rounded to the nearest acre or dollar in preparing the ENG Form 2440 report (0.50 acre will be reported as an additional acre; 50 cents will be reported as an additional dollar). Further, the total acres and cost will be properly rounded out for reporting on line 2. The statistics on lines 2A through 2F, and the statistics reported in the "Progress to Date" section under the purchase, condemnation, lease, permanent transfer, withdrawal from public domain and temporary use blocks, will be adjusted to agree therewith, if necessary, and the appropriate explanation made under "Remarks". The decision in this matter should be made by the reporting office and be based on the size of the fractions involved.

(5) The sums of the tract and acre statistics on lines 2A through 2F will equal the totals reported on line 2 (except in the case of lesser interests being merged into greater interests -- see paragraph i below).

(6) The sum of the dollar statistics on lines 2A, 2B, and 2C will equal the total dollars reported as authorized on line 2. When the acquisition of one of the estates (fee, easements and other lesser \*  
\*

\* interests, or public domain) is completed, the amounts actually expended will be reported. Where more than one type of interest is being acquired, upon completion of any one type, that portion of the report will be balanced statistically as for a final report. For example, if the directive covers fee and lesser interests, and acquisition of the lesser interests is completed, the dollars on line 2B will be adjusted to agree with the sum of the statistics. on lines 19, 25, and 29 of the lesser interest column, although the fee acquisition is uncompleted. The dollars on line 2 will be adjusted to equal the total of subsidiary lines (2A, 2B, 2C).

d. Line-By-Line Requirements. Following are itemized instructions for line-by-line reporting not explained elsewhere in this Section.

(1) Line 2A - Fee By Purchase, Condemnation or Transfer. Record all tracts authorized for acquisition in fee by purchase, donation, condemnation, exchange or by permanent transfer from other Federal agencies. (When relocation agreements or contracts result in the Government's acquiring fee title, the tracts will be shown on this line and on all other applicable lines in the report).

(2) Line 2B - Lesser Interests By Purchase, Condemnation or Transfer. Record the number of tracts involved in all lesser interests authorized for acquisition by purchase, condemnation, donations exchange or permanent transfer from other Federal agencies. "Lessor Interests" include permanent easements, licenses, permits (including informal permits issued by letter), agreements, resolutions, franchises, glide angle permits, clearance (formerly avigation) easements and temporary easements. Upon acquisition, instruments covering glide angle permits and clearance easements will be carefully reviewed in order to determine whether actual areas are acquired or if merely tree topping or similar rights are involved and the authorized acreage adjusted if entered differently at the time of authorization. Right-of-entry permits taken in connection with acquisition are not to be included under lesser interests.

(3) Line 2C - Public Domain Lands by Withdrawal. Record all lands authorized to be acquired by withdrawal from the public domain or by notation on the public land records, if this is the final acquisition action to be taken.

(4) Line 2D - Public Domain Lands by Temporary Use Permit. Record all public domain lands authorized to be acquired by use permits from other Federal agencies.

(5) Line 2E - Other Public Lands by temporary Use Permit. Record all land (other than public domain lands) authorized to be \*

ER 405-1-12

Change 11

12 Aug 80

\* acquired by use permits from other Federal agencies.

(6) Line 2F - Leaseholds. Record leaseholds authorized to be acquired by the United States, either by voluntary lease, condemnation proceedings or by permanent transfer of leases from other Federal agencies, whether from private parties, states or other political subdivisions. Short term leases for rights-of-entry in connection with acquisition are not to be included. Include all leases for the installation even if they are now disposed of or in process of disposal.

(7) Lines 3 - 17. The data reported on lines 3 through 17 ("Current Period - Estate Acquired") will conform with the requirements set out for lines 18 through 32 ("Progress to Date"), except that current actions, rather than cumulative data, will be reported.

(8) Line 18 - Options Accepted. Enter the total number of tracts, acres and dollars for which options have been accepted, including those acquisitions which do not follow the regular acquisition procedure steps, such as licenses, permits and donations. Include a brief statement in "Remarks" in those instances.

(9) Line 19 - Closings Completed. Include the total number of tracts, acres and dollars for which payments and closing have been completed.

(10) Line 20 - Complaints Filed. Include all tracts and acres for which complaints (condemnation petitions) have been filed.

(11) Line 21 - Order of Possession Entered. Include all tracts and acres for which possession is available by court order. Tracts obtained without court order will not be included on line 21, except for those tracts transferred from purchase to condemnation where possession was obtained while in purchase status.

(12) Line 22 - Declaration of Taking Filed. Include the number of tracts, acres and dollars for all lands covered by declaration of taking filed in Federal court. If amounts originally deposited are reduced because of over deposit, dollar amounts will be reduced accordingly. A statement in "Remarks" will reflect the original amount deposited and identify the amount refunded.

(13) Line 23 - Deficiencies Deposited on Awards and Stipulations for D/T. Include stipulations and/or awards on declarations of taking. The tracts and acres reported on this line will be those also reported on line 22 which require deficiency deposits; the dollars will be the total amount of deficiencies deposited. \*

\*

(14) Line 24 - Awards and Stipulations Deposited for Straight Condemnation. Include those tracts upon which awards have been deposited on straight condemnation cases (no declaration of taking filed). These statistics will not be included on lines 22 or 23.

(15) Line 25 - Final Judgment Entered. Include all tracts, acres and dollars in condemnation on which final judgment has been entered.

(16) Lines 26 and 27 - Lease - Acquired by Negotiation and Acquired by Condemnation. As the lands are acquired by lease, the number of tracts and acres will be entered on line 26 or 27, as applicable. Those leased lands acquired by permanent transfer from another Federal agency will be reported on lines 28 and 29 in the "Lease - Use Permit" columns.

(17) Line 28 Permanent Transfer - Possession Obtained. Include all lands to which right-of-entry has been obtained pending permanent transfer from another Federal agency. The date right-of-entry was obtained and the name of the transferring agency will be noted in "Remarks". When permanent transfer is completed, the pertinent statistics will not be deleted from this line.

(18) Line 29 - Permanent Transfer - Acquisition Completed. Include all lands acquired by permanent transfer from another Federal agency. If reimbursement is made to the transferring agency, the amount will be reported in the "Dollars" column. The original cost of land to the transferring agency will be determined and entered in "Remarks" together with the effective date of transfer and the name of the transferring agency. When an effective date of transfer is not specifically indicated, the date of the transfer instrument executed by the transferring agency will be used.

(19) Line 30 - Withdrawal from Public Domain - Possession Obtained. As soon as a notation of withdrawal has been entered on the public land records, the pertinent statistics will be reported. The date of notation on the public land records will be entered in "Remarks". When the withdrawal has been accomplished, the pertinent statistics will not be deleted from this line. If the request for withdrawal is cancelled prior to the accomplishment of the withdrawal, the pertinent statistics will be deleted from line items 15 and 30 with a remark explaining the action taken and the number of tracts and acres involved.

(20) Line 31 - Withdrawal from Public Domain - Acquisition Completed. When the withdrawal is accomplished, the pertinent data will be reported. If the notation on the public land records is the \*

ER 405-1-12  
Change 11  
12 Aug 80

\* final acquisition action to be taken, this will be considered as acquisition completed for reporting on this line. The "Dollars" column will show the amount expended for third party interest, if applicable. The effective date of withdrawal and the agency from which acquired will be entered in "Remarks", together with an explanation of any third party interests acquired. For report purposes, all lands withdrawn by one document will be considered one tract. A single document withdrawing lands for more than one installation will be reported as one tract for each installation involved. State lands, if described in the withdrawal document, will not be included on this line.

(21) Line 32 - Temporary Use Obtained. Include all lands acquired by use permit from another Federal agency. All lands, except public domain lands, will be reported in the "Lease-Use Permit" columns. The public domain lands will be reported in the "Public Domain" columns. The effective date of temporary use will be entered in "Remarks", together with the agency from which acquired. A use permit involving both public domain land and non-public domain land will be considered as two tracts, one tract being the public domain lands and one tract for the remaining lands.

e. Active Reports. An active report (Initial or Recurring) will be prepared as follows:

(1) Lines 18 through 32 will be increased progressively as the acquisition action is accomplished. The "Current Period" statistics (lines 3 through 17), when added to the corresponding lines of the previous "Progress to Date" statistics (lines 18 through 32), should equal the current "Progress to Date" cumulative entries. Any variance should be explained in "Remarks".

(2) The number of tracts, acres, or dollars reported in the "Progress to Date" section will not exceed the authorized amounts shown on lines 2A through 2F, as follows:

(a) Data appearing on lines 18, 22, 24, and 28 of ENG Form 2440 will not exceed the authorized amounts appearing on lines 2A and B.

(b) Data on line 30 of ENG Form 2440 will not exceed the authorized amount on line 2C.

(c) Data on line 32 of ENG Form 2440 will not exceed the authorized amount on lines 2D or E.

(d) Data on line 26 of ENG Form 2440 will not exceed the authorized amount on line 2F.

\*

\*

(3) Care will be taken so that unacquired acreage will be accompanied by tract statistics. If such is the circumstances, an explanation will be noted in "Remarks". Unacquired acreage is the difference between the authorized and the possession obtained statistics.

(4) Every effort will be made to report the acquisition action in the "Current Period" portion of the report covering the period in which the action was taken. However, if the action is initially reported in a later report, and if that later report covers the same fiscal year in which the action was taken, the statistics will be reported in the "Current Period" column of that report with an asterisk referring to a remark stating: "Includes action on (No.) tracts, (No.) acres and (dollars) taken in the \_\_\_\_\_ quarter of the fiscal year". If the action is not reported until the next fiscal year after the action was taken, the entire action, including number of tracts, acres and dollars, will be reported under "Remarks". The explanation will also identify the fiscal year in which the action was taken.

(5) Additions or deletions necessitated by corrections or other adjustments will be explained under "Remarks", along with the words "This fiscal year" or "Prior to this fiscal year", which will serve to indicate the date the original data affected was reported. For example, order of possession was entered on one tract consisting of 300 acres and reported as current action on the report covering the fourth quarter of fiscal year 1978. During the second quarter of fiscal year 1979, a resurvey was completed, and it was determined that the acreage should be 310 acres. The 10-acre increase would be reported in the second quarter of fiscal year 1979 and explained in "Remarks" with the words "Prior to this fiscal year" since the order of possession on that tract was entered in a prior fiscal year.

(6) Minus figures will not be reported in the "Current Period" portion.

(7) All tracts transferred from purchase to condemnation will be deducted from the affected "Purchase" lines 18 and 19 and reported on the applicable "Condemnation" lines 5 through 10 and 20 through 25. All tracts transferred from condemnation to purchase will be deducted from the affected "Condemnation" lines 20 through 25 and reported on "Purchase" lines 3 and 4 and 18 and 19.

(8) If exact costs of fee and lesser interest areas acquired by a single option, declaration of taking, etc., are not stated in the acquisition instrument, estimated cost based on best available information (appraisals, where possible) will be entered in appropriate cost columns of the report. At the time of real estate audit \*

ER 405-1-12  
Change 11  
12 Aug 80

\* (Chapter 13), cost data on ENG Form 2440, the Acquisition Tract Register (ENG Form 1019) and the Realty Control File Summary (ENG Form 1603) must be in agreement.

(9) The tracts under lease will be identified in "Remarks" by contract numbers, tract numbers and acreages.

(10) Completed transactions not involving condemnation which do not follow regular acquisition procedure steps (such as license, permits and donations) will, for report purposes, be shown on purchase lines 18 and 19, and will be identified by appropriate footnote showing interest acquired and number of tracts. Where no actual acreage is involved, as in the case of informal agreements to top trees, only tract and dollar data will be reported.

(11) Only costs borne by the Departments of the Army (military and civil works) and Air Force, DOE, NASA, and others for which the Corps of Engineers acts as agent will be entered on the reports. Funds furnished by cities, states, etc., will be shown under "Remarks" with an appropriate note including the source of the funds.

(12) The nominal amount of one dollar as cost of land will not be entered on the report unless actually paid.

(13) Cumulative refunds, broken down into amounts refunded on fee acquisition and amount refunded on lesser interest acquisition, will be included in "Remarks" each reporting period.

(14) Refunds are not applicable to the "Purchase" block of the report. If the option provides for removal of improvements or crops by the vendor, the cost thereof will be excluded from all lines of the "Purchase" block. If the option did not provide for this removal, the option cost will be entered on all lines of the "Purchase" block, in which case the removal of improvements or crops will be considered a disposal and will be reported on the appropriate disposal report. If, after an option has been accepted, certain lands are excepted from the areas covered in the option, the acreage and dollars pertaining thereto will be deleted from the "Purchase" block. These dollars will not be considered as a refund since this represents return of land rather than reduction in cost of land actually acquired.

(15) Accreted lands will be reported on the ENG Form 2440 which includes the tract to which the accreted land attaches. Place an asterisk in the right margin beside line 2 and in "Remarks" show "\*Does not include (No.) acres increased to accretion".

\*

ER 405-1-12

Change 11

12 Aug 80

f. Acquisition by "Reassignment".

(1) The tracts, acres and the original cost of real estate reassigned from one installation to another within the jurisdiction of the same Department (Army-Military, Army-Civil Works, Air Force, DOE, NASA, etc.) will be reported on lines 2 through 2F, 13, 14, 28 and 29. A statement will be entered in "Remarks" showing the date of reassignment and the name of the installation from which the property was withdrawn. The date of reassignment will be the effective date indicated in the memorandum, disposition form or other document authorizing the reassignment. If no effective date is cited, the date of the authorization will be the date of reassignment.

(2) Areas made available for use by the Reserves or National Guard on installations are not considered as having been reassigned unless reassignment is specifically indicated in a formal document from higher authority. These areas should be considered as on-post activities of the host installation as long as the installation on which they are located exists. In the event of complete disposal of the installation, the on-post activities such as Reserve Corps, National Guard or other miscellaneous activities, including Post Cemeteries, will be considered as "reassigned" in order to close out the records of the host installation and facilitate identification of the newly created installation. The date of reassignment will be the effective date recited in the general order discontinuing the host installation or, in the absence thereof, date of disposal of the last remaining excess area. ENG Form 2440 will be prepared on the Reserve or National Guard activity when the reassignment becomes effective.

g. Reservations of Easements in Fee Disposals. Reports will be furnished for easements reserved in disposal deeds and transfer documents. Reservations in deeds will be reported on lines 2, 2B, 3, 4, 18 and 19 as if acquired through negotiation. Lesser interests reserved in transfers to another Federal agency will be considered as acquisition by permit from that agency and reported on lines 2, 2E, 17 and 32. Tract and acreage data will be reported. Cost will not be reported. The excess authority for disposal will be considered the authority for these "acquisitions".

h. Revestment of Title. Where title to land is revested in former owner by judgment in a condemnation case, the following procedures will apply:

(1) When damages and/or rental is paid to the owner, the tracts and acreage on which the damages and/or rental was paid will be \*

ER 405-1-12  
Change 11  
12 Aug 80

\* considered as leased land, and the pertinent tracts acreage and rental statistics will be included on lines 2, 2F, 12 and 27 only. The dollar amount paid for damages will be noted in "Remarks".

(2) If no damage or rental is paid to the owner, the pertinent statistics will be deleted from the body of the report with a remark explaining the action taken and the number of tracts, acres and dollars involved.

i. Merger of Interests. Lesser interests merged into a greater interest, such as leases merged into lesser interests or fee; lesser interest merged into fee; or temporary use permit merged into permanent transfer or withdrawal from the public domain, will be reported as follows:

(1) When a directive is issued authorizing acquisition of a greater interest in land already under control of the Department of the Army (military and civil works) and Air Force, DOE, NASA or other Federal agencies, the directive will be combined on the acquisition progress report with the directive which authorized the original acquisition of the lesser interest. If the report covering the original acquisition has been made "Final," the report will be reactivated.

(2) The statistics pertinent to the area being acquired will be added to totals on lines 1 and/or 2, and on lines 2A, 2B, or 2C, as applicable.

(3) The statistics pertaining to the lesser interest will remain on all appropriate lines of the report until such time as options are accepted or order of possession is entered in condemnation (or declaration of taking filed, if no order of possession is entered) for the greater interest. At that time, the tract and acreage statistics will be deleted. The cost of the lesser interest will be transferred from the "lesser interest" column to the equivalent line of the "fee" column, regardless of the method of acquisition of the fee. To illustrate, if the lesser interest has been acquired by purchase and the fee by condemnation, the total cost will be divided since cost of the lesser interest will be transferred to the fee purchase lines and cost of the fee will be shown under the condemnation lines. If the estates were taken by reverse methods, the same procedure would apply. Where both estates are taken by the same method, the cost of the fee would be combined on the appropriate method line.

(4) In cases where a portion of a lesser interest tract is merged into a greater interest, instructions in preceding subparagraphs (2) and (3) will also apply. However, the cost of the area so merged may be determined on a pro rata basis. The area and cost of the lesser interest will be reduced and the greater interest increased accordingly. \*

ER 405-1-12

Change 11

12 Aug 80

\*

(5) If, subsequent to obtaining a temporary use permit, a permanent transfer or a withdrawal from the public domain is to follow, the statistics should not be reported on line 13 or 15 as possession obtained during the current period. The statistics should be included on line 28 or 30 and deleted from line 32 with an explanation of the action shown in "Remarks". When the action has been completed, the statistics should be reported on lines 14 and 29, or lines 16 and 31, as applicable,

j. Exchange of Land. Report exchange of land as follows:

(1) For an even exchange, where no monetary consideration is involved, show the tracts and acres but no cost in all purchase steps. An explanation will be made in "Remarks" by stating: "Acquisition of (No.) tracts of (No.) acres (estate) accomplished by exchange for (No.) acres (estate) which cost the Government (dollars)".

EXCEPTION: Where lands acquired in an exchange are for another project, tracts, acres and dollars will be reported in the line item purchase steps for that project. The dollars will be the cost of the lands conveyed.

(2) For an exchange where the Government gave land and money, show the tracts, acres and actual money expended. An explanation will be made in "Remarks" by stating: "Acquisition of (No.) tracts of (No.) acres (estate) was accomplished by payment of (dollars) and transfer to vendor of (No.) acres (estate) which cost the Government (dollars)".

(3) For an exchange where the Government received land and money, show the tracts and acres but no cost. An explanation will be made in "Remarks" by stating: "(No.) tracts of (No.) acres (estate) plus a consideration of (dollars) were acquired in exchange for (No.) acres (estate) which cost the Government (dollars)".

(4) When applicable, the aforementioned explanation(s) will be entered on each report, including the Final report.

k. Joint Use. Report joint use lands as follows:

(1) Where Federal lands are occupied under use permit, memorandums of understanding or agreements (other than leases), etc., which provide for joint use with others, report the total statistics covered by the instrument in the appropriate line items of the \*

ER 405-1-12  
Change 11  
12 Aug 80

\* report and explain in "Remarks" that the area is used jointly with others. If the instrument provides that certain areas are for exclusive use and other areas are to be used jointly, report the total statistics in the appropriate line items but explain in "Remarks" the area under each type of use.

(2) Where joint use only is acquired in leased land, show the number of tracts in the appropriate line items and cite the acreage in "Remarks". If the lease provides for both exclusive and joint use, report the exclusive use tracts and acres and joint use tracts in the line items and cite the additional joint use area in "Remarks".

1. Court Action By Landowner. Court action instituted by landowners will be reported as follows:

(1) Show the Act Of Congress under which the court action was instituted by the landowner in the "Directive Numbers" block.

(2) Show the date of the judgment in the "Directive Dates" block.

(3) The money paid pursuant to the judgment will be reported in "Remarks". The source of the funds will be indicated, together with a clarifying remark of the action taken.

(4) The acquisition action will be reported similar to a straight condemnation action.

m. Reacquisition. Report reacquisition as follows:

(1) The statistics pertaining to a reacquired area will be reported on an ENG Form 2440 covering the directive authorizing the reacquisition.

(2) The statistics pertaining to the original acquisition will remain on the original ENG Form 2440, and the disposal thereof will remain on the Real Property Disposal Report, ENG Form 0-836 (RCS: DAEN-RE-6).

(3) Since the ENG Forms 2440 for civil works projects are prepared on a project basis rather than by directive, the statistics pertinent to the reacquired area will be included on all appropriate line items. A remark will be made indicating the number of tracts and acres reacquired and cost thereof, if applicable.

\*

ER 405-1-12  
Change 11  
12 Aug 80

\* n. Overlapping of Interests. Report overlapping of real estate interests as follows:

(1) When an overlapping interest is acquired, a tract will be shown but only the acreage, if any, extending beyond the limits of the underlying tract(s) will be reported.

(2) Acreage will not be duplicated even when more than one installation is involved unless one installation is of a different department.

o. Wherry Housing Acquisitions.

(1) ENG Form 2440 will be submitted for each named Wherry Housing development, e.g., Rose Terrace (which may contain one or more numbered project), covered in a directive which authorizes acquisition of a sponsor's equity by the Department of the Army or the Department of the Air Force. However, only that portion of the ENG Form 2440 above the caption "Complete Project Requirements" and "Remarks" section will be completed in cases involving on-base acquisitions (where title to the underlying land previously has been vested in the U.S.). The "Remarks" section will be used to indicate the following information for each numbered project within a named development:

(a) The amount authorized to acquire the former sponsor's equity in the project (as recited in the directives or in the case of directives covering multi-housing acquisition, in the planning report).

(b) The total indebtedness assumed by the United States (unpaid balance on the mortgage).

(c) When the report becomes Final, the amount actually paid to acquire the sponsor's equity in the project.

(d) The method of acquisition (purchase or condemnation).

(e) The number of units in each numbered project.

(f) Date acquisition of each numbered project is completed.

(2) On-base and off-base Wherry projects acquired by and for the Air Force will not be reported on ENG Form 2440 until receipt of acquisition documents from OCE. At that time an "Initial and Final" report will be submitted. \*

ER 405-1-12  
Change 11  
12 Aug 80

(3) In the case of acquisition of off-base Wherry projects (which include the acquisition of land and construction), applicable lines of the report will be completed. However, only tracts and acres will be reported, since the cost of land is generally inseparable from the gross sum paid the former sponsor. Information pertaining to the buildings, as required by subparagraph (a) through (f) above, will be furnished in "Remarks".

p. Final Reports. Prepare Final reports as follows:

(1) A Final report will show the last action steps taken in the "Current Period" section. The report will be dated to correspond with the ending date of the regular reporting period in which the last reportable action was taken, regardless of the date of submission of the report to OCE. The renewal or extension of a use permit, lease, or other temporary use is not considered additional acquisition and does not require a revised ENG Form 2440.

(2) If the report becomes Final due to a cancellation of the remaining acquisition, no entry is required in the "Current Period" section. However, a note in "Remarks" should explain the cancellation. The report will be dated for the reporting period in which the acquisition was cancelled.

(3) A Final report will be balanced statistically by tracts, acres, and dollars as follows:

(a) The "Progress To Date" section of line 2 will equal the sum of lines 2A through 2F.

(b) Line 2A will equal the sum of lines 19, 25 and 29 in the "fee" columns.

(c) Line 2B will equal the sum of lines 19, 25 and 29 in the "lesser interest" columns.

(d) Line 2C will equal the statistics on lines 29 and 31 in the "public domain" columns.

(e) Line 2D will equal line 32 in the "public domain" columns,

(f) Line 2E will equal line 32 in the "lease-use permit" columns.

(g) Line 2F will equal the sum of lines 26, 27 and 29 in the "lease-use permit" column.

\*

\* (h) The statistics reported on lines 18 and 19 will be identical.

(i) The tracts and acres reported on line 20 will equal the sum of the tracts and acres reported on lines 22 and 24. Also, the tracts and acres on line 20 will equal the tracts and acres reported on line 25.

(j) The sum of the dollars reported on lines 22, 23 and 24 will equal the dollars on line 25.

q. Revised Final Report.

(1) A Revised Final report may be submitted to correct a reporting error or to correct statistics due to review or audit. The report will show the last reportable action in the "Current Period" section if such information was previously reported or is readily available, and will continue to show the same date as the original Final report. The date of revision should be shown directly under the date of report and be so identified.

(2) If, at the time of audit of an installation or project, it is necessary to revise a Final report, the aforementioned instructions will be followed, but the report will be furnished separately through regular reporting channels (not as part of the audit assembly) as soon as practicable, rather than holding it until submission of the quarterly reports.

14-36. Instructions for Punch Cards. ENG Form 4605 (an annotated copy is at Figure 14-8) will be used as the key punch transcript, and will be completed as follows:

a. Keyword:

(1) Data contained in card columns (cc) 1 through 24 constitute the "keyword". The keyword must be punched in every card submitted as this is the principal means of computer identification of a record on the ADP master file.

(2) No two records on the master file can have the same keyword. Once a keyword is established, the data associated with it in cc 25-79 can be changed as often as circumstances dictate. The contents of the keyword itself cannot be altered by the submission of a change action. That will require a delete action and a plus action. (Change code descriptions are covered in Figure 14-9.)

b. Division/District: Enter in cc 1-2 the appropriate code from the division/district code table at Figure 14-1. \*

ER 405-1-12

Change 11

12 Aug 80

\*

c. Department: Enter in cc 3 the appropriate code from the table at Figure 14-9 to represent the department for whom the Corps is acting as real estate agent.

d. State: Enter in cc 4-5 the appropriate code from the state code table at Figure 14-2 to represent the state where the area authorized for acquisition is located. In cases where the authorized area is located in two or more states, enter the code for the state that is generally considered to be the project location.

e. Installation Number: Enter the installation number in cc 6-8. Installation numbers for existing installations or projects may be obtained from the ADP print-out entitled "Acquisition Control Listing." Numbers for installations or projects that have never been reported will be assigned as follows:

(1) Army Military--Use the last three digits of the installation number in the annual "Inventory of Army Military Real Property" publication if the installation has been established. If it is a new installation, obtain a number from DAEN-REP-S.

(2) All Other Departments--Assign any three position number in the Acquisition Control Listing in such a fashion as to arrange projects alphabetically within states for each department.

f. Directive Number: Enter the number of the real estate directive in cc 9-12 for Army-Military and Air Force projects. If the number is three digits in length, precede the entry with a zero. Leave this field blank for civil works projects and other agency acquisitions unless a directive number has been assigned. If the directive number has an alphabetical suffix, do not punch the suffix if it amends or supplements the original directive number. If the suffix has no connection with the original directive number, enter the number and suffix in cc 9-13. Treat the action as a new directive and report an authorized line item (paragraph i below).

g. Directive Date: The date of the real estate directive or date of approval of real estate design memorandum (REDM) will be entered in day-month-year order in cc 14. For civil works projects, the date of the original REDM will continue to be reported regardless of any supplemental directives that may be issued.

h. Type of Estate: Enter in cc 20 a code from the table at Figure 14-9 to represent the type of estate or interest being acquired. A separate card must be punched for each type of estate or interest being acquired at an installation or project.

\*

ER 405-1-12  
 Change 11  
 12 Aug 80

\* i. Method of Acquisition: Enter in cc 21-22 a code from the table at Figure 14-9 to represent the method of acquisition. A separate card must be punched with code 00 in cc 21-22 to report the amount of tracts, acres, or dollars authorized for each type of estate or interest to be acquired as shown the "progress to date" portion of lines 2A through F of ENG Form 2440 as follows:

<u>Form 2440 Line Number</u>	<u>Types of Estate Code (cc 20)</u>	<u>Method of Acquisition Code (cc 21-2)</u>
2A	1	00
B	6 (or 5)	00
C	2	00
D	3	00
E	4	00
F	7	00

Separate cards must also be punched for each method of acquisition (purchase, condemnation, lease, etc.) within each type of estate or interest (fee, lesser interest) if tracts, acres, or dollars are reported on lines 3, 7, 8, 9, 11, 12, 13, 15 or 17 of ENG Form 2440. Entries on those lines will require the following Method of Acquisition Code:

<u>Form 2440, Line Number</u>	<u>Method of Acquisition Code (cc 21-22)</u>
3	01
7	02
8	04
9	03
11	01
12	02
13	05 or 06
15	07 or 08
17	08

j. Fiscal Year: Enter in cc 23-24 the last two digits of the fiscal year in which the acquisition occurred. If the acquisition occurred prior to June 1966, enter 00. When amounts authorized for acquisition are being reported (Method of Acquisition code 00) , enter 00 for the fiscal year. \*

ER 405-1-12  
Change 11  
12 Aug 80

- \* k. Number of Tracts: Enter the number of tracts in cc 25-30. See paragraph r below for guidance. Right justify entries. Do not zero fill if the entry does not take all spaces.
- l. Number of Acres: Enter the number of acres in cc 31-37. See paragraph r below for guidance. Right justify entries. Do not zero fill if the entry does not take all spaces.
- m. Option Price, Deposit, or Deficiency Award: Enter in cc 38-46 the dollar amount of the accepted option, the amount deposited in court if a declaration of taking was filed, or the amount of an award or deficiency in a condemnation proceeding. See paragraph r below for guidance. Right justify entries. Do not zero fill if the entry does not take all spaces.
- n. Agency From Which Acquires: Make an entry in cc 47-49 only when the Method of Acquisition code in cc 21-22 is Ø5 or Ø6 (transfers), Ø7 (withdrawal), or Ø8 (use permit). Enter a three-character abbreviation to indicate the agency from which the property is being acquired.
- o. Installation/Project Name: Make an entry in cc 50-73 only when reporting amounts authorized for acquisition (Method of Acquisition code ØØ in cc 21-22). Enter the name of the installation or project. Left justify entries. Do not zero fill if the entry does not take all spaces.
- p. State(s) or Country: Make an entry in cc 74-79 only when reporting amounts authorized for acquisition (Method of Acquisition ØØ in cc 21-22). Enter an alphabetic abbreviation for the state where the installation or project is located. This entry must correspond with the state code reported in cc 4-5. Left justify entries. Do not zero fill if the entry does not take all spaces.
- q. Change Code: Enter in cc 80 a code from the table at Figure 14-9 to indicate the type of action being taken to a record on the computer master file.
- r. Guidance: Punch card entries for paragraphs k, l, and m above (tracts, acres, and dollars) will be determined as follows:
- (1) ENG Form 2440 is to be used in conjunction with the ADP report entitled "Acquisition Master Listing". The Master Listing reflects acquisition activity at projects by fiscal year for each method of acquisition; it is the output product from the punched cards.
- (2) Data appearing in the "current period" section of ENG Form 2440 on lines 3, 7, 8, 9, 11, 12, 13, 15, or 17 will be added to the corresponding line item on the Master Listing for the method \*

ER 405-1-12  
Change 11  
12 Aug 80

\* of acquisition for that fiscal year. That new total will be entry to report on the punched card.

Hypothetical Case:

A recurring ENG Form 2440 dated 31 March 1980 reflects the following fee acquisition on line 3: 5 tracts, 100 acres, \$156,340.

The corresponding line item in the Master Listing for negotiated fee acquisition in FY 1980 is: DOD Category 1; Acquisition Method 01; FY 1980. The hypothetical entry reflects 241 tracts, 3,586 acres, \$7,773,458,

The tracts, acres, and dollars to report on the punch card in cc 25-46 would be: 246 tracts, 3,686 acres, \$7,929,798.

(3) The new entry reported on the punch card plus the total of all prior year amounts for that method of acquisition on the Master Listing must agree with the amount reflected in the appropriate "progress to date" section of ENG Form 2440.

s. Key Punch Instructions are as follows:

\*

SECTION VIII. GSA PERIODIC REPORT OF FEDERAL REAL PROPERTY  
RCS GSA-1005, GSA FORMS 1166 and 1209

14-37. Purpose. This report provides real property inventory data on civil works installations required by the General Services Administration (GSA) as set forth in Subpart 101-3.2 of the Federal Property Management Regulations (41 (CFR 101-3.2)).

14-38. Applicability. These instructions apply to commanders of field operating agencies having accountability for civil works real property.

\* 14-39. Frequency and Submission. Reports will be forwarded to CDR USACE (DAEN-REP-S) WASH DC 20314-1000 NLT 20 October each year. \*

14-40. Preparation. GSA Form 1166, Annual Report of Real Property Owned by the United States, will be used to provide the required data for each new civil works installation or changes to previously reported installations. Summary data will be provided on GSA Form 1209, Summary of Number of Installations Owned by the United States.

14-41. General Instructions for GSA Form 1166.

a. The reporting entity will be a civil works project (hereinafter referred to as "installation"). A single report will include all land and owned improvements at a specific location, usually within a common boundary, under the control of the Corps of Engineers for civil works functions. Where an installation is located in more than one state, the portion located in each state will be treated as a separate installation with a separate installation number and submitted as a separate report. (NOTE: Where land records have been audited, the owned land identified under a single audited installation number, within each state, together with the improvements thereon, will be reported as an installation.) Reports will also be prepared for installations comprised solely of easements, permits, licenses, leases, etc.

b. A complete report covering the entire installation will be submitted for: (1) each newly acquired or previously omitted installation, (2) each installation transferred from another Federal agency which is not merged with an existing installation, (3) each installation declared excess or surplus, (4) each previously reported installation having any change in cost of \$1,000 or more for any item, and (5) each previously reported installation having any change in data, such as a name change or a change in date or method of acquisition of the property, in acreage in any category of land, in the number or area of buildings, the predominant use of land, buildings, structures, or facilities. The revised report will be a complete restatement reflecting all realty changes at the installation,

ER 405-1-12  
Change 15  
27 Jul 81

\* such as acquisitions, disposals, new construction, and corrections of errors or omissions from the previous report.

c. New acquisitions of land and improvements thereon are reportable at the end of the reporting period in which the following actions are completed (1) acreage is withdrawn from public domain, (2) transfers from other federal agencies are completed, (3) possession is obtained in a condemnation proceeding by a declaration of taking or by an order of possession, (4) options are accepted, or (5) leases, licenses, permits, or other acquisition documents are executed.

d. A report without entries in Blocks 11 through 25 of GSA Form 1166 will be submitted for the disposal of a complete installation or the transfer of a complete installation to another Federal agency. (Accountability will be retained and reports submitted until disposal is completed or property is transferred to another Federal agency.) An appropriate notation for the foregoing transactions or revisions will be made in Block 26, "Remarks".

e. Reports are not required for previously reported installations in which no changes have occurred.

14-42. Specific Instructions for GSA Form 1166.

a. Heading.

(1) Block 1 - Report as of. Enter the effective date of the report.

(2) Block 2 - Agency Control No. Enter the audited installation number where assigned or "None" if the installation has not been audited.

(3) Block 3 - GSA Control No. The GSA Control Number consists of two parts, separated by a dash. The first four digits - 9600 - are constant and identify the Army as the holding agency. The second part, comprised of five digits, is the installation number assigned by GSA for all new installations. For previously reported installations, numbers should be entered by the reporting office, if known. For new installations, reported for the first time, this block will not be filled in by the reporting office.

(4) Block 4 - Name of Installation. Enter the official designation. Use the name approved on audit, if available. For machine processing purposes, abbreviate so that this entry will not exceed 23 spaces, including spaces between letters and words.

(5) Block 5 - Reporting Agency. Enter "DA CofE - Civil".

(6) Block 6 - Bureau or Other Major Organization. Enter the name of Division and District. \*

\*

b. Location.

(1) Block 7 - State or Continent. Enter the name of the state, possession, territory, or commonwealth.

(2) Block 8 - City or Town. Enter the name of the city or town in which, or near which, the installation is located, provided: (a) the installation is located in one county only, (b) the designed city or town is in the same county as the headquarters of the installation. When these circumstances do not apply, enter "No City Identification".

(3) Block 9 - County or Parish. Enter the name of the county or counties (or parish or parishes) in which the installation is located. If necessary, the county or parish listing may be continued in Block 26, "Remarks".

(4) Block 10 - Street Address. Enter the street address, RFD, Route No., or other local designation.

(5) Geographical Code Block. Enter the appropriate numerical code for the location of the installation in the following sequence: state (two digits), city or town (four digits), and county (three digits). Codes will be obtained from the publication "Worldwide Geographical Location Codes" issued by GSA. When the location cannot be identified with the city reported in Block 8, the code "9999" will be entered. When the installation is located in more than one county (Block 9), code "999" will be entered under "County".

c. Land. Report all acreage under the control of the Corps of Engineers for civil works purposes as of the inventory date. In Blocks 11 through 16 include data on all land for which title is vested in the United States for Department of the Army civil works purposes. Report area, cost and other data on land held under easement, lease, license, permit or other temporary agreement in Block 26, "Remarks". All donated fee and easement acres should be reported separately. Acres in all instances should be reported to the nearest tenth of an acre.

(1) Block 11 - Usage Code and Classification.

(a) In the (A) portion of this block ("Code") enter the numeric code, selected from the list below, which best describes the present predominant use of the land. (Entire list as shown in GSA Regulations is included - use applicable codes.) Significant secondary usages may be listed in Block 26, "Remarks".

(b) In the (B) portion of Block 11 enter the classification (written out) which corresponds with the numeric code listed in (A). For example, if the entry in (A) is "18", enter "Flood Control (Land)" in part (B). If applicable, also show in the (B) portion of Block 11 a line entry to indicate \*

ER 405-1-12  
 Change 15  
 27 Jul 81

- \* the type of costs incidental to acquisition such as appraisals, surveys, removal and relocation of property of others, removal of structures purchased but not used, legal fees, etc. There will be a separate line item for each of these three land categories: public domain, fee (purchase, condemnation, exchange or transfer), fee donation.

<u>Code</u>	<u>Classification</u>
01	<u>Agricultural.</u> Land under cultivation for production of food and fiber.
04	<u>Grazing.</u> Lands primarily administered for the Preservation, protection, management and development of grass and other forage resources suitable for livestock.
07	<u>Forest and Wildlife.</u> Land administered for the preservation, Protection, management and development of timber, wildlife, watershed, and recreation resources.
08	<u>Parks and Historic Sites.</u> Land administered for national parks, historical parks, monuments, military parks, battlefield sites, historical sites, memorials, cemeteries, parkways, recreation areas, and national capital parks.
10	<u>Office Building Locations.</u> Land on which office buildings are located or are to be constructed.
11	<u>Military (Except Airfields).</u> Land under the control of the Department of Defense (military functions) which cannot be classified elsewhere.
12	<u>Airfields.</u> Land used for military air bases or stations and military or civilian land fields.
13	<u>Harbor and Port Terminals.</u> Land used for harbor and port facilities.
15	<u>Power Development and Distribution.</u> Land used for power development and distribution projects.
16	<u>Reclamation and Irrigation.</u> Land used for reclamation and irrigation projects.
18	<u>Flood Control and Navigation.</u> Land used for flood control and navigation projects.
19	<u>Vacant.</u> Land not being utilized.

\*

ER 405-1-12

Change 15

27 Jul 81

*	<u>Code</u>	<u>Classification</u>
	20	<u>Institutional.</u> Land used for institutional purposes such as hospitals, prisons, schools, libraries, chapels, and museums.
	30	<u>Housing.</u> Land used primarily for public housing project, military personnel quarters, and dwellings for other Federal personnel.
	40	<u>Storage.</u> Land used primarily for supply depots and other storage areas.
	50	<u>Industrial.</u> Land used for industrial plants engaged in the production and manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, magnesium, etc.
	70	<u>Research and Development.</u> Land used directly in basic or applied research in the sciences (including medicine) and in engineering.
	80	<u>Other Land.</u> Land which cannot be classified elsewhere.
	90	<u>Trust Land.</u> All land held in trust by the reporting Agency.

(2) Block 12 - Method of Acquisition. Enter the code number for each method of acquisition as shown in the list below:

<u>Code</u>	<u>Method of Acquisition</u>
1	Reservation or transfer from public domain (withdrawals) by Executive Order, Act of Congress, Public Land Order, or notation on land records.
2	Purchase, donation, exchange, transfer, or other method of acquisition, where title is vested in the United States.

(3) Block 13 - Date(s) Acquired. Enter the year in which the land was originally acquired by the Department of the Army for each method of acquisition set forth in Block 12. If various portions were acquired at different dates, indicate the range thereof, such as "1910 - 1921", if breakdown with appropriate date is not feasible. \*

ER 405-1-12  
Change 15  
27 Jul 81

\* (4) Blocks 14 and 15 - Area -- Urban and Rural. For each item in Block 11, enter the area of land to the nearest tenth of an acre. If acreage to be reported is a whole number, enter "0" to the right of the decimal point, e.g., 10.0. If acreage to be reported is less than a whole number enter "0" to the left of the decimal point, e.g., 0.4. If acreage to be reported is less than 0.1 of an acre, enter the letter "N" (negligible).

(a) Block 14 - Urban. Land will be classified as urban when:  
(1) located in an incorporated place of 2,500 inhabitants or more;  
(2) in a densely settled unincorporated place of 2,500 inhabitants or more;  
or (3) in a densely settled urban fringe area around a city of 50,000 inhabitants or more. Enter in this block the area of urban land, to the nearest tenth of an acre, acquired by each method of acquisition reported in Block 12.

(b) Block 15 - Rural. Classify as rural all properties not classified as urban. Enter in this block the area of rural land to the nearest tenth of an acre for each method of acquisition reported in Block 12.

(5) Block 16 - Cost. Land costs will be reported to the nearest thousands of dollars on all items of land in Block 11 in Acquisition Code "2" (purchase, donation, exchange, etc.). If cost is less than \$500, enter "N" (negligible). A cost will be reported for each land category shown in Block 11. The cost will be entered on the first line and will be the amount actually paid to the landowner for the land. If costs of transferred or exchanged lands are not of record, enter an estimated cost followed by an "E". Show also an estimated cost for donated land followed by "DE". The estimated cost should represent the amount the government would have had to pay for the property at the time of acquisition.

(a) For "Costs Incidental to Acquisition" enter on the second or subsequent lines the total cost of all appraisals, surveys, plats, damage payments, removal and relocation of property of others, removal of structures purchased but not used, legal fees, etc.

(b) For public domain land (code 1 in Block 12), enter a zero. Costs of land improvements to public domain land will be reported under "Other Structures and Facilities - All Other" (code 80), Blocks 23 and 24 identified as such in "Remarks", Block 26. Do not report in Block 16 the cost for extinguishment of rights on public domain areas. Report this cost under usage code 80 in Block 24, and make an explanatory footnote in Block 26.

(c) Do not report in Block 16 the cost of buildings acquired with land. Prorate the cost of land and that of the buildings and other improvements. Report the land cost as prescribed above. Report the prorated cost of the buildings in Block 22 and that of other improvements in Block 24. Make an explanatory footnote in Block 26. \*

\*

d. Buildings. Report all Federally-owned buildings completed and available for service as of the inventory date. A temporary building (not demountable) on a concrete foundation will be reported as real property. However, temporary buildings set up for purposes related to construction will not be reported. Do not report portable buildings. For purposes of this inventory, include buildings being acquired under the Public Buildings Purchase Contract Program or Lease-Purchase Agreements, Public Law 519, 83rd Congress, (68 Stat 518) approved 22 July 1954, as amended. Buildings will be reported upon completion of construction.

(1) Block 17 - Usage Code and Classification. The present predominant use of a building will govern its classification. The various usage categories are shown in this block. Select the applicable code from the following list (entire GSA list is included use only applicable code). Significant secondary usages may be listed in Block 26, "Remarks",

<u>Code</u>	<u>Classification</u>
10	<u>Office.</u> Buildings used primarily for office space.
21	<u>Hospital.</u> Buildings used primarily for furnishing in-patient diagnosis and treatment under the supervision of physicians and which have 24-hour-a-day registered graduate nursing services. Include medical laboratories used in routine testing. Exclude buildings used directly in basic or applied research in medicine which should be reported as Research and Development.
22	<u>Prison.</u> Buildings under the jurisdiction of the Department of Justice used for the confinement of Federal prisoners.
23	<u>School.</u> Buildings used primarily for formally organized instruction; such as, schools for dependent children of Federal employees, Indian schools, and military training buildings.
29	<u>Other Institutional Uses.</u> Buildings used for institutional purposes other than schools, hospitals, and prisons. Include libraries, chapels, museums, out-patient clinics, etc.
30	<u>Housing.</u> Buildings used primarily for dwelling purposes; such as, apartment houses, single or row houses, and barracks. Includes public housing, housing for military personnel, housing for personnel in various Federal agencies, and housing for institutional personnel.

\*

 Change 15  
 27 Jul 81

*	<u>Code</u>	<u>Classification</u>
	40	<u>Storage.</u> Buildings used for storage purposes; such as, warehouses, ammunition storage and covered sheds. Also include in this category, garages used primarily for storage of vehicles or materials. Do not include such facilities as water reservoirs and oil storage tanks, which are to be reported as Other Structures and Facilities, Blocks 23 and 24.
	50	<u>Industrial.</u> Buildings specifically designed and used primarily for production or manufacturing. Include buildings used for the production or manufacture of ammunition, aircraft, ships, vehicles, electronic equipment, chemicals, aluminum, and magnesium. Also, include laboratories used for routine testing of industrial products.
	60	<u>Service.</u> Buildings used in connection with service activities; such as, maintenance and repair shops, laundry and dry cleaning plants, post exchanges, stores, and airport hangars. Also include garages used primarily for vehicle maintenance and repair.
	70	<u>Research and Development.</u> Buildings used directly in basic or applied research in the sciences (including medicine) and in engineering. Include buildings used in the design, development, and testing of prototypes and processes such as chemistry, physics, and medical laboratories and observatories for meteorological research. Do not include medical or industrial laboratories used in routine testing which should be reported as Hospital and Industrial, respectively.
	80	<u>All Other.</u> Buildings which cannot be classified elsewhere. Whenever this classification is utilized, give a brief description of usage in Block 26, "Remarks".
	99	<u>Trust Building.</u> All buildings held in trust by the reporting agency. Whenever this classification is utilized, give a brief description of usage in Block 26, "Remarks".

(2) Block 18 - Number of Buildings. Enter the number of buildings for each applicable usage classification printed in Block 17. \*

ER 405-1-12

Change 15

27 Jul 81

(3) Block 19 - Date(s) Acquired. Enter the year the building was originally acquired by the Federal Government. When several buildings of the same classification were acquired in different years and are being reported as a single line item, enter the range of years, e.g., "1930-1942". When a building previously reported has undergone a major expansion, e.g., the addition of a new wing, both the year of the original acquisition and the year of expansion should be included in the range of years.

(4) Block 20 - Gross Floor Area - Total Square Feet. Enter the total gross floor area (applies to outer dimensions of the building) in square feet for each class of building reported. Include the total floor area of the building(s) regardless of any secondary usage or occupancy by another agency.

(5) Block 21 - Gross Floor Area - Percent Occupied. Enter the estimated percentage of occupancy or use by the Federal-Government for each applicable class of building reported in Block 17. For buildings which are out leased 100 percent, enter the letters "OL" in this column. When only a portion of a building is outleased or granted to non-federal entities, the percent occupied will be the percentage used by the Federal Government. A brief statement regarding the outlease should be included in Block 26, "Remarks".

(6) Block 22 - Cost. Enter in this block the total cost to the Federal Government for each classification of building reported. Costs of \$500 and over should be rounded to the nearest thousands of dollars. If cost is less than \$500, enter the letter "N" (negligible).

(a) For purposes of reporting Federally-owned real property, the cost of each building will include the cost of such fixtures and equipment as is normally required for its functional use. For example, include plumbing, heating and lighting fixtures, elevators, air conditioning systems, as well as safes and vaults which are built into the building or are permanently affixed thereto, the removal of which would materially damage the structure. However, the cost of machinery and processing equipment, as well as furniture, laboratory equipment, and special use items which are not part of the realty, will not be included.

(b) The cost of buildings will include the cost of all capital improvements incurred subsequent to date of original acquisition by the Government. Capital improvements, as prescribed in the GSA Policy and Procedures Manual, Section 7030, paragraph 30, are defined as: "Betterments or improvements to realty are capitalized when they: (a) constitute an enlargement of a structure, (b) provide additional or enlarged facilities, or (c) constitute a major renovation or other substantial improvement which materially increases the usefulness, productivity or other value of real property, or substantially extends the useful life of the real property." \*

ER 405-1-12

Change 15

27 Jul 81

\*

(c) Cost of Federally-owned buildings located on land not owned by the Government; e.g., land under lease or other right of occupancy, will be reported. In the absence of any recorded data as to cost, it will be estimated and noted by the letter "E" after the amount. Estimates will be based on cost at date of original acquisition by the Government, adjusted for subsequent capital changes.

(d) Estimate, if not known, the cost of the buildings acquired through donation, exchange, devise, forfeiture, or judicial process. The estimated cost should represent the amount the Government would have had to pay for the buildings if purchased at the date of original acquisition. Enter "DE" after the cost of donated buildings and an explanation in Block 26, "Remarks".

(e) The cost of any buildings being acquired under the Public Buildings Purchase Contract Program or Lease-Purchase Agreements, Public Law 519, 83rd Congress (68 Stat 518) approved 22 July 1954, as amended, will be recorded at purchase price (total amount of principal payments), plus all other capitalized costs, such as: drawings and specifications; architectural, engineering and inspection fees; and miscellaneous project costs. For identification purposes, the letter "P" should be inserted after the amount and a brief explanation given in Block 26, "Remarks".

(f) Report the prorated cost of buildings acquired with land on the appropriate usage line in Block 22, "Cost". Furnish an explanatory footnote in Block 26, "Remarks".

e. Other Structures and Facilities. Include only owned structures and facilities completed and available for service as of the reporting date. Do not include buildings in this portion of the report.

(1) Block 23 - Usage Code and Classification. The various usage categories are shown in this block. The coverage of each of these usage categories is described in the following list (most of the GSA list is included - use only applicable code):

<u>Code</u>	<u>Classification</u>
12	<u>Airfield Pavements.</u> Include runways, helicopter landing pads, taxiways, and aprons.
13	<u>Harbor and Port Facilities.</u> Include docks, piers, jetties, and breakwaters.
15	<u>Power Development and Distribution.</u> Include hydroelectric and other power development projects which produce power for resale (generally consisting of dams and powerhouses). Transmission lines which are an integral part of Federal power development systems will also be included even though the power is produced by another Federal agency. *

ER 405-1-12

Change 15

27 Jul 81

*	<u>Code</u>	<u>Classification</u>
	16	<u>Reclamation and Irrigation.</u> Include canals, pumping stations, storage, and diversion dams.
	18	<u>Flood Control and Navigation.</u> Include river improvements, revetments, dikes, dams and locks.
	40	<u>Storage (Other than Buildings).</u> Include storage tanks, silos, igloos, underground vaults, and open storage areas (improved only).
	50	<u>Industrial (Other than Buildings).</u> Include structures and facilities (other than buildings) used for production or manufacturing; such as, sliding shipways, retaining basins, and pipelines.  <u>Service (Other than Buildings).</u> Include structures used for maintenance and repair; such as, underground fueling systems, vehicle washing and greasing facilities, aircraft boresight ranges, guided missile maintenance facilities and ship repair.  <u>Research and Development (Other than Buildings).</u> Include structures and facilities used directly in basic or applied research in the sciences (including medicine) and in engineering; such as, facilities used in design, development, and testing of prototypes and processes. Do not include facilities used in routine testing which should be reported as Hospital and Industrial respectively.
	71	<u>Utility Systems (Heating, Sewage, Water and Electrical Systems).</u> Including heating, sewage, water and electrical systems when they serve several buildings and/or other structures of an installation. When they serve a single building which is reported separately, the cost of such utility systems will be included in the cost of the buildings. The usage category for "utility systems" include heating plants and related steam and gas lines; sewage disposal plants, storm and sanitary sewer lines; water treatment plants, wells, pump houses, reservoirs, and pipelines; and electrical sub-stations, standby and auxiliary power plants, lighting structures, and conduits. Structures and facilities utilized by an installation in the production of its own power requirements (not for resale) will be included in this category. Report actual buildings and data *

ER 40s-1-12  
 Change 15

*	<u>Code</u>	<u>Classification</u>
		pertaining thereto in Blocks 17 through 22. If a building is a segment of a system, report the building in Blocks 17 through 22 and the remainder of the system in Blocks 23 and 24.
	72	<u>Communications Systems.</u> Include telephone and telegraph lines and radio towers.
	73	<u>Navigation and Traffic Aids.</u> Include structures, other than buildings, which provide for aircraft and ship navigation and traffic aids; such as, beacon lights, antenna systems, ground control approach systems, and obstruction lighting.
	76	<u>Roads and Bridges.</u> Include Federally-owned highways, roads, related culverts, and connecting bridges. Also include roads within national parks and forests and other Federal installations.
	77	<u>Railroads.</u> Include tracks and bridges, tunnels, and fuel and Water stations servicing railroads.
	78	<u>Monuments and Memorials.</u> Include all Federal monuments, memorials, and statues.
	79	<u>Miscellaneous Military Facilities.</u> Not applicable to civil works installations.
	80	<u>All Other.</u> Include sidewalks, parking areas, fences, and trails, which cannot be readily classified under the above categories. Include also, improvements to public domain lands, such as, drainage, grading and landscaping, and the cost of extinguishment of rights on public domain lands.

(2) Block 24 - Cost. Enter in this block the total cost to the United States for each classification of "Other Structures and Facilities" reported. Cost of \$500 and over should be rounded to the nearest thousands of dollars. If cost is less than \$500, enter the letter "N" (negligible). Costs will include any capital improvements (as defined under Block 22) incurred subsequent to the date of acquisition. The cost of Government-owned structures and facilities located on land not owned by the Government, e.g., leased land, will be included.

(a) In the absence of any recorded data, costs will be estimated and noted by the letter "E" after the amount. Estimates will be based on costs at date of original acquisition by the Government, adjusted for subsequent capital changes.

ER 405-1-12

Change 15

27 Jul 81

- \* (b) Estimate, if not known, the cost of structures and facilities acquired through donation, exchange, devise, forfeiture, or judicial process. The estimated cost should represent the amount the government would have had to pay for the structures or facilities if purchased at the date of original acquisition. Enter "DE" after the cost of donated structures and facilities and an explanation in Block 26.

f. Block 25 - Total Cost: Land, Buildings, and Other Structures and Facilities. Enter the sum of the totals of Blocks 16, 22 and 24.

g. Block 26 - Remarks.

(1) Enter in this block any notation necessary to clarify or expand any entry in the report such as: from whom property was acquired, to whom property was sold (public, state, city, etc.), any unusual or significant feature regarding acquisition, omission, transfer, disposal or revision. Reasons for changes in a report for an installation previously reported should be especially noted, e.g., capital improvements, correction of error, refinement of data, etc. Explain any significant change in cost or area.

(2) Indicate in this block when an installation is excess to the needs of the reporting agency, in whole or in part. Include the GSA control number assigned to Standard Form 118, Report of Excess Real Property, where applicable.

(3) Also enter in Block 26 acreage and costs or annual rental (if leased) of all lands leased or acquired for use by easement, license or permit. A separate entry should be made for each type of acquisition. If easement or permit land has been donated, so indicate, and enter estimated costs.

(4) Identify donated fee area by acreage and tract number.

(5) Report cost of extinguishment of rights on public domain land.

(6) Report acquisitions and disposals subsequent to previous report. Do not go beyond the previous report unless it is necessary to clarify a correction.

(7) If there is insufficient space in Block 26, continue entries on the reverse of the form.

h. Block 27 - Type of Transaction. Check the appropriate box to reflect the nature of the real property change between the current and the prior inventory report. When practicable, include in "Remarks", Block 26, a short notation giving an explanation of the change. Descriptions of the various types of transactions follow: \*

ER 405-1-12  
 Change 15  
 27 Jul 81

<u>Code</u>	<u>Descriptions</u>
1	<u>New Acquisition.</u> Include newly acquired installations obtained by purchase, construction, or other means. Do not include transfers from other Federal agencies or additions to installations previously reported.
2	<u>Omission.</u> Include only complete installations erroneously omitted from the inventory for the prior fiscal year.
3	<u>Transfer-In.</u> Include only installations transferred from other Federal agencies or major organizational units within the agency which are not merged with existing installations. (Transfers-in which become part of an existing installation shall be coded 6).
4	<u>Disposal.</u> Include only complete installations disposed of by the Federal Government through sale, donation, exchange, or other disposition to private citizens and organizations or to state and local governments. Do not include transfers to other Federal agencies or major organizational units within the agency.
5	<u>Transfer-Out.</u> Include only complete installations transferred to other Federal agencies or major organizational units within the agency.
6	<u>Revision.</u> Include all changes not covered by one of the above codes. These changes include additions to installations previously reported, capital improvements, write-offs, and corrections to prior years reports.

i. Block 28 - Prepared By. Type in the name and title of the official responsible for the preparation of this report.

j. Block 29 - Signature. The official designated in Block 28 will sign in this block.

k. Block 30 - Date. Enter the date on which the report was prepared.

14-43. Instructions for GSA Form 1209.

a. General Instructions. Each commander of a division or district having accountability for civil works real property will prepare and furnish a summary on GSA Form 1209 of the number of installations whether or not inventory changes occurred since the pervious report. \*

ER 405-1-12

Change 15

27 Jul 81

\*

b. Specific Instructions.

(1) Summary Identification. Enter the effective date of the report. Place a check in the appropriate box to indicate geographic coverage.

(2) Reporting Agency. Enter in this block "DA CofE - Civil"

(3) Bureau or Other Major organizational Element. Enter the name of the Division and District.

(4) Item A - Instalations ay End of Prior Year. Enter the number of installations previously reported as of the end of the prior fiscal year.

(5) Item B - New Installations Acquired Since Prior Report. Enter in columns c and d the number of installations acquired since the prior report. Do not include omissions (Item C) or transfers from other Federal agencies or major organizational units of the same agency (Item D).

(6) Item C - Complete Installations Omitted from Prior Reports. Enter in columns c and d the number of complete installations erroneously omitted from the inventory in the prior fiscal year.

(7) Item D - Installations Transferred from Other Federal Agencies. Enter in columns c and d the number of reports representing transfers of either complete or partial installations from other Federal agencies.

(8) Item E - Complete Installations Disposed of Since Prior Report. Enter in columns c and d the number of complete installations disposed of by the Federal Government since the prior report. Transfers to other Federal agencies or major organizational units of the same agency will be reported separately in Item F.

(9) Item F - Complete Installations Transferred to Other Federal Agencies. Enter in columns c and d the number of reports representing the transfer of complete installations to other Federal agencies or major organizational units of the same agency.

(10) Item G - Reports Adjusting Those Submitted in Prior Years. Enter the number of reports affecting installations previously reported and still in the inventory for which changes have occurred during the fiscal year. Include all revised reports not specifically provided for in Items B through F, above.

(11) Item H - Installations at End of Current Year. Enter the sum of Items A, B, C, and D less the sum of Items E and F. This figure represents the total number of installations controlled by the reporting agency as of the inventory date. \*

ER 405-1-12  
Change 15  
27 Jul 81

\* (12) Item I - Total Number of GSA Forms 1166 Submitted. Enter the sum of Items B, C, D, E, F, and G. This figure represents the total number of GSA Forms 1166 currently being submitted.

(13) Remarks. Enter a brief summary statement of all major or significant changes in the division or district real property inventory during the fiscal year. Summary may include changes in acreage, buildings, floor area, costs, predominate usages of land, buildings, and other structures and facilities. Cite examples of changes and identify by GSA control numbers.

(14) Prepared By Signiature and date. Type in the name and title of the official responsible for the preparation of the report. Report is required to be signed and dated. \*

## SECTION IX. INVENTORY OF ARMY MILITARY REAL PROPERTY RCS ENG-242

14-44. Purpose. This report provides real property inventory (RPI) data of Army military installations to meet the requirements of DOD Instruction 4165.14.

14-450 Applicability. These reporting instructions apply to commanders of field operating agencies having custody and accountability for entire Army installations.

\* 14-46. Frequency and Submission. The reporting requirement is found in AR 405-45. Semiannual reports will be forwarded in sufficient time to reach CDR USACE (DAEN-REP-S) WASH DC 20314-1000 not later than 15 calendar days after the end of the reporting period. \*

14-47. Instructions. Detailed instructions for reporting the installation inventory of Army military real property are in Chapter 2 of AR 405-45. The following additional instructions apply:

a. To provide for orderly continuation of reported data, commanders will, upon assuming accountability of an installation, request the former using service or command to provide a copy of the RPI for the installation showing all changes since the previous report. Conversely, when an installation held by the Corps of Engineers in a management status is transferred to another command, the commander will furnish the RPI for the installation, updated to the time of transfer, to the gaining command. (See paragraph 2-2a(7), AR 405-45. )

b. Excess portions of installations under custody of the Corps of Engineers in a management status for transfer or for disposal will be included in separate RPI reports only when the commander was required to assume accountability for the excess portion and it is not desirable to continue reporting the property with the installation from which it was excessed. Any such reports will be initially submitted for the reporting period during which accountability was assumed, and will be updated semiannually as changes occur. A new installation number will be obtained for the excess portion being separately reported (see paragraph 2-2b(3), AR 405-45). The commander should coordinate reporting actions with the command of the installation from which the portion was excessed to assure that areas are not duplicated in their respective reports.

ER 405-1-12  
Change 23  
20 Nov 85

SECTION X. REAL PROPERTY DISPOSAL REPORT  
RCS DAEN-RE-6 ENG Forms 836 and 836a

14-48. Purpose. This report provides data on the disposal of inactive, excess and surplus real property at military installations (Army and Air Force) and civil works projects in the United States, its possessions and the Commonwealth, of Puerto Rico, and installation of the Department of Energy (DOE), National Aeronautics and Space Administration (NASA) and other Federal agencies for which the Corps of Engineers acts as real estate agent.

14-49. Applicability. These reporting instructions apply to commanders of field operating activities (FOAs) having real estate responsibility.

\* 14-50. Frequency and Submission. Submit quarterly reports to CDR USACE (DAEN-REP-S), WASH DC 20314-1000 by the fifth day of the month following the end of the reporting period. \*

14-51. Preparation.

a. Format.

(1) Real Property Disposal Report, ENG Forms 836 and 836a, will be furnished. Preparation instructions are included in paragraph 14-53.

(2) Update card images of disposal data may be transmitted by telecommunication transfer direct to the U.S. Army Engineer Automation Support Activity computer in Washington, D.C. Technical details of the transfer are included at Figure 14-16.

(3) FOAs not using the electronic transfer method mentioned above will furnish disposal data by submission of punched cards accompanied with an 80/80 double-spaced proof listing. Instructions for punched cards are included in paragraph 14-55.

b. Reportable Actions. The following types of real property disposal actions are reportable:

(1) Sale by Department of the Army of surplus real property, excluding buildings and other improvements. (This includes sales made under authority delegated by the General Services Administration (GSA) or its predecessors.)

(2) Reporting to the GSA or assignment to the Department of Health and Human Services (HHS) of excess real property. The Preliminary Report of Excess Real Property, Standard Form (SF) 118, is not reportable on ENG Form 836. When the SF 118 is finalized, the ENG Form 836. When the SF 118 is finalized the ENG Form 836 then will show the property reported to GSA as of the date the SF 118 is finalized.

ER 405-1-12  
Change 21  
1 Nov 83

\* (3) Retransfer of Federally-owned lands to the Government department or agency from which originally transferred.

(4) Permanent transfer of excess real property to another Government department or agency, including transfer with rights of reversion.

(5) Termination or disposal of easements, licenses, and permits.

(6) Cancellation, termination, or expiration of leasehold interests, including condemnation leaseholds, covering land areas which comprise all or part of an installation or project.

(7) Placing installations, or portions thereof, in an inactive status.

14-52. General Instructions.

a. Date of report will be the current reporting period date, not necessarily the date of the last disposal action.

b. Acres and dollars will be rounded to the nearest acre or dollar (.50 acre will be reported as one acre and 50 cents will be reported as one dollar). Less than half an acre will be reported with no acreage shown as will land interests acquired involving no area.

c. Entries in Total Acreage at Installation will be rounded to the nearest acre for each estate even though this may result in the total acres for all estates to be an acre or two off from the actual installation total. If acquisition is still in progress at the installation, report the acreage of the entire installation when possession is obtained by order of possession entered or title vested by filing declaration of taking in condemnation and acceptance of option in cases of direct purchase.

d. Transfers between Army-Military and Army-Civil Works will be considered as disposals. The date of approval of transfer by the Secretary of the Army will be the date of disposal.

e. An installation which is partially command and partially industrial will be reported as two installations, one command and one industrial.

f. If an installation is completely disposed of and a reacquisition is effected, the second disposal thereof will be shown as an initial action on a report for the reacquired installation. The installation name will be followed by an (R) to designate recapture or reacquisition. However, if an installation is not disposed of in its entirety and a reacquisition is accomplished, the reacquired area will be added to the total acreage on the already established report. In this case, the installation name will be followed by a (D) to designate a duplication of acreage. This method of reporting will not be adverse to audit reporting since the net area in each instance will be in agreement.

ER 405-1-12

Change 21

1 NOV 83

\* g. When reporting disposal of reacquired area, only additional cost of the land, if any, and cost of improvements constructed on the land after the reacquisition will be reported.

h. Inactive or excess items will be listed on the ENG Form 836 in chronological sequence, by effective date, and assigned reference numbers in numerical and/or alphabetical sequence.

i. Reassignments.

(1) The date of assignment of lands from one installation to another within the same Department will be the effective date indicated in the Memorandum Disposition Form or other document authorizing the reassignment. If no effective date is cited, the date of the authorization will be the date of reassignment. Reassignments will be reported even though no other part of the installation or project is excess or inactive.

\*

ER 405-1-12  
Change 21  
1 Nov 83

(2) Entries pertaining to areas reassigned will show the following:

- (a) Status column will show an "R".
- (b) Reference Number will show a single alphabetical designation.
- (c) Effective date will be the date of reassignment.
- (d) Acreages will be shown in the appropriate columns.
- (e) No entry will be made in the Disposal Unit column.
- (f) Number of Buildings will be entered.
- (g) Cost will be entered.

(h) The name of the installation to which the reassignment was made will be printed in the last six columns of the report form.

(3) Reassigned properties will be the last entries on the report form and will be printed three lines below the last inactive or excess entry. Any additional inactive or excess entries will be added in the spaces above the reassignment entry.

j. SF 118, without the accompanying schedules A, B, and C, furnished to GSA for information purposes only in accordance with Section 101-47.202-2(a) of the Federal Property Management Regulation, will not be shown on the ENG Form 836 as "reported to GSA". However, the disposal action employed by the Corps of Engineers to dispose of this property will be reported. In those instances where GSA is requested to perform the disposal function and a statement of this fact is included in block 18 of the SF 118, the pertinent data will be reported on the ENG Form 836.

k. When a "Withdrawal", "Correction" or "Amendment" to the SF 118 is reported to GSA, the acreage, cost and/or number of buildings previously reported will be revised accordingly. The original date reported and number of disposal units will remain unchanged. However, if the withdrawal covers the entire property reported, the disposal unit will be deleted from the "GSA/HHS" column and the "In Process" column will be revised accordingly. If the entire property is withdrawn from excess, as well as being withdrawn from GSA, the line item will be deleted. If, after the disposal has been completed, it is determined that an error in area and/or cost to the Government was made on the SF 118, and a corrected form is unnecessary, a statement explaining the discrepancy will be entered on the reverse of the Report of Change copy of ENG Form 836.

\*

ER 405-1-12  
Change 17  
30 Apr 82

\* 1. Transfers to GSA or to HHS for use of these agencies, rather than for further disposal, will be reported as disposed of by transfer.

m. On relinquishments, there is usually a considerable time lapse between the relinquishment date and the custody date and frequently the receiving agency does not assume custody formally. Therefore, the effective date cited in the relinquishment letter, or the date of the letter if no effective date is cited, will be shown as the date of transfer. When a letter of intent to relinquish is written to the Department of the Interior, the effective date or date of the letter will be reported as the disposal date.

n. On transfers, the effective date will be entered as the disposal date. If there is no effective date shown, the date of the document issued by the transferring agency will be reported.

o. In reporting disposal of cottage sites at civil works projects, a tabulation will be prepared and attached to the ENG Form 836 showing the following for each deed:

- (1) Acreage (showing the acreage rounded off to the nearest whole acre)
- (2) Cost to the Department of the Army
- (3) Date of disposal
- (4) Lot number, if applicable.

p. The date of execution of a deed will be used for the disposal completed date rather than the date the deed is delivered.

q. The cost of leased area cancelled will include only the cost of improvements transferred to the lessor in lieu of restoration. Improvements removed from the leased area and disposed of separately from the land will be reported as a separate disposal unit(s). Restoration costs will not be reported.

r. When land under control of the Department of the Army, Air Force, or DOE through acquisition of a lease or lesser interest is subsequently merged into acquisition of a greater interest (lease merged into fee or a lesser interest, or a lesser interest merged into fee), the "termination" of the original interest will not be reported as a disposal. However, the total area in "total acres at installation" will be revised by deleting the merged area from the lesser interest previously held and by adding it to the greater interest acquired. However, if the lesser interest is merged into a greater interest in another installation of the same department, the lesser interest will be reported as a reassignment, and not added to "total acreage at installation". If the lesser interest is merged into a greater interest in another installation of a different department, the lesser

\*

\* interest will be reported as a disposal by transfer, and not added to "total acreage at installation". An explanation of this action will be entered on the reverse of the report form.

s. If upon disposal of a lesser interest, a lesser interest for a different purpose is retained over the entire area, the report will show a disposal unit, cost (if applicable), and date of disposal. No additional area will be added to the total lesser interest in "total acreage at installation". An explanation of this action will be reported.

t. If upon the disposal of a lesser interest, a lesser interest for a different purpose is retained over a portion of the area, the report will show a disposal unit, the net area disposed of, cost (if applicable), and date of disposal. No additional area will be added to the total lesser interests in the "total acreage at installation". An explanation of this action will be reported.

u. If upon disposal of fee land a lesser interest is retained, disposal of the fee area will be shown. The area retained will be added to the total lesser interests in "total acreage at installation". An explanation of this action will be reported.

v. If upon disposal, a lesser interest is reserved for another installation, the entire area will be reported as a disposal with an explanation that \_\_\_\_\_ acres lesser interest were reserved for (name of installation). The lesser interests will not be reported as a reassignment or transfer. The reserved area will be added to the total acreage of the installation for which it was reserved.

w. An area within an installation which is made available for use of the Reserves, the National Guard, or for NIKE purposes is considered an on-post activity. These on-post activities will be considered as "reassigned" upon complete disposal of the host installation. The date of reassignment will be the date of the General Order, or the effective date therein, discontinuing the host installation. In the absence of a discontinuing General Order, the date of disposal of the last remaining area of the host installation will be used.

x. Data pertaining to two or more disposal dates will not be combined in a single entry.

y. Decreases in acreage due to abandonment will be reported as a disposal. Such a decrease will be considered as having no disposal unit. The effective date and disposal date will be shown as the date of abandonment. The acreage involved and cost to Government will be reported.

z. Erosion is not considered a method of disposal and will not be reported as such. However, decreases to land areas resulting from erosion will be reported at the time the adjacent fast land is determined to be \*

ER 405-1-12  
Change 17  
30 Apr 82

\*

excess. For reporting purposes, the eroded area will be considered as disposed of with the adjacent fast land, even though omitted from the disposal document, and the statistics will be adjusted accordingly. An explanation of the adjustment will be reported on the reverse of the report form.

aa. When the disposal of easements is suspended by the Corps of Engineers for reasons set out in paragraph 11-128e of this EP, or by GSA for similar reasons, report the action on ENG Form 836 as follows:

(1) Disposal Suspended by CE: Action Code, 33; Method of Disposal, DORM; Date of Disposal, N/A

(2) Disposal Suspended by GSA: Action Code, 40; an entry in Date Reported or Assigned; Method of Disposal, CUST; Agency or Transferee, GSA; Date of Disposal, this will be the date of advice from GSA that the easements have been recalled from surplus and placed in their inactive inventory.

ab. Exchange of Lands.

(1) To report a disposal of land by exchange, show the disposal unit and acres but no cost to the Government.

(2) Upon disposal of land which was acquired through exchange, the cost of the land which was released in exchange for the presently held land will be reported as the cost to the Government.

ac. Disposals of sand, gravel, crops and timber will not be reported on ENG Form 836.

ad. Revestment of title to land in former owner by judgment in a condemnation case does not constitute a disposal action unless damages and/or rental is paid. If damage and/or rental is paid, the land is considered leased and the lease will be shown as cancelled. The damages paid will not be considered as cost to the Army, Air Force or DOE. The date of disposal will be the date the land is returned to the former owner.

14-53. Preparation Instructions.

a. Initial Reports. Initial reports will be established for installations when notice is received that real property has been placed in an inactive or excess status. Once a report is established for an installation it will be updated as other excessing and disposal actions occur. The initial report for the installation will be prepared on ENG Form 836a showing the information in subparagraphs (1) through (7) below:

(1) Key Word: This is a series of codes showing the Division and District (obtained from Figure 14-1), the installation number (assign the next available 3-digit number since the last initial report), the state

code (obtain from Figure 14-2), and the department and status code (obtain from Figure 14-10).

(2) Complete the following blocks: Division Name, Installation Name, Audit Number, District Name, and City and State in which the installation is located.

(3) Kind of Report. Enter "Initial".

(4) Department Type. Place an "X" in the appropriate blocks to indicate the Federal agency responsible for the reported installation: Army or Air Force (also "X" in the Command or Industrial block as applicable); Civil Works; or DOE. If another department applies, use the DOE block-cross out "DOE" and enter the name.

(5) Installation Status. Place an "X" in the appropriate blocks to indicate whether the entire installation or a portion has been placed in an inactive or excess status. If a portion of an installation has been declared excess and a portion inactive, the report should so reflect.

(6) Total Acreage at Installation. Enter the amount of acreage, by estate, at the installation.

(7) Enter the appropriate columns across the form the data pertaining to the real property placed in an inactive or excess status. Status and action codes are listed in the Legend along the right-hand edge of the form.

b. Recurring Reports. Reports already established for installations will be updated as excessing and, disposal actions occur, as follows:

(1) Additions, corrections and deletions will be annotated on the "Report of Change" copy of ENG Form 836, furnished by DAEN-REP-S. Statistics being revised will be lined out and the revised figure entered directly above. The date of the report will be revised to show the current reporting period. The Installation Master Listing provided periodically by DAEN-REP-S should be checked to assure that the current, correct keyword is on the Report of Change copy being updated. If the Master Listing differs from the key word on the Report of Change copy, always use the key word from the Master Listing.

(2) Kind of Report. Indicate one of the following:

(a) Recurring - A report showing property in process of disposal. \*

ER 405-1-12  
 Change 17  
 30 Apr 82

\* (b) Suspended - A report covering an installation which is partially excess and/or partially inactive where disposal of the excess area has been completed.

(c) Final - A report covering an installation which is entirely excess and the disposal of the entire area has been completed.

(3) Revise action codes as required.

(4) Status. If an excess authorization is being reported enter "E" in the Status column; enter "I" for inactive authorities; enter "R" for reassignment authorities. If more than one line is required for a single authorization, repeat the status code on the second and succeeding line.

(5) Reference Number. Use four spaces to report Reference Numbers. The first two spaces are used to identify inactive and excess authorities; the last two spaces are used to break out disposal actions thereunder. A numeric system is used for this purpose except where the number of authorities exceed 99, in which case double alphabetical designations will be used in sequence as AA, AB thru AZ, BA, BB thru BZ, etc. Thus, the first excess or inactive authority will be numbered "01", the second "02", the ninety-ninth "99", the one-hundredth "AA", etc., followed by "01" if all disposal action associated with that authority is shown on one line. If an excess authority results in more than one disposal action, consecutive numbering will be used. Each reassignment (regardless of effective date) will be given a single alphabetic symbol beginning with "A". Sample coding shown below:

<u>Status</u>	<u>Ref. No.</u>	<u>Eff. Date</u>	<u>Status</u>	<u>Ref. No.</u>	<u>Eff. Date</u>
E	0101	011581	E	AA01	121281
E	0201	021881	E	AB01	122281
E	0202	021881	R	A	010181
I	0301	021881	R	B	010181
E	0401	040181	R	C	050681
	thru				
E	9901	120281			

(6) Effective Date. Report the effective date of inactive or excess status or the effective date of reassignment. If more than one line item is required for a single authority, the date will be repeated on each line.

(7) Disposal Acreage. Show the amount of acreage, by estate, included in the action being reported.

(8) Disposal Units. This is a count of the number of final disposal transactions involved in disposing of excess properties. Each report to GSA (excluding corrections to original report), each letter of assignment to HHS, each relinquishment letter or each transfer letter or instrument reducing the area in a lease, each lesser interest terminated, each bid item

\*

\* in an invitation for bid, and each contract of sales will be considered a disposal unit. Disposal units will be reported as follows:

(a) In the "GSA/HHS" column, show the number of units applicable to action by the Corps through a disposal agency. Do not show number of actions by the disposal agency.

(b) In the "CE" column, show the disposal actions by the Corps, other than reporting to a disposal agency.

(c) When property is reported to a disposal agency and the Corps of Engineers is designated disposal agent for the entire property reported, one disposal unit will be shown in the "GSA/HHS" column, and one disposal unit will be shown in the "CE" column for each final disposal action taken by the Corps.

(d) When property is reported to a disposal agency and the Corps of Engineers is designated disposal agent for a portion of the property reported, break out that portion on one or more additional lines, as required, and enter a disposal unit in the "CE" column for each action to be taken. The remaining portion for which the Corps has not been delegated disposal agent will continue to show the disposal unit in the "GSA/HHS" column.

(e) When the exact number of disposal actions to be taken is unknown, an estimated number will be shown. The number of disposal units may be revised as the disposal action progresses.

(f) Each completed disposal action will be reported as it occurs. This will, in many instances, require an established entry to be broken down into additional line items. In cases where property is reported to a disposal agency and only one disposal unit is applicable, leave the disposal unit with the portion still in process of disposal.

(g) Areas or portions of areas which are excess on more than one date will not be combined when reporting the disposal actions taken. If one disposal unit covers properties excess by more than one authority, thereby involving more than one reference number, enter the date of disposal on each applicable line entry; show one disposal unit for the entry with the earliest excess date and leave the disposal unit column blank for the remaining line entries involved in that disposal unit.

(9) Number of Buildings. Report the number of buildings included in the disposal action. Water towers, bridges and other miscellaneous structures are not considered buildings, even though they may be identified by a designated number. Buildings and/or improvements demolished, included in a construction contract, returned to the installation commander for disposal, abandoned, or destroyed by fire or wind will be excluded from the report. \*

ER 405-1-12  
Change 17  
30 Apr 82

\* (10) Cost to Army, AF, or DOE. Report only those costs borne by the present controlling agency. The costs will include both land and improvements but not related personal property. If there was no cost to the Army, AF, or DOE, leave the column blank. Costs of buildings and improvements which were acquired with the land, thereby being included in the land cost, will not be separately reported. If the exact cost is unknown, an estimated cost, based on the best available information, will be reported. Headquarters, U.S. Air Force, has directed all major commands to enter the cost to the Government for each item listed on the AF Form 300 in the "Nomenclature" column. If the AF Form 300 does not show the cost, it should be returned to the preparing office requesting the cost be entered.

(11) Use of the Property. Identify the use of the property. Do not use the words LAND or BLDGS since the entries in the "Acreage" and "No. of Bldgs." columns will indicate this. Enter HOUSING if the reported property was used for housing. This column may remain blank if the property has no specific identity.

(12) In Process--Method of Disposal, and Completed--Method of Disposal. Show the methods as indicated in the Legend printed on the report form. Do not report the method as "undetermined" unless that is the situation.

(13) In Process--Date Reported or Assigned. Show the date the action is reported or assigned to a disposal agency. If it becomes necessary to break an entry down into more than one line entry, this date will be repeated for each entry.

(14) Agency or Transferee. Show the disposal agency or, if transferred by the Corps, the name of the transferee. The name of the transferee will be entered as soon as it is known even though the transfer has not been completed. Refer to Figure 14-11 for agency identifications.

(15) Completed--Date of Disposal. Show date of final disposal by the disposal agent or by the Corps, as applicable.

14-54. Records in District and Division Offices. A complete file of ENG Forms 836, compiled and published quarterly by DEAN-REPS-S from data reported on the Report of Change copy, will be maintained in District and Division offices. These offices will also maintain a current copy of the Report of Real Property in Process of Disposal and the Report of Disposals Completed for the current fiscal year prepared and distributed by DAEN-REP-S.

14-55. Instructions for Punch Cards.

a. General.

(1) There are six 80-column update card formats in the Real property Disposal system. The cards are identified by numbers 0, 1, 2, 3, 4, and 5.

\*

(2) Cards 0, 1 and 2 are used to update header (general information) records in the master file. Card 0 is used to change only department and/or status code(s) of the key word. Data contained in card columns (cc) 1 through 9 constitute the key word. The key word must be punched in every card submitted as this is the principal means of computer identification of a record on the ADP master file.

(3) Cards 3, 4, and 5 are used to update detail records on the master file.

(4) There are three change categories in the Disposal System:

(a) Additions -- Change Code P.

1. To add a new header record to the master file, cards 1 and 2 must be used. Entries must be made in all fields except those acreage fields where amounts are less than an acre. Enter "P" in cc 79 of both cards and the applicable card number in cc 80.

2. To add a detail item to the master file, two cards must be used. For detail items with status code "E" (excess) or "I" (inactive) in cc 77, cards 3 and 4 are necessary. For detail items with status code "R" (reassigned), cards 3 and 5 are necessary. Make entries in all fields in both cards. Enter "P" in cc 79 of both cards and the applicable card number in cc 80.

(b) Modifications -- Change code M.

1. To change the department or status codes in the key word, card 0 is used. Enter the old key word in cc 1-9 as it appears on the printed listing. Enter the new key word in cc 14-22, "A" in cc 79 and 0 in cc 80. All other fields are blank. Do not submit an "0" card because the key word on the Report of Change copy does not agree with the key word on the Master Installation Listing. Update using the key word as shown on the Installation Listing.

2. To change the key word and other header or detail data, card 0 and the additional applicable card(s) are used. Prepare card 0 as described above, and enter the old key word on the additional applicable cards. To change header information other than the key word, cards 1 or 2 (or both) will be used depending on what data is to be modified on an existing record. Select the card(s) containing the field to be altered. Enter the modified data as well as all other fields as they appear in the printed listing regardless of whether they are to be changed or not. Enter "M" in cc 79 of each card used and the applicable card number in cc 80.

3. To change individual detail information (other than reference number) card 3, 4, or 5, or a combination of cards 3 or 4 or cards 3 and 5, will be used. Select the card(s) containing the field to be altered.

\*

ER 405-1-12  
Change 17  
30 Apr 82

- \* Enter all fields as they are to appear in the printed listing. Enter "M" in cc 79 of each card used and the applicable card number in cc 80.

4. To change the reference number of a detail record, delete the present record and add a new record with the new reference number.

(c) Deletion -- Change Code D.

1. To delete an entire installation from the master file, use card 1. Enter the key word in cc 1-9, change code "D" in cc 79, and "1" in cc 80. All other columns are left blank.

2. To delete a single detail line item, use card 3. Enter the keyword in cc 1-9, the reference number of the detail line item to be deleted in cc 10-13, change code "D" in cc 79, and "3" in cc 80. Deletion of a reference number followed by an addition of the same reference number to correct the detail information during the same quarter will produce an error. Do not delete if a modification will suffice.

(5) ENG Form 4782-R (Keypunch Transcript For Real Property Disposal Report) (Figure 14-12) may be used as the keypunch transcript.

b. Keypunch Instructions are as follows:

\*

SECTION XI. REAL ESTATE OUTGRANT REPORT  
(RCS: DAEN-RE-3(R3))

14-56. Purpose. This report provides data on land outgranted to federal, state or local government agencies, private organizations, and individuals.

14-57. Coverage. Includes land outgranted at Army and Air Force installations and civil works projects in the United States, its possessions and the Commonwealth of Puerto Rico, and installations of the Department of Energy, National Aeronautics and Space Administration and other federal agencies for which the Corps of Engineers acts as a real estate agent.

14-58. Definition. Outgrant is a general term covering rights and uses made available to others over real property of the Government in the following manner:

a. Leases for agricultural, grazing, industrial, commercial, housing and other purposes.

b. Easements and licenses over lands owned by the Government and under the jurisdiction of the granting agency including those outstanding at the time real estate was acquired.

c. Permits granted to another Federal department or agency for the temporary use of real property owned or leased by the granting agency.

14-59. Applicability. These instructions apply to commanders of field operating activities (FOA) having real estate responsibilities.

\* 14-60. Frequency and Submission. Submit quarterly reports to CDR USACE (DAEN-REP-S) WASH DC 20314-1000 by the 10th day of the month following the end of the reporting period. \*

14-61. Preparation.

a. Update card images of outgrant data may be transmitted by telecommunication transfer direct to the U.S. Army Engineer Automation Support Activity computer in Washington, D.C. Technical details of the transfer are included at Figure 14-16.

ER 405-1-12

Change 21

1 Nov 83

\*

b. FOAs not using the electronic transfer method mentioned above will furnish outgrant data by submission of punched cards accompanied with an 80/80 double-spaced proof listing. Real Estate Outgrant Punch Card Format, ENG Form 4476-R, Figure 14-15, may be used as the key punch transcript.

c. Grant Record Card, ENG Form 364, may be prepared for each new or renewed outgrant if such an individual record card is desired by FOA's. This card may also be used as a source document for the preparation of punched cards.

14-62. Special Reporting Procedures for Wherry Acquisition. The Federal Government does not cancel the leases or easements to the sponsor by reason of the Wherry acquisition, but rather, acquires the interest of the sponsor. The three-part agreement between the Federal Housing Administration, the mortgagee and the military provides as follows: "That, notwithstanding the operation of law with respect to merger of the aforesaid leasehold.

\*

ER 405-1-12  
Change 19  
20 Jan 83

- \* interest with the fee, the leasehold interest will be treated as not having merged with the fee so long as the mortgagee has any interest in the mortgage property under the mortgage above referred to; provided however, that the Department shall not be required to comply with any terms of said lease where the obligation thereunder is not applicable." Therefore, these leases and easements are in force and effect, and will be retained in the outgrant records until the mortgage is satisfied. The grantee will be shown as "Army-Wherry" or "Air Force Wherry", as applicable, and the annual rental will be deleted. The following grants will also be considered in effect, and will also be retained for record purposes and reported as outgrants: permits, easements or leases issued by the former sponsor will be reported as licenses. Capehart leases will be reported in a similar manner. When the housing project is completed and turned over to the Government for operation, the name of the grantee will be changed to "Army-Capehart" or "Air Force-Capehart" as appropriate.

14-63. Instructions for Punch Cards.

a. General.

(1) There are two 80-column punch card formats in the Real Estate Outgrant System. Card number 1 is for installation or project header information and card number 2 is for detail information on each outgrant at the installation.

(2) The only time card number 1 need be submitted is to report an installation or project not on the current master file or to modify installation header data now appearing on the master file.

(3) Once an installation header is established on the current master file, submit as many number 2 cards as are necessary to report data on each outgrant at the installation.

b. Key Word. Data contained in card columns (cc) 1 through 47 of each card are the key word. The key word must be punched in every card submitted as this is the principal means of computer identification of a record on the computer master file. Data for subparagraphs (1) through (3) below are key word data common to both cards number 1 and 2.

(1) Department Code. Enter in cc 1 the appropriate code from Figure 14-14 to represent the department in control of the land.

(2) Division/District Code. Enter in cc 2 and 3 the appropriate code from the table at Figure 14-1.

(3) Installation or Project Number. Enter the installation or project number in cc 9-13. If a number has not been assigned, obtain one from DAEN-REP-S. \*

14-112a

ER 405-1-12  
 Change 19  
 20 Jan 83

\* c. Card Number. Enter the appropriate card number (1 or 2) in cc 14.

d. Change Code. Enter in cc 48 the appropriate code from Figure 14-14 to indicate the kind of action being taken to a record on the computer master file.

e. Card Number 1.

(1) Installation or Project Name. Enter the official name of the installation or project in cc 15- 47. Do not use the "+" or "&" symbols; the hyphen is acceptable.

(2) Type of Installation. This field is applicable for outgrants at all installations except civil projects. Enter in cc 49 a code from Figure 14-14 to indicate whether the installation is command or industrial.

(3) Using Service. Enter in cc 50-51 a code from Figure 14-13 to represent the using service of the installation or project.

f. Card Number 2.

(1) Name of Grantee. Enter the name of the grantee in cc 15-33. Abbreviate if necessary, but do not use punctuation. The most prominent noun should be shown first. Examples:

SMITH JOHN L  
 BEXAR COUNTY  
 TEXAS STATE OF  
 MISS CONSV DEPT  
 BLUE LIGHT CAB CO

(2) Contract Number. Enter the contract number in cc 34-47 according to the following samples:

Sample Contract Number	Column No.				
	34-35	36-39	40	41-42	43-47
DACW69-1-67-1	DA	CW69	1	67	00001
DA 29-005 Civ Eng 66-125	29	0005	c	66	00125
NOy (R) 3397	00	0000	N	00	03397
DA 25-066 Eng 1234	25	0066	E	00	01234
Control number assigned to an instrument (not a lease)	DA	CA69 CW69	9*	00	00002

\*A 9 in the column will indicate a consent.

\*

ER 405-1-12  
Change 19  
20 Jan 83

- \* (3) Type of Grant. Enter in cc 49 a code from Figure 14-14 to indicate the type of outgrant as designated by the outgrant instrument.
- (4) State or Country Code. Enter in cc 50-51 a code from Figure 14-2 for the state or country where the outgranted property is located.
- (5) Purpose. Enter in cc 52 a code from Figure 14-14 to indicate the purpose for which the land was outgranted.
- (6) Effective and Termination Dates. Enter the effective date of the outgrant in cc 53-58 and the termination date in cc 59-64. Entries must be in YYMMDD order. If the outgrant is perpetual or runs for an indefinite term, enter IDEF as the termination date, beginning in cc 59, leaving cc 64 blank.
- (7) Acres. Enter in cc 65-72 the number of acres outgranted. Zero fill any unused columns; e.g., 758.7 acres would be entered as 00007587 and 00001120 would be entered for 112.0 acres.
- (8) Annual Rental Received. Enter in cc 73-78 the amount of the annual or term rental specified in the outgrant. Zero fill any unused columns; e.g., 000180 would be entered for \$180.
- (9) Recreation Code. If recreational leases (purpose codes K, L, M, or N) include a cost-sharing clause, enter "6" in cc 79.
- (10) Payment Code. If the outgrant specifies a term rental or a one-time payment, enter "T" in cc 80. If the outgrant specifies that a benefit other than rental will pass to the government, enter "B" in cc 80.

g. Key Punch Instructions are as follows:

EXPLANATION OF REQUIRED DATA

General Instructions: 1. A separate form is needed for each department.  
2. Report monies in dollars only.

Part 1, Applications Processed: This section will show only those applications processed during the reporting period. Breakout will be by type of applicant, by number, total amount claimed, and amount paid to the new applicants during the reporting period.

Part 2, Summary of Payments Made By Type: This section will show payments made during the fiscal year summarized by type. Monies paid to applicants during the fiscal year will be shown whether the application was received during the fiscal year or in a prior year,

Part 3, Summary of Progress:

- 1, Applications Pending, Including those on hand from previous reporting periods,
2. New Applications. Include those received during the reporting period (from Part 1 above).
3. Applications Completed, Include all applications finalized during the reporting period regardless of when the application was received.
4. Applications Pending. Include all applications regardless of when received, that have not been finalized by the end of the reporting period,

## INSTRUCTIONS

**Section I - Relocation Assistance Payments and Expenses.** For each of the types of assistance or payments shown in lines 1 through 8, report the total number of claims paid in column (a) and the amounts thereof in column (b). Descriptions for lines 1 through 5 and 7 through 9 are considered adequate for completion without further instructions. For line 6, report total rental assistance claims paid including rental assistance to former homeowners who elect to rent in lieu of receiving a replacement housing payment authorized by Section 203 of the Act. In the case of claimants who elect to have their rental assistance payment in installments, the total amount of the rental assistance entitlement should be reported during the reporting year in which the first installment is paid. In line 10, report the total amount of Administrative costs incurred in carrying out the relocation program including the cost of relocation assistance advisory services provided under Section 205 of the Act. Descriptions in lines 11 through 14 are considered to be adequate without further instructions.

**Section II - Real Property Acquisition Settlements Completed.** Report the number of parcels column (a) and the compensation paid column (b) for real property acquired and paid for during the reportable year. On line 15, report the total number of parcels and compensation paid for real property acquired by any method other than condemnation for reason of price disagreement. On line 16, report in the appropriate columns only tracts condemned because of price disagreement. Line descriptions for lines 17 and 18 are adequate for completion without further instructions. It is understood that this section will only include settlements completed. It excludes the reporting of parcels acquired by condemnation where settlements have not been completed. Such parcels should be reported when settlement has been completed.

\* CODES USED FOR REAL ESTATE OUTGRANT REPORT

Department Code (cc 1, cards #1 and #2)

1	Army - Military
2	Army - Civil Works
3	Air Force
4	Department of Energy
5	National Aeronautics and Space Administration
6	Other

Change Code (cc 48, cards #1 and #2)

P	Addition. This code is used to add a new header or a new detail record to the file of active outgrants. When change code "P" is used, all applicable data fields in the card must be punched.
M	Modification. This code is used to modify data on active outgrants previously reported in cc 15-51 of card number 1 and cc 49-80 of card number 2 only. When change code "M" is used, all applicable data fields in the card must be punched.
T	Termination. This code is used to transfer a number 2 card entry from the active to the terminated file when an outgrant expires according to its own terms. When change code "T" is used, data cannot be changed; the code merely drops an entry from the active file and places it in the terminated file. When change code "T" is used, only cc 1-48 need be punched.
W	Withdrawal. This code is used to change data in cc 49-80 of card number 2 and to simultaneously transfer the corrected entry to the terminated file. The termination date should reflect when the outgrant was terminated. When change code "W" is used, all applicable data fields in the card must be punched.
D	Deletion. This code is used to delete a detail entry or an entire installation from the active or terminated file. This code is used only with card number 2. If an entire installation is to be deleted, each individual detail entry under the installation must be deleted. This will automatically delete the installation header record. When change code "D" is used only cc 1-48 need be punched.

\*

Type of Installation Code (cc 49, card #1)

1	Command installation
2	Industrial installation

\* Type of Grant Code (cc 49, card #2)

- 1 Lease
- 2 Easement
- 3 License (also includes consents)
- 4 Permit (to another government agency)

Purpose Code (cc 52, card #2)

- A Agriculture. Grants for agricultural use including the growth of hay.
- R Banking. Grants issued in connection with the operation of a bank, branch bank, or banking facility.
- B Education. Grants for educational purposes.
- C Fish and Wildlife. Grants to federal or state agencies for fish and wildlife conservation.
- D Grazing. Grants of grazing rights.
- E Housing. Grants for housing.
- F Industrial-Private Manufacturing. Grants of industrial facilities for industrial or manufacturing purposes.
- G National Guard. Grants to states for National Guard training, activities.
- M Public Park and Recreation. Grants to the government, states, counties, or other political subdivision that permit the public to use the granted area for public park and recreation purposes (Priority 1, ER 405-2-835).
- K Recreation, Commercial. Grants to profit making organizations for commercial recreation purposes (Priority 1, ER 405-2-835).
- L Recreation, Private. Grants for private recreation (Priority 4, ER 405-2-835).
- N Recreation, Quasi-Public. Grants for recreational purposes to nonprofit organizations, such as the Boy Scouts, Girl Scouts, Camp Fire Girls, churches, etc., that restrict the use of the granted area to the grantee or members of the grantee's organization.
- H Rights-of-Way. Grants of easements and licenses permitting the use of federally-controlled land for road, utility, and other rights-of-way. \*

Figure 14-14 - continued

ER 405-1-12  
Change 19  
20 Jan 83

\* P Storage. Grants for storage purposes.

Z Other. All other grants.

Recreation Code (cc 79, card #2)

6 A recreation lease that includes a cost-sharing clause.

Payment Code (cc 80, card #2)

T The outgrant specifies a term rental or a one-time payment.

B A benefit other than rental will pass to the government. \*

REAL ESTATE REPORTING BY ELECTRONIC DATA TRANSFER

1. The periodic changes to each HQUSACE Real Estate status reporting system may be submitted electronically to the U.S. Army Engineer Automation Support Activity (EASA) computer.
2. Coordination between each Real Estate reporting office and its associated computer center will be required to establish local procedures to accomplish the data transfer. Since FOA computer centers have previously sent files to EASA for other HQUSACE systems, the procedure should be familiar. However, a sample JCL (Job Control Language) is shown at paragraph 5. Techniques for creating the files to be sent should be determined locally, but use of an appropriate text-editing routine for direct data entry is recommended.
3. A listing of the card images transmitted should be printed at the sending office. EASA will print a copy of the file received for HQ USACE. Each transmission must have a header card containing the Division or District code; Quarter Date, (YYMMDD); System Abbreviation; and the Transmission Date, (YYMMDD). See sample below.
4. Files have been established at EASA to store the input for the five systems. The system names, abbreviations, and catalog file streams are:

<u>System</u>	<u>System Abbreviation</u>	<u>Catalog File Stream</u>
Real Estate Outgrants	GR	P5GRPD/DATA/xx
Acquisition Progress Report	AC	P5AcPD/DATA/xx
Real Property Disposal	DP	P5DPPD/DATA/xx
Homeowners Assistance Program	HA	P5HAPD/DATA/xx
Relocation Assistance Payments	RE	P5REPD/DATA/xx

Replace XX with the appropriate reporting Division or District Code as shown in Figure 14-1.

Figure 14-16

#### DATA REQUIRED

GENERAL: A separate form is required for each department and for each installation. (Explanation- If there is more than one base closure reported, each base or installation will be reported on a separate sheet, then one sheet will be summarized by the department of the installations.)

Report payments to the nearest dollar.

These summaries will be cumulative for a Fiscal Year only.

SECTION I – Base Closure Information: Name the bases associated with current applications being processed.

SECTION II – Status of Applications/Payments: Report type of applications and payments made.

SECTION III – Status of Applications.

REMARKS – Report FHA application numbers, comments, etc.

EXPLANATION OF REQUIRED DATA

General Instructions: 1. A separate form is needed for each department.  
2. Report monies in dollars only.

Part 1, Applications Processed: This section will show only those applications processed during the reporting period. Breakout will be by type of applicant, by number, total amount claimed, and amount paid to the new applicants during the reporting period.

Part 2, Summary of Payments Made By Type: This section will show payments made during the fiscal year summarized by type. Monies paid to applicants during the fiscal year will be shown whether the application was received during the fiscal year or in a prior year,

Part 3, Summary of Progress:

- 1, Applications Pending, Including those on hand from previous reporting periods,
2. New Applications. Include those received during the reporting period (from Part 1 above).
3. Applications Completed, Include all applications finalized during the reporting period regardless of when the application was received.
4. Applications Pending. Include all applications regardless of when received, that have not been finalized by the end of the reporting period,

\* CODES USED FOR REAL ESTATE OUTGRANT REPORT

Department Code (cc 1, cards #1 and #2)

1	Army - Military
2	Army - Civil Works
3	Air Force
4	Department of Energy
5	National Aeronautics and Space Administration
6	Other

Change Code (cc 48, cards #1 and #2)

P	Addition. This code is used to add a new header or a new detail record to the file of active outgrants. When change code "P" is used, all applicable data fields in the card must be punched.
M	Modification. This code is used to modify data on active outgrants previously reported in cc 15-51 of card number 1 and cc 49-80 of card number 2 only. When change code "M" is used, all applicable data fields in the card must be punched.
T	Termination. This code is used to transfer a number 2 card entry from the active to the terminated file when an outgrant expires according to its own terms. When change code "T" is used, data cannot be changed; the code merely drops an entry from the active file and places it in the terminated file. When change code "T" is used, only cc 1-48 need be punched.
W	Withdrawal. This code is used to change data in cc 49-80 of card number 2 and to simultaneously transfer the corrected entry to the terminated file. The termination date should reflect when the outgrant was terminated. When change code "W" is used, all applicable data fields in the card must be punched.
D	Deletion. This code is used to delete a detail entry or an entire installation from the active or terminated file. This code is used only with card number 2. If an entire installation is to be deleted, each individual detail entry under the installation must be deleted. This will automatically delete the installation header record. When change code "D" is used only cc 1-48 need be punched.

\*

Type of Installation Code (cc 49, card #1)

1	Command installation
2	Industrial installation

\* Type of Grant Code (cc 49, card #2)

- 1 Lease
- 2 Easement
- 3 License (also includes consents)
- 4 Permit (to another government agency)

Purpose Code (cc 52, card #2)

- A Agriculture. Grants for agricultural use including the growth of hay.
- R Banking. Grants issued in connection with the operation of a bank, branch bank, or banking facility.
- B Education. Grants for educational purposes.
- C Fish and Wildlife. Grants to federal or state agencies for fish and wildlife conservation.
- D Grazing. Grants of grazing rights.
- E Housing. Grants for housing.
- F Industrial-Private Manufacturing. Grants of industrial facilities for industrial or manufacturing purposes.
- G National Guard. Grants to states for National Guard training, activities.
- M Public Park and Recreation. Grants to the government, states, counties, or other political subdivision that permit the public to use the granted area for public park and recreation purposes (Priority 1, ER 405-2-835).
- K Recreation, Commercial. Grants to profit making organizations for commercial recreation purposes (Priority 1, ER 405-2-835).
- L Recreation, Private. Grants for private recreation (Priority 4, ER 405-2-835).
- N Recreation, Quasi-Public. Grants for recreational purposes to nonprofit organizations, such as the Boy Scouts, Girl Scouts, Camp Fire Girls, churches, etc., that restrict the use of the granted area to the grantee or members of the grantee's organization.
- H Rights-of-Way. Grants of easements and licenses permitting the use of federally-controlled land for road, utility, and other rights-of-way. \*

Figure 14-14 - continued

ER 405-1-12

REAL ESTATE REPORTING BY ELECTRONIC DATA TRANSFER

1. The periodic changes to each HQUSACE Real Estate status reporting system may be submitted electronically to the U.S. Army Engineer Automation Support Activity (EASA) computer.
2. Coordination between each Real Estate reporting office and its associated computer center will be required to establish local procedures to accomplish the data transfer. Since FOA computer centers have previously sent files to EASA for other HQUSACE systems, the procedure should be familiar. However, a sample JCL (Job Control Language) is shown at paragraph 5. Techniques for creating the files to be sent should be determined locally, but use of an appropriate text-editing routine for direct data entry is recommended.
3. A listing of the card images transmitted should be printed at the sending office. EASA will print a copy of the file received for HQ USACE. Each transmission must have a header card containing the Division or District code; Quarter Date, (YYMMDD); System Abbreviation; and the Transmission Date, (YYMMDD). See sample below.
4. Files have been established at EASA to store the input for the five systems. The system names, abbreviations, and catalog file streams are:

<u>System</u>	<u>System Abbreviation</u>	<u>Catalog File Stream</u>
Real Estate Outgrants	GR	P5GRPD/DATA/xx
Acquisition Progress Report	AC	P5AcPD/DATA/xx
Real Property Disposal	DP	P5DPPD/DATA/xx
Homeowners Assistance Program	HA	P5HAPD/DATA/xx
Relocation Assistance Payments	RE	P5REPD/DATA/xx

Replace XX with the appropriate reporting Division or District Code as shown in Figure 14-1.

CHAPTER 15

Real Estate Resource Management

SECTION I. GENERAL

\*

15-1. Introduction

a. Purpose. This chapter provides an overview of the requirements of the Department of Defense Planning, Programming and Budgeting System (PPBS) and describes Real Estate budget formulation and execution within that context.

b. Scope. The information and procedures covered by this Chapter apply to activities funded by military appropriation or through reimbursable agreements with other agencies. The portion describes manpower addresses resources that emanate from the Civil Works program as well.

c. Applicability. This regulation is applicable to the Headquarters, U.S. Army Corps of Engineers (HQUSACE), and to the U.S. Army Corps of Engineers Divisions and Districts having real estate responsibilities.

d. References.

(1) Federal Property Management Regulations, Sub-chapter D, Section 101-21.

(2) AR 37-100-89, The Army Management Structure.

(3) AR 405-1 (being incorporated into AR 405-xx), Reimbursement for General Services Administration Space, Services and Facilities Outside the NCR.

(4) AR 405-5, Army and Air Force Basic Real Estate Agreements.

(5) AR 420-74, Natural Resources: Land, Forest and Wildlife Management.

SECTION II. PROCEDURES

15-2. Budget Formulation and Execution

a. Background. The budget for Real Estate activities is an expression of financial resources required to support this portion of

\*

ER 405-1-12  
Change 26  
29 Jul 88

\*

USACE's mission and programs for a fiscal year. The budget evolves through a series of planning and programming actions that begin many years prior to execution year. Throughout that time, the program and budget is subject to change for a variety of reasons as it undergoes review at various levels. The budget finally presented is prepared in accordance with guidance from the Office of Management and Budget (OMB), the Office of Secretary of Defense (OSD), and the Department of Army (DA) and represents the best balance of programs that can be obtained at the level of resources made available. The process is dynamic but disciplined by a structured series of events that recur on an annual basis. Many of these events do not require input from the field; however, they are included in this section when necessary to clarify the environment in which the budget is formulated.

b. Formulation.

(1) The budget cycle (for USACE-controlled programs) begins with Army Guidance in August. This document is a broad statement of policy and strategy for a five-year period. In October, Program and Budget Guidance (PBG) issued to major commands (MACOMS) by HQDA provides parallel long range resource guidance that is used in preparation of the Program Analysis and Resources Review (PARR). The PARR is prepared at MACOM Headquarters level and is submitted to HQDA as part of the Program Objective Memorandum (POM). The POM covers the five outyears and provides the mechanism whereby resources for new initiatives and changes to existing programs can be introduced into the program and budget resourcing cycle. After all PARRs are considered by HQDA, resource guidance is issued to USACE based on DA corporate decisions reached during the POM building. During the year, there may be changes in these resource levels based on revised decision by OSD, DA, Congressional action, or other events that affect the size of the Federal and Department of Defense (DOD) Budget.

(2) Annually in May-June, the Field Operating Activities (FOAs) become involved when a request is sent to each Division/District for a three-year budget called the Command Operating Budget (COB). The three years covered are the current year, budget year and program year. (The program year is the first of the five POM outyears.) Refined PBG from DA will provide resource guidance to USACE and this is transmitted to the field along with instructions for COB preparation. Districts/Divisions prepare the COB and forward it to the Resource Management Directorate (CERM) who sends the Real Estate portion to the Programs Division, Directorate of Real Estate (CERE-P), where it is examined, analyzed and consolidated prior to presentation to CERM where further incorporation will take place for all USACE requirements prior to submission to DA.

\*

ER 405-1-12  
Change 26  
29 Jul 88

\*

c. Execution.

(1) Actions that began many years earlier come into clear focus as the new fiscal (execution) year approaches. Prior to 1 October CERM requests CERE-P to provide proposed Annual Funding Program (AFP) distribution for the FOAs along with recommendations for quarterly allocation. This allocation is issued to the FOAs on a quarterly basis by Funding Authorization Document (FAD). Any requests for quarterly allocation adjustments are sent through Comptroller channels to CERM while requests for AFP are submitted through Real Estate channels to CERE-P. Requests should be submitted in writing with full justification.

(2) FOAs are encouraged to work closely with their supporting Finance and Accounting Office to ensure obligations are reported promptly and accurately and to become familiar with accounting data that supports the Integrated Command Accounting Report (ICAR) and the Data Element Management Accounting Report (DELMAR). These reports are used by CERE-P to monitor obligations, determine funding shortages/excesses, compare actual to plan, and for other management indicators. AFP is reviewed at mid-year on a corporate basis and any reprogramming takes place at this time. During the second half of execution year, a close check is kept on obligations. Any projected surplus is to be identified and reported to prevent the loss of expiring funds.

(3) Often, the Congress has been unable to erect enabling legislation prior to 1 October. In those cases, temporary authority is given in the form of a "Continuing Resolution Authority" (CRA). During the period of a CRA, fund use may be restricted. A CRA may state a rate or limit on spending, a time limitation, and may prohibit "new starts." However, lease contracts and real estate new program have not been restricted and may be obligated. The Real Estate program, including new program actions, is considered a continuing program rather than a "new start."

d. Conclusion. The preceding paragraphs provide a basic explanation and non-technical description of the cycle of events that influence most Real Estate funded activities. CERE-P is involved with this process to varying degrees depending on the level and depth of responsibility. Variations to this cycle of events and other unique aspects of each program are addressed below. Timing of events and requirements may be somewhat modified from year to year as dictated by OSD and HQDA.

15-3. Real Estate Programs.

a. The Real Estate Directorate has financial responsibility for the following programs. AR 37-100-89 should be consulted if there are any questions regarding purpose of Army funds provided.

Title	Appropriation symbol	Program Element
RPMA - Army Real Estate Administration	21.2020	722894.M7
BASOPS Leases - GSA Rent	21.2020	722896.A
BASOPS Leases - Recruiting Station Leases	21.2020	871996.A
GSA delegated buildings	47x4542	N/A
RPMA - Harvesting & Disposal of Timber	21.2020	728012.27
RPMA - Agricultural & Grazing leases	21.2020	722894.K
Homeowners Assistance Fund	97X4090	2100/2200 2300/3200
Air Force RE Administration	57.3400	404970
Minor Construction Air Force	57.3300	321/351
Army National Guard Leases	21.2065	52589.M
Reimbursable agreements with other agencies	Various	N/A

b. These programs are briefly described below.

(1) Army Real Estate Administration: This account encompasses management and administration of real estate. It covers salaries and expenses of real estate personnel; project planning; real property acquisition expenses (mapping, appraising, title evidence, negotiation etc.); compliance inspections; utilization inspections; inleasing; outgranting; disposal activities; and miscellaneous real estate activities. The program provides for real estate administrative support for the DOD Recruiting Program, US Army Reserve, Army National Guard, and Army installations.

(2) BASOPS Leases (GSA Rent, formerly SLUC): This account provides funds for General Services Administration (GSA)-managed leases for those Corps activities located outside an Army installation. Cost of leasing GSA space includes a standard charge which is the direct cost of GSA leased space and associated services based on the Fair Appraisal Rating System (FAR) plus recurring reimbursable costs (the costs of non-standard items such as keeping the building open longer than normal business hours and guards). The FOA pays for GSA recurring reimbursables directly from funds received from HQUSACE. Tenant-requested modifications are considered non-recurring reimbursable costs and are paid out of mission funds. Additional details are at figure 15-1.

\*

\*

(3) BASOPS Leases (Recruiting): CERE-P is responsible for budgeting and justifying the DOD recruiting facilities program. Estimates for the program are submitted by the FOAs on the Interactive Inleasing System (IIS) (or its successor). The IIS contains all inleasing records for the districts. These estimates are coordinated with the Acquisitions Division, Directorate of Real Estate (CERE-A), who contacts the four branches of the service to determine their requirements and reviews estimates from the FOAs. These estimates are combined with those for the GSA portion of the recruiting leasing program and submitted to CERM for inclusion in the PARR. Payment of the GSA Rent portion of the DOD recruiting leasing program is made by HQUSACE. The FOA pays for non-GSA leases, service contracts and GSA reimbursables (recurring and non-recurring) directly from funds received from HQUSACE.

(4) GSA delegated buildings. GSA has delegated maintenance and management of certain buildings to various DOD agencies including USACE. CERE-P is responsible for budgeting and paying full Rent to GSA for these buildings. Additional details are at figure 15-2.

(5) Harvesting & Disposal of Timber: This account encompasses administrative expenses of district and division offices designated to execute tinter-related actions including disposal of timber, standing timber, and timber products, as well as contract administration, inspection, staff supervision of harvesting of timber, and related personnel training costs. The timber harvest program is for Army only. Monies received from the sale of timber and lumber products are used to finance expenses incurred related to the economic production and sale of lumber and timber products. States share 40% of the net proceeds from installations located within their boundaries. Requirements to pay for expenses incurred are identified as "funded reimbursements." Beginning with the budget developed in fiscal year (Fy) 89, quarterly estimates for expenses and income will be identified by the FOAs and submitted to CERE-P in accordance with guidance provided by DA. Funding is provided FOAs on an annual basis by FAD.

(6) Agricultural Leasing and Grazing: The Corps is responsible for leasing of Army land for agricultural and grazing purposes. Monies received from leases for agricultural and grazing purposes may be used by military departments to cover administrative expenses for leasing and for financing of multiple land use programs. These receipts may also be used for maintenance, protection, repair or restoration work on leased land (erosion control, reseeding). Requirements to fund expenses are identified as "funded reimbursements." Beginning with the budget developed in FY 89, quarterly estimates for expenses and income will be identified by the FOAs and submitted to CERE-P in accordance with guidance provided by DA. Funding is provided FOAs on an annual basis by FAD.

\*

ER 405-1-12  
Change 26  
29 Jul 88

\*

(7) Homeowners Assistance Fund, Defense: This fund provides assistance to DOD military and civilian employee homeowners by reducing their losses incident to the disposal of their homes when the military installation(s) at which they are employed are ordered to be closed or the scope of operations is reduced. The Homeowners Assistance Program (HAP) operates under a two-year biennial budget cycle. In May, CERE-P requests the districts to provide information on any known base closures/realignments and to submit estimates for any known HAP programs. Requests for information are also sent to the secretaries of Army, Navy and Air Force. The HAP budget is formulated based on this information and submitted to OSD through DA. Funds are issued annually, not quarterly, by CERE-P. All requests for increases should be directed to CERE-P. Funds are not normally provided for HAP under the CRA; therefore, FOAs should not obligate funds until a HAP FAD is received. Funds are distributed to districts based on requirements identified by districts in budget estimates provided in May.

(8) Air Force RE Administration: This account finances real estate administration expenses of district offices in connection with Air Force real estate activity and includes acquisition, management and disposal operations. Work is financed on a reimbursable basis. Funds are budgeted by Air Force based on information contained in the HQUSACE COB and knowledge extracted from Real Estate Planning Reports (REPR) submitted by the districts. During execution, FOAs are requested to submit the Current Year (CY) quarterly requirements which are consolidated and provided to Air Force. A Military Interdepartmental Purchase Request (MIPR) is then issued by the Air Force on a quarterly basis. The MIPR is accepted by CERM and sent to CERE-P for preparation of distribution to the FOAs. The FOA distribution is put directly on the Air Force MIPR. The MIPR is returned to CERM for transmittal to the FOAs. Requests for changes in both AFP and allocation should be sent to CERE-P. Surplus funds should be reported immediately and all unobligated funds should be returned at the end of the year. Adjustments to obligations that generate surpluses should be identified as they occur, with funds promptly returned.

(9) Minor Construction, Air Force: This account finances payments for land, deficiency judgments, settlement reimbursements, and damage payments for property acquired by the USACE for the Air Force. Upon Air Force request, the FOAs submit a REPR on property Air Force is interested in obtaining. The REPR is submitted directly to the Air Force with a copy to CERE-A. The Air Force then issues a real estate directive requesting the USACE to obtain this property at a specified price. The Directive is sent to CERE-A who sends copies to the FOA and CERE-P. The Air Force then provides funding through comptroller channels. When funding is received a FAD is sent to the FOA. Funds are for a period of five years at which time they are revoked if no

\*

ER 405-1-12

Change 26

29 Jul 88

\*

obligations have been incurred. FOAs should insure that surplus funds are returned to CERE-P as soon as they are identified. If project funding expires before completion of the project or if initial estimates were incorrect, additional funds should be requested through CERE-A. Obligations are monitored by CERE-P on a quarterly basis. If funds are required for an upward adjustment to an expired account, FOAs have the authority to process the adjustment using "M" account funds without specific Air Force approval. FOAs should go through their F&AO for "M" account adjustments.

(10) Army National Guard: Army National Guard (ANG) funds are provided by direct allocation from the Comptroller of the Army (SAFM) to finance rental payments for national guard leases for approved buildings and land. The budget is developed by ANG although FOAs input estimates as a notation in the COB. Prior to the beginning of the FY, HQUSACE provides ANG with a copy of the "Corps Army National Guard Records" produced from the IIS which reflects current ANG leases. Based on this listing and any anticipated acquisitions/deletions ANG provides funding information to SAFM. This funding is provided to CERM quarterly on a FAD. Based on FAD, CERE-P prepares distribution of funds to FOAs and submits to CERM for distribution. FDA AFP is based on COB estimates and information contained in the IIS lease detail by FOA. Surplus funds should be returned to CERE-P as soon as they are identified. Funding requests for other than leases must be identified separately, forwarded to CERE-P, and approved individually by ANG.

(11) Reimbursable agreements with other agencies: When an interagency agreement is signed which provides funding in advance, the agency involved will send a check and a reverse SF1080 directly to FOA in the amount of the agreement. This is the preferred method of reimbursement but actual details may vary according to the individual agreement.

#### 15-4. Allocation of Manpower Authorizations

a. The manpower allocation process begins in the spring of the CY with final recommended allocations provided prior to the beginning of the new fiscal year.

b. The primary tool used by CERE-P is ENG Form 4564 input, both historical and projected. Because there are many activities for which work is performed but no work units are counted, districts are given the opportunity to state requirements for administrative activities separately.

\*

ER 405-1-12  
Change 26  
29 Jul 88

\*

c. Scheduled work units are processed through the Manpower Distribution Report feature of the Performance Analysis of Costs, Units, and Manpower System (PACUMS), which produces total manpower requirements. These numbers are compared across fiscal years to determine manpower changes. ENG Form 1685 report is used to identify current actual utilization. Utilization for the current fiscal year is verified by reviewing remaining workload and schedule accomplishments. Manpower changes from the Manpower Distribution Report are then applied to current year utilization. For the Civil Works program, output from the Force Configuration (FORCON) model is an important indicator of manpower requirements. Details of FORCON are available from your local Programs Management Office (PMO). Divisions and Districts are expected to work closely with PMOs to develop input for the annual FORCON submission and ensure that ENG Form 4564 input is fully consistent with FORCON. Unusual situations are discussed with HQUSACE Real Estate personnel and Division Planning and Control (P&C) Chiefs to validate requirements. Based on this analysis, a recommended staffing level is proposal for OMA, MCA and Civil Works. These figures are coordinated with Division P&C Chiefs and then provided to CERM.

d. If the total recommended allocation is less than or equal to current levels, the recommended allocation becomes final and is incorporated into vouchers prepared by CERM. If the recommended allocation is greater than current levels, the difference is negotiated within the HQUSACE Resource Management Advisory Committee.

e. Vouchers provided to Division offices do not separately identify the recommended distribution to Real Estate. Those decisions are made by Division and District Commanders consistent with their priorities for mission accomplishment. CERE-P will provide the recommended distribution to division offices for information purposes.

f. All spaces for support functions outside of Real Estate at districts and operating divisions are either CW or MCA and controlled by CW and E&C Directorates. For that reason those spaces are not included in the distribution provided by CERE-P to Division offices.

g. The current system used by the Real Estate community to establish manpower requirements will continue to be used until a manpower staffing standard has been approved by HQDA for the USACE Real Estate function.

## Formulation and Execution of BASOPS Leases (GSA Rent)

## a. Formulation.

(1) CERE-P is responsible for budgeting and justifying GSA Rent for the military portion of the USACE under this program element. National Guard and the European Command are also budgeted by CERE-P. All other Army MACOMs and agencies budget and justify their requirements separately. Each year GSA issues Rent estimates based on space currently assigned (as of March 15) to the USACE. These estimates are developed 18 months prior to execution year and are used as the base for computing budgetary requirements for space and related services. At the same time, GSA provides information to assist CERE-P in developing estimates for any requirements not included in the GSA Rent estimate.

(2) They also provide inflation factors which enable CERE-P to estimate charges for recurring and non-recurring reimbursable services. This information is itemized by building and includes the classification of the space, square footage, rent rate per square foot and total estimated cost for the year. (The GSA rate-setting system provides an appeal procedure if the USACE determines rates to be inaccurate or excessive. The procedures are specifically addressed in Federal Property Management Regulations.) The cost of the current space assignments is guaranteed not to increase in the budget year. The cost of projected requirements is not guaranteed because the actual rate can only be established after the building in which the space will be provided has been identified. CERE-P send a copy of the Rent Estimate to the FOAs and requests information on increases/decreases to existing leases and anticipated additions/deletions in space requirements. Based on the GSA information and data provided by the FOAs, CERE-P develops an estimate for GSA Rent and related services which is submitted to CERM for inclusion in the COB.

## b. Execution.

(1) Although CERE-P programs and budgets only for its portion of GSA rent as stipulated in the preceding paragraph the Headquarters is responsible for payment of the entire GSA rent bill for all Army activities. Army MACOMs will provide funds for their portion of the Rent bill. They must pay for all reimbursable services. Rent bills are issued quarterly, in advance, with adjustments in arrears. In addition, there is a year-end reconciliation billing which is prepared ten days before the end of the fiscal year to make final adjustments For the fiscal year. Rent bills contain the same level of detail as the Rent Budget Estimate. Bills and payments should not be adjusted to \*

ER 405-1-12  
Change 26  
29 Jul 88

\*

correct errors in estimates or actual costs. GSA Form 2972 should be used to request adjustments to GSA quarterly bills. If adjustments are not made within two quarters, GSA Form 2992 should be submitted to withhold payment.

(2) Civil-funded USACE leases are financed by FOAs.

(3) The Ft Worth District has the responsibility for the financial mechanics of the Rent program and makes all collections as well as payments directly to GSA on behalf of HQUSACE. CERE-P receives a computer tape and three hard copies of the GSA quarterly Rent bill. The tape is sent via computer to the FOAs who retrieve data pertinent to them. FOAs send an SF#1080 for the Civil portion to Ft Worth along with a summary listing showing the allocated charge between military and civil. A copy of the summary listing is sent to CERE-P along with copies of any forms sent to GSA for correction to the bill. Following are some commonly used GSA form which are available from the Regional GSA Public Building Service office:

- GSA 2957 - Used to request recurring or non-recurring type services from GSA. Form contains fund cite and certification of fund availability. Form is sent to GSA. GSA estimates cost and returns the form to the FOA where the amount is certified as a valid obligation and sent back to GSA

- GSA 2970 - Used for adjustments or corrections of the agency/bureau code, billed office address code, and the agency/bureau name.

- GSA 2972 - Used to request adjustments to space and dollars on the quarterly bills. The original is sent to GSA region with a copy to CERE-P.

- GSA 2992 - Used to withhold payment when adjustments have not been made by GSA. The original is forwarded to CERE-P along with information to support non-payment.

- GSA 2992-A Used by GSA to reply to GSA 2992.

(4) Requests for increased GSA space must have prior approval from the Director of Real Estate (CERE-ZA). Requests should be submitted in writing with full justification to CERE-ZA.

Formulation and Execution for GSA Delegated Buildings

a. Formulation: In March/April GSA requests an estimate of costs for delegated buildings. This request is transmitted to the KY CERE-P. The FOAs respond and this information is analyzed and consolidated for reply to GSA.

b. Execution.

(1) Funds will be provided by GSA through an allocation account established at the Department of Treasury. These funds will be received by CERM-B and distributed to the FOAs based on information provided by CERE-P. Funds are available for obligation as follows:

Real Property Operations - one fiscal year  
Rental of Space - one fiscal year  
Recurring Repairs - Available until obligated  
but any end-of-year unobligated balance will be  
reapportioned and made available in subsequent year.

(2) HQUSACE will be required to submit monthly reports to GSA which reflect expenditures by activity (SF 133, Report on Budget Execution) as well as an end of year report (TFS 2108 Year-End Closing Statement). FOAs will submit information to HQUSACE who will consolidate and report to GSA.

CHAPTER 16

\*

REAL PROPERTY ACCOUNTABILITY

SECTION I. GENERAL

16-1. Purpose. This chapter provides policy and procedures for the accountability of civil and military real property under the control of the U.S. Army Corps of Engineers (USACE). It does not pertain to the financial accounting of real property or to the use, condition, care, custody, or safekeeping of real property.

16-2. Applicability. This chapter applies to USACE Commands assigned a real estate mission.

16-3. References. Policy and procedures in this chapter are based on guidance contained in AR 420-17, Real Property and Resource Management, and AR 735-5, Basic Policies and Procedures for Property Accounting. This chapter should be used in conjunction with those regulations since they provide the basic policy guidance from which USACE policy and procedures are developed.

16-4. Explanation of Terms.

a. Accountability. Accountability is the obligation of a designated person to keep an accurate record of property. It is primarily concerned with maintaining formally prescribed records.

b. Real Property. Real property consists of lands and capital improvements to land. It includes, but is not limited to, land; lesser interests in land; buildings, other than portable ones; structures; roads; railways; permanent utility systems. \*

ER 405-1-12  
Change 28  
2 Apr 91

\* c. USACE-Controlled Real Property.

(1) Civil. Real property acquired or constructed for USACE civil works activities.

(2) Military. Military real property under the administrative control of USACE.

(a) Space acquired for DOD recruiting facilities is considered USACE-controlled military real property for the purposes of this chapter.

(b) Real property acquired or constructed for a military command is accounted for by that command, except as stated in paragraph 16-6b. The using service or command retains custody and accountability of excess real property until it is disposed, as stated in AR 405-90. Exceptions to that policy must be approved by HQUSACE (CERE-M). In those instances when excess military real property is transferred to USACE pending disposal, it is considered USACE-controlled military and the district's real property accountable officer would account for it until its disposal.

16-5. Accountability and Responsibility. Accountability pertains to maintaining formally prescribed property records. It is an obligation officially assigned to a specific person. Responsibility results from the possession of property. It involves a basic obligation for the proper use, care, custody, and safekeeping of property.

## SECTION II. POLICY

### 16-6. Policy.

a. All USACE-controlled real property will be accounted for; i.e., all fee, easement, and leasehold interests as well as permanently affixed structures and other capital improvements acquired for the civil and military activities of USACE. Leasehold interests with an annual rental less than \$1,000 need not be accounted for, except leases for land only.

b. USACE, in its capacity as executive agent for the DOD Recruiting Facilities Program, will account for real property acquired for recruiting offices and main stations of the military services.

c. The accountability will be maintained by the Real Estate Division in the USACE Command assigned the real estate mission for the area where the property is located. It will be continuous from the time of acquisition or acceptance of the real property by USACE until disposal or transfer by USACE. \*

\* 16-7. Real Property Accountable Officer (RPAO).

a. The USACE commander assigned a real estate mission will designate in writing a person from the Real Estate Division, other than the Chief of Real Estate, to serve as the real property accountable officer. The appointing commander may determine any qualifications felt necessary for the position.

b. The RPAO will maintain the records designated in this chapter and such other records as may be necessary to account for USACE real property or to support record entries.

### SECTION III. RECORDS

16-8. Records.

a. DD Form 1354, Transfer and Acceptance of Military Real Property, will be used by the Real Estate Division to accept accountability of real property transferred from Army or Air Force military to USACE-controlled civil or military. It will be the accountability document for such property. DD Form 1354 will also be used by the Real Estate Division to transfer accountability of USACE-controlled real property to Army or Air Force military or to other federal agencies. DD Form 1354 is prescribed in AR 420-17.

b. ENG Form 1069, Acquisition Docket Sheet, will be the accountability document for USACE-controlled land prior to approval of the real estate audit. After audit approval, ENG Form 1019, Tract Register, will be the accountability document for USACE-controlled land. Both forms are prescribed in Chapter 13 of this regulation. An automated equivalent of either form may be used. Prior to usage, the automated equivalent must be submitted to the local forms management officer (FMO) for approval.

c. ENG Form 5012-R, Real Property Record, Figure 16-1, will be used by the RPAO to record data pertaining to all USACE-controlled real property other than land. It will be the accountability document for such property. A separate form will be completed for each individual building, structure, and facility. A single form may be used, if desired, for multiple items of an identical nature at a project; e.g., anchored picnic tables, trailer pads, pumphouses, etc. Data for each real property record may be maintained in an automated format if desired (e.g., REMIS/RFMIS) rather than on ENG Form 5012-R. An automated equivalent of the form may be used provided it is submitted to the local FMO for approval prior to use. Instructions for ENG Form 5012-R are in paragraph 16-10.

\*

ER 405-1-12  
Change 28  
2 Apr 91

\* 16-9. Inventory.

a. AR 735-5 specifies that real property must be physically inventoried at least once every three years.

(1) An inventory should be performed by the RPAO to initially establish the accountability records. The RPAO should ensure the results of the inventory are reconciled with the financial accounting records.

(2) Utilization inspections of civil works real property, surveys under Executive Order 12512, and utilization inspections of facilities and office space, specified in paragraphs 8-12, 8-13, and 8-14 of this regulation, may be subsequently used to satisfy the periodic inventory requirement of AR 735-5 for accountability purposes. Similarly, acquisitions and disposals of land may be verified through the real estate audit procedures specified in Chapter 13 of this regulation.

(3) The RPAO should be satisfied that the accountability records accurately reflect the real property holdings of the USACE Command.

b. A physical inventory of USACE-controlled real property should be performed when there is a change of RPAO. The incoming RPAO will sign a certification indicating he or she has received the property accountability records from the outgoing RPAO and has accepted accountability for the property so listed. The original of the certification will be retained in the files of the Real Estate Division.

16-10. Instructions for ENG Form 5012-R.

a. Real property will be recorded at acquisition or construction cost, or best estimate if necessary, subject to reconciliation with the financial accounting records. Changes as a result of such reconciliation may be posted as a separate line entry if desired.

b. A detailed listing of installed fixtures and equipment necessary for the functional use of a building is not required; however, the capitalized cost of such items must be included in the cost of a building. Subsequent capital improvements and decreases will be posted. Non-capitalized repairs or replacements will not be posted.

\*

\* c. Complete the form as follows:

(1) Real Property Account Number: The RPAO will assign a real property account number to each project or activity. The number applies to the project or activity; it is not changed when there is a change of personnel.

(2) GSA Control Number: Enter the number for the project or installation that is reported in Block 10 of GSA Form 1166, Annual Report of Real Property Owned By or Leased To The United States.

(3) District: Enter the name of the USACE district responsible for the project or installation.

(4) Project: Enter the name of the project or installation.

(5) Description of Property: Enter a descriptor of the item of real property being reported on this record; e.g., Administration Building; Storage Building; Powerhouse; Roads and Bridges; etc.

(6) Classification of Property: If the item of real property being reported is a building, check the "Building" block and enter a code from Block 36 of GSA Form 1166 that best describes the building. If the item is a structure or facility, enter an identifying name using those listed in Block 45 of GSA Form 1166 as a guide.

(7) Part II, Acquisition: Enter information pertaining to the acquisition of the item of real property being reported on this record; e.g., Building constructed and accepted for occupancy; 1960; \$32,000. Roof replaced (capital improvement); 1980; \$10,000.

(8) Part III, Disposal: Enter information pertaining to the disposal of the item of real property being reported on this record; e.g., Building sold and removed from property; Sale; 1990; \$42,000.

(9) Part IV, Summary of Cost: Self explanatory.

(10) Part V, Dates: Self explanatory.

d. ENG Form 5012-R may be destroyed two years after disposal of the item of real property being reported on the record.

CHAPTER 7  
HOMEOWNERS ASSISTANCE PROGRAM  
SECTION I. GENERAL

7-1. Purpose. This chapter sets forth the rules and procedures to be followed in the administration of the Department of Defense (DOD) Homeowners Assistance Program (HAP). The HAP is a special relief program available to eligible military and civilian employee homeowners. It provides some financial assistance to these homeowners when they are unable to sell their homes under reasonable terms and conditions because the closure, partial closure or reduction in scope of operations (hereafter referred to as closure) at a military installation so adversely affects the real estate market. HAP is neither a procurement program nor a land acquisition program. Although HAP does provide for acquisition of dwellings under certain circumstances, there is no governmental need for this property and the government must resell the property. HAP is not a claims program in an adversary sense and there is no provision for judicial review. Therefore, in order to carry out the intent of Congress, it is essential every effort be made to ensure that each applicant is treated fairly and receives the maximum benefit as quickly as practicable and with a minimum expenditure of time and money for administration. Reasonable doubts should be resolved in favor of the applicant.

7-2. Applicability. These procedures are applicable to Headquarters United States Army Corps of Engineers (HQUSACE), all major subordinate commanders and district commanders having military real estate responsibilities. This program has worldwide application; however, no properties in foreign countries may be acquired except certain property located on a base or installation. HAP applies to members of the Armed Forces of the United States, Federal civilian employees, other employees of a non-appropriated fund instrumentality who are U.S. citizens, and Coast Guard members, who meet the eligibility requirements. Temporary employees and independent contractors and their employees are not eligible.

7-3. Authority. Public law 89-754, Section 1013, (80 Stat. 1255, 1290), as amended, authorizes the Secretary of Defense, under specified conditions, to acquire title to, hold, manage, and dispose of, or, in lieu thereof, to reimburse for certain losses upon private sale of, or foreclosure against, any property improved with a one-/or two-family dwelling which is situated at or near a military base or installation which the Department of Defense has, subsequent to 1 November 1964, ordered to be closed in whole or in part. AR 405-16 delegates and authorizes the Chief of Engineers (COE) to administer, manage, and execute the HAP in accordance with applicable laws and regulations and further delegates authority to the COE to redelegate this authority to MSC and District Commanders and to their respective Chiefs of Real Estate. Such authority has been redelegated to the MSCs and Districts and their respective Chiefs of Real Estate.

ER 405-1-12  
Change 34  
15 May 2000

#### 7-4. Responsibilities.

a. ODCSRE. The Deputy Chief of Staff for Real Estate, (DCSRE), acting for the Chief of Engineers, has been delegated authority and responsibility for the administration of HAP. The Military Division, Office of the Deputy Chief of Staff for Real Estate (ODCSRE), as the central office for HAP, is responsible for supervision, interagency coordination, development of procedures, policy guidance, and acting as a congressional liaison. The Realty Services Division is responsible for development of policy and processing of appeals forwarded from the districts and Major Subordinate Commands (MSCs).

b. Major Subordinate Commands. MSCs have been delegated the authority to perform oversight and review of district program management, and based upon that review, or in response to specific requests, to provide local policy guidance to the districts and recommend program changes to ODCSRE. MSCs also are responsible for review of appeals that have not been resolved at district level, or forwarding those appeals to ODCSRE, if resolution cannot be reached at MSC level.

c. Districts. Districts designated by ODCSRE, and the Chiefs of their real estate divisions, have been delegated the authority to administer, manage and execute the HAP on behalf of all claimants in accordance with the provisions of this regulation. It is contemplated that the district will dispose of all cases, except appeal cases on which agreement cannot be reached with the applicant. Such appeal cases will be forwarded, in turn, to the MSC and ODCSRE for consideration, and if necessary, forwarded by ODCSRE to the Deputy Assistant Secretary of the Army for Installations and Housing (DASA(I&H)) for final decision.

#### 7-5. Funding.

a. Revolving Fund Account. The following special revolving fund accounts have been established: 97x4090 – Homeowners Assistance Fund, Defense, and 97x4090.0100 – Allocation to Army. Definitive instructions and requirements are contained within Finance and Accounting regulations.

b. Appropriation, Receipts and Allocation. This fund contains money appropriated in accordance with the Military Construction Act, and receipts from the management, rental, or sale of the properties acquired. Funds required for administration of the program will be made available by DOD to the Department of the Army (DA), for reallocation to ODCSRE. Funds provided will be used for purchase or reimbursement as provided herein, and to defray expenses connected with the acquisition, management, and

ER 405-1-12  
Change 34  
15 May 2000

disposal of acquired properties, including payment of principal, interest, and mortgages or other indebtedness thereon, as well as the cost of staff services, contract services, insurance, and other indemnities.

c. **Obligation of Funds.** The purpose of this paragraph is to briefly outline how the requirements for commitments and obligations of funds are fulfilled for HAP. Funds will be committed for a period not to exceed 45 days when the government's offer to purchase the applicant's property is conveyed to the applicant. The obligation will occur upon receipt of the accepted offer returned by the applicant. Commitments for government purchase are valid for only 45 days, the length of the offer. If the government purchase is not completed, funds are to be decommitted/deobligated under HAP and made available to fund other government acquisitions.

d. **Assumptions.** If the government is assuming a mortgage, the amount of the outstanding mortgage(s) must be processed for obligation through Resource Management Office (RMO) after the deed is executed, but before the deed is released for recording. However, prior to this stage, verify the current available balance for mortgage assumption authority with the Real Estate Program Office and RMO servicing the district. The total mortgage balance of homes assumed cannot exceed the ceiling on the district Fund Authorization Document (FAD). Mortgage assumption authority is a separate limitation on the district Finance and Accounting office and is not included in any other obligation authority. Any questions concerning mortgage assumption should be directed to HQUSACE (CERM-B). The obligation to complete the acquisition takes place at the time of settlement.

#### 7-6. Provision of Information and Assistance.

a. **Secretaries of the Military Departments.** The Secretaries of the Military Departments and the Directors of Defense Agencies are responsible for disseminating information on the program, rendering assistance to applicants, receiving and verifying statements regarding employment, and forwarding applications to the appropriate district after the program is approved. The personnel officers of other Federal agencies having custody of an applicant's personnel records will verify statements regarding employment. If personnel files are not readily available, documentation such as PCS orders, discharge orders, SF50s, or other official documents may be used to establish eligibility.

b. **Applications.** Applications for Homeowners Assistance, DD Form 1607, have been distributed to DOD installations and activities. The application explains the objective of the program, eligibility requirements, benefits available, and procedures to be followed in seeking assistance. DD Form 1607 is used to submit essential data needed to obtain requested assistance.

ER 405-1-12  
Change 34  
15 May 2000

7-7. Overseas Bases. Personnel employed at or near overseas installations are eligible to receive HAP benefits. For property located off-post, one is eligible to receive private sale benefits after the property is sold. For housing located on-post, whether it is sold or not, one is entitled to receive financial compensation based on a specific statutory formula, even though government acquisition is not an option.

## SECTION II. DEFINITIONS

7-8. Definitions. Unless otherwise defined in this chapter, the following terms and phrases are defined:

a. The Act. The “Act” refers to Section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966, Public Law 89 754 (80 Stat. 1255, 1290), approved 3 November 1966, as amended.

b. Base Closure Action “In Part.” A base closure “in part” is defined as an action announced publicly by DOD or a component thereof, which involves one of the following: (1) termination of a separate and distinct mission or function at an installation, or (2) permanent relocation of a military unit from an installation, other than from an installation which includes in its basic mission the support or “homeporting” of various military units and has historically experienced repeated and sharp fluctuations in aggregate personnel strength.

c. Base Closure Action “In Whole.” A base closure “in whole” is defined as an action announced publicly by the DOD or a component thereof, which involves the complete closing of an military base or installation, or termination of all existing functions (other than caretaker functions) at an installation.

d. Closure or Reduction Action. A closure or reduction action, as contemplated by the Act, is defined as a publicly announced action by DOD, or a component thereof, which involves complete or partial closure of an installation, or reduction in the scope of operations.

e. District Commander. The term “district commander” means any district commander or his chief of real estate.

f. Employment Near the Installation. For otherwise eligible personnel whose place of duty is not on the installation, employment or assignment within a normal commuting distance of an installation will be considered to be “near” an installation.

ER 405-1-12  
Change 34  
15 May 2000

g. Equity. The remaining interest belonging to an applicant who has secured debt(s) with his/her dwelling, or the surplus of value which may remain after the dwelling has been disposed of for the satisfaction of such debt, or the amount or value of the dwelling above the total secured debt.

h. Housing Market Area. The housing market area is a geographic area in which the supply/demand of dwelling units is in competition based on available transportation facilities, local commuting habits, and the pattern of urban development. Location of the employees dwellings affected by the announced action should be considered in determining the market area.

i. Installation. Installation means a base, camp, post, station, yard, center, homeport facility for any ship, or other activity under the jurisdiction of the Department of Defense. Such term does not include any facility used primarily for civil works, rivers and harbors projects, or flood control projects.

j. Liquidation. Satisfaction of the applicant's primary mortgage and such other eligible debts secured by the applicant's dwelling so that title is passed to the government with no money encumbrances.

k. Location of Dwelling Property "at or near" the Installation. Dwellings located within the normal commuting distance of an installation will be considered to be "at or near" that installation.

l. Market Impact Zone. The market impact zone is defined as a residential district, neighborhood, or subdivision within the housing market area, or a category of dwellings by price, which is sufficiently impacted by an announced action to enable homeowners to qualify for assistance. The market impact zone should normally be a finite geographic area. Applicant dwellings which fall outside a predetermined market impact zone may be included depending on individual factors and circumstances, but may require an amendment to the original impact study. It is recognized that in many cases only a portion of a market area, or dwellings in a certain price bracket, will be adversely affected by an announced action. An approved market impact zone is identified in the program approval letter.

m. Normal Commuting Distance. Normal reasonable commuting distance is to be determined from all relevant factors including, but not limited to, geography, commute patterns, demographics and availability of local transportation and will be defined in each program approval letter.

n. Public Announcement Date. The public announcement date is the date the

ER 405-1-12  
Change 34  
15 May 2000

Secretary of Defense or the Secretary of the military department concerned notifies the Committee on Armed Services of the Senate and the Committee on National Security of the House of Representatives of the proposed closing or realignment of an installation under 10 U.S.C. 2687. It is also the date that a partial closure, which includes a reduction in scope of operations, has been announced by DOD or a component thereof. In some instances, multiple announcement dates may be required due to multiple reductions in force, or DOD announcements and subsequent Base Realignment and Closure Commission recommendations. Any requests for multiple public announcement dates must be submitted to ODCSRE for determination.

o. Realignment. A realignment includes any action which both reduces and relocates functions and personnel positions, but does not include a reduction in force resulting from work-load adjustments, reduced personnel or funding levels, skill imbalances, or other similar causes.

p. Reasonable Effort to Sell. Terms, such as “reasonable effort to sell,” or similar phrases, relate to the amount of time available to the applicant (by direction of the employer or by personal choice) to sell the dwelling. Applicants should not be encumbered by a requirement to market the property beyond a reasonable time. This permissive definition of “reasonable effort to sell” is not to be construed as encouragement for private sale below apparent market value. Evidence of the applicant’s efforts to sell should include a signed statement detailing his/her efforts to sell the house privately, along with a copy of receipts for advertisements placed in local newspapers or a copy of the listing agreement with a real estate broker. The applicant accepts the burden of demonstrating that when an offer is rejected it is because the offer was not reasonable.

q. Reduction in the Scope of Operations. A significant reduction in the scope of operations is defined as an action publicly announced by DOD, or a component thereof. This involves the permanent elimination of military or Federal civilian personnel from an installation, but does not necessarily involve, as in the case of a closure, termination of any mission or function, permanent relocation of any military unit, or permanent closing of all or part of the physical plant. A Reduction-In-Force, as defined in AR 5-10, Reduction and Realignment Actions, is a reduction in the scope of operations.

r. Sale. The term “sale” means an executed exchange of title and possession of real property for consideration of determinable value. A private sale is deemed to have occurred once legal title and equitable title have passed to the buyer.

s. Program approval letter. A program approval letter is prepared by ODCSRE and submitted for approval by the DASA (I&H). It will set forth the applicable closure

ER 405-1-12  
Change 34  
15 May 2000

date(s), market impact zone, and affected installations. Such letters will normally provide that amendments to the letter may be made by the Deputy Chief of Staff for Real Estate or his designated representative.

ER 405-1-12  
Change 34  
15 May 2000

### SECTION III. ECONOMIC IMPACT

#### 7-9. Announcement of Base Closure or Reduction.

a. Initial Actions. As soon as possible after a public announcement of a closure or realignment of an installation within its jurisdiction, the district will send a letter to the Commander of the installation briefly explaining HAP benefits, how a program is implemented, and information the district will need from the installation. A point of contact within the district should also be included. Follow up telephone calls to the installation's personnel officer (IPO), public affairs office (PAO) and directorate of engineering and housing (DEH) should be made.

b. Collection of Real Estate Market Data. The district should begin to gather and assemble real estate market data on pre-announcement market activity in the general geographic area of the potentially affected installation. Such data may be obtained from the installation housing office, local Board of Realtors' multiple listing service (MLS), real estate agents, real estate appraisers, mortgage brokers, local tax assessors, county courthouse records and utility companies. Individual appraisals will not be required until the district determines that an adverse market impact has begun or appears imminent.

c. Record of Potential Impact. Districts will maintain a file documenting potential impacts from the date of announcement to the date a HAP is approved or denied. The file must include documentation of the district's actions in monitoring the market. Newspaper articles or press releases from DOD and/or the installation should be requested from the PAO in order to establish a public announcement date.

d. Potential Impact Report (PIR). Within 30 days after the announcement, a PIR will be submitted to ODCSRE estimating the resulting impact on the real estate market. PIRs will include:

- (1) Total installation population and affected area population;
- (2) Estimated number of military and civilian personnel affected, listed by rank/grade level; including contractors and other personnel who will not be eligible applicants but would contribute to adverse market conditions;
- (3) Estimated number of homeowners in each category, military and civilian;
- (4) Estimated number of personnel involved in routine transfers each year;
- (5) Current and projected real estate market conditions;

ER 405-1-12  
Change 34  
15 May 2000

(6) Average price of houses in the affected area;

(7) Other proposed actions by private and/or Federal employers that might also affect the impact or increase the number of applications;

(8) The estimated impact; and

(9) If the installation has prepared an Economic Impact Study (EIS) or Environmental Assessment (EA), a copy should be included.

(10) The estimated cost. (See Addendum 1).

e. PIR Updates.

(1) If the district finds the announced action will probably not adversely impact the market, the district will continue monitoring the market with annual reports to ODCSRE until relieved of this requirement by ODCSRE.

(2) If it is determined the announced action may have an adverse impact in the area, the district will prepare a Market Impact Study (MIS) within 90 days in lieu of PIR updates.

f. Market Impact Study (MIS). See Addendum 2 for format. District will forward the report, along with a recommendation for approval or denial of a program, to ODCSRE within 90 days of identifying a potential program. If no impact has been shown for the installation, updates to the MIS will be furnished not later than every six months until an impact is evident, or ODCSRE directs otherwise. The report, must address the following:

(1) Element No. 1: The data gathered must support a conclusion that affected personnel will be unable to sell their homes upon reasonable terms and conditions. This conclusion will include part or all of the following information:

(a) A decline of at least 5 percent in the market value of houses in areas where personnel affected by the announcement reside as measured by one or more market indicators.

(b) Appraisals of at least six houses in market areas with a population under 50,000, and 12 houses in market areas over 50,000, in a cross section of prices and areas, will be necessary to gauge the effect on market value. The appraisals should estimate the

ER 405-1-12  
Change 34  
15 May 2000

fair market value (FMV) of each house before the announcement (six to twelve months prior), on or immediately before the public announcement date, and current appraisal date;

(c) A significant increase in inventory of unsold houses after the announcement as compared to the same months or quarters in the previous four years prior to the announcement;

(d) A significant increase in area foreclosures, particularly Department of Veterans Affairs (DVA) loans, as compared to four years prior to the announcement;

(e) A decrease in the number of home sales when compared to the same months or quarters in the previous four years prior to the announcement;

(f) An increase in the average number of days a house remained on the market after the announcement as compared to the same time in the previous four years;

(g) Number of building permits issued for new homes compared to same period in the previous four years prior to the announcement, and

(h) The inability of affected personnel to sell their homes for the amounts of existing mortgages. Complete a Multiple Regression Analysis for large metropolitan areas comparing the current data to same time periods in the four years prior to the announcement.

(2) Element No. 2: There must be a causal relationship between the announced closure or reduction and the adverse market conditions. Although the closure or reduction may not be the only reason for the current market conditions, the data collected must clearly reflect an incremental downward trend in the market as a direct result of the announced actual closure or reduction.

(3) The above two elements together should prove or disprove a market impact; however, there are other statistics and information that may support approval or denial of a HAP. The following should be addressed in the MIS:

(a) Number of affected personnel and homeowners in relation to area population;

(b) Rental occupancy rates; on the increase or decline;

(c) Unemployment rates;

ER 405-1-12  
Change 34  
15 May 2000

(d) Number or percent of new homes for sale;

(e) Whether a rise in interest rates or availability of mortgage money relates to the significant decline in the market;

(f) Any other factors affecting the real estate market, i.e., sales/resales; sales of dwellings that sold near the announcement date as compared to the resale of the same dwelling at the current date.

(4) In addition to a discussion of the factors demonstrating an adverse impact, charts should be furnished showing the timing of adverse market conditions as related to the public announcement date, and where appropriate, the effect of the actual closure or reduction on the market.

(5) Based on the data compiled for the MIS, the normal commuting distance for homeowners at the installation should be addressed and furnished as part of the report.

(6) Estimated cost of a program should accompany the MIS. This estimate should follow the budgeting format provided separately by CERM-B. This estimate should be based on factual information; i.e., number of estimated homeowners, as well as the average price of homes owned by affected personnel.

g. Market Impact Reports. A Market Impact Report (MIR) may be used to expand the area of eligibility for HAP applicants who reside outside the market impact zone of an approved MIS.

(1) Districts will make a determination regarding the normal commuting distance for each installation under their purview. The normal commute should be identified in miles or time from an installation. A normal commute may be dependent upon a number of factors. The factors include, but are not limited to, geography, commute patterns, demographics and availability of local transportation. The District Chief of Real Estate is authorized to approve the normal commuting distance for each affected installation. Each District must provide the normal commuting distance for each currently active program to CERE-A.

(2) For individuals assigned and commuting on a daily basis to the affected installation, whose dwellings are outside of the pre-approved market impact area, but within the normal commuting distance of the installation, eligibility should be considered if there has been at least a five percent decline between the prior fair market value and the current fair market value, and this decline was the result of the actual or pending closing of such base or installation. The decline in value will be determined by appraisals of the

ER 405-1-12  
Change 34  
15 May 2000

individual homes. The causal relationship must be shown by at least one of the criteria as identified in the MIS criteria. A MIR may be used to approve multiple units at one time. The District Chief of Real Estate has authority to approve eligibility for such individuals.

(3) A MIR establishing the causal relationship of a market decline must be completed for groups of individuals, (more than five); however, prior to completing the MIR, appraisals must establish that the dwellings declined in value at least five percent between the prior fair market value (PFMV) and the current fair market value (CFMV). The district must make a finding of the direct causal relationship between the announced closure or realignment (DOD action) and the adverse market conditions.

(4) A MIR must prove two factors:

(a) The causal relationship between the installation closure and realignment and the decline in real estate values in a specific area, and

(b) A decline of at least five percent in the market value of an applicant's dwelling.

(5) A MIR must include a statement that the DOD announcement of closure or realignment caused, or contributed substantially to the decline in market values in the area, and include the following:

(a) A description of the area and its boundaries;

(b) Distance from the installation;

(c) Number of affected homeowners in the area, if known, and

(d) A minimum of one of the criteria as found in Section III(1)(a) through (g) of the MIS criteria, and any other factors as found in Section III(3)(a) through (g) affecting the real estate market.

(6) A minimum of one property must be appraised in the area, and ordinarily that property will be the one owned by the applicant who initiated the MIR. The appraisal should estimate the prior fair market value of the dwelling on or immediately before the announcement date, and the current fair market value.

h. Announcement of Program Approval, Denial, Extension, or Termination. Announcement of such actions should be coordinated with the installation and the appropriate congressional delegation prior to release.

ER 405-1-12  
Change 34  
15 May 2000

#### SECTION IV. ELIGIBILITY

7-10. Requirements. An applicant must meet the requirements set forth below to be eligible for benefits under an approved HAP:

a. Type of Employment or Service. The applicant must be a member of the Armed Forces; a Federal employee; or an employee of a Non-appropriated Fund Instrumentality (NAFI) operated at, or in connection with, the affected installation, who is a U.S. citizen. Temporary employees serving under a time limitation, including reservists serving less than 180-consecutive day tours (10 U.S.C. section 101 (d)(6)(a)), and private contractors and employees of private contractors are not included.

b. Place of Employment. The applicant must have been:

(1) a member of the Armed Forces assigned at or near the installation;

(2) a Federal employee employed at, near, or in connection with the affected installation;

(3) an employee of a Non-appropriated Fund Instrumentality (NAFI), operated at or in connection with the installation, or

(4) a civilian employee, or NAFI employee who is a U.S. citizen, serving overseas at the time of the announcement, who is entitled to reemployment rights at the affected installation.

c. Time of Employment. The applicant must have been:

(1) assigned to, or employed at, near, or in connection with the installation at the time of the announcement;

(2) transferred, or terminated as a result of a Reduction-In-Force, within six months prior to the public announcement;

(3) transferred from the installation or activity on an overseas tour within three years prior to public announcement of the closure action;

(4) a member of the Armed Forces transferred from the installation within three years prior to the public announcement, and in connection with the transfer, informed of a future, programmed reassignment to the installation, or

ER 405-1-12  
Change 34  
15 May 2000

(5) serving overseas as a Federal employee, with existing reemployment rights to the affected installation at the time of the announcement.

d. Owner-Occupant.

(1) At the time of the public announcement, or at the time of transfer or termination giving rise to eligibility, the applicant must have been either: the owner and occupant of property improved with a one- or two-family dwelling, situated within a normal commute of the affected installation; or, have vacated the owned dwelling as a result of being ordered into on-post housing within six months prior to the announcement.

(2) Spousal ownership is allowed, where either the applicant or a spouse is the fee simple owner of the property. Applicant must have been married to spouse at the time of the announcement.

(3) Where the applicant has an ownership interest with someone other than a spouse, the remaining owners must deed their interest to the applicant prior to government acquisition.

(4) When the applicant has an ownership interest with someone other than a spouse, private sale benefits will be paid in accordance with the amount of interest the applicant has in the property.

(5) Applicants must hold fee simple title or have a contract to purchase in fee simple a qualifying residential dwelling, unless the dwelling is part of a cooperative association. Members of the Armed Forces or Federal civilian employees may be considered owners of property without regard to the technical form or description by which an ownership interest is evidenced: provided, that, consistent with local practices and procedures, the applicant can be shown substantially to have the rights and duties of a person with an ownership interest in the property, e.g., depending on relevant circumstances an applicant who holds title to a long-term ground lease rather than to the fee.

(6) Ownership interest in a cooperative home ownership association will be recognized under the cooperative home ownership laws of the State where the affected property is located. Ownership of a mobile home constitutes home ownership if the mobile home is affixed to the land in accordance with local and state laws and regulations, and the underlying realty is held in either fee simple, long-term lease (27.5 years or longer), or contract-to-purchase. The interest of a mere security holder, whether by mortgage, deed of trust, or other security instrument, does not constitute an ownership

ER 405-1-12  
Change 34  
15 May 2000

interest for purposes of HAP.

(7) An applicant who was the owner, but not the occupant at the time of announcement, due to temporary absence i.e., a valid governmental purpose such as temporary duty, is considered eligible if the applicant would have returned to the house after the temporary absence.

(8) An applicant may meet the owner-occupancy requirement for a dwelling in the market impact zone of an approved program, while meeting the employment requirement of a different approved program, provided that the applicant commutes from the dwelling for which compensation is sought on a daily basis to the affected installation. The prior fair market value is to be determined from the public announcement date of the HAP where the dwelling is located.

e. Relocation or Financial Hardship. As a consequence of the closure, an applicant must relocate because of military transfer or acceptance of employment, or be unemployed, not as a matter of personal choice, and able to demonstrate such financial hardship. Additionally, for reasons other than the closure action, one may be eligible for benefits if they relocate, due to transfer, reassignment or involuntary termination of employment.

(1) For purposes of satisfying the relocation requirement, the applicant must relocate because of military transfer or acceptance of employment beyond a normal commuting distance from the dwelling for which compensation is sought. The new place of residence must result in a decreased commute distance as identified in the Joint Travel Regulation (JTR). The distance from the new place of residence to the new place of employment must be a shorter distance than the distance from the dwelling for which compensation is sought to the new place of employment. However, districts have the discretion to determine distances based upon local commuting patterns. (See paragraph 7-8f.(5)).

(2) Financial Hardship. As a consequence of the closure or realignment, the applicant's employment or service must have been terminated. The applicant need not relocate in order to be eligible under this subparagraph, but must meet the following additional requirements:

(a) As a result of such termination, the applicant must be unemployed, not by personal choice, and be able to demonstrate financial hardship, and unable to meet the mortgage payments and related expenses. Financial hardship due to unemployment in the area of the affected installation is a determination that must be made by the district. The applicant may be considered unemployed even though he/she was offered a

ER 405-1-12  
Change 34  
15 May 2000

comparable position at another location beyond normal commuting distance. In support of the hardship allegation, the applicant is required to state why employment is not available or has not been accepted, the amount and frequency of all income, amount of debts, number and amount of all installment payments, including mortgage payments in arrears. Where current income for the 90-day period preceding the date of application is less than the current enforceable obligations against the applicant, including mortgage payments, it may be determined that unemployment and financial hardship, as required by the Act, have been established. Determination of hardship is to be based upon the relationship between income and obligations prior to and after termination of employment. Obligations incurred after termination of employment will not be included in the computations to establish hardship. The financial worth of the applicant need not be taken into account. In making the hardship determination, doubtful cases should be resolved in favor of the applicant.

(b) Applicants requested to furnish supporting information to establish financial hardship will be given sufficient notification of the provisions of the Privacy Act of 1974

f. Termination or Transfer. The definition of termination or transfer varies according to whether it is a consequence of the closure, or it is for reasons other than the closure. In either case, the applicant must relocate beyond a normal commuting distance from the dwelling for which compensation is sought.

(1) Personnel Affected by the Closure Action. If the installation is closing entirely, all personnel will be affected eventually as a consequence of the closure as all positions will be terminated. If there is less than an entire closure, only certain personnel will be affected. The issue is whether one's position has been or will be terminated because of the closure action. If this is the case, one may elect to retire or not to reenlist; voluntarily or involuntarily resign from a position; elect to accept other employment, i.e., through normal rotation, reassignment or transfer.

(2) Personnel Not Affected by the Closure Action. If one's position at an installation is not affected by the closure action, one may transfer, be reassigned or have their employment involuntarily terminated. This includes normal rotations and involuntary retirements, which are not a result of the announced action.

g. Employees who retire and relocate beyond a normal commuting distance will be presumed to have relocated in order to seek employment and, therefore, will be eligible for benefits.

## SECTION V. BENEFITS

ER 405-1-12  
Change 34  
15 May 2000

7-11. Types of Benefits.

a. Private Sale.

(1) For dwellings privately sold, eligible applicants may be compensated for the difference between 95 percent of the appraised fair market value (FMV) of the property prior to the announcement date, and the appraised FMV of property at the time of sale, or the sales price, whichever is greater. Closing costs are reimbursable for private sales occurring after 5 October 1994. Closing costs reimbursable under chapter 14 of the Joint Travel Regulation (JTR) are eligible for reimbursement under the HAP. Payment of closing costs may be made to individuals who elect to sell their homes privately, but do not receive a cash payment under the private sale option. However, if the program implementation letter advises that applicants must suffer a loss to receive benefits, this loss must occur to receive reimbursement for closing costs for private sale benefits.

(2) When the applicant has sold their property for less than the mortgage balance (a short sale), and the mortgagee forgives any remaining obligation, private sale benefits will be calculated in an amount not to exceed the difference between 95 percent of the appraised FMV prior to the date of the announcement date and the total of the short sale plus the amount of the forgiven obligation. Reimbursement for closing costs will be calculated under paragraph 7-29, below. If the difference between the sales price and the remaining obligation is covered by a promissory note, payment should be made directly to the mortgagee. If the benefit payment is not sufficient to satisfy the promissory note, the applicant must pay the difference. The mortgagee must be paid and a release of liability obtained prior to any benefit payment directly to the applicant. (See paragraph 7-29 a. and b.).

(3) Benefits available in connection with off-base overseas property are limited to private sale relief. In the case of private sale of property located on an overseas installation, the formula set forth in paragraph b(4) below is applicable, except that in computing benefits due, the sale price of the property will be added as a deduction under part (ii) of the formula.

(4) Where the district determines that improvements on the subject property have been destroyed or damaged by 75 percent or more by acts of God, theft or vandalism, fire, flood, and/or other like casualty, after the date of the public announcement, the applicant will be entitled only to private sale benefits. The government will not purchase the applicant's land. Benefits will be computed as follows:(a) Determine the prior fair market value (PFMV) of the land and improvements in an undamaged condition.(b) Determine the current value of the land and improvements in an undamaged condition.(c) Multiply the prior undamaged value, (a), by 95 percent and deduct the current value (b);

ER 405-1-12  
Change 34  
15 May 2000

this is the amount of benefits to be paid to the applicant. Applicants will also be reimbursed for closing costs in accordance with subparagraph a(1) above.

(5) Where the district determines that the improvements have been damaged after the announcement to the extent of 25 percent or less by acts of God, theft or vandalism, fire, flood, or other like casualty, the applicant will be notified that they may elect to receive benefits on the basis of a private sale, as computed above, or sell the property to the government on the following basis: Multiply the PFMV by 75 percent and deduct the amount or percent of damage calculated on the current value in the undamaged condition less the amount of insurance payments received by applicant for the loss. Applicant may sell to the government for the amount of the outstanding mortgages, provided that the damages are repaired, or if insured, assignment of any insurance recovery for repairs may be made to the government.

(6) Where the district determines that the improvements have been damaged after the announcement by acts of God, theft or vandalism, fire, flood, or other like casualty, more than 25 percent but less than 75 percent, the applicant will be notified that they may receive benefits on the basis of a private sale, as computed above. Purchase of this property by the government will require the approval of ODCSRE. If the applicant desires to sell their property to the government, the district will prepare a disposal plan for submission to ODCSRE.

b. Government Purchase.

(1) An eligible applicant may elect to sell the property to the government and receive, as the purchase price, an amount not to exceed 75 percent of the FMV prior to the date of the announcement, or the current total amount of outstanding mortgages, whichever is greater. Mortgages refinanced after the announcement date are accepted if, at the time of government acquisition, the balance does not exceed what it was at the time of refinancing. Eligible applicants may also be reimbursed for mortgage interest, property insurance and taxes, from the date of receipt of the application, or the date the dwelling is vacated, or the date of program approval, whichever is later through the date of acquisition. (See paragraph 7-29d.)

(2) Junior mortgages or equity loans secured by the premises which are existing and current at the time of the public announcement are subject to the same limitations as primary mortgages.

(3) When the improvements are damaged, whether undiscovered or undisclosed, after determination of benefits under a government purchase, but before the closing, the purchase will be recalculated using the formulas set out in paragraphs 7-11a(4)(5)(6).

ER 405-1-12  
Change 34  
15 May 2000

Applicant may repair, or assign any insurance proceeds sufficient to cover the cost of repairing the damage to the government prior to being entitled to government acquisition.

(4) Eligible owners of property located on an overseas installation who are unable to find a purchaser for the property may surrender their interest in the property to the government and be paid the following amount: 90 percent of the sum of the purchase price of the dwelling and improvements thereon, and all costs of ownership, including interest on notes, and cost of utilities, service, maintenance and insurance; less the amount equal to the total of all housing allowances received from the government during ownership and occupancy of the dwelling, plus rents or other benefits collected. However, the maximum compensation shall not exceed 90 percent of the unamortized portion of the cost of the property, including improvements, at the time ownership is terminated, as reflected in the amortization schedule, relating to such property. The government may not acquire overseas off-post property.

(5) For refinanced mortgages refer to paragraph 7-29g.

c. Foreclosure or Deeds in Lieu of Foreclosure.

(1) If foreclosure proceedings have commenced, an applicant may elect to receive either foreclosure benefits or private sale benefits. Foreclosure benefits may be paid directly to the applicant to reimburse for foreclosure costs paid by the applicant, or paid to third parties on the applicant's behalf. These costs may include direct costs of judicial foreclosure, expenses and enforceable liabilities according to the terms of the mortgage or promissory notes, and the amount of debts, if any, established against the applicant by a Federal agency for loans made, guaranteed, or insured by such agency following liquidation of the security for such loans. Any foreclosure entered into after the program approval date must have an enforceable liability in order for the applicant to receive benefits. Benefits may be paid to restore VA eligibility.

(2) Conveyance of a residence by deed in lieu of foreclosure is considered a private sale. However, if an applicant is required to execute a promissory note as a condition precedent to acceptance of a deed in lieu of foreclosure, and foreclosure proceedings have commenced, the applicant can elect between private sale and foreclosure benefits. Outstanding judgment liens, encumbrances of a personal nature, or junior mortgages acquired after the announcement date, will not be paid.

(3) Foreclosure benefits are not available in foreign countries; however, foreclosures or a procedure similar to a deed-in-lieu of foreclosure may be considered a private sale and computed as such.

ER 405-1-12  
Change 34  
15 May 2000

(4) In situations where the insuring agency indicates the foreclosure is a “No Bid,” the agency does not reacquire the dwelling, but makes a partial settlement with the lien holder. It is possible that the sale of the dwelling by the lien holder will not completely satisfy the balance on the mortgage. In “No Bid” situations, a settlement with the insuring agency and the lien holder may be necessary, with a release obtained from each.

(5) If private sale benefits have not been paid, an applicant may request foreclosure assistance. If the time period for filing has elapsed, the case will be forwarded to ODCSRE for approval to reopen the file. If private sale benefits were paid, the beneficiary may not later apply for foreclosure benefits in the event that he/she is liable upon the purchaser’s foreclosure.

(6) The foreclosure must have commenced on or after the public announcement date. The date of commencement of foreclosure is to be determined under applicable state law.

(7) VA Compromise sales, where the applicant signs a promissory note, will be treated as foreclosures for the purpose of paying benefits. The veteran and the VA agree to a sale of the property to another party at the current fair market value, as determined by a VA appraisal. VA will pay off the mortgagee to eliminate the veteran’s obligation to the mortgagee. The difference between the sale price and the remaining obligation is covered by a promissory note. The HAP benefit will be the pay off of this note. If VA waives payment of the promissory note, the applicant may elect to receive private sale benefits but the amount of the debt waived is added to the sale price of the property.

#### 7-12. Property Subject to Mortgages.

a. Grant of Release. If the applicant is due compensation for private sale losses, the district must obtain written documentation that the mortgagee has released the applicant from their liability. Applicants will be advised that private sale benefits or reimbursement for closing costs cannot be made until the mortgagee is paid off. Documentation, such as a full reconveyance or letter from the mortgagee, releasing the applicant from any liability under the mortgage is required. This is a statutory requirement for Federally insured mortgages and is a matter of policy for other mortgages.

b. VA Loans. For VA loans made prior to 1 March 1988, the Department of Veteran’s Affairs issues the release. For loans made on or after 1 March 1988, the mortgagee issues the release.

ER 405-1-12  
Change 34  
15 May 2000

## SECTION VI. APPLICATION PROCESSING PROCEDURES

7-13. Acceptance of Applications. The district will accept applications for HAP benefits. Application numbers may be assigned, but applications will not be processed until DASA (I&H) has approved a program. Potential applicants should be advised that in the early stages of a closure or realignment action, adverse housing market impact may not be immediate. Indicators such as sales prices, increased inventory and decreased sales, may initially be inconclusive as to whether the closure or realignment has caused a depressed or stagnant market. The applicant's experience in trying to sell his/her property may be the best early indication of the lack of a market. The applicant must be advised that the government cannot acquire the property or process any application for benefits until a determination of adverse economic impact has been made and a program has been approved. The applicant should further be informed that the public announcement date, not the date of the finding of applicability, will be used retroactively to set eligibility.

7-14. Application Form (DD Form 1607). If the DD Form 1607 does not provide all of the information required to process an application, the applicant may be requested to provide supplemental information. Addendum 3 is a Privacy Act Information Statement that should be furnished to the applicant whenever information is requested.

7-15. Filing Period. Applications for HAP benefits should be presented to the appropriate district within the time frame authorized by the directive approving the program at the installation. Districts may receive late applications submitted up to six months after the approved time period with appropriate justification. MSCs may receive late applications for six months after the district's extended approval period with appropriate justification. Any application filed after this time must be submitted to ODCSRE, WASH DC 20314-1000, with an explanation and justification for late filing. ODCSRE will make determinations, on an individual basis, as to whether late applications may be accepted. Only ODCSRE may disapprove late applications.

7-16. Review of Application. After a determination has been made that the applicant meets the appropriate eligibility requirements stated in Section IV of this chapter, the district will verify the applicant's employment. Incomplete applications will be returned in a timely manner for proper completion.

7-17. Ineligibility. When an applicant fails to meet any of the eligibility requirements (see Section IV), no further action will be taken on the application except to notify the applicant in writing of his/her ineligibility, and of the procedure for appeal.

7-18. Certified Mail. In sending official notifications to applicants, districts may use

ER 405-1-12  
Change 34  
15 May 2000

certified mail, return receipt requested, for delivery of decisions that may be disputed. Use of overnight mail is authorized for delivery of deeds, closing documents, and payments.

7-19. Withdrawn, Closed, and Reopened Applications.

a. **Failure to Accept Benefit Amount.** After the district advises the applicant of the benefit amount, the applicant will be given 45 days to either accept the benefit or appeal. If there is no action within the 45-day period, the application will be considered withdrawn.

b. **Applicant's failure to respond to Requests for Information.** Where an applicant has failed to respond after 45 days to requests for additional information, the district shall advise the applicant in writing that the application is considered withdrawn. Applicant will also be informed of the specific time limitation within which an application, or request to reopen a file, must be made.

c. **Ineligibility.** If it is determined that an applicant is ineligible for benefits, or that a private sale applicant is eligible under the program but is not entitled to benefits, and no appeal has been filed within 180 days from the date of delivery of written notice of such decision to the applicant's last known address, the case will be considered closed.

d. **Private Sale after Application for Government Acquisition.** If the applicant elects government acquisition and then sells the house privately before government acquisition occurs, the application may be processed as a private sale, regardless of the time limitations for filing. The applicant must notify the district in writing of this decision, and furnish necessary documentation of the sale.

e. **Withdrawal of Application to Pursue Private Sale.** An eligible applicant may decide to withdraw their application to pursue a private sale. They may later decide to sell the house to the government as long as the request to reopen the file is made before the program expires. Requests to reopen files will be processed in accordance with paragraph 7-13 above.

f. **Action Taken Following Determination of Appeal.** If an appeal has been filed, the case will be considered closed once action has been taken in conformity with the final decision made on appeal, as prescribed in the appeal procedures. See Section X.

g. **Reopening of Settled Cases.** Applications, which have been settled with benefits, in accordance with the Act and this regulation, will not be reopened or reviewed for the purpose of applying a different benefit formula, without the prior specific

ER 405-1-12  
Change 34  
15 May 2000

approval of ODCSRE. Closed cases settled without benefits may be reopened if the applicant is eligible for foreclosure benefits.

h. Reopening of Withdrawn Cases. Withdrawn applications may be reopened by written request from the applicant within the time period allowed for filing applications in accordance with paragraph 7-15, above. The date the file is reopened will be considered the date of the application.

i. Long-term Leases Entered After Application. Applicants should be advised to enter only into month-to-month leases, after submission of the application. Otherwise the application may be made inactive pending the end of the lease term. At that time, the application will be reactivated.

7-20. Records/HAPMIS. Each application received must be entered in HAPMIS, and reflect its current status as Active, Appeal, Complete, Withdrawn, Denied, or Suspended.

a. Active. Active cases are those in the process of being paid or denied, including foreclosure cases where the enforceable liabilities have not been established.

b. Appeal. Appeal cases are those that have been listed as any of the other categories, including, but not limited to, Active, Complete, or Denied, that have been appealed on any grounds. These cases will ultimately become Active, Suspended, Denied, or Complete, depending on the outcome of the appeal.

c. Complete. Completed applications are cases in which either payment or payments have been made to the applicant and/or third party or applicants for private sale benefits, or those for which the applicants have sold their homes for more than 95 percent of PFMV (therefore receiving a zero benefit).

d. Withdrawn. A withdrawn application is one that has been withdrawn by written request of the applicant, or if the applicant has failed to respond to a request for additional information. Those applications that have been withdrawn by written request of the applicant, or the applicant has failed to respond to a request for additional information. A written request from the applicant for reinstatement must be received before the end of the program date. After the program has ended, only an approved request to reopen a withdrawn file would necessitate changing the status code to Active. The date the file is reopened will be considered the date of the application.

e. Denied. Denied status is reserved only for those applicants who do not meet the program eligibility requirements.

ER 405-1-12  
Change 34  
15 May 2000

f. Suspended. Suspended cases are those cases which have been placed on the Suspended list due to an undue delay in processing caused by an action, or lack of an action, by the applicant. These cases include, but are not limited to, applicants whose permanent change of station orders have not been issued, applicants with tenants remaining in the property, applicants who have requested a delay to pursue a possible private sale, and applicants who wish to remain in the property until after the completion of a school year. Applicants for private sale benefits who are unable to furnish a release of liability are also placed in Suspended status. A written notification from the applicant is required to change the application status. An application may be suspended indefinitely. Any application still in Suspended status at the end of the program date will be changed to Withdrawn. Only an approved request to reopen the file would necessitate changing the status to Active.

7-21. Application Numbers.

a. Assignment of Application Numbers. When a district receives an application, they will assign the application a number and will develop and maintain an individual file for each property. Applications for programs located in another district will not be assigned a number but will be forwarded immediately to the district having jurisdiction. A number, once assigned, will not be reassigned, regardless of the disposition of the application. Reactivation or reopening of a withdrawn application does not require a new application or application number.

b. Method of Assignment. Applications will be numbered in the following manner:

(1) Agency code to indicate the Federal agency accountable for the installation being closed:

- 1 – Army
- 2 - Air Force
- 3 – Navy
- 4 - Marine Corps
- 5 - Defense Agencies
- 6 - Non-Defense Agencies

(2) District Code. Refer to ER 405-1-12, Figure 14-1.

(3) Military/Civilian Code: 1 for Civilian or 2 for Military.

(4) State/Country Code: Refer to ER 405-1-12, Figure 14-2 for numeric state code

ER 405-1-12  
 Change 34  
 15 May 2000

or alpha country code.

(5) Installation Number: The last three digits of the installation number reflected in the Army and Navy/USMC Real Property Inventory publication, preceded by a zero, will be used to identify Army, Navy, and USMC installations. The four-letter code in the USAF Installations Directory will be used to identify USAF installations. Installation numbers may be obtained from ODCSRE. Installation numbers for Coast Guard installations will be obtained from ODCSRE.

(6) Applicant Number: Sequential beginning with 0001.

EXAMPLE: 2 E 3 2 3 3 S Z D T 0 0 0 1

## SECTION VII. PROPERTY VALUATION

### 7-22. Real Estate Appraisals.

a. Preparation of Individual Appraisals. Individual real property appraisals will be prepared by staff or contract appraisers as guides to the determinations of fair market values (FMV), except as set out in paragraph e.(2) below. An appraisal will be prepared by a staff or contract appraiser to determine the FMV of the property prior to the announcement, and at the time of the sale of the property. Appraisals may be waived where foreclosure benefits only are to be paid. (See Addendum 4 for a general information sheet on HAP appraisals). Care should be exercised to avoid the expense of appraisals that are elaborate or more detailed than necessary for HAP appraisals. Existing valid appraisals may be used in lieu of ordering new appraisals. As an exception to Chapter 4 of this regulation, FNMA Form 1004, with attachments as required by said form, or a reasonable variation, may be used. The purchase price and the selling price should be made available to the appraiser. Substantial differences between the “before” appraisal and the applicant’s purchase price should be fully explained, as well as substantial differences between the “after” appraisal and the applicant’s selling price, if an amount other than the selling price is used to determine benefits.

b. Provision of Appraisal Information to Applicant. Applicants will be notified of the determinations of value made for their property. Appraisals will not be provided to

ER 405-1-12  
Change 34  
15 May 2000

applicants beyond the same level provided in other proceedings (e.g., acquisitions under Chapter 5).

c. Contract Appraisers. District offices should acquire contract appraisers once a program has been approved for a location. Contracts, in accordance with the Federal Acquisition Regulation, or blanket purchase agreements with several contract appraisers, should be negotiated when circumstances warrant. The contract should establish a firm deadline for return of completed appraisals. The district will monitor contract performance under Corps guidelines and establish a tracking system to ensure appraisals are completed in a professional and timely manner.

d. References. See Chapter 4 of this regulation.

e. Determination of Fair Market Value (FMV). The district will make determinations of FMV using the real estate appraisal report, loan commitment documents, and any pertinent information contained in records on the value of this property.

(1) Date of Determination of Prior Fair Market Value, (PFMV). The PFMV will be determined as of the date of the announcement or immediately prior to the date of announcement. For programs with multiple announcement dates, the prior fair market value will be determined as of the purchase date for purchases between program dates.

(2) Fair Market Value Determined by Private Sale. If the applicant has made a reasonable effort to sell his/her property and there is no reason to believe that the transaction misrepresents the FMV of the applicant's property at the time of the transaction, then the sales price should be used as the "after" value. Reasonable doubts should be resolved in favor of the applicant. Although the sales price normally will be used as the "after" value, it must be recognized that some applicants may make poor bargains and sell their dwellings at prices well below the current market value for comparable properties. Individual appraisal of current FMV should be used as a guideline to ensure that private sale payments are reasonable. If the appraised value exceeds the sales price by ten percent or more, the reviewing appraiser will review the appraisal for completeness and accuracy. After the reviewing appraiser confirms the appraisal report, the appraised FMV may be substituted for the sales price in calculating the benefits. However, if the applicant has made a reasonable effort to obtain the highest value available, the benefit of the doubt should be accorded the applicant and the sales price may be used as the after value. All records should accurately and fully document the reasons supporting substitution of the appraised value.

7-23. Residential Property.

ER 405-1-12  
Change 34  
15 May 2000

a. **Property To Be Included.** A one- or two-family dwelling, which is located on a farm or on many acres, only includes land as would reasonably constitute a residential property within the area. Land owned by the applicant that does not adjoin his residence will not normally be considered a part of the property. Whether an adjoining lot should be included as part of the residential premises will depend on whether it is, a part of the residential premises and was used as such, and if it can be readily severed and disposed of economically without affecting the disposal of the residential premises. The method generally used in the market for selling and purchasing residential premises will be considered. Applicants should not be left with a lot which is less than the size required for a dwelling, similar to those in the area, or which would be considered unmarketable except as part of the residence. These are judgment factors to be determined and applied to individual cases by the district.

b. **Dwelling Unit.** The Act refers to “any property improved with a one- or two-family dwelling”. Therefore, the property must include a dwelling unit as of the date of the public announcement. The dwelling must be, or have been, an integral part of the property. Individual units in condominiums or cooperatives qualify. Mobile homes will qualify if the mobile home is affixed to the land in accordance with local and state laws and regulations, and the underlying realty is held in either fee simple, long-term lease (27.5 years or longer), or contract-to-purchase.

c. **Permanent Structures on Leased Land.** Buildings on leased land or on land not owned by the owner of the buildings will be considered real estate and are entitled to private sale benefits only.

## SECTION VIII. ACQUISITION - CLOSING PROCEDURES

7-24. **Acquisition Limitations.** The procedures set forth in Chapter 5, Section I of this regulation should be used for acquisition of HAP properties, except as otherwise provided herein, or where the procedure is clearly not necessary for HAP; i.e., Negotiator’s Report, Notification Letters required by Public Law 91-646, etc. The applicant should be made aware of the following:

a. **Procedures.** An eligible applicant should be advised of the acquisition procedures, conditions of a sale to the government, and the estimated time to complete the acquisition.

b. **Time Limitation.** Election to sell one’s dwelling to the government is voluntary. The decision must be made within 45 days after the applicant has been advised of the FMV or the application will be considered withdrawn. The government

ER 405-1-12  
Change 34  
15 May 2000

will take title only by a direct purchase transaction since condemnation is not authorized.

c. **Benefit Determination by Government.** The government will determine benefits. All efforts will be made to afford the full benefits authorized by the Act.

d. **Balance on Public Announcement Date.** HAP benefits paid by the government will be limited to the outstanding mortgage existing on the day of the public announcement. (See paragraph 7-8n.).

e. **Government Purchase is not Displacement.** Government purchase of the property is not considered displacement under Public Law 91-646 (Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970) since the government does not require the property.

f. **Deteriorated Properties.** The district commander may decide not to acquire a home where the applicant has allowed the home to deteriorate beyond normal wear and tear. If the property has been abused, the applicant should be given an opportunity to rectify the deficiencies.

7-25. **Environmental Inspection.** The requirement to perform an Environmental Baseline Survey (EBS) has been waived. Inspections for defective paint and friable asbestos will no longer be a part of the acquisition process. Dwellings will be acquired “as-is”, unless there is something readily apparent which would make the properties difficult to market for disposal. In those cases, guidance from ODACSRE should be expeditiously obtained. Either the Corps or another agency will accomplish mitigation after acquisition. Routine inspections will identify any lead-based paint as defined in Addendum 5 and any friable asbestos. Although the Corps is not required to inspect or test for other contaminants, the inspector should document any observed or suspected contaminants or environmental hazards. (See Addendum 5).

a. **Method of Performance.** The inspection may be performed by qualified district personnel or by contractors.

b. **Format and Use.** No particular format is required for the reports, which become part of the application file.

c. **Other Environmental Inspections.** Any inspections or certifications required by state law or by local custom, such as radon screening or well water certification, will be obtained prior to government acquisition.

7-26. **Acquisition Procedures.**

ER 405-1-12  
Change 34  
15 May 2000

a. **Conditions of Sale.** The applicant will be advised in writing of the prior market value, his/her options under HAP, and the conditions under which the government will purchase his/her property. Applicant must then respond in writing within 45 days whether he/she wishes to withdraw his/her application, appeal the appraised value(s) or request that the government purchase his/her dwelling. Both applicant and spouse should sign the request and state that they understand the conditions of sale.

b. **Preparation and Processing of Deed and Closing Documents.** Upon receipt of the request from the applicant, the deed and other closing documents will be prepared and sent to the applicant with a cover letter explaining the financial details, including tax liabilities, and specific instructions on completing and returning the documents.

c. **Pre-Closing Inspection.** Prior to closing, a pre-closing inspection of a property being acquired will be made.

7-27. Outstanding Rights.

a. **Rights of Third Parties in Property.** Rights of third parties in the property, such as easements for public highways and utilities, will be left outstanding, provided that this is consistent with good real estate practices in the community and will not prejudice the marketability of the property. Mineral and water rights may also fall within this category. Restrictive covenants must be satisfied or removed by the owner unless they are of a nature which will not prejudice the marketability of the property.

b. **Waiver of Outstanding Rights.** District Commanders, and/or MSC Real Estate Chiefs, will determine whether any outstanding right or interest in the property should be administratively waived.

7-28. Assumption of Primary Mortgage. When the applicant's dwelling is purchased, the primary mortgage may be assumed by the government and other mortgages existing on the public announcement date will be paid off as part of the closing of the purchase transaction. Where the government has assumed the mortgage indebtedness, the benefits accorded by the Act are considered fulfilled, even though the primary mortgage is left outstanding. The Office of the Secretary of Defense has authorized liquidation of mortgages in those cases where the district considers it to be in the public interest. Each case will be considered on its individual merits. Loan assumption fees and any other costs incident to assumption of mortgages should also be considered in determining whether to liquidate.

7-29. Closing and Settlement Costs - Government Purchase.

ER 405-1-12  
Change 34  
15 May 2000

a. Release of Liability. When the government assumes a mortgage, it must release the applicant from liability in the event of a subsequent foreclosure.

b. Release of Mortgages. All mortgages, which the government has agreed to pay, will be released of record after delivery of the deed conveying the property to the United States. The applicant is ineligible for direct purchase unless unpaid judgments, liens, encumbrances, and pending public improvement assessments are satisfied and a release obtained.

c. Costs Paid by the Government. The government will pay closing and settlement costs. That portion of the sellers closing costs which represent the normal closing costs required to be paid by the seller at closing are a taxable benefit and must be separately identified as such.

d. Reimbursements. The government will reimburse the applicant for mortgage interest (not principal payments), taxes, and hazard insurance premiums that have been paid for the period from the date of receipt of the application for benefits, the date of vacation of the premises, or the date the program is approved, whichever is later through to the date the government acquires the property. A determination of the pro rata share of taxes and insurance premiums should be based on information received from the tax assessor and insurance company for the actual amounts payable or paid, without reference to payments to the escrow account, which will eventually be returned to the applicant. Districts should advise the applicant of the projected closing date, and that he/she will not be reimbursed for interest or other expenses incurred by delays in closing, if such delays were caused by, or at the request of, the applicant, and if such delays were unreasonable. If an applicant has previously withdrawn an application, settlement and closing costs will be prorated only from the date an applicant reapplies for benefits. The applicant must be fully informed that the consequence of withdrawal of a government acquisition application is loss of reimbursable expenses from the date of the application. The applicant is responsible for all mortgage payments, including interest, to the date of closing and the government will not assume any responsibility to avert a foreclosure.

e. Rental Income. Income received by the applicant for rental of the property during the period from the date of receipt of his/her application, the date of vacation of the premises, or the date the program is approved, whichever is later, will be deducted from the closing and settlement costs. HAPMIS will compute these payments when the necessary dates, interest, etc., are entered.

f. Amount of Outstanding Mortgages. The amount of the outstanding mortgages as contemplated by Section 1013(c) of the Act will be the total amount which the

ER 405-1-12  
Change 34  
15 May 2000

applicant, as the mortgagor, owes pursuant to the mortgage agreement(s). This will include taxes, hazard insurance, and interest and penalty charges which have accrued and have been added to the total indebtedness, adjusted to provide for the costs for which the applicant is responsible, as set forth in subparagraph c. above. Outstanding mortgages include equity loans and other open-line-of-credit loans that are secured by the subject dwelling. The assumption or payoff of the outstanding mortgage balance of equity loans is limited to the balance due and owing as of the public announcement date.

g. **Refinanced Mortgages.** Refinanced mortgages will be acceptable if, at the time of government acquisition, the principal balance does not exceed the mortgage balance of the superseded mortgage. Homeowners who incorporate the costs of refinancing into the mortgages will have to “buy-down” the principal balance before government acquisition.

h. **Property Taxes.** Property taxes are prorated at the time of acquisition. Sometimes the amount collected is greater than that owed. All property tax refunds belong to the government.

#### 7-30. Title Evidence.

a. **Procurement of Title Evidence.** For purposes of this chapter, districts may contract with a title company to record the deed after making a title update. Districts are responsible for verifying that the deed is properly recorded. If a survey showing the location of the buildings on the property is available from the lender or other source at little or no cost, it should be included as part of the title evidence. Where reasonable grounds exist to believe that some irregularity in title might be disclosed by a survey, the district should obtain a survey.

b. **Use of Preliminary Title Evidence.** When a determination is made that an applicant is eligible for assistance by government acquisition, preliminary title evidence for the property may be obtained from the applicant or the mortgagee, and furnished to the title company in an effort to reduce the costs by requesting the re-issue rate.

#### 7-31. Hazard Insurance.

a. **Prior to Closing.** Properties to be acquired by the United States will usually be covered by hazard insurance. Owners should be advised that improvements on the land remain their property until title has been vested in the United States. Loss or damage to the property caused by fire, acts of God, flood, theft, or vandalism, will be borne by the applicant, subject to verification by inspection of the property before vesting title.

ER 405-1-12  
Change 34  
15 May 2000

b. After Closing. After title has vested in the United States, losses to improvements not caused by the willful act or gross negligence of the former owner will be borne by the United States. The government will not carry insurance of any nature on the property except to the extent explained in paragraph 7-30c. The time and method of cancellation, and negotiation for refund of premiums paid, will be the responsibilities of the former owner.

c. Insurance for Mortgagee's Benefit. Upon assumption of a mortgage by the government, the mortgagee will be advised that the insurance coverage should be canceled and that the United States does not intend to carry insurance of any nature on the property. If the mortgagee will not agree, a property insurance policy in an amount equivalent to the unpaid balance of the mortgage assumed by the government will be purchased at DOD expense. The mortgagee may then cancel the existing property insurance policy or release it to the former owner for cancellation. Any unearned premiums will be the property of the former owner. Insurance claims arising after closing must be assigned to the government.

7-32. Occupation of Property. Generally, the applicant should arrange for tenants to vacate the property before the pre-closing inspection is made. Prior arrangements must be made if the District chooses to allow the tenants to stay after the government's acquisition. A lease authorizing the occupancy will be completed in accordance with the guidance in Chapter 8 of this regulation and will require the tenant to carry a personal and liability insurance policy for the term of the lease. If the property is acquired with the tenant in occupancy, the tenant must sign a "disclaimer" agreeing to vacate the premises upon demand.

## SECTION IX. MANAGEMENT AND RESALE

7-33. Purpose. This section governs the management and resale of properties that have been acquired by the Department of Defense under the Homeowner Assistance Program, and sets forth responsibilities, procedures, methods and guidance for the management and resale activities for these properties. The sale of HAP homes will be in accordance with accepted real estate practices and procedures within the State where said properties are located, unless where prohibited by Federal law. Districts may use this section to develop a management and resale program to provide for the required activities. The purpose of the property management and resale program is to reduce the inventory of acquired properties in a manner that maximizes the net return to the government while mitigating the adverse impact on the affected residential areas and communities.

7-34. Basic Policies. The following guidelines are the basic policies for the management and resale of HAP properties.

ER 405-1-12  
Change 34  
15 May 2000

a. Competition. Unless otherwise permitted herein, competition is required to provide an equal opportunity for all to purchase HAP properties through an open bidding process.

b. Contracting. All contracting will be accomplished in accordance with applicable laws and regulations.

c. Bidding. HAP properties will be sold to the general public through the open bidding process unless the District determines that advertising and open bidding will not serve a useful purpose. Then, direct sales may be negotiated. Sales authorized to other Federal, state and local governments may be directly negotiated, as provided in this section, without an open bidding process when determined appropriate by the district, when bidding would not serve any useful purpose, or when it is no longer in the best interests of the government.

d. Price. All initial list prices will be no less than the current fair market value as determined by the district. In establishing the price, consideration should be given to the necessity to expedite resale of the property. List prices may be periodically adjusted without appraisals, taking into consideration the necessity for rapid sales, based on the market where the property is located.

e. Distribution of Listings. Sales brokers approved to submit bids will be furnished copies of all listings concurrently to allow each broker an equal time allotment for selling the properties.

f. Advertising. All advertising will be accomplished through the local Multiple Listing Service (MLS) and/or news media to ensure the greatest practical readership and to provide as many buyers as possible in the market for such properties an equal opportunity to bid. Brokers may and are encouraged to advertise the listed properties at their own expense, but at no cost to the government. Properties may not be advertised for sale until they are officially listed for sale by the government.

g. Eligible Brokers. Brokers must sign a nondiscrimination certification and a participation agreement acknowledging that they are aware of and will adhere to the laws and regulations pertaining to the HAP. All participating brokers must be licensed real estate brokers in the state where the properties are located.

h. Ineligible Buyers. Government employees associated with the HAP, or those who would otherwise have an advantage over the general public, are prohibited from purchasing properties under this program. No member of or delegate to Congress is

ER 405-1-12  
Change 34  
15 May 2000

eligible to buy or benefit from a purchase of a government-owned property acquired under the HAP program. No sales will be approved that may show a conflict of interest.

i. For Sale Signs. No signs will be placed on the property except those supplied or authorized by the Corps of Engineers.

j. Warranty. All properties are sold “as is”, and no warranty whatsoever will be provided regardless of method of sale. The government does not make any guaranty or warranty, express or implied, with respect to the property as a quantity, quality, character, or condition, size or kind, or that the property is in condition or fit to be used for the purpose intended by the buyer. Properties having known environmental contamination, historical significance, located in flood plains, in an airport clear zone, or other significant matters or potential impediments or conditions to resale will be advertised to reflect these issues. The Corps will make no repairs to the property, except as identified in paragraph 7-35q., after execution of the contract unless stated in the contract and/or required by the lending institution as a condition of the loan.

k. Responsibility of Bidder.

(1) The failure of any bidder to inspect, or to be fully informed regarding the condition and location of all or any portion of the property, or negligence, or mistake on the part of the bidder in preparing the bid, will not constitute grounds for any claim or demand for adjustment or withdrawal of a bid. This and the following condition, or conditions that are substantially the same, will be a part of the sales contract submitted as a bid by the broker.

(2) It is the duty of each bidder and the broker to ensure that the bid is delivered by the time and at the place prescribed in the advertisement or announcement.

l. Financing. All properties are sold for cash. Certified checks, cashier’s checks, electronic funds transfer, or checks drawn upon the mortgage company’s escrow account are forms of acceptable payment. Loan financing is the responsibility of the broker and the buyer. Financing is open to all legally authorized loan institutions. Government insured loans are acceptable.

m. Conveyance Document. All conveyance documents will be by quitclaim deed, unless prohibited by state and/or local laws. Conveyance documents other than by quitclaim deed must be forwarded to ODCSRE for approval by the Department of Justice. The district Chiefs of Real Estate are authorized to execute both quitclaim deeds and leases of HAP properties on behalf of the government.

ER 405-1-12  
Change 34  
15 May 2000

n. Exemptions. The HAP resale and management program is exempt from the following programs:

(1) The law authorizing HAP grants an exception to the reporting requirements of Title 10, U.S.C., Section 2662, for properties acquired, managed, and sold under the HAP. This includes both sales and rentals of properties.

(2) Screening HAP properties by HUD for possible use by the homeless in accordance with provisions of the McKinney Act.

(3) Federal Property and Administrative Services Act of 1949.

(4) Real property accountability requirements of AR 735-5 and those of chapter 16 of this regulation.

o. Deposit and Expenditure of Funds. All receipts and expenditures in connection with the HAP management and resale program will be deposited and processed in the Homeowners Assistance Fund, Defense account in accordance with DA PAM 37-100-XX, as may be modified from time to time by the Corps of Engineers Resource Management element. This includes all receipts and expenditures from sales, rental collections, repairs, contract payments, earnest money deposits, etc. associated with this program. Funds may not be used for programs other than HAP.

p. Property Accountability. Properties will be accounted for through use of the Homeowners Assistance Program Management Information System (HAPMIS).

#### 7-35. General Requirements and Procedures for Administering All Management and Resale Methods.

a. Nondiscrimination Policy. All contracting, occupancy, rental, and sales activities referred to in this section must be conducted without regard to race, color, creed, religion, sex, national origin, age, familial status, or handicap. Contractors are required to agree to and execute a nondiscrimination certification.

b. Environmental Requirements and Standards. Sales, leasing and management of properties acquired under the HAP are not subject to Preliminary Assessment Screening requirements. However, actions will be taken to satisfy legal requirements for properties containing contamination by lead-based paint, friable asbestos and other contaminants. Radon testing will be appropriately performed and evaluated where it is customary for the specific program area. Properties known to be contaminated will be managed and remedial actions taken prior to resale in accordance with applicable laws

ER 405-1-12  
Change 34  
15 May 2000

and regulations.

c. Lead-based Paint Poisoning Prevention. Properties constructed before 1978 are subject to the lead-based paint poisoning prevention requirements contained in 24 CFR part 35 and 40 CFR part 745. Purchasers of properties with potential lead-based paint hazards will be required to complete an Addendum to Sales Contract which will assure the purchaser is notified of and the risks of potential hazards of lead-based paint and that all required disclosures to the purchasers have been made.

d. Net Offer Bid. The net offer is the amount of the bid minus all deductible expenses to be paid by the government. Such deductions may include, but are not limited to: customary closing costs; cash bonuses; sales commission; repairs to property; taxes; title insurance; attorney's fee; termite inspection fee; etc. If requested by the purchaser in the bid, the government may pay all or a portion of the financing and loan closing costs not to exceed the percentage as determined appropriate by the lender. The broker's sales commission will not exceed the percentage of the purchase price which is customary for the area, except for cash bonuses as described herein. The amount requested by the purchaser to be paid by the government will be deducted from the amount bid for the property to determine the net offer. Where the actual financing and loan closing costs exceed the amount determined appropriate by the lender, the amount in excess must be paid by the purchaser and is not included in the deduction from the bid in determining the net offer.

e. Cash Bonuses. Cash bonuses may be awarded to brokers as determined necessary for purposes of accomplishing sales in hard-to-sell market areas. Any cash bonus offered to brokers by the government for the sale of hard-to-sell properties is an amount in addition to the sales commission, and is included with the commission and deducted from the amount bid for the property to determine the net offer. Districts may award cash bonuses of \$1,000 and MSCs may approve those between \$1,000 and \$2,000. All cash bonus requirements over \$2,000 will be forwarded to ODCSRE for prior approval.

f. Acceptable Bid. Criteria for determining an acceptable bid must be determined prior to the public opening of bids. Minimum amounts for accepting net offers should be established so bidders may be informed at the time of the bid opening whether their bid is acceptable. The definition of an acceptable bid will vary from program to program depending on the market conditions and other variables. The district will accept the most responsible bid producing the greatest acceptable net offer, as defined above, to the government and otherwise meeting the terms of the government's listing of the property. A net offer tie will be settled by a drawing.

ER 405-1-12  
Change 34  
15 May 2000

g. Bid Period. Bid periods are to be established by the districts to ensure fair and equal competition and to maximize execution of the HAP. Ten days after the property is publicly advertised is the recommended bid period in most cases and the bid opening should follow on the eleventh day or the next business day. After properties are initially advertised, bids are accepted for a specified period, with all offers received during that period considered to have been received simultaneously, except for “full list price offers” which may be accepted as described in the following paragraph. Offers received on a property before the specified bidding period begins will be returned for resubmission during the advertised bidding period. Offers received after the period will not be considered at the bid opening, but will be considered during the extended listing period if no acceptable bid was received during the specified period. If no acceptable bids are received after all reasonable efforts have been made to advertise, direct negotiated sales are authorized and, as last resort, leasing of properties may be necessary in the best interests of the government.

h. Full List Price Offers. The Corps district offices may operate under a “full list price offer” program by opening offers periodically at specified times, predetermined and publicly announced, during a specified bidding period. A full price offer is an offer for the full price listed minus the broker’s sales commission, the government’s customary closing costs, related fees that would be paid for any and all bidders and are customary for payment by the government in the program area, and, if applicable, minus the broker’s cash bonus. If an offer for the full list price or greater than list price offer and otherwise meeting the terms of the listing is received, it will be accepted at the time of the opening and the remainder of the bid period canceled. A backup offer representing the next highest offer may be accepted and held pending closing of a transaction. Districts utilizing this program will establish procedures to ensure fair and equitable treatment to all bidders and sales brokers. Brokers should be instructed to label the envelope containing the offer as a “Full List Price Offer” when applicable.

i. Extended Listing Period. Properties not sold during a specified time for bidding may remain available for an extended listing period. All bids received on each day of the extended listing period will be considered as being received simultaneously, and will be opened together at the next scheduled bid opening. If no acceptable bids are received after a reasonable period of time, the property will be reanalyzed and managed according to the determinations after the review. The list price and conditions of the property listing will be adjusted to obtain expeditious resale of the property while also maintaining the best interests of the government. If a property fails to generate an acceptable bid or offer during the specified bidding period, it may remain on the market as an extended listing until it is either sold or readvertised under different terms, or alternative management becomes necessary.

ER 405-1-12  
Change 34  
15 May 2000

j. Bid Requirements.

(1) All bids submitted, whether during the specified bid period or the extended listing period, must be in the form of a fully completed sales contract, in a form provided to all participating brokers as prescribed by the district, and be signed by both the submitting real estate broker or authorized agent and the prospective purchaser. The bid must be submitted with deductions from the offering price, resulting in a net offer to the government. If the purchase is to be financed by an insured mortgage, a district office may also require that supporting exhibits for mortgage credit analysis pre-qualified by the broker accompany the initial submission of the bid.

(2) Bids submitted during the scheduled bid period must be received in a sealed envelope and must properly indicate the property for which the bid is being submitted by being marked with the property number, address, and return address of the broker. The envelope may contain any other markings considered necessary by the district for absolute identification.

(3) Bids received during an extended bid period may be submitted and processed by facsimile.

(4) Noncomplying bids will be returned to the broker with an explanation as to why the bid was considered to be in noncompliance and information about whether the property is still available and, if still available, the terms for resubmitting an offer.

k. Earnest Money Deposits.

(1) The amount of earnest money deposit will be that amount which is customary for the area as determined by the district. In determining the amount of earnest money deposits, a district should consider comparable practice in the locality, area real estate market conditions, the type of offers generally received, and the ability of the area's typical buyers to secure financing. The district to each participating real estate broker will furnish information on the amount of the required earnest money deposit.

(2) All bids must be accompanied by earnest money deposits in the form of a cashier's or certified check or money order made payable to the appropriate Corps of Engineers finance and accounting office, or a certification from the real estate broker that the earnest money has been deposited in an escrow account. If a bid is accepted by the district, the earnest money deposit will be credited to the purchaser at closing; if the bid is rejected, the earnest money deposit will be returned.

(3) To the extent practicable, districts will establish an earnest money certification

ER 405-1-12  
Change 34  
15 May 2000

system with participating brokers. Such a system is to allow brokers to hold the earnest money until bid rejection or closing which will eliminate the cumbersome requirement for the Corps finance and accounting office to process these payments when received by the district.

l. Forfeiture of Earnest Money Deposits. Failure to Close Transaction. The failure by a purchaser to close on the sale of property within the allowable time period, including any extensions granted by the government, will result in the total or partial forfeiture of the earnest money deposit, except where the purchaser presents documentation to the government that one of the special circumstances described below:

(a) In those instances where, despite good faith efforts by the purchaser, there is an inability to obtain a mortgage loan from a recognized mortgage lender.

(b) For other good cause, as determined by the district office.

m. Multiple Bids by One Buyer. Real estate brokers may submit unlimited numbers of bids on an individual property provided each bid is from a different prospective buyer. If a buyer submits multiple bids on the same property, only the bid producing the best net offer to the government will be considered. A buyer may be asked to indicate a priority for properties when submitting multiple bids thus allowing the district to award the first acceptable net offer based on the bidder's priority list. If an offeror submits a bid on more than one property, the first of those bids that produces the best net offer to the government will be accepted and all other bids from that offeror will be eliminated from consideration. If the prospective owner-occupant purchaser submits the only acceptable bid on another property, without providing a priority list, then that bid must be accepted as if the bidder wishes to purchase all properties for which a bid was submitted. All participating brokers must be made aware of this policy.

n. Opening Bids.

(1) All sealed bids will remain sealed and safeguarded until the specified public opening date, which normally is the first business day following the specified listing period. The bids will be opened publicly at a time and place designated by the district office. A public bid opening is defined as a bid opening available for attendance by the general public and may be at a location within a district office or at other places deemed appropriate by the district.

(2) Each bid will be announced when opened, and acknowledgment made of the apparent highest net offer to the government. Successful bidders will be notified through their real estate brokers by mail, telephone, or other means. Official acceptance of a bid

ER 405-1-12  
Change 34  
15 May 2000

is final and effective only upon the government's execution of the sales contract and mailing of a copy of the executed contract to the successful bidder or the bidder's agent. Formal government bid acceptance and certified mail procedures should be established to ensure proper and effective notification to successful bidders.

(3) All bids not accepted will be promptly returned to the broker by mail. The earnest money deposit will also be returned, either by the district office or the broker, as applicable. Copies of all bids will be retained by the district for purposes of record keeping and to provide a means for communication with unsuccessful bidders should the successful bidder for any reason fail to close on a particular property or to notify bidders of additional properties available for HAP resale.

o. Counteroffer. In cases where all bids received on a property are unacceptable, a district office may, after rejecting and returning all bids and earnest money deposits, notify all bidders or their brokers, including any bidders who have submitted unacceptable bids during the listing period, that the government would be willing to accept an offer equaling a predetermined net acceptable price. Bidders must submit an acceptable offer before the newly established bid cut-off period, to be determined by the district office. The highest acceptable offer received within the specified period of time, including any offer received from a bidder who did not submit a bid during the original bid period, will be accepted, thus terminating the counteroffer negotiations. In case of identical bids, awarding a sales contract will be determined by a drawing. All drawings to determine the successful bidder will be open to the public during the bid opening. Written notification of the successful offer will be provided to all bidders.

p. Closing.

(1) Time Allowed for Closing the Sale. The number of days allowed to close the sale of a property generally will not exceed 60 days from the date of acceptance of the offer to purchase, and will be set by the district office depending on the amount of time necessary in the area to obtain financing.

(2) Extensions. In the event a scheduled closing cannot be met for reasons beyond the control of the purchaser, an extension period will be appropriately granted where the district has reason to believe the sale will close within a reasonable time. A request for an extension must be submitted in writing.

(3) Closing Agent.

(a) The government will provide a closing agent with qualifications as required by state and local laws to ensure the government's interests are protected. The closing agent

ER 405-1-12  
Change 34  
15 May 2000

may be a district employee or bonded representative as set forth in this section.

(b) Although it may be legally acceptable in some jurisdictions for the closing agent to represent both purchaser and seller, purchasers may, at their own costs, obtain representation if desired.

(c) If required by the district, the closing agent's functions may include reviewing and ordering title information; preparing and recording deeds and related documents; explaining all closing papers and documents to the purchaser; administering requests for closing extensions; providing an estimate of closing costs; and collecting and disbursing funds related to the sale.

(4) All assessments, including improvement assessments that are available for payment without interest or penalty for advance payment, taxes, rent, and ground rent, if any, will be prorated between the government and the purchaser as of the date of the closing. On assessments for which a payment plan has been approved, only assessment amounts required to be paid during the current tax year will be prorated, with the following years' payments to be the responsibility of the purchaser.

q. Property Damage After Sale, Before Closing. The government assumes the risk of any damage or loss to the property occurring after acceptance of the sales contract and before closing, provided the damage or loss is not the fault of the purchaser. Any substantial damage after the effective date of the sales contract but before closing may be authorized for immediate repair, at the government's option; or the government may reduce the sale price as a result of the damage. The purchaser has the option to cancel the sales contract, with all earnest money deposits refunded.

r. Occupancy Before Closing.

(1) General Policy. Occupancy of the property by the purchaser before closing is prohibited, except where authorized on a case-by-case basis under the following circumstances:

(a) When failure to permit occupancy would create an extreme hardship on the purchaser;

(b) Where permission to occupy is necessary to meet competition; or

(c) Where occupancy would protect against vandalism and theft.

(2) Occupy Under Lease Agreement.

ER 405-1-12  
Change 34  
15 May 2000

(a) If occupancy before closing is permitted because it would protect the property against vandalism and theft, occupancy will be rent-free or at a nominal rate in exchange for caretaker services that the purchaser agrees to perform.

(b) If occupancy before closing is permitted solely to meet the needs of the purchaser, full market rent will be required, and the purchaser will be required to assume the risk of loss in the event there is damage to the property before closing.

s. Rental of Acquired Property.

(1) General Policy - Leases. Leasing of acquired property will be as a last resort in determining management of HAP resales. However, it is an authorized management option when the district determines that it is in the best interest of the government or as local market conditions warrant. Leases may include an option to purchase in appropriate circumstances. Situations where the government will lease property include, but are not limited to, the following:

(a) A sales closing is delayed at length;

(b) Occupancy is essential to prevent vandalism or rapid deterioration of the property;

(c) The inventory in an area exceeds sales market absorption capability for an extended period of time;

(d) The property is a one or two family dwelling and occupancy would improve marketability;

(e) The property is leased as temporary housing for disaster victims;

(f) The property is leased by other government agencies for defense, law enforcement, or other purposes, or

(g) The property is leased by a nonprofit organization or governmental entity, including a public housing authority.

(2) Tenant Selection. In selecting tenants for any lease program, discrimination by race, color, religion, sex, national origin, age, familial status, or handicap is prohibited.

ER 405-1-12  
Change 34  
15 May 2000

(3) Preparation of Leases. Leases will be prepared in accordance with local requirements as well as applicable Federal laws and regulations. Rental will be appropriately charged and clearly cited in the lease document and receipts will be deposited in the HAP account. Public Law 89-754 is the leasing authority.

(4) Conditions of Occupancy.

(a) Lease Term and Rent. The lease term and the amount of the rent is dependent on the circumstances under which the property is leased. The fair market rental value will be the basis for charge. Appropriate other forms of compensation in lieu of the fair market value are also authorized on a case-by-case basis when it will prove beneficial to the government. Terms will generally be on a month-to-month basis and revocable at will by providing a 30-day notice.

(b) Continued Occupancy.

- Occupancy of acquired property is temporary in all cases and is subject to termination when necessary to facilitate preparing the property for sale and completing the sale.

- The government will notify the occupant to vacate the property and, if necessary, will take appropriate eviction action, in any of the following situations:

- Failure of the tenant to execute a lease, or to comply with the lease;
- Failure of the tenant to allow reasonable access to the property upon proper notice;
- Necessity to prepare the property for sale; or
- Assignment of the property by the government to a different use or program.

t. Competitive Sales Procedure.

(1) General. Properties are sold to the general public on a competitive bid offer basis through local real estate brokers. Properties are advertised in the area in which they are located through appropriate media. If a property fails to generate an acceptable bid or offer, during the specified bidding period, it will remain on the market for an extended listing period, as described in this section.

(2) Qualified Purchaser.

ER 405-1-12  
Change 34  
15 May 2000

(a) Anyone, regardless of race, creed, color, religion, sex, national origin, familial status, age, or handicap may offer to buy a government-owned property acquired under the HAP program; and

(b) Except as provided below, tenants in occupancy will not be offered the right of first refusal to purchase the property. They may submit an offer, or bid, to purchase the property when it is publicly listed, which will be treated in the same manner as other offers received from other prospective purchasers during the listing period.

(c) Tenants in occupancy will be offered the right of first refusal to purchase the property where:

- The tenant has a recognized ability to acquire financing and a good rent-paying history, and has made a request to Corps to be offered the right of first refusal; or

- State or local law requires that tenants be offered the right of first refusal.

(3) List Price.

(a) All initial list prices will be no less than the current fair market value as determined by the district. In establishing the price, consideration should be given to the necessity to expedite resale of the property. List prices may be periodically adjusted without appraisals, taking into consideration the necessity for rapid sales, based on the market in the market impact zone.

(b) Properties that fail to sell within a reasonable market period as determined by the district, should be reanalyzed and the price may be reduced by the district.

(4) Financing. The purchaser is entirely responsible for obtaining financing for purchasing a property.

(5) Open Listings. Properties may be sold on an open listing basis with participating real estate brokers. Any real estate broker who has agreed to comply with DOD regulations and requirements may participate in the sales program. Purchasers participating in the competitive sales program must submit bids/offers through a participating broker. Offers for groups of properties available for bulk sales may be submitted directly to the district.

u. Closing Agent Contract. District offices may contract for the services of a closing agent. This contract must include the following elements:

ER 405-1-12  
Change 34  
15 May 2000

(1) Liquidated Damages. A provision calling for an established daily amount of liquidated damages for each day the sales closing package is delivered beyond the date specified in the sales contract. There must also be a damages provision involving the late delivery of the sales proceeds due the government. If either or both of the liquidated damages provisions become effective for a specific case, the closing agent shall attach to that closing package their check for the full amount(s) due.

(2) Bonding. The closing agent is required to obtain bonding in an amount equal to the value of the cases assigned by the government during a normal two-month period. The bond may be surety or fidelity, provided the government is fully protected against acts involving misappropriation of funds by the principal, employees of the contractor, and any subcontractor the closing agent may be utilizing. The bonding is required to be in place prior to contract award.

(3) Closing Date. The district office or closing agent shall establish a firm closing date within the time specified in the sales contract. For extensions of closing date see paragraph 7-35p. 2.

(4) Preparing the Closing Package.

(a) District offices should provide the closing agents with all necessary documents and information needed to close a sale, including the following, in sufficient time to permit preparation for closing:

- Title evidence.
- Executed deed from the government.
- Tax Information.
- Copy of lease, if applicable.
- Rental status, if applicable.
- Utility bills, if applicable.

(b) Closing documents should, whenever possible, be picked up personally by the closing agent. If closing documents must be mailed, the appropriate government procedures must be followed. Method of transmittal must be used that provides positive proof of receipt.

ER 405-1-12  
Change 34  
15 May 2000

(5) Closing Agent Responsibilities.

(a) Completion of Documents by Closing Agent. The closing agent shall complete all documents in accordance with the contract requirements. These documents may include but are not limited to:

- Settlement Statement
- Promissory Note
- Trust deed or mortgage

(b) Establishment of Escrow Account. The closing agent shall establish a separate escrow account for all proceeds in the name of the closing agent, with the restriction "As Trustee for the United States of America". The escrow account must be established in a Federally insured bank that gives credit for the deposited check immediately upon clearance. Exceptions to this requirement are:

- Infrequent closing in remote areas
- Closing being handled by district staff
- Where formal contracts for closing services are not required.

(c) Accounting Records. The closing agent shall maintain complete and accurate accounting records which, as a minimum, include a cash receipts and disbursement register. This register will be reconciled monthly to the bank account. For each receipt and disbursement, the register must identify, by address and case number, each property to which the receipt or disbursement applies and the purpose for each disbursement. Review of the register will be performed by the district office during each on-site review.

(d) Status Report of Cases Assigned to Closing Agent. The closing agent is required to provide a status report as required by the district.

(e) Purchaser's Inspection. The completed Settlement Statement must be made available to the purchaser for inspection, upon request, on the business day preceding settlement.

(f) Receipt of Deposits of Payments. The closing agent is responsible for obtaining from the purchaser the amount due to close the sale at the time of closing. All

ER 405-1-12  
Change 34  
15 May 2000

funds paid by the purchaser must be in cash, certified funds, cashier's check, or check drawn upon a mortgage lender or attorney's escrow account made payable to the closing agent. The closing agent shall deposit these funds in the escrow account on the day of closing or the next banking day.

(g) Authorized Payments from Proceeds. Payments for the following expenses are to be made from the closing agent's escrow account. If funds are not available from the proceeds to pay any of the authorized expenses, the closing agent is to submit an invoice for each individual expense to the district office along with the closing documents.

- Sales commissions in the amount specified in the Sales Contract and any authorized bonus to the sales broker. Reflect this payment on the Settlement Statement.

- Accrued utility bills of former owners or tenants if the bills are or will become liens against the property or if restored and continued service is contingent on payment.

- Refunds. Payments made by purchasers for closing extensions may be refunded in accordance with the terms specified by the district.

- Credits. Credits given to the purchaser for services, repairs, or other items negotiated between the district and the purchaser.

- Miscellaneous closing expenses such as closing agent's fee, unless paid under other arrangements and any other such expense agreed to or approved by the district office.

(h) Transfer of Sales Proceeds. No later than the next banking day after sales closing, the closing agent must send all funds to the district office, either by hand delivery, express mail, or electronic transfer. Closing agents must obtain confirmation.

(i) Forwarding Closing Documents. A facsimile of the executed closing documents must be received in the district on the day of closing. All original closing documents must be forwarded to the district office within the time frames stated in the closing agent's contract. Such time frames must conform to the overall requirement that the certified closing documents be received by the district office within 14 calendar days from the date of closing.

(j) Recording Sales Documents. The closing agent must ensure that the deed, note, deed of trust (mortgage), and all other documents that require recording are recorded immediately following closing.

ER 405-1-12  
Change 34  
15 May 2000

(k) **Monitoring of Closing Agents' Contracts.** The district office must carefully monitor closing agents to ensure that closing occurs within the proper time frames; that all documents are completed accurately; that sales proceeds are sent to the district office in an accurate and timely manner and that closing documents are forwarded to the district office within the time required by the contract.

- **Review of Assigned Closing Status Report.** Review the report to ensure that closing agents are properly closing sales and whether any delay or failure to close is the responsibility of the closing agent.

- **Delayed Deposit of Proceeds.** When the district office learns that funds for a closed case were not sent promptly, the closing agent should be contacted immediately. Determine the cause for the delay, verify that the mailing has taken place, remind the closing agent of the contractual requirements and, where appropriate, demand the applicable liquidated damages. If the situation is not resolved satisfactorily within a short time, do not assign additional closings to the agent until the problem has been resolved. Where appropriate, contact the district office counsel, Inspector General and bonding company, advising them of the situation.

- **Delayed Transmission of Closing Documents.** When the district office does not receive the closing documents within the time specified by the contract, contact the closing agent to determine the cause of the delay.

- **Corrective Action.** Appropriate corrective action and measures must be taken to ensure closing agent compliance with all contractual responsibilities.

- **Periodic Reviews.** Periodic on site reviews of each closing agent's records and procedures will be conducted. A checklist for monitoring closing agents during each review will be completed. The review findings will be maintained in the district office file.

- **Retain Review Records.** The district office responsible for audit and litigation must retain copies of all documents pertaining to performance by the closing agent, including periodic status reports, reviews and correspondence.

(l) **Review and Approval of Closing Documents.** All closing documents are to be reviewed, corrected and certified by the district office as soon as possible after their receipt. In conducting the review the district office shall assure that:

- All applicable closing documents show the correct HAP case number.

ER 405-1-12  
Change 34  
15 May 2000

- The sales price, earnest money deposit, sales commission, settlement costs, and any additional costs authorized by the government sales contract are accurately recorded on the settlement statement.

- If the earnest money was deposited in the district office, the full amount of such deposit was shown on the settlement statement.

- The full amount of any extension fee and the amount of any refund are to be shown on the settlement statement.

7-36. Management and Resale Options. The specific procedures for management and resale of acquired properties should be tailored to the particular requirements of individual projects and the resources available to the district to accomplish the mission. The Corps of Engineers will manage and sell acquired properties or contract for such services in a manner consistent with, but not limited to, the following: transfer to other government agencies and direct sales; management and resale by Corps of Engineers; and management and resale by private contractors.

7-37. Transfer to Other Government Agencies or Direct Sales. Transfers to other government agencies may be necessary for certain projects as required by law or special legislation and to provide relief to or in cooperation with other government projects. Direct sales may be pursued, at discounts, to other entities listed below for purposes of providing assistance to local communities or to expedite sales of hard-to-sell properties.

a. Transfer. Transfer of acquired properties to Federal agencies will be in accordance with agreements, if any, between the Department of Defense and the respective Federal agency. Transfer of acquired properties will not be made to governmental agencies without prior approval from ODCSRE. Full justification and plans for transfers will be submitted for approval.

b. Direct Sales. At the discretion of the district, direct sales may be authorized for the following:

(1) Direct sales to Federal agencies, private nonprofit organizations, state and local governments, and public agencies, may be accomplished for use in HUD and local housing or homeless programs. Sale discounts will be determined on a case by case basis in accordance with the particular program authorizing the conveyance. The amount of the discount will be that amount necessary to expedite sales in depressed markets and to reduce the governments inventory of HAP properties.

ER 405-1-12  
Change 34  
15 May 2000

(2) Direct sales to displaced persons.

(a) At the discretion of the district office, properties may be offered for direct sale, at a discount, to displaced persons that will occupy the properties. Properties offered will be only those in the general area in which the displacement is occurring.

(b) For purposes of this section, “displaced person” means any household (family or individual) that moves permanently and involuntarily as a direct result of:

- Acquisition, rehabilitation, demolition or code enforcement for a government (Federal, state or local) project or government-assisted project;
- A determination that the income of the household exceeds the limitations for the government-assisted housing that the household occupies; or
- A major disaster, as declared by a state or Federal Government.

7-38. Management and Resale by Corps of Engineers.

a. Management by the Corps of Engineers. Management of acquired properties may be performed by contract. Districts have been delegated the authority to utilize Corps of Engineers or installation personnel to perform maintenance and management functions if, in the opinion of the District Engineer, such utilization is in the best interests of the mission. Such management functions may include, but are not limited to:

- (1) Participation in joint inspections,
- (2) Security and winterizing of properties,
- (3) Installation of signs and warning notices,
- (4) Coordination with local utilities, homeowners associations, local law enforcement authorities, and other agencies as required by law or regulation,
- (5) Care, maintenance, and repair of the property,
- (6) Rental of properties prior to resale,
- (7) Periodic inspection of property, at least monthly,
- (8) Other management functions as determined by the District Engineer.

ER 405-1-12  
Change 34  
15 May 2000

b. Rental of Acquired Property.

(1) Leases. The authority for leasing is Public Law 89-754, 42 U.S.C. 3374 (d). See paragraph 7-35s.

(2) Management of Rental Properties. Management of rental properties, unless in small quantities or otherwise infeasible, may be by property management contractors obtained through an invitation for bids/proposals process. No contract will be awarded to businesses otherwise associated with the resale of HAP properties because of the conflicts it will present in selling versus rental by the same contractor. A contractor wishing to slow the resale program to continue receiving funds under a rental management contract may impede the government's goal of a fast resale.

c. Resale by Corps of Engineers.

(1) Sales through Real Estate Brokers. The Corps of Engineers is charged with the responsibility of obtaining the maximum recovery of its investment in all properties. HAP properties may be sold to the general public on a competitive basis through participating real estate brokers. All licensed real estate brokers in the program area will be notified that they may, by directing a letter to the district office, with a photocopy of their broker's license, and by signing a nondiscrimination agreement, be placed on the district mailing list for sales of all properties in their area of interest. Brokers will be furnished keys or other method of access upon their approval and execution of a participation agreement. Brokers will be required to sign a participation agreement detailing whom they represent and the requirements and obligations of all parties. A home sales guide will be developed by the district for each project and furnished to each participating broker to be used as a reference in implementing the resale program.

(2) Open Listings. Properties sold through an open listing program will be available to all brokers approved for participation.

(3) Notification of Listing. A complete listing of all properties available for sale is mailed simultaneously to all participating brokers on a nonexclusive listing basis as the properties are acquired. All brokers have an equal opportunity to inspect, show, and submit offers to purchase. The district will notify all participating brokers of the dates the properties will be advertised, dates for accepting bids, the bid opening dates and locations of bid openings.

(4) Advertising. The Corps will solicit bids by actively and publicly advertising all available properties to ensure the broadest practicable coverage via newsprint, posting

ER 405-1-12  
Change 34  
15 May 2000

of notices in public places and/or other media the district deems appropriate. Participating brokers may advertise HAP properties at their expense without cost to the government. Any broker advertising in newspapers or elsewhere shall not use wording that would tend to indicate distressed sales or foreclosed loans. The phrase "Equal Housing Opportunity" must be inserted in every advertisement of HAP properties for sale. If a property fails to generate an acceptable bid or offer, during the specified bidding period, it may remain on the market for an extended listing period. The length and conditions of the extended listing period will be as determined appropriate by the district for accomplishing the HAP resale mission.

7-39. Management and Resale by Private Contractor. This paragraph sets forth responsibilities, procedures, methods and guidance for the contracting of management and resale services for acquired HAP properties. Districts may use this paragraph to develop a management and resale program to provide for contracting for part or all of the required services to accomplish the HAP mission.

a. Property Management by Contract.

(1) Policy. The Corps of Engineers may contract for the management of all acquired HAP properties. The terms Property Manager (PM) and Management Broker (MB), as used herein, are synonymous. Instructions in this chapter regarding either the PM or MB apply equally.

(2) Determination of Need and Area. The district office must recognize situations which dictate the need for contracting management/broker services and comply with the Federal Acquisition Regulations (FAR) and this chapter in obtaining these services.

(3) Training of Management Brokers. Within 30 days of contract award, the MB must be trained and/or provided instructions on at least the following:

- (a) Contract services the MB is to perform or obtain.
- (b) Preparation and submission of all required forms.
- (c) Policies and methods of disposition.
- (d) Procurement of supplies, materials, repairs, and services.
- (e) Policies and requirements of repair programs.
- (f) Determination of property values.

ER 405-1-12  
Change 34  
15 May 2000

- (g) Determination of property condition.
- (h) Accounting procedures and requirements.
- (i) Causes for contract termination.

(4) Property Manager's Responsibilities. The property manager will be required to perform services which include managing one-/or two-family homes (including condominiums) and all improvements located on the property assigned by the district, including maintenance, repairs, and reporting. Management objective is to maintain the acquired properties, keeping them clean and ready for sale in the local real estate market.

(5) Supervision and Monitoring of MBs. The overriding responsibility of the district is to supervise and monitor the activities of the MB. To properly fulfill this responsibility and to ensure that the government is receiving proper return for its management contract expenditure, the following must be performed on a continual basis:

(a) Review Documents Submitted by the MBs. Determine that each form required of the MB is submitted on a timely basis, contains essential and accurate information, and that recommended prices and methods of sale are reasonable and in keeping with current policy.

(b) Inspection of Properties. Conduct field inspections, as warranted, of properties assigned to the contractor. It is recommended that a minimum of ten percent of the properties receive these inspections. Increase inspection, up to 100 percent, if necessary, where it is found that the contractor's performance is deficient.

(c) Review of MB.

- Quarterly. The MB's office records and procedures must be reviewed on a quarterly basis. Each review must include individual property files, and fiscal documentation and records. Based on performance, the review may include adequacy of staff, supplies, facilities, inventory controls, status records, follow-up systems, comparable data, and general office conditions. Problem areas/deficiencies are discussed with the MB and a follow-up on previous deficiencies is conducted.

- Annually. The district is to perform an in-depth evaluation of each MB annually.

- As Warranted. As the district is directly responsible for ensuring proper and

ER 405-1-12  
Change 34  
15 May 2000

adequate MB performance, the district must visit and work with the MB when inadequate or deteriorating performance is noted. It is extremely important that each such visit be documented.

- Review Monthly Accounting Reports:

- Determine that broker's figures agree with totals of collections and disbursements.
- Check cash reconciliation for accuracy and correctness.
- Verify correctness of voucher.
- Forward payment request within four days.

- Document Unsatisfactory Performance.

- Document inadequate performance, including incorrect or incomplete forms. Place documentation in the District's MB's file.
- Compare MB's performance to other MB's working for the district at other locations.
- Discuss deficiencies personally with MB. District file should contain documentation of any instruction, guidance or monitoring provided each MB.
- Provide written documentation to MB regarding unsatisfactory performance items and corrective measures to be taken by the MB. Retain copy for MB's file.
- Follow-up on previously noted deficiencies.
- Provide additional training as necessary.

- Termination of MB Contract. When the MB, after reasonable time and assistance, fails to correct unsatisfactory performance, it will be necessary to terminate the contract. It is vital to any termination effort that the documentation highlighted above is maintained and that it reflects the efforts put forth to achieve a turnaround of the MB's performance. Documentation should reflect that the MB received proper notice by personal discussion and by letter detailing performance deficiencies and prescribing a schedule for correction. Unacceptable performance must be reflected in inspection

ER 405-1-12  
Change 34  
15 May 2000

reports, letters to the MB, documentation of discussions, and work sheets measuring performance. It is the responsibility of the district to bring to the attention of the contracting officer those instances of continued or repeated non-compliance by the MB and to recommend actions to be taken, including termination where deemed appropriate. The decision to terminate will be made in accordance with the terms of the contract. Appropriate use will be made of administrative sanctions in the property disposition program in strict accord with 24 CFR Part 24. Areas of concern for irregularities include any procurement contract for goods and services between the government and MBs, repair contractors, selling brokers and purchasers.

b. Management and/or Resale by Contractor.

(1) A district office may invite firms experienced in property sales and management to compete for contracts that provide for an exclusive right to manage and/or list specified properties in a given area. This procedure is in lieu of management and resale by the Corps of Engineers as it will provide for administration of property management and resale by contract. In determining whether to enter into an exclusive contract, the district office will consider its staff resources, local market conditions, and location of properties.

(2) The contractor will provide a variety of management and/or resale services to assist the government in managing the properties prior to sale. The duties of the contractor may include: selling the properties, advertising the properties in a manner approved by the government, showing the properties to prospective purchasers, helping purchasers prepare and submit purchase offers and qualify for mortgages, explaining to purchasers the steps required to close the sale, providing the district office with a report on the reasons the properties have not sold after a reasonable period on the market, submitting bids/offers to the government on behalf of prospective purchasers for acceptance or rejection, coordinating closings, and managing rental properties. A competitive process is required as in other resale methods to offer the general public the right to make offers in a fair and equitable manner.

(3) In areas where a broker has an exclusive right to list properties, a purchaser may use a broker of his or her choice. At the District's option the purchaser's broker must submit the bid/offer to the government directly or through the exclusive broker.

7-40. Other Sale Procedures.

a. Razing for Lot Sales. The government will raze property and sell the vacant lot if required by local ordinance or agreement, or if it is determined to be in the best interest of the government. As an alternative, the government may sell the property with

ER 405-1-12  
Change 34  
15 May 2000

a requirement that the purchaser raze the property after the sale. Specific requirements for demolition of improvements will be included in the sales contract in such cases. Properties may be razed for sale of the vacant lots if one or more of the following conditions exist:

- (1) The property has already been unsuccessfully offered for sale in its “as is” condition.
- (2) A local ordinance or agreement prohibits “as is” sales of such properties.
- (3) The property must immediately be razed to remove a health or safety hazard.
- (4) Damage beyond repair or the cost of repairs exceeds the value.
- (5) It is determined by the district to be in the best interest of the government to raze the property for a sale of the property.

b. Bulk Sales. The government may occasionally make groups of properties available for bulk sales in “as is” condition. Bulk sales of properties may be limited to governmental entities and private nonprofit organizations for a specific purpose. The terms and conditions for a particular bulk sale will be described fully in any public notice of the sale.

(1) General Features. Designed to boost sales in weak markets, the all cash, “as is”, bulk sales program features:

- (a) The option to publish or not to publish the listing price.
- (b) The requirement for purchasers to provide their own financing.
- (c) Offers may be submitted directly to the district.

(2) Property Selection. Eligible properties include “as is” properties and vacant lots. Generally, properties should be marketed individually prior to being offered in bulk. However, this is not always practical. A bulk offering containing properties that have proven to be hard-to-sell could logically include new acquisitions which are comparable with regard to location and physical characteristics, but which have not been offered individually. This rationale may reasonably be extended to broader areas; e.g., to specific neighborhoods. In addition, better properties may be included in a bulk package of predominantly less attractive properties, if doing so would enhance the properties overall marketability.

ER 405-1-12  
Change 34  
15 May 2000

c. Auctions. Districts may sell properties at public auction in lieu of other resale methods. In determining whether to hold an auction, consideration should be given to: the type and number of properties to be sold; property value; location; anticipated public interests; and administrative costs. Terms and conditions of the auction sales will be announced in the public notices of the sales. Auction sales may be accomplished by a contractor licensed in accordance with laws and regulation in the state and local community in which the property is located, or by qualified Corps of Engineers employees. Procedures for holding public auctions by Corps personnel will be in the spirit of fair competition and within applicable guidelines for the open bidding process. Auctions by contractors will be governed by the following:

(1) General. A professional auctioneer may be contracted by the government to hold an auction for resale of HAP properties. If the auctioneer is a licensed broker in the jurisdiction of the properties to be sold, he/she may function in that capacity. If the auctioneer is not a licensed broker, he/she must enter into an agreement with a licensed broker who will act in the auctioneer's behalf to show properties prior to the date of the auction and perform such other functions only a licensed broker may perform. To the extent that other selling brokers are used, it is the responsibility of the auctioneer to compensate them.

(2) Contract with Auctioneer. All services performed by the auctioneer must be set forth in a contract.

(3) Soliciting Auctioneers. Auctioneers must be solicited in accordance with the FAR.

(4) Bid Basis. If bid basis is percentage of sales, inform all prospective auctioneers the approximate total value of the offering. Where competitive negotiation is permitted, the fee should not exceed eight percent of the total received. It must be clear in the solicitation whether the auctioneer must pay advertising costs out of his commission or whether the government will provide an allowance for that and other expenses.

(5) Broker Compensation. The sales commission will be paid under the provisions of the contract. If the auctioneer permits the participation of other brokers, it is his/her responsibility to establish the terms for this participation and to compensate the brokers.

(6) Advertisement. Auctioneers may arrange for, procure and/or place all forms of advertising, subject to government approval. Advertisements should have all essential

ER 405-1-12  
Change 34  
15 May 2000

information, such as, how the property may be shown, time, date and location of auction, list of properties, earnest money requirements, a statement as to whether properties are being offered individually or in bulk, the terms and conditions of sale and essential rules of the auction, a statement that the property must be viewed through a local broker, and a statement that the government reserves the right to reject any offer unless the auction is absolute.

(7) Costs. All costs, including advertising and fees for auction personnel should be included in the price ultimately arrived at in the contract. However, the district office may elect to extract the advertising costs, providing a separate allowance for it. A cost or price analysis will be made prior to execution of the contract along with a determination that the contract price is reasonable.

(8) Competition at Auctions. The contract must provide that the auctioneer cannot use unduly restrictive procedures or standards that tend to limit competition at the auctions. The auctioneer, as part of the contract agreement, must sign a nondiscrimination certification.

## SECTION X. APPEALS

7-41. Appeals Policy. Section 1013(f) of the Act provides that the provisions of the Act will be administered in conformity with the requirements contained therein and under such conditions and regulations as the Secretary of Defense may prescribe, and that all determinations and decisions made pursuant to such regulations shall be final and conclusive and will not be subject to judicial review. The Administrative Procedure Act does not apply.

7-42. Authority. The Secretary of Defense delegated to the Secretary of Army the authority to establish an appeals procedure, with responsibility for final action assigned to a designated component of the Department of the Army. Accordingly, the appeal procedure in this section has been established. Authority to take final action on appeals has been vested in the DASA(I&H).

7-43. Notification to Applicant.

a. Notification of Decision. Each applicant will be notified of the decision made on his/her application and the reasons for such action.

b. Information to Be Included. The letter to the applicant providing notice of the decision should contain the following minimum information:

ER 405-1-12  
Change 34  
15 May 2000

(1) References to the appropriate sections of the Act and the regulation under which the decision has been reached and the rationale for the decision.

(2) Notification of the applicant's right to question the district's decision, to then object to the decision, to have the MSC review the district's decision, and then file an appeal of the MSC decision. Applicants must be advised that an objection must be written and state the basis for the objection. Applicants should further be informed that if the issue is one of value they may submit a professional appraisal paid for by the applicant.

7-44. Objection Procedure.

(a) A written question regarding the applicant's case will not be considered an appeal. The district will reply to the applicant and explain the government's decision and the basis for that. [Note the restriction on appraisals in 7-22b above.] This reply will explain that the Applicant has a right to object to the district's decision and have it reviewed by the MSC or accept the district's decision. A second appraisal will not be obtained unless an objection is received, forwarded to the MSC and the MSC decides to request a second appraisal.

(b) The applicant may request that the MSC review the district's decision. The MSC will review the objection with supporting documentation and reply to the applicant. The reply will explain that the applicant may file an appeal from the MSC's decision(s) regarding (1) benefits payable and/or (2) eligibility. Applicants should be advised that an appeal will be considered by the district commander, the MSC commander, and ODCSRE. If favorable action cannot be taken by one of those, the appeal will be submitted to the DASA(I&H) for final decision.

7-45. Appeal Process.

(a) An appeal must be submitted in writing to the district within 180 days from the date of notice of the MSC's decision. The appeal must state the decision the applicant is objecting to and the basis for the objection with supporting documentation. The applicant may be represented by an attorney or other person if applicant so chooses.

(b) The district will review the applicant's appeal, and prepare an appeals package with recommendation to be submitted to the MSC.

(c) Appeals will be considered at the district level, and will be reviewed at MSC level. A determination will be made at each level as to whether or not favorable action can be taken. An appeal which has been forwarded to a higher level of review may not

ER 405-1-12  
Change 34  
15 May 2000

be settled at a lower level without the concurrence of the highest level to which the appeal has been transmitted.

(d) If favorable action cannot be taken, the appeal will be forwarded by ODACSRE to the DASA(I&H) for further review and for final decision.

7-46. Appeals Procedure.

a. Investigation. Any decision objected to by the applicant will be investigated by the district.

(1) The investigation will be as extensive as necessary to clearly define the basis for the objection/appeal and to produce information required for its consideration.

(2) Upon completion of the investigation, the information submitted with the application will be reconsidered, together with the information obtained as a result of the investigation, and a determination will be made as to whether favorable action can be taken.

(3) For appeals, a signed report of the investigation and consideration will be prepared which will include the following tabbed headings:

(a) Applicant's Claim: A brief outline of the basis of the application for assistance, the initial decision by the district, the applicant's objection, and the MSC's decision from which the applicant has appealed, and the basis for the applicant's appeal. Copies of the benefit sheet and settlement sheet should be included, if applicable.

(b) Issue: A brief statement of the matter to be resolved;

(c) Findings and Decision: The scope of the investigation and consideration of the appeal; pertinent information necessary to determine the merits of the appeal; an Attorney's Opinion for eligibility appeals, the decision on the appeal;

(d) Besides review and certification of the appraisals for the appeal, an analysis of the applicant's appraisal issues should be included in the review; and

(e) Recommendations.

(4) Applicants will be notified by the district when an appeal has been forwarded to higher authority for review.

ER 405-1-12  
Change 34  
15 May 2000

b. Forwarding of Appeals. If favorable action on an appeal cannot be taken by the district, a tabbed appeal assembly will be prepared in sufficient copies to provide one copy for the next higher level of review and two copies (including original papers where available) for submission to ODCSRE. A copy of the appeal containing the original papers will be returned to the district after a decision on the appeal has been reached. The appeal assembly will have a jacket cover of heavy paper backing with a suitable fastener at the top. It will consist of the following items, assembled in the order shown below, with such variations or additions as circumstances require:

- (1) Investigation and consideration report;
- (2) Written appeal and amendments;
- (3) Application with attachments;
- (4) Appraisal reports, if appropriate;
- (5) Settlement sheet for appraisal issues;
- (6) Pertinent correspondence in chronological order;
- (7) the District's Attorney's Opinion; and
- (8) Any other documents or information which have a significant bearing on applicant's claim for assistance.

7-47. Review of Appeal by MSC. This review is to ensure the following:

- a. Compliance. The initial decision is in accord with the facts, the provisions of the Act, and existing regulations;
- b. Notification. The applicant was properly notified as to the reason that favorable action could not be taken on his/her application; that he/she has filed an appeal from this decision and has submitted all of the information he/she intends to submit in support thereof;
- c. Decision. The district engineer's decision on the appeal is supported by the record; and
- d. Necessary Information. The appeal assembly contains the necessary information in support of the decision and has been assembled as stated in this section.

ER 405-1-12  
Change 34  
15 May 2000

7-48. Action on Appeal by the MSC. Action by the MSC will be taken as expeditiously as possible. If the MSC concurs with the recommendation, additional comments and recommendations together with the reasons, and supporting documents if appropriate, will be forwarded to ODCSRE. If the MSC does not concur with the district engineer's recommendation, the matter will be returned to the district engineer for further consideration or with a directed solution. If the appeal is forwarded to ODCSRE for further review, the MSC will notify the District.

7-49. Action on Appeal by ODCSRE. ODCSRE may either:

- (a) return the appeal for further consideration or with a directed solution or
- (b) forward the package, and a proposed letter to the applicant denying the appeal, to the DASA(I&H) with the recommendation that it be signed and sent to the applicant.

7-50. Action by the DASA(I&H). Final decision on an appeal will be made by the DASA(I&H) based on recommendation from ODCSRE. In the event the recommendation is not approved, the appeal will be returned to ODCSRE for further consideration. If the recommendations are approved, the letter to the applicant will be signed by the DASA(I&H) and sent to the applicant.

7-51. Final Action by ODCSRE. If the DASA(I&H) has not approved ODCSRE recommendations on the appeal, the matter will be reconsidered and, if possible, objections will be resolved at ODCSRE level. Otherwise, the appeal will be returned to the MSC with appropriate instructions for further action. If the DASA(I&H) has approved the recommendations, copies of the letter to the appellant and the memorandum opinion, including a copy of the appeal assembly with original papers, will be sent to the MSC and the case will be closed.

7-52. Dissemination of Decisions. Copies of HAP appeal decisions by the DASA(I&H) are not disseminated by ODCSRE Corps-wide. A digest of decisions may be made available to any district. The district may refer to such decisions but may not disclose them to applicants.

## SECTION XI. INCOME TAX

7-53. Tax Consequences. HAP benefits are considered to be payments attributable to employment and are, therefore, taxable as gross income. All HAP benefits are taxable including benefit options in which payments are made to a third party on the beneficiary's behalf. No taxes will be withheld the calendar year following death of an

ER 405-1-12  
Change 34  
15 May 2000

applicant.

7-54. FICA Withholding - Applicability and Exemptions. HAP benefits are subject to Federal Insurance Contribution Act (FICA) withholding. The amount of withholding, if any, is determined by the applicant's employment status when they became eligible to receive benefits. FICA is not withheld from members of the armed forces since they pay taxes only on their basic pay. Civilian employees who belong to the Civil Service Retirement System are subject only to Medicare withholding, and are not subject to the OASDI portion of FICA taxes. Civilian employees who belong to the Federal Employee Retirement System are subject to withholding for both the OASDI and Medicare elements of FICA. If a member of the armed forces is eligible for HAP benefits because of active duty status, no FICA is withheld even if the benefit is received after the member retires. Any outstanding employee contributions for FICA must be paid prior to the time of closing of a government purchase or prior to a benefit payment on a foreclosure. This may be done by withholding reimbursable funds or direct payment by the employee prior to closing or prior to foreclosure payment. FICA withheld should not exceed the maximum annual limit.

7-55. Disclosure. Applicants should be informed that there are tax consequences of HAP benefits. Districts are responsible for providing complete disclosure to applicants on the taxability of HAP benefits, commencing with town hall meetings and continuing throughout the processing of applications or appeals.

7-56. Calculation of Taxable Benefit.

a. Private Sales. For private sales, the taxable benefit is the amount actually disbursed to the applicant.

b. Foreclosures and VA Compromises. For foreclosures, the taxable benefit is the amount actually disbursed, whether to the applicant or to third parties, to discharge the applicant's foreclosure related liabilities.

c. Mortgage Assumptions. Mortgage assumptions are taxed in the same manner as government acquisitions.

d. Acquisitions. The difference between the purchase price and the current fair market value is taxable as income to the applicant at the appropriate tax rate. Reimbursements for taxes, interest, and insurance premiums paid by the applicant, as well as closing costs paid by the government, are also taxed as income to the applicant at the appropriate tax rate. If the current fair market value is more than the purchase price, this will not be considered a negative benefit and only the reimbursements paid the

ER 405-1-12  
Change 34  
15 May 2000

applicant will be taxed.

e. **Taxable Liability.** For mortgage assumptions and government acquisitions, the applicant should be notified of the taxable liability for the transaction.

7-57. **Payment of Tax Obligation.** Federal income tax and FICA (when applicable) will be withheld or collected in the following manner:

a. **Withholding from Benefit Payment.** Taxes due must be deducted from any benefit payment made to the applicant. When the payment to the applicant is insufficient to meet the overall tax and FICA liability, the amount of the FICA will be withheld first from the payment. The applicant must pay the entire FICA portion of the taxes due prior to closing or paying off enforceable liabilities.

b. **Reporting of Taxable Benefit.** The amount of the taxable benefit will be reported to the IRS and to the applicant.

7-58. **Reporting.** HAP entitlement received directly or indirectly by the applicant will be included in gross income on a W-2, Wage and Tax Statement. The total value of benefits will be shown in boxes 10 and 16 of the W-2. A separate W-2 reflecting only HAP benefits may be provided in lieu of including HAP benefits on the beneficiary's regular W-2. A Form 1099-S must be provided to the applicant and the IRS.

## SECTION XII. FILES AND REPORTS

7-59. **Policy.** District offices will use a standard filing procedure that can be easily audited. The procedure must facilitate up-to-date records for district office actions based on thorough documentation, retrieval of specific information in the event of a dispute or complaint, or review by MSC and Headquarters' staff. All HAP personnel must be knowledgeable of the filing system.

7-60. **Manual Property Records and Files.**

a. **Individual Property File.** Correspondence, forms and related material must be filed in chronological order. A strict sign-out control system must be maintained for property case files.

b. **File Maintenance.** Active files must be maintained by property address, name, or by application number. Once completed the acquisition and Management & Resale files will be merged and filed by application number.

ER 405-1-12  
Change 34  
15 May 2000

c. File Disposition. Files will be maintained with the Modern Army Record Keeping System (MARKS). The MARKS number for HAP is 405.

d. Files on Contractors. Contract files will contain the contracts, amendments, payments and related correspondence.

## ADDENDUM 2

### MARKET IMPACT STUDY (SAMPLE)

1. **PURPOSE:** A description of the announced closure/reduction; the date of the announcement or study; the recommended "public announcement date"; the effective date of the closure/reduction; and the installation functions affected.
2. **INSPECTION:** The date of neighborhood inspections and source of information; e.g., realtors, appraisers, Chamber of Commerce, local government planning agencies, and installation personnel.
3. **SCOPE OF STUDY:** A description of the types and locations of properties included in the study with an attached area map.
4. **DESCRIPTION OF AREA:** An overall discussion of the environmental, economic and location factors of the area, including cities and communities affected by the announcement. Economic factors such as plant closings and other adverse economic impacts must be addressed.
5. **REDUCTION OR REALIGNMENT:**
  - a. The total number of installation personnel, and the number of personnel affected by the reduction segregated by officers, enlisted personnel, and civilian personnel;
  - b. The estimated number of homeowners affected by the reduction;
  - c. A discussion of the future of the installation population and housing, including new assignments which may offset the reduction;
  - d. Installation payroll, before and after the reduction, along with the effect on the services provided by or to the community.
6. **OVERALL ECONOMIC CONDITIONS:** Use the economic data to measure the effect, both actual and potential, of the closure on the labor force, population, and payroll of the communities around the base. This section describes the adverse conditions which have impacted the area prior to and as a result of the installation closure or reduction. Interest rates, available mortgage funds, and their effect on the market should be discussed.

ER 405-1-12  
Change 34  
15 May 2000

7. REAL ESTATE MARKET CONDITIONS: See paragraph 7-8f of ER 405-1-12 for the criteria that must be included.

a. Discuss the appraisals provided with the report and their significance. (See paragraph 7-21 for instructions on appraisals.) Normally the appraisals of individual houses should be obtained by contract with a local certified appraiser, who is a member of the local multiple listing service and one who has considerable experience appraising local residential properties.

b. Discuss local real estate listings, sales, average prices and whether they are increasing or declining, average days on the market, and building permits issued during the last four years. Include charts tracking these changes, where appropriate.

c. Include a discussion of the effect of the closure/reduction on the rental market. Indicate whether foreclosures are increasing or declining, efforts by agencies to avoid defaults, and efforts to market foreclosure houses.

d. Comments from brokers and/or applicants.

8. CONCLUSIONS: A summary of the data supporting your recommendation.

NOTE: Confidentiality: Market impact studies prepared as pre-decision documentation for potential HAP implementation must be treated as privileged information, and should not be routinely released to the press or the public until the HAP decision is made. Release of HAP information is sensitive and should be coordinated with the Public Affairs Staff.

### ADDENDUM 3

#### PRIVACY ACT INFORMATION FOR HOMEOWNERS ASSISTANCE PROGRAM APPLICANTS

The Homeowners Assistance program was authorized by Section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966, Public Law 89-754 (80 Stat. 1255, 1290), as amended. The Corps of Engineers administers the Homeowners Assistance Program. Individuals seeking benefits under the Act must file an application form (DD Form 1607) and, in addition, may be requested to furnish supplemental information to support their applications. The information requested will be used to identify the number of homeowners affected by the announced closure/realignment, and to determine the impact on the market, eligibility, and entitlement to specific program benefits. The application and supporting information will be retained for three years, except in appeal cases where the record is considered permanent. Information disclosed by applicants will be treated on a confidential basis and will not be disclosed except to personnel in the Department of Defense who have a need for the information. Sale of the property to the government and the amount thereof is also reported to the Internal Revenue Service (IRS). Deeds of conveyance to the government, which may contain data on mortgages assumed, and other documents relating to sufficiency of title, are furnished to the Department of Justice for review. Information contained in the application form and supporting documents is furnished voluntarily; however, if all required information is not furnished, eligibility for benefits may be affected and benefits

ER 405-1-12  
Change 34  
15 May 2000

may be denied. Benefits under this program are considered "wages" for tax purposes.

The Social Security Number on the application is for identification purposes and is used to report to IRS the sale of the property to the government and to report withholding for Federal income tax, FICA and Medicare purposes. Its non-disclosure may or may not affect payment of benefits.

Date:

#### ADDENDUM 4

##### INFORMATION TO APPRAISERS REGARDING THE HOMEOWNERS ASSISTANCE PROGRAM

1. The Homeowners Assistance Program (HAP) is authorized by an Act of Congress which provides that federal employee homeowners may be entitled to reimbursement for some of the real estate losses they incur when their job is transferred or terminated and they have to relocate due to an installation being closed or realigned.
2. If the homeowner is unable to sell his/her home, the government will acquire it. However, this is not an acquisition in the usual sense as there is no Federal requirement for the houses and the acquisition is solely for the benefit of the homeowners. There is no condemnation in this program, nor is there any judicial review of the determinations made.
3. In this program, fair market value appraisals of houses, one to two-family residences and condominiums will be needed to determine benefits to be paid to the applicant or to a third party on his/her behalf. For instance, where an applicant has sold his/her home, we take an amount equal to 95 percent of the FMV prior to the public announcement date that the installation is being closed, subtract the FMV at the time of the sale from the 95 percent figure, and pay the difference to the applicant. Where an applicant is unable to sell the house himself/herself, he/she may sell the house to the government for the amount of the outstanding mortgages or for 75 percent of the FMV prior to the public announcement date.
4. Although the government purchases the house at 75 percent of the prior FMV or the amount of the outstanding mortgages, we must also know the after value of the house for determining the applicant's tax liability.
5. The appraiser will invite the owner or his/her representative to accompany him in the detailed inspection of the property and give careful attention to all information and comments given by the owner. During owner contact, no commitments will be made as to valuation estimates.
6. Each appraisal report will contain, as a minimum, the following:
  - a. A completed residential appraisal report, FNMA Form 1004.
  - b. A floor plan sketch of each subject property.

ER 405-1-12  
Change 34  
15 May 2000

c. Photographs of each subject property; front view, rear view, and street scene. Photographs of other major improvements and significant deferred maintenance or damage; front view of each comparable sale used.

d. For condominiums or two family residences, the appraisal will use FNMA Form 1073 or FNMA Form 1025, as appropriate.

e. For the prior FMV, include a brief discussion of the value in relation to original acquisition costs.

f. For after value appraisals, include a brief discussion of value in relation to the subject property's sale price or the foreclosure sales prices.

g. The contributory value of all improvements added by the owner/applicant will be considered and included in both the prior and after value appraisals. Capital improvements existing at the time of the property inspection must be utilized in both the prior and after value appraisals even if they did not exist at the time of the prior value appraisal or public announcement date. Any improvements made by a subsequent purchaser/owner, after a private sale or foreclosure, must be omitted in each the prior and after appraisal.

h. A general sales map showing the location of the subject and each comparable will be included in each report.

i. Other items as appropriate, particularly a narrative discussion of any item or factor that cannot be adequately covered or explained in a form report.

7. Each report shall be typed and submitted with an original and the number of copies needed depending on the dollar amount of the appraisal.

8. Delivery of the appraisals by a contractor should take no more than 21 days and the contract shall provide for liquidated damages for each day of delay, except when the delay arises from causes beyond the control or without fault or negligence on the part of the contractor.

ER 405-1-12  
Change 34  
15 May 2000

## ADDENDUM 5

### SCREENING FOR ENVIRONMENTAL HAZARDS IN DWELLINGS ACQUIRED

1. Required Screening/Inspections. Two screening inspections must be performed after acquisition of a dwelling:

a. Lead-Based Paint (LBP) screening required by the Lead-Based Paint Poisoning Prevention Act, 42 U.S.C. 4821 et seq.;

b. Asbestos screening.

2. Methods of Performance. The method of performance of the screenings, i.e. whether performed by Crops personnel or by contractor, is at the district's discretion. If warranted by the volume of the program, the district may choose to have a contractor perform both screenings. However, LBP screening and asbestos screening should not be contracted for separately as LBP screening requires no special training or expertise and can be performed by any individual performing the asbestos screening.

3. Format of Reports. No particular form is required for reporting the results of LBP or asbestos screening.

4. Lead-Based paint Screening. The most recent law pertaining to the abatement of LBP in housing units is Public Law 102-550, Title X; commonly known as the Residential Lead-Based Paint Hazard Reduction Act of 1992. This Act broadly regulates LBP in housing units. Additionally, the Department of housing and Urban Development has not yet promulgated the requisite guidance and regulations called for by the Act.

a. Until the provisions of the 1992 Act take effect, the sale of Army-controlled houses which contain LBP will continue to be governed by the 1978 Lead-Based Paint Poisoning Prevention Act, Public Law 91-965.

b. The current Army policy for the elimination of LBP hazards in properties covered by BRAC actions is based substantially on the 1978 Act. Although directed at BRAC properties, it is prudent to apply the same policies to HAP acquired houses even though HAP properties are not acquired for an Army mission, but only for the convenience of the HAP applicants.

c. Accordingly, the Army has committed itself to ensure properties sold for residential habitation are free of immediate LBP hazards. A visual inspection of all

ER 405-1-12  
Change 34  
15 May 2000

applicable surfaces in houses constructed prior to 1978 is required. All surfaces where the paint is cracking, scaling, chipping peeling, or loose, are termed a “defective paint surface”, are assumed to be immediate LBP hazards and must be covered or removed.

d. Covering may be accomplished by such means as adding a layer of wallboard to the wall surface. Paint removal may be accomplished by such methods as scraping, heat treatment (infra-red or coil type heat guns), chemicals, or replacement of the painted building component. Machine sanding, dry hand sanding, and use of propane or gasoline torches are not permitted. Washing and repainting without thorough removal or covering is not considered adequate treatment.

e. If no immediate LBP hazard exists, a prospective purchaser must be notified prior to the purchase (1) that the property was constructed prior to 1978 and that it may contain LBP; (2) of the hazards of LBP; (3) of the symptoms and treatment of LBP poisoning; (4) of the precautions to be taken to avoid LBP poisoning; and (5) of all results of inspection, assessment, or testing for LBP and LBP hazards.

5. Asbestos Screening. Asbestos screening will initially be accomplished by a determination of whether or not friable asbestos is suspected. If there is no crumbling or pulverized insulation, tiles, roofing, shingles or other construction materials which may contain asbestos, it may be assumed no friable asbestos is present. If, however, there is reason to suspect friable asbestos is present, an inspection will be performed by a qualified inspector, either Corps or contractor, proficient in asbestos detection and DA/DOD asbestos policy.

4. Definitions.

a. Encroachment, as used in this memorandum, is the term applied to all unauthorized uses whether they are trespasses or any other violation stemming from illegal or unauthorized entry on and/or use of Government-owned fee or easement land where use or implied possession by individual(s) or other entities violates the rights held by Government in the land.

(1) Minor Encroachment. This refers to violations which do not create visual damage or destruction and removal would not result in damages to the Government. Something that can usually be resolved at the local level with one or two contacts.

(2) Major Encroachment refers to a higher degree of the violation of the rights held by the Government. It also refers to the complexity and extent of land modification, damages or destruction, possession and occupation of Government-owned lands. Usually will require formal contact and District coordination.

b. District or District Elements refers to any subunit of the Omaha District, Corps of Engineers within the entire District area.

5. Policy. The general policy is to protect the resource base of the project and the integrity of project lands by preventing new encroachments and by resolving existing ones by fair and consistent use of all available remedies. Remedial actions shall be legal and reasonable, yet will be directed toward alleviating encroachment situations which affect the project environment or interfere with the enjoyment, health, safety, or welfare of project visitors. Since encroachment prevention is more desirable than remedial measures, every effort must be made to prevent encroachments from developing and the following actions will be accomplished as soon as possible:

a. Insure that all project boundaries are surveyed and monumented to the extent necessary to clearly delineate those boundary lines. Survey and monumenting of operating Lake Project area boundaries must be given high priority, especially in those areas where adjacent landowners are developing home and/or recreation sites; or are engaged in agricultural row-crop or stock feeding endeavors which are difficult to control without fencing.

b. Identify and report those areas where boundary markers cannot be located or have been destroyed. Requests for re-establishment of boundary markers should be made to Engineering Division, Surveys and Mapping Section immediately upon discovery of the removal, destruction, or damage to boundary markers.

DM 405-2-1  
1 Oct 80

c. Intensify training on the rules, regulations, and policies concerning encroachments to appropriate personnel directly involved with project management activities both in the Omaha District office and in the field offices.

d. Each project shall establish a plan and program to notify adjacent landowners and make them aware of their responsibilities in regard to fee title and flowage easement lands. The plan or program should emphasize the flowage easement projects held by the Government in each project area.

e. Construction Policy in Flowage Easements. Where easements prohibit human habitation no construction for human habitation will be allowed. The general rule is that use of fill in flowage easements violates Government rights, however, in unique situations proposals for filling in flowage easements may be submitted to the District Engineer for review. All other proposed appurtenances or structures within a flowage easement should be submitted to the District Engineer for review and approval prior to construction. Plans for improvements or appurtenances by third parties shall be submitted to the District Engineer for review. If approved, Real Estate Division will grant formal consent before construction begins.

6. Encroachment Identification.

a. Project Personnel. All lake project personnel shall familiarize themselves with project boundaries, flowage easements, elevations, contour lines, in order to prevent the various types of encroachments which can occur within each project. Both Real Estate Field Office and Project Office personnel shall make a concerted effort to identify encroachments on each project. These efforts shall be fully coordinated.

b. District Personnel. All Real Estate personnel who visit project lands in the course of compliance and utilization inspections, or for other purposes, shall actively search for encroachments during such visits or inspections. Real Estate personnel shall coordinate their trip with the Lake Project Manager and take along sufficient reference data to identify the Government property lines of the lands scheduled for inspection. When possible, a project employee shall accompany the Real Estate personnel on such inspections. Any encroachment discovered will be discussed with the Lake Project Manager to determine if that individual is aware of it and what action has been taken or is proposed. All other District personnel who in the course of their normal duties, visit, inspect, or are regularly employed on civil works projects shall also be responsible for identifying and reporting encroachments to Lake Project personnel.

DM 405-2-1  
1 Oct 80

7. Encroachment Reporting.

a. All encroachments, immediately upon discovery, will be reported to the Lake Project Manager. Most encroachments are citable violations under Title 36, however, some violations are also subject to prosecution under other statutes. Such offenses are a matter of law enforcement concern and should be reported, through the appropriate offices, to the District Office of Counsel and/or Federal law enforcement officials. In cases of major encroachments, the Lake Project Manager shall coordinate with the Real Estate Field Office at least informally, prior to taking any action to resolve the encroachment. Other than minor encroachments which are resolved on-site, the course of action selected by the Lake Project Manager to resolve an encroachment must be coordinated with the appropriate element of the District Office so as not to eliminate alternatives or assume the authorities of other staff elements. Major encroachments shall be reported on MRD Form 0877, Encroachment Detection and Action Record, and forwarded to the Chief, Operations Division, or to Chief of Real Estate Division with copies furnished to other District elements as necessary. Minor encroachments should be recorded on MRD Form 0877 and retained in Project Office files. The flow chart (Appendix A) should be utilized as a guide for reporting, resolving and staffing procedures.

b. The Lake Project office shall keep a record of all steps taken to resolve an encroachment problem including records of telephone calls, letter correspondence and personal conversations with the violator, and all communications with other District elements for use with the Recreation Resource Management System (RRMS) annual report, the annual Real Estate Utilization Survey, and for future reference as necessary.

c. When an encroachment is discovered, it should be analyzed in accordance with the following criteria to determine what course of action will be taken in order to resolve the encroachment.

(1) Is it a major or minor encroachment?

(2) Which District element will be involved to the greatest extent in resolving the encroachment?

(3) Does the encroachment involve a violation of either Section 10 or 404 permit programs or a Real Estate outgrant?

(4) Is there a possibility the encroachment may be in conflict with environmental or cultural resources concerns?

(5) Could the encroachment, if continued, develop into more serious or dangerous problems?

DM 405-2-1  
1 Oct 80

8. Encroachment Resolution.

a. Appendix A, the Encroachment Resolution Flow Chart, outlines the District Policy for staffing encroachment actions in order to resolve the problem or violation.

(1) Emphasis is placed on resolving encroachments in the field and notifying both the Project Office and Real Estate Field Office of any actions taken.

(2) If the encroachment cannot be resolved in the field a coordinated recommendation shall be forwarded to Real Estate or Operations Division (with a copy furnished to the other office), for action. In accordance with the Encroachment Action Handbook, an Action and Detection Record (MRD Form 0877) shall be completed and included with the action being forwarded. It is important that all pertinent information, sketches, maps and photos be included so the office acting on the encroachment will be fully informed.

(3) The District will proceed with the encroachment resolution and keep the field elements fully informed of what actions are being taken.

b. It is important to remember that each action is different and may require different solutions, but the solution should be consistent with District policy. The flow chart is only a guide for staffing and resolving an encroachment.

c. In extreme situations the Project office may determine that a Temporary Restraining Order (TRO) from a court is necessary. The Real Estate Division, Assistant District Counsel should be contacted immediately. This should occur when a cease and desist letter or citation does not work and the situation is critical. This only applies in situations when an activity, if continued, will result in irreparable damage to the Government if the TRO is not issued.

9. Summary.

a. Encroachment prevention is the goal of District policy. Encroachment prevention requires full knowledge of the project and its boundary. It is Corps policy to identify and resolve all existing encroachments by 1985 and prevent new encroachments by intensified land use management.

b. It is important to have proper reporting and record keeping of each encroachment because it helps resolve the problem. An encroachment when discovered should be analyzed to determine the steps necessary for its

DM 405-2-1  
1 Oct 80

resolution. Action to solve the problem should begin immediately. The steps necessary to solve the problem may become quite involved, so good notes are important. Remember, minor encroachments may develop into major encroachments.

c. The Encroachment Resolution Flow Chart sets out the suggested procedures for staffing encroachments. The flow chart also demonstrates the various solutions and directions that are involved in resolving an encroachment. The flow chart should be followed as much as possible.

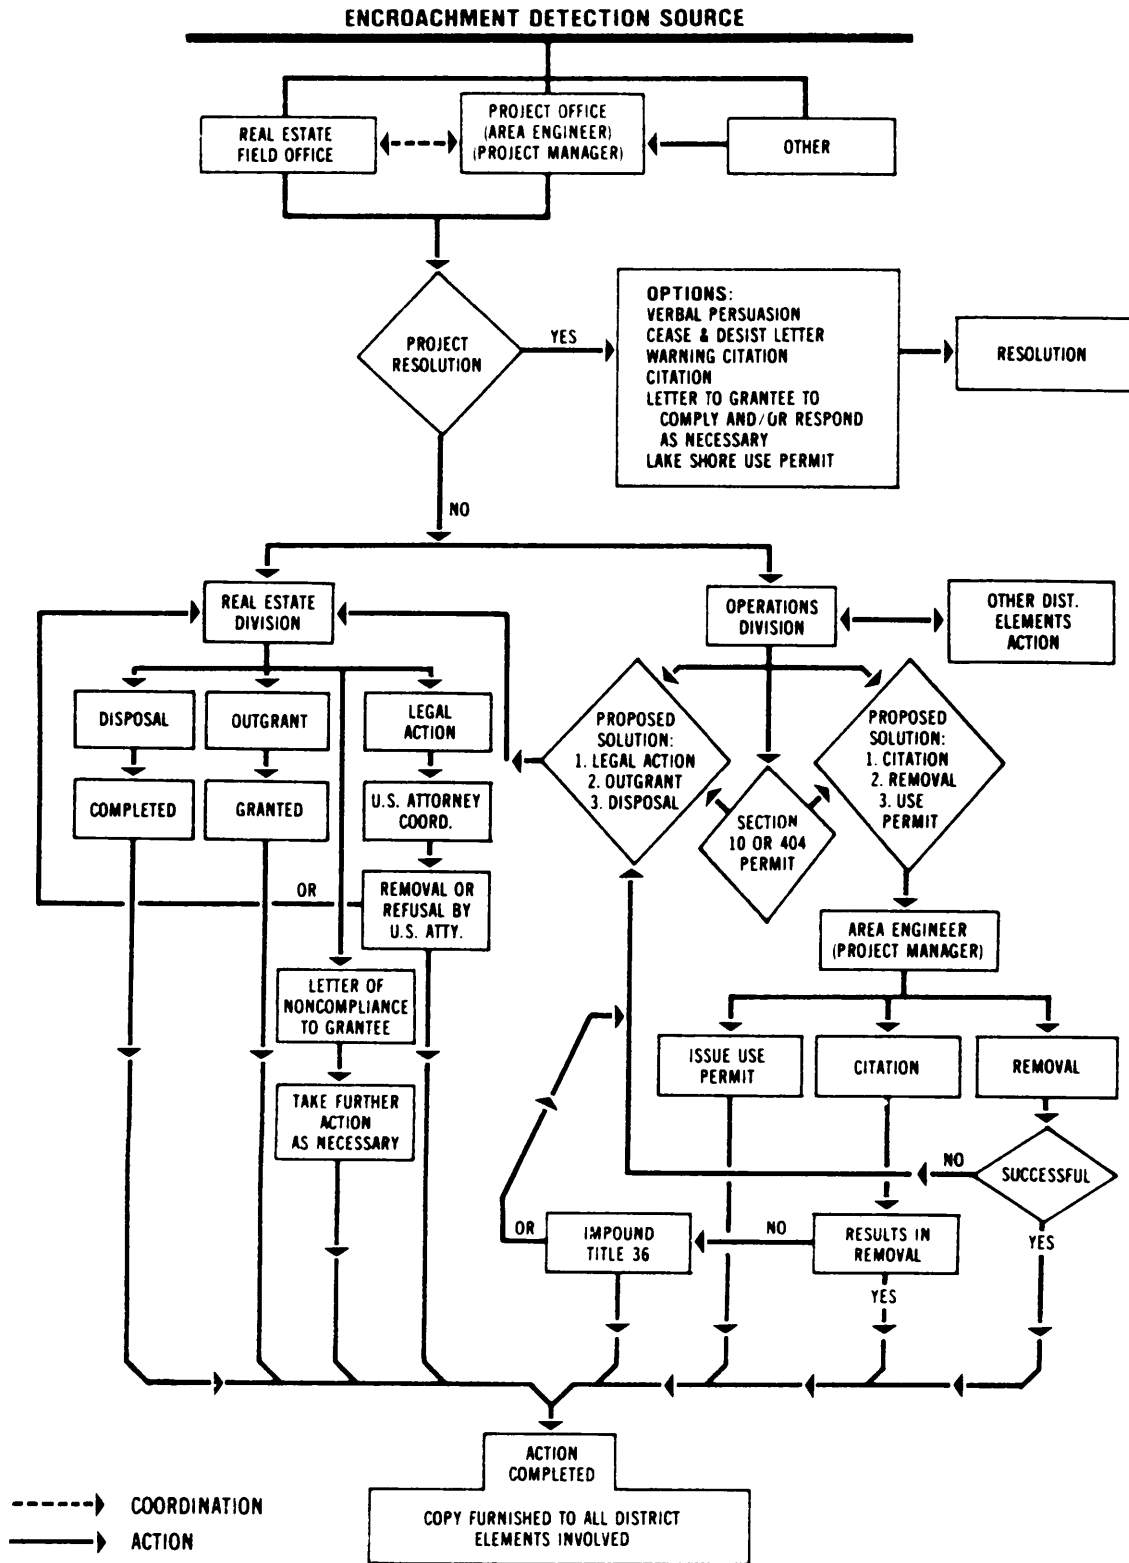

10. Reports. The reporting requirements prescribed in this memorandum are exempted from Management Information Control by paragraph 7-2t, AR 335-15.

REPLY TO  
ATTENTION

**DEPARTMENT OF THE ARMY**  
**CORPS OF ENGINEERS, OMAHA DISTRICT**  
1616 CAPITOL AVENUE  
OMAHA NE 68102-4901

Mr. Kevin Schmidt  
Dakota Access Pipeline, LLC  
Energy Transfer Partners  
1300 Main Street  
Houston, Texas 77002  
kevin.schmidt@energytransfer.com

Dear Mr. Schmidt:

As you know, the U.S. District Court for the District of Columbia vacated the easement (DACW45-2-16-8059), the U.S. Army Corps of Engineers, Omaha District (Corps) granted to Dakota Access, LLC under the Mineral Leasing Act, 30 U.S.C. § 185, for a fuel carrying pipeline right-of-way located "over, across, in and upon lands of the United States at and under Lake Oahe and the Corps' Lake Oahe project" in Morton and Emmons Counties, North Dakota. See *Standing Rock Sioux Tribe v. U.S. Army Corps of Eng'rs*, No. 1:16-cv-01534, Memorandum Opinion (D. D.C. July 6, 2020) (ECF No. 546). The purpose of this letter is to notify you that, based on the court's order, the portion of the pipeline subject to the vacated easement is no longer considered by the Corps as an active easement, and its status has been changed to an encroachment on the Corps-managed federal land at Lake Oahe.

The Corps is currently evaluating this matter under its encroachment policies, AR 405-80 (1997), ER 405-1-12, Chap. 8 (1994) and DM 405-2-1 (1980), including the timing and substance of any enforcement action against the encroachment. For the Corps not to take any immediate enforcement action, we require that Dakota Access LLC agree to several conditions as an interim measure while the Corps' evaluation proceeds. Specifically, Dakota Access, LLC, must expressly agree to abide by the conditions contained in the vacated easement that the Corps issued to Dakota Access, LLC on February 8, 2017, DACW45-2-16-8059. Dakota Access, LLC must also agree to provide any information that the Corps requests to inform its decision concerning the encroachment and the Corps' response thereto.

Please acknowledge Dakota Access, LLC's agreement to these non-exclusive, preliminary conditions in a return letter to the Corps by August 21, 2020. The purpose of this notice is to give sufficient opportunity to the Corps to proceed with its evaluation under its encroachment regulations, and it should not be construed in any way as a final decision that the Corps will ultimately allow the encroachment or consent to any future outgrant or easement. I will serve as the point of contact for this action and can be reached at (402) 995-2832 or rick.l.noel@usace.army.mil.

Respectfully,

*Rick L. Noel*

Rick L. Noel  
Acting Chief, Real Estate Division  
Real Estate Contracting Officer.

August 20, 2020

Mr. Rick Noel  
Acting Chief, Real Estate Division  
United States Army Corps of Engineers, Omaha District  
1616 Capitol Avenue  
Omaha, NE 68102-4901

Dear Mr. Noel:

Dakota Access and Energy Transfer have received your letter of August 17, 2020 relating to the Corps' encroachment policies.

As part of interim measures while the Corps' evaluation proceeds, Dakota Access confirms that it: 1) will continue to comply with the easement conditions; and 2) will provide any information the Corps requests "to inform its decision concerning the encroachment and the Corps' response thereto."

Please let me know if you have any additional questions or requests for information.

Sincerely,

A handwritten signature in black ink that reads 'Keegan Pieper'. The signature is written in a cursive style with a horizontal line at the end.

Keegan Pieper  
Associate General Counsel

**Re: Invitation to Discuss Additional Safety Measures at the Lake Oahe Crossing**

Dear Counsel:

As you know, the District Court's August 10, 2020 order directed the parties to undertake good faith discussions of potential "mitigation measures that could lessen the likelihood and severity of any oil leak in or around Lake Oahe." Minute Order of August 10, 2020, *Standing Rock Sioux Tribe et al. v. U.S. Army Corps of Eng'rs*, Case No. 1:16-cv-01534-JEB (D.D.C.). As this issue was previously raised by your clients, we had assumed we would have received specific proposals further to the Court's order. To date, we have not received any suggestions.

Dakota Access stands by the data showing that DAPL is one of the safest oil pipelines in the world. And the portion of DAPL crossing Lake Oahe is even safer still. At the August 10 status conference, Dakota Access advised the Court that it nonetheless is willing to consider other mitigation measures that Plaintiffs believe would be appropriate. We are therefore reaching out in accordance with the Court's August 10 minute order to see if you have any specific proposed mitigation measures that you believe could further enhance DAPL's safety.

In discussing the potential for adding mitigation measures, it is important to keep in mind the comprehensive safety measures already in place. DAPL was designed and constructed with a highest level of safety measures. To reduce the risk of a spill or incident, DAPL was constructed to meet or exceed all applicable pipeline safety regulations. This is particularly true for the segment crossing Lake Oahe, which includes additional safety layers. For example, even though PHMSA regulations only require a pipeline wall thickness of 0.429 inches, DAPL was constructed with a pipe wall thickness of at least 0.625 inches at water crossings such as Lake Oahe—more than 45 percent thicker pipe than required. Similarly, while PHMSA regulations only require 10 percent of mainline girth welds undergo nondestructive testing (“NDT”), Dakota access performed NDT on *100 percent* of mainline welds. DAPL also underwent extended hydrostatic pressure testing above and beyond applicable requirements. Each valve on the Lake Oahe segment contains built-in, state-of-the-art pressure sensors that can help detect leaks of less than one-percent of flow in under an hour. Moreover, the pipeline was installed deep under the lake bed using horizontal directional drilling (“HDD”) which virtually eliminates the possibility that a spill could reach the water of the Lake. In the highly unlikely event that a spill were to occur, oil would have to rise more than 90 feet through low-permeability alluvium, glacial deposits, and sediments accumulated at the bottom of the Lake—a near impossibility. HDD is so safe that from 2010 to 2018, only a single, 1.7 barrel leak was reported on any crude oil pipeline installed using HDD. We have now operated DAPL for more than three years and have never experienced a leak or safety incident on its mainline. *See* July 13, 2020 Declaration of Alan Mayberry, PHMSA Associate Administrator for Pipeline Safety (“PHMSA has not initiated any enforcement actions against the DAPL;” no “safety-related condition reports on DAPL;” and no “releases occurred on the [DAPL] mainline or met the threshold for immediate reporting.”).

DAPL was also designed to quickly detect and minimize the impact of a spill or incident in the highly unlikely event one were to occur. For example, DAPL’s supervisory control and data acquisition (“SCADA”) system monitors the valves and other data for anomalies every six seconds. Backup power ensures that the SCADA system can continue to monitor the crossing even if main power is lost. And the valves are equipped with actuators and controls that allow the valves to be closed remotely, thereby isolating pipeline segments as needed.

Finally, at the August 10 status conference, Judge Boasberg mentioned two specific potential mitigation measures: (1) the installation of backup power that would permit remote actuation of the valves at Lake Oahe if main power were lost, and (2) the deployment of underwater hydrocarbon detection sensors at the crossing.

Re: Standing Rock Sioux Tribe, et al. v. U.S. Army Corps of Engineers / Dakota Access LLC

Dear Counsel:

On behalf of the Standing Rock Sioux Tribe, the Cheyenne River Sioux Tribe, the Oglala Sioux Tribe, and the Yankton Sioux Tribe (collectively “Tribes”), this letter responds to the Court’s order to negotiate interim measures to reduce the risk of harm from pipeline operations. It also responds to the letter dated August 20 from counsel for Dakota Access Pipeline, LLC. That letter primarily sought to reinforce DAPL’s litigation position that the pipeline is already sufficiently safe without additional mitigation measures. Since we have contested those claims for years, we will not engage further in that discussion.

After further assessment following the Court’s order, the Tribes’ position is that the only way to ensure the safety of the pipeline is to shut it down pending a full environmental review. That has not changed. The Tribes expect the Corps to fulfill its trust duty to the Tribes, and its statutory obligations under NEPA and the Mineral Leasing Act, to order the pipeline shut down and emptied pending completion of the court-ordered EIS. Any discussion of, or agreement to, supplementary mitigation measures should not be interpreted to mean that the Tribes have waived their positions in this regard.

The Standing Rock Sioux Tribe’s technical team has advised that in order to have any meaningful discussion about additional safety measures, they need access to additional technical

August 28, 2020

Page 2

information. They have made multiple efforts to obtain information that they believe is necessary to evaluate the safety of the pipeline, either by agreement (*see, e.g.*, ECF 336-6) or court order (*see, e.g.*, ECF 336), without much success. Accordingly, we seek the information listed in Appendix A to this letter prior to any discussion of additional mitigation measures.

As you will see, some of the information we seek relates to DAPL's proposal to double the capacity of the pipeline. It is our understanding that DAPL continues to pursue this proposal, making it highly relevant to the question before the Court.

Finally, we believe that it would be productive for the Corps to take a convening role to bring together technical experts from the Tribe and DAPL, to discuss these matters once the information is provided. We look forward to scheduling that meeting once the requested information has been made available.

Sincerely,

/s/ Jan E. Hasselman

APPENDIX A: REQUESTED TECHNICAL INFORMATION

1. The environmental inspection report dated March 15, 2017 referenced on page 2 of the *Independent Assessment of Dakota Access Pipeline U.S. Army Corps of Engineers Easement Special Conditions*.
2. Dakota Access LLC, Dakota Access Pipeline, *North Dakota Spill Model Discussion Lake Oahe Crossing*, Wood Group Mustang, Document No.: DAPL-WGM-GN000-PPL-STY-0019, Issued for Use 5-3-16.
3. Dakota Access Pipeline, *Facility Response Plan, Dakota Access Pipeline North Response Zone*, April 2017. The version we have of this document is redacted. We require the unredacted version.
4. Energy Transfer corporate-wide leak detection data, metrics and performance goals that are required to be developed under API RP 1175, *Pipeline Leak Detection Program Management* (2015).
5. Energy Transfer's policies and procedures for the implementation of API RP 1173 *Pipeline Safety Management System Requirements* (2015).
6. Energy Transfer's DAPL-specific Integrity Management Plan as required by API RP 1160, *Managing System Integrity for Hazardous Liquid Pipelines*, and PHMSA regulations.
7. Energy Transfer's DAPL-specific Operations and Maintenance Manual as required by PHMSA regulations.
8. The detailed Management of Change documentation for the proposed DAPL capacity increase from 550,000 bpd to 1.1 million bpd pursuant to the requirements of API RP 1173 and API RP 1160.
9. Updated documentation including the updated surge analysis, worst case discharge (WCD), and *North Response Zone Facility Response Plan* (FRP) produced as a result of the proposed DAPL capacity increase.
10. The results of any functional testing of the leak detection system (draw test), the emergency isolation valves (full stroke test), and the surge prevention and protection systems. If no testing has been done, we seek to discuss working together to develop such tests.

VIA CERTIFIED MAIL & FACSIMILE

Col. Mark R. Himes  
Commander and District Engineer, Omaha District  
U.S. Army Corps of Engineers  
1616 Capitol Ave., Ste. 9000  
Omaha, NE 68102  
Fax: (402) 779-2421

Re: Imperative to Shut Down Dakota Access Pipeline

Dear Col. Himes:

I write this letter on behalf of the *Ihanktonwan Oyate*, the Yankton Sioux Tribe, to call on you to fulfill your duties as a federal official and a Commander of the U.S. Army Corps of Engineers Omaha District to protect the Tribe's interests, particularly its treaty resources, and to protect the water of the Missouri River. Pursuant to these duties, it is your imperative to direct Dakota Access, LLP to empty the Dakota Access Pipeline of oil and to cease operation of the Pipeline indefinitely in accordance with the March 25, 2020 order of the United States District Court for the District of Columbia in *Standing Rock Sioux Tribe, et al. v. U.S. Army Corps of Engineers, et al.*, Case No. 1:16-cv-01534-JEB, granting in part the Tribal Plaintiffs' motions for summary judgment, and the July 6, 2020 order vacating the easement that authorized the Dakota Access Pipeline to cross the Missouri River at Lake Oahe.

The Corps has a federal trust responsibility to protect the Tribe and its interests, particularly its treaty rights. As the Tribe has asserted in state regulatory proceedings and throughout the development of the flawed environmental assessment for the Pipeline, and as it has adamantly maintained throughout the course of this litigation, the Dakota Access Pipeline poses extreme and severe risks to the Tribe's treaty rights within its 1851 Fort Laramie Treaty Territory, including within the vicinity of the Lake Oahe crossing. Tribal members continue to exercise their treaty rights and spiritual practices in this area to this day. An oil spill at Lake Oahe would devastate the Tribe and its members who rely on clean water from the Missouri River – water reserved to them by treaty - for subsistence and ceremonial purposes.

Letter to Col. Mark R. Himes  
Re: Imperative to Shut Down Dakota Access Pipeline  
August 20, 2020  
Page 2 of 2

Furthermore, the Corps has a statutory duty to protect the waters of Lake Oahe and the Missouri River. As a U.S. Army Corps of Engineers (“Corps”) Colonel, you are charged with ensuring that waters of the United States, including the Missouri River, are restored and that the chemical, physical, and biological integrity of such waters are maintained. 40 C.F.R. § 230.1(a), (c). This is the very reason the Corps’ “general policy is to require removal of encroachments . . .” ER 405-1-12 at 8-12. At this point, because, as the District Court has ruled, proper National Environmental Policy Act analysis has not been conducted for the Dakota Access Pipeline, the potential impacts of the pipeline – and particularly, a spill from the pipeline – are not fully known. This unknown degree of risk precludes you from authorizing the pipeline to continue to operate.

To permit oil to continue to flow is to place private profits above your duties as a public, federal official. The District Court has vacated Dakota Access’ easement; Dakota Access has no right to transport oil across Corps property and Lake Oahe. The only action the Corps can take that would be consistent with the Court order, the federal trust responsibility, and the Corps’ duty to safeguard the water of the Missouri River is to prohibit Dakota Access from continuing to transport oil through its trespassing pipeline while the Corps undertakes its obligations pursuant to the Court order and the National Environmental Policy Act. You must, therefore, employ an enforcement action for Dakota Access’ unlawful encroachment that prohibits the continued flow of oil through the pipeline.

Sincerely,

Robert Flying Hawk, Chairman  
Business and Claims Committee
